REPORT.

TREASURY DEPARTMENT,

Washington, D. C., December 3, 1877.

Sir: In obedience to law, I respectfully submit the following report:

The ordinary revenues, from all sources, for the fiscal year ending June 30, 1877, were—

From customs.....	\$130,956,493 07
From internal revenue.....	118,630,407 83
From sales of public lands.....	976,253 68
From tax on circulation and deposits of national banks.....	7,078,550 96
From repayment of interest by Pacific Railway Companies.....	1,661,998 64
From customs' fees, fines, penalties, &c.....	1,044,712 84
From fees—consular, letters-patent, and lands.....	1,727,611 97
From proceeds of sales of Government property....	333,954 96
From premium on sales of coin.....	249,580 78
From profits on coinage, &c.....	3,273,239 08
From miscellaneous sources.....	3,067,782 81
 Total ordinary receipts.....	 <u>269,000,586 62</u>

The ordinary expenditures for the same period were—

For civil expenses.....	15,794,188 34
For foreign intercourse.....	1,229,758 79
For Indians.....	5,277,007 22
For pensions.....	27,963,752 27
For the military establishment, including river and harbor improvements, and arsenals.....	37,082,735 90
For the naval establishment, including vessels, machinery, and improvements at navy yards.....	14,959,935 36
For miscellaneous expenditures, including public buildings, light-houses, and collecting the revenue.	39,228,119 47
For interest on the public debt.....	97,124,511 58
 Total ordinary expenditures.....	 <u>238,660,008 93</u>
 Leaving a surplus revenue of.....	 <u>\$30,340,577 69</u>

Which was applied as follows:

To the redemption of United States notes, &c.	\$10,071,617 00
To the redemption of fractional currency	14,043,458 05
To the redemption of six per cent. bonds for the sinking-fund.	447,500 00
To increase of cash-balance in the Treasury	5,778,002 64
	<hr/>
	30,340,577 69
	<hr/>

The amount due the sinking-fund for the year was \$33,729,833 20, leaving a deficiency on this account of \$3,389,255 51.

Compared with the previous fiscal year, the receipts for 1877 have decreased as follows: In customs revenue, \$17,115,491 54; in proceeds of sales of public lands, \$153,213 27; in sales of coin, \$3,473,965 02; in semi-annual tax on banks, \$250,022 33; in prize-money, \$321,370 92; in sales of public property, \$1,288,212 73; and in miscellaneous items, \$934,512 81. There was an increase in the following items: In internal revenue, \$1,929,675 80; in profits on coinage, \$1,532,121 27; and in miscellaneous items, \$1,593,539 01—making a net decrease in the receipts from all sources, for the year, of \$18,481,452 54.

The expenditures show a decrease as follows: In the War Department, \$988,152 74; in the Navy Department, \$4,003,374 46; in the Interior Department, \$983,194 37; in civil and miscellaneous, \$10,706,307 18; and in the interest on the public debt, \$3,118,759 65—due to the funding of six per cent. bonds in new fives and four-and-a-half per cent. bonds—making a total reduction in all of the Departments of \$19,799,788 40.

The large apparent reduction in the expenses of the Navy Department, however, is not real; for, by reason of insufficient appropriations to pay the current liabilities of that Department, Congress has, by deficiency bill, during the recent session, appropriated the sum of \$2,003,861 27, which is properly chargeable to the expenditures of the last year; but, including such deficiency, the reduction in receipts has been nearly met by the reduction of expenditures.

It will also be noticed that more than one-half of this reduction has been made in the civil and miscellaneous expenditures, and is in part due to the reduction of the salaries and office-expenses of the civil officers and employés of the Government.

FISCAL YEAR 1878.

For the present fiscal year the revenues, actual and estimated, will be as follows:

Receipts.	For the quarter ending September 30, 1877.	For the remaining three quarters of the year.
	Actual.	Estimated.
From customs.....	\$36,983,531 56	\$92,516,468 44
From internal revenue	28,393,382 58	89,606,617 42
From sales of public lands.....	218,791 19	781,208 81
From tax on circulation and deposits of national banks	3,449,936 84	3,550,063 16
From repayments of interest by Pacific Railway Companies	236,162 18	863,837 82
From customs' fees, fines, penalties, &c.....	295,340 32	704,659 68
From fees—consular, letters-patent, and lands.....	441,604 35	1,308,395 65
From proceeds of sales of Government property.....	65,588 36	284,411 64
From premium on sales of coin	130,432 67	369,567 33
From profits on coinage, &c	427,777 10	1,272,222 90
From miscellaneous sources.....	895,022 67	2,704,977 33
Total receipts	71,537,569 82	193,962,430 18

The expenditures for the same period, actual and estimated, will be:

Expenditures.	For the quarter ending September 30, 1877.	For the remaining three quarters of the year.
	Actual.	Estimated.
For civil and miscellaneous expenses, including public buildings, light-houses, and collecting the revenue.....	\$15,221,376 05	\$36,198,623 95
For Indians	1,658,572 96	3,191,427 04
For pensions	7,416,783 59	21,083,216 41
For military establishment, including fortifications, and river and harbor improvements and arsenals	2,072,037 48	35,927,962 52
For naval establishment, including vessels and machinery, and improvements at navy yards.....	3,895,545 51	12,604,454 49
For interest on the public debt.....	40,466,589 96	52,694,053 76
Total ordinary expenditures	70,730,905 55	161,699,738 17

From the actual receipts for the first quarter of the fiscal year and the estimates for the remaining three quarters, based upon existing laws, the total revenues for the current year will amount to \$265,500,000, and the expenditures to \$232,430,643 72, which will leave a surplus revenue of \$33,069,356 28; and as the amount required for the sinking fund is \$35,424,804 80, there will be a deficit on this account of \$2,355,448 52.

FISCAL YEAR 1879.

The revenues for the fiscal year ending June 30, 1879, estimated upon existing laws, will be:

From customs.....	\$133,000,000 00
From internal revenue.....	120,000,000 00
From sales of public lands.....	1,000,000 00
From tax on circulation and deposits of national banks.....	7,100,000 00
From repayment of interest by Pacific Railway Companies.....	1,100,000 00
From customs' fees, fines, penalties, &c.....	1,000,000 00
From fees—consular, letters-patent, and lands.....	1,750,000 00
From proceeds of sales of Government property.....	500,000 00
From premium on sales of coin.....	50,000 00
From profits on coinage, &c.....	1,000,000 00
From miscellaneous sources.....	2,750,000 00
Total ordinary receipts.....	<u>269,250,000 00</u>

The estimates of expenditures, for the same period, received from the several Executive Departments, are as follows:

Legislative.....	\$2,843,256 16
Executive.....	13,288,462 25
Judicial.....	391,900 00
Foreign intercourse.....	1,214,397 50
Military establishment.....	31,597,270 68
Naval establishment.....	16,233,234 40
Indian affairs.....	5,415,891 20
Pensions.....	28,000,000 00
Public works:	
Treasury Department.....	5,076,675 90
War Department.....	7,953,077 76
Navy Department.....	2,314,231 00
Interior Department.....	526,244 00
Department of Agriculture.....	15,750 00
Postal service.....	8,093,672 72
Miscellaneous.....	15,143,585 22
Permanent annual appropriations:	
Interest on the public debt.....	92,680,802 51
Sinking fund.....	37,196,045 04
Refunding acts—customs, internal-revenue, lands, &c.....	5,043,000 00
Collecting revenue from customs.....	6,500,000 00
Miscellaneous.....	1,161,300 04
Total estimated expenditures.....	<u>280,688,796 38</u>

It will appear that if Congress shall make appropriations based upon the foregoing estimates, including \$37,196,045 04 for the sinking-fund,

there will be a deficiency at the close of the year of \$11,438,796 38. The following estimates are in excess of the expenditures, for the same purposes, for the last fiscal year:

Judicial	\$8,654 39
Military establishment	4,030,790 21
Naval establishment	2,246,783 61
Indian affairs	138,883 98
Pensions	36,247 73
Public works:	
War Department	2,941,417 53
Navy Department	1,526,228 65
Interior Department	221,744 00
Department of Agriculture	8,910 00
Postal service	2,059,112 28

Assuming that Congress will not increase the aggregate national taxation at a time when all industries are oppressed by the weight of local taxation, the Secretary recommends that the aggregate appropriations for the fiscal year ending June 30, 1879, exclusive of interest and sinking-fund, should not exceed \$140,000,000. This will require the appropriations to be reduced at least \$11,000,000 below the estimates submitted above—a reduction that, in the opinion of the Secretary, can be made without crippling any branch of the public service.

Reduction in public expenditures cannot be secured merely by a reduction of appropriations. It must be accompanied by a careful revision of the laws which fix the salary and number of employes; by a reduction of the amount expended on public works now in progress; by postponement of all new works not indispensable for the public service; and by judicious scrutiny of disbursements.

The rapid appreciation of our current money to the coin standard should be accompanied by diminished expenses in the public service. The revenue from duties on imports having largely diminished, the expenses of its collection should be reduced. Old claims should be closely scrutinized; and any increase in any branch of public expenditure should be arrested.

The Secretary will not undertake, in this report, to revise the estimates of the different Departments—many items of which are submitted without recommendation—but urges that the appropriations based upon them, including the amount estimated for the sinking-fund, should not, in any event, exceed in the aggregate the estimated revenues of the Government.

SINKING-FUND.

In the last annual report, (page x,) my predecessor stated that, had the resources of the Treasury during each fiscal year, commencing with

1862, been sufficient to make a literal compliance with the conditions of the sinking-fund law practicable, a total of \$433,848,215 37 would have been applied to that fund July 1, 1876, whereas the actual reduction of the debt, including accrued interest, less cash in the Treasury at that date, amounted to \$658,992,226 44. On the same basis the amount in the sinking-fund would have reached \$475,318,888 78 on the 1st of July, 1877, on which date the reduction of the debt, including accrued interest, less cash in the Treasury, since its highest point in 1865, amounted to \$696,273,348 17, or \$220,954,459 39 in excess of the amount required by law to be provided for that fund.

FUNDING, ETC.

The contract of August 24, 1876, made by the Secretary of the Treasury with certain parties, for the negotiation of \$300,000,000 four and one-half per cent. bonds, had so far been executed on the 1st of March, 1877, that \$90,000,000 had been sold to the associated contractors, and calls had been made for the redemption of a like amount of five-twenty bonds.

While the contract expired in terms on the 30th day of June, 1877, it contained a stipulation that it might be terminated by the Secretary of the Treasury, upon ten days' notice, after the 4th of March, 1877.

In May last it became apparent to the Secretary that, by a favorable change in the money market, four per cent. bonds could be sold at par in coin, with great advantage to the Government; and, availing himself of the privilege secured by the contract, he gave notice that he would limit the sale of four and one-half per cent. bonds to \$200,000,000.

On the 11th day of May it was agreed that a portion of the latter should be sold under the authority of the resumption act for resumption purposes, and subscriptions were rapidly made until the aggregate reached \$200,000,000, of which \$185,000,000 were applied to the redemption of an equal amount of six per cent. bonds.

On the 9th day of June, 1877, the Secretary entered into a contract with a portion of the previously-associated parties for the sale at par, in coin, of the four per cent. bonds of the United States, authorized to be issued by the refunding act. This contract was, in substance, similar to previous contracts, but was to terminate on the 30th day of June, 1878, with the right reserved to the United States to terminate it at any time after the 31st of December, 1877, by giving ten days notice thereof to the contracting parties. This contract also contained a stipulation, as follows:

"It is also agreed that the parties of the second part shall offer to

the people of the United States at par and accrued interest in coin, the four per cent. registered consols and four per cent. coupon consols of the denominations of \$50 and \$100 embraced in this contract, for a period of thirty days from the public notice of such subscriptions, and in such cities and upon such notice as the Secretary of the Treasury may prescribe prior to the opening of the lists; and further, to offer to the subscribers the option of paying in instalments extending through three months."

Under this contract, invitations having been published, subscriptions to this loan were opened on the 16th of June, 1877. Within the period of thirty days thereafter the subscriptions had reached the sum of \$75,496,550, which were payable within ninety days from the date of subscription, or on or before the 16th of October. Every subscription to these bonds has been paid, and of the proceeds \$50,000,000 have been applied to the redemption of an equal amount of six per cent. bonds. The residue has been applied to resumption purposes, as hereafter stated. The annual reduction of interest on the public debt thus made is as follows:

By the sale of \$185,000,000 four and one-half per cent. bonds.....	\$2, 775, 000
By the sale of \$50,000,000 four per cent. bonds.....	1, 000, 000
Aggregating.....	<u>3, 775, 000</u>

In October last, after the payment of the popular subscriptions, arrangements were perfected to open further subscriptions to the four per cent. loan, and a call was about to issue for ten millions of six per cent. bonds, but it was temporarily postponed by reason of the agitation of the repeal of the resumption act and the remonetization of silver, which the associates believed would prevent further sales of these bonds. For this reason they declined to offer them, and no further call of six per cent. bonds was therefore made.

On the 19th of June, pending the subscriptions, the Secretary informed the associates, in an official letter, that, as the Government exacts in payment for these bonds their face value in gold coin, it was not anticipated that any future legislation of Congress, or any action of any Department of the Government, would sanction or tolerate the redemption of the principal of these bonds, or the payment of the interest thereon, in coin of less value than the coin authorized by law at the time of their issue—being gold coin. The general confidence of the public that so just a principle of good faith would be observed by the Government, no doubt, largely contributed to the success of the loan. Whatever policy the Government may adopt, at any time, in its

system of coinage, it should not reduce the value of the coin in which it pays its obligations below that it demanded and received. The Secretary earnestly urges Congress to give its sanction to this assurance.

The high credit of the United States, the faithful observance of its public obligations, the abundance of its wealth and resources, the rapid reduction of its debt, the great accumulation of savings among the people, the favorable state of foreign trade—all contribute to enable the United States to borrow both from its own people and in foreign markets on the most favorable terms.

The Secretary does not doubt that, if no questions had arisen disturbing the public credit, the six per cent. bonds would be rapidly paid off by the proceeds of the four per cent. bonds, sold at par in coin or its equivalent.

The highest public credit can be secured only by a constant observance of every public engagement, construed according to its letter and spirit. Thus far this course has been faithfully pursued by the United States. Without it, our ample resources and ability to pay are of no avail. At a time when we are enjoying such credit, and rapidly securing the benefit of it by the reduction of the rate of interest from six to four per cent., it would seem to be a grievous error to raise a question about the coin in which the interest is payable. Self-interest alone, without respect to pride in public credit, would lead us to secure so great a benefit as would be the saving of one-third of the interest of the public debt.

Of the six per cent. loans about \$660,000,000 are now redeemable at the pleasure of the United States, and of the whole debt \$1,452,000,000 are redeemable before, or on the 1st of May, 1881. By the reduction of the interest, from six to four per cent., on the public debt now redeemable, there would be a saving of \$13,200,000 annually, and by the reduction to four per cent. of the interest on the total debt, redeemable by the 1st of May, 1881, there would be a saving of \$22,006,205 50 per annum.

Any measure that creates distrust or doubt will arrest this process, and, by disabling the United States from borrowing, will compel the continued payment of the high rate of six per cent.

If, therefore, the public interests demand the issue of silver dollars—a subject hereafter discussed—it is respectfully submitted to Congress that an express exception be made requiring that gold coin alone shall be paid for principal or interest on bonds issued to public creditors, since February 12, 1873, the amount of which is \$592,990,700. These bonds have entered into the markets of the world. If the market

value of the silver in the new coin is less than the gold dollar, a forced payment in the new coin is a repudiation of a part of this debt. The saving that would thus be made is utterly insignificant compared with the injury done to the public credit.

And even as to bonds issued prior to February 12, 1873, public policy and enlightened self-interest require us to pay them in the coin then in circulation and contemplated by both parties as the medium of payment. Silver dollars have not been in circulation in the United States since 1837, and since 1853 fractional silver coins have been in circulation and a legal tender only for limited sums, and have not been contemplated as the medium of payment since any considerable portion of the outstanding bonds were issued. The silver dollar was, in fact, more valuable than the gold dollar. It does not become a nation like ours to avail itself of the market depreciation of silver to gain a small saving by the payment of silver dollars instead of the coin contemplated when the bonds were issued. A far greater saving and higher public honor can be secured by the sale of four per cent. bonds under the refunding act and the payment of outstanding bonds in gold coin. An assurance given by Congress of such payment would at once secure the complete success of the refunding process and greatly advance the present high credit of the United States.

Another practical impediment in the sale of bonds was, that, under the law, the Secretary could receive coin alone in payment for them, and the only existing coin that could be received, under the law, was gold coin. As this was not in general circulation, it was impracticable for the people to pay it into the Treasury for these bonds. Therefore, it became necessary to conduct all sales through third parties, who could receive bank-bills, United States notes, drafts, certificates, and other forms of commercial paper, and convert them into coin. The Secretary, therefore, recommends that he be authorized to sell such bonds either for coin or for its equivalent in United States notes.

RESUMPTION OF SPECIE PAYMENTS.

By the resumption act approved January 14, 1875, the Secretary of the Treasury is required to redeem legal-tender notes to the amount of eighty per centum of the sum of national-bank notes issued, and to continue such redemption, as circulating notes are issued, until there shall be outstanding the sum of \$300,000,000 of such legal-tender United States notes, and no more.

In obedience to this act, there have been issued, since March 1, 1877, to national banks, \$16,123,995 of circulating notes, and there have

been redeemed, retired, and cancelled, \$12,899,196 of United States notes, leaving outstanding, on the 1st instant, the sum of \$351,340,288.

By the same act it is provided that, on and after the first day of January, 1879, the Secretary of the Treasury shall redeem, in coin, the United States legal-tender notes then outstanding, on their presentation for redemption at the office of the assistant treasurer of the United States, in the city of New York, in sums of not less than fifty dollars. "And, to enable the Secretary of the Treasury to prepare and provide for the redemption in this act authorized or required, he is authorized to use any surplus revenues, from time to time, in the Treasury not otherwise appropriated, and to issue, sell, and dispose of, at not less than par, in coin, either of the descriptions of bonds of the United States described in the act of Congress, approved July 14, 1870, entitled 'An act to authorize the refunding of the national debt,' with like qualities, privileges, and exemptions, to the extent necessary to carry this act into full effect, and to use the proceeds thereof for the purposes aforesaid."

In obedience to this provision, the Secretary has sold at par, for coin, \$15,000,000 four and one-half per cent. bonds, or \$5,000,000 during each of the months of May, June, and July last, and has sold \$25,000,000 at par, in coin, of four per cent. bonds, or \$5,000,000 for each of the months of August, September, October, November, and December. Of the coin thus received, \$4,000,000 have been sold for the redemption of United States notes, and the residue is in the Treasury. The surplus revenue has also, under the same authority, been applied to the redemption of the residue of United States notes, not redeemed by the sale of coin as above stated, and the balance is held in the Treasury in preparation for resumption.

These operations, aided greatly, no doubt, by the favorable condition of our foreign commerce, have advanced the market value of United States notes to $97\frac{3}{4}$ per cent., or within nearly two and a half per cent. of coin. They have also conclusively demonstrated the practicability of restoring United States notes to par, in coin, by the time fixed by law, and that without disturbing either domestic or foreign trade or commerce. Every step has been accompanied with growing business, with the advance of public credit, and the steady appreciation of United States notes. The export of bullion has been arrested, and our domestic supply has accumulated in the Treasury. The exportation of other domestic products has been largely increased, with great advantage to all industries. The course adopted under the resumption act, as herein set forth, if pursued, will probably be followed with like favorable results, and a sufficient fund for the maintenance of resumption will

doubtless accumulate in the Treasury at or before the date fixed by law. The provision for free banking has aided this process by allaying imaginary fears that would otherwise have been aroused by the withdrawal of United States notes.

The Secretary cannot too strongly urge the firm maintenance of a policy that will make good the promise contained in the United States notes when issued—a promise repeated in the act “to strengthen the public credit,” approved March 18, 1869, and made definite and effective by the resumption act.

Dishonored notes, less valuable than the coin they promise, though justified by the necessity which led to their issue, should be made good as soon as practicable. The public credit is injured by failure to redeem them. Every holder who was compelled by law to receive them has been deprived of a part of his just due. Now, when our national resources are ample, when the process of appreciation is almost complete, when the wisdom of the existing law has been demonstrated, it is the dictate of good policy and good faith to continue this process of preparation, so that at or before the time fixed by law every United States note will have equal purchasing power with coin. To reverse this policy in the face of assured success will greatly impair the public credit, arrest the process of reducing the interest on the public debt, and cause anew the financial distress our country has recently suffered.

The resumption act contemplates the reduction by the first day of January, 1879, of the amount of United States notes to \$300,000,000, by the cancellation of such notes to the extent of 80 per cent. of the circulation issued to national banks.

The amount of circulation so issued may not be sufficient to accomplish the reduction contemplated; the Secretary, therefore, recommends that authority be given to gradually fund into four per cent. bonds all United States notes in excess of \$300,000,000, the bonds to be issued at par for coin or its market equivalent in United States notes. This will be in harmony with the declared object of existing law, and will open an easy way by which the people may invest their savings in a public security. Or the reduction of United States notes to the maximum of \$300,000,000 may be accomplished if Congress will authorize the coinage of the silver dollar, to be exchanged for United States notes on the demand of the holder, such notes to be retired and cancelled.

Existing laws do not clearly define whether United States notes, when redeemed after January 1, 1879, may be reissued. The first section of the resumption act plainly provides for the permanent substitution of silver

coin for the whole amount of fractional currency outstanding. Section 3 plainly provides for the permanent reduction of United States notes to an amount not exceeding \$300,000,000. No distinct legislative declaration is made in the resumption act that notes redeemed after that limit is reached shall not be reissued; but section 3579 of the Revised Statutes of the United States provides that "when any United States notes are returned to the Treasury they may be reissued, from time to time, as the exigencies of the public interest may require."

The Secretary is of the opinion that, under this section, notes, when redeemed after the 1st of January, 1879, if the amount outstanding is not in excess of \$300,000,000, may be reissued as the exigencies of the public service may require. A note redeemed with coin is in the Treasury and subject to the same law as if received for taxes, or as a bank-note when redeemed by the corporation issuing it. The authority to reissue it does not depend upon the mode in which it is returned to the Treasury. But this construction is controverted, and should be settled by distinct provisions of law. It should not be open to doubt or dispute. The decision of this question by Congress involves not merely the construction of existing law, but the public policy of maintaining in circulation United States notes, either with or without the legal-tender clause. These notes are of great public convenience—they circulate readily; are of universal credit; are a debt of the people without interest; are protected by every possible safeguard against counterfeiting; and, when redeemable in coin at the demand of the holder, form a paper currency as good as has yet been devised. It is conceded that a certain amount can, with the aid of an ample reserve in coin, be always maintained in circulation. Should not the benefit of this circulation inure to the people, rather than to corporations, either State or national? The Government has ample facility for the collection, custody, and care of the coin reserves of the country. It is a safer custodian of such reserves than a multitude of scattered banks can be. The authority to issue circulating-notes by banks is not given to them for their benefit, but for the public convenience, and to enable them to meet the ebb and flow of currency caused by varying crops, productions, and seasons. It is indispensable that a power should exist somewhere to issue and loan credit-money at certain times, and to redeem it at others. This function can be performed better by corporations than by the Government. The Government cannot loan money, deal in bills of exchange, or make advances on property.

The Secretary ventures to express the opinion, that the best currency for the people of the United States would be a carefully-limited

amount of United States notes, promptly redeemable on presentation in coin, and supported by ample reserves of coin, and supplemented by a system of national banks, organized under general laws, free and open to all, with power to issue circulating notes secured by United States bonds deposited with the Government, and redeemable on demand in United States notes or coin. Such a system will secure to the people a safe currency of equal value in all parts of the country, receivable for all dues, and easily convertible into coin. Interest can thus be saved on so much of the public debt as can be conveniently maintained in permanent circulation, leaving to national banks the proper business of such corporations, of providing currency for the varying changes, the ebb and flow of trade.

The legal-tender quality given to United States notes was intended to maintain them in forced circulation, at a time when their depreciation was inevitable. When they are redeemable in coin this quality may either be withdrawn or retained, without affecting their use as currency in ordinary times. But all experience has shown that there are periods when, under any system of paper money, however carefully guarded, it is impracticable to maintain actual coin redemption. Usually contracts will be based upon current paper money, and it is just that, during a sudden panic, or an unreasonable demand for coin, the creditor should not be allowed to demand payment in other than the currency upon which the debt was contracted. To meet this contingency, it would seem to be right to maintain the legal-tender quality of the United States notes. If they are not at par with coin it is the fault of the Government and not of the debtor, or, rather, it is the result of unforeseen stringency not contemplated by the contracting parties.

In establishing a system of paper money designed to be permanent, it must be remembered that heretofore no expedient has been devised, either in this or other countries, that in times of panic or adverse trade, has prevented the drain and exhaustion of coin reserves, however large or carefully guarded. Every such system must provide for a suspension of specie payment. Laws may forbid or ignore such a contingency, but it will come; and when it comes it cannot be resisted, but should be acknowledged and declared, to prevent unnecessary sacrifice and ruin. In our free Government the power to make this declaration will not be willingly intrusted to individuals, but should be determined by events and conditions known to all. It is far better to fix the maximum of legal-tender notes at \$300,000,000, supported by a minimum reserve of \$100,000,000 of coin, only to be used for the redemption of notes not to be reissued until the reserve is restored. A demand for coin to exhaust

such a reserve may not occur, but, if events force it, its existence would be known and could be declared, and would justify a temporary suspension of specie payments. Some such expedient could no doubt be provided by Congress for an exceptional emergency. In other times the general confidence in these notes would maintain them at par in coin, and justify their use as reserves of banks and for the redemption of bank-notes.

NATIONAL BANKS.

In this connection, the Secretary calls the attention of Congress to the report of the Comptroller of the Currency.

The number of national banks in existence on the first day of November last was 2,080. The amount of their circulating-notes retired within the year prior to November 1, 1877, is \$20,681,637. The amount of circulating-notes issued to national banks during the same period is \$16,306,030. The aggregate amount of their circulation outstanding is \$316,775,111. Their loans and discounts amount to \$888,243,290 17.

The general solvency of the national banks, as now organized, and their benefit to the people, have been demonstrated during a period of fourteen years. No one has lost a dollar by receiving their notes. They have been less subject to revulsion and failure than any other corporations or firms. Their organization under a general law containing every safeguard which experience has suggested—the supervision over them by the Comptroller of the Currency, the frequent and unforeseen examinations to which they are subject, the sworn statements required of them of every detail necessary to disclose their condition, the absolute security of their issues—makes this system of banking as safe and efficient as any yet devised. The remaining condition to perfect this system is, that their notes should be readily convertible into coin. While United States notes were irredeemable and depreciated, it was not possible that bank-notes should rise above the par of United States notes. The true test of this system of banking will come when the United States notes are maintained at par with coin; then the banks must redeem their notes in coin or United States notes equal to coin.

The ample statistics given by the Comptroller, and his comparison of the reserves and condition of the national banks with the reserves and condition of other systems of banking in specie-paying times, give assurance that the national banks are able to redeem their circulating-notes in coin at any date fixed upon by the Government. They certainly should not enjoy the franchise of circulating as money their non-interest-bearing notes, unless they are prepared to redeem them.

The present system of redemption of bank-notes at the Treasury of the United States can be continued after United States notes are at par with coin as well as now. If experience should show that additional reserves are necessary they can be required. Then, as now, their notes will be amply secured by the deposit of bonds, and confidence in this security will dispel the fear of failure, which, under former systems, has been the cause of sudden runs or demands on banks for payment of their notes. If the policy of the Government should be to maintain in circulation at par with coin a maximum of three hundred millions of United States notes, and to support them with a reserve of not less than one hundred millions in coin, these notes will be the natural reserves of the banks, and more convenient for that purpose than a deposit of coin in their vaults.

The real danger that in former systems threatened a bank was its liability for deposits. If these were suddenly withdrawn, or greatly diminished, the note-holder was the chief sufferer. The first rumor of weakness about a bank brought a demand from depositors and note-holders alike, but under the national-banking system the note-holder is secure and indifferent whether the bank breaks or not, and the depositor, who is a voluntary creditor of the bank, is not likely to hasten its fall. He is usually paid by a transfer of credits, and in most cases is a debtor as well as a creditor of the bank. Scarcely five per cent. of deposits are paid by currency.

The capital stock of national banks paid in is now \$479,467,771, and the surplus fund and other undivided profits is now \$166,348,799 96. The banks are exceptionally strong in their cash reserves. Their condition is as favorable to maintain redemption in coin as in United States notes, and the Secretary concurs in the opinion of the Comptroller that they ought to be, can be, and will be prepared for redemption of their circulating-notes in coin or in United States notes equal to coin by the time fixed by law, without interfering with their ability or disposition to render their aid, as now, by loans and discounts, in conducting the business and exchanges of the country. The market value of their circulating-note is 97 $\frac{3}{4}$ per cent. The difference is not equal to six months' interest on the bonds deposited for the security of the notes, and not five per cent. of their surplus on hand. It is scarcely to be credited that the payment of this will disturb in any way the even course of their business.

Complaint is made by the banks and bankers of the country of the tax on their deposits, and attention is called to what is said by the Comptroller of the Currency as to the repeal of this tax. While the

necessity exists for collecting the amount of revenue now required, the Secretary is not prepared to recommend such repeal, but whenever a sufficient amount of revenue for the support of the Government can be derived from the other articles now subject to taxation, a reduction of bank taxation will then be advisable.

The cost of the redemption of bank-notes in United States notes at the Treasury, under the present system, does not exceed one-sixth of one per cent. on the amount redeemed, and is refunded to the Government by the banks. The redemption is a great convenience to them and to the public, and should be continued.

The act creating the national banking system recognizes the character of these banks as Government agents or depositaries. They could greatly assist in the process of refunding; they are conveniently distributed so as to be within easy reach of the people of the United States. The Secretary is of the opinion that they can be, under existing law, and ought to be, made the agents of the Government in the sale of bonds, upon conditions that will make it for their interest to promote such sales, and will be safe and advantageous to the Government. Various plans have been submitted to secure their co-operation, and the best will be adopted.

SAVINGS-BANKS.

The attention of Congress is called to the great value to our fellow-citizens of the organization of some plan for the collection, safe-keeping, and profitable employment of small deposits by the people. How far this can be done without trenching upon the proper functions of the State governments is a question of difficulty; yet it is important to secure, if possible, a general system throughout the United States. This can hardly be effected by the organization of a multitude of savings-banks, depending upon the fidelity, integrity, and skill of their officers, but the beneficial object of such banks might be secured by authorizing the deposit of small sums with any postal money-order office in the United States, and the issue of Government certificates, convertible on demand of the holder into four per cent. bonds of the United States of such character, description, and amount as will enable and induce prudent persons to convert their earnings into a public security of stable value. The money thus received could be employed in the redemption of outstanding bonds bearing a higher rate of interest. By some such system it is believed that the great body of our public debt, reduced to its smallest possible burden, could be distributed among our own people. With a slight modification of existing law this beneficial result would

be secured. The deposits now held by savings-banks throughout the country amount to \$843,154,804, deposited by 2,300,000 persons, and mostly by deserving citizens, who thus wisely seek to preserve small savings for future need. No object could more strongly appeal to the considerate judgment of Congress. The heavy losses that have been sustained through savings-banks, whose funds have been improvidently loaned upon insufficient security, have inflicted far greater injury upon the depositors than would a similar loss suffered by persons engaged in banking or commercial pursuits. The Secretary, therefore, recommends that authority be granted to issue certificates for small deposits, convertible into four per cent. bonds now authorized by law, the proceeds to be used solely for the redemption of bonds bearing a higher rate of interest, and now redeemable at par.

COINS AND COINAGE.

The Secretary calls the attention of Congress to the report of the Director of the Mint. The general management of the mints and assay offices, and the amount, accuracy, and perfection of their work, are highly satisfactory. The coinage of gold and silver, their relative value to each other, and their legal-tender qualities, are now the subjects of discussion and legislation in all civilized countries. These questions are especially important to the United States, now in transition from an irredeemable paper currency to a mixed currency, redeemable in coin, and will justify the Secretary in a fuller presentation of these topics than is usual in his annual report.

The resumption act of January 14, 1875, provided for the exchange and substitution of silver coin for fractional currency. To facilitate this exchange, the joint resolution approved July 22, 1876, provided that such coin should be issued to an amount not exceeding \$10,000,000, for an equal amount of legal-tender notes. It also provided that the aggregate amount of such coin and fractional currency outstanding should not exceed, at any time, \$50,000,000. That limit would have been reached sometime since, if the whole amount of fractional currency issued and not redeemed, had been held to be "outstanding." It was well known, however, that a very large amount of fractional currency issued had been destroyed, and could not be presented for redemption, and could hardly be held to be "outstanding." The Treasurer of the United States, the Comptroller of the Currency, and the Director of the Mint concurred in estimating the amount, so lost and destroyed, to be not less than \$8,083,513.

As it was evident that Congress intended to provide an aggregate

issue of \$50,000,000 of such coin and currency in circulation, the Secretary directed the further issue of silver coin equal in amount to the currency estimated to have been lost and destroyed.

It is submitted that the limitation upon the amount of such fractional coin to be issued in exchange for United States notes should be repealed. This coin is readily taken, is in great favor with the people, its issue is profitable to the Government, and experience has shown that there is no difficulty in maintaining it at par with United States notes. The estimated amount of such coin in circulation in the United States in 1860, at par with gold, was \$43,000,000. Great Britain, with a population of 32,000,000, maintains an inferior fractional coin to the amount of \$92,463,500,* at par with gold, and other nations maintain a much larger *per-capita* amount. The true limit of such coin is the demand that may be made for its issue, and if only issued in exchange for United States notes there is no danger of an excess being issued.

By the coinage act of 1873 any person may deposit silver bullion at the mint to be coined into trade-dollars of the weight of 420 grains troy, upon the payment of the cost of coinage. This provision was made at a time when such a dollar was worth in the market \$1 02 $\frac{13}{100}$ in gold, and was designed for the use of trade in China, where silver was the only standard. By the joint resolution of July 22, 1876, passed when the trade-dollar in market value had fallen greatly below one dollar in gold, it was provided that it should not be thereafter a legal tender, and the Secretary of the Treasury was authorized "to limit the coinage thereof to such an amount as he may deem sufficient to meet the export demand for the same." Under these laws the amount of trade-dollars issued, mainly for exportation, was \$30,710,400. In October last it became apparent that there was no further export demand for trade-dollars, but deposits of silver bullion were made, and such dollars were demanded of the mint for circulation in the United States, that the owner might secure the difference between the value of such bullion in the market and United States notes. At the time, the mints were fully occupied by the issue of fractional and other coins on account of the Government. Therefore, under the authority of the law referred to, the Secretary directed that no further issues of trade-dollars should be made until necessary again to meet an export demand. In case another silver dollar is authorized, the Secretary recommends that the trade-dollar be discontinued.

*As estimated by Mr. Freemantle, deputy master of the Royal Mint, December, 1875.

The question of the issue of a silver dollar for circulation as money has been much discussed and carefully examined by a commission organized by Congress, which has recommended the coinage of the old silver dollar. With such legislative provision as will maintain its current value at par with gold, its issue is respectfully recommended. A gold coin of the denomination of one dollar is too small for convenient circulation, while such a coin in silver would be convenient for a multitude of daily transactions, and is in a form to satisfy the natural instinct of hoarding.

Of the metals, silver is of most general use for coinage. It is a part of every system of coinage even in countries where gold is the sole legal standard. It best measures the common wants of life, but, from its weight and bulk, is not a convenient medium in the larger exchanges of commerce. Its production is reasonably steady in amount. The relative market value of silver and gold is far more stable than that of any other two commodities—still, it does vary. It is not in the power of human law to prevent the variation. This inherent difficulty has compelled all nations to adopt one or the other as the sole standard of value, or to authorize an alternative standard of either, or to coin both metals at an arbitrary standard, and to maintain one at par with the other by limiting its amount and legal-tender quality, and receiving or redeeming it at par with the other.

It has been the careful study of statesmen for many years to secure a bi-metallic currency not subject to the changes of market value, and so adjusted that both kinds can be kept in circulation together, not alternating with each other. The growing tendency has been to adopt, for coins, the principle of "redeemability" applied to different forms of paper money. By limiting tokens, silver, and paper money to the amount needed for business, and promptly receiving or redeeming all that may at any time be in excess, all these forms of money can be kept in circulation, in large amounts, at par with gold. In this way, tokens of inferior intrinsic value are readily circulated, but do not depreciate below the paper money into which they are convertible. The fractional silver coin now in circulation, though the silver of which it is composed is of less market value than the paper money, passes readily among all classes of people and answers all the purposes for which it was designed. And so the silver dollar, if restored to our coinage, would greatly add to the convenience of the people. But this coin should be subject to the same rule, as to issue and convertibility, as other forms of money. If the market value of the silver in it were less than that of gold coin of the same denomination, and it were issued

in unlimited quantities, and made a legal tender for all debts, it would demonetize gold and depreciate our paper money.

The importance of gold as the standard of value is conceded by all. Since 1834, it has been practically the sole coin standard of the United States, and since 1815, has been the sole standard of Great Britain. Germany has recently adopted the same standard. France and other Latin nations have suspended the coinage of silver, and, it is supposed, will gradually either adopt the sole standard of gold or provide for the convertibility of silver coin, on the demand of the holder, into gold coin.

In the United States, several experiments have been made with the view of retaining both gold and silver in circulation. The Second Congress undertook to establish the ratio of fifteen of silver to one of gold, with free coinage of both metals. By this ratio gold was undervalued, as one ounce of gold was worth more in the markets of the world than fifteen ounces of silver, and gold, therefore, was exported. To correct this, in 1837 the ratio was fixed at sixteen to one, but sixteen ounces of silver were worth in the market more than one ounce of gold, so that silver was demonetized.

These difficulties in the adjustment of gold and silver coinage were fully considered by Congress prior to the passage of the act approved February 21, 1853. By that act a new, and it was believed a permanent policy, was adopted to secure the simultaneous circulation of both silver and gold coins in the United States. Silver fractional coins were provided for at a ratio of 14.88 in silver to one in gold, and were only issued in exchange for gold coin. The right of private parties to deposit silver bullion for such coinage was repealed, and these coins were issued from bullion purchased by the treasurer of the mint, and only upon the account and for the profit of the United States. The coin was a legal tender only in payment of debts for all sums not exceeding five dollars. Though the silver in this coin was worth in the market 3.13 cents on the dollar less than gold coin, yet its convenience for use as change, its issue by the Government only in exchange for, and its practical convertibility into, gold coin maintained it in circulation at par with gold coin. If the slight error in the ratio of 1792 prevented gold from entering into circulation for forty-five years, and the slight error in 1837 brought gold into circulation and banished silver until 1853, how much more certainly will an error now of nine per cent. cause gold to be exported and silver to become the sole standard of value? Is it worth while to travel again the round of errors, when experience has demonstrated that both metals can only be maintained in circulation together by adhering to the policy of 1853?

The silver dollar was not mentioned in the act of 1853, but from 1792 until 1874 it was worth more in the market than the gold dollar provided for in the act of 1837. It was not a current coin contemplated as being in circulation at the passage of the act of February 12, 1873. The whole amount of such dollars, issued prior to 1853, was \$2,553,000. Subsequent to 1853, and until it was dropped from our coinage in 1873, the total amount issued was \$5,492,838, or an aggregate of \$8,045,838, and this was almost exclusively for exportation.

By the coinage act, approved February 12, 1873, fractional silver coins were authorized, similar in general character to the coins of 1853, but with a slight increase of silver in them, to make them conform exactly to the French coinage, and the old dollar was replaced by the trade-dollar of 420 grains of standard silver.

Much complaint has been made that this was done with the design of depriving the people of the privilege of paying their debts in a cheaper money than gold, but it is manifest that this is an error. No one then did or could foresee the subsequent fall in the market value of silver. The silver dollar was an unknown coin to the people, and was not in circulation even on the Pacific slope, where coin was in common use. The trade-dollar of 420 grains was substituted for the silver dollar of $412\frac{1}{2}$ grains because it was believed that it was better adapted to supersede the Mexican dollar in the Chinese trade, and experiment proved this to be true. Since the trade-dollar was authorized \$30,710,400 have been issued, or nearly four times the entire issue of old silver dollars since the foundation of the Government. Had not the coinage act of 1873 passed, the United States would now be compelled to suspend the free coinage of silver dollars, as the Latin nations did, or to have silver as the sole coin standard of value.

Since February, 1873, great changes have occurred in the market value of silver. Prior to that time the silver in the old dollar was worth more than a gold dollar, while at present it is worth about 92 cents. If by law any holder of silver bullion might deposit it in the mint and demand a full legal-tender dollar for every $412\frac{1}{2}$ grains of standard silver deposited, the result would be inevitable that as soon as the mints could supply the demand the silver dollar would, by a financial law as fixed and invariable as the law of gravitation, become the only standard of value. All forms of paper money would fall to that standard or below it, and gold would be demonetized and quoted at a premium equal to its value in the markets of the world. For a time the run to deposit bullion at the mint would give to silver an artificial value, of which the holders and producers of silver bullion would have

the sole benefit. The utmost capacity of the mints would be employed for years to supply this demand at the cost of and without profit to the people. The silver dollar would take the place of gold as rapidly as coined, and be used in the payment of customs duties, causing an accumulation of such coins in the Treasury. If used in paying the interest on the public debt, the grave questions already presented would arise with public creditors, seriously affecting the public credit.

It is urged that the free coinage of silver in the United States will restore its market value to that of gold. Market value is fixed by the world, and not by the United States alone, and is affected by the whole mass of silver in the world. As the enormous and continuous demand for silver in Asia has not prevented the fall in silver, it is not likely that the limited demand for silver coin in this country, where paper money is now and will be the chief medium of exchange, will cause any considerable advance in its value. This advance, if any, will be secured by the demand for silver bullion for coin to be issued by and for the United States, as well as if it were issued for the benefit of the holder of the bullion. If the financial condition of our country is so greivous that we must at every hazard have a cheaper dollar, in order to lessen the burden of debts already contracted, it is far better, rather than to adopt the single standard of silver, to boldly reduce the number of grains in the gold dollar, or to abandon and retrace all efforts to make United States notes equal to coin. Either expedient will do greater harm to the public at large than any possible benefit to debtors.

The free coinage of silver will also impair the pledge made of the customs duties, by the act of February, 1862, for the payment of the interest of the public debt. The policy thus far adhered to, of collecting these duties in gold coin, has been the chief cause of upholding and advancing the public credit, and making it possible to lessen the burden of interest by the process of re-funding.

In view of these considerations, the Secretary has felt it to be his duty to earnestly urge upon Congress the serious objections to the free coinage of silver on such conditions as will demonetize gold, greatly disturb all the financial operations of the Government, suddenly revolutionize the basis of our currency, throw upon the Government the increased cost of coinage, arrest the re-funding of the public debt, and impair the public credit, with no apparent advantage to the people at large.

The Secretary believes that all the beneficial results hoped for from a liberal issue of silver coin can be secured by issuing this coin, in pursuance of the general policy of the act of 1853, in exchange for United States notes, coined from bullion purchased in the open market

by the United States, and maintaining it by redemption, or otherwise, at par with gold coin. It could be made a legal tender for such sums and on such contracts as would secure to it the most general circulation. It could be easily redeemed in United States notes and gold coin, and only reissued when demanded for public convenience. If the essential quality of redeemability given to United States notes, bank-bills, tokens, fractional coins, and currency maintains them at par, how much easier it would be to maintain the silver dollar, of intrinsic market value, nearly equal to gold, at par with gold coin, by giving to it the like quality of redeemability. To still further secure a fixed relative value of silver and gold, the United States might invite an international convention of commercial nations. Even such a convention, while it might check the fall of silver, could not prevent the operation of that higher law which places the market value of silver above human control. Issued upon the conditions here stated, the Secretary is of opinion that the silver dollar will be a great public advantage, but that if issued without limit, upon the demand of the owners of silver bullion, it will be a great public injury.

EXPORTS AND IMPORTS.

The receipts from customs for the year ended June 30, 1876, were \$148,071,984 61, and at the corresponding date of 1877 they were \$130,956,493 07—a decrease of \$17,115,491 54. The receipts for the first quarter of the last fiscal year were \$37,554,728 53, while, for the corresponding period of this year, they were \$36,983,531 56—a decrease of \$571,196 97.

The embarrassments attendant upon the collection of the revenue at the port of New York—alluded to in the report of my immediate predecessor—growing out of the large number of suits brought to recover alleged excess of duties, have not ceased; but a considerable number of such suits have been pressed to trial, with results in favor of the Government in the majority of cases. Owing to the multiplicity of such suits, a considerable delay necessarily occurs before they can be brought to trial; which delay is adverse to the interests both of the Government and the importers. The recommendation of my predecessor, that a special tribunal be created by law for the trial of customs-revenue cases at the port of New York, is renewed.

In compliance with the fourth section of the act approved August 15, 1876, and since the 4th of March last, commissions have been organized, under direction of the President, to investigate generally the manner in which the customs business has been conducted at many of the principal ports. They were also directed to inquire into the manner

in which appointments in the customs service have been heretofore made, and to suggest such changes in existing laws as would more fully meet the necessities of commerce at the present time, and promote economy in the collection of the customs revenue. The action taken by this Department, in pursuance of the recommendation of these commissions, has worked a marked improvement in the conduct of the customs service.

A copy of the sixth report of the commission, appointed to investigate the New York custom-house, is herewith transmitted, and the changes, recommended in existing laws, are commended to the consideration of Congress. Other changes, recommended by the various commissions, will be presented to Congress, in due time, for such action as may be deemed necessary.

Embarrassment has occurred during the past year in the collection of duties on sugar, under schedule G, title 33, of the Revised Statutes. These duties are assessed by the Dutch standard, according to color; and it has been alleged that sugars have been artificially colored in the country of export, to secure their passage at the custom-house at a less rate of duty than would be charged according to the color acquired in the ordinary process of manufacture.

While the truth of such allegation has not been established in any positive manner, notwithstanding the thorough examination which has been made by the officers of this Department, it has been ascertained that the suspected sugars, which pay the lowest rate of duty at the custom-house, were of a higher intrinsic grade in many cases than those paying higher rates of duty. Statistics show that, from some cause, a marked increase has occurred in the importation of sugar subject to the lowest rate of duty, and a corresponding decrease in the importation of unrefined sugars paying the higher rates. This is doubtless due in part to the act of March 3, 1875, (Stat. at Large, vol. 18, page 339,) which imposed an additional duty of 25 per cent. of the duties prescribed in schedule G, and thus increased the discrimination in favor of the lower grades of sugar.

The Dutch standard is an unsatisfactory basis for the assessment of duty, founded as it is on color alone, which bears no definite relation to the value of the sugar. If, however, the Dutch standard is to be retained, it is recommended that the grades be reduced in number, so that there shall be but three rates of duty, one for sugars not above No. 13, one for sugars above 13 and not above 20, and another for all sugars above No. 20, including all refined sugars. Based upon the quantities of the various grades imported during the past two years, the following rates would yield about the same amount of revenue as was collected

during that time: Sugars not above No. 13, per pound, $2\frac{38}{100}$; above No. 13 and not above 20, $3\frac{45}{100}$; above 20, and all refined sugars, 5 cents. This is inclusive of the 25 per cent. additional duty imposed by the act of March 3, 1875.

Extensive undervaluations in the entries of silk goods have occurred during the past year, and the persistent efforts of the officers of the Department at the principal ports to prevent and break up such frauds on the revenue have not been attended with entire success. This is due in part to the practice of shipping goods to agents in the United States on consignment for sale on the manufacturers' account, for which goods, it is claimed, there is consequently no market value abroad. It has been suggested, as a preventive for such evils in the future, that the duty on silks be changed to one per pound, instead of the present *ad-valorem* duty. The subject is commended to the careful consideration of Congress.

For the reasons already stated the aggregate revenue from imports cannot be decreased with due regard to the wants of the Government. A revision of the tariff seems desirable, and the Secretary recommends that a duty of two cents per pound on coffee and ten cents per pound on tea be adopted, which would yield a revenue, based on the average annual consumption of the last five years, of over twelve million dollars. By the adoption of such a measure opportunity will be given for a moderate enlargement of the free list, and for the reduction of some internal taxes. A large number of isolated articles are now included in the dutiable list which yield less than ten thousand dollars a year each, and the cost of collecting the duty on these articles is proportionally greater than on the staple articles. The addition of many such articles to the free list, in the event of the duty being placed on tea and coffee, would be beneficial.

The coin values of the exports and imports of the United States for the last fiscal year, as appears from returns made to and compiled by the Bureau of Statistics, are as follows:

Exports of domestic merchandise	\$589, 670, 224
Exports of foreign merchandise	12, 804, 996
Total	602, 475, 220
Imports	451, 323, 126
Excess of exports over imports	151, 152, 094
For the fiscal year 1876 there was an excess of exports over imports amounting to	79, 643, 481
Showing an excess for the last fiscal year over the preceding year of	71, 508, 613

XXVIII REPORT OF THE SECRETARY OF THE TREASURY.

Exports of specie and bullion.....	\$56,162,237
Imports of specie and bullion.....	40,774,414
Excess of exports over imports	<u>15,387,823</u>
Total excess of exports of merchandise and the precious metals over imports	<u>\$166,539,917</u>

²²⁰There was withdrawn from bond for consumption, in excess of that entered for warehouse, during the past fiscal year, merchandise of the value of \$7,629,861. The total exportation of specie and bullion was less than that for the preceding year by \$344,165, while the exports of domestic goods increased in value \$64,087,977. Importations of merchandise decreased to the amount of \$9,418,064, as compared with those of the preceding fiscal year; and of \$81,682,310, as compared with the year ended June 30, 1875. There was an increase in the value of imports of the following articles, which are free of duty: Hides and skins, \$1,927,994; crude India-rubber and gutta-percha, \$1,478,507; raw silk, \$1,368,529. The largest increase in the value of dutiable goods was in brown sugar, chiefly for refining purposes, \$25,484,601.

Owing to the fact that there is no law requiring persons exporting merchandise by land-conveyance to Canada to file manifests containing the quantities and values thereof, the value of our exports of domestic merchandise to the Provinces of Quebec, Ontario, and Manitoba is not fully expressed in the returns made to the statistical bureau. From the detailed statements prepared by the Commissioner of Customs for the Dominion of Canada it appears that the Canadian value of our exports to those Provinces during the last fiscal year amounts to \$13,051,798 in excess of that returned by the customs officers of the United States. Assuming that the Canadian value is identical with the value taken as a basis for returns by the Bureau of Statistics, the value of the total exports of the year, with this addition, amounts to \$615,527,018.

The attention of Congress is called to the defects of law which prevent the collection of accurate returns of our exports to Canada, and the recommendation of my predecessor that remedial legislation may be enacted is renewed.

The effect of the act of June 22, 1874, (Statutes at Large, volume 18, page 186,) entitled an act to amend the customs-revenue laws and to repeal moietyies, has not been salutary. The proceeds of fines, penalties, and forfeitures recovered for the violation of customs laws and paid into the Treasury from June 30, 1870, have been as follows:

Year ended June 30, 1871.....	\$952,579 86
Do 1872.....	674,232 77
Do 1873.....	1,169,515 38
Do 1874.....	651,271 76
Do 1875.....	228,870 23
Do 1876.....	183,797 86
Do 1877.....	146,413 21

It is believed that the decrease of receipts from this source has not occurred in consequence of an increased observance of the law in the entries of goods, but rather to the fact that violations of law have not been detected in as great a number of cases as before the passage of that act. The commission which examined the custom-house at San Francisco, makes the following recommendation in regard to a modification of the law:

1st. That from the gross proceeds of any sale of goods seized in the act of being smuggled, there should be paid all legal and other costs of seizure and sale.

2d. That the Government should receive the amount of duty properly chargeable upon the goods so seized in full satisfaction for its claims.

3d. That the remainder be equally divided between the informer and seizing-officer, and where there is no informer, the whole of the remainder, after deducting expenses and duty, shall go to the seizing-officer: Provided, That neither seizing-officer nor informer shall be entitled to receive exceeding five thousand dollars for any one seizure: And provided further, That no officer of the customs in receipt of a salary or fixed compensation exceeding twenty-five hundred dollars per annum, shall be entitled to a *pro rata* of a seizure for acting as informer.

The collector of customs at New York submitted to the commission which examined that custom-house, a table which shows that in 1873 seizures at that port amounted to \$773,310 09, and that in 1877, the total amount was \$120,131 09.

The collector, in submitting that table, remarks that, without any desire to argue in behalf of informers or detective officers, he is yet strongly of the opinion that the above figures represent a loss of many millions to the Government, caused by a comparative safety to those who are undertaking and accomplishing great frauds upon the Government.

It is recommended that such a change be made in existing laws as will offer increased inducements to parties who may be able to secure a knowledge of such frauds to bring the same to the attention of the customs officers. The greatest loss to the revenue from customs

arises, not from smuggling, but from undervaluation of goods subject to an *ad-valorem* duty. It is, therefore, also recommended, for the purpose of securing simplicity and uniformity in the collection of the revenue from customs, that specific duties be adopted as far as practicable.

ALASKA.

Since the withdrawal of the troops from Alaska last spring, the management of the territory has practically devolved upon the Treasury Department. The only officers who could exercise any authority were the collector of customs at Sitka and his deputies stationed at other points within the territory, the duties of the officers at the seal islands being confined exclusively to the protection of the seal interests. It was feared that the sudden withdrawal of the troops might result in a conflict between the whites and Indians; but thus far little disturbance has occurred. The white population at Sitka is very limited, and the expense of maintaining customs officers there, and at other points within the territory, has aggregated, in the past two years, \$17,418 32, while the receipts from customs have, during the same period, been very much less. It is, therefore, recommended that the port of Sitka be abolished.

The receipts from the tax on seal-skins taken on the islands of St. Paul and St. George, including the rent paid by the Alaska Commercial Company, have been as follows:

1876	\$317,584 00
1877	291,155 50

The decrease of receipts from that source is consequent upon the fact that a less number of seals were taken the past year than the maximum allowed by law.

INTERNAL REVENUE.

The following tabular statement exhibits the receipts from the several sources of taxation under the internal-revenue laws, for the fiscal years ended, respectively, June 30, 1876, and June 30, 1877:

Statement showing the receipts from the several objects of taxation under the internal-revenue laws, for the fiscal years ended June 30, 1876, and June 30, 1877, respectively.

Sources.	1876.	1877.	Increase.	Decrease.
Spirits.....	\$56,426,365 13	\$57,469,429 72	\$1,043,064 59	
Tobacco	39,795,339 91	41,106,546 92	1,311,207 01	
Fermented liquors.....	9,571,280 66	9,450,789 17		\$90,491 49
Banks and bankers.....	4,006,698 03	3,829,729 33		176,968 70
Penalties, &c.....	409,284 48	419,999 41	10,714 93	
Adhesive stamps.....	6,518,487 51	6,450,429 15		68,058 36
Back-taxes under repealed laws.	509,631 09	238,260 55		271,370 54
Total.....	117,237,086 81	118,995,184 25	2,364,936 53	606,889 09

The tabular statement of amounts received includes commissions on sales of stamps paid in kind, which do not appear as cash receipts of the Treasury, and certain sums reported as collected, but not deposited, during their respective fiscal years. Hence there will be an apparent variation between the amounts of collections tabulated, and those shown by the covering-warrants of the Treasury.

The increase in the aggregate receipts from the sources specified, during the past fiscal year, amounts to a little more than one and three-quarter millions of dollars, and is chiefly derived from spirits and tobacco. The increase in the receipts from spirits is due in part to the greater quantity of whiskey withdrawn from warehouse at ninety cents per gallon during the current year than was withdrawn in 1876, and in part to the greater quantity of brandy distilled from fruit the past year. The aggregate quantity of tax-paid spirits withdrawn at seventy cents per gallon under the act of June 6, 1872, and at ninety cents per gallon under the act of March 3, 1875, was nearly the same; whereas the number of gallons withdrawn paying ninety cents was greater by 3,795,369 gallons during 1877 than in 1876.

The quantity of manufactured tobacco on which a tax of twenty-four cents per pound was paid in 1876, was 107,040,234 pounds; in 1877 the quantity amounted to 112,716,534 pounds, the increase being 5,676,300 pounds.

The number of collection districts on July 1, 1876, was one hundred and sixty-five; on June 30, 1877, one hundred and thirty. By consolidation, the number of districts has been further reduced to one hundred and twenty-six. The number of collectors was, on July 1, 1876, one hundred and sixty-five, and is now one hundred and twenty-six.

For further particulars relating to the operations of the bureau, attention is respectfully invited to the report of the Commissioner of Internal Revenue, herewith transmitted.

ACCOUNTING OFFICES.

The present system of accounting has been the result of many years' experience, and thus far, it is believed, has proven sufficient to protect the Government in all its ordinary and current disbursements.

Your attention is invited to the statements of several officers concerning the crowded condition of the files of their respective offices.

These files include the vouchers upon which the disbursements of the Government in all branches have been made, and the importance of securing them from destruction and providing for them such room as will make them readily accessible can hardly be over-estimated. Such

action for this purpose as you may deem necessary should be taken as soon as practicable.

CLAIMS AGAINST THE GOVERNMENT.

The attention of Congress is called to the laws imposing upon this Department the adjudication of a multitude of claims. Its organization is admirably adapted for the investigation and statement of accounts accruing in the ordinary course of current business, but it is not adapted to the investigation of claims long since accrued, and supported in most cases by *ex-parte* affidavits. The Department has no authority to cross-examine witnesses, no agents to send to examine into alleged facts, and no facilities, such as are in common use by courts, to ascertain truth and expose falsehood. It is respectfully suggested that this class of claims, not already acted upon, be transferred from the Treasury Department, and its business of accounting be confined to current accounts, payable from appropriations made within a short period of time.

Most of these claims are paid out of what are classed as "permanent annual appropriations," contained in section 3689, Revised Statutes, which do not come under the annual supervision of Congress. These appropriations, though declared to be annual, have been used for the payment of claims, however old, including nearly every case of fraudulent or exaggerated claims paid by this Department. It is respectfully urged that this important section be carefully revised; that the appropriations contained therein be made annually; and that only such claims as accrue within a brief period be paid by the Department, unless proper evidence in their favor appears upon the public records, as in the case of the principal or interest of the funded debt.

By the act approved June 20, 1874, (18 Stats., 110, sec. 5,) it was provided: "That from and after the first day of July, eighteen hundred and seventy-four, and of each year thereafter, the Secretary of the Treasury shall cause all unexpended balances of appropriations which shall have remained upon the books of the Treasury for two fiscal years to be carried to the surplus fund and covered into the Treasury," &c.

Under a construction of this act, placed upon it after a full examination by the Department, it was held that most of the appropriations made by this section, and which accrued prior to July 1, 1874, are not within the exceptions stated in the act, and they were accordingly covered into the Treasury, and are not available except for current purposes and for claims accruing within the time fixed by that act. It

seems to be the clear purpose of this act to include permanent annual appropriations within its operation, and to thus include them is a wise public policy.

Among the permanent annual appropriations made in the section referred to, is that to repay to importers the excess of deposits for unascertained duties, or duties or other moneys paid under protest, from which the greater part of the refunds of customs duties are made. These include a class of claims commonly known as the "charges and commissions cases," which arose under the act of March 3, 1851. About fourteen hundred suits were brought by importers against the collector of customs at the port of New York, to recover alleged excessive duties collected by him in obedience to the decision of the Secretary of the Treasury that, to ascertain the dutiable value of imported goods at the port of entry, there should be added to the actual market value of the goods at the port of exportation, a commission of two and one-half per cent., and certain costs and charges. This act was repealed June 30, 1864, so that all these claims accrued prior to that date.

Over two million dollars have been paid on these claims, the items of interest and costs forming a very large proportion of that amount. The remaining cases are still pending in various stages of progress, and, to satisfy these, two million dollars more will probably be required.

Upon full consideration, the Secretary is of the opinion that no money should be appropriated for the payment of these claims until after a thorough investigation has been made into the nature, character, and justice, not only of those still pending, but also of those paid. Full details of these claims, as far as it is possible for the Department to ascertain them, will be submitted to Congress.

Under the same section claims for refund of taxes, illegally imposed under internal-revenue-tax laws, are paid. Claims under these laws are very numerous and varied in character, and some are still pending for refund of taxes wrongfully imposed under statutes which have been repealed and are no longer in force.

In internal-revenue cases, the law now in force in regard to informers' rewards (Section 3463, Revised Statutes) authorizes the Commissioner of Internal Revenue, with the approval of the Secretary, to pay such sums as he may deem necessary for detecting and bringing to trial persons guilty of violating the laws. It is respectfully submitted that all such discretionary powers be more carefully limited by law.

Questions are constantly arising as to the allowance to be made to district attorneys for their compensation. The statutes have been so

often amended and so variously construed that it is almost impossible to determine what allowances should be made.

In the southern district of New York the allowances have been such that in some years the compensation of the district attorney has exceeded \$30,000, while in some meritorious cases there has hardly been sufficient authority for making a fair allowance.

To avoid excessive compensation, the Secretary has limited the aggregate amount of allowances to any district attorney within one year, including salary, to ten thousand dollars; but the better way is to establish by law the salary of each district attorney, and to forbid all allowances.

Under the act of July 4, 1864, and acts amendatory thereof, and Section 300, Appendix to Revised Statutes, claims of loyal citizens, in States not in rebellion, for quartermaster's stores and subsistence supplies received or taken for the use of the Army, are to be reported by the quartermaster general or commissary general, if satisfied that they are just, to the Third Auditor for settlement. The action of the accounting officers of the Treasury Department upon this class of claims is required, by the act of June 16, 1874, to be reported by the Secretary to Congress, at the commencement of each session, for consideration, before payment by appropriation. The number of claims of this character is very large, and the amount allowed thereon and reported in the Digest of Appropriations for 1877 is \$270,357 22.

Other classes of claims under the jurisdiction of the same accounting officers, but not required by statute to be reported for specific appropriation, include those for compensation for horses and equipments lost in the military service, and for use and loss of steamboats and other vessels, railroad engines, &c., under the act of March 3, 1849, amended and construed by the acts of March 3, 1863, and June 22, 1874, and sections 3482 to 3489, Revised Statutes. These claims are numerous and involve a large amount in the aggregate.

By the act of May 18, 1872, section 5, the Secretary of the Treasury was authorized and directed to pay to the lawful owners, or their legal representatives, the net proceeds actually paid into the Treasury of all cotton seized after the 30th day of June, 1865, by agents of the Government unlawfully and in violation of their instructions. The Secretary was invested with sole jurisdiction as to the construction of the act, and the methods by which the facts should be ascertained.

Under certain regulations of the Department, thirteen hundred and thirty-six claims were filed, claiming the proceeds of one hundred and thirty-six thousand bales of cotton, the estimated value of which is \$13,600,000.

These claims have been acted on as follows:

Number of claims rejected	1, 189
Number of claims dismissed.....	96
Number of claims allowed	49
Number of claims pending	2
The amount paid on allowed claims is.....	<u>\$194, 801 77</u>

The act is strictly limited in its scope, and was apparently intended to afford relief in a comparatively small number of cases, not disposed of by the Secretary before the proceeds of captured property were covered into the Treasury under the joint resolution of March 30, 1868, and in which wrongful or erroneous seizures were made by the agents of the Government engaged, after the close of active hostilities, in collecting and securing the many thousand bales of cotton scattered through the Southern States, which had been sold by its former owners to the Confederate States.

The amount of cotton taken was known to be greatly in excess of that which came into the hands of authorized agents of the Government subsequent to June 30, 1865; and, in view of the facts, that almost all of the fifty thousand bales of cotton collected after that date, the proceeds of which reached the Treasury, had been sold to the Confederate States during the war, or was unlawfully acquired by companies formed for the purpose of running the blockade, and that the restrictions of the act whereby the power of the Secretary to grant relief was confined within very narrow limits, the reason for the payment of so small an amount, as contrasted with the vast sum demanded, is apparent.

Upon the summary statement thus made, the Secretary respectfully recommends that all authority or power in this Department to pass upon claims that do not accrue within a brief period before they are presented, and which are not steadily prosecuted by the claimants, be taken away; that no claim once passed upon by the Department shall be reopened, and that the decisions heretofore rendered shall be final.

It is possible that, in acting upon the multitude of claims growing out of a great war, injustice has in some cases been done, and that honest claims have not been paid, while some fraudulent claims have been paid. But greater injustice would be done by reopening claims growing out of the war. It is the best policy to consider all such claims not heretofore paid as closed, unless Congress, by special acts in particular cases, shall extend appropriate relief.

There should be a limitation of time within which a claim should be presented, and a like limitation within which a suit in behalf of the United States should be commenced. Such a limitation is especially

needed as to suits brought by the United States against sureties on official bonds. In some cases, claims against the principal debtor, long delayed by the neglect of the Government, are unjustly pressed against the surety. Nearly all the fraudulent and exaggerated claims that have been presented to this Department are alleged to have accrued long since, and the evidence of the facts that would be a complete defence is lost by time. Such claims are supported by plausible affidavits, and, in some cases, by forgery and perjury. A statute of limitations in all cases would be a proper measure, not only as to claims between citizens, but as to claims for or against the Government.

The Secretary recommends this subject to the attention of Congress.

BUREAU OF ENGRAVING AND PRINTING.

Of the appropriation of \$800,000 for the payment of labor and expenses in this bureau for the present fiscal year, \$600,000 will remain unexpended at the close of the year. The internal-revenue stamps for cigars, liquors, snuff, and tobacco, printed under contract by the New York bank-note companies last year, will be printed in the bureau the current year, at a reduction in cost to the Government of \$68,841 89. The printing of the backs of legal-tender notes and of the five-dollar national-currency notes, last year done by the Columbian Bank-Note Company, of this city, will also be executed in the bureau, and at a reduction in cost, as compared with the rates paid last year, of \$40,254 30. The act making appropriations for the legislative, executive, and judicial expenses of the Government for the present fiscal year, (19 Statutes at Large, p. 152,) appropriates for dies, paper, and stamps for the internal revenue, \$466,000, the engraving and printing to be done in the Bureau of Engraving and Printing of the Treasury Department, provided the cost does not exceed the prices paid under existing contracts. The contracts referred to were made in 1874 with the American, National, and Continental Bank-Note Companies, and were terminable on ninety days' notice. On the 20th day of June last, the Secretary requested the Chief of the Bureau to make such observations as he desired upon the comparative cost of printing internal-revenue stamps by private companies and by the bureau, and in reply received, on the 23d of June, a statement that the stamps referred to could be done by the bureau for \$227,590, as against \$296,431 89 paid to the bank-note companies last year, all of the printing to be done by plate and surface-printing from steel-plates. Being satisfied that this saving could be effected, and the law preferring that the work be done in the Treasury Department, the Secretary, on the 25th of June, gave the required ninety days' notice, and on the 1st of October

authorized the work to be done in the bureau. The adhesive and proprietary stamps used by the Commissioner of Internal Revenue are still printed by the National Bank-Note Company, under a contract made August 15, 1875, which took effect September 1, 1875, and is still in force. As these classes of stamps have never been executed by the bureau, and may not have been intended to be included by Congress in the provision referred to, no disturbance has been made of the previously existing arrangements.

On the accession of the present Secretary to the Department, all the printing upon the notes, bonds, and securities of the United States and the notes of the national banks was done in the bureau and department except the green backs of the legal-tenders and the black backs of the national bank fives. These were executed by the Columbian Bank-Note Company of this city under a contract made February 20, 1877, and terminable on ninety days' notice. Inasmuch as the prices named in this contract were fixed in the original contract dated June, 1874, when the cost of labor and material was much higher than now, the Secretary deemed it for the interest of the Government to terminate it, so that the whole subject of engraving and printing by private companies would be within the power of the Government at the meeting of Congress.

The act providing for the expenses of the bureau for the current fiscal year requires that the work shall be performed at the Treasury Department if it can be done as cheaply, as perfectly, and as safely as elsewhere. (19 Statutes at Large, p. 353.) To determine the question of the cost of executing work in the bureau and elsewhere, the Secretary issued an advertisement, September 6, inviting proposals, on the 25th of that month, for printing the green backs on legal-tender notes and the black backs on national-currency notes, for the period of one year from the 1st of October. The estimate of the bureau on both classes of work, being an average of \$8 71 per thousand perfect sheets, as against \$18 per thousand paid the bank-note company last year, and less than the bid of any of the companies, the Secretary deemed it to be his duty, under the law, to bring this work within the bureau, at least for the present. After careful examination the Secretary is satisfied that the work, as done in the bureau, is more perfectly done than that heretofore done in private establishments, even at the high rates paid. Upon the question of safety, the Secretary cannot see how it is possible for the Government to be better protected from fraud or mistake than it now is. But the question of safety being one of public policy, the consideration of which properly belongs to Congress, the Secretary respectfully submits it to that body, with

XXXVIII REPORT OF THE SECRETARY OF THE TREASURY.

the remark that, as the Government has been able with absolute safety by its own agents, to make and issue its gold and silver coin, analogy would indicate a similar course as to its paper circulation, and experience shows its practicability.

On the 20th of March last, the Secretary appointed a committee consisting of three experienced officers of the Department, to make a thorough examination of the bureau as then organized and conducted. Upon the report of that committee, there were discharged, April 18 and April 30, five hundred and thirty-eight persons, whose annual pay was about \$390,000. On the first day of May, the bureau was put in charge of new officers, who have re-organized it in every branch, and have transformed it into an admirable workshop, as it was the purpose of the law it should be—where the public work can be done with cheapness, safety, and excellence. All the papers relating to the various transactions referred to are transmitted herewith.

The Secretary respectfully recommends that Congress appropriate a sum sufficient to erect a substantial fire-proof building for the work performed by this bureau, and for such other service of a mechanical nature as may from time to time be required. For considerations which justify this recommendation, and for details, the Secretary refers to the accompanying report of the Chief of the bureau.

PUBLIC MONEYS

In the report of the Treasurer of the United States, herewith submitted, there is set forth a detailed statement of the monetary transactions of the Government during the past year. It will be seen that the coin resources of the Treasury on all accounts from September 30, 1876, to September 30, 1877, had increased from \$67,586,705 95 to \$133,585,072 24, and the currency resources from \$100,437,766 44 to \$110,096,039 01.

Since the issue of silver coin commenced there has been returned to the Treasury for redemption a largely-increased amount of minor coins for which there is no demand. On September 29, 1877, there was on hand of these coins an amount of \$870,140 54, constituting a portion of the currency balance of the Treasury practically unavailable for current use, and occupying the Treasury vaults to an inconvenient extent. The necessary legislation for their proper disposition is recommended.

SPECIAL AGENTS.

The Secretary calls attention to the accompanying report, showing the transactions in the Division of Special Agents of Customs. Only

twenty agents are now authorized to be employed. Until recently the number was fifty-three, and, in view of the extent and character of the duties devolving upon them, it is recommended that the number be increased to at least thirty.

COMMERCE AND NAVIGATION.

The Register of the Treasury reports the total tonnage of vessels of the United States to be 4,242,600 tons, a decrease of 36,858 tons from that of the fiscal year ended June 30, 1876.

The actual decrease is believed to be about 13,563 tons, this amount being the excess of the losses over the gains during the last fiscal year, the balance being accounted for by dropping canal-boats, exempt under the act of Congress approved April 18, 1874.

The following table exhibits the total tonnage for the last two years:

	1876.		1877.	
	Vessels.	Tons.	Vessels.	Tons.
Registered, engaged in foreign trade.	3, 009	1, 592, 821	2, 988	1, 611, 193
Enrolled and licensed, engaged in domestic commerce.....	22, 925	2, 686, 637	22, 398	2, 631, 407
Total	25, 934	4, 279, 458	25, 386	4, 242, 600

The tonnage of vessels built, as given by the Register, is 176,592 tons, being a decrease from that of the previous year of 26,994 tons, or over 15 per centum.

The number of vessels built is 1,029.

Official numbers have been awarded by the Bureau of Statistics during the fiscal year to 1,291 vessels, whose carrying capacity amounts to 217,541 tons, and since July 1, 1877, to 563 vessels, of the aggregate tonnage of 119,639, as the following statement more fully shows:

Statement showing the number, class, and tonnage of vessels officially numbered during the fiscal year ended June 30, 1877.

Class and character of vessels.	Vessels.	Tonnage.
Sailing-vessels	710	114, 236. 33
Steam-vessels	372	66, 676. 76
Unrigged vessels	209	37, 415. 26
Total	1, 291	218, 328. 35

Vessels numbered and registered from July 1 to November 16, 1877.

Class and character of vessels.	Vessels.	Tonnage.
Sailing-vessels.....	264	66,849.29
Steam-vessels.....	154	34,136.58
Unrigged vessels.....	192	19,494.52
Total.....	610	120,480.39

In this connection, I would call attention to the fact that a large number of vessels, as defined by section 3 of the Revised Statutes, propelled neither by steam nor sails, go to make up the tonnage of enrolled and licensed vessels, while a large class of vessels with no internal appliances for propulsion is exempt from enrolment and license under the act of April 18, 1874. These vessels consist, mainly, of barges and open flats engaged in the transportation of coal and lumber on the large navigable rivers of the country. For many years this class of vessels has been increasing, and the water-transportation of merchandise upon such rivers has been gradually passing from steam-vessels to barges and other craft of temporary structure, which are towed or propelled by steam or sail-vessels. The act of 1874 exempted canal-boats and boats employed on the internal waters of States from enrolment, so that a discrimination now practically exists between vessels propelled neither by steam nor sails, as regards their liability to enrolment, dependent simply upon the question whether they are or are not usually employed on the internal waters of a State, in connection with their employment on navigable waters of the United States. The purely temporary character of many of these vessels renders it difficult to apply to them the provisions for enrolment that are applicable to vessels propelled by steam or sails, especially as they are so constructed as to admit neither of a permanent crew nor of a master who remains on board.

The discrimination as regards enrolment is, besides, a gratuitous cause of dissatisfaction among that portion of the mercantile community which makes use of craft not propelled directly by steam or sails. All these vessels should be subjected to a system of license and enrolment different from that now in force, or all should be exempted from enrolment. It is believed that the mercantile community would prefer enrolment, if the fees for the preliminary admeasurement were moderate, and the system of enrolling now in force were less complex. An entire abandonment of enrolment deprives the Government to a large

extent of the means of ascertaining the statistics of the trade carried on in this class of vessels.

The number of entries of American vessels into ports of the United States from foreign ports for the fiscal year ending June 30, 1877, was 10,660; the number of clearances of American vessels, foreign, for the same period was 10,790. The number of entries of foreign vessels into ports of the United States from foreign ports during the same period was 18,379; the number of clearances of foreign vessels, foreign, for the same time was 18,174.

The preponderance of foreign tonnage over domestic, in carrying on the foreign commerce of the country, is certainly not in accordance with the national desire. Such an increase in our shipping as will restore this commerce to American citizens should, as far as possible, without burdening other industries, be encouraged by legislation. The increase of the means and appliances for transportation, whether by shipping or land-carriage, is a tax upon the industries that produce the commodities to be conveyed. Subsidies drawn from the revenue in support of the transit industries are charges upon the productive industries, and can be discreetly granted only in the sure prospect of a large expansion in the market demand for the commodities to be transported by shipping or railroads, or where the vital necessities of the country require free and speedy communication between its different sections.

The high price in our depreciated paper money of the chief materials for ship-building has rendered us unable, since the war, to compete with other nations in this great industry. The demand for iron in building railroads, and the diversion of capital and labor from other industries to that, has, however, at present largely ceased. The appreciation of our currency to nearly the coin standard, the rapid development of the coal and iron industries, and the falling off in the demand for railroads, will tend to direct capital and labor to ship-building. Every encouragement may, at least, be given to the increase of commerce in vessels of American ownership that can be prudently afforded by modifying existing law in those respects in which it is a burden upon such commerce.

REVENUE-MARINE SERVICE.

The fleet of vessels employed in this branch of the public service consists of thirty-one steamers and five sailing-vessels. Nearly all of them are specially adapted for cruising in the waters where they are respectively stationed.

The following is a statement of the general services performed by them during the fiscal year ending June 30, 1877:

Number of vessels seized or reported for violation of law...	1, 260
Number of vessels boarded and examined.....	25, 396
Number of miles cruised.....	196, 036
Number of vessels in distress assisted.....	204
Number of lives saved.....	60
Estimated value of property rescued, consisting of vessels and their cargoes imperilled at sea.....	\$3, 901, 362

In accordance with the provisions of the act of March 3, 1877, the revenue-steamer "Richard Rush" was properly fitted out and despatched from San Francisco, on the 1st of May last, for the protection of the seal-fisheries and sea-otter hunting-grounds in the vicinity of the seal islands and among the islands of the Aleutian archipelago, and has successfully accomplished her mission.

The cadet system for the Revenue Marine, provided for in the act of July 31, 1876, has been entered upon with the promise of great advantage to the service. Seven appointments have been made during the past year, from those applicants exhibiting the highest degree of proficiency, upon examination. These cadets having been assigned to duty on the schooner "J. C. Dobbin" for the purpose of affording them uniform and satisfactory instruction, a cruise was taken for practical training at sea. Upon its completion, the vessel was stationed at New Bedford, Mass., where the young men have entered upon a course of instruction, both theoretical and practical, arranged with a special view to the acquirements requisite for officers of the Revenue Marine.

The revenue steamer authorized to be built for service on the Pacific coast has been completed and placed on duty, with headquarters at the mouth of Columbia river. A new bark, of about 154 tons burden, is under construction, to be stationed, when completed, upon the Atlantic coast, and used as a training-ship for cadets, in conjunction with the performance of her regular work.

The expense of maintaining the Revenue Marine for the fiscal year ended June 30, 1877, is \$841,176 31, the lowest reached since the expenses of this service have been kept separately.

The waters upon the Gulf coast between Mobile bay and Lake Pontchartrain are too shoal to admit of being properly patrolled by any of the vessels now in the service. This is, consequently, a favorite region for illicit traffic, which is greatly facilitated by the proximity of the railway running from Mobile to New Orleans. A small light-draught steam revenue cutter, not exceeding 100 tons burden, properly

manned and stationed in those waters, would, it is believed, afford important protection against smuggling. Such a vessel, it is estimated, can be built for the sum of \$25,000. Recommendation is accordingly made that legislative action be had with a view of meeting this demand.

LIFE-SAVING SERVICE.

The report of the operations of this service affords a gratifying exhibit.

During the past year four new life-saving districts, one upon the coast of Florida, and three embracing the line of our coast upon the Lakes, have been organized. Thirty new life-saving and life-boat stations on the Atlantic and Lake coasts have been opened for service, together with the five houses of refuge authorized by law at different points upon the Florida coast. On the Pacific coast three life-boat stations have been completed, and are now receiving their equipments, and another is in process of construction.

The report makes several important recommendations, to which careful consideration is invited. Special attention is called to the recommendation for increasing the compensation of the keepers of the stations, a measure the necessity for which has been strongly impressed upon the Secretary by a personal examination of the service during the past year. The recent resignation of several of the best keepers, owing to the continued insufficiency of the pay, and the fact that other resignations are pending, and that most of these valuable men are retained with difficulty, upon the hope of adequate remuneration, presage serious consequences, which can only be averted by timely action. Under the charge of these officers the record of the service has this year surpassed that of any year preceding, the ratio of lives lost to the number imperilled having been reduced to about two and a half per cent. To allow the service, with this unexcelled record of usefulness, to lapse into incapable hands, would be a grave error, involving serious results to maritime interests and to human life.

The vast area embraced by the operations of the service, the multiplicity and importance of the details involved in its proper conduct, and the worth and gravity of its guardianship of vital concerns, now require that it be placed under an administration defined by law. Little, if any, increase of expense would attend this measure, which would carry with it all the benefits of completed organization essential to its proper management.

A noteworthy incident in the reported improvement of life-saving apparatus during the year is the extension, with an accompanying

diminution in the weight of the gun employed, of the range of the shot-line for establishing the means of safe transit from wrecks, to what is probably its utmost point of utility. This gratifying result narrows the problem of gun or mortar service at wrecks to the simple consideration of further lessening the weight of the ordnance used, with a view of facilitating rapid transportation.

The appalling disaster to the United States steamer *Huron*, on the coast of North Carolina, which has so recently occurred, would seem to demand that provision should be made for the opening of the life-saving stations in that vicinity at an earlier date than the appropriations have hitherto allowed.

LIGHT-HOUSE ESTABLISHMENT.

The light-house establishment is in a satisfactory condition. During the year, nineteen new light-houses, one new light-ship, one hundred and ninety-six river-lights, and one steam fog-signal have been put into operation.

Light-ship No. 41, referred to in the last report of the Secretary of the Treasury, was completed early in the fiscal year, and at once placed on an exposed station. Her fog-signal, which was of a novel design, has given great satisfaction.

Light-ship No. 42, for which appropriation was made by the last Congress, is also nearly completed, and will have a similar fog-signal. She has been built with great care, at a time when material and labor were to be had at low rates, and is expected to be the best light-ship ever built by the Government.

Attention is called to the estimates of the Light-House Board for new light-houses at American Shoal and Rebecca Shoal on the Florida reefs. These lights are essential for the completion of the system for the Florida reefs, and would be aids of the greatest importance to the navigation of the difficult and dangerous waters of that locality.

The suggestion is made that considerable expense in the conduct of the light-house establishment might be saved by vesting the light-house inspectors with authority to make, upon their periodical visits to the stations, the disbursements which are now made by the collectors of customs acting as superintendents of lights. This step would also relieve many of the keepers from the trouble and cost incident to the journeys they are now compelled to make to obtain their salaries, besides preventing the detriment to the service involved in their absence, on such occasions, from their posts of duty.

COAST SURVEY.

The report of the Superintendent of the Coast Survey shows that good progress has been made in the general work of triangulation, topography, and hydrography, with commensurate results in the issue of charts for navigation.

In the prosecution of the work some notable facts have been developed. One of the investigations proves that information regarding the approximate velocity and direction of sea-currents, at any hour of the day, may be compiled for the use of navigators, so as to make these currents, which now so often baffle the mariner, available in approaching or leaving the coast.

As of equal importance with a knowledge of the currents and tides along the seaboard, but of even greater interest to the public, the variations of the magnetic needle have been noted in the work of the Coast Survey; and, by elaborate discussion and collation with older observations, it has become possible to predict variations of the compass, as in the case of the tides.

THE MARINE-HOSPITAL SERVICE.

The amount received as hospital-dues from seamen during the last fiscal year was \$372,465 70, and the expenditures for the Marine-Hospital Service for the same period were \$368,395 28—leaving a surplus of \$4,070 12.

The number of sick and disabled seamen treated during the year was 15,175. The average cost per patient was \$24 28—the least cost ever attained—a reduction to this amount having been made since 1870, when the average was \$38 41. No deficiency appropriation has been required for this service since 1873.

No provision of law exists for the care and treatment of such destitute American seamen (employed in the fisheries) returned to the United States under section 4577 of the Revised Statutes as may not be entitled to the benefits of the Marine-Hospital Service, and whose condition on arrival requires admission to a hospital. No reasons exist for the abandonment of this class of seamen, when sick, upon their arrival in a port of this country. I would, therefore, recommend that the law be so amended as to authorize the continuation of the relief furnished them out of the fund appropriated for that purpose, until hospital-treatment shall be no longer required.

The appointment of medical officers to the grade of assistant surgeon only, and the promotion of assistant surgeons when vacancies occur in a higher grade, have produced satisfactory results. This sys-

tem is at present carried out under the regulations of the Department; it would seem advisable, however, that it should be regulated by statute.

Such provisions as may be needed for the improved administration of this service will be made the subject of further special communication to Congress.

STEAMBOAT INSPECTION.

During the past year there have been inspected 4,061 vessels, involving an aggregate tonnage of 1,014,912.36 tons, and licenses have been issued to 14,293 officers.

During that period there have been received, on account of fees for inspection of steam-vessels.....	\$140,312 56
On account of officers' licenses.....	121,345 00
Total.....	<u>261,657 56</u>

There have been expended, during the same period, amounts as follows:

For inspectors and clerks	\$176,692 00
For travelling and miscellaneous expenses.....	31,077 94
Total.....	<u>207,769 94</u>
Excess of receipts over expenditures.....	<u>53,887 62</u>

To avoid the expense incurred by the annual meeting of the board of supervising inspectors, as required by section 4405, Revised Statutes, it is recommended that authority be given to convene the board at such time and place as the Secretary of the Treasury shall designate.

The Supervising Inspector-General of Steam-Vessels recommends that section 4419, Revised Statutes of the United States, relating to lock-up safety-valves, be repealed, or so amended as to compel uniformity in its application; that authority be conferred upon the Secretary of the Treasury to appoint clerks to supervising inspectors in districts where their services are actually required; also, that a reduction be made in the fees for inspection of vessels of fifty tons and under; and also for licensing officers—to which recommendations your attention is respectfully invited.

PUBLIC BUILDINGS.

Attention is respectfully invited to that portion of the Supervising Architect's report, in which recommendation is made for the construction of buildings for the accommodation of the Bureau of Engraving

and Printing, and for such of the archives and files of the Department as are not required for current use.

While I have to recommend that appropriations be made for the continuation of work upon the public buildings now in progress under the supervision of this Department, in accordance with the estimates submitted therefor, the condition of the revenues is such as to make it unwise, in my judgment, to authorize the construction of new buildings, except in those cases where the demands of the public service seem to make them an absolute necessity.

REPORTS OF OFFICERS.

The reports of heads of bureaus and divisions, and the various tables referred to, are herewith transmitted as a part of this report.

The Secretary takes pleasure in commending to Congress the industry and ability of the heads of bureaus and other officers of this Department, many of whom by long experience in the discharge of difficult duties have made their services of the greatest value to the Government. The manner in which their complicated duties have been performed, the faithful observance of the trust reposed in them in the receipt and disbursement of large sums of money, and the accuracy and skill with which it is accounted for, entitle them to his grateful acknowledgments.

JOHN SHERMAN,
Secretary.

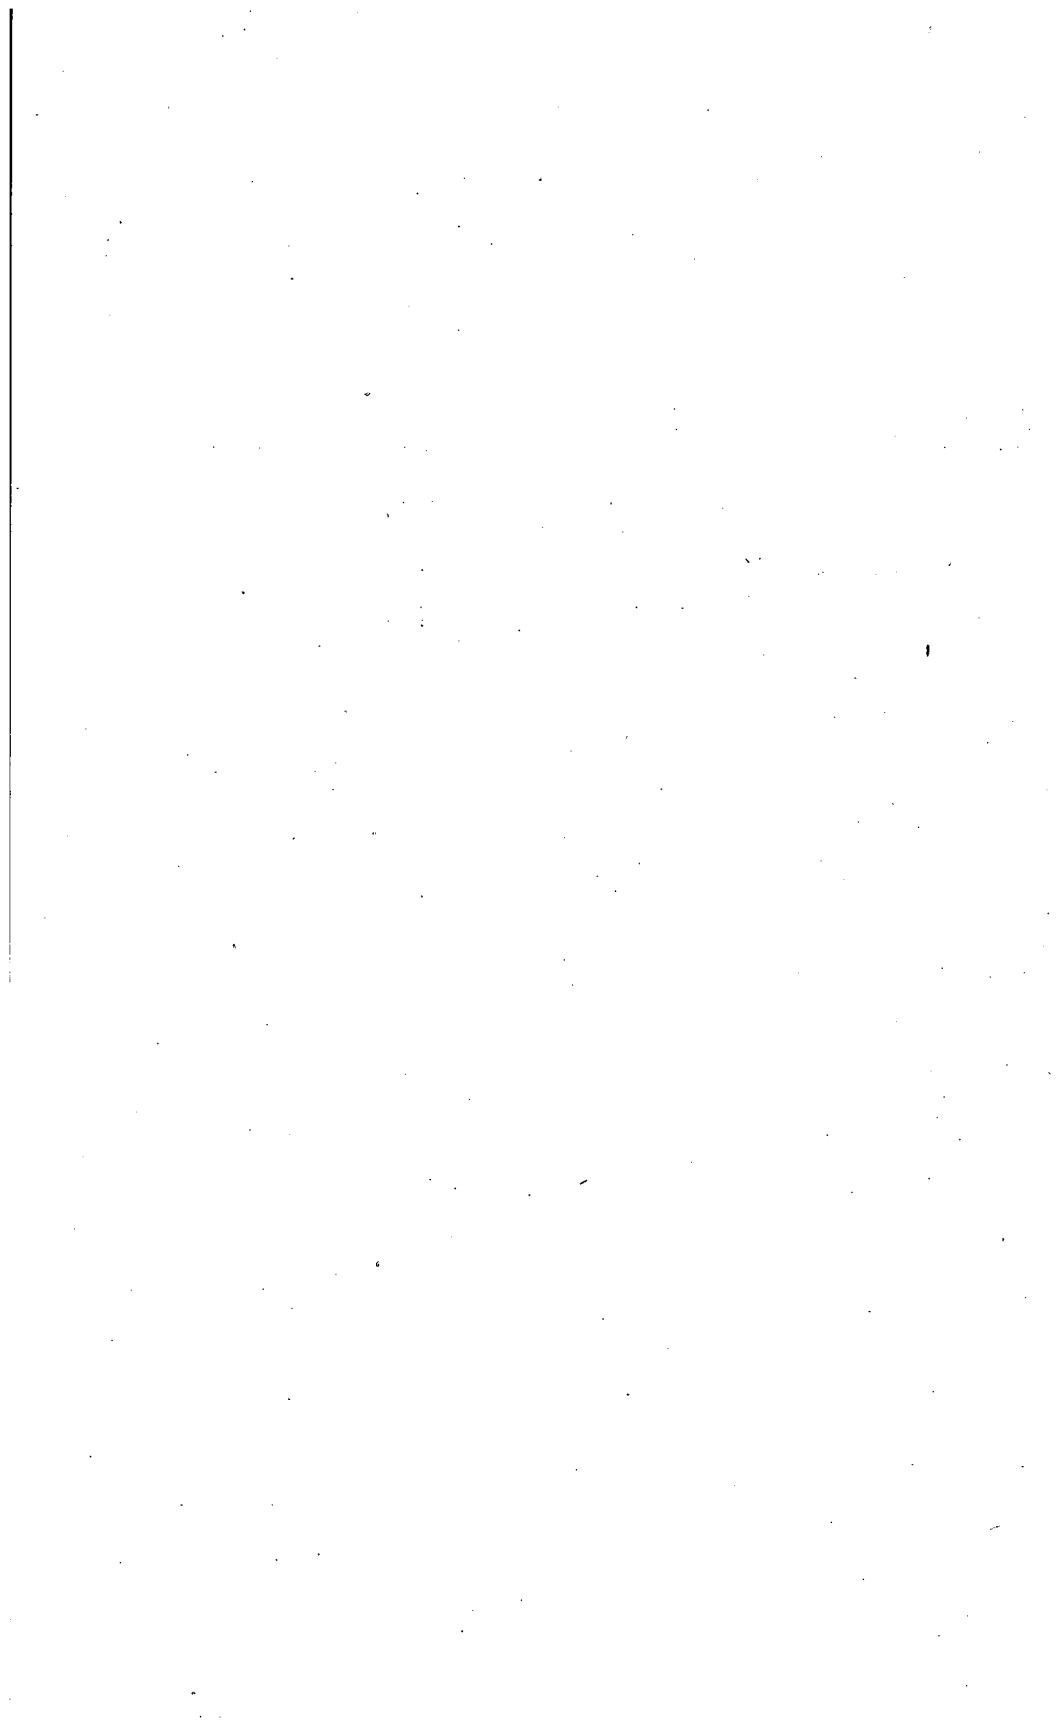

The Honorable

THE SPEAKER OF THE HOUSE OF REPRESENTATIVES.

TABLES ACCOMPANYING THE REPORT.

1 F

REPORT OF THE SECRETARY OF THE TREASURY.

3

TABLE A.—Statement of the net receipts (by warrants) during the fiscal year ended June 30, 1877.

CUSTOMS.		
Quarter ended September 30, 1876	\$37,554,728 53	
Quarter ended December 31, 1876	27,793,128 95	
Quarter ended March 31, 1877	34,000,920 47	
Quarter ended June 30, 1877	31,607,715 12	
		\$130,956,493 07
SALES OF PUBLIC LANDS.		
Quarter ended September 30, 1876	\$252,005 63	
Quarter ended December 31, 1876	253,186 77	
Quarter ended March 31, 1877	212,600 10	
Quarter ended June 30, 1877	258,461 18	
		976,253 68
INTERNAL REVENUE.		
Quarter ended September 30, 1876	\$28,813,336 37	
Quarter ended December 31, 1876	29,242,891 76	
Quarter ended March 31, 1877	27,446,264 69	
Quarter ended June 30, 1877	33,127,925 01	
		118,630,407 83
TAX ON CIRCULATION, DEPOSITS, ETC., OF NATIONAL BANKS.		
Quarter ended September 30, 1876	\$3,534,707 87	
Quarter ended December 31, 1876	21,232 40	
Quarter ended March 31, 1877	3,451,871 55	
Quarter ended June 30, 1877	70,739 14	
		7,078,550 96
REPAYMENT OF INTEREST BY PACIFIC RAILROAD COMPANIES.		
Quarter ended September 30, 1876	\$97,902 59	
Quarter ended December 31, 1876	54,113 62	
Quarter ended March 31, 1877	1,039,586 80	
Quarter ended June 30, 1877	470,395 63	
		1,661,998 64
CUSTOMS FEES, FINES, PENALTIES, AND FORFEITURES.		
Quarter ended September 30, 1876	\$257,433 62	
Quarter ended December 31, 1876	221,146 19	
Quarter ended March 31, 1877	262,831 57

1868.	2,611,687,851 19

TABLE E.—Statement of outstanding principal of the public debt, &c.—Continued.

Year.	Amount.
July 1, 1869.....	\$2,588,452,213 94
1870.....	2,480,672,427 81
1871.....	2,353,211,332 32
1872.....	2,253,251,328 78
1873.....	*2,234,482,993 20
1874.....	*2,251,690,468 43
1875.....	*2,232,284,531 95
1876.....	*2,180,395,067 15
1877.....	*2,205,301,392 10

*In the amount here stated as the outstanding principal of the public debt are included the certificates of deposit outstanding on the 30th of June, issued under act of June 8, 1872, amounting to \$31,730,000, in 1873; \$58,760,000, in 1874; \$58,415,000, in 1875; \$32,840,000, in 1876, and \$54,960,000, in 1877, for which a like amount in United States notes was on special deposit in the Treasury for their redemption, and added to the cash balance in the Treasury. These certificates, as a matter of accounts, are treated as a part of the public debt, but, being offset by notes held on deposit for their redemption, should properly be deducted from the principal of the public debt in making comparison with former years.

Statement of the principal of the public debt, including accrued interest thereon, less cash in the Treasury, on the 1st day of July of each year, from July 1, 1869, to July 1, 1877, compiled from the published monthly debt-statements of those dates.

Year.	Outstanding principal.	Accrued interest.	Cash in the Treasury.	Debt less cash in the Treasury.
July 1, 1869.....	*\$2,597,722,983 37	\$47,447,310 79	\$156,167,813 58	\$2,489,002,480 58
1870.....	*2,601,675,127 83	50,607,556 52	265,924,024 61	2,386,358,599 74
1871.....	2,353,211,332 32	45,036,766 23	106,217,263 65	2,292,030,834 90
1872.....	2,253,251,328 78	41,705,813 27	103,470,798 43	2,191,486,343 62
1873.....	2,234,482,993 20	42,356,652 82	129,020,932 45	2,147,818,713 57
1874.....	2,251,690,468 43	38,939,087 47	147,541,314 74	2,143,088,241 16
1875.....	2,232,284,531 95	38,647,556 19	142,243,361 82	2,128,688,726 32

1877.....	2,205,301,392 10	40,882,791 89	186,025,960 73	2,060,158,223 26

*It will be noticed that there is a difference in the amounts represented by these two statements as the principal of the debt July 1, 1869, and July 1, 1870. This difference is explained thus: In the principal of the debt as shown by the monthly debt-statements of those dates the bonds purchased for the sinking-fund and paid for from money in the Treasury were included as a part of the outstanding debt, and were also treated in the cash as a cash item, or asset, for the reason that at that time there was no authority of law for deducting them from the outstanding debt. Congress, by the sixth section of the act of July 14, 1870, directed that these bonds should be canceled and destroyed and deducted from the amount of each class of the outstanding debt to which they respectively belonged, and such deductions were accordingly made on the books of the Department and in the table of the debt in the annual report.

TABLE F.—Statement of the receipts of the United States from March 4, 1789, to June

Year.	Balance in the Treasury at commencement of year.	Customs.	Internal revenue.	Direct tax.	Public lands.	Miscellaneous.

LEGAL-TENDER NOTES.							
The act of February 25, 1862, (12 Statutes, 345,) authorized the issue of \$150,000,000 United States notes, not bearing interest, payable to bearer, at the Treasury of the United States, and of such denominations, not less than five dollars, as the Secretary of the Treasury might deem expedient, \$50,000,000 to be in lieu of demand-notes authorized by the act of July 17, 1861; these notes to be a legal tender. The act of July 11, 1862, (12 Statutes, 532,) authorized an additional issue of \$150,000,000 United States Treasury notes, of such denominations as the Secretary of the Treasury might deem expedient, but no such note should be for a fractional part of a dollar, and not more than \$35,000,000 of a lower denomination than five dollars; these notes to be a legal tender. The act of March 3, 1863, (12 Statutes, 710,) authorized an additional issue of \$150,000,000 United States notes, payable to bearer, of such denominations, not less than one dollar, as the Secretary of the Treasury might prescribe; which notes were made a legal tender. The same act limited the time at which Treasury notes might be exchanged for United States bonds to July 1, 1863. The amount of notes authorized by this act were to be in lieu of \$100,000,000 authorized by the resolution of January 17, 1863, (12 Statutes, 822.)	On demand.... The act of May 17, 1862, (12 Statutes, 370,) authorized the issue of these certificates in payment of disbursing officers' checks. The act of March 3, 1863, (12 Statutes, 710,) made the interest payable in lawful money.	1 year	1 year after date.	6 per cent....	Par	No limit	561,753,241 65	5,000 00

FRACTIONAL CURRENCY.

The act of July 17, 1862, (12 Statutes, 592,) authorized the use of postal and other stamps as currency, and made them receivable in payment of all dues to the United States less than five dollars. The fourth section of the act of March 3, 1863, (12 Statutes, 711.) authorized the issue of fractional notes in lieu of postal and other stamps and postal currency; made them exchangeable in sums not less than three dollars for United States notes, and receivable for postage and revenue stamps, and in payment of dues to the United States, except duties on imports, less than five dollars; and limited the amount to \$50,000,000. The fifth section of the act of June 30, 1864, (13 Statutes, 220,) authorized an issue of \$50,000,000 in fractional currency, and provided that the whole amount of these notes outstanding at any one time should not exceed this sum.

LOAN OF 1863.

The act of March 3, 1863, (12 Statutes, 709,) authorized a loan of \$900,000,000, and the issue of bonds, with interest at not exceeding 6 per centum per annum, and redeemable in not less than ten nor more than forty years, principal and interest payable in coin. The act of June 30, 1864, (13 Statutes, 219,) repeals so much of the preceding act as limits the authority thereunder to the current fiscal year, and also repeals the authority altogether except as relates to \$75,000,000 of bonds already advertised for.

ONE-YEAR NOTES OF 1863.

The act of March 3, 1863, (12 Statutes, 710,) authorized the issue of \$400,000,000 Treasury notes, with interest at not exceeding 6 per centum per annum, redeemable in not more than three years, principal and interest payable in lawful money, to be a legal tender for their face value.

TWO-YEAR NOTES OF 1863.

The act of March 3, 1863, (12 Statutes, 710,) authorized the issue of \$400,000,000 Treasury notes, with interest at not exceeding 6 per centum per annum, redeemable in not more than three years, principal and interest payable in lawful money, to be a legal tender for their face value.

COIN-CERTIFICATES.

The fifth section of the act of March 3, 1863, (12 Statutes, 711,) authorized the deposit of gold coin and bullion with the Treasurer or any assistant treasurer, in sums not less than \$20, and the issue of certificates therefor in denominations the same as United States notes; also authorized the issue of these certificates in payment of interest on the public debt. It limits the amount of them to not more than 20 per centum of the amount of coin and bullion in the Treasury, and directs their receipt in payment for duties on imports.

NAVY PENSION-FUND.

The act of July 1, 1864, (13 Statutes, 414,) authorized the Secretary of the Navy to invest in registered securities of the United States so much of the Navy pension-fund in the Treasury January 1 and July 1 in each year as would not be required for the payment of naval pensions. Section 2 of the act of July 23, 1868, (15 Statutes, 170,) makes the interest on this fund 3 per centum per annum in lawful money, and confines its use to the payment of naval pensions exclusively.

FIVE-TWENTIES OF 1865.

The act of March 3, 1865, (13 Statutes, 468,) authorized the issue of \$600,000,000 of bonds or Treasury notes, in addition to amounts previously authorized; the bonds to be for not less than \$50, payable not more than forty years from date of issue, or after any period not less than five years; interest payable semi-annually, at not exceeding 6 per centum per annum when in coin, or $7\frac{1}{2}$ per centum per annum when in currency. In addition to the amount of bonds authorized by this act authority was also given to convert Treasury notes or other interest-bearing obligations into bonds authorized by it. The act of April 12, 1866, (14 Statutes, 31,) construed the above act to authorize the Secretary of the Treasury to receive any obligations of the United States, whether bearing interest or not, in exchange for any bonds authorized by it, or to sell any of such bonds, provided the public debt is not increased thereby.

CONSOLS OF 1865.

The act of March 3, 1865, (13 Statutes, 468,) authorized the issue of \$600,000,000 of bonds or Treasury notes, in addition to amounts previously authorized; the bonds to be for not less than \$50, payable not more than forty years from date of issue or after any period not less than five years, interest payable semi-annually, at not exceeding 6 per centum per annum when in coin, or $7\frac{1}{2}$ per centum per annum when in currency. In addition to the amount of bonds authorized by this act, authority was also given to convert Treasury notes or other interest-bearing obligations into bonds authorized by it. The act of April 12, 1866, (14 Statutes, 31,) construed the above act to authorize the Secretary of the Treasury to receive any obligations of the United States, whether bearing interest or not, in exchange for any bonds authorized by it, or to sell any of such bonds, provided the public debt is not increased thereby.

CONSOLS OF 1867.

The act of March 3, 1865, (13 Statutes, 468,) authorized the issue of \$600,000,000 of bonds or Treasury notes, in addition to amounts previously authorized; the bonds to be for not less than \$50, payable not more than forty years from date of issue or after any period not

for by Congress. The certificates were issued, one-third to the State of Maine and two-thirds to the State of Massachusetts, both for the use and benefit of the European and North American Railway Company, and were in full adjustment and payment of any and all claims of said States or railway company for moneys expended (or interest thereon) by the State of Massachusetts on account of the war of 1812-'15.

FIVE-PER-CENT FUNDED LOAN OF 1881.

The act of July 14, 1870, (16 Statutes, 272,) authorizes the issue of \$200,000,000 at 5 per centum, principal and interest payable in coin of the present standard value, at the pleasure of the United States Government, after ten years; these bonds to be exempt from the payment of all taxes or duties of the United States, as well as from taxation in any form by or under State, municipal, or local authority. Bonds and coupons payable at the Treasury of the United States. This act not to authorize an increase of the bonded debt of the United States. Bonds to be sold at not less than par in coin, and the proceeds to be applied to the redemption of outstanding 5-20s, or to be exchanged for said 5-20s, par for par. Payment of these bonds, when due, to be made in order of dates and numbers, beginning with each class last dated and numbered. Interest to cease at the end of three months from notice of intention to redeem. The act of January 20, 1871, (16 Statutes, 399,) increases the amount of 5 per cents to \$500,000,000, provided the total amount of bonds issued shall not exceed the amount originally authorized, and authorizes the interest on any of these bonds to be paid quarterly.

The act of December 17, 1873, (18 Statutes, 1,) authorized the issue of an equal amount of bonds of the loan of 1853, which the holders thereof may, on or before February 1, 1874, elect to exchange for the bonds of this loan.

The act of January 14, 1875, (18 Statutes, 296,) authorizes the Secretary of the Treasury to use any surplus revenues from time to time in the Treasury not otherwise appropriated, and to issue, sell, dispose of, at not less than par, in coin, bonds of this loan, to the extent necessary for the redemption of fractional currency in silver coins of the denominations of ten, twenty-five, and fifty cents, of standard value.

The act of March 3, 1875, (18 Statutes, 466,) directs the Secretary of the Treasury to issue bonds of this loan to James B. Eads or his legal representatives in payment at par of the warrants of the Secretary of War for the construction of jetties and auxiliary works to maintain a wide and deep channel between the South Pass of the Mississippi River and the Gulf of Mexico, unless Congress shall have previously provided for the payment of the same by the necessary appropriation of money.

APPENDIX B.

REPORT OF THE TRANSACTIONS OF THE DIVISION OF SPECIAL AGENTS

TREASURY DEPARTMENT,

Office of the Secretary, Washington, D. C., November 19, 1877.

SIR: I have the honor to submit the following report of the transactions of the Division of Special Agents during the past year:

Number of custom-houses inspected, 118.

Reduction in expense of collecting revenue from customs—

In rentals..... \$59,344 00
 In compensation of 261 employés..... 285,594 39

Total reduction 344,938 39

Amount of defalcations of customs-officers ascertained and reported..... \$30,700 01
 Of this amount there has been paid into the Treasury 4,064 00

Leaving a balance of 26,636 01
 which, it is expected, will be recovered by suit on official bonds.
 Value of seizures reported by special agents \$129,071 23
 Fines collected 2,800 00
 Amount recovered on suits..... 56,649 59
 Amount recovered without suit 12,010 38
 Increased duties collected..... 147,482 85

Total 348,014 05

Number of agents employed, 20.
Per-diem compensation..... \$57,422 00
Traveling expenses..... 19,447 81

Total cost of the special-agents' service..... 76,869 81

Number of arrests made on information of special agents, 14.

Two steamships have been libeled at the port of New York for smuggling.

It has been found impossible, with the number of special agents now allowed by law, to perform all the varied duties devolving upon this branch of the service, and it has been necessary to use as auxiliaries a number of inspectors of customs in several districts in which investigations have been made. These officers, being subordinate to the collectors and surveyors of customs in the districts to which they belong, cannot be expected to act with the same independence and effectiveness as special agents appointed by and employed under the direction of the Secretary of the Treasury. An increase in the number of special agents is therefore respectfully recommended.

Very respectfully,

A. K. TINGLE,
Supervising Special Agent.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

APPENDIX C.

Statement of customs-refunds made by the Treasury Department during the fiscal

Date.	To whom refunded.	Nature of refund.	Duty.
1876.			
July 3	A. Bergoden	Fifty per cent. additional duty under joint resolution of April 29, 1864.	\$238 50

OFFICE OF COMMISSIONER OF CUSTOMS, *September 19, 1877.*

I certify that the foregoing statement is correct.

H. C. JOHNSON,

Commissioner of Customs.

EXHIBIT A.

TREASURY DEPARTMENT,
Washington, D. C., October 4, 1876.

SIR: The department is in receipt of your report of the 29th ultimo, further in regard to certain 125 bales of wool, embraced in Schedule C, previously submitted by you, from which it appears that the merchandise in question is the same as that covered by appeal No. 88e, upon which you reported on the 27th of April last, and as to which the department, on the 17th of August last, affirmed your assessment of duty at the rate of 4 cents per pound.

The action of the department, in affirming your decision, was based upon your report that the rate of duty on said merchandise would be the same, whether the assessment was made under department's instructions of October 21, 1875, or those of March 25, 1876, the addition of the export duty being sufficient to raise the price of the wool above 12 cents per pound.

It now appears, however, that this statement was erroneous, and that the value of the wool is not carried above 12 cents per pound by the addition of the export duty.

It further appearing that the withdrawal of the wool in question was made subsequently to said instructions of March 25, 1876, the department hereby revokes its former action based upon an erroneous statement of facts, and sustains the appeal in question.

You are therefore instructed to prepare and forward to the department a certified statement for refund of the excess of duties exacted.

Respectfully,

CHAS. F. CONANT,
*Acting Secretary.*COLLECTOR OF CUSTOMS, *Boston, Mass.*

EXHIBIT B.

TREASURY DEPARTMENT,

Washington, D. C., June 30, 1876.

SIR: The department is in receipt of your report dated the 26th instant, with inclosures, relating to the classification for duty of an importation (or a portion thereof) of calf-hair goods, per "Baltic," May 2, 1876, consigned to H. Herrman & Co., being cases marked "H. H. & Co., 19097 / 8," covered by appeal ⁷⁰⁴⁴.

In view of the reports of the respective experts, Messrs. Piffard and Torrey, and of the explanatory letter, under date of 10th instant, from Professor Barnard, the latter relating to the circumstances or differences in the reports of the experts, which should be regarded as constituting a substantial agreement or disagreement in the results of their respective examinations, the department is of opinion that there is a substantial agreement between said experts upon the samples representing the cases above mentioned.

You are therefore hereby authorized and instructed, it appearing that such samples do not contain any appreciable quantity of wool, to regard the importations which they represent as embraced within the instructions under date of the 26th ult. relating to importations per the "Republic" and "Celtic," and to reliquidate the entry accordingly, forwarding also the necessary certificate for refund.

Respectfully,

By order:

C. F. BURNAM,

Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT C.

TREASURY DEPARTMENT,

Washington, D. C., September 11, 1876.

SIR: The Department is in receipt of your letter of the 19th ultimo, reporting on the appeal (1025°) of J. Lee Smith & Co., from your decision assessing duty at the rate of 35 per cent. ad valorem (as a painter's color) on certain oxide of iron imported per "Somerset" June 1, 1876, which the importers claim to be exempt from duty under the provision in the "free-list" for "colcothar, dry, or oxide of iron."

It appears from your report and an examination of a sample that the merchandise, although finely levigated and prepared for use as a pigment or polishing powder, is not the "Indian" red nor any other preparation of oxide of iron which is specially enumerated in the tariff, but is in fact the colcothar, dry, or oxide of iron, which is specified in the free-list.

Under these circumstances, the department is of opinion that the article, being thus specially provided for, cannot by reason of its capability for use as a "painter's color," or otherwise, be diverted from such classification or made liable to duty under the general provision referred to by the appraiser for "painters' colors * * * not otherwise provided for."

You are, therefore, hereby authorized to adjust the entry accordingly.

This ruling will also apply to the appeals (1381° and 1382°) of the same importers on their entries of such merchandise per "Colombo,"

July 10, and "Hindoo," June 24, 1876, which were reported upon by you on the 26th ultimo.

Respectfully,

CHAS. F. CONANT,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT D.

TREASURY DEPARTMENT,
Washington, D. C., December 15, 1876.

SIR: The department is in receipt of a letter, dated the 9th instant, from the United States Solicitor-General, in which he expresses the opinion that no writ of error should be taken to the Supreme Court of the United States in the case of Samuel Cary *vs.* Arthur, (N. S., 2613.) This opinion is concurred in by the Attorney-General. The suit in question was tried at the October term for 1875, in the United States circuit court of the southern district of New York, and resulted in a judgment for the plaintiff.

The case in question involves the dutiable character of certain descriptions of burr-stones.

The plaintiff claimed that burr-stones of two classes were, under the law, exempt from duty, as follows: First, solid burr-stones, circular in form, faced on one side and on the edge, and with a hole cut through the center; and, second, sections of burr-stones imported in casks, sized and cut, so as to be put together for the purpose of being manufactured or bound up into millstones.

This claim was based upon the 23d section of the act of March 2, 1861, which exempted from duty burr-stones, wrought or unwrought, but unmanufactured, not bound up into millstones. This provision is re-enacted substantially in the free list of the Revised Statutes, which reads, "burr-stones in blocks, rough or unmanufactured, and not bound up into millstones;" and the two provisions are regarded as identical in their effect. The judgment sustains the position taken by the plaintiff, and in view of the opinion of the Solicitor-General and Attorney-General, the department decides to acquiesce in the judgment so obtained, and you are, therefore, directed to take the proper steps for its payment, and to hereafter cause the practice at your port to conform thereto, as regards the dutiable classification of such merchandise.

In cases of like character, upon which the requirements of the law have been observed as to protest, appeal, and suit, proceedings will be taken for reliquidation of entries, and certified statements will be prepared and forwarded to this department.

Respectfully,

L. M. MORRILL,
Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT E.

TREASURY DEPARTMENT,
Washington, D. C., September 26, 1876.

SIR. The department is in receipt of your report of the 21st instant, with accompanying schedules, embracing, as you allege, all cases at your port, whether in suit or not, involving the question of the duty on

so-called terne tin, and asking further instructions as to the disposition thereof.

For reply, you are informed that the department, with the concurrence of the Attorney-General, acquiesces in the judgment recently recovered against the defendant in the case of Auchincloss against Arthur, (N. S., 2936,) in which it was judicially determined that the merchandise in question is subject to duty at the rate of 15 per cent. *ad valorem*, under section 4 of the act of June 6, 1872, reproduced in schedule E of the consolidated tariff.

Referring to section 1 of the act of March 3, 1875, you are authorized to prepare and forward certified statements for refund of duties upon all entries embraced in Schedule A accompanying your report, except the last three, as to which it appears suit was not commenced in proper time.

With reference to the first entry in Schedule B, consisting of thirty-nine packages imported, per "City of Montreal," by J. & H. Auchincloss, you will report whether the parties have duly complied with the law relating to protest, appeal, and commencement of suit.

The schedules referred to, which are herewith returned as requested, you will retransmit with your further report.

Respectfully,

L. M. MORRILL,
Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT F.

TREASURY DEPARTMENT,
Washington, D. C., August 15, 1876.

SIR: The department is in receipt of a communication from the United States district attorney at New York, reporting that during the last circuit Judge Wallace decided the case of J. H. Murray vs. C. A. Arthur in favor of the plaintiff, and recommending that the amount for which the verdict was given should be paid, for the reason that the sum is not large, and that the case is so peculiar in its facts that it is not likely to serve as a precedent for any other.

These facts were substantially as follows: certain extract of beef, entered at a value less than the market-rate, was seized, and proceedings were commenced in the district court for its forfeiture.

The claimant admitted the forfeiture, which was subsequently remitted by the Secretary of the Treasury, on condition that duties should be paid or the beef exported.

A portion of the beef was exported, and the plaintiff paid to the collector of customs the penal duty of 20 per cent. which accrued by reason of the undervaluation of the merchandise on entry.

The action was to recover from the collector this penal duty, namely, \$400.

The department does not agree with the decision of the court, but, for the reasons expressed by the district attorney, deems it expedient to pay the judgment from which the Attorney-General, in his letter dated the 25th instant [ultimo] certifies that no writ of error will be taken.

On the entry of satisfaction of said judgment, you will take the necessary steps for refunding the penal duties exacted as aforesaid.

Respectfully,

L. M. MORRILL,
Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT G.

TREASURY DEPARTMENT,
Washington, D. C. November 28, 1876.

SIR: In view of the special report of the appraiser, transmitted by you under date of the 26th ultimo, after the special examination authorized by the department on the 16th ultimo, and of the evidence accompanying the same, all relating to the classification of brimstone, whether crude or refined, the department, having carefully examined and considered such evidence and report, adopts the following conclusions as stated by the appraiser, to wit:

(1.) The article known in commerce as *crude* brimstone is brimstone procured from sulphurous ore by the process of roasting, fusing, or smelting, by which it is separated from rock and earthy matter, but which leaves it in a state of impurity, the pure native sulphur found in the ore being mingled with the impure portions thereof.

(2.) The only article known in commerce as *refined* brimstone is that which is obtained from the *crude* brimstone by the process of vaporization and sublimation, which releases the sulphur from all foreign matter, and leaves it chemically pure. It is found in commerce under the designation of virgin rock brimstone, roll brimstone, and flowers of sulphur. *Crude* brimstone is always shipped *in bulk*, whereas the *refined* article cannot be so shipped, without destroying or greatly impairing its commercial value.

(3.) The brimstone embraced in the appeals of Messrs. Battelle & Renwick, and other importers, all of whom are represented by Mr. Grenelle, as their attorney, was imported *in bulk* from Sicily, and had been there obtained from the sulphurous ore by the rude process of roasting, or smelting, which is the only process there applied—and had been thus separated from the rock and earthy matter, but was not entirely freed from impurities. This brimstone was therefore, in view of the evidence that has been produced by Mr. Grenelle, commercially known and regarded as *crude* brimstone; and, as the evidence produced would appear to conclusively establish that fact, I am constrained to believe that the merchandise was erroneously classified in this department as "*refined brimstone*," subject to duty at the rate of \$10 per ton, and that it should have been classified as *crude* brimstone, exempt from duty under section 2505 of the Revised Statutes.

The evidence supporting these conclusions, consisting of the testimony of foreign producers and dealers in the article, and of domestic importers, refiners, and other experts, is so abundant, direct, and clear, that there would seem to be no room for doubt on the subject.

You are therefore hereby authorized and instructed to return to the appraiser for reconsideration the invoices of such importations of brimstone alleged to be crude as have not been withdrawn under protest.

With reference to importations withdrawn on payment of duties under protest and appeal, further specific instructions will be given.

Respectfully,

LOT M. MORRILL,
Secretary.

COLLECTOR OF CUSTOMS, New York.

EXHIBIT H.

TREASURY DEPARTMENT,
Washington, D. C., November 21, 1876.

SIR: Referring to instructions addressed to you under date of the 19th of July last, informing you of my determination to adhere to the position theretofore taken by the department in the matter of the assessment of duty on "striped and fancy Italians," so called, until after a trial of one of the suits then pending in court, which involved the question, I now have to state that the department is in receipt of a communication, dated the 2^d instant, from the U. S. attorney at New York,

by which it appears that the suit of Louis Blumgart *et al. vs. C. A. Arthur*, (N. S., 4468,) involving the question referred to, was duly tried on the 27th ultimo, in the U. S. circuit court for the southern district of New York, and resulted in a verdict for the plaintiffs, sustaining the position taken by the importers that said goods are dutiable according to their value per square yard, under the provision for "real or imitation Italian cloths," in Schedule L.

The result of said trial was, in accordance with the provisions of section 1 of the act of March 3, 1875, submitted to the Attorney-General, who, under date of the 18th instant, certifies that as the question involved is one of fact, the judgment must be deemed conclusive, and recommends that the principle thereby established be "recognized in similar importations and cases, any prior contrary ruling of your [this] department notwithstanding."

Under these circumstances, and in accordance with such recommendation, the department acquiesces in the conclusions aforesaid, and you are therefore hereby directed to take the necessary steps for refunding any duties exacted on the merchandise covered by the above-mentioned suit, which, according to the principle established by the judgment therein, were exacted in excess of the proper amount.

The same course will be taken by you with regard to the entries of similar goods where the requirements of law as to protest, appeal, and bringing of suit have been duly complied with by the importers, and you will also cause the practice at your port, in assessing duty on future importations of such goods, to conform to the said decision, which is to the effect that the so-called striped and fancy Italians are dutiable, when valued at not exceeding twenty cents per square yard, at six cents per square yard and 35 per cent. ad valorem, and when valued at over twenty cents per square yard at eight cents per square yard and 40 per cent. ad valorem.

Respectfully,

LOT M. MORRILL,

Secretary.

COLLECTOR OF CUSTOMS, *New York.*

TREASURY DEPARTMENT,

Washington, D. C., February 3, 1877.

SIR: In department's letter of the 10th ultimo you were authorized to take the necessary steps to pay the judgment recovered by the plaintiffs in the case of *Herrman vs. Arthur*, involving the proper rate of duty on certain descriptions of goods claimed to be women's and children's dress goods.

I have now to state that from the reports of the United States attorney for the southern district of New York, it appears that the goods involved in that case were black in color, and of the class known as figured and fancy alpacas and diagonals. They appear to be of the description of goods which, when not black, are accepted as liable to duty under the provision in Schedule L for women's and children's dress goods when weighing under four ounces per square yard.

In view of the fact that the department has directed steps to be taken for payment of the judgment in the case mentioned, you are hereby instructed that goods identical in character with those embraced in that case will hereafter be admitted to entry at the rate of duty decided by the court in that case to be correct.

In cases where protest, appeal, and suit have been duly instituted, (where such suit was necessary,) you will refer invoices of the class of

goods named to the appraiser for an amended return of classification, and upon receiving such return, you will readjust the entries embraced in such appeals and suits, and forward certified statements to the department for a refund of the duty exacted in excess.

Very respectfully,

CHAS. F. CONANT,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

TREASURY DEPARTMENT,
Washington, D. C., May 14, 1877.

SIR: Referring to the letter of this department dated the 3d of February last, relating to the decision in the case of *Herrman vs. Arthur*, in which the question as to the proper classification of goods known as figured and fancy alpacas, diagonals, &c., black in color, and composed wholly or in part of wool, worsted, the hair of the alpaca, goat, or other like animals, was involved, I have to state that the department deems it proper to more clearly define the goods which, in its opinion, such decision should be held to cover.

The evidence adduced at the trial of the case mentioned shows that dealers in dress-goods regard fabrics of the kind above alluded to as dress-goods, and sell them as such for the use of women and children, while tailors and dealers in cloths for men's wear use them for linings and similar purposes.

It appears, also, that they are sometimes used in the manufacture of upholstery.

Similar goods, colored, have been classified as dress-goods; and the color, and in some instances the figure, appears to have been the only tangible difference between the goods first above mentioned and others heretofore classified as dress-goods.

It seems to be impracticable to determine with certainty, at the time of the examination by the appraisers, the uses to which such goods are ultimately to be applied; and it is the opinion of the experts of the customs service generally, who have been consulted, that the articles should be classified as dress-goods when they are of such a character as to reasonably fit them for use as such goods.

It is therefore directed that all such fabrics, composed wholly or in part of wool, worsted, the hair of the alpaca, goat, or other like animals, weighing less than four ounces to the square yard, and known as figured and fancy alpacas, diagonals, mohair serges, fancy mohair, or London twills, shall be classified hereafter as women's and children's dress-goods, or as assimilating thereto, under the decision aforesaid and Schedule L of the tariff.

When, however, such fabrics are obviously designed for use in the manufacture of upholstery or other articles, and are not of the character sold as dress-goods for women or children, they will be excluded from classification as dress-goods.

Respectfully,

JOHN SHERMAN, *Secretary.*

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT I.

TREASURY DEPARTMENT,
Washington, D. C., November 1, 1876.

SIR: The department is in receipt of your letter of the 3d ultimo, transmitting the appeal (1876 E) of J. W. Valentine from your decision assess-

ing duty at the rate of 30 per centum *ad valorem* on certain vegetable fiber imported per "Bolivar," from Aspinwall, September 16, 1876, which the importer claims to be dutiable at the rate of 10 per centum *ad valorem* as a raw material not otherwise provided for.

After due consideration of the question involved, and an inspection of samples, the department has arrived at the conclusion that the claim of the importer is correct. The merchandise in question is clearly a raw vegetable fiber, wholly unmanufactured, and, although intended for use in the manufacture of hats, cannot be considered as coming within the provision for "braids, plaits, flats, laces, willow sheets and squares" for hats, in Schedule M, which, by the terms used, must be articles manufactured, in whole or in part, from some vegetable or animal substance.

The department, therefore, decides in accordance with its ruling in a somewhat similar case, dated April 22, 1876, (S. S. 2764,) that the merchandise is dutiable at the rate of 10 per centum *ad valorem*, under the provision in section 2516 of the Revised Statutes, for "all raw or unmanufactured articles not herein enumerated or provided for."

You are hereby directed to reliquidate the entry accordingly, and to forward a certified statement for a refund of duties erroneously exacted.

Respectfully,

L. M. MORRILL,
Secretary.

COLLECTOR OF CUSTOMS, *New Orleans, La.*

EXHIBIT K.

TREASURY DEPARTMENT,
Washington, D. C., January 18, 1877.

SIR: On the 16th ultimo the United States attorney for the southern district of New York reported that the case of Hill *vs.* Arthur, collector, &c., (N. S. 4373,) had been brought to trial in the United States circuit court at New York, and that judgment had been recovered by the plaintiff.

The case involved the question of the rate of duty on an importation of "orange mineral," on which the collector had exacted a duty of three cents per pound, as coming under the provision in Schedule M for "red lead," or as assimilating thereto, in pursuance of department's instructions of September 3, 1874, the claim of the importer (plaintiff) being that said article should be classified under the provision of said schedule for "paints or painters' colors," at a duty of 25 per centum *ad valorem*.

The claim of the importer having been sustained by the said judgment, and the Attorney-General, to whom the question was referred, having certified that no appeal or writ of error should, in his opinion, be sued out, in which view this department concurs, you are hereby instructed to forward a certified statement, in the usual form, with a view to the payment of said judgment, (principal in coin and interest and costs in currency,) on receipt of notice from the United States attorney at your port that the same has been satisfied of record.

You are further instructed to classify for duty all future importations of "orange mineral" in accordance with the views herein expressed, to liquidate all entries of such articles upon the same basis, provided the law as to protest, appeal, and time of commencement of suit has, in each case, been duly observed, and to forward certified statements in each

case for any excess of duty paid, said instructions of August 19, 1876, being hereby reversed.

Respectfully,

L. M. MORRILL,
Secretary of the Treasury.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT L.

TREASURY DEPARTMENT,
Washington, D. C., January 20, 1877.

SIR: Your letter of the 22d ultimo was duly received, submitting the appeal ($\frac{272\frac{5}{8}}{85\frac{5}{8}}e$) of Messrs. Dieckerhoff, Raffloer & Co. from your decision assessing duty at the rate of 60 per cent. ad valorem on certain "button-stock," so called, imported by them per the steamer City of Berlin, November 13, 1876.

The report of the appraiser, transmitted by you, contains the following: "The article is for top or face of buttons, and is composed of a silken thread, knit with a crochet-needle upon a wire or metal frame, to give shape, form, and consistency to the button, already more than half completed, and is something more than a manufacture of cloth woven or made in patterns of such size, shape, or form, or cut in such manner, as to be fit for buttons exclusively, and is, therefore, assessable for duty as a manufacture of silk and metal 60 per cent. not otherwise provided for, under the act of February 8, 1875."

This reference to the act in question does not quote its provisions in full. That act imposes a duty of 10 per cent. "on lastings, mohair cloth, *silk twist*, or other manufactures of cloth woven or made in patterns of such size, shape, or form, or cut in such manner, as to be fit for buttons exclusively."

An examination of the samples accompanying the appraiser's report shows that the article in question is simply a cover for a button, the open work in the center being worked on a small iron frame, and is evidently intended for, and adapted exclusively to, the manufacture of buttons.

The samples, with the papers in the case, have been submitted to the collectors and appraisers at Boston and Philadelphia, who each express the opinion that the article in question is subject only to a duty of 10 per cent. ad valorem under the act referred to.

The department concurs in this opinion, and you are directed to readjust the entry at the rate of 10 per cent. ad valorem.

The invoice submitted is herewith returned.

Respectfully,

LOT M. MORRILL,
Secretary of the Treasury.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT M.

TREASURY DEPARTMENT,
Washington, D. C., February 24, 1877.

SIR: The department is in receipt of a letter dated Boston, the 6th ultimo, from J. W. Blake, esq., treasurer of the Saxonville mills, requesting, in behalf of said mills, the payment of judgments in two suits, Nos. 1021 and 1024, recovered by said mills as plaintiffs against yourself as

collector for the repayment of a duty of one cent per pound paid in excess on certain importations of wool made into your port from Rosario and Montevideo in 1875.

The amounts recovered in these two judgments appear to be \$9,542.29, principal and interest, and \$19.13 costs in the one case, and \$4,521.42, principal and interest and \$19.13 costs in the other case.

The additional duty of one cent per pound on this wool was, it is understood, exacted in pursuance of a decision of this department, dated October 21, 1875, (No. 2474,) and section 2903 of the Revised Statutes, and it is understood that the value of the wool was raised above twelve cents per pound by adding to the actual market value of the wool at the ports of shipment export duty and charges which accrued at those ports.

The papers in the case were referred to the Attorney-General, and that officer reports, under date of the 22d instant, that there is no course left but to acquiesce in said judgments, and advises that no appeal be taken therefrom.

You are, therefore, instructed to forward the usual certified statements for payment of said judgments, to which will be attached the certificates of the clerk of the court.

The following is a statement of the entries covered by the two suits, taken from the copy of the bill of particulars, which your letter of the 17th of November last certified was correct:

<i>Vessel.</i>	<i>Date of entry.</i>	<i>Excess of duty claimed.</i>
Alice Campbell,	May 24, 1875.....	\$2,355 24
Sam'l B. Hale,	July 10, 1875.....	3,646 54
Rebecca Crowell,	July 15, 1875.....	2,994 75
		<hr/> 8,996 53
Salve,	May 25, 1875.....	1,509 98
Salve,	May 25, 1875.....	1,005 00
Nonpariel,	July 17, 1875.....	1,500 00
Nonpariel,	July 17, 1875.....	255 00
		<hr/> 4,269 98

Respectfully,
By order:

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *Boston, Mass.*

EXHIBIT N.

TREASURY DEPARTMENT.
Washington, D. C., March 1, 1877.

SIR: I inclose herewith a letter, dated the 3d of May last, from George Bliss, esq., then district attorney of the United States for the Southern District of New York, reporting the trial of the case of Fowler against Arthur, which involved the rate of duty upon rice imported by the plaintiff, in 1873, from India.

Duty was assessed upon this article at the rate of 2½ cents per pound, upon the decision of the department that this character of rice was to be regarded as cleaned rice. The importer claimed that the rice was subject to duty at 2 cents per pound as uncleaned rice; and in the district attorney's report it appears that the rice was known as table-rice of India, imported in a partially cleaned condition, and that the result of the trial was in favor of the plaintiff.

In that report the district attorney states as follows :

In conclusion I have only to express the opinion that the government has nothing to gain by trying any more of these cases in this district upon the merits, although I am satisfied that the table-rice of India; as the rice in question was invoiced, was, in fact, designed to be covered by the term "cleaned rice," as used in the tariff of 1864.

The case of Bailey against Goodrich, involving the same question, has been tried at Boston, and with the same result as that attained at New York, viz, a verdict in favor of the importer.

The district attorney at Boston took some exceptions during the trial, with the view of carrying the case to the Supreme Court, but they did not relate to the real merits of the case, and were upon other questions.

It may be also stated that the case of Low against Shannon, which involved the same question, was tried at San Francisco, and a verdict in that case was also obtained in favor of the importer.

In view of these facts, the bill of exceptions in the case of Bailey against Goodrich was referred to the Attorney-General for an opinion as to whether, upon the points presented, the interests of the government demanded a review of the case by the Supreme Court of the United States.

The Attorney-General's opinion has since been received, dated the 23d ultimo, in which he states that, inasmuch as the verdicts in this class of cases have heretofore been adverse to the government, and, as it is believed by the United States attorneys at Boston and New York, always will be so, upon the issue of fact presented, he does not deem the legal questions raised by the exceptions in the case of Bailey against Goodrich to be of such a nature or importance as to justify taking the case to the Supreme Court with small prospect of a favorable verdict upon a second trial; and he recommends an acquiescence in the judgment of the circuit court in that case.

In accordance with this recommendation, the department addressed a letter to the collector of customs at Boston, under date of the 26th ultimo, advising him that the department had decided to acquiesce in the judgment in that case, and authorized him to prepare and forward the necessary papers for payment of the same.

In view of these facts, you are hereby authorized to forward the necessary certified statement for payment of the judgment in the case of Fowler against Arthur.

Circular instructions will shortly be issued defining the practice which shall obtain in regard to the assessment of duty on rice imported into the United States.

You will please return the inclosure when you shall have availed yourself of its contents.

Respectfully,

CHAS. F. CONANT,
Acting Secretary.

(One inclosure.)

COLLECTOR OF CUSTOMS, *New York.*

TREASURY DEPARTMENT,
Washington, D. C., March 8, 1877.

SIR: By the decision of the department, dated June 14, 1865, addressed to the collector of customs at San Francisco, published in the printed decisions of that year, it was held that Patna rice, of which the hull and inner cuticle or skin had been removed, was subject to classifi-

eration as cleaned rice, and was liable to the rate of duty appertaining to that description of merchandise.

This ruling was affirmed by the further decision of October 15, 1866; also printed in the decisions for that year.

The decision of December 3, 1874, (2026,) held that Siam rice which had been hulled, and which was of the same general character as that before mentioned, was also subject to classification as cleaned rice.

Protests and appeals from assessments of duty under these decisions were duly made, and trials of different cases, involving the question, have been had at San Francisco, Boston, and New York, in which judgments were rendered in favor of the plaintiffs, upon the ground that the rice in question was not the cleaned rice of commerce, and was, therefore, subject only to duty as uncleaned rice.

In the case of Bailey Brothers against Goodrich, which was tried at Boston, the judgment was in favor of plaintiffs upon the questions of fact presented; and in a letter of this department to the collector of customs at Boston, dated the 26th ultimo, instructions were given to pay that judgment, the Attorney-General of the United States having certified that, in his opinion, the case was not one demanding review by the Supreme Court. Department's letter to you of the 1st instant directed payment of the judgment in the case of Fowler against Arthur, which involved the classification of similar rice, in which judgment was rendered for the plaintiff.

In view of these facts the department reverses its previous rulings, and holds that rice of the character mentioned in the decisions before cited is subject to classification as uncleaned rice, and is chargeable with the duty appropriate thereto.

You will, therefore, be governed accordingly. Any duties which may have been exacted and received contrary to the ruling herein laid down, which may have been paid under protest and appeal and suit duly instituted, will be refunded by this department upon the forwarding of certified statements for repayment thereof, and you are directed to forward statements in such cases for the consideration of the department.

Respectfully,

CHAS. F. CONANT,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT O.

TREASURY DEPARTMENT,
Washington, D. C., January 18, 1877.

SIR: The department is in receipt of your letter of the 22d ultimo, transmitting the appeals ($\frac{2730}{2171}$, $\frac{2131}{2170}$, and $\frac{2132}{2172}$;) of Henry W. Morgan from your decision assessing duty on certain mineral water imported per "Maas," July 17; "W. A. Scholten," August 22; and "Rotterdam," September 5, 1876; which the importer claims to be natural spring water, and exempt from duty.

It appears from the special report of the appraiser that the merchandise was originally returned by him as *artificial* water, and as such liable to duty, but that he is now satisfied, after a careful examination thereof, and from the proofs submitted by the importer, (which conform to department's instructions of September 18, 1876, S. S. 2973,) that

such return was erroneous, and that the water (Seltzer) is the natural product of the Tannus Spring, in Gross Karben, Holland.

"Mineral waters, all not artificial," are specified in the "free list," and you are hereby authorized to remit the duties on the said merchandise, and, if necessary, to forward a certified statement for refund.

This ruling will also apply to the entry per "Aeolus," September 12, 1876, of similar mineral water from the same spring, embraced in the appeal ($\frac{27333}{8063}$) of Runk & Unger, which was transmitted by you on the 23d ultimo.

Respectfully,

By order:

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT P.

TREASURY DEPARTMENT.

Washington, D. C., February 2, 1877.

SIR: The department is in receipt of your letter of the 17th ultimo submitting the appeal ($\frac{29996}{8588}$) of Mr. Leon Rheims from your assessment of duty at the rates of $5\frac{1}{2}$ cents per square yard, and $5\frac{1}{2}$ cents per square yard and 20 per cent. ad valorem, respectively, on certain so-called buckram, imported by him per Rhein, November 6, 1876, and claimed to be entitled to entry at the rate of 35 per cent. ad valorem, as "manufactures of cotton not otherwise provided for."

The importer also claims that the measurement of the goods was incorrect.

It appears from the special report of the appraiser that the goods in question consist of manufactures of cotton, bleached and colored, of two different qualities, woven separately and joined together by a starching process, and intended for use for ladies' bonnet-frames; that the number of threads in each quality, when counted separately, does not exceed one hundred threads to the square inch, but when counted together exceeds that number, and that the goods do not exceed five ounces to the square yard in weight.

From an examination of the samples submitted, and in view of the report of the appraiser, that the number of threads in each component part of the goods does not exceed one hundred threads to the square inch, and that they weigh less than five ounces to the square yard, the department is of the opinion that they are not embraced in the first two clauses of schedule A, Revised Statutes, and that they should be classified for duty at the rate of 35 per cent. ad valorem under the provision in said schedule for "all other manufactures of cotton not otherwise provided for."

You will, therefore, adjust the entry accordingly, and forward a certified statement for the refund of the excess of duties.

The appellant also claims that the measurement of the goods was returned by the appraiser in yards, and that the amendment clerk in your department claims that it reads "metres."

The appraiser reports that his original return was that each piece contains "20 yards in the width of 47 inches," and the entry should therefore be liquidated accordingly.

Respectfully,

CHAS. F. CONANT,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT Q.

TREASURY DEPARTMENT,
Washington, D. C., March 1, 1877.

SIR: In stating customs account No. 1728, on July 30, 1873, for the payment of a judgment in favor of Messrs. Wills, Edmands & Co., against the collector of customs at Boston, for excessive duties exacted on gunny-cloth, there was withheld and deducted from the amount thereof the sum of \$615.92, on account of certain duties which the U. S. claimed to be due from said parties on other merchandise before that time imported at Boston.

This claim which has since been the subject of two suits brought by the United States against the said parties, has been decided by the court, in one of the suits, in favor of the parties, (the other suit being suspended to abide the result,) and now the parties make application for the payment of the sum so withheld as aforesaid.

The matter having been referred to the Solicitor of the Treasury, that officer, by letter dated the 23d ultimo, expresses the opinion that there are no legal objections to the payment of the said sum, and that the request of the parties should be granted.

You are therefore requested to state an account for the sum of \$615.92 and interest, in favor of Wills, Edmands & Co.

Respectfully,

By order:

H. F. FRENCH,
Assistant Secretary.

D. W. MAHON, Esq., *First Auditor.*

EXHIBIT R.

TREASURY DEPARTMENT,
Washington, D. C., April 18, 1877.

SIR: The department is in receipt of your letter dated the 3d instant, transmitting the appeal (3175 E) of Jacob Rech, from your decision assessing duty at the rate of 35 per cent. ad valorem, upon certain iron axles imported by him per "Switzerland," January 12, 1877.

It appears from your report that the axles were accompanied by iron wagon or carriage boxes fitted and attached to them, and by wrenches for each set, all being covered by one price in the invoice.

The axles are similar to those mentioned in the appeals of Messrs. Brewster & Co., of New York, in regard to which the department decided January 20, 1874, that in view of the small value of the accessories to the axles, the whole should be classified under the provision for "axles or parts thereof" in Schedule E of section 2504 R. S., and assessed at the rate of $2\frac{1}{2}$ cents per pound.

As there has been no change in the law governing the dutiable classification of the articles in question, and as the facts are similar in each case, the department decides that the appeal of Mr. Rech is well taken.

This decision is intended to apply only to the axles, and to the nuts, bolts, boxes, &c., actually fitted and attached thereto at the time of importation. Boxes, wrenches, or other articles not so fitted and attached do not form a part of the axles, and should not be classified under the provision for axles.

You will readjust the entry accordingly, and take measures for the refund of any duties erroneously assessed on the merchandise covered by the appeal above specified.

Respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *Philadelphia, Pa.*

EXHIBIT S.

TREASURY DEPARTMENT,
Washington, D. C., March 23, 1877.

SIR: The department is in receipt of your letter of the 2d instant, submitting the following appeals from your assessment of duty at the rate of two cents per pound on certain dried-lichee fruit which was classified for duty under the provision in Schedule M, section 2504 Revised Statutes, for "nuts of all kinds not otherwise provided for," the appellants claiming that the article is entitled to entry at the rate of 10 per cent. ad valorem, under the provision in said schedule for "green, ripe, or dried fruits not otherwise provided for," viz:

3537e. Kwong, Hang, On & Co., "Alice Buck," December 22, 1876.

3538e. Lee Fat, do. do.

3539e. Shun Yuen & Co., do. do.

3540e. do. do. do.

3541e. Sing Kee & Co., do. do.

3542e. Yuen Wo & Co., do. do.

It appears, upon investigation, that the article in question is a fruit which grows in clusters on a small bush, the skin or outer covering of which is of a bright red color, soft and pliable when ripe; that, on being sun-dried for exportation, the skin becomes hard and brittle, somewhat resembling the shell of a nut, and that the article is known commercially as fruit, both in the green and dried state.

The department is therefore of opinion that the claim of the importers is well founded, and you are hereby authorized to readjust the entries accordingly, and to forward certified statements for the refund of the excess of duties exacted thereon.

Respectfully,

JOHN SHERMAN,
Secretary.

COLLECTOR OF CUSTOMS, *San Francisco, Cal.*

EXHIBIT T.

TREASURY DEPARTMENT,
Washington, D. C., April 19, 1877.

SIR: The department duly received your letter of February 15th last, transmitting the appeal (3276e) of E. A. Snow, from your assessment of duty at 20 cents per pound and 35 per cent. ad valorem, on certain "printers' blankets," so called, imported per Algeria, February 1, 1877.

Duty at the rates before mentioned was assessed under the provision in Schedule L, for "endless belts or felts for paper or printing machines," while the appellant claims that the article is not embraced within Schedule L, but is dutiable at the rate of 35 per cent. ad val-

orem as a manufacture of India rubber and cotton, and it is conceded that the article is manufactured of India rubber and cotton.

The provision in Schedule L for endless belts or felts for paper or printing machines is reproduced from the act of March 2, 1867, and the importer claims that the provision for endless belts or felts in that act and in Schedule L relates only to those articles when made of wool. He alleges that at the time of the passage of the act of 1867, there were no endless belts or felts for paper or printing machines manufactured of India rubber and cotton, and that consequently the article which forms the subject of the present appeal cannot be considered as coming within the provisions of Schedule L. This statement is not contradicted by either yourself, the appraiser at your port, or the customs officers at New York, to whom the papers were submitted.

Upon due consideration of the subject the department is of opinion that the provision in Schedule L, for endless belts or felts relates only to such articles as are manufactured wholly or in part of wool, worsted, the hair of the alpaca, goat, or other like animals, and does not include articles made of India rubber and cotton, like those under consideration.

It is therefore held that the appeal is well taken, and you will liquidate the entry at the rate of 35 per cent. ad valorem, and forward a certified statement for refund of the duties exacted in excess.

Respectfully,

JOHN SHERMAN,
Secretary.

COLLECTOR OF CUSTOMS, *Boston, Mass.*

EXHIBIT U.

TREASURY DEPARTMENT,
March 23, 1877.

SIR: The department is in receipt of your letter, dated the 27th ultimo, relating to certain machinery for the manufacture of jute, imported by Messrs. Buchanan & Lyall, per "Queen," October 21 and December 8, 1875; per "Egypt," December 30, 1875; and per "Caledonia," November 24, 1875.

It appears that this machinery was entered free of duty, but that the entries were subsequently liquidated as liable to duty, such duty amounting in the aggregate to \$21,154.95, none of which has been yet paid.

In the report of the appraiser, dated June 10, 1876, he states that the machinery in question is not an "assembling of several machines previously in use, but a complete system, exclusively adapted to the manufacture of yarn or twine from the jute fiber, to be woven into burlaps for the formation of oil-cloths, &c., and that the drawings, plans, and patterns for this machinery are of English origin, and essentially different from any heretofore in use in the United States."

He states, further, that an attempt to work hemp in combination with jute in this machinery resulted in the destruction of the cards and other damage to the machinery; and in his letter of June 28, 1876, he reports that he is entirely satisfied, after an examination of other machinery, and conference with manufacturers of machinery in this country, that the machinery in question is entitled to free entry under the act of February 8, 1875.

This opinion is reiterated in his report upon the subject, dated August 25, 1876.

A report has also been received from the United States appraiser at Philadelphia, who states that his examiner of machinery saw the machinery in operation at the international exhibition, and is of opinion that it could not be adapted to the manufacture of any material other than jute.

In the department's letter, dated the 5th of April, 1876, relating to these cases, you are informed that it was deemed proper that no measures should be taken for the collection of the liquidated duties until the question involved could be more fully considered.

You are now informed that, upon the facts stated, the department has concluded that the machinery is entitled to exemption from duty under the act of February 8, 1875.

You will therefore reliquidate the entries accordingly.

It is obvious that only machinery of a very peculiar construction would be entitled to free entry under the provisions of the statute cited, for "all machinery not now manufactured in the United States, adapted exclusively to manufactures from the fiber of the ramie, jute, or flax." This decision will not, therefore, be treated as a precedent for any other cases not specially considered by the department.

Respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT V.

TREASURY DEPARTMENT,
Washington, D. C., March 23, 1877.

SIR: In the matter of the suit of *Weihenmeyer vs. Arthur*, (N. S. 4164,) recently tried in the United States circuit court at New York, the district attorney, in a letter dated the 28th ultimo, advises the payment of the judgment in such case so far as it relates to the embroidered articles, so called, viz: First, the bead slipper-cases; second, worsted and silk slipper-patterns; third, worsted and silk slipper-patterns, upon all of which the excess of duties complained of amounted to \$373.62.

Upon entry, on the record, of satisfaction of the judgment to the extent mentioned, you will take measures, according to the usual course of procedure, for the repayment of the amount due under these instructions.

This action is taken for the reason that the district attorney and the Attorney-General are of opinion that the bill of exceptions in the above case, as certified by the court, does not present the questions involved in the suit in such a manner as to render advisable the presentation to the Supreme Court of that part of the record which relates to the articles named.

This action will, however, not be construed as a precedent for any other case.

The residue of the record will be presented to the Supreme Court, and the questions relating to embroideries will be tried when practicable in some other suit.

Respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

RECEIPTS FROM DISTILLERIES.

The receipts from the several sources relating to distilled spirits for the fiscal years ended June 30, 1876 and 1877, were as follows:

Sources.	Receipts for fis-cal year 1876.	Receipts for fis-cal year 1877.	Increase.	Decrease.
Spirits distilled from apples, peaches, or grapes.	\$592,166 59	\$1,373,255 73	\$781,089 14
Spirits distilled from materials other than apples, peaches, or grapes.	50,798,323 84	51,298,035 61	499,711 77
Wine made in imitation of champagne
Rectifiers	259,241 96	219,291 79	\$32,950 17
Dealers, retail liquor	3,991,945 06	3,840,469 09	151,475 97
Dealers, wholesale liquor	504,029 93	449,729 03	54,300 90
Manufacturers of stills	1,183 35	1,277 18	93 83
Stills or worms manufactured	2,500 00	2,209 29	290 71
Stamps for distilled spirits intended for export.	1,805 10	4,598 60	2,793 50
Stamps, distillery warehouse	96,411 10	106,263 40	9,852 30
Stamps, rectifiers'	131,703 80	130,903 50	800 30
Stamps, wholesale liquor dealers'	54,054 40	43,396 50	10,657 90
Total	56,426,365 13	57,469,429 72	1,293,540 54	250,475 95

Showing a net aggregate increase of \$1,043,064.59.

OPERATIONS AT DISTILLERY WAREHOUSES.

The following table shows the quantity of distilled spirits, in taxable gallons, at seventy and ninety cents tax, placed in distillery warehouses, withdrawn therefrom, and remaining therein, at the beginning and close of the fiscal year ended June 30, 1877 :

	Gallons.	Gallons.
Quantity of distilled spirits remaining in bond July 1, 1876, at 70 cents.....	184, 512	
Quantity of distilled spirits remaining in bond July 1, 1876, at 90 cents.....	12, 800, 384	
Total remaining in bond July 1, 1876.....		12, 984, 896
Distilled spirits exported and unaccounted for June 30, 1876, at 70 cents.....	279, 281	
Distilled spirits exported and unaccounted for June 30, 1876, at 90 cents.....	966, 943	
Total exported and unaccounted for June 30, 1876.....		1, 246, 224
Distilled spirits produced from July 1, 1876, to June 30, 1877, at 90 cents.....		59, 912, 268
		74, 143, 388
Distilled spirits withdrawn, tax-paid under act of June 6, 1872, at 70 cents.....	10, 041	
Distilled spirits withdrawn, tax-paid under act of March 3, 1875, at 90 cents.....	56, 838, 484	
Total withdrawn, tax-paid.....	56, 848, 525	
Distilled spirits exported under act of June 6, 1872, at 70 cents.....	179, 495	
Distilled spirits exported under act of March 3, 1875, at 90 cents.....	1, 654, 040	
Distilled spirits exported and unaccounted for, at 70 cents.....	99, 419	
Distilled spirits exported and unaccounted for, at 90 cents.....	1, 842, 431	
Distilled spirits allowed for loss by casualty, at 70 cents.....	116, 436	
Distilled spirits allowed for loss by casualty, at 90 cents.....	82, 795	
Distilled spirits withdrawn for scientific purposes, at 90 cents.....	3, 051	
Total withdrawn for all purposes named above.....		60, 826, 192
Distilled spirits remaining in bond June 30, 1877, at 70 cents.....	58, 402	
Distilled spirits remaining in bond June 30, 1877, at 90 cents.....	13, 258, 794	
Total remaining in bond June 30, 1877.....		13, 317, 196
		74, 143, 388

None of the spirits at seventy cents reported above as remaining in bond June 30, 1877, were actually in warehouse. The following statement shows the balance unaccounted for by districts, action taken to secure tax, &c.:

Districts.	Gallons.	Remarks.
Second Georgia.....	668	Bonds in suit.
Fifth Kentucky.....	2, 758	Seized and sold for violation of internal revenue laws.
Sixth Kentucky.....	250	Bonds in suit.
First Missouri.....	11, 417	Spirits forfeited and sold by marshal. Bonds in suit.
Fourth Ohio.....	25, 350	Claimed to have been destroyed by fire. Bonds in suit.
Eighteenth Ohio.....	3, 496	Bonds in suit.
Twenty-third Pennsylvania.....	549	Seized by United States marshal. Bonds in suit.
Fifth Tennessee, (old fourth).....	13, 914	Bonds in suit. Part stolen and part destroyed by casualty.
Total.....	58, 402	

Of the spirits at 90 cents reported as remaining in bond June 30, 1877, 167,021 gallons were not actually in warehouse, portions having been destroyed by fire, seized, &c., as shown in the following table:

Districts.	Gallons.	Remarks.
Second Alabama	25	Bonds in suit. Case disposed of since June 30, 1877.
Second Georgia	1, 887	Bonds in suit.
First Illinois	36, 930	Forfeited and sold by United States marshal. Bonds in suit.
Second Kentucky	30, 877	Bonds in suit.
Eighth Kentucky	103	Destroyed by fire. Claim for abatement pending.
First Missouri	74, 806	Seized, forfeited, and sold by United States marshal, for fraud.
Twelfth New York	1, 577	Destroyed by fire. Claim for abatement pending.
Sixth North Carolina	-1, 154	Judgment on bonds obtained.
First Ohio	244	Claimed to have been destroyed by fire.
Twenty-third Pennsylvania	17, 284	Bonds in suit.
Fifth Tennessee	948	Part seized for violation of law and part destroyed by fire.
Third Texas	238	Bonds in suit.
Fifth Virginia	669	Bonds in suit.
Sixth Virginia	279	Destroyed by fire.
Total	167, 021

OPERATIONS AT SPECIAL BONDED WAREHOUSES FOR THE STORAGE OF BRANDY MADE FROM GRAPES.

After the act of Congress providing for the establishment of special bonded warehouses for the storage of brandy made from grapes, approved March 3, 1877, became a law, considerable time was required to prepare suitable regulations, printed forms, and engraved stamps, so that no spirits were deposited in any special bonded warehouse prior to June 30, 1877.

The number of warehouses established under said act up to this date is six, as follows:

In the first district of California:

	Date of approval.
No. 1, Bode & Danforth	June 21, 1877
No. 2, Juan Bernard	August 2, 1877
No. 3, George C. Carlon	August 24, 1877

In the fourth district of California:

No. 1, George Lichthardt	August 1, 1877
No. 2, John F. Boyce	August 22, 1877
No. 3, Royal A. Haskin	November 8, 1877

The following statement shows the quantity, in taxable gallons, of grape brandy received into and withdrawn from these warehouses during the first quarter (ended September 30, 1877) of the present fiscal year, viz:

	Gallons.
Quantity received	32,394
Quantity withdrawn, tax-paid	3,499
Quantity for export	93
	<hr/> 3,592
In warehouse September 30, 1877	28,802
	<hr/> 32,394
	<hr/>

Of the quantity in warehouse September 30, 1877, 12,991 gallons were in the following-named warehouses located in the first district of California, viz: No. 1, Bode & Danforth, 9,658 gallons; No. 2, Juan Bernard, 3,333 gallons; and 15,811 gallons were in the following-named warehouses in the fourth district of California, viz: No. 1, George Lichthardt, 15,403 gallons; No. 2, John F. Boyce, 408 gallons.

In its practical operation, the act under consideration appears to have been thus far sufficient to secure the safety of the taxable articles stored in warehouse in accordance with its provisions. It is suggested, however, that if the act were so amended as to avoid the necessity of employing a storekeeper and a gauger at each of these warehouses by providing for the employment of the officer known to the law as a storekeeper and gauger, a considerable saving of expense to the government would, in many cases, be effected.

RECEIPTS FROM FERMENTED LIQUORS.

The following is a statement showing the receipts from each source relating to fermented liquors during the fiscal years ended June 30, 1876 and 1877:

Sources.	Receipts for fiscal year 1876.	Receipts for fiscal year 1877.	Increase.	Decrease.
Fermented liquors, tax of \$1 per barrel on	\$9, 159, 675 95	\$9, 074, 305 93	\$85, 370 02
Brewers' special tax	222, 553 68	216, 681 10	5, 872 58
Dealers in malt liquors' special tax	189, 051 03	189, 802 14	\$751 11
Total	9, 571, 280 66	9, 480, 789 17	751 11	91, 242 60

The net aggregate decrease being \$90,491.49.

TOBACCO.

The total collections from tobacco for the fiscal year ended June 30, 1877, were \$41,106,546.92.

In addition to the collections of the specific taxes from manufactured tobacco, snuff, and cigars in their various forms, there are included in the above total the collections from special taxes upon the manufacture and sale of tobacco, special taxes upon the raw or leaf tobacco, and from the sale of export stamps.

Below is given a comparative statement of the receipts for the last fiscal year from the several sources above enumerated, with the receipts from the same sources for the fiscal year ended June 30, 1876; also, a statement of the increase or decrease of revenue from each of these sources during the last fiscal year:

Manufactured tobacco, at 24 cents per pound	\$27, 051, 968 37
Manufactured tobacco, at 20 cents per pound	1, 104 01
Snuff, taxed at 32 cents per pound	1, 095, 695 52
Total for the year ended June 30, 1877	28, 148, 767 90
Total for the year ended June 30, 1876	26, 755, 780 20
Increase of collections on tobacco and snuff	1, 392, 987 70

This exhibit shows an increase of more than five and one-fifth per centum over the collections for the previous fiscal year; and it is an increase over the collections for the fiscal year ended June 30, 1874—when the tax on manufactured tobacco, except snuff, was collected at twenty cents a pound—of \$6,209,812.31, or an increase of more than twenty-eight and three-tenths per cent.

The collections from snuff, taxed at the rate of 32 cents per pound, are about the same from year to year, being—

For the fiscal year ended June 30, 1874	\$1, 038, 445 92
For the fiscal year ended June 30, 1875	1, 067, 033 03
For the fiscal year ended June 30, 1876	1, 061, 467 64
For the fiscal year ended June 30, 1877	1, 095, 695 52

CIGARS AND CIGARETTES.

Cigars taxed at \$6 per thousand	\$10, 796, 477 52
Cigars taxed at \$5 per thousand	2, 981 68
Cigarettes taxed at \$1.75 per thousand	260, 480 95
Cigarettes taxed at \$6 per thousand	1, 338 00

Total collections for year ended June 30, 1877.. 11, 061, 278 15

Total collections for year ended June 30, 1876.. 11, 105, 272 45

Decrease in collections from cigars and cigarettes 43, 994 30

These results, as compared with the previous fiscal year, show that, while there has been a decrease in collections from cigars of \$170,328.08, or a fraction over one and one-half per cent., there has been an increase in collections from cigarettes of \$126,333.78, or nearly ninety-three and a quarter per cent. The difference in the rate of tax between cigars of \$6, and cigarettes of \$1.75 per thousand, being in the ratio of three and three-sevenths to one, or nearly four times greater on the cigars than on the cigarettes, may, in part, account for the small decrease in the collections from these sources.

OTHER COLLECTIONS.

Export stamps, year ended June 30, 1877	\$8, 009 60
Export stamps, year ended June 30, 1876	6, 694 30

Increase from sale of export stamps in 1877..... 1, 315 30
or nearly twenty per cent. of increase.

Dealers in leaf tobacco, year ended June 30, 1877	\$97, 422 49
Dealers in leaf tobacco, year ended June 30, 1876	112, 962 96

Decrease in collections from dealers in leaf tobacco.....	15, 540 47
Dealers in manufactured tobacco, year ended June 30, 1877	\$1, 595, 225 40
Dealers in manufactured tobacco, year ended June 30, 1876	1, 616, 318 85

Decrease in collections from dealers in manufactured tobacco	21, 093 45
Special taxes, manufacturers of tobacco and cigars, 1877.....	\$163, 371 45
Special taxes, manufacturers of tobacco and cigars, 1876.....	163, 244 65

Increased collections, manufacturers of tobacco and cigars	126 80
Special taxes, peddlers of tobacco, year ended June 30, 1877	\$32, 471 93
Special taxes, peddlers of tobacco, year ended June 30, 1876	35, 066 50

Decreased collections, peddlers of tobacco..... 2, 594 57

From all the sources herein compared there is shown to be an increase in the sum total from collections of \$1,311,207.01. This is the largest collection made during any one year from tobacco since the present internal revenue law has been in operation, or since July, 1862.

PRODUCTION OF MANUFACTURED TOBACCO AND CIGARS.

Taking the collections for the fiscal year as the basis for computing the production of tobacco, snuff, and cigars for the same period, the following results are obtained, which probably approximate closely to the actual production :

	Pounds.
Tobacco taxed at 24 cents a pound	112, 716, 535
Tobacco taxed at 20 cents a pound, (old stock,)	5, 520
Total quantity tobacco removed for consumption	112, 722, 055
Snuff, at 32 cents a pound	3, 424, 048
Total tobacco and snuff for consumption	116, 146, 103
Tobacco, taxed at 24 cents, removed for export	11, 299, 784
Snuff, taxed at 32 cents, removed for export	35, 262
Total production for year ended June 30, 1877	127, 481, 149
Total production for year ended June 30, 1876	119, 796, 727
Increase of production during fiscal year 1877	7, 684, 422

The number of cigars, cigarettes, &c., on which tax was collected during the fiscal year ended June 30, 1877, including the imported cigars which paid an internal revenue tax in addition to the import duty was as follows :

Cigars, cheroots, &c., taxed at \$6 per thousand	1, 799, 412, 920
Cigars, cheroots, &c., taxed at \$5 per thousand, (old stock)	596, 336
Cigarettes taxed at \$1.75 per thousand	148, 846, 257
Cigarettes taxed at \$6.00 per thousand	223, 000
Cigars exported	1, 916, 975
Cigarettes exported	7, 396, 000
Total production for year ended June 30, 1877	1, 958, 391, 488
Total production for year ended June 30, 1876	1, 908, 141, 057
Increase during year 1877, of	50, 250, 431

IMPORTED CIGARS.

The cigars imported during the fiscal year ended June 30, 1877, as given by the Bureau of Statistics :

	Pounds.
Aggregated in weight	536, 524
Of this quantity, there were exported	61, 319
Leaving as quantity withdrawn for consumption	475, 205

Allowing these cigars to weigh on an average thirteen and one-half pounds per thousand, will give the number of imported cigars withdrawn for consumption as 35,200,000, which is believed to be a close approximation to the number of imported cigars included in the entire number from which an internal revenue tax was collected during the fiscal year ended June 30, 1877, said tax, at \$6 per thousand, being \$211,200.

There are three facts in connection with this subject which I deem especially worthy of note. The first is that the production of manufactured tobacco for the last fiscal year was greater than for any other fiscal year embraced within the reports of this office, with the single exception of the year ended June 30, 1875. The second fact is that a larger amount of money was collected from manufactured tobacco put upon the market for consumption than during any previous fiscal year. And the third fact is that a greater quantity of manufactured tobacco and more cigars and cigarettes were removed directly from the manufactories, for exportation to foreign countries, during the last year, than during any previous year of which an account has been kept by the Office of Internal Revenue.

These results are believed to be largely due to those provisions of law which were intended to give to the government a general control over the movements of raw or leaf tobacco, regulating its sale, transfer, and shipment, and preventing its being sold for direct consumption without the payment of any tax, and in competition with manufactured and tax-paid tobacco, and in my opinion a continuance of those features of said law is necessary to maintain the present amount of receipts from said source.

I have also to renew, in this connection, the recommendation which I had the honor to submit to the Secretary in my last annual report relative to the passage by Congress of the several amendments and additions to the law now in force, heretofore recommended by this office and incorporated into House bill No. 3926, reported by the honorable chairman of the Committee of Ways and Means during the last Congress.

EXPORTATION OF MANUFACTURED TOBACCO AND SNUFF IN BOND.

The subjoined table shows as "removed and unaccounted for" July 1, 1876, and July 1, 1877, the quantity, in pounds, of manufactured tobacco and snuff which had been removed for exportation in bond, and concerning which the proofs of landing at a foreign port had not been furnished prior to the dates named.

1.—*Removed and unaccounted for July 1, 1876.*

	Pounds.	Pounds.
Tobacco at 20 cents tax.....	618,971.00	
Tobacco at 24 cents tax on exportation bonds.....	3,286,446.38	
Tobacco at 24 cents tax on transportation bonds.....	636,827.00	
Snuff at 32 cents tax on exportation bonds.....	4,995.00	
		4,547,239.38

2.—*Removed during the year ended June 30, 1877.*

Tobacco at 20 cents tax, (excess).....	159.00	
Tobacco at 24 cents tax.....	11,297,310.50	
Tobacco at 24 cents tax, (excess).....	2,314.12	
Snuff at 32 cents tax.....	35,262.00	
		11,335,045.62
		15,882,285.00

3.—*Exported and during the year accounted for.*

Tobacco at 20 cents tax.....	239,221.00	
Tax paid on deficiencies at 20 cents.....	299.00	
Amount settled by suit at law at 20 cents.....	61,996.00	
Tobacco at 24 cents tax.....	9,707,255.25	
Tobacco at 24 cents tax, paid on deficiencies.....	2,208.00	
Snuff at 32 cents tax.....	30,071.50	
		10,041,050.75

4.—Remaining unaccounted for June 30, 1877.

	Pounds.	Pounds.
Tobacco at 20 cents tax	300,520.00	
Bonds remaining in hands of district attorney	17,094.00	
Tobacco at 24 cents, removed under exportation bonds...	4,581,905.25	
Tobacco at 24 cents, removed under transportation bonds	931,529.50	
Snuff at 32 cents, removed under exportation bonds	10,185.50	
		5,841,234.25
		<u>15,882,285.00</u>

Of the 5,841,234½ pounds of tobacco bonded for exportation and remaining unaccounted for by landing certificates June 30, 1877—

16,808 pounds were bonded in the year 1869.	} Under exportation bonds.
38,559 pounds were bonded in the year 1870.	
492 pounds were bonded in the year 1871.	
2,542 pounds were bonded in the year 1872.	
5,904 pounds were bonded in the year 1873.	
68,132 pounds were bonded in the year 1874.	} Under transportation bonds.
188,599 pounds were bonded in the year 1875.	
1,041,410 pounds were bonded in the year 1876.	
3,547,259½ pounds were bonded in the year 1877.	
134,614 pounds were bonded in the year 1875.	
385,854 pounds were bonded in the year 1876.	
411,061 pounds were bonded in the year 1877.	

5,841,234½

STATEMENT SHOWING THE QUANTITIES OF DISTILLED SPIRITS AND TOBACCO REMOVED IN BOND FOR EXPORT DURING THE FISCAL YEARS ENDED JUNE 30, 1875, 1876, AND 1877.

Year.	Spirits.	Tobacco.
	Gallons.	Pounds.
1875.....	587,413	9,179,316
1876.....	1,308,900	9,434,485
1877.....	2,529,528	11,335,046

STATEMENT OF DRAWBACK OF INTERNAL REVENUE TAXES ALLOWED DURING THE FISCAL YEAR 1877 ON EXPORTED MERCHANDISE.

Port.	No. of claims.	Proprietary articles.	Fermented liquors.	Tobacco.	Cotton.	Total.
Baltimore.....	9	\$207 36	\$858 36	\$1,065 72
Boston.....	48	6,673 56	6,673 56
New York.....	668	39,811 18	\$760 12	2,361 44	\$277 11	43,209 85
Philadelphia.....	15	1,454 97	1,454 97
Richmond.....	1	1,915 20	1,915 20
Rochester.....	1	27 87	27 87
San Francisco.....	6	684 32	684 32
Suspension Bridge.....	2	28 51	28 51
Troy.....	1	32 40	32 40
Total.....	751	48,235 85	760 12	5,819 32	277 11	55,092 40

Total amount of drawback allowed during the fiscal year ended June 30, 1876, \$30,546.88, showing an increase of \$24,545.52 in the claims allowed during the past year. The increase in the amount of drawback shown in the foregoing table clearly indicates a growing demand for export of proprietary articles.

NUMBER OF SPECIAL-TAX PAYERS.

On pages 198, 199 of the tables accompanying this report will be found a statement of the amount of special taxes paid in each State and Territory during the special-tax year ended April 30, 1877. The following table represents the number of persons who paid those taxes, as ascertained by dividing the aggregate tax paid by the rate of tax. The result thus obtained is sufficiently accurate to answer all practical purposes.

STATES AND TERRITORIES.	Rectifiers.	Retail liquor dealers.	Wholesale liquor dealers.	Manufacturers of stills.	Manufacturers of cigars.	Dealers in leaf tobacco.	Retail dealers in leaf tobacco.	Dealers in manufactured tobacco.	Manufacturers of tobacco.	Peddlers of tobacco.	Brewers.	Dealers in malt liquors.

The following statements are compiled from the foregoing tables and from assessment returns:

1.—Statement of the gross amount of average capital and deposits of savings banks, bankers, and banks other than national banks, for the years ended May 31, 1876 and 1877.

	1876.	1877.
Capital of savings banks	\$5,016,659	\$4,965,500
Capital of banks and bankers	211,634,586	217,215,388
Deposits of savings banks having capital	38,207,891	38,655,540
Deposits of savings banks having no capital	845,109,217	855,057,027
Deposits of banks and bankers	483,458,242	475,790,064
Total	1,583,426,595	1,591,083,519

2.—Statement of the taxable capital and deposits of savings banks, bankers, and banks other than national banks, and the taxes accrued and paid thereon, for the years ended May 31, 1876 and 1877.

	1876.		1877.	
	Amount tax-able.	Tax col-lected.	Amount tax-able.	Tax col-lected.
Capital savings banks	\$4,426,524	\$24,024	\$4,603,405	\$22,383
Capital of banks and bankers.....	186,060,583	965,196	184,187,952	903,278
Deposits of savings banks having capital	13,664,751	52,904	14,615,176	56,064
Deposits of savings banks having no capital	96,283,037	374,462	94,880,672	364,334
Deposits of banks and bankers	483,458,242	2,572,165	473,790,064	2,476,240
Total	783,893,157	3,988,751	774,077,269	3,824,299

3.—Statement of average capital and deposits of savings banks, and the capital of bankers, and banks other than national banks, invested in United States bonds, compiled from returns of said banks and bankers, for the years ended May 31, 1876 and 1877.

	1876.	1877.
Capital of savings banks	\$590,135	\$362,095
Capital of banks and bankers	25,574,003	33,027,436
Deposits of savings banks	95,245,863	102,859,674
Total	121,410,001	136,249,205

ABSTRACT OF REPORTS OF DISTRICT ATTORNEYS FOR THE FISCAL YEAR 1877.

SUITS COMMENCED.

Number of criminal actions	4,948
Number of civil actions <i>in personam</i>	680
Number of actions <i>in rem</i>	200
Whole number commenced	5,828

SUITS DECIDED IN FAVOR OF THE UNITED STATES.

Number of criminal actions	2,630
Number of civil actions <i>in personam</i>	562
Number of actions <i>in rem</i>	135
Whole number of suits decided in favor of the United States	3,327

SUITS DECIDED AGAINST THE UNITED STATES.

Number of criminal actions	543
Number of civil actions <i>in personam</i>	34
Number of actions <i>in rem</i>	28
Whole number of suits decided against the United States	605

SUITS SETTLED OR DISMISSED.

Number of criminal actions	2,711

ABSTRACT OF SEIZURES.

Seizures of property for violation of internal revenue law during the fiscal year ended June 30, 1877, were as follows:

312,647 gallons of distilled spirits, valued at.....	\$314,251 08
54 barrels of fermented liquors, valued at.....	202 50
86,690½ pounds of tobacco, valued at.....	28,394 53
1,014,817 cigars, valued at.....	13,347 89
Miscellaneous property, valued at.....	665,924 50

Total value of seizures..... 1,022,120 50

STATEMENT OF REAL ESTATE ACQUIRED BY THE UNITED STATES
UNDER THE INTERNAL REVENUE LAWS REMAINING UNSOLD NOVEMBER 1, 1877.

Alabama.—One lot and two-story brick house; "Deposit Saving Association;" one lot and house, Hickory Flat, Chambers County; two distilleries, with their appurtenances; one copper still and fixtures, Brookville, Coosa County; one mill, Talladega County; cotton and other machinery. The appurtenances are 1,000 acres of land. Fayette County, 2,471½ acres of land.

Arkansas.—Two hundred acres of land.

California.—Three lots with improvements in Marysville, Cal.; bonded, awaiting result of trial of cause in United States district court, San Francisco.

Georgia.—Twelve lots; two brick store-houses; one frame house; one-third interest in tobacco factory, including machinery, Atlanta; Rockland distillery; 1,514 acres of land.

Illinois.—Brick alcohol warehouse; building and appurtenances; distillery, No. 90 Pearson street, Chicago; building and two boilers; Loda distillery premises; elevator, fixtures, and adjoining buildings; buildings and appurtenances; ninety-seven lots; 3,862½ acres of land; the residence and other buildings on the "W. M. Springer tract."

Kentucky.—Three distilleries and other buildings; two mills; five lots; 1,630 acres of land.

Louisiana.—Dwelling-house and improvements; four lots; 2,770 acres of land.

Michigan.—One hundred and ninety-seven acres of land.

Mississippi.—Eleven lots; 148½ acres of land.

Missouri.—Two-story brick building and outhouses; all of the houses on seventeen lots in Saint Louis; seventy-five lots; 1,480 acres of land.

Nebraska.—Distillery, buildings, all stills, vessels, fixtures, and tools; 6 lots; 12½ acres of land.

New York.—Lot 507 West Twenty-ninth street; house and lot northeast corner Third avenue and One hundred and sixth street; distillery 533 West Forty-first street; lot 504 West Forty-third street; distillery, Spring Valley, N. Y.

Oregon.—Three hundred and thirty acres of land.

North Carolina.—One dwelling-house; one mill; one storehouse; seven lots; 11,047 acres of land.

South Carolina.—Five hundred and five acres of land.

Tennessee.—One lot in city of Memphis; one frame house; distillery; distillery complete; two dwellings; one brick store; two houses; one livery-stable and house; two houses; thirty-five lots; 5,705½ acres of land.

Texas.—Two lots; 374½ acres of land.

Utah.—Twenty-five acres of land.

Vermont.—Five acres of land.

Virginia.—Mansion-house, barn, tannery, tobacco-factory and distillery, all on one plantation; three distilleries; two warehouses; 1,389½ acres of land.

West Virginia.—Fifteen hundred acres of land.

Approximate value of all of said property, \$500,000. The custody of this property is by law entrusted to this office, and its sale at public vendue may be authorized by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. In my opinion it is desirable that this property should be disposed of at the earliest day practicable. With a view of securing that end, I sometime since caused a large portion of said lands to be examined, and offers of purchase solicited. These services cost about \$600, which I proposed should be paid out of the miscellaneous appropriation for this bureau, but the honorable First Comptroller of the Treasury decided that the account could not be paid out of that appropriation, or out of any other appropriation for the internal revenue service. As expenses must necessarily be incurred, from time to time, in the management and sale of property acquired by the United States under the internal revenue laws, I respectfully recommend that an appropriation of \$6,000 be made to cover such expenses, and to defray the expenses already incurred, the payment of which has been suspended for want of funds applicable to that purpose

STATEMENT OF TAXES COLLECTED FROM RAILROAD CORPORATIONS,
AND OF TAXES REPORTED FOR COLLECTION OR SUIT.

Taxes collected during fiscal year ended June 30, 1877 :

Number of corporations	12
Amount collected	\$57,538 71

Taxes collected since June 30, 1877 :

Through the courtesy of the honorable Solicitor of the Treasury, I am enabled to make the following statement of the action taken in his office during the last fiscal year upon cases there considered relating to internal revenue:

Action taken.	Number.	Amount..
Offers in compromise accepted.....	15	\$58,006 00
Offers in compromise rejected.....	73	120,581 95
Offers in compromise pending July 1, 1877.....	19	25,453 80
Judgments recovered against collectors and their sureties.....	6	52,360 84

ASSESSMENTS.

The following table gives the assessments made by the Commissioner of Internal Revenue during the fiscal years ended June 30, 1876, and June 30, 1877, respectively, showing the increase or decrease on each article or occupation:

Article or occupation.	Fiscal year ended—		Increase.	Decrease.
	June 30, 1876.	June 30, 1877.		
Tax on deficiencies in the production of distilled spirits.....	\$71,577 75	\$77,867 55	\$6,289 80
Tax on excess of materials used in the production of distilled spirits.....	22,203 73	58,473 86	36,270 13
Tax on deposits, capital, and circulation of banks and bankers.....	3,970,683 23	3,877,246 23	\$93,437 00
Distilled spirits seized or fraudulently removed.....	1,963,231 51	255,931 71	1,707,299 80
Fermented liquors removed from brewery unstamped.....	96,329 93	2,577 50	93,752 43
Tobacco, snuff, and cigars removed from factory unstamped.....	104,802 98	419,308 77	314,505 79
Proprietary articles removed from manufactory unstamped.....	9,811 07	916 73	8,894 34
Assessed penalties.....	116,387 12	109,259 35	7,127 77
Legacies and successions.....	110,927 52	49,747 61	61,179 91
Unassessed and unassessable penalties, interest, taxes previously abated, conscience-money, and deficiencies in bonded accounts which have been collected; also, fines, penalties, and forfeitures paid to collector by order of court or by order of Secretary, and amount of penalties and interest received for validating unstamped instruments, (Form 58).....	421,475 21	478,653 03	57,177 82
Special taxes, (licenses).....	85,804 31	104,133 89	18,329 58
Tax on income and dividends.....	217,524 98	52,318 50	165,206 48
Total.....	7,190,759 34	5,486,434 73	1,704,324 61

The above statement shows a falling off in the total amounts assessed in the year 1877 of \$1,704,324.61 from the amount assessed in the previous year, an amount almost equal to the decrease of assessments on the single article of distilled spirits seized or fraudulently removed, on which there was assessed in 1877 \$1,707,299.80 less than in 1876; in which year very large assessments were made on account of the stupendous frauds committed by distillers in various parts of the country and discovered in the latter part of the year 1875.

The tax on deposits, capital, and circulation of banks, &c., in the fiscal year ended June 30, 1877, was \$93,437 less than in the previous year, a decrease which must be accounted for by the general depression of business prevailing in the past year, and to which many banks, and particularly savings institutions, were compelled to succumb. It should, however, be remembered that the amount reported in 1876 showed an

unusual increase—\$211,852.41—of the tax on the current banking business of that year over previous years.

By the act approved May 13, 1876, section 3337 of the Revised Statutes of the United States was so construed that nothing contained therein should authorize an assessment upon the quantity of materials used in producing, or purchased for the purpose of producing, fermented or malt liquors. Most of the amounts reported in 1876 as assessed on fermented liquors removed from brewery unstamped were made under the rule adopted July 15, 1874, that one barrel of beer should be produced from every two and one-half bushels of malt, or its equivalent, which rule was abolished by the act above cited. The deficiency of \$93,752.43 in the assessment on said article at the close of the fiscal year ended June 30, 1877, is therefore explained.

The tax assessed on proprietary articles removed from manufactory unstamped will probably always remain small; but the apparent decrease of \$8,894.34 reported this year from the amount assessed in the previous year is partly accounted for by the fact that the amount assessed on proprietary articles in 1876 included items amounting to \$7,196.97 which were assessed for gas manufactured in 1862 and subsequently, and should have been assessed in previous years.

As the taxes on legacies and successions and on income and dividends were abolished, and as assessments thereon are only made for transactions which had their origin prior to the 1st day of October, 1870, and under the saving clause of the repealing acts, the amount so assessed must of necessity grow less every year; hence the decrease on legacies and successions of \$61,179.91, and on income and dividends of \$165,206.48.

The amount assessed on tobacco, snuff, and cigars, removed from factory unstamped, shows the large increase of \$314,505.79 over the amount assessed in the previous year, the amount so assessed in 1877 being about four times the amount assessed in 1876, to wit, \$119,308.77.

It is true that assessments equaling in amount this excess were made against certain manufacturers in Virginia and North Carolina on tobacco alleged to have been fraudulently removed nearly fifteen months prior to the date of assessments, and that additional evidence was subsequently filed, upon which an abatement of a large part of the assessments was made. Nevertheless, even after making these deductions, the value of the safeguards provided by law, other than that of affixing the stamp, is demonstrated by the figures above given.

The system of examination into the accounts of every manufacturer in the United States, resulting in these assessments, is adopted not so much for the purpose of creating a new source of revenue, as for the purpose of securing the payment of the tax by compelling the manufacturer to affix the stamp.

The increase of \$57,177.82 in the amount assessed on Form 58 is occasioned by large amounts which were paid to collectors by order of court, as fines and penalties recovered in suits brought in consequence of the whisky frauds of 1875.

The amount of penalties incurred by delay or neglect in rendering returns required of tax payers and assessed during the year was \$109,259.35. These assessments were made principally against special-tax payers. When it is considered that the number of persons and firms who paid special tax during the last special-tax year was 515,357, and that the amount of special taxes paid was \$6,901,933.08, it is evident that collectors of internal revenue and their assistants have generally exercised due diligence in securing returns, and that the tax-payers have

been quite uniformly prompt in rendering them. The amount of penalties assessed during the past year was less by \$7,127.77 than that assessed during the year 1876. This fact, taken in connection with the fact that the amount of special taxes collected in 1877 was greater by \$18,329.58 than that collected in 1876, indicates a slight increase in the promptness with which the returns are rendered.

COURTESIES TO FOREIGN WAR VESSELS.

Under the provisions of section 2982 of the Revised Statutes of the United States, the privilege of purchasing supplies from the public warehouses, duty free, is extended, under such regulations as the Secretary of the Treasury shall prescribe, to the vessels of war of any nation in ports of the United States which may reciprocate such privilege toward vessels of war of the United States in its ports. I recommend that the above privilege be extended so as to include all articles liable to tax under internal revenue laws.

EXPORTATION OF MALT LIQUORS.

During the past few months a considerable foreign demand has sprung up for bottled malt liquors. A regulation has been issued, with your approval, providing for a drawback of the tax on malt liquors exported in bottles.

MATCHES.

It has been found that in some portions of the country match manufacturers have put up matches in boxes containing so great a number as to facilitate frauds upon the revenue by the reuse of stamped boxes. I respectfully recommend that a law be passed limiting the number of matches to be contained in a single box to five hundred.

PERFUMERY.

The manufacture of perfumery for exportation is a large and growing interest. About twenty-five hundred barrels of alcohol are annually used in this business, all of which are imported and withdrawn without the payment of the duty, and used in the manufacture of perfumeries in bonded manufactories, and finally exported free of tax or duty. Under existing laws American alcohol cannot be used in this business without the payment of the tax, and there is no provision of law authorizing a drawback upon the exportation of goods so manufactured. I see no reason for this discrimination against American distillers. I therefore respectfully recommend that an act be passed authorizing the withdrawal of alcohol without the payment of the tax to be used by manufacturing perfumers in the production of goods for export, under such restrictions as to prevent fraud and protect the rights of the government.

PROPOSED RELIEF FROM TAXATION.

The subjects of relieving banks and bankers from the payment of the taxes now imposed by law upon their capital and deposits, of relieving bank checks from the impost of two cents each now placed upon them, and also of taking off the tax from matches have received a considerable

share of public attention. These taxes realized \$8,695,908 for the past fiscal year, apportioned as follows :

Amount of tax collected from capital and deposits of banks for year ended May 31, 1877.....	\$3, 824, 299
Value of stamps imprinted on checks.....	\$1, 277, 776
Value of adhesive stamps sold for checks.....	611, 558
	<hr/>
Amount of tax collected from matches.....	1, 889, 334
	2, 982, 275

If the financial interests of the government would warrant so great a reduction in its revenues, it seems to me that in selecting objects to be relieved from taxation these would commend themselves strongly to the law-making power. If, however, in view of the falling off of the receipts from customs it is deemed inexpedient to reduce the revenues by so large an amount, it occurs to me that if any reduction be made from the above sources, the law taxing matches could with very great propriety be repealed. This tax is levied upon an article that enters into universal consumption, and more than doubles the cost of the article taxed in the hands of the manufacturers. It will be seen by the tables heretofore given, that the taxable capital and deposits of banks and bankers are \$774,077,269, and that the tax is one-half of one per cent. on that amount. I apprehend that no object could be selected for taxation that could more easily bear the burdens imposed upon it than the capital and deposits of banks and bankers. The tax of \$1,889,334 realized from stamps upon checks is collected at very inconsiderable cost to the government, and as it is realized from nearly ninety-four and a half millions of transactions it is not burdensome to those who pay it.

RATE OF TAXATION ON SPIRITS AND TOBACCO.

I have given considerable attention to the question of changing the rate of taxation on spirits and tobacco, and have come to the conclusion that the interests of the government and of the manufacturers and dealers will be subserved by allowing the rates of taxation to remain undisturbed. Any proposition in Congress to change the rate of taxation operates as a disturbing element in the due course of business of distillers and manufacturers, and I think I am stating the sentiments of the great majority of persons who are interested in the production of such taxable articles when I say that they prefer that the rate of taxation shall not be disturbed. The business of the country has adjusted itself to the changes made by the act of March 3, 1875, and I think it would be a serious embarrassment to the interests involved to either change the rate of taxation or even to make a serious effort to do so in Congress. In this connection I will state, in my opinion it would be a great mistake to relieve from taxation brandy produced from apples, peaches, or grapes. From the 1st of January to the 30th September of this year the sum of \$854,710.95 has been collected from these sources, and it is probable that by the time the fruit-brandy season is over this sum will be augmented to \$1,250,000. The fact that so large a sum would be subtracted from the current receipts by such legislation would seem to be sufficient reason why an act of the kind should not be passed, but I am satisfied that this sum does not represent the true amount that would be lost to the government by such an act. If fruit-brandies could legally be placed upon the market free of tax, the production of such spirits would, in my opinion, be increased from 1,390,000 gallons to 20,000,000 gallons

per annum, and at great advantage be brought into competition with spirits produced from grain, which would very seriously impair the production of such spirits, and necessarily reduce the amount of taxes derived from that source. With such a crop of fruit as has been produced during the present season, in the absence of a tax upon fruit-brandies, I should expect to see the tax upon distilled spirits fall off at least ten or twelve millions of dollars. Besides, wherever illicit spirits could be produced from grain, large quantities would be thrown upon the market in the shape of a spurious article of fruit-brandy, with the expectation of avoiding the tax.

The law and regulations now in force in respect to the production of fruit-brandy and the payment of the tax thereon are sufficiently liberal to enable persons who wish honestly to pursue the business of producing the same to do so without serious embarrassment. I would, therefore, recommend that no change be made in the law in respect to the tax upon fruit-brandy.

SUPPRESSION OF FRAUDS UPON THE REVENUE.

I desire to call your special attention to the fact that for a number of years the illicit manufacture and sale of spirits and tobacco have been carried on very extensively in portions of the following-named districts: First and second Alabama; third Arkansas; second and third Georgia; second, fifth, eighth, and ninth Kentucky; fourth Maryland; second Missouri; twenty-third Pennsylvania; fourth, fifth, and sixth North Carolina; second, fifth, and eighth Tennessee; third Texas; second, fourth, fifth, and sixth Virginia; and first and second West Virginia.

The extent of these frauds would startle belief. I can safely say that during the past year not less than three thousand illicit stills have been operated in the districts named. These stills are of a producing capacity of from ten to fifty gallons per day. They are usually located at inaccessible points in the mountains, away from the ordinary lines of travel, and are generally owned by unlettered men of desperate character, armed and ready to resist the officers of the law. When occasion requires, they come together in companies of from ten to fifty persons, gun in hand, to drive the officers out of the country. They resist as long as resistance is possible, and when their stills are seized and they themselves are arrested, they plead ignorance and poverty, and at once crave the pardon of the government.

The illicit tobacco manufacturers are of a different class. They are usually educated and intelligent men of property. The most extensive frauds brought to light in this branch of business were perpetrated in the fifth district of North Carolina, where, in the spring of 1877, fourteen factories were seized and twenty-three persons arrested. Careful estimates place the amount of tax out of which the government is annually defrauded by the illicit manufacture and sale of spirits and tobacco at not less than \$2,000,000. These frauds had become so open and notorious, and were of such an extensive character, that I became satisfied extraordinary measures would be required to break them up. Collectors were enjoined to observe increased vigilance and were each authorized to employ from five to ten additional deputies, and were directed to thoroughly police their respective districts and seize all illicit distilleries and tobacco factories. Experienced revenue agents of perseverance and courage were assigned to duty to co-operate with the collectors. United States marshals were called upon to co-operate with the collectors and to arrest all persons known to have violated the laws,

and district attorneys were enjoined to prosecute all offenders. In certain portions of the country many citizens, not guilty of violating the law themselves, were in strong sympathy with those who did violate it, and the officers in many instances found themselves unsupported in the execution of the laws by a healthy state of public opinion. The distillers—ever ready to forcibly resist the officers—were, I have no doubt, at times treated with considerable harshness. This occasioned much indignation on the part of those who sympathized with the law-breakers, and the officers were repeatedly threatened with prosecution under State laws.

In North Carolina, after the arrest of a number of illicit distillers and tobacco manufacturers, some fifty or more warrants were issued by trial justices for the arrest of internal revenue officers and revenue agents for alleged violations of State laws, and a number of indictments were preferred against them in the State courts. These proceedings were designed to intimidate the United States officers from further operations against violators of the law, and from appearing as witnesses against those charged with the illicit manufacture and sale of spirits and tobacco, and if they had proved successful, would have effectually prevented the prosecution of the violators of the internal revenue laws. The offenses charged against the government officials having been committed, if at all, under color of their offices, applications were made for the transfer of the cases to the United States courts. One of the State judges held that such cases could be so transferred, while another judge held that they could not be so transferred, from which latter decision an appeal was taken to the supreme court of the State. Upon an able presentation of the case by the assistant United States district attorney, the supreme court held that such cases were properly transferable to the United States circuit court.

The rendition of this decision greatly discouraged those who had leagued together for the prosecution of the officers of internal revenue, and virtually ended this determined effort to prevent the enforcement of the internal revenue laws in the State of North Carolina. At the October term of the United States court held at Greensboro', fourteen of the illicit manufacturers of tobacco entered pleas of guilty to indictments preferred against them, and proceedings for the forfeiture of their factories are still pending in the courts.

I understand that the principal grounds upon which prosecutions of internal revenue officers under State laws were based were that some persons caught in the act of running illicit stills had been arrested without warrant. That there may be no misunderstanding in future of the right of a marshal to make such arrests, I respectfully recommend that a law be passed expressly providing that where a person is caught in the act of operating an illicit still, he may be arrested without warrant and forthwith taken before a proper tribunal for examination.

The following table will show the seizures of stills and tobacco factories and the arrests of persons accused of violating the internal revenue laws for the period therein stated, together with the number of officers killed and wounded in the performance of their duties:

Statement of illicit distilleries seized, arrests made, and officers killed or wounded in the execution of their duty.

* Lieut. McIntyre, U. S. A.

Two serious obstacles to the enforcement of the internal revenue laws have been: First, the insufficiency of the appropriation for the employment of an adequate number of deputy collectors in the districts where frauds in the manufacture and sale of spirits and tobacco have mostly

prevailed; and, secondly, the want of funds in the Department of Justice to pay the necessary expenses in the prosecution of violators of the law.

The spirit of forcible resistance to law seems to accompany the illicit manufacture of whisky at all times and in all countries, and can only be broken and overborne by the earnest and courageous endeavor of the officers of the law, strongly supported by the courts. At this time not only are the United States defrauded of its revenues and its officers openly resisted, but when arrests are made it often occurs that prisoners are rescued by mob violence, and officers and witnesses are often at night dragged from their homes and cruelly beaten, or waylaid and assassinated. In my judgment this great evil, namely, the illicit manufacture of whisky, should be extirpated, and its accompanying lawless spirit subdued. To that end I earnestly recommend that suitable appropriations be made to strengthen the hands of collectors and marshals throughout the infected districts, to enable them to make seizures and arrests. Then, if the courts will inflict upon the ringleaders punishment commensurate with their offenses, the time is not distant when officers of the law will be safe in their persons in all parts of the country, and well-meaning citizens will rejoice at the suppression of an occupation that demoralizes all who have any connection with it, and which fills the country with outlawry and crime.

I am glad to be able to report that I perceive a better state of public opinion in respect to the enforcement of the internal revenue laws throughout some of the districts enumerated. I take pleasure in recording the fact that in Lee County, Virginia, Henry County, Tennessee, and Cleburne County, Alabama, public meetings of prominent citizens have been held in the interest of law and order, where violations of the revenue laws of the United States were condemned, and a determined spirit was manifested to aid the constituted authorities in the suppression of frauds and the enforcement of the laws. It is to be hoped that good citizens everywhere will recognize the fact that it is essential to good government that all laws, both State and national, shall be strictly observed and enforced, and that respect for laws in general is weakened whenever any law can be disregarded or resisted with impunity.

It is proper to state that with the great majority of large distillers, brewers, and manufacturers of tobacco throughout the country, a commendable disposition to observe the laws and regulations thrown around their respective occupations has been manifested, and in the main they have conducted their operations with a degree of integrity and fairness that merits acknowledgement. I am satisfied that at this time there are no extensive combinations among these classes of manufacturers to defraud the government of its revenues.

REVENUE AGENTS.

I had the honor some time since of recommending an appropriation for the employment of ten additional revenue agents for the balance of the present fiscal year, and I now renew said recommendation. I also earnestly recommend that a suitable appropriation be made for thirty-five revenue agents for the fiscal year ending June 30, 1879. The present *corps* of revenue agents is, in the main, composed of men of ability, who have had great experience in the internal revenue service. Twenty-five revenue agents have been employed during the past fiscal year at an aggregate cost for salaries of \$58,683, and for expenses, \$27,304.

One agent has been assigned to duty in this office as chief of the Division of Revenue Agents. Seventeen agents have been in charge of districts, and seven assigned to general duty. Of the latter number, three have been employed in the examination of collectors' offices and accounts, two in making special investigations for discovering frauds, one has been engaged most of the time assisting United States attorneys in looking up evidence in cases now pending in the courts and in preparing them for trial, and one wholly occupied in the examination of the books of railroad companies for the purpose of ascertaining the amount of taxes due from corporations. On several occasions agents permanently assigned have been detailed to make special examination of distilleries out of their districts. I desire to bear testimony to the faithful and efficient manner in which the agents have generally performed their duties, and to the valuable services rendered by them. The following is a summary of the result of their work for the last fiscal year:

Number of persons arrested for violation of internal revenue laws upon their information	898
Value of property seized upon their information	\$196,792
Number of illicit stills seized upon their information	336
Amount of unpaid taxes reported for assessment by revenue agents, (exclusive of taxes from railroad corporations)	\$97,087
Number of persons arrested for violation of law upon their information since the commencement of the present fiscal year	106
Value of property seized upon their information	\$26,460
Number of illicit stills seized upon their information	9
Amount of unpaid taxes assessed	\$16,569

In addition to this they have made frequent examinations of distilleries, breweries, tobacco and cigar factories, and exercised a general *surveillance* in their respective districts for the prevention of fraud and the enforcement of internal revenue laws and the collection of taxes. In several of the Southern States the agents have been very active and successful in their efforts to suppress the illicit manufacture and sale of spirits and tobacco, and in this work they have been exposed to much danger and hardships.

The appropriation for detecting and bringing to punishment persons guilty of violations of internal revenue law, as provided in section 3463, for the last fiscal year was \$60,000. Of this appropriation, \$36,682 was expended by revenue agents in discovering frauds and securing the arrest of offenders. Much the larger proportion of this amount was used for the suppression of the illicit manufacture and sale of spirits and tobacco in the Southern States.

Of the above-named appropriation, \$3,108 has been allowed to collectors for the purpose of obtaining information as to the locality of illicit distilleries and the employment of guides to the same.

I have found that the number of revenue agents as now fixed by law is inadequate to the proper performance of the duties that naturally devolve upon them, and, in my opinion, the interests of the public service will be materially subserved by permanently increasing the force of revenue agents to thirty-five.

COLLECTION DISTRICTS.

In accordance with the provisions of section 1 of the legislative appropriation act, approved March 3, 1877, the number of collection districts was reduced by consolidation to 126. It is proper to remark that the rule generally observed in making consolidations was to maintain intact the districts with the largest collections, and so it will appear that

in the States where the least amount of revenue is collected the smallest number of districts is found. Said collection districts are distributed as follows :

Alabama	2	Missouri	5
Arizona	1	Montana	1
Arkansas	1	Nebraska	1
California	2	Nevada	1
Colorado	1	New Hampshire	1
Connecticut	2	New Jersey	3
Dakota	1	New Mexico	1
Delaware	1	New York	12
Florida	1	North Carolina	4
Georgia	2	Ohio	9
Idaho	1	Oregon	1
Illinois	8	Pennsylvania	0
Indiana	6	Rhode Island	1
Iowa	4	South Carolina	1
Kansas	1	Tennessee	3
Kentucky	6	Texas	3
Louisiana	1	Utah	1
Maine	1	Vermont	1
Maryland	2	Virginia	5
Massachusetts	3	Washington	1
Michigan	4	West Virginia	2
Minnesota	2	Wisconsin	4
Mississippi	1	Wyoming	1

SALARIES OF COLLECTORS.

The recommendations made for the salaries of collectors for the fiscal year ended June 30, 1877, were based upon an estimate of their probable collections according to the following scale, with the qualification that if the actual collections vary from the amounts estimated, the salaries will be readjusted at the end of the fiscal year :

For collection of—		
\$25,000 or less		\$3,000
25,000 to \$37,500—12,500		2,125
37,500 to 50,000—12,500		2,250
50,000 to 75,000—25,000		2,375
75,000 to 100,000—25,000		2,500
100,000 to 125,000—25,000		2,625
125,000 to 175,000—50,000		2,750
175,000 to 225,000—50,000		2,875
225,000 to 275,000—50,000		3,000
275,000 to 325,000—50,000		3,125
325,000 to 375,000—50,000		3,350
375,000 to 425,000—50,000		3,375
425,000 to 475,000—50,000		3,500
475,000 to 550,000—75,000		3,625
550,000 to 625,000—75,000		3,750
625,000 to 700,000—75,000		3,875
700,000 to 775,000—75,000		4,000
775,000 to 850,000—75,000		4,125
850,000 to 925,000—75,000		4,250
925,000 to 1,000,000—75,000		4,375
1,000,000 and upward		4,500

FURNISHING COLLECTORS' OFFICES.

Attention is called to the fact that allowances made to collectors have never included pay for furnishing their offices. With very few exceptions the furniture used by collectors in rented buildings has been paid for by themselves. It would seem probable that the interests of the government for a number of years will require the continuance of in-

ternal revenue taxes; and I see no reason why collectors of internal revenue should not be put upon as favorable a footing in regard to furniture in their offices as collectors of customs. I respectfully recommend that a suitable appropriation be made for furnishing collectors' offices.

ENGRAVING AND ISSUE OF STAMPS.

IN compliance with instructions received from you, in conformity with the provisions of the legislative appropriation act, approved March 3, 1877, the printing of all internal revenue stamps, except adhesive and proprietary stamps, stamps on checks, and the stamps on tin-foil tobacco-wrappers, has been transferred to the Bureau of Engraving and Printing of the Treasury Department. The stock of stamps printed and in the hands of the bank note companies of New York was, during the months of September and October last, brought from the city of New York to the Treasury Department in Washington, from which place they are now issued to collectors. Advertisement has recently been made for proposals for paper to be used in printing internal revenue stamps, and it is believed a large saving will be effected in the cost of paper. I estimate that, with the reduced cost of printing stamps by the Bureau of Engraving and Printing and the probable reduction in the price of paper, a saving of over sixty-eight thousand dollars per annum will be effected in the cost of internal revenue stamps.

The following statement shows the number, description, and value of stamps issued for use for the fiscal year ended June 30, 1877:

Description.	Number.	Value.
Stamps for distilled spirits	5, 107, 050	\$66, 623, 535 00
Stamps for tobacco	226, 507, 160	39, 950, 804 59
Stamps for fermented liquors	32, 076, 280	9, 750, 812 50
Stamps for special taxes	659, 840	9, 675, 450 00
Stamps for documents and proprietary articles	473, 256, 956	6, 497, 717 38
Total	737, 607, 286	126, 501, 319 47

Since the passage of the act approved August 15, 1876, revenue stamps have been transmitted to collectors by registered mail. The service has been performed with entire satisfaction, and up to this time without loss, and I know of no reason why it should not be continued. Under the act of March 3, 1877, the use of postage stamps for prepaying this character of mail matter was abolished. The act, however, by the construction of the Post Office Department, has been limited to the transmission of internal revenue stamps to collectors; the registered mail-stamp of ten cents on all packages, and postage stamps to prepay packages passing between collectors and their deputies being still required, I respectfully recommend the enlargement of said act so as to abolish the use of postage stamps altogether for the performance of this service.

REORGANIZATION AND INCREASE OF FORCE.

In consequence of the transfer of the business of handling stamps from New York to this bureau, it has become necessary to increase the force so as to properly transact the business incident to receiving, caring for, and distributing stamps to collectors. I call attention to the statement in my last annual report, at page xxiii, in regard to the employment of persons in this capacity, and their payment out of the appropriation "for dies, paper, and stamps." The force now employed in this office,

and paid out of the appropriation for "dies, paper, and stamps," is as follows:

One chief, in charge of receipt and issue of internal revenue stamps, at.....	\$1,800
One bookkeeper, at	1,200
Ten counters, at	900
Five persons engaged on stub-books	900
One chief packer and shipping clerk, at.....	900
One assistant packer and shipping clerk, at	720
Five laborers, at.....	720

The above force includes the nine persons shown in my last report to have been employed, and five of said persons are still engaged upon the work of examining the stub-books returned by collectors, so as to verify their accounts. The business of the office is such that the services of these persons cannot be dispensed with, but in my opinion they should be provided for by increasing the regular force of the office. At this time there are six persons engaged in the city of New York upon the work of superintending the manufacture and distribution of the stamps still produced in that city. These persons are also paid from the appropriation for "dies, paper, and stamps," but the Graphic Company, which has the contract for imprinting check stamps, reimburses monthly under its agreement the salary of three of these persons.

In compliance with an act of Congress approved August 15, 1876, the number of officers, clerks, and employés in this bureau was reduced fifty-four, leaving the office force and salaries as follows:

One Commissioner, at	\$6,000
One deputy commissioner, at	3,200
Two heads of division, at	2,500
Five heads of division, at	2,250
One stenographer, at	1,800
Twenty-five clerks, class four	
Thirty clerks, class three	
Forty clerks, class two	
Eighteen clerks, class one	
Fifty clerks, at	900
Four messengers	
Ten laborers	

An aggregate of one hundred and eighty-seven persons.

I have estimated for the next fiscal year for one hundred and eighty-seven persons, as in the above table, but in a letter addressed to you of date, October 22, 1877, I had the honor of recommending that Congress should increase the appropriations of last year so as to conform to the following table:

One Commissioner, at	\$6,000
One deputy commissioner, at	3,500
Seven heads of division, at	2,500
One stenographer, at	1,800
Twenty-five clerks, class four	
Thirty clerks, class three	
Forty clerks, class two	
Twenty-eight clerks, class one	
Fifty clerks at	900
Five messengers	
Fifteen laborers	

An aggregate of 203, being an increase numerically of 16 persons, as well as an increase of the salaries of the deputy commissioner and five heads of division. An increase in the salary of the deputy commissioner and of the five heads of division is recommended for the following reasons: The law creating the office of deputy commissioner fixed his salary at \$3,500. The duties of the office are of great importance, and

their faithful performance fully entitles the officer to that pay. The law creating the office of head of division states that there shall be seven heads of division in this bureau, who shall receive each a salary of \$2,500. The appropriation for the year ending June 30, 1878, allowed two heads of division at a salary of \$2,500 each, and five heads of division at a salary of \$2,250 each. There is no just ground for this discrimination; the officers fully earn \$2,500 each, and, in my judgment, should receive that amount. My reason for recommending an increase in the number of first-class clerks is that the force of this office has been found inadequate to the interests of the public service, it having become necessary from time to time during the past year to employ persons on special work connected with the detection of frauds upon the revenue, and to pay them out of the appropriation for the detection of frauds. Should this increase be authorized it will afford an opportunity of promoting a number of deserving persons now in the \$900 class, and of transferring five persons to the regular roll who are now paid out of the appropriation for "dies, paper, and stamps."

I acknowledge with pleasure the efficiency and conscientious attention to duty manifested by the officers, clerks and employés of the bureau during the past year, and the valuable aid they have rendered me in endeavoring to carry out a just, vigorous, and economical administration of the internal revenue laws.

AMOUNTS COLLECTED AND COST OF COLLECTION.

It will be observed that the collections for the past fiscal year were \$118,995,184. The accounts for making said collections have not yet been closed, but I am able to state that the expenses will not exceed the following amounts:

For salaries and expenses of collectors, which includes the pay of deputy collectors and clerks, house-rent, fuel, lights, and advertising	\$1,865,523
For salaries and expenses of agents, surveyors, gaugers, storekeepers, and miscellaneous expenses	1,570,000
For dies, paper, and stamps	402,600
For detecting and bringing to trial and punishment persons guilty of violating the internal revenue laws	61,000
For salaries of Internal Revenue Bureau	272,372
Total	4,171,495

Being scarcely more than three and a half per cent. upon the whole amount collected.

When we consider the vast territory over which the internal revenue system extends, the large number of persons engaged in the manufacture and sale of taxable articles, and the amount of watchful care and *surveillance* necessary to be maintained for the purpose of collecting the taxes and preventing frauds, this exhibit must be regarded as exceedingly gratifying in respect to the small percentage the expenses bear to the amount collected. The collections for the months of July, August, September, and October of the present fiscal year amount to \$38,520,551, making a grand total of \$157,515,735 collected since the beginning of the last fiscal year; every item of this large amount has been properly accounted for. I had hoped to be able to report that no part of the public funds had been withheld from the Treasury during the period named. Two sums, however, have been misappropriated, to wit, \$1,007.66 and \$5,912.64, but for these amounts the sureties of the derelict officers are fully responsible; consequently the government will

sustain no loss. These figures attest the faithfulness and honesty of the officers to whom the collection of the internal revenues of the government has been intrusted, and I take pleasure in adding my testimony to the commendable *esprit de corps* which has generally marked their official conduct, and the willing disposition they have largely manifested to aid in the improvement of the public service.

TERM OF OFFICE.

I call your attention to the fact that the law creating the office of collector of internal revenue fixes no tenure to the office. In my opinion it is altogether desirable that the term of this office should be fixed at four years. It often occurs that when a collector has served for a longer period than four years, constant efforts are being made for his removal; and many officers, however well they may have discharged their duties, feel, after a four years service, uncertain as to the length of time they will be retained in office. Where an officer is appointed for a term of four years he has a right to expect that if he performs his duty diligently and faithfully he will not be disturbed until his term expires, and this feeling of security I regard as an important element in maintaining a good public service. From my limited observation in public life, I have come to the conclusion that when it can reasonably be done there should be a fixed tenure of all offices of the government. I have the honor to recommend that a law be passed fixing the tenure of office of all collectors of internal revenue hereafter appointed, at a term of four years.

CHANGES IN ADMINISTRATION.

Since my last report the following changes in administration have been made, to which I desire to call your attention:

1. By requiring gaugers to report the length and mean diameter of all packages of spirits gauged, errors in gauging can be more readily detected and corrected, and gaugers are induced to observe greater care in performing their work.

2. In the allowance of claims for abatement, refunding, drawback, or rewards for information, and in the consideration of applications for compromise, and of all contested questions as to claims of the government for taxes not assessed, and generally of all matters wherein testimony is required to be taken, a rule has been established that *ex parte* affidavits or depositions shall not be considered except in very special cases. Before testimony is taken, the party desiring to use the same is required to give reasonable notice to this office, so as to enable the Commissioner to arrange for the cross examination of the witnesses.

3. A circular has been issued, placing prohibitory restrictions upon the employment of officers in the same collection districts who are related to each other by blood or marriage. I am well convinced that the efficiency of the public service will be promoted by interesting a larger number of families throughout the country in the business of enforcing the internal revenue laws.

4. Provision has been made for a quarterly examination of the offices of collectors and of deputy collectors with a monetary responsibility, with a view of securing efficiency in all collectors' offices, and a strict accountability for all public funds. Four revenue agents, who are skillful accountants, have been assigned to this duty.

5. Provision has been made for a quarterly inspection of all the internal revenue officers throughout the country by districts. The scope of

the inspection is sufficiently broad to ascertain the character, capacity, and fidelity of all officers, and the condition of distilleries, breweries, rectifying establishments, tobacco and cigar factories, and all other establishments producing or dealing in taxable articles. Seventeen revenue agents are constantly employed upon this work. By a quarterly examination of collectors' offices and the inspection of the officers of each district, a more strict accountability of the public funds will be maintained, and the efficiency of the force greatly promoted. By this system such full information will be obtained of the standing and capacity of collectors and their subordinates as will readily enable the appointing power to weed out the incapable and inefficient, and to recognize, to the fullest extent, honest, capable, and faithful officers.

UNEXPENDED BALANCES.

Of the appropriations for the past fiscal year the following sums remain unexpended :	
Salaries and expenses of collectors, say	\$15,000
Dies, paper, and stamps, say	63,000
Total	78,000

DEFICIENCY ESTIMATES.

The allowances for the current fiscal year on account of salaries of collectors, &c., have been made with a view of not creating a deficiency. The appropriation, however, is inadequate for a proper enforcement of the internal revenue laws. I therefore recommend a deficiency appropriation of \$40,000 on this account. The appropriation for salaries and expenses of agents and surveyors, for fees and expenses of gaugers, for salaries of storekeepers, and for miscellaneous expenses, I am satisfied is entirely inadequate to the necessities of the service. The amount to be paid to gaugers and storekeepers is dependent upon the operations of the distilleries of the country; and the experience of past years warrants me in saying that the deficiency on this account for the current fiscal year will be \$150,000. I recommend an appropriation of that amount. For salaries and expenses of ten additional revenue agents for the six months of the present fiscal year after December 31, 1877, I recommend an appropriation of \$20,000.

ESTIMATES FOR THE FISCAL YEAR ENDING JUNE 30, 1879.

For salaries and expenses of collectors	\$1,900,000
For salaries and expenses of thirty-five revenue agents, for surveyors, for fees and expenses of gaugers, for salaries of storekeepers, and for miscellaneous expenses	1,640,000
For dies, paper, and stamps	410,000
For detecting and bringing to trial and punishment persons guilty of violating the internal revenue laws, including payment for information and detection	100,000
For expenses of the custody and sale of real estate obtained under the internal revenue laws, including expenses already incurred on that account	6,000

SPECIAL RECOMMENDATIONS.

I recommend legislation upon the following points :

1. That a retail liquor dealer be authorized to close out his stock without incurring a wholesale liquor dealer's tax.

2. That a *bona fide* mortgagee of spirits should be authorized to sell and deliver the same under the mortgage to any person qualified to buy them without incurring a wholesale liquor dealer's tax, and the person so receiving the spirits, without reference to the amount, should not be liable to any penalty therefor.

3. Where the members of a firm who have paid a special tax for pursuing any business are changed by the withdrawal or admission of a partner, the new firm thus created should be allowed to pursue business upon giving notice of such change to the collector of their district without the payment of a new tax.

4. That a person caught in the act of manufacturing or selling illicit spirits may be arrested on view without warrant by a marshal or deputy marshal, and forthwith taken before a proper tribunal for examination.

5. That the existing law be so changed as to authorize the employment of thirty-five revenue agents.

ASSESSMENTS FOR EXCESSIVE USE OF MATERIAL BY DISTILLERS.

On the 6th of September, 1875, after much careful consideration, Hon. D. D. Pratt, then Commissioner, issued circular No. 165, concerning the method of determining the quantity of grain actually used by a distiller. The matter under consideration was the proper construction to be given to the word "used" in section 3309 of the United States Revised Statutes, and said circular was based upon the idea that the proper construction of that word was that the material was to be considered used, not when it was mashed, but when alcoholic spirits, having been properly developed, were separated therefrom by distillation; and for the purpose of giving force to this construction, distillers were required to make return of the quantity of grain or molasses, in bushels and pounds or gallons, on hand in mash at the beginning of the month, to which was to be added that put into mash during the month, and from this total was to be deducted the quantity on hand in mash at the end of the month, the remainder being the quantity shown to be used during the month. After this regulation went into effect a number of distillers throughout the country, in due course of operating their distilleries, found it necessary to reduce the capacity of their distilleries, and, in doing so, omitted to maintain a sufficient amount of daily fermenting capacity to equal the quantity of beer to be distilled that was fermented on the days immediately prior to the date of the change of capacity, so that at the end of the month, when the Commissioner of Internal Revenue, under section 3309, proceeded to inquire and determine whether the distiller had accounted for all the grain or molasses used, it was discovered that the sum of the different daily capacities of the distillery for the several working days of the month was not equal to the sum of the various quantities distilled on the several working days of the month, so that a quantity of material had been used in excess of the total capacity of the distillery. In such cases assessments were made for an excessive use of material under the provisions of said section 3309.

Abatement claims have been filed in these cases, and I have endeavored to give the subject very careful consideration. The distillers might have avoided the assessments by simply omitting to mash a quantity of grain equal to the proposed reduction of capacity from day to day during a fermenting period, retaining their surveyed capacity so that they might lawfully distill the full amount of material previously fermented by them, and then, at the end of said fermenting period,

they might have reduced the capacity of their distilleries to the amount of the reduced quantity of grain daily mashed by them, but, instead of doing this, an immediate reduction of capacity was made, with the result named.

I regard the payment of these assessments as a great hardship upon the distillers, and, if I had found warrant of law for doing so, I would have abated them; but I have felt constrained to hold, and have held, that where a tax is legally assessed I could not, under the provisions of section 3220, take equitable jurisdiction of the case and remit it. I have authorized collectors to delay the collection of these assessments until the matter could be presented fairly to the consideration of Congress. At the last session of Congress a bill was introduced in the House of Representatives, numbered 4630, the second section of which made provision to remit and refund assessments of this character. I have the honor to respectfully recommend that an act similar in terms to said section be passed by the present Congress.

RECEIPTS FROM ALL SOURCES.

The following table shows the amount of taxes returned from all sources during the first quarter of the current fiscal year. The returns for the corresponding period in the last fiscal year, and a comparison of the receipts for the two periods, are also given.

Sources of revenue.	Receipts from—		Increase.	Decrease.
	July 1, 1876, to Oct. 31, 1876.	July 1, 1877, to Oct. 31, 1877.		
SPIRITS.				
Brandy distilled from apples, peaches, or grapes	\$310,577 76	\$390,036 32	\$79,458 56
Spirits distilled from materials other than apples, peaches, or grapes	16,974,979 17	15,851,474 04	\$1,123,505 13
Rectifiers (special tax)	17,191 75	23,363 39	6,171 64
Dealers, retail liquor (special tax)	360,569 66	381,582 36	21,012 70
Dealers, wholesale liquor (special tax)	36,605 82	39,760 82	3,155 00
Manufacturers of stills, and stills and worms manufactured (special tax)	1,552 24	1,670 85	118 61
Stamps for distilled spirits intended for export	414 40	766 30	351 90
Stamps—warehouse, rectifiers, and dealers	89,185 20	82,064 00	7,121 20
Total	17,791,076 00	16,770,712 08	110,268 41	1,130,626 33
TOBACCO.				
Cigars, cheroots, and cigarettes	3,874,425 34	4,136,689 44	262,264 10
Manufacturers of cigars (special tax)	11,856 05	11,224 49	631 56
Snuff	368,561 02	395,684 22	27,123 20
Tobacco of all descriptions	9,821,301 16	10,055,976 40	234,675 24
Stamps for tobacco or snuff intended for export	2,535 10	2,607 20	72 10
Dealers in leaf tobacco (special tax)	8,645 03	7,669 20	975 83
Retail dealers in leaf tobacco (special tax)	500 00	1,437 50	937 50

NOTE.—[A few discrepancies will be observed between some of the amounts in the statements of receipts for the first quarter of the fiscal year 1877 as given above and as stated in the report for 1876, which are thus explained:

(1.) It sometimes happens that sums are reported as having been collected from one source, when in reality they were collected from another, but the error is not discovered until some time after the report has been rendered. Thus, \$80,000 were returned during the period named as collected on brandy, which, it was subsequently ascertained, were collected on whisky. All returns are subject to revision at any time during the fiscal year in which they were made, and all errors of this nature discovered are corrected.

(2.) At the beginning and during the month of October, 1876, twenty collection districts were abolished. As soon thereafter as practicable, the accounts of the collectors of those districts were finally adjusted, and the correction of the difference, if any, between their actual and reported collections was made in one of the returns rendered during the first quarter of the fiscal year 1877, after the report for 1876 was printed.]

From the above table it will be seen that the increase in the receipts from tobacco has been \$544,837.91; from fermented liquors, \$138,020.53; from banks and bankers, \$11,041.39; and from taxes under repealed laws, \$48,812.91. There has been a decrease in the receipts from spirits of \$1,020,357.92; from adhesive stamps, \$5,981.04; and from penalties, \$93,480.15; making a net decrease, in the aggregate receipts, of \$377,106.37.

CAPACITY AND PRODUCTS OF DISTILLERIES AND WITHDRAWAL OF SPIRITS TAX-PAID.

The following table shows the daily spirit-producing capacity of the distilleries in operation for the months of July, August, September, and October of the fiscal years 1874, 1875, 1876, and 1877:

	1874.	1875.	1876.	1877.

GENERAL DEDUCTIONS.

It will be observed upon examination of the foregoing tables that there was a great reduction in the daily producing capacity of distilleries for the months of July, August, and October of the current fiscal year, when compared with the same months last year; but the average daily producing capacity for the past four months has been about equal to that of the same months of the year 1875; the interference with the movement of freights in July last by the strike, the dull market during the past few months, and the prospect for low prices for grain,

have all contributed, in my opinion, to reduce the production and withdrawal of spirits during the period in question. It will also be observed that the amount of spirits in bonded warehouse, at the close of the years 1875, 1876, and 1877, averaged about 13,000,000 gallons; and on the 1st of November in each of said years nearly 10,000,000 gallons. It will be noted that the increase in the production of spirits in the past fiscal year over the preceding fiscal year, viz, 2,000,000 gallons, is substantially represented by the increase in the exportation of spirits during the same period, so that the amount withdrawn tax-paid in each of those years was very nearly 57,000,000 gallons per annum. It would seem, therefore, that the spirits required for home consumption and for export at this time amount to nearly 60,000,000 gallons; and though the production and withdrawal of spirits during the past four months have decreased over a million gallons as compared with the corresponding period of last year, I am satisfied that, with the large crop of corn on hand, the production of spirits during the present fiscal year will equal, if it does not exceed, the amount produced last year. It will further be observed that during the first quarter of the present fiscal year the increase in the receipts from tobacco and cigars has been about \$545,000, from fermented liquors about \$138,000, from banks \$11,000, and in the amount of taxes collected under repealed laws over \$48,000, making a total increase from these sources of over \$864,000. It may be too sanguine a view to assume that this rate of increase from the above sources will be maintained throughout the year, but I am strongly inclined to the opinion that the large crop of tobacco raised throughout the country will have the effect of increasing the production of the manufactured article, thereby adding considerably to the revenue from this source. As shown in this report, there is a steady increase in the amount of tobacco used, the increase last year being 5,658,539 pounds over the year previous.

I think it is safe to estimate that the receipts for the current fiscal year will reach \$120,000,000.

TABULAR STATEMENTS.

The accompanying tabular statements are made up from the accounts of this office, to enable you, as required by law, to lay them before Congress, to wit:

Table A, showing the receipts from each specific source of revenue, and the amounts refunded in each collection district, State, and Territory of the United States, for the fiscal year ended June 30, 1877.

Table B, showing the number and value of internal revenue stamps ordered monthly by the Commissioner: the receipts from the sale of stamps, and the commissions allowed thereon; also, the number and value of stamps for special taxes, tobacco, cigars, cigarettes, snuff, distilled spirits, and fermented liquors, issued monthly to collectors, during the fiscal year ended June 30, 1877.

Table C, showing the territorial distribution of internal revenue from various sources in the United States, for the fiscal years ended June 30, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, 1873, 1874, 1875, 1876, and 1877.

Table D, showing the aggregate receipts from each collection district, State, and Territory, for the fiscal years ended June 30, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, 1873, 1874, 1875, 1876, and 1877.

Table E, showing the total collections from each specific source of revenue for the fiscal years ended June 30, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, 1873, 1874, 1875, 1876, and 1877.

Table F, showing the ratio of receipts from specific sources to the aggregate of all collections for the fiscal years ended June 30, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, 1873, 1874, 1875, 1876, and 1877.

Table G, showing the receipts from special taxes in each collection district, State, and Territory, for the special-tax year ended April 30, 1877.

Table H, an abstract of reports of district attorneys concerning suits and prosecutions under the internal revenue laws during the fiscal year ended June 30, 1877.

Table I, an abstract of seizures of property for violation of internal revenue laws during the fiscal year ended June 30, 1877.

Very respectfully,

GREEN B. RAUM,
Commissioner.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

REPORT OF THE COMPTROLLER OF THE CURRENCY.

REPORT OF THE COMPTROLLER OF THE CURRENCY.

TREASURY DEPARTMENT,
OFFICE OF THE COMPTROLLER OF THE CURRENCY,
Washington, December 3, 1877.

I have the honor to submit for the consideration of Congress, in compliance with section three hundred and thirty-three of the Revised Statutes of the United States, the fifteenth annual report of the Comptroller of the Currency.

Carefully prepared tables accompany this report, among which are those showing the average amount of capital and deposits of national banks, State banks, savings banks, and private banks of the country, by States and geographical divisions, for two different periods in each of the years 1876 and 1877; the items of the public debt of the United States at the date of its maximum, August 31, 1865; the amounts and kinds of circulating-notes of the United States and of the national banks, yearly, from 1865 to 1877; the specie held by the banks, and the estimated amount in the country, on June 30, 1877; the issue and retirement of bank circulation, by States, under the operation of the acts of June 20, 1874, and January 14, 1875; the amounts and kinds of United States bonds held as security for national-bank notes on November 1, 1877; the number and denominations of legal-tender notes and national-bank notes outstanding on the same date; a classification of the loans of the national banks in New York City, in October, for the last three years; together with the average rate of interest in New York and London for those years; the number and amount of national-bank notes issued, redeemed and destroyed, from 1863 to 1877; the amount of circulation and deposits of the banks, and a classification of the reserve required and held, at five different dates in each year, from 1871 to 1877; of the weekly movement of legal tender reserve in the New York City national banks, in the month of October, from 1872 to 1877; the operations of the clearing-house in New York City, for the last twenty-four years; the capital, and amount and rate of taxation, of the national banks, State banks and private bankers, for a series of years; the amount of losses charged off by national banks in the several States and Territories during the years 1876 and 1877; the capital, surplus, dividends and earnings of the national banks, by States and geographical divisions, semi-annually, from 1869 to 1877; the national banks in voluntary liquidation, and insolvent national banks, with their capital stock, claims proved and dividends paid, since the establishment of the national system. The report also contains statements of the State

banks and savings banks organized under the laws of the different States, so far as they could be obtained from official sources.

Tables are also given showing the aggregate resources and liabilities of all the national banks at all the dates for which reports have been made during the past fifteen years, and by States and reserve cities at five different dates for the present year; together with separate statements of the condition of every national bank in the Union, on the first day of October of the present year.

The total number of national banks organized since the establishment of the national banking system, on February 25, 1863, is 2,372; of these, two hundred and thirty-three have gone into voluntary liquidation, by vote of shareholders owning two-thirds of their respective capitals, and fifty-nine have been placed in the hands of receivers for the purpose of closing up their affairs, leaving 2,080 in existence on November 1 of this year. Included in the aggregate number organized are nine national gold banks, located in the State of California, which redeem their circulating notes at their places of issue, and in the city of San Francisco, in gold coin. These have an aggregate capital of \$4,300,000, and an aggregate circulation of \$1,432,120.

During the past year twenty-nine banks have been organized, with an authorized capital of \$2,589,000, to which \$1,244,520 in circulating notes has been issued. Ten banks have failed within this period, having an aggregate capital of \$3,344,000; and twenty-six banks, with a total capital of \$2,589,500, have voluntarily discontinued business.

The following table exhibits the resources and liabilities of the national banks in operation at corresponding dates for the last eight years:

	Oct. 9, 1869.	Oct. 8, 1870.	Oct. 2, 1871.	Oct. 3, 1872.	Sept. 12, 1873.	Oct. 2, 1874.	Oct. 1, 1875.	Oct. 2, 1876.	Oct. 1, 1877.

Section 333 of the Revised Statutes of the United States requires the Comptroller to present annually to Congress a statement of the condition of the banks and savings banks organized under State laws. Returns of capital and deposits are made by these institutions and by private bankers, semi-annually, to the Commissioner of Internal Revenue, for purposes of taxation. The following statement, compiled in this Office from these returns, exhibits in a concise form, by geographical divisions, the total average bank capital and deposits of the whole

* The reserve cities, in addition to New York, Boston, Philadelphia, and Baltimore, are Albany, Pittsburgh, Washington, New Orleans, Louisville, Cincinnati, Cleveland, Chicago, Detroit, Milwaukee, Saint Louis, and San Francisco.

country, exclusive of the national banks, for the six months ending May 31, 1877:

Geographical divisions.	State banks and private bankers.			Savings-banks with capital.			Savings-banks without capital.		Total.		
	No.	Capital	Deposits.	No.	Capital	Deposits.	No.	Deposits.	No.	Capital	Deposits.

The capital of the 2,078 national banks in operation on June 22, 1877, was \$481,044,771, and the average capital of 3,825 State banks, private banks, and savings-banks having capital stock, was, for the six months ending May 31, 1877, less than half that amount, being \$223,503,172. The net deposits of the national banks were \$768,245,746, and the average deposits of the other banks above designated were \$508,712,845. The deposits of 676 savings-banks having no capital stock were, for the same period, \$843,154,804.

The table below, arranged in similar form, gives the average capital and deposits of the same class of banks and bankers for the six months ending November 30, 1876:

Geographical divisions.	State banks and private bankers.			Savings-banks with capital.			Savings-banks without capital.		Total.		
	No.	Capital	Deposits.	No.	Capital	Deposits.	No.	Deposits.	No.	Capital	Deposits.

If the number, capital and deposits of the national banks on June 22, 1877, be combined with the number, average capital and average deposits of the State banks, private banks, savings-banks, and trust and loan companies, as shown by the foregoing table, for the six months ending May 31, 1877, it will give a total number of 6,579, a total banking capital of \$704,547,943, and total deposits of \$2,120,113,396. A similar combination of the national banks for October 2, 1876, with the State banks, savings-banks, &c., for the six months ending November 30, 1876, will give for the latter date a total number of 6,564, a total banking capital of \$722,079,176, and total deposits of \$2,082,735,984.

Tables similar to the above, for the two periods of six months each, ending respectively on November 30, 1875, and May 31, 1876, together with other tables giving the assets and liabilities of State institutions, so far as they could be obtained from the official reports of the several States, will be found in the Appendix.

A table, arranged by States and principal cities, giving the number, capital and deposits, and the tax on capital and deposits, of banking institutions other than national, for the six months ending May 31, 1877, will be found on page 48 of this report. A similar table for the six months ending November 30, 1876, is printed in the Appendix.

THE BANKS AND RESUMPTION.

Section 3 of the act of January 14, 1875, provides that "on and after the first day of January, anno Domini eighteen hundred and seventy-nine, the Secretary of the Treasury shall redeem, in coin, the United States legal-tender notes then outstanding, on their presentation for redemption at the office of the assistant treasurer of the United States in the city of New York in sums of not less than fifty dollars." This legislation is not without precedent, for Congress, on April 30, 1816, by resolution declared that "from and after the 20th day of February next, no duties, taxes, debts or sums of money, accruing or becoming payable to the United States, ought to be collected or received otherwise than in the legal currency of the United States, or in Treasury-notes or notes of the Bank of the United States, or in notes of banks which are payable and paid, on demand, in the said legal currency of the United States."

The New York legislature took similar action at about the same time; and again on March 22, 1875, it passed an act providing that "all taxes levied and confirmed in this State on and after January 1, 1879, shall be collected in gold, United States gold-certificates, or national-bank notes which are redeemable in gold on demand," and that "every contract or obligation made or implied after January 1, 1879, and payable in dollars, but not in a specified kind of dollars, shall be payable in United States coins of the standard of weight and fineness established by the laws of the United States at the time the contract or obligation shall have been made or implied."

The banks in this country, with the exception of those in the New England States, suspended specie payment in September, 1814. The New York banks resumed specie payment on February 20, 1817, but resumption was not general throughout the country until about the close of the year 1819. There was also a general suspension in May, 1837; but in May of the next year the New York and New England banks again resumed specie payment. The banks in Pennsylvania finally resumed, under the coercion of the State legislature, in March, 1842. Banks in other portions of the country resumed at about the same date. A general suspension again occurred in October, 1857, the banks resuming specie payment in the following year.

It would be instructive to compare the condition of the banks during previous periods of suspension and resumption with that at the present time, but detailed statements of the assets and liabilities of the banks during the first period of suspension, which continued for five years, cannot be obtained. The published statistics of the State banks during the later periods mentioned are not wholly satisfactory for the purpose desired, for the reason that the bank reports were not of uniform date in the several States, while the items of specie, circulation, and deposits vary greatly in amount throughout the country at different dates in the same year. The specie, as reported, was not separated from checks payable in coin, and it is known that, in some instances, the same specie was more than once returned.

From such data as are now obtainable, the following table has been

prepared, giving the items of circulation, deposits and bank balances of all the State banks, and of the specie held by them, for a series of eight years, covering both of the periods of suspension and resumption:

Years.	Circulation.	Deposits and bank balances.	Total.	Specie.	Ratios of specie to—	
					Circulation.	Circulation and deposits.
					<i>Per cent.</i>	<i>Per cent.</i>

The subjoined table gives similar information in reference to the national banks for the last eight years:

Years.	Circulation.	Deposits and bank balances.	Total.	Legal-tender funds.	Ratios of legal-tender funds to—	
					Circulation.	Circulation and deposits.
					<i>Per cent.</i>	<i>Per cent.</i>
1870.....	\$296,205,446	\$456,586,096	\$752,791,542	\$144,984,869	48.9	19.3
1871.....	318,265,481	505,847,694	824,113,175	140,659,233	44.2	17.1
1872.....	336,289,285	527,221,571	863,510,856	138,604,706	41.3	16.1
1873.....	341,320,256	505,871,420	847,191,676	155,765,143	45.6	18.4
1874.....	331,193,159	616,513,162	947,706,321	155,452,137	46.9	16.4
1875.....	314,979,451	580,685,391	895,664,842	134,684,380	42.8	15.0
1876.....	292,011,575	583,430,276	875,441,851	139,920,354	47.9	16.0
1877.....	291,874,236	577,191,727	869,065,963	137,484,137	47.1	15.8
Averages.....	315,267,361	544,168,417	859,435,778	143,469,370	45.5	16.7

By reference to these tables it will be seen that from 1835 to 1842 the average ratio of specie to circulation held by the State banks was 31.7 per cent., and to circulation and deposits 18 per cent.; and that from 1850 to 1858 it was 32.1 and 16.1 per cent., respectively. The ratio of specie and legal-tenders to circulation of the national banks, for the eight years named, was 45.5, and to circulation and deposits 16.7 per cent.

The returns of the State banks in the New England States and in the State of New York were more regular and reliable than those of the banks in any other portion of the Union. A comparison between these banks, for the periods named, with the national banks for the last eight years, is given in the following tables, which, together with those

preceding, are tabulated from reports of the condition of the banks at the date nearest January 1 of each year given:

New England States—State banks.

In the above tables the five per cent. redemption-fund required by the act of June 20, 1874, and which consists of deposits with the Treasurer for the purpose of redeeming circulation, is included in the legal-tender fund.

The yearly average circulation of the banks of the State of New York for the ten years from 1851 to 1860 was \$29,698,094, and of deposits \$82,364,349. The average amount of specie held by those banks yearly during the same period was \$16,287,377, of which about one-eighth only was held by the banks outside of the city of New York, and the remaining seven-eighths by the banks in that city. The average ratio of specie to circulation for the ten years named was 54.8 per cent., while to circulation and deposits the ratio was only 14.5 per cent.

The following tables, the first of which has been prepared from information furnished by the manager of the New York clearing-house, show the strength of the State banks of New York City for the six years from 1855 to 1860, as compared with that of the national banks of the same city, at nearly corresponding dates, for the last six years:

State banks of New York City.

* "Legal-tender funds," in the case of the State banks, represents specie.

The national banks are required by section 5172 of the Revised Statutes of the United States to pay their circulating notes on demand, and by section 3 of the act of June 20, 1874, to "keep and have on deposit in the Treasury of the United States, in lawful money of the United States, a sum equal to five per centum of their circulation, to be held and used for the redemption of such circulation." When the legal-tender notes shall be redeemed in coin, the banks will also be required to redeem in coin or in such notes. These notes will then become *coin-certificates*, and will be more convenient and desirable for general use than coin, for the reason that the cost of their transportation will be less than that of specie.

The banks of New York City, during the month of December in the last eight years, have held in lawful money an average of 224.4 per cent. upon their circulation, and of 26.8 per cent. upon their circulation and deposits combined. The average amount of lawful money held by the banks in the other principal cities during the same periods has equaled 59.2 per cent. of their circulation, and, including the amount due from their reserve agents, it has equaled 26.5 per cent. of both circulation and deposits. The national banks of the whole country have held during the same periods an average of 43 per cent. of their circulation, and including, as before, the amounts due from their agents, an average of 23.2 per cent. upon deposits and circulation.

The ratios stated above are shown by the following table, which gives the average circulation, deposits and reserve funds of the national banks in New York City, in the other principal cities, and in the remainder of the country, separately, and the average of the whole for the last eight years:

Cities and States.	No. of banks	Circulation.	Net deposits.	Legal-tender funds.	Due from reserve agents and redemption fund.	Total reserve funds.	Ratios of legal-tender funds to—		Ratio of reserve funds to circ. and deposits.
							Circulation.	Circulation and deposits.

Averages	1,954	315.26	638.93	135.70	85.37	221.08	43.0	14.2	23.2

It will be seen from the various tables given, that the average strength of the national banks for the last eight years is fully equal to that of the State banks during periods of suspension and resumption in former times; and, if resumption is to take place upon any fixed date, the national banks will be certain, as a matter of precaution, to strengthen their reserves beyond the averages here given. It cannot be doubted, therefore, that the national banks will be prepared to redeem their circulating notes at any date of resumption which may be fixed upon.

But, while it is admitted that the banks may easily pay their circulating notes, it is said that it will be impossible for them to provide for their deposits. Those who take this view proceed on the assumption that the banks will be called upon to pay their deposits in specie. This was not true during any former period of specie payment, and is less likely to be true under the national banking system than it was under any previous system of banking. The banks in this country, from their first organization, have, in times of resumption as well as of suspension, received from their dealers current bank-notes and have paid out the same. This is true to-day in Eng'land, Scot-

land, Germany and France, in all of which countries the bank-note is preferred, as a rule, to either gold or silver. Only a small portion of the bank circulation of the country, at any period prior to 1863, was either safe or convertible, and the losses to the holders of bank-notes during such period is estimated to have been not less than five per cent. annually upon the whole amount of circulation outstanding. Yet even this circulation, poor and defective as it was, was freely received by the banks, and was paid out by them to their depositors, so closely identified were the interests of the one with the other. The notes which were returned from the commercial centers for redemption were readily paid out and circulated at home, and the demand for specie, wherever it existed, was almost entirely owing either to an excess of currency or to a want of confidence in the institutions which issued it.

The people throughout the country now know what, prior to 1863, they could not know—for it was not then true—that every bank-note is safe beyond peradventure, and that if these notes are not paid at the counters of the banks which issued them they will be paid at the Treasury Department, in lawful money, and that the securities held for their redemption are amply sufficient for that purpose. No reason, therefore, exists why the people—who, in the last fourteen years, have not lost one dollar through the use of bank-notes—should decline to receive such notes in payment of their deposits. These notes are not only guaranteed by the government, but they are received by it in payment of all taxes and other dues except duties on imports, and are disbursed by it in payment of all demands except interest on the public debt, and in the redemption of national bank notes.

The national banks hold eight hundred and eighty millions of loans made to the people, and each bank is required, by section 5196 of the Revised Statutes, "to take and receive at par, for any debt or liability to it, any and all notes or bills issued by any lawfully organized national banking association." There are, therefore, eight hundred and eighty millions of liabilities of the people due to the national banks—a sum largely exceeding the whole amount of deposits—which may be paid in the notes of any or all of the national banks in the country. The national bank notes are therefore very different in character from the heterogeneous bank-notes formerly issued by authority of the several States. Moreover, the deposits of the banks are largely owned by their own shareholders and by their borrowers; and surely business men, who look to the banks for accommodations, and stockholders, whose profits depend upon their successful management, will be the last to conspire to injure their credit.

Deposits consist chiefly of bank-credits, are derived largely from the discount of commercial paper, and are paid mainly by transfers upon the books—not with either coin or currency. Throughout the country all large payments are made, not with money, but with checks. In the principal cities these payments are accomplished through the operations of clearing-houses. During the last twenty-four years the exchanges of the New York clearing-house were 454 thousand millions, while the balances paid in money were less than 19 thousand millions. The average daily exchanges during this whole period were more than sixty-one millions, while the average daily balances paid in money were but two and one-half millions, or but four and one-fifth cents upon the dollar, as will be seen by a table on another page.

Immediately after resumption in England, in 1821, there was but little demand for gold, and the same was true in France after resumption by the Bank of France in 1850, and in this country in 1838 and 1858. The Bank of France is at present in a state of suspension,

but its notes are preferred by the public to specie, and the bank has found it difficult to reduce the volume of its circulating notes in exchange for coin. All thought of demanding actual payment in specie will vanish as soon as resumption is assured, and those timid bankers who fear that their dealers will demand coin for every dollar of their deposits can reassure themselves by an agreement with their dealers that their deposits shall be payable, as at the present time, "in current funds," which will then consist of legal-tender notes and the notes of specie-paying banks. There is no greater bugbear than the oft-repeated cry, that the Treasury and the banks must provide specie for the payment of two thousand millions of deposits, before resumption can take place.

The coinage act of 1873 provides for the issue of a gold dollar, which shall be the unit of value; but, since the suspension of specie payments, the business transactions of the country have been based upon a false and fluctuating measure of value. This will be seen from the following table, which gives the value of the legal-tender paper dollar on July 1 of each year, from 1863 to 1877, the last column of the table showing, also, its value on November 1 of the present year:

1863.	1864.	1865.	1866.	1867.	1868.	1869.	1870.	1871.	1872.	1873.	1874.	1875.	1876.	1877.	1877.*
<i>Cts.</i>	<i>Cts.</i>	<i>Cts.</i>	<i>Cts.</i>	<i>Cts.</i>	<i>Cts.</i>	<i>Cts.</i>	<i>Cts.</i>	<i>Cts.</i>	<i>Cts.</i>	<i>Cts.</i>	<i>Cts.</i>	<i>Cts.</i>	<i>Cts.</i>	<i>Cts.</i>	<i>Cts.</i>
76.6	38.7	70.4	66.0	71.7	70.1	73.5	85.6	89.0	87.5	86.4	91.0	87.2	89.2	94.5	97.3

The coinage act also provides that the standard weight of this gold dollar, which is the unit of value, shall be twenty-five and eight-tenths grains; but the paper dollar in use since 1863 has represented a gold coin fluctuating in weight, from less than ten grains to about twenty-five grains, as follows:

1863.	1864.	1865.	1866.	1867.	1868.	1869.	1870.	1871.	1872.	1873.	1874.	1875.	1876.	1877.	1877.*
<i>Grs.</i>	<i>Grs.</i>	<i>Grs.</i>	<i>Grs.</i>	<i>Grs.</i>	<i>Grs.</i>	<i>Grs.</i>	<i>Grs.</i>	<i>Grs.</i>	<i>Grs.</i>	<i>Grs.</i>	<i>Grs.</i>	<i>Grs.</i>	<i>Grs.</i>	<i>Grs.</i>	<i>Grs.</i>
19.8	9.9	18.1	17.0	18.4	18.0	18.9	22.0	22.9	22.5	22.2	23.4	22.4	23.0	24.3	25.1

These tables by no means fully represent the fluctuations in the legal standard of value during the last sixteen years. The variations cannot be counted by the number of years, nor even by the number of days. They have been numerous on each day since the date of suspension, and can only be numbered by tens of thousands. The importers, and other wholesale dealers, have often found, during the last sixteen years, that they could have realized more profit from the purchase and sale of gold than of the commodities belonging to their legitimate trade. The tendency of such fluctuations is either to bankrupt or to demoralize all persons engaged in ordinary traffic; for, under such circumstances, business of every kind becomes simply a game of chance, based upon the ever-changing value or weight of a false but legalized standard, and persons in every portion of the country abandon their legitimate business and embark in speculations, bringing failure and disgrace upon themselves and losses upon those who confide in them.

* November 1 of this year.

If the weight of all the produce which has been purchased in the last sixteen years had been determined by a standard pound which varied in weight from six to sixteen ounces, or if the measure of all fabrics had been ascertained by a yard-stick, the length of which at different times ranged all the way from fourteen to thirty-six inches, the evil resulting from the use of such false and varying standards of weight and measure could not have been greater than that which has followed the use, during the same period, of so false a standard of value as the paper dollar has been.

Not many years ago it required one hundred large and heavy weights to balance one hundred bushels of wheat. To-day, by the advance in mechanical science, a five-pound weight will balance a much larger amount of produce, while the actual use of the pound weight is confined to the small transactions of the retail trade. It would now be impracticable to weigh the products of the country with the old-fashioned balances; but, by the aid of the modern platform-scales, the weight of car-loads of coal and of canal-boats of grain are quickly and accurately determined in pounds, every one of which is exactly sixteen ounces avoirdupois. There is not sufficient gold or silver coin in the country with which to pay for the one-twentieth part of the products of the present year; but the machinery of the bank, with its system of checks, and bills of exchange, and clearing-houses, can pay for it all in dollars, every one of which will be an equivalent of the true standard dollar of twenty-five and eight-tenths grains of gold, nine-tenths fine.

Resumption does not mean the actual use and handling of the gold dollar in every transaction. Coin and currency are but the small change used in trade. Bank-checks and bills of exchange are the instruments employed in all large transactions. A single check pays for a whole invoice of goods, for car-loads of coal, and for houses and lands. Resumption means only that the dollar represented by the check shall be equivalent to twenty-five and eight-tenths grains of gold, as the pound represented upon the beam of the platform-scale shall be equivalent to sixteen ounces avoirdupois. It means that the millions and billions of business transactions of a single year shall each be measured by a fixed and true, and not by a fluctuating and false, standard of value.

Congress, on March 18, 1869, passed an act in which "the United States pledges its faith to make provision at the earliest practicable period for the redemption of United States notes in coin;" and on January 14, 1875, a day was fixed for that purpose. The paper dollar is now worth 97 $\frac{3}{4}$ cents in gold, and represents a weight of about twenty-five grains of that metal. It has increased in its representative value and weight forty per cent. during the last ten years, more than ten per cent. during the past two years, and nearly five per cent. within the last six months; and there is no apparent good reason why it should not soon become of the full standard value, when both the paper and the gold dollar will be an equal measure of value, for the rich and poor alike.

The government, and the banks of the country also, suspended specie payment on December 28, 1861; and it is believed that the national banks will cordially unite with the government in restoring the true standard of value whenever the acts of Congress referred to shall be carried into effect.

NATIONAL-BANK CIRCULATION.

The following table exhibits, by States and geographical divisions, the number of banks organized and in operation, with their capital,

bonds on deposit, and circulation issued, redeemed and outstanding, on the 1st day of November, 1877:

States and Territories.	Banks.			Capital.	Bonds.	Circulation.

The act of February 25, 1863, and the subsequent act of June 3, 1864, authorized the issue of three hundred millions of dollars of national-

bank circulation, which was increased by the act of July 12, 1870, to three hundred and fifty-four millions. The act of June 20, 1874, authorized any national-bank desiring to withdraw its circulating notes, in whole or in part, to deposit lawful money with the Treasurer of the United States, in sums not less than \$9,000, and to withdraw a proportionate amount of the bonds held as security for such notes; and the act of January 14, 1875, repealed all provisions restricting the aggregate amount of national-bank circulation, and required the Secretary of the Treasury to retire legal-tender notes to an amount equal to eighty per cent. of the national-bank notes thereafter issued, until the amount of such legal-tender notes outstanding should be \$300,000,000, and no more.

Nearly all of the \$300,000,000 of national-bank circulation originally authorized was issued during the first six years subsequent to the establishment of the system, the amount outstanding on November 1, 1868, having been \$299,887,675—or within \$112,325 of the authorized limit. The additional fifty-four millions authorized by the act of July 12, 1870, was never wholly issued—the greatest amount of circulation outstanding at any time having been on December 1, 1874, when it was \$352,394,346, or \$1,605,654 less than then authorized by law.

Since the passage of the acts of June 20, 1874, and of January 14, 1875, authorizing the retirement and reissue of national-bank notes at the pleasure of the banks, the circulation has been steadily decreasing in amount. This will be seen from the following table, which exhibits the total outstanding circulation, not including mutilated notes in transit, upon the 1st day of January for the last ten years, and also upon November 1 of the present year:

Jan. 1, 1868	\$299,846,206	Jan. 1, 1874	\$348,516,473
Jan. 1, 1869	299,747,569	Jan. 1, 1875	347,959,471
Jan. 1, 1870	299,629,322	Jan. 1, 1876	341,633,672
Jan. 1, 1871	304,956,849	Jan. 1, 1877	318,356,754
Jan. 1, 1872	327,727,306	Nov. 1, 1877	315,881,990
Jan. 1, 1873	342,541,452		

The amount of legal-tender notes on deposit for the purpose of retiring national-bank circulation was, on November 1, 1875, \$20,238,642; on November 1, 1876, \$20,910,946; and on November 1, 1877, \$13,111,371; and deducting these amounts respectively from the amount of circulation outstanding at the dates named, the remainder, on November 1, 1875, was \$322,944,586; on November 1, 1876, \$298,965,250; and on November 1, 1877, \$302,770,619—or only \$2,770,619 more than the three hundred millions originally authorized.

Since the passage of the act of June 20, 1874, \$72,407,545 of legal-tender notes have been deposited in the Treasury for the purpose of retiring circulation, and \$63,109,849 of bank-notes have been redeemed, destroyed and retired. Since the passage of the act of January 14, 1875, \$34,386,385 of additional circulation has been issued, and legal-tender notes equal to eighty per cent. thereof, or \$27,509,108, have been retired, leaving \$354,490,892 of the latter notes outstanding November 1, 1877. The amount of additional circulation issued for the year ending November 1, 1877, was \$16,306,030, of which \$1,244,520 was issued to twenty-nine banks organized during the year, having capital amounting to \$2,589,000; and within the same period \$20,681,637 of circulation was retired, without reissue; the actual decrease for the year being \$4,375,607, and the total decrease since January 14, 1875, \$35,086,339. During the year ending November 1, 1877, lawful money to the amount

of \$10,465,756 was deposited with the Treasurer to redeem circulation, of which amount \$2,291,266 was deposited by banks in liquidation. The amount previously deposited, under the act of June 20, 1874, was \$52,853,560, and by banks in liquidation \$9,088,229; to which is to be added a balance of \$3,813,675 remaining from deposits made by liquidating banks prior to the passage of that act. Deducting from the total of the sums named (\$76,221,220) the amount of circulating notes redeemed and destroyed, and for which no reissue has been made, (\$63,109,849,) there remained in the hands of the Treasurer on November 1, 1877, \$13,111,371 of lawful money for the redemption and retirement of circulation.

The following table exhibits by States the issue and retirement of circulation during the year ending November 1, 1877, and the total amount issued and retired since June 20, 1874:

States and Territories.	Circulation issued.	Circulation retired.

Greenbacks retired under act of January 14, 1875	\$30,659,712
Greenbacks outstanding at date	<u>351,340,288</u>

NATIONAL GOLD BANKS.

National gold banks were authorized to be organized under the act of July 12, 1870. The largest amount of outstanding circulation of these banks was on August 19, 1875, when it amounted to \$2,640,000, upon a capital of \$4,630,000. Nine national gold banks were in operation on November 1, 1877, all located in the State of California, with a capital of \$4,300,000, and with circulation amounting to \$1,432,120. These banks are subject to the same restrictions as other national banking associations. The amount of circulation issued upon bonds deposited is, however, but eighty per cent., and they are required to keep on hand twenty-five per cent. of their circulation in gold and silver coin, the notes of the bank being redeemed in gold coin alone. A bill passed the House of Representatives during the last session, authorizing the issue of ninety per cent. of circulation upon the amount of bonds deposited with the Treasurer, and also requiring such banks to keep on deposit with the assistant treasurer in San Francisco five per cent. of their circulation in gold coin, in lieu of the twenty-five per cent. now required to be kept on hand, and to redeem their circulating notes at their own

counter and at the office of the assistant treasurer. This bill was passed too late in the session to be acted upon by the Senate, and its passage is now recommended.

SECURITY OF CIRCULATING-NOTES.

The following table exhibits the kinds and amounts of United States bonds held by the Treasurer on the 1st day of November, 1877, to secure the redemption of the circulating-notes of national banks:

Class of bonds.	Authorizing act.	Rate of interest.	Amount.
Loan of February, 1861, (81s).....	February 8, 1861.....	6 per cent.	\$2,581,000
Loan of July and August, 1861, (81s)	July 17 and August 5, 1861.....	do	36,145,800

Funded loan of 1907.....	do	4 per cent.	15,884,150
Pacific Railway bonds.....	July 1, 1862, and July 2, 1864.....	6 per cent.	7,836,000
Total.....			343,048,900

On October 1, 1865, the total amount of bonds held for this purpose was \$276,250,550, of which \$199,397,950 was in six per cents., and \$76,852,600 in five per cents. On October 1, 1870, the amount held was \$342,833,850, of which only \$95,942,550 were five per cents.; from which it appears that there has been, during the last seven years, an increase of \$104,147,950 in the five per cents., and a decrease of \$164,906,750 in the six per cent. bonds. During the two years ending November 1, instant, there has been a decrease of \$46,518,662 in six per cents., and of \$38,955,700 in five per cent. bonds; while in the same period \$45,089,700 of four and one-half per cents., and within the last six months \$15,884,150 of four per cent. bonds, have been deposited.

From the above table it will be seen that the amount of bonds pledged by the national banks as security for their circulating-notes is \$343,048,900. This amount consists of \$81,984,550 of six per cent. bonds, including \$7,836,000 issued to Pacific Railroads, \$200,090,500 of five per cent., \$45,089,700 of four and one-half per cent., and \$15,884,150 of four per cent. bonds. If that portion of these securities bearing a higher rate of interest were exchanged for the latest issues of United States bonds, bearing interest at the rate of four per cent. per annum, the income of the banks from this source would thereby be reduced \$3,865,194.50. The tax upon circulation paid to the government for the last fiscal year was about \$2,900,000, which is \$965,194.50 less than the loss of income to the banks, if the bonds held as security for circulation were all exchanged for the four per cents. That is to say, if circulating notes, free from tax, were authorized to be issued upon four per cent. bonds deposited as security therefor, and such bonds should be substituted for the others now on deposit, the income of the national banks would thus be reduced \$965,194.50. The government would, however, be largely the gainer; for the purchase by the banks of \$327,004,750 of four per cent. bonds would place the Treasury Department in funds with which to purchase and retire the same amount of six per cents which have now matured. The government would thereby save \$6,540,095 annually in interest,

while it would lose the present tax upon circulation, (\$2,900,000,) thus leaving a net annual gain of \$3,640,095.

The government has now outstanding more than nine hundred millions of six per cent. bonds, which are to be retired before the five per cents can be called in. When the six per cents shall have been retired, the banks may still hold the five per cents, of which more than \$700,000,000 are now outstanding. If the six per cents held by them should be exchanged for fives, the income to the banks would then be \$3,015,000—or \$115,000 more than the amount of taxes paid upon circulation during the last fiscal year. When the banks shall become the owners of \$300,000,000 of the four per cents, it may be fairly presumed that the borrowing-power of the government will be fixed at not above that rate; so that the funding of the remaining five and six per cent. bonds of the government will be promoted and hastened. It is also to be presumed that, under the stimulus of renewed prosperity in trade and commerce, and the gradual reduction of the greenbacks, an additional amount of bank currency will be issued, which will furnish renewed demands from the banks for the four per cent. issues. It is not probable that during the next ten years the government debt will all be reduced to a rate of interest below five per cent.; and it is clearly for the interest of the government, until this can be accomplished, to receive the four per cents from the banks, free of any tax upon circulation.

The proposition for the repeal of the tax upon circulation has not been urged by the national-bank interest; but, if the four per cent. bonds were authorized to be received as a basis for circulation which shall be free from tax, it would seem that all of the six per cent. bonds now outstanding could soon be exchanged for what would then be rightfully designated the four per cent. consols of the United States.

RESERVE.

It is estimated by the best authorities that the Scotch banks, which have long enjoyed the reputation of being well managed, and the Joint-stock and other incorporated banks of England (not including the Bank of England) hold not exceeding five per cent. of their liabilities in ready money. The remainder of their reserves are largely invested in the English consols, bearing interest at the rate of three per cent. per annum, the average price of which, since 1850, has been about ninety-two cents to the dollar.

The French Government issues small coupon-bonds, or rentes, in denominations as low as one hundred francs, or about twenty dollars, for the convenience of those who desire to invest their savings in the public funds. The recent failures of savings-banks throughout this country, having on deposit large amounts of the people's earnings, have suggested the propriety and policy of the issue by the Government of four per cent. bonds of a denomination less than fifty dollars. There is but little doubt that the savings of the people would be largely invested in such bonds, provided they could be readily negotiated by the holders, when desired, without material loss.

The national banks in the reserve cities are required to keep a reserve of twenty-five per cent. upon deposits, one-half of which may be on deposit with their reserve agents in the city of New York. The country banks are required to hold a reserve of fifteen per cent. upon deposits, three-fifths of which may consist of balances with their correspondents in the reserve cities. An amount equal to more than one-sixth of the capital of the national banks, or about \$87,000,000, is thus con-

tinually kept on deposit with the banks in the reserve cities. A considerable portion, probably one-half of this amount, is sent by the banks to their correspondents, not for the purpose of legitimate business, but in order to obtain interest upon idle funds which cannot be invested by them in available loans. If authority were given to the national banks to hold, in four per cent. bonds of a denomination less than fifty dollars, such portion of their reserve on deposit with their agents as they might think proper, it would result in a large investment by them in these securities; and the savings-bank depositor, if he should so desire, would then find no difficulty in disposing of these small bonds among the twenty-one hundred national banks, one, at least, of which is located in almost every village in the country. This policy would also have the effect of strengthening the available resources of the banks, and of retaining in their hands a considerable portion of those idle funds which are now sent to their correspondents in the central cities, and are loaned by the latter, upon call, to dealers in speculative securities.

It is estimated that an amount, varying from 200 to 600 millions of dollars, is held in English consols, as a reserve fund, by the banks of the United Kingdom; and there does not seem to be any good reason why the four per cent. consols of the United States should not be employed for a similar purpose in this country; and the Comptroller recommends that the banks outside of the city of New York be allowed to hold that portion of their reserves, not required to be kept on hand in cash, in the small four per cent. bonds which may be issued for the use of that class of persons now depositing in savings-banks.

The following tables exhibit the amount of circulation, net deposits and reserve held by the national banks in the States and Territories, (exclusive of reserve cities), in New York City, and in the other principal cities, together with the total amount held by all the banks, at three periods in each year, from 1872 to the present time.

Previous to the passage of the act of June 20, 1874, the national banks were required to hold a reserve upon circulation and deposits. By that act the provisions requiring a reserve to be kept upon circulation were repealed; but the banks were required to deposit with the Treasurer of the United States lawful money, equal in amount to five per centum of their circulation, as a redemption fund, which fund was authorized to be counted as a part of the reserve upon deposits. In the table above given this redemption fund, on and after June 20, 1874, is included in the item of "other lawful money," and the ratio of reserve, as given, is upon both circulation and deposits.

The following table exhibits the amount of net deposits, and the reserve required thereon by the act of June 20, 1874, together with the amount and classification of reserve held, at ten different dates, from October 2, 1874, to October 1, 1877, the date of the latest returns from the banks.

In the above table, as will be seen, the redemption fund is given separate from the lawful money reserve on hand, and from the amount due from reserve agents.

The following table, compiled from weekly returns to the New York clearing-house, exhibits the average liabilities, (consisting of circulation and net deposits,) and the reserve held, together with the average amount of legal-tender notes and specie, and the ratio of each to liabilities, of the New York City national banks, in October of each year, from 1870 to 1877.

Dates.	Liabilities.	Reserve held.			Ratio to liabilities.		
		Legal-tend- ers.	Specie.	Total.	Legal- tenders.	Specie.	Total.
					<i>Per cent.</i>	<i>Per cent.</i>	<i>Per cent.</i>
October, 1870	\$194,034,979	\$46,603,058	\$10,762,843	\$57,365,901	24.0	5.6	29.6

The following table exhibits the movements of lawful-money reserve, consisting of specie and legal-tender notes, of the New York City national banks, weekly, during the month of October, for the last six years:

Week ending—	Specie.	Legal-tenders.	Total.	Ratio to liabilities.
October 5, 1872	\$8,469,700	\$37,998,500	\$46,468,200	24.9
October 12, 1872	10,070,200	40,675,100	50,745,300	26.8
October 19, 1872	10,657,400	46,260,100	56,917,500	28.6
October 26, 1872	9,234,300	46,885,000	56,119,300	27.8
October 4, 1873	9,240,300	9,251,900	18,492,200	11.6
October 11, 1873	10,506,900	8,049,300	18,556,200	11.6
October 18, 1873	11,650,100	5,179,800	16,829,900	10.7
October 25, 1873	11,433,500	7,187,300	18,620,800	12.2
October 3, 1874	15,373,400	53,297,600	68,671,000	30.0
October 10, 1874	14,517,700	52,152,000	66,669,700	29.6
October 17, 1874	12,691,400	51,855,100	64,546,500	29.0
October 24, 1874	11,457,900	49,893,900	61,351,800	28.8
October 31, 1874	10,324,900	50,773,000	60,097,900	27.9
October 2, 1875	5,438,900	56,181,500	61,620,400	28.1
October 9, 1875	5,716,200	51,342,300	57,058,500	26.5
October 16, 1875	5,528,500	48,582,700	54,111,200	25.4
October 23, 1875	5,735,000	47,300,900	53,035,900	25.3
October 30, 1875	8,975,600	45,762,800	54,738,400	26.5
October 7, 1876	17,682,600	45,535,600	63,218,200	30.5
October 14, 1876	16,233,600	43,004,600	59,238,200	28.8
October 21, 1876	15,577,500	41,421,700	56,999,200	27.8
October 28, 1876	14,011,600	41,645,600	55,657,200	28.0
October 6, 1877	14,665,600	36,168,300	50,833,900	27.0
October 13, 1877	14,726,500	35,178,900	49,905,400	26.7
October 20, 1877	14,087,400	35,101,700	49,189,100	26.5
October 27, 1877	15,209,000	34,367,800	49,576,800	26.8

A table showing the average weekly deposits, circulation and reserve of these banks, for the months of September and October, since 1870, will be found in the Appendix. Tables will also be found in the Appendix, showing the state of the lawful money reserve of the national banks, as shown by their reports, from October 8, 1870, to October 1, 1877, together with a similar table showing the reserves, by States and principal cities, for October 1, 1877.

SPECIE IN BANK, AND ESTIMATED SPECIE IN THE COUNTRY.

The table below exhibits the amount of specie held by the national banks at the dates of their reports, for the last nine years—the coin, coin-certificates, and checks payable in coin, held by the New York City banks, being stated separately.

Dates:	Held by national banks in New York City.				Held by other national banks.	Aggregate.
	Coin.	U.S. coin-certificates.	Checks payable in coin.	Total.

June 22, 1877..	1,423,258 17	10,324,320	11,747,578 17	9,588,417 89	22,655,820 31	22,655,820 31
Oct. 1, 1877..	1,535,496 47	11,409,920	12,948,406 47	9,710,413 84	22,655,820 31	22,655,820 31

The amount of silver coin held by the national banks on June 30 and October 2, 1876, was \$1,627,566 and \$2,557,599, respectively. The amount held on October 1, 1877, was \$3,700,703. The amount of specie held by the State banks in the New England States, in New York, New Jersey, Pennsylvania, Maryland, Ohio and Wisconsin, as shown by their official reports for 1877, was \$2,213,978, of which the banks in New York City held \$2,029,160. In the returns from California the amount of coin is not given separately. The amount of "coin and bank-notes" returned July 1, 1877, was \$20,081,300.

In my last annual report a statement was given, from estimates made by the Director of the Mint, showing that the probable amount of coin and bullion in the country on June 30, 1876, was \$181,678,000, of which \$30,113,000 was silver. Assuming this estimate to have been substantially correct, the movement of coin and bullion for the year ending June 30, 1877, and the amount in the country at the latter date, is shown from further estimates of the Director of the Mint to have been as follows:

Estimated amount of coin and bullion in the country June 30, 1876.....	\$181,678,000
Estimated product of the mines for the year.....	82,000,000
Importations for the year.....	40,732,595

Total.....	304,410,595
Deduct exportations.....	\$56,054,737
Amount used in the arts and manufactures.....	5,500,000
	61,554,737

Total estimated amount of coin and bullion in the country on June 30, 1877.....	242,855,858
---	-------------

Of this amount, \$192,720,230 was in gold coin and bullion, and \$50,135,628 in silver coin and bullion. The increase for the fiscal year was \$61,177,858, of which \$41,155,230 was in gold coin and bullion, and \$20,022,628 in silver coin and bullion. The Director estimates the amount of gold coin and bullion in the country on October 31, 1877, at about \$185,000,000, and of silver coin and bullion at about \$50,000,000.

PUBLIC DEBT AT ITS MAXIMUM—CURRENCY AND ITS COIN VALUE.

The public debt reached its maximum on August 31, 1865, when it amounted to \$2,845,907,626, composed as follows:

Funded debt.....	\$1,109,568,192
Matured debt.....	1,503,020
Temporary loans.....	107,148,713
Certificates of debt.....	85,093,000
Five per cent. legal-tender notes.....	33,954,230
Compound-interest legal-tender notes.....	217,024,160
Seven-thirty notes.....	230,000,000
United States notes, (legal-tenders).....	433,160,569
Fractional currency.....	26,344,742
Suspended requisitions-uncalled for.....	2,111,000

Of these obligations, \$684,138,959 were a legal tender in the payment of all debts, public and private, except customs duties and interest on the public debt.

The amounts of legal-tender notes, demand-notes, fractional currency and national-bank notes, outstanding on August 31, 1865, and annually thereafter, from January 1, 1866, to January 1, 1877, and the amounts outstanding December 1, 1877, are shown by the following table, together with the currency price of gold and the gold price of currency at each date:

Date.	United States issues.			Notes of national banks, including gold notes.	Aggregate.	Currency-price of \$100 gold.	Gold-price of \$100 currency.
	Legal-tender notes.	Old demand notes.	Fractional currency.

TRANSACTIONS OF THE NEW YORK CLEARING-HOUSE.

The exchanges at the clearing-house in New York City for the year ending October 1, 1877, were nearly twenty-one thousand millions, and the balances paid in money were about one thousand millions. The average daily exchanges were about sixty-eight and a half millions, and the average daily balances paid in money were but about three and one-third millions, or only 4.9 per cent. of the amount of the settlements.

The New York clearing-house was organized in 1853, and the following table exhibits its transactions, and the amount and ratio of currency required for the payment of daily balances, yearly, for the last twenty-four years:

Years.	No. of banks.	*Capital.	Exchanges.	Balances paid in money.	Average daily exchanges.	Average daily balances paid in money.	Ratios.
1854	50	\$47,044,900	\$5,750,455,987	\$297,411,494	\$19,104,505	\$988,078	Pr. ct.
1855	48	48,884,180	5,362,912,098	289,694,137	17,412,052	940,565	5.4

LOANS AND RATES OF INTEREST OF NEW YORK CITY NATIONAL BANKS.

The following table contains a classification of the loans of the national banks in New York City, at the dates of their reports in October, for the last four years:

Loans and discounts.	October 2, 1874.	October 1, 1875.	October 2, 1876.	October 1, 1877.
	48 banks.	48 banks.	47 banks.	47 banks.
On paper with two or more names	\$116,719,349	\$120,189,537	\$95,510,311	\$92,618,776
On single-name paper, without other security	19,959,609	18,555,100	16,634,532	15,800,540
On United States bonds on demand	4,721,638	4,934,674	6,277,492	4,763,448
On other stocks, bonds, &c., on demand	51,453,682	50,179,384	58,749,574	48,376,633
On real-estate security	278,081	868,160	536,802	497,524
Payable in gold	5,735,138	3,454,276	4,681,570	4,319,014
All other loans	2,909,557	3,908,602	1,852,944	2,786,456
Totals	201,777,054	202,089,733	184,243,225	169,162,391

* The capital stock is stated at various dates, the amount at a uniform date in each year not being attainable.

Yearly averages for twenty-four years. † Totals for twenty-four years.

By reference to this table it will be seen that the total amount of loans of the national banks in the city of New York on October 1, 1877, was \$169,162,391, which is much less than at the date of any report for the last seven years. On January 22, 1870, the loans were \$168,314,034, and on October 8, of the same year, \$168,082,085.

The average rate of interest in New York City for each of the fiscal years from 1874 to 1877, as ascertained from data derived from the *Journal of Commerce* and the *Financial Chronicle* of that city, was as follows:

1874, call loans, 3.8 per cent.; commercial paper, 6.4 per cent.
 1875, call loans, 3.0 per cent.; commercial paper, 5.6 per cent.
 1876, call loans, 3.3 per cent.; commercial paper, 5.3 per cent.
 1877, call loans, 3.0 per cent.; commercial paper, 5.2 per cent.

The average rate of interest of the Bank of England for the same years was as follows:

During the calendar year ending December 31, 1874, 3.69 per cent.
 During the calendar year ending December 31, 1875, 3.23 per cent.
 During the calendar year ending December 31, 1876, 2.61 per cent.
 During the fiscal year ending June 30, 1877, 2.16 per cent.

The rate of interest in the city of New York, on November 30 of the present year, as quoted in the *Daily Bulletin*, was, on call loans, from five to seven per cent., and on commercial paper of the best grade, from five and one-half to seven per cent. The rate of interest of the Bank of England was increased to five per cent. on October 11, and was reduced to 4 per cent. on November 29.

TAXATION.

The following table exhibits the amount of taxes paid by the national banks to the United States, yearly, from the establishment of the system to July 1, 1877, the rate of taxation being one per cent. annually upon the average amount of notes in circulation, one-half of one per cent. annually upon the average amount of deposits, and a like rate upon the average amount of capital stock not invested in United States bonds:

Years.	On circulation.	On deposits.	On capital.	Totals.
1864.....	\$53,096 97	\$95,811 25	\$18,402 23	\$167,310 45
1865.....	733,247 59	1,087,570 86	133,251 15	1,954,029 60
1866.....	2,106,785 30	2,633,102 77	406,947 74	5,146,835 81
1867.....	2,868,636 78	2,650,180 07	321,881 36	5,840,698 21
1868.....	2,946,343 07	2,564,143 44	306,781 67	5,817,268 18
1869.....	2,957,416 73	2,614,553 58	312,918 68	5,884,888 99
1870.....	2,949,744 13	2,614,767 61	375,962 26	5,940,474 00
1871.....	2,987,021 09	2,802,840 85	385,292 13	6,175,154 67
1872.....	3,193,570 03	3,120,984 37	389,356 27	6,703,910 67
1873.....	3,353,186 13	3,196,569 29	454,891 51	7,004,646 93
1874.....	3,404,483 11	3,209,967 72	469,048 02	7,083,498 85
1875.....	3,283,405 89	3,514,310 39	507,417 76	7,305,134 04
1876.....	3,091,795 76	3,505,129 64	632,396 16	7,229,321 56
1877.....	2,899,037 09	3,445,252 74	654,636 96	6,998,926 79
Aggregates.....	36,827,770 27	37,055,144 58	5,369,183 90	79,252,098 75

The amounts collected by the Commissioner of Internal Revenue from State banks and private bankers, during the same period, were as follows:

Years.	On circulation.	On deposits.	On capital.	Totals.
1864.....	\$2,056,996 30	\$780,723 52		\$2,837,719 82
1865.....	1,993,661 84	2,043,841 08	\$903,367 98	4,940,870 90
1866.....	990,278 11	2,099,635 83	374,074 11	3,463,988 05
1867.....	214,298 75	1,355,395 98	476,867 73	2,046,562 46
1868.....	28,669 88	1,438,512 77	399,562 90	1,866,745 55

1870.....	15,419 94	2,177,576 46	827,087 21	3,020,083 61
1871.....	22,781 92	2,702,196 84	919,262 77	3,644,241 53
1872.....	8,919 82	3,643,251 71	976,057 61	4,628,229 14
1873.....	24,778 62	3,009,302 79	736,950 05	3,771,031 46
1874.....	16,738 26	2,453,544 26	916,878 15	3,387,160 67
1875.....	22,746 27	2,972,260 27	1,102,241 58	4,097,248 12
1876.....	17,947 67	2,999,530 75	989,219 61	4,006,698 03
1877.....	5,430 16	2,896,637 93	927,661 24	3,829,729 33
Aggregates.....	5,435,232 59	32,306,827 82	9,994,302 43	47,736,362 84

The number and value of two-cent check stamps sold by the Commissioner of Internal Revenue, yearly, cannot be ascertained. The value of such stamps ordered from contractors during the fiscal years designated was as follows: In 1874, \$1,502,549; 1875, \$1,949,166; 1876, \$1,882,941; and in 1877, \$1,889,334.

From the above tables it will be seen that the total amount collected from the national banks, State banks and private bankers, during the last year, was \$10,828,656.12, and from the date of the imposition of the tax to the present time, not including the tax on bank-checks, it was \$126,988,461.59. The total amount of tax paid upon circulation by the national banks to July 1, 1877, was \$36,827,770.27; while the whole expense of this office from its organization to the same date, has been \$4,298,270.34, which, under section 5173 of the Revised Statutes, is payable out of the proceeds of this tax. The tax upon the national banks has been, from the beginning, collected without expense to the government.

The Comptroller, in August last, issued a circular requesting the national banks to report the amount of State taxes paid by them for the year 1876, and in reply received returns from all the banks continuously in operation throughout the year, 2,046 in number, having an aggregate capital of \$488,272,782. From these reports, and the returns made to the Treasurer, the following table has been prepared, giving the amount of United States and State taxes paid by the national banks in each of the States, Territories and principal cities, together with the rates of taxation upon capital, for the year 1876:

States and Territories.	Capital.*	Amount of taxes.			Ratios to capital.		
		United States.	State.	Total.	U. S.	State.	Total.
					<i>Per ct.</i>	<i>Per ct.</i>	<i>Per ct.</i>

Similar tables for the years 1867, 1869, 1874 and 1875 will be found in the Appendix. Statements of the amount of State and municipal taxes paid by the national banks for the year 1866 were also received, but were not tabulated by States. From the data for the years named, estimates have been made for 1868, 1870, 1871, 1872 and 1873, and a table has been prepared, showing the amount of national and State taxes paid yearly by the national banks, for the last eleven years, as follows:

Years.	Capital stock.	Amount of taxes.			Ratio of tax to capital.		
		United States.	State.	Total.	U. S.	State.	Total.
					<i>Per ct.</i>	<i>Per ct.</i>	<i>Per ct.</i>

In my report for 1876, a table, arranged by States and principal cities, was given, exhibiting the losses charged off by the national banks during the two dividend periods, of six months each, ending respectively on March 1 and September 1, 1876, the information having been derived from the dividend reports made to this office under section 5212 of the Revised Statutes. A similar table is herewith presented, showing the losses charged off, as above stated, during the years 1876 and 1877:

States and cities.	March 1, 1877.		September 1, 1877.		Total.
	No. of banks.	Amount.	No. of banks.	Amount.	
Maine	31	\$136,172 95	25	\$158,844 01	\$295,016 96

Totals for 1876	806	6,501,169 82	1,034	13,217,856 60	19,719,026 42

The table shows that the losses for the first six months of the year were \$8,175,960.56, and for the last six months \$11,757,627.43; total, \$19,933,587.99. The losses for the preceding year were, for the first six months, \$6,501,169.82, and for the last six months \$13,217,856.60; total, \$19,719,026.42, showing an increase in the total losses for the current year over those of the preceding year of \$214,561.57. The amount of losses charged off by the banks in the principal cities was as follows:

Cities.	1876.	1877.
New York	\$6,873,759 97	\$4,247,941 66
Boston	1,598,722 68	2,192,053 81
Philadelphia	152,976 14	333,248 47
Pittsburgh	333,851 56	289,466 59
Baltimore	876,207 32	200,597 74
New Orleans	519,701 41	286,259 47

The number of banks which made no dividends in the last four periods of six months each, together with the amount of their capital, is shown in the following table, by geographical divisions:

Geographical divisions.	Six months ending—							
	March 1, 1876.		September 1, 1876.		March 1, 1877.		September 1, 1877.

The internal-revenue law of July 1, 1862, imposed taxes upon almost the entire property and products of the country. The amount of internal revenue collected during the fiscal year ending June 30, 1866, was nearly \$310,000,000. The act of July 13 of that year largely reduced this amount, and a still further reduction was effected by the legislation of the two following years, which exempted from taxation all manufactures and products except gas, spirits, tobacco and fermented liquors. The entire internal revenue is now derived from taxes upon the three last-mentioned articles, upon such articles as require the use of proprietary stamps, and upon bank deposits, capital, circulation and checks. It is difficult to understand why the tax upon bank deposits, which tax, like the others, was essentially a war-tax, was not repealed at the same time, unless because of an unjust prejudice against banks which is peculiar to this country, and which is traceable to the large losses heretofore sustained by the people upon bank currency issued under the authority of injudicious laws of many of the States.

The *London Bankers' Magazine*, for April, 1877, in commenting upon this subject says: "It is easy to understand how, in the midst of that terrible struggle for existence which racked for a time every joint and sinew of national life almost past endurance, the Government of the United States felt compelled to seize hold of every and any available basis for taxation, and hence fixed on the easily-reached resources of the banks as a most valuable source of supply. But now that those dangers are happily passed, no adequate reason can be given for such an impost. There is nothing which conduces more to the prosperity of a country than a sound system of banking, and besides good management, which is of course understood, nothing is more essential to sound banking than sufficient and ample capital—capital large enough to enable depositors to feel they may rest on it in safety; and any measure which imperils the growth of banking capital for the sake of the taxes which may be levied on it is indeed short-sighted."

The deposits of the banks, which at present amount to more than \$2,000,000,000, as may be seen by reference to another page, are considerably more than twice the whole amount of the paper currency and coin in the country. They are not money, but merely represent commodities which, to a great extent, are not subjected to national taxation. The wheat and flour which are shipped from St. Paul to Chicago are taxed in the banks at St. Paul, if their avails are represented by a bill of exchange. If the same commodities are reshipped from Chicago to the East, a tax is again imposed in Chicago upon their representative bill of exchange, and again in the seaboard city when they are exported to a foreign market. The same is true of the avails of cotton shipped from the South, and of manufactures sent from the New England and other States.

According to the Treasury regulations, deductions of amounts redeposited are not allowable in estimating the taxable deposits. The total individual and bank deposits of each bank must therefore be returned without allowance of such moneys as are deposited by it with its correspondents. A temporary resident in Florida draws his check against his deposit in Boston, which is already subjected to taxation in that city. The bank at Jacksonville transmits the check to its correspondent at Savannah, the Savannah bank transmits it to Philadelphia, the Philadelphia banker to New York, and the New York banker to Boston, where the check is collected. According to the regulations of the Department,

this check, which is not money, but which represents the amount on deposit in Boston, is subject to tax five different times while in transit.

The State laws generally authorize the indebtedness of individuals to be deducted from personal property returned for the purposes of taxation; but the tax on deposits is, on the contrary, a tax upon the indebtedness of the banks, and not only upon their indebtedness to private individuals and corporations, but, in the case of disbursing-officers of the United States, to the government itself. The law requires that the banks shall keep on hand, as a permanent reserve fund, from fifteen to twenty-five per cent. of their deposits; and these reserves, which are held without profit to the banks, and solely for the security of their bill-holders and depositors, are also subjected to a tax. The injustice of all this would seem to be apparent.

The losses of the banks have been unprecedentedly large since the panic of 1873. Many banks have paid no dividends, and others have frequently been paid from surplus, which fund the law contemplates shall be held as a reserve fund for the protection of depositors and dealers.

The banks are not a monopoly, nor is their stock very largely held by the rich men of the country. It is distributed quite generally among people of moderate means, who need for their support regular dividends upon the small amounts of stock which represent their accumulated earnings. This fact will be seen by reference to the carefully-prepared tables on this subject given in my last annual report, where it appears that the number of shareholders of the national banks was then 208,486, and that the average amount of stock held by each shareholder was but about \$3,100. More than one-half of these shareholders held but ten shares or less, each, (not to exceed \$1,000,) while the entire number holding more than one hundred shares each was but 10,851, or only about one-twentieth part of the whole number, and, of these, but 767 held more than five hundred shares each.

The resources of the banks are reported regularly to the Comptroller in sworn statements, and are published in the newspapers of nearly every village in the country. They are also presented annually in the reports of the Comptroller, and are, therefore, accessible to the assessors of every town; so that the banks cannot evade taxation, or deceive the authorities, or resort to any of the devices which other corporations and many private individuals practice with great success. The banks thus pay a large percentage of the taxation which should, in justice, be imposed upon other capital, but which they cannot evade unless they diminish their capital or surrender their business. The State taxes have increased to such an extent in recent years that, in many of the cities, they alone are equal to two and sometimes even three per cent. of the capital of the banks; and instances are known where these institutions pay four-fifths of the personal taxes of the communities in which they are located.

The only plausible reason given for continuing the tax upon the banks is that they enjoy special privileges. But the only real privilege which they possess is that of issuing circulation, and even that is not a restricted privilege, but is one open to all who see fit to engage in the business of banking. Moreover, the profit upon circulation does not, under the most favorable circumstances, exceed two and one-half per cent., and, if issued upon four per cent. bonds, does not exceed one and one-half per cent. of its amount. That it is not a great source of income is evidenced by the fact that the banks have, since the passage of

the act of January 14, 1875, voluntarily reduced their circulation more than forty-four millions of dollars.

The State taxation upon national banks, as will be seen by reference to the tables accompanying this report, is also oppressive because of the unjust system of valuation which prevails in almost every State. For instance, the State assessors of New York, in their report for 1873, say:—"We are satisfied that less than fifteen per cent. of the personal property of the State, liable to taxation, finds a place on the rolls of the assessor, and of mortgages not even five per cent. * * * The amount of personal property assessed, in some of the counties, is less than the banking capital, and the same is true of thirty towns and cities, among which are some of the most prosperous in the State."

In the report of the assessors for 1876, the total personal estate in the State of New York was returned at \$379,488,140, and of the city of New York at \$218,626,178. The bank assessment in that city for the same year was \$85,145,116. The banks of the city, therefore, paid nearly one-fourth of the whole personal tax of the State, and nearly forty per cent. of the personal tax of the city. The Supreme Court of the United States, in the case of the *Gallatin National Bank vs. The Commissioners of Taxes*, decided that the shares of national banks should be assessed at their full and true value, without regard to their par value. The New York assessors had said that shares of bank stock in that State were then assessed to a greater extent than any other kind of personal property; but, under the Supreme Court decision, the assessment for 1876 of the banks in New York City was increased \$11,754,127. The assessment for that year of the personal property in the whole State was also subsequently increased, but the entire increase, exclusive of the more than eleven millions added to the assessment of New York City bank stock, was but \$9,758,758; and it is probable that even this amount was very largely composed of increased assessments on the stock of the banks outside of New York City.

The commissioners of taxes and assessments for the city of New York, in their report of June 30, 1877, say:—"It is unnecessary to reassert at any length the fact, so often stated in previous reports, that the personal property actually assessed in the city and State of New York is small, compared with the actual possessions of their citizens, and that the assessments represent rather the meager provisions of the law than the wealth of the State. * * * The practical effect of the present law is to exempt foreign banking capital used here, and to tax domestic banking capital." They report the total assessments on personal property in the city of New York for the year 1875 at \$217,300,154, of which \$73,390,989 was upon bank stock. Total assessments for 1876, \$218,626,179, of which \$85,145,117 was upon bank stock. Total assessments for 1877, \$206,028,160, of which \$73,614,274 was upon bank stock. The number of persons assessed in 1875, other than bank shareholders, was 8,920; in 1876, 9,233; in 1877, 10,519. The number of shareholders of banks assessed upon their stock was, in 1875, 25,236; in 1876, 25,698; in 1877, 24,649. The reduction of the number of shareholders and of the assessment upon banks in 1877 was due to the reduction of capital and surplus, caused by excessive taxation.

The actual capital and surplus of fire and marine insurance companies in New York was, in 1874, \$58,670,000, but they were assessed at less than \$7,000,000. The total capital of incorporated companies and associations was estimated in 1871, by a commission appointed by the governor, at \$856,500,000, exclusive of surplus and undivided profits. The total assessment of these associations in 1874, was only \$130,000,000,

of which the banks in New York City alone paid seventy-three per cent. If the capital of other associations were assessed like bank stock, at its true value, the proportional assessment of the banks would be but eleven per cent. of the whole, instead of seventy-three per cent., as at present.

By a decision of the Court of Appeals of the State of New York, foreign capital transmitted to that State, to be loaned and employed in business, is exempt from taxation. A national bank with a capital of \$4,000,000 paid taxes in 1876, amounting to \$200,000—or at the rate of five per cent. on its capital, while a foreign agency, employing an equal amount of capital, paid nothing. Ten banks in one of the cities in the State of New York having a population of 46,000 persons, pay taxes upon \$2,750,000, which is more than their aggregate capital; while the aggregate personal property of all other corporations and individuals in the same city, the true value of which is estimated at \$15,000,000, is assessed at but \$990,000. The bank shareholders of that city, numbering 924, of whom more than one third are women, hold, each, an average of \$3,000 of stock. It is estimated that at least 3,000 other persons in that city possess personal property amounting to \$3,000 each. These persons either escape taxation altogether, or are taxed upon a valuation not exceeding \$300 each. The holders of bank stock in that city, therefore, pay a tax at least ten times as great as that paid by the holders of stock in other corporations. The banks in other cities and States are subjected to similar injustice. Even were the United States taxes to be repealed, the banks would still be subject to a tax at least twice as great as that imposed previous to the year 1862. The elaborate tables which are herewith presented furnish convincing evidence in favor of the repeal of the law imposing the tax upon capital and deposits.

The prayer for the repeal of bank-taxes proceeds not alone from officers and shareholders of the banks. The most urgent appeals to Congress are from chambers of commerce and boards of trade in the principal cities of the Union. The following extract from the petition of the Chamber of Commerce of the city of New York, which represents not only the commercial and business interests of that city, but also to a large extent the public sentiment of the business men of the country, declares "that war-taxes, both heavy and unequal in their burden, are imposed on the national banks, State banks, savings-banks and private bankers of this country, which taxes have been for several years productive of great commercial injury; that in no other country are such taxes incurred by the business of banking; that, the exigency having passed away, the war-taxes can be taken off without any sacrifice to the Treasury at all commensurate with the benefits which will result to the agricultural, financial, commercial and industrial pursuits of the country; that the continuance of this onerous and discriminating taxation on banking capital is rapidly withdrawing it from that business, leaving the commerce and industries of the country illy prepared to meet a long-hoped for returning tide of prosperity; and that a persistence in this unequal and special tax can lead to but one result, and that is to prolong the present period of depression and inactivity."

The *London Economist*, a high and impartial authority, in discussing the last report of the Comptroller, says:—"Now there may be some difference of opinion among economists as to the expediency and equity of a tax upon the circulation of the banks, the right of note-issue being a privilege conferred by the State, from which the banks derive a profit; but there can be no question whatever as to the injustice and injurious nature of the other forms of government taxation. The Comptroller points out that the amount of tax to which the national banks are sub-

ject is much greater than that imposed on any other capital in the country; and it is precisely in such a case as this, where taxes are imposed upon the accumulated savings of the country, gathered together into stores available and necessary for the conduct and development of its commerce, that the taxing of capital engaged in trade assumes its most pernicious aspect."

DIVIDENDS.

The law provides, not only that each national bank shall, before the declaration of every dividend, carry one-tenth part of its net profits of the preceding half year to its surplus fund, until the same shall amount to twenty per cent. of its capital, but that no association or any member thereof shall, during the time it shall continue its banking operations, withdraw, or permit to be withdrawn, either in the form of dividends or otherwise, any portion of its capital, and that losses and bad debts shall be deducted from its net profits before any dividend shall be declared. The Comptroller has endeavored to carry out the provisions of this law, and the correspondence of the Office shows that in many instances he has prevented the declaration of illegal dividends. If a bank suffers a loss greater than its accumulated earnings; there are but two courses open to it, so far as dividends are concerned: one is, to pass the dividend, and the other, to pay an illegal dividend from the capital stock.

The *London Economist*, in commenting upon the proper policy to be pursued in the case of a bank which has suffered loss, says:—"One (course) is at once to estimate the whole loss, to largely reduce the present dividend, and to write the necessary sum off the reserve fund; the other, to estimate the possible loss low, to write off but little, and, above all things, to declare as high a dividend as possible. In all companies the rules of morality prescribe the former. It is wrong not to provide for plain losses, and wrong to pay unreal dividends. But in the case of a bank, it is not only wrong but dangerous. Perfect explicitness in such cases is the only means of safety. The credit of a bank is its life, and that credit can only be maintained by deserving the confidence of the public, by *telling the whole truth, though it is not favorable*, and by acting consistently upon real facts, though they are not pleasant. If the largest of our joint-stock banks—the bank of which it used to be said that it never was known to lose largely, or to be concerned in any but good business—writes so large a sum off its reserve fund, and lessens its dividend by one-half, no other bank need fear to tell the whole truth and nothing but the truth. Credit will never be good as long as people believe that anything is kept back. No doubt it needs manliness and fortitude to tell the truth, when the truth is not pleasant; but it is only by manliness and fortitude that confidence can be obtained in common life, or that credit can be preserved in the difficult and trying transactions of business."

During the past six months, 288 banks, with a capital of \$41,166,200, have paid no dividends, and many others have largely reduced the amount of their usual dividends. Associations of high character and standing always refuse to impair their capital stock under such circumstances; and the attention of those banks which are conducted upon the theory that a dividend is always necessary for the maintenance of the credit of their associations is called to the excellent advice of the leading financial journal of England, above quoted.

The subjoined table exhibits the aggregate capital and surplus, total dividends and total net earnings of the national banks, with the rates

of dividends to capital, and to capital and surplus, for each half year from March 1, 1869, to September 1, 1877 :

Period of six months ending—	No. of banks.	Capital.	Surplus.	Total dividends.	Total net earnings.	RATIOS.		
						Divi- dends to capital.	Divid'nds to capital and sur- plus.	Earnings to capital and sur- plus.

Sept. 1, 1876	2,081	500,482,271	132,251,078	22,563,829	20,540,231	4.50	3.57	3.25
Mar. 1, 1877	2,080	496,651,580	130,872,165	21,803,969	19,592,962	4.39	3.47	3.12
Sept. 1, 1877	2,072	486,324,860	124,349,254	22,117,116	15,274,028	4.54	3.62	2.50

From the above table it will be seen that the average annual dividends upon capital during the past year were 8.93 per cent., while the ratio of dividends to capital and surplus in the same period was but 7.09 per cent. The ratio of earnings to capital and surplus during the six months ending March 1, 1877, was 3.12 per cent.; during the six months ending September 1, 1877, it was but 2.5 per cent. The ratio of earnings to capital and surplus for the year was but 5.62 per cent., from which it is evident that a large portion of the dividends for such year has been made from surplus, or from the earnings of former years.

The following table exhibits similar ratios, by geographical divisions, for the years 1875, 1876 and 1877:

A table, exhibiting in a concise form the ratios of dividends to capital, and to capital and surplus, and of net earnings to capital and surplus, of the national banks in every State in the Union and in the principal cities, semi-annually, from March 1, 1873, to September 1, 1877, will be found in the Appendix.

REDEMPTION.

The following table exhibits the amount of national-bank notes received monthly by the Comptroller, for the year ending November 1, 1877, and the amounts received for the same period at the redemption-agency of the Treasury, together with the total amount received since the passage of the act of June 20, 1874 :

Months.	Received by the Comptroller.					Received at redemption-agency.
	From national banks for reissue or surrender.	From redemption-agency for reissue.	Notes of national banks in liquidation.	Under act of June 20, 1874.	Total.	
Nov., 1876.....	\$63,715	\$5,231,900	\$265,550	\$1,577,172	\$7,138,337	\$16,684,253
Dec., ".....	317,785	4,027,400	185,380	1,525,715	6,056,280	14,942,997

During the year ending November 1, 1877, there was received at the redemption-agency of the Treasury \$229,308,507 of national-bank notes.

of which amount \$71,025,000, or about thirty-one per cent., was received from the banks in New York City, and \$82,659,000, or about thirty-six per cent., from Boston. The amount received from Philadelphia was \$14,859,000; from Baltimore, \$1,461,000; Pittsburgh, \$1,146,000; Cincinnati, \$1,603,000; Chicago, \$3,492,000; Saint Louis, \$1,024,000; Providence, \$5,496,000. The amount of circulating notes, fit for circulation, returned by the agency to the banks during the year, was \$158,626,000. The total amount received by the Comptroller from the redemption agency, for destruction, and from the national banks, direct, was \$75,850,063. Of this amount, \$6,811,790 were issues of the banks in the city of New York, \$6,176,437 of Boston, \$2,469,455 of Philadelphia, \$1,592,920 of Baltimore, \$1,462,517 of Pittsburgh, \$603,900 of Cincinnati, \$814,252 of Chicago, \$446,280 of Saint Louis, \$575,167 of New Orleans, \$494,050 of Albany, and \$494,600 of Cleveland.

There were, on November 1, \$255,580,790 of national-bank notes outstanding upon which the charter-number had been printed, and \$60,301,200 not having that imprint.

The following table exhibits the number and amount of national-bank notes of each denomination which have been issued and redeemed since the organization of the system, and the number and amount outstanding on November 1, 1877:

Denominations.	Number.			Amount.		
	Issued.	Redeemed.	Outstanding.	Issued.	Redeemed.	Outstanding.

A table showing the number and denominations of national-bank notes issued and redeemed, and the number of each denomination outstanding, on November 1 for the last ten years, will be found in the Appendix.

The following table shows the amount of national-bank notes received at this Office and destroyed, yearly, since the establishment of the system:

Prior to November 1, 1865.....	\$175,490
During the year ending October 31, 1866.....	1,050,382
During the year ending October 31, 1867.....	3,401,423
During the year ending October 31, 1868.....	4,602,825
During the year ending October 31, 1869.....	8,603,729
During the year ending October 31, 1870.....	14,305,689
During the year ending October 31, 1871.....	24,344,047
During the year ending October 31, 1872.....	30,211,720
During the year ending October 31, 1873.....	36,433,171
During the year ending October 31, 1874.....	49,939,741
During the year ending October 31, 1875.....	137,697,696
During the year ending October 31, 1876.....	98,672,716
During the year ending October 31, 1877.....	76,918,963
Additional amount destroyed of notes of banks in liquidation.....	20,840,068
Total.....	507,197,660

*Add and subtract for portions of notes lost or destroyed.

NATIONAL-BANK AND LEGAL-TENDER NOTES, BY DENOMINATIONS.

The subjoined table exhibits, by denominations, the amount of national-bank and legal-tender notes outstanding on November 1, 1877.

Denominations.	Amount of national-bank notes.	Amount of legal-tenders.	Total.
Ones	\$3, 800, 456	\$24, 806, 459	\$28, 606, 915
Twos	2, 282, 884	24, 600, 544	26, 883, 428
Fives	93, 504, 900	52, 932, 148	146, 437, 048
Tens	93, 312, 850	63, 146, 861	161, 459, 711
Twenties	63, 454, 500	60, 836, 495	126, 290, 995
Fifties	22, 255, 100	30, 108, 715	52, 363, 815
One hundreds	28, 800, 000	30, 176, 670	58, 976, 670
Five hundreds	1, 203, 500	34, 752, 500	35, 956, 000
One thousands	257, 000	34, 123, 500	34, 380, 500
	*10, 800	†1, 000, 000	1, 010, 800
	315, 881, 990	356, 483, 892	672, 365, 882

Section 5175 of the Revised Statutes provides "that not more than one-sixth part of the notes furnished to any association shall be of a less denomination than five dollars, and that after specie payments are resumed, no association shall be furnished with notes of a less denomination than five dollars;" and section 5185 prohibits the issue to gold-banks of circulating notes of a less denomination than five dollars. The amount of such notes issued to national banking associations has always been greatly below this limitation. The whole amount of one and two dollar notes in circulation at the present time is but \$6,083,340, which is less than one-eighth of the proportion to which they are legally entitled. The small amount of these issues is attributable in part to the legal limitation; but more especially to the time and labor involved in signing them, as well as to the further fact that legal-tender notes of these denominations can be readily obtained at the Treasury. The amount of such legal-tender notes now outstanding is \$49,407,003. The amount of tens and twenties of national-bank notes outstanding is \$191,817,750, and the amount of outstanding legal-tender notes of the latter denominations is \$123,983,356. The amount of national-bank notes of the denomination of fifty dollars, and over, is \$52,515,600, and of legal-tender notes, \$129,161,385.

Of the entire amount of legal-tender and national-bank notes outstanding more than eight per cent. are of the denominations of ones and twos, nearly twenty-two per cent. of fives, twenty-four per cent. of tens, and nineteen per cent. of twenties. Of these entire issues, less than twenty-five per cent. in amount are of the denomination of fifty dollars and upward.

Section 5182 of the Revised Statutes requires that the circulating notes of national banks shall be "signed by the president or vice-president and cashier thereof." The signature of at least one bank officer is necessary, as a check between this Office and the issuing bank; for, if the question of an overissue of notes should arise, the signature of such officer would determine the genuineness of the note. A number of banks, however, issue their notes with printed signatures, and, in some cases, with lithographic ones, which are frequently so badly executed as to excite suspicion as to the genuineness of the notes. The Comptroller recommends an amendment of section 5182 of the Revised Statutes,

* Fractions of notes not presented or destroyed.

† Legal-tender notes destroyed in Chicago fire; denominations unknown.

imposing a penalty of twenty dollars for every note issued without the written signature of at least one of the officers of the bank.

INSOLVENT BANKS.

Since my last report receivers have been appointed for ten banks, as follows:

	Capital.
First National Bank of Greenfield, Ohio.....	\$50,000
National Bank of Fishkill, N. Y.....	200,000
First National Bank of Franklin, Ind.....	132,000
Northumberland County National Bank, Shamokin, Pa.....	67,000
First National Bank of Winchester, Ill.....	50,000
National Exchange Bank of Minneapolis, Minn.....	100,000
National Bank of the State of Missouri, Saint Louis, Mo.....	2,500,000
First National Bank of Delphi, Ind.....	50,000
First National Bank of Georgetown, Colo.....	75,000
Lock Haven National Bank, Lock Haven, Pa.....	120,000
	<hr/>
	3,344,000

Dividends have been paid to the creditors of seven of these banks, as follows:

National Bank of Fishkill, N. Y.....	45 per cent.
First National Bank of Franklin, Ind.....	25 per cent.
Northumberland County National Bank Shamokin, Pa.....	25 per cent.
First National Bank of Winchester, Ill.....	20 per cent.
National Exchange Bank of Minneapolis, Minn.....	50 per cent.
National Bank of the State of Missouri, Saint Louis, Mo.....	25 per cent.
First National Bank of Delphi, Ind.....	25 per cent.

The aggregate amount of these dividends is \$759,799.09, the average rate being 27.6 per cent. Dividends have also been paid during the year to creditors of banks which failed previous to November 1, 1876, as follows:

First National Bank of Nevada, Austin, Nev.....	10	per cent. ; total, 90	per cent.
Ocean National Bank, New York, N. Y.....	20	per cent. ; total, 90	per cent.
New Orleans National Banking Association, La.....	15	per cent. ; total, 30	per cent.
Cook County National Bank, Chicago, Ill.....	8	per cent. ; total, 8	per cent.
First National Bank of Tiffin, Ohio.....	7	per cent. ; total, 27	per cent.
Charlottesville National Bank, Va.....	10	per cent. ; total, 20	per cent.
Miners' National Bank, Georgetown, Colo.....	10	per cent. ; total, 10	per cent.
Fourth National Bank of Chicago, Ill.....	40	per cent. ; total, 40	per cent.
First National Bank of Duluth, Minn.....	20	per cent. ; total, 45	per cent.
City National Bank of Chicago, Ill.....	10	per cent. ; total, 35	per cent.
Watkins National Bank of Watkins, N. Y.....	37½	per cent. ; total, 87½	per cent.
First National Bank of Wichita, Kans.....	35	per cent. ; total, 35	per cent.

A dividend of seven and five-tenths per cent. has also been paid to the shareholders of the Waverly National Bank, Waverly, N. Y., making, in all, one hundred per cent. to depositors and 32.5 per cent. to stockholders, and finally closing the bank. Also a dividend of fifteen per cent. to the shareholders of the National Bank of the Commonwealth, in New York City, making, in all, one hundred per cent. to depositors and thirty-five per cent. to stockholders.

The total amount of dividends disbursed by the Comptroller to creditors and shareholders during the year ending November 1, 1877, was \$1,631,867. The total amount of dividends paid since the organization of the system is \$11,153,462.

Dividends have also been declared since November 1, 1877, in favor of the creditors of the following banks, viz:

Crescent City National Bank, New Orleans, La.....	15 per cent. ; total, 75 per cent.
First National Bank of Wichita, Kans.....	10 per cent. ; total, 45 per cent.
Lock Haven National Bank, Lock Haven, Pa.....	10 per cent. ; first dividend.
Miners' National Bank of Georgetown, Colo.....	25 per cent. ; total, 35 per cent.
First National Bank of Norfolk, Va.....	10 per cent. ; total, 45 per cent.
City National Bank of Chicago, Ill.....	10 per cent. ; total, 45 per cent.

Assessments have been made upon the shareholders of twenty-six insolvent national banks, for the purpose of enforcing their individual liability, the amount of such assessments being \$5,108,500, of which \$824,032.89 has been collected. The amount of assessments made during the past year was \$1,502,400.

From the date of the establishment of the national banking system to June 1, 1877, fifty-five banks had failed, with an aggregate capital of \$10,875,100. The amount of creditors' claims proved was \$17,899,886, and that of dividends paid was \$10,029,045. The total loss to the creditors of these banks is estimated at \$5,525,000. There has been no loss whatever upon their circulation.

The most fruitful cause of the failure of national banks has been the unlawful use of the funds or credits of these associations by their officers and directors. In most instances these persons have accomplished this malfeasance or crime by obtaining, in their official capacity, the discount of notes in which the bank had no interest. The receivers of six different banks, which have recently failed, have declined to allow claims for discounted paper bearing the indorsement of the bank, upon the ground that the claimant had good and sufficient notice that such paper was discounted for the benefit of individuals and not of the bank. The passage of an act prohibiting a bank from borrowing money upon its own obligation, or from loaning its credit, is recommended; and it is also suggested that an act prohibiting any bank from obtaining rediscounts upon its own bills receivable, unless authorized by its board of directors, under the seal of the bank, would have the effect to put other banks upon their guard, when applied to for such favors.

A table showing the national banks which have been placed in the hands of receivers, the date of appointment of such receivers, the amount of capital and of claims proved, and the rates of dividends paid to creditors, and also one showing the amount of circulation of such banks, issued, redeemed and outstanding on November 1, 1877, will be found in the Appendix.

STATE BANKS AND SAVINGS-BANKS.

Section 333 of the Revised Statutes requires the Comptroller to report to Congress "a statement exhibiting, under appropriate heads, the resources and liabilities and condition of the banks, banking companies and savings-banks organized under the laws of the several States and Territories; such information to be obtained from the reports made by such banks, banking companies and savings-banks to the legislatures or officers of the different States and Territories, and where such reports cannot be obtained, the deficiency to be supplied from such other authentic sources as may be available."

The laws of the United States require returns of capital and deposits to be made to the Commissioner of Internal Revenue, for purposes of taxation, by all State banks, savings-banks and private bankers. These returns have been procured from the Commissioner, and the following table compiled therefrom in this Office, which exhibits the number of State banks, savings-banks, trust companies and private bankers, and

their average capital and deposits, and the taxes thereon, by States, for the six months ending May 31, 1877 :

States and Territories.	No. of banks.	Capital.	Deposits.	Tax.		
				On capital.	On deposits.	Total.

A table, giving the number of State banks, savings-banks, trust companies and private bankers in the United States, with their average capital and deposits, and the taxes thereon for the six months ending November 30, 1876, will be found in the Appendix.

The returns tabulated above refer only to capital and deposits. The Comptroller is required by law, as before stated, to report to Congress the resources and liabilities of banks other than national banks, so far as such information can be obtained by him. This requirement was first made by act of February 19, 1873, and in compliance therewith the Comptroller has endeavored for the past four years to furnish as complete statistics of the condition of these institutions as could be obtained. Statements relative to the condition of the State and savings-banks of New York, and of the New England States, are readily obtained from their State authorities. A summary of these statements, and of returns showing the condition of the State banks of Pennsylvania, Maryland, Kentucky, Ohio, Indiana, Michigan, Wisconsin, Iowa and Minnesota, are given in the Appendix. Complete returns are also given, showing the condition of the savings-banks of New Jersey, Ohio and Indiana, and partial returns of such banks are given for the States of Pennsylvania and Maryland.

The Comptroller is indebted to the *San Francisco Evening Bulletin* for returns from the State banks and savings-banks in California, which, by the act of the legislature of April 1, 1876, are required to be filed for record in the office of the recorder of the county, and to be published by all banks and private bankers in a newspaper published in the county where their banking-offices are located. In the returns made by the California banks, specie is not separated from United States and national-bank notes. In compiling these returns from the several States, all banks having capital stock are included under the head of State banks, while banks having no capital stock are placed under the head of savings-banks.

It will be seen that complete returns of State banks have been received from seventeen States only, of savings-banks from but ten, and of trust and loan companies from only four States. The legislature of Missouri recently passed a law requiring all banks in the State to make reports in the month of December. There are ten States and eight Territories in which no reports are required. With a view of rendering this system of reports more complete and effective than at present, the Comptroller has prepared the form of a bill, which is herewith presented; and it is respectfully suggested to members of Congress and State officers that, if approved by them, they shall lend the weight of their influence to procure the enactment of a law, similar in form, by the legislatures of their respective States. It may be mentioned that a bill, substantially the same as that here presented, was passed by the legislature of Ohio last year.

A BILL to provide for obtaining and publishing reports of banks, savings institutions and trust companies organized under State laws.

Be it enacted, That each and every banking institution, organized under the laws of this State, shall make a report to the auditor of state, showing the condition thereof before the commencement of business on the first Monday in the months of January, April, July, and October, of each year.

SEC. 2. That the auditor of state shall issue his requisition upon all banking institutions, for the reports required to be made by section 1 of this act, a convenient number of days prior to the first day of January, April, July and October, in each year, and each banking institution shall, upon receipt thereof, immediately forward to the auditor a balanced report of its condition, verified by the oath or affirmation of one or more of the officers of such institution, and shall also publish such report in full at its own expense, in a newspaper issued at the place where the institution is located, or, if there be no newspaper in that place, then in the one nearest thereto; and any banking insti-

tution neglecting to make and transmit to the auditor of state, and publish, such reports, shall, after the expiration of five days from the receipt of the requisition therefor, be subject to a penalty of thirty dollars for each day's delay, which penalty may be collected by suit to be brought by the auditor of state, or by any creditor of the association, before any court of competent jurisdiction in the district wherein such banking institution is located; and all sums of money collected for penalties under this section shall be paid into the treasury of the State.

SEC. 3. That banks, trust companies, savings-banks and other banking institutions, having capital stock, shall report their resources and liabilities in the following form:

Report of the condition of The _____, at _____, in the State of _____, before the commencement of business on the first Monday of _____, 187—.

And such banks shall also furnish, with their reports, the following information: The number of open accounts, and the rate per centum of dividends or interest on deposits for the past year.

SEC. 5. That the auditor of state shall compile the reports received by him under this act, and the tables so compiled shall be printed quarterly for distribution when prepared, and shall be transmitted by him to the legislature at the beginning of each session thereof.

INDIVIDUAL LIABILITY OF SHAREHOLDERS.

Previous to the year 1858 banking companies could not be organized in England with limited liability, except by way of privilege under special acts of Parliament, royal charters or letters patent. The Bank of England, and three banks in Scotland, were thus privileged. In the year 1858 an act was passed authorizing the formation and registration of banking companies with limited liability—that is, limited to the total amount of each share, whatever might be the amount actually paid up at the time. In the Scotch banks, with the exception of the Bank of Scotland and two chartered banks with large capitals, the private fortune of every stockholder is answerable for the debts of the bank.

The elaborate banking law of Sweden, (act of 1864,) which contains severe restrictions, together with many excellent features, requires the transfer of shares to be registered in court, and also advertised in the newspapers at the time the transfer is consummated. The partners in such banking companies must be Swedish subjects, in number at least thirty, and “they are responsible, one for all and all for one, for the fulfillment of all the engagements of the banking company.” These are called “partners with joint responsibility.” These partners may unite with themselves shareholders whose responsibility for the engagements of the company is limited to the full amount of their shares. These are called “shareholders with limited liability,” and such may not be received into the company for more than, at most, one-half of the amount which the partners with joint responsibility put into the capital. The board of directors is formed from those partners, only, who have a joint responsibility. Similar provisions in reference to the liability of shareholders are in existence in other countries.

The safety-fund system of the State of New York, authorized in 1829, contained no provision in reference to the individual liability of shareholders, nor did the free-banking act of 1838. An attempt was made in the year 1828, and many times subsequently, to enact such a provision, but it was always bitterly contested in the legislature, and defeated. The principle was, however, considered of so great importance that a section was incorporated in the constitution of the State, in 1846, providing that after the 1st day of January, 1850, the stockholders of all banks issuing circulating notes “shall be individually responsible to the amount of their respective share or shares of stock in any such corporation or association for all its debts and liabilities of every kind contracted after the said 1st day of January, 1850,” and the constitution, as amended in 1874, contains substantially the same provision. The same principle was subsequently incorporated into the bank legislation of Ohio and other States.

Section 5151 of the Revised Statutes of the United States provides that the shareholders of every national banking association shall be held individually responsible, equally and ratably, and not one for another, for all contracts, debts and engagements of such association, to the extent of the amount of their stock therein, at the par value thereof, in addition to the amount invested in such shares. Suits have been brought against the shareholders of twenty-six banks for the enforcement of this individual liability. Assessments have been made to the amount of \$5,108,500, of which \$824,032.89 has been collected. The first suit under this section was that of *Kennedy vs. Gibson*, brought to enforce the individual liability of the shareholders of the Merchants' National Bank of Washington, which bank failed on May 8, 1866. This suit was appealed to the Supreme Court of the United States, and in December,

1869, an elaborate opinion was given by that court, from which the following quotation is made:

The receiver is the instrument of the Comptroller. He is appointed by the Comptroller, and the power of appointment carries with it the power of removal. It is for the Comptroller to decide when it is necessary to institute proceedings against the stockholders to enforce their personal liability, and whether the whole or a part, and, if only a part, how much shall be collected. These questions are referred to his judgment and discretion, and his determination is conclusive. The stockholders cannot controvert it. It is not to be questioned in the litigation that may ensue. He may make it at such time as he may deem proper, and upon such data as shall be satisfactory to him. This action on his part is indispensable whenever the personal liability of the stockholders is sought to be enforced, and must precede the institution of suit by the receiver. The fact must be distinctly averred in all such cases, and if put in issue must be proved.

The liability of the stockholders is several and not joint. The limit of their liability is the par of the stock held by each one. Where the whole amount is sought to be recovered, the proceedings must be at law. Where less is required, the proceedings may be in equity, and in such case an interlocutory decree may be taken for contribution, and the case may stand over for the further action of the court—if such action should subsequently prove to be necessary—until the full amount of the liability is exhausted. It would be attended with injurious consequences to forbid action against the stockholders until the precise amount necessary to be collected shall be formally ascertained. This would greatly protract the final settlement, and might be attended with large losses by insolvency and otherwise in the intervening time. The amount must depend in part upon the solvency of the debtors and the validity of the claims. Time will be consumed in the application of these tests, and the results in many cases cannot be foreseen. The same remarks apply to the enforced collections from the stockholders. A speedy adjustment is necessary to the efficiency and utility of the law—the interest of the creditors requires it, and it was the obvious policy and purpose of Congress to give it. If too much be collected, it is provided by the statute that any surplus which may remain after satisfying all demands against the association shall be paid over to the stockholders. It is better they should pay more than may prove to be needed than that the evils of delay should be encountered. When contribution only is sought, all the stockholders who can be reached by the process of the court may be joined in the suit. It is no objection that there are others beyond the jurisdiction of the court who cannot for that reason be made codefendants.

At the last term of the Supreme Court it reaffirmed this decision in the case of *Casey, receiver, vs. Galli*, Italian vice-consul. In this case the order was to collect the par value of the stock, and therefore the suit was at law. The declaration on the part of the receiver demanded judgment for the par value of defendant's stock, as debt, and interest from the date of said order, as damages. To this defendant demurred specially, for four reasons, viz: First, that defendant was bound to contribute ratably, and that the proper amount could be ascertained only in equity; second, that defendant was bound to contribute ratably to pay a large sum, that this sum was not stated in the declaration, and hence what would be ratable and proper did not appear; third, that the obligation of defendant was to pay into the hands of the Comptroller a ratable portion of the debts of the association proved before him, but the declaration did not show that any debt had been so proved; fourth, that the declaration demanded a larger sum than defendant was bound to pay, in that it claimed interest by way of damages.

The court in passing upon this demurrer said:—"In regard to the first three of these objections, it is sufficient to say that *Kennedy vs. Gibson* is conclusive against them. It is there said that the amount to be paid rests in the judgment and discretion of the Comptroller, that his determination cannot be controverted by the stockholders in suits against them, and that when the order is to collect the full amount of the par of the stock, the suit must be at law. It is unnecessary to reproduce the reasoning of the court in support of these propositions."

After the judgment of the court the counsel for the defendant filed

two "special pleas in bar." 1. That the Comptroller had determined to collect from the defendant, and other shareholders who were solvent, money sufficient to pay the debts of the bank, without collecting from those who were insolvent. 2. That the receiver or the Comptroller had allowed, and determined to pay, a large amount of claims which the bank was not liable for, because of the prohibitions contained in section 5202 of the Revised Statutes, and that, without these, the assets of the bank were sufficient to pay all its debts. The court held that the first plea was bad, not only for special reasons, but because the Comptroller had ordered collections from all stockholders, which order was conclusive upon the defendant, as already decided in the case of *Kennedy vs. Gibson*. The second plea was also held bad, the court saying that "the same objection lies to this plea as to the preceding one, and the same authority applies." So, also, in the same case, a plea in abatement, alleging that there was no such corporation as the New Orleans National Banking Association, because the owners of two-thirds of the capital stock of said Bank of New Orleans did not authorize the bank to be converted into a national association under the laws of the United States, nor to accept an organization certificate as such banking association, was held bad on general demurrer. The court decided that the Comptroller was clothed with jurisdiction to decide as to the completeness of the organization, and that, for the purposes of this litigation, his certificate is conclusive upon the subject. "It has the same effect, and for the same reasons, as his determination and order with regard to the amount to be collected from each shareholder in the event of the failure of an association." "No question can be raised in this collateral way as to either." Upon this point the case of *Thacher vs. West River National Bank* (19 Mich., 199) is cited and concurred in.

Subsequently, in the case of the *Crescent City National Bank, Case, receiver, vs. Germania National Bank, et al.*, the Supreme Court recognized the power of the Comptroller to make and repeat assessments, until the limit of the par value of stock is reached.

Section 5151 of the Revised Statutes is in the nature of a contract between the shareholders and the depositors of a national bank, and section 5210 of the Revised Statutes provides that "every national banking association shall cause to be kept at all times a full and correct list of the names and residences of all the shareholders in the association, and the number of shares held by each, in the office where its business is transacted, which list shall be subject to the inspection of all the shareholders and creditors of the association; and that a copy of such list, on the first Monday of July of each year, verified by the oath of the president or cashier, shall be transmitted to the Comptroller of the Currency." The law thus provides that the depositors shall at all times have the means of ascertaining the names of the shareholders of the bank to whom they intrust their money, and it is right that these stockholders shall be held individually responsible for its prompt return; and it has been held in a number of cases that, until there is a transfer of shares on the books of the bank, the shareholder whose name there appears is liable for the debts of the bank, and that an actual sale and the signing of an ordinary power of attorney on the back of the certificate of stock will not relieve the seller from liability.

It has also been held by the Supreme Court that shareholders must pay interest upon their assessments, from the date thereof. It is the duty of the Comptroller speedily to collect and promptly to distribute these assessments. The chief points in reference to the liability of shareholders have been presented and determined by the highest court. Nothing,

therefore, but delay and expense can result from the refusal of stockholders to pay their individual liability, when called upon for that purpose by the Comptroller.

Section 1010 of the Revised Statutes provides that "where, upon a writ of error, judgment is affirmed in the Supreme Court or a circuit court, the court shall adjudge to the respondents in error just damages for his delay, and single or double costs, at its discretion." Yet parties of high standing and well-known responsibility postpone the payment of legal assessments by appeal to the courts, notwithstanding these decisions. The Comptroller will endeavor to collect from such parties, not only the principal and interest, but the penalty of such delay, as provided by law.

SYNOPSIS OF SUPREME COURT DECISIONS.

A synopsis of the decisions of the Supreme Court of the United States, relative to the national banks, was prepared for my last annual report by the Hon. Charles Case, late receiver of two national banks in the city of New Orleans, now practicing his profession in this city. Mr. Case, at my request, has revised that synopsis, adding not only the recent decisions of the Supreme Court, but many adjudications of other Federal courts, and, in some instances, the rulings of State tribunals upon points pertaining or applicable to national banks.

ABATEMENT.

- I. An action brought by a creditor of a national bank is abated by a decree of a district or circuit court dissolving the corporation and forfeiting its franchises. (*National Bank of Selma vs. Colby*, 21 *Wallace*, p. 609.)
- II. Suit by the receiver of the *New Orleans National Banking Association* (formerly a State organization called the Bank of New Orleans) against a shareholder to enforce his personal liability. Plea in abatement that "at the date of the appointment of said receiver there was not, nor has there since been, nor is there now, any such corporation as said New Orleans National Association, because said Bank of New Orleans had no power by its charter, nor authority otherwise from the State of Louisiana, to change its organization to that of a national association under the laws of the United States."

On general demurrer this plea was held bad, because no authority from the State was necessary to enable the bank to make such change. The option to do so was given by the forty-fourth section of the banking act of Congress, 13 Statutes, 112. "The power there conferred was ample, and its validity cannot be doubted." (*Casey, receiver, &c., vs. Galli, 4 Otto*, p. 673.)

This plea was also held bad upon the additional ground that "where a shareholder of a corporation is called upon to respond to a liability as such, and where a party has contracted with a corporation, and is sued on his contract, neither is permitted to deny the existence and legal validity of such corporation." (*Ibid.*)

"To hold otherwise," says Mr. Justice Swayne, (p. 680,) "would be contrary to the plainest principles of reason and good faith, and involve a mockery of justice. Parties must take the consequences of the positions they assume." "They are estopped to deny the reality of the state of things which they have made to appear to exist, and upon which others have been led to rely. Sound ethics require that the apparent, in its effects and consequences, should be as if it were real, and the law properly so regards it."

ACCOMMODATION INDORSEMENTS.

- I. Where bills, indorsed by a national bank for accommodation only, had been negotiated by the bank through its usual channels of communication with its correspondents as its own bills, and the proceeds thereof had been placed to the credit of the bank, which thereupon gave the same credit to the parties for whom it had thus indorsed, and received no benefit therefrom:

Held, That although an accommodation indorsement by a national bank, in such cases, was void in the hands of holders against whom notice of the character of the indorsement could be concluded, yet that the bank was liable for the same to holders, for value, without notice. (*Blair vs. First National*

ACCOMMODATION INDORSEMENTS—Continued.

Bank, Mansfield, Ohio. United States circuit court for Ohio, at Cleveland, November term, 1875, Emmons, J.)

Query, whether, under the provisions of section 5202 of the Revised Statutes of the United States, any indorsement by a national bank is not *ultra vires*.

ACTIONS.

- I. A national bank may be sued in proper State court. (*Bank of Bethel vs. Pahquique Bank*, 14 Wall., 383, p. 395.)
- II. Such banks may sue in Federal courts. The word "by" was omitted in section 57 of act of 1864 by mistake. (*Kennedy vs. Gibson*, 8 Wall., pp. 506-7.) Receivers may also sue in United States courts. (*Ibid.*, pp. 506-7.)
- III. When the full personal liability of shareholders is to be enforced the action must be at law. (*Kennedy vs. Gibson*, 8 Wall., p. 505; see, also, *Casey, &c.*, vs. *Galli*, *supra*.)
- IV. But if contribution only is sought, the proceedings may be in equity, joining all the shareholders within the jurisdiction of the court. (*Ibid.*, pp. 505-6.) See, also, title "SHAREHOLDERS, INDIVIDUAL LIABILITIES OF," VI. *post*. Judge Swayne says "may," and Nelson, J., says that "*we may sue at law*."

ATTACHMENT OF ASSETS.

1. When a creditor attaches the property of an insolvent national bank, he cannot hold such property against the claim of a receiver appointed after the attachment suit was commenced. Such creditor must share *pro rata* with all others. (*National Bank of Selma vs. Colby*, 21 Wall., p. 609.) See also title "JURISDICTION," II, *post*.

ATTORNEYS.

- I. Section 56 of currency act is directory only, and it cannot be objected by defense that a suit is brought by private attorney instead of the United States district attorney. (*Kennedy vs. Gibson*, 8 Wall., p. 504.)

BY-LAWS.

- I. A national bank cannot by its by-laws create a lien on the shares of a stockholder who is a debtor of the association. (*Bullard vs. National Bank, &c.*, 18 Wall., p. 589.) See also case of *Bank vs. Lanier*, 11 Wall., p. 369, cited under "LOANS ON SHARES," *post*.
[NOTE.—In *Young vs. Faugh*, 23 N. J. Equity R., p. 325, it was held that a national bank could by its by-laws prohibit the transfer of shares by a shareholder while indebted to the bank, and that transfers in violation of such by-laws were void. As it is held by the Supreme Court of the United States that such by-laws can create no lien for indebtedness, it would seem that a regulation prohibiting such transfers can be of little practical use, even if the power exists.]

CHECKS.

- I. The holder of a check on a national bank cannot sue the bank for refusing payment, in the absence of proof that it was accepted by the bank. (*National Bank of the Republic vs. Millard*, 10 Wall., p. 152.)
- II. The relation of banker and customer is that of debtor and creditor. Receiving deposits is an important part of the business of banking, but the moment they are received they become the moneys of the bank, may be loaned as a part of its general fund, and the check of the depositor gives no lien upon them. (*Ibid.*, *per Davis, J.*, p. 155.)
- III. Perhaps, on proof that check had been charged to the drawer, and that the bank had settled with him on that basis, the holder or payee could recover on a count for "*money had and received*." (*Ibid.*, pp. 155-6.)
- IV. The facts that the bank was a United States depository and the check was drawn by a United States officer to a United States creditor do not vary the rule. (*Ibid.*, pp. 155-6.)
- V. Where a bank pays a check drawn on it, in favor of a party whose indorsement thereon is forged, and the same has passed through several hands, only reasonable diligence is required to be exercised in giving notice to prior holders of the forgery, after its discovery, in order to hold them liable. (*Schroeder vs. Harvey*, 75 Ill., p. 638.)
- VI. A clerk of plaintiffs' received from their debtors checks, payable to their (plaintiffs') order, in payment of sums due. The clerk, wrongfully and without authority, indorsed the names of the plaintiffs on these checks and transferred

CHECKS—Continued.

them to other persons, appropriating the proceeds to his own use. Subsequently these checks were deposited with a bank which in good faith collected them and paid over the proceeds to the depositors. In a suit by plaintiffs against the bank, to recover the amount so collected by it: *Held* That the bank was liable. (*Johnson vs. First National Bank*, 13 N. Y. Sup. Court, p. 121.)

- VII. The act of Congress of March 3, 1869, making it unlawful for a national bank to certify checks unless the drawer has at the time funds on deposit to an amount equal to the amount specified in the check, does not invalidate a conditional acceptance of a check by such bank, having no funds of the drawer in its hands at the time, but engaging to pay the same when a draft left with it for collection by the drawer shall have been paid. (*National Bank vs. National Bank, West Va. St.*, p. 544.)

CITIZENSHIP.

- I. National banks are citizens of the State in which they are organized and located, and when sued by national banks of other States have a right to demand a removal of the suit from a State to the proper Federal court. (*Chatham National Bank vs. Merchants' National Bank*, 4 *Thomp. & C.*, (*Thompson & Cook*), N. Y. Sup. C., p. 196, and 1 *Hunter*, N. Y., p. 702.)

COLLECTIONS.

- I. A collection agent, who receives from his principal a bill of lading of merchandise, deliverable to order, and attached to it a time draft, may, in the absence of special instructions, deliver the bill of lading to the drawee of the draft, upon the latter's acceptance of the draft. It is not the duty of the agent to hold the bill after such acceptance. (*National Bank of Commerce vs. Merchants' National Bank*, 1 *Otto*, p. 92.)
- II. *Woolen & Co.*, bankers at Indianapolis, sent to defendant, a bank at Buffalo, a draft on one Bugbee, also bills of lading for sundry car-loads of lumber. The remittance was by letter, which merely stated that the draft and bills were sent to defendant for collection and remittance of proceeds to plaintiffs, *Woolen & Co.* The draft was drawn by, and to the order of, *Coder & Co.*, indorsed by them, by Mayhew, and the plaintiffs. By the terms of draft the drawer, indorsers, and acceptor waived presentment for payment and notice of protest and non-payment. It was payable fifteen days after its date, and it was admitted that by ordinary course of transit the lumber would reach its destination eight days prior to the maturity of the draft. There had been no business transactions between plaintiffs and defendants save one collection similar to this. Defendants presented the draft to Bugbee for acceptance, and, upon such acceptance, delivered to him the bills of lading. Bugbee failed before the draft matured, and plaintiffs sued defendants for delivering the bills of lading to Bugbee before payment of the draft. It was conceded that the draft was drawn for the price or value of the lumber.

Held, per Wallace, J., that, the draft being on time, it must be presumed that it was the intent of parties that Bugbee should realize from sale of the lumber the funds to meet the draft at maturity. Therefore, upon his acceptance of the draft, he was entitled to the bills of lading, and defendants were not liable for thus delivering them, but if the draft had not been upon time, a different rule might have prevailed. (*Woolen & Webb vs. N. Y. and Erie Bank*, 12 *Blatchf.*, p. 359.)

- III. The *Corn Exchange National Bank of Chicago* sent defendant, the *Dawson Bank* at Wilmington, N. C., a draft drawn upon one *Wiswall*, living at Washington, N. C., for collection. Defendant by letter acknowledged the receipt of the draft, stating that it had been credited to the *Corn Exchange Bank*, and entered for collection. Thereupon defendant sent draft to *Burbank & Gallagher*, bankers at Washington, N. C., for collection. The latter house collected the draft, but failed and passed into bankruptcy before remitting. In a suit brought by the assignee of the *Corn Exchange National Bank* against the *Dawson Bank* to recover the proceeds of the draft, *Held, per Wallace, J.*, that the latter bank was liable for the amount. (*Kent, Assignee, &c., vs. The Dawson Bank*, 13 *Blatchf.*, p. 237.)

[NOTE.—The court concedes that the authorities are conflicting upon the point involved in this case. In *New York, Ohio*, and in *England*, the decisions sustain the conclusion of Judge Wallace, while in *Connecticut, Massachusetts, Illinois and Pennsylvania*, precisely the contrary rule prevails. The point was made in this case that the law of Illinois should control the rights of parties, but it was held otherwise.]

COLLECTIONS—Continued.

- IV. In an action by G against a bank it appeared that a note was made to G's order, indorsed by him and sent through the house of B, a banker, for collection, and by B indorsed to the defendant bank, "for collection and credit." Held that B, by the indorsement, did not become the owner of the note, and had no right to pledge it, or direct its proceeds to be credited to him in payment of his indebtedness to the defendant bank. (*First National Bank vs. Gregg*, 79 Pa. St., p. 384.)
- V. In such case if the defendant bank had made advances, or given new credit to B on the faith of the note, it would have been entitled to retain the amount out of the proceeds. (*Ibid.*)
- VI. A bank holding a customer's demand-note has a lien upon the proceeds of drafts delivered to it for collection, after the giving of the note; though collected after the filing of a petition in bankruptcy, and can apply such proceeds upon the notes. (*Re Farnsworth*, 5 Biss., p. 223.)

COMPROMISES.

- I. In adjusting and compromising contested claims against it, growing out of a legitimate banking transaction, a national bank may pay a larger sum than would have been exacted in satisfaction of them, so as to thereby obtain a transfer of stocks of railroad and other corporations, in the honest belief that by turning them into money under more favorable circumstances than then existed, a loss, which it would otherwise suffer from the transaction, might be averted or diminished. (*First National Bank vs. National Exchange Bank*, 2 Otto, p. 122.)
 - II. So, also, it may accept stocks in satisfaction of a doubtful debt, with a view to their subsequent conversion into money, in order to make good or reduce an anticipated loss. (*Ibid.*)
- See also ESTATE, REAL, I, *post*.

COMPTROLLER.

- I. The Comptroller appoints the receiver, and can therefore remove him. (*Kennedy vs. Gibson*, 8 Wall., p. 496.)
- II. The Comptroller's certificate, reciting the existence of the facts of which he is required to be satisfied, to justify the appointment of a receiver, under section 50 of the national-bank act, is sufficient evidence of the validity of such appointment, in an action brought by such receiver. (*Platt vs. Bebee*, 57 N. Y., p. 339.)
- III. The Comptroller must authorize any increase of the capital stock of a national bank; and such increase must be certified by him as prescribed by sec. 13 of the act of Congress providing for the organization of national banks. (R. S., sec. 5142. *Charleston vs. People's Nat'l Bank*, 5 S. C., p. 103.)
- IV. The Comptroller cannot subject the United States Government to the jurisdiction of a court, though he appears and answers to the suit. (*Case vs. Terrill*, 11 Wall., p. 199.)

CURRENCY ACT.

- I. The purpose of the currency act, was, in part, to provide a currency for the whole country, and, in part, to create a market for the government loans. (*Per Strong, J.*, in *Tiffany vs. Missouri*, 18 Wall., p. 413.)
- II. National banks organized under the act of Congress of June 3, 1864, are the instruments designed to be used to aid the government in the administration of an important branch of the public service; and Congress, which is the sole judge of the necessity for their creation, having brought them into existence, the States can exercise no control over them, nor in any wise affect their operation, except so far as Congress may see proper to permit. (*Per Swayne, J.*, in *Farmers and Mechanics' National Bank vs. Dearing*, 1st Otto, p. 29.)
- III. The constitutionality of the act of June 3, 1864, is unquestioned. It rests on the same principle as the act creating the second Bank of the United States. The reasoning of Secretary Hamilton, and of this court in *McCulloch vs. Maryland*, 4 Wheat., p. 316, and in *Osborne vs. Bank U. S.*, 7 Wheat., p. 708, therefore applies.
- IV. The power to create carries with it the power to preserve. The latter is a corollary of the former. (*Ibid.*, *per Swayne, J.*, pp. 33-34.)

DEBTORS OF NATIONAL BANKS.

- I. Debtors of an insolvent national bank, when sued by the receiver, cannot object that pleadings do not show a compliance with all the steps prescribed by statutes as preliminary to the appointment of such receiver. (*Cadle, Receiver, &c.*, vs. *Baker & Co.*, 20 Wall., p. 650.)
- II. Such ordinary debtors may be sued by receiver without previous order of the Comptroller. (*Bank vs. Kennedy*, 17 Wall., p. 19.)

DEPOSITS, GENERAL.

- I. The relation between a bank and its depositors is that of debtor and creditor only, and is not fiduciary. Thus, a note deposited for collection, if passed to the credit of the depositor, in his general account, then overdrawn, becomes the property of the bank, which becomes indebted to him for the proceeds. Upon the bankruptcy of the bank, the proceeds are assets available to the general creditors. And the fact that the account was made good by other deposits, before collection of the note, makes no difference. (*In re Bank of Madison*, 5 Bissell, p. 515.)
- II. A deposit is general, unless the depositor makes it special, or deposits it expressly in some particular capacity. And in case of a general deposit of money with a banker, a previous demand by the depositor, or some other person by his order, is indispensable to the maintenance of an action for the deposit, unless circumstances are shown which amount to a legal excuse. (*Brahm vs. Adkins*, 77 Ill., p. 263.)

DEPOSITS, CERTIFICATES OF.

- I. A certificate of deposit was issued by a bank for a certain sum, subject to the order of the depositor at a certain date, payable on the return of the certificate:
Held, in an action on said certificate against the bank, brought by an assignee, that there could be no recovery without proof of an actual demand and refusal of payment. (*Brown vs. McElroy*, 52 Ind., p. 404.)
- II. In a suit against the bank, upon a stolen certificate of deposit given by the defendant to the plaintiff, reciting that he had deposited in the bank a certain number of dollars, payable to his order in current funds, on the return of the certificate properly indorsed:
Held, first, that the instrument should be regarded as the promissory note of the bank, assignable under the statute, (of Indiana,) but that it was not negotiable as an inland bill of exchange, being made payable, not in money, but "in current funds;" second, that the payee could recover on said stolen certificate without giving a bond against a subsequent claim thereunder by another person. (*National State Bank vs. Ringel*, 51 Ind., p. 393.)
- III. Where a bank issues a certificate of deposit, payable on its return properly indorsed, it is liable thereon to a bona-fide holder, to whom it was transferred seven years after it was issued, notwithstanding the payment thereof to the original holder. Such certificate is not dishonored until presented. (*National Bank Fort Edward vs. Washington Co. National Bank*, 5 Hun., N. Y. Sup. Court, p. 605.)

DEPOSITS, SPECIAL.

The taking of special deposits to keep, merely for the accommodation of the depositor, is not within the authorized business of national banks; and the cashiers of such banks have no power to bind them on any express contract accompanying, or any implied contract arising out of, such taking. (*Wiley vs. First National Bank*, 47 Vt., p. 546.)

A banking association, under the national-currency act, has power to assume the duties and obligations of a naked bailee of property, either gratuitously or for hire, (as to which point the court does not decide, though apparently inclined to deny such power,) it is clearly outside its ordinary business; and it is not within the scope of the general powers or general authority of its executive or ministerial offices to bind such corporation by a contract for such bailment. Therefore, in the absence of proof of special authority for that purpose, delegated by the board of directors, or evidence that such powers have been exercised by their knowledge and sanction, or that such has been the habit and custom of the bank, it is not responsible for property thus received by its cashier. (*First National Bank Lyons vs. Ocean National Bank*, 60 N. Y., p. 278.)

- A circular issued by such corporation, inviting the correspondence of other banks, and offering to buy and sell securities for them, is no evidence of a consent, on its part, to become a general bailee and depository of such securities for its correspondence. (*Ibid.*)
- IV. The corporations formed under the national-currency act are banks of deposit, as well as circulation. They are authorized to issue their own notes, and receive from others their money and circulate it. Money so received is termed a deposit, although it has none of the qualifications of a bailment, thus named. There is no trust or promise to redeliver the same money. By the deposit the money becomes the property of the bank, and only the relation of debtor and creditor is created. (*Ibid.*, per Allen, J., p. 288.)

[NOTE.—In the last cited case the cashier of the Ocean National Bank had, at

DEPOSITS, SPECIAL—Continued.

sundry times, received United States bonds belonging to the Lyons bank. Some of these bonds had been purchased by said cashier and the assistant cashier for the Lyons bank. Two or three times, by the order of the latter bank, the coupons of these bonds had been cut off by said cashier, and proceeds credited to the Lyons bank. But there was no proof that these transactions were done, or that said bonds were kept in the vault of said Ocean Bank, with the knowledge of the directors. While said bonds were thus kept, burglars broke in and stole them. The court held, and the opinion was unanimous, that there was no difference under the currency act between such a deposit of United States bonds and a deposit of other valuable property, such as plate, diamonds, or jewelry, for safe-keeping, gratuitously. It was a naked bailment of deposit, without reward, and such an act of the cashier as did not bind the bank.]

For definition of the bailment called "deposit," and the liabilities of such a bailee, see *Story on Bailments*, section 4, and sections 61 to 135.

As to special deposits of money with a bank, see *Story on Bailments*, section 88; also, *Smith vs. First National Bank*, 99 Mass., p. 605. In this last case there had been a special deposit of gold coin, to be returned when called for. The cashier embezzled the funds: Held, that the bank was not liable, as there was no gross negligence on the part of the corporation.

DIRECTORS OF NATIONAL BANKS.

- I. Directors of a national bank may remove the president, both under the law of Congress and the articles of association, where the latter so provide. The power exists if the bank has adopted no by-laws. (*Taylor vs. Hutton*, 43 Barb. N. Y. Sup. Court, p. 195; S. C., 18 Abb. Pr. R., p. 16.)

ESTATE, REAL.

- I. The want of power of a bank, or of its trustee (receiver) in insolvency, to purchase and hold real estate, does not render void an arrangement whereby land subject to a lien in favor of the bank, and to other liens, is discharged of those other liens by funds from the assets of the bank, the land being then sold, and the entire proceeds of such sale realized to the bank assets, provided the title does not pass through the bank or its trustee. (*Zantzingers vs. Gunton*, 19 Wall., p. 32.)

INTEREST.

- I. Under section 30, act of 1864, a national bank in any State may take as high rate of interest as by the laws of such State a natural person may stipulate for, although State banks of issue are restricted to a less rate. (*Tiffin vs. National Bank of Missouri*, 18 Wall., p. 409.)

[NOTE.—In Missouri, natural persons may take ten per cent., but States are restricted to eight per cent. In this case the national bank had nine per cent: Held legal.]

- II. Held, also, that as the action was virtually brought to recover the usury, the statute (section 30) must receive a strict construction.

See also Title "USURY," *post*.

INTEREST ON CLAIMS OF CREDITORS.

- I. Where a national bank is put in charge of a receiver, under section of original Currency act, (R. S., sec. 5234,) and a sufficient sum is realized from its assets to pay all claims against it and leave a surplus, the receiver is not to allow interest on the claims during the period of administration, before appropriating the surplus to the stockholders of the bank. A claim of assumpsit by the holder of such a claim will not lie against the Comptroller against the receiver, but will lie against the bank. (*Chemical Bank vs. Bailey*, 12 Blatchf., p. 480.)
- II. In such action interest is recoverable on all demands originating in contract, and conditioned for the payment of interest, and on all demands for money due and unpaid, by way of damages for non-payment after such demands became due. And interest is recoverable on a balance due a depositor in such bank, although he has made no formal demand of payment. (*Ibid.*) But, as to this last point, see the ruling of the Supreme Court.
- III. In the case of *National Bank of the Commonwealth vs. Mechanics' National Bank*, 4 Otto, p. 437, the Supreme Court United States, at its last term, decided that a depositor in a national bank, when it suspends payment and a receiver is appointed, is entitled from the date of his demand to interest upon the deposit; that the claims of depositors in such bank at date of suspension for the amount

INTEREST ON CLAIMS OF CREDITORS—Continued.

of their deposits are, when proved to the satisfaction of the Comptroller of the Currency, placed upon the same footing as if reduced to judgments; that is to say, they draw interest from the time of such proof and allowance.

It was also decided that, such interest being a liquidated sum at the time of the payment of the deposit, an action lies to recover it, and interest thereon.

JUDGMENTS.

- I. A judgment against a national bank in the hands of a receiver, upon a claim, only establishes the validity of such claim; the plaintiff can have no execution on such judgment, but must await *pro rata* distribution. (*Bank of Bethel vs. Pahquioque Bank*, 14 Wall., p. 353. *Clifford, J.*, p. 402.)

JURISDICTION.

- I. A United States district court has jurisdiction to authorize a receiver of an insolvent national bank to compromise a debt. (*Matter of Platt*, 1 Ben., p. 534.)
- II. A resident (citizen) of Kentucky was a creditor of a national bank located in Alabama, and commenced a suit on his claim against said bank in the supreme court of the State of New York, at the same time attaching certain moneys belonging to said bank, in the hands of the National Park Bank, in New York. Subsequently the receiver of the Alabama bank (which had failed) was, on his own motion, made party defendant to the action pending in the New York supreme court, and pleaded "*want of jurisdiction*," and other defenses. The supreme court overruled his plea to the jurisdiction, rendered judgment against the receiver on the merits, and ordered satisfaction to be made from the moneys attached. Thereupon the receiver filed his bill in chancery in the *United States circuit court* for the proper circuit, praying an injunction to restrain the collection of the judgment rendered by said supreme court, and that the moneys attached be paid to him as receiver.

Held that, by the provisions of the currency act, the State court was deprived of jurisdiction of the attachment proceedings; that the receiver was not estopped by the proceedings in said State court from asserting his rights in said circuit court, and that he was entitled to the relief prayed for in his bill. (*Cadle, receiver, &c., vs. Tracy*, 11 Blatchf., p. 101.)
(*Vide Title "RECEIVERS, VII," post.*)

LOANS ON SHARES.

- I. National banks are governed by the act of 1864, which repealed the act of 1863, and cannot, therefore, make loans on the security of their own shares, unless to secure a pre-existing debt, contracted in good faith. *Bank, &c., vs. Lanier*, 11 Wall., p. 369.)

The placing of funds by one bank on permanent deposit with another bank is a loan within the spirit of section 35 of act of 1864. (*Ibid.*, p. 369.)
Loans by such banks to their shareholders do not create a lien on the shares of such borrowers. (*Ibid.*, p. 369. See also *Bullard vs. Bank*, 18 Wall., p. 580; and "*BY-LAWS*," *supra*.)

EXCESS.

A loan by a national bank in excess of the restriction of section 29 of the act of 1864, (Revised Statutes, section 5200,) which provides that the total liabilities of any person (borrower) shall not exceed ten per centum of the capital stock, is not void on that account. The loan may be enforced, though the bank may be liable to proceedings for forfeiture of its privileges, &c., for making the same. (*Stewart vs. National Union Bank of Maryland*, 2 Abb., *United States*, p. 424. See also *O'Hare vs. Second National Bank*, 77 Pa. St., p. 96.)

In *Samuel M. Shoemaker vs. The National Mechanics' Bank*, and *The Same vs. The National Union Bank*, application for injunction, &c., United States circuit court, Baltimore, Md., Judge Giles held * * * "As to the first charge in this bill against the defendant, in reference to the amount loaned to Bayne & Co., in violation of the twenty-ninth section of the act of June 3, 1864, I would only say that the loan made under such circumstances is not void; it can be enforced as any other loan made by the bank." * * *

LOCATION.

- I. Under sections 6, 8, 10, 15, 18, and 44 of the original currency act, (13 Stat. at Large, 101,) respecting the location of banking associations, a national bank is to be regarded as located at the place specified in its organization certificate. If such place is in a State, the association is located in that State. (*Manufacturers' National Bank vs. Baack*, 8 Blatchf., p. 137.)

OFFICERS.

- I. It is the duty of directors of a bank to use ordinary diligence in acquiring knowledge of its business. They cannot be heard, when sued, to say that they were not apprised of facts, the existence of which is shown by the books, accounts and correspondence of the bank. They should control the subordinate officers of the bank in all important transactions. Therefore, under the circumstances proved in this particular case, they were held liable for the abstraction and sale of special deposit by the latter: (*United Society, &c., vs. Underwood, 9 Bush, Ky., p. 609.*)
- II. The cashier of a national bank, who had executed no bond, embezzled its funds, discovery whereof might have been effected by use of slight diligence on the part of the directors. They, however, published, according to law, a statement of the condition of the bank, which showed that its affairs were being prudently and honestly administered, and from which the public had a right to believe that he was trustworthy. Afterward, persons who had seen this report became sureties on the official bond of the cashier, and for his subsequent embezzlements were sought to be held liable thereon. Held, that such sureties, being misled by the statement, were released. They had a right to believe that the directors, before publishing it, investigated the condition of the bank. (*Graves vs. Lebanon National Bank, 10 Bush, Ky., p. 23.*)
- III. A guaranty against loss for signing as sureties, given by a bank president, without authority from the directors, to those whom he had solicited thus to sign a note, given to the bank to retire a prior note held by it against their principal, is held to be the individual contract of the president, and not binding upon the bank. (*First National Bank vs. Bennett, 33 Mich., p. 520.*)
- IV. A cashier, who has made sale of corporate property, and holds a balance in his hands, is the agent of the board of directors, and not of the respective stockholders, and cannot be charged by an individual stockholder as holding such balance for his benefit. (*Brown vs. Adams, 5 Biss., p. 181.*)
- V. A cashier, without special authority, cannot bind his bank by an official indorsement of his individual note, and the onus is on the payee to show such authority. (*West Saint Louis Savings Bank vs. Shawnee Co. Bank, 3 Ill., p. 403.*)
- VI. Although the cashier of a bank may, in the ordinary course of business, without the action of the directors, dispose of the negotiable securities of the bank, he has not the power to pledge its assets for the payment of an antecedent debt. (*State of Tennessee vs. Davis, 50 How. (N. Y.), p. 447.*)

RECEIVERS.

- I. The receiver of a national bank is the instrument of the Comptroller, and may be removed by him. (*Kennedy vs. Gibson, 8 Wall., p. 505.*)
- II. Such receiver is the statutory assignee of the assets of the bank, and to collect the same in his own name, or in the name of the bank, for (*Ibid., p. 506.*)
- III. In such suit it is not necessary to make the bank or creditors parties (*p. 506.*)
- IV. The receiver of a national bank represents such bank and its creditors in no sense represents the United States Government, and cannot submit to the jurisdiction of any court. (*Case vs. Terrill, 11 Wall., p. 11.*)
- V. The decision of a receiver, rejecting a claim against his bank, is not final until he has been confirmed by the court. (*Bank of Bethel vs. Piquette Bank, 14 Wall., p. 14.*)
- VI. The clause of section 50, act of 1864, which prescribes that the receiver shall be "under the direction of the Comptroller," means only that he shall be under his direction, not that he shall not act without orders. He may collect the assets. That is what he is appointed for. (*Bradley, J., Kennedy, 17 Wall., pp. 22-3.*)
- VII. Receivers of national banks are officers of the United States, within the meaning of the act of Congress of March 3, 1815, giving United States jurisdiction of actions by United States officers, and may sue in such actions. (*Platt, receiver, &c., vs. Beach, 2 Ben., p. 303.*)

[NOTE.—The judge places stress upon the provision of section 31 of the act of 1864, which requires (in that particular instance) that the Secretary of the Treasury shall concur in the appointment of the receiver.]

SET-OFF.

- I. In an action brought to enforce the individual liability of a shareholder of an insolvent bank, such shareholder cannot set off against such liability the amount due to him as a creditor of the bank. (*Garrison vs. Howe, 17 N. Y., p. 458; In re Empire City Bank, 18 N. Y., p. 199.*)

[NOTE.—Though these cases were decided by a State tribunal, (New York

SET-OFF—Continued.

court of appeals,) and the rulings were based upon provisions of a State constitution and a State statute, yet the principle they enunciate is recognized and fully affirmed in *Sauryer vs. Hoag*, 17 Wall., p. 610, and *Seammon vs. Kimball*, 2 Otto, p. 362.]

SHAREHOLDERS, INDIVIDUAL LIABILITY OF.

- I. Comptroller must decide *when and for what amount* the personal liability of the shareholders of an insolvent national bank shall be enforced. (*Kennedy vs. Gibson*, 8 Wall., p. 505.)
- II. His decision as to this is conclusive. Shareholders cannot controvert it. (*Ibid.*, p. 505.)
- III. In any suit brought to enforce such personal liability, such decision of the Comptroller must be averred by the plaintiff, and, if put in issue, must be proved. (*Ibid.*, p. 505.)
- IV. The liability of shareholders is several, and not joint. (*Ibid.*, p. 505.)
- V. The limit of such liabilities is the par value of the stock held by each one. (*Ibid.*, p. 505.)
- VI. Where the whole amount is sought to be recovered, the proceeding must be at law; where less is required the proceeding may be in equity, and, in such case, an interlocutory decree may be taken for contribution, and the case may stand over for the further action of the court, if such action should subsequently prove to be necessary, until the full amount of the liability is exhausted. (*Ibid.*, p. 505.)
But in *Bailey, Rec'r, &c., vs. First National Bank Duluth*, U. S. circuit court for Minnesota, *Nelson, J.*, held that even where less than the par value was assessed the suit *might* be at law; and this would seem to be the true theory. *Vide Bankers' Magazine*, April, 1877, p. 793.
- VII. In such equity suit, all shareholders within the jurisdiction of the court should be made parties defendants; but it is no defense that those not within the jurisdiction are not joined. (*Ibid.*, p. 506.)
- VIII. Suits to enforce personal liability of shareholders may properly be brought before other assets are exhausted. (*Ibid.*, pp. 505-6.)

SHAREHOLDER, LIABILITY OF TRANSFEE.

- I. The transferee of shares, when such transfer is absolute on the books of the bank, is liable to creditors to the amount of such shares, although in fact he holds them as collateral security for a loan to the shareholder who transferred them. (*Hale vs. Walker*, 31 Iowa, p. 344.)

[NOTE.—This also is a State court adjudication, but it is believed to be in harmony with the rulings of other high and eminent State tribunals upon the same question.] (*Adderly vs. Storm*, 6 Hill, p. 624, and *Worrall vs. Johnson*, 5 Barb., p. 210.)

[In the *Bankers' Magazine* for January, 1875, is a notice of the case of *Mann, receiver, vs. Dr. Cheeseman*, decided by Blatchford, J., in the United States circuit court, in New York, in which the judge held that until there was a transfer of shares on the books of the bank the shareholder whose name there appeared was liable for the debts of the bank; that an actual sale and the signing the ordinary power of attorney on the back of the certificate will not relieve the seller. The learned judge also held that such shareholder could not question the action of the Comptroller as to the necessity of suing the shareholder.] (See also SET-OFF, *supra*.)

In the case of *Bowden vs. Farmers and Merchants' National Bank of Baltimore*, decided by Judge Giles in the United States circuit court, Maryland district, April, 1877, it was held that the defendant was liable, though the shares had originally been transferred to it as security for a loan, which loan had been paid, and though, upon such payment, defendant delivered the certificate of stock to the original owner, with a power of attorney authorizing him to re-transfer the stock to himself.

SHARES OF STOCK.

- I. A national bank whose certificates of stock specify that the shares are transferable on the books of the bank on surrender of the certificates, *and not otherwise*, and which suffers a shareholder to transfer without such surrender, is liable to a *bona fide* transferee, for value, of same stock, who produces such certificate with usual power of attorney to transfer; and this is so though no notice had been given to the bank of the transfer. (*Bank vs. Lanier*, 11 Wall., p. 369.)
- II. Shares *quasi negotiable*. (*Ibid.*, p. 369.)

TAXATION OF SHARES.

- I. The act of 1864, rightly construed, subjects the shares of the association in the hands of shareholders to taxation by the States, under certain limitations set forth in section 41, without regard to the fact that part or the whole of the capital of such association is invested in national securities which are declared by law exempt from State taxation. (*Fan Allen vs. Assessors*, 3 Wall., p. 573.) (Chase, C. J., and other judges, dissented.)
- II. Act thus construed is constitutional. (*Ibid.*, p. 573.)
- III. A certain statute of New York, which taxed shares of national-bank stock, declared void, because shares of State banks were not taxed, although their capital was; the act of Congress prescribing that shares of national banks shall be taxed only as shares of State banks are. (*Ibid.*, p. 573.)
The ruling as to taxing shares of stock reaffirmed in *Bradley vs. People*, 4 Wall., p. 459, and *National Bank vs. Commonwealth*, 9 Wall., p. 353.
In last case, held that a State law requiring the cashier to pay the tax was valid. Held, also, that a certain State tax law virtually taxed "shares of moneyed corporations," &c. (*Ibid.*, p. 353.)
- IV. Shares of stock in national banks are personal property, and though in one sense incorporeal, the law which created them could separate them from the person of their owner, for taxation, and give them a situs of their own. (*Tappan, collector, vs. Bank*, 19 Wall., p. 490.)
- V. Sec. 41 did thus separate them, and give them a situs of their own. (*Ibid.*, p. 490.)
- VI. This provision of the national-currency act became a law of the property, (in shares,) and every State in which a bank was located acquired jurisdiction, for taxation, of all the shares, whether owned by residents or non-residents, and power to legislate accordingly. (*Ibid.*, p. 490.)
- VII. Under the act of Congress of February 10, 1868, enacting that each State legislature may direct the manner of taxing all shares of stock of national banks located within the State, subject to the restriction that the taxation shall not be greater than the rate assessed upon other moneyed capital in the hands of individual citizens of such State, and of a certain act of the legislature of Pennsylvania which provided that such shares shall be assessed for school, municipal, and local purposes at the same rate as is now or may hereafter be assessed and imposed upon other moneyed capital in the hands of individual citizens of the State; held, that shares of national-bank stock may be valued for taxation, for county, school, municipal and local purposes, at an amount above their par value. (*Hepburn vs. School Directors of the Borough of Carlisle*, 23 Wall., p. 480.)

[NOTE.—In this case it appeared that Hepburn owned several thousand dollars of national-bank stock, the par value of which was \$100 per share, and that it was valued for taxation, for a school tax, at \$150 per share. This assessment was held valid, notwithstanding that by a certain act of the State legislature, applicable to the county of Cumberland, in which the borough of Carlisle was situated, certain specified kinds of moneyed obligations were exempt from taxation, except for State purposes.]

See also *Saint Louis National Bank, National Bank of Missouri, Third National Bank, Valley National Bank, and Merchants' National Bank of Saint Louis vs. Papin*, in United States circuit court, eastern district of Missouri, September term, 1876. Also, *Gallatin National Bank of New York vs. Commissioners of Taxes*, supreme court of New York, first department, general term, November, 1876. These latter cases are published in the *Bankers' Magazine* for December, 1876.

TAXATION OF INTEREST AND DIVIDENDS.

- I. Under the internal-revenue act of July, 1870, interest paid and dividends declared during the last five months of 1870 are taxable, as well as those declared during the year 1871. (*Blake vs. National Banks*, 23 Wall., p. 307.)

LICENSE TAX.

- I. The District of Columbia imposed a license tax on all the national-banks in the District, the rate being 50 cents annually on each \$1,000 of the capital invested. The *Citizens' National Bank* refused to pay this assessment, and a test case was made in the district criminal court, Mr. Justice MacArthur presiding. This court, after full argument, held the tax illegal and void, as being contray to the mode of taxation prescribed by Congress, which mode was held to be exclusive.

TRANSFERS OF ASSETS.

When binding. The receiver of a national bank cannot repudiate a pledge of its assets made by the bank for advances to it, either on the ground that the pledge

TRANSFERS OF ASSETS—Continued.

was not formally executed, or that the transfer was void because not authorized by the charter of the bank, so long as he retains, as assets, the advances, to secure repayment of which the pledge was given. (*Casey vs. Le Société de Crédit Mobilier, 2 Woods, p. 77.*)

A preference of one creditor to another, within the meaning of section 5242, Revised Statutes, is a preference given by the bank to secure or pay a pre-existing debt. Where a person, knowing that a national bank is embarrassed, makes to it a loan, taking as security therefor a pledge of part of the assets of the bank, this transfer does not give him the preference prohibited by the statute. (*Ibid.*)

- II. *When not binding.* Under said section 5242, which declares void transfers of its property by a national bank, made in contemplation of insolvency, and with a view to give a preference to one creditor over another, or with a view to prevent the application of the assets of the bank in the manner prescribed by law, such a transfer is void if the insolvency is in the contemplation of the bank making the transfer, although the party to whom it is made does not know or contemplate the insolvency of the bank. (*Case, receiver, vs. Citizens' Bank, 2 Woods, p. 23.*)

ULTRA VIRES, WHAT IS.

- I. National banks cannot sell railroad bonds for third parties on commission, or engage in business of that character. (*Susan Welcker vs. First National Bank of Hagerstown, Court of Appeals of Maryland, 43 Md., p. 581.*)
- II. In an action of deceit against a national bank, for alleged false representations of its teller in the sale to plaintiff of certain railroad bonds:
Held, That the selling of such bonds on commission was not within the authorized business of a national bank, and being thus beyond the scope of its corporate powers, the defense of *ultra vires* was open to it, and it was not responsible for the deceit of its teller. (*Ibid.*)
- III. The national-bank act confers no power on a national bank to take a deed of trust of real estate as security for a contemporaneous loan; and such bank has no power not conferred by Congress. A sale under such a deed enjoined. (*Matthews vs. Skinner, 62 Mo., p. 329.* See also DEPOSITS, SPECIAL, I, II, III, IV.)

ULTRA VIRES, WHAT IS NOT.

- IV. A national bank took a lien upon real estate to secure a pre-existing debt. Afterward, the bank paid \$500 to discharge a prior lien upon the land, taking a note and mortgage on land in Kansas to secure this advance. Lien and mortgage held valid, and warranted by law. (*Orum vs. National Bank, 16 Kans., p. 341.*)
- V. A *chattel mortgage* taken by a national bank to secure a pre-existing debt is valid, and will be enforced. (*Spofford vs. First National Bank, 37 Iowa, p. 181.*)

USURY.

- I. State laws relative to usury do not apply to national banks. (*Farmers and Mechanics' National Bank vs. Dearing, 1 Otto, p. 29.*)
- II. The only forfeiture declared by the 30th section of the act of June 3, 1864, (Revised Statutes, section 5198,) is of the *entire interest* which the note or bill carries with it, or which has been agreed to be paid thereon, when the rate knowingly received, reserved or charged by a national bank is in excess of that allowed by that section; and no loss of the entire debt is incurred by such bank, as a penalty or otherwise, by reason of the provision of the usury law of a State. (*Ibid.*)
To same effect are *National Exchange Bank vs. Moore, 2 Bond, p. 170*, and several State decisions.
(The *New York court of appeals* had decided the other way.)

APPENDIX.

Special attention is called to the carefully prepared tables contained in the report and appendix, a full list of which will be found on the following page. An index to the detailed report of each of the 2,089 banks in operation on October 1 of this year appears at the end of the volume.

In concluding this report the Comptroller takes pleasure in bearing testimony to the industry and efficiency of the officers and clerks associated with him in the discharge of official duties.

JOHN JAY KNOX,
Comptroller of the Currency.

Hon. SAMUEL J. RANDALL,
Speaker of the House of Representatives.

TABLES CONTAINED IN REPORT AND APPENDIX.

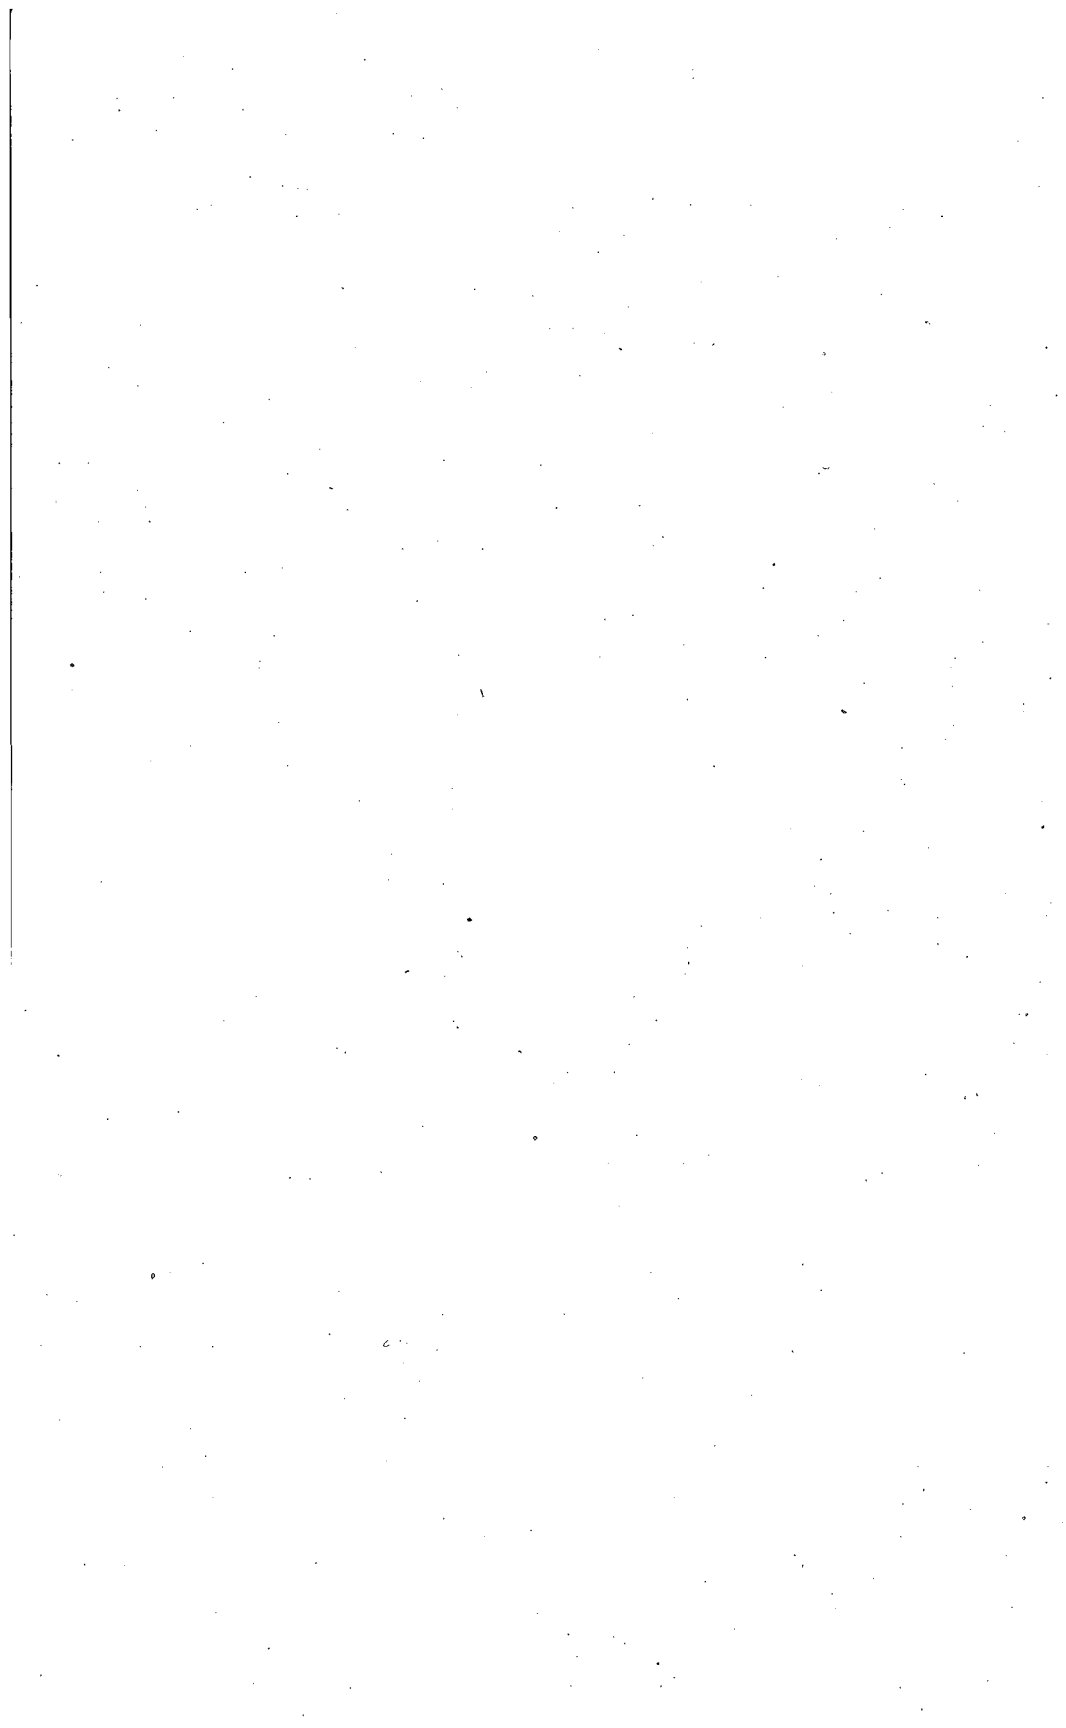

REPORT.

	Page.
I. Table of the resources and liabilities of the national banks in October of each year, from 1869 to 1877	140
II. Table of the resources and liabilities of the national banks on October 1, 1877, classified by reserve cities, &c	141
III. Table, by geographical divisions, of the number, capital, and deposits of the State banks and private bankers, &c., for the six months ending May 31, 1877	142
IV. Table, similar to the one preceding, for the six months ending November 30, 1876	142
V. Table of the circulation, deposits and bank-balances, and specie of the banks of the country, with the ratios of specie to circulation and to circulation and deposits, from 1835 to 1842, and from 1850 to 1858	144
VI. Table of circulation, deposits and bank-balances, and legal-tender funds of the national banks, with the ratios of legal-tender funds to circulation, and to circulation and deposits, from 1870 to 1877	144
VII. Table showing the circulation, deposits and bank-balances, and specie of the State banks in New England and New York, with the ratios of specie to circulation, and to circulation and deposits, from 1835 to 1842, and from 1850 to 1858, and also the circulation, deposits and bank-balances, and legal-tender funds of the national banks in New England and New York, with the ratios of legal-tender funds to circulation and to circulation and deposits, from 1870 to 1877	145
VIII. Table showing the number, circulation, deposits, and specie of the State banks in New York City, with the ratios of specie to circulation and to circulation and deposits, from 1855 to 1860, and also the number, circulation, deposits and legal-tender funds of the national banks in New York City, with the ratios of legal-tender funds to circulation and to circulation and deposits, from 1872 to 1877	146
IX. Table showing the average number, circulation, deposits, and reserve-funds of the national banks in New York City, other reserve cities, and the remainder of the country, with the ratios of legal-tender funds to circulation and to circulation and deposits, and of reserve funds to circulation and deposits, 1870 to 1877	147
X. Table showing the value of the legal-tender paper dollar in each year, from 1863 to 1877	149
XI. Table showing the weight of the gold coin represented by the legal-tender paper dollar in each year, from 1863 to 1877	149
XII. Table, by States and geographical divisions, of the number of national banks organized, closed, and closing, and in operation, with their capital, bonds, and circulation, November 1, 1877	151
XIII. Table of the outstanding circulation of the national banks on January 1 of each year from 1868 to 1877, and on November 1, 1877	152
XIV. Table showing, by States, the issue and retirement of circulation for the year ending November 1, 1877, and the total amount issued and retired since June 20, 1874	153
XV. Table showing the issue and retirement of national bank notes and the deposit and retirement of legal-tender notes, monthly, since the passage of the act of January 14, 1875	154

	Page.
XVI. Statement giving similar information by fiscal years.....	154
XVII. Statement showing concisely the operations of the acts of June 20, 1874, and of January 14, 1875, to December 1, 1877.....	155
XVIII. Table of the amounts and kinds of United States bonds held as security for national-bank circulation.....	156
XIX. Table of the liabilities of the national banks, and of the reserve required and held, at three dates in each year from 1872 to 1877.....	158
XX. Table showing the liabilities and reserve of the national banks since June 20, 1874, at the dates given.....	160
XXI. Table showing the weekly movement of the legal-tender reserve of the New York City national banks in the month of October, from 1870 to 1877.....	161
XXII. Table of the liabilities and reserve of the New York City national banks in October of each year from 1872 to 1877.....	162
XXIII. Table of the amounts of specie held by the national banks at the dates of their reports, from October, 1868, to October, 1877.....	163
XXIV. Statement showing the movement of coin and bullion in the United States for the fiscal year 1876-'77, and the estimated amount in the country at the end of that year.....	164
XXV. Statement of the public debt at its maximum.....	164
XXVI. Table of the amounts and kinds of outstanding United States and national-bank issues, from 1865 to 1877, at the dates given.....	164
XXVII. Table showing the transactions of the New York clearing-house, yearly, from 1854 to 1877.....	165
XXVIII. Table showing the classes of loans of the national banks in New York City in October of each year from 1874 to 1877.....	165
XXIX. Statement of the rates of interest in New York and London, 1874 to 1877.....	166
XXX. Table showing the United States taxation of national banks, yearly, from 1864 to 1877.....	166
XXXI. Statement of the amount of United States taxes collected from banks, other than national, yearly, from 1864 to 1877.....	167

XXXIII. Table of the taxation of national banks, yearly, from 1866 to 1876.....	168
XXXIV. Table of the rates of taxation of the national banks in certain States for the years 1874, 1875, and 1876.....	169
XXXV. Table of the rates of taxation of the national banks in certain cities for the years 1875 and 1876.....	169
XXXVI. Table, by geographical divisions, of the capital, and the amount and rates of taxation, of the national banks, for the years 1874, 1875, and 1876.....	169
XXXVII. Table, by States and reserve cities, of the amount of the losses charged off by national banks during the year ending September 1, 1877.....	170
XXXVIII. Table of the amount of losses charged off by the national banks in the principal cities in the years 1876 and 1877.....	171
XXXIX. Table, by geographical divisions, of the number and capital of the national banks which made no dividends in 1876 and 1877.....	171
XL. Table showing the capital, surplus, dividends, and earnings of the national banks, semi-annually, from 1869 to 1877.....	177
XLI. Table, by geographical divisions, of the ratios to capital and to capital and surplus of the dividends and earnings of the national banks for the years 1875, 1876, and 1877.....	177
XLII. Table, by geographical divisions, of the ratios to capital and to capital and surplus of the dividends of the national banks, semi-annually, from 1872 to 1877.....	178
XLIII. Table of the amounts of national-bank notes received by the Comptroller and at the redemption agency of the Treasury, from June 20, 1874, to November 1, 1877.....	178
XLIV. Table, by denominations, of the number and amount of national-bank notes issued and redeemed from 1863 to 1877, and the number and amount outstanding November 1, 1877.....	179
XLV. Statement of the amount of national-bank notes destroyed, yearly, from 1863 to 1877.....	179
XLVI. Table showing, by denominations, the amount of national-bank notes, and of legal-tender notes, and the total outstanding on November 1, 1877.....	180
XLVII. Table, by States and reserve cities, and geographical divisions, of the number of State banks, savings-banks, &c., with their average capital and deposits, and the tax thereon, for the six months ending May 31, 1877.....	183
XLVIII. Synopsis of judicial decisions relative to national banks.....	189

APPENDIX.

	Page.
I. Names and compensation of officers and clerks in the office of Comptroller of the Currency, and expenses of the office for fiscal year ending June 30, 1877.....	205
II. Table showing, by States, the issue of circulation and the deposit of legal-tender notes to retire circulation, from June 20, 1874, to December 1, 1877, and the amount remaining on deposit at the latter date.....	207
III. Table, by States and reserve cities, of the ratios to capital, and to capital and surplus, of the dividends and earnings of the national banks, from March 1, 1873, to September 1, 1877.....	208
IV. Table showing the liabilities and reserve of the national banks at the dates of their reports, from October, 1871, to October, 1877.....	210
V. Table showing, by States and reserve cities, the liabilities and reserve of the national banks on October 1, 1877.....	212
VI. Table showing the weekly liabilities and reserve of the national banks in New York City, as reported to the clearing-house, in September and October of each year from 1870 to 1877.....	214
VII. Table showing by States, reserve cities and geographical divisions, the number of State banks, savings-banks, &c., with their average capital and deposits, and the tax thereon, for the six months ending November 30, 1876.....	215
VIII. Table showing the aggregate resources and liabilities of trust companies, 1875, 1876 and 1877.....	216
IX. Table showing the aggregate resources and liabilities of savings-banks from 1874 to 1877.....	216
X. Table, by States, of the aggregate deposits of savings-banks, the number of their depositors, and the average amount due to each, in 1876 and 1877.....	216
XI. Aggregate resources and liabilities of the national banks at the dates of their reports, from 1853 to 1877.....	217

APPENDIX.

Names and compensation of officers and clerks in the office of the Comptroller of the Currency.

Name.	Grade.	Salary.
John Jay Knox	Comptroller	\$5,000
John S. Langworthy	Deputy comptroller	2,800
J. Franklin Bates	Chief of division	2,200
John W. Magruder	do	2,200
John D. Patten, jr.	do	2,200
Edward Wolcott	do	2,200
Edward S. Peck	Superintendent	2,000
Watson W. Eldridge	Teller	2,000
Frank A. Miller	Principal book-keeper	2,000
Theodore O. Ebaugh	Assistant book-keeper	2,000
F. A. Simkins	Stenographer	1,800
Fernando C. Cate	Fourth class	1,800
Nathaniel O. Chapman	do	1,800
William Elder	do	1,800
William B. Greene	do	1,800
John W. Griffin	do	1,800
George W. Martin	do	1,800
Charles H. Norton	do	1,800
William Sinclair	do	1,800
George H. Wood	do	1,800
Charles E. Brayton	Third class	1,600
James C. Brown	do	1,600
Charles H. Cherry	do	1,600
William H. Glascott	do	1,600
John A. Hebrew	do	1,600
John A. Kayser	do	1,600
George T. May	do	1,600
Washington K. McCoy	do	1,600
Edward Myers	do	1,600
Charles Scott	do	1,600
William D. Swan	do	1,600
Edgar C. Beaman	Second class	1,400
David B. Brenner	do	1,400
Isaac C. Miller	do	1,400
Edward W. Moore	do	1,400
Edmund E. Schreiner	do	1,400
Charles J. Stoddard	do	1,400
Walter Taylor	do	1,400
William H. Walton	do	1,400
Frederick Widdows	do	1,400
Noah Hayes	First class	1,200
Edward McCauley	do	1,200
John J. Patton	do	1,200
Arthur M. Wheeler	do	1,200
Julia E. Donoho	do	1,200
Sarah F. Fitzgerald	do	1,200
Mary L. McCormick	do	1,200
Margaret L. Simpson	do	1,200
James D. Burke	Messenger	840
Philo Burr	do	840
J. Eddie De Saules	do	840
Charles McC. Taylor	do	840
Silas Holmes	Watchman	720
William H. Romaine	do	720
Charles B. Hinckley	Laborer	720
Thomas Jackson	do	720
R. Le Roy Livingston	do	720

Names and compensation of officers and clerks, &c.—Continued.

Name.	Grade.	Salary.
Eliza M. Barker	Female clerk	\$900
Eva C. Bates	do	900
Harriet M. Black	do	900
Margaret L. Browne	do	900
Mary L. Conrad	do	900
May Crosby	do	900
Louisa Campbell	do	900
Virginia Clarke	do	900
Cornelia M. Davidson	do	900
Margaret F. Dewar	do	900
Jane A. Dorr	do	900
Flora M. Fleming	do	900
Eliza R. Hyde	do	900
Elizabeth Hutchinson	do	900
Alice M. Kennedy	do	900
Louisa W. Knowlton	do	900
Mary E. Kammerer	do	900
Emma Lafayette	do	900
Julia R. Marvin	do	900
Maggie B. Miller	do	900
Lillian D. Massey	do	900
Emma F. Morrill	do	900
Mary E. Oliver	do	900
Carrie L. Pennock	do	900
Etha E. Poole	do	900
Eliza Peters	do	900
Annie E. Raney	do	900
Emily H. Reed	do	900
Maria Richardson	do	900
Fayette C. Snead	do	900
Amelia P. Stockdale	do	900
Marie L. Sturgus	do	900
Sarah A. W. Tiffey	do	900
Julia C. Townsend	do	900
Eliza A. Saunders	do	900
Maria A. Summers	do	900
Martha A. Walker	do	900

Expenses of the office of Comptroller of the Currency for the fiscal year ending June 30, 1877.

For special dies, plates, printing, &c	\$128,654 82
For salaries	109,391 93
Total	238,046 75

The contingent expenses of the office are not paid by the Comptroller, but from the general appropriation for contingent expenses of the Treasury Department; and, as separate accounts are not kept for the different bureaus, the amount cannot be stated.

Table showing, by States, the amount of national-bank circulation issued, the amount of legal-tender notes deposited in the United States Treasury to retire national-bank circulation, from June 20, 1874, to December 1, 1877, and amount remaining on deposit at latter date.

States and Territories.	Additional circulation issued since June 20, 1874.	Legal-tender notes deposited to retire national-bank circulation since June 20, 1874.			Legal tenders on deposit with the U. S. Treasurer Dec. 1, 1877.
		For redemption of notes of liquidating banks.	To retire circulation under act of June 20, 1874.	Total deposits.

REPORT OF THE DIRECTOR OF THE MINT.

REPORT OF THE DIRECTOR OF THE MINT.

TREASURY DEPARTMENT,
OFFICE DIRECTOR OF THE MINT,
November 13, 1877.

SIR: In compliance with section 345, Title VII, Revised Statutes United States, I have the honor to submit the following report of the operations of the mints and assay-offices for the fiscal year ended June 30, 1877.

The amounts of gold and silver deposits and purchases, coins struck, and bars manufactured, were as follows:

DEPOSITS AND PURCHASES.

Gold deposits	\$60,382,502 76
Silver deposits and purchases	37,429,329 93
Total amount received and operated upon	97,811,832 69

Deducting redeposits—bars made and issued by one institution and deposited at another—the deposits were:

Gold	\$48,787,778 71
Silver	31,745,285 71
Total	80,533,064 42

COINAGE.

	Pieces.	Value.
Gold	2,222,292	\$44,078,199
Silver, (trade-dollars)	9,162,900	9,162,900
Silver, (fractional coin)	70,387,300	19,387,035
Minor coin	4,196,500	62,165
	85,968,992	72,690,299

BARS.

Fine gold	\$4,109,837 94
Unparted gold	3,053,653 15
	\$7,163,491 09
Fine silver	8,836,201 34
Standard	113,978 32
Sterling	53,359 88
Unparted silver	512,438 46
	9,565,978 00
	16,729,469 09

The distribution of the gold and silver bullion deposited and purchased, including redeposits, was as follows:

	Gold deposits.	Silver deposits and purchases.	Total.
Mint at Philadelphia.....	\$9,555,402 60	\$10,953,943 80	\$20,509,346 40
Mint at San Francisco.....	36,424,088 73	15,071,633 22	51,495,721 95
Mint at Carson.....	1,738,298 28	3,653,630 89	5,391,929 17
Mint at Denver.....	565,288 28	11,218 50	576,506 78
Mint at New Orleans*.....	5,076 56	16,280 18	21,356 74
Assay-office at New York.....	11,863,146 21	7,660,268 14	19,523,414 35
Assay-office at Boise.....	80,040 54	/ 170 95	80,211 49
Assay-office at Helena†.....	140,800 23	62,163 11	202,963 34
Assay-office at Charlotte.....	10,361 33	21 14	10,382 47
Total.....	60,382,502 76	37,429,329 93	97,811,832 69

* Opened as an assay-office October 23, 1876.

† Commenced operations January 15, 1877.

The coinage at the different mints during the fiscal year was as follows:

Description.	Pieces.	Value.
Mint at Philadelphia:		
Gold coinage.....	494,020	\$9,803,564 00
Silver coinage, (trade-dollars).....	899,900	899,900 00
Silver coinage, (fractional coin).....	35,245,300	10,545,035 00
Minor coinage.....	4,196,500	62,165 00
Total.....	40,835,720	21,310,664 00
Mint at San Francisco:		
Gold coinage.....	1,637,000	32,552,500 00
Silver coinage, (trade-dollars).....	8,042,000	8,042,000 00
Silver coinage, (fractional coin).....	18,850,000	5,507,000 00
Total.....	28,529,000	46,101,500 00
Mint at Carson:		
Gold coinage.....	91,272	1,722,135 00
Silver coinage, (trade-dollars).....	221,000	221,000 00
Silver coinage, (fractional coin).....	16,292,000	3,335,000 00
Total.....	16,604,272	5,278,135 00
Total coinage.....	85,968,992	72,690,299 00

The bars made and issued at the mints and assay-offices were as follows:

	Gold.		Silver.				Total.
	Fine.	Unparted.	Fine.	Standard.	Sterling.	Unparted.	
Mint at Philadelphia.....	\$64,265 85		\$74,441 96	\$11,957 13			\$150,664 94
Mint at San Francisco.....	72,705 13	\$2,249,668 50	387,885 92			\$426,917 06	3,137,176 61
Mint at Carson.....			659,609 28				659,609 28
Mint at Denver.....		567,703 99				6,886 02	574,592 01
Mint at New Orleans.....		5,076 56				16,280 18	21,356 74
Assay-office at New York.....	3,972,866 96		7,764,264 18	102,021 19	\$53,359 88		11,892,512 21
Assay-office at Boise.....		80,040 54				170 95	80,211 49
Assay-office at Helena.....		140,800 23				62,163 11	202,963 34
Assay-office at Charlotte.....		10,361 33				21 14	10,382 47
Total.....	4,109,837 94	3,053,653 15	8,886,201 34	113,978 32	53,359 88	512,438 46	16,729,469 09

Compared with the previous year, there was an increase of \$2,902,232.26 in the amount of gold operated upon; \$8,913,627.14 in the amount of silver operated upon; \$5,899,236.50 in gold coinage; \$3,030,850 in trade-dollar, and \$6,392,582.50 in fractional-silver coinage.

When it is considered that a given value of silver in our fractional coins is nearly fifteen times the weight of the same value in gold coins, and in trade-dollars more than sixteen times the weight of gold, and that the silver coins comprised 79,550,200 pieces, amounting to \$28,549,935 in nominal value, the magnitude of the work executed at the mints will at once be understood.

The following table exhibits in detail the earnings, gains, and expenditures of the mint establishment during the fiscal year :

Statement of earnings and expenditures of the mints and assay-offices of the United States for the fiscal year ended June 30, 1877.

	Mints.				Assay-offices.					
	Philadelphia.	San Francisco.	Carson.	Denver.	New York.	Boise City.	Charlotte, N. C.	New Orleans.	Helena, Mont.	Total.

COINAGE EXECUTED FOR THE GOVERNMENT OF VENEZUELA.

Early in the last fiscal year the following coins, composed of an alloy of copper, nickel, and zinc, were struck at the mint in Philadelphia for the Government of Venezuela, viz:

10,000,000 pieces of "un centavo," of the nominal value of \$100,000.

2,000,000 pieces of "dos y medio centavos," of the nominal value of \$50,000.

The planchets for these coins were prepared by private enterprise at the expense of the agent of the above-named government, and the coins were simply stamped at the mint, the expense of which operation was paid to the mint, and afterward into the Treasury of the United States. The stamping of these pieces did not in any way interfere with the regular coinage operations.

ASSAY OF FOREIGN COINS.

During the year various gold and silver foreign coins have been assayed at the mints of Philadelphia and San Francisco and assay-office at New York. The results furnished exhibit the actual weight and fineness of the several coins, as determined by our trials, and not the standard weight and fineness prescribed by the laws of the respective countries.

Samples of the annual pyx coins of the imperial mint at Osaka were assayed at the mint in Philadelphia by request of the Japanese minister, and the results confirmed the assays made at the Japan mint, and also showed the closeness to which the coins of that empire conform to the legal standard for fineness.

INTRODUCTION OF AUTOMATIC WEIGHING-MACHINES.

Gold coins and trade-dollars are the only pieces singly adjusted and weighed by hand, dependence being placed upon the draw-bench to insure a uniformity in the thickness of the rolled strips from which the blanks for the fractional coins are cut.

The legal deviation from standard weight on these fractional coins is three times as great as that on the gold coin, the evident intention of the law being that the adjustment should be made by machinery, and the delay and expense attending adjustment of single pieces by hand avoided. Experience has demonstrated that this method cannot always be relied upon to secure a uniform adjustment of these pieces within the limit of deviation allowed by law. At the first session of the Forty-fourth Congress an appropriation was made for procuring automatic weighing and assorting machines, and two were accordingly ordered from Seyss & Co., Atzgersdorf, near Vienna, for the use of the mint at Philadelphia, and one manufactured by Napier & Son, of London, for the mint at San Francisco. The machines imported from Austria have been in constant use and with very satisfactory results. They have been employed mainly on the half dollar planchets, and their combined capacity is about one hundred and sixty blanks per minute. Those outside of the legal tolerance are invariably detected and automatically separated from the others.

Owing to delay in the receipt of the Napier machine, it has only lately been erected at the mint at San Francisco, and has been partially tested upon the small gold coins. The rate of adjustment is about 40 blanks per minute, but the results are equally as satisfactory as those from the Seyss machine.

The use of these machines has demonstrated the fact that without the employment of some such safeguard, a small percentage of fractional coins, slightly beyond the legal tolerance for weight, may escape observation and pass into circulation.

An appropriation should be procured to supply the mints with a sufficient number of these machines to test all the blanks for fractional coins.

DENVER MINT.

The building occupied as an assay-office in Denver, Colo., was originally purchased from private parties and enlarged by the government. From settling of the foundations it has become dilapidated to an extent rendering it unsafe and unsuitable to occupy much longer for melting and assaying purposes. The propriety of procuring an appropriation sufficient to construct a new assay-office at Denver, after the plan of the one recently constructed at Helena, Mont., is presented for your consideration.

ASSAY-OFFICE AT HELENA AND MINT AT NEW ORLEANS.

Soon after the close of the fiscal year ended June 30, 1876, the building erected for an assay-office at Helena, Mont., was completed, and it was formally opened for the reception of deposits for melt and assay October 23, 1876, since when the amount of business transacted has steadily been on the increase.

An appropriation having been made for the purpose of reopening the mint at New Orleans as an assay-office, the necessary repairs and preparations were made and operations commenced January 15, 1877. The number and amount of deposits received have been inconsiderable, being principally confined to old plate and jewelry.

The square of ground upon which the mint building was erected was, by a resolution of the city council of New Orleans, approved May 11, 1835, ceded to the United States for the "express and only purpose of erecting thereon a branch of the Mint of the United States, together with the necessary appendages;" and that "should it hereafter be deemed necessary by the Government of the United States to remove the mint contemplated to be established, as aforesaid, or to cease to occupy it for such purposes, then the said act to be null and void."

Measures have been taken having for their object the reversion of this square of ground to the city of New Orleans, and it is understood have been held in abeyance only by a prospect of the mint being reopened as a coinage mint. In the event of a silver dollar being authorized by Congress to be coined, and additional coining facilities be required, the facts in connection with this subject should be considered.

WITHDRAWAL OF CERTAIN THREE-CENT SILVER COINS FROM CIRCULATION RECOMMENDED.

There are in circulation some of the three-cent silver pieces coined prior to March 3, 1853, which are on y seven hundred and fifty thousandths fine. These coins were issued under the provisions of the act of March 3, 1851, for postal-currency purposes, and which fixed their fineness as above stated. The standard for this denomination was increased to nine hundred thousandths fine by the act of March 3, 1853. The standard for the gold and silver coins being nine hundred thousandths, those of the fineness of seven hundred and fifty thousandths

should be called in, especially as they are much worn. The propriety of procuring legislation for the withdrawal of these coins from circulation is submitted for your consideration.

SILVER PURCHASES.

The purchases of silver bullion for the fractional coinage from January, 1875 to June 30, 1877, amounted to 25,619,212.23 fine ounces, at a cost of \$30,456,599.35, or an average cost per ounce fine of $118\frac{8}{10}$ cents. The average London rate during that period was 54.77083 pence per ounce, British standard, equivalent to \$1.20,06 per ounce fine.

From July 1 to October 31, 1877, the government purchased 3,088,422.34 fine ounces, at a cost of \$3,662,373.91, or an average cost per ounce fine of $118\frac{5}{10}$ cents. The average London rate during that period was $54\frac{3}{4}$ pence, or $119\frac{2}{10}$ cents per ounce fine.

The total purchases of silver bullion made by the government from January, 1875, to October 31, 1877, inclusive, were 28,707,634.57 fine ounces, at a total cost of \$34,118,973.26, or an average cost of $118\frac{5}{10}$ cents per ounce fine. During that period the London rate averaged 54.7656 pence, or \$1.20,05 per ounce fine. The purchases were therefore obtained by the government at $1\frac{2}{10}$ cents lower than the equivalent of the average London rate.

The total bullion purchased, 28,707,634.57 fine, or 31,897,371.73 standard ounces, costing \$34,118,973.26, will produce, at the coining rate of \$1.24,4168 per standard ounce, fractional silver coins to the amount of \$39,685,688, and give a seigniorage or gain of \$5,566,714.74.

In procuring this silver, the rule as to price has always been to purchase as much below the equivalent of the London rate as possible, and not above it if it could be avoided.

The largest purchases have been made either after a heavy decline in price or on a declining market. After our heavy purchases in July, 1876, at the equivalents of 47, $47\frac{1}{2}$, and 48 pence, the price advanced within thirty days to $53\frac{3}{4}$ pence; and again in October and November of the same year, when large purchases were made at about $53\frac{1}{2}$, $53\frac{3}{4}$, and $54\frac{1}{8}$ pence, the price soon after rapidly advanced, reaching by December 14, $58\frac{1}{2}$ pence. In only a single instance did the price decline after a considerable purchase. That was toward the close of February, 1877, when purchases were made at about 56 pence. The price afterward gradually declined to $53\frac{1}{2}$ pence. Purchases were continued as the market declined and an average price of about 54 pence secured. The decline in this instance was caused by free sales by the German Government and a simultaneous intermission of the demand for export to China and the Indies, and of which we had no information. It should be noted that for some time in the autumn of the year 1876 the demand at San Francisco for export to China was so great as to carry the price of silver in that city nearly two cents an ounce above the equivalent of the London rate, and rendered necessary a resort indirectly to the London market for a moderate supply to meet our coinage requirements.

An examination made by the Treasury commission in San Francisco in relation to the purchases of silver for the fractional coinage brought out some valuable information in relation to the exports of silver to India and China, the effect upon the price in that city as compared with London and New York, and the cross-exchanges connected therewith. This information is contained in the appendix.

REFINING AND PARTING OF BULLION.

The act making appropriations for the legislative, executive, and judi-

cial expenses of the government for the year ended June 30, 1877, and for other purposes, contained the following:

"And refining and parting of bullion shall be carried on at the mints in the United States and the assay-office, New York; and it shall be lawful to apply the moneys arising from charges collected from depositors for these operations, pursuant to law, to the defraying in full of the expenses thereof, including labor, materials, and wastage; but no part of moneys otherwise appropriated for the support of the mints and assay-office at New York shall be used to defray the expenses of refining and parting bullion."

This law was re-enacted in the general appropriation act for the fiscal year ending June 30, 1878. Under its provisions the expenses of parting and refining at the different mints and assay-office, New York, have to be defrayed out of the funds arising from the charges made, and deducted from deposits requiring these operations, which charges are required to be fixed from time to time by the Director of the Mint, with the approval of the Secretary of the Treasury, so as to equal, but not exceed, in their judgment, the cost of these operations respectively, including wastage, materials, and labor. The money arising from this source is paid into the Treasury of the United States to the credit of the refining account, and afterward drawn out by requisitions, the same as the regular appropriations, and expended under the laws and regulations governing the mints.

The result of the first year's operations has been to show that the schedule of charges in force at the time the new law took effect have been sufficient to defray the expenses of the several refineries, including necessary repairs. This result has been due, however, in some degree to the government having been able to control, to some extent, the distribution of what is usually termed doré bullion, *i. e.*, silver bullion containing gold in partable quantity, through its purchases, from time to time, for the fractional silver coinage.

Without the necessary supply of this class of bullion there will be difficulty in future in executing this law at the San Francisco and Carson mints, for the reason that gold deposits containing small percentages of silver cannot be parted at the present rate of charges unless doré silver, containing from 5 to 45 per cent. of gold, be added, sufficient to give a mixture suitable for economical parting. Without this the charge for parting gold bullion would have to be increased, which would practically exclude it from the mint.

The experience of the last few months shows that when there is but a limited demand for trade-dollars for export, and the government is not buying doré bullion, very small quantities of the latter are deposited at the mints; meanwhile, it becomes necessary to either reduce the working force employed in the refineries or suspend the pay of the workmen. Should this continue for any length of time, it may be difficult to retain skilled workmen.

The practicability of executing the law in future will depend very much upon the character of the legislation which may be enacted in relation to silver coinage.

EARNINGS, EXPENSES, AND OPERATIONS OF THE MINTS, FROM JULY, 1849, TO JUNE 30, 1877.

For comparison as to the cost of coinage in different years and for other useful purposes in connection with the various operations and processes employed in the coinage, statements have been prepared

under my instructions by Mr. M. V. Davis, of this office, exhibiting in detail and under appropriate heads the cost, including wastage and loss on sale of sweeps, of conducting the mint at Philadelphia, from July 1, 1849, the year in which gold deposits of any magnitude from the then newly-discovered mines of California commenced to be made, and the mints at San Francisco and Carson, and assay-office, New York, from the date of their organization to the close of the last fiscal year; also statements for the same period, showing the amounts realized from charges, seigniorage, gain on minor coinage, and income from every other source.

These statements are believed to present substantially a correct history of the extensive bullion and coinage operations of the mints in Philadelphia, San Francisco, and Carson, and assay-office, New York, for the periods referred to, compared with which the coinage previously executed was quite insignificant.

The most important features shown by the statistics are—

First. That, placing the earnings and seigniorage against the total expenses, the metallic-money system has been nearly self-sustaining.

Second. That the total wastage incurred has been only 16 per centum of the legal allowance.

Third. A marked reduction in the cost of coinage under the coinage act of 1873 as compared with several preceding years.

The total coinage executed at the three coinage mints from the fiscal year ended June 30, 1850, to the fiscal year ended June 30, 1877, has been:

Gold.....	\$861,965,700 50
Silver.....	113,181,141 50
Minor.....	11,620,638 81
Total coinage.....	986,767,480 81
Fine gold bars manufactured, stamped, and issued.....	32,808,424 33
Fine silver bars manufactured, stamped, and issued.....	7,030,562 90
Total bars.....	39,838,987 23
Total expenditures, (including assay-office at New York).....	25,177,251 37
Total income.....	24,754,589 09
Excess of expenditures.....	422,662 28
Total wastage, included in above expenditures.....	762,453 00
Loss on sale of sweeps, included in above expenditures.....	215,526 75

The loss on sale of sweeps is the difference between their assay value, with which the operative officers returning them are credited, and the amount realized from their sale to private smelters, previous to which disposition they are subjected to such processes for the recovery of bullion as are practicable to use in the mints, and in their sale care is taken to insure competition.

IMPROVED DESIGN OF COINAGE.

The interesting report of Mr. Freemantle, deputy master of the royal mint, for the calendar year 1876, calls attention to the fact that designs of modern coins are in almost all respects, decidedly inferior to those of coinages in former times, and that in no respect has this inferiority been more apparent than in the manner in which the important question of portraiture has from time to time been treated. There is much force in Mr. Freemantle's remarks upon this subject, and it is proper to add that a close examination of some foreign gold coins of comparatively

recent issue shows the principal device to have been brought out in such high relief as to leave it unprotected by the outer rim which is intended to prevent the devices from coming in contact when piled face to face, as the coins are liable to be when in circulation, and also to prevent the coins from rocking when piled together. These defects cause a greater loss by abrasion than would otherwise be the case.

In this connection it is proper to observe that for nearly a year past devices and new dies for the improvement of our coinage have been in preparation by skilled artists. Specimen coins from some of these dies will at an early day be submitted for your inspection, and should a silver dollar for circulation be authorized by Congress, the designs for the same can be selected from those above referred to, and considerable time saved in commencing its coinage.

All our coins are mechanically well executed, but the devices can no doubt be improved. Such improvement is important, for the reason, that the finer the engraving and finish of the devices and inscriptions are, the more difficult the coins are to counterfeit. No changes in devices will be recommended, however, until specimen coins showing a decided superiority over those now in use shall have been produced, but everything will be in readiness to make any changes which after due deliberation may be decided upon as soon as Congress finally acts upon the various coinage propositions now before it.

The excellent finish of the trade-dollar has attracted attention and been commended in other countries. So far as is known, it has not been successfully counterfeited either in this country or China.

THE TRADE-DOLLAR.

The trade-dollar continues to grow in favor in China, and the demand at San Francisco for the past fiscal year for export to that empire averaged over \$687,000 per month, and in some months more than twice that amount was exported.

On account of its superior mintage, it is difficult to counterfeit, and its close conformity to standard fineness and weight gives it some advantages over its principal competitor, the Mexican dollar, which it is likely to supplant to a still greater extent, notwithstanding the prestige the latter has long enjoyed as the successor of the Spanish dollar, and also some favoritism in its behalf by local customs authorities at certain Chinese ports.

On the first of October last there were several hundred thousand Mexican dollars held by bankers in San Francisco. One of these bankers telegraphed to London asking the price at which Mexican dollars could be sold in that city, and received an answer that there was no demand for that coin for export, and it was being used for melting purposes. At the same time the Chinese residents in San Francisco were paying for trade-dollars 2 per cent. above the price of Mexican dollars in London, both coins being very nearly equal in intrinsic value. This shows a decided preference for the trade-dollar.

The testimony of intelligent bankers, thoroughly familiar with the Chinese exchanges, (recently given before the United States Treasury commission in San Francisco,) shows conclusively that the coinage of trade-dollars has been attended with decided advantages both as respects our commercial and mining interests, and there can be no doubt but that it should be continued on a scale equal to the requirements for export to China. It may be added here, that the Japanese Government, desiring to reap the benefits of a coinage manufactured exclusively for

trade purposes, have followed the example of the United States, and are now coining a trade-dollar of the same weight and fineness as our own, with the evident intention of exporting it to China, where it has been made a legal tender at one or two ports. Its general appearance is similar to the "yen," substituting, however, the English inscription "420 trade-dollar 900," instead of "416 one yen 900."

The trade-dollar has of late entered to some extent into domestic circulation, and this for the reason that, from time to time since United States notes have appreciated nearly to par with gold, holders of silver bullion have been able to have the same manufactured into these coins, and exchange them at par for United States notes with a small profit. This fact, on becoming known, was regarded as indicating that the trade-dollar coinage was, for the time being (October last) in excess of the export demand, and led to the issuing of an order by the Secretary of the Treasury to temporarily intermit the receipt of deposits at the mints for these coins.

There are weighty reasons why the trade-dollar should not be coined for domestic circulation, but it is hardly worth while to state them, since the law provides very clearly that they shall be coined only to meet the export demand, and leaves no discretion as to their coinage for any other purpose.

THE PRESENT AVERAGE PRODUCTION OF GOLD AND SILVER FROM THE MINES OF THE UNITED STATES.

I have availed myself of every facility to procure full information in relation to the product of the gold and silver mines of the United States, for the purpose of estimating approximately the present annual yield, with the following results based upon the production for the first six months of the year and the average monthly out-turn since, so far as it was possible to ascertain the same:

State or Territory.	Gold.	Silver.	Total.
California	\$15,000,000	\$1,000,000	\$16,000,000
Nevada	18,000,000	26,000,000	44,000,000
Montana	3,200,000	750,000	3,950,000
Idaho	1,500,000	250,000	1,750,000
Utah	350,000	5,075,000	5,425,000
Colorado	3,000,000	4,500,000	7,500,000
Arizona	300,000	500,000	800,000
New Mexico	175,000	500,000	675,000
Oregon	1,000,000	100,000	1,100,000
Washington	300,000	50,000	350,000
Dakota	2,000,000	2,000,000
Lake Superior	200,000	200,000
Virginia	50,000	50,000
North Carolina	100,000	100,000
Georgia	100,000	100,000
Other sources	25,000	25,000	50,000
Total	45,100,000	38,950,000	84,050,000

It is impossible to state with any degree of accuracy how long this large rate of production will be maintained. A gradual increase may be expected in Montana and Arizona, and there is nothing to indicate a decrease in any bullion-producing State or Territory, except in the State of Nevada, and that depends upon contingencies which to a great extent must be a matter of conjecture only. Several mines in different localities in that State have within the last year or two been opened and are producing considerable bullion, but whether they, and others which in the mean time may be discovered, will yield sufficient

to make up the decrease, which, unless other ore-bodies on the Comstock shall be found, must sooner or later take place, is somewhat doubtful.

The superintendent of the mint at San Francisco has furnished, at my request, a statement, embraced in the appendix, of the yield of about thirty different mines, the bullion from which finds a market in San Francisco.

The yield of bullion from the two mines which embrace the great ore-chimney discovered in 1874 in the Comstock lode has, according to the official statement of the managers, amounted, up to October 31, 1877, to \$78,852,918.48, of which \$36,736,347.91 was gold. These mines are now producing at the rate of nearly three million dollars per month.

MONEY STATISTICS.

An estimate of the stock of gold and silver coin and bullion in the United States June 30, 1876, based upon the estimate of the previous year, domestic production, and difference between importation and exportation during the fiscal year ended that date, fixed the amount at \$181,678,000, of which \$30,113,000 were silver.

Taking the above amount as a basis for an estimate of the stock in this country—June 30, 1877, we have:

Amount of gold coin and bullion on hand June 30, 1876.....	\$151,565,000	
Add the product of the mines during the past fiscal year, about.....	44,000,000	
Importations.....	26,245,604	
Total		221,810,604
Deduct exportations.....	\$26,590,374	
And probable amount used in the arts and manufactures... ..	2,500,000	
		29,090,374
Leaves a net balance of.....		192,720,230

as the amount of gold coin and bullion in the country June 30, 1877.

The estimated amount of silver coin and bullion June 30, 1876, was....	\$30,113,000	
Adding the production of the past fiscal year.....	38,000,000	
Importations.....	14,486,991	
Gives		82,599,991
Deduct exportations.....	\$29,464,363	
And probable amount used in the arts and manufactures... ..	3,000,000	
		32,464,363
Leaves a net balance of.....		50,135,628

as the stock of silver coin and bullion in the country June 30, 1877, of a total of gold and silver of \$242,855,858, and an increase for the year of \$61,177,858.

During the quarter of the current fiscal year ended September 30, 1877, the addition to the amount of gold coin and bullion is estimated at...	\$14,738,865	
Silver coin and bullion	3,357,028	
Total		18,095,893
Adding these items to the amounts estimated to have been in the country June 30, 1877, gives as the total amount of gold coin and bullion October 31, 1877.....	\$207,459,095	
Total silver coin and bullion October 31, 1877.....	53,492,656	
Total coin and bullion		260,951,751

An estimate of the amount of coin in the country is always a matter of uncertainty. One of the obstacles in the way is the impossibility of determining with any degree of accuracy the amount of gold and silver consumed in arts and manufactures, especially as both coin and bars are used for that purpose. It is also quite as difficult to ascertain the amount of coin in private hands.

At the time the issue of silver coins in redemption of fractional currency commenced it was supposed that the amount of silver coins in this country was very inconsiderable, but as soon as it became apparent that the new issue would remain permanently in circulation silver coins of the old standard made their appearance after being hoarded for many years. This circumstance tends to show that the amount of coins in private hands is larger than is generally estimated. I think it is not far out of the way to state the amount of gold coin and bullion now in this country at about \$185,000,000, and silver coin and bullion at about \$50,000,000.

CHANGES IN THE RELATIVE VALUE OF GOLD AND SILVER.

In my reports for the fiscal years 1872, 1873, and 1874, the causes operating to produce an important change in the relative value of gold and silver were fully stated and discussed. Chief among them was the change from the silver to the gold standard by the German Empire, the limitation placed upon the coinage of legal-tender silver money by the countries of the double standard, diminished demand for export to the Indies, and increased production of silver from the mines of the United States. Attention was also called to the opportunity which the change in relative value would afford for substituting on advantageous terms, and in advance of specie resumption, fractional silver coins for the fractional notes then in circulation, and the practicability of such a measure demonstrated.

The substitution has since been substantially accomplished on terms not only as favorable as were expected, but more so than could be probably done hereafter.

Since the change in the relative value of the metals occurred and assumed a somewhat stable character, the causes which produced the same have been the subject of careful, intelligent, and exhaustive examination and report by two commissions—one in Great Britain, appointed by Parliament, and the other in the United States, constituted by an act of Congress. Both of these commissions substantially agreed in assigning the change in the German money system and limitation placed on the legal-tender silver coinage in France and some other countries of the double standard as the principal causes of the change in relative value referred to. The British commission regarded the change as due to depreciation of silver, while the majority report of the American commission appears to hold that the change is due as much to an appreciation of gold as it is to a depreciation of silver, as the following extract will show :

Changes in the relative value of the two metals are entirely different from changes in their absolute value, or, in other words, their value as compared with all other things. Thus, one metal may have fallen greatly, as compared with the other, and at the same time not only may not have lost, but may even have increased in purchasing power. In describing a divergence in the relative value of the metals, without reference to the purchasing power of either, it is as correct to say that one has risen in value as to say that the other has fallen. In fact, looking only to the relation of the metals, both things have occurred; one has fallen and one has risen, each relatively to the other to the full extent of the divergence. In order to ascertain whether silver has fallen or gold risen since 1873, not relatively to each other but relatively to all

other things, a comparison must be made between general prices in gold and silver respectively, then and now. Such a comparison would show that the purchasing power of gold has increased since then in all countries, and that the purchasing power of silver has decreased in none.

The concluding paragraph is an expression of opinion that the purchasing power of gold has increased since 1873 in all countries, and that the purchasing power of silver has decreased in none, and not a fact, ascertained and established according to the rule that the commission lays down for the correct determination of the question. To determine with any degree of accuracy such a question according to the rule prescribed by the commission has always been one of the most difficult within the range of political economy, and much more so in recent years, on account of changes in money systems of unusual importance, which largely influence the supply and demand in respect to the precious metals for coinage. The operation that, according to the concurrent testimony of all intelligent investigators, has had more effect in producing the change in relative value of the precious metals than all others, has been the gradual converting of the silver coins of Germany into commercial bullion bars, and the transfer of these bars principally to the oriental nations, and replacing the silver coins thus withdrawn by gold drawn from other countries and from the annual production of the mines of the world.

A circumstance which would appear to prove beyond reasonable doubt that the change in relative value of gold and silver is due chiefly to a depreciation or fall in the value of silver, is that within the last twenty-two months the export of silver to the eastern nations from London and San Francisco has amounted to about \$143,500,000, and that under this unprecedented demand, including the consumption during the same period of about \$28,300,000 for the fractional currency in the United States, making together over \$171,800,000,* the average price of that metal has not risen above 54 pence against $60\frac{5}{16}$ pence, the average of 1872.

If silver had not really depreciated, this demand, which probably exceeded the entire gold coinage of the world for the same period, would have carried the price to or above the point at which it ruled before the German money system was changed. In the face of these facts, the assumption that gold has appreciated in value does not appear to be well founded.

If it be answered that the known ability of Germany to freely supply the market with silver has kept down the value of that metal, it only shows the more conclusively that silver has depreciated, and that the chief cause of the depreciation has been, as before stated, the change in the German money system.

The extraordinary demand for silver for export to eastern nations, referred to above, which commenced in August, 1876, and continued with but slight intermission until November of this year, has generally

* Exports during calendar year 1876:

From Southampton	\$45,846,240
From San Francisco	9,597,906

Exports during ten months, October 31, 1877:

From Southampton	66,726,604
From Venice	1,500,829
From Marseilles	3,541,765
From San Francisco	16,326,950
Consumption in the United States for fractional coinage	28,317,662

Total consumption in twenty-two months, exclusive of European coinages and amounts used in arts and manufactures in America and Europe.... 171,857,956

been considered as having been caused by the famine prevailing in certain districts in India, which had to be supplied with food procured from Siam and paid for with silver, but the depreciation of silver, which reached the lowest point on record in July, 1876, has been a more potent cause.

That metal being the sole money standard of the great populations of Asia, and having depreciated in value, an addition to the stock ordinarily performing the functions of money, corresponding with the percentage of depreciation, has been necessary, and this in accordance with a general law governing depreciated money, which requires an increase in volume proportionate to decrease in purchasing power. The indications at present are that the Oriental demand has already been met, and if so, the exports of silver to the East may, and probably will, be comparatively light for some years to come. Reliable statistics from 1833 to the present time show that unusually heavy demands for silver, from the East, have rarely continued more than two consecutive years. But however this may prove, it is certain that the Asiatic demand for silver in the future will have an important influence in deranging double standards. If it be light, silver will depreciate further, and become the actual money standard wherever the law has fixed a double or alternate standard, and per contra, if, after the German stock should have been exhausted, such a demand as that of the last twenty-two months should at any time arise, gold would become the actual standard.

A double standard, being subject to important variations from causes of this character, cannot be regarded as having advantages over a single standard.

In connection with this subject it may be stated that in 1864 there was an extraordinary demand for silver for export to India, under which the price rose from about $60\frac{3}{4}$ pence to $62\frac{1}{2}$ pence, and caused the exportation during that year, from France alone, of about \$65,000,000, and that afterward the exports to the East steadily declined, until they fell in 1868 to about \$8,000,000, and afterward did not reach as high as \$35,000,000 until 1876.

It should here be added that if the United States restore the double standard on the ratio or relative value of 1 to 15.98 and an extraordinary demand for export to India should at some future time arise, the legal-tender silver coins would be drawn upon to meet the same, while the coins of other countries representing silver in the ratio of 1 to $15\frac{1}{2}$, would remain undisturbed, at least until our stock should first be exhausted.

In closing their mints against silver, France, Belgium, and the Netherlands clearly showed a determination not to depart from the gold valuation, nor allow their gold coins to be exported in exchange for silver. The average price of silver for the last few months may be fairly stated at 54 pence per ounce 925 thousandths fine, which makes an ounce of pure gold equal in value to $17\frac{46}{100}$ ounces of pure silver. The ratio or relative valuation in the legal tender coins of the countries last referred to being 1 to $15\frac{1}{2}$, silver must advance $12\frac{7}{10}$ per cent. in gold value to reach the same. The ratio proposed in the United States is 1 to $15\frac{98}{100}$, which would value silver $9\frac{2}{10}$ per cent. above the average market rate, (54 pence.)

If the change in the relative value of gold and silver is in fact due to a fall in the value or purchasing power of silver, as appears to be pretty clearly established, any proposition to make it an unlimited legal tender at its former valuation, or say 8 to 10 per cent. above its present gold value, involves most important considerations in respect to unex-

pired money obligations which cannot be too carefully considered before final action shall be taken.

These facts are presented for your consideration in view of the proposition now pending to re-establish the double standard in this country, the demand for which appears to have arisen chiefly from a belief pretty widely entertained in some sections of this country that gold has within the last few years appreciated in value sufficient to cause injury to debtors, and which does not appear to be sustained by any facts or evidence that have yet been presented.

MONEY STANDARD AND SILVER COINAGE.

In my report for the fiscal year ended June 30, 1876, the metallic-money standard of the United States and various propositions for changing the same were carefully reviewed. The adherence to gold as the standard of value and money of large payments was recommended, and that the free use of silver coin in small payments should be encouraged and provided for; also the furnishing of all trade silver coins that might be required for export. Upon a careful review I can see no sufficient reasons for changing my views upon the subject, except that there should be a silver dollar authorized by law as an auxiliary to the money of large payments, which should be coined and issued exclusively on government account, for the reason that the government as representing the people, and not individuals, should realize the gain, which would arise from its coinage, until the price of silver advances to 59 pence, in consequence of its having a higher nominal or legal-tender value than its value as bullion; also in order to insure the general distribution of the new coin to all parts of the country, and which can only be accomplished by the government paying the expenses of transportation out of the gain or seigniorage.

The importance of this last point will be better understood when it is considered that more than half of our minting capacity is in the States on the Pacific coast, and where but a small amount of silver dollars will be required for circulation. The silver dollars which may be coined at these mints will have to be transported in bulk to the States east of the Rocky Mountains.

The legal tender of the silver dollar, it is suggested, should be limited to an amount sufficient to prevent it from expelling gold from the country.

For the purpose of restricting the issue of silver coins to the requirements of the public for such money, as well as to keep them at par with the full legal-tender money, they should be issued only in exchange for United States notes and gold coin. If such a restriction be placed on the issue, no limitation as to the amount to be coined will be necessary. These coins should also by law be made receivable by the United States for all dues except duties on imports.

With our present minting capacity we could, with a full working force, coin silver-dollar pieces at the rate of \$2,000,000 per month, and at the same time manufacture the necessary gold, trade, and fractional silver coinage. The issue of silver dollars for circulation to the amount above stated, (\$2,000,000 per month,) would no doubt prove of much benefit to the public, and aid in stimulating the revival of business. It would also serve to steady the value of silver and protect our important silver-mining interests.

Under such a system the required coinage could probably be executed with the present minting capacity, and with but a small increase of appropriations; but if a double standard should be established, addi-

tional vault-room, both for the mints and the Treasury offices, will become necessary and should be promptly provided. A given value in silver coin or bullion would, under the proposed ratio, be nearly sixteen times the weight of the same value in gold, and about twenty-seven times its bulk. The cost of coining a silver dollar will be about the same as that of a twenty, ten, or five dollar gold piece, and the execution of a large silver coinage will involve about four times the expense of a corresponding value in gold coins of different denominations.

Under existing laws, bullion deposited at the assay-office in the city of New York, is paid for there and transferred to the mint at Philadelphia, and the resulting coins returned to the assay-office, the transfer each way being at the expense of the government.

The foregoing suggestions and facts in relation to the coinage of silver are submitted for your consideration in order that, should the coinage for depositors of unlimited legal-tender silver dollars be authorized, the mints, as to appropriations, may be promptly placed in condition to execute the large silver coinage which would beyond doubt devolve upon them.

REGULATIONS FOR THE TRANSACTION OF BUSINESS AT THE MINTS AND ASSAY-OFFICES.

Immediately after entering upon my duties as Director under the coinage act of 1873, my attention was given to the preparation of instructions and regulations, having for their object the careful, skillful, and economical conducting of the various processes and operations appertaining to the coinage, and to insure safety to the government and correct returns to depositors of bullion.

The regulations then in force were adopted with such modifications as were required to make them conform to the new law, and have since been amended from time to time by the addition of such checks as careful observation and experience have shown to be advisable or necessary. Among these amendments is a regulation requiring a more perfect system of receiving, distributing, and accounting for the various articles ordinarily consumed in the mints, and under which each article delivered to any officer is charged and receipted for, and a record kept in such manner as to show at any time the supplies purchased and consumed. At the end of each fiscal year the books are required to be balanced as to each article of supply, an inventory of the number and quantity on hand taken, and, after verification with the books, transmitted to the Director.

It is believed that the regulations are now as complete as they can be made, and with a view to put them in form for ready reference and more convenient use, they will be compiled, and a new edition printed at an early day.

My obligations are due to the clerks of this office, and to the officers, clerks, and workmen of the different mints and assay-offices, for the faithful and intelligent discharge of their respective duties.

Statements containing full information in detail, respecting the coinage and collateral subjects, are presented in the Appendix.

I have the honor to be, very respectfully,

H. R. LINDERMAN,
Director of the Mint.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

Deposits and purchases of bullion at the mints and assay-offices during the fiscal year ended June 30, 1877.

Description.	Mints.					Assay-offices.				Total.
	Philadelphia.	San Francisco.	Carson.	Denver.	New Orleans.	New York.	Boise.	Helena.	Charlotte.

REPORT OF THE FIRST COMPTROLLER.

REPORT

OF

THE FIRST COMPTROLLER OF THE TREASURY.

TREASURY DEPARTMENT,
FIRST COMPTROLLER'S OFFICE,
October 10, 1877.

SIR : The following report, which embraces the operation of this office during the fiscal year ending June 30, 1877, is respectfully submitted.

The number of warrants examined, countersigned, entered upon blotters, and posted into ledgers was as follows :

Treasury proper.....	2, 631
Public debt	219
Quarterly salaries.....	1, 159
Diplomatic and consular.....	3, 477
Customs	5, 095
Internal revenue.....	4, 883
Judiciary	2, 518
War pay	6, 263
War repay.....	1, 098
Navy pay	2, 261
Navy repay	220
Interior civil.....	1, 984
Interior pay.....	2, 894
Interior repay.....	715
Appropriation.....	146
Customs, (covering).....	1, 416
Land, (covering).....	819
Internal revenue, (covering).....	1, 839
Miscellaneous, (covering).....	6, 750
Miscellaneous repay, (covering).....	1, 924

The following accounts were received from the First and Fifth Auditors of the Treasury and the Commissioner of the General Land Office, and revised and certified, viz :

Judiciary, embracing the accounts of the United States marshals for their fees and for the expenses of the United States courts, of the United States district attorneys, and of the commissioners and clerks of the United States courts.....	2, 356
Diplomatic and consular, embracing the accounts arising from our intercourse with foreign nations, expenses of consuls for sick and disabled seamen, of our commercial agents in foreign countries.....	2, 212
Awards by the court of Alabama claims.....	1, 003
Public lands, embracing the accounts of the registers and receivers of land-offices, and surveyors-general and their deputies, and of lands erroneously sold	2, 567
Steamboats, embracing accounts for the expenses of the inspection of steam-vessels and salaries of inspectors.....	316
Mint and assay-offices, embracing the accounts of gold, silver, and cent coinage, of bullion, of salaries of the officers, and general expenses.....	221
Public debt, embracing the account of the Treasurer of the United States, and the accounts of the assistant treasurers for the redemption of United States stocks and notes, and for the payment of the interest on the public debt.....	655
Public printing, embracing accounts for printing, for paper and for binding.....	73
Territorial, embracing accounts for the legislative expenses of the several Territories and all the expenses incident to their government.....	327

Congressional, embracing accounts for salaries, for contingent expenses, and for other expenses of the United States Senate and House of Representatives	127
Internal-revenue collectors' accounts of the revenue collected, the expenses of collecting the same, compensation of collectors, and the expenses of their offices	1,950
Internal-revenue-stamp agents' accounts for the sale of stamps	572
Miscellaneous internal revenue, embracing accounts of supervisors, surveyors, agents, accounts for redemption of stamps, for drawback, &c	2,483
Internal-revenue assessors' accounts for the expenses of levying the taxes and for their own compensation	10
Miscellaneous, embracing accounts for the contingent expenses of all the Executive Departments at Washington, salaries of judges, district attorneys, and marshals, expenses of the Coast Survey, of public buildings and grounds, &c ..	2,609
Number of letters written from this office on official business	10,445
Number of receipts for tax-lists, given by collectors, examined, registered, and filed	1,732
Number of books of tax-paid spirits, tobacco, and special stamps counted and certified	16,564
Number of requisitions examined, entered, and reported, viz :	
Diplomatic and consular	1,154
Collectors of internal revenue	1,691
United States marshals	383
Mints	121

The above detail exhibits but a portion of the duties pertaining to this office. There should be added the examination, registering, and filing of official bonds; the examination, filing, and registering of powers of attorney for the collection of money due to public creditors from the government; the examination and decision of applications for the issue of securities in place of those lost or destroyed, and a variety of miscellaneous business occurring daily, which need not be mentioned in detail.

I commend the persons employed in the office for their faithful and efficient service.

Respectfully submitted.

J. TARBELL,
Acting Comptroller.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

REPORT OF THE SECOND COMPTROLLER.

REPORT OF THE SECOND COMPTROLLER OF THE TREASURY.

TREASURY DEPARTMENT,
SECOND COMPTROLLER'S OFFICE,
October 15, 1877.

SIR: In compliance with your request, I submit herewith a summary statement of business done in this office during the fiscal year which ended on the 30th day of June, 1877.

The following table shows the total number of accounts and claims received and adjusted and the amounts allowed thereon, including miscellaneous cases under special acts of Congress:

From—	Received.	Revised.	Amount.
Second Auditor	8,962	8,907	\$24,035,996
Third Auditor	4,962	5,049	63,558,043
Fourth Auditor	2,281	2,302	20,001,103
Miscellaneous	764	490	238,431
Total	16,969	16,748	107,833,573

These have been duly revised and entered, and the balances due thereon certified for allowance and payment.

The following tables furnish a more detailed statement of the same accounts and claims, showing the number received, the number revised, the character of the same, the amounts allowed, and the source from which they were received:

Accounts received and revised during the year.

Character of accounts.	Received.	Revised.	Amount.
From the Second Auditor:

The business of the office, during the whole of the fiscal year reported, was conducted under the direction of my immediate predecessor, and this report is prepared from his records and files.

Respectfully,

W. W. UPTON,
Comptroller.

Hon. SECRETARY OF THE TREASURY.

REPORT OF THE COMMISSIONER OF CUSTOMS.

REPORT

OF

THE COMMISSIONER OF CUSTOMS.

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER OF CUSTOMS,
Washington City, D. C., October 31, 1877.

SIR: I have the honor to submit herewith, for your information, a statement of the work performed in this office during the fiscal year ending June 30, 1877.

The number of accounts on hand July 1, 1876.....	209
The number of accounts received from the First Auditor during the year.....	6,529
	6,738
Number of accounts adjusted during the year	6,435
Number of accounts returned to the First Auditor.....	10
	6,445
Number of accounts on hand July 1, 1877.....	293

There was paid into the Treasury of the United States, from sources the accounts relating to which are settled in this office—

On account of customs.....	\$130,956,493 07
On account of marine-hospital tax.....	372,465 70
On account of steamboat-inspections.....	261,657 56
On account of fines, penalties, and forfeitures.....	146,413 21
On account of storage, services of officers, &c.....	386,519 48
On account of customs-officers and emolument fees.....	511,780 15
On account of deceased passengers.....	110 00
	132,635,439 17

And there was paid out of the Treasury—

On account of expenses of collecting the revenue from customs.....	6,501,037 57
On account of refunding excess of deposits.....	2,098 805 31
On account of debentures.....	3,130,374 06
On account of public buildings.....	3,232,330 98
On account of construction and maintenance of lights.....	2,367,011 58
On account of construction and maintenance of revenue-cutters.....	876,857 99
On account of marine-hospital service.....	367,509 97
On account of life-saving stations.....	372,087 30
On account of compensation in lieu of moieties.....	32,392 13
On account of relief acts.....	12,512 08
On account of admission of foreign goods to Centennial.....	11,150 25
On account of seal-fisheries in Alaska.....	8,080 49
On account of metric standard weights and measures.....	9,700 00
On account of miscellaneous.....	1,849 19
	19,021,698 90

The number of estimates received	2,938
The number of requisitions issued	2,908
The amount involved in requisitions	\$11,684, 180 64
The number of letters received	9,556
The number of letters written	10,790
The number of letters recorded	8,966
The value of postage-stamps used	\$357 45
The number of returns received and examined	9,263
The number of oaths examined and registered	3,838
The number of appointments registered	3,591
The average number of clerks employed	27
The amount involved in this statement	\$163, 341, 676 16

Since my last annual report several irregularities have been detected among subordinate customs-officials, who have collected moneys belonging to the government and neglected to carry the proper credits in their accounts. Such delinquencies seem to indicate the necessity of some improvement upon the old methods of accounting which will effectually prevent the recurrence of like offenses. With this view, I addressed you the following letter, suggesting a system of checks and receipts, which, it is confidently expected, will accomplish the desired purpose, unless there should be collusion between the person paying and the officer receiving the money:

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER OF CUSTOMS,
Washington City, D. C., September 7, 1877.

SIR: In view of the result of the recent investigations at Norfolk and Richmond, Va., and Pensacola, Fla., it is evident that customs-officers, intrusted with the collection of moneys belonging to the United States, have at times made collections which they have omitted to mention in any manner, either in their accounts or in the records they are required to keep in their offices.

This manner of defrauding the United States of its just dues is probably the one most practiced and the one most difficult of detection, especially at the smaller ports, as instanced in the cases mentioned above.

On full consideration of the matter, I deem it my duty to call your attention to the fact, and to submit the following suggestions as indicative of a plan by which this manner of defrauding the government can be to a great extent, if not entirely, stopped, and if attempted, the guilty parties immediately detected.

All persons receiving money on government account should be instructed to give receipts therefor, stating specifically the kind and amount of the money received and on what account.

Notice to be posted in all public places where money is received, requesting persons paying to demand receipts.

These receipts are to be printed in books with stubs, numbered and issued by the department to the collecting-officers, who are to be held to a strict accountability for each of the receipts issued.

This system would require some months to perfect, and a considerable increase in the clerical force of this office; but I am fully convinced that much more than the sum expended in clerk-hire would be saved to the United States in the increase of collections, both by detection and prevention, and that it would add greatly to the general efficiency of the service.

Very respectfully, your obedient servant,

H. C. JOHNSON,
Commissioner of Customs.

HON. JOHN SHERMAN,
Secretary of the Treasury.

In pursuance of the recommendations of this letter and the authority of the department, the following blank has been prepared for use throughout the customs-service:

No. —.

Cat. No. 399. { DEPARTMENT CIRCULAR No. 126,
SERIES OF 1877.

Send the stubs to the Commissioner of Customs, Washington, by mail, when the receipts in the book are all used.

See that this stub is countersigned by the person receiving the receipt.

COMMISSIONER OF CUSTOMS.

The formulas and suggestions of this receipt make the holder a detective on the official, which will not be objected to by honest men when it is remembered that they are made necessary by fraudulent practices, and are only intended to restrain the dishonest.

The adoption of this receipt will so increase the business of this office as to require the services of three clerks of the second class in addition to those now employed.

I therefore recommend this clerical increase, and that an appropriation be made accordingly.

In this connection, it may be suggested whether it is practicable and expedient to put in operation the system of paying all customs-dues by means of stamps. It is the teaching of observation that, in proportion as the number of persons who handle the money of others in business processes is limited, the amount of loss to the principal is diminished, and that the responsibility of the agents is more certain and direct. This fact is abundantly recognized by most private corporations, and the government should profit by the teachings of their examples and the safeguards they have successfully employed.

A railroad company, a steamship line, or a great exhibition deposits with its agents a given number of tickets of various values representing a certain amount of money. These tickets form the basis of an account, and they must be returned or balanced in cash. The payment of duties by means of stamps is about as direct as this. It is proposed that stamps of suitable denominations, convertible only in the payment of customs-dues, shall be issued by the Treasury Department for sale, through its authorized representatives, under such regulations as may be prescribed. As the sequent to this, officials making collections should be prohibited from receiving payments otherwise than by these stamps, which should be canceled and sent to this office in connection with the accounts to which they belong, thus forming in their issue, sale, cancellation, and return to the department the circuit of a complete transaction. A system like this, compelling the use of stamps, which are easily understood and direct in effect and can be used for but one purpose, will allay suspicion, protect the public from improper exaction, and the government from the fraudulent practices of unfaithful agents.

By section 305, Revised Statutes, it is necessary, before any credit can be given in accounts for money paid into the Treasury, that a proper paper, technically called a covering-warrant, shall be issued. By this warrant credit is given to the person paying the money into the Treasury, and a corresponding charge is made against the Treasurer.

The present practice is to file the warrant with the account of the person who makes the deposit when credit is given, thus separating it from the accounts of the Treasurer. Six weeks are allowed after the termination of each quarter within which to close its transactions on the books of the Secretary of the Treasury, and to issue warrants for deposits made during that period.

After this, it is necessary that the warrants be countersigned by the Comptroller and registered by the Register, and the receipt of the Treasurer placed thereon. As the Treasurer is also obliged to make his account include these warrants before they can be delivered for use in the settlement made with the depositors, it frequently happens that a long time elapses between the deposit of the money and the production of the legal evidences of the deposit to the proper accounting-officer.

The result of this is either the accounts of the depositing-officers are settled without giving them credit for deposits made, of which they

justly complain, or that these adjustments are greatly delayed, and the business of the accounting-officer, instead of progressing regularly, is at times extremely heavy and at other times correspondingly light.

With the view of remedying these troubles, the following suggestions are offered :

While section 305, Revised Statutes, compels the issue of a warrant, I do not understand that it is necessary that the warrant itself be filed with the account in which credit is given. Would it not be proper for the Register of the Treasury, when warrants pass through his office, to post them on his ledger to the individual accounts of the depositors in the same manner as repay-warrants are now treated, and let the collection accounts be settled on the certificate of the Register, as is now the case with disbursement accounts? The warrants themselves could then be retained by the Treasurer of the United States, and filed with his accounts.

Should this course be adopted, I think it would expedite the settlement of collectors' accounts that pass through this office; and, as the Register posts these warrants in the manner suggested after the settlement, I do not see that there would be any material increase of clerical labor required by this change.

There are now many miscellaneous warrants issued covering money into the Treasury for which there are no corresponding accounts. The true theory of warrants appears to require an account to be stated by the accounting-officer on each, giving a history of the money, from what source derived, from whom collected, and by whom paid into the Treasury, with the circumstances of the collection.

The change proposed would, I think, meet this requirement and cause every covering-warrant to appear in an account.

The duties due on goods remaining in a bonded warehouse being the check to prove the correctness of the warehouse bond account, it is necessary that the fact of the goods as represented being actually in the warehouse should be ascertained from time to time by inspection. This is occasionally done in the smaller ports; but in the larger, I am not aware of any such examinations having been made. I would, therefore, suggest that measures be at once instituted to take inventories of all goods in warehouses at the larger ports, that the result be compared with the bonds and entries, and that, should any discrepancies exist, a rigid explanation be required. As the bond-accounts are settled in this office, and their correctness has not been ascertained for many years by the tests of an examination of the goods themselves, I have felt it to be an exacting duty to call the attention of the department to the existing condition of affairs.

In my letters to the Secretary of the Treasury of May 15, 1876, and March 20, 1877, I invoked the assistance of the department; but as yet this office has not received any report whatever of examinations in the great ports, nor has it been furnished the desired means of verifying for itself the correctness of these accounts, involving many millions of dollars annually. If there is no other way of performing this most important work, I would ask for such legislation as will authorize the appointment of at least four experts, to be placed under the direction of the Commissioner of Customs for its accomplishment.

It is a serious defect in our customs system which permits the importation of wines and spirits for consumption without preserving their identity in such a way that the packages may not be used time and again, to the prejudice of the internal revenue, after they have been emptied of their imported contents. Under existing regulations the

customs brand on a package protects the contents, but there is no adequate protection against abuse in its use after it performs the offices for which it was legally intended ; and there is every reason to believe that packages of this description are in daily requisition for marketing illicit spirits without the payment of internal-revenue taxes. This evil has risen to such magnitude as to demand repressive action, and stringent legislation may be required for its complete correction.

One remedy which presents itself is in the use of a stamp with suitable penalties for its non-destruction when the package has been emptied, or for reusing in case the package is refilled.

Should additional legislation be advisable in this behalf, I suggest that the Commissioner of Internal Revenue and the Commissioner of Customs be consulted and joined in the preparation of the bill.

A statement of the bonded-warehouse transactions for the last fiscal year will be prepared and transmitted as soon as all the necessary returns shall have been received.

I have the honor to be, very respectfully,

HENRY C. JOHNSON,
Commissioner of Customs.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

In submitting this report, I beg leave to acknowledge the able assistance I have received from the deputy auditor and the several chiefs of divisions in conducting the affairs of the office, and to commend the clerks and other employes generally for fidelity and efficiency in the discharge of their official duties.

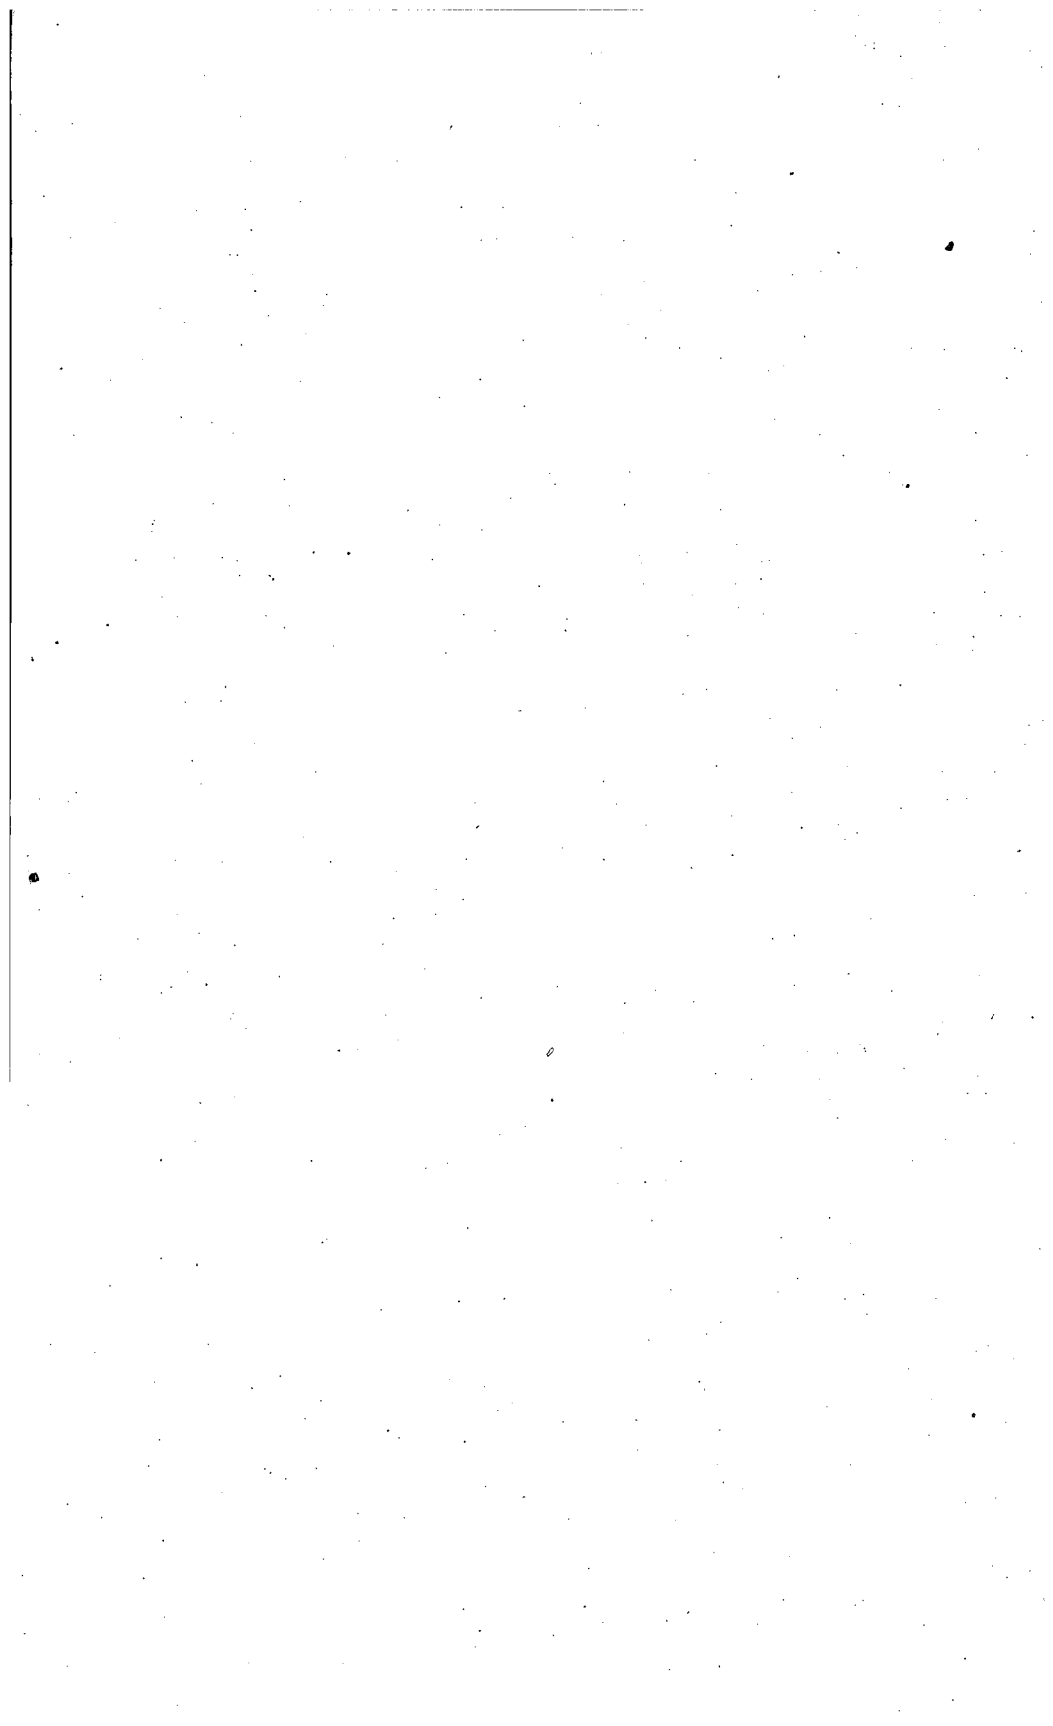

Very respectfully,

D. W. MAHON,
Auditor.

Hon. JOHN SHEEMAN,
Secretary of the Treasury.

REPORT OF THE SECOND AUDITOR.

REPORT OF THE SECOND AUDITOR OF THE TREASURY.

TREASURY DEPARTMENT,
SECOND AUDITOR'S OFFICE,
November 1, 1877.

SIR: I have the honor to submit the following report of the operations of this bureau during the fiscal year ending June 30, 1877.

BOOKKEEPERS' DIVISION.

Transfers to Third Auditor.....	81
Transfers to Fourth Auditor.....	3
Miscellaneous.....	74
Total.....	3 408

During the year the sum of \$2,354.45 has been recovered from 24 ex-Indian agents, and \$228.37 from 10 recruiting-officers, to close their accounts on the books of this office. Six transcripts of charges for double payments have been prepared for suit, 72 bonds of disbursing-officers have been registered, 855 certificates of deposit have been listed, 537 certificates of non-indebtedness have been issued, and 1,222 letters written.

The work of this division shows a marked increase compared with last year, as the following items indicate:

	1876.	1877.	In-crease.
Requisitions registered, &c	3,386	3,957	571
Warrants recorded and posted	44	52	8
Settlements entered, journalized, and posted	2,905	3,498	593
Bonds of disbursing-officers recorded	54	72	18
Certificates of non-indebtedness issued	309	537	228

PAYMASTERS' DIVISION.

Five hundred and eighteen paymasters' accounts have been audited and reported to the Second Comptroller since June 30, 1876, and 787 miscellaneous settlements made. Seventeen paymasters' accounts have been finally closed, as follows: In thirteen cases the balances due the United States aggregated \$7,618.20, and that amount was recovered by suit and deposited in the Treasury. In four cases the paymasters were found to be creditors to the extent of \$4,789.17, and that amount was paid them. The accounts of eight paymasters have been prepared for suit, the amount at issue being \$36,979.56, chiefly on account of balances due the United States by paymasters who left the service in 1861.

The amount involved in the above-mentioned accounts and settlements is \$12,939,155.21, as follows:

Disbursements, as per paymasters' accounts	\$12,604,998 41
Payment of stoppages and fines to the Soldiers' Home	120,563 12
Amount stopped from the pay of enlisted men for tobacco furnished by the Subsistence Department, and transferred to the credit of that department on the Third Auditor's books	148,354 84
Amount charged to regular and volunteer officers for double payments	29,834 22
Amount charged to officers and men for over-payments	6,060 34
Amount of over-payments and double payments refunded	11,087 06
Amount stopped from the pay of officers and men for subsistence and quartermaster's stores, transportation, &c., and transferred to the credit of the proper appropriations on the Third Auditor's books	11,810 07
Miscellaneous charges, credits, and transfers	6,446 55
Total	12,939,155 21

There were 144 paymasters' accounts on hand July 1, 1876, 529 were received and 518 settled during the year, leaving 155 on hand June 30, 1877. One thousand one hundred and sixteen letters were received, briefed, and entered, and 1,318 written.

MISCELLANEOUS DIVISION.

Two thousand two hundred and seven accounts and claims pertaining to the Ordnance and Medical Departments, contingencies of the Army, Commanding General's Office, contingencies of the Adjutant-General's Department, regular and volunteer recruiting, local bounty, National

Home for Disabled Volunteer Soldiers, Freedmen's Branch of the Adjutant-General's Office, special acts of relief by Congress, &c., were adjusted in this division, and represented an expenditure of \$2,622,792.33, as follows:

Ordnance Department	\$1,456,737 29
Medical Department	341,517 29
Recruiting—regular, \$105,894.73; volunteer, \$26,804.43	132,699 16
Freedmen's Branch, Adjutant-General's Office	296,100 15
Appropriations under control of the Secretary of War	377,931 21
Special acts of relief by Congress	4,758 93
Miscellaneous	13,048 30
Total	2,622,792 33

The compilation of a complete record of payments to regular and volunteer officers is being proceeded with as rapidly as possible. An examination of 319 paymasters' accounts during the past year resulted in the detection of 72 cases of double payment to officers no longer in the service, against whom charges have been raised and measures taken to recover the amounts overpaid.

On July 1, 1876, there were 593 unsettled recruiting and other accounts on hand; 2,062 were received during the year, 2,207 were adjusted, and 448 remain on hand; 1,398 letters were written.

INDIAN DIVISION.

	On hand July 1, 1876.	Received during the year.	Adjusted during the year.	Remaining on hand June 30, 1877.	Amount involved.
Cash-accounts of Indian agents	256	728	736	258	\$4,932,839 51
Property-accounts of Indian agents	1,004	448	630	822	
Claims of contractors, employés, and others	33	2,243	2,248	28	3,575,641 22
Total disbursements					8,508,480 73

The time of one clerk was occupied two months in compiling the customary statement of expenditures of the Indian Department required by law to be submitted to Congress annually.

A new set of books has been opened in which a record is kept of all articles purchased for the Indian service and paid for through this office, showing the date of purchase, the description and price of goods, the amount paid for transportation from the place of purchase to the place of delivery, the agency for which the articles are intended, and the name of the agent who receipts for them. This record answers a double purpose. It enables this office to prevent any overpayment on account of the transportation of Indian goods and supplies, and it shows exactly what articles each agent must account for in his property returns.

The Second Comptroller, in following up delinquent agents, has had to make frequent calls upon this office for transcripts of accounts for suit, and a great portion of the time of several clerks has been occupied in preparing such transcripts, and in making the supplementary settlements which transcripts for suit usually involve. In many cases, in

order to fix the responsibility of ex-agents for property not accounted for, it has been found necessary to re-examine, not only their individual property-accounts, but also the property-accounts of other agents from whom they received, or to whom they claimed to have transferred, the property in dispute. This description of work is more tedious than the ordinary adjustment of accounts, but the amount of labor bestowed upon it cannot very well be represented by figures.

In comparing this year's report with the one rendered last year, it will be seen that there has been a very large increase in the number of Indian claims referred to this office for payment, while the increase in the amount of said claims has been comparatively insignificant. In the fiscal year 1876 the claims numbered 1,236 and amounted to \$3,556,298.38. In 1877 the number settled was 2,248, amounting to \$3,575,641.21—an increase of nearly 82 per cent. in number, but only a little more than one-half of one per cent. in amount.

Letters written, 2,920; letters recorded, 2,552; pages of legal cap used in copying, 1,137, and 298 pages of folio post.

PAY AND BOUNTY DIVISION.

The work performed in the two branches of this division is set forth in the following statements:

Examining branch.

Class of claims.	Original claims.					Suspended claims.				Total number examined.	Letters written.
	Number examined.	Number found correct.	Number found incomplete and suspended.	Number rejected.	Number of duplicate applications found.	Number examined.	Number completed by additional evidence.	Number again suspended, additional evidence insufficient.	Number rejected.		
WHITE SOLDIERS.											
Arrears of pay and original bounty...	6,380	5	4,645	1,730	26,485	1,934	20,938	3,613	32,865	37,269

Arrears of pay and all bounties.	2,102	979	200	1,179			162,481 75
Total.....	11,653	4,230	491	4,721	5,336	4,233	577,340 79

In addition to the foregoing, three settlements were made in this division on account of unclaimed amounts due deceased soldiers, upon which the sum of \$6,160.30 was paid to the Soldiers' Home, under section 4818, Revised Statutes, making the aggregated disbursements \$583,501.09.

The number of claims remaining on hand June 30, 1877, by actual count, is 15,446, classified as follows: Arrears of pay and original bounty, 6,641; additional bounty, act July 28, 1866, 1,765; bounty under act of April 22, 1872, 272; claims of colored soldiers, 6,768.

DIVISION FOR THE INVESTIGATION OF FRAUD.

During the last fiscal year 6,749 cases have been before this division for examination and investigation, of which 4,680 have been examined and 423 finally disposed of, leaving 6,326 now on hand for further investigation and final disposition. Briefs have been prepared in 410 cases; 56 cases have been arranged for the Department of Justice for suit and criminal prosecution, and 4,223 letters have been written.

The cases under investigation involve questions of alleged fraud in the preparation and prosecution of claims, forgery, unlawful withholding of money, overpayments to officers and enlisted men of the Regular Army and volunteer force, and are as follows: 1,286 cases of white and 1,674 cases of colored soldiers, in which notice of fraud was not presented to the office until after payment; 785 unpaid claims of white and 1,470 of colored soldiers, involving fraud, forgery, disputes, and contests as to identity and heirship, &c.; 699 miscellaneous settled claims of colored soldiers, involving questions of lawful inheritance of bounty, &c., and 412 cases in which officers are charged with pay overdrawn.

The amounts recovered by suit and otherwise, aggregate \$159,513.99, of which \$6,882.87 was returned to the Treasury in cases of white soldiers; \$147,072.41 recovered by the Freedmen's branch of the Adjutant-General's Office and covered into the Treasury through this office; \$2,543.89 recovered by judgments not yet satisfied; \$1,928.66 deposited in the Treasury, being the proceeds of canceled certificates, (Second Auditor's;) \$936.16 recovered from agents and paid to claimants direct; \$100 recovered by reclamation through the assistant treasurer at New York, and \$50 by fine.

In my report for the fiscal year ending June 30, 1875, the following remarks occur:

In my last annual report I said that the increase in the number of cases requiring investigation by this branch of the office was accounted for by the fact that since the

transfer of the Freedmen's Bureau to the War Department frauds and malfeasance had been discovered in the payment of claims by the subagents of the late Commissioner of the Bureau, and it was then presumed that the number would continue to increase until some definite action should be taken by superior authority, with a view of determining the civil liability of the bonded agents of the bureau. Many cases then in the hands of the law-officers of the government are yet in *statu quo* as regards action on the bonds, and it is perhaps advisable that they should remain so until the allegations of non-payment, false vouchers, &c., shall have been fully inquired into by the different United States attorneys, and some definite conclusion arrived at as to the facts and the liability of the bonds.

These remarks yet apply to this division; and I have only to add that, owing manifestly to the migratory character of the colored people and the uncertainty of their declarations when found, the United States attorneys have since returned a majority of the cases with reports of their inability to successfully investigate them. In some instances the fact that the colored soldiers or their heirs have been defrauded of their money has been fully established. Charges have accordingly been raised against the late Commissioner of the Freedmen's Bureau, and the matter placed in the hands of the Solicitor of the Treasury for appropriate action. Those people who have not received their money are clamorous for a resettlement of their claims, but under the resolution of Congress approved March 29, 1867, directing payment to the Commissioner of the Freedmen's Bureau, and charging him with the faithful disbursement of the funds, the accounting-officers hold that they have fulfilled their duty and discharged their trust so far as relates to the settlement of the claims, and that no claim can be resettled and paid without specific authority from Congress, and the reappropriation of the necessary funds.

PROPERTY DIVISION.

The number of returns of clothing, camp and garrison equipage, &c., left unsettled on July 1, 1876, was 9,714. Since that date 3,213 have been received, and 4,983 examined, leaving 7,944 on hand June 30, 1877. In the settlement of these returns, charges amounting to \$9,257.21 have been raised against officers for property not accounted for. Three thousand four hundred and thirty-one returns have been examined preliminary to settlement, and 2,779 letters have been written.

DIVISION OF INQUIRIES AND REPLIES.

Office making inquiry.	Inquiries on hand July 1, 1876.	Inquiries received during the year.	Inquiries answered during the year.	Inquiries unanswered June 30, 1877.
Adjutant-General	648	6,423	5,477	1,594
Paymaster-General	2	522	524
Quartermaster-General	31	562	562	31
Commissary-General	49	49
Third Auditor	23	720	697	46
Fourth Auditor	4	18	19	3
Commissioner of Pensions	17	867	874	10
Miscellaneous	309	307	2
Total	725	9,470	8,509	1,636

Of the 1,594 unanswered Adjutant-General's inquiries, all but about 75 are cases in which no issue is pending in that office, the object of the

inquiries being to correct or complete soldiers' records. Several hundred of these cases are suspended, awaiting information from the Paymaster-General.

The large amount of miscellaneous copying done in this division is indicated by the following items: Rolls and vouchers copied for the Adjutant-General, 285; for the Third Auditor, 4; for preservation in this office, 26; final statements copied, 586; affidavits, 507; applications for back pay, 135; letters, 112; miscellaneous documents, 238; pages of foolscap used in copying, 1,872. Three thousand six hundred and twenty-three letters were written, and 2,978 signatures compared. During the year 127 overpayments and double-payments were discovered, amounting to \$5,495.95. Charges to the extent of \$1,628.25 have been raised against enlisted men of volunteers for improper payments for the use and risk of private horses. Some of these improper payments were made during the war with Mexico, and one or two during the Florida war. The amounts overpaid are stopped by the Third Auditor from the claims of the soldiers for horses lost, and are transferred to the books of this office. The amount so transferred since June last was \$1,678.59.

In December last the descriptive lists of soldiers, a large number of which accumulated in this office during the late war, were turned over to this division for appropriate disposition. Twelve thousand two hundred and nineteen of these lists have been properly briefed and filed away for future reference, and 3,459 have been filed with the soldiers' applications for arrears of pay and bounty. The record books of applications were examined in 37,269 cases to ascertain whether the soldiers' whose descriptive lists were received, had applied for bounty or back pay.

DIVISION OF CORRESPONDENCE AND RECORDS.

Letters received, 18,854; letters written, 16,696; letters referred to other offices, 1,354; dead-letters received, briefed, and registered, 1,604; letters recorded and indexed, 1,273; letters with additional evidence received, briefed, and indexed, 15,108; claims received, briefed, and registered: War, 13,719; Indian, 2,022; miscellaneous vouchers received, stamped, and distributed, 59,124; pay and bounty certificates examined, registered, and mailed, 4,233; sent to the Paymaster-General, 13,170; reports calling for requisitions sent to the War Department, 375.

ARCHIVES DIVISION.

Confirmed settlements received from the Second Comptroller, entered, arranged, and placed in permanent files: paymasters', 172; Indian, 1,893; miscellaneous, 1,355; total 3,420. Paymasters' accounts received from the pay department and temporarily filed, awaiting settlement, 529; paymasters' accounts rearranged for greater convenience of reference, 714; paymasters' accounts unexamined, 155; miscellaneous accounts withdrawn for reference and returned to files 2,458; vouchers withdrawn for use of settling clerks, 38,948; vouchers previously withdrawn, returned to files, 100,213; mutilated rolls repaired, 66,321; vouchers briefed, 352,272; letters written, 915.

RÉSUMÉ.

* Actual count.

In addition to the number of letters written, as stated above, 27,857 were written in the various divisions of the office, making a total of 106,046.

The average number of clerks employed during the year was 140.

The usual monthly and annual reports and statements have been prepared.

The following figures exhibit, as well as figures may do, what has been the work of this office since its organization in 1817, and furnish interesting statistical information. The first table shows the number of settlements of money-accounts and claims during the forty-four years from 1817 to 1861, divided into two periods, prior and subsequent to the Mexican war. The second table is a condensed statement of the money accounts and claims settled by the different divisions of the office from June 30, 1861, to June 30, 1877; and the third table shows the number of property-accounts adjusted, claims rejected, certificates furnished the Paymaster-General and Commissioner of Pensions during the same period.

Number of accounts settled from March 4, 1817, to June 30, 1861.

Accounts.	From March 4, 1817, to June 30, 1847.	From June 30, 1847, to June 30, 1861.	Total.

In 1861 the files of this office were conveniently accommodated in two rooms. At the present time they consist of more than twenty-two thousand cubic feet, and weigh about three hundred tons. That portion of them which consists of officers' property-returns, that have been examined and adjusted, is in two rented buildings, outside of Winder's building, where the examinations were made. The larger portion, which embraces the settlements of claims and accounts for the disbursement of money, occupies the entire attic story of Winder's building and cases in the corridors of that part of the building assigned to this office. Neither of the buildings containing the officers' returns is fire-proof, nor is the upper portion of Winder's building, where the most valuable files of the office are necessarily deposited. It is earnestly hoped that steps will be taken at an early day to render Winder's building fire-proof. The value of the files thus exposed will be appreciated, when it is understood that the money vouchers alone show the disbursement of over nineteen hundred millions of dollars, covering the pay of the Army; expenses of recruiting; collecting, drilling, and organizing volunteers; ordnance and ordnance stores, medical and hospital department, and the Indian service, with other miscellaneous matters since July 1, 1815.

The pay-rolls of the Army in the accounts of paymasters, besides furnishing the only evidence which the government has of the proper disbursement of some fifteen hundred millions of dollars, are, and will be in the future, of great value to the people of the country, especially to officers and soldiers, or their friends, as furnishing interesting and important incidents of personal history. There would seem to be no argument needed to demonstrate the importance of properly preserving them.

In consequence of the poor quality of paper employed in making these rolls, and their frequent handling in the office of the Paymaster-General and this office, while settling the accounts of paymasters and the various claims of soldiers and their heirs, they became so badly worn upon the

folds that most of them would fall into pieces upon being opened, often requiring great care to prevent the loss or displacement of some portion. This was especially true of those so frequently used in settling the various claims for bounty, since eighteen hundred and sixty-two, and I became satisfied that if what was called the "equalization of bounty bill" should become a law before the rolls could be repaired, they would be virtually destroyed before settlement of the claims under it could be made. It was not practicable to have photographic copies of them made until after they had been repaired, and an attempt to have them copied in any other way, besides involving an expense of twenty-five or thirty dollars apiece, would fail to secure the signatures, or fac-similes of them, of the officers and men who had been paid. An investigation showed that there must be over six hundred thousand mutilated rolls and vouchers in the office needing repairs to properly preserve them. Having satisfied myself that the best method would be to repair them with vellum, and that the work could be done cheaper and neater by women than men, I brought the subject to the attention of the Secretary in the summer of 1875, informing him orally of the whole matter, and in view of the magnitude and importance of the work, and that there was no appropriation for this office out of which it could be executed, it was determined to detail female clerks for the purpose of making the needed repairs. Work was commenced under this arrangement on the 17th of August, 1875, and has been done in a most satisfactory manner. On the 30th of September last, three hundred and eighty-five thousand eight hundred and seventy-five mutilated vouchers had been repaired, which are really stronger and better fitted to bear future handling than they were when first made, and there now remain about two hundred and ninety thousand, according to the best estimate that can be made, which need similar repairs. It is earnestly hoped that means will be furnished to complete this valuable and important work.

The condition of the work in the office is very satisfactory, and it affords me great pleasure to bear testimony to the ability, faithfulness, and efficiency of the gentlemen composing its clerical force. In fact all persons who are at present connected with it, are entitled to my special commendation.

I am, sir, very respectfully,

E. B. FRENCH,
Auditor.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

REPORT OF THE THIRD AUDITOR.

REPORT

OF

THIRD AUDITOR OF THE TREASURY.

TREASURY DEPARTMENT, THIRD AUDITOR'S OFFICE, *October 31, 1877.*

SIR: I have the honor to submit herewith report of the business transacted in this office during the fiscal year ended June 30, 1877.

The following statement shows in tabular form the number and amount of accounts and claims on hand, received, and settled, and the number unsettled at that date, viz :

Description of accounts and claims.	Number of accounts remaining on hand June 30, 1876.	Number of accounts received during the year ended June 30, 1877.	Number of accounts settled in fiscal year ended June 30, 1877.		Number of accounts unsettled June 30, 1877.	
	Monthly and quarterly.	Monthly and quarterly.	Monthly and quarterly.	Amount involved.	Monthly and quarterly.	Amount involved.
Quartermaster's money.....	296	1,858	1,974	\$8,135,493 59	160	\$1,994,969 70
Quartermaster's property.....	134	3,780	3,734		180	
Commissary's money.....	610	1,913	1,863	3,252,851 40	660	1,128,228 92
Commissary's provision-returns.	506	1,913	1,863		556	
Pension-agent's money.....	409	834	952	34,067,985 43	291	2,857,304 71
Engineer's money.....	36	189	166	5,818,052 58	59	2,132,649 69
Signal-officer's money.....	5	149	137	659,316 51	17	130,816 87
Signal-officer's property.....	37	1,534	1,402		169	
Claims for horses lost.....	6,237	162	504	69,986 86	5,895	1,033,654 68
Claims for steamboats destroyed	73	2	2	60,000 00	73	703,028 87
Oregon war-claims.....	743	49	115	29,415 92	677	25,605 86
Miscellaneous claims.....	10,868	4,016	3,645	3,884,639 81	*11,239	7,111,356 10
State war-claims.....	6	9	9	249,465 44	6	2,932,585 54
Montana war-claims.....		9	9	3,485 19		
Dakota war-claims.....		23	23	1,138 00		
Total.....	19,960	16,440	16,398	56,231,830 73	20,002	20,050,220 94

* This is the amount stated in 9,424 cases, the amounts in the other (1,444) cases not being stated in the claim papers.

A comparison of the above table with that of the previous fiscal year shows an increase of 42 unsettled accounts and claims, involving \$5,609,499.55 less in amount than on June 30, 1877.

BOOKKEEPERS' DIVISION; J. F. JONES, CHIEF.

The duty devolving upon this division is to keep the appropriation and money accounts of disbursing-officers, which are settled in this office. The annexed statement shows the amount drawn out of certain of its appropriation accounts, and also the repayments made through this office into the Treasury, and is a full exhibit of its financial operations during the fiscal year.

Statement showing the financial operations of the Third Auditor's Office during the fiscal year ended June 30, 1877.

	Advances to officers and agents during the fiscal year.	Claims paid during the fiscal year.	Transfers not involving an expenditure from the treasury.	Special relief acts.	Total.
Number of requisitions drawn by the Secretaries of War and of the Interior upon the Secretary of the Treasury in favor of sundry persons, 5,684, amounting to \$50,610,808.20, paid in the manner herein set forth, and out of the following appropriations, viz:

PER CONTRA.

	Deposits.	Transfer ac- counts.	Total.
The number of credit and counter requisitions drawn by the Secretaries of War and the Interior on sundry per- sons in favor of the Treasurer of the United States, is 1,120, on which repayments into the Treasury have been made through the Third Auditor's Office, during the fis- cal year ended June 30, 1877, as follows	\$1,635,124 55	\$294,029 04	\$1,929,153 59

QUARTERMASTER'S DIVISION, I. S. TICHENOR, CHIEF.

The accounts of quartermasters embrace disbursements for barracks and quarters, hospitals, store-houses, offices, stables, and transportation of Army supplies; the purchase of Army clothing, camp and garrison equipage, cavalry and artillery-horses, fuel, forage, straw, material for bedding, and stationery; payment of hired men, and of per diem to extra-duty men; expenses incurred in the pursuit and apprehension of deserters; for the burial of officers and soldiers; for hired escorts, expresses, interpreters, spies, and guides; for veterinary surgeons and medicines for horses; for supplying posts with water; and for all other proper and authorized outlays connected with the movements and operations of the Army not expressly assigned to any other department.

Property purchased with the funds of the Quartermaster's Department is accounted for upon returns transmitted through the Quartermaster-General to this office (with the exception of "returns of clothing, camp and garrison equipage," which come under the supervision of the Second Auditor), showing that the disposition made of it is in accordance with law and Army regulations.

Statement showing the operations of the quartermaster's division, Third Auditor's Office, for the fiscal year ending June 30, 1877.

Number of letters written in the quartermasters's division, 6,438; average number of clerks employed, $27\frac{7}{12}$; number of pages written, 4,143; number of vouchers examined, 228,879.

The report exhibits the total number of money accounts and property returns on hand June 30, 1876; the number of each class of accounts received and examined, and the number remaining on hand at the close of the year.

A comparison with the last report shows a reduction in the average number of clerks employed in this division of twelve and a fraction; thus, average number employed during the fiscal year ending June 30, 1876, 39 $\frac{3}{4}$, and the average number employed during the year just closed, $27\frac{7}{12}$; notwithstanding such a large reduction, the current work has been kept well in hand, and there has been a steady closing up of the old unsettled accounts that accumulated during the war. The entire force employed in this division at the close of the fiscal year was 20, which number it is hoped will be sufficient to keep up the work.

No claims have been allowed under the second section of the act of May 18, 1872, commonly known as the eight-hour law.

Congress having failed to make appropriation for the support of the Army at its last session, some time must necessarily elapse before accounts for the next fiscal year will be received, which will enable the division to devote their entire time to closing up the accounts rendered prior to the close of the last fiscal year, and in which work the division is now engaged.

SUBSISTENCE DIVISION, ANDREW CAULDWELL, CHIEF.

The subsistence division examines the accounts of all commissaries and acting commissaries in the Army, whose duties are to purchase the provisions and stores necessary for its subsistence, and to see to their proper distribution. These commissaries render monthly money accounts, with proper vouchers for disbursements of the funds intrusted to them, together with a provision-return, showing the disposition of provisions and stores purchased or derived from other sources. These accounts are received through the Commissary-General of Subsistence, and are examined and audited in this division.

The money accounts and vouchers, together with a certified statement of the result of said examinations, are then referred to the Second Comptroller of the Treasury for revision. Upon their return from the Comptroller, with the settlement approved, the officers are notified of the result, and called upon to adjust or explain any omissions or errors that may have been discovered. The money and provision accounts, together with the vouchers and papers belonging thereto, are then placed in the settled files for future reference, and remain permanently in the custody of this office.

ENGINEER ACCOUNTS.

The engineer branch is engaged in the examination of the accounts of officers and agents of the Engineer Department, who, under direction of the Chief of Engineers of the Army (except the Superintendent of the Military Academy at West Point, whose disbursements are directed by the Inspector-General), disburse moneys out of the various appropriations—now 248 in number—made from time to time by Congress for works of a public nature, which may be classed under the following heads, viz :

The purchase of sites and materials for, and construction and repairs of, the various fortifications throughout the United States.

Construction and repairs of roads, bridges, bridge-trains, &c., for armies in the field.

Surveys on the Atlantic and Pacific coasts.

Examination and surveys of the northern and western lakes and rivers.

Construction and repairs of breakwaters.

Repairs and improvement of harbors, both on sea and lake coasts.

Improvement of rivers and purchase of snag and dredge boats for the same; and

The expenses of the Military Academy at West Point.

The transactions of the engineer branch for the fiscal year are shown by the following statement, viz:

	Money account.	
	Number.	Amount involved.

Total	225	7, 950, 702 27
Audited during the fiscal year	166	5, 818, 052 58
Remaining on hand June 30, 1877	59	2, 132, 649 69

Number of vouchers examined in subsistence and engineer division, 111,254; number of letters written, 1,610; number of "differences" written, 729; number of queries answered, 560; average number of clerks employed, 9½.

CLAIMS DIVISION, W. S. STETSON, CHIEF.

This division has the settlement of claims of a miscellaneous character, arising in the various branches of service in the War Department and growing out of the purchase or appropriation of supplies and stores for the Army; the purchase, hire, or appropriation of water-craft, railroad stock, horses, wagons, and other means of transportation; the transportation contracts of the Army; the occupation of real estate for camps, barracks, hospitals, fortifications, &c.; the hire of employés, mileage, courts-martial, fees, traveling expenses, commutations, &c.; claims for compensation, for vessels, railroad-cars, engines, &c., lost in the military service; claims growing out of the Oregon and Washington war of 1855 and 1856 and other Indian wars, claims of various descriptions under special acts of Congress, and claims not otherwise assigned for adjudication.

STATE AND HORSE CLAIMS DIVISION—T. E. G. PETTENGILL, CHIEF.

The duties of this division embrace the settlement, under the various acts and resolutions of Congress relating thereto, of all claims of the several States and Territories for the costs, charges, and expenses properly incurred by them for enrolling, subsisting, clothing, supplying, arming, equipping, paying, and transporting their troops employed in aiding to suppress the recent insurrection against the United States; and all claims arising out of Indian and other border invasions.

Also the settlement of claims for compensation for loss of horses and equipage sustained by officers or enlisted men, while in the military service of the United States; and for the loss of horses, mules, oxen, wagons, sleighs, and harnesses, while in said service, by impressment or contract.

PENSION DIVISION, W. H. WHITNEY, CHIEF.

The duties of this division embrace the settlement of all accounts which pertain to the payment of Army pensions throughout the United States. The Commissioner of Pensions is charged with the allowance and issue of all certificates for pensions under existing laws. The certificate issued in favor of the pensioner is sent directly to the agent for paying pensions, and at the same time a copy of the certificate is forwarded to this office for record. This certificate is recorded in a roll-book prepared for each agency, on which is given the name in full, rate, date of commencement, ending, or other data, to assist in the proper adjustment of payments when made by the several agents.

An account is kept with each pension-agent, charging him with all moneys advanced for payment to pensioners under his proper bond and fiscal year. At the end of each month the agent forwards his vouchers, abstract of payments, and money statement direct to this office, where a preliminary examination is made to see if the money advanced is properly accounted for; the receipt of the account is then acknowledged, and the account filed for audit. Each voucher is subsequently examined and the payment entered on the roll-book opposite the pensioner's name. Care has to be exercised to see that the rate, whether reduced or increased, to which the pensioner is entitled is properly paid.

Every odd year each invalid pensioner, whose disability does not exempt him, is subject to examination by duly appointed surgeons, and if the rate named in his certificate is less than the rate heretofore paid the agent can pay only at the reduced rate. The agent's account, when audited, is reported to the Second Comptroller for his revision, and a copy of the statement of errors, if any, sent to the agent for his information and explanation. The account, when returned from the Second Comptroller, is placed in the settled files, where it permanently remains. In cases of defalcation certified copies of all papers or transcripts of the account are prepared and forwarded to the Second Comptroller, who files therewith a certified copy of the bond, and forwards the same to the Solicitor of the Treasury for suit.

By the act of July 8, 1870, pensioners are paid quarterly instead of semi-annually as before; consequently double the amount of labor has to be performed in auditing accounts.

The act of July 12, 1870, requires all accounts to be audited by fiscal years, and the unexpended balances to be covered into the Treasury to the credit of the appropriation to which they properly belong.

As applied to pensions the law works well.

The act of February 14, 1871, granted pensions to survivors of the war of 1812, who served at least sixty days, and to the widows of those who were married prior to the treaty of peace, and shall not have remarried. This class of cases is gradually decreasing, \$237,949.12 less in amount having been paid this year than last.

The act of June 8, 1872, increased the pensions of invalids for specific disabilities to \$18, \$24, and \$31.25 per month, which act was further amended March 3, 1873, by allowing the \$18 to be divided *pro rata* for proportionate disability. The act of June 8, 1874, increased the pensions of soldiers who lost an arm at or above the elbow, or a leg at or above the knee to \$24, provided they could not use an artificial limb, or to receive pay therefor if used. This proviso was repealed by act of August 15, 1876. The act of February 28, 1877, increases the allowance to pensioners who have lost one hand and one foot, &c., to \$36 per month.

The numerous changes in the laws relating to pensioners increases the amount of labor to be performed in this office, and requires constant watchfulness to prevent erroneous payments.

By act of March 23, 1876, payment for artificial limbs, heretofore paid out of invalid pensions, was transferred to the control and direction of the Surgeon-General of the Army.

At the end of each fiscal year all unexpended balances are deposited to the credit of the Treasurer of the United States, and the certificates are forwarded to the Secretary of the Treasury, who refers the same to this office for proper credits to be given, which is done, and the amounts are designated for credit under the appropriations to which they belong.

Each pension agent at the end of each year is directed to forward a complete list of all outstanding unpaid checks issued by him; and the funds represented by all checks which remain unpaid over three years are covered into the Treasury to the credit of outstanding liabilities, as provided for by law.

Amounts refunded to the credit of the following appropriations during the fiscal year ending June 30, 1877.

Invalids, 1871.....	\$1,449 39
Widows, 1871.....	11,882 30

Amount audited.....	6,622	261,153,380 12		
Balance on hand June 30, 1877.....	291	2,857,304 71		

The appropriation for the last fiscal year was divided under four heads (instead of one as before, viz, "Army pensions"), which very much retards business without being of any benefit.

By executive order dated May 7, 1877, the number of pension agencies was reduced from 58 to 18, from and after July 1, 1877. This reduction, it is estimated, will save the government about \$142,000 per annum.

The force employed in this division numbered 41 clerks and 2 copyists.

The following tabular statements exhibit the amount disbursed by the several agents, and the unexpended balance in hand to be covered into the Treasury :

Unexpended balances in hands of pension-agents June 30, 1877.

In addition to the foregoing, from two to four clerks have been employed during the year in withdrawing abstracts of accountability from the quartermaster property-returns and in checking the property thereon.

All the abstracts have been withdrawn and checking has been commenced, but is progressing very slowly because of the lack of clerks to perform this work. Although few money accounts have been examined in connection with the accountability abstracts of certifying officers, many payments, involving large amounts of money, have been checked which before stood open, and in one instance a double payment of over seven thousand dollars was discovered, the amount of which has been charged to the officer who made it.

Although but little progress has been made, enough has been done to indicate the benefits which will result to the government from the work, and that it should be completed as soon as possible. But with the present force its progress must necessarily be slow.

The rolls of the war of 1812 are in a bad state of preservation, many of them being badly worn and mutilated. Reference is, and has been, constantly had to these rolls to ascertain the services of soldiers of that war who apply for bounty-land and pension, and, by reason of the great lapse of time and frequent handling, all of them are more or less torn, and many of them will soon wholly disappear if something is not done to preserve them.

The employment of a sufficient number of clerks to make up in alphabetical registers a complete abstract of the service of every man whose name appears upon the rolls of the volunteers or militia, on file in this office, is recommended. This will obviate the necessity of referring to the rolls, except in special cases for the verification of a signature or for information of a like nature. It will also show at a glance all the service of every man who served in that war and was paid by paymasters whose accounts are on file in this office. No service can now be readily traced unless the name of the captain of the company or colonel of the regiment to which the soldier belonged be stated. The

recollection of these old soldiers as to the names of their commanding officers is found to be faulty, and frequently the service of soldiers cannot be ascertained because the names of their commanding officers cannot be furnished. Again, a soldier may have served honorably one period of enlistment under the command of an officer whose name is given, and dishonorably under one whose name is purposely suppressed. So faulty are the present indexes that the government is liable to be defrauded in many ways.

These records are the only records of the militia of the war of 1812 in existence, and their preservation is desirable, not only as a matter of history, but also to protect the government and afford proper information to the soldiers of that war and their representatives.

THE FILES.

The number of money settlements made in this office from March, 1817, to June 30, 1876, was 162,623, and the number added to June 30, 1877, was 5,140, making a total of 167,763. The number of property settlements made from 1861 to June 30, 1877, was 34,135; of which 3,079 were made during the last fiscal year. At present the files are in good condition, and the number of employés is five.

During the last fiscal year more than 1,200 linear feet of shelving have been filled with current accounts; an average of 600 feet each year, and it is probable that the bulk of incoming accounts will not be much diminished for the next four or five years.

The settlements are now contained in four rooms, three of them being attics. When the latest settlements, now in the office, are filed there will be no vacant shelving, and the only recourse of the file-clerks will be to place valuable documents upon the floors and in other inconvenient and unsafe places, thus rendering systematic arrangement impossible, and causing confusion and loss. It is therefore very necessary that additional room, with shelving, be provided as soon as possible.

The incoming pension vouchers alone amount to nearly 1,000,000 per annum, and they, as well as all others, should be accessible at all times for reference; hence the great importance of having suitable facilities for filing and arranging them in such a way that they may be referred to as occasion may require.

The recent destruction of the upper rooms of the Patent Office building by fire is a reminder of the unsafe condition of the valuable vouchers now on file. Hundreds of millions of money have been paid on the vouchers legally in the custody of this office, and some of the rooms in which they are placed are very far from being secure from the ravages of the flames. Suitable arrangements should speedily be made to obtain rooms as near fire-proof as possible for the custody of these valuable archives.

There were five lady copyists usefully employed during the year. The number of miscellaneous papers and difference-sheets registered was 4,516. The number of pages copied and compared was, miscellaneous papers, 18,528; difference-sheets, 2,198; letters, 4,388; letters compared only, 883; total, 25,997; names indexed, 54,141.

In respect to the imperative necessity of a statute of limitations, I invite attention to the extract from my last annual report (1876). This is but one of a long series of such recommendations by this office. I am surprised that Congress, while so frequently seeking to provide for the security of the Treasury against fraudulent demands, should entirely neglect this universally recognized and efficacious check.

Legislation is much needed to simplify the system of annual reports to Congress of amounts needed for claims against appropriations which either have become exhausted or have been covered into the Treasury in pursuance of section 5 of act of June 20, 1874, (legislative, executive, and judicial appropriation act.)

The great number of subdivisions in the appropriation for the Quartermaster's Department sufficiently multiplies labor, and when to this is added the legal requirement that *each fiscal year* of these exhausted and covered in appropriations must be kept separate and distinct, the burden is becoming very heavy; and each new year adds another to these subdivisions of subdivisions.

Take "army transportation" for example, to say nothing of the *now existing* appropriations, we have already under this head the following list of *defunct* appropriations, viz, army transportation for 1871 and prior years, for 1872, for 1873, for 1874, and for 1875. On the 1st of July next that of 1876 will be added to the list, and one year thereafter 1877, and so on, *ad infinitum*. And this is but a sample of what must occur under each one of the leading heads of appropriation for that one department.

These almost endless subdivisions not only serve no useful purpose, but greatly increase clerical labor and liability to error. I see no reason why they should be required to be kept up in these defunct appropriations, either between the different heads of appropriations for a single department of the Army, or the fiscal year thereof.

I submit herewith the draft of a law which would, I think, accomplish this desirable end. Under this or some similar law the Secretary of the Treasury could annually ask Congress to provide for claims against appropriations no longer available in these general classes, viz:

Unpaid claims or accounts against the Quartermaster's Department;
Unpaid claims or accounts against the Subsistence Department, &c., &c.

SECTION 1. *Be it enacted, &c.*, That no claims or demands against the United States, of any kind whatsoever, shall be paid, except from the appropriations made therefor for the service of the fiscal year in which the same accrued, whether such appropriation be permanent, specific, or general; but the accounting-officers shall continue to receive and audit such claims or demands, under existing law, unless the same are barred by statute of limitations; and the Secretary of the Treasury shall, at the beginning of each regular session, report to Congress, with his annual estimates, any amounts which may be needed for *unpaid claims or demands* of the several branches of the government and the several staff-departments of the Army for which no available appropriations remain: *Provided*, That this section shall not operate to prevent the settlement of officers' accounts for expenditures made during the period for which the appropriation was available. * * * * *

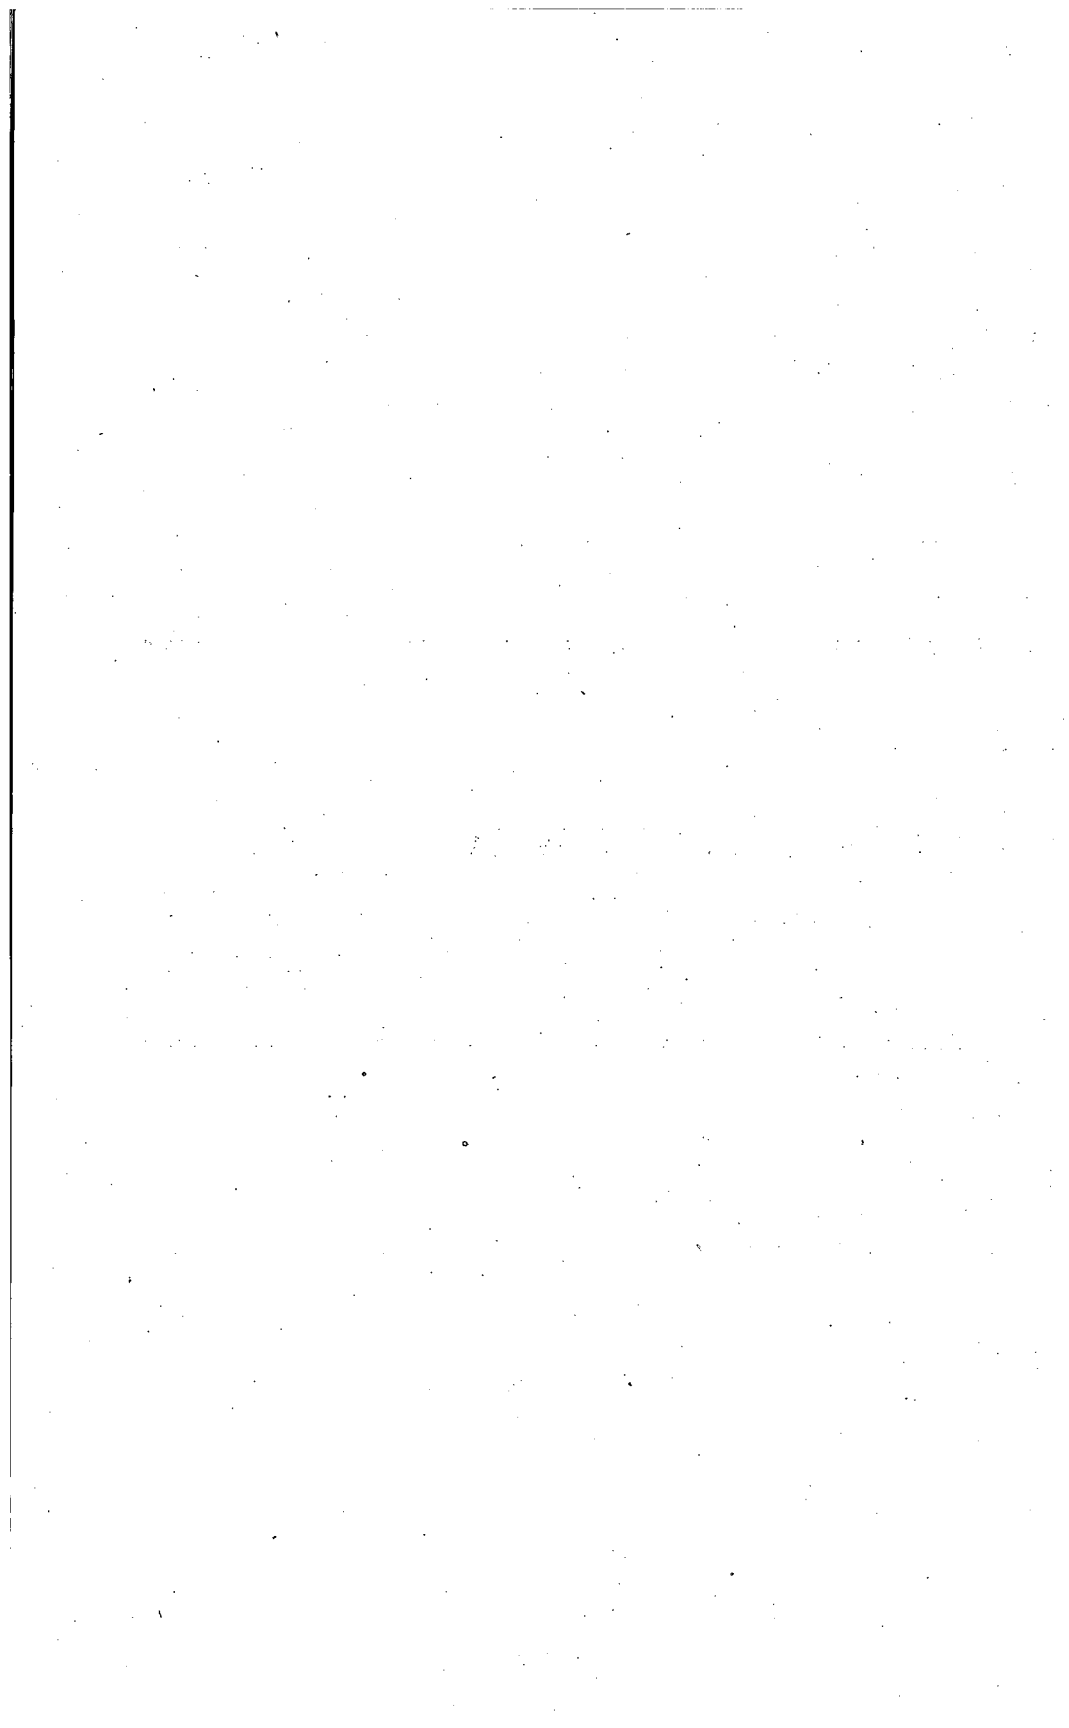

Respectfully submitted.

HORACE AUSTIN,
Auditor.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

REPORT OF THE FOURTH AUDITOR.

REPORT

OF

THE FOURTH AUDITOR OF THE TREASURY.

TREASURY DEPARTMENT,
FOURTH AUDITOR'S OFFICE,
September 24, 1877.

SIR: In accordance with your request of the 17th instant, I have the honor to submit the following tabular statements, which give a full and complete account of the work performed in this office during the year ending June 30, 1877:

Statement of accounts, including marine, received and settled in the paymasters' section from July 1, 1876, to June 30, 1877, with the amount of cash disbursed in those settled, and the number of letters received and written in relation to the same. George L. Clark, in charge.

Date.	Accounts re- ceived.	Accounts set- tled.	Letters re- ceived.	Letters writ- ten.	Cash vouchers examined.	Cash disburse- ments.

It will be seen from the accompanying statements, that in the pay-masters' section there were settled 468 accounts, involving \$10,340,451.10; in the Navy-pay-agents' section, 133 accounts, involving \$9,583,301.66; in the prize-money section, 427 accounts, involving \$80,451.83; in the Navy pension section, 273 accounts, involving \$599,195.08; in the general-claims section, 1,500 accounts, involving \$225,623.00.

In addition to the settlement of the above-mentioned accounts, there were entered 2,317 pay-requisitions, amounting to \$18,301,322.45, and 245 refunding-requisitions, amounting to \$3,522,176.47. There were 1,111 allotments registered, and 990 discontinued; 15,478 letters were received, and 16,885 written. Reports were made in 427 pension, 29 bounty-land cases, and in 12 applications for admission into the United States Naval Asylum.

It gives me pleasure to call attention to the efficiency, capability, and good conduct of all the heads of sections in the office. Their assistance and knowledge have been of great advantage. I can also, with very little exception, bestow the same praise on the clerks who have co-operated with me and their chiefs in performing their work with credit to themselves and to the department. Mr. William B. Moore, the competent and faithful deputy Fourth Auditor, in the last as in previous years, has been a constant aid, help, and assistant.

The affairs of the office are in good condition, and the work is kept up as fully and completely as the clerical force allowed by the act of August 15, 1876, will permit. Every effort has been made to attend to all business with promptitude, courtesy, and correctness, and I trust that it is not too much to say that these efforts have been efficiently and satisfactorily accomplished. I shall constantly endeavor, in the performance of my duties, to render you every assistance in my power to make the department all that its vast scope, functions, and necessities demand.

I have the honor to be, sir, very respectfully, your obedient servant,
STEPHEN J. W. TABOR,

Auditor.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

REPORT OF THE FIFTH AUDITOR.

REPORT
OF
THE FIFTH AUDITOR OF THE TREASURY.

TREASURY DEPARTMENT, FIFTH AUDITOR'S OFFICE,
Washington, October 31, 1877.

SIR: I have the honor to transmit herewith tabular statements showing the operations of this office for the fiscal year ending June 30, 1877.

There were eleven thousand and forty-two accounts received during the year, and eleven thousand five hundred and seventy-one settled, requiring the examination of two hundred and thirteen thousand nine hundred and sixty-nine vouchers. The amount involved in these accounts was \$945,624,519.83. The number of letters written was two thousand five hundred and fifty, and the number of reports recorded ten thousand seven hundred and ninety-two.

Very respectfully,

J. H. ELA,
Auditor.

HON. JOHN SHERMAN,
Secretary of the Treasury.

[The tabular statements referred to are printed in pamphlet form, but for want of space are omitted from this report.]

REPORT OF THE SIXTH AUDITOR.

REPORT

OF THE

AUDITOR OF THE TREASURY FOR THE POST-OFFICE DEPARTMENT.

OFFICE OF THE AUDITOR OF THE TREASURY
FOR THE POST-OFFICE DEPARTMENT,
October 30, 1877.

SIR: I have the honor to submit the following report of the business operations of this office during the fiscal year ended June 30, 1877. My annual report to the Postmaster-General, exhibiting in detail the financial transactions of the Post-Office Department, has been completed and submitted.

The following is a summary of the principal labors performed by the several divisions during the fiscal year, viz:

EXAMINING DIVISION.

Number of stamp accounts settled	146, 464
Number of quarterly accounts settled	146, 464
Amount involved in settlements	\$26, 939, 005 11

REGISTERING DIVISION.

Number of accounts registered	146, 464
Amount involved in registration	\$26, 939, 005 11
Number of changes of postmasters entered	9, 398

BOOK-KEEPING DIVISION.

Number of postmasters' accounts on ledgers	37, 402
Number of late postmasters' accounts on ledgers	5, 888
Number of mail-contractors' accounts on ledgers	6, 079
Number of day-book entries journalized	6, 992
Number of entries on auxiliary books	20, 040
Number of warrants countersigned and registered	12, 679

STATING DIVISION.

Number of general accounts of Presidential offices	1, 396
Number of general accounts of the fourth class	36, 190
Number of changes, establishments, re-establishments, &c.	10, 227
Number of accounts of late postmasters stated	8, 801
Number of letters written	965

COLLECTING DIVISION.

Number of accounts of late postmasters received	17, 990
Amount due the United States on above accounts	\$366, 600 26
Number of drafts issued on late and present postmasters	1, 986
Amount collected on drafts issued	\$180, 445 78
Number of accounts reported for payment	739
Amount paid postmasters and late postmasters	\$26, 651 79
Number of accounts submitted for suit	78
Amount for which suits were brought	\$111, 390 17
Amount collected by suit	\$56, 983 89
Amount received in letters and returned or deposited	\$7, 294 29
Number of letters received during fiscal year	344, 771
Number of letters sent during fiscal year	176, 855
Number of accounts copied	19, 336

FOREIGN MAIL DIVISION.

Amount paid to United States in gold on settlement of accounts by Great Britain, France, Germany, Belgium, Denmark, Italy, Sweden, Switzerland, Netherlands, Norway, Spain, and Austria.....	\$55,640 90
Amount of balances due same countries for transit of open and closed mails.....	\$30,868 27
Number of duplicates registered.....	6,082
Number of reports of ocean postages made to Postmaster-General.....	159
Amount of reports in gold	\$159,415 15

PAY DIVISION.

Number of accounts of railroad companies for mail-transportation reported for payment.....	3,611
Amount paid railroad companies.....	\$9,505,139 50
Number of collection orders sent railroad companies.....	45,529
Amount collected on orders.....	\$3,383,186 44
Number of accounts of mail-contractors, "star" service, settled.....	33,192
Amount paid mail-contractors, "star" service.....	\$5,717,371 19
Number of collection orders sent to mail-contractors, "star" service.....	86,054
Amount collected on orders.....	\$1,343,217 49
Amount of settlements of ocean-mail and consular service.....	\$470,817 28
Amount of settlements of special mail-carriers' accounts.....	\$59,347 60
Amount of mail-messenger settlements.....	\$667,107 30
Amount of settlements of superintendents and assistant superintendents of railway postal service and special agents of the Post-Office Department.....	\$190,775 64
Amount of settlement of accounts of railway postal clerks, route-agents, mail-route messengers, and local mail-agents.....	\$2,436,822 46
Amount of settlement of the accounts of the free-delivery system.....	\$1,893,619 85
Amount of miscellaneous payments.....	\$1,199,559 36
Amount of warrants countersigned and registered.....	\$11,123,273 28
Amount of drafts countersigned and registered.....	\$1,840,072 41

MONEY-ORDER DIVISION.

The following table shows the results of the business of the money-order division for the fiscal year:

	Total during the year.	
	Number.	Amount.
Number of money-order-offices.....	3,968

ANTE-BELLUM CLAIMS.

Congress at its last session incorporated in "An act making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1878, and for other purposes," approved March 3, 1877, the following clause:

That the sum of three hundred and seventy-five thousand dollars, or so much thereof as may be necessary, be appropriated to pay the amount due to mail-contractors for mail-service performed in the States of Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, South Carolina, Texas, Tennessee, Virginia, and West Virginia, in the years eighteen hundred and fifty-nine, eighteen hundred and sixty, eighteen hundred and sixty-one, and before said States respectively engaged in war against the United States; and the provisions of three thousand four hundred and eighty of Revised Statutes of the United States shall not be applicable to the payments therein authorized: *Provided*, That any such claims which have been paid by the Confederate States Government shall not be again paid.

This clause of the act having been submitted to you for instructions as to the date to which payments could be legally made, I received a letter, under date of March 26, 1877, in which you state:

I inclose a copy of the opinion of the Solicitor of the Treasury, which has my approval, that a State can be said to engage in war only when the people of the State in convention decide to engage in a war by some public act done by them.

This act in the States in question, by which, in the language of the act, they engaged in war against the United States, was the act of secession of each State. The date of this act of secession, therefore, is the date to which payment can be made under the provisions of this statute.

Your attention is called to the limitation of the appropriation to three hundred and seventy-five thousand dollars, or so much thereof as may be necessary.

The appropriation should not be drawn upon in excess of accounts stated in your office, and payable under the provisions of the law, nor should any money be paid out of this appropriation until the whole of the claims are received and adjusted; and if the appropriation is insufficient, they should be paid *pro rata*.

Circulars of instructions have been sent to the claimants under this act, but a very small proportion of the claims has been perfected. No payments have, therefore, been made, and no portion of the appropriation has been drawn from the Treasury.

In conclusion, I am gratified to report the work of the bureau, in all its branches, in a very satisfactory condition; and I am pleased again to acknowledge the valuable co-operation I have received from Mr. F. B. Lilley, the deputy auditor, from the chiefs of divisions, and from other efficient and faithful clerks.

I have the honor to be, very respectfully,

J. M. MCGREW,
Auditor.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

REPORT

OF

THE TREASURER OF THE UNITED STATES.

TREASURY OF THE UNITED STATES,
Washington, November 1, 1877.

SIR: Pursuant to the provisions of law and the regulations, I have the honor to transmit herewith, for your consideration, a statement of the operations of this office during the fiscal year ended June 30, 1877, under the management and control of my predecessor.

RECEIPTS AND EXPENDITURES.

As compared with the fiscal year which ended on June 30, 1876, that ending June 30, 1877, shows a decrease in net revenues amounting to \$18,481,452.54; and a decrease in net expenditures amounting to \$19,799,788.40.

The net revenues for the fiscal year were.....	\$269,000,586 62
And the net expenditures.....	238,660,008 93
Making an increase of funds amounting to.....	30,340,577 69

It is observed that while the revenue from customs, lands, and miscellaneous sources has decreased year after year since 1873, the revenue derived from internal revenue, so called, has increased; the receipts from that source in 1874 having been \$102,409,784.90, and in the fiscal year 1877, \$118,630,407.83.

TREASURER'S QUARTERLY ACCOUNTS.

The account of receipts and expenditures by the Treasurer of the United States has been rendered quarterly to the accounting-officers of the Treasury to the close of the fiscal year which ended on June 30, 1877. "Fair and accurate copies" thereof will be laid before the Senate and House of Representatives, at the usual time, in compliance with the provisions of section 311 of the Revised Statutes. A summary of the account for the whole of the fiscal year is given in statement VI of the appendix to this report.

UNAVAILABLE FUNDS.

The total amount of unavailable moneys carried in the balances of the accounts kept in this office was as follows, viz:

June 30, 1876.....	\$29,899,520 40
June 30, 1877.....	29,625,883 88
The difference.....	273,636 52

is accounted for as follows, viz: \$72,933.19, collected by George Bliss, United States attorney, New York, July 10, 1876; \$5,523.20, collected by George Bliss, United States attorney, New York, July 11, 1876. (This is part of the deficit existing in the subtreasury at New York, since 1867, owing to a redemption of counterfeit 7.30s; the amount uncollected is shown in statement IV, and is still unavailable—\$8,750.31;) \$138,375 deposited July 8, 1876, to the credit of the Treasurer in his general account as a transfer of funds from the First National Bank, Washington, D. C., being the proceeds of securities held by the Treasurer; \$56,573.24, deposited in like manner July 24, 1876, by the receiver of the First National Bank, Washington, D. C.; (these two payments canceled the indebtedness of the above-named bank;) \$882.50; this amount, being a deficit found on counting up the office of the assistant treasurer of the United States at Philadelphia, in 1875, was made good by the assistant treasurer on May 16, 1877.

The theory of the public accounts is, that the Treasurer of the United States shall be charged upon the warrant of the Secretary with all moneys received into the Treasury as receipts from customs, from internal revenue, lands, public debt, and from all miscellaneous sources, and for which, whenever received, he is held accountable until the same are properly disbursed under some appropriation made pursuant to law.

It has, however, occurred that since 1836 the sum of \$29,625,883.88, (see statement IV, appendix,) over and above the amount of public money which has been properly accounted for, has, by reason of deposit of surplus revenue with twenty-six States of the Union, by deficit, by default, by theft in various places, and by failure of depository banks, gone from the custody of the Treasurer, which sums he cannot, from the nature of the case, account for, and thereby obtain credit therefor on the books of the department; and for convenience in the operations of the department this amount is carried in the accounts as "unavailable."

By far the larger portion of the amount is made up of the amount deposited with the States in 1837 by act of June 23, 1836. At first this was a deposit subject to call by the Secretary of the Treasury, but by act of October 2, 1838, it can only be demanded by act of Congress. The gross amount of such unavailable items is charged to every incumbent of this office, and remains a balance against him, and it is no relief to any Treasurer that the same items have been charged to his predecessor. It therefore happens under the present ruling, which is undoubtedly legally correct, that the only certificate an ex-Treasurer can get from the department of the settlement of his accounts is, under the best circumstances, that there is a debit of some twenty-nine millions against him.

Following up, therefore, the oft-repeated suggestion of my predecessors in office, it seems desirable that you should recommend legislation authorizing the opening of an appropriation-account upon the books of the department, in which, under the head of "unavailable," the Treasurer may receive credit for the sums now and hereafter from time to time becoming unavailable, and that the person, bank, or State properly chargeable may be debited with the various items by warrant upon an account stated by the proper accounting-officers of the Treasury. There is precedent for such legislation in the act of March 3, 1837, (5 Statutes, 178.)

The effect of the legislation recommended will not impair any legal right of the United States, but will enable the department to avoid the daily, weekly, quarterly, and yearly repetition of the amount of these

unavailable moneys, and will simplify the published report of receipts and expenditures, and will transfer that which is not cash from the cash-account to the books of the register.

CONDITION OF THE TREASURY.

Although the monthly debt statement of the department was never intended to show the condition of the Treasury and the amount and kind of funds on hand, yet many deductions are sought to be made from time to time, as if that publication gave the liabilities and assets and not merely the condition of the debt.

The only items of cash in the Treasury which the debt-statement includes are the general currency-balance and the general coin-balance. The currency-balance, as it appears in the monthly statement under the item, "Cash in the Treasury, Currency," is simply the amount of currency that would be left in the Treasury after the payment of all currency demands in full; and so also of the item, "Cash in the Treasury, Coin." There is, in addition, the amounts held for the redemption of clearing-house certificates and coin certificates, of which the amounts outstanding are noted in the statement; beside which, not mentioned, as will appear from the following statement, there are funds to the credit of disbursing-officers, for the redemption of notes of national banks failed, in liquidation, and reducing circulation, to meet outstanding checks and drafts, for the benefit of the creditors of national banks, the balance of the 5 per cent. fund, and others. The following comparative statement is given to show the condition of the Treasury so far as its immediate resources are concerned for the 30th of September, 1876, and 1877:

Statement of liabilities and assets of the Treasury of the United States on September 30, 1876, and 1877.

The above table may suggest a question long mooted in the public prints, whether the legal-tender notes deposited for the redemption of the circulation of failed, reducing, and liquidating banks are held as a separate fund. It may be said that there is no provision of law which requires that such notes should be so held; and as a fact they have never been held set apart and distinct from other funds in the Treasury.

There is, without doubt, in the various offices and vaults of the Treasury a sufficient amount of United States notes to redeem all such bank-notes if presented simultaneously for redemption, but they are not always in the vaults of this office where the redemption is required to be made. Deposits of legal tenders for the purpose named may be made at the convenience of the depositor with any assistant treasurer or depositary; but whenever made, credit is given the bank upon the books of this office; its account is debited with the amount reduced, and payment is made either in notes or by check on any point where the Treasurer has a transfer-account. The public, however, makes no distinction; consequently all the notes of the banks in question come to this office promiscuously with other bank-notes sent for redemption; are paid for out of the 5 per cent. redemption-fund, and when assorted out, the respective banks are charged with the amount of their notes redeemed and the 5 per cent. fund is credited therewith.

The balance to the credit of the 5 per cent. fund is given above for September 30, 1877, at \$14,199,294.60—in United States notes, \$2,693,982.08; in bank notes, \$11,505,312.52; while the fund called for by the law, 5 per cent. of the bank-note circulation would be about \$15,000,000;

the difference, however, is accounted for by the items of notes unfit for circulation delivered to the Comptroller of the Currency, and of amounts called for and in transit from banks to make good their account for notes redeemed.

To account for the existence of bank-notes in the fund, the law requiring a deposit of legal-tenders, it must be borne in mind that the notes are first paid for and must be assorted by banks before being disposed of, and are held as cash while going through the process of redemption preparatory to being reimbursed by the banks.

It will be noted from the above statements that during the year ended September 30 the coin assets have increased from \$67,586,705.95 to \$133,585,072.24, and the currency assets from \$100,437,766.44 to \$110,096,039.01; the increase, however, has accrued mostly since March last.

FRACTIONAL CURRENCY AND SILVER COIN.

The substitution of silver coin for fractional currency has progressed very rapidly under the arrangements made with your sanction some months ago to furnish silver as nearly as possible without expense to the public as the facilities of this office and the mints would permit. By the present system, under your direction, fractional silver coin in multiples of one thousand dollars is sent from the mint, upon the order of the Treasurer, to any part of the country reached by established express-lines, in return for fractional currency, for a deposit of legal-tender notes, or for bank-notes sent for redemption, the transportation-charges upon the bank-notes sent for redemption being paid by the department, under the provision of law, the charges upon the silver being paid from the silver profit-fund.

DISTRIBUTION OF SILVER FROM THE MINTS FREE OF EXPENSE.

Under the terms of department circular No. 26, February 15, 1877, the Treasurer was authorized to cause shipments of silver coin in sums of one thousand dollars, or any multiple thereof not exceeding ten thousand dollars, to be made from the mints at government expense, in exchange for currency, deposited with any national-bank depository located where there was no subtreasury office.

From February 19 to March 21, 1877, \$274,000 was distributed on 96 orders issued for the purpose. The denominations supplied were as follows, viz: Half-dollars, \$111,600; quarter-dollars, \$115,900; dimes, \$46,500. On March 23, 1877, department circular No. 43 was issued by the Secretary, modifying the terms of the previous circular, so that any person might deposit currency in like sums with any assistant treasurer, designated depository, or national-bank depository, and obtain silver coin therefor from the mints free of expense, upon forwarding the certificate of deposit to the Treasurer of the United States at Washington, D. C.

From March 23 to October 31, 1877, \$3,622,900.80 in silver coin has been issued from the mints in payment of 2,493 transfer-orders and letters of the Treasurer. The denominations supplied were as follows, viz: Half-dollars, \$1,874,202; quarter-dollars, \$1,331,323; dimes, \$417,375.80.

SILVER PAYMENTS.

On the 18th of April, 1876, under instructions of the Secretary of the Treasury, given in pursuance of the act of Congress approved April 17, 1876, entitled "An act to provide for a deficiency in the Printing and Engraving Bureau of the Treasury Department, and for the issue of silver coin of the United States in place of fractional currency," silver coin

was issued in redemption of fractional currency, and has continued to be so issued with the following results, viz:

Date.	Fractional currency out-standing.	Fractional currency re-deemed in silver during month.	Total redeemed to date.
1876.

September 3 to 28	18,786,642 27	385,472 12	22,722,095 21
October 1 to 31	18,352,574 66	434,067 61	23,156,162 82

Under instructions of the Secretary of the Treasury, issued in pursuance of public resolution entitled "Joint resolution for the issue of silver coin," approved July 22, 1876, fractional silver has been issued from time to time, as the requirements of the Treasury and the public seemed to warrant and the state of the coinage at the several mints would seem to permit, as follows, viz:

Silver coin disbursed in lieu of or in exchange for currency.

Date.	During the month.	Total amount to date.	From which being deducted—		Leaves the amount of special fund of United States notes held for redemption of fractional currency to date.
			Amount of fractional currency redeemed in United States notes to date.	Amount of silver in Treasury January 14, 1875, paid out to date.

Upon the very moderate estimate of the commission, appointed by you, that \$8,083,513.50 of fractional currency has been lost in circulation, there may still be issued before the limit of fifty million dollars is reached, \$10,269,061.16 in exchange for fractional, and \$3,110,206.84 for currency obligations. An increased demand for silver coin, caused, perhaps, by the necessities of business at this season of the year, is springing up, while the amount of fractional currency presented for redemption has fallen off from an average of over one million dollars a month during the first four months of this calendar year to an average of less than half a million dollars a month for the last four months.

MINOR COIN.

Your attention is called to the excessive accumulation of minor coin in the Treasurer's account, amounting on September 30th to over \$870,000, while at the same date last year the amount on hand amounted to less than \$157,000. The receipts have been very large recently, owing partly to the dullness of business, being much in excess of the payments; though should business revive, without doubt some portion of the amount on hand will be again demanded for circulation.

The amount on hand, being received as money, much of it in exchange for legal tenders, is, of necessity, held as cash, and to such an amount that the facilities at the Philadelphia Mint for storing it are exhausted, and other rooms under the control of the Assistant Treasurer at that place have been provided for the purpose. That portion of it not needed as money cannot be disposed of, if not paid out; as old metal it might possibly be of some value, but nothing like its face-value, and unless some appropriation is made to cover the loss by such disposition of it—the difference between its face-value and its value as metal—it cannot be disposed of. There has been issued of this coin to June 30, 1876, one-cent pieces, nickel and bronze, \$3,704,785; two-cent, \$912,020; three-cent, \$855,090; five-cent, \$5,747,840; and the profits upon this coinage, which have been covered into the Treasury, amounted to \$4,333,277.87, from 1861 to 1877, inclusive. The two and three cent pieces appear to be of no particular use in circulation, there being no demand for them, especially the two-cent pieces.

Minor coins on hand September 29, 1877, by denominations.

	Five-cent, (nickel.)	Three-cent, (nickel.)	Two-cent, (bronze.)	One-cent, (bronze.)	One-cent, (nickel.)	One-cent, (nickel and bronze.)	One-cent, (copper.)	Totals.

SALE OF EXCHANGE.

The coin receipts at the office in New Orleans exceed annually the coin payments by about \$400,000. This surplus of coin has usually been transferred to New York by the sale of exchange in the form of transfer checks drawn by the Treasurer on the assistant treasurer at New Orleans in favor of the assistant treasurer in New York, all that can be spared being disposed of by the latter officer at a premium usually of a quarter of one per cent. The sales in the fall of 1876 amounted to \$352,000.

Representations having been made that New York currency exchange could be disposed of in New Orleans, there was sent in May, 1877, to the assistant treasurer at the latter point the Treasurer's transfer checks on the New York office, amounting to half a million dollars, which were disposed of at a premium of one-sixteenth of one per cent. Upon the application of the assistant treasurer, a further sum of half a million dollars was sent him for sale in September last.

Owing to the difficulty of transporting money to the depository in Tucson, Arizona, that office has been in great part supplied with funds by the sale of exchange, which is furnished by the Treasurer's transfer checks on New York and San Francisco, drawn in convenient sums of even thousands of dollars, for which ready sale at par has been found. One package of one hundred thousand dollars, forwarded in May, 1877, failed to reach the depository, and was supposed to have been captured by the Indians in their reprisals on the mails. Payment on the lost checks was, however, stopped, and as they were drawn payable to the order of "Depository, United States, Tucson, Arizona," they were not negotiable, and no loss could come to the department thereby, and an equal amount was at once sent to the depository to replace the checks lost. However, the lost checks, after an interval of four months, were recovered by the depository, and being in good condition, were at once credited to the Treasurer to be sold in due course of business.

During the labor troubles of July and August, the express companies being unable to transport funds by reason of the disarrangement of their connections, or unwilling on account of the excessive risk, many Western banks having money in New York found themselves unable to avail themselves of it, and so applied to the department for relief during the exigency. Fortunately there was an excess of public money in the offices at Chicago, Cincinnati, and Saint Louis, and under your direction, the assistant treasurer at New York was directed by this office to dispose of exchange, as follows: On Chicago, \$1,200,000; on Cincinnati, \$700,000; on Saint Louis, \$1,000,000, in such a manner as to relieve the necessities of business as much as possible. This duty he performed very satisfactorily, and upon the receipt of his certificate of deposit by the Treasurer a like amount was ordered by telegraph to be paid to the party and at the point designated therein.

The amount so disposed of at par in this way was, on Chicago, \$1,130,000; on Cincinnati, \$400,000; on Saint Louis, \$130,000. Upon the resumption of business by the express companies the exchange was at once withdrawn from sale and no more was disposed of.

OFFICIAL FILES.

Your attention is invited to the subject of providing additional room for the official files of this office, or by regulation, if legislation is not required, providing in some systematic manner that the bulk of the files

may be decreased. There are many papers, occupying much room, pertaining to transactions of such a temporary nature that the books of the office furnish sufficient record to meet any question that could arise in relation thereto; many transactions, also, settled by checks, which checks are on file, properly indorsed, forming a conclusive record sufficient for all purposes. The useless papers in such cases could be spared for destruction. Great diminution of the mass might be made, a proper descriptive inventory being kept in their place. A commission might be appointed for the purpose of reporting, after inquiry, whether any portion of the files can be destroyed without detriment to the public service, and upon what conditions and in what manner the destruction should take place. If legislation is necessary, would it not be well for you to recommend that some way be provided by law for the periodical disposal of useless files, and a destruction of all files after their uselessness is established by the lapse of time.

THE WINSLOW EMBEZZLEMENT. §

On the 7th December, 1876, information was received by telegraph from the National Bank of Illinois, at Chicago, that a package received by that bank from this office, purporting to contain \$11,990 in United States notes, was found, when opened, to contain blank paper. Further correspondence and the return of the package established the fact that the discrepancy was in a remittance from this office, by express, on the 5th December, in return for notes redeemed. The matter was at once brought to the attention of the Secretary of the Treasury, who placed the investigation in charge of the chief of the secret-service division of the department. This investigation was at once commenced, and included all points, from the division in this office in which the package was made up to its place of destination, and included an examination and surveillance of all persons in any way connected with the handling of the package. It was nearly evident, at first, that the abstraction of the money and substitution of the blank paper had been made before the package left this office, and the revelations of the inquiry only tended to strengthen this belief. The investigation, faithfully conducted for one month by the chief the secret service in connection with this office, culminated in the return, on Sunday, the 7th of January, to the Treasurer, of \$11,200 of the money, in a package left at his door by a party not seen. Circumstances in connection with this return pointed so clearly to one F. S. Winslow, that he was, on the next day, arrested. On his person was found an additional portion of the stolen money. The money taken consisted almost wholly of United States notes of the denomination of \$100. Although it has never been found practicable to keep a record of the numbers of the notes contained in remittances, it happened that, in the present instance, it was possible to ascertain, beyond a reasonable doubt, the numbers of these \$100 notes, and lists of those numbers were printed and furnished the different Treasury offices and to prominent banks and bankers in all parts of the country, in order that the stolen notes might be traced in case they were used. This becoming known to the thief, together with the knowledge that he must have had that he was so closely watched that it would not have been possible for him to use the money to any extent or to abscond with it, undoubtedly had effect in inducing the return of the package. Subsequently Winslow made a confession of his guilt, and was sentenced to one and one-half years' imprisonment.

It may be proper to state here the method used and precautions taken

in this office in regard to remittances of this character. The money to the required amount is first counted by the shipping teller, who places it with a schedule of contents in an envelope or box, which is passed to a second clerk unsealed. This second clerk counts the money, verifies the count by his initial upon the schedules, and seals the package in the center with one seal. The package thus sealed is passed to the general sealer, who places upon it, at each end, a seal of a description different from that of the first seal. The sealing completed, the package is then passed to another clerk, who addresses it and retains the care of it until it is delivered to the agent of the express company, this delivering being checked and receipted for upon a book kept by another clerk, containing a list of the packages required for the day's shipment. At the time of the abstraction of this money, Winslow was and had been for some two or three months employed in addressing the packages, he having at the time of his appointment filed with the Department most satisfactory testimonials as to his honesty and capacity, and being strongly recommended otherwise, and personally by gentlemen of standing and influence. Nothing then was known to this office of a previous career, which, had it been known, would have prevented his employment in this office in any capacity.

It appeared from the developments in the course of the investigation, and afterwards, that Winslow had, previously to the date of the abstraction of the money, prepared an envelope resembling almost exactly the envelopes used in the office for such remittances, had placed in it the blank papers, had sealed it with the seals of the office, to which he must surreptitiously have obtained access, and had held it, awaiting the opportunity for its use; that when the true envelope reached him in the ordinary course of business, he substituted the prepared package, relying upon the almost perfect imitation to throw suspicion upon others than himself. It was thus evident that the scheme was conceived some time before being carried out, and that it was a deliberately-planned and boldly-executed plan and not the result of any sudden temptation.

The loss arising from this theft was \$555.85, stated as follows:

Amount stolen	\$11,990 00
Amount returned to Treasurer in package left at his door.....	\$11,200 00
Found on person of Winslow when arrested, cash.....	200 00
Found on person of Winslow, railroad ticket, proceeds of.....	7 50
Winslow's salary, January 1st to 8th.....	26 65
	<hr/>
	11,434 15
Deficiency	555 85

PAYMENT OF REGISTERED INTEREST BY CHECK.

The quarterly interest upon the registered stock of the funded loans of 1881 and 1891 and of the consols of 1907, also the semi-annual interest upon the registered stock of the three-sixty-five loan of the District of Columbia, is paid by the Treasurer's check. The payments upon the United States stock above mentioned falling upon different months, results in declaring a dividend payable upon the first day of every month. These dividends the past year have involved the drawing of 21,853 checks, and the number, as the funding operations and the exchange of coupons for registered stock go on, is constantly increasing. The business is so systematized, however, that the checks have been thus far mailed in time to reach the holders of stock, even in Europe, on or before the day upon which the dividend is payable. There have been but few losses in transmission, and there is less probability of extortion being practiced under

this system in the collection of unclaimed interest than under the old system of payment upon interest schedules.

REDEMPTION OF NATIONAL-BANK NOTES.

The amount of bank-notes presented at this office for redemption in legal-tender notes during the fiscal year has exceeded the redemption of any previous year. The amount redeemed during the year is \$236,210,375.14, which amount was received in 31,824 packages. The redemption during the previous fiscal year amounted to \$204,299,875.94, showing the increase during the fiscal year 1877 of \$31,910,499.20, or about 15 per cent.

The amount redeemed, assorted, and charged to the several national banks exceeded the amount so treated in the previous fiscal year by \$38,239,445, being for the fiscal year 1876 \$176,121,855, for the fiscal year 1877 \$214,361,300, being an increase of over 21 per cent., while the expense of the redemption has decreased from \$365,193.31 to \$357,066.10, or from one-fifth to one-sixth of one per cent. of the amount redeemed and assorted; \$151,842,700, being fit for circulation, was returned to the banks, while \$63,518,600, being unfit for circulation, was delivered to the Comptroller of the Currency for destruction and replacement with new notes.

There were redeemed of the notes of failed, liquidating, and reducing banks, \$24,439,760, a decrease of \$488,200 from the last fiscal year.

RETIREMENT OF LEGAL-TENDER NOTES.

In pursuance of the act of Congress of January 14, 1875, providing for the retirement of legal-tender notes equal to eighty per centum of national-bank notes issued, there have been redeemed and destroyed notes to the following amounts:

In March, 1875.....	\$2,773,100	
April, 1875.....	1,175,140	
May, 1875.....	987,760	
June, 1875.....	1,292,420	
Total for the year ending June 30, 1875.....		\$6,228,420
In July, 1875.....	1,016,472	
In August, 1875.....	509,400	
September, 1875.....	304,584	
October, 1875.....	704,880	
November, 1875.....	764,472	
December, 1875.....	644,552	
January, 1876.....	554,080	
February, 1876.....	329,748	
March, 1876.....	188,144	
April, 1876.....	227,372	
May, 1876.....	404,208	
June, 1876.....	351,384	
Total for the year ending June 30, 1876.....		5,999,296
July, 1876.....	153,056	
August, 1876.....	284,624	
September, 1876.....	839,564	
October, 1876.....	959,024	
November, 1876.....	624,716	
December, 1876.....	855,912	
January, 1877.....	1,070,272	
February, 1877.....	745,328	
March, 1877.....	1,583,280	

In April, 1877	\$1, 161, 800
May, 1877	1, 081, 824
June, 1877	648, 248
Total for year ending June 30, 1877	\$10, 007, 952
July, 1877	670, 112
August, 1877	1, 118, 056
September, 1877	1, 061, 232
October, 1877	2, 424, 040
Total for four months ending October 31, 1877	5, 273, 440
Total retired from January 14, 1875, to June 30, 1877	22, 235, 668
Total retired from January 14, 1875, to October 31, 1877	27, 509, 108
Legal-tender notes outstanding January 14, 1875	\$382, 000, 000
Legal-tender notes outstanding June 30, 1877	359, 764, 332
Legal-tender notes outstanding October 31, 1877	354, 490, 892

Besides the decrease noted above in the legal-tender notes, amounting to \$27,509,108, the reduction in the volume of United States paper money is very marked, leaving the outstanding of all circulating paper issues of the government at \$380,627,976.84 at the close of the fiscal year, being less than at any time since 1862. The volume of legal-tender notes and of fractional currency is also less than at any time since 1862.

COUNTERFEITS.

There were presented for redemption, during the fiscal year, counterfeit national-bank notes amounting to \$5,634, including denominations from one hundred dollars down to two dollars.

There were presented, of counterfeit legal-tender notes and fractional currency, the sum of \$19,661.79, including all denominations of legal tenders, but more of the denomination of twenty dollars than of any other.

These notes were all branded with the word "counterfeit" and returned to the sender.

DUTY PAID BY NATIONAL BANKS.

By Statement 14 of the Appendix, it will be seen that the national banks have paid duty amounting to \$75,762,087.55 during the 13 calendar years from 1864 to 1877. The amount collected from the banks for the six months ended June 30 last is, so far as returns have been received, \$3,487,446.89, as follows: On circulation, \$1,448,136.71; on deposits, \$1,726,660.18; on capital, \$312,650.

CONCLUSION.

The business of this bureau, under the able management of my predecessor, was transacted with great promptness and accuracy, and the faithfulness of the employés in general has been highly commendable.

There will be found, in the fifty tables composing the appendix of this report, a succinct account of the results of the operations of this office during the fiscal year just closed; which have been accomplished without serious loss to the government or inconvenience to the public.

I have the honor to be, very respectfully,

JAS. GILFILLAN,
Treasurer United States.

HON. JOHN SHERMAN,
Secretary of the Treasury.

APPENDIX.

I.—STATEMENT, COMPARATIVE, OF RECEIPTS AND EXPENDITURES AND COVERED-MONEY CASH-BALANCES.

a.—Comparison of receipts.

Period.	Customs.	Internal revenue.	Lands.	Miscellaneous sources.	Total net revenues.
Fiscal year 1876	\$148,071,984 61	\$116,700,732 03	\$1,129,466 95	\$21,579,855 57	\$287,482,039 16

The documents enumerated below, necessary to the proper keeping of the accounts with the above named officers, were received or issued by the Division of accounts of this Office during the fiscal year, viz :

† 19,936 Transcripts of accounts received, examined, and entered in detail.

† 33,317 Pay Warrants received, journalized, registered, and entered in Quarterly Account.

† 34,738 Drafts issued, examined, registered, and delivered or mailed.

12,808 Notices of Drafts issued, examined, and mailed to Depositories.

23,158 Letters issued in transmittal of Drafts.

† 35,846 Paid Drafts received, and indorsements examined and verified.

260 Drafts returned for perfection of indorsements.

† Transcripts of Account with the Treasurer of the United States are received from the Treasury of the United States, (Cash Division,) Washington, D. C.; the several Sub-Treasuries, Depositories, Mints, and Assay-Offices of the United States, and from National Banks, especially designated by the Secretary of the Treasury as Depositories of the United States, daily from some and at stated periods from others.

† For the payment of all moneys out of the Treasury, drafts are issued by the Treasurer of the United States on the Pay-Warrants of the Secretary of the Treasury.

† Treasury Drafts that have been paid are forwarded to the Treasurer as vouchers to accompany his transcript of the account in which he is charged with the payment of the same.

OF THE GENERAL TREASURY OF THE UNITED STATES.

*1,009 Transfer Orders issued, payable by express at Government expense.

**1,771 Transfer Letters issued, payable without expense to the Government.

15,119 Certificates of Deposit of transfer of funds and vouchers received and verified.

***3,515 Daily statements of Liabilities and Assets of Sub-Treasuries and Depositories.

|| 668 Statements and Reports to the Secretary of the Treasury.

1,248 Manuscript Letters.

173,393 total number of Documents, &c., manipulated in connection with the above account.

*Transfer Orders are issued under the authorization of the Secretary of the Treasury, and, for the most part, used in transferring funds from one officer of the Treasury of the United States to another. The funds are generally delivered by express.

**Transfer Letters are issued by the Treasurer on National Banks, designated depositories to receive United States Deposits, and are used for the purpose of transferring funds to the several Sub-Treasuries, the expense of attending such transfers being borne by the banks.

***These Daily Statements enable the Treasurer to transfer moneys, as they may be needed, from one office to another, and give him such other information as is needed for intelligible control over the accounts of the General Treasury, Post Office Department, Transfer Accounts, Redemptions, &c.

|| A Daily Cash Statement is rendered to the Secretary of the Treasury, showing the available coin and currency balances.

STATEMENT OF BALANCES AND MOVEMENT OF COIN MONEYS OF THE GENERAL TREASURY OF THE UNITED STATES.

.....					
Total receipts	33,876,459 26	33,646,701 61	Total Expenditures.				

The foregoing, Statement III, shows the balances and movement of moneys of the United States for the Post-Office Department, as did Statement II for the General Treasury. All Receipts and Pay-Warrants issued by the Postmaster-General are received and registered in the Division of Accounts of the Treasurer's Office, the United States, on account of the Post-Office Department, being credited with the amount covered in by the former; the latter, after having been signed by the Treasurer or Assistant Treasurer, are returned to the Post-Office Department, whence they are mailed to the payees as drafts upon which payment is to be made. When paid, they are returned as vouchers by the offices paying, and, after verification of indorsement, are charged to the United States, on account of the Post-Office Department, in the Treasurer's Quarterly Account, rendered to the Sixth Auditor of the Treasury.

Copies of the Treasurer's Quarterly Account with the United States on account of the Post-Office Department are rendered annually to the Senate and House of Representatives.

The following is a summary of the Treasurer's Quarterly Account with the United States on account of the Post-Office Department for the fiscal year 1877:

Dr.		Cr.	
To Expenditures by Warrant paid by Treasurer	\$11, 104, 206 12	By Receipts by Warrant covered into the Treasury	\$11, 324, 310 79
To Expenditures by Postmasters, warranted by settlement	22, 542, 495 49	By Receipts by Postmasters, covered in by Warrant on settlement	22, 542, 495 49
Total Expenditures	33, 646, 701 61	Total Receipts, net	33, 806, 805 28
Balance due the United States June 30, 1877	1, 160, 130 98	Balance due the United States June 30, 1876	940, 026 31

Balance of covered moneys June 30, 1876.....					121,807,732 30
					763,055,966 24

The books were closed as regards Repay and Counter Warrants on June 30, 1877, but as regards Revenue Covering Warrants, although constructively of date June 30, 1877, the books were not actually closed until August 23, 1877.

Unexpended balances of appropriations are deposited in the Treasury by disbursing officers, and are covered in by Warrants of the Secretary of the Treasury to the credit of the appropriations from which the amount was originally drawn as well as to the personal credit of the officer. Such Warrants are technically termed "Repay Covering Warrants."

"Counter Warrants," carry amounts to the credit of an appropriation for the reason that it was not properly chargeable with an expenditure, but some other appropriation which is drawn upon by "Transfer Warrants."

Warrants and Drafts.

The receipts, as per Statement V, were covered into the Treasury by 13,192 Revenue and Counter Warrants, and the expenditures were authorized by 33,317 Pay and Transfer Warrants, to facilitate the payment of which, 34,733 drafts were issued by this office. The number of warrants and drafts issued during the last ten fiscal years is given below:

	1868.	1869.	1870.	1871.	1872.	1873.	1874.	1875.	1876.	1877.

Balance of covered moneys June 30, 1877.....					186,786,000 97
					763,055,966 24

The books were closed as regards the entry of Pay-Warrants on June 30, 1877.

"Transfer-Warrants" are issued for the purpose of drawing an amount from an appropriation properly chargeable with an expenditure, in order that the amount may be placed to the credit of another appropriation by "Counter-Warrants," the moneys having been erroneously paid from the appropriation entitled to credit. The total amount of "Transfer" and "Counter" Warrants must, therefore, agree. §

The amounts of unexpended balances repaid into the Treasury and covered in by "Repay-Warrants," and the amounts credited to appropriations by adjustment and covered in by "Counter-Warrants," are included in the above statement of expenditures in order to show the net expenditures for the fiscal year. For example: The total expenditures for the War Department were \$39,219,716.71, but \$1,498,036.63, not having been expended, were repaid into the Treasury, and \$638,944.18 having been credited back upon adjustment of appropriations, the real net expenditures for that Department were only \$37,082,735.90.

* Composed of the following items, viz:

5-20 Bonds of 1862.....	\$449,100	Consols of 1867.....	\$1,000
5-20 Bonds of 1864.....	1,650,150	Funded Loan of 1881, registered.....	9,553,800
5-20 Bonds of 1865.....	115,470,400	Treasury Notes of 1861.....	100
7-30 Bonds of 1861.....	200	One-Year Notes of 1863.....	5,630
7-30 Bonds of 1864 and 1865.....	19,250	Two-Year Notes of 1863.....	3,350
Notes of 1846.....	50	Compound-Interest Notes.....	32,130

† This item included Old Demand Notes \$2,955.

‡ Of this amount all was redeemed in Fractional Silver Coin under act of Congress approved April 17, 1876, on account of the Sinking-Fund.

§ Which is hereby shown, viz:

On account of—	Transfer-warrants.	Counter-warrants.

Public Debt	421,182,921 98		
Interior	34,870,881 42		
War	39,101,128 97		
Navy	18,195,038 24		
		\$575,772,742 81	
To payments on Warrants issued during previous fiscal years, viz:			
Treasury	63,038 97		
Quarterly Salaries	20,673 47		
Judiciary	30,917 73		
Diplomatic	343,473 42		
Customs	22,627 40		
Interior Civil	22,658 25		
Internal Revenue	115,373 52		
Interior	9,503 75		
War	118,521 34		
Navy	65 31		
		746,853 16	
			\$576,519,595 97
To balance of Covered Moneys June 30, 1877, viz:			
Account of F. E. Spinner, late Treasurer United States	29,585,805 82		
Account of the Treasurer of the United States	185,879,889 35		
		215,465,695 17	215,465,695 17
To reconcile this balance with that of the General Treasury Ledger—			
Add amount of receipts not covered in:			
Account of F. E. Spinner, late Treasurer United States	6,321 27		
Account of the Treasurer of the United States	2,949,000 81		
		2,955,322 08	
		218,421,017 25	
Deduct amount of Unpaid Warrants:			
Account of F. E. Spinner, late Treasurer United States	215,473 99		
Account of the Treasurer of the United States	362,575 30		
Deduct amount on deposit with the States	28,101,644 91		
		28,679,694 20	
General Treasury balance June 30, 1877, (see Statement II)		189,741,323 05	
			791,985,291 14

URER'S QUARTERLY ACCOUNT.

of the United States, for the fiscal year ending June 30, 1877.

CR.

July 1, 1876:			
By General Treasury balance.....	\$122,426,806 42		
To reconcile this balance with that of Treasurer's Quarterly Account—			
Add amount on deposit with the States.....	28,101,644 91		
Add amount of Unpaid Warrants:			
Account of F. E. Spinner, late Treasurer United States.....	413,379 71		
Account of the Treasurer of the United States.....	414,300 28	\$151,356,131 32	
Deduct amount of receipts not covered:			
Account of F. E. Spinner, late Treasurer United States.....	15,673 14		
Account of the Treasurer of the United States.....	603,400 98	619,074 12	
Balance of Covered Moneys, as per Treasurer's Quarterly Account.....			\$150,737,057 20
Balance on account of F. E. Spinner, late Treasurer United States.....	29,859,442 34		
Balance on account of the Treasurer of the United States.....	120,877,614 86	150,737,057 20	
July 1, 1876, to June 30, 1877:			
By receipts covered in by Warrants:			
Customs, receipts since July 1, 1875.....		130,956,493 07	
Internal Revenue, receipts since July 1, 1875.....		118,630,407 83	
Lands, receipts since July 1, 1875.....		976,253 68	
Miscellaneous Revenues, receipts since July 1, 1875.....	379,714,593 05		
Miscellaneous Revenues, receipts previous to July 1, 1875.....	419 95	379,715,013 00	
Miscellaneous Repayments, receipts since July 1, 1875.....		3,951,507 34

War Repayments, receipts previous to July 1, 1875.....	95 83	2,136,980 81	
Navy Repayments, receipts since July 1, 1875.....		3,235,254 73	
Interior Repayments, receipts since July 1, 1875.....	1,638,815 68		
Interior Repayments, receipts previous to July 1, 1875.....	7,507 80	1,646,323 48	
			641,248,233 94
			791,985,291 14

VII.—EXPLANATORY STATEMENT OF DIFFERENCES BETWEEN BALANCES OF JUNE 30, 1877.

1.

It will be seen by reference to Statement II of this report that the "General Treasury Balance" subject to draft June 30, 1877, was \$189,741,323 05
 And by the "Supplemental Statement" that the "Coin Balance" was \$116,979,858 22
 By reference to the "Public Debt Statement" of July 1, 1877, the cash in the Treasury at the close of business on June 30, 1877, is stated as 115,132,473 62 186,025,960 73

The differences, amounting to 1,837,384 60 3,715,362 32

are explained by the fact that the transcripts of general account containing reports of receipts into the Treasury prior to July 1, 1877, (the amount which is here stated,) were not received at this office until after that date from the following offices, viz:

	Coin.	Coin and cur- rency.	Coin.	Coin and cur- rency.
Sub-Treasury United States, Boston.....	39,555 66	73,153 53		
Sub-Treasury United States, Philadelphia.....	12,437 59	16,107 69		
Sub-Treasury United States, Saint Louis.....	12,246 92	16,469 29		
Sub-Treasury United States, San Francisco.....	237,887 64	342,313 73		
Sub-Treasury United States, New Orleans.....	5,211 56	25,645 54		
Sub-Treasury United States, Cincinnati.....	6,793 42	8,979 11		
Sub-Treasury United States, Chicago.....	7,904 46	116,869 52		
Depository United States, Tucson, Ariz.....	7 38	6,076 07		
National Banks, Designated Depositories United States.....		635,168 80		
Unavailable cash, as per statement of this report, included in ledger balance but not in that of the "Public Debt Statement".....	67,432 05	991,831 04		
Coin deposited for bonds of 4 per cent. funded loan of 1907, included in ledger balance, not in "Public Debt Statement," as the bonds had not been issued.....	1,532,748 00	1,532,748 00		
	1,922,214 68	3,765,362 32		
Less amount of Gold Sales and Silver Payments.....	14,830 08			
Less amount of Counter-Entries of Receipts.....	50,000 00	50,000 00		
			\$1,837,384 60	\$3,715,362 32

2.

June 30, 1877, "General Treasury Balance," as per Statement II, is \$189,741,323 05
 June 30, 1877, "Balance of Covered Moneys," as per Statement V, is 126,786,000 97

The difference, amounting to 2,955,322 08

is explained by the fact that certain moneys deposited in the Treasury had not been "covered in" by warrant up to June 30, 1877, viz:

Deposits in Treasury, Sub-Treasuries, and Depositories United States prior to July 1, 1876.....	\$496,312 91
Deposits in National Banks, Designated Depositories United States, prior to July 1, 1876.....	122,762 21
Deposits in Treasury, Sub-Treasuries, and Depositories United States in fiscal year 1877.....	2,287,085 53
Deposits in National Banks, Designated Depositories United States in fiscal year 1877.....	49,161 43
	2,955,322 08

3.

By Treasurer's Quarterly Account, Statement VI, the "balance of covered moneys June 30, 1877," is stated as 215,465,695 17
 and by "Receipts and Expenditures," Statement V, the "balance of covered moneys June 30, 1877," is stated as 186,786,000 97

The difference, amounting to 28,679,694 20

is explained by the fact that in the Treasurer's Quarterly Account all moneys that have been covered into the Treasury are included, but not in the "Receipts and Expenditures by Warrant" account, from which the amount deposited with the States, being really unavailable, has been dropped 28,101,644 91

and by the additional fact that the amount of all pay-warrants issued to the close of the fiscal year is credited in the "Receipts and Expenditures by Warrant" account; but in the "Treasurer's Quarterly Account" only the amount of those pay-warrants is credited for which vouchers have passed into the hands of the accounting-officers at the close of the fiscal year, the amount of pay-warrants for which vouchers had not been passed was 578,049 29

28,679,694 20

4.

The General Treasury Balance "subject to draft," as shown by Statement II, is \$189,741,323 05
to which being added the amount on deposit with the States, transferred under act of
Congress approved June 23, 1836 28,101,644 91

The total balance of General Treasury Moneys is found to be 217,842,967 96
and minus the amount of difference between "Receipts not covered in" .. \$2,955,322 08
and "Warrants remaining unpaid" 578,049 29
2,377,272 79

agrees with the Balance of Covered Moneys due the United States, as shown per
Statement VI, Treasurer's Quarterly Account, page 28 215,465,695 17

VIII.—STATEMENT OF BALANCES REMAINING TO THE CREDIT OF UNITED STATES
DISBURSING OFFICERS AND AGENTS, JUNE 30, 1877.

Offices.	Amount.
Treasury of the United States, (cash-room,) Washington, D. C.	\$1,591,757 33
Sub-Treasury United States, New York, N. Y.	4,476,926 66
Sub-Treasury United States, Boston, Mass.	277,377 44
Sub-Treasury United States, Philadelphia, Pa.	463,350 17
Sub-Treasury United States, Saint Louis, Mo.	396,015 24
Sub-Treasury United States, San Francisco, Cal.	1,094,672 38
Sub-Treasury United States, New Orleans, La.	499,192 12
Sub-Treasury United States, Baltimore, Md.	235,428 94
Sub-Treasury United States, Cincinnati, Ohio	138,928 75
Sub-Treasury United States, Chicago, Ill.	1,453,763 08
Depository United States, Tucson, Ariz.	32,140 68
National Banks designated as depositories United States.	3,344,295 86
Total	14,004,948 85

During the fiscal year 8,000 "Lists of balances standing to the official credit of United States Disbursing Officers and Agents" were received by this Office, (Division of Accounts;) 56,118 "Statements of Public Funds" and "Abstracts of Weekly Statements" were received for examination, comparison, certification, and return to the Bureau and Departments from which sent; and 348 letters were written in regard to errors and corrections.

X.—STATEMENT BY CLASSES OF UNITED STATES DISBURSING OFFICERS AND
AGENTS.

Classes.	Report- ing.	Not re- porting.	Total.

XXI.—STATEMENT OF REDEMPTION OF UNITED STATES CURRENCY

Amounts paid, deducted, and retired during fiscal year

Kind.	Paid.			
	During fiscal year 1877.		To June 30, 1877.	
Fractional Currency, second issue:				
Five Cents	\$377 18		\$2,093,047 40	
Ten Cents	664 81		5,258,136 31	
Twenty-Five Cents	845 45		6,899,013 14	
Fifty Cents	837 45		5,790,646 72	
		\$2,924 89		\$20,040,843 57
Fractional Currency, third issue:				
Three Cents	204 81		511,060 64	
Five Cents	216 27		523,661 90	
Ten Cents	7,666 40		15,869,685 18	
Fifteen Cents	19 80		75 15	
Twenty-Five Cents	9,552 68		30,194,348 10	
Fifty Cents	13,359 80		35,864,158 10	
		31,019 76		82,982,989 07
Fractional Currency, fourth issue, first series:				
Ten Cents	291,545 69		33,405,664 76	
Fifteen Cents	158,328 76		4,980,037 10	
Twenty-Five Cents	516,022 95		57,616,715 12	
Fifty Cents	16,792 50		9,399,685 55	
Denomination unknown			32,000 00	
		982,689 90		105,434,102 53
Fractional Currency, fourth issue, second series:				
Fifty Cents	249,890 30		42,211,569 70	
		249,890 30		42,211,569 70
Fractional Currency, fourth issue, third series:				
Fifty Cents	1,286,548 95		24,074,692 30	
		1,286,548 95		24,074,692 30
Fractional Currency, fifth issue:				
Ten Cents	2,538,662 99		18,661,711 91	
Twenty-Five Cents	5,953,242 74		33,395,935 19	
Fifty Cents	2,994,133 95		5,483,557 50	
		11,486,639 68		57,541,204 60
Notes of National Banks Failed, in Liquidation, and Retiring Circulation:				
One Dollar	230,366 50		896,782 65	
Two Dollars	173,955 00		665,021 60	
Five Dollars	7,744,041 50		24,919,217 00	
Ten Dollars	7,191,192 00		19,066,059 00	
Twenty Dollars	4,823,550 00		12,141,477 00	
Fifty Dollars	1,971,450 00		4,981,690 00	
One Hundred Dollars	2,629,700 00		7,023,995 00	
Five Hundred Dollars	246,500 00		1,025,000 00	
One Thousand Dollars	40,000 00		223,000 00	
		25,050,755 00		70,942,242 25
Amount paid in fiscal year 1877		121,586,139 05		
Total amount paid to June 30, 1877				1,963,303,560 77
Amount deducted in fiscal year 1877				
Total amount deducted to June 30, 1877				
Amount retired (face-value) in fiscal year 1877				
Total amount retired (face-value) in fiscal year 1877

Net increase	38, 095, 197 39

G.—Comparative statement of Money-Packages and Letters sent.

	1875-'76.	1876-'77.	Increase.
Packages of notes fit for circulation forwarded by express	30, 823	43, 142	12, 319
Average for each business day	100+	140+	40
Packages of notes unfit for circulation delivered to the Comptroller of the Currency	33, 061	42, 650	9, 589
Average for each business day	107+	138+	31
Letters and notifications written	107, 415	117, 179	9, 764
Average for each business day	348+	380+	32

H.—Expenses incurred by the Redemption Agency and assessed upon the Banks.

"The charges for transportation and the costs for assorting" the notes of National Banks redeemed during the fiscal year ended June 30, 1877, under section 3 of the act approved June 20, 1874, (18 Statutes, 123,) were as follows:

Charges for transportation	\$189, 362 05
Costs for assorting:	
Salaries	\$150, 695 68
Printing and binding	6, 604 30
Stationery	3, 818 10
Postage	3, 716 66
Contingent expenses, (including repairs, telegrams, ice, washing towels, soap, and similar expenses)	2, 869 31
Total	357, 066 10

The express charges were assessed upon the several National Banks in proportion to the amount, and the other charges in proportion to the number of their notes redeemed and assorted. The aggregate amount assorted during the fiscal year was \$214,361,300, giving 82.45 cents as the average rate for the charges for transportation for each \$1,000. The aggregate number of notes assorted was 22,745,548, making the average rate for the "costs for assorting" for each 1,000 notes \$7.37 $\frac{1}{2}$.

The expense of redeeming \$100,000 in notes of average denominations was as follows:

Charges for transportation	$\left(\frac{100,000 \times 8834}{1,000} = \right)$	\$88.34
Costs for assorting	$\left(\frac{100,000 \times 7.373}{9.42 \times 1,000} = \right)$	73.2696
Average expense for each \$100,000		166.6096
Per cent.		1666096 = $\frac{1}{6}$ of 1 per cent.

REPORT OF THE REGISTER OF THE TREASURY.

REPORT

OF THE

REGISTER OF THE TREASURY.

TREASURY DEPARTMENT, REGISTER'S OFFICE,
November 1, 1877.

SIR: I have the honor to submit herewith a report in detail of the business transacted in the several divisions of this bureau, during the fiscal year which ended on the 30th June last.

In the report which I had the honor to submit for the fiscal year ended on the 30th June, 1873, I called the attention of the then Secretary to the fact, "That to this bureau is committed the custody of very important and valuable files of vouchers and papers connected with the most important business transactions of the government. It therefore becomes my duty to state that the accumulation of files has become so great as to fill the rooms allotted for this purpose, and it has become necessary to deposit a very large quantity of them in the south corridor, where they are inconvenient for reference, exposed to loss and mutilation, and also causing much inconvenience by obstructing the passageway. The safety of these valuable papers requires that other rooms be provided and allotted for the use of the files, and I would respectfully urge its necessity upon your attention."

Last year there were shelves put up along nearly the whole length of the south corridor, in order to receive the files sent from the office of internal revenue, but the rapid accumulation of such files has rendered it impracticable to find storage for them in such a manner as to make them conveniently accessible when reference to them becomes necessary.

An additional room is being fitted up in the western corridor of the Treasury building, for the purpose of providing for the files; but it seems to me that unless a larger space is allotted than that proposed, it will be impracticable to find convenient storage for those now in the corridor, and also for other important papers now stored in the files-room, which cannot be assorted and arranged for reference for want of space in that room.

There is danger from fire in continuing to use the open corridor for the purpose of storage, making so large a quantity of inflammable matter, and besides, files thus stored are, from necessity, exceedingly inconvenient for reference, and often causing delay.

There are doubtless large quantities of old files and papers connected therewith that will never be referred to again; but no one is authorized to destroy them, or to remove them from the places allotted for their preservation, and until there is some such authority they must be protected.

The refunding of a part of the public debt by calling in a portion of the 5-20 bonds and the issuing the 4 per cent. consols of 1907, has

increased the business transacted in the loan-division of this office very considerably within the last few months, and should success continue to attend your efforts to refund the 520 loans, it will be necessary to increase the clerical force in that division in order that the work be promptly performed.

By reference to the reports from the receipts and expenditures, the tonnage, and the note and coupon divisions, it will be seen that the amount of work performed in those divisions, in the past year, does not differ materially from that done in the same divisions during the preceding year.

In the note and fractional currency division the work has fallen off in some degree, and it is probable will continue to decrease during the current year. It is owing to this fact principally that no more embarrassment has been caused by the large reduction of the force which took place October 10, 1876.

The number of persons now employed in this office, for whom appropriations were made by the act of Congress appropriating money to defray the expenses of the Register's Office for the fiscal year ending 30th June, 1878, is one hundred and thirty-seven.

The number was insufficient to perform the current work promptly, and I obtained assistance from the honorable Secretary by having a few clerks assigned to duty in this office, who were paid out of the fund provided for the payment of temporary clerks.

In the estimates submitted for this office for the next fiscal year, I have asked for one additional third-class clerk. The additional clerk is much needed in the loan division.

LOAN DIVISION.

The total number of coupon and registered bonds issued was	169,722
The total number canceled	181,670
The amount of registered and coupon bonds issued was as follows:	
Original issue	\$184,663,350 00
Registered bonds issued in exchange for coupons	36,060,750 00
Registered bonds issued in transfer	208,340,755 86
Total issued	429,064,855 86
Amount issued during preceding year	273,780,312 00
Increase of issue for present year	155,284,543 86
The total amount of coupon and registered bonds canceled was as follows:	
Coupon bonds exchanged for registered	36,060,750 00
Registered bonds transferred	208,340,755 86
Actual redemptions of coupon and registered bonds	86,302,200 00
Total canceled	330,703,705 86
Amount canceled during preceding year	317,975,162 00
Amount of canceled coupon-bonds entered on numerical registers and turned over to committees for destruction	74,642,600 00
The vault account shows that there was on hand July 1, 1876, including bonds in hands of European agent	557,575,450 00
Amount received during the year:	
Coupon-bonds	109,575,000 00
Registered bonds	376,399,200 00
District of Columbia 3.65 funding bonds	3,641,000 00
Total	1,047,190,650 00

Amount disposed of during the year:

Coupon-bonds issued.....	\$77,553,700 00
Registered bonds issued.....	347,179,462 00
Registered bonds issued of 3.65 per cent. D. C. funded loan.....	4,324,000 00
Registered bonds of various loans turned over to committee for destruction.....	71,330,650 00
Coupon-bonds, ditto.....	721,400 00
Registered 3.65 per cent. D. C. bonds delivered to the Sinking Fund Commissioners for destruction.....	1,841,000 00
Remaining on hand July 1, 1877:	
Coupon-bonds.....	53,709,400 00
Registered bonds.....	465,547,850 00
District of Columbia 3.65 per cent. funded bonds.....	819,750 00
Coupon and registered bonds in hands of European agent.....	24,162,950 00
Add difference on account of issuing a \$1,000 Pacific Railroad bond for fractional issue of \$512.....	488 00
Total.....	1,047,190,650 00

The large amount of bonds turned over for destruction was composed principally of the surplus remaining on hand upon the extinction of the 5-20 loans by redemption.

Statement showing the number of cases, number and amount of registered and coupon bonds issued and canceled during the year ended June 30, 1877.

REPORT ON THE FINANCES.

NOTE AND COUPON DIVISION.

At the close of the fiscal year the clerical force of this division consisted of 37 clerks, 9 males and 28 females; (7 of whom were on the temporary roll,) and 2 messengers.

The whole number of clerks employed during the year was 51; 12 males and 39 females.

The average number of clerks per month was 40; 10 males and 30 females.

The following consolidated statement exhibits the character and amount of work performed by this division during the fiscal year ending June 30, 1877:

Statement of redeemed, exchanged, and transferred United States bonds, with coupons attached, the same having been examined, registered, scheduled, and delivered to Destruction Committee.

Authorizing act.	Number of bonds.	Total amount.	Coupons attached.
February 25, 1862	245, 069	\$131, 599, 700	3, 468, 150
June 30, 1864	17, 613	12, 380, 600	335, 641
March 3, 1865	34, 222	7, 881, 900	907, 753
Total	296, 924	151, 862, 200	4, 711, 544

Statement of Treasury-notes, interest coin-checks, and certificates counted, assorted, arranged, registered, and examined.

Notes, interest coin-checks, and certificates.	Authorizing act.	Number of pieces.	Total amount.
One and two years 5-per-cents	Mar 3, 1863	318	\$9, 020 00
Three-years 6-per-cents	Mar 3, 1863	1, 340	31, 000 00
	June 30, 1864		
Three-years 7 $\frac{1}{2}$ -per-cents	June 30, 1864	174	19, 950 00

Total		48, 999	96, 629, 332 96

Of coupons detached from notes and bonds there were counted, assorted, and arranged numerically, 3,706,726; registered, 3,396,279; examined and compared, 3,389,710.

NOTE AND FRACTIONAL CURRENCY DIVISION.

Statement showing the number of notes and amount of United States notes and fractional currency examined, counted, canceled, and destroyed for the fiscal year ending June 30, 1877.

	Number of notes.	Amount.
United States notes, new issue	586, 580	\$5, 298, 668 00
United States notes, series of 1875	8, 575, 816	48, 598, 428 00
United States notes, series of 1874	8, 201, 411	14, 572, 779 00
United States notes, series of 1875	4, 886, 979	11, 109, 194 00
United States demand-notes	331	2, 715 00
Fractional currency, first issue	4, 736	966 85
Fractional currency, second issue	4, 002	402 00
Fractional currency, third issue	133, 007	33, 387 37
Fractional currency, fourth issue	6, 261, 191	1, 008, 165 10
Fractional currency, fourth issue, second series	538, 852	269, 426 00
Fractional currency, fourth issue, third series	2, 635, 509	1, 317, 754 50
Fractional currency, fifth issue	55, 770, 638	11, 441, 396 35
Total	87, 599, 052	93, 653, 212 17

TONNAGE DIVISION.

The total tonnage of the country exhibits a decrease of 36,858 tons, the registered tonnage having increased 18,372 tons, the licensed tonnage (under 20 tons) 1,707 tons, while the enrolled tonnage has decreased 56,937 tons.

The actual decrease is believed to be about 13,563 tons, this amount being the excess of the losses over the gains during the year.

The aggregate has been reduced by corrections of the balances reported outstanding and by dropping canal-boat tonnage exempt under the act of Congress approved April 18, 1874, gaining on account of the former 14,127 tons, and losing on the latter 36,314 tons.

Below are given the totals for the last two years :

	1876.		1877.	
	Vessels.	Tons.	Vessels.	Tons.
Registered	3,009	1,592,521	2,988	1,611,193
Enrolled and licensed	22,925	2,686,637	22,398	2,631,407
Total	25,934	4,279,458	25,386	4,242,600

The comparison of the different classes of vessels is as follows :

	1876.		1877.	
	Vessels.	Tons.	Vessels.	Tons.
Sailing-vessels	18,257	2,602,691	18,081	2,580,389
Steam-vessels	4,320	1,472,372	4,395	1,171,196
Canal-boats	1,581	117,708	996	81,395
Barges	1,776	380,687	1,914	409,620
Total	25,934	4,279,458	25,386	4,242,600

It will be seen from the foregoing that the barge-tonnage has increased 28,933 tons, while the sailing-tonnage has decreased 28,302 tons, the steam-tonnage 1,176 tons, and the canal-boat tonnage 36,313 tons.

The proportion of the sailing-tonnage registered is 55 per centum ; of the steam-tonnage, 16 per centum.

SHIP-BUILDING.

The following table exhibits the class, number, and tonnage of the vessels built during the last two fiscal years :

	1876.		1877.	
	Vessels.	Tons.	Vessels.	Tons.
Sailing-vessels	698	118,672	581	106,331
Steam-vessels	338	69,252	263	47,514
Canal-boats	28	3,111	29	3,022
Barges	48	12,551	154	19,725
Total	1,112	203,586	1,029	176,592

From the foregoing it appears that the amount built during the past year was less by 26,994 tons than that of the preceding year.

The tonnage built during the last two years in the several grand divisions of the country is shown below :

	1876.		1877.	
	Vessels.	Tons.	Vessels.	Tons.
Atlantic and Gulf coasts	736	147, 003	620	120, 278
Pacific coast	102	16, 823	88	12, 718
Northern lakes	140	16, 124	89	8, 903
Western rivers	134	23, 636	232	34, 693
Total	1, 112	203, 586	1, 029	176, 592

The following table exhibits the iron tonnage built in the country since 1868:

	1868.	1869.	1870.	1871.	1872.	1873.	1874.	1875.	1876.	1877.
Sailing-vessels		1, 039	679	2, 067						
Steam-vessels	2, 801	3, 545	7, 602	13, 412	12, 766	26, 548	33, 097	21, 632	21, 346	5, 927
Total	2, 801	4, 584	8, 281	15, 479	12, 766	26, 548	33, 097	21, 632	21, 346	5, 927

Tables showing the amount of iron tonnage outstanding will be found in the appendix to the Report on Commerce and Navigation.

THE FISHERIES.

The tonnage engaged in the fisheries during the last two years is as follows:

	1876.		1877.	
	Vessels.	Tons.	Vessels.	Tons.
Cod and mackerel fisheries, (corrected for 1876)	2, 311	87, 802	2, 288	91, 085
Whale fisheries	171	39, 165	179	40, 594

Below is shown the amount of tonnage employed in the cod and mackerel fisheries, with the per centum of each State :

States.	Tonnage.	Per cent.
Maine	36, 413	40.
New Hampshire	1, 251	1.4
Massachusetts	40, 700	44.7
Rhode Island	1, 888	2.1
Connecticut	4, 316	4.7
New York	4, 620	5.
Pennsylvania	5	0.
California	1, 892	2.1
Total	91, 085	100.

This shows an increase of about 4 per cent. during the year.

The tonnage employed in the whale fisheries is given below :

Customs-districts.	1876.		1877.	
	Vessels.	Tons.	Vessels.	Tons.
Barnstable, Mass.	21	2, 036	21	2, 036
Edgartown, Mass.	2	333	3	634
New Bedford, Mass.	132	34, 615	140	36, 121
New London, Conn. } Sail	13	1, 943	12	1, 564
} Steam	1	106	1	106
San Francisco, Cal.	2	132	2	132
Total	171	39, 165	179	40, 593

Of the above, nearly 89 per cent. belongs at New Bedford.

Fuller tables showing the various classes of tonnage will be found in the appendix to this report.

DIVISION OF RECEIPTS AND EXPENDITURES.

The following statement exhibits the work of this division for the year ending June 30, 1877 :

The number of warrants registered during the year for civil, diplomatic, miscellaneous, internal revenue, and public debt expenditures and repayments was	23, 832	
In the preceding year	24, 836	
Decrease		1, 004
The number of warrants registered for receipts from customs, lands, internal revenue, direct tax, and miscellaneous sources was	10, 829	
In the preceding year	11, 428	
Decrease		599
The number of warrants registered for payments and repayments in the War, Navy, and Interior (Pension and Indian) Departments was	13, 453	
In the preceding year	10, 950	
Increase		2, 503
The number of drafts registered was	35, 878	
In the preceding year	34, 628	
Increase		1, 250
The number of journal pages required for the entry of accounts relating to the civil, diplomatic, internal revenue, miscellaneous, and public debt receipts and expenditures was	5, 188	
In the preceding year	5, 138	
Increase		50
The number of certificates furnished for settlement of accounts was	13, 185	
In the preceding year	12, 304	
Increase		881
The number of accounts received from the First and Fifth Auditors and Commissioner of the General Land Office was	22, 838	
In the preceding year, (as corrected)	24, 199	
Decrease		1, 361

In conclusion, I take pleasure in bearing testimony to the ability and efficiency of those associated with me in conducting the business of the office.

The clerks and other employes have, by their good conduct and efficiency, merited commendation.

In the appendix will be found a statement of the receipts and expenditures of the government, as required by the standing order of the House of Representatives of December 30, 1791, and section 237 of the Revised Statutes; also, statements of the amount of money expended and number of persons employed, and the occupation and salary of each person at each custom-house, as required by section 258 of the Revised Statutes.

I remain, with great respect, your obedient servant,

JOHN ALLISON, *Register.*

Hon. JOHN SHERMAN,

Secretary of the Treasury.

APPENDIX.

General account of the receipts and expenditures of the United States for the fiscal year ending June 30, 1877.

TO RECEIPTS.

From customs.

REPORT OF THE COMMISSIONER OF INDIAN AFFAIRS.

REPORT
OF
COMMISSIONER OF INDIAN AFFAIRS.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., October 8, 1877.

SIR: I have the honor to transmit herewith a statement showing the liability of the United States to Indian tribes under treaty stipulations, as requested by your letter of the 18th ultimo.

A copy of the letter of the Commissioner of Indian Affairs, dated the 6th instant, forwarding the statement to the department, is also inclosed.

Very respectfully, your obedient servant,

C. SCHURZ,
Secretary.

The Hon. the SECRETARY OF THE TREASURY.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
Washington, October 6, 1877.

SIR: I have the honor to transmit herewith a statement showing the liability of the United States to Indian tribes under treaty stipulations, as requested by the honorable the Secretary of the Treasury, whose letter is herewith returned.

Very respectfully, your obedient servant,

E. A. HAYT,
Commissioner.

The Hon. the SECRETARY OF THE INTERIOR.

**REPORT OF THE SUPERINTENDENT OF THE UNITED
STATES COAST SURVEY.**

ABSTRACT REPORT
OF THE
SUPERINTENDENT UNITED STATES COAST SURVEY.

UNITED STATES COAST SURVEY OFFICE,
Washington, October 19, 1877.

SIR: I have the honor to transmit this abstract, showing the localities and the class of work done in each, in continuation of the survey of the coast of the United States in the course of the year ended June 30, 1877.

Beginning at the northeastern boundary, the work will be recapitulated in geographical order, going southward along the coast of the Atlantic and Gulf of Mexico. On the Pacific coast, work near the San Diego boundary will be mentioned first, and in succession the work done at localities along the coast of California, Oregon, and Washington Territory.

The work done has included hydrography of the sea-coast of Maine near Mount Desert Island, and soundings in Eggemoggin Reach and Isle au Haut Bay; tidal observations at the entrance of Penobscot Bay; topography of the shores of the Penobscot from Hampden to Bangor; soundings near the entrance of Saco River, Maine; triangulation in the vicinity of Mount Washington, New Hampshire; tidal observations at Boston, and off the coast tidal currents observed in the Gulf of Maine; the triangulation of Taunton River, Massachusetts; tidal observations at Providence, R. I.; topography of the vicinity of New Haven, Conn.; primary triangulation across the Hudson River, near Albany; tidal observations at Governor's Island, Brooklyn, and Sandy Hook; observations with the pendulum at New York City; supplementary soundings in Gedney's Channel; triangulation in Northern New Jersey; the hydrography of Barnegat Bay, including Tom's River, New Jersey; sailing-notes for navigation between Sandy Hook and Cape May, and for Delaware Bay and River; triangulation in Eastern Pennsylvania; sailing-notes for the coast of Maryland and Virginia, and for the estuaries of Chesapeake Bay; determination of the positions of life-saving stations between Cape Henlopen and Cape Charles, Virginia, for insertion on charts; special shore-line survey and hydrography of the harbor of Baltimore City, for United States commissioners; determination of the magnetic elements at Washington City; surveys in the vicinity of Smith's Island, Chesapeake Bay, for the boundary commission of Maryland and Virginia; topography of the shores of the James River, Virginia, from City Point upward to Kingsland Creek, and of the northeastern approaches to Norfolk; tidal observations at Fortress Monroe; selection of station-points in West Virginia for geodetic work; primary triangulation along the Blue Ridge, in Virginia and North Carolina; hydrographic examination between Hatteras and Oregon Inlet, and of the Frying Pan Shoals, North Carolina; soundings in Ocracoke Inlet, and hydrography extended in Pamlico Sound, Currituck Sound, and East Lake, North Carolina, and in North Landing River, Virginia; lati-

tude and azimuth determined at Long Shoal Point, and at Hog Island, North Carolina; hydrography completed in Cove Sound and Bogue Sound, North Carolina; topography of the vicinity of Cape Fear River, at Wilmington, N. C.; primary triangulation across the boundary between North Carolina and South Carolina; examination of harbors and sounds for sailing-notes between Cape Fear and Saint Mary's River, Georgia; tidal observations at Fernandina, Fla.; survey of Saint John's River, Florida, from Jacksonville southward to Hogarth's Bay; hydrography of the coast-approaches between Matanzas Inlet and Mosquito Inlet, Florida; survey of the coast and sea-water channels near Cape Cañaveral, with parts of the Banana River and Indian River; topography and hydrography of the western coast of Florida, from Cedar Keys northward to Horseshoe Point; hydrography of the Gulf coast from Pine Point westward to Choctawhatchie, including Saint Andrew's Bay and its approaches; determination of points by triangulation in Kentucky, between Cumberland Gap and Lancaster Court-House; measurement of base-line and selection of points in Tennessee for triangulation between Knoxville and Nashville; triangulation in the northwestern part of Alabama; hydrographic development of the Gulf of Mexico by numerous lines of deep-sea soundings and temperature-observations; topography of the shores of Barataria Bay, Louisiana; special hydrographic survey of Cubett's Gap, and from thence to the head of the passes, Mississippi River, and of Southwest Pass; detailed survey of the shores and waters of that river between Bounet Carre and Point Houmas; height of the water recorded regularly at New Orleans with a tide-gauge; reconnaissance for geodetic points in Illinois, and through Missouri westward toward the Wasatch Mountains; points determined in the vicinity of Madison, Wis.; and on the coast of Texas the triangulation of Laguna Madre from Corpus Christi Bay southward to Baffin's Bay.

On the Pacific coast of the United States, beginning at the southern boundary of California, the work of the year has included reconnaissance for triangulation-points between San Diego and Santa Barbara; topography of the western part of Santa Catalina Island; inspection of field-parties near the shores of Santa Barbara Channel; connection of Anacapu and Santa Barbara Island, by triangulation, with stations on the main coast of California; hydrography of the approaches to San Miguel and Santa Rosa Island; supplementary soundings in the vicinity of Santa Monica, Cal.; inshore hydrography eastward of Point Conception, and lines of soundings across the Santa Barbara Channel; topography of the coast north of Point Conception toward Point Arguello; reconnaissance for triangulation between Los Angeles and Point Arguello; tidal observations at Fort Point and at Sausalito, San Francisco Bay; geodetic measurements and determinations of latitude and azimuth at Mount Diablo and Mount Helena; reconnaissance for geodetic points between the Sierra Nevada and Salt Lake City; topography of the coast of California from Timber Gulch northward to Stewart's Point Landing; reconnaissance for triangulation-points in the coast-range of mountains north of Mount Ross and Sulphur Peak; hydrography of the coast of Oregon from Tillamook Head northward to Columbia River entrance; topography of the shores and soundings in the Columbia River between Cathlamet and Cottonwood Island; tidal observations at Astoria and at Port Townsend, Washington Territory; erection of signals for triangulation across the waters of Washington Sound and the Strait of Fuca; additional soundings along the shores of Whidbey Island and Admiralty Inlet, Washington Territory; topography of the shores of

Admiralty Inlet and Calvas Passage from Point Orchard south to the entrance of Commencement Bay; inspection of topographical work in this section, and as yet in progress, the hydrography of Commencement Bay, Washington Territory.

The compilation has been kept steadily in hand of sailing-notes and other maritime data pertaining to the Coast Pilot for navigation along the seaboard of California, Oregon, and Washington Territory; and also for the Coast Pilot of Alaska.

Progress commensurate with the field-work has been made in the work of the Coast Survey Office, which comprises the computations of all geodetic, trigonometric, and magnetic observations, including the arrangement for publication of the records and results; the drawing of the hydrographic charts from the records of soundings; the reduction of the original topographical and hydrographic maps for publication; the engraving, electrotyping, printing, and issue of the same, as well as the maintenance of the instruments used in the survey. Tide-tables of the principal ports of the United States for the year 1878 have been published; the drawing of sixty-one charts has been in progress, of which number twenty-eight have been completed, including sixteen charts for publication by photolithography; nine new copper-plate engravings have been begun; one hundred and nine engraved plates have received additions, and twenty-one have been completed; an aggregate of eighteen thousand eight hundred and forty-two copies of charts has been issued; two thousand eight hundred and thirty copies of the Coast Survey Reports have been distributed; and the second volume of the Atlantic Coast Pilot, comprising the coast from Boston to New York, has been in preparation, and will be published before the close of the year.

Respectfully submitted.

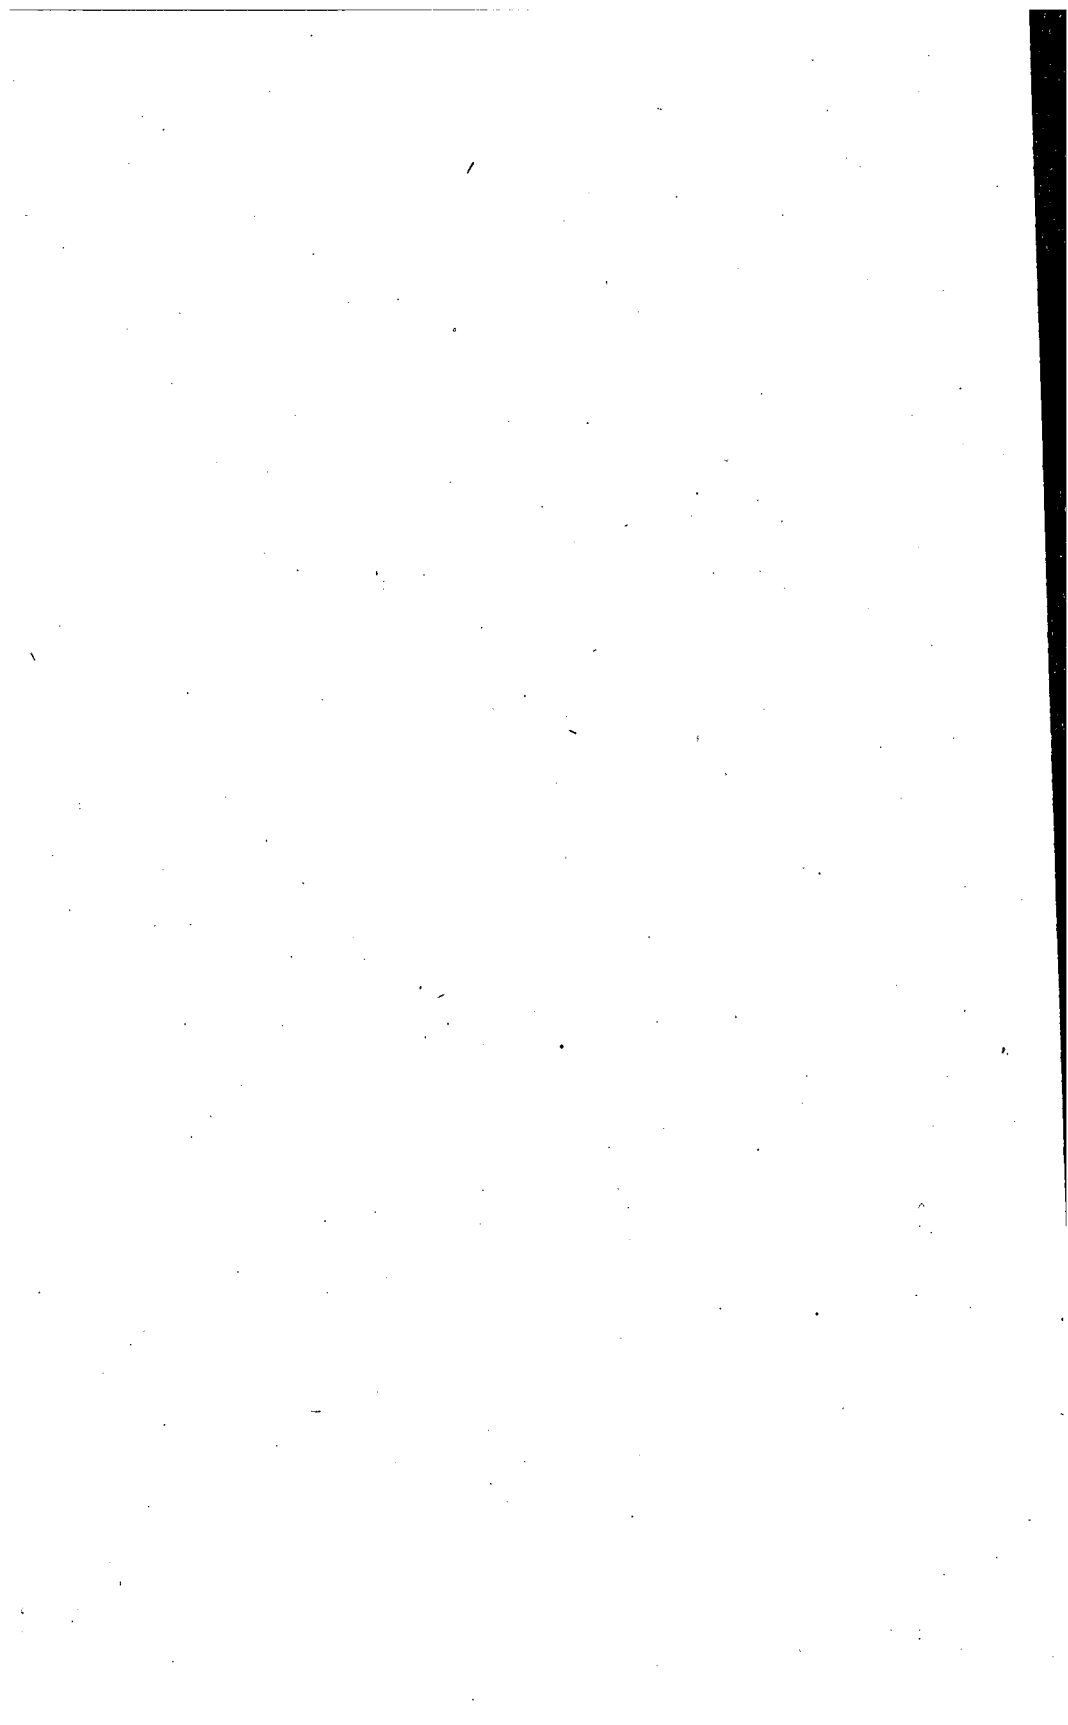

C. P. PATTERSON,

Superintendent United States Coast Survey.

HON. JOHN SHERMAN,

Secretary of the Treasury,

Washington, D. C.

INDEX.

I.—REPORT OF THE SECRETARY OF THE TREASURY.

Page.

Act of February 21, 1853, provisions of, relative to coinage of silver and its ratio of value to gold.....	XXII
Act of May 18, 1872, provisions of, relative to the proceeds of certain cotton.....	XXIV, XXV
Act of June 22, 1874, to amend the customs-revenue laws and repeal moiety, effect of, has not been salutary.....	XXVIII
Act of January 14, 1875, requires the Secretary of the Treasury to redeem legal-tender notes to the amount of 80 per centum of the sum of national-bank notes issued, until the outstanding legal-tenders shall be \$300,000,000 and no more.....	XI
provides for the exchange and substitution of silver coin for fractional currency.....	XIX
authorizes the Secretary of the Treasury to issue, sell, and dispose of either description of bonds authorized by the act of July 14, 1870, at not less than par in coin.....	XII
authorizes the Secretary of the Treasury to use any surplus revenues not otherwise appropriated to prepare and provide for resuming specie payments.....	XII
provides that, on and after January 1, 1879, the Secretary of the Treasury shall redeem in coin the United States legal-tender notes then outstanding.....	XII
Alaska, since the withdrawal of the troops from, the management of the Territory has practically devolved upon the Treasury Department.....	XXX
apprehended conflicts between whites and Indians, upon the withdrawal of the troops, have not been realized.....	XXX
white population at Sitka very small.....	XXX
collector of customs at Sitka and his deputies stationed at other points the only officers who could exercise authority.....	XXX
the expenses of collecting the customs largely exceed the receipts from customs.....	XXX
abolition of the port of Sitka recommended.....	XXX
amount of tax collected on seal-skins taken on Saint Paul and Saint George Islands, including rent paid by the Alaska Commercial Company for the fiscal years ended June 30, 1876, and June 30, 1877.....	XXX
Appropriations for the fiscal year ending June 30, 1879, can be reduced \$11,000,000 below the estimates without crippling any branch of the public service.....	VII
for 1879 should not exceed \$140,000,000 exclusive of interest and sinking fund.....	VII
permanent annual, to be covered into the Treasury, under act of June 20, 1874.....	XXXIII
Acknowledgments to heads of bureaus and other officers for the faithful manner in which they have performed their duties.....	XLVII
Bonds issued prior to February 12, 1873, public policy and enlightened self-interest require should be paid in the coin then in circulation and contemplated by both parties as the medium of payment.....	XI
four and one-half per cent, impediment to the sale of.....	XI
amount of, sold under contract of August 24, 1876, to March 1, 1877.....	VIII
sale of, limited to \$200,000,000 by notice, in May, 1877.....	VIII
amount of, sold for resumption purposes.....	XII
four per cent, terms of contract for the sale of, made on June 9, 1877.....	VIII, IX
amount of, sold under contract of June 9, 1877.....	IX
how proceeds of sales of, were applied.....	IX
Banks, national. (See National banks.)	
Banks and bankers, complaints of, in regard to the tax on their deposits.....	XVII
attention of Congress invited to what the Comptroller of the Currency says in his report as to the repeal of the tax on deposits.....	XVII
the Secretary does not recommend the repeal of the tax on deposits for reasons stated.....	XVIII
Bullion, exportation of, has been arrested, and domestic supply accumulated in the Treasury; and specie, exports and imports of.....	XII
Bureau of Engraving and Printing.....	XXXVI, XXXVII, XXXVIII
a large balance of appropriation for labor and expenses in, will remain unexpended at the close of the year ending June 30, 1878.....	XXXVI
system of doing business in; gives ample security against frauds and mistakes.....	XXXVII
work done in, is more perfectly done than that heretofore done in private establishments; internal-revenue stamps heretofore printed in New York will be printed in, during the current year.....	XXXVII
also backs of legal-tender notes and five-dollar national currency notes, heretofore done by the Columbian Bank-Note Company.....	XXXVI
contracts of certain bank-note companies for printing notes and stamps terminated by notice, and the work transferred to the.....	XXXVI, XXXVII
report of commission to investigate the.....	XXXVIII
reduction of force in.....	XXXVIII
construction of a fire-proof building for the accommodation of, recommended.....	XLVII
Buildings, public, recommends that appropriations be made according to estimates for continuation of work upon, now in course of construction.....	XLVII
recommends that no new; be authorized except in cases where the demands of the public service seem to make them an absolute necessity.....	XLVII
calls attention to recommendation of Supervising Architect for the construction of a building for the accommodation of the Bureau of Engraving and Printing.....	XLVI, XLVII

	Page.
Claims against the government.....	XXXII, XXXIII, XXXIV, XXXV
attention of Congress called to the laws imposing upon the Treasury Department the adjudication of a multitude of.....	XXXII
old, should be carefully scrutinized.....	VII
of long standing, and supported by <i>ex parte</i> affidavits, should not be adjudicated in the Treasury Department.....	XXXII
various suggestions relative to the treatment of.....	XXXII, XXXIII, XXXIV, XXXV
changes and modifications of existing laws in respect to, suggested or recommended.....	XXXV
known as "charges and commission cases," arising under act of March 3, 1851.....	XXXIII
amount paid on.....	XXXIII
no more should be paid on, until after full investigation.....	XXXIII
full details of those now pending will be submitted to Congress.....	XXXIII
for refund of taxes illegally imposed under internal-revenue tax laws.....	XXXIII
of loyal citizens in States not in rebellion.....	XXXIV
for proceeds of certain cotton, action of department upon.....	XXXIV, XXXV
Coast Survey, operations of, during the year.....	XLV
Coffee, imposition of a duty of two cents per pound on, recommended.....	XXVII
Canada, returns of domestic exports to, incomplete.....	XXVIII
legislation recommended, requiring persons exporting merchandise by land conveyance to, to file manifests containing the quantities and values thereof.....	XXVIII
Coin, receipts from premium on sales of, during the fiscal year ended June 30, 1877.....	III
fractional silver, act of January 14, 1875, provides for substitution of, for fractional currency.....	XIX
is readily taken by the people and maintained at par with United States notes without difficulty.....	XX
estimated amount of, in circulation in 1860, at par with gold.....	XX
amount of, maintained in circulation in Great Britain, at par with gold.....	XX
true limit of, is the demand that may be made for its issue.....	XX
no danger of an excess of, being issued, if only issued in exchange for United States notes.....	XX
silver, conditions on which, can be issued with beneficial effect.....	XXIV, XXV
beneficial results likely to follow the issue of, in pursuance of the general policy of the act of 1853.....	XXIV
Coin and coinage, silver tokens and paper money, if limited to amounts needed for business, can be kept in circulation at par with gold.....	XXI
growing tendency to adopt for coins the principle of redeemability applied to different forms of paper money.....	XXI
with the quality of redeemability and limiting the amount of issue, tokens of inferior intrinsic value may be kept in circulation without depreciating below the paper money into which they are convertible.....	XXI
Coinage, receipts from profits on, during the fiscal year ended June 30, 1877.....	III
of gold and silver and relative value of, to each other, and their legal-tender qualities, the subject of discussion in all civilized countries.....	XIX
act of 1873, provisions of, relative to the coinage of trade-dollars.....	XX

Dollars, silver, have not been in circulation in the United States since 1857.....	XI
whole amount of, issued prior to 1853.....	XXIII
if restored to our coinage, should be subject to the same rules as to issue and convertibility as other forms of money.....	XXI
Dollars, trade. (See Trade-dollar.).....	
Domestic products, other than bullion, exportation of, has largely increased.....	XII
exports, to Canada, returns of, incomplete.....	XXVIII
Estimated receipts for second, third, and fourth quarters of the fiscal year ending June 30, 1878.....	V
Estimated expenditures for the second, third, and fourth quarters of the fiscal year ending June 30, 1878.....	V
Estimated surplus revenue for the fiscal year ending June 30, 1878.....	V
Estimated deficit on account of the sinking fund for the fiscal year ending June 30, 1878.....	V
Estimated receipts for the fiscal year ending June 30, 1879.....	VI
Estimated expenditures for the fiscal year ending June 30, 1879.....	VI
Estimated deficiency for the fiscal year ending June 30, 1879.....	VII
Expenditures, ordinary, for the fiscal year ended June 30, 1877.....	III
total, decrease in amount of, for the fiscal year ended June 30, 1877, as compared with the fiscal year ended June 30, 1876.....	IV
for the first quarter of the fiscal year ending June 30, 1878.....	V
estimated, for the second, third, and fourth quarters of the fiscal year ending June 30, 1878.....	V
estimated, for the fiscal year ending June 30, 1879.....	VI
public, reduction of, can only be accomplished by a careful revision of existing laws.....	VII
Exports, domestic, coin value of, for the fiscal year ended June 30, 1877.....	XXVII
foreign, coin value of, during the fiscal year ended June 30, 1877.....	XXVII
excess of, over imports.....	XXVII
of specie and bullion.....	XXVIII
domestic, to Canada, returns of, incomplete.....	XXVIII
Fees, consular, letters patent, and land, receipts from, for the fiscal year ended June 30, 1877.....	III
Files, crowded condition of the, in several offices of the Treasury Department.....	XXXI
importance of securing the, from destruction, and providing for them such room as will make them readily accessible, cannot be overestimated.....	XXXI
Fog-signals. (See Light-House Establishment.).....	
Fines, penalties, and forfeitures, customs, receipts from, for the fiscal year ended June 30, 1877.....	III
amount of, collected and paid into the Treasury for violation of customs laws.....	XXVIII, XXIX
Foreign intercourse, expenses for, for the fiscal year ended June 30, 1877.....	III
Frauds on the revenue by undervaluation.....	XXVII
efforts to prevent, have not been attended with entire success.....	XXVII
change from <i>ad valorem</i> to specific duties suggested as a remedy for.....	XXVII
Fractional currency, estimated amount of, lost and destroyed.....	XIX
exchange and substitution of silver coin for, required by act of January 14, 1875.....	XIX
aggregate of, and silver coin outstanding limited by joint resolution of July 22, 1876.....	XIX
Funding operations:	
amount of $\frac{4}{5}$ per cent. bonds sold under contract of August 24, 1876, to March 1, 1877..	VIII
sale of $\frac{4}{5}$ per cent. bonds limited by notice in May, 1877.....	VIII
terms of contract for the sale of $\frac{4}{5}$ per cent. bonds, made June 9, 1877.....	VIII, IX
amount of bonds sold under contract of June 9, 1877.....	IX
how proceeds of sales were applied.....	IX
sales of bonds suspended in October, 1877, on account of the agitation of the repeal of the resumption act and the remonetization of silver.....	IX
associates (syndicate) informed June 19, 1877, that as $\frac{4}{5}$ per cent. bonds were sold for gold, it was not anticipated that the government would sanction or tolerate their redemption or payment of interest in coin of less value than the coin authorized by law at the time they were issued.....	IX
amount of $\frac{4}{5}$ per cent. bonds sold for resumption purposes.....	XII
Gold, the importance of, as the standard of value is conceded by all.....	XXII
has been practically the sole standard in the United States since 1834.....	XXII
has been the sole standard in Great Britain since 1815.....	XXII
Gold and silver, various experiments made with a view of keeping both in circulation.....	XXII
ratios of value established at different times.....	XXII
an international convention of commercial nations suggested as a means of securing a more fixed relative value of.....	XXX
Government property, receipts from sales of, for the fiscal year ended June 3, 1877.....	III
Imports, coin value of, for the fiscal year ended June 30, 1877.....	XXVII
of specie and bullion.....	XXVIII
Indians, expenses for, for the fiscal year ended June 30, 1877.....	III
Interest, annual saving of, by reducing the rate from 6 to 4 per cent. on debt now redeemable.....	X
annual saving of, by reducing the rate from 6 to 4 per cent. on debt redeemable by the 1st of May, 1881.....	X
reduction of, from 6 to 4 per cent., will be arrested by any measure that creates doubts or distrust.....	X
Internal revenue, receipts from, for the fiscal year ended June 3, 1877.....	III
receipts from, for 1876 and 1877, from the various objects of taxation.....	XXX
Internal-revenue stamps, heretofore printed in New York, now printed in the Bureau of Engraving and Printing.....	XXXVII
Joint resolution of July 22, 1876, provides for the issue of silver coin in exchange for legal-tenders to the amount of \$10,000,000.....	XIX
limits amount of silver coin and fractional currency.....	XIX
Lands, public, receipts from sales of, for the fiscal year ended June 30, 1877.....	III
Legal-tender notes, redeemed, retired, and canceled since March 1, 1877.....	XII
amount of, outstanding December 1, 1877.....	XII
outstanding January 1, 1879, to be redeemed in coin, under act of January 14, 1875.....	XII

	Page.
Legal-tender notes, redeemed, after January 1, 1875, may, in the opinion of the Secretary, be reissued, as the exigencies of the public service may require	XIX
legal-tender quality of, was intended to maintain them in forced circulation at a time when their depreciation was inevitable	XV
when redeemable in coin, legal-tender quality of, may be withdrawn or retained without affecting their use as currency in ordinary times	XV
legal-tender quality of, should be maintained to meet the contingency of an unreasonable demand for coin during a sudden panic	XV
Legislation recommended:	
giving the sanction of Congress to the assurance that the obligations of the government shall not be paid in a coin of less value than that it demanded and received for these obligations	X
to authorize the Secretary of the Treasury to sell bonds for coin or its equivalent in United States notes	XI
to authorize the Secretary of the Treasury to gradually fund into 4 per cent. bonds all United States notes in excess of \$300,000,000, the bonds to be issued at par in coin or its equivalent in United States notes	XIII
to definitely settle the question whether United States notes redeemed when the outstanding amount is less than \$300,000,000 can be reissued	XIV
authorizing the issue of certificates for small deposits, convertible into 4 per cent. bonds, the proceeds to be used for the redemption of bonds bearing a higher rate of interest	XIX
repealing the limitation upon the amount of fractional coin to be issued in exchange for United States notes	XIX
to discontinue the trade-dollar in case another silver dollar is authorized	XX
to authorize the coinage and issue of a silver dollar with such legislative provisions as will maintain it at par with gold	XXI
creating a special tribunal for the trial of customs-revenue cases at New York	XXV
changes in existing law recommended by the commission to investigate the New York custom-house commended to the consideration of Congress	XXVI
to impose a duty of two cents per pound on coffee and ten cents per pound on tea	XXVIII
to require persons exporting merchandise to Canada by land conveyance to file manifests containing quantities and values	XXVIII
to so change existing law as to offer increased inducements for parties having knowledge of frauds on the revenue to bring them to the attention of customs-officers	XXIX
to adopt specific duties, as far as practicable, in order to secure simplicity and uniformity in the collection of the revenue from customs	XXX
to abolish the port of Sitka, Alaska	XXX
to change and modify various existing laws relative to the settlement of claims against the government	XXXII to XXXV
to provide for the construction of a substantial fire-proof building for the Bureau of Engraving and Printing	XXXVIII
for the proper disposition of the large accumulation of minor coins in the Treasury for which there is no demand	XXXVIII
to encourage American ship-building	XLI
to authorize the construction of a light-draught steam revenue-cutter for service on the Gulf coast between Mobile and Lake Pontchartrain	XLII
to organize the life-saving service under an administration defined by law	XLIII
to increase the compensation of keepers of life-saving stations	XLIII
to extend the benefits of the marine-hospital service to destitute American seamen returned to the United States under section 4577, Revised Statutes	XLV
that section 4405 R. S. be so amended as to give the Secretary of the Treasury authority to convene the board of superintending inspectors of steamboats at such time and place as he shall designate	XLVI
Life saving service, report of, affords a gratifying exhibit	XLIII
number of new districts organized during the fiscal year ended June 30, 1877	XLIII
number of life-saving and life-boat stations established during the same period	XLIII
an increase of the compensation of keepers recommended	XLIII
importance of the service requires that it should be placed under an administration defined by law	XLIII
improvements in life-saving apparatus	XLIII, XLIV
Light-house establishment:	
number of light-houses, light-ships, river lights, and fog-signals put into operation during the fiscal year ended June 30, 1877	XLIV
light-ship No. 42, now in course of construction; is expected to be the best ever built by the government	XLIV
attention called to the importance of providing for a new light-house at American Shoal and Rebecca Shoal, Florida reefs, for which estimates have been made	XLIV
change in the mode of paying light-house keepers suggested	XLIV
Loans, six per cent., amount of, now redeemable at the pleasure of the government	X
Marine-hospital service:	
amount of dues received during the fiscal year ended June 30, 1877	XLV
amount of expenditures during the same period	XLV
number of sick and disabled seamen treated during the year	XLV
average cost, per patient treated	XLV
recommends that the benefits of the marine-hospital service be extended to American seamen returned to the United States under section 4577, Revised Statutes	XLV
the appointment of medical officers to the grade of assistant surgeon only; and their promotion to the higher grades as vacancies occur have produced satisfactory results	XLV
Military establishment, expenses of, including river and harbor improvements and arsenals, during the fiscal year ended June 30, 1877	III
Minor coins, in circulation, and legal-tender for limited amounts since 1853	XI
large accumulation of, in the Treasury vaults for which there is no demand	XXXVIII
legislation for the disposition of, recommended	XXXVIII
Mints and assay offices, management, and amount, accuracy and perfection of work of, highly satisfactory	XIX
Money, current, the rapid appreciation of, to the coin standard should be accompanied by diminished expenses in the public service	VII

Money, paper, no system of, has yet been established in any country that in times of panic or adverse trade has prevented the drain and exhaustion of coin reserves, however large and well guarded	XV
every system of, must provide for suspension of specie payments	XV
National banks, number of, in existence on November 1, 1877	XVI
amount of receipts from tax on circulation and deposits of, for the fiscal year ended June 30, 1877	III
amount of circulating notes of, retired during the year from November 1, 1876, to November 1, 1877	XVI
amount of circulating notes of, issued during the same period	XVI
aggregate amount of circulation of, outstanding	XVI
amount of loans and discount of	XVI
general solvency of, and benefit to the people as now organized	XVI
have been less subject to revulsion or failure than any other corporations or firms	XVI
notes of, should be convertible into coin	XVI
comparison of reserves and condition of, with reserves and condition of other banking systems in specie-paying times gives assurance that they are able to redeem their notes in coin at any date fixed upon by the government	XVI
should not enjoy the franchise of circulating their own non-interest-bearing notes as money unless they are prepared to redeem them	XVI
present system of redeeming notes of, at the Treasury of the United States, can be continued after United States notes are at par with coin as well as now	XVII
will naturally hold United States notes as reserves if maintained in circulation at par with coin	XVII
security of holders of notes of	XVII
amount of capital stock of	XVII
amount of surplus fund and other undivided profits of	XVII
present market value of circulating note of	XVII
as government agents or depositaries could greatly assist in the process of refunding ..	XVII
National bank notes, amount of, issued since March 1, 1877	XII
redemption of, at the Treasury, under the present system is a great convenience to the banks and the public, and should be continued	XVIII
cost of redemption of	III
Naval establishment, expenses of, for the fiscal year ended June 30, 1877	XV
Paper money, no system of, has yet been established in any country that in times of panic or adverse trade has prevented the drain and exhaustion of coin reserves, however large and well guarded	XV
every system of, must provide for suspension of specie payments	XV
Pacific railway companies, receipts from payment of interest by, during the fiscal year ended June 30, 1877	III
Pensions, expenses on account of, during the fiscal year ended June 30, 1877	III
Public buildings, recommends that appropriations be made according to estimates for continuation of work on those now in course of construction	XLVII
recommends that no new buildings be authorized except in cases where the demands of the public service seem to make them an absolute necessity	XLVII
calls attention to the recommendation of the Supervising Architect for the construction of a building for the accommodation of the Bureau of Engraving and Printing ..	XLVI, XLVII
Public expenditures, reduction of, can only be accomplished by a careful revision of existing laws	VII
Public credit, if no questions had arisen to disturb the, six per cent. bonds could have been paid off rapidly with proceeds of four per cent. bonds sold at par in coin or its equivalent	X
the highest, can only be secured by a constant observance of every public engagement construed according to its letter and spirit	X
is injured by failure to redeem United States notes	XIII
Public debt, expense for interest on, during the fiscal year ended June 30, 1877	III
Public lands, receipts from sales of, during the fiscal year ended June 30, 1877	III
Receipts, ordinary, for the fiscal year ended June 30, 1877	III
ordinary, surplus of, over ordinary expenses	III
for first quarter of the fiscal year ending June 30, 1878	IV
estimated for the second, third, and fourth quarters of the fiscal year ending June 30, 1878	IV
estimated, for the fiscal year ending June 30, 1879	VI
Revenue, internal, receipts from, for the fiscal year ended June 30, 1877	III
Revenue, total, decrease in amount of, for the fiscal year ended June 30, 1877, as compared with 1876	IV
surplus, amount of, for fiscal year ended June 30, 1877	IV
surplus, estimated amount of, for the fiscal year ending June 30, 1878	IV
from customs, greatest loss to, arises from undervaluations	XXIX, XXX
frauds on, by undervaluation; efforts to prevent, have not been entirely successful ..	XXVII
Revenue marine service, number of vessels employed in	XLI
operations of, during the fiscal year ended June 30, 1877	XLIH
expense of maintaining the, for the fiscal year ended June 30, 1877	XLIH
cadet system provided for, by act of July 31, 1876, has been entered upon with promise of great advantage	XLII
construction of a light-draught steam-entree for service on the Gulf coast between Mobile Bay and Lake Pontchartrain recommended	XLII
Savings banks; deposits held by, and number of depositors	XIX
Silver, is of the most general use for coinage	XXI
is a part of every system of coinage; even in countries where gold is the sole standard. best measures the common wants of life, but is not a convenient medium in the larger exchanges of commerce	XXI
production of, is reasonably steady	XXI
variation in market value of, and gold, which no human law can prevent, has driven all nations to adopt one or the other as the sole standard of value, or to authorize an alternative standard of either, or to coin both at an arbitrary standard	XXI
France and other Latin nations have suspended the coinage of	XXI
provisions of act of February 21, 1853, relative to coinage of, and ratio of value to gold ..	XXII

	Page.
Silver, other conditions on which, can be maintained in circulation at par with gold..	XX, XXI, XXII
great changes have occurred in the market value of, since 1873	XXIII
evil effects that would follow the free coinage of	XXIII, XXIV
market value of, is fixed by the world and not by the United States alone, and is af-	
fectured by the whole mass in the world	XXIV
free coinage of, will impair the pledge made of the customs duties by the act of Feb-	
ruary, 1862, for the payment of the interest on the public debt	XXIV
Silver coin, beneficial results likely to follow the issue of, in pursuance of the general pol-	
icy of the act of 1853	XXIX
act of January 14, 1875, provides for the substitution of, for fractional currency	XIX
issue of, in exchange for legal-tenders for a limited amount under joint resolution of	
July 22, 1876	XIX
amount to be issued limited	XIX
fractional, repeal of the limitation upon the amount of, to be issued in exchange for	
United States notes recommended	XIX
fractional, is readily taken by the people and maintained at par with United States	
notes without difficulty	XX
estimated amount of, in circulation in 1860 at par with gold	XX
amount of, maintained in circulation in Great Britain at par with gold	XX
true limit of, is the demand that may be made for its use	XX
no danger of an excess of, being issued if only issued in exchange for United States	
notes	XX
Silver dollars, have not been in circulation in the United States since 1837	XI
old, coinage of, recommended by the commission organized by Congress	XXI
if restored to our coinage, should be subject to the same rules as to issue and converti-	
bility as other forms of money	XXI
coinage and issue of, recommended with such legislative provisions as will maintain	
them at par with gold	XXI
whole amount of, issued prior to 1853	XXIII
amount of, issued between 1853 and 1873	XXIII
Silver and gold, various experiments made with a view of keeping both in circulation	XXII
ratios of value established at different times	XXII
an international convention of commercial nations suggested as a means of securing a	
more fixed relative value of	XXV
Sinking-fund, amount due, for the fiscal year ended June 30, 1877	IV
deficiency on account of, for same period	V
amount required for, for the fiscal year ending June 30, 1878	V
estimated deficit on account of, for the same period	V
amount required for, for the fiscal year ending June 30, 1879	VI
Sitka, Alaska, port of, abolition of, recommended	XXX
Specie and bullion, exports and imports of	XXVIII
Specie payments, every system of paper money must provide for a suspension of	XV
power to make suspension of, should not be intrusted to individuals, but should be	
determined by events and conditions known to all	XV

for fiscal year 1879, estimate of.....	130

Commissioner of Internal Revenue—Continued.

Page.

Assessments:

amount of, in each class and in all classes for the fiscal years ended June 30, 1876 and 1877, compared	116
reasons for increase or decrease in the amount of, in the several classes named during the past year	116, 117, 118

Bank-checks:

number of transactions involved in payment of tax on, during the fiscal year 1876-'77 (94,500,060)	119
receipts from, during the fiscal year 1876-'77	119
tax on, not burdensome	119

Banks and bankers exclusive of national banks and savings-banks:

average capital of, for twelve months ended May 31, 1876	106, 112
average capital of, for twelve months ended May 31, 1877	109, 112
average capital of, invested in United States bonds for the years ended May 31, 1876, and 1877	113
average deposits of, for twelve months ended May 31, 1876	106, 112, 113
average deposits of, for twelve months ended May 31, 1877	109, 112, 113
average taxable capital of, for twelve months ended May 31, 1876	106, 113
average taxable capital of, for twelve months ended May 31, 1877	109, 113
distribution of, among the States and Territories	106
number of, for six months ended November 30, 1875 (3,767), and May 31, 1876 (3,802)	106
tax collected on capital of, during fiscal years ended June 30, 1876 and 1877	112, 113
tax collected on deposits of, during fiscal years ended June 30, 1876 and 1877	112, 113

Banks and bankers, exclusive of national banks, but including savings-banks:

average capital of, for twelve months ended May 31, 1876	108
average capital of, for twelve months ended May 31, 1877	111
average deposits of, for twelve months ended May 31, 1876	108
average deposits of, for twelve months ended May 31, 1877	111
average taxable capital of, for twelve months ended May 31, 1876	108, 113
average taxable capital of, for twelve months ended May 31, 1877	111, 113
average taxable deposits of, for twelve months ended May 31, 1876	108, 113
average taxable deposits of, for twelve months ended May 31, 1877	111, 113
distribution of, among the States and Territories	108
number of, for six months ended November 30, 1875 (4,489), and May 31, 1876 (4,519)	108
taxable capital and deposits of, during fiscal year 1876-'77 (\$774,077,269)	119
tax collected on capital and deposits of, during fiscal year 1876-'77 (\$3,824,299)	119
tax on capital and deposits of, can be easily borne	119
tax on capital and deposits of, one-half of one per cent. of taxable amount	119

Banks, savings:

average deposits of, invested in United States bonds for the years ended May 31, 1876 and 1877	113
tax collected on deposits of, during twelve months ended June 30, 1876 and 1877	112, 113

Banks, savings, having a capital stock:

average capital of, for twelve months ended May 31, 1876	107, 112
average capital of, for twelve months ended May 31, 1877	110, 112
average capital of, invested in United States bonds during the years ended May 31, 1876 and 1877	113
average deposits of, for twelve months ended May 31, 1876	107, 112
average deposits of, for twelve months ended May 31, 1877	110, 112
average taxable capital of, for twelve months ended May 31, 1876	107, 113
average taxable capital of, for twelve months ended May 31, 1877	110, 113
average taxable deposits of, for twelve months ended May 31, 1876	107, 113
average taxable deposits of, for twelve months ended May 31, 1877	110, 113
distribution of, among the States and Territories	107
number of, for six months ended November 30, 1875 (27) and May 31, 1876 (26)	107
tax collected on capital of, during fiscal years ended June 30, 1876 and 1877	112, 113
tax collected on deposits of, during fiscal years ended June 30, 1876 and 1877	112, 113

Banks, savings, having no capital stock:

average deposits of, for twelve months ended May 31, 1876	107, 112
average deposits of, for twelve months ended May 31, 1877	109, 112
average taxable deposits of, for twelve months ended May 31, 1876	107, 113
average taxable deposits of, for twelve months ended May 31, 1877	109, 113
distribution of, among the States and Territories	107
number of, for six months ended November 30, 1875 (695) and May 31, 1876 (691)	107

Cigarettes:

increase in collections on, in 1876-'77 over 1875-'76 \$126,333.78, or nearly 93½ per cent.	101
number of, exported during fiscal year 1876-'77 (7,396,000)	102

Cigars:

decrease in collections on, during the past fiscal year, while there was an increase in the collections on cigarettes, accounted for in part by the unequal rates at which they are taxed—the tax on cigars being nearly four times greater than the tax on cigarettes	101
decrease in collections on, in 1876-'77 as compared with 1875-'76 (\$170,322.08), or a little over ½ per cent.	101
imported during last fiscal year, weighed, 536,524 pounds, of which 61,319 pounds were exported	102
imported, withdrawn for consumption, weighed, 475,205 pounds, estimated to be equivalent in number to 35,200,000, the internal revenue tax on which is \$211,200	102
number of, exported during the past fiscal year 1,916,975	102

Cigars, manufacturers of:

distribution of among the States and Territories	105
number of, in special-tax year ended April 30, 1877 (15,135)	105

Circular, "Special, No. 165," concerning the method of determining the quantity of grain actually used by a distiller:

collectors authorized to delay collections of certain assessments under, until the matter has been laid before Congress	132
how assessments under, could have been avoided by distillers	131, 132

provisions in second section of House bill 4630 relating to the abatement and refunding of certain assessments on distilled spirits	132
provisions of House bill No. 3926 relating to tobacco	103
Manufacturers of tobacco:	
distribution of, among the States and Territories	105
number of, in special-tax year ended April 30, 1877 (950)	105
Matches:	
receipts from tax on, during fiscal year 1876-'77 (\$2,982,275)	119
if taxation is to be reduced, the tax on, could be repealed; reasons stated	119
Officers, internal-revenue:	
grounds upon which prosecutions of, under State laws were based	121
Peddlers of tobacco:	
distribution of, among the States and Territories	105
number of, in special-tax year ended April 30, 1877 (1,847)	105
Perfumery:	
american alcohol cannot be used in manufacture of, without payment of tax	118
alcohol used in manufacture of, imported and withdrawn without payment of tax	118
2,500 barrels of alcohol annually used in manufacture of, for export	118
Railroad corporations:	
amount of tax reported for collection since July 1, 1876, but not paid (\$931,911.32)	115
number of, from which collections have been made since July 1, 1876 (22)	115
number of, reported for collection or suit since July 1, 1876, but not paid (44)	115
taxes collected from, since July 1, 1876, amount of (\$113,913.13)	115
Real estate belonging to United States acquired under internal-revenue laws:	
approximate value of (\$500,000)	115
custody of, intrusted to office of Commissioner	115
expenses incurred in management and sale of, no provision for paying	115
sale of, may be authorized by Commissioner	115
schedule of	114
services for examining a portion of, with a view to sell, cost of (\$600)	115
should be soon disposed of	115
Receipts, aggregate:	
amount of, for fiscal year 1876-'77 (\$118,995,184)	128
basis of estimate of, for current fiscal year	132-135
estimate of, for current fiscal year (\$120,000,000)	135
Receipts:	
for the first four months of the fiscal year 1876-'77 as given in reports for 1876 and 1877, discrepancies between statements of, how accounted for	133
from each source and from all sources for the first four months of the fiscal years ending June 30, 1877 and 1878, statement of	132, 133
Rectifiers:	
distribution of, among the States and Territories	105
number of, in special-tax year ended April 30, 1877 (1,130)	105
Relief from taxation:	
objects considered with reference to	118, 119
Revenue agents:	
aggregate of salaries paid to (\$58,683) and expenses of (\$27,304), during the fiscal year 1876-'77	123
assigned to general duty, how employed	124

Commissioner of Internal Revenue—Continued.

Revenue agents:	
commended for the faithful and efficient discharge of their duties and for the value of their services.	124
number of, assigned to districts (17)	124
number of, assigned to general duty (7)	124
number of, employed during the past year (25)	123
one officer in charge of, in office of Commissioner	124
present corps of, men of ability and of great experience in the service	123
present number of, inadequate to the requirements of the service	124
summary of work performed by, during the fiscal year 1876-'77	124
Salaries allowed to collectors during the fiscal year 1876-'77:	
basis of recommendation for	125
schedule of	125
Snuff:	
receipts from, very nearly the same from year to year	100
Solicitor of the Treasury:	
action taken in compromise cases in office of	116
Special bonded warehouses for storage of grape-brandy:	
act establishing, approved March 3, 1877	99
act establishing, secures, thus far, safety of goods stored in them	99
amendment to act establishing, providing for the employment of an officer known to the law as "storekeeper and gauger" in place of "a storekeeper and a gauger" at each warehouse, suggested.	99
grape-brandy in warehouse September 30, 1877, distribution of, among	99
names of proprietors of	99
no spirits deposited in, prior to June 30, 1877, reasons why	99
number of, established prior to November 28, 1877 (6)	99
Quantity of grape-brandy bonded and withdrawn from bond, tax-paid and for export, and remaining in, September 30, 1877.	99
Spirits and tobacco:	
no change should be made in rates of tax on, reasons why	119
Spirits, distilled:	
at 70 cents per gallon, quantity of, in bond June 30, 1877, unaccounted for by collection districts	95
at 90 cents per gallon, quantity of, in bond June 30, 1877, unaccounted for by collection districts	96
average quantity of, in warehouse at close of fiscal years 1875, 1876, 1877, about 13,000,000 gallons	135
average quantity of, in warehouse November 1, 1875, 1876, 1877, nearly 10,000,000 gallons	135
average quantity of, withdrawn, tax-paid, during the past three years, nearly 57,000,000 gallons per annum	135
bonded and withdrawn from bond during the fiscal year 1876-'77, quantities of	95
decrease in production and withdrawal of, during the first four months of the current fiscal year, causes of	134, 135
exclusive of brandy, aggregate production of, in taxable gallons, during the fiscal year 1876-'77	95
in bond July 1, 1876, and June 30, 1877, quantities of	95
increase in exportation of, during past fiscal year over preceding fiscal year, represents about the increase in production of, during same period	135
production of, during current fiscal year estimated to equal if not exceed the production of last year	135
quantities of, exported and unaccounted for during the fiscal year 1876-'77	95
quantities of, exported and unaccounted for June 30, 1876	95
quantities of, exported during the fiscal year 1876-'77	95
quantities of, lost by casualties during the fiscal year 1876-'77	95
quantities of, produced and withdrawn from warehouse during the fiscal years 1875, 1876, and 1877; also the quantity on hand at the beginning and close of each of those years, statement of	134
quantities of, produced and withdrawn from bond, with the amount of tax paid thereon, for the first four months of the fiscal year 1877-'78	97, 98, 134
quantities of, produced, withdrawn, &c., during the first four months of fiscal years 1876, 1877, and 1878, statement of	133
quantity of, required for export and home consumption, about 60,000,000 gallons per annum	104, 135
quantities of, removed in bond for export during the fiscal years 1875, 1876, and 1877	104
quantities of, withdrawn, tax-paid, during the fiscal year 1876-'77	95
quantities of, withdrawn for export during first four months of fiscal year 1877-'78, by collection districts, statement of	134
quantity of, withdrawn for scientific purposes during the fiscal year 1876-'77	95
receipts from each source and from all sources relating to, for fiscal years 1875-'76 and 1876-'77, compared	94
Stamps, internal revenue:	
estimated annual saving in cost of, by reduction in price of paper and cost of printing, over \$63,000	126
number of, issued during 1876-'77 (737,697,286)	126
printing of most kinds of, transferred to the Bureau of Engraving and Printing	126
six persons in New York superintend the manufacture and distribution of, printed in that city	127
stock of, brought from New York in September and October last, and now issued from the Treasury Department	126
transmission of, through United States mail since August 15, 1876, satisfactorily performed	126
value of, issued during 1876-'77 (\$126,501,319.47)	126
Statistics:	
relating to seizures, rewards, compromises, criminal actions, civil actions <i>in personam</i> , actions <i>in rem</i> , &c.	113, 114, 115
Still, illicit:	
character of owners of	120

	Page.
Commissioner of Internal Revenue—Continued.	
Sills, illicit:	
number of, seized since July 1, 1876 (744)	122
producing capacity of, operated during past year	120
where located	120
Stills, manufacturers of:	
distribution of, among the States and Territories	105
number of, in special-tax year ended April 30, 1877 (23)	105
Tables:	
titles of, for fiscal year 1876-'77, and years previous	135, 136
Tobacco:	
receipts from all sources relating to, for fiscal year 1876-'77 (\$41,106,546.92)	100
receipts from all sources relating to, greater in 1876-'77 than during any previous fiscal year	101, 103
receipts from all sources relating to (\$1,311,207.01), greater in fiscal year 1876-'77 than in 1875-'76	101
receipts from each source and from all sources relating to, during the first four months of the current fiscal year (\$544,837.91) greater than during the corresponding period of the last fiscal year	133
receipts from each source and from all sources relating to, for fiscal years 1875-'76 and 1876-'77, compared	100, 101
Tobacco and snuff:	
exported and accounted for during the fiscal year 1876-'77, quantities of	103
removed in bond for export during the fiscal year 1876-'77, quantities of	103
removed in bond for export prior to July 1, 1876, and unaccounted for that day, quantities of	103
removed in bond for export prior to June 30, 1877, and unaccounted for that day, quantities of	104
removed in bond for export prior to June 30, 1877, and unaccounted for that day when bonded	104
removed in bond for export during the fiscal years 1875, 1876, and 1877, quantities of	104
Tobacco factories:	
number of, seized since July 1, 1876 (21)	122
Tobacco frauds:	
character of men engaged in	120
measures taken to break up	120, 121
where mostly committed	120
Tobacco, manufactured:	
increased receipts from, and increase in production and exportation of, reasons for	103
production of, during last fiscal year greater than for any previous fiscal year except 1875	103
Tobacco, manufactured, cigars, and cigarettes:	
quantity of, removed directly from manufactories for exportation during 1876-'77 greater than during any previous fiscal year	103
Tobacco, snuff, cigars, and cigarettes:	
production of, during the fiscal years 1875-'76 and 1876-'77 compared	102
Comptroller of the Currency	139
Banks:	
number of national banks organized, and number organized during the year	140
total number of banks and bankers in the country, with their capital and deposits	141
Banks and resumption	143
Currency and its coin value, annually, from 1865 to 1877	164
Dividends	176
provisions of law relating to	176
policy with regard to, that should be pursued when losses have been sustained	176
number and capital of national banks that made none, from March, 1876, to September, 1877	171
Individual liability of shareholders	186
Insolvent banks	181
list of national banks for which receivers have been appointed since last report	181
list of national banks failed since last report, to the creditors of which dividends have been paid	181
list of other insolvent national banks, to the creditors of which dividends have been paid since last report	181
list of insolvent national banks, in favor of creditors of which dividends have been declared since November 1, 1877	182
Interest rate in New York City, and of the Bank of England, annually, from 1874 to 1877	166
Legal-tender notes by denominations	180
Legislation recommended:	
authorizing issue of circulating notes to national gold-banks equal to ninety per cent. of bonds deposited by them	155
requiring national gold banks to keep on deposit with Assistant Treasurer at San Francisco gold coin for redemption of their circulation, and to redeem their notes at their own counters and at the office of the Assistant Treasurer	155
authorizing national banks to hold a portion of their reserve in small four-per-cent. bonds	158
repealing tax on bank capital and deposits	175

Redemption	178
Reserve	157
percentage of reserve held by English and Scotch banks	157
of Scotch and English banks held in English consols	158
issue of small bonds by the French Government	157
estimated amount of English consols held by English banks	158
of national banks, recommended that a portion may be held in small four-per-cent. bonds	158
Security of circulating notes	156
saving to the Government by authorizing the issue of circulation upon four-per-cent. bonds, free from tax	157
Specie in bank, and estimated specie in the country	163
State banks and savings-banks	182
form of bill, with forms for reports, recommended to State legislatures for obtaining and publishing statements of condition of banks, savings institutions, and trust companies organized under State laws	184
Synopsis of Supreme Court decisions	189
Tables, list of	201
[The following tables appear in the report of the Comptroller of the Currency as printed in this volume. The report printed as a separate volume contains numerous other tables, of which there is a full list on pages 65, 66, and 67 of that volume, and also statements showing the resources and liabilities of each national bank in operation on October 1, 1877. At the end of the volume an alphabetical index of the cities and towns in which national banks are located will be found.]	
table of the resources and liabilities of the national banks in October of each year, from 1869 to 1877	140
table of the resources and liabilities of the national banks on October 1, 1877, classified by reserve cities, &c	141
table, by geographical divisions, of the number, capital, and deposits of the State banks and private bankers, &c., for the six months ending May 31, 1877	142
table, similar to the one preceding, for the six months ending November 30, 1876	142
table of the circulation, deposits and bank-balances, and specie of the banks of the country, with the ratios of specie to circulation and to circulation and deposits, from 1835 to 1842, and from 1850 to 1858	144
table of circulation, deposits and bank-balances, and legal-tender funds of the national banks, with the ratios of legal-tender funds to circulation, and to circulation and deposits, from 1870 to 1877	144
table showing the circulation, deposits and bank-balances, and specie of the State banks in New England and New York, with the ratios of specie to circulation, and to circulation and deposits, from 1835 to 1842, and from 1850 to 1858, and also the circulation, deposits and bank-balances, and legal-tender funds of the national banks in New England and New York, with the ratios of legal-tender funds to circulation, and to circulation and deposits, from 1870 to 1877	145
table showing the number, circulation, deposits, and specie of the State banks in New York City, with the ratios of specie to circulation and to circulation and deposits, from 1855 to 1860, and also the number, circulation, deposits and legal-tender funds of the national banks in New York City, with the ratios of legal-tender funds to circulation and to circulation and deposits, from 1872 to 1877	146
table showing the average number, circulation, deposits, and reserve-funds of the national banks in New York City, other reserve cities, and the remainder of the country, with the ratios of legal-tender funds to circulation and to circulation and deposits, and of reserve-funds to circulation and deposits, 1870 to 1877	147
table showing the value of the legal-tender paper dollar in each year, from 1863 to 1877	149
table showing the weight of the gold coin represented by the legal-tender paper dollar in each year, from 1863 to 1877	149
table, by States and geographical divisions, of the number of national banks organized, closed, and closing, and in operation, with their capital, bonds, and circulation, November 1, 1877	151
table of the outstanding circulation of the national banks on January 1 of each year from 1868 to 1877, and on November 1, 1877	152
table showing, by States, the issue and retirement of circulation for the year ending November 1, 1877, and the total amount issued and retired since June 20, 1874	153
table showing the issue and retirement of national bank notes and the deposit and retirement of legal-tender notes, monthly, since the passage of the act of January 14, 1875	154
statement giving similar information by fiscal years	154
statement showing concisely the operations of the acts of June 20, 1874, and of January 14, 1875, to December 1, 1877	155
table of the amounts and kinds of United States bonds held as security for national bank circulation	156
table of the liabilities of the national banks, and of the reserve required and held, at three dates in each year from 1872 to 1877	158
table showing the liabilities and reserve of the national banks since June 20, 1874, at the dates given	160
table showing the weekly movement of the legal-tender reserve of the New York City national banks in the month of October, from 1870 to 1877	162
table of the liabilities and reserve of the New York City national banks in October of each year from 1872 to 1877	162
table of the amounts of specie held by the national banks at the dates of their reports, from October, 1868, to October, 1877	163
statement showing the movement of coin and bullion in the United States for the fiscal year 1876-'77, and the estimated amount in the country at the end of that year	164
statement of the public debt at its maximum	164

	Page.
Comptroller of the Currency —Continued.	
table of the amounts and kinds of outstanding United States and national-bank issues, from 1865 to 1877, at the dates given	164
table showing the transactions of the New York clearing-house, yearly, from 1854 to 1877	164
table showing the classes of loans of the national banks in New York City in October of each year from 1874 to 1877	165
statement of the rates of interest in New York and London, 1874 to 1877	166
table showing the United States taxation of national banks, yearly, from 1864 to 1877	166
statement of the amount of United States taxes collected from banks, other than national, yearly, from 1864 to 1877	167
table, by States and reserve cities, of the capital and the amount and rate of taxation of the national banks for the year 1876	167
table of the taxation of national banks, yearly, from 1866 to 1876	168
table of the rates of taxation of the national banks in certain States for the years 1874, 1875, and 1876	169
table of the rates of taxation of the national banks in certain cities for the years 1875 and 1876	169
table, by geographical divisions, of the capital, and the amount and rates of taxation, of the national banks, for the years 1874, 1875, and 1876	169
table, by States and reserve cities, of the amount of the losses charged off by national banks during the year ending September 1, 1877	170
table of the amount of losses charged off by the national banks in the principal cities in the years 1876 and 1877	171
table, by geographical divisions, of the number and capital of the national banks which made no dividends in 1876 and 1877	171
table showing the capital, surplus, dividends, and earnings of the national banks, semi-annually, from 1869 to 1877	177
table, by geographical divisions, of the ratios to capital and to capital and surplus of the dividends and earnings of the national banks for the years 1875, 1876, and 1877	177
table, by geographical divisions, of the ratios to capital and to capital and surplus of the dividends of the national banks semi-annually, from 1872 to 1877	178
table of the amounts of national-bank notes received by the Comptroller and at the redemption agency of the Treasury, from June 20, 1874, to November 1, 1877	178
table, by denominations, of the number and amount of national-bank notes issued and redeemed from 1863 to 1877, and the number and amount outstanding November 1, 1877	179
statement of the amount of national-bank notes destroyed, yearly, from 1863 to 1877	179
table showing, by denominations, the amount of national-bank notes, and of legal-tender notes, and the total outstanding on November 1, 1877	180
table, by States and reserve cities, and geographical divisions, of the number of State banks, savings-banks, &c., with their average capital and deposits, and the tax thereon, for the six months ending May 31, 1877	183
synopsis of judicial decisions relative to national banks	189
names and compensation of officers and clerks in the Office of the Comptroller of the Currency, and expenses of the office for fiscal year ending June 30, 1877	205
table showing, by States, the issue of circulation and the deposit of legal-tender notes to retire circulation, from June 20, 1874, to December 1, 1877, and the amount remaining on deposit at the latter date	207
table, by States and reserve cities, of the ratios to capital, and to capital and surplus, of the dividends and earnings of the national banks, from March 1, 1873, to September 1, 1877	208
table showing the liabilities and reserve of the national banks at the dates of their reports, from October, 1871, to October, 1877	210
table showing, by States and reserve cities, the liabilities and reserve of the national banks on October 1, 1877	212
table showing the weekly liabilities and reserve of the national banks in New York City, as reported to the clearing-house, in September and October of each year from 1870 to 1877	214
table showing, by States, reserve cities, and geographical divisions, the number of State banks, savings-banks, &c., with their average capital and deposits, and the tax thereon, for the six months ending November 30, 1876	215
table showing the aggregate resources and liabilities of trust companies, 1875, 1876, and 1877	216
table showing the aggregate resources and liabilities of savings-banks from 1874 to 1877	216
table, by States, of the aggregate deposits of savings-banks, the number of their depositors, and the average amount due to each, in 1876 and 1877	216
aggregate resources and liabilities of the national banks at the dates of their reports, from 1863 to 1877	217
Taxation	166
