Note.—For purposes of comparison, the expenditures in 1903 for Bureaus that were transferred to the Department of Commerce and Labor at the beginning of the fiscal year 1904 are stated under the head of "Department of Commerce and Labor."

Fiscal year 1905.

The revenues of the Government for the current fiscal year are thus estimated upon the basis of existing laws:

From customs	\$263,000,000.00
From internal revenue	233,000,000.00
From miscellaneous sources.	
From postal revenues	
Total estimated revenues	700, 472, 060. 72
The expenditures for the same period are estimated	as follows:
For the civil establishment	\$138,000,000.00
For the military establishment For the naval establishment	122,000,000.00
For the naval establishment	122,000,000.00
For the Indian Service	13,000,000.00
For pensions	
For interest on the public debt	24,000,000.00
For Postal Service	159, 472, 060. 72
Total estimated expenditures	718, 472, 060. 72
Or a deficit of	

Fiscal year 1906.

It is estimated that upon the basis of existing laws the revenues of the Government for the fiscal year 1906 will be:

From customs. From internal revenue From miscellaneous sources. From postal revenues.	240,000,000.00 45,000,000.00
Potal actimated revenues	795 500 515 00

The estimates of appropriations required for the same period, as submitted by the several Executive Departments and offices, are as follows:

	· ·

Total estimated appropriations	703, 260, 367.21
Or an estimated surplus of	22,330,147.79

Note.—In former years, the estimated redemptions of national-bank notes (\$30,000,000 is estimated therefor in 1906) were included in the miscellaneous permanent annual appropriations, although the corresponding item, viz, deposits by banks retiring or reducing circulation, was not included in the estimated revenues. Had the practice of former years been adhered to, a deficit of \$7,669,852.21 would have been estimated for 1906.

OPERATIONS OF THE TREASURY.

The available cash balance in the general fund June 30, 1904, was \$172,051,568.02, which is less by \$66,634,546.21 than the balance on June 30, 1903. The Panama Canal payments, the redemption of the outstanding 5's of 1904, and a change in the ratio of the revenues to the expenditures contributed to this result.

Of the revenues in 1904, compared with 1903, customs show a decrease of \$23,205,017, and the receipts from public lands are less by \$1,472,831.50, while an increase appears in internal revenue of \$2,093,995.28, and in miscellaneous items of \$2,818,928.25. The net result is a decrease in ordinary revenues for the year of \$19,764,925. There was an apparent net increase in ordinary expenditures of \$76,303,314.27, but this includes the payment of \$50,000,000 on account of the Panama Canal and a loan of \$4,600,000 to the Louisiana Purchase Exposition Company. The latter sum has since been reimbursed.

For the first quarter of the fiscal year 1905, the revenues were \$138,034,462.37, the expenditures \$155,891,077.37, an excess of expenditures over receipts of \$17,856,615.

The deposits in national banks to the credit of the general fund attained a maximum at \$159,111,708.15 on December 19, 1903. Three

calls were issued during the year on the depositary banks for the return of a part of the public moneys deposited with them. They responded with promptness, paying back the sums required of them, and the balance in the banks to the credit of the general account at the end of the fiscal year became \$102,290,863.64, a reduction of \$56,820,844.51 from the maximum balance, and of \$37,936,271.61 as compared with that of twelve months before.

The trust funds are \$85,015,700 greater at the beginning of the fiscal year 1905 than twelve months earlier, by reason of an increase of \$85,510,700 in gold certificates, \$5,770,000 in silver certificates, and a decrease of \$6,265,000 in Treasury notes.

Transactions in the interest-bearing public debt resulted in a net reduction in the principal of \$19,383,970 and a decrease in the annual interest charge of \$1,364,828.30.

The national-bank notes presented for redemption during the year amounted to \$262,141,930, or 61.12 per cent of the average amount of the notes outstanding. Compared with 1903, this sum is \$65,712,309, or 33.45 per cent larger, and it is the maximum presented in any year in the history of such redemptions. The total expenses were \$219,093.13, which sum was assessed upon the several banks in proportion to their circulation redeemed, at the rate of \$0.84716 for each \$1,000. This rate of expense is 5.546 cents less than the lowest rate heretofore recorded. The national-bank notes presented for redemption during the first quarter of the fiscal year 1905 were \$70,247,586, an increase of \$11,607,579, or 19.79 per cent, over the corresponding period of 1904.

The total stock of money in the country at the close of the fiscal year 1904 was \$2,803,504,135, an increase of \$118,793,148 over the preceding year. The share of gold, which July 1, 1900, was 44.21 per cent, became 47.35 on the same date in 1904. A large part of the increase in gold has settled into the Treasury vaults. Between July 1, 1900, and July 1, 1904, the Treasury has gained in gold \$258,260,849.92, the total holdings of gold on the latter date amounting to \$681,838,821.60, with a further increase to \$721,253,987.88 on October 31.

The extraordinary amount of \$42,193,282.94 in foreign gold coin and bullion and \$29,158,970.31 in domestic bullion was deposited in the mint at San Francisco during the year and paid for by the local office or by telegraphic exchange on New York.

The money in circulation July 1, 1904, amounted to \$2,519,142,860, a per capita circulation of \$30.77. The percentage of gold was 44.12.

A notable fact is that, with an addition of 1.7 per cent to the population in the year, the increase in the circulation per capita has been 4.5 per cent.

By October 1, 1904, there was a further increase in circulation of \$43,006,629, and the circulation per capita reached the maximum at \$31.16, while the share of gold became 44.03 per cent.

The amount of public money of the denomination of \$20 and under in paper was increased during the year ended September 30, 1904, by \$41,395,213, or 3.17 per cent; of the denomination of \$50 and over, the growth was \$106,335,725, or 29.01 per cent, owing to an unusually large issue of gold certificates. The demand for small bills has been unceasing, becoming more urgent in the autumn, as in other years. The appeal is not confined to any particular district. It comes from the cotton and sugar regions, as well as from the States which produce wheat and corn, cattle and swine. The Department has employed all its resources to respond to this demand; but the supply of small notes is insufficient.

To assist in the movement of the crops, transfers of funds are effected through the medium of the general fund, and for deposits of large gold certificates in New York payments are made at other Treasury offices of silver dollars, silver certificates, and United States \$10 notes.

The United States paper currency issued during the year amounted to \$650,026,000, an increase of 18 per cent, with a growth of 8.3 per cent in the number of pieces. The redemptions were \$565,340,300, an increase of 15.7 per cent, while in the number of pieces the growth was 21.5 per cent.

The experience of the fiscal year 1903 shows the average cost for each piece of United States paper currency issued and redeemed to be less than 2 cents—exactly, 1.7005 cents.

Moneys received in the redemption and exchange account during the year amounted to \$1,014,158,262, an excess over the preceding twelve months of \$149,654,701, or 17.3 per cent. The payments in gold in both forms were \$164,209,708 more than the receipts in such money.

The silver coin distributed at the expense of the Government for transportation during the year amounted to \$65,415,663, of which \$41,032,715 was in standard silver dollars and \$24,382,948 in subsidiary coin. The rate for transportation was \$1.93 per \$1,000.

NATIONAL BANKS.

Since the issue of the first charter in 1863, 7,417 national banks have been authorized to begin business, of which 5,457, with aggregate capital of \$777,741,335, were in operation on September 30, 1904.

Of the total number of banks chartered, 6,252 were associations of primary organization and 1,165 conversions of State banks.

Four hundred and sixteen associations, or 5.6 per cent of the total number organized, have been placed in charge of receivers; and from an examination of the records in the office of the Comptroller of the Currency it appears that the creditors of insolvent banks, the affairs of which have been fully settled, have received dividends on their claims to the extent of 71 per cent, and, including offsets allowed and loans paid, over 78 per cent.

Approximately, 21 per cent of the number of national banks organized were placed in voluntary liquidation by action of shareholders in conformity with law. The number of liquidations of all kinds has been 1,544.

Nearly one-third of the total number of national-banking associations organized during the existence of the system—a period of over forty-one years—were chartered subsequent to the act of March 14, 1900. This act contained provisions empowering the Comptroller of the Currency, with the sanction of the Secretary of the Treasury, to authorize, under certain conditions, the incorporation of national-banking associations with a minimum capital of \$25,000, reduced the annual tax on national-bank circulation, secured by the 2 per cent consols of 1930, from 1 per cent to one-half per cent, and authorized associations to issue circulating notes to the amount of the par value of the security bonds.

Under authority of the act of March 14, 1900, and from that date to September 30, 1904, there were incorporated and chartered 1,413 banks, with individual capital of less than \$50,000, the average being but slightly in excess of \$25,000; and during the same period 740 banks, with individual capital of \$50,000 or more, were incorporated, making the total number of charters issued in this period 2,153. Of the total of organizations, 246, with aggregate capital of \$16,179,800, were State banks converted into national-banking associations; 701, with capital of \$43,166,000, reorganizations of State or private banks, and 1,206, with capital of \$63,391,500, banks of primary organization.

In the year ended September 30, 1904, 445 banks, with aggregate capital of \$20,769,300, were chartered, of which 303, with capital of \$7,821,500, were organized under authority of the act of March 14, 1900. The remaining 142, with capital of \$12,947,000, were banks organized under the act of 1864 and with individual capital of \$50,000 or more. Forty-four of the banks chartered during the year were conversions of State banks; 153 reorganizations of State or private banks, and 248 associations of primary organization.

The actual failures of national banks during the year from September 30, 1903, to September 30, 1904, numbered twenty-one. The capital involved, however, was only \$1,615,000. Nine other associations were temporarily in the charge of receivers, but their assets having been placed in a satisfactory condition, the receivers were discharged and the banks permitted to resume business. The number of voluntary liquidations during the year was 65, and the aggregate capital of banks closed in this manner was \$32,635,000.

A summary of the organization of national-banking associations, under authority of and subsequent to the date of the passage of the act of March 14, 1900, classified by capital stock and also by States and geographical divisions, is given in the following table:

SUMMARY, BY STATES, GEOGRAPHICAL DIVISIONS, AND CLASSES, OF NATIONAL BANKS ORGANIZED FROM MARCH 14, 1900, TO SEPTEMBER 30, 1904.

a Bonds deposited, \$30,594,200.

The increase of 361 in number of the active associations during the year ended September 30, 1904, was attended by an increase in capital stock of \$16,324,240, or from \$761,417,095 to \$777,741,335. The comparatively low price of 2 per cent consols prevailing during the year resulted in a material increase in the amount of bonds deposited as security for circulation. The amount of United States bonds on deposit for circulation on September 30, 1903, was \$381,484,830, and on September 30, 1904, \$424,701,490, an increase of \$43,216,660. Circulation secured by bonds increased during the year from \$379,515,824 to \$422,014,715, or \$42,498,891. The total amount of circulation outstanding—that is, covered by bonds and lawful money—increased \$35,652,873, or from \$420,426,535 to \$456,079,408. The stock of money of the country on September 30, 1904, was \$2,835,333,734, of which the proportion of national-bank circulation was slightly over 16 per cent.

The number of banks in operation, authorized capital stock, bonds on deposit as security for circulation, average monthly market price of 2 per cent consols, circulation secured by bonds and by lawful money, and the aggregate circulation outstanding monthly from October 31, 1903, to September 30, 1904, are shown in the following table:

				Average monthly	Circulations		
Date.	Num- Bonds on market	Bonds.	Lawful money.	Total cir- culation outstand- ing.

 $Condition\ of\ national\mbox{-}banking\ associations.$

On September 9, 1903, in response to the call of the Comptroller of the Currency, national-banking associations to the number of 5,042 submitted statements of their resources and liabilities. The paid-in capital stock on that date was \$753,722,658; surplus and undivided profits, \$556,371,449; individual deposits, \$3,156,333,499; bank deposits, \$1,226,482,746; United States deposits, including deposits of United States disbursing officers, \$149,615,000, and aggregate liabilities, \$6,310,429,966. The principal assets were as follows: Loans,

\$3,481,446,772; bonds on deposit to secure circulation, public deposits, United States bonds on hand, including other bonds, securities, etc., \$1,078,197,073; specie, \$397,556,167; legal tenders, \$156,749,859.

On September 6, 1904, the number of reporting banks was 5,412, an increase during the year of 370, with capital stock of \$770,777,854. The surplus and other undivided profits amounted to \$583,137,047; bank deposits, \$1,561,252,341; individual deposits, \$3,458,216,667; United States deposits, \$110,766,930. The only material reduction in any of the items was in United States and other bonds deposited with the Treasury Department to secure public deposits, and the amount of deposits so secured. Public funds on deposit with the banks on September 6, 1904, amounted to \$38,848,070 less than in September, 1903, and there was a corresponding reduction in the amount of securities on deposit. The deposits, bank and individual, increased during the year \$334,769,595 and \$301,883,168, respectively, an aggregate increase of \$636,652,763.

Loans and discounts increased during the year to \$3,726,151,419, or approximately \$245,000,000. The banks' investments in bonds, stocks, and securities increased \$79,135,069 to an aggregate of \$1,157,332,142. The holdings of specie in September, 1904, were \$504,748,935, or \$107,192,767 greater than in September, 1903, and consisted of \$108,439,861 in gold coin, \$228,732,020 gold Treasury certificates, \$80,969,000 gold clearing-house certificates, \$19,075,560 silver coin, and \$67,532,494 silver certificates. The change in the holdings of legal tenders was nominal. The amount in the banks in September, 1904, was \$156,707,594, a decrease of \$42,265 compared with September, 1903. The aggregate assets of the banks increased during the year nearly \$665,000,000, or from \$6,310,429,966 to \$6,975,086,504. On September 9, 1903, the banks held 26.60 per cent in cash and with reserve agents and the Treasurer of the United States, against deposit liabilities amounting to \$3,863,512,112, while on September 6, 1904, they held 28.28 per cent against liabilities aggregating \$4,400,935,409.

MINT SERVICE.

Domestic coinage.

The domestic coinage of the mints during the fiscal year amounted to 148,712,953 pieces, of the value of \$228,202,151.55. Of this, \$208,618,642.50 was gold coin, exceeding the gold coinage of any previous year in the country's history. The coinage of standard silver dollars amounted to \$10,101,650; of subsidiary silver, \$7,719,231, and of minor coin, \$1,762,628.05. The silver dollars were all coined from bullion purchased under the act of July 14, 1890. Of the subsidiary silver, \$5,643,000 was likewise coined from this bullion.

Subsidiary coinage.

On November 1, 1904, the amount of bullion in the Treasury purchased under the act of July 14, 1890, was 2,742,589.71 fine ounces, which has a coining value in subsidiary money of \$3,791,380.24.

The coinage of subsidiary coin during the last five fiscal years was as follows:

1901		10, 966, 648. 50
1903		8,023,751.25
1904	• • • • • • • • • • • • • • • • • • • •	7,719,231.00
Total	-	50 300 049 35

From this it is apparent that steps must soon be taken to provide bullion for the subsidiary coinage.

The original authority to buy bullion for this coinage is given in section 3526 of the Revised Statutes, which reads as follows:

SEC. 3526. In order to procure bullion for the silver coinage authorized by this Title, the superintendents, with the approval of the Director of the Mint, as to price, terms, and quantity, shall purchase such bullion with the bullion-fund. The gain arising from the coinage of such silver bullion into coin of a nominal value exceeding the cost thereof shall be credited to a special fund denominated the silver-profit fund. This fund shall be charged with the wastage incurred in the silver coinage, and with the expense of distributing such silver coins as hereinafter provided. The balance to the credit of this fund shall be from time to time, and at least twice a year, paid into the Treasury of the United States.

This authorization was limited by the joint resolution of July 22, 1876, which restricts the stock of subsidiary coin and fractional paper currency in the country to \$50,000,000. The monetary act of March 14, 1900, raised the limit on subsidiary coin to \$100,000,000 and authorized the use of bullion purchased under the act of July 14, 1890. It reads as follows:

SEC. 8. That the Secretary of the Treasury is hereby authorized to use, at his discretion, any silver bullion in the Treasury of the United States purchased under the Act of July fourteenth, eighteen hundred and ninety, for coinage into such denominations of subsidiary silver coin as may be necessary to meet the public requirements for such coin: *Provided*, That the amount of subsidiary silver coin outstanding shall not at any time exceed in the aggregate one hundred millions of dollars. Whenever any silver bullion purchased under the Act of July fourteenth, eighteen hundred and ninety, shall be used in the coinage of subsidiary silver coin, an amount of Treasury notes issued under said Act equal to the cost of the bullion contained in such coin shall be canceled and not reissued.

The act of March 3, 1903, making appropriations for sundry civil expenses of the Government, contained the following paragraph, which is an enlargement of the authority conferred by the above provision:

That the authority given to the Secretary of the Treasury to coin subsidiary silver coin by the eighth section of an Act entitled "An Act to define and fix the standard of value, to maintain the parity of all forms of money issued or coined by the United

States, to refund the public debt, and for other purposes," approved March fourteenth, nineteen hundred, may hereafter be exercised without limitation as to the amount of such subsidiary coin outstanding.

In this connection, it may be pointed out that no provision now exists for the recoinage of standard silver dollars which by natural wear have become unfit for circulation. Many such are now in the Treasury. They can not be recoined into dollars without loss, and there is no authority to reimburse such loss. As the subsidiary coins are of lighter proportionate weight than the standard silver dollars, these abraded and uncurrent coins might be recoined into subsidiary silver coin without loss. The small contraction in the circulation of dollars would be offset by the increase in subsidiary coin, and the net result of the operation would leave the total money circulation unchanged. I recommend that the Secretary of the Treasury be given authority for such recoinage.

Gold bullion in redemption fund.

Section 2 of the monetary act of March 14, 1900, directs the Secretary of the Treasury to set apart in the Treasury a reserve fund of \$150,000,000 in gold coin and bullion, which shall be used for redemption purposes only. The relative proportions of coin and bullion to be maintained in the reserve are not here stated, but apparently left to the discretion of the Secretary of the Treasury. section 6 of the same act, however, it is provided that "whenever and so long as the gold coin held in the reserve fund in the Treasury for the redemption of United States notes and Treasury notes shall fall and remain below one hundred million dollars" the authority to issue gold certificates shall be suspended. This practically limits the amount of gold bullion which may be held in the redemption fund to \$50,000,000. It is preferable that all bullion in the Treasury be carried in the redemption rather than in the general fund. but the aggregate of bullion necessarily held in the several offices for all purposes is so large that \$50,000,000 is a narrow margin on which The mint and assay office service has twelve offices at which gold deposits are constantly being received and in which some gold bullion must always be on hand. It has four mints and one assay office equipped with refineries, in which crude bullion, in greater or less quantities, is at all times under treatment to prepare it for The Mint Service manufactures fine gold bars for use in coinage. the arts and manufactures, and during the last fiscal year sold \$21,640,644.40 worth for that purpose. A stock of bars of assorted weights must be carried constantly in several offices to meet the wants It is the usual practice of bankers and exchange dealers who export gold to draw gold bars from the assay office in New York for that purpose. Such withdrawals during the last fiscal year amounted to \$62,101,585.02, and it is desirable to keep an ample stock of bars in the New York office to meet this demand.

Another circumstance bearing on the situation is the fact that it is not convenient for the mints to work upon gold and silver at the same time. It is better practice to work upon the two metals alternately and not to be changing from one to the other more often than is necessary. To do this it is necessary to accumulate a fair stock of gold at each mint before starting upon its coinage. These conditions require such an amount of bullion on hand that it is difficult to avoid having over fifty millions in the aggregate in all the offices of the Treasury.

In this connection, I would invite special attention to the fact that under the operations of the monetary act of 1900, and the policies of this Department adopted in harmony therewith, a change has been brought about in the incidence of the demands upon the Treasury for gold. The act of 1900 provided for resuming the issuance of gold certificates, and on November 1, 1904, the amount of these certificates outstanding had risen to \$531,479,969. On the other hand, it has been the policy of the Department steadily to reduce the United States notes of denominations above \$10 to the ten-dollar denomination, until on November 1, 1904, the amount of such notes outstanding in denominations above \$10 was only \$82,017,787.

As the gold certificates are all in denominations of twenty dollars and above, it is apparent that demands upon the Treasury for gold are now likely to be made by the presentation of gold certificates rather than by the presentation of legal-tender notes. It might be supposed that this would relieve the reserve fund, but whether legal-tender notes or gold certificates are presented, the actual demand for gold is usually for bars. During the six months from January 1, 1904, to July 1, 1904, the Treasury gave \$60,790,511 in gold bars in direct exchange for gold certificates, while in the same time the total presentations of United States notes for gold amounted to only \$6,591,240. The exchange of bars for gold certificates increases the supply of coin in the reserve fund by the same amount that the supply of bars is diminished. It is evident from the conditions that in the future any pressure upon the reserve fund will be for bars rather than coin.

There has never been any persistent demand upon the Treasury for gold except for export, and for that purpose bars are preferred by the shippers, as they are sure to be of full weight, while all coin that has been in circulation is more or less abraded. There is an advantage to the Government also in supplying bars instead of coin, as it saves the cost of coinage.

For the foregoing reasons it is recommended that section 6 of the act of March 14, 1900, be amended by making it read that "when-

ever and so long as the gold coin and bullion held in the reserve fund in the Treasury for the redemption of United States notes and Treasury notes shall fall and remain below one hundred million dollars, the authority to issue certificates as herein provided shall be suspended." The effect of the proposed amendment would be to vest in the Secretary of the Treasury discretionary power as to the proportion of coin and bullion in the reserve, and it would be his duty to keep at all times sufficient coin in the fund to meet the demand.

Coinage for Philippine Islands and foreign governments.

At the request of the Secretary of War, the purchases of bullion required for the silver coinage of the Philippine Islands, authorized by the act of March 3, 1903, were made by the Director of the Mint, with the approval of the Secretary of the Treasury. There were purchased from March 26, 1903, to June 30, 1904, for this purpose 13,528,226.30 fine ounces of silver, costing \$7,376,995.28. This bullion has been paid for by the government of the Philippine Islands. There were also received during the fiscal year at the San Francisco mint old silver coins withdrawn from circulation in the Philippine Islands, amounting to 2,560,237.68 fine ounces, for conversion into the new coinage. The total coinage for the Philippine Islands during the year was 12,552,629.80 pesos in silver and 663,843.77 pesos in nickel and bronze. The Treasury has been reimbursed for the cost of all this Philippine coinage. In addition to the foregoing, the mint at Philadelphia coined 2,100,000 pieces in silver for Venezuela and 630,000 pieces in nickel for Costa Rica.

Denver mint.

The new mint building at Denver has been completed since the close of the fiscal year under review, and turned over to the Mint Service. The organization of the institution has been completed, as contemplated by the act of March 18, 1904, except that no coiner has been appointed. It is intended to begin coinage operations about July 1, 1905, and the equipment is now being installed.

Deposits, earnings, and gains.

The original deposits of gold at the several mints and assay offices aggregated \$177,753,384.34—the largest ever made in one year. The production of gold in the United States for the calendar year 1903 is estimated at \$73,591,700, and the industrial consumption at \$29,063,551, of which \$24,397,962 was of new material.

Including the seigniorage on silver dollars, subsidiary silver coin, and minor coin, the total earnings and gains of the Mint Service during the year exceeded the expenditures by \$5,012,604.34.

The earnings and gains were as follows:

The continues are going were the rest was	
Parting and refining charges. Alloy charges. Melting, assaying, and stamping charges. Seigniorage on standard silver bullion. Seigniorage on subsidiary silver coin. Seigniorage on minor coin. Profits on manufacture of proof coins and medals. Gains on bullion deposits. Proceeds from sale of old material. Received for special assays. Sale of by-products. Issue of 4 per cent bonds, funded loan of 1907, on account	of conversion	

1,190

of accrued interest on refunding certificates.....

The form of the debt was also changed during the fiscal year 1904 by the refunding of 3 per cent bonds of 1908 and 4 per cent bonds of 1907 into 2 per cent consols of 1930, as authorized by the act of March 14, 1900, and in pursuance of the circulars of March 26 and September 23, 1903. Particulars of the operations under the circular of March 26 are given in the last annual report. They were discontinued July 31, 1903. The amounts refunded under the circular

of September 23 up to December 31, 1903, when operations were discontinued, were as shown in the following table:

	Three per cent.	Four per cent.	Total.
Amount refunded. Interest saved on old bonds to maturity Interest to be paid on new bonds to maturity of old bonds. Premium paid for old bonds Premium received for new bonds. Net profit	628, 739, 77 419, 159, 84 147, 319, 66 86, 752, 00	\$11, 489, 000. 00 1, 666, 662. 50 833, 331. 25 700, 760. 31 229, 780. 00 362, 350. 94	\$15, 826, 600, 00 2, 295, 402, 27 1, 252, 491, 09 848, 079, 97 316, 532, 00 511, 863, 21

The total amount of bonds refunded since March 14, 1900, under the circulars of March 14, 1900, and March 26 and September 23, 1903, is shown in the following recapitulation:

	Three per cent.	Four per cent.	Five per cent.	Total.
Amount refunded into 2 per cent consols of 1930 Interest saved on old bonds to maturity. Interest to be paid on new bonds to maturity of old bonds Premium paid for old bonds Premium received for new bonds Net profit.	407,606	\$351,578,650 89,852,710 44,926,355 36,432,250 1,531,778 10,025,883	\$72,071,300 13,050,355 5,220,142 6,872,572	\$542, 909, 950 130, 186, 727 68, 335, 605 49, 544, 655 1, 939, 384 14, 245, 851

All of the bonds so refunded were received at a valuation equivalent to their present worth, on the date of receipt for refunding, to realize an income of $2\frac{1}{4}$ per cent per annum. The 2 per cent consols of 1930 issued in lieu of the bonds surrendered were delivered at par for those refunded under the circular of March 14, 1900, and at a premium of 2 per cent for those refunded under the circulars of March 26 and September 23, 1903.

The interest-bearing debt of the United States outstanding November 1, 1904, was \$895,157,770. There were \$531,246,440 in bonds held by the Treasurer of the United States in trust for national banks as security for circulating notes and deposits, leaving \$363,911,330 in the hands of other investors.

The changes in the amounts of the several kinds of money of the United States outside the Treasury between November 1, 1903, and November 1, 1904, are shown in the table following:

COMPARATIVE STATEMENT SHOWING THE CHANGES IN CIRCULATION.

Net increase				156,081,793

PUBLIC MONEYS.

The monetary operations of the Government have been conducted through the Treasurer of the United States, 9 subtreasury officers, the treasury of the Philippine Islands, the American Colonial Bank of Porto Rico, and 858 national-bank depositaries. The amount of public moneys held by the bank depositaries on June 30, 1904, including funds to the credit of the Treasurer's general account and United States disbursing officers, was \$110,726,253.49, a decrease since June 30, 1903, of \$37,116,357.03. On June 30, 1904, there were 270 regular and 570 temporary depositaries; 158 were designated during the fiscal year and 18 discontinued. On November 1, 1904, the number of depositaries was 835, and the amount of public moneys held by them was \$114,558,481.84.

ENGRAVING AND PRINTING.

The deliveries by the Bureau of Engraving and Printing during the fiscal year ended June 30, 1903, were 155,743,691 sheets. The deliveries for the year 1904 were 159,918,061 sheets, an increase of 4,174,370 sheets, or about 2.7 per cent.

The aggregate amount available for the operation of the Bureau during the fiscal year from appropriations and repayments was \$3,178,567.12. The expenditures for all purposes connected with the work of the Bureau amounted to \$3,159,940.69, leaving an unexpended balance of \$18,626.43. The increase in expenditures for 1904 over 1903 was less than 1 per cent. These results were obtained without exceeding the regular annual appropriations made by Congress.

During the year a committee, composed of representatives of the several offices for which the Bureau of Engraving and Printing executes work, was appointed to verify the balances of securities held by the Bureau on February 20, 1904. The committee was furnished with an ample force of counters and helpers, and took possession of the securities held by the Bureau on the morning of February 21, 1904, and completed the count on the afternoon of the 22d. There were charged to the Bureau on the books of the Department at the close of work February 20, 1904, 8,921,156 sheets of United States notes, silver certificates, and other securities representing money values. When the count was completed and the several items checked it was found that the securities on hand agreed exactly with the items charged—every sheet was accounted for.

At the request of the Secretary of War, a series of silver certificates, authorized by the act of March 2, 1903, for the Philippine Islands, was designed and engraved, and certificates to the extent of 639,000 sheets were furnished.

It has been necessary to continue the night force of printers and assistants and to extend the time of a number of the day force to secure the execution of the amount of work required. A contract for the new building to the west of the present main building of the Bureau has been made, and the structure will be completed early in the next fiscal year. When this building is finished and occupied the Bureau will be able to perform all of its work within the regular hours.

The new laundry and stable provided by the act of March 3, 1903, have been completed and are occupied.

CUSTOMS.

Consolidation and reorganization of districts.

Improved service and the extension of immediate-transportation privileges to certain parts of the country increased the expense of collecting the revenue from customs for the fiscal year something over \$200,000 in round numbers. The average cost of collecting was \$0.033 per dollar—much more than it should be. The cost of collecting a dollar of internal revenue for the last fiscal year was \$0.02, a slight reduction over that for the preceding year. During the fiscal year Congress added five "immediate-transportation" ports, requiring additional officers and expense, but affording to those sections of the country additional facilities in the way of direct importation of foreign goods. The gradual extension of the immediate-transportation privileges to all parts of the country has increased the fixed expenses of collecting the revenue from customs, and has also increased the cost of supervision. Independent ports have been established where subports tributary to a larger central port would have been sufficient. These tributary ports are therefore now maintained as independent ports on an unbusinesslike basis. Much unnecessary expense could be eliminated by proper consolidation of small and expensive ports as subports dependent upon large self-supporting ports. Congress should do this or authorize the Executive branch of the Government to reorganize the customs districts upon an economical and businesslike basis. Precedent for such authority is found in the act of Congress wherein the President is authorized to rearrange the internal-revenue districts as follows:

SEC. 3141 (Rev. Stat). For the purpose of assessing, levying, and collecting the taxes provided by the internal-revenue laws, the President may establish convenient collection-districts, and for that purpose he may subdivide any State, Territory, or the District of Columbia, or may unite two or more States or Territories into one district, and may from time to time alter said districts: *Provided*, That the number of districts in any State shall not exceed the number of Representatives in Congress to which such State was entitled in the Thirty-Seventh Congress, except in such States as were entitled to an increased representation in the Thirty-Eighth Congress, in which States the number of districts shall not exceed the number of Representatives to which any such State was so entitled: *And provided further*, That in the State of California the President may establish a number of districts not exceeding the number of Senators and Representatives to which said State was entitled, in the Thirty-Seventh Congress.

Since the foregoing statute became a law the number of internalrevenue districts has been reduced by Executive order from 131 to 63.

In my last annual report I called attention to the relatively large expenditure incurred at various ports in collecting almost infinitesimal amounts of revenue. During the past year, at the following ports, it has cost more than a dollar to collect a dollar:

LIST OF PORTS AT WHICH CUSTOMS EXPENSES EXCEED RECEIPTS.

I can not too strongly emphasize the need for systematic and economical reorganization of the Customs Service along the lines here suggested.

Attention is again called to the desirability of change in the law which makes Port Townsend the port of entry in the Puget Sound district. The reasons for making Port Townsend a subport and creating Seattle the port of entry for that district were fully set forth in my last annual report, and I will not repeat them.

The benefits of immediate transportation should be extended to San Juan, P. R.

Board of General Appraisers.

During the fiscal year under review the work of the Board of General Appraisers was reorganized by making a new arrangement of the subboards and a change in their methods of doing business. By means of this reorganization not only is the current work kept well in hand and complaints of tedious delays removed, but inroads are being made upon the accumulation of protests undecided in past years. The number of cases decided has been doubled, and the Board is gaining at the rate of 10,000 a year in decisions over the number of protests received, whereas formerly fewer cases were decided than received.

Licensing customs brokers.

I recommend that Congress require the registration of all customs brokers in the United States under such regulations as may be prescribed by the Secretary of the Treasury.

Appraisers' conference—Uniform practices throughout Service.

The Department has given much attention during the past fiscal 'year to securing uniformity in practice at the various ports throughout the country, particularly in the appraisement of merchandise. To that end examiners and appraising officers at various ports have had numerous conferences on special subjects, and the representation at the annual meeting of the appraisers at New York has been enlarged. This has been at the expense of the general appropriation for the collection of customs revenues. The benefits derived from these conferences are so great that their continuation and enlargement are matters of the very greatest importance in the proper enforcement The present appropriation for this purpose is of the revenue laws. only \$1,200 per annum, and is clearly inadequate. The specific appropriation should be made sufficiently large to enable all appraising officers and the other principal officers of the larger ports to attend the annual conference.

Correct appraisements and practices at one port and not at another are most demoralizing, for without uniformity the revenue is imperiled and importers in different sections of the country put upon an unequal footing.

$Special\ agents -- Prevention\ of\ frauds.$

Great effort has been made to protect the revenue by increased activity and vigilance in the detection and prevention of frauds by the division of special agents. The following summary of the work of the special agents during the fiscal year ended June 30, 1904, compared with the previous year, is presented:

	1903.	1904.	Increase.
Number of reports to Department	4,031	8,222	4, 191
Number of seizures	132	2,026	1.894
Appraised value of seizures	\$66,372.95	\$94,352.74	\$27,979.79
Number of arrests	41	96	55
Number of suits commenced	10	59	49
Amount involved in suits	\$182,944.91	\$287,110.98	\$104, 166.07
Number of customs districts examined	60	60	
Amounts recovered on account of suits		\$5,447.41	\$3,918.19
Amounts recovered on account of seizures		\$31,277.97	l \$27,803.99
Amounts recovered from fines, penalties, and forfeitures. Amounts recovered through undervaluation, improper	\$8,353.24	\$14,854.33	\$6,501.09
classification, etc	\$634,095.45	\$506,111.63	a \$127, 983. 82

a Decrease.

Much of the detection and prevention of undervaluation has been due to the efficient work of the special agents in foreign countries.

INTERNAL REVENUE.

The receipts from internal-revenue taxes for the fiscal year 1904, as shown by collectors' reports, were \$232,904,004.63, a net increase over 1903 of \$2,163,079.41.

The following items show increases for 1904: Distilled spirits, an increase of \$3,856,543.03; manufactured tobacco, an increase of \$1,140,998.51; fermented liquors, an increase of \$1,535,602.69; adulterated butter, an increase of \$1,755.30.

The following items show decreases for 1904: Oleomargarine, a decrease of \$252,685.86; filled cheese, a decrease of \$2,902.03; mixed flour, a decrease of \$229.92; process or renovated butter, a decrease of \$10,524.84; banks and bankers, a decrease of \$899.50; miscellaneous, a decrease of \$4,104,577.97.

The total expenditure for the maintenance of the Internal-Revenue Service for the fiscal year 1904 was \$4,619,309.52. The cost of collecting \$1 of internal revenue was \$0.02.

The following table gives a comparative statement of receipts for the fiscal years 1903 and 1904. For a more detailed statement reference should be made to the report of the Commissioner of Internal Revenue.

RECEIPTS FROM INTERNAL REVENUE IN 1903 AND 1904, AS SHOWN BY COLLECTORS' REPORTS.

	Fiscal year e	nded June 30—		_
Objects of taxation.	1903.	1904.	Increase.	Decrease.
Distilled spirits Manufactured tobacco. Fermented liquors. Oleomargarine. Filled cheese Mixed flour Adulterated butter Process or renovated butter Banks and bankers. Miscellaneous. Total	43,514,810.24 47,547,586.08 736,783.31 6,445.26 1,795.50 160.60 151,398.37 899.50		1,755.30	229. 9: 10, 524. 8

a Includes \$2,072,132.12 from legacies on which the tax had accrued prior to the repeal of the act.

The total production of distilled spirits, exclusive of fruit brandies, was 134,311,952 taxable gallons, against 141,776,202.1 gallons in 1903, a decrease of 7,464,250.1 gallons.

The production of fruit brandies decreased 1,237,411 gallons.

During the fiscal year 1904 2,172 distilleries of all kinds were operated, a decrease of 269.

The production of beer was 48,265,168 barrels, an increase of 1,544,989 barrels.

PUBLIC BUILDINGS.

The construction of public buildings, conducted by this Department through the Office of the Supervising Architect, has assumed large proportions under the impulse of recent legislation, notably the At the close of the fiscal year June 30, 1903, act of June 6, 1902. the number of authorized buildings the construction of which had not been begun was 132. With the force of draftsmen and technical experts then employed by the Department in the Supervising Architect's Office it was an impossibility to meet the demands from all parts of the country for the speedy beginning of actual constructive. work on these buildings. A necessary preliminary to an increase of force was the provision of additional office space. Accordingly, in response to a request from the Department, Congress, in the act approved February 18, 1904, appropriated \$12,000 for an extension of the drafting room. The extension was completed in May, 1904, so near the close of the fiscal year that the addition to the force had little effect upon the number of buildings completed during that year, but at this date it is possible to forecast, that (with some further additions to the force, which will be made with as much dispatch as due care in the selection of skilled employees will allow) by January 1, 1905, drawings and specifications will have been completed for all buildings authorized, and that with very few exceptions these buildings will be under contract at the opening of the building season of 1905. At the request of Members of Congress, who desire further legislation relating thereto, or on account of legal questions affecting the sites, the construction of a few buildings will be somewhat delayed.

Proceedings have been continued for securing drawings, specifications, and superintendence from private architects under the Tarsney Act, and, as intimated in the last annual report, a number of competitions have been held for some of the smaller buildings in localities widely scattered from New England to the Pacific Coast. Sufficient information has been secured to show that in these cases the competitive method is not as successful as it has proved to be in the class of larger buildings. The careful inspection and repeated revision by the Department of drawings and specifications, and the

voluminous correspondence with the architects, have consumed so much time and labor that the results secured have been more costly and less satisfactory than if the work from its inception had been carried out entirely by the Department.

The results secured during the fiscal year ended June 30, 1904, through the Supervising Architect's Office, the conditions and progress of buildings, and the expenditures on account of same appear in a condensed form in the statements below.

The following fifteen buildings were completed during the year: Abilene, Tex., post-office and court-house; Brunswick, Ga., custom-house and post-office; Creston, Iowa, post-office; Elmira, N. Y., post-office and court-house; Emporia, Kans., post-office; Fergus Falls, Minn., court-house and post-office; Fitchburg, Mass., post-office; Helena, Mont., public building; Janesville, Wis., post-office; New Brunswick, N. J., post-office; New Iberia, La., post-office; Newport, Vt., court-house, post-office, and custom-house; St. Louis, Mo., exposition buildings; Tampa, Fla., court-house, post-office, and custom-house; Wilkesbarre, Pa., post-office.

In addition to the buildings noted as completed, extensions and improvements, as authorized, have been finished at the public buildings at Alexandria, Va.; Beaumont, Tex.; Ellsworth, Me.; Jackson, Miss.; Minneapolis, Minn.; Omaha, Nebr., and Richmond, Ky.; and drawings and specifications have been prepared during the fiscal year for extensions and improvements to public buildings at Bangor, Me.; Jacksonville, Fla.; Kansas City, Mo.; Nashville, Tenn.; Rome, Ga.; St. Paul, Minn., and the Bureau of Engraving and Printing, Washington, D. C.

Extensions are also in course of erection at 20 public buildings, and these are not included in the statement below as buildings in course of erection. Of these extensions, 13 are under contract to be completed during the fiscal year ending June 30, 1905.

BUILDINGS COMPLETED, OR BUILDING SITES PURCHASED OR AUTHORIZED, ETC.

Total number of buildings and sites at last report	
Total [°]	616
The above is amplified as follows:	
Number of buildings completed and occupied at date of last report, including marine hospitals and quarantine stations	403 1
Completed since	$1\overline{5}$
In course of erection	53
Not commenced	
Sites only (no authorization for building)	44

It will be noted that the number of buildings in course of construction has increased over the statement for the preceding fiscal year from 35 to 53, and that the number of buildings not begun has decreased from 132 to 100.

EXPENDITURES FOR PUBLIC BUILDINGS DURING FISCAL YEAR ENDED JUNE 30, 1904.

For sites, for the construction of public buildings, extensions, and additions and alterations especially appropriated for For repairs and preservation of public buildings. Hall of records.

The site for the hall of records, with the exception of a small portion, which is still in litigation, has been secured by the United States. As the title in all probability will be perfected within the present fiscal year, it is recommended that the plans submitted to Congress be approved, the limit of cost determined, and an appropriation of \$150,000 for preliminary work in the construction of the building be made.

Investigations to determine the growth and rate of accumulation of files in the Treasury Department building show that the files have doubled in bulk in the last eight years. Information received from other Departments shows similar conditions.

The erection of a building of such large proportions as authorized for the hall of records must necessarily consume considerable time. Meanwhile embarrassment to the Departments and danger to the files continue to be the cause of extreme solicitude to officers of the Government responsible for their safe-keeping.

PUBLIC HEALTH AND MARINE-HOSPITAL SERVICE.

The Surgeon-General reports 58,556 patients treated by the Service, of whom 14,303 were treated in hospital and 44,253 were out-patients. The Service controls and operates 22 hospitals, all of which are owned by the Government. In addition to the marine hospitals, there are 122 relief stations where seamen receive hospital and dispensary treatment. A relief station was established during the year at Ketchikan, Alaska.

During the year a site for a marine hospital at Buffalo, N. Y., was purchased, and, under act of March 3, 1903, the Secretary of War in May last transferred to the Treasury Department a portion of the

United States arsenal grounds at Pittsburg, Pa., for a site for a proposed hospital. Contract was let for the construction of a new hospital at Savannah, Ga.

Aid was extended to other branches of the Government in the physical examination of 5,173 persons, 389 of whom were rejected. Six hundred and ten merchant seamen were also examined and 91 rejected.

The number of patients cared for in the sanatorium for consumptives at Fort Stanton, N. Mex., continues to increase. Three hundred and eighty-six were treated during the year. This exceeds the number for the previous year by 112.

During the fiscal year, 840,714 aliens were inspected by the officers of the Service to determine their physical fitness for admission, as prescribed by the immigration laws.

The details of officers at Naples, Italy, and Quebec, Canada, were continued. Officers were also stationed at Vancouver and Victoria, British Columbia, for the medical inspection of aliens bound for the United States. The officers on duty at ports in Japan and China have likewise inspected aliens on request of the Department of Commerce and Labor. At all the ports in the United States where aliens seek entry, medical inspectors have been stationed to carry out the provisions of the law.

Personnel.

At the close of the fiscal year the commissioned corps of the Service consisted of 118 officers as follows: One surgeon-general, 6 assistant surgeons-general, 25 surgeons, 36 passed assistant surgeons, and 50 assistant surgeons. The acting assistant surgeons numbered 194, including 8 appointed for duty at the fruit ports in Central and South America and for duty at Bombay, India; Rio de Janeiro, Brazil, and Guayaquil, Ecuador. The pharmacists numbered 49—16 of the first class, 25 of the second class, and 8 of the third class.

Expenditures.

The balance of the marine-hospital fund available at the commencement of the fiscal year was \$486,638, and the receipts from all sources—tonnage tax, repayments for care of foreign seamen, reimbursements from the immigration service, etc.—were \$937,257.61. The expenditures for the same period were \$1,168,252.36, leaving a balance on hand at the end of the fiscal year of \$255,643.25.

The amount available of the appropriation for preventing the introduction and spread of epidemic diseases at the beginning of the fiscal year was \$489,051.99. The expenditures were \$211,461.82, leaving a balance June 30, 1904, of \$277,590.17.

The amount of the appropriation for the quarantine fund was \$325,000. There were repayments for the care of foreign seamen,

etc., of \$1,605.88. The expenditures exceeded the amount available, and a deficiency appropriation, "Repairs to floating property," of \$9,500 was granted under act of April 27, 1904. When all the accounts are adjusted, a small balance of this appropriation will remain.

National quarantine service.

The protection afforded the United States proper in the exclusion of quarantinable diseases has been continued at the 40 national maritime inspection and disinfection stations located in the waterways and ports of entry upon the Atlantic, Gulf, and Pacific coasts; 7,021 vessels were inspected and 323 vessels disinfected. National quarantine stations have been continued at all the principal ports of Porto Rico, Hawaii, and the Philippine Islands.

Medical officers have continued to exercise supervision over outgoing vessels bound for the United States and its insular possessions or dependencies at five ports in Cuba, viz, Havana, Matanzas, Nuevitas, Santiago, and Cienfuegos; also at seven fruit ports in Central and South America. Officers were stationed at La Guaira, Venezuela; Callao, Peru, and Guayaquil, Ecuador, to inspect vessels and sign bills of health, in conjunction with the United States consuls at these ports, both of vessels leaving for the United States and the ports of Colon and Panama, for the protection of the Canal Zone. Officers were also stationed at Colon and Panama for the same purpose, and were given the quarantine administration of these ports.

The details of medical officers to the offices of United States consuls at Yokohama, Nagasaki, and Kobe, Japan, and Hongkong and Shanghai, China, have been continued, and during the active quarantine season beginning May 1 officers were also stationed in Vera Cruz, Progreso, and Tampico, Mexico. On account of the prevalence of cholera and plague in Bombay and Calcutta, India, like details were made to the offices of the consuls at those ports.

The Service has maintained the usual land quarantine stations along the Texas-Mexican border in aid of and in cooperation with the State health authorities of Texas, at El Paso, Eagle Pass, and Laredo.

Smallpox.

During the fiscal year 1904, smallpox was reported from 37 States and Territories, with a total of 25,106 cases and 1,118 deaths. During the previous fiscal year, 42,590 cases and 1,642 deaths were reported.

Yellow fever.

From September 24, 1903, to March 18, 1904, there were reported in Laredo, Tex., 1,014 cases of yellow fever, with 107 deaths; in

Minera, up to November 28, 1903, 137 cases, with 11 deaths; in San Antonio, from October 21 to November 28, 1903, 43 cases and 16 deaths.

Measures were promptly instituted, in conjunction with the State nealth authorities, for the limitation and suppression of the disease. The results obtained by drainage, mosquito destruction, and screening of water containers show that this disease can be controlled by measures directed exclusively toward the destruction of mosquitoes. The practical demonstration of these methods formed the basis of a friendly agreement between the sanitary authorities of Mexico and the United States for a joint effort directed to the eradication of yellow fever infection in both countries, which was effected in a conference held in the City of Mexico in January of the present year between the Surgeon-General of the Public Health and Marine-Hospital Service and the Mexican health officials.

The work of the yellow fever institute mentioned in previous reports has been continued.

The Surgeon-General invites attention to the difficulties in quarantine administration in dealing with a neighboring government on account of the division of authority as now allowed by law between the national and State agencies.

Plague.

The cooperation of the State and municipal authorities of California with the Public Health and Marine-Hospital Service for the purpose of eradicating plague infection in the Chinese district of San Francisco has been effective, and the work has been steadily carried on under the direction of Service officers.

The Surgeon-General invites attention to the danger to the United States, and especially to the Canal Zone, by reason of the prevalence of plague in Peru, Chile, Brazil, and other South American countries, and states that active quarantine is a present necessity.

Inspection of vaccine virus, serums, etc.

Under the regulations prepared in accordance with the act of Congress approved July 1, 1902, an inspection of establishments engaged in the manufacture of vaccines, serums, toxins, and analogous products was made by officers of the Service. To supplement the inspection of the manufacturing plants, samples of their products were purchased from time to time in the open market and examined and tested in the hygienic laboratory.

The inspection of these manufacturing concerns and the systematic examination and testing of their products constitute an important public-health function. By this means a high standard of purity and

strength is insured, and the public protected from deteriorated or contaminated products.

Laboratory.

The new building for the hygienic laboratory in Washington was completed during the year, and has been fulfilling its function as a research laboratory. Since the appropriation for this building was made, Congress has added three new divisions to the laboratory, and the Surgeon-General in his report shows the need of an additional building to accommodate two of these divisions.

Annual conference with State authorities.

The second annual conference of State health authorities with the Public Health and Marine-Hospital Service was held June 3, 1904. Twenty-two States and Territories were represented. Measures were taken to further the cooperation of State boards of health with the Service.

For a report in detail of the Public Health and Marine-Hospital Service, reference should be made to the annual report of the Surgeon-General.

LIFE-SAVING SERVICE.

The following statement shows in brief the operations of the Service during the fiscal year:

The documented vessels which suffered disaster within the scope of the Service numbered 359. There were on board these vessels 2,525 persons, of whom only 21 lost their lives. The value of the vessels is estimated at \$4,698,855 and that of their cargoes at \$1,757,925, making the total value of property imperiled \$6,456,780. Of this amount, \$5,089,950 was saved and \$1,366,830 lost, while the number of vessels which were a total loss was 50.

Among the smaller class of vessels not documented—sailboats, rowboats, etc.—there were 411 casualties, involving a total of 803 persons, of whom 13 were lost. The value of these smaller craft is estimated at \$248,750, of which \$240,130 was saved and \$8,620 lost. The aggregate of these two classes is as follows:

Total number of disasters	770
Number of vessels totally lost	50
Total number of persons involved	3,328
Total number of persons lost.	34
Total number of shipwrecked persons succored at stations	
Total number of days' succor afforded	1,301
Total value of property involved	\$6,705,530
Total value of property saved	\$5,330,080
Total value of property lost	\$1,375,450

In addition to the vessels mentioned above, assistance of more or less importance was rendered to 291 others, making a total of 1,061 vessels in all to which aid was furnished.

Besides the persons included in the foregoing statement, 103 others who were not on board vessels were saved by members of the Service from various situations of peril.

Many lives and a large amount of property are annually saved by the warnings given by the patrolmen and station lookouts to vessels which are discovered running into danger. During the fiscal year there were 161 such cases reported, 148 of which were by night and 13 during the daytime, in thick weather. The number of persons involved and the value of the vessels and their cargoes can not, of course, be ascertained.

The net expenditure for the maintenance of the Service during the fiscal year was \$1,766,446.82.

At the close of the year the Life-Saving Establishment embraced 273 stations. Of this number, 196 are located on the Atlantic and Gulf coasts, 60 on the Great Lakes, 1 at the Falls of the Ohio River (Louisville, Ky.), and 16 on the Pacific coast.

The new station buildings at Racine, Wis.; Sabine, Tex.; Long Branch, N. J., and Great Wass Island, Me., mentioned in the last report as under construction, have been completed and occupied during the year. The construction of the new stations authorized to be established at Fishers Island, N. Y.; Old Topsail Inlet (Beaufort), N. C., and Bogue Inlet, N. C., was entered upon during the year, and since its close they have been completed and are about to be put in active operation. After considerable delay and difficulty the site for the station to be established on Ocracoke Island, N. C., has been secured and the contract awarded for the construction of the station. Contracts were also entered into during the year for the rebuilding of the Cape Henry (Va.) and Little Kinnakeet (N. C.) stations, and the latter is now practically ready for occupancy. The rebuilding of the Muskegon and Grande Pointe au Sable stations (Lake Michigan) is now under way, and extensive repairs and improvements are being made to the stations at Charlotte, N. Y., and Evanston, Ill.

The increasing depletion in the ranks of the surfmen continues, and is more marked than ever. This is due among the older men to declining years, and among the younger ones to the lack of adequate provision in case of disability or death. The necessity and the justice of making some provision in the nature of retirement for surfmen and keepers and for the assistance of the widows and children of such as perish are more strongly emphasized every year. The Department therefore renews its recommendation of last year that suitable provision be made for such cases.

The telephone service is one of the most important features of the Life-Saving Establishment. Although the lines are extremely difficult to maintain on account of washouts and changes in the contour

of the coast and injury to the cables crossing the inlets, no interruption of service during the past year has continued for more than a few hours. The lines are so connected with the commercial centers that telegraph and telephone facilities are available to underwriters and shipowners, and communication can also be had when necessary with the light houses and offices of the Weather Bureau.

In view of the development of wireless telegraphy, plans are being made for connecting the life-saving stations with the coast wireless stations of the Government. This will enable the Life-Saving Service to communicate readily and directly with those revenue cutters supplied with wireless equipment, and will, in many instances, enable the life-saving corps to cooperate advantageously with the Revenue-Cutter Service.

REVENUE-CUTTER SERVICE.

Following is a summary of the work performed by vessels of the Revenue-Cutter Service for the fiscal year 1904, together with the net expenditures:

Lives saved (actually rescued) from drowning	24
Persons on board vessels assisted	1,217
Persons in distress taken on board and cared for	47
Vessels in distress assisted	154
Vessels boarded and papers examined	16,738
Vessels seized and reported for violation of law	494
Fines and penalties incurred by vessels reported	\$131,620
Value of vessels assisted and their cargoes	\$2,714,072
Net expenditure:	
General appropriation for maintenance	
Deficiency appropriation for extraordinary repairs 156,000	
	\$1,606,000

The operations of the Service cover the entire seacoast of the United States, including Bering Sea, Arctic Alaska, and some parts of the waters of Hawaii. There have been in commission throughout the year 40 vessels, including 26 cruisers, and 14 vessels and launches employed in harbor service.

Twenty-two officers of all grades, on the active list, have been on detail to various special duties. Fifteen line officers have been on duty with the Life-Saving Service, and have superintended the construction of all life-saving stations, and inspected, drilled, and disciplined the crews. In addition to the foregoing, there have been 6 line and 4 engineer officers drawn for duty from the retired list.

Vessels.

Several new vessels are required to replace an old, obsolete, and worn-out class, and at least one for a new station at Honolulu, Hawaii. There is no vessel of the Revenue-Cutter Service available for service in Hawaiian waters, where one is needed for the protection and furtherance of the public interests.

The vessel which has been stationed for many years at Key West was condemned and sold in 1903, as it had become worthless from age and deterioration. A vessel for that station must be of light draft and suitable dimensions to fit it for the shoal waters over the reefs on the Florida coast. There is no suitable vessel available for this station.

The Boutwell is an old vessel doing duty in the sounds of North Carolina. This vessel can render assistance to commerce plying in the deep-water channels, but can not leave those waterways owing to its draft of water. A suitable vessel to replace it is much needed.

Two small steamers for service in the waters of Puget Sound are imperatively necessary to supplement the force already there in its effort to break up illicit trade and guard the public interests.

The attention of Congress is called to the urgent need of a suitable vessel to take the place of the bark *Chase*. The condition of this vessel has become such that it is necessary either to rebuild or replace it. It is of wood construction and is not worth rebuilding. The proper course is to replace it with a new one. This subject has been repeatedly called to the attention of Congress and the necessities of the case made plain. It is recommended that the sum of \$70,000 be appropriated for the construction of a new vessel of suitable dimensions to take the place of the *Chase*.

The Bear and the Thetis are annually dispatched by the Service for the relief and protection of our whaling and other interests in the Bering Sea and Arctic Ocean. They are still in great need of extensive repairs. In the last annual report it was said in regard to these vessels:

The Bear and Thetis are the only vessels possessed by the Government which can cope with ice conditions in the Bering Sea and Arctic Ocean. They are in need of extensive repairs in hull and motive power, which will require an expenditure of not less than \$65,000 on each. The necessary funds should be appropriated, as these vessels could not be duplicated for less than \$200,000 each. Without efficient vessels of their type, no relief can be extended to American interests in the Bering Sea or Arctic Alaska.

These vessels are well worth the outlay for the repairs necessary to put them in condition. Should an emergency for the relief of whalers such as arose in 1897–98 again present itself, requiring the presence of vessels designed for ice service, it could not be met by this Department or the Government without the repairs recommended. The subject is again presented for the favorable consideration of Congress.

The steamer *Mackinac*, constructed for service on the St. Marys River, Mich., was finished and placed in service in October, 1903.

The *Mohawk*, work on which was long delayed owing to the failure of the contracting company, was completed and went into service in May last.

The repairs authorized at the last session of Congress to be made on the cutters *Galveston*, *Manhattan*, and *Dexter* are nearing completion. Those on the *Hudson* and *Calumet* have been completed, and the contract is about to be let for the cruising cutter for the Maine coast authorized by Congress at its last session.

Personnel.

No service such as this can discharge its functions efficiently, or even meet reasonable demands in the public interest, without having at its command an efficient and sufficiently numerous personnel to enable it to respond at all times without crippling any part of its force. While every officer upon the active list who is physically fit to do duty has been and is actively employed, it is a fact that, owing to the demands upon its commissioned ranks for work in other and legitimate legal directions, there are not enough officers of some grades to officer the vessels in accordance with existing law or to efficiently conduct the vessels in active commission.

The statute requires that each vessel shall have one captain, first, second, and third lieutenants, one chief engineer, and one assistant engineer. This law was enacted a great many years ago, when the motive power of vessels of the Service was sail, and when it had but few steamers. The conditions of to-day are exactly the reverse.

The law provides for the efficient officering of the large class of vessels by assignment to each of as many officers as are deemed necessary for the service upon which they are engaged. But this can only be done by leaving one class of cruisers and harbor vessels short-handed while attempting to maintain another class in efficient state. Of the grades of captain, first lieutenant, and chief engineer, there are enough officers on the active list to meet demands, but the Service has not a sufficient number of watch officers in the grades of second and third lieutenant and assistant engineers.

Besides officering the ships in accordance with law, there are required for duty in the Life-Saving Service at least sixteen officers of the line, on detail wholly apart from the Revenue-Cutter Service. This alone is a very heavy draft upon the active list, calling for about 13 per cent of the officers fit for service.

In accordance with existing law, the number of third lieutenants and cadets combined shall not exceed the number of third lieutenants (37) allowed by law. The number of cadets now on the roll is 24, and thus the grade of third lieutenant is depleted by that number. It is therefore recommended that the number of third lieutenants shall be fixed at 37, exclusive of cadets, and that the number of cadets shall in future be maintained at 20, regardless of vacancies that may occur in the grade of third lieutenant, and that hereafter all cadets shall be appointed to the Service after

examination by boards of officers of the Revenue-Cutter Service detailed by the Secretary of the Treasury for the purpose. It is further recommended that the grades of first and second assistant engineer be increased from 17 in the former and 19 in the latter to 22 of each.

Wireless telegraphy.

Preparations are being made through another branch of the public service for the erection of wireless telegraph towers at convenient intervals along the seacoast. These towers, together with those maintained by private corporations, will afford opportunity for the advantageous use of wireless telegraphy by the Revenue-Cutter Service of this Department. This Service now has a coast guard of modern vessels, and I recommend that at least ten of these be provided with approved wireless equipment for communication with the coast stations.

The probable cost of outfitting this number of vessels will be \$19,000, and I recommend that this sum be appropriated for the purpose. Provision should also be made for an operator on each vessel, at an annual salary of \$800.

The efficiency of the Revenue-Cutter Service in the removal of derelicts from the path of ocean commerce, in the relief of vessels in distress, and in cooperation with the life-saving corps, will be much increased by the installation of wireless apparatus, especially as the life-saving stations will be in direct communication by telephone with the Government wireless stations on the coast.

Destruction of derelicts.

The construction of a twin-screw oil-burning turbine revenue cutter, to be stationed at the port of New York, equipped with all devices for the destruction of derelicts at sea, is recommended.

Legislation authorizing all revenue cutters to destroy derelicts at sea, wherever found, provided they can not be safely towed to port, is recommended.

SECRET SERVICE.

The secret-service division, in addition to its usual duties, supplied expert investigators in special cases to the Department of Justice and Department of the Interior. Naturalization frauds and a conspiracy to commit irregularities under the land laws received the chief attention of these agents with excellent results. All expense involved in these special investigations was borne by the two Departments, as the regular appropriation for the secret-service division was not available for purposes other than the suppression of counterfeiting.

In the regular work of the division, there were 419 arrests for the various offenses against the counterfeiting laws. The confiscated spurious notes represented \$44,350 and the coin \$16,419. Twenty-five counterfeits, dangerous or otherwise, made their appearance during the year, and the makers and passers of eighteen of them were detected and arrested. Among these was the maker of a very dangerous spurious \$100 gold certificate, and \$25,000 in finished and unfinished notes of his handiwork constituted one of the important captures of the year. In a general way, the Service maintained its record for efficiency. Figures obtained by widespread and systematic inquiry among the banks of the country indicate that the amount of current counterfeit money averages \$1 for each \$100,000 of notes and a little less than \$3 for each \$100,000 of coin in circulation.

DISTRICT OF COLUMBIA.

The net expenditures on account of the District of Columbia for the fiscal year 1904 were \$9,392,025.10. The net revenues deposited in the Treasury on this account for the same period were \$5,454,344.47.

During the year the bonds of the funded debt retired, including the bonds called for redemption, on which interest has ceased, amounted to \$427,150, resulting in a net reduction of the annual interest charge by \$15,931.57. Since the close of the fiscal year the debt has been further reduced by the purchase of 3.65 per cent bonds to the amount of \$441,350, reducing the annual interest charge by \$16,109.27. The total bonded debt now outstanding is \$12,051,350, bearing 3.65 per cent interest.

The total issue of the 3.65 per cent bonds is limited by law to \$15,000,000, and of this sum \$14,972,800 has been issued. The balance of these bonds will probably be absorbed in the payment of judgments of the Court of Claims against the District now on appeal to the Supreme Court of the United States.

Detailed information in regard to the affairs of the District of Columbia will be found in the report to be submitted by the District Commissioners and the Treasurer of the United States, ex officio commissioner of the sinking fund of the District.

STATE BONDS AND STOCKS OWNED BY THE UNITED STATES:

The following statement shows the nonpaying State bonds and stocks, formerly in the Indian trust fund, now in the Treasury, belonging to the United States:

North Carolina	 	\$37,000.00 58,000.00 335,666.66
		

The foregoing is a statement of the principal of such stocks and bonds, and does not include interest.

The indebtedness of the State of Tennessee is subject to such action as may be taken under the joint resolution approved May 12, 1898 (30 Stat. L., pp. 742, 743), which provides for the adjustment of the claims between the United States and the State, with directions that any settlement or compromise effected by virtue of the act shall be reported to Congress for its action and approval.

A history of these State stocks and bonds is given in House Document No. 263, Fifty-fourth Congress, second session.

CENTRAL PACIFIC DEBT.

All amounts which have become due to the United States under the agreement dated February 1, 1899, for the settlement of the indebtedness of the Central Pacific Railroad Company, have been paid by the railroad company in full, including interest on all outstanding notes to August 1, 1904.

The principal of all notes held August 1, 1904, amounted to \$26,465,722.02, and first mortgage bonds to the amount of \$26,466,000 are held as security for the payment thereof.

TERRITORY OF HAWAII.

The debt of Hawaii assumed by the terms of the joint resolution of July 7, 1898, providing for annexing the Hawaiian Islands to the United States consisted of \$3,235,400 in interest-bearing bonds, and \$764,570.31 in postal savings deposits. This indebtedness has been fully paid by the United States with the exception of a few postal savings certificates amounting to \$3,087.11 not yet presented for payment.

The appropriation of \$1,000,000 provided by Congress for the liquidation in part of awards made for property destroyed in suppressing the bubonic plague in the Territory in 1899 and 1900 has been practically expended. The First National Bank at Honolulu reports that but 34 awards, amounting to \$7,018.99, are now outstanding.

AUDIT OF ACCOUNTS OF THE ISTHMIAN CANAL COMMISSION.

The attention of Congress is directed to the fact that under existing statute the Auditor for the State and other Departments is charged with the audit of the accounts of the Isthmian Canal Commission, as that commission is an independent commission within the meaning of the act of July 31, 1894 (28 Stat. L., 207). Under Executive order dated May 9, 1904, the work of the Canal Commission was placed under the supervision of the Secretary of War. The auditing of these accounts by the Auditor for the War Department would logically follow, and it is recommended that suitable legislation be enacted to this end.

EXPOSITION LOAN.

By act of Congress approved February 18, 1904, there was loaned to the Louisiana Purchase Exposition Company \$4,600,000, to be repaid in semimonthly installments beginning with June 15, 1904. Each and every installment of repayment was promptly met, and the full amount of this loan has been covered into the Treasury.

INTERPARLIAMENTARY UNION.

Under joint resolution of Congress approved April 9, 1904, \$50,000 was appropriated for the entertainment of the Interparliamentary Union for the Promotion of International Arbitration, to be expended under the direction of the Secretary of the Treasury.

The congressional committee received the nation's guests at New York City on September 7, accompanied them to St. Louis, where the sessions of the conference were held, and with my approval completed an extended itinerary through the United States.

The appropriation will prove sufficient to pay the expense of the trip and a souvenir volume, which is now in process of construction, for each guest descriptive of the journey and the objects of interest.

REVENUES.

Customs receipts for the fiscal year 1904 were \$23,000,000 less than in the previous year. While there was a further reduction during the early months of the present fiscal year, these receipts are now increasing, and there is no reason to believe the revenues for the year from this source will be less than in 1904. The falling off in 1904 over that of the previous year was due more largely to abnormal conditions in 1903 than to depression in 1904. There was collected, for instance, in duties on iron and steel and manufactures thereof \$17,000,000 during 1903, and only \$9,000,000 during the last fiscal year. This difference is accounted for by a demand for iron and steel products in excess of the capacity of American factories during the former year, which is not likely to be repeated.

Three other causes contributed to the falling off of customs revenues in 1904. First, the abolition of the war tax on tea, which caused a loss of over \$2,000,000; second, the abolition of the countervailing duty on sugar, which resulted in an estimated reduction of over \$300,000; third, the reciprocity treaty with Cuba, which caused a loss to the customs revenues of the United States estimated at \$5,375,000 on sugar and \$2,215,000 on tobacco.

It is also worthy of note that there has been a constant increase in the relative proportion of free over dutiable goods. The total imports of merchandise during October, 1904, was a little over \$92,000,000 as against a little less than \$82,000,000 in the same month of the preceding year, but practically this entire increase was in free imports. During the first ten months of the present calendar year, free imports increased in round numbers \$29,000,000, while dutiable imports decreased \$26,000,000.

Internal-revenue receipts show a slight, though immaterial, increase in 1904 over 1903.

Miscellaneous receipts collected during the current fiscal year show an increase to date of over \$3,000,000. This is more than accounted for, however, by the payments made by the Louisiana Purchase Exposition Company.

The profit heretofore derived from silver coinage has become unimportant. The seigniorage yielded over \$9,000,000 in 1902, \$6,000,000 in 1903, less than \$5,000,000 in 1904, and during the current year it is not likely to exceed \$2,000,000.

From the foregoing review it is evident that the policy of public improvements can not be enlarged upon without providing some measure for a corresponding increase in revenues. There is no opportunity apparent to this Department where greater economy in administrative departments can be practiced without injury to the public service, and economy which injures the public service is parsimony and not economy. For instance, the Government annually pays over \$200,000 in rent within the District of Columbia, which is estimated to yield fully 8 per cent gross on the value of the leased buildings and rooms. No wealthy private corporation would do its business in such cramped and inconvenient quarters. It is the opinion of this Department that a large sum could be profitably invested in public buildings within the District. When it is borne in mind that a million-dollar public building represents a million dollars collected almost entirely upon luxuries and articles of voluntary use, and expended in labor, the wisdom of erecting enough buildings to furnish the space actually needed by the administrative departments is apparent.

CURRENCY.

Our currency system, though somewhat complicated, has been proved safe and reliable under every practical test. The exchange of gold for all forms of money issued or coined by the Government, on demand, authorized by act of Congress approved March 14, 1900, removes every suggestion of public distrust or doubt. The system has one recognized weakness, however; it is nonelastic. This criticism is sometimes answered by the statement that national banks possess the power to increase circulation at will. Actual experience demonstrates the insufficiency of this prerogative to correct the recognized evil. Banks are not likely to use their last \$100,000 reserve in the purchase of Government bonds as a basis for an equal amount

of currency not available for reserve, but which increases to that extent their liabilities. On the contrary, banks sometimes retire their circulation and sell their bonds for the purpose of replenishing reserve and reducing liabilities. During the summer months of the current year, bank reserves increased and interest rates were correspondingly low, but this very plethora of money resulted in an increase of national-bank circulation. When reserve money is plenty, interest rates low, and the price of bonds normal, it is profitable for national banks to maintain circulation.

Speaking of this nonelastic feature of our currency in my last annual report, I employed this language, which I am unable to improve:

It does not respond to the varying needs of seasons, or of localities, or of changing conditions of business. This admitted defect should be remedied. But in remedying it no measure should be considered that will in anywise weaken that which is now stable, and no element should be injected that will cause distrust or doubt. Fortunately, at the present time no recipient of any of our several forms of money stops to examine its character. It is all known to be as good as gold, for the credit of the Government is pledged to maintain its parity with gold. No act should be passed authorizing the issuance of anything less safe and secure.

BANK NOTES OF SMALL DENOMINATIONS.

To meet a demand for paper money of small denominations, referred to elsewhere in this report, I recommend that national banks be permitted to issue a larger proportion of their authorized circulation in denominations of five dollars, and that authority be given to issue one-eighth of the aggregate volume of gold certificates in denominations of ten dollars.

TRUST COMPANIES.

Within the last few years trust companies have made a relatively much larger growth in all the large cities than national banks. There were 27 trust companies and 49 national banks in New York City ten years ago. The same city now has 47 trust companies and only 41 national banks. Ten years ago the aggregate capitalization of the New York City trust companies was \$26,400,000, and of national banks \$50,700,000. Now the trust companies are capitalized at \$54,900,000 and the national banks at \$110,300,000, showing about the same relative increase. But the difference in the growth of deposits is marked. Trust companies in New York City held less than \$260,000,000 ten years ago, and they now hold more than \$875,000,000, while deposits in national banks have increased from more than \$550,000,000 to a fraction less than \$1,100,000,000. Thus, trust company deposits show an aggregate growth of \$65,000,000 more than national-bank deposits, and a growth of 240 per cent as against 100 per cent in national banks.

In Chicago the number of trust companies has increased in ten years from 8 to 12, while the number of national banks has decreased from 21 to 12. The capitalization of trust companies in Chicago in the same period has increased from \$4,000,000 to \$20,000,000, or 400 per cent, as against an increase of 25 per cent in the capitalization of national banks. Deposits in these trust companies have increased from \$15,000,000 to \$230,000,000 in ten years, and in national banks from \$130,000,000 to \$280,000,000, or an aggregate increase of \$215,000,000 in trust companies as against \$150,000,000 in national banks, and an increase of 1,400 per cent in trust companies as against 115 per cent in national banks.

Other large cities exhibit similar conditions. Many trust companies hold commercial accounts and are regularly engaged in discounting paper, and they hold in the aggregate more than \$2,000,000,000 in deposits. Few, if any, of the States have any statutory requirement respecting reserve, and few of the companies are members of clearing houses.

It is manifest from the foregoing data that these institutions in our great cities, helpful as they have been to American development and commerce, unless conservatively managed, may become an element of danger to our financial system. They are already national in character, and several of them are of international influence. suggest the propriety, therefore, of a law giving trust companies of large capitalization in large cities the privilege of incorporating under Federal law, with corresponding supervision. If such right were extended, the more conservative would probably avail themselves thereof, and this would compel others to cultivate conserva-It would not be necessary to extend to them the distinctive prerogatives of national banks beyond the capacity of being designated financial agents of the Government, thereby justifying Federal jurisdiction; nor should they be brought into competition with commercial banks, but they should be required to keep an appropriate, though relatively small, reserve within their own vaults, lest in times of financial distress their large deposits with national banks increase rather than diminish the evils of financial panics. These great concerns, if properly and conservatively conducted, may prove of great and even unforeseen advantage to public as well as to private interests; and the best time to safeguard the country is when skies are clear.

PANAMA BONDS.

I have heretofore called attention to the fact that the bonds already authorized for the construction of the proposed isthmian canal will not be available as security for national-bank circulation at a less rate of taxation than 1 per cent per annum. The recommendation is repeated, therefore, that future issues of Government bonds be made available as the basis of circulation on the same terms as the consols authorized by act of March 14, 1900.

PNEUMATIC TUBES.

The installation of a comprehensive pneumatic-tube system between the several Executive Departments—and their widely scattered branches and bureaus within the District is earnestly recommended.

ASSAY OFFICE AT NEW YORK.

I repeat my recommendation of last year that the assay office at New York be sold and a new one erected in a more suitable location. The present site will bring enough to buy one more eligible and erect a more suitable building and have a respectable balance left to cover into the Treasury. The present building is inadequate in size and in every way inconvenient.

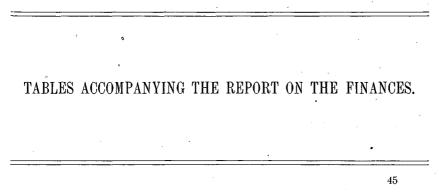

DRAWBACK.

Wise provision has been made for the exportation, with benefit of drawback, of imported merchandise and of manufactures composed in whole or in part of imported material. The Treasury Department has endeavored in every feasible way to simplify the application of this privilege and to make its operation prac-Many difficulties exist, however, annoying to exporters, which can be removed only by legislation. I therefore recommend the careful reconstruction of the drawback laws with a view to their simplification, and especially that the privilege of drawback be extended to barrels, boxes, cans, and other receptacles, though imported in completed form, when exported filled with American food products. A carefully safeguarded system of substitution similar to that now in operation in France would undoubtedly increase to some extent our Several other extensions of this privilege could, in my judgment, be wisely made. I am also of the opinion that in applying these laws greater discretion could be safely lodged with the Secretary of the Treasury, the exercise of which would overcome many unforeseen difficulties and frequent technical obstacles.

Leslie M. Shaw, Secretary of the Treasury.

To the Speaker of the House of Representatives.

LEGAL-TENDER NOTES.				_			
The act of February 25, 1862 (12 Statutes, 345), authorized the issue of \$150,000,000 United States notes, not bearing interest, payable to bearer at the Treasury of the United States, and of such denominations, not less than five dollars, as the Secretary of the Treasury might deem expedient, \$50,000,000 to be applied to the redemption of demand notes authorized by the act of July 17, 1861; these notes to be a legal tender in payment of all debts, public and private,	Indefinite	On demand	None	Par	450, 000, 000. 00	e	346, 681, 016. 00
within the United States, except duties on imports and interest on the public debt, and to be exchangeable for 6 per cent United States bonds. The act of July 11, 1862 (12 Statutes, 532), authorized an additional issue of \$150,000,000, of such denominations as the Secretary of the Treasury might deem expedient, but no such note should be for a fractional part of a dollar, and not more than \$55,000,000 of a lower denomination than five dollars; these notes to be a legal tender as before authorized. The act of March 3, 1863 (12 Statutes, 710), authorized an additional issue of \$150,000,000, of	·					•	
such denominations, not less than one dollar, as the Secretary of the Treasury might prescribe; which notes were made a legal tender as before authorized. The same act limited the time in which the							

Treasury notes might be exchanged for United States bonds to July 1, 1863. The amount of notes authorized by this act were to be in lieu of \$100,000,000 authorized by the resolution of January 17, 1863 (12 Statutes, 822). The act of May 31, 1878 (20 Statutes, 87), provides that no more of the United States legal-tender notes shall be canceled or retired, and that when any of said notes are redeemed or received into the Treasury under any law, from any source whatever, and shall belong to the United States, they shall not be retired, canceled, or destroyed, but shall be reissued and paid out again, and kept in circulation.

The act of March 14, 1900, provides that United States notes, when presented to the Treasury for redemption, shall be redeemed in gold coin of the standard fixed in said act, and that in order to secure the prompt and certain redemption of such notes it shall be the duty of the Secretary of the Treasury to set apart in the Treasury a reserve fund of one hundred and fifty million dollars in gold coin and bullion, to be used for such redemption purposes only, and that whenever and as often as any of said notes shall be redeemed from said fund it shall be the duty of the Secretary of the Treasury to use said notes so redeemed to restore and maintain the reserve fund so established—first, by exchanging the notes so redeemed for any gold coin in the general fund of the Treasury; second, by accepting deposits of gold coin at the Treasury or at any subtreasury in exchange for such notes; third, by procuring gold coin by the use of said notes in accordance with the provisions of section 3700 of the Revised Statutes of the United States. The above-mentioned act also provides that if the Secretary of the Treasury is unable to restore and maintain the gold coin in the reserve fund by the foregoing methods, and the amount of such gold coin and bullion in said fund shall at any time fall below one hundred million dollars. it shall be his duty to restore the same to the maximum sum of one hundred and fifty million dollars by borrowing money on the credit of the United States, and for the debt so incurred to issue and sell coupon or registered bonds of the United States bearing interest at the rate of not exceeding three per centum per annum, payable quarterly, the bonds to be payable at the pleasure of the United States after one year from the date of their issue, and to be payable. principal and interest, in gold coin of the present standard value, the gold coin received from the sale of said bonds to be exchanged for an equal amount of the notes redeemed and held for exchange. and the Secretary of the Treasury may, in his discretion, use said notes in exchange for gold, or to purchase or redeem any bonds of the United States, or for any other lawful purpose the public interests may require, except that they shall not be used to meet deficiencies in the current revenues.

TEMPORARY LOAN.

GOLD CERTIFICATES—Continued.					. 1		
The act of March 14, 1900, authorizes and directs the Secretary of the Treasury to receive deposits of gold coin with the Treasurer or any assistant treasurer of the United States, in sums of not less than twenty dollars, and to issue gold certificates therefor in denominations of not less than twenty dollars, and the coin so deposited shall be retained in the Treasury and held for the payment of such certificates on demand, and used for no other purpose; such certificates to be received for customs, taxes, and all public dues, and when so received may be reissued, and when held by any national banking association may be counted as a part of its lawful reserve. The act also provides that whenever and so long as the gold coin held in the reserve fund in the Treasury for the redemption of United States notes and Treasury notes shall fall and remain below one hundred million dollars, the authority to issue certificates as herein provided shall be suspended; and also, that whenever and so long as the aggregate amount of United States notes and silver certificates in the general fund of the Treasury shall exceed sixty million dollars, the secretary of the Treasury may, in his discretion, suspend the issue of the certificates herein provided for; and further, that the Secretary of the Treasury may, in his discretion, issue such certificates in denominations of ten thousand dollars, payable to order.							
SILVER CERTIFICATES.							
The act of February 28, 1878 (20 Statutes, 26, sec. 3), provides that any holder of the coin authorized by this act may deposit the same with the Treasurer or any assistant treasurer of the United States in sums not less than ten dollars and receive therefor certificates of not less than ten dollars each, corresponding with the denominations of the United States notes. The coin deposited for or representing the certificates shall be retained in the Treasury for the payment of the same on demand. Said certificates shall be receivable for customs, taxes, and all public dues, and, when so received, may be reissued. The act of August 4, 1886 (24 Statutes, 227), authorizes the issue of silver certificates in denominations of one, two, and five dollars; said certificates to be receivable, redeemable, and payable in like manner and for like purposes as is provided for by the act of February 28, 1878.	Indefinite	On demand	None	Par	No limit		\$464 706,000.00

The act of March 14, 1900, provides that it shall be the duty of the Secretary of the Treasury, as fast as silver dollars are coined under the provisions of the acts of July 14, 1890, and June 13, 1898, from bullion purchased under the act of July 14, 1890, to retire and cancel an equal amount of Treasury notes whenever received into the Treasury, and upon the cancellation of Treasury notes, silver certificates shall be issued against the silver dollars so coined. The act also provides that silver certificates shall be issued only of denominations of ten dollars and under, except that not exceeding in the aggregate ten per centum of the total volume of said certificates, in the discretion of the Secretary of the Treasury, may be issued in denominations of twenty dollars, fifty dollars, and one hundred dollars; and silver certificates of higher denomination than ten dollars, except as therein provided, shall, whenever received at the Treasury or redeemed, be retired and canceled, and certificates of denominations of ten dollars or less shall be substituted therefor, and after such substitution, in whole or in part, a like volume of United States notes of less denomination than ten dollars shall from time to time be retired and canceled, and notes of denominations of ten dollars and upward shall be reissued in substitution therefor, with like qualities and restrictions as those retired and canceled. TREASURY NOTES OF 1890—Continued.							
The act of November 1, 1893 (28 Stat., 4), repeals so much of the act of July 14, 1890, as directs the Secretary of the Treasury to purchase from time to time silver bullion to the aggregate amount of four million five hundred thousand ounces, or so much thereof as may be offered in each month, at the market price thereof, and to issue in payment for such purchases Treasury notes of the United States.							
The act of June 13, 1898 (30 Stat., 467), directs that all of the silver bullion in the Treasury purchased in accordance with the provisions of the act of July 14, 1890, shall be coined into standard silver dollars as rapidly as the public interests may require, to an amount of not less than one and one-half millions of dollars in each month, and that said dollars, when so coined, shall be used and applied in the manner and for the purposes named in said act. The act of March 14, 1990, provides that United States notes, and Treasury notes issued under the act of July 14, 1890, when presented to the Treasury for redemption, shall be redeemed in gold coin of the standard fixed by said act, and requires that the Secretary of the Treasury shall set apart in the Treasury a reserve fund of one hundred and fifty million dollars to be used for such redemption purposes only. It also provides that it shall be the duty of the Secretary of the Treasury, as fast as silver dollars are coined under the provisions of the acts of July 14, 1890, and June 13, 1898, from bullion purchased under the act of July 14, 1890, to retire and cancel an equal amount of Treasury notes whenever received into the Treasury, and upon such cancellation to issue silver certificates against							
the silver dollars so coined. NATIONAL-BANK NOTES (REDEMPTION ACCOUNT).							
The act of July 14, 1890 (26 Stat., 289), provides that balances standing with the Treasurer of the United States to the respective credits of national banks for deposits made to redeem the circulating notes of such banks, and all deposits thereafter received for like purpose, shall be covered into the Treasury as a miscellaneous receipt, and the Treasurer of the United States shall redeem from the general cash in the Treasury the circulating notes of said banks which may come into his possession subject to redemption, * * * and the balance remaining of the deposits so covered shall, at the close of each month, be reported on the monthly public debt statement cs			••••				\$40,053,308.50

aIn the amount here stated as the outstanding principal of the public debt are included the certificates of deposit outstanding on the 30th of June, issued under act of June 8, 1872, for which a like amount in United States notes was on special deposit in the Treasury for their redemption and added to the cash balance in the Treasury. These certificates, as a matter of accounts, are treated as a part of the public debt, but being offset by notes held on deposit for their redemption, should properly be deducted from the principal of the public debt in making comparison with former years.

b Exclusive of gold, silver, currency certificates, and Treasury notes of 1890 held in the Treasurer's cash, and including bonds issued to the several Pacific railroads not yet redeemed.

c Exclusive of gold and silver certificates and Treasury notes of 1890 held in the Treasurer's cash.

Note 1.—Annual interest charge computed on amount of outstanding principal at close of fiscal year and is exclusive of interest charge on Pacific Railway bonds.

Note 2.—The figures for July 1, 1879, were made up assuming pending funding operations to have been completed.

Note 3.—The temporary loan per act of July 11, 1862, is included in the 4 per cents from 1862 to 1868, inclusive, with the exception of the amount outstanding August 31, 1865, this being the date at which the public debt reached its highest point. This loan bore interest from 4 per cent to 6 per cent, and was redeemable on ten days' notice after thirty days, but being constantly changing, it has been considered more equitable to include the whole amount outstanding as bearing 4 per cent interest on an average for the year.

Table D.—Statement of the Issue and Redemption of Loans and Treasury Notes (by warrants) for the Fiscal Year ended June 30, 1904.

a Based on warrants issued.

b The cost of collecting the internal revenue embraces the following items: Salaries and expenses of collectors, including pay of deputy collectors, clerks, etc., and including expenses incident to enforcing the provisions of law taxing oleomargarine; salaries and expenses of revenue agents, surveyors of distilleries, gaugers, storekeepers, and miscellaneous expenses; paper for internal-revenue stamps, and expenses of detecting and punishing violations of internal-revenue laws.

c The expenses of collecting the revenue from customs includes all sums drawn from the appropriation made by Congress for that purpose. The money is expended for salaries, rents, labor in weighing, gauging, and measuring imported merchandise, revenue boatmen, repairs, and other expenses incident to rented buildings, stationery, and the traveling expenses of special agents, but does not include expenditures for revenue cutters, fuel, lights, water, furniture, janitors, etc., for buildings owned by the Government, nor expenditures for erecting new buildings, all of which are paid for from specific appropriations made for those purposes.

The expenses of collecting internal and customs revenue do not include the expenditures for salaries, etc., incident to auditing these accounts in the Departments at Washington.

Table I.—Statement showing the Revenues and Expenditures of the Government by Months; the Legal-Tender Notes, Net Gold, and Available Cash in the Treasury at the end of each Month; the Monthly Redemption of Legal-Tender Notes in Gold, and the Imports and Exports of Gold, from January, 1879, to June, 1904, inclusive.

Month.	Revenues, exclusive of postal.	Expendi- tures, exclu- sive of postal, principal of debt, and premium.	Surplus revenues.	Legal-tender notes in Treasury.	Net gold in Treasury.	Available cash balance, including net gold.	Legal-tender notes redeemed in gold.	Imports of gold.	Exports of gold.

Note 1.—Specie payments were suspended from January 1, 1862, to January 1, 1879. During the greater part of that period gold and silver coins were not in circulation except on the Pacific coast, where, it is estimated, the specie circulation was generally about \$25,000,000. This estimated amount is the only coin included in the above statement from 1862 to 1875, inclusive.

NOTE 2.—In 1876 subsidiary silver again came into use, and is included in this statement, beginning

with that year.

Note 3.—The coinage of standard silver dollars began in 1878, under the act of February 28, 1878.

Note 4.—Specie payments were resumed January 1, 1879, and all gold and silver coins, as well as gold and silver bullion in the Treasury, are included in this statement from and after that date.

Note 5.—For redemption of outstanding certificates an exact equivalent in amount of the appropriate kinds of money is held in the Treasury, and is not included in the account of money held as assets of the Government.

assets of the Government.

Note 6.—This table represents the circulation of the United States as shown by the revised statements of the Treasury Department for June 30 of each of the years specified.

Note 7.—The details of the foregoing table, showing the amount of each kind of money in circulation each year since 1860, are omitted, but they may be had upon application to the Secretary of the Treasury, Division of Loans and Currency, where a circular covering information on the subject has been prepared for distribution.

FI 1904----7

Table N.—Statement of United States Bonds and other Obligations Received and Issued by the Office of the Secretary of the Treasury from November 1, 1903, to October 31, 1904.

Title of loan.	Received for exchange and transfer.	Received for redemp- tion.	Issued.	Total trans- actions.
5/20s of 1862 (act Feb. 25, 1862) 5/20s of 1864 (act June 30, 1864) Consols of 1867 (act Mar. 3, 1865) Funded loan of 1881, 5 per cent (acts July 14, 1870, and Jan. 20, 1871) Funded loan of 1891, 4½ per cent (acts July 14, 1870, and Jan. 20, 1871) Gold certificates, series 1870 and 1871 (act Mar. 3, 1865) Gold certificates, series 1875 (act Mar. 3, 1865) Gold certificates, series 1888 (act July 12, 1882) Gold certificates, series 1890 (act Mar. 14, 1900) Consols of 1930, 2 per cent (act Mar. 14, 1900) Loan of 1908–18, 3 per cent (act June 13, 1898) Funded loan of 1907, 4 per cent (acts July 14, 1870 and Jan. 20, 1871) Loan of 1925, 4 per cent (act Jan. 14, 1875) Loan of 1904, 5 per cent (act Jan. 14, 1875)	\$91, 881, 050 8, 790, 680 20, 270, 150	\$106, 100 900 100 200 10, 750 16, 600 1, 525, 000 55, 990, 000 973, 600 9, 575, 200 75, 114, 350	\$81, 800, 000 97, 858, 850 8, 790, 680 20, 272, 800 9, 701, 250 105, 200 218, 528, 780	\$106, 100 900 100 200 10, 750 16, 600 1, 525, 000 137, 790, 000 189, 739, 900 18, 554, 960 47, 488, 550 9, 785, 600 424, 391, 460

Table O.—Statement showing the Aggregate Receipts, Expenses, Average Number of Persons Employed, and Cost to Collect Internal Revenue in the Several Collection Districts during the Fiscal Year ended June 30, 1904.

REPORTS OF HEADS OF BUREAUS.

REPORT OF THE TREASURER.

TREASURY DEPARTMENT,
OFFICE OF THE TREASURER,
Washington, D. C., November 1, 1904.

Sir: The transactions of the Treasury during the past fiscal year and its condition June 30, 1904, are stated in detail in the following tables from revised figures:

REVENUES AND EXPENDITURES FOR FISCAL YEARS 1903 AND 1904.

Account.	1903.	1904.	Increase.	Decrease.

TotalNet	506, 099, 007. 04	582, 402, 321. 31	107, 607, 964. 15 76, 303, 314. 27	31, 304, 649. 88
Surplus (+); deficit (-)	+54, 297, 667. 36	-41, 770, 571, 91		

On the side of the revenues, in 1904 as compared with 1903, customs show a decrease of \$23,205,017, and the receipts from public lands are less by \$1,472,831.50, while an increase appears in internal revenue of \$2,093,995.25 and in miscellaneous items of \$2,818,928.25. The net result is a decrease in revenues for the year of \$19,764,925. In expenditures in the last fiscal year as compared with its predecessor, there

was an increase in the charges for Commerce and Labor of \$11,423,446.12; for the Treasury of \$60,788,580.53; for diplomatic service of \$3,895,824.82; for the judiciary of \$7,028,425.02; for the Navy of \$20,338,067.37, and for pensions of \$4,133,620.29. A decrease took place in the outlay for customs of \$7,162,144.87; for internal revenue of \$5,274,113.89; for interior civil of \$8,877,604.55; for the War Department of \$3,584,109.57; for Indians of \$2,496,817.99, and for interest of \$3,909,859.01. Thus an apparent net increase in expenditures is recorded of \$76,303,314.27. Against the surplus of \$54,297,667.36, June 30, 1903, a deficit of \$41,770,571.91 is presented for June 30, 1904.

In the expenditures for the Treasury for 1904 are included \$50,000,000 on account of the Panama Canal and \$4,600,000 loaned to the Louisiana Purchase Exposition Company; the latter sum has since been reimbursed. If these extraordinary items are deducted, the net increase in expenditures during the year will be brought down to \$21,703,314.22, and the recorded deficit will be changed to a surplus of \$12,829,428.09.

The expenditures, without including the payments for the Panama Canal and the loan to the exposition company, exceeded the revenues in these six months:

Month and year.	Amount of excess.	Month and year.	Amount of excess.
July October November 1904. January	2, 785, 198. 22	1904. April	\$3, 480, 843. 15 5, 130, 412. 71 30, 854, 510. 78

The revenues were greater than the expenditures in the other six months, to wit:

Month and year.	Amount of excess.	Month and year.	Amount of excess.
1903. August. September December 1904. February	\$6, 828, 132. 75 6, 538, 855. 00 10, 491, 787. 37 5, 240, 634. 28	1904. March June. Total	\$4, 057, 101. 16 10, 527, 428. 31 43, 683, 938. 87

TRANSACTIONS IN THE PUBLIC DEBT.

The details of business connected with the public debt, stated below, exhibit an increase in receipts in 1904 over 1903 of \$48,663,518, and an increase in disbursements of \$22,375,720.94. Every item of the receipts in the last fiscal year exceeds the corresponding one for the preceding twelve months, except United States bonds, in which the movement was \$51,435,050 less, and the premium on consols of 1930, in which a falling off appears of \$1,028,712. In disbursements an increase will be noted in every item, except that a falling off is presented in United States bonds of \$49,421,610, in fractional currency of \$92.25; in Treasury notes of 1890 of \$4,492,000, and in premium on bonds purchased and exchanged of \$9,649,541.81.

ORDINARY AND DEBT TRANSACTIONS COMBINED.

The consolidation of the transactions separately set forth in the preceding tables presents an increase in receipts in 1904 over 1903 of \$28,898,593, and in disbursements of \$98,679,035.21. A net decrease of disbursements results of \$69,780,442.21.

REVENUES AND EXPENDITURES, FIRST QUARTER OF 1904 AND 1905.

The figures for the first three months of 1905 are preliminary and will be slightly modified by later statements. As they stand, they show, as compared with the same period a year previous, a falling off in receipts of \$10,530,041.34, divided between customs at \$7,664,070.41, internal revenue at \$1,649,102.21, and public lands at \$1,216,868.72, while miscellaneous items show an increase of \$4,013,668.19. Thus

the receipts exhibit in comparison a net loss of \$6,516,373.15. The expenditures are greater in the first quarter of 1905 than for that of 1904, except in pensions, which are \$795,790.22 less, and the result is a net increase of \$18,073,539.27. Upon the balance an excess of expenditures is created of \$17,856,615. Such excess occurred in July for \$17,407,727.97, and in August for \$6,343,212.28, while in September the receipts were greater than the expenditures by \$5,894,325.25.

The comparison follows:

a Receipts over expenditures.

THE RESERVE AND TRUST FUNDS.

United States notes to the amount of \$11,081,068 were redeemed in gold during the past fiscal year, exceeding like transactions in 1903 by \$3,926,350. Treasury notes were so redeemed for \$473,976, which is \$638,551 less than for the preceding year.

At the end of the fiscal year, from the revised figures, the respective

funds were:

RESERVE FUND.

Gold coin and bullion in division of redemption \$150,000,000

TRUST FUNDS.

[Held for the redemption of the notes and certificates for which they are respectively pledged.]

DIVISION OF REDEMPTION.		DIVISION OF ISSUE.

GENERAL FUND-CASH IN THE VAULTS.

By reason of the change in the ratio of the revenues and expenditures, the cash in the ten offices of the Treasury and the mint and assay offices was less at the close of the last fiscal year than at its beginning by \$32,500,297.98. The falling off in gold coin and bullion for the period exceeds this sum and amounts to \$35,092,667.83, while gold certificates were reduced by \$2,885,840. Other items exhibit no significant modifications, except that national-bank notes are more by \$2,533,317.65, and subsidiary silver by \$2,225,804.97.

The deposits in national banks to the credit of the Treasurer attained a maximum at \$159,111,708.15 December 19, 1903, and became \$102,-290,863.64 at the end of the fiscal year, which was a reduction of \$37,936,271.61 as compared with that of twelve months before, while to those to the credit of disbursing officers additions of \$819,914.58 were

made.

In the treasury of the Philippine Islands, under act of Congress, \$3,516,709.89 was placed during the year to the credit of the Treasurer of the United States, while the moneys there to the credit of United

States disbursing officers were reduced by \$1,492,566.59.

The outstanding liabilities in the two years differ in an increase in the 5 per cent fund of the national banks of \$1,675,089.56; in checks and warrants of \$2,880,267.85, a decrease in disbursing officers' balances of \$5,914,731.74, and in Post-Office Department account of \$490,842.41, with an increase in miscellaneous items of \$904,284.41. These changes make the total outstanding liabilities at the close of the fiscal year \$945,932.33 less than at its beginning.

In the first quarter of 1905, the cash in the vaults of the Treasury underwent a reduction of \$11,555,376.34. Gold coin and bullion became less by \$6,089,116.47, while gold certificates were \$13,004,360 more. Reductions also took place of \$9,573,001 in silver dollars; of \$3,155,178 in silver certificates; of \$3,165,333 in United States notes; of \$2,155,337.88, in national-bank notes, and smaller sums in other

items

In this quarter the deposits in national banks to the credit of the Treasurer of the United States were increased by items in transit by \$1,965,363.32, and those to the credit of disbursing officers were reduced by \$388,111.55

An increase in outstanding liabilities in the quarter is shown of \$10,317,143.07. This is due to an addition of \$3,512,404.18 in checks and warrants; of \$17,377,366.40 in balances of disbursing officers. During the same period a decrease occurred in the redemption fund of national banks of \$1,598,991.57; in the post-office account of \$2,448,214.17, and in miscellaneous items of \$6,525,421.77.

The state of the general fund at the close of 1903, of 1904, and of

the first quarter of 1905, is here recorded:

AVAILABLE CASH BALANCE.

The transactions reported left the available cash balance of \$172,051,568.02 June 30, 1904, which is \$66,634,546.21 less than on June 30, 1903. It is also less than it was on the same date in any year since 1900. Of this diminished balance at the close of the fiscal year 1904, national banks held \$102,290,863.64 in general account. Gold in coin, bullion, and certificates in the general fund was \$66,183,722.60. The like processes prevailed in the first quarter of 1905. The balance fell off in those three months \$20,637,405.20. The national bank depositaries held of the total, \$104,256,226.96, while gold, in coin, bullion, and certificates, rose to \$73,098,966.13.

For the years since 1890, and the first quarter of 1905, the available cash balance is set forth in the subjoined table:

AVAILABLE CASH BALANCE (INCLUDING THE RESERVE FUND), FROM THE REVISED STATEMENTS, ON THE DATES NAMED.

EXCHANGE INTO CONSOLS OF 1930 DURING 1904.

Transactions under the act of March 14, 1900, and the circular of March 26, 1903, and that of September 23, 1903, were carried on up to January 9, 1904, by the exchange of the funded loan of 1907, bearing 4 per cent interest, and the loan of 1908–1918, bearing 3 per cent interest, into the consols of 1930. They are here set forth by amounts in the several months of the fiscal year. Of the funded loan of 1907, coupon bonds were \$2,150,650 and registered bonds \$14,644,450; and of the loan of 1908–1918, coupon bonds were \$2,183,700 and registered \$3,788,000.

BONDS RECEIVED IN EXCHANGE FOR 2 PER CENT CONSOLS OF 1930.

BONDS REDEEMED BEFORE MATURITY.

The loan of 1904 matured February 1 of that year. The Secretary of the Treasury offered, September 23, to anticipate payment of these bonds with interest to maturity, and \$14,712,450 with interest of \$300,042.59 were so paid, while since their maturity under notice of November 2, 1903, payments were made to the amount of \$3,894,750, with \$38,319.05 for interest. At the close of the fiscal year of these bonds the sum of \$777,850 remained, and stood in the account of the "debt on which interest has ceased since maturity."

THE PUBLIC DEBT 1903 AND 1904 AND FIRST QUARTER OF 1905.

During the fiscal year 1904 an addition of \$22,766,800 took place in the consols of 1930, while there were reductions of \$5,971,700 in the loan of 1908–1918 and of \$16,792,500 funded loan of 1907. By the maturity of the loan of 1904 such bonds for \$19,385,050 disappeared, save as \$777,850 were transferred to the matured loans. The fund held for redemption of national-bank notes fell off \$4,526,766. Gold certificates increased \$85,180,700 and silver certificates \$5,770,000, for which the Treasury holds the respective metals for the full amounts. By change into certificates against dollars coined from the bullion of 1900, Treasury notes for \$6,265,000 were canceled. By the additions to the certificates beyond reductions in other items an apparent increase in the public debt of \$61,538,803.25 is recorded.

In the first quarter of 1905 there was a reduction of \$308,700 in the matured loans, of \$2,153,407 in national-bank notes, and in Treasury notes of \$1,012,000; to gold certificates an addition of \$34,201,400 and to silver certificates of \$3,846,000. The apparent increase of \$34,573,483 in the total debt is thus more than covered by the certificates for which gold and silver coins are held.

In the annexed table the figures for two years and a quarter are detailed:

Public Debt 1903 and 1904, and First Quarter of 1905.

aIncludes \$777,850, loan of 1904, matured February 1, 1904.

PAYMENTS ON ACCOUNT OF THE PANAMA CANAL.

Under the law and treaty, warrants for \$10,000,000 were issued to the Government of Panama for the Canal Zone in two installments: One April 29, 1904, for \$1,000,000, and another May 19, for \$9,000,000. The first was cashed May 3 and the second May 20.

To the Panama Canal Company a warrant for \$40,000,000 was issued

May 9, 1904, and was paid the same day.

These warrants were severally drawn on the New York office and were paid there.

LOAN TO THE LOUISIANA PURCHASE EXPOSITION COMPANY.

By the urgent deficiency act passed at the last session of Congress provision was made for the advance of \$4,600,000 to the Louisiana Purchase Exposition Company, at fixed dates, to be reimbursed in later months. Accordingly warrants were issued to that company on February 24 for \$1,000,000, on February 26 for \$1,000,000, on March 8 for \$1,000,000, on April 9 for \$1,000,000, and on May 7 for \$600,000, an aggregate of \$4,600,000.

This full sum, as it has become due under the terms of the act, has been reimbursed, leaving at the date of this report the final payment of \$191,850.81 yet to be provided. The installments have been:

CALLS ON BANKS FOR PART OF DEPOSITS.

The Secretary of the Treasury issued during the year three calls on the depositary banks for the return of a part of the public moneys deposited with them. They responded with promptness, paying back the sums required of them. The amounts of deposits thus recalled were as stated below at the dates named:

Under call of March 4, 1904, payable March 25, 1904. Under call of April 30, 1904, payable May 10, 1904. Under call of May 14, 1904, payable May 25, 1904.	11, 967, 981, 77
Total	49, 372, 467, 64

BONDS HELD AS SECURITY FOR NATIONAL BANKS.

The additions to their circulation by national banks and the withdrawal of a part of the deposits of public moneys caused many changes during the year in the bonds pledged by them as security. Those securing circulation were increased by \$40,947,920, and from July 1 to October 1, by a further sum of \$8,684,800.

The bonds held against deposits, on the other hand, fell off, in New York and Washington, \$32,868,470 during the last fiscal year. In the first quarter of 1905 a decrease of \$4,591,700 took place.

In the securities given by national banks for both purposes, consols of 1930 stand for \$491,420,100, July 1, 1904. This is 91.7 per cent. of such securities and 90.5 per cent of the entire volume of the consols.

a Various.

NATIONAL BANKS BY GROUPS.

The expansion of national banks during the past three years is a notable feature in our financial system. If they are grouped by the amounts of bonds pledged by them to secure circulation, interesting comparisons result. The increase in the number of banks during the year was 395, and of these 262 deposited for circulation bonds for less than \$100,000 each, and 381 less than \$500,000 each.

The table subjoined presents the details:

NATIONAL BANKS BY GROUPS, ACCORDING TO DEPOSITS OF GOVERNMENT BONDS TO SECURE CIRCULATION.

	1902.	1903.	1904.
Number having on deposit— \$10,000,000 or more. \$5,000,000 or more, but less than \$10,000,000. \$1,000,000 or more, but less than \$5,000,000. \$500,000 or more, but less than \$5,000,000. \$100,000 or more, but less than \$500,000. \$50,000 or more, but less than \$500,000. \$25,000 or more, but less than \$50,000. \$25,000 or more, but less than \$50,000. \$70 or more, but less than \$50,000. \$10,000 or more, but less than \$50,000.	2 25 47 853 1,193 932	5 27 56 1,016 1,234 971 1,705	1 3 33 65 1,135 1,309 1,043 1,820 5,409

BONDS FOR DEPOSITS BY GROUPS.

The number of depositaries was greater in the fiscal year 1904 than in 1903 by 129. Of the additions 5 were in the class styled regular, receiving collections of internal revenue day by day, and 124 in that called special, to which transfers are made in gross sums. The bonds deposited by these banks can be grouped by amounts, and the result will appear in the following table:

BONDS FOR DEPOSITS IN NATIONAL BANKS, BY GROUPS.

	Depositaries.

STATE AND MUNICIPAL BONDS FOR PUBLIC DEPOSITS.

The State and municipal bonds pledged for public deposits were at their maximum November 29, 1902, at \$20,505,500. By June 30, 1903, a reduction of \$3,214 600 was effected, and by June 30, 1904, a further reduction took place of \$13,615,400. The decrease continued at a less rapid rate, and from July 1 to October 1 of the current year it was \$704,000, bringing the total to \$2,971,500.

The descriptions of such bonds held at the different dates will be

seen here:

DUTY ON BANK NOTES PAID.

The semiannual duty on the circulating notes of the national banks is paid to the Treasurer of the United States. Each bank presents a statement of the average amount of its notes in circulation, and upon this volume the tax is paid. By States and groups of States, this duty for the past fiscal year is set forth in Table 66, page 261. The total duty paid was, in 1903, \$1,708,819.92, and in 1904, \$1,928,837.49, an increase of \$220,017.57.

GENERAL STOCK OF MONEY IN THE UNITED STATES.

The total stock of money in the country at the close of the past fiscal year was \$118,793,148 greater than on the first of the preceding July. The additions were \$78,974,870 in gold coin and bullion; \$5,491,379 in silver dollars; \$5,027,454 in subsidiary silver, and \$35,564,445 in national bank notes, while a reduction took place of \$6,265,000 in Treasury notes. The gold and silver certificates are not included in the stock of money, as they are represented by the coins for which they stand.

By October 1 a further increase was recorded in the stock of money of \$31,829,599, and that in gold coin and bullion was \$23,799,570, and in bank notes \$6,844.313, while there was a reduction in silver dollars

of \$1,040,577 and in Treasury notes of \$1,012,000.

The details are recited below:

RATIO OF GOLD TO THE TOTAL STOCK OF MONEY.

The constant increase in the share of gold to the total stock of money in the country has attracted much attention within recent months. Within five years to July 1, the gold has advanced by \$293,271,954, and in the last fiscal year by \$78,974,870. The share of gold which

July 1, 1900, was 44.21 per cent became 47.35 on the same date in 1904, and by October 1, in the latter year, had reached 47.66 per cent. The steps in this growth may be studied in the subjoined table:

RATIO OF GOLD TO TOTAL STOCK OF MONEY FROM JULY 1, 1897.

[From the revised statements of the Treasury Department.]

Date.	Total stock of money.	Gold.	Per cent.
July 1, 1897 July 1, 1898 July 1, 1899 July 1, 1900 July 1, 1901 July 1, 1902 July 1, 1902 July 1, 1903 July 1, 1904 October 1, 1904	2, 073, 574, 442 2, 190, 093, 905 2, 339, 700, 673 2, 483, 147, 292 2, 563, 266, 658 2, 684, 710, 987 2, 803, 504, 135	\$696, 239, 016 861, 514, 780 963, 498, 384 1, 634, 384, 444 1, 124, 689, 062 1, 192, 594, 589 1, 248, 681, 528 1, 327, 656, 398 1, 351, 455, 968	36. 52 41. 54 43. 99 44. 21 45. 29 46. 52 46. 51 47. 35 47. 66

GOLD IN THE TREASURY.

A goodly part of the increment in the yellow metal has settled into the Treasury vaults. Between July 1, 1900, and the beginning of the current fiscal year, the Treasury has gained in this form \$258,260,849.92, and a further gain followed of \$27,772,283.53 from July 1 to October 1. The treasure in the official vaults on the last-named date amounted to \$709,611,105.13. By October 31 the Treasury held in gold \$721,253,987.88. The record from 1897 by years follows:

GOLD IN THE TREASURY.

• Date.	Reserve.	For certificates in circulation.	General fund (belonging to Treasury).	Total.

ACTUAL GOLD COIN IN USE AS CURRENCY.

When specie payments were resumed January 1, 1879, the amount of gold coin in circulation was \$96,262,850. On the same date in 1889 it had reached \$379,834,512, and ten years later, in 1899, the sum was \$667,796,579. Our people take more kindly to certificates than to coin, and the increase of the former has been in recent years much the

more rapid.

Gold certificates, which for the first time at the end of any month attained the sum of \$111,980,380 on January 31, 1885, after February, 1886, stood below a hundred million dollars, with the exception of two months only until May, 1888. They ran as high as \$163,178,959 at the close of January, 1892, but fell below a hundred million dollars again in June, 1893. They became less quite steadily up to July, 1899, when they stood at \$32,593,789. An advance began in August of that year, which may be traced in Table No. 23, page 177, until the high figures of \$465,655,099 were reached July 1, 1904, and again a higher sum at \$490,193,759 October 31, 1904.

July 1, 1904, the actual gold coin in use was \$645,817,576, and October 1, 1904, it was \$641,844,863. Of this sum the banks, national

and other, held about \$300,000,000.

It is fair to remark that the figures for the gold in our stock of money and in circulation are pronounced by critics to be probably \$60,000,000 above the volume that can be definitely shown to be in existence. With this doubt in mind the growth of the use of the yellow metal as coin is presented in this table:

GOLD COIN IN CIRCULATION	GOLD	COIN	IN	CIRCULATION
--------------------------	------	------	----	-------------

Date.	Amount.	Date.	Amount.
January 1— 1879 1880 1881 1882 1883 1884 1885 1886 1887 1888 1889 1890 1891	178, 749, 927 279, 458, 994 349, 209, 300 353, 166, 194 347, 093, 446 341, 142, 648 359, 629, 546 872, 290, 259 399, 361, 143 379, 834, 512 375, 705, 922 411, 080, 597	1899 1900 1901 1902	508, 602, 811, 485, 501, 376, 484, 728, 547, 517, 743, 229, 547, 568, 360, 667, 796, 579, 617, 977, 830, 629, 680, 632, 627, 970, 533, 645, 817, 576

MONEY IN CIRCULATION.

No element in our financial system deserves more thoughtful consideration than the immense and continuous growth in the money in circulation in this country. Since July 1, 1900, this growth has been \$463,991,862, or a yearly average of over \$115,900,000. During the past fiscal year the addition to the circulation reached the vast sum of \$151,450,691. The share of the increment within four years, in gold coin and certificates, was nearly \$300,000,000 (\$299,933,184); and in the last fiscal year \$116,953,377. National banks furnished in four years an increment of \$132,912,724, of which \$33,031,127 was in the last fiscal year. In silver certificates, standard dollars, and subsidiary

silver, the increase in four years was \$77,464,959, of which \$8,129,920 was in the last fiscal year. Treasury notes under process of law were reduced \$6,174,591 during the year. The variations in United States notes are slight.

During the year the circulation in the ratio to each person advanced to \$30.77 and the share of gold to the total became 44.12 per cent,

marking again the growth in the yellow metal.

For the first quarter of the fiscal year 1905, the increase in the circulation kept on, and amounted to \$43,006,629. Of this sum, gold coin and certificates supplied \$16,884,327; national bank notes \$8,999,651, and silver in its three forms, \$14,999,276.

The circulation for each person reached the vimum at \$31.16,

while the share of gold became 44.03 per cent.

The details are worthy of perusal:

Note.—Currency certificates, act of June 8, 1872, are included in the amount of United States notes and Treasury notes during the years when they were in use.

CIRCULATION AND POPULATION.

The relation of the circulating medium to the population attracts attention, and the notable excess in the growth of the former over the latter invites special consideration. This phenomenon is to be studied in its connection with many other factors, such as extension of habitation into remote districts, multiplication of lines of traffic, as well as the development of the aggregate of industry and activity. The problem is only suggested here. The notable fact is that with an addition of 1.7 per cent to the population in the year, the increase in the circulation has been 4.5 per cent.

WITHDRAWAL OF TREASURY NOTES.

The withdrawal of Treasury notes as they have reached the Treasury in regular course has been prosecuted during the past year, as before, under the act of March 14, 1900. Their total volume was reduced by \$6,265,000 from July 1, 1903, to July 1, 1904, and again by \$1,012,000 to October 1. The reduction naturally diminishes year by year, but the ratio of such decrease to the notes outstanding also steadily grows less. The percentage of the reduction to the amount outstanding March 14, 1900, to July 1, 1901, was 44.93; and from the beginning of July preceding was, in 1902, 37.21; in 1903, 35.85; in 1904, 32.55, and in July, August, and September, 1904, 7.78.

The table shows the share of silver certificates and of subsidiary coin substituted for Treasury notes:

	Mar. 14, 1900.	July 1, 1901.	July 1, 1902.	July 1, 1903.	July 1, 1904.	Oct. 1, 1904.
Treasury notes	\$86, 770, 000	\$47, 783, 000	\$30,000,000	\$19, 243, 000	\$12,978,000	\$11, 966, 000
	408, 447, 504	435, 014, 000	453,997,000	464, 766, 000	470,476,000	474, 322, 000
Total	495, 217, 504	482, 797, 000	483, 997, 000	483, 949, 000	483, 454, 000	486, 288, 000
Subsidiary coinage a		7, 266, 972	11, 191, 387	12, 833, 542	16, 526, 918	18, 579, 496

aBullion purchased under the act of July 14, 1890, used in the coinage of subsidiary silver (act Mar. 14, 1900, sec. 8), from Mar., 1900, to Oct. 1, 1904).

CLASSIFICATION OF CURRENCY OF \$20 AND BELOW AND ABOVE \$20.

In 1900 the paper currency of \$50 and over increased by 23.20 per cent, while that of \$20 and less increased 10.96 per cent. In all paper the increment was 13.70 per cent. In 1901 the larger bills took on additions of 2.86 per cent, and the smaller 7.11 per cent, while in all paper these were 6.08 per cent. In 1902 the total volume grew by 5.08 per cent, the larger bills by only 1.34 per cent, and the smaller bills by 6.23 per cent. In 1903 the advance was in the total 6.38 per cent, the larger bills by 2.93 per cent, and the smaller bills by 7.39 per cent. In 1904 the growth was in total value 8.84 per cent, in small bills 3.17 per cent, while owing to a vast issue of gold certificates the large denominations grew 29.01 per cent.

These calculations can be verified by the details subjoined:

CLASSIFICATION OF CURRENCY OF \$20 AND BELOW AND ABOVE \$20.

STEADY DEMAND FOR SMALL BILLS.

The gold certificates received an increment of \$85,512,700 during the past fiscal year, and they were all of \$20 or of much larger denominations, yet the ratio of bills of \$10 and less to the total currency remained as high as 54.58 per cent July 1 and 53.80 per cent October 1. The relation of all denominations of paper to each other may best be studied from the monthly statement for September 30 of the current year, where the amounts are more emphatic even than the ratio.

PAPER CURRENCY BY DENOMINATIONS OUTSTANDING SEPTEMBER 30, 1904.

ACTION OF THE DEPARTMENT.

In the current fiscal year the demand for small bills, in spite of all previous additions, has been unceasing in every month, becoming larger in the autumn, as in other years. For shipments to Chicago and New Orleans, to be paid in much the greater part in bills of \$20 and below; the deposits offered in New York are almost always in large gold certificates. Thus the process in the movement of the crops is the exchange of gold for silver dollars, silver certificates, and United States \$10 notes.

The Department is able to keep up this exchange by vigilance and forethought in gathering such small currency for the anticipated needs of the farmers, merchants and banks. On August 22 of the current year, just before the call began for money for the crops, the Treasury held in its ten offices, in United States notes, nearly all in \$10 notes, \$15,716,020; in silver dollars, \$22,641,903; and in silver certificates, all in \$1, \$2, and \$5 certificates, \$7,100,458. This is a total of over \$45,000,000, which, with allowance for daily holdings in the cash, was available for the autumn business. By October 31 this sum was brought down to \$11,068,801, of which United States notes were \$4,548,595; silver certificates, \$5,750,168, and silver dollars, \$770,038. Of the silver dollars \$10,345,865 was paid out in coin, and for \$11,526,000 silver certificates were issued. The drain was uninterrupted at that date, and was further maintained.

THE BANKS ARE HELPFUL.

In addition to the shipments by the Treasury the banks in the chief cities forward small notes to their correspondents as called upon. To enable them to render this service the institutions holding deposits of many banks are in the habit of placing, in spring and summer, United States notes and silver certificates in their reserve, for which they are available. By this practice the requirements of the autumn are in part readily provided for. The paper currency, if fit for circulation, can be put to no better use than to be set aside as reserve for the exigency which the autumn is sure to bring. Such forethought by the banks is wise and commendable. Institutions which do not adopt this course may gain profit by the example thus presented.

SUPPLY OF SMALL DENOMINATIONS NOT EQUAL TO THE DEMAND.

Experience in all recent years makes clear that the supply of small notes is hardly equal to the demand. That supply in its ratio to the total paper currency is far below that which has prevailed in the case of issues of State banks. A careful inquiry indicates that in Massachusetts, in 1860, 20 per cent of its paper was in less denominations than \$5, while in New York in the same year the paper currency was 17 per cent in bills below \$5, and 44 per cent in bills of \$5 and less. Vast changes in monetary conditions have occurred in the interval that has elapsed, notably in the use of checks and other instruments of credit; but that use affects as much and perhaps more the larger denominations.

No rule can be set up by theory of the proper ratio of the several denominations to each other. The needs of business must be recognized and obeyed. Those needs clamor vociferously for small bills as instruments of local trade. The appeal is not confined to any particular district. It comes from the cotton and sugar regions, as well as from the States which produce wheat and corn, cattle and swine. Cities and towns where the pay rolls for factories and furnaces are large assert the same urgency.

CHANGES IN DENOMINATIONS.

The Department has employed all its resources to respond to the conditions. A reserve ample for immediate use, and growing for future contingencies, has been provided of all denominations. Silver certificates are turned, as they are offered for redemption, into \$1, \$2, and \$5, and United States notes into \$10. But the entire volume of silver certificates can not exceed that of silver dollars available; the limit of United States notes is fixed by statute. The issue in both classes can only keep pace with the redemptions.

CONGRESS CAN PROVIDE REMEDIES.

Congress has it within its power to add to the volume of small denominations without inflating the currency. First, gold certificates may be authorized for \$5 and \$10, instead of restricting the issue as now to \$20 and above; second, for United States notes such certificates may be substituted to the amount of \$50,000,000 at once by the application of that sum from the reserve, and a like sum may wisely be used annually from the inflow of gold; third, the national banks may be permitted to issue any part of their circulation in \$5 notes by the repeal of the provision allowing only one-third of their respective totals in that denomination.

Under such modifications enough \$5 notes could be issued for the requirements of the present and the immediate future. Relief on that line would permit a larger share of silver certificates to serve as \$1 and \$2, with such amount in \$5 as experience might prove to be desirable.

Doubtless if the matter were sent to a referendum the popular majority would pronounce for an adequate supply of small bills. Possibly Congress can devise some wiser and more efficient method to stop complaint and friction in the business community. Surely the existing difficulties are not without remedy.

COST OF PAPER CURRENCY.

Inquiries often reach the Department relating to the production and the cost of the paper currency issued by the Government. A useful purpose may be served by stating that the paper used is made by a secret process under Treasury supervision by special contract, renewed every year. The Bureau of Engraving and Printing, a branch of the Department, designs, under the direction of the Secretary, engraves, and prints the notes and certificates complete, except for the-colored seal and mark of the denomination, which are added in the office of the Treasurer of the United States. This currency is delivered to that office in packages of one thousand sheets, each consisting of four notes or certificates. Such a package is taken as the unit from which to reckon the cost.

With allowance for every item of expense attending the making, the issue, and the redemption of this paper currency, an elaborate investigation upon the experience of the fiscal year 1903 shows the average cost for each piece to be something less than 2 cents—exactly 1.7005 cents.

The details of the reckoning may be followed here:	•	
Cost of each 1,000 sheets of paper delivered to the Bureau of Engraving and Printing Cost of engraving and printing each 1,000 sheets (4,000 notes) of per-	\$5.96	
fect work delivered to the Treasurer of the United States	44.04	
(4,000 notes)	7.56	
Total average expense of 4,000 notes issued		\$57.56 10.46
Aggregate average expense of issue and redemption		68.02 0.017005

THE AVERAGE LIFE OF GOVERNMENT PAPER CURRENCY.

An extensive and searching study made for this report brings out an interesting exhibit relative to the length of service of the Government notes and certificates. Activity in their movement from and to the Treasury varies with the seasons. From the middle of August to the close of December they go out in largest volume for the handling of the crops, and in that period, in order to secure small bills, large denominations, worn or in good condition, are freely sent in for redemption. Then, from January forward to July the smaller notes which flow into the banks in excess of their immediate needs are returned for redemption. Some institutions, and an increasing number, are forming the habit of placing this excess in their reserves for use later. Because all kinds of money are paid at the option of the depositor, by the Treasury, for any other kinds redeemed, subject only to the limit of total volume fixed by statute, the facility of change from one denomination to another is maintained at the maximum.

The United States notes under the present system were first issued April 2, 1862; the Treasury notes August 19, 1890; the gold certificates November 15, 1865; and the silver certificates April 11, 1878. The period covered in determining the life-time of each piece in the several kinds of currency varies accordingly. The United States notes, it will be observed, have had an average duration of service of 3.695 years; the gold certificates of 2.877 years; the Treasury notes of 2.136 years; and the silver certificates, as the instruments of retail trade, of only

1.717 years.

The denomination of \$10,000 both in United States notes and in gold certificates has been used in large measure for clearing-house purposes, and naturally has passed but little from hand to hand, and especially those payable to order have been quickly redeemed. Banks have shown a preference for United States notes of all sizes, and these have

been held at rest as far as convenient.

The denominations serving for the longest period have been in United States notes, \$20 serving an average of 5.842 years, \$50 an average of 6.008 years, and \$100 an average of 6.020 years. In Treasury notes the average life of those of \$10, \$20, \$50, and \$100 is in each case over three years, that of \$20 exceeding all others and reaching 3.815 years. In gold certificates those which last the longest time are \$50, \$100, and \$500, while in silver certificates the service of \$10, \$20, and \$50 covers the longest period. The duration of the life of \$50 and \$100 in all kinds of currency is noteworthy.

By kinds and denominations the average years of the life of each piece of currency is here set forth:

Kind and denomination.	Total number of notes issued to June 30, 1904.	Calculated ag- gregrate num- ber of life years experi- enced when redeemed.	Resulting average lifetime of each note, in years.
United States notes (issue began Apr. 2, 1862):

COMPARISON WITH EXPERIENCE OF 1904.

Interest attaches to the comparison with the duration of service of the several kinds of paper currency during the longer period cited with the experience during 1904 in all classes except national-bank notes. The redemptions for that year are assumed to indicate average life years. The comparison is rendered clear by setting down the results for the longer periods on each kind of money and of all kinds for the various denominations. The differences, as well as the agreements, well deserve study. The longer the period taken into account the nearer to accuracy will the result attain, while on any formula the conclusion can be only approximate. The tables here presented are believed to approach actual verity as closely as the data will permit.

The experience of a single year has value as an illustration:

AVERAGE LIFE OF EACH NOTE AND CERTIFICATE IN YEARS.

Denomination.	United States notes.	Treasury notes.	Gold certifi- cates.	Silver certifi- cates.	Indicated average life- time of all kinds, meas- ured by re- demptions for 1904.

THE AVERAGE LIFE OF NATIONAL-BANK NOTES.

Some complexity confronts us in seeking a comparison of the average existence of Government paper with that of national-bank notes. The tables show for bank notes an average life of 4.058 years, while for United States notes the record is 3.695 years; for Treasury notes, 2.136 years; for gold certificates, 2.877 years, and for silver certificates, 1.717 years. The ones and twos and the highest denominations survive the shortest period. In the case of bank notes this rule does not prevail. The ones and twos seem to live longer than the twenty dollars and the hundred dollars.

The national-bank circulation, it is fair to state, owes its apparent advantage of longevity to the circumstance that the original plan of redemption was found to be practically inefficient. Up to October 31, 1873, with an aggregate issue of \$481,196,161, and a balance of \$348,347,674 outstanding, the total redemptions were only \$132,848,487. This would indicate an average life of about six and a half years. Since the inauguration of the present system of redemptions in the office of the Treasurer on July 1, 1874, these notes have been freely retired on becoming unserviceable, with a consequent shortening of their life, but the records of the earlier period still affect the calculations based on the whole history of the issue. With reference to the denominations of \$1 and \$2, the results are affected by the fact that no such notes were issued after January 1, 1879, while the redemption of those outstanding has kept on.

This calculation is based on the total number of notes issued since the establishment of the system.

EXPERIENCE OF ONE YEAR WITH BANK NOTES.

To set beside the experience of one year with Government paper, a calculation is here given of the apparent average life of bank notes

for the twelve months ended October 1, 1903:

Under the provisions of the national-bank act no notes of a less denomination than \$5 were furnished to the banks after the resumption of specie payments on January 1, 1879. Since then the yearly redemptions of \$1 and \$2 notes have steadily diminished. In the year ending October 31, 1903, but 28 notes of the former denomination and 7 of the latter were retired, leaving a balance of \$345,956 of the ones and \$165,960 of the twos outstanding. The last issue of the denomination of \$1,000 was made in 1884, and of the denomination of \$500 in 1885. The outstanding balance of the former was reduced in 1901 to 25 notes by the redemption of 20.

Four \$500 notes were redeemed in 1903, leaving 188 outstanding.

AVERAGE LIFETIME OF NATIONAL-BANK NOTES, AS INDICATED BY THE REDEMPTIONS OF THE YEAR ENDED OCTOBER 31, 1903.

Denomination.	Years.	Denomination.	Years.
Five dollars	1.99	One hundred dollars	3.08
Twenty dollars Fifty dollars	2.88	All denominations	2. 35

PAPER CURRENCY PREPARED FOR ISSUE AND ISSUED.

The outgo of paper currency continues to increase, and in order to provide the means the preparation for issue has been forced forward. The number of pieces issued was 50.9 per cent greater in 1895 than in 1896; 39.6 per cent greater in 1900 than in 1895; 49.3 per cent greater in 1902 than two years before; 21 per cent greater in 1903 than in 1902, and 8.2 per cent greater in 1904 than in 1903.

This advance in issue was met by an increase in the number of notes and certificates made ready for use, of 80.8 per cent from 1890 to 1895; 55.5 per cent from 1895 to 1900; 56.9 per cent from 1900 to 1902; 8.5

per cent in 1903, and 7.4 per cent in 1904.

A comparison by pieces, total value, and average value of each piece may be examined below:

Number of Pieces of Paper Currency Prepared for Issue in the Fiscal Years 1890, 1895, 1900, 1902, 1903, and 1904.

Fiscal year.	Number of notes and certificates.	Total value.	Average value.
1890	30, 976, 881	\$188, 846, 000	\$6. 096
1895	56, 012, 500	296, 816, 000	5. 299
1900	87, 111, 000	526, 296, 000	6. 041
1902	136, 721, 000	591, 580, 000	4. 326
1903	148, 446, 000	617, 936, 000	4. 162
1904	159, 463, 000	762, 820, 000	4. 783

CURRENCY ISSUED BY MONTHS IN 1903 AND 1904 AND FIRST QUARTER OF 1905.

The notes and certificates issued in 1904 were 11,673,482 more in number than in 1903, and their value was \$98,988,000 greater, showing a growth of 8.3 per cent in number and 18 per cent in value. By reason of the large demand for gold certificates the average value was carried up to \$4.251 for each piece, 35 cents more than for the twelve months preceding.

In the first quarter of the fiscal year 1905 the pieces of currency issued were 6,281,267 more than in the same months of 1904, and the increase was 17.9 per cent. The average value received an increase of 12.3 cents over that of the fiscal year 1904.

The figures by months may be studied in this table:

UNITED STATES PAPER CURRENCY ISSUED DURING THE FISCAL YEARS 1903 AND 190x.

REDEMPTIONS OF PAPER CURRENCY.

The growth in the number of pieces redeemed ran far ahead of those issued in the last fiscal year. This has been 26,427,836, or 21.5 per cent, against 11,673,482, or 8.3 per cent, over pieces issued in 1903, and the average value has been carried down to \$3.785. This may indicate that the lack of small bills has been to some extent made up, while the service of such currency has been so shortened as to call for renewal in larger measure.

For the first quarter of 1905 the redemptions were 2,438,718 pieces and 7.1 per cent more than for the same months of the preceding year. The monthly transactions are set forth below:

United States Paper Currency Redeemed during the Fiscal Years 1903 and 1904.

PERCENTAGE OF VALUE OF NOTES AND CERTIFICATES REDEEMED.

Government paper currency outstanding was redeemed in 1901 to the share of 32.1 per cent; in 1902, 34.6 per cent; in 1903, 39.3 per cent; and in 1904, 42.6 per cent. The redemption of \$1 notes and certificates in the last fiscal year ran to the remarkable ratio of 96.1 per cent; those of \$2 to 86 per cent; and those of \$5 to 56.8 per cent. This activity has not before been paralleled, and shows that new silver certificates of these denominations are put out, on the average, the ones every sixteen months, the twos every eighteen months, and the fives every twenty-four months.

The redemptions of the respective denominations in every month for the last two fiscal years, as set forth in the annexed table, will be found interesting:

Percentage of Outstanding Government Paper Jurrency of Each Denomination Redeemed Each Month of the Fiscal Year 1903.

RECEIPTS FROM CUSTOMS AT THE PORT OF NEW YORK AND THE AMOUNT PAID IN GOLD FOR THE FISCAL YEARS NAMED.

Since all of our money has been maintained at a parity, the kinds of money received for customs at the port of New York have lost their significance. They serve now to prove how completely gold is used for such purposes and to illustrate the change in this respect in a quarter of a century. The subjoined figures point this moral:

77. 1		Paid in gold.		
Fiscal year.	Total receipts.	Amount.	Per cent.	
1875. 1879. 1889. 1899. 1901. 1902. 1906.	b 97, 343, 818 146, 889, 880 137, 482, 228 152, 973, 471 165, 443, 740 180, 838, 114	a \$108, 590, 256 b 37, 265, 940 125, 693, 361 107, 896, 355 131, 737, 888 155, 369, 917 177, 448, 732 168, 076, 895	100. 0 38. 3 85. 5 78. 4 86. 1 93. 9 98. 1	

^aThere are no data to show the kinds of money in which these duties were paid, but during this year all duties were payable in coin.
^b The collections from July to December, inclusive, were \$49,127,818, of which \$35,970,357 was gold, equal to 73.2 per cent, while the collections from January to June, inclusive, were \$48,216,000, of which \$1,295,583 was gold, equal ω 2.6 per cent.

IMPORTS AND EXPORTS OF GOLD DURING 1904.

Abnormal foreign payments became necessary in perfecting the arrangements for the Panama Canal, although this Government closed its part in the matter on our own soil. Receipts of gold in San Francisco, chiefly from Japan, more than offset such exports. A balance of \$17,595,382 of net imports was created.

The figures show:

IMPORTS AND EXPORTS OF GOLD COIN AND BULLION AND GOLD IN ORE DURING THE FISCAL YEAR 1904.

Kind.	Imports.	Exports.	Net imports.	Net exports.
Gold coin and bullion		\$80, 726, 919 733, 067	\$20, 787, 079	\$3, 191, 697
Total	99, 055, 368	81, 459, 986	17,595,382	

TRANSFERS FOR DEPOSITS IN NEW YORK.

The deposits of money in New York for payment by telegraph, chiefly in Chicago and New Orleans, for moving the crops, and latterly also to San Francisco, are in every year considerable in magnitude. They were in the calendar year 1900, \$27,036,000; in 1901, \$23,035,000; in 1902, \$22,676,000; in 1903, they advanced to \$35,154,000, and to October 31, 1904, they were \$18,590,222.32.

This latter sum is \$858,777.68 less than for the like period in the

preceding year.

In recent years the rule which used to be in force of requiring deposits to be made in the kinds of currency needed at the point of payment, has been waived. Now gold only is deposited in New York, while silver certificates of \$5 and below, United States notes of \$10, and gold certificates of \$20 make up by far the largest part of the payments.

During the current year a deposit of \$50,000 was received in the Chicago office, which was transferred by telegraph to New Orleans.

The subjoined tables show the direct share of the Treasury in such transfers for moving the crops in all the months in which transactions took place in the years mentioned:

Transactions.	Gold coin , and certificates.	United States notes.	Treasury notes.	Silver cer- tificates.	Total.
1900—Receipts: In February In March	\$1,500,000 600,000				\$1,500,000 600,000

EXCHANGE FOR GOLD RECEIVED AT WESTERN MINTS AND ASSAY OFFICES.

Depositors of gold, ore, bullion or foreign coin, at mints or assay offices can receive in return coin, checks on the Treasury office in subtreasury cities, or elsewhere checks on local depositary banks, or exchange on New York, Chicago, or San Francisco, or in the case of Helena on Philadelphia. To facilitate these transactions gold coin was in the last fiscal year sent from San Francisco to the Carson assay office to the amount of \$75,000, and to the assay office at Seattle, \$2,150,000.

The exchange given for this purpose in recent years is reported in the following table:

GOLD RECEIVED IN SAN FRANCISCO PAID FOR BY TELEGRAPHIC EXCHANGE ON NEW YORK.

The extraordinary sum of \$51,796,743.02 gold in ore, bullion, and foreign coins was deposited in San Francisco for telegraphic exchange during the past fiscal year. Japanese yen represented \$34,077,815.58; other foreign coins \$7,407,124.53, and new products of the mines furnished \$10,311,802.91. In the first quarter of 1905 the amount deposited was \$14,930,609.67.

The details are reported below:

Amounts Deposited in Gold in San Francisco and Paid by Transfer to New York.

		•		
	Japanese yen.	Proceeds of other foreign coin.	New product of the mines.	Total.
July August September October December		2, 644, 853. 87 363, 668. 57	\$1, 399, 950. 41 702, 000. 00 1, 175, 000. 00 278, 000. 00 1, 305, 900. 00	\$2, 849, 950. 41 3, 103, 029. 67 3, 819, 853. 87 641, 668. 57 2, 849, 721. 28

By reason of miscalculation on the part of depositors or of a change in conditions, it has not infrequently happened that the sums proffered have been less than those originally named. Latterly this failure to act upon the options granted has covered comparatively small amounts, as effort has been put forth to prevent the appearance of excessive figures in anticipated movements. The difference between the deposits authorized and those actually recorded were:

SHIPMENTS OF CURRENCY FROM WASHINGTON.

The business of the country adds year by year to the work of the cash division of the Treasury as to other divisions. This addition to the labor and responsibility of the head office in Washington can be illustrated by the shipments of currency. In the last fiscal year the number of packages sent away rose from 68,449 to 75,713, an increase of 10.61 per cent over the twelve months previous, and the amount from \$459,245,112 to \$552,133,838, an increase of 20.23 per cent.

Details of the last two years are recorded here:

REDEMPTIONS AND EXCHANGES.

The moneys received on this account at all the Treasury offices during the fiscal year 1904 were \$1,014,158,262 and exceeded those of the preceding twelve months by \$149,654,701, or 17.3 per cent. The payments in gold in both forms were \$164,209,708 more than the receipts in such money. These payments were chiefly in redemption of silver in its three forms, but in part also in redemption of United States notes and for national-bank notes.

The transactions may be studied in the figures appended:

Kinds of Money Received and Paid at Treasury Offices in the Fiscal Year 1904.

EXCHANGES FOR THE GOVERNMENT OF THE PHILIPPINE ISLANDS.

To prepare the way for their new currency in the Philippine Islands, coins of the United States have been brought home. The exchange has been made at the Treasury office in San Francisco for payment at the Treasury office in New York, for account of the government of the Philippine Islands.

The kinds of coin and the amounts were:

Standard silver dollars. Subsidiary silver coin Minor coin	 295, 025, 55
Total	 727, 676, 35

REDEMPTION OF NOTES OF NATIONAL BANKS.

The national-bank notes presented for redemption during the year, in 23,860 packages, amounted to \$262,141,930, or 61.12 per cent of the average amount of the notes outstanding. Compared with 1903, this sum is \$65,712,309, or 33.45 per cent greater, and it is the largest sum presented for redemption in any year of the thirty in which such redemptions have been made at this office. In the first half of the

year the amount presented was \$111,863,945; in the second half it was \$150,277,985. The monthly extremes were \$13,654,484 in November, and \$29,541,701 in January. Of the amount received for redemption \$141,660,000, or 54.04 per cent, came from New York; \$22,834,000, or 8.71 per cent, from Boston, and \$21,910,000, or 8.36 per cent, from Chicago. From no other place was there received as much as \$20,000,000. There was redeemed 65.39 per cent of the average amount of the \$5 notes outstanding, 56.03 per cent of the \$10 notes, 59.07 per cent of the \$20 notes, 70.82 per cent of the \$50 notes, and 81.89 per cent of the \$100 notes. The total number of notes redeemed was 22,735,640, and their average value was \$11.53.

Of the proceeds of redemptions for the year, \$95,594,893.78, being 36.52 per cent of the whole, was remitted by 4,833 transfer checks drawn on the subtreasury offices; \$123,598,051.41, or 47.22 per cent, by 14,413 shipments of United States currency; \$31,829.60 by 45 shipments of silver coin; and the remainder, \$42,517,611.86, was credited in accounts. These payments do not materially differ from those of 1903, when the checks were 32.36 per cent and the shipments of currency

48.85 per cent.

The notes assorted and delivered on the various redemption accounts amounted to \$259,406,931. Of these, \$92,025,555, or 35.48 per cent, were fit for circulation, and were forwarded by express, in 62,663 packages, to the respective banks of issue for further use, and \$167,381,376 were delivered, in 115,862 packages, to the Comptroller of the Currency for destruction, \$136,444,405 to be replaced with new notes and \$30,936,971 to be retired from circulation. Compared with the previous year there was an increase of 47.09 per cent in the amount of notes fit for circulation forwarded to the banks, and 27.89 per cent in the amount delivered to the Comptroller.

The lawful money deposited in the Treasury for the redemption of national-bank notes amounted to \$257,859,234.79. Of this sum, \$230,952,146.79 was for the 5 per cent account and \$26,907,088 for the retirement of notes under the various provisions of the law. Under the provision of law which limits the deposits for retirement of circulation to \$3,000,000 during any calendar month these deposits amounted to \$18,879,475, being about one-half the amount permitted, notwith-standing there were at some periods in the year applications to make

such deposits much in excess of the monthly limit.

The redeemed notes of the New York banks were assorted and delivered 76 times during the year, those of the Philadelphia and Baltimore banks 48 times, and those of the Boston, Cincinnati, Chicago, St. Louis, and New Orleans banks 46 times. For the New York banks the redemptions amounted to 101.62 per cent of the average amount of their notes outstanding, for the Philadelphia banks 81.97 per cent, for the Baltimore banks 134.30 per cent, for the Boston banks 87.66 per cent, for the Cincinnati banks 52.43 per cent, for the Chicago banks 56.69 per cent, for the St. Louis banks 51.58 per cent, and for the New Orleans banks 74.87 per cent.

The redeemed notes of the banks outside of the above named cities were assorted and delivered as follows: Those of the New England States 40 times, those of the Eastern States 38 times, those of the Southern States 23 times, those of the Middle States 22 times, and those of the Western and Pacific States 16 times. The redemptions

for the banks in the New England States amounted to 73.25 per cent of their outstanding notes, for the Eastern States 80.46 per cent, for the Southern States 47.55 per cent, for the Middle States 39.59 per cent, for the Western States 36.79 per cent, and for the Pacific States 47.57 per cent.

The expenses of the redemption agency for the year consisted of \$95,580.12 for charges for transportation, \$114,540.80 for salaries, \$6,055.20 for printing, binding, and stationery, and \$2,917.01 for contingent expenses, making in all \$219,093.13, which sum was assessed upon the several national banks in proportion to their circulation redeemed, at the rate of $$0.84\frac{7}{1000}$ for each $1,000$. This rate of expense is $5\frac{7}{1000}$ cents less than the lowest rate heretofore made.

While there has been a large increase in the average amount of national-bank notes outstanding since the fiscal year 1900, the increase in the amount of notes presented for redemption has been larger.

The details by years are shown in the following tables:

THE AVERAGE AMOUNT OF NATIONAL-BANK NOTES OUTSTANDING AND THE INCREASE, BY FISCAL YEARS, FROM 1900 TO 1904.

Year.		Average mount of otes out-	Increase in notes out- standing.

Increase since 1900			165, 159, 322	170.30	

During the fiscal years 1900 to 1904 there was a net increase of 1,803 in the number of banks, making a total of 5,386 on June 30, 1904. The net increase during the fiscal year 1904 was 381. Since the redemption agency was established the number of banks has increased 3,403.

The amount of national bank notes presented for redemption during the first three months of the current fiscal year was \$70,247,586, being an increase of \$11,607,579, or 19.79 per cent, as compared with the amount presented in the corresponding period of the last fiscal year. The amounts presented for the two periods are here contrasted by months:

SHIPMENTS OF SILVER DOLLARS.

The movement of silver dollars from the Treasury in 1904 was \$149,439 less than in 1903. Such shipments were \$27,283,457 in 1890; \$27,155,466 in 1895; \$36,284,791 in 1900; and \$41,032,715 in 1904. For the first quarter of 1905 the shipments exceeded those for the like period in the preceding year by \$2,195,951, or 17.6 per cent. The cost of transportation which is paid by the Government was \$1.93 per \$1,000 against \$2.03 in 1903 and \$1.99 in 1902.

The transactions by months in the last two years were:

	1903.	1904.	1905.
July	\$2,965,341 4,348,313 6,811,242	\$3,015,158 3,497,622 5,903,070	\$2,514,897 4,533,547 7,563,357

EXCHANGE OF SILVER DOLLARS.

Silver dollars were presented at the Treasury offices for exchange into other moneys in the last fiscal year to an amount of \$4,457,655, or 10.7 per cent greater than in the previous twelve months. Such exchange is a movement into the Treasury, and it exceeded the shipments last year by \$5,065,599. These exchanges for July, August, and September last were \$418,743 more than in the same months of the year preceding.

This movement at the several offices is reported below:

	Fiscal	year—	First quarter—	
Offices.	1903.	1904.	1904.	1905.

SHIPMENTS OF SUBSIDIARY COINS.

To the subsidiary silver in circulation addition was made during the past fiscal year of \$2,801,649, carrying the total up to \$95,528,343. The shipments were \$270,503.25 more in 1904 than for the preceding fiscal year.

Payments of this coin for various purposes during the year amounted

to more than \$24,900,000.

In the first quarter of 1905 the transactions were more by \$776,648.10, or 10.3 per cent, than for the same months of the year before.

By months the shipments were—

REDEMPTION OF SUBSIDIARY COINS.

The redemption of subsidiary coins into the Treasury in 1904 was more by \$5,415,893, or 13.2 per cent, than in the preceding twelve months. In the first quarter of 1905 \$727,938 more was redeemed than in the like period of 1904.

The details by offices follow:

	Fiscal	year-	First quarter—

VOLUME OF MINOR COINS.

Minor coins are not included in the general statements of circulation, nor in the sum of money in use. Yet their aggregate value is considerable, no less than \$38,149,519.09 on June 30,1904. An increase of \$1,583,715.03 took place in the 1-cent and 5-cent pieces during the fiscal year then ended, of which \$624,524.58 was in bronze cents and \$959,190.45 in nickel pieces of 5 cents.

The denominations of the coins outstanding and of those minted and remelted in 1903 and 1904 may be seen in the table appended.

SHIPMENTS OF MINOR COINS.

A slight decrease (\$14,917.26) occurred in the last fiscal year in the shipments as compared with its predecessor. The cost of transportation in 1904 was \$18.98 for each \$1,000, and \$21.74 in 1903. The first quarter of 1905 shows in comparison with that of 1904 a decrease of \$7,800.24.

REDEMPTION OF MINOR COINS.

Minor coins redeemed in 1904 were \$817,113 in excess of the value in 1903, or 17.1 per cent. The transactions from July 1, 1902, to October 1, 1904, in the several offices are reported below:

	Fiscal year—		First quarter—	
Office.	1903.	1904.	1904.	1905.
Washington Baltimore New York Philadelphia Boston Cincinnati Chicago St. Louis New Orleans	619, 690 2, 033, 967 628, 612 236, 430 273, 022 475, 738 194, 540 36, 180	\$299, 835 643, 430 2, 338, 437 722, 141 267, 220 353, 569 599, 559 280, 375 47, 480	\$69, 456 161, 880 571, 050 171, 429 66, 060 75, 205 113, 377 61, 870 12, 200	\$91, 909 181, 190 606, 476 175, 351 70, 230 90, 155 132, 100 90, 715 21, 125
San Francisco	22, 036 4, 770, 369	35, 436 5, 587, 482	7,380	1,468,080

The activity in silver and minor coins may be illustrated by the amount counted at the Washington office in the years ended October 1, 1903 and 1904, respectively, with the increase in dollars and percentage, as in the following table:

SILVER AND MINOR COIN COUNTED.

Designation.	Year ending October 1, 1904.	Year ending October 1, 1903.	Increas	e.

SILVER AND MINOR COINS IN GOOD SUPPLY—DEMAND FOR NEW COINS.

The fact that the movement into the Treasury surpasses the outgo in the case of silver dollars, subsidiary coins, and minor coins, is sug-It doubtless signifies that the provisions of the Mint Bureau in these fields are now adequate for the immediate needs of the people. and that the task remains to look out for the requirements of the early Urgent requests frequently reach the Department for new coins, particularly for certain branches of the retail trade, and for institutions which make a specialty of business with women. It is a fair question how far the Treasury ought to go to furnish new coins from the Mint when coins hardly tarnished and in no way disfigured glut the When this service can be rendered, the coins are subtreasuries. shipped, but when those which are sent out are returned to the Treasury offices without marks of use, and after a very brief period of circulation, the gratification of a pleasant sentiment may be regarded as not of public advantage enough to justify the cost. While the outward flow was greater than that into the Treasury, this consideration did not

arise. The adjustment of the demand must be determined in view of the burden on the Government as well as the wishes of the claimants.

RECOINAGE OF GOLD, SILVER, AND MINOR COINS.

Worn gold coins reminted in 1904 exceeded in value those so treated in 1903 by \$502,923.50; silver coins were \$182,689.48 less, and minor coins were \$14.309.50 less in value in the later year.

coins were \$14,309.50 less in value in the later year.

The face value in each case, and the loss in gold and silver, respectively,

are set forth in the subjoined tables:

, Damento di se	190	3.	190	904.

SPURIOUS ISSUES DETECTED IN 1904.

In view of the vast volume of currency in circulation, and its variety, its good condition is shown by the fact that the diligence of the experts in the Treasury offices detected of spurious issues only \$12,714.95 in nominal value, in all kinds, during the past fiscal year. This is a smaller sum by \$673.60 than for the twelve months previous.

The record of such issues detected is here presented:

Denomination.	Minor coins.	Fractional currency.	Silver . coins.	Gold coins.	United States notes.

Nine compound-interest notes were rejected at this office.

CENTRAL PACIFIC RAILROAD NOTES AND BONDS.

Two of the notes of the Central Pacific Railroad held by the Government in settlement of the obligations of that road, and secured by its bonds, have been paid since the last report from this office. They were each for \$2,940,635.78, and were paid on January 31, 1904, and August 1, 1904, respectively. For this aggregate sum of \$5,881,271.56 bonds of the company, pledged as collateral for the notes, were released at the time of each payment.

Notes on the same account are still in the Treasury, to become due February 1 and August 1 in successive years, amounting in all to \$26,465,722.02, and secured by first-mortgage bonds of the company

for \$26,466,000.

SPECIAL TRUST FUNDS.

The only change made during the year in the special securities held in trust was the withdrawal on February 13, by the Secretary of War, of \$5,000 in consols of 1930, which had been held for him.

The special trusts in the vaults of the Treasurer are:

The special crusts in the values of the freasurer are.

Total	375,000
Captured bonds of the State of Louisiana, held for the Secretary of Wa A package sealed and said to contain Spanish "certificates of inscriptio held for the Secretary of State	ns.''

DISTRICT OF COLUMBIA.

The transactions of the Treasurer of the United States, ex officio commissioner of the sinking fund of the District of Columbia, pertaining to the affairs of the District, are fully set forth in a separate report.

During the fiscal year 1904, the bonds of the funded debt retired, including the bonds called, on which interest has ceased, amounted to \$427,150, resulting in a net reduction of the annual interest charge by

\$15,931.57.

From July 1, 1878, to the close of the fiscal year 1904, the bonded debt was increased by the issue of 3.65 per cent bonds for \$1,229,550, and decreased by the operations of the sinking funds and otherwise \$10,843,500, making a net reduction of \$9,613,950, and of the annual interest charge \$559,775.57. The interest-bearing bonds of the funded debt outstanding June 30, 1904, were \$12,492,700.

Since the close of the fiscal year the debt has been further reduced by the purchase of 3.65 per cent bonds for \$441,350. This leaves outstanding October 1, 1904, \$12,051,350 in bonds bearing 3.65 per cent

interest.

At the close of the fiscal year 1904, the 10 per cent guaranty fundheld for account of District contractors amounted to \$378,128.97, and was credited to 113 separate contracts. Of this sum \$336,216.85 is invested in bonds purchased at the request and risk of contractors.

The Treasurer has been the custodian of the police and firemen's relief funds since March 23, 1885. The police fund then consisted of 3.65 per cent bonds for \$23,000 and \$108.92 in cash, and the firemen's relief fund of \$711.17 in cash. These funds steadily increased for five or six years, and then, owing to increasing demands for the benefit of the police and firemen, they rapidly decreased until in 1896 the funds were dissipated. The District appropriation act approved June 11, 1896, provided for the deficiency in these funds by appropriating the necessary amounts thereafter from the receipts from fines in the police court. Therefore, as there can be no surplus to invest, the Treasurer, in order to avoid an unnecessary number of accounts, on December 8, 1903, deposited these funds then in his disbursing account, in the Treasury in the general account to the credit of the respective funds, and all sums received for these accounts thereafter were in like manner deposited directly in the Treasury.

The receipts during the year for account of the police relief fund were \$54,104.73, and for account of the firemen's relief fund \$21,658.76. These sums were advanced to the Commissioners of the District in

monthly installments.

The securities of the District in the care and custody of the Treasurer are:

3.65 per cent bonds (unsigned). Bonds for account of District contractors. Chesapeake and Ohio Canal bonds.	\$4, 149, 950 295, 980 84, 285
Total	4, 530, 215

THE WORK OF THE TREASURER'S OFFICE.

In every branch the work of the Treasurer's Office grew rapidly during the past fiscal year. The details of receipts, payments, issues, redemptions, shipments of currency and coins, and exchange, are presented on the preceding pages. As nearly as can be reckoned, for accounts and some other items can not be compared fairly by figures, the growth in the office as a whole has been over 18 per cent, while additions to the force, including details, have been only 4.1 per cent.

The business transacted by mail illustrates in part the operations of the office. The value of registered letters sent during the year advanced from \$16,305,788.59 to \$43,861,228.97, or 168.9 per cent, while that of registered letters containing currency received, increased from \$1,233,575.10 to \$1,289,268.26, or 4.5 per cent. Registered letters contained bonds amounting to \$31,371,639.07, and this is less than last year by \$25,850,730.75.

The table following recites the details:

LETTERS RECEIVED.

Letters received by open mail	239,015
Letters received by registered mail	25,850
Letters received containing bonds, currency, etc	13, 296

-	

With the rapid strides in the vast monetary business of the Government, the loyalty, energy, conscientiousness and efficiency of every person in the Bureau of the Treasurer have kept quick pace. Zeal, alacrity and a full sense of responsibility have governed the staff, chiefs of divisions, clerks of every grade, and every person employed. Their capacity, intelligence and experience have borne ripe fruit. The Department and the country are to be congratulated on service so faithful, so conscientious, and so valuable. With every year the privilege and duty of bearing this testimony to the character and work of every member of the force are more grateful and more imperative.

Respectfully,

ELLIS H. ROBERTS, Treasurer of the United States.

Hon. Leslie M. Shaw, Secretary of the Treasury.

REPORT OF THE DIRECTOR OF THE MINT.

TREASURY DEPARTMENT,
BUREAU OF THE MINT,
Washington, D. C., December 1, 1904.

Sir: I have the honor to submit herewith the thirty-second annual report of the Director of the Mint, covering the operations of the mints and assay offices of the United States for the fiscal year ending June 30, 1904, with such available statistics for the fiscal year as may be valuable in connection therewith.

COINAGE OF THE YEAR.

The coinage mints at Philadelphia, San Francisco, and New Orleans were in operation throughout the fiscal year, and their total output, both in number of pieces and in value, was the largest in the history of the country. The domestic coinage amounted in value to \$228,202,151.55, while the number of pieces executed, including the coinage for the Philippines, Venezuela, and Costa Rica, was 219,353,442.

DENVER MINT.

The new mint building at Denver has been completed since the close of the fiscal year under review, and turned over to the mint service. The organization of the institution has been completed, as contemplated by the act of March 18, 1904, except that no coiner has yet been appointed. The officials appointed are as follows: Superintendent, Frank M. Downer; melter and refiner, Joseph W. Milsom; assayer, A. R. Hodgson. These appointees held corresponding positions in the institution while it was conducted as an assay office, and their capable and faithful services were recognized by their continuance under the greater responsibilities involved in the conduct of a coinage mint. The machinery and other equipment required are now being installed, and estimates are submitted for the appropriations that will be required for the fiscal year beginning July 1, 1905.

NEW ORLEANS MINT.

The exhaustion of the stock of silver bullion purchased under the act of July 14, 1890, and the consequent discontinuance of silver-dollar

coinage, has necessitated a large reduction of the force of the New Orleans mint, which was chiefly employed upon silver. The number of employees in that institution was 219 in February, 1904, but in June had been reduced to 97, and has been still further reduced since.

MINOR COINAGE AT ALL MINTS.

Under the provision of section 3528 of the Revised Statutes of the United States, the manufacture of all the minor coins is restricted to the mint at Philadelphia. At the time this provision was enacted the demand for such coins was confined principally to the Eastern, Middle, and Western States east of the Missouri River, but in recent years there has been a heavy increase, which has extended not only to the section named but to the Southwestern States and the Pacific coast as well. No reason exists for not allowing a portion of this coinage to be done at the other mints, and it would at times facilitate the operations of the service to distribute this work. It is recommended that the restriction referred to be repealed.

MINOR COINAGE METAL FUND.

For some years it has been the practice to purchase the bronze and nickel for the minor coinage in the form of blank coins, ready to receive the final impression. This practice was resorted to when the mints were crowded with work, but with the occupation of the new mint structure at Philadelphia, and the opening of a new coinage institution at Denver, it is contemplated to return to the custom of doing all of this work in the mints. While there will be economy in doing so, a larger amount of metal will be required in stock and a larger minor coinage metal fund must be provided.

Section 3528, Revised Statutes of the United States, provides that-

for the purchase of metal for the minor coinage a sum not exceeding fifty thousand dollars in lawful money of the United States shall be transferred by the Secretary of the Treasury to the credit of the superintendent of the mint at Philadelphia, at which establishment only, until otherwise provided by law, such coinage shall be carried on.

The sum provided above, \$50,000, is now insufficient to carry the bullion and materials required to enable the mint to promptly meet the greatly increased demand for minor coin. When this fund was created by the act of February 28, 1873, it was ample, the total minor coinage for the year being \$369,380; but last year the minor coinage amounted to \$1,762,628.05, and in the month of December alone to \$451,000. The fund is inadequate to handle this volume of business, and no little inconvenience is experienced in consequence. The minor coinage metal fund should be increased to \$250,000 as a maximum, and it is respectfully recommended that Congress be again asked to take this action.

SUBSIDIARY COINAGE.

The attention of Congress should be urgently directed to the fact that immediate action is required to enable the Treasury to meet the constant demand for subsidiary silver coin. With the growth of popu-

lation and business in the country, its needs in this respect inevitably increase and are imperative. The output of these coins from the mints during each of the last fiscal years has been as follows:

1900	 \$12,876,849.15
1901	 10, 966, 648, 50
1902	
1903	
1904	
	 .,,
Total	50 200 040 25

Total 50, 300, 049, 35

The amount of this coin on hand in the offices of the Treasury at the beginning of this period was \$6,606,972, and at the end \$11,523,678, showing a net gain in the Treasury of \$4,926,706, and a net absorption by the country of \$45,373,343. The activity of retail trade affects the demand from year to year, but there is a constant absorption, and the Treasury should be authorized and prepared to supply the country's wants.

The original authority to buy bullion for this coinage is given in section 3526 of the Revised Statutes, which reads as follows:

SEC. 3526. In order to procure bullion for the silver coinage authorized by this title, the superintendents, with the approval of the Director of the Mint, as to price, terms, and quantity, shall purchase such bullion with the bullion fund. The gain arising from the coinage of such silver bullion into coin of a nominal value exceeding the cost thereof shall be credited to a special fund denominated the silver-profit fund. This fund shall be charged with the wastage incurred in the silver coinage, and with the expense of distributing such silver coins as hereinafter provided. The balance to the credit of this fund shall be from time to time, at least twice a year, paid into the Treasury of the United States.

The joint resolution of July 22, 1876, a measure looking to the redemption of the \$50,000,000 of fractional paper currency which had been authorized since the suspension of specie payments, provided for an issue of subsidiary silver coin, which with the amount of fractional paper money outstanding should not at any time exceed \$50,000,000. This limit, however, was exceeded after the resumption of specie payments, by the importation of the United States subsidiary coin which had been expelled from the country during the paper money régime. The monetary act of March 14, 1900, raised the limit for the subsidiary stock to \$100,000,000, and authorized the use for that purpose of bullion purchased under the act of July 14, 1890. The language of the provision is as follows:

Sec. 8. That the Secretary of the Treasury is hereby authorized to use at his discretion, any silver bullion in the Treasury of the United States, purchased under the act of July fourteenth, eighteen hundred and ninety, for coinage into such denominations of subsidiary silver coin as may be necessary to meet the public requirements for such coin: *Provided*, That the amount of subsidiary silver coin outstanding shall not at any time exceed in the aggregate one hundred millions of dollars. Whenever any silver bullion purchased under the act of July fourteenth, eighteen hundred and ninety, shall be used in the coinage of subsidiary silver coin, an amount of Treasury notes issued under said act equal to the cost of the bullion contained in such coin shall be canceled and not reissued.

In 1903, the limit of \$100,000,000 having been reached, Congress authorized a further coinage from bullion under the act of July 14, 1890, as follows:

That the authority given to the Secretary of the Treasury to coin subsidiary silver coin by the eighth section of an act entitled "An act to define and fix the standard of value, to maintain the parity of all forms of money issued or coined by the United

States, to refund the public debt, and for other purposes," approved March fourteenth, nineteen hundred, may hereafter be exercised without limitation as to the amount of such subsidiary coin outstanding.

Under these acts the manufacture of subsidiary coins has proceeded from the bullion in the Treasury purchased under the act of July 14, 1890, until it is now practically exhausted. On November 1, 1904, the amount remaining on hand was 2,742,589.71 fine ounces, of the

coining value in subsidiary money of \$3,791,382.24.

As the subsidiary coins are legal tender for no more than \$5 in any single transaction, and are redeemable at any office of the Treasury upon presentation in sums of \$20, or any multiple thereof, it is apparent that they can not be forced into circulation in excessive amounts, and that any redundancy will be promptly visible at the Treasury. Under these conditions their issue and redemption are automatically regulated by the demands of business, and no arbitrary limit upon the stock outstanding is required.

UNCURRENT SILVER DOLLARS.

Twenty-six years have now elapsed since the coinage of silver dollars was resumed under the act of 1878, and a considerable quantity of these coins in circulation and in the Treasury are abraded to an extent which renders them unfit for circulation. No provision of law now exists under which they may be recoined. They can not be recoined into dollars without loss and there is no authority to incur this loss. As the subsidiary coins are of lighter weight than the dollar piece, the latter might be recoined for subsidiary use without loss.

GOLD BULLION IN REDEMPTION FUND.

All bullion in the mints is of course included in the Treasury balances, and it is preferable that all gold bullion be carried in the \$150,000,000 redemption fund rather than any part of it in the general fund, which should all be available for current payments. The act of March 14, 1890, establishing the redemption fund, says that this fund shall be of gold coin and bullion, without specifying how much of it shall be coin, but another section provides that whenever and so long as the gold coin held in the reserve fund shall fall below \$100,000,000 the authority to issue gold certificates shall be suspended. This provision amounts to a practical restriction of the amount of gold bullion in the redemption fund to \$50,000,000, and considerable inconvenience

is entailed thereby for the following reasons:

In the operation of the mints it is advantageous to work upon one metal at a time and not to be changing from one metal to another frequently. The mint and assay office service has twelve offices that are constantly receiving gold bullion, and each mint must necessarily hold some bullion at all times. It has five refineries in all, of which more or less bullion is always under treatment. The mint service manufactures fine gold bars in assorted sizes for use in the arts and manufactures, and last year sold \$21,640,644.40 worth to that trade. It supplies gold bars to meet the export demand, and last year the New York assay office sold \$62,101,585.02 worth of these bars for that purpose. These conditions and demands make it necessary that a considerable stock of gold bullion shall always be on hand, and \$50,000,000 is a narrow margin to work upon.

Furthermore, a consideration of present conditions with relation to

the possible demands upon the redemption fund will show that any such demand will probably be for gold bars. There has never been any continued demand upon the Treasury for gold except for export, and a demand for export is always a demand for bars. The exporters prefer bars because the latter are always of full weight, while all coin that has been in circulation is to some extent abraded. During the six' months from January 1, 1904, to July 1, 1904, the total presentations of United States legal-tender notes for redemption in gold amounted to only \$6,591,240, while in the same time the Treasury gave \$60,790,511 in gold bars in direct exchange for gold certificates. times in the last year it has been difficult to meet the demand for bars as fast as it came, and some coin has doubtless been exported which would not have gone if bars had been available. It is clear that nothing is gained by compelling the mints to work bars up into coin while it is being taken for export because bars can not be had. And it is equally plain that the Treasury would not be weakened by carrying a larger proportion of its reserve in bars.

It is therefore recommended that Congress be asked to modify the statute so as to permit the issue of gold certificates whenever the stock of gold coin and bullion in the redemption fund is equal to or

above \$100,000,000.

COINAGE FOR THE PHILIPPINE ISLANDS AND FOREIGN GOVERNMENTS.

At the request of the Secretary of War the purchases of bullion required for the silver coinage of the Philippine Islands, authorized by the act of March 3, 1903, were made by the Director of the Mint, with the approval of the Secretary of the Treasury. There were purchased from March 26, 1903, to June 30, 1904, for this purpose 13,528,226.30 fine ounces of silver, costing \$7,376,995.28. This bullion was paid for by the government of the Philippine Islands. There were also received during the fiscal year at the San Francisco mint old silver coins, withdrawn from circulation in the Philippine Islands, amounting to 2,560,237.68 fine ounces, for conversion into the new coinage. The total coinage for the Philippine Islands during the year was 12,552,629.80 pesos in silver and 635,843.77 pesos in nickel and bronze. The Treasury has been reimbursed for the cost of the Philippine coinage, the total charges therefor to June 30, 1904, being \$263,964.62. In addition to the foregoing the mint at Philadelphia coined 2,100,000 pieces for Venezuela and 630,000 pieces in nickel for Costa Rica.

EARNINGS AND EXPENDITURES.

A summary of all earnings and expenditures, including seigniorage on silver and minor coin, shows that the total earnings and gains exceeded expenditures by \$5,012,604.34. The earnings were as follows:

1	
Parting and refining charges	\$215, 184. 04
Alloy charges	12, 053. 27
Melting, assaying, and stamping charges	
Seigniorage on standard silver dollars	
Seigniorage on subsidiary silver coin	
Seigniorage on minor coin	
Profits on manufacture of proof coins and medals	
Gains on bullion deposits	67, 852. 25
Proceeds from sale of old material	5, 389. 36
Received for special assays	3, 315, 50

Sale of by-products. Received for manufacture of counting boards, machinery, etc. Received for coinage for foreign countries.	7, 245. 48 13, 755. 50
Received for coinage for Philippine government	173, 697. 40
Total	6, 909, 438. 51
The expenditures were as follows:	
Equipment, Philadelphia mint	\$4,083.69
Equipment (new machinery), San Francisco mint	5, 491. 14
Equipment, Denver mint	40,374.13
Transfer of gold coin and bullion between mints and assay offices	70, 439. 88
Paid in salaries and wages	1, 268, 032, 37
Contingent expenses (less wastage and loss in sweeps sold)	391, 395. 04
Wastage and loss on sale of sweeps	70, 384. 80
Expense of distributing minor coin	36,072.90
Loss on bullion shipped to mint	138. 18
Loss on recoinage, minor coin	
Total	1 896 834 17

DETAILS OF OPERATIONS.

Elsewhere will be found detailed reports submitted by the superintendents and operative officers of the several institutions, and for particular information concerning their operations reference is made thereto.

DEPOSITS OF GOLD BULLION, FISCAL YEAR 1904.

Deposits of bullion may be made at a mint or assay office for conversion into bars for the convenience of the depositor. When delivered to and disposed of by him they frequently find their way to another one of the Government institutions, and are there classified as redeposits. The same applies to transfers of bullion between the mints and assay offices.

The deposits of gold bullion at the mints and assay offices of the United States during the fiscal year ended June 30, 1904, exclusive of the redeposits, were of the value of \$177,753,384.34, against

\$127,004,443.02 reported the previous year.

The aggregate of all deposits, including redeposits, is the total of metal operated upon in the year by the mint service. This total of gold bullion received in the fiscal year ended June 30, 1904, was 12,195,271.196 standard ounces, of the value of \$226,888,758.10, against 8,583,900.733 standard ounces, of the value of \$159,700,469.94, reported the previous year.

The deposits of domestic bullion amounted to 4,716,327.716 standard ounces, of which 1,349,071.042 standard ounces were in a crude condition direct from the miners operating in the various States; 833,357.508 standard ounces of refinery bars (less than 0.992 in fineness) and 2,533,899.166 standard ounces of refined bullion (0.992 in fineness and over) were received from private refineries, bromide, chlorination, and cyanide works.

UNCURRENT DOMESTIC GOLD COIN FOR RECOINAGE.

Uncurrent and mutilated domestic gold coin received for recoinage contained 116,090.254 standard ounces, of the coining value in new coin of \$2,159,818.57. Of this amount 37,505.364 standard ounces were received over the counter and 78,584.890 standard ounces were received on transfers from the Treasury.

The face value, denominations, and loss on recoinage of the coin referred to are shown in the following table:

	Face				
Denomination.	Transferred from Treasury.	Purchased over counter.	Total.		
Double eagles Eagles Half eagles Three-dollar pieces Quarter eagles Dollars Dollars, Louisiana Purchase Exposition	538, 030. 00 81. 00 . 13, 077. 50 63, 00	\$185, 480.00 342, 750.00 160, 170.00 132.00 15, 245.00 301.00 250.00	\$730, 200. 00 720, 170. 00 698, 200. 00 213. 00 28, 322. 50 364. 00 250. 00

DEPOSITS AND PURCHASES OF SILVER.

Silver is coined in the United States on Government account only. Deposits of silver bullion are received by the mints and assay offices to be returned to the depositors in fine or unparted bars with the weight and fineness stamped thereon. These deposits are confined almost exclusively to the assay office at New York, and the bars when returned to the depositor are sold for use in the arts, or exported.

The deposits and purchases of silver at the United States mints and

assay offices during the fiscal year 1904 were as follows:

ndard nces.	Items.
30, 313, 84 48,132, 04 00, 426, 71 91, 430, 50 59, 030, 56	lver contained in gold deposits or Philippine coinage
2	Total

Included in silver "for Philippine coinage" is 2,844,708.54 standard ounces uncurrent old Spanish coins for recoinage.

In the above purchases and deposits the bullion of domestic production amounted to 11,101,318 standard ounces, and that of foreign production to 1,513,001.95 standard ounces.

The face value and denominations of uncurrent and mutilated domestic silver coins received for recoinage were as shown by the following statement:

	Face value.						
Denomination.	Transferred from Treasury.	Purchased over the counter.	Total.				
Trade dollars Standard dollars Half dollars Quarter dollars Twenty-cent pieces Dimes Half dimes Three-cent pieces	\$1, 248, 506. 50 873, 726. 75 355. 60 704, 289. 00 1, 409. 85	\$204.00 1,304.00 860.00 486.00 3.20 201.60 31.85 9,84	\$204.00 1, 304.00 1, 249, 366.50 874, 212.75 358.80 704, 490.60 1, 441.70				
Total	2, 828, 384. 90	3, 100. 49	2, 831, 485. 39				

The Hawaiian silver coin received for recoinage was of denominations and value as follows:

De	enomination.	Face value.
Half dollars		66,401.00
Quarter dollars		20, 171. 75
Total	······································	199, 312. 75

The origin of the foreign silver bullion deposited is shown by the following statement:

	Refi	ned.	Unrefined.

COINAGE OF THE UNITED STATES.

The following table exhibits the domestic coinage during the fiscal year by denominations, pieces, and value:

DOMESTIC COINAGE OF THE MINTS OF THE UNITED STATES DURING THE FISCAL YEAR 1904.

Denomination.	Pieces.	Value.
Gold: Double eagles. Eagles Half eagles Quarter eagles	9, 858, 489 743, 552 726, 998 151, 341	\$197, 169, 780. 00 7, 435, 520. 00 3, 634, 990. 00 378, 352. 50
Total	11, 480, 380	208, 618, 642. 50

a Includes 461,686 fine ounces Hawaiian coin. b Includes 148,788 fine ounces Hawaiian coin. c Includes 6,901 fine ounces Philippine special assay coins.

DOMESTIC COINAGE OF THE MINTS OF THE UNITED STATES, ETC.—Continued.

Denomination.	Pieces.	Value.
Silver: Standard dollars. Half dollars. Quarter dollars Dimes	10, 101, 650 4, 462, 675 12, 717, 984 23, 083, 975	\$10, 101, 650, 00 2, 231, 337, 50 3, 179, 496, 00 2, 308, 397, 50
Total	50, 366, 284	17, 820, 881.00
Minor: 5-cent nickels. 1-cent bronze	22, 349, 129 64, 517, 160	1, 117, 456. 45 645, 171. 60
Total	86, 866, 289	1,762,628.05
Total coinage	148, 712, 953	228, 202, 151. 55

All the standard silver dollars embraced in the above table were coined from the balance of the silver bullion on hand purchased under the act of July 14, 1890, and contained 8,681,105.46 standard ounces of silver, costing \$7,069,154.63. The seigniorage or profit on this coinage was \$3,032,495.37, which has been deposited in the Treasury of the United States.

Of the subsidiary coinage made during the year \$1,670,330 were from bullion received from the Treasury for recoinage and \$573.75 from silver bullion purchased under the provision of section 3526 of the Revised Statutes; \$5,643,000 under the act of July 14, 1890; \$405,000 from Hawaiian coins redeemed and melted, and \$327.25 from Porto Rican coins redeemed and melted.

The loss on the recoinage of \$2,177,719.50 in worn and uncurrent gold coins was \$17,900.93, and the net loss on the recoinage of \$2,831,485.39 in worn and uncurrent silver coins was \$172,271.01, for which the Treasury of the United States was reimbursed from the appropriation for that purpose. On the transfer from the Treasury of \$199,312.75 in Hawaiian coin there was a gain of \$6,373.

In addition to the above the mints at Philadelphia and San Francisco coined for the Philippines the following:

Denomination.	Number of pieces.
Pesos	2,121,410 5,344,978 6,334,509
Total	67, 910, 489

The mint at Philadelphia also made the following coinage:

For Venezuela, 200,000 five-bolivar, 500,000 two-bolivar, 800,000 one-bolivar, 200,000 half-bolivar, and 400,000 quarter-bolivar, in all 2,100,000 pieces.

For Costa Rica, 630,000 two-centimo pieces.

The number of pieces of domestic coin manufactured by the mints of the United States during the fiscal years 1903 and 1904, and the

increase or decrease in the number of pieces coined in the last year named, is shown in the following table:

	Fiscal	year-	Increase	Decrease
Classification of coinage.	1903.	1904.	1904.	1904.
Gold coin Silver dollars Subsidiary silver coins Minor coins	Pieces. 5, 135, 112 17, 972, 785 40, 148, 523 121, 322, 218	Pieces. 11, 480, 380 10, 101, 650 40, 264, 634 86, 866, 289	Pieces. 6,345,268	Pieces. 7,871,135 34,455,929
Total	184, 578, 638	148, 712, 953	6, 461, 379	42, 327, 064

The value of the domestic coinage manufactured by the mints of the United States during the fiscal years 1903 and 1904, and the increase or decrease in the nominal value of the coinage during the years named, is shown by the following table:

(News) Continue of animals	Fiscal	year—	Increase 1904.	Decrease
Classification of coinage.	1903.			1904.
Gold coin Silver dollars Subsidiary silver coins. Minor coins.	8, 023, 751, 25	7, 719, 231. 00	\$162, 896, 869. 50	\$7,871,135.00
Total	74, 203, 000. 43	228, 202, 151. 55	162, 896, 869. 50	8, 897, 718. 38

The number of silver dollars coined from bullion purchased under the act of July 14, 1890, from August 13, 1890, to June 30, 1904, aggregated 187,027,035 pieces, containing 144,653,722.68 ounces of fine silver, costing \$134,192,285.02, giving a seigniorage of \$52,834,749.98.

All profits on the coinage of silver dollars are deposited each month

in the Treasury of the United States.

The aggregate number of silver dollars coined from March 1, 1878, to June 30, 1904, under the provisions of the acts of February 28, 1878, July 14, 1890, and March 3, 1891, was \$570,272,300, as shown by the following table:

Coinage of Silver Dollars.

•	Coinage under act of—	Amount.
Feb. 28, 1878 (Bla From July 14, 13 Act, Oct. 31, 189 From Nov. 1, 1893 Coined under the	nd-Allison)	\$378, 166, 793
Total under Mar. 3, 1891 (reco	act of July 14, 1890. inage of trade dollars)	187, 027, 035 5, 078, 472
Total		570, 272, 300

There are exhibited in the appendix tables showing, by denominations and values, domestic coins manufactured during the fiscal year, and also tables of the total coinage by denominations, institutions, and years from the establishment of the Mint in 1792.

The following tables exhibit the number of fine ounces and value of gold and silver coinage of the United States, by calendar and fiscal

years, since 1873.

Coinage of Gold and Silver at the Mints of the United States Since 1873, by Calendar Years.

RECOINAGE OF STANDARD SILVER DOLLARS.

No mutilated or uncurrent standard silver dollars were transferred from the Treasury to the mints for recoinage during the fiscal year 1904. There were, however, purchased as bullion 1,304 mutilated silver dollars, which were for use in the manufacture of subsidiary silver coins.

The total number of mutilated and uncurrent silver dollars received and melted at the mints and at the assay office at New York since 1883 is shown in the following statement:

Fiscal year.	Amount.	Fiscal year.	Amount.
.883	\$621	1895. 1896.	\$18,580 2,034
.385	1,850	1897	1,898

RECOINAGE OF UNCURRENT COIN.

The condition of the current coins has been materially improved by the extensive recoinage of recent years.

The following table shows the face value of abraded subsidiary coin transferred for recoinage, the amount of new coin made therefrom, and the loss and percentage of loss for each fiscal year since 1891:

RESULTS OF RECOINAGE OF UNCURRENT SUBSIDIARY SILVER COIN.

Fiscal year.	Face value.	New coin.	Loss.
1891		\$861, 680. 41	\$48,366.28

1903		2, 829, 890, 71 2, 656, 104, 21	178, 857. 23 172, 280. 69
Total	67, 976, 218. 77	64, 802, 847, 68	3, 173, 371. 09

The results of recoinage of Hawaiian silver coin to June 30, 1904, has been as follows:

Fiscal year.	Face value.	Coining value in United States subsidiary coin.	Gain.
1903. 1904.	\$619,000.00 199,312.75	\$638, 239. 00 205, 685. 75	\$19, 239 6, 373
Total	818, 312. 75	843, 924. 75	25, 612

BARS MANUFACTURED.

During the fiscal year 1904 there were manufactured by the mints and assay offices of the United States gold and silver bars of the value of \$112,730,432.24, as follows:

Description.	Standard ounces.	Value.
Gold		

Tables will be found in the appendix showing in detail the character of bars manufactured at each institution during the year.

WORK OF THE GOVERNMENT REFINERIES.

There were received and operated upon by the refineries connected with the mints at Philadelphia, San Francisco, and New Orleans and the assay office at New York, during the fiscal year 1904, gold bullion containing 3,617,493.033 standard ounces and silver bullion containing 7,977,215.78 standard ounces of the total coining value of \$76,584,774.28 as shown by the following table:

	'Go	ld.	Si	lver.

SILVER BULLION ON WHICH CHARGES WERE COLLECTED.

In order to show the amount of the above-mentioned silver bullion treated by the Government refineries on which charges were received and the amount handled for parting purposes the following table is presented:

Silver bullion refined.	Philadel- phia	San Fran- cisco.	New Orleans.	New York.	Total.
Bullion on which charges were	'		Standard ozs.		Standard ozs.
collected	298, 356. 03	296, 267. 52	12, 065. 16	2, 803, 326. 33	3, 410, 015. 04
charges	2, 457, 623. 61	1, 936, 403. 01	84, 297. 56	777, 108. 11	5, 255, 432. 29
Total	2,755,979.64	2, 232, 670. 53	96, 362. 72	3, 580, 434. 44	8,665,447.33

The figures given above represent the amount of silver received by the melter and refiner and charged to the refinery, but as it was used over and over it does not represent the whole amount of silver used or sent to the refinery.

PURCHASE OF SILVER.

The repeal on November 1, 1893, of the purchasing clause of the act of July 14, 1890, limited the purchase of silver bullion to that contained in deposits of gold bullion, fractions of silver deposited for return in fine bars, the amount retained in payment for charges on silver deposits, surplus bullion returned by the operative offices at the close of the fiscal year, and uncurrent domestic silver coin.

The following table shows the amount and cost of silver bullion purchased for the subsidiary silver coinage during the fiscal year ended

June 30, 1904:

DISTRIBUTION OF SILVER DOLLARS.

During the fiscal year 1904 the number of silver dollars distributed from the mints was 834,041, against 1,792,729 during the fiscal year 1903, a decrease in the distribution of these pieces during the fiscal year 1904 of 958,688.

The number of silver dollars on hand, the amount transferred, the coinage, and the distribution from each mint is shown in the following

table:

SEIGNIORAGE ON SILVER COINAGE.

The balance of profits on the coinage of silver on hand in the mints

June 30, 1903, was \$12,849.78.

The total seigniorage on the coinage of silver during the fiscal year 1904 was \$4,995,473.19, of which \$3,032,495.37 was from the coinage of standard silver dollars, \$1,950,086.32 from the coinage of subsidiary silver coins, and \$12,891.50 from the recoinage of Hawaiian silver coins into United States subsidiary coins.

Including the balance on hand at the mints July 1, 1878, the net seigniorage on silver coined from that date to June 30, 1904, aggre-

gated \$133,026,322.64.

The seigniorage on standard silver dollars under the act of July 14, 1890, from August 13, 1890 (the date the act went into effect), to June 30, 1904, was \$52,834,749.98.

The amount of seigniorage deposited in the Treasury during the fiscal year was \$4,943,606.33, leaving a balance on hand at the mints

on June 30, 1904, of \$64,716.64.

A table showing the seigniorage on silver coinage at each mint and the disposition of the same will be found in the appendix.

APPROPRIATIONS AND EXPENDITURES.

The act approved February 25, 1903, making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ended June 30, 1904, contained specific appropriations for the support of the mints and assay offices of the United States, amounting in the aggregate to \$1,165,700.

Acts approved June 6, 1900, June 28, 1902, March 3, 1903, and April 28, 1904, contained the following specific appropriations:

New machinery and appliances, mint at Philadelphia	\$440, 185
New machinery and appliances, mint at San Francisco	30,000
New machinery and appliances, mint at Denver	315,055

The expenditures from these appropriations during the fiscal year were—

Mint at Philadelphia	\$4,083.69
Mint at San Francisco	5, 491. 14
Mint at Denver	40, 374. 13

The total expenditures from the above appropriations to June 30, 1904, have been—

Mint at Philadelphia	\$398, 692. 86
Mint at San Francisco	28, 847. 51
Mint at Denver	46, 402. 28

In addition to the expenditures from the specific appropriations, there were expended during the fiscal year the following amount from the general appropriation contained in the act of July 14, 1890:

0	11 1			• • • • • • • • • • • • • • • • • • • •

EARNINGS AND EXPENDITURES OF THE REFINERIES OF THE COINAGE MINTS AND ASSAY OFFICE AT NEW YORK DURING THE FISCAL YEAR ENDED JUNE 30, 1904.

The earnings of the refineries comprised the following items:

Charges received for parting and refining bullion	\$215, 184, 04
Surplus bullion recovered.	45, 015, 93
Amount received from sale of by-products	13, 951, 17
Amount received as gain on leady melts	148.06

Making the total earnings for the year 274, 299. 20 which amount was deposited in the Treasury to the credit of the appropriation for "Parting and refining bullion."

The expenditures on account of "parting and refining bullion" during the fiscal year aggregated \$228,724.40, showing a net excess of earnings over expenditures of \$45,574.80.

In the following table are shown the earnings and expenditures on account of parting and refining bullion at the coinage mints and assay

office, New York, during the fiscal year:

APPROPRIATIONS AND EXPENDITURES OF THE OFFICE OF THE DIRECTOR OF THE MINT FOR THE FISCAL YEAR 1904.

The act approved February 25, 1903, making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ended June 30, 1904, contained appropriations for the office

of the Director of the Mint aggregating \$39,470.

The expenditures from these appropriations comprised the amounts paid on account of salaries, supervising the annual settlements at the mints and assay offices, expenses incurred in collecting and compiling the statistics of the production of gold and silver in the United States, the amount paid for incidental expenses, and the purchase of and subscription to books and pamphlets and contingent expenses incurred in support of the laboratory of the Bureau.

The expenditures during the fiscal year aggregated \$38,972.82, leaving an unexpended balance of \$497.18 to the credit of the several

appropriations.

In addition to the above appropriations for the support of the office of the Director of the Mint, the provisions of the same act contained a specific appropriation of \$75,000 for "freight on bullion and coin between mints and assay offices."

The expenditures from this appropriation for the fiscal year aggregated \$70,439.88, leaving an unexpended balance of \$4,560.12 to the

credit of said appropriation.

Appropriations and Expenditures of the Office of the Director of the Mint for the Fiscal Year 1904.

EARNINGS AND EXPENDITURES OF THE MINTS AND ASSAY OFFICES.

The amount received for charges at the several institutions for parting and refining bullion was \$215,184.04; for copper alloy, \$12,053.27,

and for assaying and stamping, \$45,216.99.

The seigniorage on the coinage of standard silver dollars was \$3,032,495.37; on subsidiary silver coinage, \$1,950,086.32, and on the recoinage of Hawaiian silver coins into United States subsidiary coins, \$12,891.50; a total seigniorage on silver coinage of \$4,995,473.19.

The seigniorage on minor coinage was \$1,349,716.61; on recoinage of uncurrent minor coins, \$4,209.92; a total seigniorage on minor

coinage of \$1,353,926.53.

The profits from the sale of metals and proof coins were \$2,177.83, and the charges received for mounting and expressage on the same \$808.10.

Deposit melting-room grains and sweeps valued at \$14,153.49 and surplus bullion valued at \$45,015.93 were recovered by the officers of the different institutions.

The gain on bullion shipped by the minor assay offices to the mints for coinage was \$8,534.77, and on the sale of leady melts, \$148.06.

The proceeds from the sale of old material were \$5,389.36; from special assays of bullion and ore, \$3,315.50, and from the sale of byproducts, \$13,951.17.

The receipts for manufacturing appliances for mints were \$7,245.48. The charges received for coinage for foreign governments were \$13,755.50; from the Philippine government, \$173,897.40.

The total amount of earnings and gains of the mints and assay offices

during the fiscal year 1904 was \$6,910,246.61.

The expenditures of the mint service were: For salaries of officers and clerks, \$198,476.69; for wages, contingent expenses, parting and refining expenses, wastage, and loss on sale of sweeps, \$1,577,237.32.

The expense of distributing minor coins was \$36,072.90, and the

amount paid for charges and mounting medals was \$807.80.

The loss on bullion shipped the mints for coinage was \$138.18; while the loss on the recoinage of minor coins was \$10,422.04; a total expenditure of \$1,823,154.93.

The net earnings for the fiscal year were \$5,087,091.68.

In the appendix a table will be found showing in detail the earnings and expenditures for the year.

CLASSIFIED STATEMENT OF EXPENDITURES.

The expenditures of the mints and assay offices and of the refineries connected therewith for supplies and on account of salaries and wages of workmen during the fiscal year ended June 30, 1904, are exhibited in the following table:

Consolidated Statement of Expenditures for Salaries, Wages, and Supplies of the Mints and Assay Offices of the United States during the Fiscal Year ended June 30, 1904.

IMPORTS AND EXPORTS OF THE PRECIOUS METALS.

GOLD IMPORTS.—The total value of gold imported into the United States during the fiscal year 1904, as shown by the customs service and reported by the Bureau of Statistics, Department of Commerce and Labor, was \$99,055,368.

Foreign gold bullion of the value of \$26,066,178 was entered, of which amount \$17,541,214 came from the United Kingdom; \$5,400,938 from Mexico; \$1,456,728 from Canada; \$960,978 from Central America; \$583,912 from South America; \$74,879 from West Indies; \$32,266

from Korea; \$10,761 from Germany, and \$4,502 from Japan.

Foreign gold coin of the value of \$45,688,437 was imported, of which \$32,404,117 came from Japan; \$7,299,750 from British Australasia; \$2,837,408 from the United Kingdom; \$1,921,889 from France; \$982,874 from West Indies; \$155,875 from South America; \$49,584 from Canada; \$32,501 from Mexico, and the remainder from various countries.

The value of gold contained in ore and base bullion imported was \$21,520,146, of which amount \$16,722,221 came from Canada; \$4,604,896 from Mexico; \$122,836 from Central America; \$43,738 from South America; \$25,615 from Korea, and \$840 from Japan.

There were returned to the United States domestic gold coins of the value of \$5,780,607, of which \$3,016,637 came from Canada; \$1,653,162 from the United Kingdom; \$567,633 from West Indies; \$364,124 from Mexico; \$113,535 from South America; \$38,632 from Central America, and the remainder from various countries.

The total imports were as follows:

GOLD IMPORTS, FISCAL YEAR 1904.

•	Items.	Value.
Foreign bullion Foreign coin		\$26,066,178 45,688,437 21,520,146
Total foreign United States coin		93, 274, 761 5, 780, 607
Total imports		99, 055, 368

Gold exports.—The total value of gold exported from the United

States during the fiscal year was \$81,459,986.

Domestic gold bullion, composed of United States Government bars, valued at \$62,112,043, was exported, of which \$61,811,521 went to France, \$300,333 to Germany, and \$189 to British Columbia. Other bullion, valued at \$672,273, was exported—\$574,060 to Japan, \$96,143 to Canada, and \$2,070 to Hongkong.

The exports of domestic gold coin were valued at \$15,682,424, of which \$6,250,000 went to France, \$4,494,904 to Canada, \$3,048,260 to South America, \$1,187,139 to West Indies, \$453,270 to Central America, \$122,474 to Hongkong, \$122,434 to Mexico, and the remain-

der to various countries.

The exports of foreign coin amounted to \$2,259,079, of which \$1,253,462 went to Canada, \$941,171 to Cuba, \$33,400 to France, \$24,300 to Mexico, and the remainder to various countries.

Gold contained in domestic ores exported was valued at \$729,247, of which \$650,501 went to Canada, \$77,716 to Germany, and \$1,030 to the United Kingdom.

Gold contained in foreign ores exported was valued at \$4,920, all of

which went to Canada.

The summary of gold exports is as follows:

GOLD EXPORTS, FISCAL YEAR 1904.

Items.	Value.
Domestic bullion (United States mint or assay office bars). Other domestic bullion. Domestic coin. Gold contained in ore.	\$62, 112, 043 672, 273 15, 682, 424 729, 247
Total domestic	79, 195, 987
Foreign coin \$2, 259, 079 Foreign ore reexported 4, 920	
Total foreign	
Total gold exports	81, 459, 986

The net exports of United States gold coin from January 1, 1870, to June 30, 1904, was \$631,264,731, as shown by the following table:

IMPORTS AND EXPORTS OF UNITED STATES GOLD COIN.

SILVER IMPORTS.—The total value of silver imported during the fiscal year was \$27,768,814.

During the year there was imported 10,001,446 ounces of foreign bullion of the commercial value of \$5,831,047, of which \$5,468,315 came from Mexico; \$244,179 from Central America; \$74,427 from Canada; \$24,776 from South America; \$10,097 from West Indies; \$7,037 from France, and \$2,226 from Japan.

Foreign silver coin of the value of \$3,392,012 was imported, of which \$2,820,815 came from Mexico; \$496,687 from Central America; \$42,053 from South America; \$12,512 from West Indies; \$9,558 from French Oceania; \$7,113 from the United Kingdom, and the remainder from

various other countries.

The value of silver contained in ore and base bullion imported was \$17,979,535, of which \$16,144,842 came from Mexico; \$1,733,274 from Canada; \$101,025 from South America; \$375 from Japan, and \$19 from Central America.

United States silver coin, of the value of \$566,220, was returned to this country, of which \$418,362 came from Canada; \$105,763 from West Indies; \$31,087 from South America, and the remainder from various other countries.

The total silver imports were as follows:

SILVER IMPORTS FISCAL YEAR 1904.

	Items.	Value.
Foreign bullion		\$5, 831, 047 3, 392, 012 17, 979, 535
Total foreign United States coin		27, 202, 594 566, 220
Total imports		27, 768, 814

SILVER EXPORTS.—The total value of silver exported during the fiscal year was \$49,497,702, of which \$38,011,864 was domestic and \$11,485,838 was foreign.

During the year there were exported 66,298,005 ounces of domestic bullion of the commercial value of \$37,702,793, of which amount \$32,363,393 went to the United Kingdom, \$2,755,856 to France, \$1,660,300 to Hongkong, \$504,093 to China, \$226,500 to Japan, \$163,254 to Canada, and the remainder to various other countries.

The exports of domestic coin amounted to \$239,939, of which \$166,215 went to West Indies, \$40,170 to Canada, \$25,000 to Hawaii, \$4,103 to South America, and the remainder to various other countries.

Silver contained in domestic ore and base bullion exported amounted to \$69,132, of which \$47,483 went to Canada, \$16,459 to Germany, and \$5,190 to the United Kingdom.

The exports of foreign silver were \$11,485,838, consisting of \$8,049,136 in bullion and \$3,436,702 in coin. Of the bullion \$7,108,469 went to the United Kingdom and \$940,667 to France. The coin went to the following countries: \$1,825,462 to Japan, \$489,100 to the United Kingdom, \$374,846 to Hongkong, \$335,666 to South America, \$178,997 to Mexico, \$118,674 to Canada, \$77,427 to Central America, \$29,781 to West Indies, \$4,200 to Italy, and \$2,549 to British Oceania.

Grand total of gold imports.		26, 268, 749

During the same period there was exported to England copper matte containing 3,820 ounces of fine gold and 37,980 ounces of fine silver.

STOCK OF MONEY IN THE UNITED STATES.

It has been the custom to present in the reports of this Bureau an estimate of the stock of domestic gold and silver coin in the United States at the end of each calendar and fiscal year.

The estimated stock of domestic coin in the United States at the end of the fiscal year (June 30, 1904) was: Gold, \$1,285,080,291; silver, \$674,857,600; a total of \$1,959,937,891.

OFFICIAL TABLE OF STOCK OF COIN IN THE UNITED STATES JUNE 30, 1904.

Items.	Gold.	Silver.	Total.
Estimated stock of cóin June 30, 1903		\$659,841,236	\$1,751,882,421

Total	15, 579, 537	3, 130, 798	18, 710, 335
Estimated stock of coin in the United States June 30, 1904	1, 285, 080, 291	674, 857, 600	1,959,937,891

Note.—The number of standard silver dollars coined to June 30, 1904, was 570,272,300, which added to the Hawaiian dollar coinage of 500,000, equals \$570,772,800. Since July 1, 1898, the number of standard silver dollars exported in transports has been 2,345,000 (deducting number returned from the Philippine Islands June, 1902, 150,000). Since 1883 the number melted has been 179,481 (Report of the Director of the Mint, 1903, p. 17), and the number of Hawaiian dollars melted to June 30, 1904, has been 452,240; a total disposition of 2,976,721, leaving in the United States June 30, 1904, 567,795,579 standard silver dollars and \$107,062,021 in subsidiary silver coins.

In the above table the amount of coin melted for recoinage is taken at its face value, and the sources from which these amounts were obtained will be found in a table in the appendix of this report.

In addition to the domestic coin in the country there was, on June 30, 1904, in the mints and assay offices bullion belonging to the Government valued as follows:

Bullion in Mints and Assay Offices June 30, 1904.

	Metal.	Value.
Gold	•••••	\$42,592.381
Silver (cost)		7,520,97
Total	·	50, 113, 352
		00,220,000

The stock of silver bullion in the vaults of the Mercantile Safe Deposit Company, in New York City, at the close of business June 30, 1904, was 8,257 ounces of fine silver of the market value of \$4,706.

The total metallic stock, coin, and bullion in the United States on

June 30, 1904, was as follows:

METALLIC STOCK JUNE 30, 1904.

Coin and bullion.	Value.
Gold	\$1,327,672,672 682,383,277
Total	

The total metallic stock June 30, 1903, was as follows:

METALLIC STOCK JUNE 30, 1903.

Coin and bullion.	Value.
Gold Silver (bullion in mints and Mercantile Safe Deposit Co.'s vaults)	\$1,249,552,756 . 677,448,933
Total	

The increase in the stock of gold during the fiscal year 1904 was \$78,119,916 and silver \$4,934,344, a total of \$83,054,260.

OWNERSHIP OF THE METALLIC STOCK.

The ownership of the metallic stock of the United States, comprising gold and silver bullion and coin, on June 30, 1904, was as follows:

*Except Bolivia.

f Includes Straits Settlements, the Malay States, Ceylon, and Johore.

g Report of head commissioner of paper currency.

h Except Costa Rica and British Honduras, gold-standard countries.

Note.—The value of the monetary stock of silver-standard countries has been changed to conform to the decline in silver values. The monetary stock of Mexico and other countries where the Mexican dollar circulates is given in Mexican dollars at bullion value.

The foregoing table of the world's stock of money is for December 31, 1903. It is submitted as giving the best information obtainable, but unsatisfactory in many respects owing to defective returns. The world's stock of gold in monetary use foots up \$5,623,500,000; of silver, \$3,201,100,000, and of uncovered paper, \$3,511,500,000, showing, as compared with the estimate of December 31, 1902, an increase in gold of \$240,900,000; increase in uncovered paper of \$578,000,000, and a decrease in silver of \$463,100,000. The most important gains in gold were \$72,000,000 for the United States; \$39,400,000 for South Africa; Egypt, \$30,000,000; \$20,600,000 for France; \$37,900,000 for Germany; Italy, \$33,400,000; Russia, \$37,500,000.

The decrease shown in silver is due to a reduction in the estimates for China and Mexico, and not to actual destruction of existing stocks.

On December 31, 1903, the United States, Great Britain, Germany, Austria-Hungary, France, and Russia, with a total population of 398,100,000, held \$4,691,000,000, or over 83 per cent of the world's stock of gold.

GOLD AND SILVER USED IN INDUSTRIAL ARTS IN THE UNITED STATES DURING THE CALENDAR YEAR 1903.

Among the purveyors of gold and silver bars for use in the industrial arts the United States mint at Philadelphia and the United States assay office at New York hold the foremost places, which brings the larger portion of the total material consumed in the arts under Government notice as a matter of public record.

The following table gives the quantity and value of the bars issued by the Government institutions during the calendar year 1903:

GOLD AND SILVER BARS ISSUED FOR USE IN THE INDUSTRIAL ARTS BY THE GOVERNMEN	NT
Institutions during the Calendar Year ended December 31, 1903.	

35-4-4-1	Go	old.	Silver.		
Material used.	Fine ounces.	Value.	Fine ounces.	Coining value.	
Domestic bullion (new material) Old jewelry, etc. Foreign material United States coin	933, 663, 303 129, 543, 597 45, 726, 370 50, 027	\$19, 300, 533; 41 2, 677, 903; 99 945, 247, 84 1, 034; 16	1, 149, 257, 72 593, 179, 76 953, 946, 43 6, 17	\$1, 485, 908. 95 766, 939. 48 1, 233, 385. 29 7. 97	
Total	1, 108, 983. 297	22, 924, 719. 40	2,696,390.08	3, 486, 241. 69	

The United States coin shown in the above table was either mutilated or abraded.

Bars for Industrial Use Manufactured by Private Refineries and Furnished Goldsmiths and Others during the Calendar Year 1903.

•	Gold	đ.	Silver.		
Material used.	Fine ounces.	Value.	Fine ounces.	Coining value.	
Domestic bullion (new material). United States coin. Foreign material Old plate, jewelry, and other material.	29,459	\$643,832 608,977 8,349 1,987,685	13,867,098 1,538 984 *3,326,546	\$17, 929, 177 1, 989 1, 272 4, 300, 989	
Total	157, 162	3,248,843	17, 196, 166	22, 233, 427	

The total consumption of the precious metals in the arts during the calendar year, reported to this Bureau by Government institutions and private refineries, was as follows:

GOLD AND SILVER BARS FURNISHED MANUFACTURERS FOR USE IN THE ARTS DURING THE CALENDAR YEAR ENDED DECEMBER 31, 1903.

Material used.	Gold.	Silver (coining value).	Total.
Domestic bullion (new material) United States coin. Foreign material Old material Total	610, 011 953, 597 4, 665, 589	\$19, 415, 086 1, 997 1, 234, 657 5, 067, 929 25, 719, 669	\$39, 359, 451 612, 008 2, 188, 254 9, 733, 518 51, 893, 231

Estimating that the amount of gold coin used in the arts during the calendar year has been \$3,500,000, and silver coin \$100,000, the total industrial consumption would be as follows:

INDUSTRIAL CONSUMPTION OF THE PRECIOUS METALS DURING THE CALENDAR YEAR 1903.

Material used.	Gold.	Silver (coin- ing value).	Total.
Domestic bullion (new material) United States coin Foreign material Old material Total	3,500,000 953,597	\$19, 415, 086 100, 000 1, 234, 657 5, 067, 929 25, 817, 672	\$39, 359, 451 3, 600, 000 2, 188, 254 9, 733, 518 54, 881, 223

The following table gives the amounts and the classification of gold and silver used in the industrial arts in the United States since 1880:

GOLD AND SILVER BARS FURNISHED FOR USE IN MANUFACTURES AND THE ARTS, AND CLASSIFICATION OF THE MATERIAL USED, BY CALENDAR YEARS, SINCE 1880.

Of the total value of gold bars, \$79,620,730.54, reported as exchanged for gold coin, \$62,101,585.02 were exported and \$17,519,145.52 were used in the industrial arts.

GOLD BARS EXCHANGED FOR GOLD COIN AT THE MINT AT PHILADELPHIA AND ASSAY OFFICE AT NEW YORK DURING THE CALENDAR YEAR 1903.

Month.	Philadelphia.	New York.	Total.
January February March April May June July August September	359, 279. 60 356, 462. 94 330, 615. 58 348, 950. 91 267, 897. 41 291, 295. 48 286, 357. 51	\$1, 093, 844. 18 1, 184, 789. 87 1, 198, 755. 11 1, 623, 633. 62 7, 434, 289. 26 10, 186, 986. 74 8, 431, 385. 39 1, 085, 535. 34 1, 311, 386. 24	\$1, 454, 385, 97 1, 494, 069, 40 1, 550, 218, 0 1, 954, 249, 20 7, 783, 240, 11 8, 722, 680, 87 1, 371, 892, 41 1, 707, 927, 00
October November December Total	487, 341. 59 324, 024. 83 188, 586. 37	1, 508, 573, 48 1, 175, 548, 80 943, 450, 87 37, 123, 178, 88	1, 995, 915. 0 1, 499, 573. 6 1, 132, 037. 2 41, 121, 073. 7

These figures include both small bars manufactured for use in the arts and large bars manufactured for export, and were as follows:

Exported Employed for industrial purposes	\$23, 350, 332. 12 17, 770, 741. 61
•	
Total	41, 121, 073. 73

THE WORLD'S INDUSTRIAL CONSUMPTION OF THE PRECIOUS METALS IN 1903.

This Bureau estimates the world's consumption of the precious metals

in the arts during 1903 as follows:

Gold 114,882 fine kilograms, of the value of \$76,350,600, and silver 1,553,204 fine kilograms, worth, at \$17.43 per kilogram (average commercial value in 1903), \$27,072,346. In these estimates only new material is taken into account.

PRODUCT OF GOLD AND SILVER IN THE UNITED STATES IN 1903.

The detailed statistics of the product of gold and silver in the United States for the calendar year 1903 were presented in a special report to the Secretary of the Treasury.

The distribution of the product among producing States and Terri-

tories was as follows:

Approximate Distribution by Producing States and Territories of the Product of Gold and Silver in the United States for the Calendar Year 1903.

[As estimated by the Director of the Mint.]

	Go	ld.	Silver.			Total value

The annual production of gold and silver from the mines of the

United States since 1860 is shown in the following table.

(The commercial value of the silver product is reckoned at the average yearly market price of silver and its coining value in United States dollars.)

PRODUCT OF GOLD AND SILVER FROM MINES IN THE UNITED STATES SINCE 1860.

[The estimate for 1860-1872 is by R. W. Raymond, commissioner, and since 1872 by the Bureau of the Mint.]

	G	old.		Silver.

Tables showing the product of gold and silver from mines of the United States since 1792 will be found in the appendix.

WORLD'S PRODUCTION.

Tables compiled from information furnished by foreign governments through our diplomatic representatives and revised from the latest data, exhibiting the weight and value of the gold and silver product of the principal countries of the world for the calendar years 1901, 1902, and 1903 will be found in the appendix.

The following table shows, by calendar years, the production and value of gold and silver in the world since 1860:

PRODUCT OF GOLD AND SILVER IN THE WORLD SINCE 1860.

[The annual production of 1860 to 1872 is obtained from 5-year period estimates, compiled by Dr. Adolph Soetbeer. Since 1872 the estimates are those of the Bureau of the Mint.]

WORLD'S COINAGE.

In the appendix will be found a table, revised from the latest information received, exhibiting the coinages of the various countries of the world during the calendar years 1901, 1902, and 1903. The following is a summary of the same:

COINAGE OF NATIONS.

Calendar years.	Gold.	Silver.
1901	\$248, 093, 787	\$138, 911, 891
1902	220, 405, 125	193, 715, 362
1903	240, 496, 274	208, 367, 849

The above figures represent, as nearly as this Bureau has been able to ascertain, the total value of the gold and silver coinages executed in the world during the years given.

It must be borne in mind, however, that the total of these coinages does not correctly represent the amount of new gold and new silver made into coins during the year, for the reason that the coinages as reported include the value of domestic and foreign coins melted for recoinage, as well as old material, plate, etc., used in coinage.

In the circular letter of inquiry prepared at this Bureau and sent to foreign governments through the Department of State, asking for information on these subjects, it was especially requested that each country report the amount of such recoinages. This has been done in many instances, but not in all.

Coinage of Gold and Silver of the Mints of the World for the Calendar Years since 1873.

IMPORTS AND EXPORTS OF THE PRECIOUS METALS IN THE PRINCIPAL COUNTRIES OF THE WORLD.

The imports and exports of the precious metals of those countries from which this bureau has received direct returns for the calendar year 1903 are exhibited in the appended table. The information relating to foreign countries was derived principally through representatives of the United States in them. At this date it is impossible to give the figures for all countries.

Imports and Exports of the Precious Metals in the Principal Countries of the World, 1903.

a Annual statement of the trade of the United Kingdom with foreign countries and with British possessions.

b Fiscal year ended March 31.

VALUES OF FOREIGN COINS.

The law requires (section 25, act of August 28, 1894)—

That the value of the foreign coins as expressed in the money of account of the United States shall be that of the pure metal of such coin of standard value; and the values of the standard coins in circulation of the various nations of the world shall be estimated quarterly by the Director of the Mint, and be proclaimed by the Secretary of the Treasury immediately after the passage of this act and thereafter quarterly on the 1st day of January, April, July, and October in each year.

In accordance with the foregoing requirements the values of foreign coins have been estimated and proclaimed as follows:

VALUES OF FOREIGN COINS, OCTOBER 1, 1904.

[The coins of silver-standard countries are valued by their pure silver contents, at the average market price of silver for the three months preceding the date of this circular.]

Country.	Standard.	Monetary unit.	Value in terms of United States gold dollar.	Coins.

LABORATORY OF THE BUREAU OF THE MINT.

During the calendar year 1903 there were tested in the laboratory of this Bureau 218 gold and silver coins, all of which were found within the legal requirements as to weight and fineness.

In the gold coins the greatest deviation above standard (the legal limit being 0.001 above or below) was 0.0004, while the greatest devi-

ation below was 0.0005.

The greatest deviation of silver coins above standard (the limit being 0.003 above or below) was 0.0018, while the greatest deviation below was 0.002.

The following table shows the number of pieces assayed at this Bureau each month and their average fineness, also the total number assayed from each mint, with the average fineness, for the calendar year 1903:

PROCEEDINGS OF THE ASSAY COMMISSION OF 1904.

The following-named gentlemen were designated by the President as commissioners to test and examine the weight and fineness of the coins reserved at the several mints during the calendar year 1903, pursuant to the provisions of section 3547 of the Revised Statutes:

Hon. William Alden Smith, House of Representatives; Mr. H. B. Vincent, McConnellsville, Ohio; Mr. W. T. Fenton, Chicago, Ill.; Hon. George D. Perkins, Sioux City, Iowa; Mr. Cyrenus Cole, Cedar Rapid, Iowa; Hon. S. B. Rankin, South Charleston, Ohio; Mr. C. P. Smith, Burlington, Vt.; Hon. E. C. Voorheis, Sutter Creek, Cal.; Hon. Ludwig Loevinger, White Lake, S. Dak.; Dr. S. W. Stratton, Washington, D. C.; Prof. Charles Luedeking, St. Louis, Mo.; Prof. H. M. Goodwin, Boston, Mass.; Dr. Edgar F. Smith, University of Pennsylvania; Prof. William Hallock, New York, N. Y.; Mr. Joseph Wharton, Philadelphia, Pa.; Hon. Henry K. Boyer, Philadelphia, Pa.; Mr. Marcus Benjamin, Washington, D. C.; Mr. Pearl Wight, New Orleans, La.; Mr. Joseph G. Darlington, Philadelphia, Pa.; Mr. J. H. Edwards, Washington, D. C.

Of the ex officio members Dr. H. G. Torrey, assayer of the United

States assay office, New York, was present.

The commission met at the mint Wednesday, the 10th day of February, and, a quorum being present, organized by the election of Hon. George D. Perkins as chairman, Miss M. V. Kelly acting as secretary.

The following-named commissioners answered to the roll call: Messrs. Perkins, Cole, Rankin, C. P. Smith, Voorheis, Loevinger, Stratton, Luedeking, Goodwin, Edgar F. Smith, Hallock, Wharton, Vincent, Boyer, Benjamin, Darlington, and Torrey.

The following committees were appointed by the chairman:

Committee on counting: Mr. Boyer, chairman; Messrs. C. P. Smith, Rankin, Vincent, Perkins, Edwards, and Loevinger.

Committee on weighing: Mr. Stratton, chairman; Messrs. Hallock,

Benjamin, Cole, and Luedeking.

Committee on assaying: Prof. Edgar F. Smith, chairman; Messrs. Goodwin, Voorheis, Darlington, Torrey, and Wharton.

REPORT OF THE COMMITTEE ON COUNTING.

FEBRUARY 11, 1904.

To the Board of Assay Commissioners:

The committee report respectfully that the packages containing the pieces reserved by the several mints for the trial of coins, in accordance with section 3539 of the Revised Statutes, were delivered to us by the superintendent of the mint at Philadelphia.

That the packages delivered were compared with the transcripts kept by the Director of the Mint, and the number of each delivery and the pieces contained in

said packages were found to be correct.

The quantities of coin reserved at the mints for the purposes of the committee were as follows:

Gold coins from the mint at Philadelphia, 1,040 in number, of the value of \$9,066.

Silver coins from the mint at Philadelphia, 18,066 in number, of the value of \$5,086.65.

Gold coins from the mint at San Francisco, 3,348 in number, of the value of \$33,745. Silver coins from the mint at San Francisco, 3,407 in number, of the value of

Gold coins from the mint at New Orleans, 113 in number of the value of \$1,130. Silver coins from the mint at New Orleans, 9,115 in number, of the value of \$3,596.50.

The coins reserved on account of the cover as follows:	omage executed for the Philipp	nne Islands

The verification of the packages containing the reserved coins being completed, the committee on weighing and assaying selected such coins as were required. In the report of these committees will be found an account of the disposition of these coins.

REPORT OF THE COMMITTEE ON ASSAYING.

PHILADELPHIA, PA., February 12, 1904.

To the Board of Assay Commissioners.

Gentlemen: In compliance with section 3547 of the Revised Statutes, we have taken samples of the coins reserved from the United States mints at Philadelphia, San Francisco, and New Orleans for assay. These samples represent the various deliveries made by the coiners to the superintendents of the several mints during the calendar year 1903.

The result of the assays made of the individual coins and of the same in mass are given in the following schedules. From these it will be seen that the greatest excess in the assay value of the gold coinage above standard at the different mints (the limit of tolerance being one one-thousandth) is at—

Philadelphia	 900.2
San Francisco	 900.4
New Orleans	

The greatest deficiency below standard (the limit of tolerance being one one-thousandth) is at—

Philadelphia	899.6
San Francisco	899.2
New Orleans	899. 9

The greatest excess in silver coins above standard (the limit of tolerance being three one-thousandths) is at—

Philadelphia		900.4
San Francisco		901.1
New Orleans		900.7
Philippine coinage: Philadelphia		
Philadelphia		901.6
San Francisco	•	900.9

The greatest deficiency in the silver coins (the limit of tolerance being three one-thousandths) is at—

one-thousandths) is at—	
Philadelphia	
San Francisco	899.1
	898. 4
Philippine coinage:	
Philadelphia	
	898. 6

The committee also tested the quartation silver and found it free from gold, and the lead used in the assay of gold bullion and found it free from gold and silver. The acid used in the humid assay of silver was found to be free from silver and also from chlorine.

The balances used were tested and found to be correct.

The committee therefore deem the assays to be entirely trustworthy.

REPORT OF THE COMMITTEE ON WEIGHING.

FEBRUARY 11, 1904.

To the Board of Assay Commissioners.

Gentlemen: The committee on weighing respectfully report that they have examined sample coins selected at random from those reserved by the several mints, and the number of coins weighed in mass were as follows:

Mint at Philadelphia.—51 gold coins, 213 silver coins.

Mint at San Francisco.—90 gold coins, 103 silver coins. Mint at New Orleans.—11 gold coins, 116 silver coins.

The weighing of the single pieces was made with a balance by Troemner, of Philadelphia, and the weights employed were furnished under seal by the Director of the National Bureau of Standards, and were certified by him as being of the true standard of weight as fixed by law, and as being correctly related to the troy pound of

The mass weighings were made upon the large Saxton balance of the mint. Both

balances were carefully tested.

The committee examined the weights ordinarily employed in the mint and found them to be in accordance with the usual interpretation of the standard prescribed by

The details of the weighings indicate but slight deviation from the statutory standard weights, and the coins examined were all within the legal tolerance. The committee on weighing pronounces the examination of the weights of the coinage of the

several mints during the year 1903 to be satisfactory.

On motion of Mr. Loevinger, it was resolved that the assay commission appointed to examine and test the reserved coins of the several mints of the United States for 1903, after having examined and tested the fineness and weight of these coins and having found all of the tests within the limits required by law, do hereby report the tests satisfactory

On motion of Mr. Cole, the committee adjourned sine die.

MINT OF THE UNITED STATES AT PHILADELPHIA.

JOHN H. LANDIS, Superintendent.

The following table shows, by weight and value, the gold and silver deposited at the mint at Philadelphia during the fiscal year ended June 30, 1904:

Metal.	Number of de- posits.	Number of re- deposits.	Standard ounces.	Coinage value.
GoldSilver	2,800 1,991	2,396	1,961,314.682 4,102,694.36	\$36, 489, 575. 50 4, 774, 044. 35
Total	4, 791	2,396		41, 263, 619. 85

There were transferred to the mint at San Francisco 3,709,161.70 standard ounces of silver bars, purchased under the act of July 14, 1890, through sundry parties, in exchange for a like quantity delivered at the mint at San Francisco.

There were transferred from the Treasury for recoinage during the year 165,155 pieces of worn and uncurrent domestic gold coin, having a face value of \$1,366,257.50, containing 72,876.950 standard ounces, of the value of \$1,355,850.23, and showing a loss of \$10,407.27; also 10,329,120 pieces of uncurrent domestic subsidiary silver coin, of the face value of \$2,185,565.80, containing 1,651,854.07 standard ounces, having a coinage value in subsidiary coin of \$2,055,183.92, showing a loss of \$130,381.88. There were also received over the counter 16,866 pieces of uncurrent domestic gold coin, of the face value of \$102,943, containing 5,497.422 standard ounces, of the value of \$102,277.61, and

showing a loss of \$665.39; also 6,759 pieces of domestic silver coin, of the face value of \$2,698.04, containing \$2,187.90 standard ounces, having a coinage value in subsidiary coin of \$2,722.12.

Total	594, 297. 434	219, 743. 45

The amount of uncurrent copper, nickel, and bronze coins transferred from the Treasury during the year for conversion into current coins, cost, and seigniorage are shown by the following table:

MINOR COINS FOR RECOINAGE FISCAL YEAR 1904.

Uncurrent coin transferred from United States Treasury: Old copper cents. Nickel 1-cent coins. Bronze 1-cent coins. Bronze 2-cent coins. Nickel 2-cent coins.	20, 647. 02 491. 50
Nickel 3-cent coins	158, 266. 00
Total	181, 303. 75
Total. Cost of pure nickel added to nickel 1-cent metal to convert into nickel 5-cent alloy for recoinage into nickel 5-cent coin	64.58
Cost of tin and zinc added to old copper-cent metal to convert into bronze 1-cent alloy for recoinage into bronze 1-c nt coin	6.64
Cost of metal of same alloy added to nickel 3-cent metal for recoinage into nickel 5-cent coin. Seigniorage (gain by recoinage).	25. 20
Seignorage (gant by reconnage)	4, 209. 92
Total. Coinage executed, nominal value:	185, 610. 09
Bronze 1-cent coin \$20,581.60 Nickel 5-cent coin 154,606.45	175 188 05
Wastage (loss by recoinage)	10, 422. 04
Total	185, 610. 09

The total minor coinage for the year in nickel 5-cent coins was \$1,117,456.45, and in 1-cent bronze coins \$645,171.60. Of these amounts \$154,606.45 in nickel coins and \$20,581.60 in bronze coins were recoinage of United States coins.

The seigniorage or gain on recoinage of old copper cents into bronze 1-cent pieces, of old nickel 1 and 3 cent pieces into 5-cent pieces was \$4,209.92 as against a wastage or loss of \$10,422.04, showing a net wastage of \$6,212.12.

The seigniorage on the coinage of nickel and bronze coins coined from purchased metal was \$1,349,716.61, which, less a net wastage of \$6,212.12 on the recoinage of minor coins, gives a total seigniorage on

minor coin of \$1,343,504.49.

The total amount of the several types of minor coin manufactured from 1793, when the first coinage of copper cents was made, until June 30, 1904, aggregated \$42,178,652.24. From the records of this mint, to which this coinage has been assigned by law, it appears that there have been melted for recoinage \$4,029,133.15, leaving outstanding June 30, 1904, \$38,149,519.09.

The several types and denominations of minor coins issued, manufactured by the mint at Philadelphia since its establishment, the amount remelted and the amount outstanding June 30, 1904, are set

forth in the following table:

MINOR COINS ISSUED, REMELTED, AND OUTSTANDING.

Denomination.	Coined.	Remelted.	Outstanding June 30, 1904.
Copper cents Copper half cents Copper nickel cents Bronze cents Bronze 2-cent pieces Nickel 3-cent pieces Nickel 5-cent pieces Total	39, 926. 11 2, 007, 720. 00 13, 143, 194. 77 912, 020. 00 905, 768. 52 23, 607, 135. 40	\$379, 771. 82 799, 323. 11 209, 019. 54 338, 435. 22 279, 797. 86 2, 022, 785. 60 4, 029, 133. 15	\$1, 183, 115, 62 39, 926, 11 1, 208, 396, 89 12, 934, 175, 23 573, 584, 78 625, 970, 66 21, 584, 349, 80 38, 149, 519, 09

Minor coins to the amount of \$2,012,780.85 have been distributed throughout the States and Territories of the United States during the fiscal year 1904—\$1,270,285.05 in nickel 5-cent pieces and \$742,495.80 in bronze 1-cent pieces.

The expenditure for the distribution of minor coin for the same

period was \$36,072.90.

The seigniorage on the coinage of purchased metal for the fiscal year was \$3,466,769.34, as shown by the following table:

Item.	Coined.	Seigņiorage.
Standard silver dollars Subsidiary silver coins. Minor coins.	\$2,986,650.00 4,420,901.00 1,762,628.05	\$896, 586. 36 1, 216, 256. 45 1, 353, 926. 53
Total	9, 170, 179. 05	3, 466, 769. 34

COINAGE FOR FOREIGN GOVERNMENTS.

The coinage for foreign governments executed during the year was 2,100,000 pieces of silver for the Government of Venezuela and 630,000 nickel pieces for the Costa Rican Government.

There were purchased, for the silver coinage of the Philippine Archipelago, 1,559,393.29 standard ounces of silver bullion, costing

\$784,551.48.

For the minor coins of the Philippine Islands there were received and delivered to the coiner the following quantities of blanks prepared and ready to receive the imprint of the dies:

• •	Denomination.	Pounds avoirdupois.
Bronze i centavo		216, 430
	c	· .

The coinage executed for the Philippine Islands was 55,535,409 pieces.

MEDALS AND PROOF COINS.

The following table shows the number of proof coins and medals sold, nominal value, amount received, and the profit on the same during the fiscal year:

Article.	Number of pieces.	Nominal value.	Amount received.	Profit.

MACHINE AND CARPENTER SHOPS.

The machine shop has been developed in the new mint to be an extensive department, capable of building any of the machinery used in the mint service. A well-equipped shop is needed for repair work and but little more is required to enable it to build rolling mills, presses, cutting machines, etc. The fact that the Government has a monopoly of coinage makes it difficult to have this class of machinery satisfactorily built on contract to the lowest bidder, as the contractors are usually inexperienced in its construction, and the result commonly is that the machines must be to a great extent rebuilt in the mint's shop. Experience has demonstrated that economy is secured by having our own mechanics build the machinery.

We have manufactured machinery, etc., for the mints at San Francisco and New Orleans; built a rolling mill for the new mint at Denver, also a milling machine, a coin riddle, a multiple shear, a motor base and blower, two worm drives, iron works for trucks and coin boxes, workbench, ingot mold stand, a roll and beam hoist, grinding machine, stands for milling machines, pans for annealing furnaces, etc. All of the machinery of the mint exhibit at the World's Fair, St. Louis, was built in the shop of the mint at Philadelphia.

The carpenter shop has grown from the ordinary repair shop, which it was at the old mint, into quite an important industrial plant and can claim recognition as an indispensable department of the institution. It is equipped with all the modern woodworking machinery necessary to build anything in the wood line that may be needed in any of the

mints, assay offices, or subtreasuries of the country. Various shop equipments are repaired and renewed from time to time; necessary repairs and alterations to the mint building, furniture, etc., are made; special furniture, counting boards and other apparatus for use at the several subtreasuries of the United States; shipping boxes for medals and proof coins, crates and cases for shipping machinery, etc., all the patterns for new machinery, and lesser articles too numerous to mention are manufactured in this Department and at less expense to the Government than were we totally dependent upon outsiders. newest and best furniture in this building and the coin and medal exhibition cases and mint equipment at the Louisiana Purchase Exposition. are samples of the character of the work done. It is but just to say that new adjusting tables, which are admittedly a very decided improvement over the old style, were designed by the chief carpenter. the different subtreasuries since January 1, 1904, there have been manufactured in the carpenter shop 25 counting boards and 3 hoppers; for the Louisiana Purchase Exposition, 5 copper-lined strip cars, 1 ingot mold stand, 1 lead-lined acid box, 5 large trucks, 1 combination oil stand, rag and waste closet, 1 workbench with steel top, 2 small trucks, 2 stands for milling machines, 1 dozen coin boxes and the coin exhibition cases. There are now in process of construction, for the new mint at Denver, 2 improved adjusting tables, 3 dozen adjuster's chairs with self-adjusting locks, 2 selecting tables, 4 counting hoppers, 4 sets of counting boards, 4 strip-cars lined, 3 combination desk and drawer cases, 3 small rubber-tired trucks, and 2 large rubber-tired trucks.

COIN DISTRIBUTION.

Not the least important part of the work of the Philadelphia mint is the distribution of the coin made therein. Banks and individuals throughout the country are supplied in such quantities as they need, and as the Philadelphia mint is the only one making 5-cent nickel and 1-cent bronze coins, the shipments of these reach high figures. In the shipping room 1 shipping clerk and 4 helpers are employed. men do all the bagging, weighing, coopering (when kegs are used); keep accurate account of the weight of each piece of freight delivered to the transportation company, besides bagging and placing in vaults the entire coinage of the mint. During the fiscal year ended June 30, 1904, the shipments were made in 15,452 bags and 4,068 kegs. silver coins shipped made a total in value of \$4,941,865.13, the United States silver coin being \$3,037,386.80; the Philippine silver coin, \$1,133,367.21, and that of the Government of Venezuela, \$771,111.12. United States minor coin shipped, \$2,012,780.85; Philippine, \$159,055.55; a total of \$2,171,836.40. Gold coin and gold certificates packed and shipped amounted to \$9,044,695.50, making the shipments for the year \$16,158,397.03. Philadelphia banks, trust companies, and business houses are furnished with silver coin through the cashier's office, on deposit of gold coin or gold certificates, the amount so exchanged during the last fiscal year being \$2,697,000. In the coinage of minor coin the amount of work entailed and the number of employees engaged thereat varies greatly during different months of the year; the minor coinage of the past fiscal year, if distributed uniformly throughout the year, would have required the operation of 7 coining presses and 18 employees.

FORCE EMPLOYED.

The total number of employees on the rolls of the mint at the close the fiscal year was 583, distributed in the several departments as follows:

General department	253
Melter and refiner's department	80
Coiner's department	225
Assaver's department	12
Engraver's department	13
Total	583

VISITORS.

A large number of visitors from all States of the Union and from foreign countries visit the mint during the year. During the fiscal year ended June 30, 1904, there were 93,770 visitors shown through the mint by the several guides.

ANNUAL SETTLEMENT.

The annual settlement was superintended by Messrs. B. F. Butler and F. P. Dewey, of the Bureau of the Mint, and James D. Rowen, of the Treasury Department, who reported that the coin and bullion on hand agreed with the amounts charged on the records.

MELTER AND REFINER'S DEPARTMENT.

D. K. TUTTLE, Ph. D., Melter and Refiner.

During the fiscal year the melter and refiner received from the superintendent gold bullion containing by assay 15,261,847.217 standard ounces, of the value of \$283,941,343.57, his legal allowance for wastage being 15,261.847 standard ounces, of the value of \$283,941.34, and silver bullion containing by assay 19,015,919.30 standard ounces, of the value of \$22,127,615.19, his legal allowance for wastage being 28,523.88 standard ounces, of the value of \$33,191.42.

He operated upon bullion as follows:

Description.	Gold.	Silver.
Ingots. Refinery Merchant bars Toughening	Standard ozs. 18, 428, 413, 830 1, 600, 396, 879 257, 002, 003 406, 660, 352	Standard ozs. 19, 160, 708. 03 2, 755, 959. 64 119, 790. 98
Total	20, 692, 473. 064	22, 036, 458. 65

The excess of gold and silver operated upon over the amounts charged during the year is due to duplication of operations.

He returned to the superintendent 15,257,429.181 standard ounces

gold and 19,027,801.47 standard ounces silver.

Upon settlement of the melter and refiner's accounts, June 30, 1904, there was found an apparent loss upon the gold bullion during the fiscal year of 4,418.036 standard ounces, and in the operations upon the silver bullion an apparent gain of 11,882.17 standard ounces.

The melts made aggregate as follows:

Melts.	Bars.	Ingots.	Granula- tions.	Deposits.	Tough- ened.	Total.
GoldSilver	896 608	3,062 4,805	975	3, 157 256	69	7,184 6,644
Total	1,504	7,867	975	3, 413	69	13,828

During the year two gold ingot melts and eight silver ingot melts were condemned.

Number, Weight, and Value of Gold and Silver Bars for Industrial Use.

Metals.	Bars.	Standard ounces.	Coinage value.
GoldSilver		242, 000. 049 130, 528. 92	\$4,502,326.55 151,888.20
Total	5,025		4,654,214.75

During the year 222 barrels of sweeps were gathered, containing by assay 2,380.998 standard ounces of gold and 5,922.05 standard ounces of silver.

The operations of the refinery were as follows:

Bullion:	Gold.	Silver.
Sent to the refinery 4,049,541.52 gross ounces containing by assay	Standard ozs. 1,600,396.879 337.210 1,600,473.214	Standard ozs. 2, 755, 979. 64 525. 74 2, 758, 420. 55
Apparent gain	413. 545	2, 966. 65

Silver bullion sent to the refinery upon which refinery charges were collected contained by assay 298,356.03 standard ounces, and silver owned by the Government returned to the refinery for parting purposes, upon which no parting charges were imposed, contained by assay 2,457,623.61 standard ounces.

The following statement is made to explain the apparent gain in gold refinery operations:

	dard ices.
Deductions in weight totaled 109.19 gross ounces, at 789. 604 large bars recharged in settlement July 1, 1903, and sent to refinery averaged 965 in fineness and weighed 431,239.45 gross ounces; they gained an average of 0.00255 in fineness. 109 grain bars sent to the refinery average of 0.03 ounces. 109 grain bars sent to the refinery averaged 834 fine and showed an average gain in fineness of 0.00025 on 43,364.87 ounces. 106,552.02 gross ounces of silver bar on 109 bars at 834 fine. 106,552.02 gross ounces of silver deposits averaged in gold fineness 2204 with an average gain in gold fineness of 0.0002 (silver deposits with no gold reported are included, as the average gain in gold is also 0.0002). 108 Deductions in weight of silver deposits totaled 215 gross ounces, at an average gold fine-	. 11
Total possible gain 61 Gain reported 41	0. 938 3. 545
Operating loss	7.393

The following statement is made to explain the apparent gain in the operations on silver:

· ·	Standard ounces.
Actual allowances and deductions in gold deposits containing silver (one ninety-ninth standard weight of the gold). 14,617,924.21 standard ounces of ingots delivered to coiner, with an average gain in fineness	7, 083. 99
14, 017, 924.21 standard ounces of ingots delivered to coller, with an average gain in inneress of 0.00015	2,192.69
Gain in purchase silver in fineness	661.50 443.00
Refinery gain (unreported silver gains in fineness, etc.)	2, 966. 65
Total possible gain	14, 889. 02 11, 882. 17
Operating loss	3,005.85

which is 10½ per cent of the legal allowance.

Gain of gold or silver is of course only an apparent one, and the statements given above account for an actual loss, as must be the case when detailing any operation upon bullion. Metals can not even be

handled without abrasion.

Of the amount of gold refined, 375,174.347 standard ounces were treated in the electrolytic plant. This process continues to give perfect satisfaction, both as to economy and efficiency. An electrolytic plant for parting silver and gold is being installed on a working basis. It will have some novel features of scientific and industrial interest as the result of experiments which have been conducted in the Mint laboratory.

Coiner's Department.

RHINE R. FREED, Coiner.

During the fiscal year ended June 30, 1904, the coiner received and operated upon 15,470,843 standard ounces of gold of the value of \$287,829,637.21, from which there were produced 6,310,526.410 standard ounces of gold coin of the value of \$117,405,142.50, and upon which there was a wastage of 384.338 standard ounces of the value of \$7,150.47, being 4.97 per cent of the legal allowance.

During the same period the coiner also received and operated upon 17,370,007.18 standard ounces of silver of the value of \$21,611,206.44 in subsidiary silver coin, from which there were produced 8,842,671.91 standard ounces of silver coin of the value of \$11,001,769.09 in subsidiary silver coin and upon which there was a wastage of 9,059.93 standard ounces of the value of \$11,272.07 in subsidiary silver coin, being 52.15 per cent of the legal allowance.

The percentage of good coin produced from the ingots operated

upon was, gold 40.79 per cent, silver 50.90 per cent.

He returned to the superintendent 9,159,932.252 standard ounces of gold and 8,518,275.34 standard ounces of silver.

The following tables show the coinage executed during the year:

FOR GOVERNMENT OF COSTA RICA.

Denomination.	Pieces.
2 centimos.	630,000

The large coinage of gold during the past fiscal year has afforded the opportunity of observing the merits of the use of geared rolls exclusively for the preparation of the strips from which the planchets are cut. Our conclusion is that the low percentage (40.79) of good coin produced from the amount of gold ingots operated upon is due to the

absence of drawbenches in connection with the rolls in the performance of this work. We are convinced that without the use of drawbenches it is impossible to roll gold strips to a uniform thickness and density with the same degree of nicety as could be done with the use of drawbenches in conjunction with the rolls. In rolling strips for silver coins the rolls have proved very satisfactory without drawbenches, but this difference is not due to any dissimilar qualities in the two metals, but entirely to the difference between the tolerance of a gold coin and that of a silver coin.

ASSAYER'S DEPARTMENT.

JACOB B. ECKFELDT, Assayer.

The number of assays made during the fiscal year ended June 30, 1904, was as follows:

Gold	
Silver	
Special assays	 220
Total	

There were also 243 barrels of sweeps assayed. In addition to this 175 ounces of proof gold and 200 ounces of proof silver were made.

... ENGRAVER'S DEPARTMENT.

CHARLES E. BARBER, Engraver.

The number of dies prepared for the United States coinage was 1,458. In addition 930 dies were made for the Philippine coinage and 23 for medals, as shown by the following table:

	For	the mint at	- .

MINT OF THE UNITED STATES AT SAN FRANCISCO, CAL.

FRANK A. LEACH, Superintendent.

The weight and value of the gold and silver bullion deposited at the mint at San Francisco during the fiscal year 1904 was as follows:

Metal.	Deposits.	Redeposits.	Standard ounces.	Value.
Gold	6, 415 8, 627	1,215	4, 676, 957. 596 12, 730, 086. 69	\$87, 013, 164. 57 14, 813, 191. 84
Total	15,042	1,215		101, 826, 356. 41

Of the above amount of silver bullion, 5,635,885.23 standard ounces were received under the act of March 2, 1903, for coinage of silver coin for the government of the Philippine Islands, and 2,844,706.64 standard ounces in Spanish-Filipino coin for recoinage for the same government.

During the year there were deposited and melted at this mint for recoinage 1,244.078 standard ounces United States gold coin, of the face value of \$23,774, coining value \$23,145.63, of which there was transferred from the Treasury worn and uncurrent gold coin of the face value of \$18,743.50, containing 992.080 standard ounces of the coining value of \$18,457.30, and received over the counter coin of the face value of \$5,030.50, containing 251.998 standard ounces of the coining value of \$4,688.33, the denominations, number of pieces, and value thereof being as follows:

		rred from asury.	Received over the counter.

No refined foreign gold was deposited during the year. Foreign refined silver bullion containing 123,920.40 standard ounces, valued at \$144,198.28, was received during the year. This bullion came from British Columbia.

Foreign gold coin containing 2,248,846.877 standard ounces, of the coining value of \$41,839,011.67, was deposited and melted during the year. The nominal weight of this coin (the weight of the new coins of their respective countries) was 2,249,751.769 standard ounces, showing a loss by abrasion of 904.892 standard ounces.

The following table exhibits the country of coinage, nominal weight,

Coiner's Department.

D. F. COLE, Coiner.

During the fiscal year the coiner operated on 8,892,989.800 standard

ounces of gold, and 23,518,632.65 standard ounces of silver.

He delivered, during the same period, 4,902,725.625 standard ounces of gold coin, valued at \$91,213,500, and 11,576,960.96 standard ounces of silver coin, valued at \$13,471,372.75 in standard dollars, or \$14,403,683.93 in subsidiary silver coin; aggregating 22,476,055 pieces. Of this amount there was delivered for the government of the Philippine Islands under the act of March 2, 1903, 9,939,016 pesos, weighing 8,613,482.60 standard ounces, valued at \$10,022,961.57 in standard dollars, or \$10,716,619.10 in subsidiary silver coin.

Foreign gold coin containing 983.159 standard ounces of the coining value of \$18,291.33, and foreign silver coins containing 786.69 standard ounces of the coining value in standard dollars of \$915.42, were deposited.

Gold bullion to the amount of 2,165.667 standard ounces of the coining value of \$40,291.48 and 2,562.98 standard ounces of silver bullion of the coining value of \$2,982.38 in standard dollars or \$3,188.77 in subsidiary silver coin, was obtained from jeweler's bars, old plate, etc.

The total number of employees in the mint at the close of the fiscal year was 97, distributed as follows:

General department Melter and refiner's department Coiner's department Assayer's department	11 40
Total	97

The settlement of the accounts of the officials of the mint was, by reason of the fact that the superintendent was required to give a new bond, made May 18, 1904, by Mr. F. W. Braddock, of the Bureau of the mint, who reports as follows:

MELTER AND REFINER'S GOLD ACCOUNT.

The melter and refiner received from the superintendent during the period from July 1, 1903, to May 18, 1904, gold bullion aggregating 50,046.169 standard ounces. He operated upon 27,660.998 standard ounces, and returned prior to settlement, in fine gold bars and gold contained in sweeps, 629.490 standard ounces, leaving a balance charged against him of 49,416.679 standard ounces. He delivered in settlement 49,453.519 standard ounces, showing a surplus of 36.840 standard ounces:

Legal allowance for wastage 27.660 standard ounces.

MELTER AND REFINER'S SILVER.

The melter and refiner received during the same period silver bullion amounting to 10,643,737.96 standard ounces. He operated upon 10,637,533.76 standard ounces, and redelivered during the same period and prior to settlement 10,048,360.87 standard ounces, leaving a balance of 595,377.09 standard ounces. He delivered in settlement 595,227.58 standard ounces, showing a wastage of 149.51 standard ounces or 0.0093 per cent of his legal allowance of 15,956.30 standard ounces.

COINER'S SILVER ACCOUNT.

The coiner received during the period from July 1, 1903, to May 18, 1904, silver bullion amounting to 10,094,612.50 standard ounces. He operated upon the entire amount and redelivered during the same period, prior to settlement, in coin, clippings, and filing bars 9,947,045.45 standard ounces, leaving him charged with a balance of 147,567.05 standard ounces. He delivered in settlement 144,606.65 standard ounces, showing a loss of 2,960.40 standard ounces or 29.32 per cent of the legal allowance of 10,094.61 standard ounces. He returned in good coin during the above period 5,448,357.50 standard ounces.

Percentage of production 53.97. The coiner operated on no gold during the period stated.

MELTER AND REFINER'S DEPARTMENT.

H. DUDLEY COLEMAN, Melter and Refiner.

The amount of gold and silver delivered by the superintendent to the melter and refiner during the fiscal year ended June 30, 1904, was as follows:

	Metal.	Standard ounces	Coining value.
			\$1,051,530.87 12,892,009.87
Total	······································		13, 943, 540. 74

There were made 1,369 melts for silver ingots, 4 of which were condemned by the assayer. There were no melts for gold ingots made.

REFINING OPERATIONS.

The weight and value of gold and silver operated upon in the refinery was as follows:

Bullion.	Standard ounces.	Coining value.
Gold Silver	39, 614, 017 96, 362, 72	\$737, 004. 96 112, 1 31. 1 6
Total		849, 136. 12

AMOUNT OF GOLD AND SILVER RECEIVED FROM THE REFINERY.

Metal.	Standard ounces.	Coining value.
Gold Silver	39, 616. 338 96, 493. 97	\$737, 048. 15 112, 283. 89
Total		849, 332. 04

Standard ounces.

There were made 60 bars of fine gold and 39 bars of fine silver, all meeting with the approval of the assayer.

MELTS MADE.

Fine gold	6
ine silver	
Consolidation. 5	2
Fold deposits	0.
silver deposits	6
Silver grain bars	
Copper 5	0

From 104 barrels of sweeps 25.835 ounces of standard gold and 10,175.42 ounces of standard silver were obtained.

Coiner's Department.

W. J. BROPHY, Coiner.

During the fiscal year ended June 30, 1904, the coiner received and

operated on 10,658,148.40 standard ounces of silver.

He manufactured during the same period 5,802,007.50 standard ounces of silver coins, valued at \$6,937,000, aggregating 18,230,000 pieces, as shown by the following table:

	Denomination.	Pieces.	Value.
Half dollars		 4, 070, 000 2, 120, 000 4, 020, 000 8, 020, 000	\$4,070,000 1,060,000 1,005,000 802,000
Total		 18, 230, 000	6, 937, 000

The percentage of coin produced from the amount operated on was silver 0.54437. At the annual settlement of his accounts, May 18, 1904, it was found there had been a wastage during this period of 2,960.40 standard ounces of silver, same being 0.2777 per cent of the legal allowance.

Assayer's Department.

W. N. LYNCH, M. D., Assayer.

The number of assays made in this department during the fiscal year ending June 30, 1904, were as follows:

Items.	Gold.	Silver.
Deposits. Mint fine bars. Ingot melts Consolidated melts Superintendent's bars Melter's and refiner's fine bars Melter's and refiner's grain bars and recovered grains Sweeps. Transfer orders Special purchase. Coiner's grain bars Coiner's fling bars. Coiner's sweep bars.	15 4 25 3 8	11 37 5 30 16
Miscellaneous		1,752

Following is a detailed statement of assays of silver ingot melts made in this department during the fiscal year ending June 30, 1904:

Month.	898	.8982	.8983	.8984	.8986	.8987	.8988	.8989	.8991	.8993

UNITED STATES ASSAY OFFICE AT NEW YORK, N. Y.

Andrew Mason, Superintendent.

The following report on the business of this office for the year ended June 30, 1904, is as follows:

Metal.	Deposits.	Redeposits.	Standard ounces.	Value.
Gold	10,046 2,763		3, 593, 136. 682 3, 032, 988. 75	\$66, 849, 054. 51 3, 529, 296. 00
Total	12,809			70, 378, 350. 51

The gross weight of deposits as above, 6,292,619.26 ounces, shows an increase over that of last year, 6,254,191.82 ounces, of 38,427.44 ounces.

The value of foreign gold bullion and coin was \$27,286,513.89, an \circ increase over that of last year of \$17,795,575.47.

The value of domestic gold in above total was \$39,562,540.62, a decrease from that of last year of \$3,520,398.39.

The value of the domestic bullion (gold) was:

From new production in the States and Territories	\$6,017,328.57
From private refineries	29, 561, 819, 07
From jewelers' bars, jewelry, plate, etc	3, 305, 421, 84
From redeposited bullion	93, 450. 18
From unparted bullion, returned to depositor?	11, 959, 77
From United States gold coin of light weight	572,561.19

The only material changes were a decrease in gold of new production of \$732,784.14, and in that from private refineries of \$2,950,677.89.

Of the silver deposits, the fine silver (825,169.73 ounces) from private refineries shows a decrease from last year of 670,000 ounces.

Of the total amount of deposits, 801,000 ounces gold deposits and 2,015,000 ounces silver deposits (approximately) required treatment by acid.

There were received over the counter mutilated and abraded domestic gold coins of the face value of \$577,883.50, containing 30,775.165 standard ounces, of the value, in new coins, of \$572,561.19, on which there was a loss by recoinage of \$5,322.31.

Denomination.	Face value.
Double eagles Eagles Half eagles -Gollar pieces Quarter eagles.	\$150, 760. 0 320, 870. 0 95, 090. 0 48. 0
Total	

Unrefined foreign gold bullion containing 277,006.650 standard ounces and foreign refined gold bullion containing 958,862.883 standard ounces, of the value of \$22,992,921.54, were received as follows:

	Refined g	old bullion.	Unrefined gold bullion.		
Country of production.	Standard ounces.	Value.	Standard ounces.	Coining value.	
British Columbia Manitoba Northwest Territory Ontario and Quebec Nova Scotia. Mexico. West Indies. Central America South America. Total	958, 862, 883	17, 339, 309. 45	277, 006. 650	5, 153, 612. 09	

Foreign gold coin deposited, containing 230,780.589 standard ounces, of the value of \$4,293,592.35, was from the following countries:

Country of coinage.	Standard ounces.	Value.
Great Britain France Germany Russia Spain Mexico South America Central America West Indies Mixed coins	138, 343, 309 6, 206, 024 865, 164 450, 770 20, 529, 440 35, 216, 078 107, 677 2, 452, 936 1, 2, 628 26, 596, 563	\$2,573,829.00 115,460.91 16,096.08 8,386.42 381,943.07 655,182.85 2,003.29 45,636.02 234.94 494,819.78
Total	230, 780. 589	4, 293, 592. 36

Jewelers' bars, old plate, etc., containing 177,666.424 standard ounces of gold, of the value of \$3,305,421.84, were deposited.

The redeposits of gold consisted of 5,022.947 standard ounces of fine gold bars made at this office, and 642,838 standard ounces of unparted bars made at the mint at Denver and the assay office at Deadwood.

There were no deposits of domestic light-weight silver coin during

the fiscal year at this office.

Unrefined foreign silver bullion containing 1,196,422.75 standard ounces and foreign refined silver bullion containing 769.13 standard ounces, of the value of \$1,393,096.01, were received as follows:

	Refi	ned.	Unrefined.

was 223 397 ounces fine gold and 4 527 85 ounces fine silver. This		
	was 993 397 ounces fine gold and 4 597 85 ounces fine silver. Th	is is

The surplus recovered by the melter and refiner during the period was 223.397 ounces fine gold and 4,527.85 ounces fine silver. This came from the bullion received during that part of the year ended March 13, 1904, there having been a settlement of the refinery account at that time, owing to the death of Mr. Martin (he had rendered faithful service as melter and refiner for nearly twenty-one years). The

usual annual settlement of that account at the close of the fiscal year was omitted.

The amount of bullion delivered to the melter and refiner during the fiscal year 1903-4 was—

								Stanua	u ou	nices.
0	old							4,0	10, 17	71.729

Silver	
which embraces the entire an	nount of the denosit bullion received and

which embraces the entire amount of the deposit bullion received and delivered to him during the fiscal year; also that of June, 1903, delivered to him in July.

There were stamped during the year 47,964 gold bars and 20,708 silver bars.

During last year there were stamped 42,981 gold bars and 20,027 silver bars.

Less redeposits and unparted bars.	
Gold bars exchanged for gold coin for domestic use	3, 993, 507. 08 13, 144, 810, 77

| 13,144,810.7 | Total gold bars issued for use in the arts, etc. | 17,138,317.8 |

Showing a decrease of \$1,866,411.15, compared with last year.

The value of gold bars exchanged for coin for export was \$62,101,585.02, being an increase over that of last year of \$38,211,209.62. The income from this source alone was \$31,254.37.

The total number of employees in the assay office at the close of the fiscal year was 67, distributed as follows:

General department Melter and refiner's department Assay department	34

Messrs. B. F. Butler and A. A. Hassan, of the Bureau of the Mint, supervised the settlement of the melter and refiner's account to March 13, 1904, already referred to, and examined the superintendent's account to April 30, 1904. They reported that the coin and bullion on hand agreed with the amount charged.

MELTER AND REFINER'S DEPARTMENT.

H B. KELSEY, Meler and Refiner.

The following statement of the business of this department during the fiscal year ending June 30, 1904, is respectfully submitted:

The amount of bullion debited to this department was—

Items.	Ounces, gross.	Gold, stand- ard ounces.	Silver, stand- ard ounces.
Settlement metal, June, 1903. Gold deposits. Silver deposits. Settlement metal, April, 1904.	3, 603, 994, 24 3, 193, 572, 13	189, 728. 477 3, 611, 320. 888 209, 122. 365 187, 043.393	393, 760. 74 187, 715. 87 3, 016, 974. 58 334, 922. 75
Total	8, 103, 775. 46	4, 197, 215. 123	3, 933, 373. 94

The number of gold deposits melted was 10,046, and of silver

deposits 2,763; total, 12,809.

The number of fine, mint, standard, and unparted bars made and delivered to the superintendent was, of gold, 47,964; of silver, 20,708; total, 68,672, containing 3,672,258.549 ounces of standard gold, and 2,988,397.70 ounces of standard silver.

Deductions on base silver bullion, 3,198.65 ounces gross, estimated

to contain 2,500 ounces standard silver.

The amount of metal refined by acid during the year was 3,749,431.84 ounces gross, containing 855,522.760 ounces of standard gold, and

2,892,202.89 ounces of standard silver.

The amount of cake fine silver re-refined in the parting of base gold and silver bullion (and included in above statement) was 705,934.95 ounces gross, containing 777,108.11 ounces of standard silver. Silver bullion refined, on which charges were collected, amounted to 2,803,326.33 standard ounces; silver bullion returned by refinery for parting purposes, on which no charges were collected, amounted to 777,108.11 standard ounces.

There was used in the refinery 1,631,500 pounds of sulphuric acid and 60,125 pounds of reduction copper, the amount stated in each case being the quantity purchased and received during the fiscal year end-

ing June 30, 1904.

There were sold 2,341,280 pounds of waste acid, and 175,918 pounds of blue vitriol, and there was delivered to the superintendent 460

barrels of sweeps.

There were returned in settlement in April, in excess of the amount debited to the melter and refiner, 248.219 ounces of standard gold (value \$4,618.03), and 5.030.94 ounces of standard silver (value \$2,515.47).

The following shows the relation between the expenses of parting and refining and the charges collected therefor:

Charges collected Labor, per pay roll Sulphuric acid Reduction copper Fuel and steam Fluxes Miscellaneous.		\$46, 310. 95 17, 130. 78 8, 793. 28 14, 941. 95 1, 668. 99	\$110, 171. 95

Assayer's Department.

H. G. TORREY, Assayer.

During the fiscal year ending June 30, 1904, there were assayed by this department 10,046 melts of gold deposits and 2,763 melts of silver deposits, a total of 12,809 melts.

Fine gold and fine silver assayed amounted to about 1,000 melts, and the fineness was stamped upon 47,964 gold bars and 20,708 silver

bars from these melts.

There were received and assayed 662 "specials," mostly gold jewelry and watch cases, for which a charge of \$2 each is made. Five hundred barrels of sweeps were also assayed and reported, and the usual assays for the melter and refiner's department and for the settlement.

The cupels required and the proof gold and silver used in assaying were made in the usual amounts, the work as a whole being about the same as that of the previous fiscal year.

MINT OF THE UNITED STATES, CARSON, NEV.

R. K. Colcord, Assayer in Charge.

During the fiscal year ended June 30, 1904, there were received at the United States mint at Carson City 224 gold deposits of an aggregate value of \$181,182.08, a decrease of \$101,293.17 as compared with the figures of the year previous.

The operations of the assay office required 1,447 assays. These

figures include melts, consolidations, bullion, and ore assays.

The following table shows the amount of deposits, earnings, and expenditures, together with the percentage of net expenses to deposits for the fiscal year:

The sailer	
Deposits:	L, 182. 08
Earnings	\$181, 182. 08 1, 027. 67 12, 362. 40

The total number of employees in the mint at the close of the fiscal year was 8, all in the general office.

MINT OF THE UNITED STATES, DENVER, COLO.

FRANK M. DOWNER, Assayer in Charge.

During the fiscal year 1904 the number of deposits treated was 3,853 as against 4,092 for the year previous. The decline of 237 in number and \$2,281,345.20 in value of deposits was due to the material stoppage of mining operations in the principal camps of Colorado for over half of the year.

Chlorination was the dominant factor in the product of chemical plants, although the cyanide and bromide extractions still obtain to a

degree.

The bullion treated was from 300 to 999½ gold fineness, the latter representing shipments from Cripple Creek assay firms.

The year's deposits aggregated in value as follows:

Gold	\$13, 174, 592. 36 46, 029. 07
Total	13, 220, 621. 43

There was received from Mexico unrefined bullion containing 141.217 standard ounces of gold and 1.86 standard ounces of silver.

Deposits of unparted bars of former manufacture at this institution contained 147.519 standard ounces of gold and 69.78 standard ounces of silver.

United States mutilated gold coins of the nominal value of \$350, containing 18.120 standard ounces of the coining value of \$337.20, were received during the year.

The following table shows the value of deposits, amount of earnings, and expenditures, with the percentage of net expenses to deposits for the fiscal year 1904:

Items.	Amount.
Deposits: Gold	\$10 000 TC2 TE
Earnings Expenditures Percentage of net expenses to deposits. 0.14324	\$13, 283, 763, 75 22, 189, 34 41, 218, 12

The total number of employees in the mint at the close of the fiscal year was 25, all in the general office.

Assay Office of the United States, Boise, Idaho.

H. Smith Woolley, Assayer in Charge.

There were no changes in the character of the operations at the United States assay office at Boise, Idaho, during the fiscal year ended June 30, 1904. The work consists in melting and assaying gold bullion and paying the depositor the value thereof. The bars manufactured at this office were all shipped to the mint at Philadelphia for coinage.

The business of the office is derived from the States of Idaho, Montana, Nevada, Oregon, and Washington, miners in these States finding

the location of this office a convenience and saving in time in getting returns for their bullion.

There were received during the year 1,972 deposits of gold bullion,

all of domestic production.

The following statement gives the value of the bullion received, also the earnings and expenditures and the percentage of net expense to deposits for the year:

Item.	Amount.
Deposits:	51.113.097.03
Earnings Expenditures Percentage of net expense to deposits 0.86269	\$1, 113, 597. 03 3, 745. 12 13, 352. 02

The total number of employees in the assay office at the close of the fiscal year was 9, all in the general office.

ASSAY OFFICE OF THE UNITED STATES, HELENA, MONT.

B. H. Tatem, Assayer in Charge.

There were 1,355 deposits of gold bullion unrefined received at the United States assay office, Helena, Mont., during the fiscal year ended June 30, 1904. Of these 1,294 were regular deposits and 61 were small deposits of less than \$50 value in gold or of a fineness of less than 0.500 in gold. The weight of the 1,294 regular deposits as received from depositors was 160,403.79 ounces; after melting, 158,754.39 ounces, a loss equivalent to 1.03 per cent. The average fineness of the resulting bullion was 0.786 gold, 0.146 silver. The deposits of low-grade bullion were numerous, while the product of the cyanide plants was

largely increased.

The coining value of the gold and silver contained in the 1,294 regular deposits made at this office during the fiscal year was \$2,617,217.03, an average of \$2,022.57 for each deposit. The greater portion of the bullion handled was of domestic production from the States of Montana, Idaho, Washington, Nevada, and Oregon. Foreign bullion unrefined was received from the Northwest Territory (Klondike) containing 134.116 standard ounces of gold and 51.60 standard ounces of silver; British Columbia, 10,783.212 standard ounces of gold and 6,238.11 standard ounces of silver. Jewelry, 145.497 standard ounces of gold and 36.53 standard ounces of silver. Redeposits, 280.451 standard ounces of gold and 145.73 standard ounces of silver in base bars originally made at this office. There were no deposits of mutilated or uncurrent coins of the United States during the year.

Item.	Amount.
Deposits: Gold	\$2,617,217.03 4,504.28 21,923.07

The total number of employees in the assay office at the close of the fiscal year was 13, all in the general office.

ASSAY OFFICE OF THE UNITED STATES, CHARLOTTE, N. C.

D. K. Pope, Assayer in Charge.

There was no material change in the work of this office during the fiscal year 1904. The deposits of bullion, 330 in number, fell off \$7,131.22.

The clientage of the office represents twenty-nine different States, Territories, and foreign countries, and the tributary territory widens

each year.

The earnings of the office were \$101.28 less than in the preceding year. The following table shows the value of deposits, amount of earnings and expenditures, with the percentage of net expenses to deposits for the fiscal year 1904:

Item.	Amount.
Deposits:	\$240,660.09
Earnings Expenditures Percentage of net expenses to deposits. 1. 26376	1,703.76 4,745.22

The total number of employees in the assay office at the close of the fiscal year was 5, all in the general office.

ASSAY OFFICE OF THE UNITED STATES, ST. LOUIS, MO.

George W. Mark, Assayer in Charge.

The value of deposits of bullion for the fiscal year ended June 30, 1904, at the United States assay office at St. Louis aggregated \$326,828.77 against \$121,467.03 for the previous year, a gain of \$205,361.74, or over 168 per cent.

The receipts of domestic gold bullion amounted to 1,627.472 standard ounces of gold and 317.49 standard ounces of silver against 2,702.412 standard ounces of gold and 936.16 standard ounces of silver for the

previous year.

There was also deposited jewelers' bars and uncurrent domestic gold coin containing 1,464.911 standard ounces of gold and 287.54 standard ounces of silver, the number of deposits for the fiscal year being 118.

The following statement shows the amount of deposits, earnings, and expenditures, also percentage of net expenses to deposits during the fiscal year 1904:

Item.	Amount.
Deposits:	
Earnings Expenditures Percentage of net expenses to deposits. 1.09966	4, 338. 19

The total number of employees in the assay office at the close of the fiscal year was 3, all in the general office.

ASSAY OFFICE OF THE UNITED STATES, DEADWOOD, S. DAK.

L. P. Jenkins, Assayer in Charge.

There were received at this office during the fiscal year ended June 30, 1904, 171 deposits of bullion, valued at \$980,807.92 (all from the Black Hills, South Dakota), against 220 deposits, valued at \$988,736.57, received during the fiscal year ended June 30, 1903, showing a decrease of 49 deposits, but a decrease in value of only \$7.928.65.

The falling off in deposits was due largely to the excess of silver in the bullion offered and a severe storm, washing out railroad and wagon bridges, causing a number of the mills to close down during part of

the month of June.

There were 21 button and 26 ore assays and 20 assays on mass melts in addition to 171 assays on bullion deposited.

No mutilated or uncurrent gold and silver coins were received during

the year.

The following statement shows the amount of deposits, earnings, and expenditures, also percentage of net expenses to deposits during the fiscal year 1904:

Item.		Amount.
Deposits: Gold Silver (coining value)	\$953, 663. 65 27, 144. 27	
Earnings Expenditures. Percentage of net expenditures to deposits	0.60729	\$980, 807. 92 1, 932. 63 8, 772. 05

The total number of employees in the assay office at the close of the fiscal year was 6, all in the general office.

ASSAY OFFICE OF THE UNITED STATES, SEATTLE, WASH.

Frederick A. Wing, Assayer in Charge.

The operations of this office for the fiscal year ended June 30, 1904, were as follows:

·	
Regular deposits received	4 000
regular deposits received	4,023
Special bullion deposits	120
ppecial bullion deposite	100
Total number of melts necessary	4 201
Total number of mens necessary	· · · ·
Total number of assays required	9 643

These operations necessitated the manufacture of 20 ounces of proof gold, 400 ounces of quartation silver, and 15,000 cupels.

	Proy ounces.
Weight of the bullion before melting	1,024,976.67
Weight of the bullion after melting	1, 016, 502, 35

Loss in melting, 0.8267 per cent.

The coining value of the bullion treated was \$17,449,989.89, being over six millions of dollars (\$6,148,240.51) in excess of the preceding year. The greater portion of this vast amount of bullion was the product of the mines of the Yukon territory and Alaska. It includes, however, 2,974.836 standard ounces of gold bullion refined abroad, of a coining value of \$55,345.79 received from smelters.

The redeposits were unparted bars originally manufactured at this

office.

The origin of the bullion was as follows:

	G	old.	Sil			
Source.	Standard ounces.	Value.	Standard ounces.	Coining value.	Total value.	
Alaska California Colorado Georgia Idaho Montana Oregon Washington British Columbia Yukon territory Ontario Australia Foreign gold coin Mutilated domestic gold coin Jewelry	5, 321 3, 945, 284 4, 548, 945 318, 190 1, 276, 577 55, 436, 261 620, 386, 808 1, 164, 451 11, 443 33, 098 6, 810	\$4, 435, 799, 20 201, 04 242, 75 99, 00 73, 400, 63 84, 631, 53 5, 919, 81 23, 750, 27 1, 031, 372, 30 11, 542, 078, 29 21, 664, 20 212, 89 615, 78 126, 69 7, 408, 80	26, 529, 64 1, 14 1, 90 .37 1, 319, 83 109, 32 51, 96 349, 81 10, 657, 59 145, 946, 88 158, 96 1, 38 .22	12, 401, 56 169, 829, 10 184, 97 1, 60 , 26

α From July 1, 1903, to May 18, 1904.

QUANTITY OF METAL OPERATED UPON, WASTAGE, AND LOSS, FISCAL YEAR 1904.

The quantity of precious metals operated upon in the different departments of the mints and assay office at New York during the fis-

b From July 1, 1903, to Mar. 14, 1904.

cal year ended June 30, 1904, exceeded 1,979 tons of gold and 3,797 tons of silver.

The value of the precious metals wasted in the metallurgical and mechanical departments was \$101,107.08. A loss of \$15,179.52 occurred from the difference between the assay value of the bullion contained in sweeps sold and the amount received for the same.

The wastages and losses aggregated \$116,424.78, including \$138.18 loss on bullion shipped by the mints for coinage. Against these losses there were gains arising from the operations in bullion as

follows:

Character of gains.	Fiscal year 1903.	Fiscal year 1904.	
Surplus bullion returned by operative officers. Precious metals received in grains and sweeps Gain on bullion shipped from the minor assay offices to the mints for coinage.	\$53, 234. 96 12, 790. 45 9, 541. 68	\$45, 015. 93 14, 153. 49 8, 534. 77	
Total gain	75, 567. 09	67, 704. 19	

Deducting the incidental gains on bullion from the value of the total operative wastage and loss on sale of sweeps there was a net loss in the operations of the mints during the fiscal year of \$48,720.59.

SUMMARY OF THE WORK OF THE MINOR ASSAY OFFICES.

The institutions of the mint service consist of the coinage mints at Philadelphia, San Francisco, and New Orleans; the mints at Carson and Denver, which at present are conducted as assay offices; the assay office at New York, which, like each of the coinage mints, operates a refinery; and the minor assay offices at Boise, Helena, Charlotte, St. Louis, Deadwood, and Seattle. Bullion is received at the assay offices on the same terms as at the mints, except that an additional charge of one-eighth of 1 per cent is made at the former. Bullion purchased at the assay offices becomes the property of the Government, and is shipped to the mints at the expense of the Government.

The express charges upon bullion shipped from the minor offices to the mints, and upon coin from the mints to the assay offices during the year, amounted to \$70,379.88, and on shipment of silver bullion from the assay office at New York to the mint at Philadelphia to \$60. The cost of maintaining these minor offices and a statement of their

deposits and earnings are given below:

Deposits, Earnings, and Expenditures, with Percentage of Net Expenses to Deposits.

MONETARY LEGISLATION.

[Public—No. 111.]

CHAP. 1253, 1904.—An Act To authorize the Government of the United States to participate in celebrating the one hundredth anniversary of the exploration of the Oregon country by Captains Meriwether Lewis and William Clark in the years eighteen hundred and four, eighteen hundred and five, and eighteen hundred and six, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Sec. 6. That upon the approval of this Act the Secretary of the Treasury shall, upon the request of the Lewis and Clark Centennial and American Pacific Exposition and Oriental Fair Company, cause to be coined at the mints of Memorial gold dol- the United States not to exceed two hundred and fifty thousand gold dollars, of legal weight and fineness, to be known as the Lewis and Clark Exposition gold dollar, struck in commemoration of said exposition. The words, devices, and designs upon said gold dollars shall be determined and prescribed by the Secretary Limit. Designs, etc. of the Treasury, and all provisions of law relative to the coinage and legal-tender quality of all other gold coin shall be applicable to the coin issued under and in accordance with the provisions of this Act. That the said coins shall be disposed of by the Secretary of the Treasury to the said Lewis and Clark Centennial and American Pacific Exposition and Oriental Fair Company at par, under rules and regulations and in amounts to be prescribed by him. That medals with appropriate devices, emblems, and inscriptions

commemorative of said Lewis and Clark Centennial Exposition and of the awards to

be made to the exhibitors thereat shall be prepared by the Secretary of the Treasury at some mint of the United States for the board of directors of said exposition company, subject to the provisions of the fifty-second section of the coinage Act of eighteen hundred and ninety-three, and upon the payment of a sum not less than the cost thereof; and all provisions, whether penal or otherwise, of said coinage Act against the counterfeiting or imitating of coins of the United States shall apply to the medals issued under this Act.

Approved, April 13, 1904.

[Public—No. 194.]

Chap. 1762, 1904.—An Act Making appropriations for sundry civil expenses of the Government for the fiscal year ending June thirtieth, nineteen hundred and five, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums be, and the same are hereby, appropriated, for the objects hereinafter expressed, for the fiscal year ending June thirtieth, nineteen hundred and five, namely:

Sec. 5. That the Secretary of the Treasury be, and he is hereby, directed to prepare Louisiana Purchase or have prepared suitable dies with appropriate devices, emblems, and inscriptions commemorative of the Louisiana Purchase Expo-Exposition. sition celebrating the one hundredth anniversary of the purchase of the Louisiana Territory; from which dies, under the supervision of the said Secretary of the Treasury, there shall be coined, at some mint Medals for, to be of the United States, medals to be awarded by the said Louisiana Purchase Exposition Company to exhibitors in accordance with the provisions of the Act of Congress entitled "An Act to provide for celebrating the one hundredth anniversary of the purchase of the Louisiana Territory by the United States," and so forth, approved March third, nineteen hundred and one; that the devices, emblems, and inscriptions for said Vol. 31, p. 1440. dies and medals shall be furnished by the Louisiana Purchase Exposition Company, and said medals shall be made and coined from such material as the said exposition company may, at its own expense, furnish; and authority may be granted by the Secretary of the Treasury to the holder of any medal properly awarded to any exhibitor to have duplicates thereof made, at any Duplicates to time, at any of the mints of the United States, from gold, silver, or bronze, at the expense of the person desiring the same; said medals shall be coined and the dies therefor prepared subject to the provisions of the fifty-second section of the coinage Act of eighteen hundred and ninety-three, and all the provisions, whether penal or otherwise, of said coinage Act against counterfeiting or imitating of coins of the United States shall apply to the medals struck and used under the provisions of this Act.

Approved, April 28, 1904.

PRINCIPAL CHANGES IN FOREIGN MONETARY SYSTEMS.

Colombia.—By a law passed October 25, 1903, Colombia adopted the gold standard and prescribed as the monetary unit a gold dollar weighing 1.672 grams, 0.900 fine. Its value, therefore, coincides with that of the United States gold dollar. The law prohibits any increase in the issue of paper money. No actual change in the currency of the country has as yet taken place. The premium on gold over the paper money fluctuated last year between 8,000 and 25,000 per cent. The new law permits private contracts to stipulate the standard of payments, but provides that when a contract stipulates for payment in gold the contract shall be satisfied by the payment of an equivalent sum in paper money at the rate of exchange ruling on the day of payment.

German East Africa.—An imperial decree of February 28, 1904, prescribes a new monetary system for the protectorate, to become effective on proclamation of the governor. It establishes, as the unit of value, the silver rupee of 100 hellers. The silver coins to be struck are the two, one, one-half, and one-quarter rupee, worth in United States money (dollar coining value) \$0.888, \$0.444, \$0.222, and \$0.111. The bronze coins are to be one, and one-half heller pieces, worth,

respectively, \$0.004, and \$0.002.

Panama.—By decree dated June 28, 1904, Panama adopted the gold standard, prescribing as the unit of value a gold coin of exactly the same weight and fineness of the United States gold dollar, and to be called a balboa. The gold coins to be issued are 1, $2\frac{1}{2}$, 5, 10, and 20 balboa pieces, and the silver peso or half-balboa piece, containing 347.22 fine grains, and worth fifty cents in United States money. The United States gold dollar and its multiples are made legal tender at par with the balboa and its multiples. The coinage is to be executed at the mints of the United States.

Paraguay.—A law was promulgated in October, 1903, fixing the value of gold, silver, and paper currency in Paraguay and making the gold and silver money of the Argentine Republic legal tender in Paraguay. By this law the United States \$20 gold pieces and English pounds are made equivalent to \$20.40 and \$5, respectively, in Paraguayan gold. The silver piece of 25 grams, 0.900 fine, is made equiv-

alent to 94 cents Paraguayan gold.

Pending changes.—Italy is about ready formally to resume gold payments and place her currency upon a convertible basis. paper currency has been practically at par for some time.

The Argentine Republic has been accumulating gold for resumption purposes for several years, and the recent message of President Roca to Congress reports the amount in the conversion fund at \$44,000,000. The outstanding Government notes are less by \$2,000,000 than in 1898.

Interrogated as to the date on which Chili would resume gold payments, the Minister of Finance on June 12 stated that the date had

been postponed to January 1, 1907.

On November 27, 1902, the Siamese mint was closed to the free coinage of silver and the Government began a policy which looks to the establishment of a fixed relation between the "tical" and the

pound sterling. The reform is not yet fully consummated.

Straits Settlements.—The British Currency Committee which made an investigation into the monetary situation in the Straits Settlements reported in favor of adopting the gold standard with a special silver coinage of dollars to be issued on government account and maintained as a token coin at a fixed relation to gold. The British and Mexican

dollars heretofore in circulation have been demonetized.

At this writing the Government of Mexico is understood to be about to take the final step for placing its monetary system on a gold basis. It will follow the same general plan pursued successfully by India, and more recently by the respective governments of the Philippine Islands, the Straits Settlements, and Siam. The essential feature of this plan is that while the currency of these countries continues to be silver, its coinage is upon government account only, and the amount of the issues is carefully regulated. The effect is that the commercial value of the coin parts company from its bullion value and is held to a fixed relation with gold by governmental action. As of interest in this connec-

tion the Bureau of the Mint has compiled from official sources the figures showing this separation of monetary value from metallic value, as shown in the experience of India. They are shown in the Appendix.

MONETARY STATISTICS OF FOREIGN COUNTRIES,

The statistics of the production and coinage of the precious metals, imports and exports of gold and silver, amount of bank and government notes, both covered and uncovered, of the different foreign countries, published annually in the reports of this Bureau, are obtained directly from the governments of such countries by the representatives of the United States accredited to them.

A copy of the interrogatories covering the points on which information is sought from the governments of foreign countries is sent yearly to the United States ambassadors and ministers through the Department of State, and the replies in the form of reports are forwarded directly to the Bureau of the Mint. The interrogatories sent are as. follows:

1. What was the amount of gold coined during the calendar year 1903 by denominations and values? What amount of this was recoinage? Domestic and foreign coins melted given separately.

2. What was the amount of silver coined during the calendar year 1903 by denominations and values? What amount of this was recoinage? Domestic and foreign coins melted given separately. If any of this was executed at foreign mints, please give separate statement.

3. Was any coinage executed for other governments during the year 1903? If so, state character and amount of same.

4. What was the weight of fine gold used in the industrial arts during the calendar

year 1903? 5. What amount of this was new gold, what amount old gold, and what amount

6. What was the weight of fine silver used in the industrial arts during the calendar year 1903? 7. What amount of this was new silver, what amount old silver, and what amount

8. What was the import and export of gold during the calendar year 1903? (Coin, bullion, and ore, as well as their weight and value, should be given separately if

possible.) If practicable, give imports and exports by countries. 9. Same question as to silver.

10. What was the total import of United States gold coin during the year 1903?

11. What was the total import of gold from the United States, direct, in 1903? 12. What was the amount of United States gold coin deposited at the mints and melted?

13. What was the weight expressed in kilograms, fine, and the value of the gold produced from the mines of the country during the calendar year 1903?

14. Same question as to the gold product of the colonies of the country, naming

them separately.

15. What was the weight expressed in kilograms, fine, and the value of the silver produced from the mines of the country during the calendar year 1903? (In answering this interrogatory, state whether the value given is commercial or coining value.)

16. Same question as to the silver product of the colonies of the country. (State whether the value given is commercial or coining value.)

17. What was the weight and what the value of the output of gold from the refineries of the country during the year? Give the sources of this output if practicable.

Same question as to silver.

19. What, approximately, was the stock of gold coin and bullion in the country at the close of the calendar year 1903? Give stock in public treasuries, banks, and in circulation separately.

20. Same question as to silver.

21. What was the amount of government notes outstanding at the end of the year 1903?

22. What was the amount of bank notes outstanding at the end of the year 1903?
23. What was the amount of government notes outstanding not covered by legal-

tender gold and silver coin or bullion at the end of the year 1903?

24. What was the amount of bank notes outstanding not covered by legal-tender

gold and silver coin or bullion at the end of the year 1903?

25. What was the actual currency of the country—gold, silver, or inconvertible

paper?

26. Is gold at a premium as compared with the actual currency of the country;

the bighest lowest and average premium during the year and if it is, what was the highest, lowest, and average premium during the year 1903?

27. What was the highest, lowest, and average rate of exchange on London during

the year 1903? Give this by months if practicable.

28. Were any laws passed during the year 1903 affecting the coinage, issue, or legal-tender character of the metallic or paper currency? If so, please forward copies of the same.

29. Is there a report published on the operations of the mint? If so, please for-

ward a copy of the same; also a report of the department of mines for 1903.

The replies to interrogatories, which are given in full in the appendix to this report, are indicated by the numbers of the questions.

In the list of questions propounded to foreign governments for the calendar year 1903 were the following:

What was the total import of United States gold coin during the year? What was the total import of gold from the United States direct in 1903?

What was the amount of United States gold coin deposited at the mints and melted?

The following table shows the countries from which answers to these three interrogatories were received, the amount of United States gold coin imported by them, and the value of the United States gold coin melted at their mints:

Country.	Import of United States gold coin.	Total import of gold from United States.	United States gold coin melted.
Austria-Hungary Germany	\$547	\$547	\$117,317 8,769,960
Great Britain India Japan	2,047	145, 528 2, 047 2, 151, 839	55, 421
Costa Rica San Salvador	149,475	8,600	
Nicaragua		2,308,561	8,942,698

ACKNOWLEDGMENTS.

The acknowledgments of the Director are due to the clerical staff of the Bureau, and to the officers and clerks of the various mints and assay offices, for the zeal and fidelity they have shown in the performance of the duties required of them.

Respectfully,

GEO. E. ROBERTS, Director of the Mint.

Hon. Leslie M. Shaw. Secretary of the Treasury.

No. 38.—MONETARY STATISTICS OF FOREIGN COUNTRIES.

PANAMA.

LAW NO. 84, OF JUNE 28, 1904-CURRENCY.

The National Convention of Panama decrees:

ARTICLE 1. The monetary unit of the Republic shall be the balboa—that is, a gold coin of one gram six hundred and seventy-two milligrams (1.672) in weight, and of nine hundred thousandths (.900) fine, divisible into one hundred hundredths $(\frac{100}{100})$.

PARAGRAPH.—The present gold dollar of the United States of America and its multiples shall be legal tender in the Republic at their nominal value equivalent to a

ART. 2. When the executive power provides for the coinage of national coins of gold, this coinage may be made in pieces of one, of two and one-half, of five, of ten, or of twenty balboas, choosing the one or more of greatest circulation in trade.

ART. 3. Silver coins shall have an alloy of nine hundred thousandths of pure silver

and one hundred thousandth of copper.

ART. 4. The denomination, weight, diameter, and equivalent value of the silver coins shall be the following:

Peso.—A coin which shall weigh twenty-five (25) grams, which shall have a diameter of thirty-seven millimeters, and which shall be equivalent to fifty one-

hundredths $(\frac{50}{100})$ of a balboa. Half peso.—A coin which shall weigh twelve and one-half grams $(12\frac{1}{2} \text{ gr.})$, which

shall have a diameter of thirty (30) millimeters, and which shall be equivalent to twenty-five one-hundredths ($\frac{25}{100}$) of a balboa.

One-fifth peso.—A coin which shall weigh five grams (5 gr.), which shall have a diameter of twenty-four millimeters, and which shall be equivalent to ten onehundredths $(\frac{10}{100})$ of a balboa.

One-tenth pess.—A coin which shall weigh two and one-half (2½) grams, which shall have a diameter of eighteen (18) millimeters, and shall be equivalent to five one-

hundredths $(\frac{1}{160})$ of a balboa.

One-twentieth peso.—A coin which shall weigh one and one-quarter grams (14 gr.), which shall have a diameter of ten (10) millimeters, and which shall be equivalent to two and one-half one-hundredths $(\frac{2}{100})$ of a balboa.

Paragraph.—Consequently, two pesos of silver shall be equivalent to one balboa, hich is the monetary unit. The other fractions of a peso shall bear the same equivawhich is the monetary unit. lent fractional proportion to the said unit.

ART. 5. National silver coins shall be legal tender at their nominal value in all

transactions

ART. 6. Colombian silver coins of a standard not inferior to 835 thousandths fine and 666 thousandths of the same alloy, which are now in circulation in the Republic, shall be exchanged for the new national coins at the rate of \$212.50 for each one hundred (100) balboas, or their equivalent in Panamanian silver coin. But the conversion of Colombian silver coin of the standard of 666 thousandths shall be limited to pieces of five centavos and to the amount of 20,000 pesos only, provided by the first clause of contract No. 36 entered into by the government of the old department of Panama, in the name of the national government of the Republic of Colombia, with Messrs. Isaac Brandon and Bros., merchants in this city, for the coining of Colombian silver money; which contract was approved by General Victor M. Salazar, civil and military chief of the then department of Panama, under date of October 10, 1902, and was published in No. 1399 of the Gazette of Panama of October 9 of the same year.

PARAGRAPH. —Obligations contracted before this law goes into effect payable tacitly or expressly in Colombian silver coin of a standard not inferior to (0.835) eight hundred and thirty-five one-thousands shall be redeemable in the new national coin

at the rate stated in this article.

ART. 7. The Colombian silver coins of which this law speaks shall continue to be legal tender until the date on which the redemption of them begins to be made, and from that day forth they shall have the value which is herein assigned them for

redemption.

The executive power shall begin the conversion of the coin mentioned in article 6 on the first day of September next. For the purpose he shall designate the public offices which, in the capital and provinces of the Republic, are to make the exchange and shall give notice thereof thirty days before the day fixed. The conversion shall

take effect within sixty days following the date mentioned, after which Colombian

coin shall cease to be legal tender in the Republic.

ART. 8. For the purpose of carrying out the exchange of the silver money now in circulation in the Republic, the executive power is authorized to have coined and issued not more than the amount of three million (3,000,000) pesos, Panamanian money, as this law provides.

ART. 9. To guarantee parity of the silver legal-tender money with that of gold, the executive power shall deposit with a responsible banking institution of the United

States a sum in gold equal to fifteen per centum of the issue.

ART. 10. The executive power shall give account by monthly statements, published in the official gazette, of the amounts which he receives of Colombian and silver coin for the purpose of conversion, and when this is concluded he is authorized to sell the money which is collected in any of the foreign mercantile markets at the rate which is best for the interests of the treasury. The proceeds of this sale shall be paid into the general treasury of the Republic.

ART. 11. The stamp of the Panama coins, to which this law refers, shall be the

following:

For the obverse the bust of Vasco Nunes de Balboa, discoverer of the Panama coast on the Pacific Ocean, in profile, looking to the right, with a headband on which are engraved the words "Dios," "Lev," "Libertad;" around the head at the edge of the coin the phrase "Republica de Panama;" on the base of the bust the word "Balboa" in capital letters but of smaller size than the other inscriptions.

On the lower part of the coin, below the bust, the year of coining in figures. Upon the reverse, the coat of arms of the Republic of Panama in the centre.

Around the upper part the value of the coin in words.

Around the lower part, to the right, the weight of the coin in grams; on the left the proportion of alloy in thousandths fine.

ART. 12. The introduction into the territory of the Republic of any sort of silver coin except that which the executive power imports for the fulfillment of this law

is absolutely prohibited.

ART. 13. The executive power is authorized to enter into a monetary convention with the Government of the United States of North America, in which the present law and the convention signed at the conference in Washington on the 18th day of the present month of June, between the commissioners of that Government and that of the Republic of Panama, shall be taken as a basis.

ART. 14. The expense which the execution of this law occasions shall be considered

included in the budget of expenses.

Given at Panama the 27th day of June, one thousand nine hundred and four.

The President:

GERARDO ORTEGA.

The Secretary:

LADISLAO SOSA.

NATIONAL EXECUTIVE POWER, DEPARTMENT OF HACIENDA, Panama, June 28, 1904.

Let it be published and executed.

M. AMADOR GUERRERO, The Secretary of Hacienda. F. V. DE LA ESPRIELLA.

No. 40.—MONETARY SYSTEMS OF THE PRINCIPAL COUNTRIES OF THE WORLD.

UNITED STATES.

In 1786 the Congress of the Confederation chose as the monetary unit of the United States the dollar of 375.64 grains of pure silver. This unit had its origin in the Spanish piaster or milled dollar, which constituted the basis of the metallic circulation of the English colonies in America. It was never coined, there being at that time no mint in the United States.

The act of April 2, 1792, established the first monetary system of the United States. The basis of the system was: The gold dollar, containing 24.75 grains of pure gold, and stamped in pieces of \$10, \$5, and \$2\frac{1}{2}, denominated, respectively, eagles, half eagles, and quarter eagles. The silver dollar containing 371.25 grains of pure silver. A mint was established. The coinage was unlimited and there was no mint charge. The ratio of gold to silver in coinage was 1:15. Both gold and silver were legal

tender. The standard was double.

The act of 1792 undervalued gold, which was therefore exported. The act of June 28, 1834, was passed to remedy this, by changing the mint ratio between metals to 1:16.002. This latter act fixed the weight of the gold dollar at 25.8 grains, but lowered the fineness from 0.916\(^3\) to 0.899225. The fine weight of the gold dollar was thus reduced to 23.2 grains. The act of 1834 undervalued silver, as that of 1792 had undervalued gold, and silver was attracted to Europe by the more favorable ratio of 1:15\(^1\). The act of January, 18, 1837, was passed to make the fineness of the gold and silver coins uniform. The legal weight of the gold dollar was fixed at 25.8 grains, and its fine weight at 23.22 grains. The fineness was, therefore, changed by this act to 0.900 and the ratio to 1:15.988+

to 0.900 and the ratio to 1:15.988+
Silver continued to be exported. The act of February 21, 1853, reduced the weight of the silver coins of a denomination less than \$1, which the acts of 1792, 1834, and 1837 had made exactly proportional to the weight of the silver dollar, and provided that they should be legal tender to the amount of only \$5. Under the acts of 1792, 1834, and 1837 they had been full legal tender. By the act of 1853 the legal weight of the half dollar was reduced to 192 grains, and that of the other fractions of the dollar in proportion. The coinage of the fractional parts of the dollar was reserved

to the Government.

The act of February 12, 1873, provided that the unit of value of the United States should be the gold dollar of the standard weight of 25.8 grains, and that there should be coined besides the following gold coins: A quarter eagle, or 2½-dollar piece; a 3-dollar piece; a half eagle, or 5-dollar piece; an eagle, or 10-dollar piece; and a double eagle, or 20-dollar piece, all of a standard weight proportional to that of the dollar piece. These coins were made legal tender in all payments at their nominal value when not below the standard weight and limit of tolerance provided in the act for the single piece, and when reduced in weight they should be legal tender at a valuation in proportion to their actual weight. The silver coins provided for by the act were a trade dollar, a half dollar, or 50-cent piece; a quarter dollar, and a 10-cent piece; the weight of the trade dollar to be 420 grains troy; the half dollar 12½ grams; the quarter dollar and the dime, respectively, one-half and one-fifth of the weight of the half dollar. The silver coins were made legal tender at their nominal value for any amount not exceeding \$5 in any one payment. The charge for converting standard gold buillion into coin was fixed at one-fifth of 1 per cent. Owners of silver bullion were allowed to deposit it at any mint of the United States to be formed into bars or into trade dollars, and no deposit of silver for other coinage was to be received.

Section II of the joint resolution of July 22, 1876, recited that the trade dollar should not thereafter be legal tender, and that the Secretary of the Treasury should be authorized to limit the coinage of the same to an amount sufficient to meet the export demand for it. The act of March 3, 1887, retired the trade dollar and prohibited its coinage; that of September 26, 1890, discontinued the coinage of the

1-dollar and 3-dollar gold pieces.

The act of February 28, 1878, directed the coinage of silver dollars of the weight of 412½ grains troy, of standard silver, as provided in the act of January 18, 1837, and that such coins, with all silver coins theretofore coined, should be legal tender at their nominal value for all debts and dues, public and private, except where otherwise expressly stipulated in the contract.

The Secretary of the Treasury was authorized and directed by the first section of the act to purchase from time to time silver bullion at the market price thereof, not less than \$2,000,000 worth nor more than \$4,000,000 worth per month, and to cause

the same to be coined monthly, as fast as purchased, into such dollars. A subsequent act, that of July 14, 1890, enacted that the Secretary of the Treasury should purchase silver bullion to the aggregate amount of 4,500,000 ounces, or so much thereof as might be offered, each month, at the market price thereof, not exceeding \$1 for 371.25 grains of pure silver, and to issue in payment thereof Treasury notes of the United States, such notes to be redeemable by the Government, on demand, in coin, and to be legal tender in payment of all debts, public and private, except where otherwise expressly stipulated in the contract. The act directed the Secretary of the Treasury to coin each month 2,000,000 ounces of the silver bullion purchased under the provisions of the act into standard silver dollars until the 1st day of July, 1891, and thereafter as much as might be necessary, to provide for the redemption of the Treasury notes issued under the act. The purchasing clause of the act of July 14, 1890, was repealed by the act of November 1, 1893.

The act of June 9, 1879, made the subsidiary silver coins of the United States legal tender to the amount of \$10. The minor coins are legal tender to the amount of 25

cents.

The money in use is gold, silver, Treasury notes, gold certificates issued upon deposits of gold coin, silver certificates issued upon deposits of silver dollars, and national-bank notes, all circulating at par with the gold coin.

The weight, fineness, etc., of the coins of the United States are as follows:

GOLD.

Denomination.	Weight.	Fineness.	Fine weight.	Value.
Double eagle (\$20) Eagle (\$10) Half eagle (\$5) Quarter eagle (\$2.50) One Gollar a.	516. 0000 258. 0000 129. 0000 64. 5000	Thousandths. 900 900 900 900 900	Grains. 464.4000 232.2000 116.1000 58.0500 23.2200	\$20.00 10.00 5.00 2.50 1.00

No. 41.—SUMMARY OF MONETARY EVENTS SINCE 1786.

1786.—Establishment of the double standard in the United States with a ratio of 1 to 15.25; that is, on the basis of 123.134 grains of fine gold for the half eagle or \$5 piece, and 375.64 grains of fine silver for the dollar, without any actual coinage.

1792.—Adoption of the ratio of 1 to 15 and establishment of a mint with free and

1792.—Adoption of the ratio of 1 to 15 and establishment of a mint with free and gratuitous coinage in the United States; the silver dollar equal to 371½ grains fine, the

eagle to 247½ grains fine.

1803.—Establishment of the double standard in France on the basis of the ratio of 1 to 15½, notwithstanding the fact that the market ratio was then about 1 to 15.

1810.—Introduction of the silver standard in Russia on the basis of the ruble of 17.99 grams of fine silver, followed in 1871 by the coinage of imperials or gold pieces of 5 rubles, of 5.998 grams, therefore with a ratio of 1 to 15. This ratio was changed by the increase of the imperial to 5 rubles 15 copecks, and later to 1 to 15.45.

1815.—Great depreciation of paper money in England, reaching 26½ per cent in May. Course of gold, £5 6s., and of silver, 71½d. per ounce standard. In December the loss was only 6 per cent. Gold at this period was quoted at £4 3s., and silver

at 64d.

1816.—Abolition of the double standard in England, which had as its basis the ratio of 1 to 15.21, and adoption of the gold standard on the basis of the pound sterling at 7.322 grams fine in weight.

Coinage of divisional money at the rate of 66d. per ounce. Extreme prices £4 2s.

for gold and 64d. for silver in January; £3 18s. 6d. and 59\dd. in December.

1816—Substitution for the ratio of 1 to 15.5 in Holland, established by a rather

confused coinage, of the ratio of 1 to $15\frac{1}{3}$.

1819.—Abolition of forced currency in England. Price of gold £3 17s. $10\frac{1}{2}$ d. and

of silver 62d. a per ounce in October, against £4 ls. 6d. and 67d. in February.

1832.—Introduction of the monetary system of France in Belgium with a decree providing for the coinage of pieces of 20 and 40 francs, which, however, were not stamped. Silver, 593d.

1834.—Substitution of the ratio of 1 to 16 for that of 1 to 15 in the United States by

reducing the weight of the eagle, \$10 gold piece, from 270 grains to 258 grains.

In 1737 the fineness of the United States gold coins was raised from 0.899225 to 0.900, and the silver coins from 0.8924 to 0.900, giving a ratio of 1 to 15.988, and fixing the standard weight of the silver dollar at 412½ grains. Silver, $59\frac{1}{15}$ d.

1835.—Introduction of the company rupee, a piece of silver weighing 165 grains fine, in India, in place of the sicca rupee. Creation of a trade coin—the mobur, or piece of 15 rupees—containing 165 grains of fine gold. Silver, 5914d.

1844.—Introduction of the double standard in Turkey, with the ratio 1 to 15.10.

Silver, 59½d.

1847.—Abolition of the double standard in Holland by the introduction of the silver standard on the basis of a 1-florin piece, 0.945 gram fine, the coinage of which had already been decreed in 1839. Silver, 5914d.

1848.—Discovery of the gold mines of California.

1848.—Coinage in Belgium of pieces of 10 and 25 francs in gold, a shade too light. These pieces were demonetized and withdrawn from circulation in 1884. Silver, $59\frac{1}{2}$ d. 1848.—Replacing the ratio of 1 to 16 in Spain, which had been in force since 1786, by that of 1 to 15.77.

1850.—Introduction of the French monetary system in Switzerland, without any

actual coinage of gold pieces. Silver, $60\frac{1}{16}$ d.

1851.—Discovery of the gold mines of Australia.

1853.—Lowering of the weight of silver pieces of less value than \$1 to the extent of 7 per cent in the United States and limitations of their legal-tender power to \$5. Silver, $61\frac{1}{2}$ d.

1853.—Maximum of the production of gold reached in California when it amounted

to \$65,000,000.

1854.—Introduction of the gold standard in Portugal on the basis of the crown of 16.257 grams fine. Before this period the country had the silver standard, with a rather large circulation of gold coins stamped on the basis of 1 to 15½ in 1835 and 1 to $16\frac{1}{2}$ in 1847. Silver, $61\frac{1}{2}$ d.

1854.—Modification of the ratio of 1 to 15.77 in Spain by raising it to 1 to 15.48, and

by lowering the piaster from 23.49 grams to 23.36 grams fine.

1854.—Introduction of the silver standard, as it existed in the mother country, in Java, in place of the ideal Javanese money and coinage of colonial silver pieces.

1857.—Conclusion of a monetary treaty between Austria and the German States, in accordance with which I pound of fine silver (one-half a kilogram) was stamped into 30 thalers or 52½ florins of south Germany, or 45 Austrian florins, resulting in 1 thaler equaling $1\frac{3}{4}$ German florins or $1\frac{1}{2}$ Austrian florins. Silver, $61\frac{3}{4}$ d. 1861.—Law decreeing the coinage of gold pieces of 10 and 20 francs exactly equal

to French coins of the same denomination in Belgium. Silver, 613d.

1862.—Adoption of the French monetary system by Italy. Silver, 61_{7a} d.

1865.—Formation of the Latin Union between France, Belgium, Switzerland, and Italy on the basis of a ratio of 1 to $15\frac{1}{2}$. Silver, $61\frac{1}{16}$ d.

1867.—First international monetary conference held in Paris.

1868.—Adoption of the French monetary system by Roumania, with the exclusion of the 5-franc silver piece, which was, however, stamped in 1881 and 1883. Silver, 60⅓d.

1868.—Admission of Greece into the Latin Union. The definite and universal introduction of the French monetary system into the country was effected only in

1868.—Adoption of the French monetary system, with the peseta or franc as the unit, by Spain. The coinage of alphonses d'or of 25 pesetas was made only in 1876.

1871.—Replacing of the silver standard in Germany by the gold standard. Coinage in 1873 of gold pieces of 5, 10, and 20 mark pieces, the latter weighing 7.168 grams Silver, 60 d.

1871.—Establishment of the double standard in Japan with the ratio of 1 to 16.17 by the coinage of the gold yen of 1.667 grams and of the silver yen of 26.956 grams, both with a fineness of 0.900.

a The price of silver given hereafter represents the average rate per ounce standard—that is, the mean between the highest price and the lowest price quoted during the year.

1873.—Increase of the intrinsic value of the subsidiary coins of the United States. Replacing of the double standard by the gold standard. Reduction of the cost of coinage of gold to one-fifth per cent, the total abolition of which charge was decreed in 1875. Creation of a trade dollar of 420 grains with a fineness of 0.900. Silver,

1873.—Suspension of the coinage of 5-franc pieces in Belgium.

1873.—Limitation of the coinage of 5 francs on individual account in France.

1873.—Suspension of the coinage of silver in Holland.

1873.—Formation of the Scandinavian Monetary Union. Replacing of the silver standard in Denmark, Sweden, and Norway by that of gold on the basis of the krone. Coinage of pieces of 10 and 20 knoner, the latter weighing 8.961 grams, with a fineness of 0.900.

1874.—Introduction of the system of contingents for the coinage of 5-franc silver

pieces in the Latin Union. Silver, $58\frac{5}{16}$ d.

1875.—Suspension of the coinage of silver on individual account in Italy. Silver, 567d.

1875.—Suspension of the coinage of silver on account of the Dutch colonies. 1875.—Introduction of the double standard in Holland on the basis of the ratio of 1 to 15.62 by the creation of a gold piece of 10 florins, weighing 5.048 grams fine, with the maintenance of the suspension of the coinage of silver.

1876.—Great fluctuations in the price of silver, which declined to 46\frac{2}{4}d., representing the ratio of 1 to 20.172, in July. Recovery, in December, to 58½d. Average

price, $52\frac{3}{4}d$.

1877.—Coinage of 5-franc silver pieces by Spain continued later, notwithstanding the decline of silver in the market. Silver, 543d.

1877.—Replacing of the double standard in Finland by that of gold on the basis of

the mark or franc.

1878.—Act of United States Congress providing for the purchase, from time to time, of silver bullion, at the market price thereof, of not less than \$2,000,000 worth per month as a minimum, nor more than \$4,000,000 worth per month as a maximum, and its coinage as fast as purchased into silver dollars of $412\frac{1}{2}$ grains. The coinage of silver on private account prohibited. Silver, $52\frac{\alpha}{16}d$.

1878.—Meeting of the second international monetary conference in Paris. Pro-

longation of the Latin Union to January 1, 1886.

1879.—Suspension of the sales of silver by Germany. Silver, 511d.

1879.—Resumption of specie payment by the United States.

1881.—Third international monetary conference in Paris. Silver, 51\frac{1}{16}d.

1885.—Introduction of the double standard in Egypt. Silver, 48\frac{3}{6}d.

1885.—Prolongation of the Latin Union to January 1, 1891.

1886.—Great decline in the price of silver, which fell in August to 42d., representing a ratio of 1 to 22.5, and recovery, in December, to 46d. Modification of the coinage of gold and silver pieces in Russia. Silver, 45%d.

1887.—Retirement of the trade dollars by the Government of the United States in February. Demonetization of the Spanish plasters, known as Ferdinand Carolus, whose reimbursement at the rate of 5 pesetas ended on March 11. New decline of silver in March to 44d., representing the ratio of 1 to 21.43. Silver, 44§d.

1890.—United States—Repeal of the act of February 28, 1878, commonly known as Bland-Allison law, and substitution of authority for purchase of 4,500,000 fine ounces of silver each month, to be paid for by issue of Treasury notes payable in coin. (Act of July 14, 1890.) Demonetization of 25,000,000 lei in pieces of 5 lei in Roumania in consequence of the introduction of the gold standard by the law of October 27. Silver, $47\frac{1}{16}d$.

1891.—Introduction of the French monetary system in Tunis on the basis of the

gold standard. Coinage of national gold coins and billon. Silver, $45\frac{1}{16}d$.

1892.—Replacing of the silver standard in Austria-Hungary by that of gold by the law of August 2. Coinage of pieces of 20 crowns, containing 6.098 grams fine. The crown equals one-half florin. Meeting of the fourth international monetary conference at Brussels. Production of gold reaches its maximum, varying between 675,000,000 and 734,000,000 francs. Silver, 3913d.

1893.—Suspension of the coinage of silver in British India and of French trade dollars on individual account. Panic in the silver market in July in London, when the price fell to 30½d., representing the ratio of 1 to 30.92. Repeal of the purchasing

clause of the act of July 14, 1890, by the Congress of the United States.

1895.—Adoption of the gold standard by Chile.

1895.—Russia decides to coin 100,000,000 gold rubles in 1896.

1896.—Costa Rica adopts the gold standard.

1896.—Russia decides to resume specie payments.

1897.—Adoption of the gold standard by Russia and Japan.
1897.—Peru suspends the coinage of silver and prohibits its importation.
1898.—Ecuador limited the tender of silver coins to the amount of 10 sucres.
1899.—India adopted the gold standard at the rate of 15 rupees to 1 pound sterling (British standard).

1900.—United States adopted the gold standard.

1900.—Ecuador adopted the gold standard.

1901.—San Domingo adopted United States gold as standard.

1903.—Colombia adopted gold standard.

1903.—Panama adopted gold standard.

REPORT OF THE COMPTROLLER OF THE CURRENCY.

TREASURY DEPARTMENT, OFFICE OF THE COMPTROLLER OF THE CURRENCY, Washington, December 5, 1904.

Sir: In compliance with the requirements of section 333 of the Revised Statutes of the United States, the forty-second annual report of the operations of the Currency Bureau for the year ended October 31, 1904, is herewith submitted.

CONDITION OF NATIONAL BANKS.

The resources and liabilities of the banks in active operation, as shown by the periodical reports made during the past year, appear in detail in the following table:

Abstracts of Reports of Condition of National Banks in the United States from November 17, 1903, to September 6, 1904.

				•	
	Nov. 17, 1903, 5,118 banks.	Jan. 22, 1904, 5,180 banks.	Mar. 28, 1904, 5,232 banks.	June 9, 1904, 5,331 banks.	Sept. 6, 1904, 5,412 banks.

. An examination of the periodical statements shows that the number of reporting banks has increased from 5,042 on September 9, 1903, to 5,412 on September 6, 1904, and that there has been a gradual increase during the year in the aggregate resources of these associations from \$6,310,429,966.37 on September 9, 1903, to \$6,975,086,504.05, the increase being \$664,656,537.68. With the exception of the United States and other bonds on deposit in the Treasury Department to secure public deposits, and the holdings of silver and of legal tenders, there has been an increase in every item of resources, the principal increase being in loans and discounts, amounting to \$244,704,647.44, or from The increase in bonds on \$3,481,446,772.04 to \$3,726,151,419.48. deposit to secure circulation was \$36,839,860; other United States and miscellaneous bonds, etc., \$42,295,209.56; and in holdings of specie, including coin certificates, \$107,192,767.59. The banks holdings of specie and legal-tender notes on September 9, 1903, were \$554,306,026.94, and on September 6, 1904, they were \$661,456,529.53.

The paid-in capital stock has gradually increased since September, 1903, from \$753,722,658 to \$770,777,854, or an increase of \$17,055,196. The surplus and undivided profits aggregate \$583,137,047.94, an increase of \$26,765,598.02 during the past year. The deposits of the banks—individual, Government, and bank—amounting to nearly 75 per cent of the total liabilities, aggregated \$5,130,235,940.31, a net increase during the year of \$597,804,693.93.

From an examination of the table appearing in the appendix to the report of the Comptroller of the Currency, relating to the classification of loans and discounts of national banks, held on September 6, 1904, and to the accompanying summary, it will be noted that nearly 22 per cent of the total volume of loans is held by the banks located in the city of New York; over 29 per cent by the banks located in New York, Chicago, and St. Louis; about 54 per cent by the banks located in the central and other reserve cities, leaving 46 per cent as the proportion of the loans in banks located elsewhere than in the reserve cities. In September, 1903, approximately 18 per cent of the loans was in the New York banks, 26 per cent in the New York, Chicago, and St. Louis banks, nearly 52 per cent in all reserve city banks, and 48 per cent in banks located elsewhere than in reserve cities.

The summary mentioned is as follows:

	1904.		1903.		
Banks in—	Loans.		Loans.		
ļ	Amount.	Per cent.	Amount.	Per cent.	
New York	\$807, 264, 703	21. 6	\$631, 565, 824	18.1	
Chicago	1,090,374,043	29. 2	902, 294, 038	25.9	
St. Louis Other reserve cities All reserve cities Country	919, 232, 812 2, 009, 606, 855 1, 716, 544, 564	24. 6 53. 9 46. 0	900, 365, 628 1, 802, 659, 666 1, 678, 787, 106	25. 8 51. 8 48. 2	
Total	3, 726, 151, 419		3, 481, 446, 772		

The character and amount of each class of the banks' loans in September, 1904, were as follows: Demand paper, with one or more individual or firm names, \$279,779,356; time, single-name paper, \$611,024,135; demand paper, secured by bonds, stocks, etc., \$818,937,913; time paper, secured by bonds, stocks, etc., \$699,702,946; time paper, two or more individual or firm names, \$1,316,707,069.

The law requires national banking associations located in reserve cities to maintain a reserve of 25 per cent on their deposit liabilities, and banks located elsewhere a reserve of 15 per cent. On September 9, 1903, the banks located in the central reserve cities, with deposit liabilities of \$1,021,574,470.24, held an average reserve of 26.54 per cent; other reserve city banks, on liabilities of \$1,032,473,203.18, a reserve of 25.30; country banks, on liabilities of \$1,809,464,438.83, an average reserve of 17.59. The aggregate deposit liabilities were \$3,863,512,112.25 and the average reserve 22.02 per cent. On September 6, 1904, the central reserve city banks' deposit liabilities were \$1,340,729,685.89 and the reserve held 27.28 per cent; other reserve city banks, with liabilities of \$1,155,738,806.61, held a reserve of 25.39, the average for all reserve city banks being 26.41. On deposit liabilities of \$1,904,467,117.14 the country banks held an average reserve of 17.21. The aggregate deposit liabilities of all national banks, amounting to \$4,400,935,409.64, were protected by an average reserve of 22.43 per cent.

It will be noted that in September, 1904, the proportion of loans and discounts was 53.4 per cent of the total assets, and this is the lowest proportion, with the exception of the years 1900 and 1901, since 1890, when it was 74.3 per cent. An examination of the records shows that generally there was a gradual decrease in the percentage of loans to the aggregate resources from 1890 to 1896, the rate on the latter date being 67.1. In the fall of the year following the proportion had dropped to 55.3 per cent and to 54.2 in 1898, since which date that ratio, with slight fluctuations, has existed. In this connection the relation of capital and individual deposits to the banks' liabilities is Practically one-half of the banks' resources are represented by the individual deposits, and that proportion has been almost constant since 1880. The proportion of resources to capital, however, nearly doubled between 1880 and 1904. From 1880 to 1893 the resources averaged about four and one-half times the amount of capital; from 1894 to 1896, five times the capital, and gradually increased to eight and three-fourths times in 1902. The resources were approximately eight and one-half times the volume of capital stock in 1903 and 1904.

In connection with the foregoing, the following table, furnished to this office through the courtesy of the William B. Dana Company, of New York, relating to the range and average monthly rates for money in the New York market during the year ended October 31, 1904, will

be found of much interest.

CLEARING-HOUSE EXCHANGES.

Through the courtesy of Mr. William Sherer, manager of the New York clearing house, statistics have been compiled and furnished to this office covering the amount of exchanges of the clearing houses in the United States for the year ended September 30, 1904, and separately the operations of the New York clearing house for the same period, showing in addition to the aggregate clearings and balances the amount and kinds of money passing in settlement, together with the transactions of the association with the Assistant Treasurer of the United States at New York.

The volume of exchanges of the 98 clearing houses of the United States amounted to \$102,150,313,982, against \$113,963,298,913 for the year ended September 30, 1903, the net decrease being \$11,812,984,931.

The amount of exchanges of the principal clearing houses, and of those exceeding one billion dollars, are as follows:

,	
New York	\$59, 672, 796, 804
Chicago	8, 808, 093, 268
Boston	6, 419, 272, 150
Philadelphia:	5, 491, 236, 568
St. Louis	2, 682, 218, 323
Pittsburg	1, 986, 720, 497
San Francisco	1,513,927,257
Cincinnati	1, 196, 854, 400
Baltimore	1,097,603,459
Kansas City	1,096,400,926

It is a notable fact that the number of banks which are members of the New York clearing house for the year 1904 is less than in any year since 1864, when the number was 49. The capital stock, however, has increased from the latter date, when it was \$68,586,763, to \$115,972,700.

The clearings during the year of the New York clearing house were settled by the payment of balances amounting to \$3,105,858,576, or 5.2 per cent of the aggregate clearings. During the fifty-one years in which the clearing house of New York has been in existence, the transactions represented by the clearings aggregated \$1,565,668,321,738, the average ratio of balances paid in money being 4.77 per cent. In settling balances in 1892, gold was used to the extent of 42.5 per cent, and legal tenders and other currency to the extent of 57.5 per cent; in 1896 but one one-hundreth of 1 per cent of the balance was paid in gold, the remainder being settled with legal tenders and other currency. In 1899 the ratio of gold used was 99 per cent and in 1903 to 1904, 99.99 per cent. The exchanges and balances received from the clearing house by the assistant treasurer of the United States at New York during the year aggregated \$559,561,205.12; the amount of exchanges delivered to the clearing house being \$290,580,050.60, and the balance paid to the clearing house, \$268,981,154.52.

EARNINGS, DIVIDENDS, AND TAXES.

Prior to 1869 national banks were not required by law to report to the Comptroller of the Currency the amount of their earnings and dividends, although section 5199 of the Revised Statutes authorized the declaration of semiannual dividends, contingent upon carrying to the surplus fund, prior thereto, one-tenth of the net earnings of the preceding half year until the fund amounted to 20 per cent of the capital. This provision is construed as requiring a permanent retention of the requisite surplus fund, except where losses have been sustained exceeding the net undivided profits, when it becomes necessary to

encroach upon the surplus.

Reports of earnings and dividends for the year ended March 1, 1870, were received from 1,526 national banks, with capital of \$409,008,896, on which dividends were paid to the amount of \$43,246,926, or at the rate of 10.5 per cent. The average capital of banks in that year was Dividends at the average rate of approximately 10 per cent were paid from 1870 to 1875, inclusive. In 1879 the rate had dropped to 7.6 per cent. From 1881 to 1884 the rate was slightly in excess of 8 per cent and for the next five years continued at an average rate of 7.9 per cent. Eight per cent was slightly exceeded in 1890, and from that date declined to 6.7 in 1897, the lowest average rate ever paid by national banking associations. In 1901 the average rate was 8.1; in 1902, 9.8; in 1903, 8.7; and in 1904, 9.9. During the thirty-five years ended March 1, 1904, the average capital of national banks reporting their earnings and dividends was \$559,682,606; surplus, \$184,997,045; net earnings, \$59,843,939, and dividends declared, \$46,539,567. average rate of dividends to capital was 8.32 and of dividends to capital and surplus, 6.25. During the thirty-five years from the net earnings aggregating \$2,094,537,873, dividends were paid to the amount of \$1,628,884,831.

The power of States to tax national banks is limited by section 5219, United States Revised Statutes, to a taxation of the shares of stock, in the names of shareholders and the real estate of the bank. (Owensboro National Bank v. Owensboro, 173 U. S., 664). This section further provides that the legislature of each State shall determine the manner and place of taxation, subject only to the two restrictions, that the taxation shall not be at a greater rate than is assessed on other moneyed capital in the hands of individual citizens of such State, and that the shares of any national banking association, owned by non-residents of any State, shall be taxed in the city or town where the bank is located and not elsewhere. Section 5210, United States Revised Statutes, requires every national bank to keep a correct list of the names and residences of its shareholders, the number of shares held by each shareholder, and that the list shall be subject to inspection by officers authorized to assess taxes under State authority, and

also by all shareholders and creditors of the association.

No information is available with respect to the amount of State taxes paid by national banks, nor could it be obtained, except through correspondence with every association, and in many instances with every shareholder, where the tax is paid directly by the owners of steel.

The lack of uniformity in the methods of valuing bank stock for taxation in the various States is shown in the following extract from n article on the subject appearing in the September, 1904, edition of the Banking Law Journal:

Connecticut.—Bank is assessed on average market value for the year.

Maine.—Real estate taxed to bank at its value. Stock taxed to resident owners at approximate market valu.

Massachusetts.—Stock taxed on book value, including surplus, reserve, and undivided profits, after deducting value of real estate (taxed to the bank).

New York.—One per cent on the total capital, surplus, and undivided profits, exclusive of real estate, taxed separately.

Pennsylvania.—Banks have option of paying 10 mills (or 1 per cent) on capital, or

4 mills on market value.

Alabama.—Stock is taxed on a basis of last sale prior to October 1 of each year. Georgia.—Bank is assessed on full market value of stock, and in addition on any surplus, undivided profits, and real and personal property if not included in market value of shares.

Kentucky.—The law provides for assessment "at its fair cash value, estimated at

the price it would bring at a fair voluntary sale."

Tennessee.—Law provides for assessment at actual or market value. Usually assessed at about 80 per cent of quoted market value on January 1.

Texas.—No law on subject, and methods of taxation differ greatly in different sections. Wayne County taxes on 70 per cent of capital alone; another county on 60 per cent of capital and surplus, and a third on capital, surplus, and undivided profits in full; many counties on 80 per cent of capital and surplus.

North Carolina.—Stock taxed to shareholders at its market value, after deducting

real estate, taxed separately.

South Carolina.—Banks taxed on basis of 60 per cent of capital, surplus, and undi-

vided profits, less real estate, taxed separately.

**Illinois.—Bank is assessed upon one-fifth of cash valuation, determined upon by adding capital stock, surplus, and undivided profits, and deducting real estate (on which taxes are paid separately) and a certain per cent fixed arbitrarily by board of assessors (usually 20 to 25 per cent).

Iowa.—Banks are taxed upon capital, surplus, and undivided profits, after deduct-

ing real estate and taking 25 per cent on the actual cash value.

Michigan.—Assessment made on full value of stock, including surplus and undi-

vided profits, less assessed value of any real estate belonging to bank.

Minnesota.—Taxed on 50 per cent of the capital stock, surplus, and other profits, excluding only real estate used for banking purposes.

Missouri.—Tax assessed on capital, surplus, and undivided profits, less assessed value of real estate held at about two-thirds value on 1st day of June.

Ohio.—Banks assessed at regular rate for personal taxes on two-thirds amount of capital, surplus, and undivided profits after deducting real estate.

Kansas.—Assessments upon greater part of banks are made upon capital stock, less real estate owned. Sometimes surplus is included. No special law with reference to assessment of bank stock.

Nebraska. - Assessed on the "true" value, taking into consideration the surplus and undivided profits, real estate being deducted and assessed separately.

South Dakota.—Banks pay taxes on basis of 40 per cent, usually of capital and

surplus, less real estate, taxed separately.

Wisconsin.—Banks taxed on basis of 80 per cent of real book value, less assessed value of real estate used for banking office.

Section 41 of the act of June 3, 1864, provided that, in lieu of all existing taxes, every national banking association shall pay a duty of one-half of 1 per cent semiannually on the average amount of notes in circulation, one-fourth of 1 per cent on the average amount of deposits, and one-fourth of 1 per cent on the average amount of capital in excess of the amount invested in United States bonds. The tax on capital and deposits was repealed by the act of March 3, 1883. the war-revenue act of 1898 (repealed in 1902) a tax was imposed upon the capital and surplus of national and all other banks. Incorporated in the law of March 14, 1900, was a provision reducing the semiannual duty on national-bank circulation from one-half to one-fourth of 1 per cent on notes secured by 2 per cent consols of 1930.

The amounts paid to the Government under these various provisions up to June 30, 1904, are as follows: Capital stock, 1864 to 1883, \$7,855,888; war-revenue act of 1898, \$7,048,413; deposits to 1883, \$60,940,067; circulation to June 30, 1904, \$94,057,046; total,

\$169,901,414.

In addition to the foregoing, national banks have been charged with and paid expenses as follows:

Redemption of circulating notes from 1874 to 1904	\$4,963,061
Cost of original plates, 1883 to 1904.	479, 935
Cost of extension plates, 1883 to 1904	303, 370
Fees for examinations authorized by section 5240, United States Revised	•
Statutes, 1883 to 1904	4, 309, 199
Total payments other than taxes	10, 055, 565
Combining the taxes and other expenses, a total is shown of	179, 956, 979

From the establishment of the office of the Comptroller of the Currency in 1863 to June 30, 1904, expenses of the Bureau were \$10,023,445.93. This amount does not include contingent expenses of the Bureau, as such expenses are not paid by the Comptroller, but from the general appropriation for contingent expenses of the Treasury Department, no separate account thereof being kept. Some years since, however, a careful estimate was made and it was ascertained that such contingent expenses amount, approximately, to the sum appropriated for the operation of the Bureau. On the assumption that the estimate was practically correct, the total expenses connected with the operation of the Bureau during the life of the national banking system have been about \$20,000,000, an average of nearly \$500,000 per year. The average annual tax collected on circulation, approximately \$2,240,000, is thus seen to be over four times the average annual operating expenses of the Bureau.

SHARES AND SHAREHOLDERS OF NATIONAL BANKS.

In the call for lists of shareholders of national banking associations. as of the first Monday of July, 1904, a request was incorporated for the submission of information as to the number and holdings of women The reported capital on the date in question was shareholders. \$770,594,535, divided into 8,834,404 shares held by 318,735 shareholders, the average par value of shares being \$87.23. This average par value is due to the large number of banks located in the New England and Eastern States, which were converted into national banking associations and with stock divided into shares of less than \$100 each. returns also show that 1,858,448 shares were held by 104,534 women; in other words, that while nearly one-third of the stockholders were women their holdings amounted to approximately one-fifth of the entire stock of national banking associations. It is also shown that the average number of shares per shareholder was 27.72 and the average value of holdings \$2,418. The average number of shares standing in the name of women was 17.78 and the average value of their holdings \$1,551. In the New England and Eastern States 43 per cent of the shareholders of national banks are women, and they hold, respectively, 24 and 22 per cent of the stock. In the Southern and also in the Middle Western States 26 per cent of the shareholders are women, and their holdings, approximately, 20 per cent of the stock. In the Western States the percentages drop to 19 and 10, respectively. In the Pacific States and Territories nearly 19 per cent of the stock is owned by women, representing 23 per cent of the number of shareholders.

In the following table is shown the distribution of national-bank

stock on July 4, 1904:

CAPITAL, SHARES, ETC., OF NATIONAL BANKS.

Divisions.	Capital.	Number of shares.	Aver- age par value.	Num- ber of share- hold- ers.	Num- ber of women share- hold- ers.	Number of shares owned by women.	women	Per cent of shares owned by women

Investigations relative to the number of shareholders and the average individual holdings have been made at various dates from 1876. In that year the number of shares of national-bank stock was 6,505,930, the average number of shares held 31.25, and the average value of each holding \$2,427. In 1886 there were 7,116,894 shares, the average number of shares held 31.83, the average value of holdings \$2,438. In 1894 shares numbered 7,955,076, average number of shares 27.64, and the average value of holdings \$2,337. In 1902 the number of shares had increased to 8,001,433, the average number of shares held being 24.24, the average value of holdings \$2,072. The number of shares in 1903 was 8,617,517, the average number of shares held 27.36, with an average value of \$2,397. In July, 1904, the number of shares was 8,834,404, average number of shares held 27.72, and the average value of each shareholder's stock \$2,418.

ORGANIZATION OF NATIONAL BANKS.

Under authority of the original national-bank act, approved February 25, 1863, the reenacted law of June 3, 1864, the act of February 14, 1880, authorizing the organization of national gold banks, and the final act of March 14, 1900, empowering the formation of associations with minimum capital of \$25,000, there have been chartered 7,460 national banking associations, of which 1,165, or nearly 16 per cent, were conversions of State banks. Over two-thirds of the conversions were of banks organized in the New England and Eastern States, and of the total number of organizations in those two geographical divisions one-third were conversions of State banks. to March 14, 1900, there is no record of the number of banks organized to succeed State or private banks, but since that date and to October 31, 1904, it is shown that nearly one-third of the banks chartered in this period were of that class. In view of the fact that the organization of banks other than national has more than kept pace with the organization of national banks, it may be safely concluded that the relative number of State banks converted and national banks organized to succeed State banks, prior to 1900, was approximately the same as since that date. The proportion of conversions and reorganizations to total number of banks organized since March 14, 1900, is shown to be 44 per cent.

Records compiled at the close of the report, year ended October 31, 1904, show that since March 14, 1900—a period of little over four and one-half years—charters have been granted to 2,196 national banking

associations, with authorized capital of \$125,512,300. The amount of bonds deposited by these banks prior to being authorized to begin business was \$31,331,250, approximately one-fourth the amount which might have been deposited with the Treasurer of the United States in trust and circulating notes issued to the par value thereon. Included in the total number of banks organized are 1,437, with capital of \$37,459,500, which were chartered under the authority of the act of March 14, 1900—that is, with capital of less than \$50,000, the average being but slightly in excess of the minimum, namely \$25,000. this same period banks with capital stock of \$50,000 or over were chartered to the number of 759, with capital of \$88,052,800. Further classifying the organizations, it is shown that 250 of the banks, with capital of \$16,629,800, were conversions of State banks; 716, with capital of \$43,756,000, reorganizations of State or private banks, and 1,230, with capital of \$65,126,500, primary organizations.

In the period beginning March 14, 1900, and terminating on December 31 of that year, the number of banks organized was 398. During the calendar year 1901 the number was 412; 1902, 492; 1903, 515, and 1904 to October 31, inclusive, 379. The monthly average of number of banks organized during these five periods was as follows: 1900, 42; 1901, 34; 1902, 41; 1903, 43; 1904, 38. The average national-bank capital on March 14, 1900, was \$170,400, but as a result of the large number of banks organized with capital of \$25,000, the average on

October 31, 1904, was reduced to \$142,150.

On March 14, 1900, the number of national banks in existence was 3,617, with authorized capital of \$616,308,095; bonds on deposit to secure circulation, \$244,611,570; circulation secured by bonds, \$216,-374,795; and total national-bank circulation outstanding, secured by bonds and by lawful money, the latter deposited with the Treasurer of the United States by liquidating banks, associations reducing their circulation, and on account of insolvent national banks, \$254,402,730. On October 31, 1904, the number of active banks was 5,495, with authorized capital of \$781,126,335; bonds on deposit to secure circulation, \$426,544,790; circulation secured by bonds, \$424,530,581, and total circulation outstanding, secured by bonds and lawful money, \$457,281,500. From the foregoing it appears that during the period in question there has been a net increase in number of banks of 1,878; capital, \$164,818,240; bonds on deposit to secure circulation, \$181,933, 220; circulation secured by bonds, \$208,155,786, and total circulation outstanding, \$202,878,770. The changes in number of banks, authorized capital, etc., from March 14, 1900, to October 31, 1904, and on intermediate dates indicated, are shown in the following table:

Number of National Banks in Existence, Authorized Capital Stock, Bonds on Deposit to Secure Circulation, Circulation Secured by Bonds and by Lawful Money, on March 14, 1900, June 30 and October 31, 1903, and June 30 and October 31, 1904.

	Mar. 14, 1900.	June 30, 1903.	Oct. 31, 1903.	June 30, 1904.	Oct. 31, 1904.
Number of banks. From an examination of the foregoing table it will be noted that every bank chartered in the State of Delaware is still in active operation; and further, that the only States, etc., in which no failures of national banks have occurred are Maine, Rhode Island, Delaware, Arizona, Alaska, Hawaii, and Porto Rico. One bank in West Virginia, temporarily in charge of a receiver, was subsequently permitted to reopen and resume business. This practically adds West Virginia to the list of States in which no failures occurred.

The number and capital of national banking associations incorporated in each State and geographical division, classified by capital stock, organized from March 14, 1900, to October 31, 1904, are shown

in the following table:

REPORT ON THE FINANCES.

a Bonds deposited, \$31,331,250.

The Middle Western States are shown to lead, both in number of organizations and capital, namely 664 and \$36,531,000, respectively; followed by the Southern States in number of banks, namely 547, but third in point of capital, the amount being \$29,148,500. In the Western States 478 banks, with capital of \$15,746,000, were organized; in the Eastern States 380 banks with capital of \$30,974,000; Pacific States, 101 banks with capital of \$8,312,800; New England States, 23 banks with capital of \$4,175,000. Two banks have been organized in Hawaii with aggregate capital of \$525,000, and one in Porto Rico, with capital of \$100,000. Texas leads by one in number of banks organized, namely 244, with capital of \$10,770,000, Pennsylvania being second in the list with 243 banks, but nearly double the capital of Texas banks, namely \$18,977,000. In the Middle Western States division Minnesota leads in number of banks with 154, followed by Illinois with 121, Ohio 115, Iowa 111, and Indiana 75. New York, with 71 banks, followed Pennsylvania in number of associations organized in the Eastern States. The capital of the New York banks is shown to be \$8,520,000, nearly one-half of the amount of the 243 banks organized in Pennsylvania. New Jersey is third in the list with 35 banks, followed by Maryland, with 24, Delaware with 5, and the District of Columbia with 2.

In the Southern States, excluding Texas, Virginia is at the head of the list with 45 banks, and capital of \$2,141,000, followed by West Virginia with 44 banks, and capital of \$2,180,000. There were 43 banks chartered in Kentucky with greater aggregate capital than the banks of any Southern State, except Texas, namely, \$3,445,000. Alabama is fifth in the list of Southern States, with 33 banks, followed by Georgia with 31, Louisiana and Tennessee with 18 each, 17 in North Carolina and Arkansas, 15 in Florida, 13 in Mississippi, and 9 in South Carolina. In the Western States division, Indian Territory leads both in number and capital, namely, 98 with capital of \$3,035,000, followed by Oklahoma 93, Kansas 67, North Dakota 62, Nebraska 57, South Dakota 41, Colorado 29, New Mexico 14, Wyoming 9, and Montana 8. In California 45 banks have been chartered with capital of \$5,827,800. in number of organizations in the Pacific States division is Idaho with 18 banks, followed by Oregon with 15, Washington 10, Arizona 7, Utah 5, and Nevada 1. In the New England States division, 8 banks were organized in Massachusetts with capital of \$2,950,000, 5 banks in Maine, 3 each in New Hampshire, Vermont, and Connecticut, and 1 in Rhode Island.

The following table shows the number of banks organized since March 14, 1900, by conversion, reorganization, and primary organization, classified by capital stock:

Classification.	Conversions.		Reorganizations.		Primary organizations.		Total.	
	No.	Capital.	No.	Capital.	No.	Capital.	No.	Capital.
Capital less than \$50,000 Capital \$50,000 or more		\$4,227,000 12,402,800	464 252	\$12,471,000 31,285,000	814 416	\$20,761,500 44,365,000	1,437 759	337, 459, 500 88, 052, 800

VOLUNTARY LIQUIDATIONS, EXPIRATION, AND EXTENSION OF CHARTERS.

During the existence of the national banking system 1,548 national banks, including 21 banks subsequently placed in charge of a receiver, or 20.7 per cent of the total number organized, have been placed in liquidation either by vote of stockholders or by expiration of charters, the capital involved being \$280,524,550. The voluntary liquidations numbered 1,398, the capital involved \$257,136,550, and the number of expirations 150, with capital of \$23,413,000. In the year ended October 31, 1904, 66 associations, with capital of \$20,285,000, including 4 banks with \$510,000 capital, whose charters expired, were closed voluntarily. Three of the banks closed by expiration of charters were reorganized under different titles. two of the associations closed by voluntary liquidation, with capital of \$12,700,000, were absorbed by, or consolidated with, other national banks; 9, with capital of \$4,480,000, were absorbed by trust companies, and 3, with capital of \$300,000, reorganized as trust companies; 3, with capital of \$250,000, are reported to have been succeeded by State or private banks, and 17, with capital of \$2,395,000, were closed to discontinue business.

From correspondence received it appears that the following banks were absorbed by trust companies: Colonial National Bank of Pittsburg, Pa.; the First, the National Warren, and the National Hope, all of Warren, R. I.; the First, the National Bank of North America, and the Weybosset, all of Providence, R. I.; the First of Lynn, Mass., and the Colonial of Boston. The following associations are understood to have been reorganized as trust companies: The Peoples National Bank, of Belfast, Me.; the First, of Cambridge, Mass., and the Idaho National, of Lewiston, Idaho.

Forty-five of the associations liquidated were with individual capital of from \$25,000 to \$200,000, and the remainder with individual capital of \$300,000 to \$2,000,000. The greatest number of liquidations occurred in Massachusetts, 12 being closed in that Commonwealth. Second in the list is Pennsylvania with 9, followed by Ohio and Texas with 8 each, Rhode Island 7, Oklahoma 3, New York and Iowa 2 each, and 1 each in the following States: Connecticut, Maine, Vermont, Maryland, Tennessee, Virginia, Illinois, Indian Territory, Kansas, Nebraska, New Mexico, Idaho, California, Oregon, and Washington.

National banks closed to business, by voluntary liquidation, during the year ended October 31, 1904, with date of authority to commence business, date of closing, capital, and circulation issued, redeemed, and

outstanding, are shown in the following table:

On July 12, 1882, the act was passed authorizing national banking associations to extend their corporate existence for an additional period of twenty years, and on April 12, 1902, the act was approved authorizing the extension, for a further period of twenty years, of charters of banks extended under the act of July 12, 1882. The number and capital of banks whose charters have been extended under the original act are 2,258 and \$493,096,365, respectively; the number of reextensions under the act of April 12, 1902, with capital of the associations, was 315 and \$88,310,300, respectively, making the total number of first and second extensions 2,573, the capital of the banks being

\$581,406,665. The number of extensions and reextensions during the year ended October 31, 1904, was 118 and 57, respectively. For the information of banks interested there is given in the appendix to the report of the Comptroller of the Currency a list of the 104 banks; the charters of which will expire during the year ending October 31, 1905, and which may be extended under authority of the provisions of the act of July 12, 1882, and also of 643 banks extended under the act mentioned, and which may be extended for the second time under the act of April 12, 1902. The capital of banks whose charters will expire for the first time is \$13,123,000, and for the second time \$229,050,585.

Many associations, on reaching the end of their corporate existence, find that a large proportion of the stock is held by nonresidents, estates, etc., the owners of which add nothing to the banks' business, their sole concern being in the dividends declared. Where this condition exists to an extent materially affecting a bank's interests, it is found necessary to adopt measures to place the stock with those who will be desirable shareholders. Generally, it is found possible to induce such shareholders to sell their stock to local resident shareholders, or through them, to other resident business men. In case the purchase of such stock can not be effected, it is occasionally found advisable to permit the corporate existence of the bank to expire by limitation and organize a new association by the stockholders of the old bank and other local citizens engaged in active business. The course first referred to is the more desirable, as thereby the charter may be extended and the bank continue its well-earned prestige of the prior twenty or forty years, as the case may be. As the proviso to section 5 of the act of July 12, 1882, relating to the organization of a bank to succeed another association whose corporate existence has expired, confers upon the stockholders in the old bank the right to participate, according to their original holdings, in the stock of the new bank, it becomes necessary, if this right is not to be conserved, to organize under a name materially different from that of the original association; for otherwise the new management would have the advantage of the good will of the old association without rendering an equivalent to the old stockholders who are not to be permitted to become subscribers to the stock of the new bank.

Where the corporate existence of a national bank is permitted to expire by limitation the method of settling its affairs is the same as though the bank had been placed in voluntary liquidation by vote of shareholders in advance of the termination of its corporate existence. The liabilities of an association become due and payable on the date of expiration of charter. When all liabilities are paid, or provided for to the satisfaction of claimants, the remaining assets representing the stockholders' interests should be promptly converted into cash and distributed pro rata to stockholders. The law makes no provision for the report to the Comptroller of the Currency of the settlement of the affairs of an association closed by voluntary liquidation or expiration of charter, and it is clear that the agency by means of which the business should be wound up is one to be created by vote of stockholders, or, in default of such action, by the directors. The election of a liquidating agent by stockholders relieves the directors of responsibility, which they would otherwise have, for the settlement of the trust. In case of the closing of a bank for the purpose of absorp-

tion by, or consolidation with, another bank, the liquidating agent or directors appear to have authority to enter into a contract with the continuing bank for the assumption of liabilities to depositors and other general creditors, offsetting an equivalent amount of assets transferred, and to purchase the remaining assets, which can be lawfully acquired by a national bank, representing stockholders' interests. If there is to be no increase in the capital stock of the absorbing bank, for the purpose of selling the additional stock to those interested in the old association, it necessarily follows that the stockholders of the closed bank are to be paid the actual value of the assets representing

their stockholdings.

The act of 1882, providing for extension of charters, conserves the interest of shareholders not desiring to continue their connection with the bank, but desiring to withdraw and to be paid the surrender value The act provides that notice of intention to withdraw shall be given to the directors within thirty days from the date of issue of certificate authorizing extension of the charter, and that a committee of appraisal shall be appointed-one member by the withdrawing shareholder, one by the bank, and a third by the first two. The bank and the dissenting shareholder may select as members of the committee expert accountants or any other persons competent to perform the duties of appraisers. In case the value fixed is unsatisfactory to the shareholder, he may appeal to the Comptroller of the Currency, whose appraisal shall be final and binding. The right of appeal is not given to the bank. In case the valuation fixed by the Comptroller exceeds the amount fixed by the committee, the expense of reappraisal must be borne by the bank; otherwise by the shareholder appealing. The law makes no provision for payment of expenses incident to the first appraisal; hence it is incumbent upon the withdrawing shareholder and the bank to determine this question. The shares appraised and surrendered must, after due notice, be sold at public sale within thirty days after the final appraisal.

Generally speaking, the market price of stock represents the surrender value, although, in some instances, the market price may be above or below the actual value of the stock. The proper course to pursue is to have a very careful examination made of the assets, taking into consideration the actual value of items above or below the book value, deducting items admittedly worthless. The question of "good will" is not to be considered, although it may be of material value to

a bank continuing business.

The act relating to extension provides that shareholders representing at least two-thirds of the stock shall consent in writing to an amendment of the articles of association, extending for a further period of twenty years the corporate existence of the association. The procuring of the necessary signatures may be taken up at any time within two years prior to the expiration of a bank's charter, and when the requisite signatures have been obtained the amendment should be filed with the Comptroller of the Currency. A shareholder's consent must be given by him in writing, or by his duly empowered attorney. The provision of law relating to voting of stock by proxy at meetings of stockholders of national banks does not apply in the case of extension of charter, as no vote is involved; hence, if desired, a shareholder may legally empower a director or other officer of a national bank to act for him in consenting to the extension of charter.

It is expected that the amendment relating to the extension of the corporate existence of a bank, accompanied by request for its approval, will be filed with the Comptroller of the Currency not later than two months prior to expiration of the existing charter, in order that there may be sufficient time for the making of the special examination required by law to ascertain the condition of the bank's assets and to enable the association to comply with possible conditions precedent to renewal of charter. Where an examination has been made within a reasonable time prior to expiration of charter, in passing upon the question of extension the Comptroller may be governed by the condition of the bank as shown by such an examination, thus obviating the necessity of an additional special investigation of the bank's condi-When a bank's affairs are found to be in a satisfactory condition, or action has been taken in connection with the sale or disposition of undesirable assets, or those acquired in violation of the provisions of law, advice is given of the fact that certificate of extension will be issued simultaneously with the expiration of the preexisting charter. By the extension of the corporate existence of a national banking association the original charter number and title are continued, and the association enjoys all the rights, privileges, and immunities granted, and is subject to all the duties, liabilities, and restrictions imposed by law relating to national banking associations.

The act of 1882, however, provides that a bank, whose charter has been extended, can not subsequently receive and issue circulating notes of the original series; hence if the note-issuing franchise is to be enjoyed, notes of a new design must be ordered. The order for the new plates and circulation should accompany the amendment providing for extension of charter, in order that the new notes may be ready for delivery as soon as required. As the old notes are received for redemption they are destroyed and charged to the 5 per cent redemption fund and an equivalent amount of notes of the new design shipped This process continues until three years from date of to the bank. extension of charter when a deposit of lawful money is required to provide for the redemption of the balance of the notes then outstand-An order for 50 per cent of the total amount of notes to which a bank is entitled on its bond deposit is sufficient to provide for current redemptions and reissues. If desired, lawful money may be deposited for all of the outstanding notes of the old design, which will enable the depositing bank to receive immediately the full amount of

INSOLVENT NATIONAL BANKS.

notes of the new series.

During the past year 26 national banks, including one theretofore in voluntary liquidation, were placed in the charge of receivers. Six of the associations, however, have been restored to solvency and permitted to resume business, the receivers being discharged. Eight of the failures were due to fraudulent management or to dishonesty of the cashiers.

In the accompanying table is given a list of national banks closed during the year, the date of appointment of receiver, capital stock, and circulation issued, redeemed, and outstanding.

a Restored to solvency and resumed business. b Formerly in voluntary liquidation.

Within the past twelve months the affairs of 15 national banks, theretofore placed in the charge of receivers, were fully settled by the payment of final dividends to creditors, leaving 73 pending trusts.

Of the total number of insolvent national banks placed in charge of receivers, the affairs of 345 have been fully settled and the receiverships terminated. The capital of these banks, at date of failure, was \$53,655,920, and total assets, nominal value, taken charge of by the receivers, \$194,234,790. The collection from assets and the amount settled by offsets, etc., were \$90,341,899 and \$14,853,083, respectively. The losses on assets compounded or sold under order of court aggregated

\$78,531,580. On the final settlement of the affairs of these trusts assets of the nominal value of \$10,562,359 were returned to stockholders, including \$1,802,397 in cash. Assessments were levied on stockholders to make good deficiency in the assets of these trusts to the amount of \$31,967,520, from which was realized \$15,052,961. Dividends were paid to the amount of \$74,364,841, or 70.78 per cent on claims proved, amounting to \$105,067,058. In order to ascertain the full amount realized by creditors, it is necessary to add the dividends paid to the amount of offsets allowed and loans paid. The records therefore show that creditors realized on their claims a total of 78.11 per cent.

The cost of liquidation of an insolvent national bank—that is, the receiver's salary, legal and other expenses—based upon the total amount collected from assets and from assessment on shareholders, is shown

to have been, or an average, 8.43 per cent.

In addition to detailed information relating to the affairs of each insolvent national bank, there appears in the appendix to the report of the Comptroller of the Currency a statistical summarization, by States and geographical divisions, of data relating to trusts, the affairs of which have been finally closed. The table in question shows that creditors of the 19 national banks which failed in the New England States received 93.26 per cent on their claims. The 63 insolvent banks which failed in the Eastern States paid 75.93 per cent; the 63 in the Southern States, 68.15 per cent; 76 banks in the Middle States, 84.10 per cent; 89 in the Western States, 69.17 per cent, and 35 in the Pacific

States and Territories, 70.05 per cent.

Classifying the trusts according to capital stock, it appears that banks with capital of \$100,000 or less paid dividends on claims proved at the average rate of 64 per cent, and that the assessment on stockholders produced 38 per cent. The banks with capital of \$100,000 and less than \$200,000 paid 67 per cent in dividends and stockholders paid in on assessments 41 per cent. Banks with capital of \$200,000 and over paid dividends to creditors at the average rate of 72 per cent, while the assessment on stockholders realized 51 per cent, which would appear to indicate that the larger the capital the greater the percentage realized from assets and also from assessment on stockholders. The amount of capital, claims proved, dividends paid, assessments on shareholders and collections therefrom, of banks in each class mentioned are shown in the following table:

			Dividends paid.		Assessment upon share- holders.		Collected on assessment.			
Classification.	No.	Aggre- gate capital.	Claims proved.	Amount.	Per cent of claims.	Amount.	Per cent of capi- tal.	Amount.	Per cent of as- sess- ment.	Per cent of total capi- tal.
Capital less than \$100,000	146	\$ 7, 739, 000	\$11, 404, 600	\$ 7, 325, 479	64	\$ 4, 425, 750	57	\$1,669,729	38	21.6

In addition to statistics relating to trusts which have been finally closed, compiled by States and geographical divisions, a summary has been made, by years of failure, showing the aggregate amount of dividends paid to creditors, etc., of such banks as failed each year from 1865 to 1904.

The results obtained would indicate that creditors during the past half decade realized a higher rate of dividends on their claims than in any like period since the first failure in 1865, but this can not be stated as a fact until the affairs of all banks which failed during this period have been settled.

CAPITAL, BONDS, AND CIRCULATION.

At the close of the year ended October 31, 1903, on authorized national-bank capital of \$766,367,095, there was on deposit with the Treasurer of the United States in trust, as security for circulation, United States bonds to the amount of \$382,726,830, a fraction less than 50 per cent of the amount which might have been deposited, and on the security of which there were outstanding circulating notes to the amount of \$380,650,821. In other words, national-bank circulation was less than half the amount which might have been issued on bonds deposited to the maximum—that is, the banks' paid-in capital stock. The total national-bank circulation outstanding in October, 1903, was \$419,610,683, of which \$38,959,862 was covered by lawful money deposited with the Treasurer of the United States by banks reducing their circulation, associations in voluntary liquidation, and on account of insolvent national banks. At the close of the current report year, with an increase of capital stock to \$781,126,335, there was an increase in bonds deposited as security for circulation to \$426,544,790; in bondsecured circulation to \$424,530,581, and total circulation to \$457,281,500. The increase in bond-secured circulation during the year is shown to be \$43,879,760. This material increase was mainly due to the comparatively low market price of 2 per cent consols prevailing during The highest market price was on October 31, 1903, namely, A steady decline is shown to 105.1332 in February; in 107.2685. March the average price was 105.6296, and in April 105.8775; dropped in May to 105.1458; advanced to 105.4303 in June, and declined in July and August to 104.9713 and 104.9491, respectively. The market price in September was 105.3 and in October, 105.

The number of banks in operation, authorized capital stock, bonds on deposit as security for circulation, average monthly market price of 2 per cent consols, circulation secured by bonds and by lawful money, and the aggregate circulation outstanding monthly from October 31, 1903, to October 31, 1904, are shown in the following table:

				Average	Circulation s	secured by-

As a result of the provision of the act of March 14, 1900, reducing the semiannual duty on circulation secured by 2 per cent consols of 1930, of the \$301,123,580 United States bonds on deposit as security for circulation on October 31, 1900, \$270,006,600 had been converted into twos, and on October 31, 1904, of the aggregate deposit (\$426,544,790), nearly 98 per cent, or \$416,972,750, were of that class.

The changes in the class and amount of bonds on deposit with the Treasurer of the United States to secure national-bank circulation on March 13, 1900, the day prior to the passage of the act authorizing the incorporation of banks with minimum capital of \$25,000 and reducing the semiannual duty on circulation secured by consols of 1930 to one-fourth of 1 per cent, and on October 31, 1900, 1902, 1903, and 1904, are set forth in the following table:

Class.	Mar. 13, 1900.	Oct. 31, 1900.	Oct. 31, 1902.	Oct. 31, 1903.	Oct. 31, 1904.

Under Department regulations only three classes of plates are engraved, namely, for four \$5 notes; three \$10 and one \$20; one \$50 and one \$100. As a result of the limitation of \$5 notes to one-third of a bank's issues, incorporated in the act of March 14, 1900, the percentage of notes of that denomination outstanding has been reduced from 31.2 in 1900 to 13.6 in 1904. This limitation works considerable hardship on banks with the minimum capital, for the reason that they are prevented from ordering the most desirable denomination of notes for their localities, as but one-third of their issues can consist of the minimum denomination. In consequence, with the order for \$5s they must necessarily order a plate for either \$10s and \$20s or the \$50s and \$100s. By reference to the official records, it appears that at no time during the existence of the system has the percentage of notes

of the denomination of \$5 exceeded the limitation fixed by the act of March 14, 1900. Over 74 per cent of the total issues are now of the denominations of \$10s and \$20s, the amount of the former being \$193,777,650, and the latter \$145,751,440. The \$5 notes amount to \$62,108,195; \$50 notes, \$17,712,900; and \$100s, \$37,190,300. There are still outstanding about \$500,000 of notes of the denomination of \$1 and \$2, and \$117,500 of the denomination of \$500 and \$1,000.

The amount of each denomination of circulation outstanding at the close of the year, the amount previously issued, together with total

redemptions, are shown in the following table:

Denomination.	Issued during the year.	Issued previ- ous years.	Total issued' to Oct. 31. 1904.	Total re- deemed to Oct. 31, 1904.	Circulation outstand- ing Oct. 31, 1904.

Note.—Circulation outstanding and issued by national gold banks, amounting to \$75,935, not included in this table.

By reference to statistics compiled in the office of the Secretary of the Treasury, relating to the stock of money in the United States, at the close of the fiscal year ended June 30, 1864, to 1904, and also to office statistics with respect to the amount of national-bank notes outstanding on the same dates, it appears that the proportion of bank notes to the whole stock of money decreased from a maximum of 43.27 per cent in 1874 to a minimum of 9.86 per cent in 1892. From the latter date to 1900, when the percentage was 13.233, the fluctuation from year to year was only about 1 per cent. In 1901 the proportion of national-bank notes was 14.25, but dropped in 1902 to 13.91, rose to 15.91 in 1903, and stood at 16.2 in 1904, the highest proportion since 1887.

There appears in the appendix to the report of the Comptroller of the Currency a statement based upon every report of condition made to the Comptroller of the Currency by national banks from October 5, 1863, to September 6, 1904, showing the paid-in capital stock, outstanding circulation, aggregate resources, money in the United States on June 1 of each year, and the percentage of circulation to capital, assets, and money in the United States. On September 9, 1903, the percentage of circulation to capital stock was 49.8; to the banks' assets, 5.9, and on June 30 of that year, 13.4, to the money in the United States. On September 6, 1904, the percentage of circulation to capital had increased to 53.4, the percentage of assets standing unchanged at 5.9, and the percentage of stock of money of the country, based on the June returns, 14.2.

Circulating notes to the amount of \$274,777,278 were delivered to the National Bank Redemption Agency for redemption during the year, of which \$99,047,325 being in good condition were returned to the

banks of issue, \$143,799,170 were redeemed and destroyed, new notes being issued therefor, and \$31,930,783 notes of reducing, insolvent, and liquidating banks were redeemed and destroyed, necessarily without reissue.

In connection with the distribution of circulation the following table, based on the reports of condition made to this office from November 17, 1903, to September 6, 1904, is interesting as indicating the amount and changes of notes outstanding, of banks located in the city of New York, in all central reserve cities (New York, Chicago, and St. Louis), other reserve cities, all central and other reserve cities, banks located elsewhere than in reserve cities, and the total reported outstanding:

Date.	New York.	New York, Chicago, and St. Louis.	Other reserve cities.	All reserve cities.	Country.	Total.
1903. November 17	Millions. \$46.4	Millions. \$61.6	Millions. \$74.2	Millions. \$135.8	Millions. \$240. 4	Millions. \$376.2

PROFIT ON NATIONAL-BANK CIRCULATION.

In calculating the profit on the issue of circulating notes by national banking associations the question considered is: What would be the net receipts in excess of interest obtained from an investment of the amount of the cost price of bonds in loans or otherwise? The average net monthly price of United States 2 per cent consols of 1930, during the year ended October 31, 1904, fluctuated from a maximum of 106.583 in November, 1903, to a minimum of 104.7 in August, 1904. Bonds to the amount of \$100,000 cost, therefore, \$106,583, at the highest price This amount loaned at 6 per cent would produce \$6,394.98. Assuming that the circulation is loaned at 6 per cent, a bank's receipts would then be \$6,000 interest on circulation, and \$2,000 on the bonds deposited with the Treasurer of the United States. From the gross receipts of \$8,000 there must be deducted taxes on circulation \$500, expenses incident to the preparation of plates for the printing of notes, the redemption of circulation, etc., of \$62.50, and a sinking fund of \$103.99, set aside to meet the premium on the bonds, leaving net receipts of \$7,333.51, or an excess of \$938.53, over the interest on the cost price of bonds, or a net profit of 0.881 per cent. With bonds at the minimum price during the year, 104.7, the profit on circulation rises to 1.028 per cent. This unquestionably exceeds the actual rate of profit, as in the calculation it is assumed that the entire circulation is loaned at 6 per cent, whereas, on an average of 1 to 2 per cent of a bank's circulation, as shown by periodical reports made to the Comptroller of the Currency, appears as "on hand."

The computation made by the Government actuary of the profit on national-bank circulation, based on the average net price monthly of bonds during the year ended October 31, 1904, will be found in Table 51 of the appendix to the report of the Comptroller of the Currency.

BANKS WITHOUT CIRCULATION.

Notwithstanding the liberalizing of the circulating franchise of national banking associations, there are a number of banks in the system which do not and never have availed themselves of the privilege of taking out and issuing circulating notes. At the close of the year ended October 31 there were 10 banks in this class, with aggregate capital of \$3,185,000. These banks have on deposit with the Treasurer of the United States bonds to the amount of \$246,500, on which they would be entitled to circulation to that amount.

LIFE OF UNITED STATES AND NATIONAL-BANK NOTES.

In his current annual report the Treasurer of the United States presents statistics relative to the estimated life, by denominations, of United States notes, coin certificates, and national-bank notes, basing the calculation on the number of United States notes and coin certificates issued up to June 30, 1904, and bank circulation to October 31, 1903.

The results are summarized in the following table:

Denomination.	United States notes.	Treasury notes.	Gold cer- tificates.	Silver certifi- cates.	National bank notes.
One dollar. STOCK OF MONEY OF THE WORLD.

Statistics relating to the aggregate stock of money in the principal countries of the world at the close of the calendar year 1903 have been received and compiled by the Bureau of the Mint, from which it appears that the aggregate is \$12,313,100,000, the amount of gold being \$5,628,-200,000, of which \$2,892,600,000 is held in banks and public treasuries, \$2,526,000,000 being in general circulation. The stock of silver aggregates \$3,201,400,000, of which \$2,268,700,000 is "full tender" and the remaining \$932,700,000 limited tender. Uncovered paper currency is stated as amounting to \$3,483,500,000. Of the total stock of money in the world \$2,500,200,000, or approximately one-fifth, is held in this The stock of gold of the United States, \$1,320,400,000, is greater than that of any other country and is nearly one-fourth of the world's stock. The amount of silver is \$679,200,000. The per capita circulation of the United States is \$30.70 and is greater than that of any of the principal countries of the world except France, wherein it The circulation per capita of the various kinds of money in the United States is as follows: gold, \$16.26; silver, \$8.36, and paper,

\$6.17. Tabular statistics relating to the stock of money, standard and unit of value, of the principal countries of the world appear in the

appendix to the report of the Comptroller of the Currency.

From a statement issued from the office of the Secretary of the Treasury under date of June 30 last, the coin and other money of the United States was shown to amount to \$2,803,500,000, of which \$284,300,000 consisted of coin, etc., in the Treasury as assets, \$982,900,000 in the banks of the country, and \$1,536,300,000 not in the Treasury or banks and assumed to be in general circulation. Deducting from the stock the amount in the Treasury, the total in circulation, that is, the amount held by banks and others, amounts to \$2,519,200,000. In other words, the per capita in circulation is \$30.77, and the per capita in circulation not in the Treasury or in banks is \$18.77. Coin and other currency in Treasury's assets constituted 10.14 per cent of the total stock; money in reporting banks, 35.06 per cent, and money not in the Treasury or in banks, 54.80 per cent.

In the following table is shown the amount of coin and other currency in the United States at the close of the fiscal year ended June 30, 1892, to 1904, inclusive; coin, etc., in Treasury as assets, amount in circulation, the latter divided to show the amount in banks and elsewhere, with the percentage for each year in the Treasury, in banks, and in circulation; the per capita in circulation, exclusive of the amount held in the Treasury, and the amount in circulation, exclusive

of the amount in Treasury and in the banks:

a\$12,567,265, b\$10,125,909, c\$9,240.801, and d\$7,620,304 in banks of island possessions not included in these returns.

e Population, estimated, 81,867,000.

Including coin and other currency held by reporting banks in the island possessions in June, 1904, a total is shown of \$990,575,820, an increase over the amount in banks on the corresponding date in 1903 of \$133,316,167, and of this increase \$107,551,682 is in the holdings of national banks and \$25,764,485 in State and private banks.

In the following statement is shown the amount and percentage of money in the banks of the country, by geographical divisions, for the

years indicated:

GEOGRAPHICAL	DISTRIBUTION	OF MONEY	IN BANKS.

As will be seen in the following table over one-half of the currency in banks of the country is held by those located in the Eastern States and aggregates \$497,320,102, an increase over the amount held on the corresponding date in 1903 of \$107,090,962, and which is over 80 per cent of the increase in the holdings of cash of all banks of the country. The banks in the Middle Western States increased their currency holdings during the year to the extent of \$18,889,187; banks in the Southern States to the extent of \$9,110,967, and in the Western States, \$2,852,643. There is shown to be an apparent decrease in the cash holdings of the banks of the New England States of \$3,020,180, but this is mainly accounted for from the fact that in the 1903 returns, in one State, the amounts due from banks were included in cash in banks. There was no material change in the amount of cash held by banks located in the Pacific States and Territories. A net reduction of \$1,620,501 is shown in the amount of currency held by banks located in the island possessions. Of the increase in cash holdings of the banks, amounting, as heretofore stated, to \$133,316,167, approximately \$115,500,000 is in the holdings of banks located in four of the States, as follows: New York, \$97,496,127; Illinois, \$6,338,127; Ohio, \$4,843,518; Missouri, \$6,791,472.

The table referred to is as follows:

FOREIGN BANKS OF ISSUE, ETC.

Information relating to the principal items of resources and liabilities of foreign banks is set forth in the following table. So much of the table as relates to the principal European banks of issue, excepting the item of capital stock and deposits and advances of the banks of Scotland and Ireland, was taken from the July number of the Bulletin de Statistique. To these data have been added returns from other foreign banks, and the statistics are presumed to be comprehensive and accurate in respect to the items indicated.

FOREIGN SAVINGS BANKS.

Conformably with request Mr. M. L. Jacobson, of the Bureau of Statistics, has compiled for this report, from various official sources, statistics relative to the amount of deposits, number of depositors, average deposit, etc., of postal and other savings banks of the world, which will be found hereinafter.

The following analysis of the statistics formed a bulletin issued by the Bureau of Statistics, Department of Commerce and Labor, under date of November 17:

The total deposits in all the savings banks of the world, according to latest official information received by the Department of Commerce and Labor through its Bureau of Statistics, amounted to over 10½ billion dollars, contributed by 82,640,000 depositors. Of this total the United States shows aggregate deposits of \$3,060,179,000, credited to 7,305,000 depositors. As the figures used in arriving at the grand totals cover about one-half of the population of the world, viz, over 770 million, it appears that the United States, with less than 9½ per cent of the total population considered, contributes over 29 per cent of the total savings deposits recorded. Of the total number of depositors, or rather deposit accounts, the share of the United States is somewhat less than 9 per cent, while the average deposit per account is more than four times and the average savings per inhabitant more than three and one-half times the corresponding averages for the rest of the world.

It is interesting to note that in Europe and even in Canada the functions of the government in this field are larger than in this country, where the State restricts itself merely to formulating the general legislation pertaining to the subject, sanctioning special charters for the creation of savings banks and controlling through special

officers the proper workings of such banks. The European governments in many cases have shown greater interest in this mode of popular saving, either by guaranteeing the safety of deposits or by instituting government institutions, chiefly postal savings banks, for the receiving and managing of savings deposits. In some countries, such as Russia, Bulgaria, and Roumania, the lack of private initiative and the preponderating influence of the State in the entire economic life of the nation have caused the development of public savings banks to an almost exclusive extent. In other countries, such as Germany, Switzerland, and France, the local public bodies, such as the communes or cantons, from the very outset invited and fostered the deposits of small savings by establishing municipal savings institutions. Wherever the central government is in immediate, though not exclusive, charge of the savings service, as in the United Kingdom, Belgium, and Russia, parts of the deposits are invested in government securities, so that the public savings institutions there serve the double purpose of providing a safe investment for the capital of the less well-to-do and commercially inexperienced class of the population, as well as of strengthening the public credit of the country by attracting investments on the part of such classes, which, left to their own initiative, might not choose this or, for that matter, any other mode of investment.

The common feature of all savings banks, no matter how organized, is that they are not working for profit, the underlying idea being rather to make the deposits as secure as possible. This results naturally in an interest rate on deposits considerably below the normal commercial rate prevailing in the respective countries. The figures as shown in the table reveal different degrees of what might be termed the "savings capacity" of the different nations, though it should always be borne in mind that the amounts deposited with savings banks by no means represent the only savings of a nation. Another factor which makes comparisons difficult is the fact that apart from differences in legislation, leaving to these institutions a greater or smaller latitude of freedom of investment, the regulations regarding the maximum amounts which may be credited to one indiviual vary according to country, and that therefore the average size of the savings deposit casts but little light on the general prosperity of the people and the more or less equitable distribution of wealth among

them.

The general social conditions of a country, the spread of general education and "banking" habits among the masses, existing facilities of communication, the ease and lack of formalities with which savings are made, and last, but not least, the use made by the population of other modes of saving—all these factors have to be considered when international comparison of savings statistics are attempted. To give but a few examples: The total savings deposits of France, as stated in the table, appear less than those of Austria, while the aggregate savings deposits of Prussia are shown to exceed those of France by almost 80 per cent. Any conclusions with regard to the relative prosperity of these countries based on these figures would be erroneous, as in France the savings banks deposits constitute but a part, and by no means the larger part, of the total savings of the nation. As a matter of fact, the investments of the French people in Russian public bonds during the most recent period only, not to mention the holdings of the enormous national debt at home, according to the most conservative estimates exceed by far the amounts deposited in national savings institutions. In the case of Austria the figures given are somewhat misleading, since the postal savings banks there are engaged in the general banking business, the amounts reported as ordinary deposits exceeding those reported under the head of savings deposits.

With all these restrictions and interpretation clauses, the figures given are interesting as showing the wonderful results obtained in this field through ingenious organization on the one hand and the spread of thrift and saving habits among the large

masses.

The tables hereinbefore referred to are as follows:

NUMBER OF DEPOSITORS, AMOUNT OF DEPOSITS, AVERAGE DEPOSIT ACCOUNT, AVERAGE DEPOSIT PER INHABITANT AT THE DATES MENTIONED IN POSTAL AND OTHER SAV-INGS BANKS OF THE WORLD.

Country.	Population.	Date of reports.	Number of depositors.	Deposits.	Average deposit account.	Average amount depos- ited per inhabit- ant.

a Figures for New South Wales relate to Dec. 31; figures for the other States to June 30.

b Figures for postal savings banks relate to the end of the calendar year 1902; figures for the other savings banks to the end of 1901.

c Deposits with the State-controlled Caisse Générale d'Epargne. Includes savings deposits with post-offices. Moreover, accounts are published in the Annuaire Statistique of 4 municipal and 5 private savings banks for the year 1902. At the end of that year these 9 institutions had 45,165 depositors, credited with 46,262,519 francs' worth of deposits.

d Exclusive of data for the "special savings banks," the total deposits in which on June 30, 1903, amounted to \$21,241,993. The total deposits with all savings banks amount thus to \$82,013,121, making the average deposit per inhabitant \$14.83. This total does not include the savings deposits in the

chartered banks.

e Includes all savings institutions. Figures for savings banks proper, exclusive of branches of ordinary banks, were 897,405 (number of depositors) and 582,273,124 kroner (total deposits plus interests due on said deposits at the end of the year). f Not included in the grand total.

6 Figures for private savings banks for the year 1901; figures for Government postal savings banks for the year 1902.

h Data for postal savings banks only.

i Exclusive of 132,009,802 lire savings deposits with the so-called "Società ordinarie di credito," and 313,407,272 lire with the "Società cooperative di credito." No data are given with regard to number of depositors in these institutions.

I Figures for private savings banks for the calendar year 1902; figures for Government postal savings banks for fiscal year ended Mar. 31, 1903.

k Figures for the "Casa de economie" only.

l Preliminary data for all Government savings banks as published by the Viestnik Finansov, No.

m Year ended Nov. 20 for trustees savings banks.

n Estimates of M. Guillaume Fatio in the Journal de Statistique Suisse, 1900, No. 4.

BANKING POWER OF THE WORLD.

The banking power of the United States, made up of the capital, surplus profits, deposits, and circulation of banks of the United States and island possessions, aggregates \$13,826,000,000. These figures include funds of national banks, amounting to \$5,171,000,000; reporting State banks and bankers, \$8,092,000,000, and nonreporting banks, estimated, \$563,000,000.

From the latest and most reliable data the banking power of foreign countries has been estimated at \$19,781,000,000, thus making the aggregate banking power of the world approximately \$33,608,000,000.

The world's banking power in 1890, as estimated by Mulhall, was \$15,985,000,000, the United States being credited by him with something less than one-third of that amount. The present estimate, compared with Mulhall's, shows that the banking power of the United States has increased since that date by \$8,676,000,000, or 168.47 per cent, and that of foreign countries by \$8,946,000,000, or 82.57 per cent, the combined banking power of the world having increased since 1890 from \$15,985,000,000 to \$33,608,000,000, a total ratio of increase of 110.25 per cent.

The subjoined tables give in detail the banking power of the United

States, foreign countries, and the world.

STATE, SAVINGS, PRIVATE BANKS, LOAN AND TRUST COMPANIES.

Incorporated in the national-bank act is the provision that the Comptroller of the Currency shall include in his annual report to Congress information relative to the condition of banks and banking institutions chartered and operated under State authority. In obtaining such information the usual course has been followed in calling upon officers of States having supervision of institutions of that character for abstracts or copies of reports filed therewith. In States having no laws providing for the submission and compilation of the reports, requests were addressed to each incorporated and private bank for a statement of condition, of date June 30, 1904.

Official returns concerning the condition of incorporated commercial banks have been received from all the States and Territories of the Union with the exception of Alabama, Arkansas, Indian Territory, Oregon, Idaho, Nevada, Alaska, and Hawaii, from which unofficial returns have been compiled from reports furnished by the individual

banks.

From official sources and from banks direct returns have been received showing the condition of 9,519 banks, other than national,

with aggregate resources of \$8,542,839,386.

Reports were received from 6,923 commercial banks, 585 loan and trust companies, 1,157 savings banks, of which 668 were of the mutual class without capital stock, and from 854 private banks and bankers. The capital stock of the State banks is \$347,421,197, and individual

The capital stock of the State banks is \$347,421,197, and individual deposits \$2,073,218,049. The number of reporting banks of this character is 961 greater than in 1903, and there is an increase in assets of approximately \$372,000,000.

In 1903 reports were received from 531 loan and trust companies, having aggregate resources of \$2,298,554,063. For the current year reports have been received from 585 corporations of this character,

having assets of \$2,380,287,747.

Returns were obtained from 854 private banks, against 1,174 in 1903. The assets of banks of this character, as reported in 1903, were \$169,049,821, against \$123,549,859 for the present year. The decrease in the number of private banks and bankers reporting and corresponding drop in their volume of assets is attributable to the fact that during the past year a large number of private banks were converted into State banks, over 100 of such private institutions in the State of Wisconsin alone having been incorporated during the year to meet the

There will be found in the appendix to the report of the Comptroller of the Currency, Table XI, information obtained with respect to the capital, amount and average rate per cent of dividends paid by State banks and loan and trust companies submitting data of that character for the year ended June 30, 1904. Reports covering the subject were received from 2,656 State banks with capital of \$149,834,408, showing the payment of dividends to the amount of \$12,730,514, or an average of 8.5 per cent; from 538 loan and trust companies with capital of \$209,617,666, showing the payment of dividends amounting to \$18,739,874, or an average of 8.94 per cent, and from 270 private banks the dividends paid amounted to \$993,652 on capital stock of \$6,738,243, or an average of 14.75 per cent.

CONSOLIDATED RETURNS FROM STATE, SAVINGS BANKS, PRIVATE BANKS, AND LOAN AND TRUST COMPANIES.

For the purpose of comparison there is given herewith a table showing the principal items of resources and liabilities of banks other than national, in the years 1899 to 1904, inclusive.

Consolidated Returns from State, Savings, Private Banks and Trust Companies, 1899 to 1904, inclusive.

Items.	1899.	1900.	1901.	1902.	1903.	1904.
Loans	1,527,595,160 210,884,047 368,746,648	1,723,830,351 220,667,109	1, 935, 625, 964 240, 145, 951	2,094,496,729 250,815,787	2, 334, 329, 987 275, 813, 526	
vided profits Deposits Resources		4, 780, 893, 692	5, 518, 804, 859	6, 005, 847, 214	6, 352, 700, 055	

The foregoing indicates an increase in aggregate resources in 1904 over 1903, of approximately \$526,000,000, and while there was a net gain in loans and discounts of only \$63,000,000, individual deposits increased during the year in the sum of \$335,500,000, and the cash holdings \$26,000,000.

From tables published in the appendix to the report of the Comptroller of the Currency, it will be observed that the decrease in the amount of loans of private banks and trust companies, \$30,300,000 and \$155,600,000, respectively, aggregating about \$186,000,000, is offset by the gain in assets of this character by State banks. The savings banks' loans show an increase over 1903 of approximately \$63,000,000. The conversion during the past year of a large number of private banks into incorporated or State banks accounts for the apparent reduction in resources of concerns of the former class. The great-

est shrinkage in loans and discounts is chiefly confined to loan and trust companies in operation in New York—from \$735,000,000 in 1903 to \$637,000,000 in 1904. These institutions, however, largely increased their investments in stocks, bonds, etc.; their deposits with banks, and also their currency holdings. Accompanying the reported loss of \$37,500,000 in the amount of deposits in private banks is shown a gain in the State banks of \$258,700,000; savings banks, \$103,300,000, and loan and trust companies \$11,000,000, or a net gain of \$335,500,000.

In the following table are incorporated the principal items in resources and liabilities of national banks, all other banks and banking institutions, and consolidated returns from all reporting banks in 1893.

1903, and 1904:

		1893.		ĺ	1903.		1904.

Requests for reports of resources and liabilities of banks other than national addressed to State officials, called also for information as to the number and capital of banks of the various classes organized in each State during the year ended June 30, 1904, and the returns submitted are complete and official with respect to the States from which the information was received. A summary of the returns is published in the appendix to the report of the Comptroller of the Currency and shows the organization of 1,050 banks with capital stock of \$35,888,265, of which 983, with capital of \$28,226,088, were incorporated commercial banks; 55, with capital of \$7,561,677, loan and trust companies; 2 mutual savings banks without capital and 10 private banks with capital of \$100,500.

STATE AND PRIVATE BANK FAILURES.

Through the courtesy of Mr. Frank Green, managing editor of Bradstreet's, this office has been placed in possession of information relating to the number, assets, and liabilities of incorporated and private banks which failed during the year ended June 30, 1904. The total number of failures during the year was 102, the assets of the banks being \$24,296,823 and the liabilities \$31,774,895. Included in the number of failures were 37 State banks, 7 savings banks, 8 trust companies, and 50 private banks.

Information with respect to the number of banks, other than national, which have failed annually from 1864 to 1904, together with their aggregate assets and liabilities, is incorporated in the table following:

Number of Failures, Capital, Assets, Liabilities, and Dividends Paid by Banks other than National which Failed in Each Year from 1864 to 1904.

SAVINGS BANKS.

Savings banks, as originally conceived, were associations of philanthropic individuals formed for the purpose of receiving and profitably investing the savings of special or general classes of wage-earners. It is stated on authorities quoted by E. W. Keyes, in his History of Savings Banks in the United States, that the first savings bank was founded at Hamburg in 1778, although there are other claims to the effect that the first institution of the kind was established at Berne, Switzerland, in 1787. In Lewins' History of Banks for Savings in Great Britain and Ireland it is stated—

that from the best investigation he has been able to make, the institutions in question were something very different from savings banks as English people understand them, dealing as they did in business more like the sale of deferred annuities. The institution at Hamburg simpy took the spare cash of domestic servants and handicraftmen and granted annuities on the members arriving at a certain age. No withdrawal of money was allowed.

In 1798 there was established at Toppingham, High Cross (England), a "Friendly Society for the Benefit of Women and Children," and prior to 1801 there had been combined with the main design (granting annuities, weekly allowances in case of sickness, and burial expenses) two other objects, namely, a fund for loans and a bank for savings. In 1804 this bank for savings was organized and trustees appointed. Prior to 1817 savings banks in Great Britain were "merely voluntary associations in various localities of those who sought to assist the poor in their immediate neighborhood." The first act of Parliament relating to institutions of this character was passed in August, 1817.

ing to institutions of this character was passed in August, 1817. Governmental recognition of savings banks in the United States antedated by nearly a year the act of the British Parliament, the Provident Institution for Savings, located at Boston, having been incorporated under the act of the State legislature approved December 13, 1816. Savings banks, however, had their first inception in this country in the State of Pennsylvania, through the voluntary association of a number of benevolent, philanthropic citizens, as the Philadelphia Savings Fund Society, which institution began business in December, 1816, although the act of incorporation was not approved until February 25, 1819.

In December, 1818, Maryland granted a charter to the first savings institution organized in that State. In the following year, savings bank charters were conferred by the States of New York, Pennsylvania, Rhode Island, and Connecticut, and also by Maine (the year prior to its admission to the Union). In the same year the proposition to incorporate a savings bank was considered by the New Hampshire legislature, but it was not until 1823 that a charter was granted. It is remarkable that while savings banks came into being in the other New England States so early in the century, and so nearly coincidentally, it was not until 1846 that institutions of that character were chartered by the State of Vermont. In 1839, the State of New Jersey granted the first charter to a savings institution. It is understood that only two savings banks have been incorporated in the State of Deleware, the first in 1832, and the second in 1861, both being still in existence.

Beyond the confines of the New England and Eastern States comparatively few savings institutions of the character of those operating in that section of the country have ever been incorporated. In fact only 3½ per cent are so located, as shown by the 1904 returns from institutions of that class. These institutions are without capital stock and operated by boards of trustees whose services generally are understood to be without compensation. The purpose, as originally conceived, still continues—that is, the reception and investment of deposits of the working population mainly of localities in which the banks exist. In investing the deposits the prime consideration is safety rather than profit. In the payment of interest on deposits, in some States the rate is fixed by statute but generally by the trustees, having in consideration the earning power of the assets. Usually either by statute or regulation a certain percentage of the earnings is carried to a reserve fund until that account amounts to a fixed proportion of the deposit liabilities.

By reference to statistics recently compiled it is noted that the investment of savings-bank funds is nearly equally divided between loans (largely on real-estate security) and in stocks and bonds. The creation of building and loan associations and the policy of commercial banks generally of paying interest on deposits have seemingly

tended to discourage the organization of mutual savings banks. By reference to statistics compiled in this office in the decennial periods terminating in June, 1874 to 1904, inclusive, it is noted that while there was a decrease in number of institutions of this character in the New England and Eastern States from 655 in 1874 to 607 in 1884, there was an increase to 659 in 1894, but a drop to 645 in 1904. It appears, however, that there was a gradual increase in the amount of deposits and the number of depositors. In 1874 the deposits amounted to \$733,000,000 and the number of depositors to 2,188,729; in 1884 the deposits had increased to \$998,000,000 and the number of depositors to 2,884,798. The deposits in 1894 were \$1,520,000,000 and the number of depositors 4,230,431. In June, 1904, the deposits had increased to over two and one-half billions and the number of depositors to 6,081,235.

Reports showing the condition, on approximately June 30, 1904, were received at this office from 1,157 savings banks, of which 668 are of the mutual class and 489 with capital stock. The aggregate assets of the former are \$2,817,996,115, and of the latter \$357,261,492, making a total of \$3,175,257,607. The loans of the mutuals amount approximately to \$1,184,000,000, of which \$971,000,000 are secured by real estate. Investments in bonds, stocks, etc., are as follows:

United States bonds, \$12,600,000; State, county, and municipal bonds, \$132,400,000; railroad bonds and stocks, \$291,900,000; bank stocks, \$28,500,000; bonds, stocks, and other securities not classified, \$936,600,000; cash on deposit with other banks, \$115,000,000, and cash on hand, \$18,000,000. On deposit liabilities of \$2,602,040,775 these banks held surplus funds and other undivided profits to the amount of \$180,198,898 and \$25,971,831, respectively, the total surplus profits amounting to nearly 8 per cent of the deposit liabilities. The returns show that the depositors in savings banks of this character number 6,286,375, which indicates an average deposit of \$413.92. The number of depositors in the savings banks in the New England States was 2,827,984, the average account, \$380.10; in the Eastern States the number of depositors was 3,253,251, the average deposits, But one mutual savings bank is reported to be in operation in the Southern States, and that one is located in West Virginia and has 5,208 depositors, with an average deposit of \$177.68. In the Middle Western States of Ohio, Indiana, Wisconsin, and Minnesota there are 199,932 savings-bank depositors, with an average credit of \$389.36.

The reporting stock savings banks are located in North Carolina, Iowa, California, and the District of Columbia. The resources of these banks amount to \$357,261,492, approximately 11 per cent of the total assets of all savings banks. The loans of these banks aggregate, approximately, \$226,500,000; investments in bonds, stocks, and other securities, \$87,700,000; deposits with other banks, \$25,600,000; cash on hand, \$6,400,000. The reported capital is \$22,500,000; surplus and undivided profits, \$13,700,000; deposits, \$316,700,000; number of depositors, 602,171, and the average deposit, \$525.99.

Comparing the stock-savings bank returns for the current year with those of 1903, an increase in aggregate resources is shown of approximately \$118,000,000; the increase in deposits was \$103,000,000, and number of depositors, 214,309. The average deposit has increased

from \$421.84 to \$423.72, or \$1.88.

From an examination of the returns submitted with respect to the rate of interest paid on savings accounts, it will be noted that the maximum rate of interest is 4\frac{3}{4} per cent and the minimum rate 2.72 per cent. The estimated average rate is 3.506 per cent, a slight increase over the estimated average interest rate in 1903.

The following table shows the rate paid in each State by savings -

banks located therein:

State, etc.	Rate per cent.	State, etc.	Rate per cent.
Maine. New Hampshire Vermont Massachusetts Rhode Island Connecticut New York New Jersey Pennsylvania Delaware	3. 17 3. 375 3. 71 3. 88 3. 76 3. 26 3. 00	Maryland a. District of Columbia a. a Unofficial.

In the following comparative statement relating to the number of depositors and amount of deposits, etc., in savings banks of the United States for the years 1902–3 and 1903–4 are included deposits in savings departments of commercial banks in operation in the State of Illinois, for the reason that the auditor of public accounts of Illinois in his periodical statements reports such deposits separately from deposits subject to check.

The result of the addition of the Illinois savings deposits is the raising of the aggregate savings deposits in the United States to \$3,060,178,611, the number of depositors to 7,305,443, the average

deposit being \$418.89.

The table referred to is as follows:

GROWTH OF BANKING IN THE UNITED STATES.

In the following table is shown the growth of banking in the United States, as indicated by the number of banks, capital stock, and individual deposits, from 1882 to 1904. On the earlier date the number of reporting banks was 7,302, with capital of \$712,100,000, and deposits of \$2,785,407,000. The proportion of national-bank capital was 67.01 per cent, and deposits in national banks 38.3 per cent. On this date there was one bank for every 7,190 inhabitants, the capital and deposits per capita being \$13.60 and \$53.06, respectively. In 1892 the number of reporting banks had increased to 9,338, the capital to \$1,071,073,048, and the deposits to \$4,664,934,250. The percentage of national-bank capital had declined to 63.9 and deposits to 37.6. In 1892 there was one bank for every 7,016 inhabitants, the per capita of capital being \$16.40 and deposits \$71.40. In 1902 the number of reporting banks was 16,156, with capital of \$1,340,160,416; deposits, partially estimated, \$9,583,315,778. National-bank capital represented 52.4 per cent of the total and the deposits 32.3 per cent. The greater increase in the number of banks, as compared with population, is indicated by the fact that there was in existence one bank for every 4,897 of population, the average per capita of capital and deposits having increased to \$1.6.90 and \$1.21.25, respectively. As will be observed from the table, the figures for 1903 include the capital and estimated deposits of some 4,546 banks, reports relative to whose condition were not received. The aggregate number of banks for this year is shown to have been 18,230, with capital of \$1,474,328,512 and deposits of \$10,056,215,995. National-bank capital declined to 50.43 per cent and the deposits to 31.8 per cent. On or about June 30, 1904, from reports received at this office from national and State banks, and adding thereto the number of nonreporting banks whose capital is stated by bank reporters, and amount of deposits estimated upon a basis of statements of reporting banks, the total is found to be 18,844, the capital \$1,473,904,674, and the deposits \$10,448,545,990. As will be observed, the percentage of national-bank capital has increased to 52.06, but the average per cent of deposits shows a reduction to 31.7. In this year there is shown to exist one bank for every 4,344 inhabitants. per capita of capital stock and deposits has increased to \$18 and \$127.73, respectively.

The table referred to is as follows:

Note.—Figures for 1902, 1903, and 1904 include banks of island possessions.

For the purpose of showing the growth of banking in the country, based upon the amount of individual deposits shown by reports received at this office, a compilation of the returns for the years 1892, 1896, 1900, and 1904, has been made for each State and geographical division, showing in each the amount of deposits in State banks, savings banks, loan and trust companies, and national banks. The detailed statement is given in the appendix to the report of the Comptroller of the Currency.

By reference to the accompanying table, in which is stated the indi-

vidual deposits of each class of banks in each geographical division in the four years mentioned, namely, 1892, 1896, 1900, and 1904, it will be noted that the increase in deposits from \$4,664,934,250, in 1892, to \$4,945,124,423 in 1896, was but 6 per cent, or \$280,190,173. In 1900 the volume of deposits had increased to \$7,238,986,450, the amount and per cent of increase during this four-year period being \$2,293,862,027 (which includes about \$3,000,000 on deposit in banks in the island possessions), and 46 per cent, respectively. Including \$19,287,669 deposits in banks located in the island possessions, the total deposits in all reporting banks in 1904 amounted to \$10,000,546,999, an increase of \$2,761,560,549, or 38 per cent since 1900. The increase from 1892 to 1904 was the enormous sum of \$5,335,612,749, the rate of increase being 114.4 per cent.

The table referred to is as follows:

Consolidating the returns relating to the deposits in each of the years mentioned, by geographical divisions of the country, there is shown to have been an increase in the deposits of banks located in the New England States from \$1,061,115,759 in 1892 to \$1,659,896,457 in 1904. The increase in the Eastern States during this period was from \$2,049,006,306 to \$4,523,152,171; Southern States, from \$234,040,538 to \$638,669,276; Middle Western States, \$924,138,927 to \$2,225,451,820; Western States, from \$155,762,232 to \$372,031,864, and the Pacific States from \$240,870,488 to \$562,057,742. The deposits in the banks in the island possessions (Hawaii only) are first stated for 1900, when they amounted to \$3,096,174. In 1904 the amount of deposits in the banks in the island possessions is shown to have been \$19,287,669.

In the following table is stated the aggregate amount of deposits in each geographical division on the indicated dates:

Individual Deposits in State, Savings, Private, and National Banks, and Loan and Trust Companies, in each Geographical Division, on or about June 30, 1892, 1896, 1900, and 1904.

BUILDING AND LOAN ASSOCIATIONS.

Mr. H. F. Cellarius, secretary of the United States League of Local Building and Loan Associations, in his annual report furnished this Office, states that the business of the local building and loan associations of the United States has been very satisfactory during the past year; that while the net increase in the aggregate assets is not as large as it might be on account of an apparent decrease of nearly \$10,000,000 in Ohio, resulting in the organization of a number of building associations into trust companies, yet notwithstanding this a material advance has been made both in assets and membership. From the secretary's report it is further learned that there are in the United States 5,308 local building and loan associations with a total membership of 1,566,700 and assets amounting to \$579,556,112, a net increase in assets for the year of \$2,328,098, the net growth in membership for the year being 35,993.

The following table exhibits the number of associations and total assets of such associations by States for the years 1903-4, together with the amounts showing increase or decrease over the figures of the prior year:

State.	Number of asso- ciations.	Total mem- bership.	Total assets.	Increase in assets.	Decrease in assets.	Increase in mem- bership.
Pennsylvania Ohio New Jersey Illinois New York Massachusetts Indiana California Michigan Missouri Louisiana Iowa Nebraska Connecticut Wisconsin Kansas Maine Tennessee New Hampshire Minnesota Other States.	731 858 500 300 1300 379 146 58 134 39 72 59 16 53 40 35 21 15 16	313, 193 301, 460 112, 539 83, 000 90, 429 84, 527 97, 213 53, 376 32, 391 20, 000 20, 446 8, 035 13, 250 11, 259 8, 444 8, 417 5, 175 2, 200 278, 200	51, 460, 688 39, 432, 282 38, 342, 475 32, 919, 73 30, 035, 098 19, 863, 852 10, 746, 298 7, 771, 790 6, 609, 242 6, 656, 469 5, 343, 429 3, 851, 539 3, 819, 768 8, 417, 114 2, 932, 206 2, 321, 663 1, 753, 560 1, 066, 680 98, 129, 000	2, 980, 311 2, 528, 073 16, 691 1, 663, 985 840, 225 109, 242 585, 136 223, 835 297, 596 77, 580 13, 444 929, 000	871, 570 543, 267 456, 475 293, 658	5, 386 5, 915 3, 800 1, 809 5, 212 48, 942 6, 084 48, 734 150 100 733 189 296 325 4, 700

a Decrease.

The receipts and disbursements of building and loan associations for 1903 show an increased volume of business transacted during the year amounting to over \$24,000,000. There was an increase in loans made on mortgage security over the previous year of over \$13,000,000. The receipts and disbursements in detail were as follows:

Pass-book loans Mortgage loans Stock withdrawals Paid-up stock withdrawals Deposit withdrawals Expenses Borrowed money Interest Real estate purchased Miscellaneous Cash on hand January 1, 1904	49, 077, 768 5, 371, 696 16, 884, 748 631, 652
1	Miscellaneous

SCHOOL SAVINGS BANKS.

The office has been placed in possession, by Mr. J. H. Thiry, of Long Island City, N. Y., of statistics relating to the operation of school savings banks in the United States, brought down to January 1, 1904. The system was inaugurated in the schools of Long Island City in 1885. The school savings-bank system is now in operation in 789 schools of 106 cities of 26 States, and 90,961 scholars in these schools have deposited \$1,367,930.25, of which \$868,276.02 have been withdrawn, leaving a balance of \$499,654.23 due to depositors on January 1, 1904.

The city of Los Angeles, Cal., has the largest number of schools in which this system of school banks has been inaugurated, there being 53 schools, with 6,698 depositors and deposit balances aggregating \$32,399.77; but the city of Pittsburg has the largest number of depositors in such school banks, 18,000 of the school children of that city having deposits to their credit to the amount of \$59,023.76.

BANKING IN THE ISLAND POSSESSIONS.

Through the courtesy of Hon. Frank A. Branagan, treasurer of the Philippine Archipelago, the Office has been placed in possession of official reports of the banking institutions of the Philippine Archipelago, and to Hon. Wm. F. Willoughby, treasurer of Porto Rico, the Comptroller is indebted for an abstract of the reports of condition of the banks other than national in Porto Rico; such information as has been obtained in respect to the condition of banks in the Hawaiian Islands being furnished by the banks direct.

THE PHILIPPINES.

A summary of the returns of the 10 banks in the Philippines as of date March 31, 1904, appears in the appendix to the report of the

Comptroller of the Currency, together with individual statements, as made to the treasurer of the archipelago at the latter date. The principal items of resources and liabilities of these banks are: Loans and discounts, including overdrafts, \$13,695,569; bullion, specie and other currency, \$4,913,170; due from other banks and agencies, \$5,847,376; aggregate resources, \$27,312,500; capital stock, \$1,391,862; surplus and undivided profits, \$1,303,122; bank deposits, \$13,220,157; individual deposits, \$7,879,628; public deposits (insular), \$2,178,438.

Comparing these returns with those submitted to this office under date of June 30, 1903, aggregate resources show a decrease of \$640,009. Cash holdings have decreased in the sum of \$2,887,031, the loss being chiefly in the United States notes held, which have decreased from \$3,042,411 in 1903 to \$689,981 in 1904; loans and discounts have increased by \$506,430, while individual deposits show a loss of \$1,645,608 and public deposits (insular) a loss of \$3,001,679. The item of bank deposits, however, has increased from \$8,677,434 in 1903 to \$13,220,157 for the current year, being an increase of \$4,542,713.

The banks from which reports were received are the Manila agency and the Iloilo subagency of the Hongkong and Shanghai Banking Corporation; the Manila agency and Cebu subagency of the Chartered Bank of India, Australia, and China; the Banco Español-Filipino at Manila and its Iloilo subagency; the Monte de Piedad y Caja de Ahorros de Manila; the American Bank, at Manila; the Guaranty Trust Company, of New York, at Manila, and the International Banking Corporation of New York.

PORTO RICO.

Reports have been received from 10 banks in Porto Rico, with aggregate capital of \$1,729,064, operating under Territorial laws, and from

one national banking association with capital of \$100,000.

The combined resources of the 11 banks are \$7,416,837, a gain of \$1,216,935 over the returns of 1903. The principal items of resources and liabilities of the former class of banks are, loans, \$2,393,704; bonds and stocks, \$1,302,951; cash on hand, \$1,214,085; capital stock, \$1,729,064; surplus and undivided profits, \$256,211; deposits, \$3,654,336, and total resources, \$6,985,153. The aggregate resources of the one national bank, as shown by the report of June 9, 1904, was \$431,684; loans, \$45,546; circulation, \$100,000; deposits, \$228,837.

HAWAII.

The two national banks in operation in the Territory of Hawaii, as shown by reports to this Office dated June 9, 1904, have a combined capital of \$525,000, circulation of \$245,200, surplus and undivided profits \$81,224. Individual deposits are \$684,796, and United States deposits and disbursing officers accounts \$226,744. The loans and discounts amount to \$1,200,052, and the aggregate resources to \$2,025,911.

Reports have been received from three incorporated banks and two private institutions with aggregate capital of \$2,150,000; surplus and profits, \$317,966; deposits, \$4,568,932; loans and discounts, including overdrafts, \$5,550,330; total resources, \$8,055,495. From these returns, the banking power of the Territory, that is, capital, surplus profits, circulation, and deposits of the reporting banking institutions,

will approximate \$9,000,000, indicating a substantial gain over the figures obtained for 1903, as well as over those published for the year 1902.

BANKING IN CENTRAL AND SOUTH AMERICA.

Statistics bearing upon the subject of banking in the Central and South American countries are very meager. The fund of information in respect to banking concerns of the Latin-American countries consists chiefly in the published reports of European financial institutions having branches in a number of these southern republics. The commerce of the United States is extending in this direction by reason of the building of the isthmian canal, and public interest is awake to the fact that closer trade relations between the two continents are sure to follow the completion of this important project.

In view of this fact it was thought proper that an effort should be made to obtain information relative to financial conditions and the monetary institutions of these countries, and to this end the diplomatic representatives of the United States in the various Central and South American Republics were asked to aid in the work by forwarding statements relating to banking and the financial condition

concerning the countries to which they are accredited.

The results are far from complete, but any statistics from authentic sources which add to the present stock of knowledge in this respect it is believed will be of value.

The letter forwarded to each diplomatic representative reads as follows:

Sir: It is the purpose to incorporate in my report to be made to Congress in December next as complete information as can be obtained with respect to the condition of banks and banking in the Central and South American Republics, etc. With this object in view I have the honor to request your cooperation in obtaining from the State officials, or from the banking corporations of every character in operation in Mexico, statements of condition as of June 30, 1904, or approximately that date. It is desired to have shown in these statements the principal items of resources and liabilities; that is, loans and discounts, overdrafts, investments in bonds, stocks, and other securities; amounts due from other banking corporations; cash in bank, showing, separately, gold, silver, and other currency; capital stock, surplus and other profits, circulating notes outstanding, if any; deposits, and, in the aggregate, other liabilities, as indicated by the accompanying form.

Information is also desired with respect to the financial condition of the country;

that is—

1. The bonded debt.

Floating debt.
 Revenues for the last fiscal year—(a) From imports; (b) Internal taxes.

4. Expenditures for the last fiscal year.

5. Stock of money of the country, classified to show the amount of gold, silver, and other currency, respectively.

The receipt of all or any of the information hereinbefore requested will be greatly

The receipt of all or any of the information hereinbefore requested will be greatly appreciated.

Respectfully,

WM. B. RIDGELY, Comptroller.

Replies have been received respecting seventeen countries, namely: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Panama, Peru, Salvador, Uruguay, Venezuela, together with Cuba, Haiti, and the Dominican Republic, no reports being received from Paraguay and Nicaragua.

As a result of the correspondence referred to, in addition to the data relating to the financial condition of the various governments, statements have been received showing the condition of over 50 of the

principal banks operating in South America, besides reports of a number of London concerns, with numerous branches there and elsewhere. The abstract of the principal items of resources and liabilities of these banks by no means fully represents the banking power of this part of the world, yet the figures reflect measurably the volume of business carried on over this vast territory. A summary of the principal items of the reports, reduced to United States money, based upon the value of the monetary unit of each country, without taking exchange into account, follows:

Loans	\$315, 246, 338
Bonds, etc.	31, 881, 095
Cash in bank	139, 266, 858
Capital	120, 350, 540
Surplus and undivided profits	28, 970, 892
Deposits	366, 437, 742
Total assets.	743, 839, 995

The figures above were summarized from reports of condition of 7 banks in Argentina, 4 in Bolivia, 14 in Brazil, 18 in Chile, 4 in Peru, 3 in Venezuela, and 1 each in Colombia, Ecuador, and Uruguay.

An abstract of banking returns from all the Central American Republics, excepting Nicaragua, shows the principal items of resources and liabilities of the 12 reporting banks—viz: 1 each from Costa Rica, Honduras, and Panama; 6 from Guatemala, and 3 from Salvador—to be as follows:

Loans	\$26, 949, 302
Bonds, stocks, etc	1, 956, 512
Cash on hand	3, 719, 349
Capital stock	8, 256, 580
Surplus and profits	4, 524, 060
Circulation	17, 025, 206
Deposits	6, 592, 174
Deposits Total assets	39, 444, 681

The replies to the interrogatories addressed to the United States diplomatic representatives accredited to the countries named are given in full in the appendix to the report of the Comptroller of the Currency. An abstract as correct as the information will permit relating to the financial condition of the following-named countries is presented herewith.

ARGENTINA.

No report relating to finances of the Government. Individual reports of banking concerns forwarded appear in the appendix to the report of the Comptroller of the Currency.

Reliable authority places the public debt of Argentina at \$479,765,-

265, excluding Government issues of paper money.

BOLIVIA.

Bolivia's budget, estimated for 1904, according to the Revista Comercial e' Industrial, is—revenue, Bs. 7,241,700; expenditures, Bs. 9,126,295. The boliviano is equal to 42.2 cents American gold.

BRAZIL.

No direct report as to financial condition of Brazil. The national debt of that country on June 30, 1903, according to figures published in the Brazilian Review, was—foreign debt, £65,917,297, the internal

funded debt payable in gold being 27,259,000 milreis (gold milreis, 54.6 cents) and payable in currency, 537,410,537 milreis—the floating debt not included in the above figures.

The bonded foreign debt of Chile is £16,649,400; floating foreign debt £2,500,000, aggregating about \$93,162,000, and internal debt \$75,301,716 in paper currency of the country, equivalent to about \$25,000,000 United States currency.

The revenues for the calendar year 1903 amounted to 137,536,214 pesos in gold and 95,057,312 pesos in paper currency. The expenditures for same year were 93,464,313 pesos in gold and 91,390,659 pesos in paper currency. Gold pesos are equal to 18d. (say 36.5 Other obligations of the state affecting the balance on hand for 1904 amount to 22,328,379 gold and 9,374,183 paper currency, of which sum the principal item is a conversion fund of 21,500,000 gold.

All bank notes were redeemed by the law of 1895.

The stock of money in the country amounts to 50,000,000 pesos in paper and 2,000,000 pesos, approximately, in silver, nickel, and copper. The average value of this money is 33 cents United States currency. About \$60,000,000 in gold at 18d. have been coined, but it is not known how much of this amount is now within the country. Abstract of reports of 18 banks, with capital stock aggregating \$59,006,660 (Chilean currency), is published in the appendix to the report of the Comptroller of the Currency.

COLOMBIA.

The bonded foreign debt of Colombia is £2,700,000, or \$13,136,000, bearing interest at 1½ per cent annually, increasing one-half per cent each three years until it reaches 3 per cent per annum. The interior debt is stated to be \$5,633,716, and floating debt \$250,000. The stock of money, according to Government reports, amounts to \$741,048,126 (Colombian), or about \$7,005,088.67 at the present rate of exchange— 10,000 per cent, approximately. There is practically no gold and silver in circulation, all having been driven out by the forced paper currency.

Official estimates of the expenditures and resources for 1903-4 are: Expenditures, \$451,557,929; resources, \$426,031,000; deficit, \$25,526-

929 (Colombian).

COSTA RICA.

From La Gaceta of July 19, 1904, it is learned that the rate of exchange between Costa Rica and the United States averaged during the year 217 per cent. The circulating medium on March 31, 1904, reached 7,106,254 colones, which that paper states is larger than ever before and sufficient for all requirements. (One colon equal to 46) cents.)

ECUADOR.

The total bonded debt of Ecuador on June 1, 1903, was \$9,271,035, the floating debt being estimated at \$3,800,000.

The revenue from customs duties and taxes for 1902 amounted to \$4,250,000, the expenditures being for the same year \$4,675,000. On December 31, 1902, the stock of money in the country was \$750,000 in gold, \$1,250,000 silver, and \$2,750,000 bank notes. The monetary unit is the sucre, equal to 48.7 cents.

GUATEMALA.

The following data taken as per December 31, 1903, being end of last fiscal year, is furnished by the United States representative to this country:

Bonded debt: (a) Exterior debt, including accrued interestgold	\$8, 896, 000. 00
(b) Bonos diversos currency (c) Bonos deuda interior do (d) Bonos ferrocarril al norte do	3,602,500.00
Totaldo	6, 206, 750. 11
Floating debt: (a) Gold	943, 585. 49
(b) Currency— Government bills in circulation Other	
Total	, ,
Revenue during year 1903, in national currency: Import duties Export duties Internal taxes, etc Total	3, 878, 214. 04 7, 532. 743. 96
Expenditure (currency)	
Stock of money: Bills in circulation (national currency)— (a) Government issue (b) Bank issues	6, 034, 407. 00 37, 151, 342. 00
Total	43, 185, 749. 00
Silver very difficult to estimate, as in private hands; deposited in the various banks about	

(The amounts given are in current money of the country, viz, the peso, which it is stated has an approximate value of 7 cents gold.)

HONDURAS.

No report other than that relating to banking as published in the appendix to the report of the Comptroller of the Currency.

PANAMA.

The United States chargé d'affaires writes under date of October 4, 1904:

As to present condition of the finances of Panama there is no debt and no statement has been made up as to expenditures and receipts. The coinage of the country is now being minted in the United States and will be used to redeem the present Colombian silver money at the rate of 212½ Colombia pesos for 100 "balboas," as the unit of new money is called.

PERU.

Peru has no foreign debt. According to the director of the treasury of Peru, the interest-bearing debt of that country on the 31st of December 1903, was 2,660,645 Peruvian pounds, the non interest-bearing debt £p.377,810, and the floating debt £p.900,000.

The revenue from imports was £p.853,171,994, and from taxes £p.739,240,828, or a total of £p.1,703,138. The general expenses

aggregated £p.1,478,898.

The stock of money in the country on December 31, 1903, according to a reliable estimate was £p.1,500,000, including gold and silver. The Peruvian pound is stated to be equal in every respect to the English sovereign. Silver is now treated as subsidiary coin, and the supply is rapidly becoming more limited. There are no bank notes now in existence.

SALVADOR.

The floating debt of El Salvador on December 31, 1903, was \$10,462,967.59 in Salvador silver currency. The revenues of the Government during the calendar year 1903 amounted to \$7,980,855.23, and the expenditures were given as \$7,704,756.34.

URUGUAY.

The bonded debt of Uruguay, according to the statement of the office of the public credit, was \$124,754,455.82 on December 31, 1903, no figures being obtainable relating to floating debt. The revenue for the last fiscal year approximated \$15,138,265, while the expenditures are estimated to be about \$16,460,000, the exact figures not being ascertainable. The stock of money in the country, the American minister states, is difficult to estimate. Monetary unit, the peso, equal to \$1.034.

VENEZUELA.

From the published report of the message of President Castro to the Venezuelan Congress on February 20, 1904, it is learned that revenues of the country for the year ended December 31, 1903, amounted to 34,494,412.08 bolivars and the expenditures 34,329,420.76 bolivars—sums stated in United States currency equal to \$6,898,882.41 and \$6,865,884.15, respectively.

The internal debt and interest aggregated 92,983,088.67 bolivars, and the external debt, including interest, was 151,645,421.08. The total indebtedness of the country, reduced to United States currency, amounts

to \$48,925,701.95. Bolivar equal to 19.3 cents.

CUBA.

According to report of the United States minister, the bond issues of 1896-97, aggregating \$2,158,649, constitute the only debt of the Republic. The auditor-general's report for the year ended June 30, 1903, shows total income from all sources \$16,155,817.90, and disbursements from June 20, 1902, to June 30, 1903, aggregating \$15,933,646.71.

HAITI.

The United States minister to Haiti states that the bonded debt of that country is about \$19,000,000 and the floating debt about \$18,000,000. The revenues for the last fiscal year from imports amounted to

\$4,000,000—none from internal taxes. Figures showing expenditures not obtainable.

Stock of money consists of about \$2,500,000 in gold, about the same amount in silver, besides bank circulation to the amount of \$13,500,000, of which \$5,000,000 is yet to be received and put in circulation.

DOMINICAN REPUBLIC.

The bonded debt is supposed to be, at the present time, about

\$30,000,000. No estimate can be given as to the floating debt.

Revenue from imports last fiscal year about \$2,000,000. No internal taxes. Impossible to state amount of expenditures for last fiscal year. Stock of money, about \$3,000,000 in Dominican silver. Dollar worth about 20 cents.

DEBT, ETC., OF THE REPUBLICS OF SOUTH AND CENTRAL AMERICA AND THE WEST INDIA ISLANDS.

In connection with the foregoing the following table, compiled from latest data obtained from the Bureau of Statistics, will be of interest:

Total debt,			Fynandi	Stock of money.

cLargely in depreciated currency.

BANKS AND BANKING IN JAPAN.

The Comptroller has received reports of the Bank of Japan, the private, savings, and mortgage banks, for the year ended December 31, 1903, and semiannual statements of the condition of other banks in operation in Japan as of June 30, 1904, courteously furnished by Mr. K. Ito, chief of secretary's department of the Bank of Japan.

h There are, besides, outstanding the debts due to Brazil, 9,876,500 pesos, and to Argentina, 12,393,000 pesos.

The report of the Bank of Japan states the total operations, both receipts and disbursements, as aggregating 12,698,858,693 yen, a

decrease during the year of 1,393,788,262.

The bank's outstanding circulating notes amount to 232,920,563 yen, which are covered by specie reserve of 116,962,184 and Government bonds and other securities to the amount of 115,958,379. As will be observed the specie reserve amounts to 50.2 per cent of the total. The accumulated surplus of the bank is 16,900,000, in addition to which a reserve against the depreciation of bank property, amounting to 250,000, is carried.

The principal items of liabilities, other than those mentioned, are as follows: Deposits and accounts current, 16,442,024; due to other banks, 14,850; profit and loss account, 2,536,430. The loans aggregate 122,252,910; public bonds, 47,093,200; amounts due from other banks and agencies, 739,083 and 4,816,432, respectively; bank premises, furniture, and fixtures, 2,829,065; gold, silver, and other cur rency, including checks and notes, 83,113,653; bullion, 38,219,525.

During the past year the bank paid two dividends on its capital of 30,000,000 yen at the rate of 12 per cent per annum. In addition to its eight branches located at Osaka, Moji, Hakodate, Nagoya, Sapporro, Kyoto, Otaru, Fukushima, the bank has 31 agencies for the management of public bonds and 47 for dealing with worn-out bank notes. Reports received relative to other banks in Japan are as follows: Yokohama Specie Bank, capital stock 18,000,000 yen; total liabilities, including capital, 197,921,143; the Hypothec Bank of Japan, capital 30,000,000; the Bank of Formosa, capital 5,000,000; the Industrial Bank of Japan, capital 10,000,00; the Hokkaido Colonial Bank, capital 3,000,000; ordinary banks (private institutions), capital 255,251,892; savings banks, capital 34,915,474; local Hypothec banks, capital 27,807,500.

The Yokohama Specie Bank is the only bank in Japan having branches in foreign countries. This bank makes a specialty of transactions in

bullion and foreign exchange.

The business of the Hypothec Agricultural and Industrial Bank is confined principally to dealings in real-estate mortgages and debentures. The banks of Hokkaido and Formosa were chartered for the colonization and development of the islands of Hokkaido and Formosa, respectively.

The entire banking business of the country is under governmental supervision, and is apparently satisfactorily conducted, as the reports indicate the payment of dividends during the past year at an average rate of about $8\frac{1}{2}$ per cent. Reports of these banks appear in the

appendix to the report of the Comptroller of the Currency.

In the appendix to the report of the Comptroller of the Currency will be found statement showing the condition of the banks of the United Kingdom on December 31, 1903, and June 30, 1904; also summaries of the reports of the banks of Canada, Australasia, and Mexico.

CONCLUSION.

The figures given elsewhere in this report show the most marvelous growth in the wealth and commercial importance of the United States. Almost every year all previous records are broken in the volume of our internal trade, our exports and imports. The people of the United States have become the richest in the world, and the natural resources of the country are so great that this is sure to continue and increase for many years to come. The amount of bank clearings and deposits and the money on hand in the banks increases in every portion of the United States at a most remarkable rate.

In spite of all this, however, we do not seem to be taking our proper rank and position in foreign and international banking. One of the chief difficulties encountered by all merchants and manufacturers in extending their trade with foreign countries, and especially those of South America and of the Orient, is the lack of American banking facilities, and the necessity of doing this business very largely through European houses. This ranks next in importance to the question of an American mercantile marine, as it is one that has a very great

influence on the volume and character of our foreign trade.

As long as the United States was experimenting with silver or a bimetallic standard that fact acted as a handicap in this direction, but now that the gold standard is firmly and irrevocably established we should be able to take our proper place in international banking transactions. New York should become more and more the depository for international balances, and exchange on New York be accepted more and more in all commercial countries of the world. One important reason why our people have not been more aggressive and taken a larger part in international banking business, the same as in many other lines of trade, is that we have been too much occupied with our domestic affairs and there has been a greater temptation to transact the business at home, which was easy to do and promised as great or even greater profits.

With the accumulation of capital and wealth this condition is greatly changed, and there is now in the United States abundant capital and talent for this business, if it is given proper encouragement. Many of the national banks are now engaged in handling foreign exchange; some of them have large and successful foreign departments. In a measure, as the demand arises, facilities are being supplied, and the Comptroller sees no objection, but on the contrary many advantages, in having the larger and more powerful national banks encouraged to cultivate this business by granting them addi-

tional powers and authority for doing so.

There have been suggestions made that the organization of national corporations should be authorized for the purpose of conducting the business of foreign and international banking alone, but these do not seem to have met with much favor, and it would appear to be a wiser policy to utilize the well organized and strong national banks which are already largely engaged in this business. The Comptroller believes that it would be a wise policy and entirely just to the banks to restrict these powers to banks of large capital located in the reserve cities. Many of them now have well-organized foreign departments and officials familiar with this business, and the Comptroller believes that they are the best agencies now at hand to extend and increase this very important business.

The Comptroller would therefore recommend, in pursuance of this policy, that national banks having a capital of \$1,000,000 or more and located in the reserve cities or central reserve cities be specifically authorized to buy and sell foreign exchange; to accept bills drawn on themselves, payable not to exceed four months after sight, and to issue letters of credit; and also to open and maintain such offices,

agencies, or branches as may be necessary to conduct this business in foreign countries, and in Porto Rico, the Philippine Islands, the

Hawaiian Islands, and the Panama Canal Zone.

It is believed that this measure will tend to make closer the relations of the United States with each of its possessions, and would be obviously to the advantage of both. The increased sphere of our national life imposes new duties which, in so far as they relate to the great questions of banking and exchange, call for additional legislation; and the recommendations contained in the foregoing are intended to meet the necessities of our manifest obligations and duties in this

respect.

The Comptroller respectfully recommends that an act be passed repealing the limitation on the proportion of the circulation of any bank which may be issued in notes of the denomination of \$5. evident intention of Congress in incorporating this restriction in the act of March 14, 1900, by which notes of the denomination of \$5 are limited to one-third of the amount issuable by any association, was to limit the total issues of notes of that denomination to one-third of the aggregate amount issued. As a matter of fact, this proportion has not been exceeded since 1874. For the year prior to the passage of the act, national bank notes of this denomination amounted to but 31 per cent of the total, and this percentage declined to 21 per cent in 1900 and to 16.1 per cent in 1902, and at the date of the last report of condition amounted to 13.6 per cent. The scarcity of notes of this denomination and the great convenience it is to the banks in the smaller communities to be able to issue notes of \$5 to the amount of their whole circulation as formerly, leads the Comptroller to strongly recommend that this restriction be repealed.

The Comptroller would again renew the recommendation contained in his report of December 1, 1902, for the repeal of section 9 of the act of July 9, 1882, which limits the amount of lawful money which may be deposited with the Treasurer of the United States by national banks, reducing their circulation to \$3,000,000 during any calendar month. The reasons which lead to the enactment of this restriction have ceased to exist, and there does not appear to be any good reason why it should be continued in force. Its repeal would add materially to the elasticity of the national-bank circulation without any counter-

balancing disadvantages.

The Comptroller would again call the attention of Congress to the necessity for legislation in regard to the liquidation and consolidation of national banks and the extension of their corporate existence. The reasons for this recommendation were given in detail in the report of the Comptroller of the Currency for December 7, 1903, and further experience and administration of the law show the necessity of some action, not only in the interest of better and more efficient administration but for the better protection of the rights of the shareholders of national banks.

WM. B. RIDGELY, Comptroller of the Currency.

The Speaker of the House of Representatives.

REPORT OF THE REGISTER OF THE TREASURY.

TREASURY DEPARTMENT,
OFFICE OF THE REGISTER,
Washington, D. C., September 27, 1904.

SIR: I have the honor to make the following report of the business transacted in this office during the fiscal year ended June 30, 1904:

DIVISION OF LOANS.

The principal duties of this division are as follows: The receipt of new coupon and registered bonds when they have been prepared by the Bureau of Engraving and Printing, together with the custody of the same; the preparation of registered and coupon bonds for issue, including inscribing the names on and signing the registered bonds, writing the letters which accompany each lot, preparing receipts for the signatures of consignees, and delivering the packages for transmittal. Full records are kept of such issues and of bonds canceled and transferred as well as of bonds paid and redeemed. Accounts are opened with each holder of registered bonds.

Quarterly schedules are prepared for the payment of interest on all United States registered bonds, showing the amount held by each owner, the amount of interest due, and the address to which the Treasurer of the United States is to forward checks for interest. The schedules for the Spanish indemnity certificates are prepared annually, and those for the District of Columbia, 3.65 per cent bonds, semiannually. The assignment of all registered bonds presented for transfer to other parties or for redemption are carefully examined. The assignments of much the larger part of the values involved are made by attorneys, executors, administrators, guardians, and representatives of banks and other corporations, and it is necessary that the papers showing the authority of such agents shall be examined, indexed, and filed for instant reference. No inconsiderable labor is involved by the errors and omissions of owners of bonds who present them for transfer.

The following table shows the number and amount of new bonds prepared by the Bureau of Engraving and Printing which have been received during the year:

NEW BONDS RECEIVED FROM THE BUREAU OF ENGRAVING AND PRINTING.

Loan.	Class.	Number of impres- sions.	Amount.
Loan of 1925, 4 per cent. Consols of 1930, 2 per cent District of Columbia, fifty-year funded loan of 1924, 3.65 per cent. Philippine land purchase, 4 per cent, temporary Philippine land purchase, 4 per cent, permanent	Registered(Coupon(Registered	12,000 2,000 7,000 500 3,993 10,000	\$35, 400,000 2,000,000 25, 150,000 2,100,000 21,957,000 55,000,000
Total		35,493	141,607,000

The two following tables show the number and amount of bonds issued and canceled during the year in connection with the various loans of the United States, the 3.65 per cent loan of the District of Columbia, they being the only loan of the District of Columbia on which bonds are received for issue, and the Philippine land purchase bonds, 4 per cent:

Total	1,155,792	2,919,427,620	1,031,951	2,721,888,982	2,187,743	5,640,816,602

From the foregoing table it appears that the amount of bonds canceled in ten years was more than three times the present amount of the bonded debt of the United States. Or it may be said that the average annual amount of issues is over \$291,900,000, at which rate the present public debt might be issued in a few days over three years.

For the whole period of ten years, at 306 working days per annum,

the average daily transactions have been as follows:

Average daily issues \$954,061
Average daily cancellations \$89,343

FOUR PER CENT BONDS, FUNDED LOAN OF 1907, AND 3 PER CENT BONDS, LOAN OF 1908-1918, REFUNDED AT 2 PER CENT.

On March 26, 1903 (Circular No. 34), the Secretary of the Treasury gave notice that on and after April 1 owners of United States coupon and registered bonds of the 4 per cent funded loan of 1907 and 3 per cent loan of 1908–1918 might surrender them for refunding into the 2 per cent loan to an amount not exceeding \$100,000,000.

The bonds of the 3 and 4 per cent loans were to "be received at

The bonds of the 3 and 4 per cent loans were to "be received at a valuation equal to their present worth to yield $2\frac{1}{4}$ per cent per annum," and the 2 per cent bonds were to bear a premium of 2 per cent. At a later date notice was given that the privilege of making such exchange would cease on July 31.

The issues under this circular during the fiscal year 1903-4, viz.,

subsequent to July 1, 1903, were:

Consols of 1930, 2 per cent:

Coupon \$351,000 Registered 6,216,800

-\$6,567,800

The amount issued previous to July 1 (i. e., prior to the last fiscal year) was, as stated in my last report:

Consols of 1930, 2 per cent:

 Coupon
 \$2,886,750

 Registered
 71,688,050

74, 574, 800

The total amount of each loan surrendered for exchange into consols of 1930, 2 per cent, under this circular was as follows:

Loan.	Class.	Amount.
	(Coupon Registered (Coupon (Registered	\$3,863,550 61,236,350 3,004,160 13,038,540 81,142,600

On the 23d of September, 1903, the Secretary of the Treasury issued Circular No. 108 offering to receive additional bonds of the funded loan of 1907, 4 per cent, and of the loan of 1908–1918, 3 per cent, to an amount not exceeding \$20,000,000 in exchange for a like amount of bonds of the consols of 1930, 2 per cent, and on the same terms as specified in the circular of March 26, 1903.

The amounts issued under this circular were:

Coupon bonds	\$1,996,500 13,830,100
Total	15,826,600

The following table shows the amount of coupon and registered bonds which were canceled and exchanged for the above bonds:

Loan.	Class.	Amount.
Funded loan of 1907, 4 per cent Loan of 1908–1918, 3 per cent Total	Coupon Registered Coupon Registered	\$1,672,650 9,816,350 1,445,720 2,891,880 15,826,600

Through the refunding operations under the act of March 14, 1900, the total amount of 2 per cent bonds of the consols of 1930 outstanding on June 30, 1904, was \$542,909,950, being a little over $60\frac{1}{2}$ per cent of the bonded debt at that date.

By his circular of September 23, 1903 (No. 108), the Secretary of the Treasury gave notice that bonds of the loan of 1904, 5 per cent, might be surrendered at any time, and that they would be redeemed upon such surrender, with interest to the date of their maturity, viz., February 1, 1904.

Under this circular there were received in this office to June 30, 1904, redemptions as follows:

m-4-1	10 401 4	

Redeemed coupon bonds are delivered to the Auditor for the Treasury Department before entry on the books of this office. There was, on July 1, 1904, \$125,300 of coupon bonds in transit which were received in July, making the total amount of bonds to that date actually paid \$18,607,200, and the amount outstanding \$777,850.

During the last fiscal year schedules have been prepared in the office and delivered to the Treasurer of the United States for the payment of interest on registered bonds as shown in the following table:

DIVIDENDS OF INTEREST PAID ON REGISTERED BONDS.

SPANISH INDEMNITY CERTIFICATES.

These certificates represent debts due from the Kingdom of Spain to American citizens amounting to \$599,850.16, being the amount awarded said citizens under the treaty of February 17, 1834. No payment has been made on the principal, but about once a year the sum of \$28,500 is received from Spain and divided among the present holders of the certificates. The United States assumes no responsibility except to see that the money reaches those to whom it may be due.

The sixty-second installment was paid July 24, 1903, and the sixty-third on October 25, 1903, the second payment making good an omission in a previous year. There are at present 107 holders of these certificates.

The following table shows the transfers of Spanish indemnity certificates from one owner to another during the last ten years:

PHILIPPINE LAND PURCHASE BONDS, 4 PER CENT.

In accordance with the provisions of an act of Congress approved July 1, 1902, to provide temporarily for the administration of the affairs of civil government in the Philippine Islands, and under an act of the Philippine Commission passed January 6, 1904, arrangements were made for the issue of \$7,000,000 of 4 per cent bonds of the Philippine Islands, the proceeds to be used in connection with the purchase of what are known as the Friar Lands. By agreement between the Secretary of the Treasury and the Secretary of War it was arranged that the issue of these bonds and the declaration of dividends of interest thereon should be made by this office. interest is paid by the Treasurer of the United States on schedules furnished by the Register. The papers authorizing this issue were ready some time before it was possible for the engraved bonds to be completed by the Bureau of Engraving and Printing. Blank forms were therefore prepared upon an ordinary printing press and the full amount of \$7,000,000 issued. By March 29, 1904, the new engraved bonds were received and the whole amount of temporary bonds was, within a brief period, canceled and replaced by engraved bonds.

During the year the following-described coupon bonds, which had been paid by the Treasurer of the United States, were recorded on the books of this office. They were originally issued by the District of Columbia when under a Territorial form of government:

DIVISION OF NOTES, COUPONS, AND CURRENCY.

The work of this division is the registration and filing of the redeemed, exchanged, and transferred coupon bonds, detached redeemed coupons, paid interest checks, and various other miscellaneous redeemed Government securities. Also, the final count and examination of all redeemed United States currency received in upper-half notes from the office of the Treasurer of the United States. There is also a large amount of work of a miscellaneous character performed which can not be given in tabulated form or clearly itemized, but which is important and involves both time and labor. This work in part is performed by committees appointed to count and prepare for destruction all statistical matter, and to witness and to certify to the destruction of redeemed United States securities. Besides, each year, in connection with the regular work, much time is profitably employed in caring for and rearranging the files of the division. At the close of the year the work assigned, as shown by the records,

At the close of the year the work assigned, as shown by the records, was up to date, and in consideration of the vast amount of labor involved in its performance, makes it apparent that much zeal and devotion to business have been manifested by the employees.

During the year there were received, counted, entered in blotters, examined, transferred to numerical registers, and scheduled, 36,146 coupon bonds, with 1,513,582 coupons attached, the bonds amounting to \$20,841,010. The various loans represented in this work are shown in the following table:

NOTE.—In some of the denominations of the above issues the notes were redeemed at less than their full face value on account of discounts for mutilation.

The following table shows the number and face value of old demand notes; United States notes; Treasury notes of 1890; gold certificates, series of 1882, payable to bearer; silver certificates; refunding certificates, payable to bearer; fractional currency; one and two year Treasury notes of 1863, and compound-interest notes of 1863 and 1864, received for count, cancellation, and destruction, from the fiscal year 1894–95 to 1903–4:

Year.	Number of notes.	Amount.
1894-95 1895-96 1896-97 1897-98 1898-99 1898-99 1990-1900 1900-1901 1901-2 1902-3 1903-4	56, 435, 683 59, 259, 953 58, 111, 942 63, 545, 005 67, 558, 013 81, 408, 013 100, 673, 201 122, 913, 253	\$255, 816, 859, 93 276, 231, 303, 35 253, 061, 552, 00 249, 049, 270, 00 271, 506, 013, 48 286, 067, 832, 25 322, 144, 938, 78 367, 179, 978, 00 438, 581, 243, 00 516, 586, 720, 75

GOLD CERTIFICATES.

During the year, of the gold certificates of the act of March 3, 1863, there were received, registered, and examined 8 certificates, amounting to \$23,200.

Of the certificates of the act of July 12, 1882, series of 1888, payable to order, there were received 369 certificates, amounting to \$3,355,000, and certificates of the act of March 14, 1900, series of 1900, payable to order, 5,173, amounting to \$51,730,000.

INTEREST CHECKS.

The number of paid interest checks received during the year was 204,150, and the number verified, registered, and examined 221,953.

The decrease in receipt of checks from last year is due to the fact that there were many purchases by the Department of registered bonds within the year and, further, that the 5 per cent loan of 1904 had reached maturity and was called in.

The large accumulation of 5,606,291 interest checks of various old and the more recent loans is so classified and systematically filed that any demands for information can be readily met on the shortest notice.

Note.—The office of the Register of the Treasury is the last to receive the redeemed securities of the Government, and therefore the amounts reported as "redeemed" will be less than the actual redemptions by the amount in transitu, and the amounts reported as "outstanding" correspondingly increased.

RECOMMENDATIONS.

I beg to include herein paragraphs from my last annual report as follows:

Many chiefs of division in the Department, charged with the performance of duties of no graver importance and of no larger responsibility than those of the Register's office, are paid \$2,200 and \$2,250 per annum. It is therefore recommended, in the spirit of fairness; that the chiefs of this office be given an increase of \$250 each.

As the custodian of the vault in the division of loans of this office, besides his regular work, for which he is paid \$1,800 per annum, has the immediate control of the Government securities, amounting to many millions, stored in the vault in his charge, and is obliged to keep an account of the outgoing and incoming of the same, an increase in his pay of \$100 is recommended. His compensation will then be less by \$100 than that of vault keepers of the Department generally. It is also recommended that the principal bookkeeper be given a like increase. His position requires ability of a high order, with great care and constant vigilance in the dis-

charge of its duties. Should this increase be given, he will still be paid less than is now paid bookkeepers in other branches of the service.

I also respectfully recommend that the office be given two additional clerks of class 4, in lieu of a like number of class 3. The adoption of this recommendation will enable the restoration to that grade of clerks who were reduced under what is known as "the Dockery Act," and who are doing now the same high-class work as they were when reid each of class 4.

work as they were when paid as clerks of class 4.

Respectfully submitted.

JUDSON W. LYONS, Register.

Hon. Leslie M. Shaw. Secretary of the Treasury.

REPORT OF THE COMMISSIONER OF INTERNAL REVENUE.

TREASURY DEPARTMENT, Office of Commissioner of Internal Revenue, Washington, D. C., November 1, 1904.

Sir: I have the honor to make report of the operations of the Bureau of Internal Revenue for the fiscal year ended June 30, 1904, with a statement, as required by law, of the receipts from the several sources of internal revenue for the months of July, August, and September of the current fiscal year.

RECEIPTS AND COST OF COLLECTION.

The receipts of this Bureau for said year were \$232,904,004.63, being an excess of \$2,163,079.41 over the collections for the preceding year.

The cost of collection for the past year is 1.98 per cent, while the cost of collection for the fiscal year 1903 was 2.07 per cent, and the average cost of collection since the formation of the Bureau is 2.83

The receipts for the first three months of the current fiscal year show a small decrease in collections as compared with the same months of the past fiscal year. I estimate that the receipts from all sources of internal revenue for the fiscal year ending June 30, 1905, will

aggregate \$230,000,000.

The objects of internal-revenue taxation producing the largest amount of revenue are distilled spirits, being spirits distilled from grain, apples, peaches, etc.; fermented liquors, including beer, ale, porter, and other similar fermented liquors; and tobacco, including

cigars, cigarettes, snuff, chewing and smoking tobacco.

During the past fiscal year there was collected from the tax on distilled spirits, \$129,564,242.49; on fermented liquors, \$48,208,132.56;

on tobacco, \$44,655,808.75.

RECEIPTS IN LARGE TAX-PAYING DISTRICTS.

The leading States in the payment of internal-revenue taxes for the past year are Illinois, \$52,464,271.59; New York, \$26,375,125.38; Indiāna, \$24,102,371.88; Kentucky, \$21,757,733.52; Ohio, \$21,091,416.31; Pennsylvania, \$18,874,540.59. Among the States paying the smallest

529 гі 1904---34

amounts are Arkansas, Idaho, Maine, North and South Dakota, Ver-

mont, and Wyoming.

Of the 66 collection districts in the territory of the United States subject to internal-revenue laws, the Fifth district of Illinois reported the largest collections, the receipts from that district amounting to \$34,059,315.21. The district of Hawaii is the lowest in point of collections, its receipts amounting to \$44,632.82.

In 1903 the total production of distilled spirits was 148,206,875 gallons; in 1904, 139,505,214 gallons. In 1903, in round numbers, 114,000,000 gallons of tax-paid spirits were withdrawn; in 1904, There has been a decrease in the amount of tobacco 117,000,000. manufactured and an increase in snuff manufactured. There was an

increase in the production of beer.

The four States having the largest production of distilled spirits during the fiscal year ended June 30, 1904, are, Illinois, 41,785,899 gallons; Kentucky, 23,070,162 gallons; Indiana, 20,838,868 gallons; Ohio, 13,173,537 gallons. The two collection districts having the largest production of distilled spirits are, the Fifth district of Illinois, 31,409,878

gallons; and the First district of Ohio, 12,628,820 gallons.

The four States which produced the largest quantity of fermented liquor are, New York, 10,691,868 barrels; Pennsylvania, 6,123,936 barrels; Illinois, 4,632,446 barrels; and Wisconsin, 4,035,292 barrels. two districts which produced the largest quantity of fermented liquor are, the Third district of New York, 4,072,708 barrels; and the First district of Illinois, 3,907,156 barrels.

The four States producing the greatest number of cigars weighing more than 3 pounds per thousand, and the production of each during the year, are as follows: Pennsylvania, 1,827,475,038; New York, 1,411,535,248; Ohio, 696,514,548; and New Jersey, 406,061,979.

The two districts showing the largest production of cigars are the Ninth Pennsylvania, 781,014,653; and the Third New York, 733,714,171.

The States showing the greatest production of little cigars (weighing less than 3 pounds per thousand) are, Virginia, 238,578,750; Maryland, 184,832,290; New York, 152,817,681. The greatest production by districts is as follows: Second district of Virginia, 119,547,700; Sixth district of Virginia, 119,031,050; Second district of New York, 118.033.161.

The States of New York, Virginia, Louisiana, and North Carolina, in the order named, show the greatest production of cigarettes weighing less than 3 pounds per thousand. New York produced 2,130,528,-699; Virginia, 773,475,640; Louisiana, 225,673,500; North Carolina, 76,029,350. The two districts showing the greatest production of little cigarettes are the Second New York, which produced 1,413,353,855, and the Second Virginia, which produced 771,062,270.

New York State produced the greatest number of large cigarettes, showing a production of 6,040,966, of which number 3,831,136 were manufactured in the Third district and 2,173,480 in the Second district.

The States of Missouri, North Carolina, Kentucky, and Virginia, in the order named, were the largest producers of both chewing and smoking tobacco. The First Missouri district produced the largest quantity, the returns showing the manufacture of 80,763,096 pounds during the year, the next largest being the Fifth Kentucky, which produced 36,549,353 pounds.

INTERNAL REVENUE STAMPS.

The payment of internal-revenue taxes is evidenced as a rule by stamps issued from this Office to collectors of internal revenue throughout the United States, by them sold to the manufacturer or producer, and by him placed upon the article produced, whether a barrel of whisky, barrel of beer, box of cigars, package of smoking tobacco, cigarettes, or oleomargarine. The total number of internal-revenue stamps issued and delivered by this office to collectors during the past fiscal year was 1,825,982,282, and in value \$249,578,728.52. These stamps ranged in value from three-sixteenths of a cent to \$600 each.

The utmost accuracy in bookkeeping is necessary as between the Bureau of Engraving and Printing and this Office and the offices of the collectors. There are often in the vault of this Office stamps amounting to \$75,000,000, and from it the stamps are shipped to the

offices of the collectors.

In January, 1901, a count of the stamps in the vault was made and the books and accounts of the stamp division of the Bureau inspected and verified. Again in February, 1904, by request of this Office, you appointed three expert, competent accountants to make a count of the stamps in the vault and to verify all books and accounts from the date of the last statement, and as evidence of the accuracy with which the accounts of the Bureau are kept, I submit the report of that committee, consisting of three experts representing other bureaus than this:

Your committee, appointed by your letter of February 10, 1904, to conduct the count of stamps in the vaults of the office of the Commissioner of Internal Revenue, and to verify the books and accounts of the stamp division of that office, beg leave to make the following report:

Internal-revenue stamps.

005 510 004

	Balance on hand January 7, 1901
	Total to be accounted for
6, 025, 901, 766	Total delivered.
210, 409, 998	Balance on hand February 23, 1904.
*	Money value of internal-revenue stamps.
	Balance on hand January 7, 1901
\$955, 067, 567. 641	Total to be accounted for
903, 051, 616. 556	Total delivered.
	Balance on hand February 23, 1904.

The accounts of the office have been compared with those of the division of loans and currency, your office, the Bureau of Engraving and Printing, and the Auditor of the Treasury, and found to be correct.

Itemized statements of each class of stamps accompany this report.

This report shows an absolute balancing of accounts involving the handling of over six billion stamps and nine hundred millions of money.

CLAIMS FOR ABATEMENT, REFUND, AND REDEMPTION OF INTERNAL-REVENUE STAMPS.

By acts of Congress large sums have been refunded for taxes paid under certain provisions of Spanish war legislation. By act of June 27, 1902, the Congress provided for the refund of taxes collected upon bequests or legacies for uses of a religious, literary, charitable, or educational character, and in my last report I stated that \$557,232.53 had been refunded to institutions of this character by reason of this enactment. Since then other amounts have been allowed, and up to September 30, 1904, the amounts refunded to such institutions aggregate \$652,598.13.

Various other refunds have been made under remedial statutes, such as taxes paid on contingent beneficial interests, and on export

bills of lading.

There were received in this Office during the last fiscal year 1,995 new claims for the refunding of taxes assessed and the redemption of internal-revenue stamps, other than unused documentary and proprietary stamps, amounting to \$1,979,835.10, and 604 claims which had been returned for amendment, were received again, and of the number on hand during the year ended June 30, 1903, and those received and returned amended during the fiscal year, 1,635 claims amounting to \$305,307.97 were allowed, and 997 claims amounting to

\$1,977,590.66 were rejected or returned for amendment.

In addition to claims for redemption of stamps, refunding of taxes assessed, or rebate of tax paid on tabacco, presented, there have been filed during the fiscal year ended June 30, 1904, 807 claims for abatement of taxes assessed, 1,436 claims for credit to collectors for taxes assessed and found to be uncollectible, and 37 claims for credit to collectors on account of duplicate charges, aggregating 2,280 claims, amounting to \$626,691.80, and 183 claims were returned after amendment or were reconsidered. Of these claims pending on the 1st of July, 1903, and received during the fiscal year, 2,637 claims were allowed, amounting to \$555,081.91, and 572 claims amounting to \$411,277.24 were rejected or returned for amendment.

OLEOMARGARINE.

Within the past few months two important decisions have been rendered by the Supreme Court of the United States, affirming construction given by this Office to the oleomargarine act of May 2, 1902, which act became effective July 1 of the same year.

By the provisions of the act, a tax of 10 cents a pound was assessed against oleomargarine, with the proviso that when oleomargarine is free from artificial coloration that causes it to look like butter of any shade of yellow, the tax shall be one-fourth of 1 cent per pound.

In construing this amendment it immediately became necessary for

the Office to determine what constituted artificial coloration.

The first question submitted by the producers or manufacturers was as to their right to use artificially colored butter as a component part of oleomargarine, though through this artificial coloration in the butter the oleomargarine secured a shade of yellow which caused it to look like butter.

The Office held that such oleomargarine must pay a tax of 10 cents

per pound, as it would not be free from artificial coloration, notwithstanding butter, as defined by the statute, could be either colored or uncolored and, furthermore, was a legal constituent or statutory ele-

ment of oleomargarine.

Oleomargarine producers tested this ruling in the case of Leo W. McCray, plaintiff in error, v. The United States, in the district court of the United States for the southern district of Ohio. The contention of the Office being sustained in that court, an appeal was prosecuted to the United States Supreme Court and a decision rendered therein May 31, 1904, where it was held:

As the oleomargarine in question was in fact not free from artificial coloration, we think that a construction which would take it out of the general rule imposing the 10 cent tax upon all oleomargarine, and bring it within the exception embracing only oleomargarine free from artificial coloration, would be not an interpretation of the statute, but a disregard of its unambiguous provisions.

The court further held the act imposing a tax upon oleomargarine

and classifying the product for taxation to be constitutional.

The next question presented by the oleomargarine manufacturers for decision by this Office was whether they had the right to use palm

oil in the manufacture of oleomargarine.

Palm oil is a vegetable oil, and as such one of the statutory named ingredients of oleomargarine. Palm oil was introduced in almost infinitesimal quantities, the character of the oil itself preventing it from being used in larger quantities. It was introduced for the sole purpose of producing a certain color or shade of yellow in the oleomargarine and did not materially add to the sum total of the product.

Upon that question the Office ruled that where so minute and infinitesimal a quantity of vegetable oil is used in the manufacture of oleomargarine as is proposed to be used of palm oil, and from its use the finished product looks like butter of any shade of yellow, it can not be considered that the oil is used with the purpose or intention of being a bona fide constituent part of or element of the product, but is used solely for the purpose of producing or imparting a yellow color to the oleomargarine; and, therefore, oleomargarine so colored is not free from artificial coloration and becomes subject to a tax of 10 cents per pound.

The oleomargarine manufacturers protested earnestly against this ruling, insisting that oleomargarine colored by the use of palm oil was

subject only to the tax of one-fourth of 1 cent per pound.

The correctness of the ruling came before the courts in the case of United States v. Cliff in the district court of the United States for the northern district of Illinois. The lower court having sustained the ruling of this Bureau, an appeal was taken to the United States Supreme Court and a decision rendered therein at the October term 1904, in which the court held that—

When any substance, although named as a possible ingredient of oleomargarine, substantially serves only the function of coloring the mass, and so as to cause the product to 'look like butter of any shade of yellow," it is an artificial coloration. * * * The fact that one of the ingredients of this compound is palm oil does not show that such oil does anything else than color the product composed of other ingredients, and if it does substantially only this it is rightfully styled an artificial coloration.

These decisions have definitely determined the rightfulness of the construction given by this Office to the law of 1902. And as many assessments had been made by the Office, reaching in some instances

large sums, against the manufacturers of oleomargarine who, in producing the same, had used palm oil as an ingredient, some of which assessments had been paid either in full or in part by compromise, the final adjudication of the question was most desirable.

There has been a marked decrease in the amount of oleomargarine produced and tax-paid since the passage of the amendment to the orig-

inal law of 1886, and which law became effective July 1, 1902.

Under the amendment the rate of tax was changed from 2 cents per pound to 10 cents per pound, provided, however, that when oleomargarine was free from artificial coloration that caused it to look like butter of any shade of yellow, the tax should be one-fourth of a cent

per pound.

During the fiscal year which closed June 30, 1902, the last year we operated under the original law, there were produced and tax-paid 123,131,748 pounds of oleomargarine, paying a total tax of \$2,462,634.96. During the fiscal year which closed June 30, 1903, the first year during which the provisions of the amendment were in effect, there were produced and tax-paid 72,478,878 pounds from which was collected a tax of \$446,340.88. During the past fiscal year there were produced and tax-paid 48,071,490 pounds, upon which was collected a total tax of \$279,991.20.

From these figures it appears that the revenue on oleomargarine has decreased in two years from \$2,462,634.96 to \$279,991.20. In both of the past fiscal years, oleomargarine tax-paid at 10 cents per pound produced a larger proportion of the total tax than oleomargarine tax-paid

at one-fourth of a cent per pound.

GRAPE BRANDY FOR FORTIFICATION OF SWEET WINES.

I present for your consideration some facts regarding the withdrawal of wine spirits, or, as it is more commonly termed, grape brandy, free of tax for the purpose of fortifying sweet wines, under the act of October 1, 1890, and an amendment thereto in act of August 28, 1894.

Under section 42 of the first act named, any producer of pure sweet wines, who is also a distiller, is authorized to separate from fermented grape juice, wine spirits or grape brandy, and may use same free of tax in the preparation of sweet wine, under such regulations as may be prescribed by this Department. The limitation on the amount used is an amount necessary and sufficient to fortify the wine for the preservation of the saccharine matter contained therein.

Under section 45 of the same act, any producer of pure sweet wines as defined by the act may withdraw grape brandy from a special bonded warehouse free of tax for the purpose of fortifying sweet wines produced by him. It has been held under this section that a wine maker need not be also a distiller to avail himself of the privilege of withdrawing free of tax grape brandy for purposes of fortification.

The act further provides that the use of such wine spirits free of tax for the purposes named shall be under the immediate supervision of an officer of internal revenue, and in accordance therewith the regulations of this office provide that an officer shall gauge the brandy and witness its introduction into the wine to be fortified, and that he shall render proper reports covering these operations.

No provision whatever was made in the original law, and none has since been made, for the payment of the salaries and expenses of such

officers, while performing such duty, through a tax levied upon either the brandy or the wine, and therefore the entire expense of this service falls upon the Government and must be paid out of taxes secured from other sources. The Government relieves the distillers and wine makers from the tax of \$1.10 per gallon on the brandy used by them for the purposes set forth and in addition pays all the expenses incident to the gauging and use of such spirits.

Assuming that the law was originally enacted to encourage the wine production of the United States and to enable home producers of sweet wines to successfully compete with foreign producers, it is respectfully submitted for your consideration whether the time has not come when a moderate tax, if not the full tax, could be imposed upon wine spirits

or grape brandy produced and used for fortification purposes.

The following table shows the quantity of brandy used and wine fortified during each fiscal year since the passage of the act in 1890:

Year.	Brandy used (taxable gallons).	Gallons of wine produced after fortification.
1891 1892 1893 1894 1894 1895 1896 1897 1896 1897 1898 1899 1900 1900 1901 1902 1903	193, 557, 0 695, 844, 0 619, 811, 0 1, 114, 515, 0 1, 047, 001, 2 1, 527, 962, 8 1, 216, 480, 8 1, 754, 509, 6 1, 912, 339, 4 2, 137, 067, 3 2, 236, 672, 9 2, 408, 310, 2 4, 170, 365, 3 3, 473, 446, 0 24, 597, 882, 5	1, 083, 274, 000 2, 746, 655, 50 2, 651, 187, 050, 81 4, 371, 1050, 81 4, 377, 230, 56, 290, 562, 90 5, 162, 392, 90 7, 319, 329, 329, 90 7, 319, 329, 329, 329, 329, 441, 622, 184, 441, 62 9, 725, 647, 41 9, 880, 053, 264, 149, 264, 718, 26

The increase of the production has been marked, and indeed is remarkable. The present cost to the Government of supervising the use of grape brandy for fortification purposes is estimated at from

\$25,000 to \$30,000 per year.

The above table shows that about 1 gallon of brandy is used to every 4 gallons of wine. If therefore a tax of only 25 cents per gallon was assessed as against the brandy withdrawn and used for fortification purposes, the actual cost of the wine would not be increased more than 5 cents per gallon; certainly not enough to greatly, if at all, affect the price of wine to the consumer. This tax would have produced to the Government during the fiscal year 1903 a revenue of \$1,042,591, and during the fiscal year 1904, \$868,361.50.

If the full tax of \$1.10 had been paid during those two years the amount would have been, for the first period, \$4,587,401.50, and for

the succeeding year, \$3,820,790.60.

The only safeguard against the illegal use of brandy withdrawn for fortification purposes is the presence of the United States gauger or other officer whose duty it is to gauge and supervise its use, and whose reports to the collector and to this office furnish the only official evidence that the brandy has been actually used for the purposes for which it was withdrawn.

Under the statute above quoted, the grape brandy used free of tax for fortification purposes shall not be in excess of the amount required to introduce into sweet wines an alcoholic strength equal to 14 per cent of the volume of such wines after the use of the brandy, and, further, such wine must not contain, after fortification, more than 24 per cent of alcohol.

At the present time and under existing laws spirits paying a tax of \$1.10 per proof gallon contain 50 per cent of absolute alcohol. Under the provisions of the statute quoted, allowing fortified sweet wine to contain after fortification 24 per cent of alcohol, if the tax were levied upon the same basis as it is now levied upon the alcoholic strength of proof spirits, the tax would be 53 cents per gallon on all wine containing 24 per cent of alcohol.

I recommend, by proper legislative enactment, the imposition of a tax upon grape brandy withdrawn to fortify sweet wines, and the issue of tax-paid stamps to be affixed to all packages withdrawn from bonded warehouses and to all packages of brandy produced by the maker of sweet wines who is also a distiller. The use of tax-paid stamps would certainly provide an additional safeguard against fraud.

WOOD ALCOHOL.

The recent death in New York City of several men, caused, as alleged, by drinking in a saloon liquor sold as whisky which, in fact, was a liquid composed largely of wood alcohol and colored so as to resemble whisky, has brought prominently to the attention of the public the supposed use of wood alcohol as a beverage.

There is no tax upon wood alcohol, and, therefore, no record of its manufacture or sale is kept by this Bureau, and in no way does it come

within the scope of the inspection or regulations of this Office.

The methods of purifying and refining wood alcohol now employed so far remove its toxic qualities that it can be, and probably is, used with some less danger than formerly to adulterate ethyl alcohol in the preparation of various kinds of compounded alcoholic beverages. Through these improved processes of refining, it is a competitor with ethyl alcohol for use in the manufactures and arts, in the preparation of perfumes and cosmetics, and to some extent in the making of medicinal compounds.

The various uses to which this untaxed article is now applied bring it in strong competition with ethyl alcohol, a heavily taxed article; and as the wood alcohol, untaxed, supplants ethyl alcohol, taxed, loss

necessarily results to the revenue of the Government.

Unless, by legislative enactment, the use of ethyl alcohol free of tax in the arts and manufactures should be granted, then this Office submits for your consideration the propriety of the imposition, through necessary legislation, of a tax on wood alcohol to an amount sufficient to place the two articles, wood and ethyl alcohol, on a basis of equality.

LEGISLATION FOR BENEFIT OF INTERNAL-REVENUE AGENTS AND STORE-KEEPER-GAUGERS.

At the first session of the Fifty-eighth Congress a bill was introduced providing additional appropriation for the payment of gaugers, store-keepers, and storekeeper-gaugers as would admit of granting leave of absence, with pay, for two and one-half days for each month of thirty

days that they were actually assigned to duty. This bill failed of passage, but I most heartily recommend such legislation, as have my predecessors heretofore, believing it only just that this class of Government officials should receive the same treatment with regard to leaves of absence that is granted other employees of the Government.

Provision also should be made, by proper legislation, for an increase of the compensation of the revenue agents employed by this Bureau, and for the payment of traveling expenses incurred by storekeepers in going to and from distilleries to which they are assigned, they, at the time, being without assignment and compelled to travel from their place of residence to the location of the distillery.

During the past year unusual activity was shown by the field officers in preventing violations of law and the commission of frauds as against the revenue, and I express my appreciation of the fidelity shown by the officials of this Office and by the officials of the Bureau engaged in

their respective duties in the various collection districts.

Passing now to a detailed statement of the work of the Bureau, I call attention first to the—

RECEIPTS FOR FIRST THREE MONTHS, CURRENT FISCAL YEAR.

The following table shows the receipts from the several objects of taxation for the first three months of the fiscal years ending June 30, 1904 and 1905. A comparison of the receipts for the two periods is also given:

COST OF COLLECTION.

The cost of collection for the past fiscal year, distributed among the different items of appropriation, was approximately as follows:

For salaries and expenses of collectors, including pay of deputy col-	
lectors, clerks, etc	\$1,868,464.91
For salaries and expenses of deputy collectors under act of June	
13, 1898	115,592.17
For salaries and expenses of agents under act of June 13, 1898	49, 253. 63
For salaries of clerks, office of the Commissioner of Internal Revenue,	
under act of June 13, 1898	64, 963. 18
For salaries and expenses of revenue agents, gaugers, storekeepers,	
and storekeeper-gaugers, and miscellaneous expenses	2, 136, 114. 33
For paper for internal-revenue stamps	49, 666. 03
For expenses for detecting and punishing violations of internal-revenue	
laws	73, 178. 26
For salaries of officers, clerks, and employees in the office of Commis-	
sioner of Internal Revenue	262,077.01
Total amount expended	4, 619, 309. 52

ESTIMATED EXPENSES FOR NEXT FISCAL YEAR.

I estimate the expenses of the Internal Revenue Service for the fiscal year ending June 30, 1906, as follows:

\$1,900,000	For salaries and expenses of collectors, including pay of deputy collectors and surveyors and clerks, and new districts, including the eleomargarine act, approved May 9, 1902, and other expenses
	For salaries of clerks and other employees in office Commissioner of
	Internal Revenue; salaries and expenses of 20 additional revenue agents,
	and for other purposes, made necessary by the acts repealing the act
250,000	of June 13, 1898, rebates, redemption of stamps, and other expenses
	For salaries and expenses of 20 revenue agents, for fees and expenses of
2, 150, 000	gaugers, for salaries of storekeepers, and for miscellaneous expenses
65,000	For paper for internal-revenue stamps
	For detecting and bringing to trial and punishment persons guilty of violating the internal-revenue laws, including payment for information
100,000	and detection
,	For salaries, officers, clerks, and employees in the office of Commissioner
264, 340	of Internal Revenue
4, 729, 340	Total

In presenting the estimate of the expenses of this Bureau for the next fiscal year (1906), to wit, \$4,729,340, every effort has been made to provide for due and proper economy. Though this rule has been observed, it is believed that reduction of cost of collection may be extended to a point where it leads to detriment of the service, to loss of revenue, to public inconvenience, and ill temper.

SALARIES.

I have the honor to recommend that Congress appropriate for the fiscal year ending June 30, 1906, the sum of \$264,340 as salaries for the following officers, clerks, and employees in this Bureau:

One Commissioner, at		\$6,000
Two deputy commissioners, one at \$4,000 and one at \$3	,600	7,600
One chemist, at		
Two heads of division, at	· · · · · · · · · · · · · · · · · · ·	2,500
Six heads of division, at		2, 250
One superintendent of stamp vault, at	·	2,000

One stenographer, at	\$1,800
Twenty-four clerks, at	1,800
Twenty-four clerks, at	1,600
Thirty-three clerks, at	1,400
Twenty-four clerks, at	
Twenty-two clerks, at	1,000
Thirty clerks, at.	900
Two messengers, at	840
Fourteen assistant messengers, at	720
Thirteen laborers, at	660
Thirteen laborers, at	660

An aggregate of 200 persons.

I also recommend the appropriation of the sum of \$3,400 as salaries for two stamp agents, one at \$1,600, one at \$900, and one counter at \$900, the same to be reimbursed by the stamp manufacturers, as provided by the act of August 5, 1882.

SCALE OF SALARIES OF COLLECTORS.

The recommendations made for the salaries of collectors are based upon an estimate of their probable collections according to the following scale, with the qualifications that if the actual collections should vary from the amounts estimated, the salaries will be readjusted at the end of the fiscal year:

For collection of—	Salary.	For collection of—	Salary.
\$25,000 or less	2,125 2,250 2,375 2,500 2,625 2,750 2,875 3,000 3,125	\$375,001 to \$425,000 425,001 to 475,000 475,001 to 550,000 550,001 to 625,000 625,001 to 700,000 700,001 to 775,000 775,001 to 850,000 850,001 to 925,000 925,001 to 1,000,000 1,000,001 and upward	3,500 3,625 3,750 3,875 4,000 4,125 4,250 4,375

In addition to the salary based upon the above-mentioned scale the collector shall receive a commission of one-half of 1 per cent on tax-paid spirit stamps, and may receive additional compensation on account of territorial extent, as provided by law, provided the gross compensation does not exceed \$4,500. (See secs. 3148 and 3314, Rev. Stat.)

OFFICIAL FORCE.

The force connected with this Bureau during the fiscal year which ended June 30, 1904, in the various districts throughout the United States, as reorganized under the Executive order of May 21, 1887, was 66 collectors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
46	\$4,500.00 4,375.00 4,323.18 4,125.00 4,122.64 4,100.00	2	\$4,000.00 3,888.47 3,875.00 3,500.00 3,375,00	1 1 2 1 1	\$3, 315. 86 3, 125. 00 3, 000. 00 2, 899. 99 2, 875. 00

There were also employed 984 deputy collectors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
32	\$2,000 1,900 1,800 1,700 1,600 1,550 1,500 1,450 1,400 1,350	41	\$1,300 1,200 1,150 1,100 1,000 850 800 750	6. 27. 12. 3 9. 1. 18. 1. 1. 1. 1. 1	\$700 600 500 480 360 300 150 60

There were also employed in the offices of the different collectors 145 clerks, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
2	\$1,600	4. 20. 26. 23. 12.	\$1,150	2	\$750
3.	1,500		1,100	1.	720
8.	1,400		1,000	1.	700
4.	1,300		900	2.	600
35.	1,200		800	2.	480

Also 12 messengers or janitors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
15	\$800 600	2	\$480 450	1	\$400 300

At the close of the year ended June 30, 1904, 262 officers, clerks, messengers, and laborers were employed in this Bureau, and the aggregate amount paid during the year for their salaries was \$377,669.19.

The number of persons employed during the year ended June 30,

1904, under the act of June 13, 1898, was as follows:

In Office of Commissioner of Internal Revenue, Washington, D. C., 62; in the several collection districts throughout the country, 146, including 16 revenue agents.

STOREKEEPERS, GAUGERS, ETC.

There were also employed 257 gaugers, who received fees not to exceed \$5 per day; 133 storekeepers, whose pay did not exceed \$4 per day; 1,967 storekeeper-gaugers, whose pay ranged from \$2 to \$5 per day; and 8 distillery surveyors. All of the employees above enumerated were paid only when actually employed.

MISCELLANEOUS EXPENSES.

The act of Congress approved August 7, 1882, making provision for sundry civil expenses for the year ended June 30, 1883, required the Commissioner of Internal Revenue to make a detailed statement of all miscellaneous expenditures in the Bureau of Internal Revenue, for

which appropriation was made in that act. In accordance with this requirement, I submit the following detailed statement of miscellaneous expenses incurred:

Telephoning on public business	
Telegraphing on public business.	330. 10 2, 190. 00
Locks for use at distilleries.	4, 018. 95
Hydrometers used in gauging spirits. Weighing beams for use in weighing spirits.	804. 94
Steel canceling dies.	3, 30
Stationery for internal-revenue officers	792. 38
Laboratory supplies, saccharometers, and chemicals for testing sweet wine	
and oleomargarine; also books and periodicals for same	1,878.26
The Federal Reporter for the Office of the Commissioner of Internal	
Revenue, and books for law library of internal revenue	273.95
Traveling expenses of clerks and chemist under special orders of the	
Department	229.37
•
