Fiscal year 1903.

The revenues of the Government for the current fiscal year are thus estimated upon the basis of existing laws:

From customs	\$300,000,000.00
From internal revenue	222,000,000.00
From miscellaneous sources	40,000,000.00
From Postal Service	132,020,630.00
Total estimated revenues.	694,020,630.00
The expenditures for the same period are estimated	as follows:
For the civil establishment	\$126,000,000.00
For the military establishment	130,000,000.00
For the naval establishment	85,000,000.00
For the Indian Service	40 000 000 00
	13,000,000.00
For pensions	13,000,000.00 138,000,000.00
For pensions For interest on the public debt	
For pensions For interest on the public debt. For Postal Service.	138,000,000.00

Fiscal year 1904.

43,000,000.00

It is estimated that upon the basis of existing laws the revenues of the Government for the fiscal year 1904 will be:

	0
From customs	\$315,000,000.00
From internal revenue	
From miscellaneous sources	
From Postal Service	144, 767, 664.00
Total estimated revenues	729, 767, 664.00

The estimates of appropriations required for the same period, as submitted by the several Executive Departments and offices, are as follows:

OPERATIONS OF THE TREASURY.

The Treasurer of the United States in his annual report distinguishes, as the striking features of the condition of the Treasury, the magnitude of the available cash balance and the unprecedented holdings of gold. Among the notable events of the last fiscal year are the diminution of revenues due to the repeal of war taxes, the reduction of expenditures, and the changes in the composition of the paper currency. United States notes and Treasury notes were redeemed in gold to the amount of \$17,482,590 of the former and \$1,274,590 of the latter, without any impairment of the gold reserve of \$150,000,000.

The increase of the available cash balance was \$33,780,563, bringing the total on June 30 to \$212,187,361. By October 1, 1902, the total increased to \$221,253,394, but was reduced by November 1 to \$206,421,878.30. Inclusive of the gold reserve, the available balance on June 30 was \$362,187,361, the largest in the history of the Department, for while these figures are exceeded by the records of 1879, the latter included in the account the funds held temporarily against called bonds. After allowing for subsidiary silver, silver bullion, and minor coin not available for large payments, there remained in the Treasury vaults November 1 a fund of over \$56,000,000, which is slightly in excess of what is deemed a fair working balance. Nearly half of the net available cash balance, over and above the reserve of \$150,000,000, was in gold and gold certificates, which amounted to \$103,801,290, and increased by November 1 to \$113,542,933, a sum far exceeding the outstanding liabilities.

The first quarter of the new fiscal year was marked by an increase in customs, offsetting the reduction by the new statutes in internal revenue. Both the receipts and the expenditures were in excess of the corresponding months in the year preceding. On November 1 a surplus of \$13,296,491 was shown for the current fiscal year.

In the total amounts of bonds held for national banks as security for circulating notes, the most significant changes were a reduction of nearly \$14,000,000 between October and June, and an increase of nearly \$9,000,000 between June and October. On June 30 all of the 2 per cent consols were on deposit in the Treasury with the exception of \$42,394,250, and by November 1 all but \$35,196,700. The banks with securities pledged for circulation on June 30 numbered 4,553, an increase of 366 for the year. More than 50 per cent of the banks had deposits of less than \$100,000 for circulation, and nearly one-third had less than \$25,000, while 479 had no more than \$10,000 each. Under a ruling of the Secretary, State and city bonds amounting to \$19,474,500 were received to November 10 as part security for public deposits to release United States bonds which were transferred to secure circulation.

The unparalleled volume of gold certificates outstanding is the result of the freedom with which they can be issued in consequence of the natural flow of gold from many sources into the Treasury. They are issued against deposits of coin and are paid out for gold bullion and the obligations of the Government. On June 27 they for the first time exceeded in volume the United States notes. The increase in the fiscal year was \$57,594,400, which was followed by another of \$16,699,000 in the next three months, bringing the total up to \$363,311,089.

The Treasury derives gold from several sources. Substantially, the whole receipts from customs are in gold or the representative certificates. The total acquired through the custom-houses during the year is placed at over \$215,000,000. Deposits of gold amounting to \$22,021,500 were made in New York for the transfer of currency to other points. These deposits began early and were larger than in any recent years except 1900, and for the first time the Treasury was able to receive gold and supply the kinds and amounts of paper currency desired, which were usually United States notes and silver certificates of small denominations. The gold received at the mints and assay offices is paid for mostly by checks. For deposits of gold in San Francisco payments were made by telegraph in New York to the amount of \$10,473,000 before November 1.

During the year ended September 30, 1901, there was an addition of \$75,956,845 to the paper currency of \$20 and under, while only \$9,794,500 was added to the higher denominations. Inclusive of gold coin, the smaller denominations constituted over 80 per cent of

the whole stock of money. In the next twelve months the increase of the smaller denominations was \$71,283,129, and of the higher only \$4,745,750, raising the percentage of the former to over 83. The demands of the people for notes of small denominations have surprised the closest students of the currency. In 1890 there were 37,065,880 pieces of Government paper issued, of the average value of \$6.61. In 1902 the issue was 116,697,874 and the average value \$4. The facilities for production, so far as the Treasurer's office is concerned, have been often increased, and now seem to be sufficient for present requirements. In July, August, and September, 1902, the issues and redemptions were each over 7,000,000 pieces greater than in the same months of the preceding year. The average value has fallen to \$3.62. The currency distributed from Washington to the subtreasuries and banks during the fiscal year amounted to \$387,319,888, against \$319,912,188 in the year preceding.

From the occupation of the Philippines to September 15 last, an aggregate of \$27,331,050 in American money was sent there to be used in Government disbursements. Of this, \$15,680,000 was in paper, \$10,290,000 in gold, and the remainder in silver and minor coin. There is no record to show what has been returned.

The act of March 14, 1900, has been carried out in accordance with the spirit and letter of the statute. The parity of all kinds of currency has been maintained. For the present, no silver certificates are issued of higher denomination than \$5, and no United States notes of any other denomination than \$10, while gold certificates alone are issued in the higher forms. As a consequence, the paper currency is gaining in simplicity. Generous Congressional action has made it possible to provide a fair reserve of finished notes of all denominations ready for issue, and the Treasury has been able to meet all demands for currency without any restrictions upon the denominations paid out or the kinds of money received in return. The receipts for redemption and exchange during the fiscal year amounted to \$723,275,246, an increase of \$54,864,865 over 1901.

National-bank notes amounting to \$171,869,258, equal to 48 per cent of the average outstanding, were presented during the year for redemption, an increase of \$24,382,681 over the previous year. In the first quarter of the current fiscal year presentations for redemption amounted to \$39,791,201, an increase of \$3,283,510 over the same period in 1901. The volume of notes outstanding was further increased \$10,321,507, making the aggregate \$366,993,598. The expenses of redemption for the fiscal year were \$153,796, which have been assessed upon the banks at the rate of \$0.92444 per \$1,000 of their notes redeemed.

There was unusual activity in the movement of silver and minor coin to and from the Treasury. The shipments of silver dollars

reached \$40,404,325, exceeding all former records, and the returns for exchange were \$2,710,690 greater than the issues. The amount of subsidiary coin outstanding was increased by \$6,486,014 to \$85,721,228. A recoinage of \$4,331,043 of all kinds of uncurrent coins was executed, at a loss of \$198,148 on the original face value. There was a marked falling off in the amount of spurious coin and paper money presented.

THE MINT SERVICE.

The mints at Philadelphia, New Orleans, and San Francisco were in operation throughout the fiscal year. The total number of coins struck was 191,419,506, of the value of \$94,526,678.12. Gold coinage amounted to \$61,980,572.50, silver dollars to \$19,402,800, subsidiary silver coins to \$10,713,569.45, and minor coins to \$2,429,736.17. Gold bullion in the mints increased during the year from \$109,219,493 to \$124,083,823. The coinage of silver dollars was wholly from bullion purchased under the act of July 14, 1890. Of this, there remained on July 1, 1902, 33,218,712 fine ounces.

The new mint edifice at Philadelphia was occupied in October, 1901, and with its equipment now constitutes probably the most modern and complete coinage establishment in the world. ultimate capacity when fully equipped will be much beyond what is at present required. The total appropriation made for equipment was \$440,185, of which \$349,720.84 had been expended up to July 1, The contract for the interior construction of the new mint at Denver has been awarded. That machinery and other equipment may be ready for installation when the building is completed, a further appropriation for that purpose should now be made. The mint at San Francisco is being supplied with new machinery to bring its equipment up to the standard of efficiency established at Philadel-The mint at New Orleans has been engaged for several years almost wholly upon the coinage of silver, and the approaching exhaustion of the supply of silver bullion in the Treasury raises the question as to the employment of this institution in the future. opening of the new mint at Denver will provide a natural place of deposit for the gold bullion produced in the Central West, the mint at San Francisco will receive the production and imports of the Pacific coast, and the mint at Philadelphia will receive the imports The receipts of gold at New Orleans do not justify at New York. the continuance of coinage operations there. In view of these facts, the Director of the Mint recommends that after June 30, 1903, the New Orleans mint be reduced to an assay office.

The stock of subsidiary silver in the country is now limited by law to \$100,000,000, and that aggregate has been reached. The

amount in the Treasury on the 1st day of October, 1902, was \$8,082,371.28, and as this was distributed among 10 offices and included all denominations and a considerable amount that was uncurrent, it is apparent that the ability of the Treasury to meet further demands from the public is very limited. There is pressing need for action by Congress, and it is recommended that the limit upon the stock of subsidiary silver coin be entirely removed; that the requirement that \$1,500,000 of silver dollars be coined monthly be repealed, and that the entire stock of silver bullion now in the Treasury be converted into subsidiary coin.

The total earnings and gains of the Mint Service, including seigniorage on silver dollars, subsidiary silver coin, and minor coin, exceeded the expenditures by \$9,460,994.12.

The earnings and gains were as follows:

Parting and refining charges	\$187,099.66
Parting and refining charges Alloy charges	10, 920. 61
Melting, assaying, and stamping charges	45, 490. 16
Seigniorage on standard silver dollars	5,824,683.44
Seigniorage on subsidiary silver coin	3, 269, 802. 42
Seigniorage on minor coin	1,919,370.25
Profits on manufacture of proof coins and medals	1,710.88
Gains on bullion deposits	81,551.36
Proceeds from sale of old material.	10,462.83
Special assays, amount received for	3,467.00
Sale of by-products	16,777.55
Amount received for manufacture of counting boards, etc	117.75
Gain on silver "stock" medals, melted	. 82
	

The expenditures, including new equipment, were as follows:

Equipment, Philadelphia mint	\$191,864.61
Equipment, Denver mint	1,790.73
Transfer of gold coin and bullion between mints and assay offices	66,964.01
Amount paid in salaries and wages	1,244,828.02
Contingent expenses (less wastage and loss on sweeps sold)	323, 447, 44
Wastage and loss on sale of sweeps	30, 289. 93
Expense of distributing minor coin	
Loss on bullion shipped to mint	94.49
Loss on recoinage, minor coin.	10,959.37

The production of gold in the United States during the calendar year 1901 is estimated at \$78,666,700. The industrial consumption during the year is estimated at \$21,868,956. The net imports of gold during the fiscal year ended June 30, 1902, were \$3,452,304. The stock of gold coin in the country, including bullion in the mints on June 30, 1902, is estimated at \$1,192,395,607.

ENGRAVING AND PRINTING.

The general prosperity of the country is probably in no way better shown than in the business of the Bureau having charge of the work of engraving and printing the securities and stamps needed in the business of the Department. During the year there has been an enormous increase in the demand for these securities and stamps. At the commencement of the year the Treasurer of the United States required 72,000 sheets a day of United States notes and silver certificates. By October 1, 1901, this had increased to 88,000 sheets a day; by November 25, 1901, to 112,000; by December 3, 1901, to 128,000; and early in January, 1902, to 136,000, or nearly double the amount supplied daily at the beginning of the year. The total number of sheets of notes and bonds delivered during the year was 36,586,052, the total sheets delivered during the preceding year being 24,303,731, an increase of 12,282,321.

The demands of the Commissioner of Internal Revenue for internal revenue stamps caused a delivery of 54,572,605 sheets, being an increase of 1,623,437. To meet the requirements of the Postmaster-General for postage stamps, 45,880,080 sheets were delivered, being an increase of 3,710,287 over the previous year. The deliveries of miscellaneous work were 2,135,599 sheets during the fiscal year 1901 and 2,128,622 sheets in 1902, a slight decrease.

The aggregate of all classes of work increased from 121,558,291 to 139,167,359 sheets, a total increase of 17,609,068. The aggregate amount of work delivered during the year was 15 per cent greater than that in any previous year in the history of the Bureau. In addition to this large increase in the amount of securities and stamps completed and delivered, the stock of unfinished work in the Bureau of Engraving and Printing was doubled.

The amount of United States notes and silver certificates in the reserve vault of the Treasury of the United States was increased more than threefold. This will permit these notes to become thoroughly seasoned before issue, which will add greatly to their appearance and wearing qualities.

In view of the expiration of the charter period of twenty years for which national banking associations were authorized to extend their corporate existence by act of July 12, 1882, it became necessary during the fiscal year to prepare new designs for circulating notes for national banks. New designs of backs and faces for such notes of the denominations of five, ten, twenty, fifty, and one hundred dollars were accordingly engraved, and currency, known as the series of 1902, issued to banks authorized to receive it.

By the act of April 12, 1902, the tax on beer, tobacco, snuff, and cigarettes was changed, and additional stamps were authorized for renovated butter, adulterated butter, and oleomargarine, colored and uncolored. This act took effect July 1, 1902, and the stamps required for its full operation were promptly furnished by the Bureau of Engraving and Printing.

It has been necessary, in order to furnish the quantity of securities and stamps needed in the business of the country, to continue the night force of printers and their assistants, and to extend at times the hours of labor of the entire day printing force equal to one-fourth time. The working of this night force is objectionable, for the reason that it consists in a great part of young women, who are required to pass through the streets to their homes at a late hour of the night. The force of the Bureau occupies every available square foot of space in its building and the addition authorized by the act of June 6, 1900. To avoid the necessity for a night force, it is recommended that an additional building be provided. An estimate for this purpose, including the purchase of a site therefor, will be submitted to Congress.

PUBLIC MONEYS.

The monetary transactions of the Government have been conducted through the Treasurer of the United States, 9 subtreasury officers, and 574 national-bank depositaries. The amount of public moneys held by the bank depositaries on June 30, 1902, including funds to the credit of the Treasurer's general account and United States disbursing officers, was \$123,983,067.59, an increase since June 30, 1901, of \$23,972,573.64. On June 30, 1902, there were 329 temporary depositaries. One hundred and eleven were designated during the year and 19 discontinued. On November 1 there were 442 temporary depositaries, and the total of public moneys held by all depositaries was \$146,885,012.49.

NATIONAL BANKS.

The number of associations in active operation October 31, 1902, was 4,678, with authorized capital of \$713,435,695; bonds on deposit to secure circulation, \$338,352,670, and circulation outstanding secured by bonds, \$335,783,189.

The geographical distribution of banks organized from March 14, 1900 (the date of the act which permitted the organization of banks with a minimum capital of \$25,000), to October 31, 1902, with capital and bonds deposited as security for circulation, is as follows:

NATIONAL BANKS ORGANIZED FROM MARCH 14, 1900, TO OCTOBER 31, 1902.

The number of banks organized in the leading States is as follows: Texas, 153; Pennsylvania, 133; Minnesota, 73; Ohio, Illinois, and Iowa, 66 each; Oklahoma Territory, 59; Indian Territory, 53; New York, 46; Indiana, 41; North Dakota, 36; Kansas, 32; Nebraska, 29; South Dakota, 26; Virginia and Wisconsin 24 each; West Virginia, 23; Kentucky, 22. The number of banks organized in the other States ranged from 1 in Vermont and Rhode Island to a maximum of 20 in New Jersey. No organizations were effected in Nevada or Alaska.

The Middle States lead both in number of organizations and volume of capital, namely, 362 and \$20,530,000, respectively. Three hundred and seven banks were organized in the Southern States, with a capital of \$14,985,500; 267, with capital of \$8,755,000, in the Western States; 219, with capital of \$19,444,000, in the Eastern States; 39, with capital of \$3,195,000, in the Pacific States, and 18, with capital of \$3,250,000, in the New England States.

During the year ended October 31, 1902, the number of national banks was increased by the formation of 470 associations, with total capital of \$31,130,000, of which 302, with capital of \$7,905,000, were of the smaller class, and 168, with capital of \$23,225,000, of the larger. The net increase, however, was but 399. Nine associations were closed by expiration of their corporate existence, 63 by voluntary liquidation, and 1 by appointment of receiver. Two associations heretofore in charge of receivers were placed in a solvent condition and allowed to resume business.

The authorized capital stock of the national banking associations in existence on October 31, 1901, was \$663,224,195, and on October 31, 1902, \$713,435,695, an increase during the year of \$50,211,500.

The following table gives a summary of organizations of national banks from March 14, 1900, to October 31, 1902:

Classification.	Cor	versions.	Reor	ganizations.		rimary anization.	Total.	
	No.	Capital.	No.	Capital.	No.	Capital.	No.	Capital.
Capital less than \$50,000. Capital \$50,000 or more	107 51	\$2,835,000 8,655,000	242 121	\$6,715,000 14,220,000	456 235	\$11,549,500 26,185,000	805 407	\$21,099,500 49,060,000
Total	158	11,490,000	363	20,935,000	691	37,734,500	1,212	70, 159, 500

The changes in the number of active associations, authorized capital, bonds on deposit to secure circulation, circulation secured by bonds and by lawful money, from March 14, 1900, to October 31, 1901 and 1902, are as follows:

	Mar. 14, 1900.	Oct. 31,1901.	Oct. 31,1902.
Number of banks	\$616,308,095 244,611,570 216,374,795	4,279 \$663,224,195 329,833,930 328,198,614 31,713,069	4,678 \$713,435,695 338,352,670 335,783,189 44,693,145

The following statement shows the amount and class of bonds on deposit with the Treasurer of the United States as security for national-bank circulation on March 14, 1900, October 31, 1901 and 1902:

~	•	Amount.					
Class.	March 14, 1900?	Oct. 31, 1901.	Oct. 31, 1902.				
Funded loan of 1891. Consols of 1930 Loan of 1908-1918. Funded loan of 1907 Loan of 1925 Loan of 1904	56, 437, 720 130, 171, 500 14, 521, 350	\$12,500 316,625,650 3,983,780 6,032,000 2,911,100 268,900	\$320, 738, 000 6, 056, 720 8, 248, 450 2, 208, 600 1, 100, 900

Total	254, 402, 729	331, 613, 268	380, 476, 33			

Under the law, national banking associations are required to make not less than five reports of condition to the Comptroller of the Currency in each year. The latest reports submitted were under date of September 15, and the compiled returns show the condition of 4,601 associations, with paid-in capital stock of \$705,535,417. The accumulated surplus and undivided profits of the associations aggregated \$495,610,466, an amount slightly in excess of 70 per cent of the capital stock. The outstanding circulation was \$317,991,809; individual deposits, \$3,209,273,893.93; United States deposits and deposits of United States disbursing officers, \$117,097,769.59 and \$6,846,033.85, respectively. Borrowed money, represented by notes and bills rediscounted and bills payable, aggregated \$33,900,888.36, or only 4.8 per cent of the capital stock.

The total resources of the banks were \$6,113,928,912.50, the maximum amount reached in the history of the system. The principal items of resources are as follows: Loans and discounts, \$3,280,127,480.69; United States bonds on deposit to secure circulation, \$324,253,760; United States bonds on deposit to secure public deposits, \$124,685,150;

other bonds, stocks, and securities, \$493,109,726.57; bank premises, including furniture and fixtures, \$92,652,268.87, this amount representing investments of approximately 13 per cent of capital stock. The banks held in specie and legal-tender notes \$366,236,120.02 and \$141,757,618, respectively.

Comparing conditions on September 15, 1902, with September 30, 1901, there is shown to have been an increase in total resources of \$418,581,617.54. The increases during that period in the principal items of resources and liabilities were as follows: Loans and discounts, \$261,511,562.29; United States bonds, \$12,570,520; capital stock, \$50,193,537; surplus and other profits, \$65,048,357.81; individual deposits, \$271,520,660.60.

There was a decrease during the year in holdings of specie to the amount of \$22,300,751.11; in legal tenders of \$9,261,133, and in outstanding circulation of \$5,871,788.

The deposits of the associations on September 15, on which reserve was required, amounted to \$3,844,365,538.57. The required reserve amounted to \$786,770,726.33 and the amount held was \$804,333,904.09, being 20.92 per cent of the deposits.

The reserve held by banks in the central reserve cities was as follows: New York, 24.70 per cent; Chicago, 21.89 per cent; St. Louis, 24.15 per cent, an average of 24.09 per cent. Banks in other reserve cities held an average of 24.33 per cent and banks located outside of reserve cities an average of 16.91 per cent. With the exclusion of Government deposits from the reserve requirement, the average reserve held by national banks in the central reserve cities was increased from 24.09 to 25.16 per cent; by banks located in other reserve cities, from 24.33 to 24.87 per cent; by country banks, from 16.91 to 17.16 per cent, and by all banks from 20.92 to 21.43 per cent.

LOANS AND CURRENCY.

The amount of the interest-bearing debt outstanding July 1, 1901, was \$987,141,040. On that date the Government was still purchasing United States bonds for the sinking fund, and such purchases were continued with slight intermissions until March 15, 1902. The total amount purchased and charged to the sinking fund for the fiscal year 1902 was \$56,071,730, and the disbursement was \$70,410,941.33, distributed among the different loans as follows:

PURCHASES FOR THE SINKING FUND, FISCAL YEAR 1902.

Classes.	Bonds.	Premium.	Disburse- ment.
Three per cent, 1908–1918. Four per cent, 1907. Five per cent, 1904. Four per cent, 1925.	\$2,105,780 24,201,000 2,443,750 27,321,200	\$179,782.84 3,107,163.34 188,786.10 10,863,479.05	\$2,285,562.84 27,308,163.34 2,632,536.10 38,184,679.05
Total	56,071,730	14, 339, 211. 33	70, 410, 941.33

During the fiscal year 1902 there were received for exchange into 4 per cent bonds, funded loan of 1907, \$1,340 refunding certificates, the accumulated interest upon which, convertible into principal of 4 per cent bonds, amounted to \$1,010. The total issue of 4 per cent bonds of the funded loan of 1907 on this account was, therefore, \$2,350.

There was also issued to one of the subscribers of the 3 per cent loan of 1908-1918 a 3 per cent bond of the denomination of \$20, to correct an error in filling a subscription.

As a result of these operations, the interest-bearing debt outstanding at the close of business June 30, 1902, was \$931,070,340.

Since June 30, 1902, the Department has purchased bonds for the sinking fund for the fiscal year 1903, as follows:

	September	.17 of	No. 1	Circular	under	1904,	n of	bonds, lo	ve per cent	Fi
\$25,300							. 		26, 1902	2
	of October	128	r No.	Circula	, unde	1925	oan of	bonds, l	ur per cent	\mathbb{F} o
16 504 300									7. 1902	1

The Department has also prepaid interest, for the remainder of the fiscal year, on United States registered and coupon bonds under authority of section 3699 of the Revised Statutes. In pursuance of Circular No. 115, dated September 25, 1902, a rebate of two-tenths of 1 per cent per month was charged by the Department on the amount of interest prepaid. Prepayments under this circular were made during the period beginning October 1, 1902, and ending November 30, 1902. Up to November 1 the amount prepaid was \$3,318,397.15 and the rebate thereon was \$38,483.55.

The changes in the amounts of the several kinds of money of the United States outside the Treasury between November 1, 1901, and November 1, 1902, are shown in the table following:

COMPARATITE	STATEMENT	SHOWING	THEFTEN CELLANDERS	IN CIRCULATION	CT.
COMPARATIVE	CALIA LIB WIR BLUT	OHUWING	THE CHANGES	IN CIRCULATION	Ν.

Classes.	In circulation Nov. 1, 1901.	In circulation Nov. 1, 1902.	Decrease.	Increase.
Gold coin Standard silver dollars Subsidiary silver Gold certificates Silver certificates. Treasury notes, act of July 14, 1890. United States notes National-bank notes.	\$633, 858, 471 73, 113, 520 83, 999, 351 281, 673, 659 441, 810, 337 41, 384, 614 338, 781, 028 351, 674, 562	\$624, 373, 645 77, 517, 158 91, 899, 715 342, 756, 194 463, 170, 438 25, 748, 278 343, 639, 082 367, 007, 482		\$4, 403, 638 7, 900, 364 61, 077, 535 21, 360, 101 4, 858, 054 15, 332, 920
Total	2,246,300,542	2, 336, 111, 992	25, 121, 162	114, 932, 612

The estimated population of the United States November 1, 1901, was 78,211,000, and the per capita supply of money outside the Treasury was \$28.72. The estimated population and the per capita supply of money November 1, 1902, were 79,572,000 and \$29.36, respectively.

Bonds in aid of an isthmian canal.

The act of June 28, 1902, to provide for the construction of a canal connecting the Atlantic and Pacific oceans, includes, among other provisions, authority for the Secretary of the Treasury to borrow on the credit of the United States, from time to time, as the proceeds may be required to defray expenditures authorized by the act, the sum of \$130,000,000, or so much thereof as may be necessary, and to issue therefor United States bonds redeemable after ten years and payable after thirty years from date of issue, bearing interest at the rate of 2 per cent per annum.

There being no reference in the act to the availability of these bonds as security for the circulation of national banks, it is believed that they can be received by the Department on such account only upon such terms as the older classes of United States bonds now outstanding—that is to say, a national bank depositing canal bonds as security for circulation would be required to pay a tax of 1 per cent each year to the Government on account of such circulation. This would place the 2 per cent canal bonds at a great disadvantage as compared with the 2 per cent consols of 1930. A bank depositing the consols is required to pay a tax amounting only to one-half of 1 per cent per annum.

As it is no doubt desired by Congress that the Secretary shall have power to obtain the best terms available in negotiating the canal bonds, it is recommended that the act of June 28, 1902, be amended so as to provide that any national-bank circulation secured by a deposit of canal bonds may be subject only to the same tax as that imposed on circulation secured by the 2 per cent consols of 1930.

FOREIGN COMMERCE.

The marked characteristics of the foreign commerce of the United States during the fiscal year ended June 30, 1902, were a decrease of \$106,045,590 in exports and an increase of \$80,148,783 in imports. The total exports of the year were \$1,381,719,401, of which \$1,355,481,861 was of domestic production; the total imports were \$903,320,948, making the excess of exports over imports \$478,398,453. The decrease in exports is chiefly due to the unusual home demand, to the shortage in the corn crop of 1901, and to a reduction in prices of certain great staples exported. The unusual demand of the home market for manufactures of iron and steel caused a reduction of \$18,766,758 in the domestic exports of iron and steel manufactures; the shortage in the corn supply, due to the drought of 1901, caused a reduction of \$67,361,099 in the value of corn and corn meal exported, and the fall of upward of 1 cent per pound in the average price of cotton, as compared with 1901, resulted in a reduction of \$23,021,624

in the value of cotton exports, although the quantity exported in 1902. was greater than that of 1901. Aside from these exceptional cases, the export figures of the year compare favorably with those of preceding years.

The increase in importations was chiefly due to an enlarged demand by manufacturers for raw materials for use in manufacturing, the increase in the importations of manufacturers' materials of all classes being \$69,732,221; and to these was added an increase of \$19,708,269 in articles manufactured ready for consumption, and \$11,859,750 in those included in the class "articles of voluntary use, luxuries," etc., while in articles of food there was a reduction of \$21,151,457. In iron and steel alone, the importation of articles partly or wholly manufactured increased \$9,305,458, bringing the total imports of iron and steel manufactures to a point higher than at any time since The increase of \$80,148,783 in importations has brought the total import figures of the year to a point higher than ever before, the total value of importations of 1902 being \$903,320,948, against \$866,400,922 in 1893, the highest record of preceding years. increase, as already noted, occurs chiefly in manufacturers' materials, the principal increases being in unmanufactured silk, \$12,583,986; hides and skins, \$9,786,698; fibers, \$8,613,456; cotton, \$4,924,342; copper, \$4,376,119; lumber and other unmanufactured wood, \$4,015,763; chemicals, \$4,215,465; and wool, \$5,181,907. cally all of the great articles of foreign production required by our manufacturers, the importations of the year exceed in quantity and value those of any preceding year in the history of our import trade.

The reduction in exports, since it occurred chiefly in food stuffs and raw cotton, applied almost exclusively to the commerce with Europe, to which the exportations fell \$128,470,624 below those of the preceding year, while those to North America increased \$7,436,620, to Africa \$7,925,987, and to Asia and Oceania \$13,419,005.

The commerce with the noncontiguous territory of the United States shows a very rapid and gratifying growth. The receipts of merchandise from Porto Rico in 1902 were \$8,297,422, against \$2,181,024 in 1897, and the shipments to that island in 1902 were \$10,719,444, against \$1,988,888 in 1897, the year prior to the assumption of control of that island by the United States. From the Hawaiian Islands the receipts of merchandise were \$24,700,429, against \$13,687,799 in 1897, and the shipments to the islands in 1902 are estimated at \$19,000,000, against \$4,690,075 in 1897. From the Philippine Islands the receipts of merchandise in 1902 were \$6,612,700, against \$4,383,740 in 1897, and the shipments to those islands in 1902 were \$5,258,470, against \$94,597 in 1897. Combining the figures of commerce with the three groups of islands—Porto Rico, Hawaii, and

the Philippines—the figures show total receipts of merchandise from the islands in 1902, \$39,610,551, against \$20,252,563 in 1897, and total shipments to the islands in 1902, \$34,977,914, against \$6,773,560 in 1897; while the exports to all Asia and Oceania, including the Hawaiian Islands, were \$117,202,118 in 1902, against \$61,927,678 in Thus the exports to the islands have increased more than fourfold, and those to all Asia and Oceania nearly doubled since 1897, while the total exports have in the same time increased less Under the recent act of Congress, approved than 50 per cent. April 29, 1902, authorizing the collection of statistics of commerce between the United States and its noncontiguous territories, a full statement of the commerce with all such territory under the control of the United States, including Alaska, is now being collected and compiled, and indicates that the markets supplied the producers of the United States by these noncontiguous territories now aggregate over \$40,000,000 per annum.

The following table presents in concise form the record of the foreign commerce of the country in 1902, compared with preceding years:

Analysis of the Commerce of 1902, Compared with Preceding Years.

CUSTOMS.

Personal effects of passengers

Desiring to eliminate cause for complaint resulting from the collection of duty on personal baggage, the Department has endeavored to secure a liberal and equitable administration of the laws on this subject.

Circulars were issued to tourists explaining the law, regulations, and the method of examination to be pursued. Customs inspectors were required to exert themselves to be courteous, to examine carefully all baggage, and to repack whenever it was desired. ment also issued instructions providing for private examination of baggage of ladies when such examination was requested. officials were instructed to afford passengers ample time to secure currency with which to pay duties. The Department also permitted residents of the United States to bring in duty free foreign articles to the amount of \$100, the legal exemption, with little regard to their nature, providing that they were of the same general class purchased by tourists. It was also provided that the head of a family might bring in under the \$100 limit, free of duty, presents for his immediate family—i. e., his wife and children—if the aggregate value of the articles did not exceed \$100. The Department also granted free reimportation of articles of foreign manufacture, where it could be established that the identical articles had once paid duty and had not advanced in value or improved in condition while abroad. object of this ruling was to relieve tourists from a second payment of duty on wearing apparel and other personal effects, but was not extended to merchandise.

While these modifications in the rulings have been made, it is held that exempt articles must in a sense be similar—i. e., that they must be of the same general class of articles that tourists ordinarily purchase abroad—and that there is no warrant in any ruling of the Department justifying importation of eigars, spirituous, vinous, or malt liquors, in any other quantity or manner than provided by law; nor is there anything in the rulings to warrant exemption of merchandise, as such, from duties.

$Reorganization\ of\ districts.$

Accompanying this report is a table showing the volume and character of business transacted during the year in each customs district and independent port, including the amounts collected and the cost of collection. It shows that in many districts there is little or no customs business; in many others, owing to the changes in local conditions, the business is of little importance and could be readily

transacted by subordinate officials, under proper direction. The demands for the extension of the customs service elsewhere are pressing. In the interest of economy and good administration, a number of the districts and ports first referred to should be consolidated with contiguous districts of more importance.

Smuggling.

The smuggling of wool and woolen goods concealed in cars apparently containing only paper stock from Canada resulted in important seizures and criminal prosecutions.

A Canadian dealer who made numerous sales of furs to American tourists caused the goods to be smuggled across the frontier for delivery. As the principal could not be reached, his agents in this country were prosecuted, and 163 shipments were seized and appraised at sums aggregating over \$20,000.

The extensive smuggling of liquors by Cuban fishing smacks on the west coast of Florida was investigated by an experienced officer, who caused 8 persons connected therewith to be prosecuted criminally, and seized 2 Cuban vessels for forfeiture by legal process.

On the Pacific coast seizures and arrests have been made in opium smuggling cases, and there is a large increase in customs collections in this commodity.

In June last the Attorney-General held to be unconstitutional the provision in section 6 of the antimoiety act of June 22, 1874, requiring persons giving information of customs frauds, in cases where judicial proceedings are instituted, to secure the certificate of the court as to the value of their services, before award of compensation can be made by the Department, the determination of such questions being an executive function; and that the Secretary of the Treasury is authorized to award compensation in such cases, as has been the rule heretofore in instances of fines, penalties, and forfeitures collected without judicial proceedings. This action seems to obviate the necessity for the change in the law recommended in the last annual report.

ALASKA.

Seal herd.

A preliminary report from the agent in charge of the seal fisheries on the Pribilof Islands, Alaska, shows that during the sealing season the lessees of the sealing privilege, the North American Commercial Company, accepted and shipped 22,304 fur-seal skins as the quota for 1902. Of this number, 19,000 were from the island of St. Paul, and included a small number of so-called rejected skins taken in 1901. The number of seal skins taken from the island of St. George

was 3,304, including 61 skins rejected in 1901. As there were only 318 rejected skins on the islands after the close of the season of 1901, it is apparent that 21,986 seals were killed for their skins during the season of 1902. The revenue to be derived from this source will exceed \$225,000.

As 22,470 seal skins were taken from the islands in 1900 and 22,672 in 1901, the catch of 22,304 skins in the current year is very gratifying and tends to show that the seal herd is not decreasing in number as rapidly as heretofore.

The consul at Victoria, British Columbia, reports through the Department of State that a British sealing fleet comprising 23 vessels in the spring of 1902 took 1,611 male and 1,562 female seals, in all 3,173, which number is less than one-half of the catch of the same fleet, comprising 28 vessels, in the spring of 1901, and less than onefifth of the number taken by 33 vessels in the spring of 1900. preliminary report from the consul at Victoria of the summer catch of the British sealing fleet shows that 11 vessels have returned to Four other vessels lately arrived that port with 4,456 seal skins. and 9 yet to arrive are not included in these figures. age catch for each vessel for the current year, so far as reported, is 224 skins per vessel. The official report of the catch of the British sealing fleet in 1901, received in March last, shows that 39 vessels took 24,422 seals on the coast of British Columbia and Japan, in the vicinity of Copper Island and in Bering Sea, an average of 626 skins for each vessel. The greatly diminished catch of the British sealing fleet in the last two seasons undoubtedly accounts, in great measure, for the more stable condition of the Pribilof herd, as indicated by the number of seals taken by the lessees of those islands since 1899.

Capt. C. H. McLellan, commander of the revenue steamer Manning, reported in July last the finding of a seal rookery on Buldir Island, in the Aleutian group. The skin of a pup seal was taken from this rookery, and experts have pronounced it to be that of the fur seal. It is reasonable to suppose that there are fur seals on other islands of the Aleutian chain. This fact will be determined by investigation during the next season. In the meantime it is suggested that a sufficient appropriation be made to protect the Buldir Island rookery, and any other that may be discovered hereafter, from the unlawful depredations of the seal hunters. If the herd can be left to develop, it may prove valuable; and it will be utterly destroyed by the seal hunters unless protected.

Blue foxes.

There was a great falling off in the catch of blue-fox skins on the Pribilof Islands during the last season, attributable to the mild winter, which allowed the foxes to obtain an ample food supply about the beaches, and rendered it unnecessary for them to visit the traps. The lessees took but 421 fox skins, 26 of them being white.

Salmon fisheries.

A preliminary report from the agent for the protection of the salmon fisheries of Alaska shows that by the aid of the Revenue-Cutter Service substantially all the fisheries, canneries, and salteries in that Territory were inspected during the season of 1902. The total number is 62 canneries and 24 salteries. There has been an increase in the number over those reported last year of 9 new canneries and 14 salteries. Five canneries in course of construction this year are not included in the foregoing figures. The inspection of those in Northern Alaska involved a voyage of 6,782 nautical miles from Seattle, Wash.

The total catch of the Alaska fisheries for the season is estimated at no less than 2,470,000 cases, an increase of nearly 400,000 cases over the pack of 1901. The total value of the pack is over \$8,000,000. The take of salmon in Alaska represents about 37,000,000 fish, and provides 118,560,000 pounds of food prepared for the table. The agent reports that the pack of salmon elsewhere than in Alaska for the year 1902 was 1,037,000 cases, and that the aggregate salmon pack of the world this year was 1,000,000 cases less than in 1901. The tax collectible on the salmon pack under the Alaska revenue laws amounts to about \$100,000 for the season.

The regulations of the Department requiring the maintenance of hatcheries at every salmon cannery and saltery in Alaska have not been fully complied with. It is declared that the salmon packers are disposed to comply with these regulations, and their failure in instances to do so is attributable to the local difficulties rather than to disinclination. Hatcheries in operation will liberate not less than 120,000,000 salmon for this year—less than one-third the number contemplated by the regulations, which require the liberation of 10 fry for each salmon taken. As the regulation in question was promulgated only two years ago, the result is significant.

The agent in charge suggests that disregard of the law and regulations by salmon canners is trivial in its effects, and that the danger to the industry comes from a multiplication of plants and their fierce competition. He urges the establishment of Government hatcheries as a remedy. Authority for this must come from Congress.

Upon application of those who have established salmon hatcheries, the Department has closed to fishing and set aside certain streams as spawning grounds. The barricades formerly so extensively used have been abandoned, and the fish as a rule have free access to the

spawning grounds. The closed season established by the law is, as a rule, observed. The depletion of the salmon fisheries in Alaska is due to overfishing, upon which the law places no limitation. There is no restriction as to the number of canneries, the number of fisheries to be operated, or the number of boats, men, and gear employed. Purse seines are now used in great numbers, one seine following the other in such quick succession that few fish can pass into the streams. Little or no fishing is done in the streams, but it is done immediately outside the mouth and in the waters approaching the mouth, and it will be seen that an order closing a stream could not be effective, and might work a hardship upon the natives, while others would not be affected.

To regulate and preserve the salmon fisheries of Alaska, the existing law should be entirely remodeled, and the Secretary of the Treasury should be given unquestioned authority to use the widest discretion in all cases when the precise terms of the law might appear to be inadequate or uncertain.

INTERNAL REVENUE.

The receipts from the several objects of taxation under the internalrevenue laws for the fiscal years ended June 30, 1901 and 1902, were as follows:

	Fiscal year er	ided June 30—		Decrease.

RECEIPTS FROM INTERNAL REVENUE IN 1901 AND 1902.

A detailed statement of the receipts and expenditures will be found in the report of the Commissioner of Internal Revenue.

The amounts given as receipts are those actually collected during the fiscal years mentioned; but in many cases the money collected on the last day of June is not deposited until the first day of July, thus causing a discrepancy between the collections and deposits for the year.

The total cost of collection for the fiscal year ended June 30, 1902, was \$4,603,887.82, and for the year 1901, \$4,749,220.44, showing a

decrease for 1902 of \$145,332.62. The percentage cost of collection for 1902 was 1.70 per cent, as against 1.55 per cent in 1901.

The total production of distilled spirits, exclusive of fruit brandies, for the fiscal year was 128,623,401.9 taxable gallons, against 124,520,599 taxable gallons in 1901, showing an increase in production for the fiscal year just ended of 4,102,802.9 gallons. There were also produced 449,729 gallons of apple brandy, 152,494 gallons of peach brandy, 3,570,197 gallons of grape brandy, 8,662 gallons of pear brandy, 998 gallons of apricot brandy, 508 gallons of berry brandy, 36,528 gallons of prune brandy, 1,236 gallons of fig brandy, and 48 gallons of cherry brandy, making a total production of 4,220,400 gallons from fruits during the fiscal year.

A further comparison of the two fiscal years shows a decrease of 145,249 gallons in production of apple brandy, an increase of 28,795 gallons in peach brandy, an increase of 279,189 gallons in grape brandy, an increase of 4,026 gallons in pear brandy, an increase of 998 gallons in apricot brandy, an increase of 145 gallons in berry brandy, an increase of 3,661 gallons in prune brandy, an increase of 1,185 gallons in fig brandy, and an increase of 48 gallons in cherry brandy.

For the fiscal year ended June 30, 1902, there was an aggregate increase of 172,798 gallons produced from fruits, as compared with the previous fiscal year.

The quantity of distilled spirits gauged during the fiscal year was 412,684,908.1 gallons, against 388,955,771 gallons in 1901, making an increase for the year just ended of 23,729,137.1 gallons.

During the fiscal year 1902, 2,938 distilleries of all kinds were operated. For the preceding fiscal year 3,745 distilleries of all kinds were operated, a decrease of 807 for the year just ended.

During the fiscal year 1902 there were produced 44,550,127 barrels of beer. The number of barrels produced during the fiscal year 1901 was 40,614,258, making an increased production for the year just ended of 3,935,869 barrels.

For the fiscal year 1902 the total receipts from the taxes on tobacco, cigars, cigarettes, snuff, etc., were \$51,937,925.19. The receipts from the same sources in 1901 were \$62,481,907.13, showing a decrease of \$10,543,981.94 for the fiscal year 1902.

DISTRICT OF COLUMBIA.

The net expenditures on account of the District of Columbia for the fiscal year 1902 were \$9,363,742. The net revenues deposited in the Treasury on this account for the same period were \$4,217,841.43.

Under the operations of the sinking funds, the net reduction of the bonded debt during the year was \$871,800, and of the annual interest charge \$43,235.70. Since the close of the fiscal year the debt has been reduced by the purchase of 3.65 per cent bonds for \$202,800, and 6 per cent thirty-year funding bonds for \$4,100, and will be further reduced by the redemption of thirty-year funding bonds for \$494,500 maturing November 1, 1902.

The Treasurer estimates that the sum of \$975,408 will be sufficient for interest and sinking fund on the funded debt for the fiscal year 1904, and recommends that this sum be made a permanent annual appropriation until the debt of the District of Columbia shall be extinguished, and also that he be authorized to purchase United States bonds with the funds provided for the sinking fund when he is unable to purchase bonds of the District advantageously. The estimate for interest and sinking fund for 1904 is \$238,539.97 less than the appropriation for this purpose for 1903. The Treasurer states that this reduction is made possible by the recent refunding of the 6 and 7 per cent bonds of the District into bonds bearing a lower rate of interest, and their final redemption.

The total amount of the bonded debt at the close of the fiscal year was \$14,196,550. Of this sum, \$13,683,850 consists of 3.65 per cent bonds.

PNEUMATIC DISPATCH SYSTEM.

The attention of the Congress is invited to the necessity for modern means of communication between the Treasury Department and its various permanent branches as now established in the city of Washington. In the administration of public business it is found necessary to transmit from one building to another hundreds of papers requiring indorsement, signature, or other notation. present system is inadequate, time consuming, and unsatisfactory. In the interest of efficient public service, it is urged that some modern practical system of pneumatic dispatch be installed. The Department recommends that the system which is now, and has been for some time, in satisfactory operation in the public stores in New York City be introduced throughout the Treasury Department proper, connecting it with the Bureau of Engraving and Printing, the Coast and Geodetic Survey, the Public Health and Marine-Hospital Service, offices of the auditors of the Treasury Department located outside the Treasury building, and the Government Printing Office. Department expresses confidence that this service once installed will prove efficient, economical, and expeditious.

·PUBLIC BUILDINGS.

Congress during the last session authorized the purchase of sites and construction of a large number of buildings. The enlargement and rearrangement of old buildings was provided, to meet increased demands of the public business. The volume of work devolving

upon the office of the Supervising Architect by reason of this recent legislation is the largest in its history.

The act of June 6, 1902, authorized the purchase of additional land in connection with the public buildings at Atlanta, Ga.; Binghamton, N. Y.; Ottumwa, Iowa; Richmond, Va.; Rochester, N. Y.; Rome, Ga.; St. Joseph, Mo.; Sandusky and Youngstown, Ohio; the custom-house property (wharfage) at Wilmington, N. C., and the extension and improvement of the public buildings at Alex andria, Va.; Augusta and Bangor, Me.; Beaumont, Tex.; Buffalo, N. Y. (post-office); Burlington, Iowa; Dallas, Tex.; Fort Smith, Ark.; Greensboro, N. C.; Hartford, Conn.; Jackson, Miss.; Jacksonville, Fla.; Kalamazoo, Mich.; Lincoln, Nebr.; Los Angeles, Cal.; Lynn, Mass.; Macon, Ga.; Memphis, Tenn.; Minneapolis, Minn.; Montgomery, Ala.; Nashville, Tenn.; Norfolk, Va. (court-house and post-office); Paducah, Ky.; Portland, Oreg. (post-office and courthouse); Richmond, Ky.; Scranton, Pa.; Springfield, Ill., and Waco, Tex. In addition, a new boiler plant was provided for the marine hospital at Cleveland, Ohio, and the enlargement of the vault facilities at the Bureau of Engraving and Printing in this city.

Special legislation was also enacted during the last session of Congress for the enlargement of the public building at Ellsworth, Me.

Under the Tarsney Act, contracts have been awarded for the erection of the public buildings at Cleveland, Ohio, Indianapolis, Ind., and Baltimore, Md.

At the date of the last report there were 435 buildings. Since June 30, 1901, 2 buildings have been dropped, and there have been authorized 114 new buildings and sites, 22 sites only, 4 marine hospitals, and 5 quarantine stations, making the total at this date 578. Three hundred and seventy-seven buildings are completed and occupied, 11 having been finished during the past fiscal year. Thirty-three buildings are now in course of erection.

STATEMENT OF EXPENDITURES FOR PUBLIC BUILDINGS FOR FISCAL YEAR 1902.

For sites, for construction of public buildings, extensions, and repairs,	
especially appropriated for	\$4,439,736.01
For repairs and preservation of public buildings	330, 297.89
For heating apparatus for public buildings	119,554.80
For vaults, safes, and locks for public buildings	17,836.38
For photographic duplication of plans for public buildings	3,968,44

The attention of the Congress is called to the necessity for a complete ventilating plant for the Treasury Building. A detailed report, together with estimates for the cost of installation, will be presented by the Department.

HALL OF RECORDS.

It is regretted that provision has not been made for a Hall of Records, the necessity for which has been called to the attention of the

Congress for the past twenty-five years. With the increasing volume of business of the different departments of the Government, the demand for suitable quarters for the storage of records has become more imperative, until now the conditions are such as to interfere materially with the proper transaction of the public business and render valuable archives liable to destruction by fire.

In a communication dated March 3, 1902, addressed to the chairman of the Committee on Public Buildings and Grounds, United States Senate, and printed as Senate Document No. 236, Fifty-seventh Congress, first session, the Department entered into this matter at some length and submitted tentative sketch plans of a building that would meet the requirements.

IMMIGRATION.

The Commissioner-General of Immigration reports that there arrived at ports of the United States during the fiscal year ended June 30, 1902, 648,743 aliens as steerage passengers and 82,055 as cabin passengers, aggregating a total alien immigration of 730,798. This total, however, does not include all the alien arrivals during the period named, as no record is kept of those coming from Mexico and Canada, except such as have come from the last-named country within one year after arrival therein from some transoceanic port.

Of the 648,743 steerage passengers, 608,882 came direct to continental ports of the United States, 9,870 came to ports of the Territory of Hawaii, 792 to those of Porto Rico, and 29,199 to Canadian ports. By comparison with corresponding figures for the preceding year, there has been an increase in steerage immigration of 160,825, and in cabin immigration of 7,105, making a total increase of 167,930.

Of the total of 730,798, European countries furnished 690,472, Asiatic countries 23,082, and all other sources 17,244. As to countries of origin, the principal sources of this large influx of aliens were Italy, which furnished 184,683; Austria-Hungary, 175,900, and Russia, including Finland, 109,721. The total from these three countries, 470,304, constituted nearly 65 per cent of the entire immigration for the year.

The aliens traveling in the steerage were distributed as follows: 466,369 males and 182,374 females; 74,063 were under 14 years, 539,254 from 14 to 45, and 35,426 were 45 and over. A total of \$10,485,911 was shown to the inspection officers by this class of aliens, 77,355 of whom exhibited more than \$30 each, and 413,705 of whom had less than that amount each. Of the total number, 61,595 had been in the United States before, 4,217 were relieved in hospital, and 465 were returned to their own countries within one year after reaching this country.

As to illiteracy, the report shows that 162,188 were unable to read or write, 2,917 could read but not write, leaving 483,638 who were able to do both.

The total rejections for all causes under the immigration laws were 4,974, or about two-thirds of 1 per cent of the total steerage immigration. The causes of those rejections and the number rejected for each cause were as follows: Idiocy, 7, insanity, 27; pauperism, 3,944; prostitution, 3; contagious disease, 709; convicts, 9, and as contract laborers, 275.

The proportionate increase of diseased aliens was largely in excess of the ratio of increase in immigration for the year, 560 of such arrivals, or almost double the total immigration of this character for the previous year, having been brought to the port of New York. In view of the apparent disregard of the law in this respect by the steamship companies, the Commissioner-General recommends the passage of the legislation, pending before Congress, which imposes a penalty of \$100 for each case of willful violation of the law by masters or owners of vessels.

It is further urged that the present alien contract-labor laws are weak and ineffective, as is shown to some extent by the decrease in the number of rejections thereunder to 275, as compared with 327 during the preceding year.

On the Canadian and Mexican boundaries, there were refused admission during the year, for various causes, 5,437 aliens.

The order in which the various races contributed to the steerage immigration is as follows: The Italian, 180,535; Polish, 69,620; Jewish, 57,688; Scandinavian, 55,780; German, 51,686; Slovak, 36,934; Croatian and Slovenian, 30,233; Irish, 29,001; Magyar, 23,610; English, 14,942; Japanese, 14,455; Finnish, 13,868, and all others combined, 70,391.

Attention is called by the Commissioner-General to the increased immigration by way of Canada, aggregating for the year 29.199. He repeats former statements of constant violations of law on the part of aliens of the inadmissible classes who are destined to Canada ostensibly, but ultimately make their way across the boundary into this country. A new contract has been made with the Canadian transportation companies, however, and an officer, with headquarters at Montreal, has been placed in charge of the various inspectors along the Canadian boundary from Sault Ste. Marie, Mich., to Eastport, Me., as a result of which this evil has been checked in a measure. The Canadian Parliament has passed a law excluding from the Dominion aliens suffering with loathsome or dangerous contagious diseases, which will operate as an effective aid in excluding from the United States that class of inadmissible aliens.

There was expended from the immigrant fund during the year in

the administration of the immigration laws the sum of \$453,630.79, besides \$50,000 from the same source, appropriated by Congress for the construction of the buildings on Ellis Island, New York Harbor, leaving on hand a net balance of \$686,265.21. This does not include the cost of enforcing the alien contract-labor laws, which amounted to \$141,553.90, leaving an unexpended balance of \$8,446.10 of the \$150,000 appropriation.

The Commissioner-General calls attention to the evils resulting from congestion of aliens at the large centers of population, and recommends that suitable steps be taken to distribute the arrivals in a manner to supply local demands for their services.

CHINESE EXCLUSION.

In the enforcement of the Chinese-exclusion laws there was expended \$219,529.59, leaving a deficiency of \$4,529.59. Of this expenditure, \$43,480.30 represents the cost of deportation of Chinese persons who have entered the United States in violation of law across the Canadian boundary, and \$10,619.79 the cost of deporting those who entered unlawfully at other points. The total number thus deported was 596, of whom 387 came from Canada and 209 from other sources. There was expended for salaries and expenses of officers and miscellaneous items the sum of \$165,429.50.

As members of the excepted classes mentioned in Article III of the treaty of December 8, 1894, 1,504 Chinese applied for admission, of whom 1,257 were admitted by administrative officers, 16 were admitted by the courts on habeas corpus proceedings, 3 were held in hospital under bond, 217 were returned to their own country, and 11 are awaiting final action.

Of 2,455 who applied for permission to pass through the United States to foreign countries, 2,306 were granted that privilege, 24 were released from the custody of the transportation companies by the courts, 6 escaped, and 119 were refused permission.

During the year, 2,054 registered Chinese laborers departed from this country, and 2,495 returned thereto.

The Commissioner-General recommends an increased appropriation to defray the expense of maintaining an efficient guard along the line separating Mexico from the United States to prevent the unlawful crossing of Chinese persons into this country. It is also recommended that the Bertillon system should be adopted, by which a record of the physical characteristics of aliens may be kept for the identification of such as seek to gain access to this country unlawfully after having been once rejected.

There are various other matters of importance in regard to the efficient administration of the Chinese-exclusion and immigration

laws which are discussed in detail in the report of the Commissioner-General, to all of which the attention of the Congress is respectfully called.

PUBLIC HEALTH AND MARINE-HOSPITAL SERVICE.

As recommended in the last report of the Secretary of the Treasury, the Congress passed an act to increase the efficiency and change the name of the Marine-Hospital Service, which was approved by the President July 1, 1902. Under this act, the title of the Service was changed to that of Public Health and Marine-Hospital Service of the United States. This measure materially broadens the scope of the Marine-Hospital Service, giving it the name as well as the functions of a public-health service.

National quarantine.

The Surgeon-General reports that during the year there were 5,828 vessels inspected and 420 vessels disinfected at national quarantine stations in the United States. At the close of the fiscal year, June 30, 1902, the Service owned 19 complete maritime quarantine stations, and 18 stations where inspection of incoming vessels is conducted by officers of the Service, making a total of 37 domestic quarantine stations. In addition to these national stations, there are 8 disinfection stations and 12 inspection stations conducted by State or municipal authority within the boundary of the United States.

In January, 1902, the quarantine functions at Portland, Me., were transferred to and accepted by the Service. This was done in accordance with act of Congress approved February 15, 1893, in like manner as the quarantine service at Savannah, Ga., was acquired in April, 1899, and the maritime quarantine stations of the State of Florida in August, 1901. Provision was made in the sundry civil bill, approved June 28, 1902, for the purchase of the quarantine stations of the State of Florida which were thus transferred.

Texas border quarantine.

To prevent the introduction of yellow fever, smallpox, and typhus from the Republic of Mexico, land quarantines have been maintained at El Paso, Eagle Pass, and Laredo, Tex., and the officers engaged in this work have cooperated with the United States Immigration Service. At these stations over 50,000 passengers were inspected, of whom 25 were detained for observation and their bag gage disinfected.

Smallpox.

During the year smallpox was reported as occurring in 44 States and Territories of the Union. The number of cases reported for the year ended June 30, 1902, was 55,857. The deaths were 1,852, a mortality of 3.31 per cent as compared with 38,506 cases and 689 deaths during the year ended June 30, 1901.

As in previous years, the Service has rendered assistance to State and local boards of health by detailing officers to advise and assist the States in formulating and putting into execution proper regulations to suppress and prevent the spread of smallpox.

On account of the outbreak of smallpox at nearby points in New Brunswick, Canada, and at the request of the State board of health of Maine, a temporary border quarantine station was established at Vanceboro, Me., and a maritime station at Eastport, Me., the latter being still in operation.

Plague.

Bubonic plague, the existence of which in San Francisco was first reported March 8, 1900, and confirmed by a commission appointed by the Department consisting of 3 bacteriologists of the highest reputation, continues to be reported despite the amount of work which was done last year for the purpose of its eradication from Chinatown in that city, and which work covered, as stated in last year's report, the disinfection of over 14,000 rooms under the supervision of an officer of this Service. There have been reported up to August 31, 1902, 70 cases as occurring since March 8, 1900, and during the months of July and August of the present year 14 cases were reported. cases were reported in September and 7 in October. In continuance of the plan adopted last year, the Service has maintained its organization at San Francisco, which has continued its work of assisting the local board of the city by examination of the sick and dead in the infected locality, reporting all suspicious cases that have occurred. Cases confirmed by bacteriological examination have been published regularly in the public health reports of the Service.

This disease has been reported during the fiscal year 1902 in the following-named countries: Australia, Brazil, British South Africa, China, Egypt, England, France, Hawaiian Islands, India, Italy, Japan, Madagascar, Mauritius, Mozambique, Paraguay, Philippine Islands, Russia, Scotland, Spain, Straits Settlements, and Turkey.

Leprosy.

The report of the commission of medical officers of the Marine-Hospital Service, appointed under the act of March 2, 1899, regarding the prevalence of leprosy in the United States, was submitted to Congress at its last session, and has been published.

The recommendation of the commission, approved by the Surgeon-General, for the establishment of a national leprosarium meeting

with approval of the Department, a bill will be submitted for the consideration of Congress.

Yellow fever.

No yellow fever was reported in the United States during the past year. Reports have been received of the existence of this disease in Brazil, United States of Colombia, Costa Rica, Cuba, Dutch West Indies, Haiti, Mexico, and Salvador. Mexico has furnished a large proportion of cases during the past year, and Cuba, which has heretofore reported annually a large number, had only 61 cases and 14 deaths from yellow fever during the six months ended December 31, 1901, and 1 case and no death for the six months ended June 30, 1902, and this one was represented as imported.

The plan of an international agreement of American Republics in the interest of sanitation, which was recommended by the Surgeon-General to the chairman of the United States delegation for presentation to the conference of American States, which convened in the City of Mexico October 22, 1901, was modified, and, as modified, was favorably acted upon. Resolutions were adopted for the organization of an international sanitary conference of the American States. In accordance with these resolutions, the first of the conferences will be held in Washington, D. C., December 2, 1902. The delegates on the part of the United States have been appointed and a plan of organization and a tentative program submitted.

The yellow-fever institute, mention of which was made in the last report as having been organized by the Surgeon-General for the purpose of investigating questions concerning yellow fever, has continued its work. A working party at Vera Cruz, Mexico, has been engaged in the investigation of the etiology of this disease.

Foreign and insular quarantine and immigration.

Maritime quarantine has been conducted in Cuba, Porto Rico, Hawaii, and the Philippines.

The severe outbreak of cholera in the island of Luzon has necessitated the maintenance of a stringent quarantine on outgoing vessels from Manila to the uninfected ports of the Philippines, as well as those of the United States and its insular possessions. The recently fitted up Mariveles quarantine station, across the bay from Manila, has been of the greatest assistance in the detention, disinfection, and observation of the personnel of vessels on which cholera has appeared. Quarantine of five days has been imposed on army transports before sailing for the United States.

Acting assistant surgeons are stationed at Iloilo and Cebu.

There are 5 fully equipped quarantine stations in Cuba—at Havana, Matanzas, Nuevitas, Santiago, and Cienfuegos. Until May 20, when the United States formally transferred the government of Cuba to the Cuban Government, there were 14 inspecting stations operated by the Service, in charge of acting assistant surgeons. Since May 20 the accredited medical officers of the Service have been attached to the consulates of their ports. While the quarantine inspection of incoming vessels has been turned over to the Cuban authorities at these five ports since May 20, 1902, all vessels departing for the United States ports are still inspected and certified to by medical officers of the Service.

The quarantine service in Porto Rico has been conducted upon the same lines as for the previous fiscal year. The disinfecting barge *Argus* has been sent to Ponce to be used for the disinfection of vessels. Miraflores Island, at San Juan, P. R., has been recently transferred by Executive order to the Service, and is now used as a quarantine station.

Litigation over the title of the Service to the quarantine station at Honolulu having been finally settled, necessary improvements contemplated can now be made.

Medical officers have been stationed at the ports of London, Liverpool, and Naples, at Quebec, Canada, and Halifax, Nova Scotia. During the active quarantine season, medical officers were stationed at the seven fruit ports of Central and South America to inspect fruit vessels departing for United States ports. Officers have been on duty at Yokohama and Kobe, Japan; Hongkong, China; Rio de Janeiro, Brazil, and Vera Cruz, Progreso, and Tampico, Mexico, and one has been recently sent to Shanghai, China. There is also a sanitary inspector at Nagasaki, Japan.

The medical inspection of immigrants was performed at 32 ports during the year by the medical officers of the Service detailed for that purpose; also at the ports of the islands of Porto Rico and Hawaii. Immigrants were also inspected at Quebec, Canada, and Halifax, Nova Scotia. Emigrants leaving Naples and Palermo for the United States are inspected by a medical officer stationed at the first-named place.

Marine hospitals and relief.

The Surgeon-General reports that 56,310 sick and disabled seamen of the merchant marine were treated during the fiscal year, of whom 12,927 were in hospitals.

The Service controls and operates 23 hospitals, of which 21 are owned by the United States and 2 are leased buildings. In addition to the hospitals, there are 120 relief stations where seamen receive hospital and dispensary treatment. Relief stations have been established at Houghton, Mich., Hoquiam, Wash., and Sheboygan, Wis.

New hospitals.

As recommended in the last annual report, provision was made by the Congress for a marine hospital at New York, N. Y., by an appropriation of \$250,000 for the purchase of the site and building now occupied, or purchase of a new site and erection of a building. Negotiations to that end are now in progress.

Congress also authorized and made appropriations for marine hospitals at Buffalo, Pittsburg, and Savannah, and measures have been taken toward selecting the sites and erecting the buildings for the same.

Sanatorium for consumptives, Fort Stanton, N. Mex.

The relief transactions of this station have increased to a marked degree, 212 patients having been treated during the year, an excess of 60 over the previous year.

The Surgeon-General invites the attention of the Congress to the expediency, as a sanitary and prophylactic measure, of receiving upon the large reservation now at the disposal of the Service at Fort Stanton such cases of tuberculosis as may be sent there for treatment by State health authorities upon the payment of a per diem rate, to be based upon the cost of maintenance of the patients. He declares that this measure would probably result in the cure of many ill with a disease incurable under general conditions of environment, and would diminish centers of infection established by these patients in their homes, and that such a provision would materially aid in the well-directed efforts now being made for the suppression of the disease in the United States.

Aid to other services.

During the year the Service has extended aid to other branches of the Government as follows: To the Revenue-Cutter Service, in the physical examination of 800 applicants for enlistment, 145 of whom were rejected; to the Steamboat-Inspection Service, in the examination as to visual capacity of 1,759 pilots, of whom 85 were rejected; to the Life-Saving Service, in the physical examination of 1,045 surfmen, of whom 58 were rejected; to the Immigration Service, in the medical inspection of 746,297 immigrants arriving at the various ports of the United States and Cuba; to the Coast and Geodetic Survey and Light-House Service, in the physical examination of 27 applicants for enlistment, of whom 1 was rejected.

Personnel.

At the close of the fiscal year the commissioned corps of the Service consisted of 105 commissioned officers (including the Surgeon-

General), 29 surgeons, 27 passed assistant surgeons, and 48 assistant surgeons. During the year 1 surgeon resigned, 1 passed assistant surgeon was promoted to the grade of surgeon, and 5 assistant surgeons were promoted to the grade of passed assistant surgeon. At the close of the year there were 181 acting assistant surgeons, 2 sanitary inspectors, 46 pharmacists, and 539 hospital and quarantine attendants.

Expenditures.

The balance of the appropriation for the expenses of the Marine-Hospital Service at the commencement of the fiscal year was \$726,752.74, and the receipts from all sources \$908,435.54. The net expenditures were \$956,434.69, including expenditures for improvements of marine hospitals and grounds and for repairs, heating apparatus, furniture, fuel, light, and water, these items having been excluded by the Congress from participation in the annual appropriation and made payable from the marine-hospital fund.

The amount available of the appropriation for preventing the spread of epidemic diseases July 1, 1901, was \$799,561.81, and the expenditures for the fiscal year \$145,471.71, leaving a net balance July 1, 1902, of \$654,090.10.

Hygienic laboratory.

The laboratory building appropriated for by act approved March 3, 1901, is now in course of construction.

On account of the importance of bubonic plague in its relation to the public health, studies upon this disease were continued throughout the year in the laboratory, and many doses of the Haffkine prophylactic were made and distributed to quarantine stations in the United States, as well as to our possessions in the Philippine Islands and Hawaii. The laboratory investigated, from a bacteriological and pathological standpoint, many specimens from suspected cases of plague sent from the various quarantine stations, and a thesis is to be published upon this subject.

As rats assist in spreading the plague, special experiments were made with a microbe said to be pathogenic for these animals, and the result of the experiments has been published.

Horses were treated in an endeavor to procure curative and preventive serums for yellow fever, plague, typhoid fever, and pneumonia.

In view of the importance of trachoma and its frequency among immigrants coming into the United States, the laboratory is making special investigation as to its nature, cause, and treatment.

Much work was done throughout the year upon disinfection and disinfectants. Disinfection against mosquitoes was given special attention last summer on account of the relation of these insects to the spread of various diseases, particularly malaria and yellow fever, and a bulletin was published on this subject. Tuberculosis, car sanitation, and smallpox have also received the attention of the workers in the laboratory, and reports upon the first two of these subjects have been published.

The Surgeon-General has reported that an additional building will be required for the laboratory, and the favorable action of the Congress thereon is recommended.

REVENUE-CUTTER SERVICE.

The following is a summary of the work performed by vessels of the Revenue-Cutter Service for the year ended June 30, 1902:

Lives saved (actually rescued) from drowning	55
Persons on board vessels assisted	
Persons in distress taken on board and cared for	
Vessels in distress assisted	101
Vessels boarded and papers examined	22,567
Vessels seized and reported for violation of law	191
Fines and penalties incurred by vessels reported	\$45, 182.50
Value of vessels assisted and their cargoes	\$2,224,089.00
Distance covered in nautical miles	294, 173, 05

Services.

The general and specific duties imposed by law upon this Service are of such character that they can never be narrowed, but must broaden and find new channels with the growth of commerce and the country, to meet new demands which are yearly being added to its field of usefulness, while in time of war it becomes, under the provisions of law, a part of the naval establishment by cooperation for offensive and defensive operations.

Every year, in aid of commerce, the value of property saved is far in excess of the sum annually appropriated for its maintenance. In the year just closed the value of property which the Service assisted in saving is shown to have been \$2,224,089. The total appropriation for its maintenance for the year was \$1,240,000.

There have been in active commission throughout the year 37 vessels, embracing 24 cruisers and 13 vessels on harbor service; and 12 officers of all grades have been on detached duty, in connection with the construction and repair of vessels for the Service.

For inspecting, drilling, and disciplining crews of the Life-Saving Service and the superintendence of construction of life-saving stations, 13 officers of the Revenue-Cutter Service have been constantly on duty, under the direction of the General Superintendent of the Life-Saving Service.

Vessels.

In recent annual reports of the Secretary of the Treasury, the kind and character of vessels composing the fleet of revenue cutters and the necessity for providing new ones have been urgently and carefully represented to Congress. Referring to this subject in his last annual report, my immediate predecessor said:

Attention is again invited to the absolute necessity for providing a number of new vessels to replace old ones of the fleet. obsolete, and in other respects inefficient vessels in the Revenue-Cutter Service are a source of constant anxiety, not only because they are not adapted to the work of the Service and can not be depended upon in emergencies, but because the annual expenditures required to keep them afloat and in commission can only be justified upon the ground that the active presence of cutters on stations is essential to the public interests. These vessels are anything rather than efficient revenue cutters; they are discreditable to the Department and furnish subject for criticism. Of this class are the following: The Woodbury, constructed in 1864: Original cost, \$92,000; since

for repairs, \$94,339; total cost to June 30, 1901, \$186,339.

The McLane, purchased in 1865: Original cost, \$36,000; for repairs,

\$117,876; total cost to June 30, 1901, \$153,876.

The Hamilton, constructed in 1871: Original cost, \$65,000; for repairs, \$103,567; total cost to June 30, 1901, \$168,567.

The Boutwell, constructed in 1873: Original cost, \$70,000; for

repairs, \$54,490; total cost to June 30, 1901, \$124,490.

It is plain that further expenditures on these old vessels should not be continued longer than it will take to provide new ones to supply their places. It is therefore recommended that new vessels be constructed to replace those above named, at a cost for each of This will require an appropriation of \$700,000. \$175,000.

There is undoubtedly great need of new vessels of modern construction to meet the exigencies of the Revenue-Cutter Service. The subject of the necessity for new vessels for this Service has been called repeatedly to the attention of the Congress. It is urged that the sum of \$875,000, sufficient for the construction of at least 5 vessels, to replace the same number of old craft now in the Service, be appropriated and made immediately available.

Bering Sea and Alaska.

The annual cruise for the protection of the seal herd by the cutters Bear, Thetis, and Manning, designated by the President for the purpose, was in course of execution at the close of the year.

The cutter Perry was dispatched to visit the salmon fishing grounds and canneries on the coast of Alaska from Sitka to Bristol Bay, while the Rush performed like duty from Sitka through Southeastern Each of these vessels had on board an authorized agent of the Government for the supervision of the industries indicated.

The North Pacific and Bering Sea patrol has been maintained as usual, but reports covering the work done have not been received.

Personnel.

The act approved April 12, 1902, recognizes the military character of the Revenue-Cutter Service, places its officers upon an equal footing with those of the Army and Navy, confers upon its commissioned personnel rank, pay, and allowances of officers of the Army up to and including the grade of major, U. S. Army, and provides for retirement from active service because of age or physical infirmities, on the same lines with the provisions of law in force for the other military services.

The law will be undoubtedly of great aid in the improvement of the efficiency of the Revenue Cutter Service. There have been retired from active service since the approval of the measure 9 captains and 5 chief engineers because of age, 64 years; 1 chief engineer, 1 third lieutenant, and 2 second assistant engineers because of physical disability.

Pensions.

Attention is invited to the following language of my immediate predecessor, in his annual report for the fiscal year ended June 30, 1897:

Under the provisions of section 4714, Revised Statutes, the officers and seamen of the Revenue-Cutter Service who may be wounded or disabled in the discharge of their duty "while cooperating with the Navy by order of the President," may be placed upon the Navy pension list.

The ordinary duties devolved upon the Revenue-Cutter Service are fraught with greater risk of life and limb than that incurred by the Army, Navy, and Marine Corps in time of peace, while in time of war they are at least equal, and every argument that applies as a justification for extending this bounty to those services has equal force on behalf of the enlisted men of the Revenue-Cutter Service. I therefore recommend that the law, section 4714, Revised Statutes (act of April 18, 1814), be amended to read as follows:

"The enlisted men of the Revenue-Cutter Service of the United States, who have been or may be wounded or disabled while in the actual discharge of their duties, shall be entitled to be placed upon a pension list, under the same regulations and restrictions as are now provided by law for enlisted men of the Navy."

The statute sought to be amended by the above recommendation has been in force since 1814, or eighty-eight years. There is no provision of law under which enlisted men of the Revenue-Cutter Service can be provided for in the event of their disablement in the line and performance of duty in time of peace. Some provision should in fairness be made, and it is hoped that section 4714, Revised Statutes, may be amended as indicated.

NAVIGATION.

On June 30, 1902, the merchant marine of the United States, including all kinds of documented shipping, comprised 24,273 vessels, of 5,797 902 gross tons. On June 30, 1901, it comprised 24,057 vessels,

of 5,524,218 gross tons. The following table shows the geographical distribution, motive power and material of construction, and trade of vessels of the United States for the fiscal year 1902, compared with the fiscal year 1901, and also the construction for the two years:

American shipping was greater in volume on June 30, 1902, than ever before in our history. The tonnage losses of the civil war have been more than made good. New vessels of the year have been of superior types, including the largest transatlantic steamer ever built in the United States, the fastest steamer for Asiatic trade yet built in any country, and the largest steamer ever launched into the waters of the Pacific.

The total tonnage completed was a trifle less than in 1901, but the shipbuilding in progress during the year, in the value of materials and amount of wages, has never been equaled in this country. If the rate of progress during the past few years could be maintained, the United States would in time become a competitor with Germany for the second place as a shipbuilding nation. The outlook for the current fiscal year is not, however, so promising. A large amount of unfinished tonnage will be launched and completed. Few new contracts for ocean steamers have been reported.

The growth of American shipping has been entirely within the domestic trade. The tonnage registered for foreign trade is smaller than a year ago, but it is more efficient, as the proportion of steamers has increased. American vessels carried 8.8 per cent of our exports and imports, a small gain over the percentage of 1901. These modest figures show the small share of our national shipping in our foreign trade, but they fall far short of showing the place held by American capital in ocean navigation.

For several years American capital in increasing amounts has been invested in ocean steamers under foreign flags. Recently this movement has taken form in the organization of an American steamship company, which, in the tonnage, average speed, and size of its steamers, equals any two combined of the world's great steamship companies. Yet, only an insignificant proportion of this company's tonnage-about one-eighth-is under the American flag. The tendency noted and the organization of this company show conclusively that abundant American capital is disposed to engage in commercial enterprises on the sea, and that, under existing conditions, the ready outlet for it is afforded by resort to foreign flags. capital prefers investment under foreign flags because it costs more to build ocean steamers in the United States than abroad, and, once built, it costs more to operate steamers under the American than under foreign flags. Only steamers built in the United States are entitled by law to fly our colors. If foreign-built steamers were admitted to American registry, the handicap of higher wages for crews shipped in American ports would remain. The Department's conclusions and the facts and considerations upon which they have been based have been set forth in detail in former reports.

Tonnage taxes collected during the past fiscal year amounted to \$868,783.91, compared with \$903,138.88 for the previous year. Even with increasing commerce, the total tonnage taxes under existing law may decline, as regular lines of steamers continue to supersede "tramp" services. The Commissioner of Navigation points out that under our present law the passage of a bill pending in the British Parliament may reduce our receipts from tonnage tax about 32 per cent. His recommendation for a refund of additional taxes necessarily imposed on a few Cuban vessels for a few weeks after the establishment of the Republic is indorsed.

Congress should provide American registry for vessels owned in the Philippines, as it has provided for the American registry of vessels owned in other acquisitions of the United States. If desired, a bill for this purpose will be submitted at this session, to allow ample time for a full understanding of its effect and for the establishment of the necessary administrative machinery before July, 1904.

Shipping commissioners are now established at 22 seaports. Last year 176,836 seamen were shipped, reshipped, and discharged by these officers at a cost to the Government of \$58,988.36. The Supreme Court has decided that the rent and necessary office expenses of shipping commissioners are a legitimate charge on the Treasury. An item of \$9,000 for this purpose is included in the estimates.

The report of the Commissioner of Navigation refers in detail to the matters mentioned and to others, and the attention of the Congress is invited to its statements and recommendations.

STEAMBOAT-INSPECTION SERVICE.

The expenses of the Service were, for salaries, \$303,796.61, an increase over the previous year of \$5,894.43; for contingent expenses, \$56,259.25, an increase over the previous year of \$797.55. This increase is due to the fact that additional assistant inspectors were found necessary at San Francisco, Cal., and Seattle, Wash., and to the largely augmented commerce incident to gold discoveries in Alaska. The number of sail vessels inspected at San Francisco was 118, and at Seattle, 57. The increase in contingent expenses was incidental to the increased number of inspections.

The number of vessels inspected and certificated was 9,261, with a total gross tonnage of 5,293,526, an increase in number of vessels inspected of 88 and of tonnage 450,299 over the previous year.

Of the number of certificates issued, 367 were to foreign passenger steamers, with a gross tonnage of 1,587,076; 138 to motor vessels, with a tonnage of 6,021; 500 to sail vessels, with a tonnage of 578,579.

The number of officers to whom licenses are issued by the Service is estimated to be about 40,000. The number issued during the past year was 20,108, of which probably about 17,000 were renewals of five-year licenses issued in the first half of the fiscal year ended June 30, 1897, the remainder being for original licenses.

Under the act of January 22, 1894, there were tested at the mills where manufactured 5,958 steel boiler plates for marine boilers, of which number 674 plates were rejected. There was an increase over the previous year of 121 in number of plates tested and inspected and an increase of 17 in plates rejected.

Annual Certificates of Inspection Issued to Foreign Steam Vessels by the Inspectors during Fiscal Year 1902.

Nationality.	Number.	Gross tonnage.	Nationality.	Number.	Gross tonnage.
British. German. Norwegian. Italian Dutch. French. Belgian Japanese	21 14 13 12 10	837, 297 376, 791 20, 808 56, 228 63, 218 73, 974 41, 105 50, 620	Spanish. Cuban Danish Portuguese. Chilean Total	5 4 3	25, 920 10, 769 19, 311 8, 395 2, 640 1, 587, 076

The above 367 certificates of inspection were issued by the inspectors to 361 foreign steam vessels, with a total of 1,573,963 gross tons, 6 of which steamers—the *Toronto*, inspected at New York, N. Y.; the *Aorangi*, at Seattle, Wash.; the *Minnie M.* and *Ossifrage*, at Marquette, Mich.; the *Alexandria*, at Buffalo, N. Y., and the *Managua*, at Mobile, Ala.—were twice certificated by the inspectors during the year.

The increase in annual certificates issued to foreign steam vessels over previous year was 26, and there was an increase over the previous fiscal year of 210,833 in gross tonnage of foreign steam vessels certificated.

There were 55 accidents to steamers involving loss of life, 8 more than in the previous year, and the number of lives lost was 445, an increase over the previous year of 105.

COAST AND GEODETIC SURVEY.

The appropriations for the United States Coast and Geodetic Survey on account of the fiscal year 1902 amounted to \$832,845. Of this amount, the sum of \$210,245 was for pay of officers and men to man and equip the vessels of the Survey, and \$54,600 for repairs and maintenance of vessels. The sum of \$34,500 was for office expenses, including installation of a new electrotyping plant. The remainder of the appropriation was about equally divided between expenses of parties in the field and salaries of the field and office forces.

Hydrographic and topographic surveys were made in 12 States. In Alaska, surveys were continued in Icy Straits and Cross Sound, in Prince William Sound, and in the principal passes through the Aleutian Islands into Bering Sea.

In Porto Rico, hydrographic work was continued in the harbors and bays and offshore. The triangulation around the island and topographic survey along the shore line were completed.

In the Hawaiian Islands, the work of separating the records relating to the coast survey from the Land Office records was continued and a list of the geographic names used in the islands was completed.

The director of coast surveys in the Philippine Islands, an officer of this Bureau, in cooperation with the Insular Government, has continued the important work of charting the imperfectly known waters of the archipelago. Detached surveys, based upon astronomical determinations, and including base measure, triangulation, topography, hydrogaphy, and tide observations, have been made at various points, and many additional telegraphic longitudes have been determined. Magnetic observations were continued. The work in the Manila office was executed with promptness and dispatch, the total output amounting to 18 new charts and 2 new editions of charts formerly published. Sailing directions for the north and west coasts of Luzon were prepared and sent to the printer.

Good progress has been made with the general magnetic survey, and observations were made at 149 new stations in 12 States and Territories, including Alaska, Porto Rico, Hawaii, and the Philippine Islands. A magnetic observatory has been established at Sitka, Alaska, and Honolulu, Hawaii, and a continuous record of the changes in the earth's magnetism is now obtained at these two points, and also at Cheltenham, Md., and Baldwin, Kans. Special observations have been made at each of these observatories on the 1st and 15th of each month since January 1, 1902, at the formal request of the German Government, in order to cooperate with the foreign observatories in international magnetic work during the time of the various antarctic expeditions which have been sent out from Germany and Great Britain.

The special report on "The Eastern Oblique Arc of the United States" has been published and distributed. Part IV A of the Manual of Tides, "Outlines of Tidal Theory," was issued as an appendix to the annual report for 1900. The Coast Pilot from Dixon Entrance to Yakutat Bay was also issued. The Coast Pilot of Chesapeake Bay-and its tributaries was revised and printed, and the regular monthly notices to mariners were issued. A chart showing the lines of equal magnetic declination on January 1, 1902, was compiled and issued. The current work in the office of the Survey was kept up to date.

Continuous tide observations with automatic gauges were maintained at 8 stations, including 1 station in Hawaii and 1 in the Philippine Islands.

Satisfactory results have been obtained during the year at the latitude observatories maintained under the direction of the Survey at international expense at Gaithersburg, Md., and Ukiah, Cal., for the purpose of measuring the variations of latitude.

One officer continued on duty as a member of the Mississippi River Commission. The two officers appointed by the United States Supreme Court as members of the commission to retrace and mark the boundary line between the States of Virginia and Tennessee continued this work, and one officer continued the resurvey of Mason and Dixon's Line under an assignment requested by the commission of the States of Maryland and Pennsylvania.

NATIONAL BUREAU OF STANDARDS.

The National Bureau of Standards was established July 1, 1901, by the act of March 3, 1901. In addition to the equipment of the old Office of Standard Weights and Measures, \$10,000 was provided for apparatus and \$5,000 for general expenses, including books and periodicals. The work of the first fiscal year included the preparation of plans for the new buildings of the Bureau, the development of some of the new work of the Bureau, and the current testing, including chiefly the testing of lengths, masses, thermometers, electrical resistances, and optical instruments.

As stated in the last report, there are to be two laboratory buildings erected for the use of the Bureau on a suitable site situated near the intersection of Connecticut avenue and the Pierce Mill road, about 3 miles northwest from the Capitol.

It was found necessary to exceed the original appropriation of \$250,000 in order to provide a sufficient capacity in the mechanical laboratory, and accordingly Congress at its last session extended the limit of expenditure for the two buildings from \$250,000 to \$325,000 and added \$30,000 for equipment. New apparatus to the extent of the \$10,000 available has been purchased and considerable time expended in laying out new work for the next fiscal year.

On account of the pressure of other work in the office of the Supervising Architect, the plans of the new buildings for the Bureau have been delayed, the contract for the mechanical laboratory not being made until late in June, 1902, while the plans of the physical laboratory are still unfinished. The mechanical laboratory is to be finished September 1, 1903, while the physical laboratory will probably be completed about eight months later. On account of this unexpected delay, permission was secured from the Congress to rent the

4-story building on New Jersey avenue SE. as a temporary laboratory and instrument shop. The building was accordingly occupied on July 1, 1902. It affords reasonably convenient facilities for a small instrument shop and for laboratory work in alternating currents and high-temperature measurements.

The enlarged facilities of the Bureau have made it possible to do a greater amount of testing during the year than did the former office of Standard Weights and Measures. Nevertheless, the demands upon the Bureau by manufacturers of scientific apparatus and of machinery and others have been far in excess of what could be met, and not until the new buildings are fully equipped and the personnel largely increased can the demands for information and testing be filled.

$Metric\ system.$

Attention is again called to the necessity for a reform in our present system of weights and measures. The greater part of the world has already adopted the international decimal system. The many advantages to be gained by the introduction of such a system in place of the several heterogeneous systems now in use, none of which are decimal or international in character, would prove of the greatest value to the manufacturing, commercial, scientific, and educational interests of the country. It is believed that the introduction of the international or metric system of weights and measures in the departments of the Government, allowing a reasonable time for the change, will not only greatly facilitate the work of these departments, but will bring about its general adoption by the public without further legislation.

LIGHT-HOUSE ESTABLISHMENT.

The annual report of the Light-House Board contains a full statement of the operations conducted under the Light-House Establishment and of its present condition and future needs. It is a growing service, as it must necessarily keep pace with expanding commerce by responding to its demands for the various forms of aids to navigation.

The advance in the cost of materials, higher wages for labor, and the operation of the eight-hour law, and of the tariff under which the Light-House Establishment is required to pay a duty on all of its importations, especially lens apparatus, upon which from 45 to 60 per cent is charged, increase the cost of maintaining the light-houses and light-vessels much beyond that of former years. This Department in its letter dated January 30, 1902, to the Speaker of the House of Representatives, a copy of which appears in the annual report

of the Light-House Board, has suggested that the law operating heretofore, but which is made inoperative by a decision of the Comptroller of the Treasury, be again enacted, by which importations for the Light-House Establishment for light-house purposes be admitted hereafter free of duty.

There are now in operation 1,332 light-stations. Others are in process of construction, and recommendation has been made by the Light-House Board that appropriations be made for the building of others. In this connection, the Department urges upon the attention of Congress the necessity for liberal appropriations, inasmuch as economy and business reasons require that all light-houses hereafter constructed shall be of the latest and most improved type. The Department wishes to reiterate the folly of anything but the highest standard in the construction and equipment of such vital aids to commerce as light-houses and light-ships.

The appropriation for supplies of light-houses for 1903 was \$475,000. The Department approves the recommendation of the Board that \$502,886 be appropriated, to be expended for that purpose during the next fiscal year, this amount being based on careful calculation as to actual needs.

The appropriations for the repair, etc., of light-houses have not kept pace with those for the establishment of new light-houses. The light-stations, especially those established in the early days of the Service, require that much should be done to keep them in working order. The Department approves the Board's recommendation that \$825,000 be appropriated for the repair, etc., of light-houses during the next fiscal year.

The increase in the number of light-houses makes an increase in the number of light-keepers necessary. For the last fiscal year Congress appropriated \$800,000 for not exceeding 1,650 keepers. For the present fiscal year an appropriation of \$833,000 is necessary.

The Board reports commendable progress in the establishment of aids to navigation in Alaskan waters, and it estimates that \$350,000 can be expended profitably during the next fiscal year in the establishment of eight more light-stations, which are held to be urgently necessary to the safety of Alaskan commerce and navigation.

Special attention is invited to the previous recommendation that authority be given for creating two additional light-house districts. The light-house service of the United States in the West Indian territory should constitute one light-house district and the Alaskan waters should constitute another. It has been found difficult, expensive, and exceedingly inconvenient to administer the affairs of the Porto Rican light-house service from the headquarters of the third light-house district, which are located at Tompkinsville, N. Y., and it is equally difficult, expensive, and inconvenient to admin-

ister the affairs of the Alaskan light-house service from Portland, Oreg., the headquarters of the thirteenth light-house district.

The Board's recommendation as to the need for additional light-house tenders, and especially the one for Porto Rican waters, is commended to the attention of Congress.

LIFE-SAVING SERVICE.

The number of disasters to documented vessels within the scope of the Service was 385. On board these vessels were 3,424 persons, of whom 19 were lost. The estimated value of the vessels was \$9,253,630, and that of their cargoes \$5,139,380, making the total value of property involved \$14,393,010. Of this amount, \$12,125,220 was saved and \$2,267,790 lost. The number of vessels totally lost was 51. In addition to the foregoing, there were 361 casualties to undocumented craft—sailboats, rowboats, etc.—carrying 796 persons, 6 of whom perished. The value of property involved in these instances is estimated at \$174,120, of which \$167,575 was saved and \$6,545 lost. The aggregate of disasters to vessels of all descriptions, with their value, including that of their cargoes, and also the number of persons involved, is, therefore, as follows:

Total number of disasters	746
Number of vessels totally lost	51
Total number of persons involved	
Total number of persons lost	25
Total number of shipwrecked persons succored at stations	712
Total number of days' succor afforded	1,272
Total value of property involved	\$14,567,130
Total value of property saved	\$12,292,795
Total value of property lost	\$2,274,335

The foregoing summary does not include 70 persons who were rescued from various positions of danger, most or all of whom would otherwise have perished, nor the 7 members lost from the Monomoy life-saving crew.

Much assistance was rendered in saving imperiled vessels and cargoes, 615 vessels having been worked afloat when stranded, repaired when damaged, extricated from dangerous positions, and similarly aided by the station crews. Besides the foregoing, assistance of minor importance was rendered to 480 vessels. Altogether, therefore, 1,095 vessels of all kinds, including small craft, were aided by the Service. This number does not include 237 instances in which vessels running into danger—210 of which were by night—were warned off by station patrolmen, numerous disasters undoubtedly being thereby averted.

The most notable event of the year was the loss of the keeper and 6 of the Monomoy life-saving crew on March 17 while engaged in an attempt to rescue 5 men from the coal barge *Wadena* stranded on the coast of Cape Cod. These surfmen perished on an errand to

which they were summoned by the men on the barge, who were safely taken into the surfboat, but became panic-stricken and so interfered with the use of the oars by the crew that the boat was capsized and lost. Twelve lives were thus sacrificed. Great sorrow and sympathy were aroused throughout the whole country, and a popular subscription of over \$45,000 was raised, mostly in Massachusetts, for the support of the widows and care and education of the orphan children. Widespread interest also developed among the marine organizations of the principal commercial cities, who gave expression to the general feeling by numerous petitions for the passage by Congress of a pension act to cover similar cases. A bill was introduced in the House of Representatives and favorably reported from the Committee on Interstate and Foreign Commerce. The Department recommends its enactment.

The number of stations embraced in the Service at the end of the fiscal year was 272, of which 195 are located on the Atlantic and Gulf coasts, 60 on the coasts of the Great Lakes, 1 at the Falls of the Ohio River (Louisville, Ky.), and 16 on the Pacific coast. The net expenditure for the maintenance of the Service during the year was \$1,654,392.96.

New stations at South Manitou Island and Sleeping Bear Point, Mich., were completed during the year. A new station at Arena Cove, Cal., is approaching completion, and plans and specifications are in course of preparation for a new station to be established on Fishers Island, N. Y. New stations at Amagansett, L. I., and Harvey Cedars, N. J., have been completed. Old stations at Long Beach and Squan Beach, N. J., Seatack (Virginia Beach), Va., and Whales Head (Currituck Beach), N. C., are being replaced by new ones. A new floating station at Louisville, Ky., at the falls of the Ohio River, and a new station at Ship Canal (Portage), Mich., are nearly completed, as is a wharf upon which to construct a new station at Chicago, Ill.

The act making appropriations for the sundry civil expenses of the Government for the fiscal year ended June 30, 1902, provided for the placing of a Lyle gun, the beach apparatus used with it, and suitable surfboats, at Cape Nome, Alaska. A suitable equipment was also authorized to be located at Port Day, N. Y., for the protection of life from drowning in the rapids of Niagara River. These provisions have been complied with.

SECRET SERVICE.

The Secret Service Division reports 573 arrests during the year, the capture of \$65,000 in counterfeit notes and coins, and a large quantity of dies, molds, and contraband material. The activity of the agents was such as to discourage the issuance of new counterfeit

notes, only one dangerous bill having made its appearance during the year. The division performed much work for the other Departments in such a manner as to meet with commendation.

The chief of the division renews the hope that the habitual criminal act now under consideration by the Congress will receive favorable action during the coming session, and the Department is in full sympathy with him in the matter.

There is a large field for effective work among the disaffected classes—that is to say, those who advocate the use of force in the destruction of governments, and who preach assassination and anarchy. No provision exists for the investigation of the secret organizations which are maintained in all centers of industrial activity and whose existence is a constant menace to the lives of the highest officers of this and other governments. The Secret Service Division is well organized for the prosecution of the necessary investigations, but lacks the means and authority to carry them out. The matter is commended to the attention of Congress.

STATE BONDS AND STOCKS OWNED BY THE UNITED STATES.

The following statement shows the nonpaying State bonds and stocks, formerly in the Indian trust fund, now in the Treasury, belonging to the United States:

Louisiana	· · · · · · · · · · · · · · · · · · ·	· · · · · · · · · · · · · · · · · · ·	· · · · · · · · · · · · · · · · · · ·	\$37,000.00
North Carolina			· , , , ,	58,000.00
South Carolina				125,000.00
Tennessee		· ·•••••		$335,666.66\frac{3}{2}$
	•			1 150 466 662
Total				1 150 AKK KKY

The above is a statement of the principal of such stocks and bonds, and does not include interest.

The indebtedness of the State of Tennessee is subject to such action as may be taken under the joint resolution, approved May 12, 1898 (30 Stat. L., pp. 742, 743), which provides for the adjustment of the claims between the United States and the State, with directions that any settlement or compromise effected by virtue of the act shall be reported to the Congress for its action and approval.

By section 4 of the act of March 3, 1899 (30 Stat. L., 1358), the Secretary of the Treasury was authorized and directed to institute proceedings against the States indebted to the United States on account of bonds or stocks. Acting under this authority, demands were made upon the States for payment of amounts due from them, respectively; and no satisfactory response thereto having been made, the claims were transmitted to the Attorney-General for the institution of suits in the Supreme Court of the United States.

Suits were filed by the Attorney-General, but were subsequently discontinued and dismissed under the directions given in the sundry civil act of June 6, 1900 (31 Stat. L., 612).

During the present calendar year \$132,000 of Florida State bonds, heretofore included in this statement, have been canceled and returned to the State, settlement of the mutual account between the United States and the State having been made in accordance with the provisions of the act of May 27, 1902 (32 Stat. L., p. 235).

The act of May 27, 1902 (32 Stat. L., p. 235), directs settlement of all claims of the States of Virginia and South Carolina for advances and expenditures made in the war of 1812 to 1815 with Great Britain, and provides that in the settlement any bonds or other evidences of debt of said States held by the United States on any account shall be credited as offsets. Final settlement of these claims has not yet been made.

A history of these State stocks and bonds is given in House document No. 263, Fifty-fourth Congress, second session.

CENTRAL PACIFIC DEBT.

All amounts which have become due to the United States under the agreement dated February 1, 1899, for the settlement of the indebtedness of the Central Pacific Railroad Company, have been paid by the railroad company in full, including interest on all outstanding notes to August 1, 1902.

The principal of all notes held August 1, 1902, amounted to \$38,228,265.14, and first-mortgage bonds to the amount of \$38,229,000 were held as security for the payment thereof.

HAWAIIAN DEBT.

Pursuant to the appropriation made by the act of March 3, 1901 (31 Stat. L., 1152), to carry into effect the agreement embodied in the joint resolution "To provide for annexing the Hawaiian Islands to the United States," approved July 7, 1898, under which not exceeding \$4,000,000 of the debt of Hawaii, including postal savings deposits, was assumed by the United States, interest-bearing bonds and postal certificates have been redeemed by this Department, as follows:

				Am	D-1	
Bonds, etc.				Assumed by United States	Paid by United States.	Balance unpaid.
Bonds				\$3,235,400.00 764,570.31	\$3,223,813.00 759,437.20	\$11,587.00 5,133.11
Total			;	3,999,970.31	3,988,250.20	16,720.11

ESTIMATED REVENUES AND EXPENDITURES.

The revenues of the Government for the current fiscal year are estimated at approximately \$694,000,000. Expenditures during the the same period are estimated at \$651,000,000, leaving an estimated surplus for the fiscal year of \$43,000,000.

The revenues for the fiscal year ending June 30, 1904, are estimated at approximately \$730,000,000. Expenditures, exclusive of isthmian-canal rights and other extraordinary appropriations for the same period, are estimated at \$680,000,000, leaving the estimated surplus for the year \$50,000,000.

These figures assume that existing business activities will continue Public revenues, like private earnings, are dependent very largely upon industrial and commercial conditions. The largest deficit of the last decade (except pending the Spanish war) was \$70,000,000. The Government Actuary estimates that were the present population to produce, consume, and import relatively the same class of goods and per capita the same amount that they did during the most unfavorable fiscal year in the recent past, there would be a deficit under present revenue laws of \$90,000,000 per annum, instead of \$50,000,000 surplus.

THE CURRENCY.

Any coin that the Government gratuitously and in unlimited quantity coins for the bullion owner will be worth exactly the same as the material of which it is coined.

By act of Congress approved February 12, 1873, and by a second act approved March 14, 1900, the value of the United States dollar was declared to be that of 25.8 grains of gold .900 fine. These acts have been referred to as establishing and determining the gold standard in the United States.

In 1792 the Congress authorized the purchase of bullion and the coinage of cents on Government account. Subsequently these cents were made legal tender in limited amount, but it was deemed unsafe as well as unjust to enforce the acceptance even of cents at more than their metallic value, and they were therefore made redeemable in lawful money. Similar provision, and for the same reason, has been made with respect to all minor coins.

In 1853 the Congress authorized the coinage on Government account of subsidiary silver coins of relatively less bullion value than the then standard coin, and made the same legal tender in limited amount, but it was subsequently deemed unsafe, as well as unjust, to enforce the acceptance thereof without special provision for their redemption.

In 1862 the Congress authorized the issuance of what was known as United States notes, popularly called "greenbacks," and made

the same, as between individuals, legal tender in unlimited amount. But because there was no provision for their redemption in coin, their purchasing power fluctuated very materially, notwithstanding the fact that their debt-paying power remained the equivalent of gold. Subsequently, the Congress, recognizing the ruinous effect upon commerce of an irredeemable currency, made special provision for the redemption of these notes in coin.

In 1893 a very serious financial panic arose, which threatened every commercial and industrial institution in the land. Without going unduly into the history of this panic, it is quite universally recognized that the possibility of Government notes being redeemed in coin worth less than 25.8 grains of gold was the prime factor which led to the hoarding of gold. There was no occasion to fear that greenbacks and Treasury notes would not be redeemed in coin, for this had been expressly provided, but there was occasion to fear that they might be redeemed in unprotected silver worth 54 cents in gold.

Subsequently, on March 14, 1900, the Congress, recognizing that the parity of the demand obligations of the Government could not long be maintained when redeemable in anything other than standard coin, expressly provided for the redemption of greenbacks and Treasury notes in gold. No provision has yet been made for the redemption of silver or its exchange for gold. There are now outstanding, in round figures, 550,000,000 coined silver dollars, of material worth not 54 cents each, as in 1893, but less than 40 cents each; and there is no express provision of law to protect the holder should public revenue again fall below current expenses and gold cease to flow into the Treasury.

It is true that by acts of Congress silver is receivable for customs dues and other debts, but the same law existed in 1893; and it reserves to the Government the right to pay in silver and compels its creditors to accept the same at par. It is doubtful if the solvency of a business man could be established by his agreeing to accept his own obligations on debts due to himself, while refusing to redeem the same in any money his creditors might designate. He might escape litigation so long as he remained a great creditor and a small debtor, but not afterward, and at no time would his business standing fail to suffer.

National-bank notes are secured by a special deposit of Government bonds, the principal and interest of most of which are payable in gold, but the notes themselves are payable in "lawful money," which includes irredeemable silver dollars, more than 60 per cent flat.

In 1893 there were outstanding, roundly, \$346,000,000 in United States notes and \$147,000,000 in Treasury notes, all redeemable in coin, and the cheapest coin in which these notes could have been redeemed was worth 54 cents in gold. There were also \$180,000,000 national-

bank notes, payable in "lawful money," and therefore liable to be discharged in silver worth 54 cents. There were also outstanding 420,000,000 silver dollars worth the same. There was therefore, approximately, in the aggregate, \$500,000,000 of unprotected fiat in these three forms of money. Since that time United States notes and Treasury notes have been made redeemable by law in gold, but the present national-bank issue of \$380,000,000 is payable in lawful money, which includes silver, worth not 54 cents but 39 cents, and there are now outstanding 550,000,000 silver dollars worth 39 cents each in gold. The aggregate unprotected fiat at this time is therefore \$565,000,000, or \$65,000,000 more than in 1893.

Throughout this discussion, gold certificates are treated as gold coin and silver certificates as silver coin.

Not only current obligations of the Government, but all contracts between citizens, and all bills of exchange, domestic and foreign, payable in United States money, are dischargeable at the option of the payor (except when otherwise expressly provided) in money coined on Government account and at fully 35 per cent profit to the Government, the bullion in which is worth less than 40 cents on the dollar.

The peril involved in this condition may be averted for a time, and possibly for all time. The evils that precipitated the disaster of 1893 escaped popular, though not universal, recognition so long as public revenues exceeded expenditures. The reason, assigned why the exchangeability of gold and silver should not be established is that it would entail so large an obligation that the national credit would be endangered. This concedes the argument, but pleads the preference that the Government which has coined this silver and profited thereby shall be protected regardless of possible danger to the citizens and the peril to business.

The statute now provides that parity between all forms of money shall be maintained. A former Secretary of the Treasury expressed the opinion that a somewhat similar statute authorized the redemption of silver in gold. If that be the intention, I submit it would be better to express the same in specific terms. It has been found necessary, in order to maintain the parity of greenbacks and Treasury notes, to expressly provide for the redemption thereof in gold. I am not unmindful of the claim that parity will naturally continue so long as the Government accepts silver in payment of revenues. If this be true, there would be no danger to the Government should the two coins be made interchangeable.

I believe the Treasury of the United States would be in less danger with an express provision for the exchangeability of gold and silver than under existing laws. At the present time the Treasury furnishes all the gold needed, whatever the purpose for which it is

demanded, and certainly no more would be required for commerce, and not as much for hoarding, should all doubt as to the status of silver be removed. On the contrary, if all forms of money were made the equivalent of gold, then all occasion for hoarding one coin more than another would vanish, and the danger to the Treasury would be diminished instead of being increased. The ability of this Government to fulfill its promises has never been questioned, but doubts arising from unexpressed policies have caused more than one crisis. The pursuance of the present policy of confining the issuance of currency of denominations of \$5 and under very largely to silver certificates would preclude the possibility of the collection of a sufficient volume of silver or silver certificates to embarrass the Government.

Should it be deemed wise to provide for the exchangeability of gold and silver, then national-bank notes might be made payable in gold. In this way there would be shifted to the banks the greater burden of furnishing gold for domestic use and for export, and this, in the event of an unfavorable balance of trade, might prove of great advantage to the Government. It would be manifestly unjust, as well as illogical, to require banks to redeem their notes in gold so long as legal-tender silver remains irredeemable and unexchangeable.

There can be no valid reason, legal, economic, or equitable, why the Government should not redeem in gold all its own obligations, whether they be represented in paper 100 per cent fiat, or in silver 60 per cent fiat. When the Government expressly guarantees its own issue, no objection can appropriately be urged against requiring banks to pay their notes in gold. On the contrary, I see many advantages to be gained, especially with respect to our foreign commerce, by making every obligation between the Government and the people, and between individuals, payable in money every dollar of which shall be the equivalent of 25.8 grains of standard gold, and on which a demand for this equivalent can be directly or indirectly predicated.

SUBSIDIARY COINAGE.

The aggregate of subsidiary coinage permissible under existing laws is one hundred million dollars. This limit has been reached, but the demand for subsidiary coins is by no means satisfied, and the Department even now is unable to fill all orders therefor. There is now in the vaults of the Treasury sufficient bullion to coin, in round numbers, 35,500,000 silver dollars, or \$38,000,000 in subsidiary coins. The vaults of the Treasury are crowded with silver dollars, the amount of which will perhaps be better appreciated by stating that the space occupied in this way is the equivalent of a building 8

feet wide, 10 feet high, and 1,450 feet long. This volume is being increased at the rate of a million and a half per month. Our increasing commerce and population will at present absorb about ten million dollars in subsidiary coins per annum. It is not likely that this will continue indefinitely, but I see no reason why, to the limit of this demand, it may not safely be supplied by converting the present volume of bullion into subsidiary coin, and thereafter by recoining silver dollars.

BANKING.

Recent events not only justify but enforce the conclusion that our banking system is imperfect. During certain months of the year interest rates dropped dangerously low—dangerous in the sense that speculation was invited thereby. When the time arrived for moving crops, rates advanced alarmingly high. Meantime the price of Government bonds rendered the maintenance of national-bank circulation unprofitable, and this class of currency was retired with great rapidity.

The Department exerted every influence within its authority to counteract this natural contraction. During the early spring the surplus revenues were deposited with national banks upon satisfactory security, but preference was given to such institutions as maintained their limit of circulation. Then, during the months when rates of interest were low, no deposits were made. Later in the season, when it became apparent that some measure of financial stringency was certain to arise, the Department suggested to various depositary banks the wisdom of making preparation for the issuance of additional circulation. This suggestion was submitted to 18 of the larger institutions located in central reserve cities, to which 15 responded with orders for printing \$12,000,000 circulation, and in the actual issuance of something over \$7,000,000. Later, additional deposits were made, but they were made mostly with such banks as agreed to increase their circulation by an amount equal to and frequently double the deposit. In this way \$4,000,000 more circulation Still later an offer was made to accept, as security for was secured. deposits already made, the substitution of State and certain municipal bonds at 75 per cent of their face value, in lieu of Government bonds then on deposit, on condition that the Government bonds thereby refeased should be made the basis of immediate circulation. In this way about \$15,000,000 circulation was induced. means of these several methods, the Department secured, in round figures, \$26,000,000 increase of circulation from the national banks holding Government deposits.

During the twelve months from November 20, 1901, to November 20, 1902, 467 new banks were chartered, with a capital of over

\$30,000,000 and an initial circulation aggregating, in round numbers, \$7,500,000, while the capital of existing national banks was increased more than \$43,000,000. The increase in circulation, however, during the twelve months was only about \$20,500,000. Thus it is manifest that but for the extraordinary inducements offered by the Department national-bank circulation would have contracted during the year, notwithstanding the organization of new banks and the aggregate increase in national-bank capital of about \$75,000,000. In fact, national-bank circulation did decrease very nearly \$6,000,000 during the fiscal year ending June 30. The efforts of the Department to increase circulation were not resorted to until after that date. Fully \$50,000,000 increase could have been secured had the law permitted its rapid retirement when no longer needed.

The reason for this tendency toward contraction is apparent. Government bonds are scarce, and those outstanding are held in large part by trust estates, savings banks, and insurance companies, and are not available for circulation. The bonds that are on the market are held at prices which render their use as security for circulation unprofitable whenever the rate of interest approximates 6 per cent.

The frequent purchase and retirement of bonds renders the amount available for circulation gradually less, while a rapidly growing population, additional banking facilities, and expanding trade suggest the need of an ever-increasing circulation. I therefore believe the time has arrived when it will be necessary to adopt one of two policies: either the Government debt must be perpetuated as a basis for national-bank circulation, and additional bonds issued as occasion may require, or some other system must be provided.

By the act of Congress approved March 14, 1900, the Department is authorized to refund all bonded indebtedness maturing prior to 1925. This discretion would have been exercised as far as possible but for the fact that if present conditions continue the Government will be in funds sufficient to discharge this indebtedness at the time it matures. The question has, therefore, presented itself for solution: Shall the Department, as the agent of the Government, secure additional time upon an indebtedness not yet due, when there is fair prospect that it can be met according to its terms?

There is one other reason why the refunding of this indebtedness is deemed of doubtful expediency. Whenever there is a surplus of public funds in the Treasury, and financial conditions make it advisable that it be released, it becomes necessary to purchase Government bonds. At present there is no other way to put accumulated surplus revenues promptly in circulation. The available bonds are not held by banks or by business concerns. So, whenever the

X

Government is a purchaser, the price is promptly advanced. This is not mentioned for the purpose of criticising those who may hold bonds as an investment or for speculation, but simply to state an important factor in the equation. Should the bonds falling due in the near future be permitted to mature, they can be extended at a very low rate of interest payable on demand, and the holders thereof can no longer dictate prices to the Government. Had the Department, however, exercised the discretion with which it is clothed by the act referred to, and offered to refund, it is probable that a portion of the outstanding indebtedness of the Government would have been presented and a slight increase in circulation might have followed. In view of these considerations, it has been thought best to defer action, that the current session of the Congress may, if it shall deem wise, determine by additional legislation the future policy of the Government.

Additional circulation will be necessary. Outstanding Government bonds are inadequate to secure it even if their market value would justify their use by the banks. It is even doubtful if national-bank currency based on Government bonds can be made advantageous to banks. A lower tax on circulation would be counteracted very promptly by a corresponding advance in the price of bonds, and the profit would accrue to the present bondholder.

I see no objection to the issuance of circulation based upon general credits, if properly safeguarded. Neither do I believe it necessary to make currency thus issued a first lien upon assets. A very small tax upon circulation would be sufficient to cover any possible loss. The Government Actuary has demonstrated that a tax of one-eighth of 1 per cent upon circulation would have covered all loss from the beginning of our national banking system to the present time, had each bank maintained its limit of circulation. Instead of calling this a tax, suppose it be called "premium on insurance" and the Government the "underwriter." The banks could be required to redeem their circulation at reserve cities, and the Government would never suffer injury or embarrassment as an insurer against ultimate The lowest tax suggested by anyone would far exceed any possible loss, and the Government could assume responsibility to the people and still realize a profit. When thus guaranteed and primarily redeemed by the Government at the expense of the bank of issue, currency based on general assets would be as acceptable and as secure as the present national-bank notes based on specific assets.

I doubt, however, the wisdom of making provision for the issuance of credit currency to the limit of the bank's capital. Not that I would fear unfortunate results, but in all financial legislation the greatest caution must be exercised lest the currency be suddenly and unduly

exaled a

inflated. An elastic currency is well-nigh imperative, but a sudden, unnecessary, and permanent increase would be most unfortunate.

Authority to issue circulation based on credits would not preclude the continuance of the present national-bank currency. Neither is it necessary that it be designated "credit currency." If all forms of money were made interchangeable, what some are pleased to call "asset currency," others "credit currency," and still others "emergency currency," might be denominated "gold reserve currency," for certainly a reserve against this class of currency should be maintained by the bank, and this reserve would be very properly gold, should the Government make all its money interchangeable.

Other considerations will naturally suggest themselves, and need not be outlined in this report.

not be outlined in this report.

I am not prepared at this time to recommend branch banks. Recent events confirm a previous opinion that the peculiar conditions of this country would not be conserved by such a policy. Greater economy in management may be conceded. It may be conceded also that the system works well in some countries, but no other country has such diversified and widely separated interests as this. In order that the parent bank shall be able to serve widely separated communities, it must first understand the needs of these communities, and neither experience nor observation justifies the conclusion that such intimacy is likely to exist. I think a far better course, for the present at least, would be to provide an elastic currency, available in every banking community and sufficient for the needs of that locality. This, I think, can be accomplished either in the way I have intimated or by several other methods.

The Department recommends no one plan to the exclusion of all others. It is the province of the Department to point out the weak places that the Congress may strengthen them; to suggest possible, if not imminent, dangers, that the Congress may provide against them; but ultimate responsibility does not lie with the Department.

PUBLIC DEPOSITS.

At present the purchase of outstanding Government bonds for the eredit of the sinking fund affords the only method of returning surplus public revenues to the channels of trade after they have been once covered into the Treasury. The Department is authorized to deposit current internal-revenue and other receipts, except customs, with national banks upon satisfactory security, but this method affords very tardy relief in case of monetary stringency. On the other hand, the purchase of bonds invites a contraction of national-bank circulation for the purpose of disposing of the bonds pledged for its security at the advanced price which usually prevails whenever the Government becomes a purchaser. Thus the object sought to be attained is counteracted. If authority were granted to make deposits without security after special examination and at such rates of interest as the Secretary of the Treasury might determine, quite an element of elasticity would be provided whenever a surplus of revenues existed. By advancing or lowering the rate of interest an equilibrium could be maintained throughout the country, and the interest charge would more than cover any loss.

But if it should be deemed unwise to permit the loaning of public funds without specific security, it certainly would be well to authorize deposits direct from the Treasury, and, as now, upon satisfactory security. If such authority had existed during the last few months, the something more than \$20,000,000 which was paid to the owners of Government bonds would have been deposited in a large number of reserve cities throughout the country, and the relief afforded would have been equally permanent and more widely appreciated.

OTHER RECOMMENDATIONS.

I desire to call special attention to the following recommendations, reasons for which are more fully set forth in the preceding pages:

The mint at New Orleans is now being operated at great inconvenience and expense, and it is recommended that it be reduced to an assay office after June 30, 1903.

The building now occupied by the Bureau of Engraving and Printing is overcrowded, and additional room is imperative.

It is recommended that the rate of taxation on such national-bank circulation as may be secured hereafter by bonds issued for the construction of the isthmian canal be reduced to one-half of 1 per cent. This will place the proposed issue on a par with consols, and will insure, I think, their negotiation at somewhat above par.

Several customs districts can safely be abolished and others consolidated.

An annual appropriation for the sinking fund to meet the debt of the District of Columbia is recommended; and it is suggested that authority be granted to purchase outstanding Government bonds with the proceeds of such sinking fund whenever it is impracticable to purchase advantageously the bonds of the District.

The several branches and bureaus of the Treasury Department are widely separated, and much valuable time is wasted in carrying documents from one division to another, and in securing necessary information, which could be avoided with great saving to the Government by the installation of a comprehensive pneumatic tube system, and the same is therefore recommended.

The attention of the Congress is called again to the necessity for a

Hall of Records. The Treasury Department is now seriously congested. Many of the corridors are filled with boxes and cumbersome file cases.

The Treasury building is poorly ventilated. Especially during the winter months the air in some portions of the building is very unwholesome and much illness among employees results. A modern heating and ventilating system is therefore earnestly recommended.

Some suitable penalty for the willful violation of the law relative to the importation of diseased aliens is suggested.

The Department finds the so-called "Chinese-exclusion laws" very difficult to enforce, and therefore recommends additional appropriations and the adoption of the Bertillon system for the identification of this class of aliens.

The Revenue-Cutter Service asks an appropriation for the construction of at least five new revenue cutters to replace those that have become old and practically worthless.

It is believed that the introduction of the decimal or metric system of weights and measures in the Departments of the Government will be not only an advantage to the Departments themselves, but will do much toward bringing about the general adoption of the system by the public.

It is recommended that the additional taxes necessarily imposed on Cuban vessels for a short time after the establishment of the Republic of Cuba be refunded.

Special attention is called to the importance of providing liberally for the erection of light-houses and light-ships, and bringing those now in existence to a higher standard.

A pension for families of the life-saving crew who perished at Monomoy, March 17, 1902, is recommended.

The imperative need of increased appropriations for secret-service work is also called to your attention.

Leslie M. Shaw, Secretary.

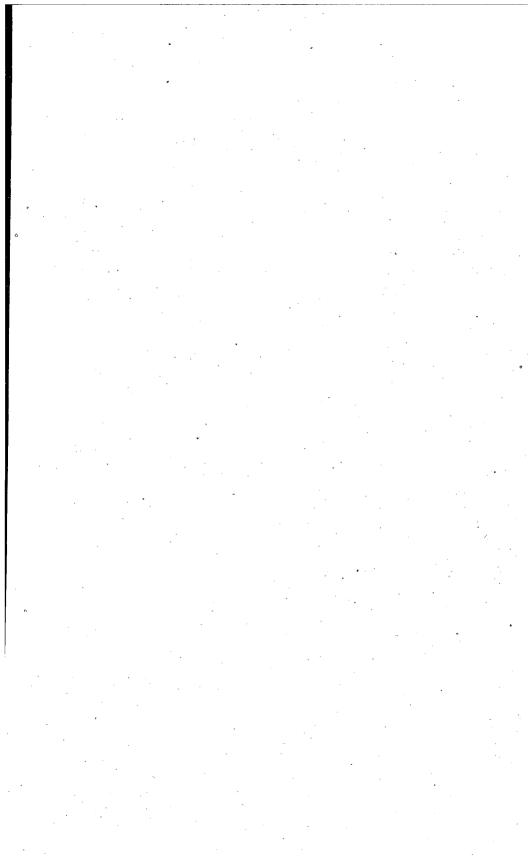

To the Speaker of the House of Representatives.

LEGAL-TENDER NOTES.					1		
The act of February 25, 1862 (12 Statutes, 345), authorized the issue of \$150,000,000 United States notes, not bearing interest, payable to bearer at the Treasury of the United States, and of such denominations, not less than five dollars, as the Secretary of the Treasury might deem expedient, \$50,000,000 to be applied to the redemption of demand notes authorized by the act of July 17, 1861; these notes to be a legal tender in payment of all debts, public and private, within the United States, except duties on imports and interest on the public debt, and to be exchangeable for 6 per cent United States bonds. The act of July 11, 1862 (12 Statutes, 552), authorized an additional issue of \$150,000,000, of such denominations as the Secretary of the Treasury might deem expedient, but no such note should be for a fractional part of a dollar, and not more than \$35,000,000 of a lower denomination than five dollars; these notes to be a legal tender as before authorized. The act of March 3, 1863 (12 Statutes, 710), authorized an additional issue of \$150,000,000, of such denominations, not less than one dollar, as the Secretary of the Treasury might prescribe; which notes were made a legal tender as before authorized. The same act limited the time in which the		On demand	None	Par	450, 000, 000. 00		346, 681, 016. 00

Tressury notes might be exchanged for United States bonds to July 1, 1863. The amount of notes authorized by this act were to be in lieu of \$100,000,000 authorized by the resolution of January 17, 1863 (12 Statutes, 822). The act of May 31, 1878 (20 Statutes, 87), provides that no more of the United States legal-tender notes shall be canceled or retired, and that when any of said notes are redeemed or received into the Treasury under any law, from any source whatever, and shall belong to the United States, they shall not be retired, canceled, or destroyed, but shall be reissued and paid out again, and ket in circulation.

The act of March 14, 1900, provides that United States notes, when presented to the Treasury for redemption, shall be redeemed in gold coin of the standard fixed in said act, and that in order to secure the prompt and certain redemption of such notes it shall be the duty of the Secretary of the Treasury to set apart in the Treasury a reserve fund of one hundred and fifty million dollars in gold coin and bullion, to be used for such redemption purposes only, and that whenever and as often as any of said notes shall be redeemed from said fund it shall be the duty of the Secretary of the Treasury to use said notes so redeemed to restore and maintain the reserve fund so established—first, by exchanging the notes so redeemed for any gold coin in the general fund of the Treasury; second, by accepting deposits of gold coin at the Treasury or at any subtreasury in exchange for such notes; third, by procuring gold coin by the use of said notes in accordance with the provisions of section 3700 of the Revised Statutes of the United States. The above-mentioned act also provides that if the Secretary of the Treasury is unable to restore and maintain the gold coin in the reserve fund by the foregoing methods, and the amount of such gold coin and bullion in said fund shall at any time fall below one hundred million dollars. it shall be his duty to restore the same to the maximum sum of one hundred and fifty million dollars by borrowing money on the credit of the United States, and for the debt so incurred to issue and sell coupon or registered bonds of the United States bearing interest at the rate of not exceeding three per centum per annum, payable quarterly, the bonds to be payable at the pleasure of the United States after one year from the date of their issue, and to be payable. principal and interest, in gold coin of the present standard value, the gold coin received from the sale of said bonds to be exchanged for an equal amount of the notes redeemed and held for exchange, and the Secretary of the Treasury may, in his discretion, use said notes in exchange for gold, or to purchase or redeem any bonds of the United States, or for any other lawful purpose the public interests may require, except that they shall not be used to meet deficiencies in the current revenues.

TEMPORARY LOAN.

Acts of February 25, 1862 (12 Statutes, 346); March 17, 1862 (12 Statutes, 370); July 11, 1862 (12 Statutes, 532), and June 30, 1864 (13 Statutes, 218).

FUNDED LOAN OF 1881.		-		j .			
The act of January 14, 1875 (18 Statutes, 296), authorizes the Secretary of the Treasury to use any surplus revenues from time to time in the Treasury not otherwise appropriated, and to issue, sell, dispose of, at not less than par, in coin, either of the description of bonds of the United States described in the act of July 14, 1870 (16 Statutes, 272), to the extent necessary for the redemption of fractional currency in silver coins of the denominations of ten, twenty-five, and fifty cents of standard value. The act of March 3, 1875 (18 Statutes, 466), directs the Secretary of the Treasury to issue bonds of the character and description set out in the act of July 14, 1870 (16 Statutes, 272), to James B. Eads, or his legal representatives, in payment at par of the warrants of the Secretary of War for the construction of jetties and auxiliary works to maintain a wide and deep channel between the South Pass of the Mississippi River and the Gulf of Mexico, unless Congress shall have previously provided for the payment of the same by the necessary appropriation of money. The act of July 14, 1870 (16 Statutes, 272), authorizes the issue of \$200,000,000 at 5 per centum, principal and interest payable in coin of the present standard value, at the pleasure of the United States Government, after ten years; these bonds to be exempt from the payment of all taxes or duties of the United States, as well as from taxation in any form by or under State, municipal, or local authority. Bonds and coupons payable at the Treasury of the United States. This act not to authorize an increase of the bonded debt of the United States. Bonds to be sold at not less than par in coin, and the proceeds to be applied to the redemption of outstanding 5-20's or to be exchanged for said 5-20's, par for par. GOLD CERTIFICATES—Continued.					,		
The act of March 14, 1900, authorizes and directs the Secretary of the Treasury to receive deposits of gold coin with the Treasurer or any assistant treasurer of the United States, in sums of not less than twenty dollars, and to issue gold certificates therefor in denominations of not less than twenty dollars, and the coin so deposited shall be retained in the Treasury and held for the payment of such certificates on demand, and used for no other purpose; such certificates to be received for customs, taxes, and all public dues, and when so received may be reissued; and when held by any national banking association may be counted as a part of its lawful reserve. The act also provides that whenever and so long as the gold coin held in the reserve fund in the Treasury for the redemption of United States notes and Treasury notes shall fall and remain below one hundred shall be suspended; and also, that whenever and so long as the aggregate amount of United States notes and silver certificates in the general fund of the Treasury shall exceed sixty million dollars, the Secretary of the Treasury shall exceed sixty million dollars, the Secretary of the Treasury may, in his discretion, suspend the issue of the certificates herein provided for; and further, that the Secre							
tary of the Treasury may, in his discretion, issue such certificates in denominations of ten thousand dollars, payable to order.							
SILVER CERTIFICATES.							
The act of February 28, 1878 (20 Statutes, 26, sec. 3), provides that any holder of the coin authorized by this act may deposit the same with the Treasurer or any assistant treasurer of the United States in sums not less than ten dollars and receive therefor certificates of not less than ten dollars each, corresponding with the denominations of the United States notes. The coin deposited for or representing the certificates shall be retained in the Treasury for the payment of the same on demand. Said certificates shall be receivable for customs, taxes, and all public dues, and, when so received, may be reissued. The act of August 4, 1886 (24 Statutes, 227), authorizes the issue of silver certificates in denominations of one, two, and five dollars; said certificates to be receivable, redeemable, and payable in like manner and for like purposes asis provided for by the act of February 28,	Indefinite	On demand	None	Par	No limit		\$453, 997, 000. 00
ner and for like purposes as is provided for by the act of February 28, 1878.					•	}	

	•								
•	The act of March 14, 1900, provides that it shall be the duty of the Secretary of the Treasury, as fast as silver dollars are coined under the provisions of the acts of July 14, 1890, and June 13, 1898, from bullion purchased under the act of July 14, 1890, to retire and cancel an equal amount of Treasury notes whenever received into the Treasury, and upon the cancellation of Treasury notes, silver certificates shall be issued against the silver dollars so coined. The act also provides that silver certificates shall be issued only of denominations of ten dollars and under, except that not exceeding in the aggregate ten per centum of the total volume of said certificates, in the discretion of the Secretary of the Treasury, may be issued in denominations of twenty dollars, fifty dollars, and one hundred dollars; and silver certificates of higher denomination than ten dollars, except as therein provided, shall, whenever received at the Treasury or redeemed, be retired and canceled, and certificates of denominations of ten dollars or less shall, be substituted therefor, and after such substitution, in whole or in part, a like volume of United States notes of less denomination than ten dollars shall from time to time be retired and canceled, and notes of denominations of ten dollars and upward shall be reissued in substitution therefor, with like qualities and restrictions as those retired and canceled. 1930.

2 per cent ...

The act of March 14, 1900, section 11, authorizes the Secretary of the
Treasury to receive at the Treasury any of the outstanding bonds of
the United States of the five per cent loan of 1904, of the four per cent
funded loan of 1907, and of the three per cent loan of 1908–1918, and
to issue in exchange therefor an equal amount of coupon or registered
bonds of the United States, in such form as he may prescribe, in de-
nominations of fifty dollars, or any multiple thereof, bearing interest
at the rate of two per centum per annum, payable quarterly, such
bonds to be payable at the pleasure of the United States after thirty
years from the date of their issue. The principal and interest of
said bonds to be payable in gold coin of the present standard value,
and to be exempt from the payment of all taxes or duties of the
United States, as well as from taxation in any form by or under State,
municipal, or local authority. The bonds to be issued at not less
than par and numbered consecutively in the order of their issue; and when payment is made the last numbers issued shall be first
paid, and this order followed until all the bonds are paid. Interest
to cease three months after any call made by the Government to
redeem.

TREASURY NOTES OF 1890.

The act of July 14, 1890 (26 Statutes, 289), directs the Secretary of the Treasury to purchase, from time to time, silver bullion to the aggregate amount of four million five hundred thousand ounces, or so much thereof as may be offered, in each month, at the market price thereof, not exceeding one dollar for three hundred and seventy-one and twenty-five hundredths grains of pure silver, and to issue in payment for such purchases of silver bullion Treasury notes of the United States: to be prepared by the Secretary of the Treasury, in such form and of such denominations, not less than one dollar nor more than one thousand dollars, as he may prescribe. That said notes shall be redeemable on demand, in coin, at the Treasury of the United States. or at the office of any assistant treasurer of the United States, and when so redeemed may be reissued; but no greater or less amount of such notes shall be outstanding at any time than the cost of the silver bullion and the standard silver dollars coined therefrom then held in the Treasury, purchased by such notes; and such Treasury notes shall be a legal tender in payment of all debts, public and private, except where otherwise expressly stipulated in the contract and shall be receivable for customs, taxes, and all public dues, and when so received may be reissued; and such notes, when held by any national banking association, may be counted as a part of its lawful reserve. That upon demand of the holder of any of the Treasury notes provided for, the Secretary of the Treasury shall redeem the same in gold or silver coin, at his discretion, it being the established policy of the United States to maintain the two metals on a parity with each other upon the present legal ratio, or such ratio as may be provided by law.

TREASURY NOTES OF 1890—Continued.							
The act of November 1, 1893 (28 Stat., 4), repeals so much of the act of July fourteenth, eighteen hundred and ninety, as directs the Secretary of the Treasury to purchase from time to time silver bullion to the aggregate amount of four million five hundred thousand ounces, or so much thereof as may be offered in each month, at the market price thereof, and to issue in payment for such purchases Treasury notes of the United States. The act of June 13, 1898 (30 Stat., 467), directs that all of the silver bullion in the Treasury purchased in accordance with the provisions of the act of July 14, 1890, shall be coined into standard silver dollars as rapidly as the one-half millions of dollars in each month, and thatsaid dollars, when public interests may require, to an amount of not less than one and so coined, shall be used and applied in the manner and for the purposes named in said act. The act of March 14, 1900, provides that United States notes, and Treasury notes issued under the act of July 14, 1890, when presented to the Treasury for redemption, shall be redeemed in gold coin of the standard fixed by said act, and requires that the Secretary of the Treasury shall set apart in the Treasury a reserve fund of one hundred and fifty million dollars to be used for such redemption purposes only. It also provides that its shall be the duty of the Secretary of the Treasury, as fast as silver dollars are coined under the provisions of the acts of July 14, 1890, and June 13, 1898, from bullion purchased under the act of July 14,							
1890, to retire and cancel an equal amount of Treasury notes whenever received into the Treasury, and upon such cancellation to issue silver certificates against the silver dollars so coined.					٠.	-	
NATIONAL-BANK NOTES (REDEMPTION ACCOUNT). The act of July 14, 1890 (26 Stat., 289), provides that balances standing with the Treasurer of the United States to the respective credits of national banks for deposits made to redeem the circulating notes of such banks, and all deposits thereafter received for like purpose shall be covered into the Treasury as a miscellaneous receipt, and the Treasurer of the United States shall redeem from the general cash in the Treasury the circulating notes of said banks which may come into his possession subject to redemption, * * * and the balance remaining of the deposits so covered shall, at the close of each month, be reported on the monthly public debt statement as debt of the United States bearing no interest.		, , , , , , , , , , , , , , , , , , ,					\$42, 071, 969. 50

				Company of the second

aIn the amount here stated as the outstanding principal of the public debt are included the certificates of deposit outstanding on the 30th of June, issued under act of June 8, 1872, for which a like amount in United States notes was on special deposit in the Treasury for their redemption and added to the cash balance in the Treasury. These certificates, as a matter of accounts, are treated as a part of the public debt, but being offset by notes held on deposit for their redemption, should properly be deducted from the principal of the public debt in making comparison with former years.

• Exclusive of gold, silver, currency certificates, and Treasury notes of 1890 held in the Treasurer's cash, and including bonds issued to the several Pacific railroads not yet redeemed.

• Exclusive of gold and silver certificates and Treasury notes of 1890 held in the Treasurer's cash.

Table C.—Analysis of the Principal of the Public Debt of the United States from July 1, 1856, to July 1, 1902.

Year.	2 percents.	3 percents.	3½ percents.	4 percents.	4½ percents.	5 percents.	6 percents.	73 percents.	Total interest- bearing debt.

Note 1.—Annual interest charge computed on amount of outstanding principal at close of fiscal year and is exclusive of interest charge on Pacific Railway bonds.

Note 2.—The figures for July 1, 1879, were made up assuming pending funding operations to have been completed.

Note 3.—The temporary loan per act of July 11, 1862, is included in the 4 per cents from 1862 to 1868, inclusive, with the exception of the amount outstanding August 31, 1865, this being the date at which the public debt reached its highest point. This loan bore interest from 4 per cent to 6 per cent, and was redeemable on ten days' notice after thirty days, but being constantly changing, it has been considered more equitable to include the whole amount outstanding as bearing 4 per cent interest on an average for the year.

Table D.—Statement of the Issue and Redemption of Loans and Treasury Notes (by warrants) for the Fiscal Year ended June 30, 1902.

a Based on warrants issued.

a Based on warrants issued.
b The cost of collecting the internal revenue embraces the following items: Salaries and expenses of collectors, including pay of deputy collectors, clerks, etc., and including expenses incident to enforcing the provisions of law taxing oleomargarine; salaries and expenses of revenue agents, surveyors of distilleries, gaugers, storekeepers, and miscellaneous expenses; paper for internal-revenue stamps, and expenses of detecting and punishing violations of internal-revenue laws.
o The expenses of collecting the revenue from customs includes all sums drawn from the appropriation made by Congress for that purpose. The money is expended for salaries, ents, labor in weighing, gauging, and measuring imported merchandise, revenue boatmen, repairs, and other expenses incident to rented buildings, stationery, and the traveling expenses of special agents, but does not include expenditures for revenue cutters, fuel, lights, water, furniture, janitors, etc., for buildings owned by the Government, nor expenditures for erecting new buildings, all of which are paid for from specific appropriations made for those purposes.
The expenses of collecting internal and customs revenue do not include the expenditures for salaries, etc., incident to auditing these accounts in the Departments at Washington.
a No data.

Table I.—Statement showing the Revenues and Expenditures of the Government by Months; the Legal-Tender Notes, Net Gold, and Available Cash in the Treasury at the end of each Month; the Monthly Redemption of Legal-Tender Notes in Gold, and the Imports and Exports of Gold, from January, 1879, to June, 1902, inclusive.

a Excess of expenditures.

Note.—The revenues and expenditures by months are made up from partial reports, and, being subject to change by subsequent concentration of accounts, do not agree with the totals by years. The latter are the actual results, as shown by complete returns.

Note 1.—Specie payments were suspended from January 1, 1862, to January 1, 1879. During the greater part of that period gold and silver coins were not in circulation except on the Pacific coast, where, it is estimated, the specie circulation was generally about \$25,000,000. This estimated amount is the only coin included in the above statement from 1862 to 1875, inclusive.

Note 2.—In 1876 subsidiary silver again came into use, and is included in this statement, beginning

NOTE 2.—In 1876 subsidiary silver again came into use, and is included in this statement, beginning with that year.

NOTE 3.—The coinage of standard silver dollars began in 1878, under the act of February 28, 1878.

NOTE 4.—Specie payments were resumed January 1, 1879, and all gold and silver coins, as well as gold and silver bullion in the Treasury, are included in this statement from and after that date.

NOTE 5.—For redemption of outstanding certificates an exact equivalent in amount of the appropriate kinds of money is held in the Treasury, and is not included in the account of money held as

priate kinds of money is held in the Treasury, and is not included in the account of money held as assets of the Government.

NOTE 6.—This table represents the circulation of the United States as shown by the revised statements of the Treasury Department for June 30 of each of the years specified.

NOTE 7.—The details of the foregoing table, showing the amount of each kind of money in circulation each year since 1860, are omitted, but they may be had upon application to the Secretary of the Treasury, Division of Loans and Currency, where a circular covering information on the subject has been prepared for distribution.

APPENDIX TO THE REPORT ON THE FINANCES.

APPENDIX.

REPORTS OF HEADS OF BUREAUS.

REPORT OF THE TREASURER.

TREASURY DEPARTMENT,
OFFICE OF THE TREASURER,
Washington, D. C., November 10, 1902.

Sir: The magnitude of the available cash balance and the unprecedented holdings of gross gold are the striking features of the condi-

tion of the Treasury at the close of the fiscal year 1902.

The transactions for the twelve months then ended are marked, first, by the diminution of the revenues due to the repeal of war taxes by the act of March 2, 1901, and the reduction of expenditures from the progress of peace in our new possessions, and second, by the large increase in gold certificates outstanding and the continued change of other kinds of Government paper currency into denominations of \$10 and under.

In the first quarter of the fiscal year 1903 the diminution of internal revenue continued in larger ratio from the effects of the act of April 12, 1902, repealing war taxes, while the customs increased still more, and the expenditures advanced considerably as compared with the July, August, and September preceding.

REVENUES AND EXPENDITURES FOR 1901 AND 1902.

The comparison of net ordinary revenues and expenditures for two years is stated by sources of receipts and classes of payments:

Account.	1901.	1902.	Increase.	Decrease.
REVENUES.)
Customs Internal revenue Lands Miscellaneous	\$238, 585, 455, 99 307, 180, 663, 77 2, 965, 119, 65 38, 954, 098, 12	\$254, 444, 708. 19 271, 880, 122. 10 4, 144, 122. 78 32, 009, 280. 14	\$15, 859, 252. 20 1, 179, 003. 13	\$35, 300, 541. 6 6, 944, 817. 9

Customs Internal revenue Interior civil Treasury proper Diplomatic Judiciary War Department Navy Department Indians Pensions Interest Total	5, 990, 282, 72 18, 739, 784, 09 58, 787, 190, 76 3, 317, 900, 35 5, 929, 954, 40 144, 615, 697, 20 60, 506, 978, 47 10, 396, 073, 35 139, 323, 621, 99 32, 342, 979, 04	28, 012, 620, 16 8, 536, 348, 58 13, 328, 329, 16 54, 808, 006, 95 2, 765, 734, 01 6, 018, 285, 05 112, 272, 216, 08 67, 803, 128, 24 10, 049, 584, 86 138, 478, 559, 73 29, 108, 044, 82	7, 296, 149. 77	
Total	509, 967, 353. 15	471, 190, 857. 64	9, 950, 546. 28	48, 707, 041. 7 38, 776, 495. 5
Surplus	77, 717, 984. 38	91, 287, 375. 57		

The record shows net reductions in 1902, as compared with the preceding twelve months, of \$25,207,104.32 in the revenues, which are more than offset by net reductions of \$38,776,495.51 in the expenditures. The result is an increase in the surplus in 1902 over 1901 of \$13,569,391.19. The chief falling off is in internal revenue of \$35,300,541.67, due to legislation, while the miscellaneous receipts are \$6,944,817.98 smaller. Customs, on the other hand, are \$15,859,252.20 greater.

The expenditures show a falling off in every class except internal revenue, judiciary, and the Navy; in the last an increase of \$7,296,149.77 appears. The chief reduction is for the War Department, which cost \$32,343,481.12 less than in the preceding year. The next in magnitude of reduction is interior civil, of \$5,411,454.93. For the Treasury the expenditures show \$3,979,183.80 decrease. For customs, \$1,504,270.63 less was spent. Disbursements for diplomatic purposes fell off \$552,166.34; for Indians, \$846,488.49, and for pensions, \$835,062.26. In the outlay for interest there is the large reduction of \$3,234,934.22.

TRANSACTIONS IN THE PUBLIC DEBT.

The Government bonds were much less active in the past fiscal year than in the one before. The receipts fell to \$2,370, a reduction of \$138,816,730, while in disbursements for this purpose the reduction was \$118,704,790. The total receipts on account of the public debt show a decrease of \$59,158,164, while in disbursements there was a decrease of \$68,053,333.78. The excess of receipts over the preceding year was \$8,895,169.78. The items follow:

Account.	1901.	1902.	Increase.	Decrease.

ORDINARY AND DEBT TRANSACTIONS COMBINED.

By the combination of the footings of the two preceding tables the total receipts and disbursements are set forth:

Account.	1901.	1902.	Increase.	Decrease.
RECEIPTS.				;
OrdinaryDebt	\$587, 685, 337. 53 558, 803, 968. 50	\$562, 478, 233. 21 499, 645, 804. 50		\$25, 207, 104. 32 59, 158, 164. 00
Total	1, 146, 489. 306. 03	1,062,124,037.71		84, 365, 268. 32
DISBURSEMENTS.				
Ordinary Premium on debt Debt	509, 967, 353, 15 14, 649, 572, 95 552, 446, 126, 28	471, 190, 857, 64 14, 043, 391, 14 484, 392, 792, 50		38, 776, 495. 51 606, 181. 81 68, 053, 333. 78
Total	1,077,063,052.38	969, 627, 041. 28		107, 436, 011. 10
Excess of receipts	69, 426, 253, 65	92, 496, 996, 43	\$23,070,742.78	

Thus the total receipts of the Treasury for 1902 are less by \$84,365,268.32 than for 1901, and the total disbursements are less by \$107,436,011.10. The total transactions show an excess of receipts of \$23,070,742.78.

FIRST QUARTER OF TWO YEARS.

In July, August, and September of two fiscal years the ordinary revenues and expenditures by warrants were as here stated:

Account.	1902.	1903.	Increase.	Decrease.
REVENUES.		,		;
Customs Internal revenue Public lands Miscellaneous		\$78, 495, 559, 88 59, 826, 852, 99 2, 117, 833, 07 8, 276, 530, 68	\$15,695,820.18 1,205,473.83 1,282,524.51	\$13, 294, 977. 6
Total	143, 827, 935. 72	148,716,776.62	18, 183, 818. 52	13, 294, 977. 6
EXPENDITURES.				
Civil and miscellaneous	31, 818, 602. 50 16, 681, 344. 15 2, 770, 608. 68	31, 085, 086, 95 35, 676, 811, 24 20, 706, 338, 33 3, 597, 451, 48 36, 324, 131, 09 10, 031, 185, 28	826, 842. 80	482, 174. 5
Total	123, 973, 835. 76	137, 421, 004. 37	13, 929, 343, 12	482, 174. 5

Thus the customs receipts for the new quarter increased over the like period of 1902 by \$15,695,820.18, while the internal revenue receipts, responding to the recent statute, were \$13,294,977.62 less. In miscellaneous receipts there was an advance of \$1,282,524.51, and in those for public lands of \$1,205,473.83. The total receipts, if the two quarters are compared, show a net increase of \$4,888,840.90. The expenditures also are larger in a more conspicuous degree, as the increase reaches \$13,447,168.61. The interest on the public debt is less by \$482,174.51, but an advance appears in every other item—\$4,027,445.11 for civil and miscellaneous; \$3,858,208.74 for war;

\$4,024,994.18 for the Navy; \$826,842.80 for Indians; and \$1,191,852.29 for pensions. Thus for the quarter the receipts exceed the expenditures by \$11,295,772.25. In the first quarter of 1902 this excess was \$19,854,099.96. By October 31, this fiscal year, the receipts became \$13,539,171.53 more than the expenditures.

THE RESERVE AND TRUST FUNDS.

While United States notes and treasury notes are redeemed in gold to considerable amounts, as stated elsewhere, the redemptions are each day exchanged for gold, so that the reserve fund of \$150,000,000 is always kept intact. This movement in United States notes was \$6,293,843 less in 1902 than during the preceding year, and in treasury notes was \$827,912 greater.

For the first quarter of the new fiscal year the like redemptions and exchanges were, in United States notes, \$976,660, and in treasury notes \$254,800. In the corresponding quarter of the preceding year they were, in United States notes, \$3,735,800, and in treasury notes

\$306,393.

On June 30, the end of the fiscal year, from the revised figures, the respective funds stood as here stated:

RESERVE FUND.

Gold coin and bullion in division of redemption	\$150,000,000
r	·, · · · · , · · · ·

TRUST FUNDS.

[Held for the redemption of the notes and certificates for which they are respectively pledged.]

DIVISION OF REDEMPTION.	DIVISION OF ISSUE.	
Gold coin\$346, 612, 089	Gold certificates outstanding \$346,612,089

Total	860, 316, 569	Total	860, 316, 569	

REDEMPTION OF NOTES IN GOLD.

United States notes to the amount of \$17,482,590 and treasury notes amounting to \$1,274,590 were redeemed in gold during the past fiscal year. The transactions are natural exchanges apart from special desire for the yellow metal. With the people, the majority is strongly for small denominations of paper for current use, and only a small and nominal minority is for actual gold for any purpose, except for use in the arts, and never from distrust of other forms of money. For export gold certificates are paid for bars.

GENERAL FUND-CASH IN THE VAULTS.

The notable points in the general fund are the increase in many of the figures at the end compared with the beginning of the fiscal year. In gold, metal and certificates, the increment was \$5,989,352.55. Standard dollars fell off \$1,073,767. Silver certificates became \$2,068,894 more, and silver bullion \$1,294,441.11 greater by reason of the melting of uncurrent subsidiary silver, which was not recoined during the fiscal year. United States notes now passing into the denomination of \$10 as redemptions occur are more largely in circulation, and leave \$4,246,316 less in the Treasury. On the other hand, there is an increase in national-bank notes of \$2,564,188.86. By the special industry of the mints an addition of \$874,976.87 was made to the subsidiary silver coin, and of \$383,249.55 to the minor coin. The old fractional currency is slowly disappearing.

By the action of the Secretary of the Treasury, the deposits in national banks to the credit of the Treasurer received additions of \$23,779,937.97. At the same time the credits of disbursing officers in the banks grew by \$192,635.67. Thus the banks held at the close of the year \$123,983,067.59, against \$100,010,493.95 at its outset.

No noteworthy changes took place in the outstanding liabilities, as

the tables show.

The result was that the available cash balance at the end of 1902 was more by \$33,780,563.03 than at the end of 1901, and reached the maximum of \$212,187,361.16. This condition of the Treasury was foreseen and led to the repeal of the war taxes by the act of April 12, 1902.

By October 1, 1902, the available cash balance rose to \$221,253,394.12, including an increase for the quarter in gold, metal, and certificates of \$32,323,480.12. In silver certificates there was a falling off for the period of \$1,258,816, and in standard dollars of \$14,825,710. The reduction in United States notes was \$8,638,364, and in subsidiary silver \$3,380,162.52. National-bank notes increased \$3,414,763.97. The deposits in national banks, including those of disbursing officers, grew \$9,949,129.82 during the quarter.

The tables compare three periods:

GENERAL FUND-CASH IN THE VAULTS.

THE NET AVAILABLE CASH BALANCE.

The available cash balance in the Treasury July 1, 1902, was the largest in our history up to that date. It amounted, including the reserve fund, to \$362,187,361.16. For five months in 1879 the figures on record are larger, but they include funds held against called bonds for the ninety days of notice required by law. The present balance is subject to no such deductions. The current outstanding obligations are not included. The gold reserve is counted in, as it is available for the redemption of legal-tender notes. The sums in national banks to the credit of the Treasurer and of disbursing officers appear to the amount of \$123,983,067.59. The subsidiary silver, \$11,462,533.80, and the minor coin, \$919,404.54 could hardly be used for large payments, nor is the silver bullion to be reckoned for such purpose. The national bank notes are to their extent a fair offset to the 5 per cent fund in the outstanding liabilities.

With such deductions there remained July 1 in the Treasury vaults a little over \$79,000,000. As \$50,000,000 is deemed a fair working fund, about \$29,000,000 could be spared. But proper preparation for the reduction of taxes under the act of April 12, 1902, forbade expenditure for any other than current needs. The Treasury was kept in good condition to meet the further repeal of the war taxes, taking effect July 1, the effect of which was felt in the first months of the new

fiscal year.

Nearly one-half of the net available cash balance July 1 was in gold, coin, and certificates, \$103,801,290.97 over and above the gold reserve of \$150,000,000, and by October 1 it became \$136,124,771. This amount far exceeds the outstanding liabilities. As a measure of the financial strength of the Government the fact deserves mention.

During the first quarter of the new fiscal year the available cash balance grew by \$11,295,772.25, owing to large custom receipts which offset the reduction in the war taxes. The grand aggregate thus surpasses all previous records. The excess above a working fund ran up to \$35,000,000, and called for special efforts by the Secretary for its reduction. By November 1, by reason of the large payments for the relief of the money market, the amount above the working fund was brought to about \$6,000,000.

Comparison with the years since 1890 will make clear the strides in this field:

BONDS BOUGHT FOR THE SINKING FUND.

Out of the surplus of \$91,287,375,57 bonds were purchased for the sinking fund to the amount of \$56,071,230 in principal, for which premium and accrued interest were paid of \$14,339,211.33, making a total of \$70,410,441.33.

Of these purchases the transactions under notices of April 9, May 9, and September 10, 1901, were closed October 31, 1901, and amounted to these sums:

Bonds Bought from July 1 to October 31, 1901.

PURCHASES OF THE LOAN OF 1904.

Under an offer made by the Secretary of the Treasury September 26 to buy bonds of the loan of 1904 at 105 if presented before October 15, 1902, purchases of such securities were made to the amount of \$25,300.

PURCHASES OF THE LOAN OF 1925.

Arrangement was made by the Secretary of the Treasury for the purchase of bonds of the loan of 1925 on October 17 and 18, 1902, deliverable then or on October 20. The cash paid was:

Loan.	Principal.	Premium, including ac- crued interest.	Total.
Loan of 1925	\$16, 504, 300	\$6, 342, 229. 99	\$22,846,529.99

THE PUBLIC DEBT, 1901, 1902, AND FIRST QUARTER OF 1903.

The purchases of bonds explain the reductions in the loans of 1908–1918, of 1907, of 1925, and of 1904. Minor sums are taken from the matured loans, the old demand notes, and the fractional currency. By the withdrawal of securities pledged for circulation of national banks and payment for them in lawful money the cash deposits for those institutions were advanced by \$12,667,660 during the fiscal year. The changes in treasury notes and silver certificates very nearly balance each other. The increase of \$57,624,400 in gold certificates adds so much to the public debt, but every dollar is offset by actual coin in the Treasury. If allowance is made for that fact, the national obligations instead of showing an increase of \$15,283,512 will be proved to be \$42,340,888 less at the close of June, 1902, than at the same date in 1901.

For July, August, and September of the new fiscal year the gold certificates took on an increment of \$16,729,000, and silver certificates of \$11,755,000, while a reduction of \$3,164,000 occurred in Treasury notes.

ANTICIPATION OF INTEREST.

Twice during the fiscal year the Secretary of the Treasury gave notice that the payment of the interest accruing for the next quarter would be anticipated. The interest due on October 1, 1901, was paid on September 16, according to announcement on that day. On December 11, 1901, the Secretary of the Treasury directed that five days later the interest should be paid which would fall due January 1, 1902. The amounts so anticipated were:

INTEREST FOR OCTOBER, 1901:

Loan.	Registered.	Coupon.	Total.
Funded loan of 1907Consols of 1930		\$472, 183. 00 60, 378. 50	\$2,482,417.00 2,229,703.75
Total	4, 179, 559. 25	532, 561. 50	4, 712, 120. 75

Interest for January, 1902.

Loan.	Registered.	Coupon.	Total.
Funded loan of 1907		\$516, 132. 00 53, 220. 75	\$2, 400, 633. 00 2, 229, 703. 75
Total	4,060,984.00	569, 352. 75	4, 630, 336. 75

On September 13, 1902, the Secretary of the Treasury authorized the anticipation of payment of the interest due October 1. The interest on the consols of 1930 was paid immediately at the date of the notice,

and that on the funded loan of 1907 was paid on September 15. The items of interest so authorized to be prepaid were:

Loan.	Registered.	Coupon.	Total.
Funded loan of 1907	\$1,826,742.50 2,182,521.00	\$505, 032. 50 47, 182. 75	\$2,331,775.00 2,229,703.75
Total	4,009,263.50	552, 215. 25	4,561,478.75

October 20, by authority of the Secretary of the Treasury, the interest to accrue November 1, additional to \$50,353.25 previously paid with rebate, was anticipated. The total amount of November interest was:

Loan.	Registered.	Coupon.	Total.
Loan of 1908–1918 Loan of 1904 Funded loan of 1925	139, 055, 62	\$342, 050. 85 103, 573. 75 302, 621. 00	\$731, 367. 45 242, 629. 37 1, 349, 942. 00
Total	1, 575, 693, 22	748, 245. 60	2, 323, 938. 82

The Secretary of the Treasury on September 25 offered to holders of United States bonds the option to receive in advance their interest maturing between November 1, 1902, and July 1, 1903, at a rebate of two-tenths of 1 per cent a month. This amounted to \$20,656,252.72. Payments began October 1, and before November 15 the option was taken to the amount of \$3,437,572.65, with a rebate of \$39,665.94, on the following classes of bonds:

INTEREST PREPAID IN OCTOBER AND TO NOVEMBER 15, 1902, WITH REBATE.

Loan.	Average amount of principal on which interest was prepaid.	Interest.	Rebate.
Funded loan of 1907. Consols of 1930. Loan of 1904 Loan of 1925 Loan of 1908–1918	174, 738, 100 1, 579, 500 9, 168, 250	\$415, 089. 50 2, 621, 071. 50 58, 993. 75 274, 036. 50 68, 381, 40	\$4, 959. 06 31, 254. 01 472. 45 2, 253. 77 726. 65
Total	203, 826, 700	3, 437, 572. 65	39, 665. 94

BONDS HELD AS SECURITY FOR NATIONAL BANKS.

The bonds held by the Treasurer as security for the notes of the national banks were \$9,080,700 less at the end of the fiscal year than twelve months before, but in the same interval the securities held for deposits in the banks were \$18,953,200 greater, so that the increase in bonds held for both purposes was \$9,872,500.

The consols of 1930 grow in favor with the banks as security both for deposits and circulation, and their volume so pledged increased \$11,525,250 during the year, although in many cases these consols were withdrawn and other bonds substituted. Thus the total of these consols outside of the Treasury was, on June 30, \$42,394,250, and on November 1, \$35,196,700.

By October 1 the bonds to secure circulation were \$8,988,740 greater than they were three months earlier, while those pledged for deposits were \$11,906,520 greater in amount. A maximum was reached November 1, when the securities for circulation became \$338,082,270, an increase of \$12,079,500 in the month, while those for deposits were \$149,216,920, an increase of \$11,853,350.

At the periods mentioned the securities held for the banks are stated in the annexed tables, and the changes during the year are cited:

Bonds Held for National Banks, Close of June, 1901 and 1902, and Changes During 1902.

Rate.	Held June 30, 1900.	Held June 29, 1901.	Deposited during 1902.	Withdrawn during 1902.	Held June 30, 1902.	Held Oct. 1,1902.

By a ruling of the Secretary of the Treasury, December 6, 1899, the deposits in national banks were limited to par on bonds bearing 4 and 5 per cent interest, to 95 per cent of their face on 3 per cents, and to 90 per cent on the 2 per cents (funded loan of 1891). On September 10, 1901, these distinctions were removed, and all classes of bonds were

made available at par for deposits.

The variations in the volume of bonds held for circulation deserve to be noted, for this has fallen off at some times to a considerable amount and at others has increased largely. Thus, June 30, 1901, the bonds pledged for circulation were \$326,119,230, and \$330,693,180 October 1, 1901. By June 4, 1902, a minimum for recent months was reached at \$315,754,630, growing to \$317,038,530 June 30, 1902. During the succeeding months the deposits of such securities were frequent and often large, so that the volume by October 1 was \$326,027,270; they became on November 1, \$338,082,270, the highest on record. This reduction of nearly \$14,000,000 between October and June, and increase of nearly \$9,000,000 between June and October again, and \$12,055,000 more in a single month by November 1, it is fair to recognize as a measure of elasticity in bond deposits in present practice.

The banks with securities pledged for circulation on June 30 numbered 4,553, making an addition during the year of 366 (Table 61, p. 250). Those with pledges for public moneys deposited were 577.

The classification of banks by amount of bonds deposited for circulation, as they stood at the close of the fiscal year, is interesting. For more than 50 per cent of the banks the deposits are less than \$100,000, and for nearly one-third of the banks the bonds fall below \$25,000 in each case.

The table follows:

NATIONAL BANKS GROUPED ACCORDING TO AMOUNT OF UNITED STATES BONDS DEPOSITED TO SECURE CIRCULATION, JUNE 30, 1902.

Number having on deposit—	
\$5,000,000 or more	
1,000,000 or more, but less than \$5,000,000	25
500,000 or more, but less than 1,000,000	47
100,000 or more, but less than 500,000	
50,000 or more, but less than 100,000	1.193
25,000 or more, but less than 50,000	
6,250 or more, but less than 25,000	
0,200 01 11010, 540 1055 11411	

No less noteworthy is it that out of the 1,501 banks with securities pledged for less than \$25,000, 479 have bonds for no more than \$10,000 each with the Treasurer. This number increased 235 during the fiscal year. This growth of the smallest banks extends into many States, and keeps on from day to day. It indicates that in the popular opinion these institutions meet the needs and convenience of the local communities. In most cases the bonds pledged for circulation do not much exceed the minimum required by law, but they start a movement in currency which may develop. In the meanwhile, every bank affords the means for the issue of checks and drafts for use in the neighborhood, and to some degree at a distance.

STATE AND CITY BONDS FOR PUBLIC DEPOSITS.

Under a ruling of the Secretary of the Treasury the Department, since October 1, 1902, has received from national banks tendering them State and city bonds as a part of the security for deposits of public funds, to release United States bonds, which were at once transferred to secure circulation. To November 15 State and city bonds were thus substituted to the amount of \$20,338,500. They were as follows:

\$100,000

State of Maryland

	,
State of Massachusetts	6,219,000
State of Virginia	473,000
State of Connecticut	50,000

Total	20 338 500

THE MONETARY STOCK.

To the general stock of money in the country an addition of \$80,198,681 was made during the fiscal year. Of this, \$67,955,527 was in gold coin and bullion. There was also an increase of \$19,735,259 in standard dollars and of \$7,360,991 in subsidiary silver. United States notes remained under the law unchanged. Treasury notes fell off \$17,783,000. National-bank notes received an increment of \$2,929,904.

The gold coin and bullion July 1 was \$178,594,611 in excess of all other kinds of money, excluding national-bank notes, which are in a class apart. By October 1 they exceeded all other kinds of money,

with the same exception, by \$200,368,433.

In the first quarter of the new fiscal year standard silver dollars increased \$3,225,660; subsidiary silver increased \$804,814; national-bank notes increased \$10,321,507, while the Treasury notes decreased \$3,164,000.

Comparison may be made from the annexed tables:

RATIO OF GOLD TO TOTAL STOCK OF MONEY.

The steady growth in the stock of gold in the country and in its ratio to the total stock of money is significant. In five years the ratio has run up from 36.52 to 46.52 to the hundred July 1; October 1 to 46.79, and November 1, 46.82. The details for that period are quite worthy of attention.

RATIO OF GOLD TO TOTAL STOCK OF MONEY FROM JULY 1, 1897.

(From the revised statements of the Treasury Department.)

Date.	Total stock of money.	Gold.	Per cent
July 1, 1897 July 1, 1898 July 1, 1899 July 1, 1900 July 1, 1901 July 1, 1902 October 1, 1902 November 1, 1902	2, 073, 574, 442 2, 190, 093, 905 2, 339, 700, 673 2, 483, 147, 292 2, 563, 266, 658 2, 597, 094, 935	\$696, 239, 016 861, 514, 780 963, 498, 384 1, 034, 384, 444 1, 124, 639, 062 1, 192, 594, 589 1, 215, 234, 885 1, 230, 672, 772	43.99 44.21 45.29 46.52 46.79

MONEY IN CIRCULATION.

The growth in the volume of money in circulation during the year was \$74,082,589, carrying the per capita from 27.98 to 28.43. The element of gold coin and gold certificates was the largest part, and the increase reached \$61,966,174, and advanced from 40.30 per cent of the total to 41.73 per cent. In silver of all denominations, including certificates, there was an increase of \$25,226,146, of which \$6,486,014 was in subsidiary coin. The reduction in treasury notes of \$17,721,762 is due to their withdrawal, as elsewhere recorded.

During July, August, and September, 1902, the gold factor in the circulation fell off by \$9,683,184, to 40.82 per cent of the total; the United States notes and treasury notes show the continued withdrawal of the latter; national-bank notes increased by \$6,906,743, and silver and its representatives by \$23,495,163. The total circulation during the quarter advanced \$26,296,100, up to 28.64 per capita.

In the month of October the remarkable addition of \$60,425,341 was made to the circulation. Of this \$38,019,725 was in gold in both its forms; \$14,624,223 in national-bank notes, and in all forms of silver, \$8,065,909. In United States notes and treasury notes, there was a falling off of \$284,516. The percentage of gold to total circulation thus became on November 1, 41.39, and the per capita 29.36, the highest in our history.

Interesting comparisons for years since 1890 are presented in this table:

Money in Circulation at the End of each Fiscal Year from 1890.

		Mo	ney in circula	tion.			Percent-

Note—Currency certificates, act of June 8, 1872, are included in the amount of United States notes and Treasury notes.

CIRCULATION AND POPULATION.

Our currency keeps more than equal pace with our population. The money in circulation in 1890 was \$22.82 per capita, and the increase of population in the United States for the year was 2.1 per cent, while that of the per capita of circulation was only 1.3 per cent. From 1890 to 1896 the population increased 12.3 per cent, but the per capita of circulation fell off 6.1 per cent. That falling off was 2.1 per cent in 1893, 5.3 per cent in 1895, and 7.7 per cent in 1896, while there was an increase of 1.3 per cent in 1890, 2.6 in 1891, 4.8 in 1892, and 2.0 in 1894. From 1896 the circulation has grown more rapidly than the population. The increase in population of the country from 1896 to 1902 has been 12.4 per cent, while in the circulation per capita the growth has been 32.6 per cent. The increase in money per capita was greatest in 1897 at 6.8 per cent, and in 1898 at 9.9 per cent. In 1902 the population and circulation per capita advanced at nearly the same rate, the former at 1.7 per cent and the latter at 1.5 per cent. The inflow of gold and the consequent issue of gold certificates will, it is likely, keep the percentage of growth of circulation per capita ahead of that of populaiton in the immediate future.

The annexed statement will repay perusal. It presents for thirteen years the money in circulation, the population, the circulation per capita, the per cent of increase of population, and the per cent of increase of circulation per capita per year.

INCREASE IN POPULATION AND IN CIRCULATION PER CAPITA.

a Decrease.

ADVANCE IN VOLUME OF GOLD.

The advance in circulation in the volume of gold, including certificates, within twelve years by the large sum of \$433,703,516 is the measure of the greater strength of our circulation. The addition during the past fiscal year was \$61,966,174. The increase in the future can hardly be less than \$50,000,000 to \$60,000,000 a year. The mines are thus confirming the gold standard steadily and invincibly. They are creating an inflation of currency which keeps pace with the enterprise and industry of the country. They are contributing to an advance in prices in general commodities, and add impetus to the prosperity of our people. Such an inflation threatens no peril to the

stability of the currency. While general prices may be advanced moderately without serious disturbance of the monetary and industrial situation, the process can not be continued indefinitely without presenting economic problems of the first importance. To solve them, data are not yet available. The production of gold throughout the world is likely to go forward, both by greater activity in the richer mines and by the application of more efficient processes for securing the metal from the cheaper ores. On the other hand is the question how far new machinery and improved methods may cheapen the cost of articles of prime necessity and of common luxury.

These conflicting factors will have broad and important effects upon the markets, and deserve to be carefully watched. Most probably the movement will not be regular and in one direction, but will vary as the equation of the output of the mines to the products of agriculture and manufactures may vibrate. Yet for the immediate present, and doubtless for a few years at least, the inflow of gold will be in such large measure as to lift the volume of currency to the highest level of

all needs of business.

WITHDRAWAL OF TREASURY NOTES.

Under the act of March 14, 1900, silver certificates were substituted for treasury notes as fast as the bullion purchased under the law of 1890 was coined into standard dollars and other treasury notes were canceled on the coinage of subsidiary silver. The result of this process is shown in the annexed table:

	•						
	Mar. 14, 1900.	July 1,1900.	July 1, 1901.	July 1,1902.	Oct. 1, 1902.		
Treasury notes		\$76,027,000 416,015,000	\$47,783,000 435,014,000	\$30,000,000 453,997,000	\$26,836,000 465,752,000		
Total Subsidiary coinage a	495, 217, 504	492, 042, 000 1, 655, 882	482, 797, 000 7, 2 66, 972	483, 997, 000 11, 191, 387	492, 588, 000 11, 774, 552		

^aBullion purchased under the act of July 14, 1890, used in the coinage of subsidiary silver (act March 14, 1900, section 8, from March to October 1, 1902).

By the end of the fiscal year 1902 the treasury notes were carried down to \$30,000,000 from \$86,770,000 on March 14, 1900, and the silver certificates at the same dates rose to \$453,997,000 from \$408,447,504. The coinage of subsidiary silver in this interval was \$11,191,387.

The changes in treasury notes in the first quarter of the fiscal year 1903 were less rapid. The total volume became \$26,836,000, while the coinage of subsidiary silver to that date was \$11,774,552. The silver

certificates attained the maximum of \$465,752,000.

UNPARALLELED VOLUME OF GOLD CERTIFICATES.

Gold certificates are issued against deposits of coin for that specific purpose, and are paid for gold bullion and for Government obligations. As the customs received are in gold, except about 2 per cent, or less, this is entirely convenient. Indeed, practically all the revenues are in gold coin or certificates, and thus the expenditures are on the same basis.

On June 27 the gold certificates outstanding for the first time exceeded in volume the United States notes, and were \$347,179,089. They stood on June 30 at \$346,612,089. The increase in the fiscal year was \$57,594,400. Of this sum \$40,213,080 was in the general fund of the Treasury as a part of its \$103,801,290.97 of free gold.

By October 1 the volume of gold certificates had reached \$363,311,-089, an increase of \$16,699,000 since the first of the fiscal year 1903. The amount in the general fund of the Treasury was \$58,929,035, an increase of \$18,715,955. By November 1, the volume was \$367,078,569. The growth of gross gold in the Treasury is due to natural causes.

No effort is put forth, no artificial means are employed to add to it. It is, however, growing so rapidly that the demands for currency in large denominations are met by the issue of gold certificates as need arises in any quarter for any Government payments. This increment in the money in circulation is healthful, it involves no peril of reaction, and in volume equals the highest estimates of currency required for the increasing population, enterprise, and trade of the nation.

The gold in the Treasury is not idle and useless. It keeps in active

circulation as currency the certificates issued against it, and moreover \$346,681,016 in United States notes and \$30,000,000 in treasury notes, or over \$160,000,000 more than its own value. The question may well be considered whether the United States notes may not properly be turned by Congress into gold certificates. They have much that quality already, and the change could be gradually made as the supply of the yellow metal takes on greater proportions.

Those proportions render all our silver currency, paper and coin,

strong and sound, equal to the standard prescribed by law.

At the beginning of recent fiscal years and in the latest months the gold in the Treasury set apart for the respective uses has been as here shown:

GOLD IN THE TREASURY.

• Date.	Reserve.	For certificates in circulation.	General fund (belonging to Treasury).	Total.
July 1, 1897. July 1, 1898. July 1, 1899. July 1, 1900. July 1, 1901. July 1, 1902. October 1, 1902. SOURCES OF GOLD IN THE TREASURY.

The payments of customs in New York in the first ten days of 1902 were in gold certificates 98.2 per cent and in gold coin 0.2 per cent. Thus other kinds of money were used only for fractions or small sums. Since United States notes and silver certificates were by law available for customs, no like ratio of gold has been paid in. In recent years the receipts for customs in New York were as stated below, and as the gold certificates when received by the Treasury set free so much gold, no distinction exists in fact between the paper and the coin.

RECEIPTS FROM CUSTOMS AT THE PORT OF NEW YORK, AND THE AMOUNT PAID IN GOLD, FOR THE FISCAL YEARS NAMED.

Fiscal year.	Total receipts.	. Paid in gold.		
Passer year.	Total receipts.	Amount.	Per cent.

a There are no data to show the kinds of money in which these duties were paid, but during this

The customs at all other Treasury offices were paid in about the same ratio in gold, so that from this source altogether the Treasury received in that metal about \$215,000,000.

In addition to this sum our gross gold has received increments from bullion at the mints and assay offices during the past fiscal year in the following amounts, which are clearly new gold added to our resources:

DEPOSITS OF GOLD BULLION AT MINTS AND ASSAY OFFICES, FISCAL YEAR 1902.

Philadelphia	\$1,358,368.48
San Francisco	
New Orleans	408, 252, 74
New York	
Denver	15, 518, 454. 95
Carson	308, 798. 46
Boise	1, 799, 465. 29
Helena	2, 174, 935. 23
Charlotte	266, 656. 63
St. Louis	86, 233. 31
Deadwood	540, 452. 93
Seattle	15, 353, 800. 08
Total	132, 043, 125, 52

Deposits of gold coin and certificates were made in New York, for transfer of currency to other points, to the amount of \$22,021,500 during the fiscal year.

In the fiscal year the net exports of gold coin and bullion were \$20,394,139. Of gold in ore there were net imports of \$23,846,443, but this is not reckoned as cash. The subjoined figures cover all kinds of the metal:

IMPORTS AND EXPORTS OF GOLD COIN AND BULLION, AND GOLD IN ORE, DURING THE FISCAL YEAR 1902.

Kind.	Imports.	Exports.	Net imports.	Net exports.
Gold coin and bullion		\$47,599,796 969,154	\$23, 846, 443	\$20, 394, 139
Total	52,021,254	48, 568, 950	3, 452, 304	

year all duties were payable in coin. b The collections from July to December, inclusive, were \$49,127,818, of which \$35,970,357 was gold, equal to 73.2 per cent, while the collections from January to June, inclusive, were \$48,216,000, of which \$1,295,583 was gold, equal to 2.6 per cent.

TRANSFERS FOR DEPOSITS IN NEW YORK.

The deposits in New York for the transfer by telegraph of currency to other points, chiefly Chicago and New Orleans, in the calendar year 1902 began early, and were larger than in any recent year except 1900. Previous to 1901 such deposits were required in the kinds of money to be paid by transfer, except as the holdings of the Treasury in paper currency were adequate to meet such demands. In that year one-half was accepted in gold and one-half in kind. In the current calendar year all restrictions have been waived, and as a matter of convenience to the depositor gold has been taken and payments on the transfer made as he wished, usually in United States notes and silver certificates of \$10 and under, sometimes part in that form and part in larger denominations. The Department has been able to concede these accommodations by reason of turning all paper except gold certificates into denominations below \$20. Upon transfers no distinction between kinds of money is allowed to obstruct transactions. This policy is meant to facilitate the supply of currency at any point south and west for the movement of crops. Thus in 1902 all such deposits were in gold, except \$40,000 in United States notes and \$37,000 in silver certificates. In August \$5,000 in United States notes and \$10,000 in silver certificates were deposited, and in October \$105,000 was in United States notes.

The same privilege to accept deposits for transfer by telegraph to New Orleans was conceded to Chicago on request from that city on July 5, 1902. A single transaction of \$50,000 occurred in July and

another of \$75,000 in October.

The tables record the deposits in New York for the months when any were received and the corresponding payments by telegraph:

EXCHANGE PAID FOR GOLD RECEIVED AT WESTERN MINTS AND ASSAY OFFICES.

Gold taken by the assay office in New York is paid for by check on the assistant treasurer in that city. At the other assay offices and at the mints the depositors receive for their gold, currency, checks on

local banks, or exchange, at their option.

Gold coin to the amount of \$1,300,000 was transferred from San Francisco to the depositary banks at Seattle for credit of the assay office at that point, to be used in the payment of checks on such banks when gold was desired. After September 17, 1902, payments for deposits in San Francisco were made in New York on telegraph notice. Such transactions were, up to November 1, \$10,473,000.

The subjoined table records the exchange paid in Chicago, New York, and San Francisco for the several offices in 1901 and 1902, and

for the first quarter of 1903:

CLASSIFICATION OF CURRENCY OF \$20 AND BELOW, AND ABOVE \$20.

While during the year ended September 30, 1901, the paper currency of \$20 and below received an addition of \$75,956,845, only \$9,794,500 was added to paper of denominations above \$20. If we reckon the gold coin, all of which is of \$20 and below, it will be noted that the small denominations were over 80 per cent of all our money.

For the year ended September 30, 1902, an increase was made of \$71,283,129, in paper of \$20 and under, while that in paper of over \$20 was \$4,745,750, so that the percentage of small denominations to the total was over 83.

The variations in the currency during the past five years are illustrated by the annexed table, in which separation is made at denominations of \$20:

			September 30—

KINDS OF CURRENCY.

The classification of the currency, by kinds, in circulation at the periods stated is made up from the latest revised statements:

Kind.	July 1, 1901.	July 1, 1902.	Oct. 1, 1902.
Gold coin. Gold certificates	247, 036, 359 66, 921, 323 429, 643, 556 79, 235, 214 47, 524, 538 330, 045, 406	446, 557, 662 85, 721, 228 29, 802, 776 334, 291, 722	\$624, 728, 060 304, 382, 054 75, 043, 719 459, 571, 478 89, 906, 205 26, 741, 790 342, 930, 086 352, 383, 259
Total	2, 175, 307, 962	2, 249, 390, 551	2, 275, 686, 651

RATIO OF \$10 AND LESS TO ALL PAPER.

The large volume of gold certificates issued since 1890, all of \$20 and upward, for a while reduced the ratio of small notes to the total of all denominations. The small notes and certificates have regained

their predominance and this lead is asserted in each of the denominations of \$10 and less. The comparison is made for six years:

		Denominations of \$10 and less.						
Date.	Total paper currency.	One dollar.	Two dollars.	Five dollars.	Ten dollars.	Total.

DEMAND FOR SMALL DENOMINATIONS.

The demands of the people for notes of small denominations have surprised the closest students of the currency. Year by year estimates of the maximum to be required have been proved by experience inadequate, and further provision was called for to meet the growing needs of business. The process is still going on and the ratio of small denominations to the circulation has not yet culminated. In 1890 the number of pieces of Government paper currency issued was 37,065,880, and in 1902 it was 116,697,874. The average value was, in 1890, \$6.613, and in 1902, \$4.

In order to provide the notes and certificates, the facilities for printing, sealing, and separating them have been often extended and are now sufficient for immediate requirements. The reserve desirable to permit the paper, printing, and sealing to dry and harden so as to secure the best results in appearance and wear is not yet as large as economy and prudence suggest. In the coming year it is hoped this criticism will be no longer justified.

PAPER CURRENCY PREPARED FOR ISSUE.

The number of pieces of paper currency prepared for issue, which was 30,976,881 in 1890, was carried up to 136,721,000 in 1902. In order to provide for exigencies additions to the supply has been necessary in all denominations, but most of all in the smaller ones.

As the law of March 14, 1900, directed the withdrawal of treasury notes, the reserve of such paper prepared for issue was destroyed, under instructions from the Secretary, May 22, 1902. Only a few samples were retained. The amount was \$36,356,500, and the pieces were 1,223,900.

The problem presented year by year, and the way it has been solved, will be appreciated by a statement of the currency prepared and issued, by number of pieces, total value, and average value, at intervals since 1890:

Number of Pieces of Paper Currency Prepared for Issue in the Fiscal Years 1890, 1895, 1900, and 1902.

Fiscal year.	Number of notes and certificates.	Total value.	Average value.
1890.	30, 976, 881	\$188, 846, 000	\$6.096
1895.	56, 012, 500	296, 816, 000	5.299
1900.	87, 111, 000	526, 296, 000	6.041
1902.	136, 721, 000	591, 580, 000	4.326

Number of Pieces of Paper Currency Issued in the Fiscal Years 1890, 1895, 1900, and 1902.

, ,	Fiscal year.	Number of notes and certificates.	Total value.	Average value.
1895 1900		 37, 065, 880 55, 932, 798 78, 132, 176 116, 697, 874	\$245, 142, 000 301, 805, 983 495, 545, 000 466, 908, 000	\$6.613 5.395 6.342 4.000

CURRENCY ISSUED AND REDEEMED.

The currency issued and redeemed during the two past years shows the development month by month, by the falling off in average value of the pieces. The number issued ranges in each of the later months from 10,000,000 to 10,565,535, and while the redemptions follow a little after the issues, they can not be much delayed or fall very far below them.

In July, August, and September of the present fiscal year the number of pieces issued was 7,133,928 greater than in the same months of the preceding year, while the redemptions in these later months were 7,078,404 more than in the period with which those are compared. It will be noted that the redemptions for this quarter are a little in excess of the issues of that of the preceding year. The average value has become \$3.624 by reason of the growing volume of small denominations.

The details by months follow:

PERCENTAGE OF VALUE OF NOTES AND CERTIFICATES.

The significance of the annexed table will be noted. Of the total redemptions, those of \$1 from 1901 to 1902 rose from 65.3 per cent to 74 per cent of the outstanding; of \$2, from 57.2 to 68 per cent; of \$5, from 36.1 to 41.2 per cent. Those of \$10 show an increase of only one-tenth of 1 per cent. It will be observed that of \$500, the redemptions advanced from 13.5 per cent to 25.3 per cent, while the certificates of \$10,000 redeemed went up from 42.3 per cent to 46.6 per cent.

SHIPMENTS OF CURRENCY FROM WASHINGTON.

The currency distributed from the Treasury in Washington to the subtreasuries and to banks during the fiscal year 1902 amounted to \$387,319,888.75, against \$319,912,188.21 during the preceding twelve months. In 1901, 10,817 packages were sent by registered mail and 40,880 by express, while in 1902, 11,800 went by registered mail and 48,091 by express. Thus the total number of packages was greater by 8,194, or 15.8 per cent, in the later year than in the preceding, while the amount of currency distributed was \$67,407,694.54, or 21 per cent greater. The money sent to the assistant treasurers passes very soon into general business in payment of Government obligations and in redemptions. The amount so sent in 1902 exceeded by \$45,041,000 the like shipments in the year before. The packages forwarded to banks enter directly into circulation. Their number, therefore, has special significance, and the amount illustrates and is a part of the general activity in industries and trade. It will be noted that such packages were 4,086 more numerous and were worth \$22,328,914 more in 1902 than in 1901.

The tables for 1901 and 1902, by months, deserve attentive study.

CURRENCY FOR THE PHILIPPINES.

Since the occupation of the Philippines by the United States in May, 1898, considerable amounts of American currency have been sent thither to be used for Government purposes. This money has been paid by the assistant treasurer of the United States in San Francisco to various disbursing officers. The sums and kinds of currency are reported to September 15 from the beginning, covering a period of four years. The paper, it will be seen, is \$15,680,000, to \$10,290,000 in gold coin, \$599,500 in standard silver dollars, \$702,800 in subsidiary silver, and \$58,750 in minor coins. The aggregate is \$27,331,050. No data can be secured to show what part of this currency has been returned from the islands.

Gold coin: Double eagles Eagles Half eagles	\$1,510,000 4,160,000

MAINTENANCE OF PARITY.

The act of March 14, 1900, makes it the duty of the Secretary of the Treasury to maintain the parity of value of all forms of money issued or coined by the United States with the gold standard defined and fixed by that law. This parity has been and is now easily maintained, and all kinds of Government money are exchangeable with each other.

This has been rendered practicable by carrying out the statute cited in its spirit as well as its letter. Section 7 of that act restricted to 10 per cent of the total volume the issue of silver certificates of denominations of \$20, \$50, and \$100. This restriction has been complied with, and on June 30 those denominations were only a trifle over 9 per cent of that volume; by November 1 this percentage was reduced to 8. The purpose of the restriction is so beneficent that the process has been carried further, and no silver certificates of \$10 are for the present issued. This policy enables the Department to use the whole volume of silver certificates in denominations of \$5 and under as the larger ones are redeemed. As redemptions of United States notes are made this class of paper is confined to denominations of \$10.

Certificates of \$20 and upward are issued in abundance against gold

in the Treasury.

The scarcity of small denominations which formerly prevailed and called forth natural complaints is thus fully remedied. By foresight and generous aid by Congress a fair reserve of such currency has been printed, sealed, and prepared for issue. Silver certificates of \$5 and under and United States notes of \$10 can be furnished either for like currency or for gold or silver, and coin of either metal will be paid for any forms of money of the Government in reasonable amounts.

In previous years, for small notes, deposits in kind were required, and standard dollars could be paid only for silver certificates. This last condition can be waived now only to the extent of standard dollars in the Treasury; that will, however, quite certainly meet current demands. But the silver dollars invariably command gold when that

is called for.

Gold in either of its forms is taken and given for any other forms of currency; so is silver. For deposits for transfer of funds, for moving the crops, or other business, no question is asked about the kinds of money. But such deposits are received only at points where the Treasury has use for funds, and expenses for transfer are paid by the

recipient.

The inflow of gold, permitting the free issue of gold certificates of \$20 and upward, is the key to this maintenance of parity and interchangeability of all kinds of Government money. On the other hand, small denominations, including silver coin, are constantly in demand for the myriad transactions of retail trade and the current uses of rural communities, as well as for pay rolls in furnaces and factories and harvest fields. The Treasury in recent years has heard much more clamor for silver and small notes than for gold. It is now abundantly able to meet all calls for every kind of money for its own obligations, for redemption, and for legitimate transfers.

As a result of the movements which have been noted, our Government paper currency is gaining in simplicity. Gradually all large denominations are becoming gold certificates, and the smallest ones silver certificates, while in time all \$10 will be United States notes.

The advantage is obvious.

REDEMPTIONS AND EXCHANGES.

The receipts of all kinds of money for redemption and exchange during the past fiscal year amounted to \$723,275,246, an increase of \$54,804,865 over the preceding year. Gold coin and certificates were freely used in making payments therefor, as \$66,499,827 more was paid over the counter than received, and if to this amount should be added the gold paid for transfer checks, given for national-bank notes redeemed, the excess of payments would be carried to more than \$90,000,000.

The kinds of money received and paid at Treasury offices on account of redemptions and exchanges during the fiscal year 1902 were as fol-

lows, viz:

RECEIPTS.

Ki	ds of money received by Treasury offices: Gold coin and certificates. Silver coin and certificates. United States notes and Treasury notes National-bank notes and minor coin	298, 925, 361 98, 235, 643

REDEMPTION OF NATIONAL-BANK NOTES.

National-bank notes to the amount of \$171,869,258 were presented for redemption during the year, a sum equal to 47.98 per cent of the average amount of notes outstanding, and an amount \$24,382,681 larger than was presented in the previous year, although the net increase in the volume of notes outstanding was only \$2,929,904. the average amount of \$5 notes outstanding there was 53.60 per cent redeemed; of the \$10 notes, 43.46 per cent; of the \$20 notes, 43.80 per cent; of the \$50 notes, 54.22 per cent; and of the \$100 notes, 65.51 per cent. Comparison of these percentages with those of the previous fiscal year shows an increase of 7.29 per cent in the \$5 notes redeemed, of 3.82 per cent in \$10 notes, of 0.42 per cent in \$20 notes, of 8.91 per cent in \$50 notes, and of 13.03 per cent in \$100 notes. The increase in the aggregate redemptions was only 4.59 per cent. During the year the amount of \$5 notes outstanding was reduced \$6,948,635, the \$50 notes, \$327,400, and the \$100 notes, \$156,100; while the \$10 and \$20 notes were increased \$4,089,750 and \$6,275,420, respectively.

There was a net increase of 368 banks, 437 new charters having been granted and 69 old charters surrendered during the year. The total number of charters granted to June 30, 1902, was 6,325. The number of banks in existence at that date was 4,546, leaving 1,779 as the number out of existence. Between March 14, 1900, and June 30, 1902, there was a net increase of 929 in the number of banks and \$102,269,361 in the amount of circulating notes outstanding, the total amount of notes on the latter date being \$356,672,091.

Of the notes redeemed there was \$167,035,539.50 assorted. fit for use, delivered to the banks of issue, amounted to \$57,303,520, while there was delivered to the Comptroller of the Currency \$89,646,745 for reissue to the banks and \$20,085,274.50 for retirement. assorted notes fit for use were \$365,195 less than the amount delivered in the previous year, but there was \$19,673,349.50 more delivered to the Comptroller, making a net increase of \$19,308,154.50 in the amount assorted and delivered.

payment of notes presented for redemption, there were \$74,811,828.26 in United States currency forwarded from Washington, checks to the amount of \$61,870,406.50 drawn on the various subtreasuries, \$34,319,129.80 credited in accounts, and \$46,770.80 forwarded in silver.

The deposits for the retirement of circulation amounted to \$33,546,320. Noteworthy during the year were the deposits for the purpose of withdrawing bonds under the act of June 20, 1874, to which there is a legal limit of \$3,000,000 per month. The limit for November was taken up early in that month and applications to deposit were then received for December, and continued to be received in advance for each month following until May, when they ceased. These deposits seem to have been made to realize from sale of the bonds the high premiums they bore.

The expenses incurred during the year were \$153,796.33, and the assessment upon the several national banks was made at the rate of

\$0.92444 per \$1,000 of their circulating notes redeemed.

In the first quarter of the fiscal year 1903 the notes presented for redemption amounted to \$39,791,201, and those assorted and delivered to \$35,591,645. Compared with the figures for the corresponding period of the preceding year, there was an increase of \$3,283,510 in the amount presented for redemption and \$1,760,752 in the amount assorted and delivered. The volume of bank notes outstanding, which was increased \$10,321,507 during the quarter, reached the sum of \$366,993,598 on September 30, and a net increase of 105 in the number of existing banks made a total of 4,651.

MOVEMENT OF STANDARD DOLLARS.

The shipments of standard silver dollars in the fiscal year 1902 exceeded those of any like period on record. They were \$40,404,325, or 5.4 per cent greater than in 1901. The rate per \$1,000 for transportation was \$1.99 in the past fiscal year against \$2.12 in the one before. (Table 60, p. 132.)

By months the movement was:

	190	1.	19	02.	190	
July	\$2,231,763 3,573,034 6,669,105		\$2,678,935 3,936,861 6,094,118	٠,	\$2, 965, 341 4, 348, 315 6, 829, 396

EXCHANGE OF STANDARD DOLLARS.

The standard silver dollars presented at the Treasury offices for exchange show an increase of 8.5 per cent in the past fiscal year over the preceding twelve months. The exchanges exceeded the shipments in 1901 by \$1,386,402, and in 1902 by \$2,710,690.

The details are for two fiscal years and the first quarter of 1903:

	1	Fiscal year—	. ,
Offices.	1901.	1902.	1903, first quarter.
Washington	\$1,426,198	\$1, 263, 986	\$251, 977
Baltimore		1,496,290	286, 460

St. Louis	7,844,509	8, 138, 248	1, 480, 865
New Orleans		4, 372, 150	790,000
San Francisco	2,721,553	3, 329, 627	424, 373
Total	39, 724, 921	43, 115, 015	8, 663, 414

MOVEMENT, OF SUBSIDIARY COINS.

The movement of subsidiary silver in 1902 exceeded by \$796,812.50 that of the year before. The amount in circulation arose to \$85,721,228, which was \$6,486,014 more than twelve months earlier. In addition to these shipments, payments of subsidiary silver for various purposes during the year amounted to more than \$23,500,000.

By months the shipments were:

	1901.	1902.	1903.
July	\$1,547,118.80 2,085,455.90 2,865,477.70	\$1,810,156.40 2,173,351.20 2,682,992.90	\$1, 944, 552. 60 2, 556, 549: 60 3, 349, 324. 70
First quarter October November December January February March April May June Total	2, 008, 356, 90 2, 252, 147, 70 782, 015, 10 1, 052, 911, 60 1, 187, 533, 40 1, 357, 994, 50 1, 555, 369, 60		

REDEMPTION OF SUBSIDIARY COINS.

The subsidiary coins presented for redemption show an increase of 4.6 per cent as compared with the fiscal year 1901. It will be noted that the redemptions were greater than the shipments by \$16,193,738.15 in 1901, and by \$17,139,670.65 in 1902.

The statement by offices follows:

		Fiscal year—			
Offices.	1901.	1902.	1903, first quarter.		
Washington Baltimore New York Philadelphia Boston Cincinnati Chicago St. Louis New Orleans	2, 330, 380 15, 150, 184 4, 884, 326 1, 308, 110 1, 600, 049 4, 285, 076 2, 950, 635 1, 191, 090	\$1,740,158 2,382,870 16,084,303 4,978,954 1,517,730 1,767,705 4,292,828 3,483,381 1,009,060	\$346, 321 565, 666 3, 744, 466 1, 316, 301 351, 566 467, 466 997, 226 724, 381 229, 466		
San Francisco	<u> </u>	1,754,641 39,011,630	9, 137, 15		

MINOR COINS.

The activity of the mint in minor coins during 1902 is illustrated by the figures kindly furnished by the Mint Bureau of the coinage and remelting during that period, and of the amount outstanding on June 30. By comparison with 1901 it appears that the amount coined in the latter year was \$2,439,736.17 greater than in the one before, and that remelted \$1,097,089.69 greater, while the amount outstanding increased \$1,342,646.48.

The details follow:

		Fiscal year 1901.	,	
Denomination.	Coined.	Remelted.	Outstanding June 30, 1901.	
Copper cents Copper half cents. Copper nickel cents Bronze cents Bronze 2 cents Nickel 3 cents Nickel 5 cents Total	2,007,720.00 10,727,871.02 912,020.00 905,768.52 19,335,403.75	\$379, 357. 97 795, 733. 11 136, 888. 14 337, 378. 72 276, 602. 86 629, 165. 66 2, 555, 126. 46	\$1, 183, 529, 47 39, 926, 11 1, 211, 986, 89 10, 590, 982, 89 574, 641, 22 629, 165, 66 18, 706, 238, 09

MOVEMENT OF MINOR COINS.

In comparing the shipments of minor coins for the past two years, we find in the latter an increase of \$714.57, while there was a reduction in the cost of transportation of \$600.27.

The charge against the Philadelphia office covers the expense of transfers from that point to supply other offices. The business by offices is thus reported:

	Fiscal ye	ear 1901.	Fiscal year 1902.	
Office.	Amount.	Expense of transportation.	Amount.	Expense of transpor- tation.
Washington. Baltimore. Boston Chicago Cincinnati New Orleans New York Philadelphia San Francisco St. Louis Mint, Philadelphia,	16, 455, 00 67, 040, 00 36, 466, 59 61, 500, 00 73, 620, 00 245, 910, 00 31, 165, 00 42, 105, 00 208, 775, 00	\$282.37 197.05 670.65 546.39 624.30 1,087.90 3,169.10 3,252.15 534.05 3,708.72 44,059.10	\$17, 549, 40 22, 605, 00 106, 340, 00, 3, 911, 17 103, 585, 00 75, 185, 00 189, 285, 00 405, 00 69, 855, 00 223, 275, 30 2, 142, 798, 17	\$239.20 256.60 1,063.50 1,061.24 1,047.55 944.85 2,953.35 4,864.25 869.56 4,009.40

RECOINAGE IN THE FISCAL YEAR.

The worn gold coins sent to the mint for renewal were worth a little less than twice as much in 1902 as in 1901. The worn siver coins were worth \$494,303.94 less in the later than the earlier year. The increase in minor pieces recoined was \$98,033.

SPURIOUS ISSUES DETECTED IN 1902.

The counterfeit coins and paper currency detected at the Treasury during the past fiscal year were \$759.50 less in face value than in the twelve months preceding. There was a falling off in all kinds except in United States notes and national-bank notes. The items are:

Denomination.	Fraction- al cur- rency.	Silver coins.	United States notes.	Treasury notes of 1890.	National- bank notes.	Silver certifi- cates.	Total.
Ten cents Fifteen cents Twenty-five cents Fifty cents	. 60 11. 00 175. 00	1, 281. 25 1, 551. 00					
One dollar Two dollars Five dollars Ten dollars			24.00 260.00	\$10.00 20.00 10.00		\$6.00 132.00 130.00 550.00	1,822.00 202.00 765.00 1,510.00
Twenty dollars. Fifty dollars One hundred dollars.			560,00	10.00	360. 00 50. 00 500. 00		920. 00 800. 00 1, 300. 00
Total	186.80	5, 120. 85	2, 787. 00	40.00	1,871.00	818.00	10, 823. 65

The total number of 1-cent pieces thrown out during the year was 96,995. In 1901 the total was 163,918. The number of 5-cent nickel pieces was 2,596, as compared with 3,333 in the previous year. Eleven counterfeit gold coins and three compound-interest notes were rejected at this office.

TRUST FUNDS, CENTRAL PACIFIC RAILROAD.

Since July 30, 1901, the date of the last statement by the Treasurer on the subject, two payments have been made on the notes of the Central Pacific Railroad Company held by the Department. These were on February 1, 1902, \$222,552.49, and on July 31, 1902, \$918,744.93, a total of \$1,141,297.42. Bonds of the company, held as collateral, were released at the time of each payment.

The balance of the notes held by the Treasury, yet to become due, was on August 1, 1902, \$38,228,265.14, secured by first mortgage bonds

of the company for \$38,229,000.

SPECIAL TRUST FUNDS.

Of bonds of several of the States held by the Treasurer as custodian under an act approved August 15, 1894, payment was made by the State of Florida for \$132,000, and on August 8, 1902, bonds of that State for like amount were forwarded to the governor of Florida.

No other changes have taken place in the special trust funds, and

they stand:

United States bonds are held by the Treasurer, under specific provisions of law, as follows:

American Printing House for the Blind, 4 per cent	\$250,000
Manhattan Savings Institution, 4 per cent	75,000
North American Commercial Company, 2 per cent	50, 000

DISTRICT OF COLUMBIA.

The transactions of the Treasurer of the United States, ex officio commissioner of the sinking fund of the District of Columbia, pertaining to the affairs of the District, are fully set forth in a separate report.

The net reduction of the bonded debt during the year was \$871,800, and of the annual interest charge, \$43,235.70. The bonds retired consisted of 7 per cent water-stock bonds for \$319,000, which were due October 1, 1901, and by purchase, 6 per cent thirty-year funding bonds

for \$31,000, and 3.65 per cent bonds for \$521,800.

From July 1, 1878, to the close of the fiscal year 1902 the bonded debt was increased by the issue of 3.65 per cent bonds for \$1,226,050, and decreased by the operations of the sinking funds and otherwise \$9,136,150, making a net reduction of \$7,910,100, and of the annual interest charge, \$485,402.60. The total amount of the bonded debt outstanding June 30, 1902, was \$14,196,550. Of this sum \$13,683,850 consists of 3.65 per cent bonds. The Treasurer purchased these bonds during the year at a rate that netted the sinking fund nearly 2.25 per cent per annum. In view of the difficulty of purchasing these bonds at prices advantageous to the fund, the question arises whether the Treasurer might not be authorized to buy United States securities

Since the close of the fiscal year the debt has been reduced by the purchase of 3.65 per cent bonds for \$202,800 and 6 per cent thirtyyear funding bonds for \$4,100. The balance of these 6 per cent bonds outstanding, amounting to \$494,500, will be payable November 1, 1902, and will be retired by the sinking fund.

At the close of the fiscal year 1902 the 10 per cent guaranty fund held for account of District contractors amounted to \$332,764.52, and was credited to 115 separate contracts. Of this sum \$317,986.95 is invested in bonds purchased at the request and risk of contractors.

The receipts for account of the police relief fund during the year were \$46,532.63, and for account of the firemen's relief fund \$16,978.23. These sums were deposited in the Treasury in monthly installments, subject to the requisition of the District Commissioners.

The securities of the District in the care and custody of the Treasurer

are:

3.65 per cent bonds (unsigned). Bonds for account of District contractors. Chesapeake and Ohio canal bonds.	279, 580
	8, 087, 315

THE WORK OF THE TREASURER'S OFFICE.

In nearly every branch the business of the Treasurer's office has grown greatly during the fiscal year. The number of letters received and sent is an index of the increase of work, as is the value of registered letters received, which has advanced by \$9,699,377.61. the record for 1902:

LETTERS RECEIVED.

Letters received by open mail	174,961
Letters received by registered mail	24, 236
Letters received containing bonds, currency, etc.	
Letters received containing bonus, currency, etc.	8, 446
Letters referred to other bureaus	
Letters briefed and recorded	28, 793

LETTERS SENT AND SIGNATURES ATTACHED.

Letters sent by open mail. Interest checks mailed	
Value of interest checks mailed	\$23, 530, 395, 64
Letters sent by registered mail	
Letters and forms bearing autograph signatures	24, 236
Autograph signatures to warrants, transfers, checks, requisitions,	
receipts, and bonds	
Forms bearing printed signatures, etc., mailed	276, 480
Printed notices mailed	238, 863
Value of registered letters sent	
Value of registered letters received	
Signatures of Treasurer United States, account sinking fund, office	
District of Columbia.	
Blank checks issued to disbursing officers.	
- · · · · · · · · · · · · · · · · · · ·	,

The vast expansion of the labor of the office has tested the capacity, the fidelity, and efficiency of the staff, the chiefs of divisions, the clerks, and of every person employed. They have met well every requirement. The volume of work done has been large and its excellence notable. Recognition and commendation have been well earned and are cordially extended.

Respectfully.

ELLIS H. ROBERTS, Treasurer of the United States.

Hon. Leslie M. Shaw, Secretary of the Treasury.

APPENDIX TO REPORT OF THE TREASURER.

#### REPORT OF THE DIRECTOR OF THE MINT.

TREASURY DEPARTMENT,
BUREAU OF THE MINT,
Washington, D. C., November 29, 1902.

Sir: I have the honor herewith to submit the twenty-ninth annual report of the Director of the Mint, covering the operations of the mints and assay offices of the United States for the fiscal year ending June 30, 1902, with such available statistics for the fiscal year as may be valuable in connection therewith.

### OPERATIONS, EARNINGS, AND EXPENDITURES.

The coinage mints at Philadelphia, New Orleans and San Francisco were in operation throughout the fiscal year. In number of pieces the coinage of the year has never been exceeded, aggregating 191,419,506, but in value it falls from \$136,340,781.58 in the previous year to \$94,526,678.12, this being due, of course, to the greater demand for the small denominations. Gold coinage dropped from \$99,065,715 to \$61,980,572.50, but gold bullion accumulated in the mints, increasing the stock on hand from \$100,219,493 to \$124,083,712. The coinage of silver dollars amounted to \$19,402,800, subsidiary silver coins to \$10,713,569.45 and minor coins to \$2,429,736.17.

The coinage of silver dollars during the year was wholly from bullion purchased under the act of July 14, 1890. The amount of bullion on hand July 1, 1901, was 52,562,921.90 fine ounces, and at the close of the year's operations, June 30, 1902, 33,218,712 fine ounces. By the monetary act of March 14, 1900, authority was given to use this bullion for subsidiary coinage, provided that the total stock of subsidiary coins in the country should not at any time exceed \$100,000,000, and 4,337,356.50 ounces were used for that purpose during the year.

The original gold deposits of the year amounted to \$132,580,829.88. Gold bars taken for export amounted to \$36,332,678.53, and for domestic consumption, \$14,482,578.08. The gross expenditures on account of the mint service, including loss by wastage in operating upon the metals, was \$1,910,503.91. The earnings from all charges and incidental gains, exclusive of seigniorage, aggregated \$357,568.62. The seigniorage realized in the manufacture of 1 and 5 cent pieces amounted to \$1,919,370.25, and the total seigniorage accruing upon the silver, nickel, and bronze coins made in the year was \$11,013,856.11, which was turned into the general fund of the Treasury.

The following table shows the number of employees and the earnings and expenditions of the several offices and institutions of the mint service, including the Bureau or administrative office in Washington:

Number employed, earnings and expenditures of the Mint service for the calendar year ended June 30, 1902.

Institutions.	Number employed.	Earnings.	Expenditures.
Bureau of the Mint. Philadelphia Mint San Francisco Mint. New Orleans Mint.	636 213	\$539.34 b 6, 488, 034.26 b 801, 869.35 b 3, 892, 971.75	a \$101, 305. 83 c 916, 719. 50 326, 825. 50 259, 158. 98

a Includes \$66,964.01 freight on bullion and coin between mints and assay offices. b Includes seigniorage resulting from coinage operations. c Includes \$191,864.61 for new equipment. d Includes \$1,790.73 for new equipment.

The cost of transferring coin and bullion between mints and assay offices may also properly be included in expenditures on account of the mint service, although paid from another appropriation. item amounted during the year to \$66,964.01.

The details of the operations of the several institutions will be found

elsewhere under the respective headings.

COINAGE CAPACITY, IMPROVEMENTS IN EQUIPMENT, ETC.

Coinage operations in Philadelphia were transferred from the old to the new mint structure in October, 1901. The work of that institution was necessarily somewhat interrupted and disarranged by the removal and by the change to new machinery and new methods then When the full results of all the changes that have been inaugurated are secured it is believed that a large gain in economy and efficiency will be realized. The capacity of the new mint is more than double that of the old, and this increase in the output can be had, when required, at slight additional cost over the operating expenses here-Every effort has been made to introduce into this mint the most approved methods that have been developed in the art of coinage and to obtain an equipment that would give the best results.

Gas has been adopted as the only fuel for the melting, annealing, and hardening processes, and the supply is manufactured in the mint from naphtha at a cost approximating 50 cents per 1,000 feet. chief consideration in the use of gas is the complete control that is possible in the application of heat and the more accurate results that Since the new rolling machinery and the new method are obtained. of annealing by gas has been in use the percentage of good planchets

to the total number cut has risen to about 90. There are no draw benches in the new mint and the adjusting of silver blanks has entirely ceased.

The transmission of power is by electricity, each machine being equipped with a motor, except in a few cases where the power required

is very light.

The appropriations for the new Philadelphia structure aggregate \$2,025,000. The expenditures for equipment to January 1, 1902,

amounted to \$349,720.84.

Nothing in the way of new machinery had been placed in the mint at San Francisco for many years, and the equipment was much worn and in many particulars out of date. The successful inauguration of new methods at Philadelphia naturally suggested improvements in the other institutions, and contracts aggregating about \$75,000 have been made for that purpose at San Francisco. The capacity of this mint will thus be largely increased with little or no increase in the cost of operations. Gas will be substituted for other fuels and electricity

directly applied to all machinery.

The mint at Denver was authorized by act of Congress April 21, 1862, and the private coinage establishment of Clark, Gruber & Co., including real estate, was purchased at a cost of \$37,500. No coinage has ever been executed there by the Government, the institution being conducted simply as an assay office and its receipts shipped to the Philadelphia mint for coinage. By act of Congress, approved February 20, 1895, the new mint at Denver was provided for, and an appropriation of \$500,000 for building and site was made. At the first session of the Fifty-seventh Congress an additional appropriation of \$300,000 was made for completing the building and constructing The contract for the superstructure has been completed and the contract for interior construction has been let. An appropriation of \$25,000 for equipment has been made and contracts for equipment to the amount of \$150,000 have been authorized. Further action to provide for equipment should now be taken, in order that the machinery may be ready when the building is finished. The amount required for this purpose will depend upon the action taken upon the recommendation relative to the discontinuance of coinage operations at New Orleans.

#### THE NEW ORLEANS MINT.

The increased capacity of the mints at Philadelphia and San Francisco and the prospective opening of the new mint at Denver have provided and will provide a much greater coinage capacity than the country has heretofore had. On the other hand, the pressure upon the mints will relax rather than increase. The coinage of 1,500,000 silver dollars per month, now required by law, will soon come to an end by the exhaustion of the stock of bullion purchased under the act of July 14, 1890. This requirement now calls for a coinage equal to the entire capacity of the New Orleans mint. When it ceases, that mint will be idle unless work is diminished at Philadelphia and San Francisco to give it employment. When the Denver mint is opened, the bullion output of Colorado and possibly of other mining districts of the West now going to Philadelphia will be cut off from the latter institution, and it does not seem advisable to still further reduce its operations in order to supply work for New Orleans. The operations

of the San Francisco mint are wholly confined to gold produced or imported on the Pacific coast and the manufacture of the subsidiary coins required in the Pacific coast States, and it is not practicable to divide its work with the mint at New Orleans.

The latter institution was reopened after the civil war in 1879, and since then has been almost wholly employed upon the coinage of silver. Its receipts of gold are small—last year about \$400,000—and alone do not warrant coinage operations. It would be a useless and unjustifiable expense to ship gold bullion from Denver, Philadelphia, or any other of the offices of the service, to New Orleans for coinage,

as the Treasury would have no use for the coin there.

It is opportune here to call attention to the fact that the gold coinage of the country is now entering almost entirely into storage and that the cost of coinage is an unnecessary expense. The Treasury holds now about \$500,000,000 of coined gold, which is doubtless more than will be called for in a generation to come. Practically all of the current coinage is being deposited in the Treasury for certificates. When gold is required for export, it is wanted in bars, while for domestic circulation the public prefers the Treasury certificates, which, with some modification of the statutes, might as well be issued against bars.

The balance of silver bullion purchased under the act of 1890, in the Treasury July 1, 1902, was 33,218,712 fine ounces. The amount of this bullion used in last year's coinage operations was 19,344,209 ounces, so that if the same amount is used in the current fiscal year the amount remaining on July 1, 1903, will be only 13,874,903 ounces, which is not enough to allow of a full year's coinage for all the mints in 1903–04. This bullion is all at Philadelphia, and, inasmuch as that mint can easily meet all requirements, it is not considered advisable to ship any bullion from there to New Orleans after July 1 next, or to plan for coinage operations at the latter place after that date.

The cost of operating the New Orleans mint last year was \$259,158.98. The estimates for Philadelphia and San Francisco are not increased, but it will be possible for those institutions to do the entire coinage for the year 1903–4 within the appropriations that are asked for them. On the other hand, if the work to be done is divided between the three mints, it will not be possible to make any considerable reduction in expenditures, as a complete organization of skilled employees must be

kept at each establishment.

If coinage operations are now discontinued at New Orleans, so much of the machinery there as is in good condition and of approved design can be transferred to the new Denver mint, and the estimates for equip

ment there correspondingly reduced.

If the New Orleans institution is abolished, the country will be left with three coinage mints—one on the Pacific coast, which will be the natural depository of the gold product of Alaska and the Pacific coast States and of the imports from Australia and the Orient; one in the interior, convenient to the gold producers of the Rocky Mountain region; and one near the eastern coast, convenient to receive the imports from that direction. This may be accepted as a satisfactory permanent arangement.

The work of coinage in view of the importance of absolute uniformity, the value of the material worked upon, and constant risk of loss,

and other considerations realized in practical operations, can be more economically and satisfactorily done in three mints than divided among a larger number. Coinage is monopolized by the Government, and the skilled workmen required are not picked up in the open market. They are trained in the mint service, and must not only be skilled in the mechanical operations, but trustworthy in character. It is impracticable to run the mints intermittently, dismissing the employees and engaging a new force when ready to start again. The workmen must be picked and trained, and given regular employment.

The character of the work favors its concentration in a few establishments, because a certain organization is required, no matter how small the institution may be. A division of labor and a system of checks must be maintained to guarantee certain accounting for the precious metals handled. An organization planned to do this properly can conduct operations large enough to keep itself busy for scarcely

more than is required to do a less amount of work.

La view of these facts and looking to the permanent establishment of the service on the basis of three mints, located at Philadelphia, Denver, and San Francisco, it is recommended that coinage operations be discontinued at New Orleans at the close of the current fiscal year, and that the institution there be hereafter conducted as an assay office.

#### SUBSIDIARY COINAGE.

The report of this Bureau one year ago directed attention to the necessity for legislation at an early day to authorize an increase in the country's stock of subsidiary coin. This need has become imperative, for unless Congress takes action to this end at its present session the Treasury will soon be unable to meet the demand for the fractional The monetary act of March 14, 1900, limits the total stock of these coins in the country at any one time to \$100,000,000, and that limit has been reached. Coinage has ceased, and the Treasury is wholly dependent upon the stock now on hand to supply the public needs. On October 1, 1901, the stock in the country was \$90,613,512, of which \$10,520,157 was in the Treasury. On October 1, 1902, the stock in the country was \$100,000,000, of which \$10,750,477 was in the Treas-The latter amount is no more than should be in the Treasury at all times, as it includes all denominations, and it is divided between the Treasury at Washington and the 9 subtreasuries.

No good reason appears for limiting the issue of subsidiary silver coins. They are not a legal tender and can not be forced into circulation in excess of the wants of trade. They are redeemable at any office of the Treasury and can not be kept in circulation in excess of the wants of trade. The outflow and return are entirely automatic. The public knows when it wants change and should be supplied without restriction. The coinage acts of the period before the civil war contained no limit upon the supply of these denominations. The act of 1853, which reduced the fractional pieces to token money, did not restrict their issue. The first appearance of the limit upon the fractional denominations was in the act of June 30, 1864, authorizing the issue \$50,000,000 in fractional paper currency. This naturally followed from the fact that all issues of paper money were in fixed amounts and the fractional currency was not redeemable in coin. In providing

for the resumption of specie payments and the substitution of fractional silver for fractional paper currency, Congress followed in part the language of the act authorizing the paper currency, and this restricted the total amount of coin and paper to \$50,000,000. The act of March 14, 1900, raised this limit to \$100,000,000, and it should now

be raised again or abolished entirely.

The stock of silver bullion purchased under the act of July 14, 1890, remaining in the Treasury at the close of the last fiscal year, was 33,218,712 fine ounces, and this amount has since been reduced by the required coinage of 1,500,000 silver dollars monthly. The act of March 14, 1900, authorized the use of this bullion for subsidiary coins, subject to the \$100,000,000 limit put upon the latter. I beg to repeat my recommendation of a year ago that the provision of law which requires the coinage of 1,500,000 of silver dollars per month be repealed and that the balance of this bullion be held for subsidiary coinage. All that remains will be needed for this purpose within two or three years and there is no advantage in pursuing the dollar coinage further. Nobody is advocating further purchases of silver for dollar coinage. The policy under which the present stock of bullion was acquired has been definitely abandoned and if the present stock were not on hand it would not now be purchased for that purpose.

#### MINOR COINAGE AT ALL MINTS.

Under the provisions of section 3528 of the Revised Statutes of the United States, the manufacture of all the minor coins is restricted to the mint at Philadelphia. At the time this provision was enacted the demand for such coins was confined principally to the Eastern, Middle, and Western States, east of the Missouri River, but in recent years there has been a very heavy increase, which has extended not only to the section named, but to the Southwestern States and the Pacific coast as well.

No reason is apparent why the other Government mints should not be utilized for the making of minor coin when it suits the convenience of the Treasury to so employ them, and it is recommended that such

authority be granted.

#### DEFICIENCIES IN THE BULLION ACCOUNTS OF THE MINTS.

In the reports of the Bureau of the Mint for the fiscal years 1898 and 1899 attention was invited to the deficiencies existing in the bullion accounts of the mints at San Francisco, Philadelphia, New Orleans,

and Carson, Nev., aggregating \$530,681.67.

The items going to make up this sum are not only carried in the accounts of the mints named, but also in the accounts of the Treasurer of the United States as unavailable assets. There is very little prospect of any part of these sums ever being recovered by the Government, and they should not be carried in the accounts year in and year out as a part of the assets of the Government, as they go to make up a total that is incorrect. The recommendation made in the fiscal reports for 1898 and 1899, that Congress be asked to relieve the accounts of the Treasurer of the United States and the respective mints from carrying the amount of these deficits in their accounts, is again renewed.

#### MINOR COINAGE METAL FUND.

Section 3528, Revised Statutes of the United States, provides that "for the purchase of metal for the minor coinage a sum not exceeding fifty thousand dollars in lawful money of the United States shall be transferred by the Secretary of the Treasury to the credit of the superintendent of the mint at Philadelphia, at which establishment only, until otherwise provided by law, such coinage shall be carried on."

The sum provided above, \$50,000, is now insufficient to carry the stock of materials required to enable the mint to promptly meet the greatly increased demand for minor coin. When this fund was created by the act of February 28, 1873, it was ample, the total minor coinage for the year being \$369,380; but last year the minor coinage amounted to \$2,009,568, and in the month of December alone to over \$300,000. The fund is inadequate to handle this volume of business, and no little inconvenience is experienced in consequence. The minor coinage metal fund should be increased to \$250,000 as a maximum, and it is respectfully recommended that Congress be again asked to take this action.

### DEPOSITS OF GOLD BULLION, FISCAL YEAR 1902.

The deposits of gold bullion at the mints and assay offices of the United States during the fiscal year ended June 30, 1902, exclusive of the redeposits, were of the value of \$132,580,829.88, against

\$153,101,482.38, reported the previous year.

Deposits of bullion may be made at a mint or assay office for conversion into bars for the convenience of the depositor. When delivered to him and disposed of by him they frequently find their way to another one of the Government institutions, and are there classified as redeposits. The same applies to transfers of bullion between the mints and assay offices.

The aggregate of all deposits, including redeposits, is the total of metal operated upon in the year by the mint service. This total of gold bullion received in the fiscal year ended June 30, 1902, was 9,068,708.137 standard ounces, of the value of \$168,720,141.15, against 10,789,428 standard ounces, of the value of \$200,733,345.89, reported

the previous year.

The deposits of domestic bullion amounted to 5,085,937.076 standard ounces, of which 1,230,004.009 standard ounces were in a crude condition direct from the miners operating in the various States; 906,813.297 standard ounces of refinery bars (less than 0.992 in fineness) and 2,949,119.770 standard ounces of refined bullion (0.992 in fineness and over) were bullion received from private refineries, chlorination and cyanide works.

#### UNCURRENT DOMESTIC GOLD COIN FOR RECOINAGE.

Uncurrent and mutilated domestic gold coin received for recoinage contained 80,004.087 standard ounces, of the coinage value in new coin of \$1,488,448.16. Of this amount 37,148.867 standard ounces were received over the counter and 42,855.220 standard ounces were received on transfers from the Treasury.

The face value and denominations of the coin referred to is shown in the following table:

UNCURRENT DOMESTIC GOLD COIN.

	Face		
Denomination.	Transferred from Treasury.	Purchased over counter.	Total.
Double eagles Eagles Half eagles Three-dollar pieces Quarter eagles Dollars	9,797.50	\$197,000.00 315,130.00 167,435.00 84.00 18,005.00 373.00	\$509, 980.00 476, 030.00 487, 200.00 111.00 27, 802.50 469.00

### DEPOSITS OF SILVER BULLION, FISCAL YEAR 1902.

Including silver contained in gold deposits, the deposits and purchases of silver during the fiscal year ended June 30, 1902, exclusive of redeposits, amounted to 6,063,186.38 standard ounces, against 12,449,234.35 standard ounces reported for the previous year.

Deposits of silver bullion may be made at a mint or assay office for conversion into bars, and these, when delivered to the depositor and disposed of by him, may find their way to another one of the Government institutions. These bars bearing the stamp of the mint service are then classified as redeposits.

The aggregate of all deposits and purchases, including redeposits, at all the mints and assay offices shows the total operations of the mint service. This aggregate of silver received in the fiscal year was 7,681,214.54 standard ounces.

The deposits of domestic bullion amounted to 1,583,399.41 standard ounces, of which 450,531.01 standard ounces were in a crude condition, direct from miners operating in various States; 84,587.38 standard ounces of refinery bars (less than 0.992 in fineness) and 1,583,399.41 standard ounces in refined bullion (fineness of 0.992 and over) being bullion received from private refineries, chlorination and cyanide works.

#### UNCURRENT DOMESTIC SILVER COIN FOR RECOINAGE.

Uncurrent and mutilated domestic coins were received for recoinage containing 2,527,878.32 standard ounces, of the coinage value in silver dollars of \$2,941,531.12, or the coinage value in new subsidiary coins of \$3,145,105.17.

Of this amount 2,525,019.26 standard ounces were received from the Treasury and 2,859.06 standard ounces were received over the counter at the various mints and assay offices.

Foreign silver coin containing 32,516.57 standard ounces were deposited as shown by the following table:

# DIRECTOR OF THE MINT.

### COINAGE OF THE UNITED STATES.

The following table exhibits the coinage of the year by denominations, pieces, and value:

Coinage Executed at the Mints of the United States during the Fiscal Year

Denomination.	Pieces.	Value.
Gold:		
Double eagles	1,852,088	\$37,041,760.00
Eagles	1, 473, 643 1, 978, 133	14, 736, 430. 00 9, 890, 665. 00
Half eagles Quarter eagles	1,976,133	311, 717. 50
Total	5, 428, 551	61, 980, 572. 50
Silver: Standard dollars		19, 402, 800, 00
Half dollars.		4, 415, 559. 00
Quarter dollars	15, 334, 379	3, 833, 594. 75
Dimes	24, 644, 157	2, 464, 415. 70
Total	68, 212, 454	30, 116, 369. 45
MINOT:		
Five-cent nickels		1,564,938.95
One-cent bronze	86, 479, 722	864, 797. 22
Total	117, 778, 501	2, 429, 736. 17
Total coinage	191, 419, 506	94, 526, 678. 12

All the standard silver dollars embraced in the above table were coined from the balance of the silver bullion on hand purchased under the act of July 14, 1890, and contained 16,674,281.26 standard ounces of silver, costing \$13,578,116.56. The seigniorage or profit on this coinage was \$5,824,683.44, which has been deposited in the Treasury of the United States.

Of the subsidiary coinage \$10,713,569.45 executed during the year \$1,948,681.20 were from bullion received from the Treasury for recoinage and \$5,996,000 from silver bullion purchased under the provision of section 3526 of the Revised Statutes and from the act of July 14, 1890, \$2,110,208.25 from Porto Rican coins redeemed and melted, and \$658,680 value of silver purchased, partings, charges, and fractions.

The loss on the recoinage of \$1,501,592.50 in worn and uncurrent gold coins was \$13,144.31, and the net loss on the recoinage of \$3,336,977.03 in worn and uncurrent silver coins was \$191,871.86, for which the Treasury of the United States was reimbursed from the appropriation for that purpose.

The number of pieces of domestic coin manufactured by the mints of the United States during the fiscal years 1901 and 1902 and the increase or decrease in the number of pieces coined in the last year

named are shown in the following table:

Coinage of the Mints of the United States, by Pieces, during the Fiscal Years 1901 and 1902, and the Increase or Decrease of the Same during the Latter Year.

	Fisca	year.	Increase.	Decrease.

The number of silver dollars coined from bullion purchased under the act of July 14, 1890, from August 13, 1890, to June 30, 1902, aggregated 158,952,600 pieces, containing 122,939,901.69 ounces of fine silver, costing \$114,545,740.49, giving a seigniorage of \$44,406,859.51. All profits on the coinage of silver dollars are deposited each month in

the Treasury of the United States.

The aggregate number of silver dollars coined from March 1, 1878, to June 30, 1902, under the provisions of the acts of February 28, 1878, July 14, 1890, and March 3, 1891, was 542,197,865, as shown by the following table:

Coinage of Silver Dollars.

Coinage under act of—				Amount.
Feb. 28, 1878 (Bland-Allison). From July 14, 1890, to repeal of the Sherman Act, Oct. 31, 1893		400.005		\$378, 166, 798
From July 14, 1899, to repeal of the Sherman Act, Oct. 31, 1893 From Nov. 1, 1893, to June 12, 1898 Coined under the war-revenue bill approved June 13, 1898		\$36,087 42,139 80,725	, 285 , 872 , 443	
Total under act of July 14, 1890	1 .			158, 952, 600 5, 078, 472
Total				542, 197, 865

There are exhibited in the appendix tables showing by denominations and values domestic coins manufactured during the fiscal year, and also tables of the total coinage by denominations, institutions, and years from the establishment of the Mint in 1792.

The following table exhibits the number of fine ounces and value of gold and silver coinage of the United States, by calendar years, since 1873:

Coinage of Gold and Silver at the Mints of the United States since 1873.

#### RECOINAGE OF STANDARD SILVER DOLLARS.

No mutilated or uncurrent standard silver dollars were transferred from the Treasury to the mints for recoinage during the fiscal year 1902. There were, however, purchased as bullion 1,786 mutilated silver dollars, which were for use in the manufacture of subsidiary silver coins.

The total number of mutilated and uncurrent silver dollars received and melted at the mints, and at the assay office at New York, from 1883 to the close of the fiscal year 1902, is shown in the following statement:

Fiscal year.	Amount.	Fiscal year.	Amount.
1883		1894. 1895.	
1885 :	1,850	1896. 1897.	. 2,03
1887 1888	8, 292	1898. 1899.	.  1,36
1889	31,042	1900. 1901.	. 1,34
1891	10,800	1902.	
1893		Total	177,70

### RECOINAGE OF UNCURRENT COIN.

The condition of the current coins has been materially improved by the extensive recoinage of recent years.

The following table shows the face value of abraded subsidiary coin transferred for recoinage, the amount of new coin made therefrom, and the loss and percentage of loss for each fiscal year from 1891 to 1902:

RESULTS OF RECOINAGE OF UNCURRENT SUBSIDIARY SILVER COIN.

Year.	Face value.	New coin.	Loss.
891 892.	\$910, 046. 69 7, 118, 602. 78	\$861,680.41 6,937,886.02	\$48, 366. 2 180, 716. 7

Total	62, 139, 085. 89	, 59, 316, 852. 76	2, 822, 233. 1

#### PERCENTAGE OF ABRASION.

For the purpose of obtaining approximate figures as to the rate of loss on the subsidiary coins by abrasion a record was kept last year at the Philadelphia and New Orleans mints of the weight of all uncurrent subsidiary coins received at those institutions, with the year of their coinage.

The tables given below show the number of these coins received, year of coinage, amount of loss by abrasion, and percentage to standard weight.

# The total of these coins received at Philadelphia was as follows:

# UNCURRENT SUBSIDIARY COIN RECEIVED AT PHILADELPHIA MINT FOR RECOINAGE.

			Weights.	<u> </u>

1834	<b>\$1</b> 6.45	Ounces. 13. 22	Ounces.	Ounces. 1.02	Per cent. 7.715	Ounces. 803.75

### PERCENTAGE OF ABRASION OF SUBSIDIARY SILVER COINS, IN TEN-YEAR PERIODS.

	Reported	l by Philade	elphia.	Reported by New Orleans.			
Period.	Half dollars.	Quarter dollars.	Dimes.	Half dollars.	Quarter dollars.	Dimes.	
1830–1839 1840–1849 1850–1859 1860–1869 1870–1879 1880–1889 1890–1899	5. 14 4. 15	Per cent. 8. 42 11. 06 8. 00 5. 37 5. 66 4. 36 2. 54	Per cent. 13.08 12.82 10.19 7.89 8.86 6.81 3.17	Per cent. 2. 97 4. 45 5. 98 5. 11 4. 43 3. 56 1. 92	Per cent. 11. 01 7. 33 8. 40 7. 88 7. 25 5. 68 2. 89	Per cent. 15. 9 14. 1 12. 0 11. 5 10. 5 7. 9 4. 5	

The investigation makes clear that the percentage of loss is greater on the smaller coins, but the comparatively small number of coins of dates earlier than 1850 that were examined makes the calculation for the earlier years of little value.

#### COUNTERFEIT COINAGE.

The difference between the bullion and face value of the silver and minor coins offers a constant temptation to counterfeiters, and only the activity of the Secret Service prevents their operations from assuming important proportions. The necessity for secrecy is the chief obstacle they have to encounter, for it prevents the use of an extensive plant or the best equipment, but the persistency of their efforts is shown by the number of counterfeiters detected each year and the prosecutions on this account.

The total number of spurious pieces detected by the Treasury during

the year at all its offices was as follows:

One-cent pieces	96, 995
Five-cent pieces	2,596
Ten-cent pieces.	4,856
Twenty-five-cent pieces.	5,125
Fifty-cent pieces	3,102
One-dollar pieces.	1,803
Gold coins	

This was a considerably less amount than was detected in the pre-

ceding year.

The following table shows the amount of silver coin received during each month of the year at the New York subtreasury on account of redemption and exchange and the amount of counterfeits detected in it:

Counterfeit Silver Coin Detected at the New York Subtreasury during the Fiscal Year 1901-2.

#### BARS MANUFACTURED.

During the fiscal year 1902 there were manufactured by the mints and assay offices of the United States gold and silver bars of the value of \$92,167,290.28, as follows:

GOLD AND SILVER BARS MANUFACTURED DURING THE FISCAL YEAR 1902.

Description.		Standard ounces.	Value.
GoldSilver		4, 733, 508. 301 3, 525, 185. 63	\$88, 065, 260. 61 4, 102, 029. 67
Total	· · · · · · · · · · · · · · · · · · ·		92, 167, 290. 28

Tables will be found in the appendix showing in detail the character of bars manufactured at each institution during the year.

#### WORK OF GOVERNMENT REFINERIES.

There were received and operated upon by the refineries connected with the mints at Philadelphia, San Francisco, and New Orleans, and the assay office at New York during the fiscal year 1902 gold bullion containing 2,331,818.986 standard ounces and silver bullion containing 5,031,275.47 standard ounces, of the total coining value of \$49,237,-253.86, as shown by the following table:

REFINERY OPERATIONS FISCAL YEAR 1902.

	Ge	old.	Silv		
Institution.	Standard ounces.	Value.	Standard ounces.	Value.	Total value.

Stand. ozs.           295,711.06         236,082.30         2,829.16           941,204.01         495,901.56         15,351.74	Stand. ozs.         Stand. ozs.         Stand. ozs.         Stand. ozs.         Stand. ozs.         Stand. ozs.         Stand. ozs.           941, 204. 01         495, 901. 56         15, 351. 74         1, 138, 727. 67

The figures given above represent the amount of silver received by the melter and refiner and charged to the refinery, but as it was used over and over, it does not represent the whole amount of silver used or sent to the refinery.

#### PURCHASE OF SILVER.

The repeal on November 1, 1893, of the purchasing clause of the act of July 14, 1890, limited the purchase of silver bullion to that contained in deposits of gold bullion fractions of silver deposited for return in fine bars, the amount retained in payment for charges on silver deposits, surplus bullion returned by the operative officers at the close of the fiscal year, and uncurrent domestic silver coin.

The following table shows the amount and cost of silver bullion purchased for the subsidiary silver coinage during the fiscal year ended

June 30, 1902:

SILVER PURCHASES FOR SUBSIDIARY COINAGE DURING THE FISCAL YEAR 1902.

MARKET PRICE OF SILVER DURING THE FISCAL YEAR ENDED JUNE 30, 1902.

For the twelve months ending June 30, 1902, the price for silver, 0.925 fine (British standard), ranged from  $23\frac{5}{16}$  d. to  $27\frac{1}{4}$  d., the average price being 25.606 d. At the lowest price the equivalent for an ounce, fine, in United States money, was \$0.51088; the highest, \$0.59735, and at

the average price, \$0.56125. At the lowest price the bullion value of the standard silver dollar was \$0.39513; at the highest price, \$0.46201,

and at the average price, \$0.43413.

During the year ending June 30, 1902, the silver market was very There was a reduced demand for India and China and but light demand for European coinage purposes.

#### SEIGNIORAGE ON SILVER COINAGE.

The balance of profits on the coinage of silver on hand in the mints

June 30, 1901, was \$330,603.76.

The total seigniorage on the coinage of silver during the fiscal year 1902 was \$9,094,485.86, of which \$5,824,683.44 was from the coinage of standard silver dollars; \$2,442,056.70 from the coinage of subsidiary silver coin, and \$827,745.72 from the recoinage of Porto Rican silver coins into United States subsidiary coins.

coins into United States subsidiary coins.

Including the balance on hand at the mints July 1, 1878, the net seigniorage on silver coined, from that date to June 30, 1902, aggre-

gated \$121,756,519.84.

The seigniorage on standard silver dollars, under the act of July 14, 1890, from August 13, 1890 (the date the act went into effect), to June 30, 1902, was \$44,406,859.51.

The amount of seigniorage deposited in the Treasury during the fiscal year was \$9,328,265.64, leaving a balance on hand at the mints on

June 30, 1902, of \$96,823.98.

A table showing the seigniorage on silver coinage at each mint and the disposition of the same will be found in the appendix.

#### APPROPRIATIONS AND EXPENDITURES.

The act approved March 3, 1901, making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June 30, 1902, contained specific appropriations for the support of the mints and assay offices of the United States, amounting in the aggregate to \$1,183,450.

Additional appropriations were secured to supply deficiencies by act

approved February 14, 1902, as follows:

Wages of workmen, mint at San Francisco. \$2,000 Contingent expenses, assay office at Seattle. 2,000

Act approved June 6, 1900, contained the following specific appropriations:

New machinery and appliances, mint at Philadelphia \$440, 185 New machinery and appliances, mint at Denver 25,000

The expenditures from these appropriations to June 30, 1902, were as follows:

 Mint at Philadelphia
 \$349, 720. 84

 Mint at Denver
 1, 790. 73

In addition to the expenditures from the specific appropriations, there were expended during the year the following amounts from the general appropriation, contained in act of July 14, 1890:

Storage of silver bullion (all expended at mint at Philadelphia) ....... \$31,059.05 Coinage of silver bullion:

 Mint at Philadelphia
 \$24, 194. 54

 Mint at San Francisco
 5, 127. 79

 Mint at New Orleans
 183, 224. 50

- 212, 546. 83

Appropriations and Expenditures of the Office of the Director of the Mint for the Fiscal Year 1902.

The act approved March 3, 1901, making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June 30, 1902, contained appropriations for the office of the Director of the Mint aggregating \$36,960.

The expenditures from these appropriations comprised the amounts paid on account of salaries, supervising the annual settlements at the mints and assay offices, expenses incurred in collecting and compiling the statistics of the production of gold and silver in the United States, the amount paid for incidental expenses and the purchase of and subscription to books and pamphlets, and contingent expenses incurred in support of the laboratory of the Bureau.

These expenditures aggregated \$34,341.82, leaving an unexpended

balance of \$2,618.18 to the credit of the several appropriations.

In addition to the above appropriations for the support of the office of the Director of the Mint the provisions of the same act contained a specific appropriation of \$100,000 for "Freight on bullion and coin between mints and assay offices."

The expenditures from this appropriation for the fiscal year aggregated \$66,964.01, leaving an unexpended balance of \$33,035.99 to the

credit of said appropriation.

#### EARNINGS AND EXPENDITURES OF THE MINTS AND ASSAY OFFICES.

The amount received for charges at the several institutions for parting and refining bullion was \$187,099.66; for copper alloy, \$10,920.61;

and for assaying and stamping, \$45,490.16.

The seigniorage on the coinage of standard silver dollars was \$5,824,683.44; on subsidiary silver coinage, \$2,442,056.70; and on the recoinage of Porto Rican silver coins into United States subsidiary coins, \$827,745.72; a total seigniorage on silver coinage of \$9,094,485.86.

The seigniorage on minor coinage was \$1,912,951.29; on recoinage of uncurrent minor coins, \$6,415.40; and on the recoinage of Porto Rican bronze coins into United States bronze coins, \$3.56; a total seigniorage on minor coinage of \$1,919,370.25.

The profits from the sale of medals and proof coins were \$1,710.88, and the charges received for mounting and expressage on the same

were \$347.93.

Deposit melting-room grains and sweeps, valued at \$14,645.67, and surplus bullion, valued at \$56,101.98, were recovered by the officers of the different institutions.

The gain on bullion shipped by the minor assay offices to the mints

for coinage was \$10,803.71.

The proceeds from the sale of old material were \$10,462.83; from special assays of bullion and ore, \$3,467; and from the sale of byproducts, \$16,777.55.

The receipts for manufacturing appliances for mints were \$117.75. The total amount of earnings and gains of the mints and assay

offices during the fiscal year 1902 was \$11,371,802.66.

The expenditures of the mint service were: For salaries of officers and clerks, \$202,394.89; for wages, contingent expenses, parting and refining expenses, wastage and loss on sale of sweeps, \$1,396,170.50.

The expense of distributing minor coins was \$40,222.01, and the

amount paid for charges and mounting medals was \$347.93.

The loss on bullion shipped the mint for coinage was \$94.49, while the loss on the recoinage of minor coins was \$10,959.37, a total expenditure of \$1,650,189.19.

The net earnings for the fiscal year were \$9,721,613.47.

### CLASSIFIED STATEMENT OF EXPENDITURES.

The expenditures of the mints and assay offices and of the refineries connected therewith for supplies and on account of salaries and wages of workmen during the fiscal year ended June 30, 1902, are exhibited in the following table:

### IMPORTS AND EXPORTS OF THE PRECIOUS METALS.

GOLD IMPORTS.—The total value of gold imported into the United States during the fiscal year 1902, as shown by the customs service

and reported by the Bureau of Statistics, was \$52,021,254.

Foreign gold bullion of the value of \$10,496,745 was entered, of which amount \$5,335,662 came from Mexico, \$2,647,812 from Canada, \$243,358 from Great Britain, \$513,902 from Australasia, and the 1emainder from various countries.

Foreign gold coin of the value of \$12,838,592 was imported, of which \$9,976,365 came from Australasia, \$1,353,700 from Japan, \$593,850 from Cuba, \$434,250 from France, \$337,317 from Canada,

and the remainder from various countries.

The value of gold contained in ore and base bullion imported was \$24,815,597, of which amount \$21,215,943 came from Canada, \$3,118,712 from Mexico, \$4,100 from Japan, and the remainder from Central and South America.

There were returned to the United States domestic gold coins of the value of \$3,870,320, of which \$1,406,591 came from Canada, \$974,747 from Germany, \$326,853 from Mexico, \$170,000 from Cuba, and the remainder from various countries:

The total imports were as follows.

GOLD EXPORTS.—The total value of gold exported from the United States during the fiscal year was \$48,568,950, which includes domestic and foreign gold.

Domestic gold bullion, composed almost entirely of bars manufactured by the United States Government, valued at \$36,333,779, was exported, all of which went to France, Germany, and Austria-Hungary.

The exports of foreign gold bullion amounted to \$266,215, of which

\$241,715 went to England and \$24,500 to British Columbia.

The exports of domestic gold coin were valued at \$9,370,841, of which \$4,707,780 went to Canada, \$2,400,000 to Germany, \$285,000 to England, \$521,850 to West Indies, \$1,000,000 to Uruguay, \$322,464 to Venezuela, \$52,300 to Mexico, and the remainder to various countries.

The exports of foreign coin amounted to \$758,730, of which \$401,675 went to Cuba, \$228,484 to France, \$102,296 to Bermuda, and the

remainder to various countries.

Gold contained in domestic ores exported was valued at \$186,587, of which \$125,574 went to England, \$36,113 to British Columbia, and \$24,900 to Germany.

Gold contained in foreign ores exported was valued at \$783,567, of

which \$782,317 went to British Columbia and \$250 to England.

## The gold exports were as follows:

SILVER IMPORTS.—The total value of silver imports during the fiscal year was \$28,232,254.

During the year there was imported 12,074,764 ounces of foreign bullion, of the commercial value of \$6,931,678, of which \$6,380,606 came from Mexico, \$479,650 from Central American States, \$50,752 from South America, and the remainder from other countries.

Foreign silver coin of the value of \$3,731,544 was imported, of which \$3,286,370 came from Mexico, \$319,653 from British Honduras, \$82,063 from Central America, \$8,588 from Japan, \$4,029 from China, and the remainder from other countries.

The value of silver contained in ore and base bullion imported was \$17,050,635, of which \$13,793,291 came from Mexico, \$2,221,732 from Canada, \$1,007,294 from South America, and the remainder from other countries.

United States silver coin of the value of \$518,397 was returned to this country, of which \$153,501 came from Philippine Islands, \$217,517 from Canada, \$119,172 from West Indies, \$12,320 from Japan, and the balance from other countries.

The total silver imports were as follows:

### SILVER IMPORTS FISCAL YEAR 1902.

	Items.	Value.
Foreign bullion		\$6,931,673 3,731,54
Silver contained in ore		17, 050, 63
Total foreign		27,713,85' 518,39'
Total imports		28, 232, 25

SILVER EXPORTS.—The total value of silver exported during the fiscal year was \$49,732,390, of which \$45,971,249 was domestic and \$3,761,141 was foreign.

During the year there was exported 81,339,084 ounces of domestic bullion of the commercial value of \$45,685,325, of which \$36,848,812 went to England, \$5,303,176 to Hongkong, \$1,820,540 to Mexico, \$1,040,926 to France, and the remainder to other countries.

The exports of domestic coin amounted to \$209,291, of which \$168,545 went to the West Indies, \$39,746 to Canada, and \$1,000 to England.

Silver contained in domestic ore and base bullion exported amounted to \$76,633, of which \$72,515 went to England, \$2,168 to British Columbia, and \$1,950 to Germany.

The exports of foreign silver was \$3,761,141. Of this amount \$3,759,805 consisted of foreign coin, of which \$3,026,793 went to Hongkong, \$243,650 to England, \$203,558 to Mexico, \$176,814 to Canada, and the remainder to various countries.

Foreign bullion was exported to the value of \$625 and foreign ores to the value of \$711, both of which went to England.

 $[\]alpha$  Of this amount \$150,000 were in 1-dollar pieces.

Note.—The number of standard silver dollars coined to June 30, 1902, was 542,197,865, which, added to the Hawaiian coinage of 500,000, equals 542,697,865. Since July 1, 1898, the number of standard silver dollars exported has been 2,345,000 (deducting number returned from Philippine Islands June, 1902, 150,000), and since 1883 the number melted has been 177,704 (Report of the Director of the Mint, 1902, p. 291), a total disposition of 2,522,704, leaving in the United States June 30, 1902, 540,175,161 standard silver dollars and \$97,183,762 in subsidiary silver coins.

In the above table the amount of coin melted for recoinage is taken at its face value, and the sources from which these amounts were obtained will be found in a table in the appendix of this report.

In addition to the domestic coin in the country, there was, on June 30, 1902, in the mints and assay offices, bullion belonging to the Government valued as follows:

### DIRECTOR OF THE MINT.

### Bullion in Mints and Assay Offices, June 30 1902.

Metal.	Value.
GoldSilver (cost)	\$124,083,823 33,160,646
Total	157, 244, 469

The stock of silver bullion in the vaults of the Mercantile Safe Deposit Company, in New York City, at the close of business June 30, 1902, was 38,525 ounces of fine silver, of the market value of \$20,536.

The total metallic stock, coin and bullion, in the United States on June 30, 1902, was as follows:

### METALLIC STOCK JUNE 30, 1902.

Coin and bullion.	Value.
Gold	\$1, 192, 395, 607 670, 540, 105
Total	1, 862, 935, 712

### The total metallic stock June 30, 1901, was as follows:

### METALLIC STOCK OF THE UNITED STATES JUNE 30, 1901.

Coin and bullion.	Value.
Gold	\$1,124,652,818 661,205,403
Total	1, 785, 858, 221

The increase in the stock of gold during the fiscal year was \$67,742,-789, and silver, \$9,334,702, a total of \$77,077,491.

### OWNERSHIP OF THE METALLIC STOCK.

The ownership of the metallic stock of the United States, comprising gold and silver bullion and coin, on June 30, 1902, was as follows:

### CASH HOLDINGS OF BANKS OTHER THAN NATIONAL.

In 1891 this Bureau made an effort to ascertain the amount of each kind of money held by the financial institutions other than national banks. The particular purpose in view was to learn the amount of gold coin in such institutions, but they were asked to report their holdings of each kind of money, in order that the relative proportion of gold to their other cash holdings might be learned. The circular of inquiry was sent to 10,418 addresses, comprising the list of State and private banks, savings banks, and loan and trust companies, as given in a standard directory. Replies were received from 8,810 of the concerns addressed.

A partial publication of the results of this inquiry was given in last year's annual report, but unfortunately some very serious errors crept into it and destroyed the value of the table. The returns now have been carefully abstracted, and as given below constitute the most complete analysis of the cash holdings of these banking institutions that has been made. There is no independent classification of trust companies, but their reports are included with State and private banks.

Amount and Percentage of Different Kinds of Money in Sight June 30, 1901.

Location.	Gold coin.	Legal tenders.	Gold certificates.	Silver certificates.	National- bank notes.
In national banks, July 15 In clearing houses	\$108, 871, 024 102, 959, 391	\$164, 929, 624	\$108, 490, 040	\$51, 259, 021	\$30,932,230
In State, savings, and private banks In Treasury	55, 059, 655 885, 642, 560	28, 045, 429 16, 635, 610	34, 672, 144 41, 981, 330	17, 985, 477 5, 370, 444	25, 188, 976 8, 631, 386
Total in sight	652; 532, 630	209, 610, 663	185, 143, 514	74, 614, 942	64, 752, 592
Stock in country (estimated)	1,015,433,325	346, 681, 016	289, 017, 689	435, 014, 000	353, 742, 187
Percentage in sight	64	60	64	17	18

The report of the Comptroller of the Currency for 1901 gives the cash holdings (unclassified) of the State, savings, and private banks and trust companies, at the nearest date to June 30 obtainable, as follows:

Banks.	Number report- ing.	Cash on hand.
State banks Private banks Savings banks Loan and trust companies	4, 983 917 1, 007 334	\$174, 855, 265 7, 350, 947 33, 129, 536 24, 810, 203
Total	7, 241	240, 145, 951

The number of banks reporting is larger in the returns to the Bureau of the Mint, but the cash on hand is greater in the returns to the Comptroller of the Currency. This is because the Bureau of the Mint has a larger number of returns from private bankers and trust companies carrying little cash, while the Comptroller has a larger number from State banks. The State banks reporting to this office numbered 4,360, holding \$139,635,246, while the State banks reporting to the Comptroller numbered 4,983, holding \$174,855,265. The percentage of gold to total cash holdings in the classified returns to the Bureau of the Mint was for State banks 36 per cent, for savings banks 38, and for private banks 33. If 36 per cent be adopted as the probable proportion of gold to all cash in banks reporting to the Comptroller, the amount of gold in those banks would be \$86,452,542.

### DENOMINATIONS OF GOLD COIN IN STOCK.

The Comptroller of the Currency has made an effort to ascertain the amount of gold coin of each of the several denominations held by the banks of the country. An inquiry addressed to the full list of banks elicited replies from 10,956, and from 6 clearing houses, as follows:

TOTAL AMOUNT OF GOLD COIN OF THE DIFFERENT DENOMINATIONS HELD BY BANKS OF THE UNITED STATES ON SEPTEMBER 1, 1902.

#### STOCK OF MONEY IN THE PRINCIPAL COUNTRIES OF THE WORLD IN 1873.

Inquiries have frequently been received within the last few years asking for information as to the stock of money in the principal countries of the world at different periods, and especially as to 1873. To answer such inquiries, as far as practicable, the following table, showing the stock of money in 1873 in the countries named therein, has been compiled from the most reliable data obtainable:

Approximate Stocks of Money in the Aggregate, and Per Capita, in the Principal Countries of the World, 1873.

e Except Bolivia and Colombia. f Includes Aden, Perim, Ceylon, Hongkong, Labuan, and Straits Settlements. g Report of head commissioner of paper currency.

Upon a comparison of the foregoing table with the table of like import published in the report of the Director of the Mint for the fiscal year ended June 30, 1901, it will be seen that there is a recorded increase in the world's stock of gold of \$267,700,000. The largest increase shown in the world's stock is in the figures for France, due to a revision of the estimate made by M. De Foville, director of the Paris mint, in 1898—viz, \$810,000,000—by adding the net imports of gold into France since that time, after making due allowance for the amount consumed in the arts, making an increase of \$92,900,000 in the total stock of gold held by France at the end of the year 1901.

The next greatest increase was in the United States, of \$63,800,000. Austria-Hungary also shows an increase of \$27,600,000, Germany an increase of \$41,700,000, and Great Britain \$17,000,000, while the greatest loss in the gold stock of any country during the calendar year

1901 was in Russia, \$9,700,000.

From a number of countries no estimates or official figures were received, but in preparing the foregoing table the amount of gold in the banks, as reported in the most reliable financial journals, was accepted and the figures adopted as the stock of gold in such countries, no allowance being made for the amount in circulation.

The increase in the stock of uncovered paper money in the different countries of the world during the year 1901 aggregated \$41,800,000, while the decrease amounted to \$154,100,000, making a net decrease of

\$112,300,000.

The greatest increase in the uncovered paper money in any country of the world, as shown by the foregoing table, has been in Canada, which, since the last official report (1898) received from that country,

shows an increase of \$16,400,000.

The increase in the United States during the year was \$9,400,000; Roumania, \$4,200,000; Central American States, \$4,100,000. The greatest decrease in the uncovered paper in any country was in France, \$64,700,000; Germany, \$24,000,000; Austria-Hungary, \$28,200,000; South American States, \$15,600,000; Japan, \$9,300,000.

#### GOLD AND SILVER USED IN THE INDUSTRIAL ARTS.

The Bureau of the Mint makes an annual estimate of the amount of gold and silver used in the arts and manufactures within the United States. The usual method of reaching this estimate has been by taking The usual method of reaching this estimate has been by taking the value of bars supplied to manufacturers by the several offices of the mint service and adding to that the value of bars sold by private refineries, with an additional estimate of the amount of coin melted. The mint service, for the accommodation of the public, prepares fine gold and silver bars of convenient weights for industrial use, and is the largest purveyor to the trade. The private refiners have with uniform courtesy supplied the Bureau with the figures of their sales. For the last three years the Bureau has conducted another inquiry, designed as a check upon its regular method, and directed to all manufacturers and artisans who use gold and silver. A circular of inquiry was sent last year to 25,266 addresses, and 20,956 replies were received. The results of this inquiry and of the two previously made were to confirm the estimates made by the regular method as to the use of bars, but to reveal a larger consumption of gold coin than had been allowed for.

Beginning with 1893 the estimate of the consumption of United States gold coin was reduced to \$1,500,000 per annum. Three successive inquiries have now shown an actual reported consumption of more than \$3,000,000 per year, and the Bureau, on the strength of this investigation, will return to its former estimate that the stock of gold coin is depleted in the sum of \$3,500,000 annually by consumption in the manufactures. No change has yet been made in the figures for the coin stock for preceding years on this account, but this will be done next year in connection with other corrections that are to be made as the result of a general and extended investigation of the whole subject of the country's stock of gold.

The result of the inquiry into the consumption of coin in the manu-

factures last year was as follows:

United States Gold and Silver Coin used in the Industrial Arts during the Calendar Year ended December 31, 1901.

Classification.	Circulars sent out.	Replies received.	United States gold coin used.	United States silver coin used.
Jewelers, manufacturing and repairing.  Dental supply houses and materials Opticians Watchmakers and cases Silversmiths and silverware Gold and silver leaf beaters. Manufacturers of gold pens. Dental and surgical instruments. Electrographers. Regalia and emblems. Photographic supplies Manufacturing chemists Repairers for the trade. Materials for the trade.	262 624 165 181 97 76 23 171 83 30 13 61	19, 446 231 547 142 140 88 58 21 145 28 25 13 49	\$2,184,716 40,621 662,115 4,685 22,877 3,000 20,745 7,520 2,627 5,705 190,480 1,639	12 25 112,560 27
Total	. 25, 266	20,956	3, 146, 830	159, 972

The quantity and value of the bars issued by the United States mints at Philadelphia and New Orleans and the assay office at New York during the calendar year 1901 is given in the following table:

STATEMENT OF GOLD AND SILVER BARS ISSUED FOR USE IN THE INDUSTRIAL ARTS BY THE GOVERNMENT INSTITUTIONS DURING THE CALENDAR YEAR ENDED DECEMBER 31, 1901.

25.1	Go	ld.	Silver:		
Material used.	Fine ounces.	Value.	Fine ounces.	Coining value.	
Domestic bullion Old jewelry, etc Foreign material United States coin	110, 592, 886 33, 167, 926	\$15, 175, 834. 20 2, 286, 157. 89 685, 641. 86 16, 965. 29	1, 301, 270. 62 521, 586. 53 1, 037, 599. 20	\$1,682,450.91 674,374.50 1,341,542.39	
Total	878, 712. 487	18, 164, 599. 24	2,860,456.35	3, 698, 367. 80	

The United States coin reported by the Government institutions in the above tables as having been used in the manufacture of bars for industrial use is either abraded or mutilated. The following table shows the percentage of material used in the manufacture of bars at each of the Government institutions:

#### UNITED STATES BARS.

25.1.2	Perce	ntage.
Material used.	Gold.	Silver.
Domestic bullion	83. 5 12. 6	45. 5 18. 2
Old jewelry, etc Foreign material United States coin	3.8	36.3
Total	100	100

The percentage in the above table shows that the total domestic gold bullion used for industrial purposes was 83.5 per cent of the entire amount used: Old jewelry, 12.6 per cent; foreign material, 3.8 per cent; and United States coin only  $\frac{1}{10}$  of 1 per cent.

In the silver consumption domestic bullion was 45.5 per cent; old jewelry 18.2 per cent, and foreign material 36.3 per cent. There was no domestic silver coin used by the Government institutions.

The quantity and value of the bars manufactured by private refineries in the United States and sold to manufacturers and jewelers during the calendar year 1901, was as follows:

Bars for Industrial Use Furnished Goldsmiths and Others by Private Refineries during the Calendar Year 1901.

	Gol	đ.	Silver.		
Material used.	Fine ounces.	Value.	Fine ounces.	Coining value.	
Domestic bullion, exclusive of United States bars. United States coin Foreign material. Old plate, jewelry, and other old material.	155, 381 18, 372	\$1, 120, 854 3, 212, 015 379, 774 1, 100, 468	10, 508, 147 391, 628 600 811 686, 936	\$13, 586, 291 506, 348 776 1, 048 888, 160	
Total	281, 209	5, 813, 111	11, 588, 122	14, 982, 623	

The number of firms addressed was 109. Fifty-two replied that they had manufactured bars and 38 reported that they had manufactured no bars during the year.

Of the bars furnished by private refineries for industrial use, \$3,212,015 in gold and \$506,348 (coining value) in silver were "United States bars"—that is, bars bearing the stamp of Government institutions—and in order to avoid duplication these amounts are deducted from the totals.

The quantity and value of bars sold manufacturers and jewelers by the private refineries, after eliminating the "United States bars," was as follows:

Bars for Industrial Use Furnished Goldsmiths and Others by Private Refineries during the Calendar Year 1901,

•	Gol	d.	Silver.		
Material used.	Fine ounces.	Value.	Fine ounces.	Coining value.	
Domestic bullion United States coin Foreign material	54, 221 18, 372	\$1,120,854 379,774	10,508,447 600 811	\$13,586,291 776 1,048	
Old plate, jewelry, and other old material	53, 235	1,100,468	686, 936	888, 160	
Total	125, 828	2,601,096	11, 196, 494	14, 476, 275	

The following table shows the percentage of the different materials used by the private refineries in the manufacture of bars:

Material used.	Perc	entage.
Material used.	Gold.	Silver.
Domestic bullion Old material United States coin Foreign material	14.6	6.1
Total		100

The above figures show that the domestic bullion, both gold and silver, of the same year's production, has the largest percentage of material used. In the case of gold the percentage of old material used almost equaled that of domestic bullion.

The total consumption of the precious metals, obtained by adding the amounts sold by Government institutions to that of the private refineries during the year, was as follows:

GOLD AND SILVER BARS FURNISHED FOR USE IN MANUFACTURES AND ARTS DURING THE CALENDAR YEAR 1901.

Material used.	Gold.	Silver (coining value).	Total.
Domestic bullion United States coin Foreign material Old material	685, 642	\$15, 268, 742 776 1, 342, 590 1, 562, 535	\$31, 565, 430 397, 515 2, 028, 232 4, 949, 161
Total	20, 765, 695	18, 174, 643	38, 940, 338

Percentage Rates of Gold and Silver Bars Furnished for Use in Manufactures and Arts during the Calendar Year 1901.

Material used.	Gold.	Silver.
Domestic bullion	78.5	Per ct. 84 7.4 8.6

The above percentage table shows that 78.5 per cent of all the gold and 84 per cent of all the silver used in the United States for industrial purposes was from domestic bullion.

To obtain the total quantity of gold and silver used in the industrial arts a further allowance must be made for United States coin

melted by goldsmiths and jewelers.

Estimating for the present, as in former years, the total amount of gold coin used in the arts at \$1,500,000 and silver coin at \$100,000, the industrial consumption of the precious metals in the United States during the calendar year 1901 would be as follows:

INDUSTRIAL CONSUMPTION OF THE PRECIOUS METALS DURING THE CALENDAR YEAR 1901.

	, Material used.	Gold.	Silver (coining value).	Total.
Domestic bullion United States coin . Foreign material Old material		 \$16, 296, 688 1, 500, 000 685, 642 3, 386, 626	\$15, 268, 742 100, 000 1, 342, 590 1, 562, 535	\$31, 565, 430 1, 600, 000 2, 028, 232 4, 949, 161
Total		21, 868, 956	18, 273, 867	40, 142, 823

The following table exhibits the aggregate value of all gold bars furnished by the United States mint at Philadelphia and assay office at New York to the trade, in exchange for gold coin, under the provisions of the act of May 26, 1882:

GOLD BARS EXCHANGED FOR GOLD COIN AT THE MINT AT PHILADELPHIA AND ASSAY OFFICE AT NEW YORK DURING THE CALENDAR YEAR 1901.

	Months.	. ·	Philadelphia.	New York.	Total.

PRODUCT OF GOLD AND SILVER IN THE UNITED STATES.

The detailed statistics of the product of gold and silver in the United States for the calendar year 1901 were presented in a special report to the Secretary of the Treasury.

The distribution of the product among producing States and Territories was as follows:

APPROXIMATE DISTRIBUTION BY PRODUCING STATES AND TERRITORIES OF THE PRODUCT OF GOLD AND SILVER IN THE UNITED STATES FOR THE CALENDAR YEAR 1901.

[Estimated by the Director of the Mint.]

	Gold.			Total value

The annual production of gold and silver from the mines of the

United States since 1860 is shown in the following table:

(The commercial value of the silver product is reckoned at the average yearly market price of silver and its coining value in United States dollars.)

PRODUCT OF GOLD AND SILVER FROM MINES IN THE UNITED STATES SINCE 1860.

[The estimate for 1860–1872 is by R. W. Raymond, commissioner, and since 1872 by the Bureau of the Mint.]

Total	59, 717, 554	1, 234, 464, 700	1, 274, 334, 000	1, 148, 900, 400	1,647,567,800	
Grand total	88, 730, 462	1,834,214,700	1, 392, 399, 232	1, 306, 266, 400	1,800,217,800	

Tables showing the product of gold and silver from mines of the United States since 1792 will be found in the appendix.

WORLD'S PRODUCTION, 1899, 1900, AND 1901.

The production of gold and silver in the world for the calendar years 1899, 1900, and 1901 was as follows:

PRODUCT OF GOLD AND SILVER IN THE WORLD.

Calendar years.	Gold.	Silver (coin- ing value).
1899	306, 724, 100	217, 648, 200
1900	254, 576, 300	224, 441, 200
1901	263, 374, 700	226, 260, 700

Tables compiled from information furnished by foreign governments through our diplomatic representatives and revised from the latest data, exhibiting the weight and value of the gold and silver product of the principal countries of the world for the calendar years 1899, 1900, and 1901, will be found in the appendix.

For the sake of uniformity the value of silver has, as heretofore, been calculated at its coinage rate, viz, \$1.2929+ per fine ounce.

The following table shows, by calendar years, the production and value of gold and silver in the world since 1860:

# PRODUCT OF GOLD AND SILVER IN THE WORLD SINCE 1860.

[The annual production of 1860 to 1872 is obtained from 5-year period estimates, compiled by Dr. Adolph Soetbeer. Since 1872 the estimates are those of the Bureau of the Mint.]

world's coinage, 1899, 1900, and 1901.

In the appendix will be found a table, revised from the latest information received, exhibiting the coinages of the various countries of the world during the calendar years 1899, 1900, and 1901. The following is a summary of the same:

## COINAGE OF NATIONS.

Calendar years.	Gold.	Silver.
1899	\$466, 110, 614	\$166, 226, 964
1900	354, 936, 497	177, 011, 902
1901	248, 093, 787	1£3, 911, 891

The above figures represent, as nearly as this Bureau has been able to ascertain, the total value of the gold and silver coinages executed in

the world during the years given.

It must be borne in mind, however, that the total of these coinages does not correctly represent the amount of new gold and new silver made into coins during the year, for the reason that the coinages as reported include the value of domestic and foreign coins melted for recoinage, as well as old material, plate, etc., used in coinage.

In the circular letter of inquiry prepared at this Bureau and sent to foreign governments through the Department of State, asking for information on these subjects, it was especially requested that each country report the amount of such recoinages. This has been done in

many instances, but not in all.

Coinage of Gold and Silver of the Mints of the World for the Calendar Years since 1873.

Color don com	Go	old.	Sil	ver.

# VALUE OF FOREIGN COINS.

The law requires (section 25, act of August 28, 1894)-

That the value of the foreign coins as expressed in the money of account of the United States shall be that of the pure metal of such coin of standard value; and the values of the standard coins in circulation of the various nations of the world shall be estimated quarterly by the Director of the Mint, and be proclaimed by the Secretary of the Treasury immediately after the passage of this act and thereafter quarterly on the 1st day of January, April, July, and October in each year.

In accordance with the foregoing requirements the values of foreign coins have been estimated and proclaimed as follows:

VALUES OF FOREIGN COINS. OCTOBER 1, 1902.

,				
Country.	Standurd.	Monetary unit.	Value in terms of United States gold dollars.	Coins.
Argentine Republic.	Gold	Peso	\$0.965	Gold: Argentine (\$4.824) and ½ argentine. Silver: Peso and divisions.
Austria-Hungary	Gold	Crown	. 203	Gold: Former system—4 florins (\$1.929), 8 florins (\$3.858), ducat (\$2.287) and 4 ducats (\$9.149). Silver: land 2 florins. Gold: Present system—20 crowns (\$4.052); 10
Belgium	Gold	Franc	. 193	system — 20 crowns (\$4.052); 10 crowns (\$2.026). Gold: 10 and 20 francs. Silver: 5 francs.
Bolivia Brazil	Silver Gold	Boliviano Milreis	. 384	Silver: Boliviano and divisions. Gold: 5, 10, and 20 milreis. Silver: \frac{1}{4}, 1, and 2 milreis.
British Possessions, N. A. (except New- foundland).	Gold	Dollar	1.000	1, and 2 milreis.
Central Amer. States: Costa Rica	Gold	Colon	. 465	Gold: 2, 5, 10, and 20 colons (\$9.307)°. Silver: 5, 10, 25, and 50 centimos.
British Honduras Guatemala	Gold	Dollar	1.000	
Honduras Nicaragua Salvador	Silver	Peso	.384	Silver: Peso and divisions.
Chile	Gold	Peso	. 365	Gold: Escudo (\$1.825), doubloon (\$3.650), and condor (\$7.300). Silver: Peso and divisions.

India	Gold.:	•	4.8664	Gold: Sovereign (pound sterling). Silver: Rupee and divisions. Gold: 5, 10, 20, 50, and 100 lire. Silver: 5 lire.
Italy		Lira	. 193	Gold: 5, 10, 20, 50, and 100 lire. Silver: 5 lire.
Japan	Gold	Yen	.498	Gold: 5, 10, and 20 yen. Silver: 10, 20, and 50 sen.
Liberia	Gold	Donar	1.000	

# Values of Foreign Coins, October 1, 1902—Continued.

Country.	Standard.	Monetary unit.	Value in terms of United States gold dollars.	Coins. ,
Mexico	Silver	Dollar	\$0.417	Gold: Dollar (\$0.983), 2\frac{1}{2}, 5, 10, and 20 dollars. Silver: Dollar (or peso) and divisions.
Netherlands	Gold	Florin	. 402	Gold: 10 florins. Silver: $\frac{1}{2}$ , 1, and $2\frac{1}{2}$ florins.
Newfoundland Norway Persia	Gold	Crown	. 268	Gold: 2 dollars (\$2.027). Gold: 10 and 20 crowns. Gold: \(\frac{1}{2}, 1, \text{ and 2 tomans (\$3.409). Silver: \(\frac{1}{2}, \frac{1}{2}, 1, \text{ 2, and 5 krans.}\)
Peru	Gold	Sol	. 487	Gold: Libra (\$4.8665). Silver: Sol and divisions.
Portugal Russia	Gold	Milreis Ruble	1.080 .515	Gold: 1, 2, 5, and 10 milreis. Gold: Imperial, 15 rubles (\$7.718), and ½ imperial, 7½ rubles (\$3.859). Silver: ½, ½, and 1 ruble.
Spain Sweden Switzerland	Gold	Crown	. 268	Gold: 25 pesetas. Silver: 5 pesetas. Gold: 10 and 20 crowns. Gold: 5, 10, 20, 50, and 100 francs. Silver: 5 francs.
Turkey	Gold	Piaster Peso	. 044	Gold: 25, 50, 100, 250, and 500 piasters. Gold: Peso. Silver: Peso and divi-
Venezuela	Gold	Bolivar	, 193	sions. Gold: 5, 10, 20, 50, and 100 bolivars. Silver: 5 bolivars.
•				

The coins of silver-standard countries are valued by their pure silver contents, at the average market price of silver for the three months preceding the date of this circular.

a The "British dollar" has the same legal value as the Mexican dollar in Hongkong, the Straits Settlements, and Labuan.

b The sovereign is the standard coin of India, but the rupee (\$0.3244\frac{1}{2}\$) is the money of account, current at 15 to the sovereign.

## LABORATORY OF THE BUREAU OF THE MINT.

During the calendar year, 1901 there were tested in the laboratory of this Bureau 462 gold and 1,066 silver coins, all of which were found within the legal requirements as to weight and fineness.

In the gold coins the greatest deviation above standard (the legal

limit being 0.001 above or below) was 0.0002, while the greatest deviation below was 0.0004.

The greatest deviation of silver coins above standard (the limit being 0.003 above or below) was 0.0013, while the greatest deviation below was 0.0011.

The following table shows the number of pieces assayed at this Bureau each month and their average fineness; also the total number assayed from each mint, with the average fineness for the calendar year 1901:

Number and Average Fineness of Gold and Silver Coins of the United States

## PROCEEDINGS OF THE ASSAY COMMISSION OF 1902.

The following-named gentlemen were designated by the President as commissioners to test and examine the weight and fineness of the coins reserved at the several mints during the calendar year 1901, pursuant to the provisions of section 3547 of the Revised Statutes:

Hon. J. H. Southard, House of Representatives; Prof. W. S. Stratton, Bureau of Standards, Washington, D. C.; Prof. N. Clifford Ricker, University of Illinois; Prof. T. W. Richards, Harvard University; Prof. R. S. Woodward, Columbia University; Dr. J. W. Holland, Jefferson Medical College, Philadelphia; Mr. B. H. Tatem, Helena, Mont.; Mr. John A. Brashear, Pittsburg, Pa.; Capt. E. M. Allen, Portland, Mich.; Mr. George H. Davenport, Boston, Mass.; Mr. Beman G. Dawes, Marietta, Ohio; Hon. Charles E. McKinney, Sioux Falls, S. Dak.; Mr. A. G. Sharp, Colorado Springs, Colo.; Maj. J. M. Carson, Philadelphia, Pa.; Mr. George M. Reynolds, Chicago, Ill.; Prof. E. F. Smith, University of Pennsylvania, and Cabell Whitehead, Bureau of the Mint, Washington.

#### REPORT OF THE COMMITTEE ON COUNTING.

It was decided that the committee as a whole act as committee on counting, and that only the coins in the packages opened should be counted, all the packages being checked with the transcripts of the Bureau of the Mint.

The quantities of coins reserved at the several mints for the purposes of the commission were as follows:

Gold coins from the mint at Philadelphia, 2,566 in number, of the value of \$23,002.50. Silver coins from the mint at Philadelphia, 19,508 in number, of the value of \$6.610.

Gold coins from the mint at San Francisco, 8,058 in number, of the value of \$78,300. Silver coins from the mint at San Francisco, 1,900 in number, of the value of

\$1,392.95.

Gold coins from the mint at New Orleans, 73 in number, of the value of \$730.

Silver coins from the mint at New Orleans, 10,838 in number, of the value of \$7,423.50.

In all, 42,943 pieces of the aggregate value of \$117,456.95, as set forth in detail on

a subsequent page.

The number of each delivery together with the pieces contained in said packages, were found to correspond with said record. From these packages the committees on weighing and assaying each selected such number of gold and silver coins of the different denominations coined at each mint, deemed by them necessary for the examination and test to be made by them, respectively.

The coins remaining in the packages—the open packages having indorsed thereon the number taken from each, of which a record was kept—were then delivered to

the superintendent of the mint at Philadelphia.

#### REPORT OF THE COMMITTEE ON ASSAYING.

# PHILADEPHIA, PA., February 15, 1902.

To the Board of Assay Commissioners:

Gentlemen: In compliance with section 2547 of the Revised Statutes we have taken samples of the coins reserved from time to time at the United States mints at Philadelphia, San Francisco, and New Orleans for assay. These samples represent the various deliveries made by the coiners to the superintendents of the several mints during the calendar year 1901. The result of the assays made of the individual coins and of the same in mass, is given in the following schedules. From these it will be seen that the greatest excess in the assay value of the gold coinage above standard at the different mints (the limit of tolerance being one-thousandth) is at—

Philadelphia. 90 San Francisco 90 New Orleans 85	00.3 00.2 99.9
The greatest deficiency below standard (the limit of tolerance being one-the sandth) is at—	ou-
Philadelphia 89 San Francisco 89 New Orleans 89	99. 6. 99. 7 99. 7
The greatest excess in silver coins above standard (the limit of tolerance be three-thousandths) is at—	eing
Philadelphia. 90 San Francisco. 90 New Orleans. 90	00.2
The greatest deficiency in silver coins below standard (the limit of tolerance be three-thousandths) is at—	eing
Philadelphia 89 San Francisco 89 New Orleans 89	99. I

The assay committee also tested the quartation silver and found it free from gold, and the lead used in the assay of the gold bullion and found it free from gold and silver. The acid used in the humid assay of silver was found to be free from silver and also from chlorine. The balances used were also tested and found to be correct. The committee therefore deem the assays exhibited in the accompanying schedule to be entirely trustworthy.

#### REPORT OF THE COMMITTEE ON WEIGHING.

FEBRUARY 13, 1902.

To the Board of Assay Commissioners.

Gentlemen: The committee on weighing respectfully report that they have examined sample coins, selected at random from those reserved by the various mints, and the number of coins weighed in mass were as follows:

Mint at Philadelphia.

30 gold coins. 46 silver coins.

Mint at San Francisco.

30 gold coins. 14 silver coins.

Mint at New Orleans.

10 gold coins. 46 silver coins.

The weighing of the single pieces was made with a balance by Troemner, of Philadelphia, and the weights employed were furnished under seal by the Director of the United States Bureau of Standards, and were certified by him as being correctly related to the troy pound of 1827. The mass weighings were made upon the large Saxton balance of the mint. Both balances were carefully tested. The committee examined the weights ordinarily employed in the Mint and found them to be in accordance with the usual interpretation of the standard prescribed by law. The details of the weighings indicate but slight deviation from the statutory standard weights, and the coins examined were all within the legal tolerance. The committee on weighing pronounces the examination of the weights of the coinage of the several mints during the year 1901 to be satisfactory.

On motion of Mr. Davenport it was resolved that the assay commission appointed to examine and test the reserve coins of the several mints of the United States for 1901, after having examined and tested the fineness and weight of these coins, and having found all the tests within the limits required by law, do herby report the

tests satisfactory.

On motion of Mr. Tatem it was resolved that the members of the assay commission hereby express their appreciation of the uniform courtesy and attention they have received from the Director of the Mint, the superintendent of the mint at Philadelphia and the officers connected therewith, and that their most cordial thanks are extended to each of said officers.

On motion of Mr. Southard the committee adjourned sine die.

#### MINT OF THE UNITED STATES AT PHILADELPHIA.

## John H. Landis, Superintendent.

The following table shows by weight and value the gold and silver deposited at the mint at Philadelphia during the fiscal year ended June 30, 1902.

Metal.	Standard ounces.	Coinage value.
Gold Silver	1, 210, 308, 394 2, 152, 061, 810	\$22, 517, 365. 46 2, 504, 217. 37
Total	3, 362, 370. 204	25, 021, 582. 83

There were transferred to J. & W. Seligman & Co., New York, 1,025,367.34 standard ounces silver bullion, costing \$834,972.02, purchased under the act of July 14, 1890, in exchange for like weights of silver bullion deposited by them at the mint at San Francisco.

There were transferred from the Treasury for recoinage during the year 99,716 pieces of worn and uncurrent domestic gold coin, having a face value of \$803,565.50, containing 42,855.220 standard ounces of the value of \$797,306.42, and showing a loss of \$6,259.08, also 10,439,387 pieces of uncurrent domestic silver coin, of the face value of \$2,175,342.16, containing 1,651,097.68 standard ounces, having a coinage value of \$1,921,277.28, and showing a doss of \$254,064.88.

Of the Porto Rican silver coins redeemed under the act of April 12,

1900, transferred to this mint, there were recoined into subsidiary coin of the United States 1,696,079.89 standard ounces, of the nominal value of \$2,110,208.25, the seigniorage or gain by such coinage being \$827,-745.72.

There were also received over the counter 7,788 pieces of uncurrent gold coin, of the face value of \$54,912.50, containing 2,930.595 standard ounces of the value of \$54,522.71, and showing a loss of \$389.79, also 6,161 pieces of domestic silver coin of the face value of \$2,638.22, containing 2,159.07 standard ounces, having a coinage value of \$2,512.38.

DENOMINATIONS AND AMOUNTS OF UNCURRENT DOMESTIC GOLD AND SILVER COINS RECEIVED OVER THE COUNTER AT THE MINT AT PHILADELPHIA AND TRANSFERRED FROM THE TREASURY.

Fine-gold bars for use in the industrial arts, of the value of \$3,056,020.31, weighing 147,834.982 fine ounces, were exchanged for gold coin during the fiscal year.

#### MINOR COINS.

Minor coins of the face value of \$194,040.75 were received on transfer orders and melted for recoinage during the fiscal year.

Bronze and nickel blanks for minor-coinage purposes were purchased as follows:

	Character. •	•	Pounds avoirdupois.	Cost.
			630, 000 330, 000	\$177, 156 177, 804
Total			960,000	354, 960

The amount of uncurrent copper, nickel, and bronze coins transferred from the Treasury during the year for conversion into current coins, cost, and seigniorage, are shown by the following table:

# MINOR COINS FOR RECOINAGE, FISCAL YEAR 1902.

Nickel 1-cent coins  Bronze 1-cent coins  Bronze 2-cent coins  Nickel 3-cent coins	States Treasury:     \$1	35.50 61.21 93.00 43.50

Total	200, 589. 82
Coinage executed, nominal value:   Bronze 1-cent coin	
Wastage (loss by recoinage)	10, 959. 37
Total	

There were transferred during the year for recoinage Porto Rican bronze coin redeemed under the act of April 12, 1900, 58.20 Troy ounces, costing \$2.26, which was recoined into bronze coin of the United States of the nominal value of \$5.82, the seigniorage gained by recoinage being \$3.56.

The total minor coinage for the year in nickel 5-cent coins was \$1,564,938.95, and in bronze 1-cent coins, \$864,797.22. Of these amounts, \$23,109.75 in nickel coins and \$166,520.70 in bronze coins were recoinage of United States coins and \$5.82 recoinage of Porto

Rican bronze coins.

The seigniorage or gain on United States recoinage was \$6,415.40 as against a wastage or loss of \$10,959.37, showing a net wastage of \$4,543.97.

The gain on Porto Rican bronze recoinage was \$3.56. The seigniorage on the coinage of nickel and bronze coins coined from new material purchased during the year was \$1,912,951.29, which, less a net wastage on the recoinage of minor coin and a gain on the recoinage of Porto Rican bronze coin, gives a total seigniorage on minor coin of \$1,908,410.88 for the year.

The total amount of the several types of minor coin manufactured from 1793, when the first coinage of copper cents was made, until June 30, 1902, aggregated \$37,931,333.01. From the records of the mint at Philadelphia, to which that coinage has been assigned by law, it appears that there have been melted for recoinage \$3,652,216.15, leaving outstanding June 30, 1902, \$34,279,116.86.

The several types and denominations of minor coins issued, manufactured by the mint at Philadelphia since its establishment, the amount remelted, and the amount outstanding June 30, 1902, are set forth in

the following table:

# MINOR COINS ISSUED, REMELTED, AND OUTSTANDING.

Denomination.	Coined.	Remelted.	Outstanding June 30, 1902.
Copper cents	2,007,720.00 11,602,668.24 912,020.00 905,768.52		\$1, 183, 346, 93 39, 926, 11 1, 210, 551, 39 11, 442, 418, 89 574, 348, 28 627, 922, 16 19, 200, 603, 10
Total	37, 931, 333. 01	3, 652, 216. 15	34, 279, 116. 86

Minor coins to the amount of \$2,135,345.90 have been distributed throughout the States and Territories of the United States during the

fiscal year 1902—\$1,357,189 in nickel 5-cent pieces and \$778,156.90 in bronze 1-cent pieces.

The expenditure for the distribution of minor coin for the same

period was \$40,222.01.

The seigniorage on the coinage of purchased metal for the fiscal year was \$5,578,382.10, as shown by the following table:

Item.	Coined.	Seigniorage.	
Standard silver dollars Subsidiary silver coins Minor coin	\$8, 196, 800. 00 3, 486, 680. 00 2, 429, 736. 17	\$2, 460, 663. 02 1, 204, 767. 79 1, 912, 951. 29

The dies from which to strike a memorial medal of the late President McKinley have also been completed.

Since the close of the fiscal year there have been struck at the Philadelphia mint 7,500 bronze medals authorized by joint resolution approved March 3, 1901, to be distributed by the Secretary of the

Navy to certain officers and men who participated in the war with

Spain.

The following table shows the number of proof coins and medals sold, the nominal value, amount received, and the profit on the same during the fiscal year ended June 30, 1902:

Articles.	Number of pieces.	Nominal value.	Amount received.	Profit.
Gold medals Silver medals Bronze medals Gold proof coins Silver proof coins Minor proof coins	277 944 486 3, 104	\$3,519.75 244.04 100.00 3,802.50 1,435.60 96.12	\$3, 684. 95 602. 98 672. 00 3, 924. 00 1, 877. 92 128. 16	\$165. 20 358. 94 572. 00 121. 50 442. 32 32. 04

# MELTER AND REFINER'S DEPARTMENT.

D. K. TUTTLE, Ph. D., Melter and Refiner.

During the fiscal year the melter and refiner received from the superintendent gold bullion containing by assay 3,688,733.510 standard ounces, of the value of \$68,627,600.20, his legal allowance for wastage being 3,688.733 standard ounces, of the value of \$68,627.60, and silver bullion containing by assay 26,265,899.62 standard ounces, of the value of \$30,563,955.92, his legal allowance for wastage being 39,398.85 standard ounces, of the value of \$45,845.93.

He operated upon bullion as follows:

Bullion.	Gold.	Silver.
Ingots	 Standard ozs. 117, 040, 090 608, 185, 622	Standard ozs. 25, 636, 252, 48 1, 281, 047, 51
Total	 725, 225. 712	26, 917, 299. 99

Upon settlement of the melter and refiner's accounts June 30, 1902, there was found an apparent gain in the operations upon the gold bullion during the last fiscal year of 573.282 standard ounces, and in the operations upon the silver bullion an apparent gain of 18,391.24 standard ounces.

The melts made for redeposits, granulations, bars, and ingots in gold and silver aggregate as follows:

Melts.	Bars.	Ingots.	Granula- tions.	Deposits.	Total.
GoldSilver	462 495	22 6, 741	460	2,806 322	3, 290 8, 018
Total	957	6,763	460	3, 128	11,308

During the year there were 29 silver ingot melts condemned.

NUMBER, WEIGHT, AND VALUE OF GOLD AND SILVER BARS FOR INDUSTRIAL USE.

Description.	Bars.	Standard ounces.	Coinage value.
GoldSilver		170, 268, 162 108, 764, 12	\$3, 167, 779. 74 126, 561. 89
Total	4,851		3, 294, 341. 63

During the year 220 barrels of sweeps were gathered, containing by assay 682.710 standard ounces of gold and 7,072.78 standard ounces of silver.

The operations of the refinery were as follows: Sent to the refinery, 1,753,960.70 gross ounces.

Bullion.	Gold.	Silver.
Containing by assay	Standard ozs. 607, 988. 518 608, 185. 622	Standard ozs. 1, 281, 214. 31 1, 281, 047. 51
Apparent gain	197, 104	166.80

Silver bullion upon which refinery charges were collected contained 295,711.06 standard ounces, and silver owned by the Government returned to the refinery for parting purposes, upon which no charges were imposed, contained 941,204.01 standard ounces.

## Coiner's Department.

# RHINE R. FREED, Coiner.

During the fiscal year ended June 30, 1902, the coiner received 454,414.780 standard ounces of gold, of the value of \$8,454,228.47, of which 42,930.500 standard ounces were operated upon, on which there was a wastage of 4.338 standard ounces, of the value of \$80.71.

Of the above 454,414.780 standard ounces, 410,382.880 standard ounces were received by John H. Landis, coiner, from July 1, 1901, to April 30, 1902, and 44,031.900 standard ounces were received by Rhine R. Freed, the present coiner, from May 1, 1902, to June 30, 1902.

There was also received 25,515,995.27 standard ounces of silver, of the value of \$29,690,176.31 in subsidiary silver coin, of which 23,040,960.79 standard ounces were operated upon. Of this amount, 20,876,499.55 standard ounces were operated upon by John H. Landis, coiner, from July 1, 1901, to April 30, 1902, upon which there was a wastage of 10,784.74 standard ounces, of the value of \$5,960.48, and 2,173,461.24 standard ounces were operated upon by Rhine R. Freed, the present coiner, covering the period from May 1, 1902, to June 30, 1902, on which the wastage has not been computed.

The following table shows the coinage executed at the mint at Phila-

delphia during the fiscal year ended June 30, 1902:

, Denomination.	Number of pieces.	Value.
GOLD.  Double eagles. Eagles Half eagles Quarter eagles.	• 102	\$1,760.00 1,020.00 665.00

MINT OF THE UNITED STATES AT SAN FRANCISCO, CAL.

# FRANK A. LEACH, Superintendent.

The weight and value of gold and silver bullion deposited at the mint at San Francisco during the fiscal year 1902 was as follows:

	Metal.		Standard ounces.	Value.
Gold			3, 230, 954. 348 1, 381, 823. 53	\$60, 110, 778. 54 1, 607, 940. 10
Total	•	••••••••••••••••••••••••••••••••••••••		61, 718, 718. 64

During the year there were deposited and melted at this mint for recoinage 273.223 standard ounces United States gold coin of the face value of \$5,506, coining value \$5,083.22, the denominations, number of pieces, and value thereof being as follows:

	Received over counter		
Denomination.	Number of pieces.	Nominal. value.

Making an aggregate of gold and silver coin of 577,393 pieces, of the

nominal value of \$143,913.05.

Foreign gold bullion containing 44,521.838 standard ounces, of the value of \$828,313.26, was deposited, of which 18,420.926 standard ounces, of the value of \$342,714.90, was in unrefined bullion and 26,100.912 standard ounces, of the value of \$485,598.36, was in refined bullion. There was also deposited during the year 4,921 standard ounces of unrefined silver bullion, valued at \$5,726.26.

No refined foreign silver bullion was deposited during the year. The unrefined bullion was received from the following countries:

FOREIGN	Corn	ANTIN	SITYED	RITTION	(UNREFINED)

^aThe 1,025,367.31 standard ounces noted for Philadelphia were bars manufactured at private refineries, and were received at this mint during the fiscal year from sundry parties in exchange for a like quantity delivered to such parties by the United States mint at Philadelphia.

Messrs. Frank H. Hetrich, of the mint at New Orleans; E. P. Leech, of the mint at Denver; J. M. Hetrich, of the mint at Carson, supervised the annual settlement and reported that the coin and bullion on hand agreed with the amount charged to the superintendent's account.

## MELTER AND REFINER'S DEPARTMENT.

CHARLES M. GORHAM, Metter and Refiner.

The melter and refiner received from the superintendent and operated on bullion, during the fiscal year containing 5,821,726.228 standard ounces of gold and 4,065,066.63 standard ounces of silver.

The refinery operations during the same period comprise 984,601.749

standard ounces of gold and 495,901.56 standard ounces of silver.

Silver bullion refined on which c	hardes were collected.	•
Sirver Samon remote on winding c	ing of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of	Standard ounces.

Grand total		405 001 56

The total of 495,901.56 standard ounces above given represents the entire amount received by the melter and refiner and charged to the refinery, but as it was used over and over it does not represent the whole amount of silver used or sent to the refinery. In this way the total amount of silver used in parting was 2,884,803.35 standard ounces.

The bullion melted for coinage during the year was 5,674,972.920 standard ounces of gold and 2,953,106.25 standard ounces of silver.

There were manufactured during the year 34 fine silver bars containing 22,645.06 standard ounces of silver of the coining value of \$26,350.62, and one imported bar containing 15.068 standard ounces of gold and 5.45 standard ounces of silver of the coinage value of \$286.49.

During the year he made 2,035 melts of gold ingots of which 12 were condemned, and 1,870 melts of silver ingots of which 9 were condemned,

He also made 35 melts for bars.

Upon the settlement of the accounts of the melter and refiner, Alexander Martin, deceased, for the first eight months of the year, it was found that there was a surplus of 522.033 standard ounces of gold valued at \$9,712.24 and a wastage of 1,551.84 standard ounces of silver, cost value \$842.78, such wastage being 37 per cent of the legal allowance.

Upon the annual settlement of the account of the melter and refiner, Charles M. Gorham, for the remainder of the year, he returned a surplus of 775.855 standard ounces of gold, valued at \$14,434.51, and 1,221.21 standard ounces of silver, valued at \$603.46.

The total surplus of this department for the year was 1,297.888 standard ounces of gold, valued at \$24,146.75, and the total wastage

330.63 standard ounces of silver, cost value \$239.32.

There were gathered in sweeps during the fiscal year 258 barrels, containing by assay 393.839 standard ounces of gold and 7,309.83 standard ounces of silver.

Gain for the year	
	00 005 000

There was consumed in reducing silver sulphates 43,447 pounds of copper, from which was made 133,685 pounds of copper sulphate or bluestone. As a considerable portion of the copper was cement, containing a large percentage of iron, and a quantity of junk copper, carrying some foreign substances, the actual amount of copper consumed is reduced to 40,000 pounds. By the estimate of the superintendent of the refinery, this would give a yield of 3.34 pounds of bluestone for each pound of copper used. The capacity of the bluestone plant was overtaxed by the necessity of running the refinery night and day for several months during the year; hence there was a small loss in copper that otherwise would have been saved.

There was used 1,097,809 pounds of sulphuric acid in refining 979,995 ounces of gold bullion, or 1.12 pounds of acid to 1 standard

ounce of gold operated upon.

The nitric acid was used in parting accumulations of very base bullion.

The excessive gain in gold surplus during the last quarter, or during the administration of the new melter and refiner, Mr. Gorham, was due to the fact that when the account of the deceased melter and refiner, Mr. Martin, was settled, there was on hand about 18,000 ounces of gold bullion which had been alloyed with silver for refining operations. This the settlement officers thought best to assay to determine the quantity of the gold therein. Owing to the difficulty in obtaining a reliable sample the assay showed 342.123 ounces less gold than the real contents, which of course showed up at the annual settlement to the increase of Mr. Gorham's surplus. Further, it was deemed impracticable at the settlement of Mr. Martin's account to take from the assay department the chips on hand, which amounted to 214.868 ounces. So the actual division of surplus should be as follows:

		Standard ounces.
Account of Alexander Martin (decea	ased)	1, 083, 020
Account of C. M. Gorham		
	•	1, 297. 888

This excess or surplus arises almost wholly from the credit as required by regulation to the melter and refiner of a fineness of 0.900 on all ingots turned over to the coiner, when the actual fineness for the year shows an average of 0.899.77.

It has been the practice to use charcoal for the purpose of starting furnace fires in the various furnaces of the melter and refiner's department. The cost of charcoal for the use of this mint for the calendar year 1901 was \$1,404.42, and as the expense threatened to be still greater by notice of further advance in the price of the coal it was decided to experiment with pine wood as a substitute. The wood was

purchased, cut in blocks of 6-inch lengths, and was split after its delivery at the mint. It proved a more desirable kindling than the charcoal and has now been in use for six months. Eleven cords of wood have been consumed at a cost of \$87, a monthly average of \$14.50, against a monthly average of \$117.03 for the charcoal.

## Coiner's Department.

D. T. COLE. Coiner.

During the fiscal year the coiner received and operated upon 5,784,-040.590 standard ounces of gold and 3,033,808.05 standard ounces of silver.

He manufactured during the same period 3,275,793.750 standard ounces of gold coin, valued at \$60,945,000, and 1,561,570.03 standard ounces of silver coin, valued at \$1,912,681.20, aggregating 10,382,122 pieces as shown by the following table:

Denomination.	Pieces.	Value.	
GOLD.  Double eagles. Eagles Half eagles	1,978,000	\$37, 040, 000. 00 14, 015, 000. 00 9, 890, 000. 00 60, 945, 000. 00

Total	5, 150, 622	1,912,681.20 62,857,681.20	

The percentage of coin produced from the amount operated upon

was: Gold, 57.02, and silver, 53.97.

At the annual settlement of his accounts it was found that there had been a wastage of 24.701 standard ounces of gold, valued at \$459.55, being 0.86 per cent of the legal allowance, and 305.20 standard ounces of silver, cost value \$150.81, being 10.62 per cent of the legal allowance.

The sweeps gathered in this department during the year comprised 11 barrels, containing by assay 25.771 standard ounces of gold and 19.53 standard ounces of silver.

## Assayer's Department.

## C. H. SHERMAN, Assayer.

The operations of the assayer during the fiscal year were as follows:

	Description.	••	Number.	Ounces.

Proof gold made Cupels made Lead cut and rolled			60,000	70

REPORT BY THE EXAMINERS ON THE ANNUAL EXAMINATION AND SETTLEMENT OF ACCOUNTS OF THE MINT AT SAN FRANCISCO.

SAN FRANCISCO, CAL., July 26, 1902.

DEAR SIR: In compliance with your instructions of June 10, 1902, we have the honor to report as follows as to the sources from which surplus gold arises:

The detailed statement inclosed herewith shows there was really a gain of 1,550.457 standard ounces of gold in the melter and refiner's department, and a loss through legitimate operations of 300 standard ounces gold (estimated) in melter and refiner's and coiner's departments, or 150 ounces standard gold in each department.

The accounts show a loss of 24.701 standard ounces of gold in the coiner's account, and the coiner's deliveries for the year 1901-2 show a gain of 22.730 standard ounces of gold in the delivery of 12,000 sacks of \$5,000 each. These two items make the sum of 47.431, which subtracted from the 150 ounces leaves 102.569 standard ounces gold estimated loss in the coiner's department to be covered by gains in the

melter and refiner's department.

Some loss must occur in the melter and refiner's department through manipulating 5,894,658.644 stondard ounces of gold. An estimated loss of 150 standard ounces of gold is, we think, reasonable. The superintendent of the San Francisco mint also thinks these estimates reasonable. A gain of 1,550.457 standard ounces of gold is shown. The causes of this gain are: Unreported, 0.0002 in crude deposits and transfers; unreported, 0.0001 in fine gold deposits; allowance in weighing deposits, 7,251, deposits at 0.01 ounce standard each; gains from deposit melting, estimated at 75 standard ounces; bureau assay of gold coins, showing an average fineness of 0.899946, making a total gain of \$16.336 ounces, leaving a balance of 734.121 standard ounces gold unaccounted for.

The annual assay mass melts are at least 0.0002 lower than 0.899946. The 3,275,658.53 ounces of gold coin delivered by the coiner during the year 1901-2, if 0.0002 lower, would account for 727.924 standard ounces of gold surplus, leaving

but 6.197 standard ounces of gold unaccounted for.

The silver losses of the coiner's and melter and refiner's departments are in our opinion very reasonable.

Very respectfully,

FRANK D. HETRICH. E. P. LEECH.

Hon. Geo. E. Roberts, Director of the Mint, Washington, D. C.

The melter and refiner's gold excess amounted to 1,297.888 standard ounces, of which 522.033 ounces is credited to operations of the melting and refining department during the incumbency of Alexander Martin, deceased, and 775.855 ounces to Mr. C. M. Gorham, melter and refiner, during the months of April, May, and June, 1902.

Upon settlement of the account of Alexander Martin, deceased, about 18,000 ounces of refinery slabs, by reason of lack of mixture, assayed 342.123 standard ounces less

than their real contents of gold, as shown by returns from refinery.

The assayer held 218.864 standard ounces gold as chips.

These items would make the real gold settlement of account of:	dard ounces.
Alexander Martin, deceased  Plus additional value of refinery slabs  Plus gold in hands of assayer	522. 033 342. 123
Making a total of	1,083.020
Mr. C. M. Gorham's surplus would be Less amount of gold from lack of mixture 342.123 Less gold not turned over by assayer 218.864	
20.00	560. 987
Making a total of	214. 868
The corrected division of surplus of gold would be: Account of Alexander Martin Account of C. M. Gorham	1, 083. 020 214. 868
Total	1, 297. 888

Taking into account the fact that at the end of the fiscal year a thorough clean up was made, this division of surplus would be reasonable.

The normal wastage of the coiner should be about 150 standard ounces of gold.

The loss on settlement is 24.701 ounces, with an additional loss of 22.730 ounces, the amount shown by the coiner's books as having been gained by him in deliveries of gold coin during the year—12,000 \$5,000 sacks being light that amount (less than 0.002 ounce per \$5,000), viz:

Double eagles	6.76
Total	22.73
This gain neutralizing— An actual loss in operations of Loss on settlement of	22. 730 24. 701
Total visible loss of.	47. 431
Normal wastage of coiner (about)	150. 000 47. 431
Leaving a real loss of	

standard ounces of gold, which must have been neutralized by a like weight of wax and gain by oxidation of ends of gold strips, which frequently occurs from leaking canister covers, on 2,469,034.406 ounces of clippings which were delivered to the melter and refiner, equal to 1 ounce to 24,000 ounces of clippings. There is also some loss to the melter and refiner if the number of ingot deliveries exceed the number of clipping deliveries.

This 102.569 standard ounces loss to the melter and refiner is covered by a lessen-

ing of the melter and refiner's surplus to that amount.

There must be actual loss in the handling of 5,894,658.644 standard ounces of gold by the melter and refiner, of which 984,601.749 standard ounces have been subjected to mechanical and chemical loss through slab melting, parting, toughening, as well as loss in ingot making. Over 4,000 standard ounces of silver were lost, probably largely by volatilization, and it is likely that this silver carried a consider-

One ninety-ninth of 984,601.749 is practically 10,000 ounces standard silver. The average fineness of mint fine gold is 0.994, showing that 4,000 standard ounces sur-

plus should be in the account if there was no loss of silver.

The actual loss in operations in the melter and refiner's department should be at least as great as that of the coiner's department; that is, 150 standard ounces per year.

The surplus amount to	ndard ounces 1, 297. 888 . 102. 569 . 150. 000
Which makes a total of	. 1,550.457
This 1,550.457 standard ounces must come from unreported 0.0002 reported to one-half, 0.0001 from unreported one-fourth, amount of go short of 0.900, amount gained by allowances and gain from deposit melting	ld coins are

## MINT OF THE UNITED STATES AT NEW ORLEANS, LA.

C. W. BOOTHBY, Superintendent.

The weight and value of the gold and silver deposited at the mint of the United States at New Orleans, La., during the fiscal year ended June 30, 1902, were as follows:

Description.	Standard ounces.	Coining value.
GoldSilver	21, 943. 595 780, 377. 96	\$408, 252. 74 908, 076. 17
Total		1, 316, 328. 91

During the year there were deposited and melted at this mint for recoinage 556.546 standard ounces United States gold coin, received over the counter, of the face value of \$10,454.50 and coining value of \$10,354.34 in new coin, the denominations, number of pieces, and value thereof being as follows:

	Denomination.	,	*	Received over counter.	
				Number of pieces.	Nominal value.
Double eagles				267 191	\$5,340,00 1,910.00 3,080.00
Half eagles Quarter eagles One-dollar pieces		· · · · · · · · · · · · · · · · · · ·		616 27 57	3, 080. 00 67. 50 57. 00
	••••				10, 454. 50

There was also deposited and melted 769,568.41 standard ounces of United States silver coin of the face value of \$1,020,254.35, having a coining value of \$895,497.79 in standard dollars, or \$957,472.34 in subsidiary coin, of which silver coin there was transferred from the Treasury worn and uncurrent subsidiary coin of the face value of \$1,019,880, containing 767,183.30 standard ounces, with a coining value of \$956,993.21 in new subsidiary silver coin, and received over the counter worn and uncurrent silver coin of the face value of \$474.35, containing 448.13 standard ounces, with a coining value of \$479.13 in new subsidiary silver coin, the denominations, number of pieces, and value of such coins being as follows:

·	Transferred	l from Treasury.	Received	over counter.
Denomination.	Number of pieces.	Nominal value.	Number of pieces.	Nominal value
Trade dollars	1, 073, 440 1, 284, 680 149 1, 617, 848 3, 483	\$536, 720.00 321, 170.00 29.40 161, 784.80 174.15	3 301 107 203 7 608 78	\$3.00 301.00 53.50 50.75 1.40 60.80 3.90
Total	3, 979, 655	1,019,880.00	1, 307	474. 38

Messrs. F. W. Braddock, of the Bureau of the Mint, and N. M. Page, of the assay office at New York, superintended the annual settlement, and reported that the coin and bullion on hand agreed with the amounts charged on the records.

# MELTER AND REFINER'S DEPARTMENT.

## H. DUDLEY COLEMAN, Melter ond Refiner.

The amount of gold and silver delivered by the superintendent to the melter and refiner during the fiscal year ended June 30, 1902, was as follows:

	Metal.	Standard ounces	. Coinage value.
			\$2, 375, 908. 31 28, 265, 259. 11
Total			30, 641, 167. 42

The number of gold and silver ingot melts made by the melter and refiner and the number condemned by the assayer is shown by the following table:

# INGOT MELTS MADE AND CONDEMNED.

Metal.	Made.	Con- demned.
Gold	18	3
Silver	2, 883	24

#### REFINERY OPERATIONS.

The weight and value of gold and silver operated upon in the refinery were as follows:

Bullion.	Standard ounces.	Coinage value.
Gold		\$134, 366. 32 21, 155. 95

## Amount of Gold and Silver Received from the Refinery.

 •	Metal.	Standard ounces.

Silver bullion on which charges were collected contained 2,829.16 standard ounces.

Silver owned by the Government returned to the refinery for parting purposes, on which there were no charges, contained 15,351.74 standard ounces.

## FINE SILVER BARS.

The same office made 56 bars of fine gold and 38 bars of fine silver, all being approved by the assayer.

From 193 barrels of sweeps there were obtained 25.220 standard ounces of gold and 20,773.49 standard ounces of silver.

#### Coiner's Department.

#### MAYER COHEN, Coiner.

During the fiscal year the coiner received and operated upon 77,671.150 standard ounces of gold and 22,240,723.18 standard ounces of silver. He manufactured during the same period 38,722.037 standard ounces of gold coin, valued at \$720,410, and 11,468,987.65 standard ounces of silver coin, valued at \$13,524,000, aggregating 22,132,041 pieces, as shown by the following table:

Denomination.	Pieces.	Value.
GOLD.	72,041	\$720, 410. 00
SILVER.  Dollars	10,770,000 2,426,000 4,364,000 4,500,000	10, 770, 000. 00 1, 213, 000. 00 1, 091, 000. 00 450, 000. 00
Total silver  Total coinage	<u></u>	13,524,000.00

The percentage of coin produced from the amount operated upon

was, gold 49.853, and silver 51.56.

At the annual settlement of his accounts it was found that there had been a wastage during the year of 9.349 ounces of gold, valued at \$173.93, being 24.073 per cent of legal allowance, and 11,554.77 standard ounces of silver, cost value \$5,529.74, being 51.95 per cent of legal allowance.

#### ASSAYER'S DEPARTMENT.

## W. M. LYNCH, M. D., Assayer.

The number of assays made in this department during the fiscal year ending June 30, was as follows:

Description.	Gold.	Silver
Deposits.	770	, 4
fint fine bars	56	, ŝ
uperintendent's bars	2

## UNITED STATES ASSAY OFFICE AT NEW YORK.

Andrew Mason, Superintendent.

The annual report of the business of this office for the fiscal year ended June 30, 1902, is respectfully submitted, as follows:

#### DEPOSITS.

Description.	Gross weight.	Standard weight.	Coinage value.
GoldSilver	Ounces. 2, 564, 705. 51 2, 950, 337. 34	Ounces. 2, 667, 878, 432 3, 026, 420, 54	\$49, 634, 947. 57 3, 521, 652. 99

The total gross weight of deposits, as above, compared with that of last year, shows a reduction of 1,380,242.46 ounces.

The value of foreign gold bullion and coin was \$7,855,607.76, show-

ing for the year a reduction of \$4,621,507.23.

The domestic gold bullion embraced above was \$41,779,339.81, a reduction for the year of \$1,637,676.20.

Of the domestic bullion (gold):

From private refineries From jewelers' bars, jewelry, plate, etc From new production in the various States From redeposited bullion	3, 178, 993. 21 6, 762, 525. 04 241, 031, 40
From United States coin of light weight	617, 655. 95

As to silver deposits, those of fine silver from refiners (943,453 ounces) show a decrease of about 1,000,000 ounces compared with those of the previous year.

Of the total amount of deposits, 886,000 ounces gold deposits and 1,928,000 ounces of silver deposits, approximately, required treatment by acid

Of the whole amount, the gold constituted 22.42 per cent (1 part in

4.46) and the silver  $0.60\frac{1}{2}$  per cent.

The gains that might accrue to the refinery account from the bullion (in ounces of fine gold) are estimated as follows:

From unreported fractions of gold fineness of gold deposits:  886,000 ounces gross, at 0.2 M	177. 20 47. 40	***
From unreported fractions of gold fineness of silver deposits:  5,300 ounces gross, at 0.2 M		129.80
Less 157,000 ounces fine gold from same, at 0.1 M	15.70	76, 25
From gold in silver deposits not reported: 36,700 ounces gross, at 0.2 M. 76,500 ounces gross, at 0.1 M.	7.34 7.65	
From specific percentage deductions from silver deposits (instructions, article 6) ounces, containing	, 2,604	14. 99 202. 22
Making a total estimated gain from these sources of		

The gains that might accrue to the account of the melter and refiner in silver from the above bullion are estimated as follows:

From unreported fractions of silver fineness:  886,000 ounces gold deposits, at 0.4 M	
Less 1,545,000 ounces fine silver from same, at 0.2 M	431.00
From silver in gold deposits not reported (instructions, article 4, sections 9 and 10)	917.00 1,833.00
bullion, say seven-tenths of 7,300 ounces fine silver	5, 110.00
Making a total estimated gain from these sources of	8, 291, 00

The surplus recovered by the melter and refiner in the year was 232.80 ounces of fine gold and 9,903 ounces of fine silver; 34,030 gold bars and 20,876 silver bars were stamped during the year; 35,322 gold

bars and 26,078 silver bars were stamped during last year.

The value of gold bars exchanged for coin for domestic use was \$11,426,557.77; the value of gold bars paid to depositors for domestic use was \$4,980,576.43, making for use in the arts, etc., a total of \$16,407,134.20, being an increase over that of last year of \$2,569,164.18. The value of gold bars exchanged for coin for export was \$36,332,678.53, being a decrease as compared with that of last year of \$7,312,770.56.

It may be noted that the gold bars exchanged for coin during the two years compared amounted to \$100,870,867.51. Not only was the expense and wastage incident to coinage operations and the double transportation between the New York assay office and the Philadelphia mint avoided on that large amount, but the sum of \$42,213.82 was received for charges, at the rate of 4 and 5 cents per \$100. At the same time consumers and shippers of the bars have been greatly obliged.

Messrs. B. F. Butler and A. A. Hassan, of the Mint Bureau, supervised the annual settlement, and reported that the coin and bullion on hand agreed with the amount charged to the superintendent's account.

# MELTER AND REFINER'S DEPARTMENT.

## B. F. MARTIN, Melter and Refiner.

The total amount of metal debited to the department for the year was 5,969,449.11 ounces gross, consisting of 2,556,599.60 ounces of gold deposits; silver deposits 2,932,609.14 ounces gross, and settlement melts of 1901 equal 480,240.37 ounces gross; the total standard ounces of gold contained 2,802,497.653 and the standard ounces of silver 3,297,545.38. The number of gold deposits melted was 9,259; silver deposits, 2,739; total, 11,998. The number of fine mint and standard bars, etc., made and returned to the superintendent was of gold, 34,030; of silver, 20,876; total, 54,906 bars, containing 2,625,766.590 standard ounces of gold, and 3,049,034.48 standard ounces of silver. The amount of metal refined by acid during the year was 3,903,972.311 ounces gross, containing 731,833.040 standard ounces of gold and 3,236,145.50 standard ounces of silver. There was used in the work of the acid refinery 1,620,860 pounds of sulphuric acid and 60,000 pounds of reduction copper, the amount stated in each case being the quantity purchased and delivered during the year ending June 30, 1902.

In the acid-refinery work near the close of the year a small amount of metal (about 3,000 ounces gross, and included in the figures already stated) containing platinum was specially operated on by solution in aqua regia and subsequent precipitation of gold and platinum by proper reagents. As a result there was recovered and turned over to the superintendent 329.65 ounces Troy of sponge platinum. The last sale of the same article was at \$18.30 per ounce, making on that basis of calculation the value of the present item something over \$5,000.

In the settlement of 1902 there was returned to the melter and refiner in excess of the amount debited to him 258.663 standard ounces of gold and 11,003.33 standard ounces of silver. Total value of surplus, \$9,873.86.

The amount of fine silver used in the parting of base gold and silver bullion during the fiscal year ending June 30, 1902, appears to have been 1,035,206.97 ounces gross, equaling 1,138,727.67 ounces standard.

We have no data in the department for showing what portion, if any, of this was deposit fine silver, but it is believed that the bulk, if not the whole amount, was cake fine silver.

#### RELATION OF CHARGES AND EXPENSES.

Charges collected Labor, per pay roll Sulphuric acid Reduction copper Fuel and steam Fluxes Lead crucibles, gloves, and miscellaneous.	\$45, 211, 46 17, 019, 06 10, 382, 81 10, 219, 83 1, 903, 55	\$89, 421. 51

Excess receipts		3, 491. 05

#### Assayer's Department.

H. G. TORRY, Assayer.

During the fiscal year ending June 30, 1902, there were assayed and reported upon by this department 9,259 melts of gold and 2,739 melts of silver deposits, a total of 11,998 melts. Assays were also made upon over 1,000 mixed melts of melter and refiner's bullion, and on 380 barrels of sweeps.

There were received and assayed 353 gold and silver "specials." In addition, 817 melts of fine gold and silver, containing 54,906 bars,

were assayed and the fineness stamped upon the bars.

The "proof" gold and silver and the cupels necessary for the making of these assays were manufactured, as usual, in this department.

## MINT OF THE UNITED STATES AT CARSON, NEV.

R. K. Colcord, Assayer in Charge.

There were received at the United States mint at Carson during the fiscal year ended June 30, 1902, deposits of bullion containing gold and silver of the value of \$320,089.58, an increase of \$42,952.02 over the figures reported last year.

There were 1,150 assays made during the year, including melts, consolidations, bullion and ore assays of gold, silver, copper, and lead.

The following table shows the amount of deposits, earnings, and expenditures, with the percentage of net expenses to deposits for the fiscal year 1902:

	Items.		Amount.
Earnings	deposits.	11, 291. 12	\$320, 089. 58 1, 292. 33 12, 812. 75

## MINT OF THE UNITED STATES AT DENVER, COLO.

## J. L. Hodges Assayer in Charge.

During the fiscal year 1902 the deposits of bullion treated for purchase numbered 3,747 as against 3,894 for the previous year. Special bullion assays to the number of 81 were made. All grades of bullion were treated, fine bars and chlorination product predominating. The deposits aggregated in value as follows:

Gold	\$15, 518, 454. 95 45, 660, 76
	15, 564, 115. 71

This was a decrease from the previous year of \$2,623,001.87 and was due to the fact that beginning July 1, 1901, the assay office melting charge of one-eighth of 1 per cent was imposed on fine gold bars to defray the cost of their transportation to a coinage institution, and this fine bullion sought another market.

The following number of standard ounces unrefined gold and silver

bullion was received from foreign countries:

Countries.	Gold.	Silver.
British Columbia Mexico South Africa Total	22, 979 560, 845 6, 681 590, 505	9. 29 225. 34 . 64

Deposits of unparted bars of former manufacture at this institution contained 14.661 standard ounces of gold, 7.52 standard ounces of silver.

United States mutilated gold coins of the nominal value of \$249.50, containing 12.760 standard ounces, of the coining value of \$237.40, were received during the year.

The value of deposits, earnings, and expenditures, and the percentage of net expenses to deposits for the fiscal year 1902 were as follows:

Items.	Amount.
Deposits:     Gold Silver (coining value)  Earnings Expenditures Percentage of net expenses to deposits	 \$15, 623, 470. 65 26, 526. 18 42, 426. 75

## ASSAY OFFICE OF THE UNITED STATES AT BOISE, IDAHO.

## J. W. CUNNINGHAM, Assayer in Charge.

The operations at the United States assay office at Boise, Idaho, during the fiscal year ended June 30, 1902, were as follows:

Number of gold deposits, 2,983.

The operations at this office consist of the receipt and assaying of

deposits and the manufacture of unparted bars.

The volume of business for the year shows an increase of \$221,610.62 over that of the previous year. This is due to increased activity in mining interests in the tributary territory.

The amounts deposited, earned, and expended during the year were as follows:

Items.	Amount.
Deposits:	S1, 836, 265, 27
Earnings Expenditures Percentage of net expenses to deposits 0.4288	13, 620. 49

## ASSAY OFFICE OF THE UNITED STATES AT HELENA, MONT.

B. H. TATEM, Assayer in Charge.

There were 1,618 deposits of gold bullion, unrefined, received at the United States assay office at Helena, Mont., during the fiscal year ended June 30, 1902. Of these, 1,433 were regular deposits and 185 were small lots of less than 5 ounces and not included in the bullion accounts of the office. The weight of the 1,433 regular deposits as received from depositors was 146,968.98 ounces; after melting, 144,530.49 ounces, a loss equivalent to 1.65 per cent. The average fineness of the resulting bullion was 0.728 gold, 0.221 silver. The deposits of low-grade bullion from various sources were numerous, while the refractory product, from cyanide plants, was largely increased.

The coinage value of the gold and silver contained in deposits was \$2,216,290.73, an average of \$1,546.60 for each deposit. The greater portion of the bullion handled was of domestic production from the States of Montana, Idaho, Washington, Nevada, Wyoming, and Oregon and from the Territory of Alaska. Foreign bullion, unrefined, was received from the Northwest Territory (Klondike) containing 1,080.131 standard ounces of gold and 339.59 standard ounces of silver, and from British Columbia containing 17,719.403 standard ounces of gold and 11,548.67 standard ounces of silver.

The redeposits consisted of 581.870 standard ounces of gold and 506.71 standard ounces of silver in bars originally made at this office. There were no deposits of mutilated or uncurrent coins of the United

States during the year.

The following table shows the amount of deposits, earnings, and expenditures, with the percentage of net expenses to deposits for the fiscal year 1902:

Items.	Amount.
Deposits: Gold	\$2, 216, 290. 73 4, 535. 69 25, 158. 87
Earnings Expenditures Per centage of net expenses to deposits	4, 535. 69 25, 158. 87

# ASSAY OFFICE OF THE UNITED STATES AT CHARLOTTE, N. C.

W. S. CLANTON, Assayer in Charge.

There were no changes in the character of the work during the fiscal year 1902, the operations being confined to bullion and to ore assays. The ore assays remained at substantially the same figures, as compared

with the previous year, but the bullion deposits materially increased, amounting at coining value to \$267,804.90 against \$222,925.49 the preceding year, an increase of \$44,879.41.

The following statement shows the amount of deposits, earnings, and expenditures, and the percentage of net expenses to deposits dur-

ing the fiscal year 1902:

Items.	Amount.
Deposits:   Gold.	\$267, 804. 90 1, 302. 28 4, 746. 70

## ASSAY OFFICE OF THE UNITED STATES AT ST. LOUIS, MO.

GEORGE W. MARK, Assayer in Charge.

The value of deposits of bullion during the fiscal year ended June 30, 1902, at this office aggregated \$87,136.51 against \$89,254.59 for

the previous fiscal year, a reduction of \$2,118.08.

There was deposited uncurrent domestic gold coin, containing 20.946 standard ounces of gold, of the coining value of \$389.69. Unrefined foreign bullion deposited containing 37.343 standard ounces of gold and 17.06 standard ounces of silver. There were also deposited jewelers' bars, old plate, etc., containing 1,984.724 standard ounces of gold and 501.73 standard ounces of silver, and of domestic bullion, refined and unrefined, 2,592.082 standard ounces of gold and 257.40 standard ounces of silver.

The following table shows the amount of deposits, earnings, and expenditures, also the percentage of net deposits during the fiscal

year 1902:

Items.	Amount.
Deposits:   Gold	\$87, 136. 51 1, 243. 33 4, 369. 77

## UNITED STATES ASSAY OFFICE AT DEADWOOD, S. DAK.

## P. J. MINITER, Assayer in Charge.

The value of deposits of bullion received at this office for the fiscal year ended June 30, 1902, aggregated \$554,223.06 (all from the "Black Hills," South Dakota) against \$312,592.87 for 1901, showing an

increase of \$241,630.19, or over 77 per cent.

From various unavoidable causes our estimate of last year's output was lessened, notwithstanding the fact of over 77 per cent increase over the previous year. The facts at this date are six new cyanide mills now in the course of construction with an aggregate daily capacity of 700 tons of ore, all of which are expected to be operating by January 1, 1903.

The bullion from these additional mills warrant the belief in a further increase of about 50 per cent over last year's output of this office

for the year ending June 30, 1903.

The following statement shows the amount of deposits, earnings, and expenditures, also percentage of net expenses to deposits during the fiscal year 1902:

Items.		Amount.
Deposits: Gold. Silver (coining value).	\$540, 452. 93 13, 770. 13	\$554, 223, 06
Earnings	1. 32810	\$554, 223. 06 1, 346. 99 8, 706. 64

# ASSAY OFFICE OF THE UNITED STATES AT SEATTLE, WASH.

FREDERICK A. WING, Assayer in charge.

During the fiscal year ended June 30, 1902, there were received at the United States assay office at Seattle, Wash., 5,040 regular and 228 special bullion deposits, requiring 5,495 melts and 10,762 assays. Twenty thousand cupels were made and 20 ounces of proof gold and

550 ounces of quartation silver prepared.

The aggregate weight of the regular deposits, before melting, was 920,516.96 troy ounces, and after melting 898,945.80 troy ounces, a loss in melting of 2.343 per cent. The total coinage value of the gold and silver contained in the deposits was \$15,539,986.92, an average of \$3,083.33 for each deposit. The redeposits of gold bullion received were unparted bars originally manufactured at this institution.

The following table shows the nature and value of deposits received, earnings, and expenditures, and the percentage of net expenses to

deposits, for the fiscal year ended June 30, 1902:

	Items.		Amount.
Deposits: Gold Silver (coining value)		\$15, 353, 800. 08 186, 186. 84	\$15, 539, 986, 92
Earnings Expenditures Percentage of net expenses to dep	osits.	0. 11912	\$15, 539, 986. 92 27, 488. 37 46, 000. 00

The gold bullion received at the assay offices at Seattle during the year was from the following sources:

	G	old.	Sil

BULLION OPERATIONS, LEGAL ALLOWANCE, AND WASTAGE, FISCAL YEAR 1902.

The amount of gold and silver bullion operated upon by the melter and refiner and coiner, the legal allowance, wastage, and per cent of loss of the legal allowance at the coinage mints and the assay office at New York during the fiscal year ended June 30, 1902, was as follows:

GOLD.

Institution and depart- ment.	Amount deliv- ered by super- intendent.	Legal al- lowance on amount delivered.	Amount re- turned to su- perintendent.	Amount operated upon.	Surplus.	Actual wastage.	Loss of legal al- lowance.

# QUANTITY OF METAL OPERATED UPON, WASTAGE, AND LOSS, FISCAL YEAR 1902.

The quantity of precious metals operated upon in the different departments of the mints and assay office at New York during the fiscal year ended June 30, 1902, exceeded 523 tons of gold and 3,633 tons of silver.

The value of the precious metals wasted in the metallurgical and mechanical departments was \$14,597.67. A loss of \$15,692.26 occurred from the difference between the assay value of the bullion contained in sweeps and leady melts sold and the amount received for the same.

The wastages and losses aggregated \$30,384.42, including \$94.49 loss on bullion shipped by the mint at Carson to the mint at San Francisco for coinage. Against these losses there were gains arising from the operations in bullion as follows:

### GAINS ARISING FROM BULLION OPERATIONS, 1901 to 1902.

Character of gains.	Fiscal year 1901.	Fiscal year 1902.
Surplus bullion returned by operative officers.  Precious metals received in grains and sweeps.  Gain on bullion shipped from the minor assay offices to the mints for coinage.	\$46, 349. 56 17, 997. 44 12, 024. 60	\$56, 101. 98 14, 645. 67 10, 803. 71
Total gains	76, 371. 60	81,551.36

Deducting the value of the total operative wastage and loss on sale of sweeps from incidental gains on bullion, there was a net gain in the operations of the mints, during the fiscal year, of \$51,166.94.

#### SUMMARY OF THE WORK OF THE MINOR ASSAY OFFICES.

The institutions of the mint service consist of the coinage mints at Philadelphia, San Francisco, and New Orleans, the mints at Carson and Denver, which at present are conducted as assay offices, the assay office at New York, which, like each of the coinage mints, operates a refinery, and the minor assay offices at Seattle, Boise, Helena, Charlotte, St. Louis, and Deadwood. Bullion is received at the assay offices on the same terms as at the mints, except that an additional charge of one-eighth of 1 per cent is made at the tormer. Bullion purchased at the assay offices becomes the property of the Government and is shipped to the mints at the expense of the Government.

No shipments were made during the last year from the assay office at New York to the mint. The express charges upon bullion shipped from the minor offices to the mints and upon coin from the mints to the assay offices during the year amounted to \$66,963.51. The cost of maintaining these minor offices and a statement of their deposits and earnings are given below.

Deposits, Earnings, and Expenditures, with Percentage of Net Expenses to Deposits.

#### SUMMARY OF OPERATIONS OF MINTS AND ASSAY OFFICES.

The precious metals received at the mints and assay offices during the fiscal year 1902 were valued at \$177,658,499 against \$246,269,119, the amount reported the preceding year.

## METALLURGICAL OPERATIONS, 1901 AND 1902.

The operations of the melting and refining departments of the coinage mints and assay office at New York for 1901 and 1902, as far as the value of metals treated is concerned, are exhibited in the following table:

#### Bullion Operations of the Melting Departments, 1901 and 1902.

	Fiscal y	ear 1901.	Fiscal year 1902.		
Metals.	Standard ounces.	Coining value.	Standard ounces.	Coining value.

### WORK OF MINOR ASSAY OFFICES, 1901 AND 1902.

The work of the minor assay offices at Helena, Mont.; Boise, Idaho; Charlotte, N. C.; St. Louis, Mo.; Deadwood, S. Dak., and Seattle, Wash., and of the mints at Carson, Nev., and Denver, Colo., which consists in the receipt and assaying of deposits and the manufacture of unparted bars of gold and silver during the fiscal years 1901 and 1902 was as follows:

#### OPERATIONS OF MINOR ASSAY OFFICES, 1901 AND 1902.

	Fiscal y	ear 1901.	Fiscal year 1902.

#### MONETARY LEGISLATION.

[Public—No. 182.] Chap. 1301, 1901–1902.—An Act Making appropriations for sundry civil expenses of the Government for the fiscal year ending June thirtieth, nineteen hundred and three, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums be, and the same are hereby, appropriated, for the objects hereinafter expressed, for the fiscal year ending June thirtieth, nineteen hundred and three, namely:

Issue of gold dollar cease to exist on the first day of July, nineteen hundred and five: Provided, That upon the approval of this Act the Secretary of the Treasury shall cause to be coined at the mints of the United States two hundred and fifty thousand gold dollars of legal weight and fineness, to be known as the Louisiana Exposition gold dollar, struck in commemoration of said exposition. The exact words, devices, and designs upon said gold dollars shall be determined and prescribed by the Secretary of the Treasury, and all provisions of law relative to the coinage and legal-tender quality of all other gold coin shall be applicable to the coin issued under and in accordance with the provisions of this Act. And in payment of

Deduction from total so much of the five million dollars appropriated by said Act of appropriation vol. 3, p. March third, nineteen hundred and one, to aid in carrying forward said Louisiana Purchase Exposition, the Secretary of the Treasury shall pay said two hundred and fifty thousand gold dollars so coined as aforesaid to the said Louisiana Purchase Exposition Company, subject to all the provisions of said Act, except that payment of said gold dollars may be made at any time upon the request of said exposition company, and upon said company filing with the Secretary of the Treasury a bond in a sum sufficient to protect the

Government and satisfy him as to the future performance of all the conditions under which said five million dollars so appropriated is to paid to the said exposition company: And provided further, That the proviso of section twenty-one of said Act, approved March third, nineteen hundred and one, be amended so as to read as fol-

lows: 'Provided, That the branch office authorized hereby, if the national bank vol. 31, same shall be a branch of a national bank, shall not be operated for national bank vol. 31, a period longer than three years, beginning not earlier than July first, nineteen hundred and two, and closing not later than July first, nineteen hundred and five: 'And provided further, That the Secretary of the Louisiana Purchase Exposition Commissionshall hereafter receive

Salary of secretary. a salary of four thousand dollars."

CHAP. 1369, 1901-1902.—An Act Temporarily to provide for the administration of the affairs of civil government in the Philippine Islands, and for other [Public-No. 235.] July 1, 1902, purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### COINAGE.

Establishment of a mint at Manila SEC. 76. That the government of the Philippine Islands is hereby authorized to establish a mint at the city of Manila, in said islands, authorized. for coinage purposes, and the coins hereinafter authorized may be coined at said mint. And the said government is hereby authorized to enact laws Proviso.

United States laws United States relating to mints and coinage, so far as applicable, are hereby extended to the coinage of said islands.

Coinage of subsidi
Sec. 77. That the government of the Philippine Islands is necessary for such establishment: Provided, That the laws of the applicable.

Coinage of subsidiary silver coins. authorized to coin, for use in said islands, a coin of the denomination of fifty centavos and of the weight of one hundred and ninety-two and nine-tenth grains, a coin of the denomination of twenty centavos and of the weight of seventyseven and sixteen one-hundredths grains, and a coin of the denomination of ten centavos and of the weight of thirty-eight and fifty-eight one-hundredths grains, and the standard of said silver coins shall be such that of one thousand parts by weight nine hundred shall be of pure metal and one hundred of alloy, and the alloy shall

SEC. 78. That the subsidiary silver coins authorized by the preceding section shall be coined under the authority of the government of the Philippine Islands in such amounts as it may determine, with the approval of the Secretary of War of the Purchase of bullion. United States, from silver bullion purchased by said government, with the approval of the Secretary of War of the United States:

Proviso.

Recoining Spanish Provided, That said government may in addition and in its discretion recoin the Spanish Filipino dollars, etc.

Provided, That said government may in addition and in its discretion recoin the Spanish Filipino dollars and subsidiary silver coins issued under the authority of the Spanish Government for use in said islands into the subsidiary coins provided for in the preceding sections at such rate and under such regulations as it may prescribe, and the subsidiary silver coins authorized by this section shall be legal tender in said islands to the amount of ten dollars.

SEC. 79. That the government of the Philippine Islands is also authorized to issue minor coins of the denominations of one-half centavo, one centavo, and five centavos, and such minor coins shall be legal tender in said islands for amounts not exceeding one dollar. The alloy of the five-centavo piece shall be of copper and nickel, to be composed of three-fourths copper and one-fourth nickel. The alloy of the one-centavo and one-half centavo pieces shall be ninety-five per centum of copper and five per centum of tin and zinc, in such proportions as shall be determined by said government. The weight of the five-centavo piece shall be seventy-seven and sixteen-hundredths grains troy, and of the one-centavo piece eighty grains troy, and of the one-half-centavo piece forty grains troy.

SEC. 80. That for the purchase of metal for the subsidiary and Purchase of metal. Purchase of metal. minor coinage, authorized by the preceding sections, an appropriation may be made by the government of the Philippine Islands from its current funds, which shall be reimbursed from the coinage under said sections; and the gain or seigniorage arising therefrom shall be paid into the treasury of said Islands.

SEC. 81. That the subsidiary and minor coinage hereinbefore Place of coinage op- authorized may be coined at the mint of the government of the Philippine Islands at Manila, or arrangements may be made by the said government with the Secretary of the Treasury of the United States for their coinage at any of the mints of the United States, at a charge covering the reasonable

cost of the work.

SEC. 82. That the subsidiary and minor coinage hereinbefore Devices and inscriptions to be prescribed by tions. the government of the Philippine Islands and such devices and inscriptions shall express the sovereignty of the United States, that it is a coin of the Philippine Islands, the denomination of the coin, and the year of the coinage.

SEC. 83. That the government of the Philippine Islands shall Redemption and re-have the power to make all necessary appropriations and all proper issue of defective coins, regulations for the redemption and reissue of worn or defective etc. coins and for carrying out all other provisions of this Act relating

to coinage.

#### MONETARY STATISTICS OF FOREIGN COUNTRIES.

The statistics of the production and coinage of the precious metals, imports and exports of gold and silver, amount of bank and government notes, both covered and uncovered, of the different foreign countries, published annually in the reports of this Bureau, are obtained directly from the governments of such countries by the representatives of the United States accredited to them.

A list of the interrogatories covering the points on which information is sought from the governments of foreign countries is sent yearly to the United States ambassadors and ministers through the Department of State, and the replies in the form of reports are forwarded directly to the Bureau of the Mint.

The interrogatories for 1901 are as follows:

1. What was the amount of gold coined during the calendar year 1901 by denominations and values? What amount of this was recoinage? Domestic and foreign

coins melted given separately.

2. What was the amount of silver coined during the calender year 1901 by denominations and values? What amount of this was recoinage? Domestic and foreign coins melted given separately. If any of this was executed at foreign mints, please give separate statement.

3. Was any coinage executed for other governments during the year 1901? If so,

state character and amount of same.

4. What was the weight of fine gold used in the industrial arts during the calendar year 1901?

5. What amount of this was new gold, what amount old gold, and what amount coins?

- 6. What was the weight of fine silver used in the industrial arts during the calendar year 1901?
- 7. What amount of this was new silver, what amount old silver, and what amount coins?
- 8. What was the import and export of gold during the calendar year 1901? (Coin, bullion, and ore, as well as their weight and value, should be given separately, if possible.) If practicable, give imports and exports by countries.

9. Same question as to silver.

- 10. What was the total import of United States gold coin during the year 1901?
  11. What was the total import of gold from the United States, direct, in 1901?
  12. What was the amount of United States gold coin deposited at the mints and
- melted?
- 13. What was the weight expressed in kilograms fine, and the value of the gold produced from the mines of the country during the calendar year 1901?

  14. Same question as to the gold product of the colonies of the country, naming

them separately.

15. What was the weight expressed in kilograms fine, and the value of the silver produced from the mines of the country during the calendar year 1901? (In answering this interrogatory, state whether the value given is commercial or coining value.)

16. Same question as to the silver product of the colonies of the country. (State whether the value given is commercial or coining value.)

17. What was the weight and what the value of the output of gold from the refineries of the country during the year? Give the sources of this output if practicable.

18. Same question as to silver.

19. What, approximately, was the stock of gold coin and bullion in the country at the close of the calendar year 1901? Give stock in public treasuries, and banks, and in circulation, separately.

- 20. Same question as to silver.21. What was the amount of Government notes outstanding at the end of the year 1901?
- 22. What was the amount of bank notes outstanding at the end of the year 1901? 23. What was the amount of Government notes outstanding not covered by legaltender gold and silver coin or bullion at the end of the year 1901?

24. What was the amount of bank notes outstanding not covered by legal-tender

gold and silver coin or bullion at the end of the year 1901?
25. What was the actual currency of the country, gold, silver, or inconvertible paper?

26. Is gold at a premium as compared with the actual currency of the country?

if it is, what was the highest, lowest, and average premium during the year 1901?
27. What was the highest, lowest, and average rate of exchange on London during

the year 1901? Give this by months if practicable.

28. Were any laws passed during the year 1901 affecting the coinage, issue, or legaltender character of the metallic or paper currency? If so, please forward copies of

29. Is there a report published on the operations of the mint? If so, please forward

a copy of the same: also a report of the department of mines for 1901.

The replies to interrogatories, which are given in full in the appendix, are indicated by the numbers of the questions.

In the list of questions propounded to foreign Governments for the

calendar year 1901 were the following:

What was the total import of United States gold coin during the year? What was the total import of gold from the United States direct in 1901?

What was the amount of United States gold coin deposited at the mints and melted?

The following table shows the countries from which answers to these three interrogatories were received, the amount of United States gold coin imported by them, and the value of the United States gold coin melted at their mints:

•

XL.-MONETARY STATISTICS OF FOREIGN COUNTRIES.

## CURRENCY IN THE YUKON.

Consul H. D. Saylor reports from Dawson City, April 29, 1902, that a recent order in council changes the rate of royalty on the gold output of the Yukon territory. The present rate is 5 per cent on all the gold produced by any individual exceeding a gross output of \$5,000 per year. It is now intended to reduce the royalty to  $2\frac{1}{2}$  per cent, with no exemption. The consul explains that gold dust is generally used in that section to liquidate debts, and merchantable gold dust, or dust thoroughly cleaned, is worth, on an average, \$16 per ounce. Commercial dust is understood to mean a mixed dust of different creeks, adulterated with black sand or crushed white quartz, which is worth from \$14 to \$15 per ounce. Every practical miner will, if his dust be above the average in value, sell it to the bank, buy commercial dust at an average of \$15 per ounce, and pay his creditors with it at the rate of \$16 per ounce. The merchant, on the other hand, receives for the dust, on exchanging it for currency, only about \$14.75 per ounce. As the large commercial houses are mainly American and buy their goods in the United States, they will be obliged, under the new order, to lose not only the discount of \$1.25 on the dust, but pay the export tax as well; hence they are endeavoring to force the dust out of circulation. Already the mechanics in many trades have refused to accept gold dust for wages, and are now paid in currency. In order to put the territory on a currency basis, if possible, the merchants have decided to accept, after May 1, 1902, merchantable dust at \$15 per ounce, the merchant to pay the  $2\frac{1}{2}$  per cent export tax.

# REPORT OF THE COMPTROLLER OF THE CURRENCY.

# TREASURY DEPARTMENT, OFFICE OF THE COMPTROLLER OF THE CURRENCY, Washington, December 1, 1902.

Sir: In compliance with the requirements of section 333 of the Revised Statutes of the United States, the fortieth annual report of the operations of the Currency Bureau for the year ended October 31, 1902, is submitted herewith.

#### CONDITION OF NATIONAL BANKS.

The resources and liabilities of the banks in active operation, as shown by reports submitted during the past year, appear in detail in the following table:

Abstracts of Reports of Condition of National Banks in the United States from December 10, 1901, to September 15, 1902.

Since the last report to Congress statements of condition have been received from national banking associations on five dates as hereinbefore set forth. On September 15, 1902, reports were submitted by 4,601 associations, with aggregate resources of \$6,113,928,912.50. The loans of the associations, representing over 50 per cent of their resources, amounted to \$3,280,127,480.69. The amount of bonds on deposit as security for circulation was \$324,253,760. Bonds on deposit as security for public funds aggregated \$124,685,150, and the banks held in their vaults other securities of a like character to the amount of \$8,008,100. The investments in other bonds, stocks, and securities aggregated \$493,109,726.57; bank premises, furniture, and fixtures, \$92,652,268.87; funds on deposit with approved reserve agents, \$465,640,578.36; with other national banks, \$264,616,195.02, and with State banks and bankers, \$89,993,517.55. In addition to specie,

amounting to \$366,236,120.02, legal tenders, \$141,757,618, bills of other banks, \$22,861,873, the associations held exchanges for clearing

houses to the amount of \$327,762,581.07.

Capital stock paid in aggregated \$705,535,417, surplus and undivided profits \$326,393,953.66 and \$169,216,512.03, respectively. The outstanding note issues were \$317,991,809. Funds to the credit of depositors reached the highest point in the existence of the system, \$3,209,273,893.93. United States deposits and deposits of U. S. disbursing officers were \$117,097,769.59 and \$6,846,033.85, respectively. There was due to approved reserve agents, other national banks, State banks and bankers, trust companies, and savings banks, \$1,200,341,233.39. The liabilities on account of notes and bills rediscounted and bills payable were \$9,041,080.58 and \$24,859,807.78, respectively.

#### LOANS AND DISCOUNTS.

In the appendix to the annual report of the Comptroller of the Currency, Table No. 72, will be found a classification of the loans and discounts made by national banks in the reserve cities and in the States and Territories on September 15 last. The aggregate volume is \$3,280,127,480, classified as follows:

On demand, paper with two or more individual or firm names, \$237,322,021; on demand, secured by stocks, bonds, etc., \$706,854,833; on time, paper with two or more individual or firm names, \$1,176,416,533; on time, single-name paper (one person or firm), \$517,149,077; on time, secured by stocks, bonds, mortgages, etc., \$642,385,016.

The loans and discounts of the national banks in the city of New York on September 15 aggregated \$607,058,485.12, of which \$6,207,375.80 was demand paper with one or more individual or firm names; \$263,-775,891 demand paper secured by stocks, bonds, etc.; \$118,235,347.96 time paper with two or more individual or firm names; \$86,119,928.46 time single-name paper, and \$132,719,941.90 on time, secured by stocks, bonds, mortgages, etc.

The average monthly rates for money in New York, January to

October, 1902, were as follows:

	Month.	Ca	Il loans.	Prime commer- cial paper.
February March April May June July August September			Per cent. 4110 214 415 321 415 415 415 415 415 415 415 415 415 41	Per cent.  42

#### RESERVE.

The deposits on which reserve was required amounted to \$3,844,-365,538.57. The banks held in cash with reserve agents and in redemption fund \$989,433,995.26, but the available reserve—that is, the proportion of deposits with reserve agents, not exceeding the percentage of reserve required after deducting the redemption fund and cash on hand—amounted to \$804,333,904.09, which was \$17,563,177.76 in excess of the legal requirement, being an average reserve of 20.92 per cent. The banks located in the central reserve cities, New York, Chicago, and St. Louis, held a reserve of \$250,684,716.24 on deposits amounting to \$1,040,587,878.79, an average of 24.09 per cent. The average reserve of New York City banks was 24.70, of Chicago banks 21.89, of St. Louis 24.15. The banks located in other reserve cities held \$258,045,769.41 against deposits of \$1,060,571,076.74, the average reserve being 24.33 per cent. Banks located outside of the reserve cities held reserve funds to the amount of \$295,603,418.44, or 16.91

per cent, on deposits aggregating \$1,743,206,583.04.

While there has been no change in the method of calculating the reserve of any individual bank, the form of reporting the reserve in the abstracts issued subsequent to each call was changed, beginning with the April 30 statement. Prior to that date the percentage of legal reserve held to deposits was not shown, but merely the percentage of cash in bank, redemption fund, and amount due from approved correspondents. Corresponding information is still shown in the reserve tables, but the percentage of legal reserve held is based on the amount of specie and legal tenders in bank, the redemption fund and the amount on deposit with reserve agents, not in excess of the legal limit available. As illustrating the difference resulting from the change, it is shown that while banks in reserve cities, exclusive of central reserve cities, by the former method of computation, held a reserve of 27.64 per cent, their legal reserve was but 24.33 per cent.

From September 30, 1901, to September 15, 1902, there was an increase of \$418,581,617.54 in the aggregate resources of the reporting banks, the principal items of increase being, loans and discounts, \$261,511,562.29; U. S. bonds, \$12,570,520; due from national and other banks, \$35,217,372.29. There was an increase in capital stock of \$50,193,537, in surplus and other profits of \$65,048,357.81, and

in individual deposits of \$271,520,660.60.

Comparing conditions on September 30, 1892, with those shown in the last report, it will be seen that the number of active associations has increased from 3,773 to 4,601, or a net increase of 828. The aggregate resources of the associations increased during the decade \$2,603,834,015; loans and discounts, \$1,109,086,393; bonds on deposit as security for circulation, \$160,978,460, and specie and legal-tender notes, \$157,119,741 and \$37,489,673, respectively. While the capital of the associations increased only to the extent of \$18,962,402, the surplus and undivided profits are now greater than in 1892 by \$155,086,287. The volume of individual deposits increased from \$1,765,422,984 to \$3,209,273,894, or nearly 82 per cent. While the outstanding circulation has increased \$174,568,511, or about 122 per cent, there was no material increase until subsequent to March 14, 1900, the date of the act authorizing the issue of circulation to the par value of bonds on deposit.

#### BONDS AND CIRCULATION.

At the close of March 13, 1900, the day preceding the approval of the act authorizing the issue of national bank circulating notes to the par value of bonds on deposit, the Treasurer held securities for that purpose to the amount of \$243,651,420; on October 31, 1901, he held \$329,833,930; on October 31, 1902, \$338,352,670, of which approximately 95 per cent were in 2 per cent consols of 1930.

The amounts of each class of bonds on deposit to secure circulation on dates named from March 13, 1900, are shown in the following table:

Class.	Mar. 13, 1900.	Oct. 31, 1900.	Oct. 31, 1901.	Oct. 31, 1902.	
Loan of 1908–1918, 3 per cent. Funded loan of 1907, 4 per cent Loan of 1925, 4 per cent. Loan of 1904, 5 per cent. Total	243, 651, 420	301, 123, 580	329, 833, 930	338, 352, 670	

During the year 1902 circulating notes were issued to new associations, to replace redemptions, and to banks increasing their issues, in the sum of \$133,309,440, of which notes of the denomination of \$5 amounted, approximately, to \$25,000,000; \$10, \$57,000,000; \$20, \$38,000,000; \$50, \$4,000,000, and \$100, \$8,000,000.

The amount of each denomination outstanding at the close of the year and on prior dates indicated is shown in the following table:

Denominations.		Mar. 13, 1900.	Oct. 31, 1900.	Oct. 31, 1901.	Oct. 31, 1902.

		<u> </u>		<u> </u>	

The volume of circulating notes issued from December, 1863, to October 31, 1902, was \$2,630,795,575, of which \$2,250,397,465 has been redeemed. During the past year there was received for redemption at the redemption agency of the Department notes amounting approximately to \$175,000,000, of which \$57,000,000 were in good condition and returned to the banks of issue, and the balance redeemed and destroyed. Of the total amount sent to the Department for redemption, \$145,000,000, or over 80 per cent, came from the cities of New York, Boston, Chicago, Philadelphia, and St. Louis, and nearly 50 per cent (\$85,000,000) from the city of New York alone. The cost of assorting this volume of notes, including transportation charges, was 92.444 cents per \$1,000. The aggregate cost of redemptions for the year was \$153,796.33. In addition to this expense, the banks paid \$1,633,309.15 semiannual duty on circulation, \$57,625 for plates from which notes were printed, and \$307,296.63 examiners' fees, and \$1,833,430.79 tax on capital and surplus, making a total expense of \$3,985,457.90.

At the close of the report year there were 11 banking associations in operation, with an aggregate capital of \$5,660,000, and with bonds deposited with the Treasurer to the amount of \$340,000, which had not

issued circulating notes. Included in the number are some associations which never have availed themselves of the privilege of issuing notes.

#### ORGANIZATION OF NATIONAL BANKS.

The act of 1863 provided for the organization of national banking associations to continue in operation for the period named in their articles of association, but not for a longer period than twenty years from February 25 of that year. Under the provisions of this act 488 associations were organized, of which 273 are still in existence.

On June 3, 1864, the national-bank act of 1863 was repealed and reenacted with certain important amendments. Associations under this act have been incorporated to the number of 5,173, of which 3,607

are in active operation.

The act of 1870 authorized the organization of banks whose notes were redeemable in gold. Only 10 associations of this character were organized, 7 of which are still in operation; but were converted into currency banks under authority of the act of February 14, 1880. Three

of these associations were closed by liquidation.

The last amendment affecting the organization of national banking associations formed a portion of the act of March 14, 1900, and empowered the Comptroller of the Currency to authorize the organization of banks with minimum capital of \$25,000 in places having population not exceeding 3,000. From the date of the passage of the act to October 31 last there has been organized 805 associations with capital less than \$50,000, generally with \$25,000, the minimum amount authorized under that act. One of the banks of this class was placed in charge of a receiver and 13 in voluntary liquidation, leaving 791 in active operation.

Organizations, liquidations, failures, and number of banks in active operation at the close of the report year are shown in the following

table:

Act of—	Organized.	In volun- tary liqui- dation.	Insolvent.	Active.
1863 1864 1870 1900	488 5,173 10 805	180 1,215 3 13	35 351 . 1	273 3,607 7 791
Total	6,476	1,411	387	4,678

From March 14, 1900, to October 31, 1902, there were organized 1,212 associations, with total capital of \$70,159,500, and bond deposit as security for circulation of \$17,321,550. Banks to the number of 407, with capital of \$49,060,000, were organized under the provisions of the act of 1864, and 805, with capital of \$21,099,500, under the act of March 14, 1900.

Organizations by classes, States, and geographical divisions during the period named are shown in the following table:

Section 5154 of the Revised Statutes of the United States provides, in part, that any bank incorporated by special law or organized under a general law of any State may become a national banking association upon execution of articles of association and organization certificate by a majority of the directors of the State bank, upon authority of shareholders representing two-thirds of the stock. During the period covered by the foregoing table, 158 State banks, with capital of \$11,490,000, were converted into national banking associations, of which 107, with capital of \$2,835,000, were of the class authorized by the act of March 14, 1900, and 51, with capital of \$8,655,000, under authority of the prior act. While the act cited provides that the capital of any State bank converted into a national bank shall be the same as it existed immediately before conversion, the law is construed as prohibiting conversion with a less amount of capital than that required by a bank of primary organization.

Where a bank with capital less than the necessary amount desires to convert, it is required to increase the capital to the requisite amount under the laws of the State, prior to the execution of the articles of association and organization certificate. When a State institution, to be converted, has filed with the Comptroller all the papers incident thereto and deposited the requisite amount of bonds as security for circulation, an examination is ordered to determine whether the assets are of a character which a national-banking association can lawfully If assets, the holding of which contravenes the provisions of the national-banking law, are found, their disposition is required prior to the issue of certificate authorizing the beginning of business. frequently found advisable to place the State bank in liquidation and organize anew, as is required in the case of the organization of a bank to succeed an unincorporated bank. This course has many advantages in that it enables the organizers to obtain more desirable shareholders, more choice assets, and to begin business with the amount of capital required by law actually paid in cash.

State or private banks reorganized as national banking associations since March 14, 1900, numbered 363, with aggregate capital of \$20,935,000. Of these banks, 242, with capital of \$6,715,000, were with individual capital of less than \$50,000, and 121, with capital of

\$14,220,000, of the larger class.

Banks of primary organization numbered 691, with total capital of \$37,734,500, of which 456, with capital of \$11,549,500, were of the class authorized by the act of March 14, 1900, and 235, with capital of \$26,185,000, with individual capital of \$50,000 or over.

In the following table is given a summary of national-bank organi-

zations from March 14, 1900, to October 31, 1902:

Classification.	Co	nversions.	Reor	ganizations.	Prin	nary organi- zation.	Total.		
	No.	Capital.	No.	Capital.	No.	Capital.	No.	Capital.	
Capital less than \$50,000 Capital \$50,000 or more	107 51	\$2,835,000 8,655,000	242 121	\$6,715,000 14,220,000	456 235	\$11,549,500 26,185,000	805 407	\$21,099,500 49,060,000	
Total	158	11,490,000	363	20, 935, 000	691	37, 734, 500	1,212	70, 159, 500	

In the year ended October 31, 1902, 470 banks were chartered, with \$31,130,000 capital, of which 302, with capital of \$7,905,000, were of the smaller class, and 168, with capital of \$23,225,000, with individual capital of \$50,000 or over. There was an average of one and a half banks organized on every secular day of the year.

On October 31, 1901, the authorized capital stock of national banking associations in active operation was \$663,224,195, and on October 31, 1902, \$713,435,695. The net increase was, therefore, \$50,211,500, which, however, includes \$365,000, the capital of banks in liquidation whose bonds have not been withdrawn and the stock account closed.

The increase of capital by newly organized associations was \$31,715,000, including the capital of new banks, which increased their capital subsequent to organization and by old associations increasing their capital \$43,506,500. During the year 72 associations were closed by voluntary liquidation or expiration of charter, the capital of the banks being \$22,190,000. Banks liquidated under section 5220, United States Revised Statutes, numbered 63 with capital of \$21,025,000, and expirations of corporate existence, 9 with capital of \$1,165,000. The reduction of capital by the action of shareholders of active associations amounted to \$3,135,000, and by insolvent banks, \$50,000.

#### SHAREHOLDERS OF NATIONAL BANKS.

In Table No. 10 of the appendix to the annual report of the Comptroller of the Currency is shown the number of shareholders and shares of stock held by shareholders in banks located in each State and geographical division, as appears from the copies of lists of shareholders filed in this office as of the first Monday of July last. The number of shareholders was 330,124 and the number of shares of stock 8,001,433. In the case of a limited number of banks which were conversions of State institutions, the par value of shares ranges from \$10 to \$200. The par value of stock of banks of primary organization is uniformly \$100, and this also is the value of the stock of a majority of the converted banks.

#### VOLUNTARY LIQUIDATION.

#### EXPIRATION OF CORPORATE EXISTENCE AND REORGANIZATION.

Within a period of three years subsequent to the establishment of the national banking system, 14 associations had been placed in voluntary liquidation under the provisions of section 5220 of the Revised Statutes of the United States—that is, by vote of shareholders owning two-thirds of capital stock. Of the number, however, 3 were reorganized under similar titles and 1 was absorbed by another association.

During the existence of the system, year ended October 31, 1902, 1,288 associations, with aggregate capital of \$210,065,060, were liquidated under authority conferred by the act cited, of which, however, 136, with capital of \$38,555,000, were reorganized under similar titles. It is understood that some of the banks which were placed in liquidation were absorbed by other associations, but the records of this office do not contain sufficient information on this point to enable even an approximate estimate to be made of the number.

Under the provisions of the act of February 25, 1863, 98 banks were organized, whose corporate existence ran for a period of but 19

years, in consequence of which, their charters expired in 1882. Up to the close of the report year, 1902, 123 banks, with aggregate capital of \$18,979,500, reached the termination of their corporate existence and were closed under the provisions of section 7 of the act of July 12, 1882. Of the number, 75, with capital of \$12,557,900, reorganized under similar titles. Summarizing the foregoing, it appears that, under the provisions of both acts cited, 1,411 banks, with capital aggregating \$229,044,560, passed out of the system.

#### LIQUIDATION AND CONSOLIDATION.

The national currency act, which follows closely the material features of the banking law of the State of New York, contains no statutory provision authorizing the consolidation of banking associations in the manner provided by the New York law. The law of that State empowers shareholders owning at least two-thirds of the capital stock of the interested corporations to consent in writing to consolidation, and authorizes the directors of each corporation to enter into an agreement for consolidation, prescribing the terms and conditions, the name of the new or consolidated bank, the directorate, term of charter, manner of converting shares of the old into shares of the new or consolidated bank. When such agreement has been filed with and approved by the State superintendent of banks, the consolidated corporations become a single corporation, with the same franchises, rights, liabilities, etc., of the constituent corporations.

The act provides that dissenting shareholders shall be paid the value of their stock, and the stock so surrendered held and disposed of by

the new corporation for its own benefit.

The only reference to the subject of consolidation in the national-bank act appears in the act approved July 14, 1870 (U. S. Rev. Stat., sec. 5223), and is to the effect that any association closing its affairs (by voluntary liquidation), under authority of law, for the purpose of consolidating with another association, shall not be required to deposit lawful money to provide for its outstanding circulation, but its assets and liabilities shall be reported by the association with which it is in

process of consolidation.

By implication, this provision would appear to authorize the assignment of bonds on deposit with the Treasurer of the United States to secure the circulation of the liquidating bank to the absorbing association, and require the maintenance of a redemption fund for the outstanding issues of the bank which has gone into liquidation. With the redemption of issues of the closed bank would follow the issue of a like amount of notes of the absorbing association. As a matter of fact, this permissive feature in full has never been availed of by an association absorbing the business of one placed in liquidation, as it has been found more advantageous to deposit lawful money to redeem the notes of the liquidated bank and to simultaneously issue new notes of their own on bonds deposited.

Consolidation therefore can only be effected by one of the following

methods:

First. Without an increase of capital the directors of the absorbing bank may enter into a contract with the directors or agents of the liquidated association to purchase its assets, assume liabilities to depositors and other creditors, and to pay to shareholders for their

stock the value of assets purchased in excess of liabilities to depositors

and other creditors, less any expenses incident to liquidation.

Second. By increasing the capital stock of the absorbing bank to an amount equal to that of the liquidated bank, the additional shares may be sold to stockholders of the latter, consent thereto having been previously obtained from shareholders of the absorbing association. As the law is construed as requiring the payment of capital, original or on account of increase, in money, and not in "evidences of debt," the right to accept assets representing stock of the closed bank, and to issue therefor certificates in the continuing bank is not recognized. In every such case shareholders of the closed association are paid the value of their stock, the proceeds being available in payment of shares to which they may be entitled in the absorbing corporation.

The preemptive right of shareholders to participate pro rata in an increase is well recognized, and it is generally incorporated in the articles of association. In order to avoid possible litigation, the course usually pursued is to secure waivers of right to participate from shareholders of record. Provision having thus been made for shareholders of the closed bank, the directors of the continuing bank are at liberty to contract for the purchase of assets and the assumption of liabilities

to depositors and other creditors of the liquidated bank.

Third. The remaining method, and one occasionally pursued, is to place the interested banks in voluntary liquidation, under section 5220 of the United States Revised Statutes, organize anew, and acquire, in the manner hereinbefore outlined, the business of the liquidating associations. This enables the incorporators to place the stock as they

may determine.

In view of the foregoing it is recommended that section 5223 of the Revised Statutes of the United States be amended to provide, in effect, for consolidation of national banks on the lines of the law of the State of New York, except that the corporate existence of the closing bank shall be terminated as provided by section 5220, and that where the capital stock of the absorbing bank is increased for the purpose in conformity with the provisions of section 5142 that the new stock may be issued to shareholders of the closing association upon surrender and cancellation of their old shares at the book value of the stock of the absorbing bank, but not less than par. It is also suggested that in the event of the acquirement of business of a closed national banking association by another association, but without the consolidation of shareholders' interests, that upon increase of the capital stock of the absorbing bank for the purpose, directors of the association shall be authorized by vote of shareholders representing twothirds of the stock to sell the additional shares as the interests of the association may demand, regardless of the recognized preemptive right of shareholders to participate pro rata when an increase is effected for purposes other than of consolidation.

The consolidation of business interests, in general, throughout the country has had its counterpart in the banking business, as evidenced by liquidations of national banks during the past year for consolidation either with institutions of the same class or State banks or trust companies. Of the total number of liquidations effected the business of 46 associations was absorbed by other national banks, 11 by State banks or trust companies, and but 15 closed to go out of business. All of the banks liquidated in New York City, Chicago, St. Louis,

Albany, Boston, Baltimore, Cleveland, Detroit, Omaha, Newark, N. J., and Lowell, Mass., were absorbed by other national banks. The two associations closed in the city of New Orleans were absorbed by trust-

companies.

In New York City the National Commercial Bank was absorbed by the Broadway National, and the Ninth National by the Citizens' National. The Merchants' National and Albany City National, of Albany, were absorbed by the National Commercial Bank. In Chicago the Merchants' National was absorbed by the Corn Exchange National, and the Metropolitan National by the First National. The Continental National Bank of St. Louis was absorbed by the National Bank of Commerce. In Boston six associations were closed, the National Shawmut absorbing the Third and the National Bank of the Commonwealth; the National Suffolk, a reorganization of the old Suffolk National, acquired also the business of the Washington National; the State National absorbed the National Hide and Leather, and the National Bank of Redemption the business of the Shoe and Leather National.

In the city of Lowell, Mass., the First, the Merchants, and the Railroad were liquidated and reorganized as the Union National. There was but one liquidation in the city of Baltimore, the Continental National, the business of which was absorbed by the National Bank of Commerce. The Century and the Metropolitan National banks of Cleveland were liquidated, the former being absorbed by the Colonial National and the latter by the American Exchange National. The Preston National Bank of Detroit was closed for the purpose of amalgamation with the Commercial National. The Omaha National Bank acquired the business of the National Bank of Commerce of that city. The Second and the Newark City National banks of Newark, N. J., were closed, the business of the former being absorbed by the Union National and that of the latter by the National Newark Banking Company.

As a result of some of the amalgamations the stock of the absorbing bank was increased for the purpose of providing for the shareholders of the closed institutions, but as the evidence of increase in the capital of an association is confined to report of action by shareholders and payment of additional capital, it is not known to what extent increased capital has been sold to those interested in the associations which

were closed for consolidation.

## EXTENSION OF CORPORATE EXISTENCE OF NATIONAL BANKING ASSOCIA-TIONS.

The act of July 12, 1882, provided that any national banking association organized under the act of February 25, 1863, or subsequent acts, may at any time within two years next previous to the date of expiration extend its corporate existence for a term of not more than twenty years by amending the articles of association; that the amendment shall be authorized by the consent, in writing, of shareholders owning not less than two-thirds of the capital stock; that the board of directors shall cause such consent to be certified to the Comptroller of the Currency accompanied by an application for approval of the amendment; that such amended articles shall not be valid until the Comptroller shall

give his certificate that the association has complied with all the provisions required to be complied with; that upon receipt of the application and certificate of the association a special examination shall be made to ascertain the condition of the association, and that if the condition is shown to be satisfactory, by the special examination or otherwise, certificate of approval of extension shall be granted.

Section 5 of the act provides that any shareholder not assenting to amendment for extension shall give notice in writing to the directors within thirty days from date of the certificate of approval of his desire to withdraw, in which case he shall be entitled to receive from the bank the value of the shares so held by him, to be ascertained by an

appraisal.

The act cited is construed as conferring discretion upon the Comptroller as to the date on which he shall issue certificate approving extension of the corporate existence of a national banking association which has complied with the provisions of law in relation to the amendment of the articles; that is, while the act apparently authorizes the issue of a certificate at any time within two years prior to the date of expiration of corporate existence, it is held that the approval of the extension must be based upon the condition of the association as shown from the report of an examination made a short time prior to expiration of the original charter, and that, as the right of a shareholder to give notice of intention to withdraw is required to be made within thirty days from date of granting of extension, the certificate of extension is issued on or about the date of expiration of charter.

There is nothing in the law relating to extension which requires a meeting of stockholders or the giving of notice to them of the date of termination of corporate existence. The position is taken that shareholders are presumed to know the limit of the corporate existence of the association in which they are interested, and that they will conclude that their right of dissent to extension begins to run from the date of issue of certificate of extension; that is, from the date of termination of the original charter. Under the law as it exists, without the initiative is taken by the board of directors or shareholders desiring to effect an extension, the corporate existence of an association will

It is within the power of directors controlling a two-thirds interest to effect the necessary amendment for extension without advising the minority of their purpose, and were the Comptroller's certificate to be issued at a long time (within two years) prior to the date of expiration, minority shareholders might have no knowledge of the conditions and thus forfeit their rights to give notice of intention to withdraw. The law does not require the publication of notice of extension of charter, although it has been the policy of the office to require the publication of the certificate for a period of at least thirty

expire by limitation without action by stockholders.

days from date of issue.

In the interest of stockholders of national banks the acts of July 12, 1882, and April 12, 1902, should be amended to provide for amendment of articles of association in relation to extension in the same manner as other amendments of the articles are effected; that is, by calling a meeting of shareholders, notice to be given by publication or mail thirty days in advance, unless otherwise provided by the articles

of association or the by-laws, and the adoption of a resolution to extend for an additional period of twenty years. Such an amendment to the acts might also well be supplemented by a provision for publication of certificate of extension, and that the certificate shall not be issued until the day on which the old corporate existence ends, except in the event of termination of charter on Sunday or holiday, in which event

the certificate should be issuable on the day prior.

The condition of an association proposing to extend can be satisfactorily ascertained only by an examination made within two or three months prior to termination of charter. Immediately upon receipt of report of examination the office is able to determine whether certificate of extension will be issued and to advise the bank in interest of An association which has been in operation for a period of twenty years is occasionally found to have acquired a certain amount of undesirable assets, some of which may be held in contravention of the provisions of the banking law. Losses and assets of the character referred to are, as a rule, required to be disposed of prior to approval

of request for extension of charter.

On and after July 14, 1902, the corporate existence of existing associations organized in 1863 and extended under the act of July 12, 1882, terminated by limitation. On April 12, 1902, the act was approved empowering the Comptroller to issue certificates of extension to associations reaching the termination of their second corporate existence. which amended their articles of association in the manner provided for extensions under the act of July 12, 1882. From July 14 to October 31, 1902, certificates approving extension for a second period were issued to 24 banks, with capital stock of \$3,665,000. The corporate The bank existence of one bank in this class expired by limitation. was succeeded by an association organized for the purpose, under another title. During the next year—that is, from November 1, 1902, to October 31, 1903, 248 associations will reach the termination of their second corporate existence, all of which, with the exception of 19, occur on February 24, 1903.

Under the act of July 12, 1882, up to October 31, 1902, the corporate existence of 1,961 associations, with capital of \$455,395,365, was extended. The charters of 169 banks, with capital of \$30,469,000, were extended during the last report year. The corporate existence of one association, organized in 1863, and of eight organized in 1882, terminated by expiration. Seven of these associations, however, were succeeded by newly organized associations with similar titles. During the year ending October 31, 1903, the charters of 174 associations will expire unless extended in conformity with the provisions of the act of

July 12, 1882.

#### INSOLVENT NATIONAL BANKS.

The Comptroller reports with satisfaction that fewer national banks have failed during the current year than during any similar period within the past thirteen years. Not only have there been fewer failures, but the total liabilities were much less.

During the year covered by this report only two failures of national banks occurred, and one bank, which went into voluntary liquidation May 20, 1897, was placed in the hands of a receiver for the purpose of collecting an assessment from the stockholders to cover a deficiency in assets the liquidation of which did not yield sufficient to pay the claims of creditors in full.

The aggregate liabilities of the two banks closed during the year were \$369,943.55 and the unsatisfied claims against the liquidating bank placed in the hands of a receiver amounted to \$138,492.82.

From April 15, 1865, to October 31, 1902, 406 banks have been placed in the hands of receivers, with aggregate liabilities amounting to \$186,731,459, against which claims were settled amounting to \$144,272,471, or 71.91 per cent. Compared with results in this respect, as shown by the report of the preceding year, there was a decrease of 3.44 per cent in the percentage of claims paid. This is largely to be attributed to the closing of the receiverships of the Spring Garden and Keystone national banks of Philadelphia, Pa., during the year. The percentage of claims paid by these trusts to liabilities was considerably below the average.

During the year the affairs of 22 receiverships were finally closed, leaving in operation on November 1, 1902, 78 trusts, of which 24 are on the inactive list awaiting the disposition, principally, of pending litigation before they can be finally terminated. The liabilities of the 22 receiverships closed during the year aggregate \$12,187,916, on which payments have been made amounting to \$7,588,730, or 62.26

per cent.

The claims proved by creditors of the 310 trusts finally closed since April 15, 1865, amounted to \$92,419,880, on which payments have been made amounting to \$66,274,058, or 71.71 per cent, the loss to creditors being approximately 28 per cent. Dividends at the rate of 100 per cent and interest in full or in part were paid by 208 banks, and the average rate of dividends paid by the total number of banks liquidated through receiverships since the beginning of the national

system including offsets and loans paid is 78.15 per cent.

Geographically, the greatest number of failures of banks which have been liquidated (80) occurred in the Western States, followed by the Middle Western States with 67, the Eastern States with 59, the Southern States with 58, the Pacific States with 30, and the New England States with 16. Creditors of banks which failed in the New England States sustained an average loss of less than 11 per cent; in the Middle Western States, 15.20 per cent; the Eastern States, 24.26 per cent; the Pacific States, 31.37 per cent; the Western States, 22.45 per cent, and the Southern States, 32.27 per cent.

The liquidation of insolvent banks, including receivers' salaries, legal expenses, etc., has been effected at an average cost of about 8.9

per cent of the total collections.

Special effort has been directed during the year to the termination of receiverships, the payments of dividends, and the reduction of expenses, and the following table shows the number that were finally closed since the date of the last report, and their capital stock, liabilities, liabilities paid, and percentage of claims paid to total liabilities.

INSOLVENT NATIONAL BANKS CLOSED DURING THE YEAR.

a Restored to solvency and resumed business.

An examination of the reports relating to the liquidation of insolvent national banking associations develops the fact that the total amount of claims proved against all trusts placed in the charge of receivers, from the date of the first failure in 1865 to October 31, 1902, aggregated \$139,389,202, and that the approximate loss was \$37,956,941. Practically the affairs of every bank which failed prior to 1892 have been finally liquidated, and in calculating the total amount of loss it has been assumed that trusts still open will be finally liquidated at an average loss not greater than 25 per cent.

For the purposes of comparison there is submitted herewith a statement of the annual (average) deposits in active national banking associations, and the ratio of annual loss sustained by creditors of insolvent national banks to the average deposits, together with the amount of claims proved and aggregate and average loss sustained by creditors.

In the appendix to the annual report of the Comptroller of the Currency will be found tables containing information in detail in regard to the failure and liquidation of each bank placed in the hands of a receiver since the beginning of the national-banking system.

During the past year there have been two notable instances of the resumption of banks which had been closed by the Comptroller and placed in the hands of a receiver. The First National Bank of Austin, Tex., closed August 3, 1901. Its total liabilities amounted to \$638,958.60, among which was the claim of \$358,208.89 for money deposited by the treasurer of the State of Texas. Through the efforts of friends of the bank the sum of \$133,000 was paid in, the bank

reorganized and taken out of the hands of the receiver. The creditors, including the State treasurer, were all paid in full and the bank restored to a solvent condition.

On June 27, 1901, the Seventh National Bank of New York was closed by the Comptroller and a receiver appointed. A reorganization was effected after a thorough investigation of the affairs of the bank, a sufficient sum of money was paid in to increase the unimpaired capital to \$1,700,000, and on November 12, 1901, the bank was reopened for business, all of the claims of the creditors being paid in full, with interest.

The Comptroller takes great satisfaction in reporting the very favorable termination of the affairs of the Chestnut Street National Bank, of Philadelphia, Pa. When this bank failed in December, 1897, its affairs were found in a very unfavorable and involved condition, and it was estimated that even with the collection of 100 per cent of the stockholders' liability, the assets of the bank would come far short of paying its liabilities in full. After the failure of the bank, through the efforts of the Comptroller of the Currency and the receiver of the bank, the former president of the bank was induced to assign to the receiver his equity in a large portion of the stock and bonds of the Philadelphia Record in the hope that something might in this way be saved to the creditors of the bank. Since the date of this assignment the affairs of the Philadelphia Record have been practically managed by the receiver of the Chestnut Street National Bank and his associate assignee of the Chestnut Street Trust Company.

In addition to managing the affairs of this property so ably and well that its earnings have been fully maintained and its value greatly increased, these two officers advanced at their own risk, without any hope or chance for profit to themselves, a very large sum of money to pay off the original indebtedness underlying the claim of the bank,

thus preserving the equity belonging to the creditors.

On May 15, 1902, the Record securities held by the receivers were sold at public auction for the sum of \$2,874,800. From the proceeds of this sale the receiver of the Chestnut Street National Bank has received the full amount of the claim of the bank, amounting to over \$1,190,000, with interest. The sum thus realized has increased the assets of the receivership so that not only will all the creditors of the insolvent bank be paid in full with interest, but the assessment paid by the stockholders will be returned to them and there will probably be a further sum realized from this and the other assets of the bank.

This is such an unusually satisfactory result of the liquidation of an insolvent bank that the Comptroller feels justified in thus calling attention to it, and wishes to commend the efficient action of his predecessor, Hon. Charles G. Dawes, Comptroller of the Currency, and particularly the ability and rare fidelity to their trusts shown by Mr. George H. Earle, jr., receiver of the Chestnut Street National Bank and assignee of the Chestnut Street Trust Company, and Mr. Richard Y. Cook, his associate assignee of the Chestnut Street Trust Company.

Though opposed by bitterly contested litigation by many of the very people whose true interests they were protecting, these men have not only steadfastly performed their duty, but have personally assumed great risks for the protection of their official trusts. The final result so fully vindicates their course that no further comment is necessary, but the Comptroller feels it is due to them to thus place the facts of the case on official record.

#### CIRCULATING NOTES OF INSOLVENT NATIONAL BANKS.

At the suggestion of and on forms submitted by Hon. Charles N. Fowler, chairman of the Committee on Banking and Currency, whose careful study and investigation of currency problems have added so much to the information gathered on this subject, there was prepared in this office a table giving in detail the essential statistics in regard to the notes of insolvent national banks. This table is given in report No. 1425, H. R. 13363, Fifty seventh Congress, but to render this information accessible in connection with the Comptroller's report it is reproduced in the appendix to the annual report of the Comptroller of the Currency, Table No. 101.

# THE NATIONAL BANKING SYSTEM.

On February 25, 1903, the national banking system will have been

in existence forty years.

The principal objects had in view by the framers of the creative law were the making of a market for the loans which the Government was making and the furnishing of bank-note currency secured by bonds which would circulate at par with Government issues and supplant the heterogeneous mass of currency then in circulation, worth par to a certain extent, but in many instances only a fraction of the nominal value.

Prior to 1863 such issues represented a large proportion of the currency of the country and from 1810 to 1842 ranged from a minimum of 48.27 per cent in 1810 to a maximum of 75.06 per cent in 1832, the average for the entire period exceeding 60 per cent. In 1843 the volume of money in the country amounted to \$148,563,608, of which \$58,563,608 represented bank notes. The percentage of bank notes on that date was 39.39, a fall from 51.13 in the year prior. From 1844 to 1863 a very nearly uniform ratio of bank notes to total money of the country was maintained, the percentage of the former averaging approximately 45. At the close of the fiscal year ended June 30, 1863, the total money in the country amounted to \$674,867,283, of which \$238,700,000 was in State bank notes, \$411,167,283 Government issues, and the balance specie.

The first issue of national-bank circulation was in December, 1863. In 1865 State-bank notes were legislated out of existence by the imposition of a prohibitive tax on their circulation. In 1867 national-bank notes formed 41.08 per cent of the money in the country, and continued at that rate, approximately, until 1871, when it rose to 43.74 per cent, amounting to about 44.71 per cent in 1872 and nearly 45 per cent in 1873. From the latter date there was a rapid annual decline to 1890, when such issues represented only a slight amount in excess of one-tenth of the circulating medium of the country. In 1893 the percentage was 12; in 1896, 13.02; declined to 11 in 1898 and 1899, but rose to 14.17 in 1900, to 14.49 in 1901, and to 14.84 in 1902. At the close of the last fiscal year, of the total money in the country, \$2,563,266,958, but \$380,476,334 was in bank-note currency.

National-bank notes do not appear to have formed as large a proportion of the circulating medium of the country as was anticipated,

the primary causes being-

(1) The volume of greenbacks (legal tenders) issued, the extensive use of instruments of credit, and enormous coinage of gold and silver. The coinage from bullion and worn and mutilated coins, from January 1, 1863, to October 31, 1902, aggregated \$2,554,798,487.42, of which \$1,777,738,637.50 was gold, \$741,024,759.50 silver dollars and subsidiary silver, and \$36,035,090.42 minor coins. The recoinage from 1863 to 1873 was very limited, but information as to the exact amount is not available. The records in the office of the Director of the Mint show, however, that from 1873 to 1902, inclusive, recoinage of gold amounted to \$58,296,863.74; of silver, \$64,199,671.12; of minor coins, \$3,652,216.15, an aggregate of \$126,148,751.01, or a fraction less than 5 per cent of the total coinage from 1863 to 1902.

(2) Restriction on issues on notes of the denomination of \$5 to one-third of the amount issuable by any association subsequent to March 14, 1900. The evident intent of Congress in incorporating this restriction of the act of March 14, 1900, was to limit the total issues of notes of that denomination to one-third of the aggregate amount issued. As a matter of fact, this proportion has not been exceeded since 1874. The year prior to the passage of the act notes of this denomination amounted to but 31 per cent of the total, declined in 1900 to 21, to

16.2 in 1901, and to 16.1 in 1902.

(3) Inelasticity, by reason of the monthly limit of the amount which may be withdrawn from circulation by depositing lawful money therefor.

Section 9 of the act approved July 12, 1882, limits the amount of lawful money which may be deposited with the Treasurer of the United States by national banks reducing their circulation to \$3,000,000 dur-

ing any calendar month.

The repeal of this provision is respectfully recommended, as its removal from the statute would, it is believed, add to the elasticity of national-bank circulation. It has served its purpose, and there does not appear to be any good reason why it should continue longer in force.

The principal causes which led to this enactment were the following: Banks reducing their circulation were not subject to assessment for the cost of transportation and redemption of their notes covered by a deposit of lawful money, there being no means of charging reducing banks with the expense of redeeming their notes until their deposit of lawful money was exhausted. The effect of this was that many banks apparently took advantage of the unrestricted privilege of reducing their circulation for the purpose of escaping the expense and trouble of redeeming their notes through the medium of the 5 per cent redemption fund, thereby unjustly imposing upon the Government and the other banks the entire burden of redeeming their notes, and after depositing lawful money to reduce their circulation immediately proceeded to increase it in a like amount, thus, while deriving the full benefit of their circulation, bore none of the expenses incident to its redemption.

The act of June 20, 1874, which conferred upon the banks the privilege of retiring their note issues at will, contemplated that such reductions would be made during periods of redundancy only and not for the purpose of throwing upon the Government and the other banks

the burden of redeeming their notes.

This abuse was one of the causes which led to the adoption of the three-million limitation in the act of July 12, 1882, and also to the incorporation in the same act of the provision that "all national banks which have heretofore made or shall hereafter make deposits of lawful money for the redemption of their circulation shall be assessed * * * for the cost of transporting and redeeming their notes redeemed from such deposits subsequent to June 30, 1881."

The effect of this latter provision was to materially reduce the average rate of assessment for redemptions of all the national banks since the passage of the act of July 12, 1882, and to place it beyond the power of reducing banks to make the Government and the other banks

bear the expense of redeeming their notes.

Another reason for the adoption of the limitation referred to was that the lawful money deposited by reducing banks for the redemption of their circulation was required to be held as a trust fund by the Treasurer of the United States, available only for redemption of notes of the banks when presented which made the lawful money deposit.

The practical operation of this law was to withdraw from circulation and lock up in the Treasury of the United States lawful money equal to the amount of national-bank notes covered by the deposit, thereby contracting the currency to that extent, as none of such deposit could be liberated until the national-bank notes were presented for redemption. On a number of occasions during the period this deposit was required to be carried as a trust fund it reached the sum of over \$100.000,000.

Subsequent legislation, however, provided a remedy for this evil. Section 6 of the act of July 14, 1890, authorized the covering into the Treasury, as a miscellaneous receipt, all balances standing with the Treasurer of the United States to the respective credits of national banks for deposits made or thereafter received to redeem their circulating notes, and provided for the redemption of such notes from the general cash in the Treasury, the Government assuming liability

therefor

Thus it will be seen that two of the principal reasons which contributed to the restrictive legislation referred to no longer prevail as a necessity for continuance of this limitation provision in the statute, leaving but one other cause then advanced as an argument for this enactment to be considered in connection with its repeal, namely, the danger and possibility of too great a contraction of bank-note currency by reason of the temptation offered the banks to avail themselves of the greater profit to be derived through withdrawal and sale of their bonds held as security for circulation, by the prevailing high premium on bonds, particularly at a time when the legitimate business needs of the country demanded an increase rather than a reduction of circulation.

Subsequent experience, however, has demonstrated that there were

very slight grounds for this apprehension.

When circulation was limited by law to 90 per cent of the par of the bonds deposited, the market value of the bonds and the 10 per cent margin over note issues were incentives to the banks to curtail their circulation whenever the premium on the bonds became exceptionally high, or whenever they needed more loanable funds, as more money was at their disposal after reducing their circulation and selling their bonds by 10 per cent plus the premium on the bonds than they had before.

The act of March 14, 1900, however, minimized the temptation to operations of this character by increasing the issue of circulation to par of the bonds, thereby giving to the banks dollar for dollar of their Since this enactment, therefore, the only incentive for banks to operate in the securities of the Government is the premium on the bonds. The volume of circulation, however, does not appear to have been materially affected by transactions of this character, either before or since the adoption of the three million limitation in the act of July 12, 1882, either in periods of stringency or redundancy of national-bank circulation.

The act of June 3, 1864, provides for the surrender by the banks of their own notes in sums of not less than \$1,000 and the return to them of a like amount of their bonds. While it was and still is within the power of the banks under authority of this provision to retire the whole amount of their note issues which may come into their possession, notwithstanding the three-million limitation in the act of July 12. 1882, the reduction of circulation through this source has been incon-

siderable.

The act of June 20, 1874, provided for a reduction of circulation by a deposit of lawful money with the Treasurer of the United States equal to the amount of the notes to be retired. While this act contained no limitation as to the amount of the lawful money which could be deposited in any one month, the records of the Comptroller's office show that during the period from June 20, 1874, to July 12, 1882, on which latter date the act was approved, limiting lawful money deposits for reduction of circulation to three million a month, this limit was not exceeded except on six occasions. In February, 1876, the lawful money deposited for this purpose amounted to \$3,739,547; in March, 1876, to \$5,000,259; in January, 1880, to \$3,375,000; in February, 1881, to \$13,954,749; in March, 1881, to \$5,740,035; and in April, 1882, to \$3,852,970, and these deposits, with the single exceptions of February and March, 1876, appear to have been due to causes other than a desire on the part of the banks to avail themselves of the premium on the bonds.

The large deposits of lawful money in February and March, 1876, may be attributed partly to a call for redemption of the 5 per cent bonds and partly to the high premium on the bonds at that time.

The large deposit of lawful money in January, 1880, was principally due to the purchase by the Government in open market of over 100 millions of 5 and 6 per cent bonds for cancellation which had previously been refunded into 4 per cents.

The \$19,694,784 of lawful money deposited in February and March, 1881, was induced by a bill under consideration in Congress to provide for the refunding of a large portion of the public debt bearing interest at the rate of 5 and 6 per cent, which matured on or about July 1 of that year. The national banks held \$210,000,000 of these maturing bonds, and this refunding bill provided that after May 1, 1881, the date of the maturity of the 5 per cent bonds, the proposed new 3 per cent bonds would be the only securities receivable for circulation, and that bonds on deposit as security for circulation upon which interest had ceased should be withdrawn within thirty days from the date interest ceased or the bank might be placed in the hands of a receiver. Other features of this bill were equally severe upon the banks, and the only alternative left them appeared to be to deposit lawful money to retire their circulation and reduce their bond deposit to the minimum. Alarmed by this proposed legislation, 141 banks deposited lawful money to reduce their circulation in order to withdraw their bonds before the bill became a law. This bill passed both houses of Congress, but was vetoed by the President on March 3, 1881.

The \$3,852,970 deposit of lawful money in April, 1882, was the result principally of the refunding operations of the Government. In 1881 the 5 or 6 per cent bonds were extended at 3½ per cent, and in 1882 these latter bonds were changed into 3 percents. The banks

held \$259,000,000 of these bonds.

The restriction against an increase in circulation within six months from the date circulation was last reduced was repealed by the act of March 14, 1900.

The limitation against a reduction of circulation in excess of

\$3,000,000 a month should also be repealed.

Bank-note circulation secured by bonds should be unrestricted except as to limiting the maximum amount of such issues to the capital of the respective banks as now provided by law. The volume of circulation should be governed by the business needs of the country. If the banks are expected to increase their note issues to meet unusual and temporary demands for more money in their respective communities, they should be as free to promptly retire the whole or any portion of such issues when the demand for money has subsided. Many banks refrain from increasing their circulation during such periods of commercial activity because of their inability to promptly retire it upon a return to normal business conditions.

A repeal of the three million limitation, it is believed, will contribute

materially to the elasticity of the currency.

(4) Insufficient profit, as evidenced by the comparatively limited amount of circulation issued subsequent to the removal of restrictions by legislative enactments on July 12, 1882, and March 14, 1900.

The act of February 25, 1863, as amended by the acts of June 3, 1864, and July 12, 1870, limited the amount of national-bank circulation issuable to \$354,000,000, to be apportioned to associations in the States and Territories according to representative population. Each association with capital not exceeding \$500,000 was entitled to issue notes on the security of bonds to 90 per cent of its capital; banks with capital exceeding \$500,000, and less than \$1,000,000, 80 per cent; with capital exceeding \$1,000,000, but not exceeding \$3,000,000, 75 per cent;

and with capital exceeding \$3,000,000, 60 per cent.

The act of June 20, 1874, authorized an additional issue of circulating notes to the amount of \$55,000,000, but it was not until 1882 that all banks were placed on the same basis with respect to the amount of circulation issuable on bonds. By the act of July 12, 1882, every association was entitled to receive from the Comptroller and to issue circulating notes to the extent of 90 per cent of the bonds deposited, the amount of the bond deposit being limited to 100 per cent of capital. The act of March 14, 1900, authorized issues to the par value of bonds deposited not exceeding the capital stock.

The subjoined table gives the paid-in capital stock of the national banks from 1863 to 1874, inclusive, and authorized capital from 1875

to 1902; the outstanding circulation, 1863 to 1902; the percentage of the circulation to capital from 1863 to 1874, inclusive; and the percentage of circulation outstanding to the maximum amount issuable from 1882 to 1902. In 1865 the capital of the associations in existence was \$393,200,000; circulation outstanding, \$204,600,000, or 52.03 percent of the capital. In 1866 the circulation had increased to 70.54 percent of the capital, and, with slight variations, continued at that rate until 1874. From 1875 to 1881 the percentage varied from 63.62 to 76.96.

The year 1882 witnessed a material reduction in the public debt, large importations of coin in excess of exports, increase of capital stock of national banks, and their note issues, which resulted in a material increase in the stock of money in the country. From October 31, 1881, to October 31, 1882, the capital stock of national banking associations was increased about \$25,300,000, and circulating notes outstanding to 81.6 per cent of the maximum amount issuable on bonds deposited. Notwithstanding a further increase during the following year of about \$25,000,000 in capital, the percentage of circulation outstanding to the maximum issuable fell to 75.48 per cent. date to October 31, 1892, there was a rapid decline in outstanding circulation to 27.54 per cent, a trifle in excess of one-fourth of the amount which might have been issued. In 1893 the percentage of outstanding issues increased to 33.31 and in 1899 to 44.37. The act of March 14, 1900, resulted in a substantial increase, but in October of that year the issues amounted to but 52.42 per cent of the amount issuable; on October 31, 1901, were 54.25 per cent, and on October 31, 1902, fell to 53.32

The capital, circulation outstanding, and relation of the latter to capital and to maximum amount of circulation issuable, respectively, as indicated, are shown in the following table:

Year.	Capital.a	Circu	lation.		G:4-1 a	Circulation.		
		Amount.	Per cent.b	Year.	Capital.a		Per cent.

 b Percentage of circulation to capital stock 1863 to 1881; to 90 per cent of capital 1882 to 1899 and to capital, 1900 to 1902.

#### PROFIT ON CIRCULATION.

The profit on national bank circulation, secured by \$100,000 of bonds of various classes available for that purpose, at the market price of securities on October 31, 1899 to 1902, as calculated by the Government actuary, is shown in the table following. In the computation money

is assumed to be worth 6 per cent per annum.

On October 31, 1902, consols of 1930 were quoted at 110.087. The profit on circulation secured by that class of bonds, in excess of 6 per cent on the investment, is shown to be \$684.40, or 0.622 of 1 per cent. The profit on circulation secured by 3 per cent bonds, loan of 1908, is 0.163 per cent, and on security of 4 percents of 1907 is 0.185 per cent. By reason of the high premium on the loan of 1925, namely, 36.3859, and the short time the loan of 1904 has to run, there is no profit over 6 per cent on the amount invested in bonds on circulation covered by these two classes of securities.

The table referred to is as follows:

# [Prepared by the Government Actuary.]

1899.

a This profit was somewhat greater than shown, but indeterminate, owing to uncertainty of date of maturity.

#### TAXES AND OTHER EXPENSES.

From 1863 to 1902 the banks have paid to the Government, in tax on circulation, over \$90,000,000; on capital and deposits, from 1863 to 1883, nearly \$69,000,000; on capital and surplus, under the war revenue act of 1898, about \$7,000,000. In addition to these taxes, the banks paid over \$4,500,000 for the redemption of their circulation from 1874, the year the national bank redemption agency was established, to June 30, 1902, and from 1883 to 1902 about \$630,000 for plates from which circulating notes were printed, or an aggregate, approximately, of \$171,000,000.

The expenses of the office of the Comptroller of the Currency from 1863 to the close of the fiscal year 1902 were \$9,353,482.87, and including contingent expenses not paid by the Comptroller, but from the general appropriation for contingent expenses of the Treasury Department, the amount did not exceed, it is estimated, \$19,000,000, which is about one-ninth of the taxes paid and other expenses herein-

before enumerated.

#### STATE BANKS, PRIVATE BANKS, AND TRUST COMPANIES.

In obtaining statistics relating to the condition of banks and banking institutions in the country organized and operating under authority of the laws of the States, the usual course has been followed in calling upon the officers of States having supervision of institutions of that character for abstracts or copies of reports filed therewith. From States having no laws providing for the submission and compilation of reports, requests were addressed to each incorporated and private bank for a statement of condition, of date June 30, 1902.

From official sources and from banks direct returns have been received relating to the condition of 7,889 incorporated and private banks and bankers, with aggregate resources of \$7,355,110,843. Reports were received from 5,397 commercial banks, 417 loan and trust companies, 1,036 savings banks, of which 657 were of the mutual class, i. e., without capital stock, and from 1,039 private banks and bankers.

The capital stock of the State banks is \$276,991,398 and individual deposits \$1,698,185,287. The number of reporting banks of this character is 414 greater than in 1901, and there is shown an increase in assets of approximately \$149,000,000.

In 1901 reports were received from 334 loan and trust companies having aggregate resources of \$1,614,981,605. For the current year reports have been received from 417 corporations of this character, having assets of \$1,983,214,707.

Returns were obtained from 1,039 private banks and bankers against 917 in 1901. The assets of banks of this character, on the latter date, were \$149,104,346, and in 1902 they were \$169,364,435.

#### SAVINGS BANKS.

Following the established custom of the office, returns relating to the condition of savings banks of the country are divided into two classes:

(1) Mutual institutions—that is, those without capital stock and operated by trustees for the benefit of depositors; and

(2) Stock savings institutions, the depositors being paid an agreed rate of interest on their accounts, the shareholders participating in the

profits, as in the case of commercial banks.

Reports relating to the condition of 1,036 banks of both classes have been received, showing deposits of \$2,750,177,290 to the credit of 6,666,672 depositors. Included in the deposits in banks of this character are the amounts to the credit of depositors in savings departments of commercial banks located in the State of Illinois, the general returns from the Illinois State banks having savings departments being incorporated in the abstract of State bank reports. The average amount to the credit of each depositor in savings institutions in the country is \$412.53 as compared with an average deposit of \$408.30 in 1901.

Table IV in the appendix to the annual report of the Comptroller of the Currency is an abstract of the reports of condition of both mutual and stock savings institutions. The returns show that there are in operation 657 mutual institutions, all of which, with the exception of 1 in West Virginia, 4 in Ohio, 5 in Indiana, 1 in Wisconsin, and 11 in Minnesota, are located in the New England and Eastern The deposits in banks of this class aggregate \$2,380,200,804.

deposits in savings banks in New England States aggregate 00,175,255, an average of \$380.72. Deposits in the Eastern States a Junt to \$1,307,630,523, or nearly 50 per cent of the deposits in all savings banks in the country. The number of depositors in banks in this geographical division is 3,044,148 and the average account \$429.55. The average amount to the credit of depositors in States with the highest averages are as follows: Rhode Island, \$519.64; New York, \$471.68; Ohio, \$465.94; Connecticut, \$454.07; New Hampshire, \$407.29. The maximum average deposit to the credit of depositors in stock savings banks is shown in California, the amount being \$703.55. deposits in the stock savings banks are but a slight amount in excess of 10 per cent of the total in all savings institutions.

The principal items of resources of savings banks, both mutual and stock, are as follows: Loans secured by real estate, \$994,639,330; loans on other securities, \$281,679,772; United States bonds, \$58,140,-124; State, county, and municipal bonds, \$481,568,530; railroad bonds and stocks, \$375,623,513; bank stocks, \$34,520,802; other stocks, bonds, etc., \$411,631,200. These institutions carry but a relatively small amount of cash in bank, namely, \$30,877,338, but they have to

their credit with other banking institutions \$121,396,971.

The following table is a comparative statement of number of depositors, amount of deposits, and average deposit account in the savings banks of the United States in each State and geographical division

for the years 1900-1901 and 1901-2.

Number of Savings Depositors, Aggregate Savings Deposits, and Average Amount due to Depositors in Savings Banks in each State in 1900–1901 and 1901-1902.

b Partially estimated, 55 banks, with \$96,890,262 savings deposits, report 269,038 depositors. cSavings deposits in State institutions having savings departments; abstract of reports included with State banks.

A careful examination has been made of the returns submitted by State officials and banks with respect to the rates of interest paid on savings accounts. By reference to the following table it will be observed that the maximum rate is  $4\frac{1}{2}$  per cent and the minimum  $2\frac{1}{5}$  per cent. It is impossible to state with exactness the average rate, but it would appear to approximate 3½ per cent. The table referred to is appended.

AVERAGE RATE OF INTEREST PAID DEPOSITORS IN SAVINGS BANKS.

State.	Rate.	State.	Rate.

In Table IX in the appendix to the annual report of the Comptroller of the Currency is shown the growth of savings banks in the United States, as indicated by the number of depositors, amount of deposits, and average deposit for the years 1820, 1825, 1830, 1835, 1840, and 1845 to 1902, inclusive. From 1883, with the exception of the year 1894, there is shown to have been a steady increase in the volume of deposits in institutions of this character. The statement of volume of money in the country and the average per capita, issued by the Treasury Department in June last, gives the per capita of money in circulation as \$28.53. The savings bank returns show that if the deposits were distributed each inhabitant would be entitled to \$34.89, or \$6.36 per capita more than the average per capita circulation.

# CONSOLIDATED RETURNS FROM STATE SAVINGS BANKS AND TRUST COMPANIES.

For purposes of comparison there is given herewith a table showing the principal items of resources and liabilities of banks other than national in the years 1897 to 1902, inclusive:

Items.	1897.	1898.	1899.	1900.	1901.	1902.
Loans	1, 248, 150, 146 193, 094, 029 380, 090, 778	1, 304, 890, 322 194, 913, 450	1,527,595,160 210,884,047	1,723,830,351 220,667,109		2, 094, 496, 729 250, 815, 787
vided profits Deposits Resources		3,664,797,296		4, 780, 893, 692	5, 518, 804, 859	614, 509, 805 6, 005, 847, 214 7, 355, 110, 843

In the following table are shown the principal items of resources and liabilities of national banks on July 16, 1902, of other banks and banking institutions on or about June 30, and consolidated returns from all reporting banks:

	4,535 national banks.	7,889 other banks.	12,424 banks.
Loans United States bonds Other bonds Cash Capital Surplus and profits Deposits Aggregate resources	459, 973, 034 484, 956, 796 597, 287, 908 701, 990, 554 482, 377, 442 3, 222, 841, 897	\$3, 942, 592, 907 63, 278, 530 2, 031, 223, 199 250, 815, 787 499, 621, 208 614, 509, 805 6, 005, 847, 214 7, 355, 110, 843	\$7, 189, 109, 761 523, 246, 564 2, 516, 179, 995 848, 103, 695 1, 201, 611, 762 1, 096, 887, 247 9, 228, 689, 111 13, 363, 865, 818

There will be found in the appendix to the annual report of the Comptroller of the Currency, Table XII, information obtained with respect to the capital, amount, and average rate per cent of dividends paid by State banks and by loan and trust companies submitting information of that character for the year ended on or about June 30, 1902. Reports covering the subject were received from 2,160 banks, with capital of \$122,874,222, showing the payment of dividends to the amount of \$10,941,669, or an average of 8.9 per cent, and from 337 of the loan and trust companies, the dividends paid amounting to \$12,407,163, on capital stock of \$138,348,992, or an average rate of 8.97 per cent.

#### STATE AND PRIVATE BANK FAILURES.

Mr. Frank Green, managing editor of Bradstreet's, has courteously furnished a summary of the information obtained by the Bradstreet agency relating to the number of State and private banks which failed during the year ended June 30, 1902, accompanied by a statement of the total liabilities and assets. The number of failures was 43, the assets of the banks being \$4,323,737 and the liabilities \$10,332,666. Included in the number of failures were 12 State banks, 10 savings banks, 20 private banks, and 1 trust company. Without recourse to the reports of receivers or assignees, presumed to be filed with the court appointing the liquidating agent, it is impossible to ascertain the results of liquidation of the affairs of banks of this character.

## BUILDING AND LOAN ASSOCIATIONS.

From the report of proceedings of the annual meeting of the United States League of Local Building and Loan Associations held at Put in Bay, Ohio, in July last is taken the following information relating to associations of that character for the year 1902 and the year prior.

The returns show that the number of associations in existence has declined during the past year from 5,356 to 5,302, and the aggregate assets from \$571,366,628 to \$565,387,069. The number of members, however, has increased from 1,495,136 to 1,539,593. The total expense of operating the associations during the year was slightly in excess of \$5,000,000, or about 1 per cent of the assets.

The following table exhibits the comparative condition of the association in the past two years:

		1900-190	1.		1901-2	
States.	Num- ber of associa- tions.	Total member- ship.	Total assets.	Num- ber of associa- tions.	Total member- ship.	Total assets.

## GROWTH OF BANKING IN THE UNITED STATES SINCE 1882.

The act of March 3, 1883, repealed the tax on capital and deposits of the banks imposed by section 5142 of the Revised Statutes of the United States. The following table shows the number of reporting banks, capital stock, and deposits, returns relative to which were received for the period ended May 31, 1882:

<b></b>		Capita	1.	Deposits.		
Class.	Number.	Amount.	Per cent.	Amount.	Per cent.	
National banks		\$477, 200, 000 234, 900, 000	67. 01 32. 99	\$1,131,700,000 1,718,700,000	39.7 60.3	
Total	7,302	712, 100, 000	100.00	2, 850, 400, 000	100.00	

From 1883 to the passage of the war-revenue act of 1898, taxing the capital and surplus of banks and bankers, official returns in full have only been obtainable with respect to the condition of State banking institutions located in States having officials charged with the supervision and compilation of banking statistics. As a result, information relating to the banking business of the country in 1892 is not as complete as for 1882 and 1902.

In 1892 returns were received relating to 9,338 national and State

banks and private banks and bankers, as follows:

M-11	N	Capita	1.	Deposits.		
Class.	Number.	Amount.	Per cent.	Amount.	Per cent.	
NationalState, etc		\$684, 678, 203 386, 394, 845	63.9 36.1	\$1,767,519,745 2,911,594,571	37. 8 62. 2	
Total	9, 338	1,071,073,048	100.00	4, 679, 114, 316	100.00	

The increase in number of reporting banks over 1882 was 2,036; in capital, \$358,973,000, and in deposits, \$1,829,000,000; the increase in

capital being 50 per cent, and in deposits 64.16 per cent.

In July, 1902, reports of condition were received from 4,535 national banks, and on approximate dates statements relating also to 7,889 State and private banks. Adding to these the number of banks making returns only of capital and surplus for taxation, the deposits of the

latter being estimated, it is shown that there are in active operation in the country 16,156 banks and bankers. In the following table the number, capital, and deposits are shown for the year 1902:

Clare	37	Capital.		Deposits.		
tate, etc	Number.	Amount.	Per cent.	Amount.	Per cent.	
National banks	4,535 7,889 3,732	\$701, 990, 554 499, 621, 208 138, 548, 654	52.4 47.6	$ \begin{cases} \$3, 222, 841, 898 \\ 6,005, 847, 214 \\ 478, 592, 792 \end{cases} $	33.2 66.8	
Total	16, 156	1,340,160,416	100.0	9,707,281,904	100.0	

Since 1882 the number of banks has increased over 120 per cent, and since 1892, 73 per cent. During the first decade in question there was an increase of 50 per cent in capital, and from 1882 to 1902 of 88 per cent. From 1882 to 1892 deposits increased \$1,829,000,000, or 64 per cent, and from 1882 to 1902 the increase was \$6,857,000,000,

or over 240 per cent.

In 1882 the capital stock of national banks represented 67.01 per cent of the capital of all banks; in 1892, 63.9 per cent, and in 1902, 52.4 per cent. The deposits in national bank associations in 1882 represented 39.7 per cent of the aggregate; in 1892, 37.8 per cent, and in 1902, 33.2 per cent. Eliminating, however, the deposits in mutual savings banks in each of the years mentioned, and basing the comparison on the deposits in national banks with capitalized State and private banks, it is shown that deposits in national associations represented, in 1882, 60 per cent of the total; in 1892, 54.9 per cent, and in 1902, 47 per cent. In number the national banks increased since 1882, 2,296, about 100 per cent, while State and private banks, excluding mutual savings institutions, increased from 4,434 to 10,964, or over 147 per cent.

## MONEY IN THE COUNTRY.

Referring again to the statement with respect to the volume of money in the country, it is shown from the table compiled in the office of the Secretary of the Treasury that the volume of money represented by specie, bullion in the Treasury, United States and national-bank notes at the close of the last fiscal year aggregated \$2,563,200,000, the amount of coin, bullion, and paper money in the Treasury assets aggregating \$313,900,000, and in general circulation \$2,249,300,000. amount of specie in circulation is admittedly not definitely known, but the figures presented are based upon the most careful estimate. amount of gold and silver coin held by the national banks is shown by every report of condition filed with the Comptroller of the Currency. In calls upon State banks for reports of condition, a request is incorporated for a detailed statement of the character of money held, and while this information is generally given, reports frequently show merely the total specie or total cash on hand. In order to ascertain as nearly as possible the holdings of coin by banks located in States not reporting the exact amount, estimates have been made, based upon the holdings of national banks in such States. The results are incorporated in the following table:

GOLD, ETC., HELD BY NATIONAL BANKS ON JULY 16, 1902, AND BY OTHER BANKS AND BANKERS REPORTING TO THIS OFFICE ON OR ABOUT THE SAME DATE.

a\$12.567,265 and b\$10,125,909 in banks of island possessions not included in these returns.

#### TRANSACTIONS OF CLEARING HOUSES.

From reports made to the manager of the New York clearing house by the 97 clearing-house associations of the country for the year ended September 30, 1902, the volume of exchanges is shown to have amounted to \$116,021,618,003, compared with \$114,819,792,086 for the year 1901. The transactions of the New York Clearing House Association for the current year amounted to \$74,753,189,436, which was a decrease of \$2,267,483,058 as compared with the prior year. The clearings of the New York association amounted to 64.4 per cent of the total clearings reported. The settlements of exchanges of the

d Includes other paper currency.

d Including money in banks in the island possessions.

New York clearing house were effected by the use of only 4½ per cent of money—that is, approximately,  $3\frac{1}{3}$  billions in settlement of exchanges aggregating  $74\frac{3}{4}$  billions. In these settlements United States and clearing-house gold certificates to the extent of 99.97 per cent were The transactions of the assistant treasurer of the United States at New York with the clearing house during the year ended September 30 aggregated \$412,945,017.31.

#### COST OF OPERATION OF NATIONAL BANKING ASSOCIATIONS.

In May last a circular letter, of which the following is a copy, was addressed to every national banking association in operation on April 30, 1902:

TREASURY DEPARTMENT, Office of the Comptroller of the Currency, Washington, D. C., May 28, 1902.

To the Cashier:

An investigation is now being undertaken to ascertain the relative cost of operation of national banking associations of various magnitudes; the average amount of loans and discounts and the average rate of interest received or discount charged on accommodations, as shown by the books and records of the banks during the year ended Accordingly I shall esteem it a favor to be furnished at your earliest convenience with information herewith requested relative to your bank, on the blank inclosed for the purpose.

"Cost of operation" should be confined to ordinary current expenses—that is, rent of banking premises, or, if the banking premises are owned, the amount representing interest on the investment at current rates; salaries and all incidental expenses except taxes, local or national. Do not include cost of banking house, furniture, and

fixtures.

Please state, separately, the amount of taxes paid or to be paid for the last tax year as follows: (1) State, county, and local on realty (bank premises only) and on shares, by or for stockholders; (2) internal revenue on capital and surplus, act June 13, 1898, and (3) semiannual duty on circulating notes.

It is suggested that either the daily or weekly statements may be used in ascertaining the average amount of loans and discounts; if the former, the aggregate amount should be divided by the number of days during the year the bank was open for business; and, if the latter, the aggregate should be divided by 52.

The average rate of interest received on loans and discounts during the year in question should be calculated or carefully estimated.

The information submitted will be regarded as confidential and used solely in deducing general conclusions.

Respectfully, WM. B. RIDGELY, Comptroller.

As the information desired was intended to cover the operations of banks which had been in existence for at least one year prior to April 30, in compiling the returns a number of reports from banks for fractional portions of the year have been excluded, as well as incomplete returns from a limited number of associations which had been in oper-The available returns represent reports ation for a year or more. from 3,830 banks, classified as follows:

Banks with capital of \$1,000,000 or over; \$500,000 and less than \$1,000,000; \$200,000 and over, but less than \$500,000; \$100,000 and over, but less than \$200,000; exceeding \$25,000, but less than \$100,000,

and with capital of \$25,000.

In the appendix to the annual report of the Comptroller of the Currency, Tables Nos. 84 and 85 are given, showing:

First. The capital, cost of operation, etc., of each class of banks in

the United States; and
Second. The same information, but classified by capital stock for each reserve city, State, and Territory.

In the following table is shown, by classes, the capital stock, cost of operation exclusive of taxes, average amount of loans and discounts, and percentage of cost of operation to loans, and average rates of interest received on loans and discounts.

Classification.	Number of banks.	Capital stock.	Cost of operation, exclusive of taxes.	Average amount of loans and dis- counts.	Per- centage of cost of op- eration to loans and dis- counts.	Average rate of interest received on loans.	Excess of interest rate above expense rate.
Banks with capital of— \$1,000,000 or over \$500,000 or over \$200,000 or over \$100,000 or over \$25,000 or over \$25,000	102 149 551 1,196	\$167, 205, 700 82, 242, 560 140, 001, 800 132, 343, 130 83, 142, 820 7, 275, 000 612, 211, 010	\$13, 991, 128 7, 267, 656 12, 595, 602 12, 159, 229 8, 526, 600 838, 871 55, 379, 086	\$1,051,957,949 399,587,429 618,101,337 520,648,772 307,221,685 19,701,231 2,917,218,403	1. 33 1. 82 2. 04 2. 34 2. 78 4. 26	Per ct. 5.17 5.82 6.26 6.83 7.40 7.75	Per ct. 3.84 4.00 4.22 4.49 4.62 3.49

From the foregoing it appears that the cost of operation, based upon the average volume of loans and discounts, ranged from a minimum of 1.33 per cent for the largest class of banks, to a maximum of 4.26 per cent for banks with the minimum amount of capital stock. The average rates of interest received show a similar variation, but in inverse order.

In the following table is shown the amount of taxes paid to the General Government on capital and surplus under the war-revenue act of 1898, on circulating notes outstanding, and to the States, counties, etc., on shares of stock and banking premises. In relation to the State taxes it is to be said that the returns submitted do not show, in all cases, the amount of tax paid on banking premises in addition to that on shares of stock for the reason that the total tax assessed was represented by one amount. Of the \$14,485,804 taxes paid, \$11,310,787 represents the amount paid to the States, etc., and \$3,175,017 to the United States. The table relating to the amount of taxes paid is as follows:

TAXES PAID.

	State ta	xes paid ye	ar 1901–2.	United St	Total of		
Classification.	On bank- ing prem- ises.	On shares.	Total.	On capi- tal and surplus.	On circu- lation.	Total.	all taxes.
Banks with capital of— \$1,000,000 or over \$500,000 or over \$200,000 or over \$100,000 or over \$25,000 or over \$25,000 or over	\$328, 713 175, 248 288, 391 223, 353	\$2,594,674 1,331,518 2,433,120 2,458,499 1,228,062 88,850 10,134,723	\$2, 923, 387 1, 506, 766 2, 721, 511 2, 681, 852 1, 376, 948 100, 323 11, 310, 787	\$420, 594 239, 138 420, 394 393, 918 220, 935 15, 768	\$259, 880 173, 024 390, 830 402, 408 221, 276 16, 857	\$680, 474 412, 162 811, 224 796, 321 442, 211 32, 625 3, 175, 017	\$3,603,861 1,918,928 3,532,735 3,478,173 1,819,159 132,948

In the table following is shown the percentages based on capital stock of the cost of operation, exclusive of taxes; State and Government taxes, respectively; cost of operation, including all taxes, and the amount and per cent of net earnings and dividends for the year

ended March 1, 1902, of banks reporting cost of operation.

There, of course, is no question as to the greater relative expense of operating banks with the minimum amount of capital stock than of associations with the larger volume, but by comparing the percentage of cost of operation based on the average amount of loans and discounts with cost based on capital, it would appear that the higher rates of interest obtained by the smaller banks in a large measure offset the smaller relative cost of operation of the large banks. The cost of operation of the smallest class of banks, based on loans and discounts, is shown to be about three and one-fifth times greater than that of the largest class, while the cost of operation, exclusive of taxes based on capital stock of the smallest class of banks, is but 3.16 per cent greater than that of the largest class.

In connection with the cost of operation there is shown in the table referred to the amount of net earnings, dividends paid, and percentage of net earnings and dividends to capital for the year ended March 1, 1902, of banks reporting cost of operation. It will be observed that these percentages are not comparable with those relating to cost of operation, as the percentage of net earnings and dividends paid by banks with capital exceeding \$25,000 and less than \$100,000, generally \$50,000 and \$75,000, is shown to have been higher than any other class

of banks.

The following tables contain a summary of the percentages of cost of operation, etc.:

	Percentages based on capital stock of—				Net earnings and dividends, year ended Mar. 1, 1902.			
	Cost of Taxes.		Cost of	Earnings.		Dividends paid.

COST OF OPERATION OF LOAN AND TRUST COMPANIES IN THE DISTRICT OF COLUMBIA.

There are in operation in the District of Columbia four loan and trust companies, having united capital of \$4,450,000, the average volume of loans for the year ended April 30, 1902, aggregating \$11,011,349, on which interest was received at the rate of 4.73 per cent. The cost of operation for the year, exclusive of taxes, was \$226,122, or 2.05 per cent of the volume of loans. Taxes were paid to the District of Columbia, for all purposes, to the amount of \$8,786, and to the United States, on capital and surplus, \$11,259, or a total of \$20,045. The cost of operation, exclusive of taxes, based on capital stock, was 5.08 per cent, and including taxes, 5.53 per cent. The percentages of District and Government taxes to capital stock were one-fifth and one-fourth of 1 per cent, respectively. During the year in question the net earnings of these corporations aggregated \$364,838,

or 8.02 per cent. One of these institutions, having recently organized, has paid no dividends, but the remaining three paid \$201,250, or an average rate of 6.19 per cent.

## BRANCH BANKS.

The inquiry is frequently submitted as to the right of a national bank to maintain a branch or agency, principally for the reception of deposits, elsewhere than at its banking house in the same or adjacent locality.

The only provision of law relating to branch banks, in the national-bank act, is found in section 5155, United States Revised Statutes, and

reads as follows:

It shall be lawful for any bank or banking association, organized under State laws and having branches, the capital being joint and assigned to and used by the mother bank and branches in definite proportions, to become a national banking association in conformity with existing laws, and to retain and keep in operation its branches, or such one or more of them as it may elect to retain, * * *

The granting of this special privilege to State banks and the absence of any similar provision in the law with respect to banks of primary organization have always been construed by the Comptroller to imply that banks of the latter class were not permitted to have branches. The section cited absolutely restricts branch banks of converted associations to such as have a definite proportion of the capital of the parent bank assigned to them, and it is not to be assumed that the law contemplated that associations of primary organization should be permitted to assign any portion of their capital to and operate branches.

This fact is further to be inferred from section 5138, United States Revised Statutes, which prohibits the formation of associations with less capital than \$200,000 in cities of population exceeding 50,000, and contains similar provision with respect to banks organized in places

with less population than 50,000.

To permit the establishment of branch banks would not only render possible an evasion of the provisions of section 5138, but tend to discourage the organization of banking associations which, in the absence

of such branches, might be formed.

Section 5134 provides in part that the organization certificate of a national bank shall show "the place where its operations of discount and deposit are to be carried on," and section 5190 that "the usual business of each national banking association shall be transacted at an office or banking house (not at offices or banking houses) located in the

place (not places) specified in its organization certificate."

The word 'place" and "at an office or banking house" have always been construed by the Comptroller to mean the legal domicile of the corporation, of which it can have but one, and this construction is sustained by the Solicitor of the Treasury in an opinion rendered August 10, 1899, on the question of the right of a national bank to establish and maintain an auxiliary cash room at some point distant from its banking house, for the purpose of receiving deposits and paying checks.

The Solicitor says:

This section (5190 U. S. R. S.) contemplates that the usual business of a national banking association shall be transacted at one office and banking house, and as receiving deposits and paying checks belong to the "usual business" of a bank, I am of the opinion that the statute does not authorize the establishment of an auxiliary cash room in a different part of the city for the purpose proposed. Besides, it may

be observed that if a national banking association can lawfully establish and maintain a separate office for receiving deposits and paying checks, it could as well establish as many of such auxiliary cash rooms in the city of its corporate residence as its business might require; and, indeed, the entire business of the bank may be parceled out and conducted in the same way all over the city.

The Supreme Court of the United States, in the case of Armstrong v. Second National Bank, 38 Fed. Rep., 886, involving, among other things, the question of the right of a national bank to cash a check elsewhere than at its banking house, held that—

Under this section (5190) it certainly would not be competent for a national bank to provide for the cashing of checks upon it at any other place than at its office or banking house.

If, therefore, it is unlawful for a national bank to cash a check elsewhere than at its banking house, it is likewise unlawful for it to discount notes or to receive deposits elsewhere, for one is as much a part of the "usual business" of a bank as the other.

While it is obviously impossible for a bank to transact its entire business within the four walls of any single building it is not held that the law contemplates that the "entire business," as distinguished from its "usual business," shall be transacted in its banking house.

In the case of The Merchants' National Bank v. The State National Bank, 10 Wall., 604, it was held in this connection that—

The provision requiring the "usual business" of the association to be transacted "at an office or banking house specified in its organization certificate" must be construed reasonably, and a part of the legitimate business of the association which can not be transacted at the banking house may be done elsewhere.

The question involved in this case was the right of the bank's officers to purchase gold elsewhere than at its banking house, and the court held that—

The gold must necessarily have been bought, if at all, at the buying or selling bank, or at some third locality. The power to pay was vital to the power to buy, and inseparable from it.

The "legitimate business" of a bank, therefore, which a reasonable construction of the law would permit to be done elsewhere than at its banking house would seem to be restricted to transactions similar in character to that involved in the decision quoted, and not the ordinary and usual business of receiving deposits and cashing checks.

The argument has been advanced that clearing-house associations are equivalent to branch banks, and the recognition by the national-bank act of the one affords warrant for the establishment of the other, but such argument has no apparent force, as the two institutions are entirely dissimilar in character and purpose. The principal object of the former is to facilitate exchange and to adjust balances between banks, while that of the latter is to transact the usual business of a bank with its customers.

While the national-bank act does not in express terms prohibit the establishment and maintenance of branch banks or agencies by associations of primary organization, the implication to that effect is clear, and the courts have held that what is implied is as effective as that which is expressed.

That the act does not contemplate the operation of branch banks by national banks of primary organization is evidenced by the fact that in 1892 a special act was approved authorizing the operation of a

branch by a Chicago national bank on the World's Fair grounds. In 1901 similar legislation was enacted by Congress in connection with the Louisiana Purchase Exposition, to be held in 1904.

#### BRANCHES OF STATE BANKS.

With a view to ascertaining the extent to which branches are legally operative in the various States of the Union, a letter was addressed in August last to the proper State official in each State and Territory, in which information was requested as follows:

First. Whether or not branches or agencies are authorized by the

banking laws of the State or the charter of the banks.

Second. If authorized, the regulations and provisions of law relative thereto.

Third. The names and location of banks operating branches and the

number and location of the branches.

Replies have been very generally received to the request and hereinafter will be found a summary of the information submitted, arranged

by States in their geographical order.

Maine.—There is no general provision of law authorizing State banks to establish branches. Trust companies created by special acts of the legislature have authority in their charters to establish branches, but the legislature of 1901 passed a general act which provides that no trust company shall establish a branch or agency until the same be authorized by a special act. This later legislation does not apply to trust companies already established and operating branches. The State banking department exercises supervising power over branches in conjunction with the corporation.

Trust companies having branches: Augusta Trust Company, at Winthrop; Waterville Trust Company, at Corinna, Dexter, Hartland, and Newport; Eastern Trust and Banking Company of Bangor, at

Machias and Oldtown.

New Hampshire.—Bank Commissioner Baker states that there is no law directly authorizing the establishment of branches or agencies, but that he is not aware of any law which would prohibit such a practice within certain limits. No branches are in operation.

Vermont.—Branches or agencies are not authorized by the banking

laws, nor by the charter of any bank.

Massachusetts.—There are no commercial banks other than national

banks and trust companies in operation in the State.

The statute relating to the organization of banks of discount and deposit provides that they shall do business only at their banking

house. This prohibition applies to savings banks.

By an act passed by the last legislature, chapter 365, section 2, the board of commissioners of savings banks have power to authorize, in writing, any trust company to maintain a branch office in the city or town in which its main office is located, for the purpose of receiving deposits, paying checks, and transacting a safe-deposit business.

The Old Colony Company and the State Street Trust Company of

Boston have branches in operation in that city.

Rhode Island.—The General Laws, chapter 171, section 11, prohibit the establishment of branches except by authority of the general assembly.

The Industrial Trust Company of Providence has branches at Pawtucket, Newport, Woonsocket, Bristol, Pascoag, and Wickford; and the Manufacturers' Trust Company and the Union Trust Company at Providence, have, respectively, branches at East Greenwich and Olneyville.

Connecticut.—The law forbids the organization of any branch or agency, or the employing of any agent or person to make loans at any

other place than the banking house.

New York.—Section 89 of chapter 689 of the laws of 1882, as amended by chapter 410 of the laws of 1898, permits a bank located in a city of over 1,000,000 inhabitants, with the approval, in writing, of the superintendent of banks, to open and keep one or more branch offices in such city for the receipt and payment of deposits and for making loans and discounts to the customers of such branch office, only providing that its certificate of incorporation shall so provide. No bank in this State has a charter which originally provided for branches; but a number of banks in the city of New York have amended their charters so as to include therein such provisions. Section 89 referred to provides in part that "before opening any branch office the approval, in writing, of the superintendent of banks shall be first obtained, and no discounts shall be made except such as may have been previously authorized by the board of directors." Penalty for violation of the act is \$1,000 for every violation.

The Bank of Jamaica (Long Island) has branches at Elmhurst, College Point, and Richmond Hill. The Brooklyn Bank has made arrangements for an office, but has not yet opened. The Corn Exchange Bank has 12 branches within the corporate limits of Greater New York. The Colonial Bank of New York has 5 branches. Far Rockaway Beach Bank has a branch at Rockaway Beach. The Hamilton Bank, The Mechanics Bank, The Mechanics and Traders Bank, The Twelfth Ward Bank, The Twenty-third Ward Bank, The Union Bank, and The Coney Island and Bath Beach Bank have each a branch in Greater New York; and The New York Produce Exchange Bank has

4 branches.

From the foregoing it is shown that 13 State banks located in New York are operating 33 branches.

New Jersey.—The laws of New Jersey are the most liberal, with

respect to branches, of any State in the Union.

Section 7 of the general corporation act of 1896 provides that any corporation in this State may conduct branches in any other State or in foreign countries, and have one or more offices out of this State, and may hold, mortgage, and convey personal property out of such State, provided notice of such object is included in its certificate of incorporation. In 1889 an act was passed which provided that no corporation, bank, etc., should establish or maintain any branch or agency, nor have more than one place of business in the State without the approval of the board of bank commissioners. This act, however, was repealed in 1889. Prior thereto, however, The Asbury Park and Ocean Grove Bank had established á branch at Ocean Grove, and The People's Bank of East Orange a branch at South Orange.

Pennsylvania.—Branches or agencies of banks are not authorized by the laws of this State. One savings institution, in conformity with an amendment of its charter, obtained from the legislature an amendment having the approval of the court of common pleas of the county

in which the institution is located, and is endeavoring to establish a branch, but the question is now pending before the State attorney-

general.

Delaware.—Banking privileges are not granted under general corporation law; nor are foreign corporations allowed to do banking business in the State. Banking powers in the State are only secured by special act of the legislature, in consequence of which each State banking institution is governed by the special creative act. Farmers' Bank of the State of Delaware has branches at Wilmington, Dover, and Georgetown. The Sussex Trust and Safe Deposit Company is operating branches at Lewes, Georgetown, and Milton.

Maryland.—No provision for the operation of branches by State banks. (Report Comptroller Currency, 1896.)

District of Columbia.—The organization of banking institutions is confined to national banks and to loan and trust companies, under the act of October 1, 1890. Branches of national banks and trust companies are not authorized. There are a number of private banks, banking firms, and branches of saving banks doing business in the District without any special grant of authority other than the payment of an annual license tax to the District government.

Virginia.—Branches permissible, but none in operation. (Report

Comptroller Currency, 1896.)

West Virginia.—Each bank must be operated under special charter in an independent way. State banks may hold stock in other banking

corporations.

North Carolina.—There is no general law authorizing the establishment of branch banks. Most of the banks operate under special charters granted by the legislature, and in some instances the charters granted contain authority for the operation of branches.

South Carolina.—The Code of 1892 of the banking laws of State contains no authority for the establishment and operation of branches

by State banking institutions.

Georgia.—Branches or agencies are not authorized, except in the charters of three banks. The banks referred to are as follows (location of branches not given): Bank of Southwestern Georgia at Americus, Farmers and Merchants' Bank of Senoia, and Oglethorpe Savings and Trust Company of Savannah.

Florida.—Banks are permitted to conduct branch offices. (Report

Comptroller Currency, 1895.)

Alabama. -Section 1089 of the code of Alabama (1896), relating to the corporate powers of banks of discount and deposit organized in the State, provides in part that they (banks) "may fix and locate offices, agents, and agencies at pleasure in the State other than the principal place of business."

Mississippi.—Branches are authorized by the charters of the banks,

not by any general banking law.

Banks having branches: Grenada Bank, Grenada, Miss., branches at Eupora and Ackerman; Hancock County Bank of Bay St. Louis, branch at McHenry; Tishomingo Savings Institution of Corinth, Miss., branch at Ripley; Oakland Bank, Oakland, Miss., branch at Charleston.

Louisiana.—Article 179, act 1902, allows, on the approval of twothirds of the stock, the establishment of two branches, which must be in the same parish as the parent bank.

The Commercial Trust Company of New Orleans has two branches,

but the location is not given.

Texus.—No State banks in operation. Prohibited by constitution. Arkansas.—Governor states that "we have no banking laws in this State other than general banking laws, which have been established by custom and the law merchant." Operation of branches discretionary with board of directors. (Report Comptroller Currency, 1895.)

Tennessee.—Under the law, branches of all corporations are permissible, the only requirement is that the charter be registered in the register's office of the county where the branches are located. The law governing branches is the same as for the parent bank, and the branches are operated in all respects as the parent banks. No information submitted as to the banks operating branches.

Kentucky.—An examination of the corporation laws of the State indicates that there is no law authorizing the establishment of branch banks. The law is not construed as prohibitive. Banks operate

branches, no specific information being submitted, however.

Ohio.—Branches are not authorized by law.

Indiana.—The law does not permit the operation of branches.

Illinois.—Branches are not authorized by law.

Michigan.—There is no law authorizing the establishment of branches. Agencies are permitted, which are restricted in their operations to the receiving and paying out of deposits and issuing exchange. Branches: "The Home," "The Dime," and "The Peninsula" savings banks of Detroit operate two branches each in that city. "The People's Savings Bank of Detroit" has a branch, and also "The Lansing Savings Bank."

Wisconsin.—Incorporated banks of Wisconsin can not, under the law, operate branches, except possibly in the large cities where the branches are located within the same municipality as the parent bank. The certificate of incorporation of a State bank must specify the particular city or town where the business of the bank is to be carried on. Branches: The Second. Ward Savings Bank of Milwaukee operates two branches; the German American Bank of Milwaukee also operates a branch.

Minnesota.—No branch banking or branches, or any other financial institutions organized under State laws, can be permitted; nor can the

banks of any other State establish branches in this State.

Iowa.—Neither State nor savings banks organized and transacting business under the present laws of the State are authorized to establish and maintain branches, either in the town or city where the banks are located or elsewhere. The law is construed as placing loan and trust companies, so far as their right to establish branches is concerned, upon the same footing as State and savings banks.

Missouri.—Specifically prohibited by statutory enactment.

North Dakota.—Branches or agencies not provided for by law.

South Dakota.—Branches or agencies not provided for by law.

Nebraska.—Neither the law nor the charters provided for branches.

Kansas.—Neither branches nor agencies provided for by law. Montana.—Neither branches nor agencies provided for by law.

Wyoming.—The laws do not contemplate the establishment of branches or agencies.

Colorado.—No law authorizing the establishment of branches or agencies.

New Mexico.—The law has been held to prohibit the establishment of branches or agencies.

Oklahoma Territory.—No information submitted.

Indian Territory.—Section 8 of the act of Congress approved February 18, 1901, provides in part that any bank or trust company now or hereafter organized under the laws of Arkansas or any other State may transact such business in the Indian Territory as is authorized by its charter and is not inconsistent with the laws in force in the Indian Territory.

Washington.—The law neither authorizes nor prohibits branches.

Oregon.—There are no banking laws on the Oregon statute books, and there are, consequently, no parent or branch banks as recognized by the State in operation. The State issues no charters to banks nor has it on its statute books any laws pertaining to the operation of banks.

California.—Under special law, but covered by general agency law. The right of a bank to establish agencies has never been passed upon by the State supreme court. It is stated that "The law may permit agencies to be established within the county by the parent bank, but it certainly has no authority to conduct a general banking business." Foreign banking corporations have the right to establish agencies under the law, but have not greater corporate privileges than accorded State banks. Branches of foreign banks in operation in San Francisco: Anglo-California Bank, Comptoir National D'Escompte de Paris, London, Paris, and American Bank, Limited; Agency, Bank of British North America, Canadian Bank of Commerce, Wells, Fargo and Company's Bank, International Banking Corporation.

Idaho.—There is no law of the State in force in regard to banks or

banking institutions operating branches or agencies.

Utah.—Laws of the State do not authorize corporate banks to conduct branches or agencies in the State. One private bank (name not

given) has a branch.

Nevada.—Agents of foreign corporations doing business within the State must comply with local requirements relating to State and county license. Branches: The Bank of California, San Francisco, Cal., has a branch at Virginia City, Nev.; the State Bank and Trust Company

of Carson City has a branch at Butler.

Arizona.—Branches and agencies appear to be authorized by section 140, title 1, chapter 7, of Revised Statutes, and also appear as one of the corporate powers. Foreign corporations must file certified copy of articles of association with the secretary of the State or Territory and county recorder of the county in which the principal office is located. The agent must be a bona fide resident of the county. Branches: The Bank of Arizona (Prescott), at Jerome; the Arizona Central Bank (Flagstaff), at Williams and Kingman; the Bank of Bisbee, at Naco; the Gila Valley Bank and Trust Company (Solomonville), at Morenci and Clifton.

## BANKING IN THE NEW POSSESSIONS.

There are in operation in the Territory of Hawaii two national banking associations—one located at Honolulu and the other at Wailuku, on the island of Mau. The aggregate capital of these banks is \$525,000, their deposits \$646,938, and aggregate resources, \$1,489,319.

There are also in operation in the Territory, as shown by returns furnished to this office by the governor, three other incorporated banks, capitalized for \$850,000, and two private institutions with capital of The aggregate capital of all the banks relative to which information has been received is \$2,675,000; deposits, \$4,858,132; and total resources, \$8,755,641.

Subsequent to the passage of the act extending the laws of the United States over Porto Rico applications have been filed for authority to organize national banking associations at San Juan, P. R., and other places in the island. The question of authority for the organization of national banks in Porto Rico was submitted to the Attorney-General, who, under date of June, 1900, stated—

By letter of May 24 you [the Secretary of the Treasury] advised me that the Comptroller of the Currency is receiving applications for the granting of national-bank charters in the island of Porto Rico, and you request my opinion as to whether or not the national banking laws of the United States are now applicable to that island. By the Paris treaty between the United States and Spain, Porto Rico was ceded to

the United States and became subject to the jurisdiction of this Government. Before the ratification of the treaty of Paris the island had been in the occupation of the military forces of the United States, and the government of the same was carried on under the law of belligerent right by means of the military forces, under the direction of the President of the United States. This condition continued after the ratification of the treaty of peace until Congress, exercising the power to dispose of and make all needful rules and regulations respecting the territory belonging to the United States, passed the act entitled "An act temporarily to provide revenues and a civil government for Porto Rico, and for other purposes," approved April 12, 1900. This act took effect on the 1st day of May, 1900.

Section 14 of said act is as follows: "That the statutory laws of the United States not locally inapplicable, except as hereinbefore or hereinafter otherwise provided, shall have the same force and effect in Porto Rico as in the United States, except the internal-revenue laws, which, in view of the provisions of section 3, shall not have force and effect in Porto Rico."

By virtue of this provision, a broad extension of all the statutory laws of the

United States, not locally inapplicable, is made to the island of Porto Rico, the only exception being the internal-revenue laws, which are excepted by name, and such other laws as are in the said act otherwise provided. This language is broad enough to extend to Porto Rico the laws relating to the organization and powers of national banks, unless there be in such laws something indicating that they are locally inapplicable to Porto Rico, or that they are so locally applicable to some other place or places of specific character as to make them practically inapplicable locally to Porto An examination of the various sections of the Revised Statutes and subsequent acts of Congress relative to national banks discloses no provisions which are locally inapplicable to Porto Rico. There seems to be in the structure of the national banking laws no general provisions which can not be carried into force and effect in Porto Rico equally with all of the various States and Territories to which the laws were originally applied. I can find no reason to hold that the statutes relative to the organization and powers of national banks have not, by section 14 of the Porto Rican act, above referred to, been extended to that island. The language of that section is broad enough, and in my opinion does authorize the organization and carrying on of national banks in Porto Rico.

As citizens of Porto Rico are not characterized as citizens of the United States by Congressional enactment, the position was taken that to effect the organization of a national bank would require at least five of the shareholders, to be elected as directors, to be citizens of the United States, and that at least three-fourths of the number, residents of the island for at least one year prior to their election and during their continuance in office. Pending the existence of conditions which would enable this provision of the law to be complied with, certain citizens of the United States organized The American Colonial Bank, under authority of a charter obtained from the State of West Virginia, which

institution has been in operation for some time. The application for authority to organize The First National Bank of Porto Rico at San Juan, by those interested in the bank named, was renewed from time to time, until in the early part of November, 1902, it was possible to comply with the conditions precedent to the organization of the association. The bank was chartered on November 10, with capital of \$100,000, and a board of directors elected, who are citizens of the United States, and the requisite proportion residents also of the island. It is understood to be the intention of the organizers to gradually liquidate The American Colonial Bank and transfer its business to The First National Bank of Porto Rico, and to increase the capital stock as conditions may demand.

Through the courtesy of the treasurer of Porto Rico the office has been placed in possession of reports relating to the eight incorporated banks in operation in the island, from which it appears that these institutions have a united capital of \$1,417,725, deposits of \$2,489,449,

and assets of \$5,359,189.

The treasurer of the Philippine Archipelago has transmitted to this office copies of reports of condition of banks and banking institutions doing business therein. The last statements submitted were for the close of the year ended June 30, 1902, and relate to the condition of 11 banks, including branches. The reported capital was \$1,400,000, the deposits \$18,122,866, and the assets \$29,914,489. The cash holdings of these institutions were as follows:

United States gold, \$407,825; other gold coin, including bullion, \$22,886; United States silver dollars, \$88,680; United States fractional silver and other money not classified, \$73,027. United States notes to the amount of \$1,390,112 were held; Mexican pesos to the amount of \$4,364,066; Spanish-Filipino pesos and half pesos, \$1,531,106, and

in other Mexican and Spanish-Filipino currency \$84,251.

The principal banking of the islands is conducted by the Hongkong and Shanghai Banking Corporation, the Chartered Bank of India, Australia, and China, and the Spanish-Filipino Bank. Since the date of reports transmitted to this office in 1901 the following corporations have engaged in business in these islands: The North American and Philippine Loan and Trust Company, the American Bank of Manila, the International Banking Corporation, the Guarantee Trust Company of New York. The savings bank and pawn shop is also still in operation at Manila. The individual statements of all of the reporting banks will be found in the appendix to this report.

#### FOREIGN BANKS OF ISSUE.

In publishing returns relating to foreign banks of issue special importance is placed on their holdings of specie, notes in circulation, and deposits, the latter including accounts current—funds due to other banks and bankers. The subjoined table, relative to the items mentioned, is reprinted from the Bulletin de Statistique. The data in the column headed "Capital" are from various sources, as indicated in the footnotes. It will be observed that the note issues of all the banks exceed the amount of specie, except in the case of the Bank of England, the Imperial Bank of Russia, and the Imperial Ottoman Bank. The excess of note issues over specie held is 3,521,700,000

The liabilities of the banks on account of circulation, deposits, and accounts current aggregate 26,313,800,000 francs.

The following is the table referred to:

CAPITAL, SPECIE, CIRCULATION, ETC., OF THE PRINCIPAL FOREIGN BANKS OF ISSUE AT THE CLOSE OF THE FIRST QUARTER, 1902.

## [Expressed in millions.]

Banks.	Capital.	Gold.	Silver.	Total specie.	Circula- tion.	Deposits and ac- counts current.	Mini- mum rate of discount.
Imperial Bank of Germany Banks of issue of Germany Banks of issue of Germany Bank of Austria-Hungary National Bank of Belgium National Bank of Bulgaria. National Bank of Bulgaria. a From Comptroller's Report, 1897.

## SAVINGS BANKS OF THE WORLD.

Statistics are hereinafter submitted relating to the number of depositors, amount of deposits, average deposit account, average deposit per inhabitant, and rate of interest paid to depositors by postal and other savings institutions in countries relative to which information has been obtained. It will be observed that returns submitted are for

various dates from 1898 to 1902, inclusive.

Germany leads in the number of depositors, 13,854,927, the average deposit account being \$139.25 and the average deposit per inhabitant \$35.46. The number of depositors in savings banks in the United Kingdom and France is shown to be nearly equal, namely, 10,434,877 and 10,680,866, respectively. The average savings account in the banks of the United Kingdom is \$89.71, and of France, \$77.20. The per capita deposit, however, is more nearly equal, namely, \$22.53 in the United Kingdom and \$21.21 in France. The United States comes fourth in the number of savings depositors, having 6,666,672, the average account being \$412.53, and the per capita deposit, \$34.89.

c Conant's History of Modern Banks of Issue.
d Bulletin de Statistique.

e Approximate.

f Banking Almanac, 1901. g Statement prepared for Comptroller's Report, 1902.

The number of depositors in foreign savings banks is shown to be 66,383,587, with deposits to their credit of \$6,661,067,000. The deposits in foreign savings banks and those of the United States aggregate \$9,411,244,000, of which \$2,750,177,000, or over 29 per cent, represent the deposits in savings banks of the United States. The highest average deposit per inhabitant is \$72.45, in Denmark. The average The average deposit in Prussia is \$39.67, but when computation is based on all Germany the average is reduced to \$35.46. The deposit per capita in Australasia is \$38.82; in Norway, \$36.95; Belgium, \$34.61. Information relating to the rates of interest paid savings depositors is not complete, but so far as returns are received, it appears that there is but slight variation. The maximum rate is paid in Sweden, namely, 4 to 5 per cent; the German savings banks pay from 3 to 4 per cent; the English, French, and Australian, 2½ to 3 per cent; Canadian, 3 per cent; and United States, 2½ to 4½ per cent, with an average of, approximately,  $3\frac{1}{2}$  per cent.

In the following table is shown the returns of the savings banks of

the world:

Number of Depositors, Amount of Deposits, Average Deposit Account, Average DEPOSIT PER INHABITANT AT THE END OF THE YEARS MENTIONED, AND RATES OF INTEREST ON DEPOSITS PAID BY POSTAL AND OTHER SAVINGS BANKS OF THE WORLD.

a Data relating to the "Caisse Nationale d'e'pargne."

#### BANKING POWER OF THE WORLD.

The banking power of the world in 1890, that is, capital, surplus profits, note issues, and deposits, as stated by the late M. G. Mulhall, was £3,197,000,000, as follows:

United Kingdom, £910,000,000; continental Europe, £1,037,000,000; Australia, Canada, Cape Colony, Argentina, and Uruguay, £220,000,000, and United States, £1,030,000,000. In 1894 Mr. Maurice L. Muhleman calculated the banking power of the world at £3,915,000,000.

From statistics published by the London Chronicle, for June last, and incorporating therewith the most recent returns relating to the savings banks of the United Kingdom, the banking power of that country is shown to be £1,206,000,000, an increase of  $32\frac{1}{2}$  per cent since 1890. Assuming the same rate of increase in continental Europe, the English colonies, and Argentina and Uruguay, their power amounts to £1,374,000,000 and £292,000,000, respectively. The banking funds of Bulgaria, Greece, Roumania, Servia, and Turkey were not included in the Mulhall statement, but are given at £50,000,000 for the current year.

The capital, surplus profits, and circulation of all banks in the United States are definitely known and from reports obtained by the Comptroller of the Currency from national banks, State officials, and from the banks direct the deposits of over 77 per cent of banks in operation. The deposits of the remaining 23 per cent of the banks have been carefully estimated from data at command and give the aggregate banking power of the United States as £2,487,000,000, making the aggregate power of the world £5,409,000,000, or, say, \$27,045,000,000, an increase since 1890 of \$11,060,000,000, or 69.19 per cent.

#### BOND AND ASSET SECURED BANK CIRCULATION.

The most serious objection which has been urged against the national bank currency is its lack of elasticity; that it does not automatically respond to the demands of business, but is dependent upon the price of bonds and other considerations. The first requirement of any currency is safety and uniformity in value. Our bank notes have been from the first issue practically perfect in this respect. No note holder has ever lost a dollar except by loss or destruction of the notes which have always circulated at their face value in all parts of the United States, being used without discrimination for payments of all kinds, the same as the legal tender and Treasury notes and other forms of paper currency. Our people have grown so used to bank notes with this prime and essential quality of uniformity in value that they have an instinctive prejudice against any change for fear this quality may be lost or impaired. For more than a generation we have had no bank notes but those secured by more than their full value of bonds deposited with the Treasurer of the United States. They have been so secure, it is not surprising there is a strong feeling that they are the only kind of notes which are perfectly secure.

There can be no denial of the fact, and there is really none made, that the lack of elasticity is a serious defect in our bank notes, which greatly reduces their usefulness not only under normal business conditions, but when there is danger of financial difficulty. If this defect can be remedied or lessened without impairing the safety of the notes

it should be done, and done at once.

All bank-note circulation is really asset currency, and depends for its value upon the assets of the issuing bank. In most countries the banks are allowed to keep the assets, maintaining a certain reserve in coin and using the remainder for loans, or in any other way. Our national

banks are required to use their assets, to the full amount of the circulation issued, in the purchase of bonds to be deposited with the Treasurer of the United States. This requires an amount of assets in excess of the circulation received. It makes a very safe circulation, but is a very wasteful use of the assets. The resulting notes fulfill none of the requirements of an efficient and satisfactory circulation but in their

safety and uniformity in value.

If, in addition to the amount of notes they are now allowed to issue by law on bonds deposited in the Treasury, the national banks were allowed to issue an additional amount of uncovered notes, beginning with 20 per cent and gradually increasing to 50 per cent, it would make the circulation more expansible. A graduated tax on the amount issued, joined with ample provisions for their redemption and return to the issuing bank, would result in the necessary contraction when the circulation became redundant and the notes not needed in The safety of the notes can be made absolute by a reserve fund raised by a very small tax. During the almost forty years the national banking system has been in existence, the total amount of the notes of the banks which have failed, outstanding at the time of their failure, has been less than \$21,000,000. During this same period the banks have paid in taxes on circulation above \$90,000,000, or four and one-half times as much as would have been required to pay all these notes if the bonds had not done so. If there had been outstanding the full 50 per cent of uncovered notes suggested above, or \$10,000,000 above those covered by the bonds, the taxes which have been paid would have been nine times the amount required to pay them, if, as would of course have been the case, the bonds had paid for the covered notes.

It has been urged against the idea of a guarantee fund that the strong banks would not take out the notes and pay the taxes for the benefit of the weaker banks. If the inducements to issue notes in the past have been sufficient to secure nine times the amount of taxes required, it is certainly a safe calculation that they will be sufficient in the future. . In further confirmation of these figures, it is shown in the table prepared in this office for Mr. Fowler, chairman of the Committee on Banking and Currency of the House of Representatives, and included in his able report on H. R. 13363, that a tax of 0.22 per cent would have been sufficient to pay the notes of all failed national banks if the bonds had been lost or destroyed. The safety of the notes should be further increased by provisions that only banks with a minimum of unimpaired capital and surplus could issue the uncovered notes, and that the Comptroller of the Currency, or the Comptroller and the Secretary of the Treasury, should have discretion to refuse any bank, or all the banks, authority to issue additional uncovered notes. The period covering the whole history of the national banks is long enough to have established reliable averages, which can be as safely counted upon as the averages upon which the vast insurance business of the world is done. Any unusual variation would be amply provided for by the factor of safety of nine, which the figures given above show in the taxes paid during this whole period.

The present capital of all the national banks would permit the issue of about \$140,000,000 of uncovered notes for the first issue of 20 per cent and the ultimate issue of \$350,000,000 if the amount was increased to 50 per cent. These maximum figures would probably be increased

by the increase in the number of national banks. By referring to the tables on pages 35 and 36 it will be seen that the tendency is for the increase of banks other than national both in the number and capital of banks and in the proportion of deposits held. An increase in the note-issuing privileges of the banks would doubtless check this gain of the outside banks if it did not turn the growth the other way.

The greatest demand for increased currency comes, of course, when it is required for moving crops in the farming States. If this can be supplied quickly and automatically as required by the banks in those States, and if, after performing its duty, it is returned to the banks and retired, it will mark a great advance in the improvement of our facilities for handling the vast and rapidly growing business of this country. The following tables show in a consolidated form the totals of the principal items in the bank statements in the farming States and of the United States, also the values of farm lands, farming implements, and live stock on the farms, with the value of all farm products for 1890 and 1900:

Summary of the Principal Items of Resources and Liabilities of National Banks and All Other Banking Institutions Located in the Southern, Middle Western, Western, and Pacific States Reporting to the Comptroller of the Currency in 1892, 1897, and 1902.

In the latter half of each year the problem is presented to the banks to furnish currency needed to handle from 2,500 to 3,000 millions of bushels of grain, 8 to 10 million bales of cotton, and a corresponding quantity of other farm products. The total value of these products for the year 1902 will not be far from 5,000 millions of dollars. This calls for the use of a vast sum of money. Much of it is done on bank deposit credits, by means of checks, and the increased number of banks and better means of communication enable the people in country communities to handle more and more in this way, or we should not be able to transact such an amount of business at all. So much of it, however, must be handled with currency of some sort as to make a demand for currency in large amounts, and every year there is a great deal of anxiety, and often serious disturbance in business, until the crop season is over and the money returns to those who have had to furnish it. is a matter of more importance to the man who needs the money than the man who furnishes it. When interest rates advance it is the man who pays the higher rate who suffers the most, not the man who has the money to lend.

The people in the country who do this enormous business and produce the great wealth are entitled to better service than they get, are in fact entitled to the very best facilities which can be devised and supplied to them. It can not be any undue inflation of credit to supply these people who have just raised such quantities of the most readily salable staples the money they require in that form of bank credits represented by circulating notes. As the tables show, these people own land worth 16,674 millions of dollars, farm implements worth 761 millions, live stock worth 3,078 millions, and raise over 4,000 million dollars worth of products. In the farming States there are banks with over 600 millions of capital and 70 millions of surplus. They have on hand in cash 370 million dollars, and due from other banks 802 millions. Here are agencies enough to perform this work and abundant basis for the credits if the law permitted it. We place no limit on the loans they may make but that supplied by reserve requirements on the deposits; why should they not supply a limited amount of notes secured by two-thirds their value in bonds and made absolutely safe to the note holder by the guarantee fund raised by the tax on circulation? Such a change in the currency would not only supply the needs for crop moving, but also the currency needed for other business.

Each bank could supply what it found was necessary for its own customers. The demand which generally begins in the late summer months would gradually be met as it came. In every community the supply would be in the hands of men who are familiar with local needs and conditions and the distribution would be made where and when needed without reference to conditions elsewhere or dependence on the money market in the reserve cities and financial centers. This would be of great benefit, not only to the people in farming districts and those handling farm products, but to the vast number of business men engaged in mining, manufacturing, mercantile and commercial lines. Instead of the whole business public dreading the approach of the crop-moving time for fear there might come some stringency in the money market to upset their calculations and interfere with their financial arrangements, the banks would be in position to furnish the

currency needed for the crops when and where it was to be used with-

out disturbing business in other lines.

In times of panic the power to issue additional notes would be an element of great strength to the banks and not of weakness. It would enable the banks to protect themselves and their customers when protection is most needed. Panics or financial crises come generally very suddenly and as the result of fear which spreads among the people that they will not be able to get money to meet their payments and conduct their business. This spreads and forces liquidation of credits which otherwise would have remained outstanding. There never is a time when the liquidation of all credits or any large proportion of those outstanding is possible without producing a crisis. As long as there is confidence, and each individual feels secure that he can get what money he needs upon usual terms and security, there is no neces If our bank circulation can be made more automatically elastic so that the banks can supply more or less of circulation as needed, which is so safe and reliable that it is readily accepted and used for all business transactions, we will have a force at work in our financial affairs which will diminish the liability of a money panic, and will be an efficient aid when we shall have an actual condition of panic.

Without discussing the causes which led to the panic of 1893 and the depression which followed there is no question but that the actual shape the panic took was a sudden demand for currency. Referring to the table on page 37 giving the total money and currency of all kinds in circulation in the United States, the amounts held in the Treasury as assets and in the banks with the amount not in the Treasury or banks, that is, in use by the people, it will be seen that the proportions do not vary greatly in normal times. The greatest variation is in the amount in the Treasury as assets, which, from various causes, has ranged from 8 to 16 per cent in ten years. The amount held by the banks is ordinarily from 32 to 33 per cent. This ran down to 29 per cent during the panic year of 1893 and in 1896, when the silver question was involved in the election, and increased to 38 per cent in 1894 in the reaction following the panic. The amount of money outside, in circulation among the people, has run quite uniformly from 53 to 55 per cent, but during the panic year of 1893 this went up to 62 per cent, showing the withdrawal of coin and currency due to the panic. During the panic all sorts of substitutes for currency were resorted to, which were accepted and used for the time.

How much better prepared we would have been if the banks had been able to supply a large volume of good notes. It is not claimed that this would have prevented that panic or that panics may be prevented in the future by such means, but the tendency or liability to panics will be appreciably diminished if our banks have such a reserve power furnished them, and when panics occur we will be better prepared to meet them and mitigate their force and effect. This currency should be immediately and quickly available, so that the banks need not wait for serious trouble before they begin to issue it. The conditions of issue should not be such as to make it a confession or indication of weakness for a bank to issue the notes. They should be coming and going all the time, in accordance with the demands of business. Such notes would be much preferable to any form of clearing house notes or emergency circulation issued by clearing houses or similar associations, because each bank could quickly issue its own

quota without waiting for the slow process of consultation, and the average result obtained by the independent action of banks in all parts of the country would more nearly respond to the actual demands and necessities.

The currency here outlined is what has come to be called in the recent discussions an emergency circulation. It would be better than this; it would be a currency which would prevent many emergencies from arising, or so diminish their seriousness that they would pass unnoticed. When emergencies did arise it would very greatly add to our equipment

and ability to meet them.

This plan for the modification of the national-bank currency is not offered as anything new. It has been suggested often before, widely discussed, and bills embodying these general features have been before Congress for several years. It is not claimed that this plan would remedy all the defects in our currency system, but it is urged as a practical and simple method of improving the national-bank currency by giving it the much-needed quality of elasticity without impairing its safety. If we wait until there is agreement on all points before we make a change in our currency laws, we will never make any reform. If we make such changes from time to time as study and investigation convince us can be safely made and are advisable, we are much more apt to arrive at a satisfactory law than if we wait until it can all be reformed in one act.

The Comptroller therefore calls the attention of Congress to this subject, asks its careful consideration, and strongly recommends the passage of an act embodying the main features here outlined.

WM. B. RIDGELY, Comptroller of the Currency.

To the Speaker of the House of Representatives.

## REPORT OF THE REGISTER OF THE TREASURY.

TREASURY DEPARTMENT,
OFFICE OF THE REGISTER,
Washington, D. C., September 11, 1902.

Sir: I have the honor to submit the annual report of the operations of this office for the fiscal year ended June 30, 1902.

The business of the office is divided between two divisions, viz, Division of Loans, and Division of Notes, Coupons, and Currency.

#### DIVISION OF LOANS.

On the 1st of July, 1901, there were 20 employees in the division, which number was reduced by 2 during the year. It now consists of 1 chief, 15 clerks, and 2 messengers, total 18, being an increase of 1 over the number employed before the bond issue of 1898 and the refunding operations later. The work of the division pertains exclusively to the public debt of the United States, and includes among its principal items: First, the receipt of new coupon and registered bonds prepared by the Bureau of Engraving and Printing, and the custody of the same until required for issue. Second, the issue of all bonds, whether on account of moneys deposited for their purchase or, in the case of registered bonds, when transferred from one owner to another, or when issued in exchange for coupon bonds. Third, making a record of all bonds redeemed or canceled on account of transfers and Fourth, keeping accounts with each holder of registered bonds. Fifth, the declaration of interest on all registered bonds once every three months, together with the preparation of schedules for drawing and mailing checks in payment thereof. Sixth, the examination and recording of authorities presented for the assignment of registered bonds.

After the bonds for issue have been printed they are delivered to the Secretary of the Treasury, who in turn delivers them to this office through the Division of Loans and Currency, taking a receipt therefor. They are then placed in the vault in custody of the vault clerk, who enters all receipts upon the vault ledger, keeping each series and the denominations in each series of bonds separate and distinct from each other. As the bonds are needed for daily use by the clerks of the division, requisition is made upon the vault clerk for same, and he takes the receipt of the clerk to whom the daily supply is delivered for all bonds that leave his custody. The vault ledger at all times shows amount on hand, number of sheets comprising the amount, and

the denominations of the various bonds in stock.

The principal work of the division, aside from the labor entailed by an original issue, is the transferring of bonds from one person to another, and the exchanging of coupon bonds into registered bonds. Each day the mails and the express companies deliver to the office packages containing bonds for transfer, varying from twenty-five to three times that number. Then, through the local banks, by messenger, and through other bureaus of the Department, packages of bonds are received throughout each working day, all intended for transfer and aggregating millions in amount. The assignments on the back of the bonds are examined carefully to see that they have been properly executed, and if said assignments have been made by an administrator. executor, or attorney, the records are examined to determine whether the necessary authority for the transfer is on file. In cases where assignments are made by legal representatives of a deceased person, probate certificates under seal of the court, showing the appointment of such representative must be on file in this office. Where assignments are made by attorneys, the original power of attorney must be filed before the acts of the attorneys will be recognized. In cases of banks, trust companies, associations, lodges, etc., assignments can only be made by some person authorized to act by a resolution adopted by the board of directors, or other governing body, a certified copy of that resolution first being filed with this office. It is a task of some magnitude to keep these authorities properly indexed and in shape for immediate consultation. The card-index system has been found most convenient and valuable for this purpose, and at present the authority clerk has some 30,000 cards in use, with the list growing daily. the assignments are found to be correct in every detail, new bonds are issued to the payees mentioned in the assignments, and the bonds are forwarded to the addresses that are given in the letters transmitting the bonds for transfer. Should the assignments be defective in any particular, the shipper is immediately corresponded with and told just what the error is and how to remedy it. It has for years been the policy of the office to clear up the work on all desks in this division each day, as well as answer all correspondence the day the letters are received, so there is never on hand any unfinished work, except such cases as can not be forwarded because of errors in assignment, etc.

When the cases have been finally acted upon by the examiners, new bonds are issued and the old bonds are canceled and placed in the files of the office, in such form as to be immediately available in case it is necessary to call them up for reference, or for any purpose whatever. All papers accompanying a transfer case are filed with it, and the Department, through these complete cases, is enabled to trace the ownership of a registered bond and its transfer from one owner to another, no matter how many hands it may have passed through

between the original issue and the last transfer.

While on this subject, I should like, if possible, to impress upon the owners of bonds the fact that an assignment is not a transfer. Many persons after assigning a bond notify this office that they have transferred bonds to another person, and ask that the transfer be made to the new owner on the books of the Department, and that interest checks be sent to the new address. No request of such character can be complied with, as interest checks are always drawn to the order of the person owning the bonds as shown by the books of this office, and as transfers can only be made here after the bonds assigned have been

surrendered, it is obvious that the holder of a bond that may have been assigned, but not transferred to him, will receive no interest unless it is paid to him by the person from whom he purchased the bond,

who will receive it from the Department.

A ledger account is kept with all holders of United States registered bonds, and as these holders buy or sell, their accounts are credited or debited as the case may be, just as in the case of a merchant who keeps accounts with his customers. It requires 78 large ledgers, each containing over 700 pages and averaging three accounts to a page, to contain the accounts of the holders of the 4 per cent funded loan of 1907 alone, and, as an example of expert bookkeeping, I make the statement that all of these books are kept by one clerk, who looks after the details of the loan, such as examining the assignments, preparing the bonds for transfer, and compiling the interest schedule each quarter. one assistant the clerk attends to the whole loan. In contrast to the books mentioned above, I mention the accounts of the 2 per cent consols When the refunding act went into effect it was determined to try the card system of bookkeeping rather than multiply the large books which were bidding fair to occupy all of the available space in Again, it was considered that any plan that would simplify the bookkeeping and at the same time throw all essential safeguards around the keeping of the accounts of the Government with its bondholders would be a good thing for all concerned, and after a great deal of study a system was evolved and cards prepared in accordance therewith that has proven highly satisfactory. Instead of the cumbersome ledgers and journals in use on the other loans, the clerk handling the cards makes the journal and ledger entries on the card at the same time, and never has to leave the desk to refer to large books. The cards are all contained in the drawers of the clerk's desk, and at least one-third has been gained in time, to say nothing of the labor saved. The experiment has proved to be a success, and the problem of utility and time and labor saving in the method of handling accounts has been solved, so far as this office is concerned.

The preparation of the interest schedules each quarter is a work requiring great accuracy and as great expedition. For a certain period before a dividend is declared (one month in two cases and fifteen days in others), the books are closed against transfers, in order that the interest schedules from which the checks are drawn each quarter may be prepared. As this involves a general rearrangement of the schedules each quarter, to conform to the increase or decrease, as the case may be, of the holdings of various subscribers to the different loans, and as the first pages of the copy must be in the hands of the printer on the morning after the books close, it will be seen that expedition, accompanied by care and accuracy, is necessary on the part of the employees of the division, in order that there may be no delay in the transmission of the checks to the persons entitled to them on the day the interest is due. The preparation of these schedules necessi-

tates the revision of nearly 60,000 accounts.

The year just closed has not been marked by the extraordinary changes in the public debt which signalized the three years which preceded it, but the work involved has been somewhat greater than that of an average year when ordinary conditions prevail. The adjustment of the ownership of the public debt, owing to the great changes produced by the refunding of the debt at 2 per cent, was not completed

at the beginning of the fiscal year, but continued during the whole period. So large a reduction in the amount of interest obtainable from a given investment, necessarily resulted in important changes from one class of owners to another. Yet it may be observed that those who took the 2 per cent bonds were for the most part the larger holders, and the difference in the amount of work was less than would naturally be inferred from the magnitude of the amounts involved. Besides this, the refunding operations left behind numerous items of work in preparing and arranging the documents for permanent preservation in the best form. This work has been carried on whenever any part of the office force of this division was available for the purpose.

The stock of unissued bonds on hand at the beginning of the year was in most respects sufficient to last during the year. The only receipts were 400 bonds of the Fifty-year funded loan of the District of Columbia, due in 1924, at 3.65 per cent, and representing a value of \$1,200,000.

The two following tables show the number and amount of bonds issued and canceled during the year in connection with the various loans of the United States and the 3.65 per cent loan of the District of Columbia. The latter is the only loan of the District of Columbia now outstanding which was issued by authority of Congress:

NUMBER AND AMOUNT OF BONDS ISSUED DURING THE YEAR ENDED JUNE 30, 1902.

During the fiscal years 1865, 1866, 1867, 1868, and 1869 the Government issued bonds amounting to \$64,623,512 in aid of the construction of the several Pacific railroads, which were payable in thirty years from date of issue. The payment of \$13,000 of these bonds during the past year completes the redemption of this loan.

Number and Amount of Bonds, in Summary Form, Issued and Canceled, and the Total Number Handled during the Last Ten Years.

## SPANISH INDEMNITY CERTIFICATES.

Under the treaty of February 17, 1834 with Spain, the sum of \$599,850.28 was awarded to American citizens, under the sanction of the Spanish courts, on account of seizure and confiscation of vessels and cargoes belonging to such citizens. The United States agreed to receive from Spain the principal and interest of this debt, and to distribute it to the rightful owners whenever it was paid to this Government. No payment has ever been made on the principal, but during most years the sum of \$28,500 has been received through the Department of State from Spain, and divided pro rata among the holders of the stock. The last dividend of this character was declared

December 27, 1900. There are at present eighty-two holders of these certificates.

The following table shows the transfers of Spanish indemnity certificates from one owner to another during the last nine years:

TRANSFER OF SPANISH INDEMNITY CERTIFICATES.

During the year the following redeemed coupon bonds issued by the District of Columbia when under a Territorial government, which had been paid by the Treasurer of the United States, were recorded on the books of this office:

DISTRICT OF COLUMBIA COUPON BONDS REDEEMED DURING THE YEAR ENDED JUNE, 30, 1902.

	Loan.	Number of bonds	Amount.
Thirty-year funded loa Ten-year loan (Bowen) Water-stock loan, 7 per	n of 1902, 6 per cent. , 6 per cent cent	36 1 320	\$35,500 50 320,000
Total		357	355, 550

Elsewhere in this report it has been stated that one of the important duties devolving upon the office is the preparation each quarter of the interest schedules for the various loans. Upon all the current United The interest on the States loans the interest is payable quarterly. 4 per cent funded loan of 1907 and the 2 per cent consols of 1930 is due on the 1st of January, April, July, and October of each year, and the books are closed against the transfer of bonds of these loans during a period of one month prior to each of said dates, in order that the schedules may be readjusted to meet the changes in ownership of bonds that have occurred during the quarter, and in order that they may be reprinted, compared, and delivered to the Treasurer of the United States, who from them draws the checks, and who must have them in time to complete his work and have the checks ready for the mails the evening before the interest is due. This necessitates rapid work, but it is a source of gratification to be able to state that notwithstanding the speed with which the work is performed, and notwithstanding the fact that the clerical force engaged in their preparation is small, there has never been any delay in the prompt delivery of the completed schedules to the Treasurer of the United States, nor have there ever been any serious errors committed in their preparation.

The interest is always declared in favor of the persons who own the

bonds as shown by the books of the division at the beginning of the closed period, and if assignment of bonds is made during this period, with an understanding that the interest is to go to the assignee, he will have to collect it from the assignor, in whose favor it is declared.

The interest on the 3 per cent loan of 1908–1918, the 4 per cent loan of 1925, and the 5 per cent loan of 1904, is payable on the 1st of February, May, August, and November of each year. The books of the first-mentioned loan close for one month, and on the two latter loans for fifteen days before the interest is due. The interest on the District of Columbia 3.65 per cent bonds is payable semiannually, on the 1st of February and August, the books being closed for a period of ten days before the declaration of a dividend.

During the fiscal year the schedules for the drawing of interest checks upon registered bonds have been prepared in the office and

delivered to the Treasurer of the United States as follows:

DIVIDENDS OF INTEREST.

All of the bonds received from the Bureau of Engraving and Printing, through the Secretary's office, are kept in the vault connected with the division, and are distributed to the clerks for use as they are needed in the daily routine, as shown in an earlier portion of this report. As changes are constantly taking place in the ownership of bonds, necessitating the cancellation of the bonds disposed of by the owners, and the reissue of new bonds in the names of the new owners, and as the process of printing bonds is a slow one, requiring several months ordinarily, it is necessary that enough unissued stock to meet every emergency that may possibly arise during the year be kept on hand. At the close of the fiscal year an invoice of the stock in the vault was made, the count agreeing in every particular with the condition of the contents of the vault as shown by the vault ledger. At that time there were stored in the vault in bonds of all loans and

denominations, sheets aggregating in amount \$1,254,219,340, as shown in detail by the subjoined table. The responsibility of the custodian of this vault, containing as it does this vast amount of securities, is great, and it is for this reason that the recommendation has elsewhere been made that his salary should be augmented to the extent of that of other vault custodians throughout the Department. He is not only responsible for the safety of the contents of the vault, but he must at all times see that the stock on hand is equal to all possible demands, and must be able to tell at a moment's notice just what stock is in his possession.

The following table covering this point at the close of the fiscal year

is interesting:

Unissued Bonds on Hand in the Office of the Register of the Treasury, at the Close of Business June 30, 1902.

## PACKAGES RECEIVED AND SENT.

During the year this office received by registered mail 3,665 packages containing bonds to the amount of \$41,992,137.92. This does not include the many packages received by regular mail, express, through other bureaus, and from local sources. There were sent from the office by registered mail during the year, 6,065 packages containing bonds to the amount of \$55,927,023.40.

The fact that more packages, aggregating a greater amount, were sent from the office by registered mail than were received through the same channel is accounted for in this wise: A package received frequently contains bonds for transfer to several different persons located at different post-offices, the instructions accompanying the bonds directing this office to forward the new bonds direct to the payees. As a

REGISTER. 525

consequence, several packages are sent out where but one was received. Then, bonds are received from various other bureaus during the course of a day's business, and also from local sources—banks, brokers, and individuals in the city, who send in their stock by messenger or bring it in person. Of course, all these cases are treated as of local delivery so far as this office is concerned, but in the shipments of the day many of them appear as having been forwarded from the office by registered mail.

It would be well if the business houses and individual shippers of bonds would understand that all registered bonds intended for transfer from one person to another should be forwarded direct to the Register of the Treasury, while coupon bonds for exchange into registered bonds should be forwarded to the Secretary of the Treasury, Division of Loans and Currency. A universal observance of this rule will insure prompter service to the parties interested, and will relieve the records of other bureaus of much matter in which they have no interest.

Another general rule that it would be well for shippers of bonds to remember is that when bonds of different loans are forwarded for transfer a separate letter of transmittal should accompany each class of bonds. There is no objection to forwarding bonds of different loans in one package, but as each class of bonds is filed to itself, and as each case must be accompanied in the files by a letter of advice, it is obvious that where but one letter is mailed with several classes of bonds it devolves upon this office to make copies of that letter, or return the bonds to the shipper in order that his work may be completed.

There is still another regulation which dealers in United States bonds very often fail to observe. Coupon and registered bonds are frequently forwarded to this office in one package with one letter of transmittal. A purchaser asks his dealer to procure for him \$1,000 in registered bonds of some particular loan. The dealer has on hand \$500 in registered and a like amount in coupon bonds. He forwards these bonds to this office with the request that a registered bond for \$1,000 be issued in the name of his client. But \$500 (the registered bond) should have been forwarded to the Register, accompanied by a letter stating that \$500 in coupon bonds was being forwarded to the Secretary of the Treasury by the same mail for exchange into registered bonds for his client. All coupon bonds intended for exchange must be forwarded to the Secretary of the Treasury, and where the shipper neglects to observe the regulation it devolves upon this office to perform his work for him.

### FOREIGN HOLDINGS.

An impression seems to prevail throughout the country that a large proportion of the bonds issued by the United States are in the hands of foreigners, meaning by that term nonresidents of this country. This is made manifest by the number of inquiries received at this office relative to the amount of bonds held by foreigners.

Heretofore the Department has not been able to answer these queries, except in a general way to state that the amount of foreign capital invested in United States governmental securities is relatively small. At one time years ago when the civil war debt was being refunded and the 4 per cent funded loan of 1907 was being issued, a great deal of foreign money was invested in bonds of this country.

But the conditions existing at that period of this country's history have changed. Home capital now seeks and owns home securities, and the foreigner is no longer our creditor, except in a very small way.

It has been thought best to prepare for this report an analysis of the various loans in order to determine in an approximately correct manner the proportion of United States bonds held by foreigners. The result of that analysis is interesting and is presented on page 13.

The ability and willingness of the people of the United States to tender their means in support of their Government was made apparent by the issue of the 3 per cent loan of 1908–1918—the Spanish war loan, so called—when over \$198,000,000 (the money of the people of the United States, scattered from Maine to the Gulf, and from the Atlantic to the Pacific) was deposited with the Secretary of the Treasury in exchange for the "promise to pay" of the United States, at an annual rate of interest at 3 per cent. It is a well-known fact that enough money was tendered the Secretary to purchase many times \$200,000,000 in bonds, and he was under the necessity of returning the excess to the subscribers, only the amount first mentioned being needed. Not a dollar of the bonds issued to maintain the expenses of the Spanish war went abroad, and almost \$100,000,000, or half the amount issued, was in bonds ranging in denomination from \$20 to \$500, the small subscribers being given the first option.

In July, 1899, an analysis of the loan disclosed the fact that \$827,500 of the 3 per cent bonds had been bought in the market by foreigners, not by individuals, but by insurance companies in the three countries, England, Germany, and Holland, which were compelled to deposit United States bonds with the superintendent of insurance in the various States of the Union before being allowed to do business in those States. The analysis this year discloses the fact that \$915,000 in this loan are held by insurance companies in England, Germany, Holland, and New Zealand, out of a total of \$49,432,380. The individual foreign holdings are not apparent, though it is possible a few bonds may be held by residents of Cuba, the interest checks being sent to attorneys in New York. In such cases the Department would be unable, of course, to properly classify the holdings, and they would be treated as domestic.

The present analysis shows that out of a total of \$782,924,330 but \$16,022,850 is held by foreigners, and of this latter amount \$12,578,000 are held by insurance companies and are on deposit with the superintendent of insurance in the various States of the Union. These deposits are required in order that the policy holders in the States wherein the companies do business may be secured from loss. This leaves the individual foreign holdings of United States bonds but \$3,444,850.

The bonds most largely held by foreign insurance companies are those of the 4 per cent loan of 1925 (long fours). The insurance companies of England, Germany, Switzerland, China, Scotland, and Sweden, have on deposit in this country bonds of this loan to the amount of \$5,617,000, while individuals in those countries, together with those of France, Cuba, and Canada, own \$250,900 in bonds.

The 2 per cent consols of 1930 is the next most popular loan for foreign investment. There are no individual foreign holders of bonds of this loan, but the insurance companies of England, Russia, Canada, and Germany have on deposit \$3,255,000.

Next in popularity is the 4 per cent Funded loan of 1907. This is

the oldest loan now extant, and at one time was quite largely held by foreigners. It is still the favorite for individual investors. Owners of these bonds to the extent of \$5,940,450 are scattered over the countries of England, Ireland, Germany, Holland, France, Cuba, Scotland, Canada, Spain, British Columbia, Switzerland, Greece, Mexico, Sicily, New Zealand, Central America, Sweden, Norway, China, Nova Scotia, Hungary, New Brunswick, Jamaica, and Russia, and reside in ninety towns. Insurance companies in six of these countries, namely, England, Germany, Holland, Scotland, New Zealand, and Russia, hold \$2,765,500 of the bonds of this loan, while the individual holdings amount to \$3,174,950.

The 5 per cent loan of 1904 now amounts in registered bonds to but \$10,731,650. Of this amount, \$44,500 is held by residents of England, Germany, and Switzerland, insurance companies owning \$25,500 and

individuals \$19,000.

This analysis applies only to registered bonds, as there is no way of determining the amount of coupon bonds held abroad.

#### DOMESTIC HOLDINGS.

An analysis has also been made of the domestic holdings, with the

following result:

There are on deposit with the Treasurer of the United States in trust for the various national banks of the country, \$428,145,980. The national, State, and savings banks hold, in addition to the above amount, \$80,656,070, making a total of \$508,802,050 belonging to the banks. The insurance and trust companies own \$16,809,200; the lodges hold \$836,840; societies have a total of \$2,969,400, and individuals own \$237,483,990.

The subjoined table gives in compact form the result of the analysis, showing the total foreign and domestic holdings outstanding and the

division of the domestic holdings:

LOANS AS TO FOREIGN AND DOMESTIC HOLDINGS.

		Foreign.				Domestic

ANALYSIS OF BONDS HELD BY NATIONAL BANKS, AS TO STATES AND NUMBER OF BANKS.

When the refunding act went into operation, it was found that the 2 per cent consols of 1930 were of such particular utility to the national banks of the country that almost the entire loan was lodged with the Treasurer of the United States to secure the circulation issued by the banks, or as security for the deposits lodged with them by the Secretary of the Treasury. While it has at all times been an easy matter to determine the amount of bonds owned by the national banks and used as collateral for circulation and deposits, no attempt has ever been made to classify the banks by States in such manner as to determine the number of national banks in each State holding bonds as above, and the amount of money invested. In view of the fact that the investment in securities of this nature by the banks augurs well for the prosperity of the communities in which the banks exist, and in view of the fact that the present era of prosperity is almost unprecedented, it has been thought that a report on the lines indicated above would be interesting at this time, and a table which follows has been prepared, giving in detail the amount of bonds of the different loans held by the national banks in the various States, Territories, etc., and deposited with the Government as collateral, the number of banks in each State, etc., holding bonds, and the total amount of bonds held in all of the States, Territories, etc. A study of this table will develop a great many curious facts. For instance (I take the 2 per cent consols of 1930 as a basis for the present analysis, as practically all of the bonds in question are of that loan), it is found that the State having the greatest number of banks owning said bonds is Pennsylvania with a total of 531. Next in point of numbers comes New York with 334. While Pennsylvania has 197 more banks than New York as creditors of the Government, the latter has invested in bonds \$76,608,750, while the former's amount invested is \$50,246,950, or \$26,361,800 less. Texas ranks third as to number of banks, but ninth as to amount invested. She has 319 banks, with an investment of \$10,293,700. is ranked by Ohio with \$27,608,600, and 283 banks; Massachusetts with \$25,413,900, and 234 banks; Missouri with \$19,527,650, and 74 banks; Illinois with \$18,816,550, and 262 banks (fifth in number of banks); Kentucky with \$12,165,900, and 88 banks, and Connecticut with \$11,001,900, and 78 banks.

Nevada, the Territory of Alaska, and Porto Rico, the youngest of our possessions, have each one bank holding bonds on deposit with the Government. The State of Nevada has in amount \$20,500; Alaska has \$87,500, and Porto Rico has \$250,000.

New York is the largest investor and Nevada is the smallest.

One of the encouraging signs of the times is found in the manner in which the Territories are coming to the front with banks. Oklahoma has 62 national banks, holding bonds to the amount of \$904,750; Indian Territory is second with 60 banks and \$883,500 invested, while New Mexico, third, has 13 banks and an investment of \$722,550.

The District of Columbia with 11 banks, has an investment of

\$1,870,000.

The following table shows the relative rank taken by States and Territories, both as to number of national banks and amount invested:

Consols of 1930 held by national banks June 30, 1902.

	Number. Amount.				
Rank.	State, etc.	Number of banks.	Rank.	State, etc.	Amount.

The following table gives in succinct form a statement of the number of national banks in the different States, Territories, etc., holding registered bonds, together with the amounts held. In the 2 per cent consols of 1930, 4,341 banks hold \$394,533,900, as outlined in the foregoing table. In the 4 per cent funded loan of 1907, 209 banks hold \$14,369,250; in the 4 per cent loan of 1925, 88 banks hold \$8,826,350; in the 3 per cent loan of 1908–1918, 175 banks hold \$9,473,080, and in the 5 per cent loan of 1904, 17 banks hold \$943,400, making a total of \$428,145,980.

### DIVISION OF NOTES, COUPONS, AND CURRENCY.

This division of the office has charge of the recording, accounting, and final disposition of all unregistered redeemed evidences of the public debt, the leading branches of the work being the counting, recording, and examining of redeemed coupon bonds, paid coupons and interest checks, and the final count and examination of the redeemed currency prior to its destruction, with other additional duties in connection with various miscellaneous redemptions of Government securities. The methods adopted in handling the redeemed securities received in this division involve a variety of details in connection with every branch of the work.

Redeemed, exchanged, and transferred coupon bonds are entered in blotters, the entry indicating the case or report number, number and denomination of bond, date of last coupon, and total number of coupons attached to the bond. After verification of the entries by reexamination, they are transferred to numerical registers as permanent records, and scheduled by report numbers which indicate the number and amount of bonds contained in the schedule, and number of coupons attached. The schedules are prepared in duplicate and preserved in book form, copies of which are reserved as a guide to the destruction committee

Redeemed detached coupons received are first counted to verify the accompanying schedule, assorted by loans, dates, and denominations, arranged in numerical order, counted, scheduled, and entered under their own report numbers in numerical registers, according to loans, dates, and denominations.

in case the bonds should ever be taken from the files and destroyed.

After reexamination of the record, the coupons are filed in boxes of uniform size, upon which labels are placed giving the report number and a description of the contents. The boxes are also filed in numerical order by report numbers, on shelves especially prepared for them, to make reference more speedy and accessible.

Redeemed interest checks of the various loans of the Government are counted to verify the letter of transmittal which accompanies each report. Each check is recorded under its own individual number and report, in numerical registers, examined, and filed in packages of one thousand checks, and labels attached indicating the loan, report, and date of redemption.

The redeemed currency (upper half-notes) is received from the Treasurer of the United States in numbered, classified, and denominated packages of four thousand notes each. Each of the packages are divided into four parts, lettered A, B, C, and D, each of the lettered parts consisting of smaller parts of one hundred notes each, numbered from one to ten, and initialed by the Treasurer's counter. The large packages are verified by counters in this office, first as to the gross contents by subpackages. Each subpackage of notes is counted and all errors, such as an incorrect classification (United States notes, Treasury notes, silver certificates, gold certificates, and demand notes), a wrong denomination, a lower-half, or a counterfeit (the latter being occasionally found), are noted, and the result reported to the Treasurer at the conclusion of each day's count. After all errors are rectified, the notes are then canceled by punching a round hole through each end, tied up with their original label, and delivered daily to the departmental committee for destruction by maceration. In addition to the leading work referred to as performed in this division, there are various other redeemed securities of a miscellaneous character received, which pass through the same system of verification and filing. Information regarding time and place of payment of coupons from lost or stolen bonds is continually being furnished to other offices, banks, or individuals, to aid in tracing lost or stolen coupon bonds, and the records and files of interest checks are constantly referred to for the verification of signatures, etc.

Through the perfect system of registration and filing of all redeemed securities received, invaluable and accurate information can always be

furnished by this office on the shortest notice.

At the close of the fiscal year the work in this division in all its branches was up to date, and the record of the year shows that the amount of work performed by the employees was creditable and entirely satisfactory.

During the year in some branches of the work there was a slight decrease in receipts of redeemed securities for record, while in other branches, notably the redeemed currency, there was a large increase.

At intervals much labor of a miscellaneous character has been performed in this division, to increase its facilities and usefulness in fur-

nishing information.

During the year there have been received, counted, entered in blotters, examined, transferred to numerical registers, and scheduled, 49,560 coupon bonds, with 3,219,626 coupons attached, and amounting to \$32,676,210. The various loans represented in this work are shown in the following table:

COUPON BONDS RECEIVED AND ENTERED DURING THE YEAR.

Note.—In some of the denominations of the above issues, the notes were redeemed at less than their full face value on account of discounts for mutilation.

The regular force engaged in counting currency consists of eight clerks of Class D (\$900), and this force has not been increased for many years. In order to keep this current work up to date, it has been necessary for several years to ask for the services of counters from the Bureau of Engraving and Printing and from other offices of the Department.

The following table shows the steady increase in the receipts of currency, and the necessity for strengthening the force employed on this work:

a Not including \$150 embraced in the Treasury collection of redeemed United States securities. b Not including \$880 embraced in the Treasury collection of redeemed United States securities. c Not including \$130 of One-year Treasury notes of ?863, act of March 3, 1863; \$150 of Two-year Treasury notes of 1863, act of March 3, 1863, issued without coupons, and \$680 of Compound-interest notes, act of June 30, 1864, a total of \$960, they being embraced in the Treasury collection of redeemed United States securities. United States securities.

UNITED STATES NOTES, TREASURY NOTES OF 1890, GOLD CERTIFICATES, SERIES OF 1882, PAYABLE TO BEARER, SILVER CERTIFICATES, REFUNDING CERTIFICATES, FRACTIONAL CURRENCY, ONE AND TWO YEAR TREASURY NOTES OF 1863, AND COMPOUND-INTEREST NOTES, RECEIVED FOR COUNT, CANCELLATION, AND DESTRUCTION, FROM FISCAL YEAR 1894-95 to 1901-2.

	Year.	Number o notes.	f Amount.
1895-96		56, 435, 68	3 276, 281, 303, 35
1896-97		59, 259, 95	3 253, 061, 552, 00
1897-98		58, 111, 94	2 249, 049, 270, 00
1898-99		63, 545, 00	5 271, 506, 013, 48
1899-1900		67, 558, 14	2 286, 067, 832, 25

Four clerks of this division, representing the office on the joint destruction committees, are closely connected with the work of the currency section. In conjunction with their regular desk work, they are assigned to the duties on various committees involving work of a miscellaneous character, and in the performance of which several hours are consumed each official day during the year.

The duties in part are to examine and check off the schedules of the redeemed currency, returned and redeemed internal-revenue stamps, and all statistical matter prepared for retirement, and to witness the destruction of the same at the Bureau of Engraving and Printing.

#### GOLD CERTIFICATES.

Redeemed gold certificates of the act of July 12, 1882, series of 1882, being issued payable to bearer, are destroyed in the same manner as the currency; while certificates of the same act, known as the series of 1888, and issued payable to order, are preserved and placed on file. Also, the latest issue of gold certificates of the act of March 14, 1900,

and payable to order, are filed.

During the year, of the gold certificates of the act of July 12, 1882, series of 1888, there have been redeemed, in denominations of \$5,000 and \$10,000, 67 certificates, amounting to \$510,000. Total number on file to date, 23,028 certificates, amounting to \$177,195,000. Redeemed of the act of March 14, 1900, in denomination of \$10,000, 3,740 certificates, amounting to \$37,400,000. Total number on file to date, 6,782 certificates, amounting to \$67,820,000.

a Not including \$130 embraced in the Treasury collection of redeemed United States securities.
b Not including \$150 embraced in the Treasury collection of redeemed United States securities.
o Not including \$680 embraced in the Treasury collection of redeemed United States securities.
Note.—The office of the Register of the Treasury is the last to receive the redeemed securities of the Government, and therefore the amounts reported as "redeemed" will be less than the actual redemptions by the amount in transitu, and the amounts reported as "outstanding" correspondingly increased.

To this division of the office is committed the custody of valuable vouchers and papers connected with the most important business transactions of the Government. The accumulation of these files has become so great that the room now allotted for their storage is entirely inadequate for their proper filing and shelf arranging. In view of this crowded condition of the vouchers, with the regular annual increase to be expected, it has become a question of pressing necessity to find some means of immediate relief, else in the future there may be such confusion that it will be almost impossible to keep the vouchers in any convenient form for ready reference. To secure their safety, preservation, and ready means of accessibility, I respectfully urge upon your attention the great necessity for providing additional room for the storage of these important vouchers.

During the year there were received and filed in this division, 1,503,990 redeemed vouchers, amounting to \$95,916,110.13, making a total of 120,917,479 redeemed vouchers, amounting to \$7,970,558,239.17 on file at the close of the year, as shown by the following table:

#### RECOMMENDATIONS.

I respectfully desire to renew the recommendation of last year, that the assistant register of this office be given an annual salary of \$2,500 instead of \$2,250, thereby placing the position upon the same plane and dignity, in the matter of compensation, with other offices of like character.

As the custodian of the vault in the division of loans of this office, besides his regular work for which he is paid \$1,800 per annum, has the immediate control of the Government securities, amounting to many millions, stored in the vault in his charge, and is obliged to keep

an account of the outgoing and incoming of the same, an increase in his pay of \$100 is recommended. His compensation will then be less by \$100 than that of vault keepers of the Department generally. It is also recommended that the principal bookkeeper be given a like increase. His position requires ability of a high order, with great care and constant vigilance in the discharge of its duties. Should this increase be given, he will still be paid less than is now paid bookkeepers in other branches of the service.

As there has been a large increase in the work of the currency section, as shown elsewhere in this report, which has required from ten to twelve details from other branches of the Department to enable us to carry it on successfully, it is recommended that the office be given nine counters at an annual compensation of \$720, and one laborer

at the compensation of \$660 per annum.

Judson W. Lyons, Register.

The Secretary of the Treasury.

Respectfully submitted.

# REPORT OF THE COMMISSIONER OF INTERNAL REVENUE.

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., November 1, 1902.

Sir: I have the honor to submit this report of the operations of the Bureau of Internal Revenue for the fiscal year ended June 30, 1902, together with a statement, as required by law, of the receipts from various sources of internal revenue during the months of July, August,

and September of the current year.

By an act of the Congress approved March 2, 1901, and taking effect on the 1st day of July of same year, receipts from internal-revenue taxes were materially decreased. By the act approved April 12, 1902, taking effect July 1 of this year, a further and largely increased reduction of internal-revenue receipts will be produced. By the provisions of these two acts the war-revenue taxes provided for by act of June 13, 1898, have been abolished, reducing in this way internal-revenue taxes about \$100,000,000. There has, however, been increase of revenue from taxes laid on distilled spirits and other objects that were not affected by war-revenue legislation.

The receipts of this Bureau for the fiscal year ended June 30, 1901, were \$306,871,669.42; for the fiscal year ended June 30, 1902, \$271,-

867,990.25.

By the act of Congress approved May 9, 1902, taking effect July 1, 1902, a change was made in the rate of tax assessed and to be collected on oleomargarine. Under the act of August 2, 1886, a tax of 2 cents a pound was imposed upon this product. By the amendment of May 9 of this year a tax of 10 cents a pound was assessed, with the proviso that when oleomargarine is free from artificial coloration that causes it to look like butter of any shade of yellow said tax shall be one-fourth of 1 cent per pound. By this same amendment a tax of 10 cents per pound was placed upon adulterated butter and a tax of one-fourth of 1 cent per pound on renovated or process butter.

There has been material reduction of the taxes imposed on fermented liquors, snuff, and tobacco, and while the receipts from these sources through this reduction have been materially decreased the work of the Bureau in connection with these subjects of taxation is unchanged, or increased. The same amount of labor and expense, both in this office and in collection districts, accrues whether the tax on beer is \$2 or \$1

per barrel and the tax on tobacco 12 or 6 cents a pound.

By an act of Congress of date June 27, 1902, provision was made for the refunding of taxes paid upon legacies and bequests for uses of a religious, charitable, or educational character, for the encouragement of art, etc., under the act of June 13, 1898. This office has already considered and passed refunding claims on this account amounting to some \$435,000, and others are now being considered, and it is believed that the total amount that will be refunded under this law will amount

Under the act of March 2, 1901, provision was made for the payment of a drawback or rebate on all original and unbroken factory packages of smoking and manufactured tobacco and snuff and cigars held by manufacturers or dealers on the 1st of July, 1901, and which rebate should represent the difference between the sum at which these goods had been tax paid and the rate of tax fixed by said act to be effective July 1, 1901. Under this law 49,364 claims have been received and considered by this office, and 49,201 allowed, the amount paid in rebates being \$3,108,511.51. The preparation and consideration of these claims in the various collectors' offices throughout the United States and by this office has largely increased the work of the Bureau.

Under the law authorizing the Commissioner to redeem or make allowance for internal-revenue stamps a large number of claims, aggregating 13,533, have been allowed. These include imprinted checks, drafts, and other instruments, and the weight of these instruments

presented for redemption has amounted to fully 250 tons.

By reason of the laws above referred to, this office has considered during the past year some 63,000 claims for moneys due to claimants by the Government, and while every effort has been made to expedite consideration of these claims and to make prompt payment of the sums due, yet this creditor class has doubtless to some extent felt that delays have occurred in the consideration and final adjudication of their respective cases.

The various changes in the rates of taxation upon objects upon which internal-revenue taxes are imposed have also caused increased labor in the preparation and distribution of the stamps representing these

changed rates.

In addition to the claims for refund or rebate presented, there have been filed during the fiscal year 1902, 4,743 claims for abatement of taxes assessed. These claims require the most careful examination, and their settlement involves the consideration of their legal status, as well as a careful scrutiny of the amounts presented and testimony submitted. Of the abatement claims pending on the 1st day of July, 1901, and filed during the fiscal year, 3,857 were allowed, amounting to \$4,187,681.29, and 440 claims, amounting to \$449,284.61, were rejected or returned for amendment.

The following partial comparison of the work done in this Bureau in 1896 and in 1902 is suggestive of the increase within six years: In 1896 there were 1,119,252,498 stamps issued to collectors from this office; in 1902, 1,847,753,740 stamps issued. The number of claims for the redemption of internal-revenue stamps received and examined at this office has increased from 1,111 claims in 1896 to 13,533 claims in 1902. The total production of spirits in 1896, in round numbers, was 89,992,555 gallons; in 1902, 132,843,802. The tax-paid with-

drawals of spirits in 1896 were 68,000,000 gallons; in 1902, 104,804,651. Cigars, 4,237,755,943 in 1896, as against 6,864,499,635 in 1902; fermented liquors in 1896, 35,826,098 barrels, as against 44,478,832 barrels in 1902. In 1896, 311 samples of oleomargarine, spirits, etc., were examined in the division of chemistry; in 1902, 805 samples. In 1896, 42,284 letters were sent out by this Bureau, and 41,103 received. In 1902, 96,962 were sent out and 70,740 received.

This partial comparison will be more interesting if we note the increase during the past fiscal year. During the fiscal year ended June 30, 1901, 73,338 letters were sent out. During the fiscal year 1902, 96,962 were mailed. In 1901 the total production of spirits was 128,568,201 gallons; in 1902, 132,843,802 gallons. In 1901, in round numbers, 100,000,000 gallons of tax-paid spirits were withdrawn; in 1902, 104,000,000. The same increase can be shown by an extension

of this comparison.

To properly handle this great volume of business, constantly growing and touching so closely the interests of hundreds of thousands of our citizens and coming into nearness of contact with the great and small commercial and financial transactions of the nation, requires a force of efficient, industrious officials, who in number should be kept equal to the requirements of the service and also equal to the proper and legitimate demands of the public for convenience in the transaction of their business with the Government.

The percentage of cost of collection for the fiscal year 1902 is \$1.70. This is an increase of 15 cents on each \$100 in the percentage of cost of collection as compared with the preceding fiscal year, when the percentage of cost was \$1.55 per \$100, the lowest percentage of cost reached in the history of this Bureau in the administration of internal-revenue laws. This increased percentage is due largely to increased expenses attending changes in the revenue laws, the cost of handling rebate claims on tobacco, the redemption of stamps provided for by law, and the decrease in total revenue collected following the partial repeal of war-revenue taxes under the act of March 2, 1901.

I estimate that the receipts from all sources of internal revenue for

the current fiscal year, 1903, will aggregate \$220,000,000.

While the statement of receipts for the months of July, August, and September, 1902, would appear to indicate that the receipts for the year will be largely in excess of the above estimate, there is to be taken into consideration the fact that the production of high-proof spirits, tax-paid within these three months, is regarded by this office as abnormal and not at all likely to be continued through the remaining nine months of the year.

I have therefore felt constrained to fix my estimate as above, believing it to be a conservative one, which will not mislead in any general

estimate of the total revenues of the Government.

Following is the statement of collections for the three months ending September 30, 1902:

### RECEIPTS FOR FIRST THREE MONTHS, CURRENT FISCAL YEAR.

The following table shows the receipts from the several objects of taxation for the first three months of the fiscal years ending June 30,

1902 and 1903. also given: A comparison of the receipts for the two periods is

#### COST OF COLLECTION.

The cost of collection for the past fiscal year, distributed among the different items of appropriation, was approximately as follows:

For salaries and expenses of collectors, including pay of deputy collectors, clerks, etc	\$1,700,064.92
13, 1898	310, 235, 57
For salaries and expenses of agents under act of June 13, 1898	58, 145, 54
For salaries of clerks, office of the Commissioner of Internal Revenue,	,
under act of June 13, 1898	104, 268. 86
For salaries and expenses of revenue agents, gaugers, storekeepers	
and storekeeper-gaugers, and miscellaneous expenses	2, 053, 245. 19
For paper for internal-revenue stamps  For expenses of detecting and punishing violations of internal-rev-	40, 884. 76
For expenses of detecting and punishing violations of internal-rev-	•
enue laws.	71,472.15
For salaries of officers, clerks, and employees in the office of Commis-	
sioner of Internal Revenue.	264,306.24
For salaries and expenses under act approved April 22, 1902	1, 264. 59
Total amount expended	4, 603, 887. 82

#### ESTIMATED EXPENSES FOR NEXT FISCAL YEAR.

I estimate the expenses of the Internal-Revenue Service for the fiscal year ending June 30, 1904, as follows:

•	
For salaries and expenses of collectors, including pay of deputy collectors and surveyors and clerks, and new districts, including the oleomargarine act approved May 9, 1902, and other expenses	\$1, 950, 000
For salaries of clerks and other employees in office Commissioner of	
Internal Revenue; salaries and expenses of 20 additional revenue agents,	
and for other purposes, made necessary by the acts repealing the act	منة مند
of June 13, 1898, rebates, redemption of stamps, and other expenses	250,000
For salaries and expenses of 20 revenue agents, for fees and expenses of	
gaugers, for salaries of storekeepers, and for miscellaneous expenses	2,000,000
For paper for internal-revenue stamps	65,000
For detecting and bringing to trial and punishment persons guilty of vio-	
lating the internal-revenue laws, including payment for information	
and detection	100,000
For salaries, officers, clerks, and employees in the office of Commissioner	
of Internal Revenue	265,740
m ( )	4 000 540
Total	4, 630, 740

In presenting the estimate of the expenses of this Bureau for the next fiscal year (1904), to wit, \$4,630,740, every effort has been made to provide for due and proper economy. Though this rule has been observed, it is believed that reduction of cost of collection may be extended to a point where it leads to detriment of the service, to loss of revenue, to public inconvenience, and ill temper.

#### SALARIES.

I have the honor to recommend that Congress appropriate for the fiscal year ending June 30, 1904, the sum of \$265,740, as salaries for the following officers, clerks, and employees in this Bureau:

One Commissioner, at.		\$6
One Commissioner, at.  Two deputy commissioners (one at \$4,000 and one at \$3,600)	<b></b>	7
One chemist, at		2
Two heads of division, at		. 2
Six heads of division, at		2
One superintendent of stamp vault, at		2
One stenographer, at		]
Twenty-four clerks, at		]
Twenty-four clerks, at		
Thirty-four clerks, at	- • • • • •	
Twenty-four clerks, at		
Twenty-two clerks, at	<b></b>	]
Thirty clerks, at.		
Two messengers, at	<b></b>	
Fourteen assistant messengers, at		
Thirteen laborers, at		

An aggregate of 201 persons.

I also recommend the appropriation of the sum of \$3,400 as salaries for one stamp agent, at \$1,600, and two counters, at \$900 each, the same to be reimbursed by the stamp manufacturers, as provided by the act of August 5, 1882.

#### SCALE OF SALARIES OF COLLECTORS.

The recommendations made for the salaries of collectors are based upon an estimate of their probable collections according to the follow-

ing scale, with the qualifications that if the actual collections should vary from the amounts estimated, the salaries will be readjusted at the end of the fiscal year:

For collection of—	Salary.	For collection of—	Salary.
\$25,000 or less. 25,001 to \$37,500. 37,501 to 50,030. 50,001 to 75,000. 76,001 to 100,000. 100,001 to 125,000. 125,001 to 175,000. 175,001 to 225,000. 225,001 to 275,001. 275,001 to 325,000. 325,001 to 375,000.	2,125 2,250 2,375 2,500 2,625 2,750 2,875 3,000 3,125	\$375,001 to \$425,000	3,500 3,625 3,750 3,875 4,000 4,125 4,250 4,375

In addition to the salary based upon the above-mentioned scale, the collector shall receive a commission of one-half of 1 per cent on tax-paid spirit stamps, and may receive additional compensation on account of territorial extent, as provided by law, provided the gross compensation does not exceed \$4,500. (See secs. 3148 and 3314, Rev. Stats.)

#### OFFÍCIAL FORCE.

The force connected with this Bureau during the fiscal year which ended June 30, 1902, in the various districts throughout the United States, as reorganized under the Executive order of May 21, 1887, was 65 collectors who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary,
52 1	4,375	3. 1. 1.	3,750	1 1	\$3,500 3,400 3,000

There were also employed 867 deputy collectors who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
28	\$2,000 1,900 1,800 1,700 1,600 1,550 1,500 1,450 1,400 1,350	30 190 2 107 130 61 4 14 2 2	\$1,300 1,200 1,150 1,100 1,000 900 850 800 750 720	4. 22. 4. 1. 10. 12. 5. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1.	\$700 600 500 480 400 300 240 200 120 60

There were also employed in the offices of the different collectors 137 clerks, who received per annum salaries as follows:

Number.	Salary.	Number	Salary.	Number.	Salary.
2	\$1,600 1,500 1,400 1,300 1,250	40	\$1,200 1,150 1,100 1,000 900	12. 3. 2. 2. 3.	\$800 750 720 700 600

Also 16 messengers or janitors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
1	\$800 600	3	\$480 400	4	\$300 240

At the close of the year ended June 30, 1902, 317 officers, clerks, messengers, and laborers were employed in this Bureau, and the aggregate amount paid during the year for their salaries was \$368,575.10.

The number of persons employed during the year ended June 30,

1902, under the act of June 13, 1898, was as follows:
In office of Commissioner of Internal Revenue, Washington, D. C., 115; in the several collection districts throughout the country, 269, including 18 revenue agents.

### STOREKEEPERS, GAUGERS, ETC.

There were also employed 336 gaugers who received fees not to exceed \$5 per day, 164 storekeepers and 2,198 storekeeper-gaugers whose pay did not exceed \$4 per day, and 11 distillery surveyors.

All the last-mentioned officers are paid only when actually employed.

#### MISCELLANEOUS EXPENSES.

The act of Congress approved August 7, 1882, making provision for sundry civil expenses for the year ended June 30, 1883, required the Commissioner of Internal Revenue to make a detailed statement of all miscellaneous expenditures in the Bureau of Internal Revenue, for which appropriation was made in that act. In accordance with this requirement, I submit the following detailed statement of miscellaneous expenses incurred:

Telephoning on public business	\$1.50 581.20
Locks for use at distilleries	650.77
Hydrometers used in gauging spirits	4, 552. 35
Weighing beams for use in weighing spirits	883. 51
Steel canceling dies	10.30
Stationery for internal-revenue officers	590.37
Laboratory supplies, saccharometers, and chemicals for testing sweet	ė
wine and oleomargarine	2,807.01
The Federal Reporter for the office of the Commissioner of Internal	
Revenue	35.00
Traveling expenses of clerks and chemist under special orders of the	
Department	254.79

#### PRODUCTION OF STAMPS.

Revenue stamps issued by the Government are all engraved and printed by the Bureau of Engraving and Printing, with the exception of tobacco stamps imprinted on foil wrappers, which are printed by the John J. Crooke Company and the Conley Foil Company, both of New York. The printing of such stamps on tin foil is performed under contracts and without cost to the Government, the contractors receiving their remuneration from the users of the stamps and reimbursing the Government for the salaries of the agents and counters necessary to properly supervise the work.

ISSUANCE, CHANGE, AND DISCONTINUANCE OF STAMPS UNDER ACTS OF CONGRESS.

Under the provisions of "An act to repeal war-revenue taxation and for other purposes," approved April 12, 1902, additional snuff stamps

of the denominations of 2, 3, and 4 ounce were prepared and issued. Stamps of new series (1902) were issued to denote the payment of tax at the reduced rate on fermented liquors, tobacco, snuff, and large cigarettes. The issuance of all documentary and proprietary stamps and the following named special-tax stamps was discontinued as unnecessary under the provisions of said act:

Brokers, pawnbrokers, custom-house brokers, dealers in grain, securities, etc., theaters, museums and concert halls, circuses, public exhibitions; bowling alleys and billiard tables, dealers in tobacco, dealers in leaf tobacco, manufacturers of tobacco, and manufacturers of

cigars.

In conformity with the act relative to the taxation of oleomargarine and certain kinds of butter, approved May 9, 1902, stamps were issued to denote the payment of internal-revenue tax on colored and uncolored oleomargarine, renovated and adulterated butter at the rates prescribed in said act. All such stamps were issued in denominations of 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100 pounds, except stamps for renovated butter, in which case the denominations of 70, 80, and 90 pounds were omitted. An export stamp for adulterated butter and the following named special-tax stamps were also issued:

Wholesale dealer in oleomargarine free from artificial coloration, retail dealer in oleomargarine free from artificial coloration, manufacturer of adulterated butter, wholesale dealer in adulterated butter, retail dealer in adulterated butter, and manufacturer of process or

renovated butter.

#### RETURN AND REDEMPTION OF STAMPS.

During the fiscal year ended June 30, 1902, there were examined and allowed 13,533 claims for the redemption of revenue stamps, amounting to \$1,006,532.65. Claims for redemption to the number of 70 were rejected. Fifty-eight applications for restamping were received, examined, and disposed of. Stamps to the value of \$37,644,583.75 were returned by collectors and credited in their accounts.

**46 670 561 61** 

## TOBACCO DIVISION.

The revenue derived from internal-revenue taxes imposed on manufactured tobacco products of both domestic and foreign manufacture during the fiscal year ended June 30, 1902, amounted to \$51,718,258.45, not including \$962.57 miscellaneous collection. The collections from each source during the year were as follows:

\$28, 612, 644. 15
1,696,429.02
18, 311, 142, 25
410, 903. 48
2, 457, 550. 86
198, 424. 02
31, 164. 67
51, 718, 258. 45

The total amount collected includes internal-revenue tax paid by manufacturers and importers on domestic and imported manufactured tobacco products and those manufactured in Porto Rico and brought to the United States after July 25, 1901, the date of the proclamation made by the President of the United States, as provided by section 3, act of April 12, 1900.

All manufactured tobacco and snuff and all cigars and cigarettes from foreign countries pay, in addition to the import duties imposed thereon, the tax imposed by law on like kinds of tobacco, snuff, cigars, and cigarettes manufactured in the United States, and all cigars and cigarettes must have the stamp affixed and canceled by the owner or importer of the goods while they are in the custody of the customs service, the stamps being purchased from a collector of internal revenue upon requisition made by the collector of customs, as provided by regulations No. 8 of this office.

The tax receipts from tobacco for the last fiscal year, not including miscellaneous collections, were \$10,463,880.24 less than those of the previous year and \$7,303,748.89 less than the fiscal year ended June 30, 1900, and an increase of \$444,732.93 over the next preceding year and \$15,497,681.21 more than was collected during the fiscal year ended June 30, 1898.

The decrease in collections from each source during the last fiscal year was as follows:

# DECREASE IN RECEIPTS. Manufactured tobacco Spuff

Snuff	306, 592, 30
Large cigars	
Small cigars	273, 600. 57

a Includes 367,451,889 at 54 cents per thousand.

The act of March 2, 1901, indirectly reduced the tax of 12 cents per pound, imposed on manufactured tobacco and snuff, to 9.6 cents per pound, by reason of the discount of 20 per cent allowed to manufacturers on the sale of stamps, and reduced the tax on large cigars from \$3.60 to \$3 per thousand, and on small cigars from \$1 to 54 cents per thousand.

That act also made two classifications of small cigarettes, and the tax rate as to one class was reduced from \$1.50 to \$1.08 per thousand, while the rate of 54 cents per thousand was imposed on cigarettes according to their wholesale value or price, and which would not exceed \$2 per thousand; the tax rate of \$3.60 per thousand imposed on large cigarettes

was not disturbed.

Therefore, during the last fiscal year the taxes on tobacco, snuff,

cigars, and cigarettes were collected at the reduced rates.

The reductions in the rates of tax as above set forth will account for the decrease of \$10,463,880.24 in the collection as compared with the previous year, and an examination of the foregoing tables will show that there was a decided increase in the quantity of tobacco and snuff, and the number of cigars and cigarettes produced, as compared with the production of the previous year.

ANNUAL PRODUCTION, ESTIMATED FROM AMOUNT OF TAXES PAID, AND FROM EXPORTS AND IMPORTS.

The following tables show, approximately, the production of tobacco, snuff, cigars, and cigarettes, respectively, in the United States during

88, 185, 620

the fiscal year ended June 30, 1902, estimated from receipts from sale of stamps for the payment of tax on domestic and imported manufactures withdrawn for consumption and which, considered with tobacco products exported in bond, formed the basis for the computations:

TOBACCO AND SNUFF PRODUCED.	
Tobacco withdrawn, tax-paid at 9.6 cents	Pounds 298, 048, 339 17, 671, 136

# TOBACCO REBATE CLAIMS.

The tax rates imposed upon cigars and cigarettes by act approved June 13, 1898, were readjusted and reduced by act approved March 2, 1901, and this last act also provided for a discount to manufacturers on the sale of stamps for the payment of tax on tobacco and snuff.

The new tax rates and the discount allowed to manufacturers took

effect on July 1, 1901, as provided by section 15 of said act.

Section 4 of said act anticipated and provided for an allowance of a drawback or rebate to manufacturers and dealers on all original and unbroken factory packages of tobacco, snuff, and cigars held by them at the time the discount and reduction in taxes took effect and upon which the taxes had been previously paid, and to the full amount of such discount or reduction in the taxes.

This section provided also that the rebate or drawback should not apply in any case where a claim was not presented within sixty days following the date of the reduction in the taxes, and that no claim should be allowed or drawback paid for a less amount than \$10; and it was made the duty of the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, to adopt such rules and regulations and furnish such blanks and forms as would be necessary to carry the rebate provision into effect.

The office received 49,362 claims from the 65 collection districts in the United States, and of this number 49,201 claims were allowed, involving the payment of \$3.108.511.41.

involving the payment of \$3,108,511.41.

The act of March 2, 1901, did not carry with it any appropriation

of money from which the claims could be paid.

The act approved February 14, 1902, however, appropriated the sum of \$3,150,000 for that purpose, and of this amount the sum of \$3,108,511.41 has been expended, leaving an unexpended appropriation at this time amounting to \$41,488.59.

The following statement will show the number of claims received from the several districts and the number allowed and the amount paid: STATEMENT OF CLAIMS PRESENTED FOR REBATE OF TAX ON TOBACCO UNDER ACT OF MARCH 2, 1901.

#### ANNUAL PRODUCTION OF LEAF TOBACCO.

The following table will show the annual production of leaf tobacco in the United States for three successive years from January 1, 1898, to December 31, 1900, inclusive. The production for 1901 can not be ascertained until returns have been received for 1902:

	1898.	1899.	1900.
Leaf used in manufacture of chewing and smoking to-	346, 823, 677	Pounds.	Pounds.
bacco and snuff.		260, 683, 658	270, 571, 680
Leaf used in manufacture of cigars and cigarettes.		118, 479, 226	127, 467, 966
Domestic leaf exported		305, 033, 235	308, 743, 593
Imported leaf exported		1, 814, 327	2, 075, 481
Total	715, 810, 624	686, 010, 446	708, 858, 720
	17, 277, 985	23, 192, 105	28, 017, 550
Total annual production	698, 532, 639	662, 818, 341	680, 841, 170

There was an increase of 18,876,762 pounds in the quantity of leaf tobacco used in the manufacture of taxable tobacco products, and an increase of 3,710,358 pounds and 4,825,445 pounds, respectively, in the quantity of domestic leaf exported and foreign leaf imported, and an increase of 18,022,829 pounds in the quantity of domestic leaf tobacco produced, as compared with the previous year.

The farmers and tobacco growers in the United States annually produce more than 680,000,000 pounds of raw leaf tobacco, and last year more than 308,000,000 pounds were exported.

The duties and taxes collected upon tobacco during the fiscal year

ended June 30, 1902, amounted to \$70,563,580.14.

The duty collected upon imported unmanufactured leaf amounted to \$16,066,869.48, and that collected upon imported tobacco manufactures entered for consumption amounted to \$2,778,452.21, while the internal-revenue tax collected, as previously stated, amounted to \$51,718,258.45.

The foregoing statement does not include the special or occupation tax paid by dealers and manufacturers, repealed by act of April 12, 1902, to take effect July 1, 1902.

# PRODUCTION OF MANUFACTURED TOBACCO, SNUFF, CIGARS, AND CIGARETTES DURING THE PAST TEN CALENDAR YEARS.

Note.—These tables are compiled from an annual abstract statement of manufacturers' accounts, prepared by collectors of internal revenue for their respective districts at the close of each calendar year, and they relate exclusively to tobacco, snuff, cigars, and cigarettes manufactured in the United States.

#### TOBACCO AND SNUFF MANUFACTURED.

#### OPIUM.

The tariff act of October 1, 1890, section 36 (26 Stat. L., 567), imposed an internal-revenue tax of \$10 per pound upon all opium manufactured in the United States for smoking purposes, and provides that no person shall engage in such manufacture who is not a citizen of the United States and who has not given the bond required by the Commissioner of Internal Revenue.

This act also imposed a duty of \$12 per pound on the imported article, but admitted the importation of crude or unmanufactured

opium free of duty.

The tariff act of August 28, 1894, reduced the duty on the imported article to \$6 per pound, and this rate was reimposed by the tariff act of July 24, 1897, which imposes a duty of \$1 per pound on opium, crude or unmanufactured.

The reduction of the duty on the imported article and the imposition of a duty on crude or unmanufactured opium has discouraged its manufacture, and as a result there are no qualified manufacturers of smoking opium in the United States.

#### SUMMARY.

Operations of Manufacturers of Tobacco and Cigars during the Year 1901.	CALENDAR
Number of registered manufacturers of tobacco	2,484
Number who registered as manufacturers for the purpose of buying and selling refuse scraps, cuttings, and clippings	139
Number of persons who produced perique tobacco	$\frac{126}{7}$
Number who registered as tobacco manufacturers who also operated cigar factories  Number who registered for the express purpose of manufacturing plug,	1,679

#### CLAIMS FOR REWARD.

Claims for reward for information of violation of internal-revenue laws, made under the provisions of circular No. 99, revised, and of the circular of March 10, 1875, have been presented and disposed of as follows:

Claims pending July 1, 1901	$\begin{array}{c} 7 \\ 43 \end{array}$
Total	
Number pending July 1, 1902	$\frac{-}{2}$

#### REAL ESTATE ACQUIRED BY THE UNITED STATES UNDER THE INTERNAL-REVENUE LAWS.

The Commissioner of Internal Revenue has charge of all realty acquired under the internal-revenue laws, and is authorized, with the approval of the Secretary of the Treasury, to sell, at public vendue, such real estate.

The following is a statement of the tracts or lots of land held by the United States under the provisions of the internal-revenue laws on the 30th day of June, 1902:

District.	Number of tracts or lots of land.	District.	Number of tracts or lots of land.
Alabama. Arkansas Florida Georgia Illinois, eighth district Kentucky: Seventh district Eighth district Louisiana	13 13 1	North Carolina: Fourth district Fifth district Tennessee: Second district Fifth district Texas, fourth district Total	35 9 11

Seven sales of real estate were made during the fiscal year 1901–2, and quitclaim deeds were executed to the purchasers, in several instances, however, to but a portion of the property owned by the Government.

In 13 cases, after investigation, the property was found to be valueless to the United States by reason of defective title, etc., and the records were amended to show that the cases were finally disposed of.

Five suits in ejectment were pending July 1, 1901—3 in Alabama, 1 in Kentucky, and 1 in Tennessee. Of the 3 suits pending in Alabama 1 was dismissed, an offer for a quitclaim deed having been tendered and accepted, and in each of the other 2 cases decree was rendered in favor of the United States and writ of possession ordered to issue.

In the case in Kentucky (U. S. v. M. C. Howard et al.) the court held that "the description of the land levied upon, as given by the special bailiff in his levy, was and is void because of the insufficiency of description." An effort is being made to collect the judgment from two of the judgment defendants, still living, by means of execution.

The suit in Tennessee is still pending.

Five suits in ejectment were instituted during the fiscal year ended June 30, 1902—2 in Alabama, 1 in Georgia, and 2 in North Carolina all of which are pending.

Sales under distraint, to private purchasers, were made by collectors of internal revenue in 10 cases during the fiscal year ended June 30,

1902.

The United States acquired title to real estate in 5 cases during the fiscal year.

#### REFUNDING CLAIMS.

On the 1st of July, 1901, there were pending 1,821 claims for the refunding of taxes collected, amounting to \$524,215.64, and during the year 1,926 other claims, amounting to \$2,641,327.60, were presented. Of these, 1,046 claims, amounting to \$430,019.08, were allowed during the fiscal year, and 705 claims, amounting to \$2,119,508.54, were rejected or returned for amendment or referred to other divisions.

#### ABATEMENT CLAIMS.

On the 1st of July, 1901, there were pending 1,451 claims for abatement of assessed taxes, amounting to \$4,126,467.69, and during the year 4,743 claims, amounting to \$1,015,074.70, were presented. these, 3,857 claims, amounting to \$4,187,681.29, were allowed during the fiscal year, and 440 claims, amounting to \$449,284.61, were rejected or returned for amendment. This left 1,897 claims for abatement pending on the 30th of June, 1902, amounting to \$504,576.49.

On the 1st of July, 1902, all claims for the abatement or refunding

of taxes were transferred from the law division to the division of claims.

#### VIOLATIONS OF LAW IN THE HAWAIIAN ISLANDS.

Violations of the internal-revenue laws in the Hawaiian Islands have been looked after closely. The courts there have shown a disposition to see that the Federal laws relating to internal revenue are properly enforced and to punish infractions. Reports show that illicit distilling is rapidly decreasing in the islands.

#### DIVISION OF DISTILLED SPIRITS.

COMPARATIVE STATEMENT OF DISTILLERIES REGISTERED AND OPERATED DURING THE FISCAL YEARS ENDED JUNE 30, 1901 AND 1902.

The whole number of grain distilleries registered during the fiscal year ended June 30, 1902, was 1,372, of which number 1,089 were

operated.

The numbers registered and operated during the fiscal year ended June 30, 1901, were 1,506 and 1,258, respectively, showing a decrease during the last fiscal year of 134 in the number registered and of 169 in the number operated, as appears in the table following.

TOTAL GRAIN DISTILLERIES REGISTERED AND OPERATED DURING THE FISCAL YEARS ENDED JUNE 30, 1901 AND 1902.

Distilleries.	1901.	1902.	Increase (+) or decrease (-)
Registered.	1,506	1,372	-134
Operated	1,258	1,089	-169

There was a decrease of 142 in the number of distilleries registered of the class having the smaller capacities for the production of spirits and a decrease of 164 in the number of such distilleries operated.

In the class of larger distilleries there was an increase of 8 in the

number registered and a decrease of 5 in the number operated.

During the fiscal year ended June 30, 1901, there were registered 1,267 distilleries of the smaller class, varying in daily grain capacity from not over 5 bushels to not over 60 bushels each, and of this number 1,040, or 82+ per cent, were operated.

Of the larger distilleries having daily grain capacities varying from over 60 bushels and not over 100 bushels to several thousand bushels each, 239 were registered and 218, or 91+ per cent, were operated.

During the fiscal year ended June 30, 1902, of the smaller distilleries 1,125 were registered and 876, or nearly 78 per cent, were operated.

Of the larger distilleries, 247 were registered and 213, or 86+ per cent, were operated.

The various numbers above given are tabulated as follows:

Grain Distilleries of Small Capacity and of Large Capacity Registered and Operated during the Fiscal Year ended June 30, 1901 and 1902.

		Small capacity.			Large capacity.		
Distilleries.	1901.	1902.	Increase (+) or decrease (-).	. 1901.	1902.	Increase (+) or de- crease (-).	
Registered Operated.	1,267 1,040	· 1, 125 876	-142 -164	239 218	247 213	+8 -5	

Of the distilleries having daily grain capacities exceeding 500 bushels, 10 were registered and 8 operated, having daily grain capacities varying from 5,017 bushels to 12,323 bushels, and daily spirit-producing capacities varying from 23,400 gallons to 58,532 gallons.

#### MOLASSES DISTILLERIES.

There were 11 molasses distilleries registered and 11 operated, an increase of 2 in the number registered and operated during the previous year.

#### DISTILLATION OF BEET-SUGAR MOLASSES.

The distillation of alcohol from beet-sugar molasses is a new industry in this country and was undertaken for the first time during the last fiscal year. One distillery of large spirit-producing capacity was established and operated for the use of that material only for the production of spirits.

#### FRUIT DISTILLERIES.

There were 1,869 fruit distilleries registered and 1,838 operated during the fiscal year ended June 30, 1902, a decrease of 646 in the number registered and of 640 in the number operated from the numbers registered and operated in the preceding fiscal year.

#### TOTAL DISTILLERIES REGISTERED AND OPERATED.

The total number of grain, molasses, and fruit distilleries registered during the fiscal year ended June 30, 1902, is 3,252 and the total number operated is 2,938, a decrease of 778 in the number of all kinds of distilleries registered and of 807 in the number operated during the preceding fiscal year.

Comparative Statement of Materials Used and Spirits Produced during the Last two Fiscal Years.

Year.	Grain used.		Molasses used to pro- ducespirits.			Rum produced.
1901	Bushels.	Gallons.	Gallons.	Gallons.	Gallons.	Gallons.
	27, 278, 847	121, 948, 299	1,020,746	847, 718	2, 144, 644	1,724,582
	27, 487, 351	123, 847, 304	9,788,297	2, 574, 051	2, 696, 979	2,202,047

The quantity of grain used for the production of spirits during the fiscal year ended June 30, 1902 (27,487,351 bushels), shows an increase of 208,504 bushels over the quantity used in the preceding fiscal year (27,278,847 bushels).

The number of gallons of spirits produced from grain during the year (123,847,304 gallons) shows an increase of 1,899,005 gallons over the product of the preceding fiscal year (121,948,299 gallons).

The yield of spirits for each bushel of grain used was 4.50+ gallons.

The yield for the preceding year was 4.47+ gallons.

The quantity of molasses used for the production of spirits during the fiscal year ended June 30, 1902 (9,788,297 gallons), shows an increase of 8,767,551 gallons over the quantity used in the preceding fiscal year (1,020,746 gallons).

The quantity of spirits produced from molasses during the year (2,574,051 gallons) shows an increase of 1,726,333 gallons over the prod-

uct of the preceding fiscal year (847,718 gallons).

The large increase in the quantity of molasses used for the production of spirits during the year, without a corresponding increase in the quantity of spirits produced therefrom, was due to the fact that a large quantity of beet-sugar molasses was used in a very dilute condition.

To this fact is also due the apparent reduction in the average yield

per gallon, from 0.830+ of a gallon in 1901 to 0.216+ in 1902.

The quantity of molasses used for the production of rum during the fiscal year ended June 30, 1902 (2,696,979 gallons), shows an increase of 552,335 gallons over the quantity used in the preceding fiscal year (2,144,644 gallons).

The quantity of rum distilled from molasses during the year (2,202,047 gallons) shows an increase of 477,465 gallons over the product of the preceding fiscal year (1,724,582 gallons).

# INCREASED PRODUCTION OF SPIRITS.

The quantity of spirits (128,623,401.9 gallons) produced from materials other than fruit and deposited in distillery warehouses during the fiscal year ended June 30, 1902, is greater, than the quantity so produced and deposited (124,520,599.8 gallons) during the fiscal year ended June 30, 1901, by 4,102,802.1 gallons.

The difference is distributed as follows:

Increase in the production and deposit of— Rye		Gallons. 3, 323, 511. 5
Alcohol Rum		708, 187. 8
Gin Pure, neutral, or cologne spirits		115, 981, 1
Total increase	-	
Decrease in the production and deposit of— Bourbon whisky	5, 873, 553. 4	
High wines Miscellaneous whisky	113, 404. 3 1, 736, 316. 0	
Total decrease.		7, 723, 273. 7
Net increase	· · · · · · · · · · · · · · · · · · ·	4, 102, 802, 1

#### INCREASED WITHDRAWALS OF TAX-PAID SPIRITS.

The quantity of tax-paid spirits (101,669,015.9 gallons) withdrawn from distillery warehouses during the fiscal year ended June 30, 1902, is greater than the quantity (97,534,139.5 gallons) withdrawn from distillery warehouses during the fiscal year ended June 30, 1901, by 4,134,876.4 gallons, the increase being distributed among the different kinds as known to the trade as follows:

Increase in withdrawals of—		Gallons.
Alcohol		198, 306. 5
Rum		66, 133. 7
Gin		
Pure, neutral, or cologne spirits		
Total increase		6 336 422
Decrease in withdrawals of—	Gallons.	0,000,122
Bourbon whisky	2 050 024 3	*
Rye whisky	39, 790. 3	
High wines	94, 481. 5	
Miscellaneous whisky		
Total decrease		2, 201, 545. 6
Net increase		4, 134, 876. 4

The quantity, as stated by the Chief of the Bureau of Statistics, upon which a customs duty was paid equal to the internal-revenue tax for the fiscal year ended June 30, 1902, is 805,212 proof gallons.

The tax-paid withdrawals from general bonded warehouses and the quantity of spirits tax paid for bottling in bond under the act of March 3, 1897, as well as the regular tax-paid withdrawals from distillery warehouses, and the quantity of spirits upon which a customs duty was paid equal to the internal-revenue tax, are shown in the following table:

SPIRITS UPON WHICH TAX WAS PAID WITHDRAWN DURING THE FISCAL YEAR ENDED

JUNE 30, 1902.	
	Gallons.
Withdrawn, tax paid, from distillery warehouses	101, 669, 015. 9
Withdrawn, tax paid, for bottling in bond	535, 088
Withdrawn, tax paid, from general bonded warehouses	1, 100, 877. 6
Spirits upon which a customs duty equal to the internal-revenue tax	
was paid upon reimportation.	805, 212
Total	104 110 193 5

The quantity (104,110,193.5 gallons) of spirits upon which tax was paid withdrawn during the year ended June 30, 1902, is greater than the quantity (100,066,820.5 gallons) withdrawn upon which tax was paid for the same purposes during the fiscal year ended June 30, 1901, by 4,043,373 gallons.

The above statements are exclusive of fruit brandy, of which there were withdrawn tax paid from special bonded warehouses 1,096,718.1

gallons.

The following statement shows the quantity of spirits, as per original gauge, withdrawn from distillery warehouses for all purposes during the stated period and the amount and percentage of leakage allowed thereon under the provisions of the acts named:

a Includes 7,750,696 gallons stamped for export not actually withdrawn.
b Includes 2,494,091 gallons stamped for export not actually withdrawn.
c Includes 2,216,452.2 gallons transferred to general bonded warehouses, and on which leakage will be allowed on final withdrawal.
d Includes 7,408,518 gallons transferred to general bonded warehouses, and on which leakage will be allowed on final withdrawal. e Includes 4,358,010 gallons transferred to general bonded warehouses, and on which leakage will be

e includes 4,358,010 gallons transferred to general bonded warehouses, and on which leakage will be allowed on final withdrawal.

f Includes 765,697.5 gallons transferred to general bonded warehouses, and on which leakage will be allowed on final withdrawal.

g Includes 1,257,257.1 gallons transferred to general bonded warehouses, and on which leakage will be allowed on final withdrawal.

h Includes 1,357,466.7 gallons transferred to general bonded warehouses, and on which leakage will be allowed on final withdrawal.

includes 1,146,711.5 gallons transferred to general bonded warehouses, and on which leakage will be allowed on final withdrawal.

Includes 1,287,168.8 gallons transferred to general bonded warehouses, and on which leakage will be allowed on final withdrawal.

#### SPIRITS REMOVED IN BOND FOR EXPORT.

The following statement shows the quantity and percentage of production of distilled spirits removed in bond for export during each fiscal year since the passage of the act of June 6, 1872:

Year.	Taxable (proof) gal- lons exported.	Percent- age of produc- tion.	Year.	Taxable (proof) gal- lons exported.	Percent- age of produc- tion.

# MISCELLANEOUS DIVISION.

#### OLEOMARGARINE.

The subjoined statements show operations under the act of August 2, 1886, defining butter, and imposing a tax upon and regulating the manufacture, sale, importation, and exportation of oleomargarine.

There was an increase in the number of persons engaged in the sale of oleomargarine during the fiscal year ended June 30, 1902, and a large increase in the production of the article as compared with previ-

ous years.

The act of May 9, 1902, which went into effect July 1, abolished the tax of 2 cents per pound on oleomargarine and established new rates of tax, namely, oleomargarine artifically colored is required to pay a tax of 10 cents per pound, and oleomargarine free from artificial coloration that causes it to look like butter of any shade of yellow is taxable at the rate of one-fourth of 1 cent per pound.

There was no restriction in the law, act August 2, 1886, as to the introduction of artificial color in oleomargarine prior to July 1, 1902.

The amendment to the former law concerning oleomargarine did not change the rate of special tax on manufactures of this product, nor on wholesale or retail dealers (in oleomargarine artificially colored), but provided that wholesale dealers who vend no other oleomargarine or butterine except that upon which a tax of one-fourth cent per pound is imposed shall pay \$200, and retail dealers in such product \$6.

New special taxes are also imposed, namely, on manufacturers of adulterated butter, \$600 per annum; wholesale dealers and retail dealers in adulterated butter, \$480 and \$48, respectively; and manufacturers of process or renovated butter, \$50 per annum. No special taxes are

imposed on wholesale or retail dealers in renovated butter.

A tax of 10 cents per pound is imposed on adulterated butter, and

one-fourth of 1 cent per pound on process or renovated butter.

The following table shows the quantity of oleomargarine, in pounds, at 2 cents tax, produced at manufactories during the fiscal year ended June 30, 1902, and the quantity withdrawn therefrom during the year. There was no oleomargarine remaining in factories June 30, 1902.

#### FILLED CHEESE.

The following statements show the operations under the act of June 6, 1896, defining cheese, imposing a tax upon, and regulating the manufacture, sale, importation, and exportation of filled cheese.

The quantity of filled cheese produced, withdrawn tax paid for export, and that withdrawn tax paid for domestic use from manufactories monthly, from July 1, 1899, to June 30, 1902, is as follows:

	Quantity	Quantity withdrawn tax paid.	
Month.	a	For domes- tic use.	For export.
1899.	Pounds.	Pounds.	Pounds.
July August			
September October November			84, 375 113, 346
December	168, 742	26,019	142,723
January 1900.	218,508	3, 613	214,895
February March	235, 818	3,638	221, 673 232, 180
April	319,846 212,671	15, 222	319, 846 197, 449
June July August			
September. October	20, 913		20, 913 95, 133
November 6. December	229, 269	1	229, 269 175, 663
1901.			
January February	250, 549	3,967 4,163	253, 542 246, 386
March April	126,069 112,906 37,448	3,423 3,190 37,448	122, 646 109, 716
May Total		100,683	2, 779, 755

It will be noted from the above table that the largest production month for the fiscal year ended June 30, 1900, was April, and the quantity produced that month was 319,846 pounds. The largest production month for the fiscal year ended June 30, 1901, was January, and the quantity produced that month was 257,509 pounds.

There were 1,574,979 pounds of filled cheese produced at manufactories during the fiscal year ended June 30, 1900, and the entire quantity was tax paid. For the fiscal year ended June 30, 1901, 1,305,459 pounds were produced and tax paid, showing a decrease in production as compared with the previous year of 269,520 pounds.

It appears that the average monthly production for the eight production months of the fiscal year ended June 30, 1900, was 196,872 pounds, and for the nine production months of the fiscal year ended

June 30, 1901, 145,051 pounds. There was no production in the months of July, August, and June of the fiscal year ended June 30, 1901.

There was no production reported during the months of July, 1901, to June 30, 1902, inclusive.

#### MIXED FLOUR.

The following statements show the operations under the act of June 13, 1898, amended by the act of March 2, 1901, defining mixed flour, imposing a tax upon, and regulating, the manufacture, sale, importation, and exportation of mixed flour.

The quantity of mixed flour produced, withdrawn tax-paid, withdrawn for export, and destroyed at manufactories, monthly, from

July 1, 1901, to June 30, 1902, is as follows:

Months.	Barrels.	Half barrels.	Quarter barrels.	Eighth barrels.	Pounds.
QUANTITY PRODUCED.					• .

Total	1,133	73, 547	15, 616	27,713	7, 383, 451

aThis quantity contains 12 barrels, 388 half-barrels, 1,854 eighth-barrels, 72,144 pounds not taxable under act of June 13, 1898, as amended by act of March 2, 1901.

bThis quantity contains 45 eighth-barrels, 270 pounds not taxable under act of June 13, 1898, as amended by act of March 2, 1901.

cThis quantity contains 2,889 pounds destroyed in manufactories.
dThis quantity contains 616 pounds destroyed in manufactories.

It will be noted from the above table that the largest production month of the fiscal year ended June 30, 1902, was October, 1901, and that the quantity produced that month was 1,375,097 pounds, packed in 101 barrels, 15,002 half barrels, 2,329 quarter barrels, and 5,052 eighth barrels. Also that the largest withdrawal month was October. 1901, and the quantity withdrawn was 1,371,417 pounds, packed in 99 barrels, 15,063 half barrels, 2,287 quarter barrels, and 5,061 eighth barrels.

No mixed flour was withdrawn for export during the fiscal year ended June 30, 1902. It appears that the average monthly production for the twelve months ended June 30, 1902, was 585,343 pounds, and the average monthly withdrawal, which included the quantities not taxable after June 30, 1901, under definition of mixed flour, as amended by act of March 2, 1901, and that lost or destroyed in manufactories for the same period, was 611,007 pounds.

There was a decrease of 54 in manufactories and of 2 in packing establishments, making a net decrease of 56 in the total number of

such special-tax payers.

## DIVISION OF CHEMISTRY.

The passage of the act of May 9, 1902, has greatly increased the

work of this division since the close of the fiscal year.

The new law provides for two classes of oleomargarine and two taxable classes of butter, and large numbers of samples of both products have been submitted for analysis to determine the proper classification.

From July 1, 1902, to November 1, 1902, 478 samples were received, more than three times the number of samples that came in during the

same period in 1901:

In consequence, the work of this division is from one to two months in arrears, and it will be necessary to provide for the increased volume of work either by the enlargement of the office laboratory or by the establishment of branch laboratories in other parts of the country, or both.

The repeal of the war-revenue act has brought about little diminution in the quantity of samples submitted, except in the one item of medicinal articles. The provisions of this act in regard to mixed flour were not repealed, and samples are still submitted, although they are few in number, apparently because few violations of the law occur.

No samples of filled cheese were received during the past fiscal year.

#### CONCLUSION.

In an appendix to the report of the Commissioner of Internal Revenue appear tables giving complete statistics of the work of this Bureau. These tables will be found interesting to students of internal-revenue conditions, and to those engaged in lines of business where the business itself or the products thereof become subject to internal-revenue taxation.

I have the honor to be, respectfully,

John W. Yerkes, Commissioner.

Hon. Leslie M. Shaw, Secretary of the Treasury.
