Bases of Tables

Statistical sources

The figures in this report are shown on the basis of: (a) The Daily Treasury Statement; (b) the Monthly Treasury Statement of Receipts and Outlays of the United States Government; (c) the Monthly Statement of the Public Debt of the United States; (d) warrants issued; (e) public debt accounts; and (f) administrative accounts and reports. Where no basis is indicated, the figures are derived from administrative reports prepared according to various specifications. Where more than one basis is used in a single table covering a period of years, the date of the change in basis is stated. The term "security," wherever used in the various tables, means any obligation issued pursuant to law for valuable consideration and includes bonds, notes, certificates of indebtedness, debentures, and other evidences of indebtedness.

Following are general explanations of the various bases. For background on the first two bases (the daily and monthly statements) see exhibits 69, 70, and 71 in the 1954 Annual Report; and for the fourth (warrants issued) see 1962 Annual Report, p. 502.

Daily Treasury Statement

The Daily Treasury Statement traditionally has been the basis for several types of financial information. From 1916 to 1974, it was the basis for much of the public debt data and all of the figures on the account of the U.S. Treasury. The fiscal years 1916-52 daily statements were the basis for the receipts, outlays, and the resulting surplus or deficit shown in this report.

The basis for the daily statement from 1916 to 1974 was bank transcripts (summarizing charges for checks paid and credits for deposits in banks) cleared and processed through the accounts of the Department of the Treasury in Washington, D.C. In later years, telegraphic reports were used to provide more timely data for certain major types of information pending receipt by the Treasury of the bank transcripts. The only change in procedure occurred in fiscal years 1946-52 when outlays for agencies using the facilities of the Department of the Treasury's Division of Disbursement were shown on the basis of reports of checks issued. Total outlays, however, as well as outlays for the military departments and other agencies using their own disbursing facilities, remained on the basis of bank transcripts cleared.

During the time it served as the basis for the budget results, the daily statement covered certain transactions processed through commercial bank accounts held in the name of Government officers other than the Treasurer of the United States, and included intragovernmental and other noncash transactions. The status of the account of the U.S. Treasury and the summarization of various transactions representing deposits and withdrawals in that account, excluding noncash transactions (with minor exceptions) and transactions involving cash held outside the account of the U.S. Treasury, were shown, with only a limited number of deposit and withdrawal classifications. The data presented then did not and even today does not purport to represent budget results. Effective July 1, 1974, the Daily Treasury Statement began publication in a new format derived from the system used internally in the Treasury for many years in following actual cash flows and estimating future cash movements and borrowing requirements. It is based on information reported daily by wire and telephone from the Federal Reserve System and internal Treasury sources. The most important advantage of this modification is the more timely and accurate reporting of data relating to Treasury cash and debt operations.

Monthly Treasury Statement of Receipts and Outlays of the United States Government

Beginning with the figures for the fiscal year 1953, this monthly statement replaced the daily statement as the primary source of budget results (surplus or deficit) and other receipt and outlay data classified by type of account. This statement shows all receipts and outlays of the Government including those made from cash accounts held outside the account of the U.S. Treasury. The information in the monthly statement is based on the central accounts relating to cash operations (see "Description of Accounts Relating to Cash Operations," below).

Monthly Statement of the Public Debt of the United States

The Monthly Statement of the Public Debt of the United States became a separate publication in fiscal 1975 beginning with the July 31, 1974, statement. This statement provides detail and

summary public debt information which had been furnished in the monthend Daily Treasury Statements in previous fiscal years.

Warrants issued

Receipt and outlay data shown for fiscal years before 1916 were taken from reports based on warrants issued.

For receipts, covering warrants were prepared from certificates of deposit mailed to the Treasury, principally by Government depositaries, showing deposits received. The figures thus compiled were on a warrants-issued basis. Since these certificates did not reach the Treasury simultaneously, all receipts for a fiscal year could not be covered into the Treasury by warrant of the Secretary immediately upon the close of the fiscal year. Therefore, certain certificates of deposit representing amounts deposited during one fiscal year were reported as the next year's receipts.

Reports of outlays were based on the amount of accountable and settlement warrants issued and charged to appropriation accounts. Since accountable warrants covered advances to disbursing officers, rather than actual payments, reported outlays necessarily included the changes in balances of funds remaining unexpended to the credit of disbursing officers at the close of the fiscal year.

Public debt accounts

The figures reported on this basis represent transactions which have been audited by the Bureau of the Public Debt. It is sometimes several months after a financing operation before all the transactions have been reported and audited. Therefore, the public debt figures on this basis differ from those reported in the Monthly Statement of the Public Debt of the United States since the latter consist of transactions cleared through the account of the U.S. Treasury during the reporting period. A reconciliation of figures on the two bases is given in table 26.

Administrative accounts and reports

Certain tables in this report are developed from the accounts, records, and reports of the administrative agencies concerned, which may be on various bases. These tables include internal revenue and customs statistics, foreign currency transactions in the accounts of the Secretary of the Treasury, and financial statements of Government corporations and other business-type activities.

Description of Accounts Relating to Cash Operations

The classes of accounts maintained in connection with the cash operations of the Federal Government, exclusive of public debt operations, include: (1) The accounts of fiscal officers or agents, collectively, who receive money for deposit in the U.S. Treasury or for other authorized disposition or who make disbursements by drawing checks on the U.S. Treasury or by effecting payments in some other manner; (2) the accounts of administrative agencies which classify receipt and outlay (disbursement) transactions according to the individual receipt, appropriation, or fund account; and (3) the accounts of the U.S. Treasury in the Bureau of Government Financial Operations (which is responsible for the receipt and custody of money deposited by fiscal officers or agents and for the payment of checks drawn on the U.S. Treasury). The Bureau of the Public Debt is responsible for the payment of public debt securities redeemed. A set of central accounts is maintained in the Treasury for the purpose of consolidating financial data reported periodically from the above sources in order to present the results of cash operations in central financial reports on a unified basis for the Government as a whole, and as a means of internal control.

The central accounts relating to cash operations disclose monthly and fiscal year information on: (1) The Government's receipts by principal sources, and its outlays according to the different appropriations and other funds involved; and (2) the cash transactions, classified by types, together with certain directly related assets and liabilities which underlie such receipts and outlays. The accounting for receipts is substantially on the basis of collections (i.e., as of the time cash receipts are placed under accounting control), and that for outlays is substantially on the basis of checks issued (and cash payments made) with the exception of interest on the public debt. Since June 1975, interest on all issues of public debt was on an accrual basis. Effective September 1976, interest on special issues was converted to a cash basis; interest on public issues remained on an accrual basis. The structure of the accounts provides for a reconciliation, on a firm accounting basis, between the published reports of receipts and outlays for the Government as a whole and changes in the U.S. Treasury's cash balance by means of such factors as checks outstanding, deposits in transit, and cash held outside the Treasury. Within the central accounts, receipt and outlay accounts are classified as described in the following paragraphs.

Budget accounts

General fund receipt accounts.—General fund receipt accounts are credited with all receipts which are not earmarked by law for a specific purpose. General fund receipts consist principally of internal revenue collections, which include income taxes, excise taxes, estate, gift, and employment taxes. The remainder consist of customs duties and a large number of miscellaneous receipts, including fees for permits and licenses, fines, penalties, and forfeitures; interest and dividends; rentals; royalties; and sale of Government property.

Special fund receipt accounts.—Special fund receipt accounts are credited with receipts from specific sources which are earmarked by law for a specific purpose, but which are not generated from a cycle of operations. The Congress may appropriate these receipts on an annual basis or for an indefinite period of time. Examples of special fund receipts are those arising from rents and royalties under the Mineral Leasing Act, the revenue from visitors to Yellowstone National Park, the proceeds of the sale of certain timber and reserve lands, and other receipts authorized to be credited to the reclamation fund.

General fund outlay accounts.—General fund outlay accounts are established to record amounts appropriated by the Congress to be expended for the general support of the Government. Such accounts are classified according to the limitations that are established by the Congress with respect to the period of availability for obligation of the appropriation, as 1-year, multiple-year, or no-year (without a time limit), and with respect to the agency authorized to enter into obligations and approve expenditures.

Special fund outlay accounts.—Special fund outlay accounts are established to record appropriated amounts of special fund receipts to be expended for special programs in accordance with specific provisions of law. These accounts are generally available without time limit, but may also be subject to time limitations as in the case of general fund accounts.

Revolving fund accounts.—These are funds authorized by specific provisions of law to finance a continuing cycle of operations in which outlays generate receipts, and the receipts are available for expenditure without further action by Congress. They are classified as: (a) Public enterprise funds where receipts come primarily from sources outside the Government and (b) intragovernmental funds where receipts come primarily from other appropriations or funds. Treasury reports generally show the net effect of operations (excess of disbursements or collections and reimbursements for the period) on the budget surplus or deficit. These accounts are usually designated as "no-year" accounts; i.e., they are without limitation as to period of availability for outlays. Examples of public enterprise revolving funds are the Export-Import Bank of the United States and the Commodity Credit Corporation. Examples of intragovernmental revolving funds are the general supply fund, administered by the General Services Administration, and the Government Printing Office revolving fund.

Consolidated working fund accounts.—These are accounts established to receive (and subsequently disburse) advance payments from other agencies or bureaus pursuant to section 601 of the Economy Act (31 U.S.C. 686) or other provisions of law. Consolidated working funds may be credited with advances from more than one appropriation for the procurement of goods or services to be furnished by the performing agency with the use of its own facilities within the same fiscal year. Outlays recorded in these accounts are stated net of advances credited and are classified under the agencies administering the accounts. The accounts are subject to the fiscal year limitations of the appropriations or funds from which advanced.

Management fund accounts.—These are working fund accounts authorized by law to facilitate accounting for and administration of intragovernmental activities (other than a continuing cycle of operations) which are financed by two or more appropriations. This classification is also often applied to the consolidated working funds for interagency activities described above.

Trust fund accounts.—These are accounts maintained to record the receipt and outlay of moneys held in trust by the Government for use in carrying out specific purposes or programs in accordance with the terms of a trust agreement or statute. The receipts of many trust funds, especially the major ones, not needed for current payments are invested in public debt and Government agency securities. Generally, trust fund accounts consist of separate receipt and outlay accounts, but when the trust corpus is established to perform a business-type operation, the fund entity is called a "trust revolving fund" and a combined receipt and outlay account is used. Some of the major trust accounts are the Federal old-age and survivors insurance trust fund, unemployment trust fund, civil service retirement and disability fund, the national service life insurance fund, and the highway trust fund.

Transfer appropriation accounts.—These accounts are established to receive (and subsequently disburse) allocations which are treated as nonoutlay transactions at the time the allocation is made including certain transfers under section 601 of the Economy Act (31 U.S.C. 686), and similar provisions of law.

Other accounts

Deposit fund accounts.—Deposit funds are combined receipt and outlay accounts established to account for receipts that are either: (a) Held in suspense temporarily and later refunded or paid into some other fund of the Government upon administrative or legal determination as to the proper disposition thereof, or (b) held by the Government as banker or agent for others and paid out at the direction of the depositor. Such funds are not available for paying salaries, expenses, grants, or other outlays of the Government.

Historical Data

Historical data consistent with the unified budget have been compiled for the applicable tables back through fiscal 1954.

Pursuant to Public Law 93-344, the Congressional Budget and Impoundment Control Act of 1974, the fiscal year changed, effective with fiscal year 1977, from July 1-June 30 to October 1-September 30. The time gap necessary to establish this new period occurred from July 1, 1976, through September 30, 1976, and is referred to as the "transition quarter." Historical data has been appropriately modified to provide the reader with consistency and comparability of data presented.

Footnotes on following page.

¹ From 1789 to 1842 the fiscal year ended Dec. 31; from 1844 to 1976, on June 30; and beginning 1977, on Sept. 30. Figures for 1843 are for a half year, Jan. 1 to June 30. Transition quarter (T.Q.) figures are for the period July 1 through Sept. 30, 1976.

² Effective Jan. 3, 1949, amounts refunded by the Government, principally for overpayment of taxes, are reported as deductions from total receipts rather than as outlays. Also, effective July 1, 1948, payments to the Treasury, principally by wholly owned Government corporations for retirement of capital stock and for disposition of earnings, are excluded in reporting both budget receipts and outlays. Neither change affects the budget surplus or deficit. Figures beginning with fiscal 1913 have been adjusted accordingly for comparability. For adjustments for refunds of receipts for fiscal years 1931-53, see 1967 Annual Report, pp. 448-449. For capital transfers for fiscal 1931 through 1948, see 1958 Annual Report, p. 396, footnote 3. Effective June 1977, earned income credit payments in excess of an individual's tax liability, formerly treated as outlays, are classified as income tax refunds.

³ Includes all military and civil outlays of the Departments of the Army (including the Panama Canal), the Navy, and beginning with fiscal 1949 the Air Force, except civil outlays of War and Navy at Washington through fiscal 1915. Department of the Army outlays include those of the Department of the Air Force (established Sept. 18, 1947) from funds made available before fiscal 1949. Beginning with fiscal 1952 outlays of the Department of Defense not classified among its three departments are included under "Other." Military assistance outlays for foreign aid programs are included under "Other" except as noted. See footnote 14.

⁴ The practice of including statutory debt retirements in budget outlays was discontinued effective with fiscal 1948. Such outlays are not included in this table; nor does the "Surplus or deficit" take into account such outlays. Table 40 shows details of statutory debt retirements.

⁵ Refunds of receipts and transfers to trust funds. For content for fiscal years 1931-53 see 1967 Annual Report, pp. 448-449.

⁶ For content see 1961 Annual Report, pp. 450-457.

⁷ Sec. 114(f) of the Economic Cooperation Act of 1948, approved Apr. 3, 1948 required that \$3 billion be transferred to the "Foreign Economic Cooperation Trust Fund" and "considered as expended during the fiscal year 1948, for the purpose of reporting governmental expenditures." The effect of this was to charge the budget in

fiscal 1948 for outlays made in fiscal 1949, with consequent effect on the budget surplus or deficit of those years. This bookkeeping transaction had no effect on the actual timing of either receipts or outlays. In order to simplify comparison of figures between years, the transactions shown in this table do not take into account the transfer of \$3 billion in fiscal 1948 to the Foreign Economic Cooperation trust fund; outlays of \$3 billion during fiscal 1949 from the Foreign Economic Cooperation trust fund are treated as budget outlays in this table. If effect is given to sec. 114(f) of the Economic Cooperation Act of 1948, the budget results for the fiscal years 1948 and 1949 would be as follows:

	<i>Fiscal year 1948</i>	<i>Fiscal year 1949</i>
Budget receipts	\$41,374,701,989	\$37,662,972,939
Budget outlays	<u>35,955,232,145</u>	<u>36,474,412,987</u>
Budget surplus	5,419,469,844	1,188,559,952

⁸ Beginning with fiscal 1951, investments of wholly owned Government corporations in public debt securities are excluded from budget outlays. See table 6.

⁹ Includes Federal old-age and survivors, Federal disability, Federal hospital, and railroad retirement tax act receipts.

¹⁰ Includes unemployment insurance, Federal supplementary medical, civil service retirement, and other employees retirement receipts.

¹¹ For content see table 3.

¹² Social security trust funds are reflected under the Department of the Treasury through fiscal year 1962, and under the Department of Health and Human Services, (formerly a part of the Department of Health, Education, and Welfare), thereafter.

¹³ Includes interest payments by Government corporations and other business-type activities on securities issued to the Treasury and, beginning in 1973, revenue sharing.

¹⁴ Includes military assistance.

¹⁵ Effective May 4, 1980, the Department of Health and Human Services and the Department of Education were created as part of the reorganization of the Department of Health, Education, and Welfare. Fiscal year 1978 and prior represent the outlays for the former Department of Health, Education, and Welfare. The outlays for the Department of Education are included under "Other."

¹ For figures for 1863-1915, see 1929 Annual Report, p. 419; for 1916-28, see 1947 Annual Report, p. 310; and for 1929-54, see 1963 Annual Report p. 486.

² Withheld income taxes and old-age insurance taxes on employees and employers have been deposited in Treasury without separation as to type of tax since December 1950; since December 1956, disability insurance taxes, and since June 1965, hospital insurance taxes have been deposited in the same way. For the same periods, the old-age insurance and disability insurance taxes on the self-employed have been combined with "Income taxes other." The distribution of amounts of these taxes is based on estimates made by the Secretary of the Treasury in accordance with provisions of sec. 201(a) of the Social Security Act, as amended (42 U.S.C. 401(a)). "Individual income taxes withheld" by employers, 1951-56, include amounts subsequently transferred to the Government of Guam, under the provisions of the act approved Aug. 1, 1950 (48 U.S.C. 1421h); since 1956 these amounts are excluded. Beginning with 1974, withheld taxes includes Presidential election fund.

³ Includes the tax on business income of exempt organizations.

⁴ Includes taxes collected in Puerto Rico upon products of Puerto Rican manufacture coming into the United States. Tobacco taxes "other" includes taxes on manufactured tobacco, repealed effective Jan. 1, 1966 (Public Law 89-44).

⁵ Through 1956, "Distilled spirits" included amounts collected by Customs on imports of both distilled spirits and beer. Beginning with 1957, imported beer is included with "Beer."

⁶ Includes stamp taxes on issues, transfers, and sales of bonds, capital stock, and similar interest sales until repealed effective June 22, 1965 (Public Law 89-44) and taxes on silver bullion sales or transfers until repealed effective June 5, 1963 (Public Law 88-36). Tax on foreign insurance policies (1 cent or 4 cents per \$1 of premium) payable by return on and after Jan. 1, 1966 (Public Law 89-44 and Treasury Decision 6868). Deeds of conveyance, \$100 to \$500, 55 cents; each additional \$500 or fraction thereof, 55 cents, repealed effective Jan. 1, 1968 (Public Law 89-44).

⁷ Repealed excise tax which is included in "All other" category of major excise classification. Collections, if any, were primarily for delinquent amounts and were negligible.

⁸ Passenger automobiles and light trucks repealed Dec. 11, 1971 (Revenue Act of 1971). Motorcycles repealed effective Sept. 1, 1955 (Public Law 379).

⁹ Parts and accessories for automobiles (except truck parts), repealed effective Jan. 1, 1966 (Public Law 89-44).

¹⁰ Repealed, effective June 22, 1965 (Public Law 89-44).

¹¹ Air conditioners repealed effective May 15, 1965; refrigerators and freezers, repealed effective June 22, 1965 (Public Law 89-44).

¹² Includes manufacturers excise taxes on jewelry (1932, repealed by the Revenue Act of 1936), furs (1932, repealed effective June 30, 1938) and toilet preparations (1939, repealed effective Oct. 1, 1941); beginning 1942 includes manufacturers excise taxes on phonograph records, musical instruments, and luggage, repealed effective June 22, 1966 (Public Law 89-44). Also includes tax on electrical energy, repealed by Revenue Act of 1951. Beginning with 1978, includes black lung taxes.

¹³ Negative figure stems primarily from floor stock credits taken on certain taxes repealed by the Excise Tax Reduction Act of 1965.

¹⁴ Beginning with fiscal 1957, collections are applied in accordance with provisions of the Highway Revenue Act of 1956, as amended (23 U.S.C. 120 note).

¹⁵ General and toll telephone and teletypewriter service reduced to 3 percent, effective Jan. 1, 1966. Private communications service, telegraph service, and wire equipment service, repealed, effective Jan. 1, 1966 (Public Law 89-44). For general and toll telephone service and for teletypewriter exchange service, the rate of tax on amounts paid on bills first rendered on or after Apr. 1, 1966, for services rendered after Jan. 31, 1966, is increased from 3 percent to 10 percent of the amount paid (Public Law 89-368). For general and toll telephone service and for teletypewriter exchange service, the rate of tax was scheduled to be reduced from 10 percent to 1 percent on amounts paid on bills first rendered on or after Apr. 1, 1968. Public Law 90-285 continued the 10-percent rate to Apr. 30, 1968; the Revenue and Expenditure Control Act of June 28, 1968 (Public Law 90-364) retroactively restored the 10-percent rate. Rate reduced to 9 percent on Jan. 1, 1973, to 8 percent on Jan. 1, 1974, to 7 percent Jan. 1, 1975, to 6 percent on Jan. 1, 1976, to 5 percent on Jan. 1, 1977, to 4 percent on Jan. 1, 1978, to 3 percent on Jan. 1, 1979, and to 2 percent on Jan. 1, 1980.

¹⁶ After fiscal 1965, included in "Toll telephone, telegraph, radio, and cable services."

¹⁷ Rate of 10 percent repealed effective Nov. 16, 1962, except on air transportation which was reduced to 5 percent. Increased to 8 percent on July 1, 1970.

¹⁸ Repealed effective Aug. 1, 1958 (26 U.S.C. 4292 note). Rate of 5 percent on air transportation effective July 1, 1970.

¹⁹ Repealed effective noon Dec. 31, 1965.

²⁰ Terminated effective June 30, 1975.

²¹ Includes certain delinquent taxes collected under repealed laws and various other taxes not shown separately. Beginning with 1980, includes windfall profits taxes.

²² Includes undistributed depositary receipts and Federal tax deposits and unapplied collections of excise taxes.

²³ Beginning with 1955, includes unidentified and excess collections, and profits from sale of acquired property. Until 1955, such amounts were included in "Miscellaneous excise taxes, all other." For 1955-57, includes depositary receipts outstanding 6 months or more for which no tax accounts were identified.

NOTE.—These figures are from Internal Revenue reports of collections. For years prior to 1955, they are not directly comparable to gross budget receipts from internal revenue; the differences in amounts occur because of differences in the time when payments are included in the respective reports. Through 1954, the payments were included in Internal Revenue Service collection reports after the returns to which they applied had been received in internal revenue offices. Beginning with 1955, tax payments are included in budget receipts when reported in the account of the U.S. Treasury.

Under arrangements begun in 1950, for withheld income tax and old-age insurance taxes and later extended to railroad retirement taxes and many excises, these taxes were paid currently into Treasury depositories and the depositary receipts, as evidence of such payments, were attached to quarterly returns filed with the Internal Revenue Service. Beginning in 1967 for corporations, and later extended to many other taxes, the Federal tax deposit system (FTD) replaced the depositary receipt method. Under this procedure,

the payments are included in budget receipts in the month in which the depositary receipts were issued to taxpayers, or FTD's were purchased.

Revised accounting procedures, effective July 1, 1954, extended this practice to Internal Revenue Service collection reports, so that these reports include depositary receipts in the month in which they were issued or FTD's were purchased instead of the month in which tax returns were received in the directors' offices. It is not possible to make a complete classification of excise taxes paid into depositories until the returns are received. Accordingly, the item "Unclassified excise taxes" includes the amount of "undistributed depositary receipts," i.e., the amount of depositary receipts issued, less the amount of depositary receipts received with returns and distributed by classes of tax, and beginning Jan. 1, 1968, amounts of Federal tax deposit forms purchased and not yet applied to taxpayers' liabilities.

¹Includes the District of Columbia.

²Collections from and refunds to U.S. taxpayers in Puerto Rico, Canal Zone, and in foreign countries.

³Consists of amounts of Federal tax deposit forms purchased but not yet applied to taxpayers' liabilities and distributed by State.

⁴Net transactions in the clearing account on the central books of the Treasury for withheld income taxes from salaries of Federal employees.

⁵Represents credits allowable on income tax returns for certain gasoline and lubricating oil tax payments and for excess social security payments under the Federal Insurance Contributions Act (FICA).

⁶Includes amounts transferred to special accounts for Puerto Rico, the Virgin Islands, and the Northern Mariana Islands.

⁷Includes \$1.9 million refunds reported by U.S. Customs Service and \$443.7 million refund reversals pending classification, and \$7.3 million refunds not identifiable by State when fiscal 1980 books were closed.

⁸Includes transfers to the Federal old-age and survivors insurance trust fund, the Federal disability insurance trust fund, the railroad retirement accounts, the Federal hospital insurance trust fund, and the unemployment trust fund for benefit payments within the States.

⁹Includes amounts for gasoline and certain other highway user levies transferred to the highway trust fund for highway construction in States, in accordance with the Highway Revenue Act of 1956, as amended (23 U.S.C. 120 note). Also includes internal revenue collections made by Customs.

¹⁰Includes reversals due to master file canceled checks and undelivered refund checks not obtainable by districts. Also inclusive of the reimbursement of \$687 million to the general fund from the Federal old-age and survivors insurance trust fund, the Federal disability insurance trust fund, and the Federal Unemployment Tax Act (42 U.S.C. 1101 (b)(3)), which is the estimated aggregate of refunds due on taxes collected and transferred. The amount of the refunds paid by IRS as reflected in the narrative of this report includes interest.

NOTE.—Receipts in the various States do not indicate the Federal tax burden of each since, in many instances, taxes are collected in one State from residents of another State. For example, withholding taxes reported by employers located near State lines may include substantial amounts withheld from salaries of employees who reside in neighboring States. Likewise payments of refunds within a State may not be applicable to the collections within that State since refunds are payable in the State of residence or principal place of business of the taxpayer which may not be the point at which collections are made.

Collections in full detail by tax source and region are shown in the Annual Report of the Commissioner of Internal Revenue and in lesser detail in the Treasury Combined Statement of Receipts, Expenditures and Balances of the United States Government.

¹ Through 1959, consists of approximately 90 percent of earnings of the Federal Reserve banks after payment of necessary expenses and statutory dividends, and after provisions for restoring the surplus of each bank to 100 percent of subscribed capital where it fell below that amount. Beginning in 1960, pursuant to decision by the Board of Governors of the Federal Reserve System, consists of all net earnings after dividends and after provisions for building up surplus to 100 percent of subscribed capital at those banks where surplus is below that amount and also of the amounts by which surplus at the other banks exceeds subscribed capital. Beginning in 1965, the surplus is maintained at the level of the paid-in capital instead of subscribed capital.

¹ Includes salary deductions paid to and deposited for credit to the retirement fund.² On basis of warrants-issued adjusted to basis of daily Treasury statements through 1947.³ Advances to the Postmaster General to meet estimated deficiencies in postal revenues, reduced by repayments from prior year advances. Excludes allowances for offsets of extraordinary expenditures or the cost of free mailings. Figures are on basis of warrants-issued adjusted to basis of daily Treasury statements through 1953, and thereafter on basis of the central accounts of the U.S. Government maintained by the Department of the Treasury.⁴ Repayment of unexpended portion of prior years' advances.⁵ Transactions for 1954 to date are on the basis of cash receipts and expenditures as reported by the U.S. Postal Service. Reports of the Postmaster General are on a modified accrual basis.⁶ See letter of the Postmaster General in exhibits in Annual Reports prior to 1958.⁷ Under the act of May 27, 1958 (72 Stat. 143), the Postmaster General is no longer required to certify the estimated amounts of postage that would have collected on certain free or reduced-rate mailings.

NOTE.—For figures from 1789–1935 see Annual Report for 1946, p. 419.

^p Preliminary.

¹ Exclusive of bonds issued to the Pacific railroads (acts of 1862, 1864, and 1878), since statutory provision was made to secure the Treasury against both principal and interest, and the Navy pension fund, which was not a debt as principal and interest were the property of the United States. The Statement of the Public Debt included the railroad bonds from issuance and the Navy fund from Sept. 1, 1866, through June 30, 1890.

² Based on the Bureau of the Census estimated population.

³ Includes certain securities not subject to statutory limitation. Public debt includes debt incurred to finance expenditures of wholly owned Government corporations and other business-type activities in exchange for which securities of the corporations and activities were issued to the Treasury (see table 112).

* Includes \$3,195 million of 6¼ percent Treasury notes Series R-1978, \$400 million of Treasury notes, dollar denominated, and \$4 million Government account series which matured on Saturday, Sept. 30, 1978.

* Includes \$2,081 million of 8½ percent Treasury notes Series F-1979, \$3,861 million of 6½ percent Treasury notes Series U-1979, \$550 million of Treasury notes, dollar denominated, and \$57 million Government account series which matured on Sunday, Sept. 30, 1979.

NOTE.—From 1790 to 1842, the fiscal year ended Dec. 31; 1843-1976, June 30; and beginning 1977, Sept. 30. Detailed figures for 1790-1852 are not available on a basis comparable with those of later years. For bases prior to 1916, see the 1963 Annual Report, p. 497, Note.

NOTE.—Includes unredeemed matured securities outstanding on which interest has ceased.

¹This association was created effective Sept. 30, 1968, by an act approved Aug. 1, 1968 (12 U.S.C. 1716b). It assumed the assets and liabilities of the participation sales fund, the management and liquidating functions fund, and the special assistance functions fund formerly of the Federal National Mortgage Association and continues to operate these funds.

²Effective Sept. 30, 1968, Federal National Mortgage Association was converted to private ownership pursuant to an act approved Aug. 1, 1968 (12 U.S.C. 1716b).

³Effective Dec. 31, 1968, banks for cooperatives and Federal intermediate credit banks were converted to private ownership pursuant to an act approved Oct. 17, 1968 (12 U.S.C. 1061(a)(1)).

Debt of U.S. Government agencies.....	<u>494,421,677</u>

¹ Payable on date indicated except where otherwise noted. Where 2 dates are shown for Treasury bonds, first date is earliest call date and second date is maturity date.

² Reconciliation by classification to the basis of the Monthly Statement of the Public Debt of the United States is shown in table 26.

³ Treasury bills are shown at maturity value and are sold on a discount basis with competitive bids for each issue. The average sale price of these series gives an approximate yield on a bank discount basis (360 days a year) as indicated opposite each issue of bills. This yield differs slightly from the yield on a true discount basis (365 days or 366 days a year) which is shown in the summary table 26.

⁴ Treasury notes, 7½% Series C-1981 and 7½% Series E-1981 consolidated effective Sept. 1, 1976.

⁵ Redeemable at par and accrued interest to date of payment, at any time upon the death of the owner at the option of the duly constituted representative of the deceased owner's estate, provided entire proceeds of redemption are applied to payment of Federal estate taxes on such estate.

⁶ Redeemable at any time prior to maturity on three months' notice.

⁷ Redeemable prior to maturity in whole or in part as per agreement.

⁸ Redeemable prior to maturity upon proper advance notice in which case the interest rates would be adjusted downward to reflect the shorter life of the obligation.

⁹ Redeemable in whole or in part on 5 business days' notice.

¹⁰ Redeemable at any time prior to maturity on 1 month's notice.

¹¹ Redeemable at any time prior to maturity on 2 month's notice.

¹² Redeemable prior to maturity on 3 months' notice with interest penalties.

¹³ The dollar equivalent of all foreign currency denominated notes issued and payable is based on the contractual rate at time of issue.

¹⁴ Interest payable annually with final interest payable at maturity.

¹⁵ Redeemable prior to maturity.

¹⁶ These bonds are subject to call by the United States for redemption prior to maturity.

¹⁷ Issued at par. Semiannual interest is added to principal.

¹⁸ The bonds are redeemable without interest during the first 12 months after issue date. Thereafter, bonds presented for payment prior to age 59½ years carry a penalty except in case of death or disability or upon a "roll-over" to other authorized investments.

¹⁹ Amounts issued and retired for series E and EE savings bonds and for savings notes include accrued discount; amounts outstanding are stated at current redemption value. Amounts issued, retired, and outstanding for series H and HH are stated at par value.

²⁰ Represents a weighted average of the approximate yields of various issue dates within the yearly series if held to maturity or if held from issue date to end of applicable extension period, computed on the basis of bonds outstanding Sept. 30, 1980. (For details of yields by issue dates see Treasury Circulars No. 653 (Tenth Revision) for series E and No. 905 (Seventh Revision) for series H.)

²¹ At option of owner, bonds dated May 1, 1941, through Nov. 1, 1965, may be held and will accrue interest for additional 30 years; bonds dated on or after Dec. 1, 1965, may be held and will accrue interest for additional 20 years.

²² Redeemable after 6 months from issue date at option of owner.

²³ Unclassified redemptions of savings notes and series E savings bonds are included in unclassified redemption of series EE savings bonds beginning May 1, 1968, and July 1, 1980, respectively.

²⁴ At option of owner, bonds dated June 1, 1952, through Dec. 1, 1980, may be held and will earn interest for additional 20 years.

²⁵ Unclassified redemptions of series H savings bonds are included in unclassified redemptions of series HH savings bonds beginning July 1, 1980.

²⁶ Redeemable after 1 year from issue date at option of owner.

²⁷ At option of owner, savings notes may be held and will accrue interest for additional 20 years.

²⁸ For detailed information see 1956 Annual Report, p. 435.

²⁹ Not subject to the statutory debt limitation.

³⁰ After deducting amounts officially estimated to have been lost or irrevocably destroyed.

³¹ For statutory limit on the public debt, see tables 31 and 32.

TAX STATUS:

(f) Treasury bills are not considered assets under the Internal Revenue Code of 1954. The difference between the price paid for the bills and the amount actually received upon their sale or redemption at maturity for Federal income purposes is to be treated as an ordinary gain or loss for the taxable year in which the transaction occurs.

(g) Income derived from these securities is subject to all taxes now or hereafter imposed under the Internal Revenue Code of 1954.

(h) In some cases any gain or loss derived from the exchange will be taken into account for Federal income tax purposes upon the disposition or redemption of the new securities. See table 29 for securities involved.

(i) Where this security was issued in connection with the advance refunding exchange, the Secretary of the Treasury has declared, pursuant to Section 1037 (a) of the Internal Revenue Code of 1954, that any gain or loss on account of the exchange may be taken into account for Federal income tax purposes either in the taxable year of the exchange or (except to the extent that cash was received) in the taxable year of disposition or redemption of the securities received in the exchange. Any gain to the extent that cash was received by the subscriber (other than an interest adjustment) must be recognized in the year of the exchange. For those securities included in the advance refunding see table 29.

(j) These issues, being investments of various Government funds and payable only for the account of such funds, have no present tax liability.

¹ The effective rate of interest on the new issue is the coupon rate adjusted for the amount paid by or paid to the Treasury as discount or premium on the new security exchanged for eligible securities originally issued at par. For eligible securities originally issued at prices other than par, the payment by or to the Treasury is applied to the price adjusted for the pro rata amortization of the original discount or premium to the date of the advance refunding.

² Based on the mean of bid and asked prices of securities eligible for exchange (adjusted for payments on account of purchase price of securities issued) at noon on the day before announcement by the Treasury.

³ Gain or loss on exchange deferred in accordance with sec. 1037a of the Internal Revenue Code.

¹ For Treasury bills, average rate on bank discount is shown; for savings bonds and savings notes, approximate yield to maturity is shown.

² Amounts shown for savings bonds of series E and EE, and savings notes represent issue price plus accrued discount.

³ Amounts shown for savings bonds of series E and EE, and savings notes represent current redemption value (issue price plus accrued discount).

⁴ Average interest rate for combined original and additional issues.

⁵ At option of owner series E bonds dated May 1, 1941, through Nov. 1, 1965, may be held and will accrue interest for additional 30 years; bonds dated on and after Dec. 1, 1965, may be held and will accrue interest for additional 20 years. At option of owner series H bonds dated June 1, 1952, through Dec. 1, 1979, may be held and will accrue interest for additional 20 years.

⁶ Represents a weighted average of the approximate yield of bonds of various issue dates within the yearly series if held to maturity or if held from issue dates to end of applicable extension period, computed on the basis of bonds outstanding Sept. 30, 1979. (See Treasury Circulars Nos. 653 (10th Revision) and 905 (7th Revision), as revised and amended, for detail yields by issue date for series E and H savings bonds, respectively.)

⁷ Amounts transferred from unclassified sales or redemptions to sales or redemptions of designated series.

⁸ Adjustments of amounts originally reported on date of issue or exchange.

⁹ Redeemable after 1 year from issue date. At option of owner, savings notes may be held and will accrue interest for additional 20 years.

¹⁰ Unclassified redemptions of savings notes are included in unclassified redemptions of series E savings bonds beginning May 1, 1968, and ending Dec. 31, 1979.

¹¹ Unclassified redemptions of series A-E savings bonds and savings notes are included in unclassified redemptions of series EE savings bonds beginning Jan. 1, 1980.

¹² Unclassified redemptions of series F-K savings bonds are included in unclassified redemptions of series HH savings bonds beginning Jan. 1, 1980.

¹The 90-, 91-, and 92-day bills are additional issues of bills with an original maturity of 26 or 52 weeks. The 181-, 182-, and 183-day bills may be additional issues of bills with an original maturity of 52 weeks.

²Relatively small amounts of bids were accepted at a price or prices somewhat above the high shown. However, the higher price or prices are not shown in order to prevent an appreciable discontinuity in the range (covered by the high to the low prices shown) which would make it misrepresentative.

NOTE—The usual timing with respect to weekly issues of Treasury bills is: Press release inviting tenders, 9 days before date of issue; and closing date for the receipt of tenders and press release announcing results of auction, 3 days before date of issue.

Figures are final and may differ from those shown in the press release announcing preliminary results.

For each issue of regular weekly and 52-week bills, noncompetitive tenders in the amount of \$500,000 or less from any one bidder were accepted in full at the average price of accepted competitive bids.

All equivalent rates of discount are on a bank discount basis.

¹ Sales and redemption figures include exchanges of minor amounts of matured series E for series G and K bonds from May 1951 through April 1957, series F and J bonds for series H bonds beginning January 1960, and U.S. savings notes for series H bonds beginning January 1972; they exclude exchanges of series E bonds for series H bonds. Redemption figures for fiscal 1953-54 and fiscal years 1960-63 also include the maturing series F and G savings bonds exchanged for marketable Treasury securities during special exchange offerings. The amounts involved were \$416.6 million in 1953, \$0.7 million in 1954, \$745.4 million in 1960, \$147.3 million in 1961, \$320.1 million in 1962, and \$75.1 million in 1963.

² Sales of series E bonds are included at issue price, and their redemptions and amounts outstanding at current redemption value. Series H bonds are included at face value throughout.

³ Starting with fiscal 1980 the redemption amounts include exchanges. Prior to fiscal 1980 exchanges were excluded from redemptions. In fiscal 1980 exchanges are shown in series H and HH table.

⁴ Adjustments are made to bring table into agreement with Public Debt accounts.

NOTE.—Starting Jan. 1, 1980, series HH replaced series H, and on July 1, 1980, series EE replaced E. Series H bonds sold from June 1, 1952, through Dec. 30, 1979. Series E bonds sold from May 1, 1941, through June 30, 1980. Series A—D sold from Mar. 1, 1935, through Apr. 30, 1941, have all matured and are no longer reflected in these tables. Series F and G were sold from May 1, 1941, through Apr. 30, 1952. Series J and K were sold from May 1, 1952, through Apr. 30, 1957. Sales figures for series F, G, J, and K after fiscal 1957 represent adjustments. Details by months for series E, F, and G bonds from May 1941 will be found on p. 608 of the 1943 Annual Report, and in corresponding tables in subsequent reports through 1972. Monthly detail for series H, J, and K bonds will be found in the 1952 Annual Report, pp. 629 and 630, and in corresponding tables in subsequent reports through 1972. Monthly detail for series F, G, J, and K was discontinued in 1973. Detail information for yearly redemption activity for Series F, G, J, and K has been discontinued. For detail information see 1978 Annual Report, pp. 292 and 294.

¹ Revised.² Figures include exchanges of minor amounts of series F and J bonds and savings notes into series H bonds from January 1960 through October 1964, series J for H through October 1969, and U.S. savings notes from February 1972 to date; however, they exclude series E bonds exchanged for series H and series E and EE bonds exchanged for series HH, which are reported in table 42.³ Excludes data for period April 1947 through December 1956, when reports were not available. In the Annual Reports for 1952-1958 data for period May 1941 through March 1947 were included with "Other Possessions."⁴ Includes a small amount for other possessions.

NOTE.—Sales by State of the various series of savings bonds were published in the Annual Report for 1943, pp. 614-621, and in the subsequent reports; and by months at intervals in the Treasury Bulletin, beginning with the issue of July 1946. Since Apr. 30, 1953, figures for sales of series E and H bonds only have been available by State.

* Less than \$500,000.

¹ Included in debt outstanding at face amount, but the annual interest charge and the annual interest rate are computed on the discount value.

² The annual interest charge and annual interest rate on U.S. savings bonds and U.S. savings notes are computed on the basis of the rate to maturity applied against the amount outstanding.

NOTE.—For methods of computing annual interest rate and charge see note to table 47. See table 26 for amounts of public debt outstanding by classification. For figures for 1939-64 see 1966 Annual Report, pages 770-1.

¹ Includes face amount of securities, except that current redemption value is used for savings bonds of series C-F and J, U.S. savings notes, and retirement bonds. The face value of matured savings bonds and savings notes outstanding is included until all of the annual series have matured, when the entire amount is transferred to matured debt on which interest has ceased.

² Comparable annual data 1916–54 are contained in 1962 Annual Report, p. 735. Current monthly figures are published in the Treasury Bulletin. Comparable monthly data 1929–36 appear in 1936 Annual Report, p. 442, and from 1937 in later reports. Annual interest charge monthly 1916–29 appears in 1929 Annual Report, p. 509.

NOTE.—The computed annual interest charge represents the amount of interest that would be paid if each interest-bearing issue outstanding at the end of the month or year should remain outstanding for a year at the applicable annual rate of interest. The charge is computed for each issue by applying the appropriate annual interest rate to the amount outstanding on that date. Beginning Dec. 31, 1958, the computed average rate is based upon the rate of effective yield for issues sold at premiums or discounts. Before that date the computed average rate was based upon the coupon rates of the securities. That rate did not materially differ from the rate on the basis of effective yield. The "effective yield" method of computing the average interest rate on the public debt more accurately reflects the interest cost to the Treasury, and is believed to be in accord with the intent of Congress where legislation has required the use of the rate of effective yield for various purposes.

¹ Taxable bonds are those on which the interest is subject to both the normal and surtax rates of the Federal income tax. This average commenced Oct. 20, 1941.

² Prior to October 1941 yields were on partially tax-exempt long-term bonds. For January 1919 through December 1929, see the 1943 Annual Report, p. 662; for January 1930 through December 1950, see the 1956 Annual Report, p. 492; and for January 1951 through December 1955, see the 1977 Annual Report, p. 286.

NOTE.—For bonds selling above par and callable at par before maturity, the yields are computed on the basis of redemption at first call date; while for bonds selling below par, yields are computed to maturity. Monthly averages are averages of daily figures. Each daily figure is an unweighted average of the yields of the individual issues. Yields before 1953 are computed on the basis of the mean of closing bid and ask quotations in the over-the-counter market. Commencing April 1953, yields, as reported by the Federal Reserve Bank of New York, are based on over-the-counter closing bid quotations. See Treasury Bulletin for current monthly yields.

¹ Excludes Treasury bills, which are fully taxable. For description and amount of each issue outstanding on Sept. 30, 1980, see table 28; for information as of Sept. 30, 1979, see 1979 Statistical Appendix, p. 86.

² Beginning April 1953, prices are closing bid quotations. Prices for prior dates are the mean of closing bid and ask quotations; "when issued" prices are included in price range. Dates of highs and lows in case of recurrence are the latest dates. Issues with original maturity of less than 1 year are excluded.

³ Yields are based on bid prices and are computed to earliest call date when prices are above par and to maturity date when prices are at par or below.

NOTE.—Prices and yields (based on closing bid prices) on Sept. 30, 1979 and 1980 are over-the-counter quotations, as reported to the Department of the Treasury by the Federal Reserve Bank of New York. Yields are percent per annum compounded semiannually except that on securities having only one interest payment, they are computed on a simple interest basis.

¹Revised.

* Less than \$500,000.

¹Figures are from the revised Daily Treasury Statement, effective July 1, 1974. Prior data not available.

²Represents transfers from tax and loan note accounts, proceeds from sales of securities other than Government account series, and taxes.

³Represents checks paid, wire transfer payments, drawdowns on letters of credit, redemptions of securities other than Government account series, etc.

⁴Special depositories are permitted to make payment in the form of a deposit credit for the purchase price of U.S. Government securities purchased by them for their own account, or for the account of their customers who enter subscriptions through them, when this method of payment is permitted under the terms of the circulars inviting subscriptions to the issues.

⁵Includes U.S. savings bonds, savings notes, retirement plan and tax and loss bonds. U.S. savings notes first offered for sale as of May 1, 1967, were discontinued

after June 30, 1970. Retirement plan bonds first offered for sale as of Jan. 1, 1963; tax and loss bonds first issued in March 1968.

*Taxes shown for 1966 and 1967 include income (by special arrangement). Under a special procedure begun in March 1951, authorization was given during certain periods for income tax payments, or a portion of them made by checks of \$10,000 or more drawn on a special depository bank to be credited to the tax and loan account in that bank. This procedure was discontinued in April 1967. Taxes eligible for credit consist of those deposited by taxpayers in the tax and loan depositories, as follows: Withheld income taxes beginning March 1948; taxes on employers and employees under the Federal Insurance Contributions Act beginning January 1950, and under the Railroad Retirement Tax Act beginning July 1951; a number of excise taxes beginning July 1953; estimated corporation income taxes beginning April 1967; all corporation income taxes due on or after Mar. 15, 1968, and FUTA taxes beginning April 1970.

Footnotes on following page.

¹Gold assets were valued at \$35 per fine troy ounce until May 8, 1972, when it was revalued at \$38 pursuant to the Par Value Modification Act, Public Law 92-268, approved Mar. 31, 1972. On Oct. 18, 1973, gold assets were revalued at \$42.22 pursuant to the amending of section 2 of the Par Value Modification Act, Public Law 93-110, approved Sept. 21, 1973. Amount for 1970 is exclusive of gold deposited with the United States by the International Monetary Fund.

²Excludes bullion carried at monetary value but released for coinage use.

³Through 1970 consists of standard silver dollars. Amount for 1980 consists of \$481,781,898 in standard silver dollars and \$1,533,094,000 in cupronickel-clad dollars.

⁴Comprises the security for: Gold certificates and credits payable therein (100 percent in gold); U.S. notes (gold to the extent of the reserve required by law (31 U.S.C. 408)); and silver certificates and Treasury notes of 1890 (100 percent in silver bullion or standard silver dollars). Since enactment of the Old Series Currency Adjustment Act (31 U.S.C. 912-916) on June 30, 1961, gold certificates prior to the Series of 1934, silver certificates issued before July 1, 1929, and Treasury notes of 1890 have been payable from the general fund. The requirement for a gold reserve against U.S. notes and Treasury notes of 1890 was repealed by Public Law 90-269, approved Mar. 18, 1968. Silver certificates issued on and after July 1, 1929, became redeemable from the general fund on June 24, 1968 (31 U.S.C. 405a-3). The amount of security shown on this line for years after those dates has been reduced accordingly.

⁵Consists of: Gold certificates outside of the Treasury (issues prior to Series of 1934 are included through 1961), and credits with the Treasury of the United States payable to the Board of Governors, Federal Reserve System, in gold certificates. These obligations are fully secured by gold in the Treasury.

⁶Pursuant to the Old Series Currency Adjustment Act are redeemable from the general fund of the Treasury and upon redemption will be retired.

⁷Silver certificates were originally secured by silver bullion at monetary value (\$1.29 + per fine troy ounce) and standard silver dollars held in the Treasury. They are now payable from the general fund (see footnote 4).

⁸Treasury notes of 1890 have been in process of retirement since March 1900 (31 U.S.C. 411) upon receipt by the Treasury. Until June 30, 1961, secured by silver; thereafter redeemable from the general fund.

⁹U.S. notes were secured by a gold reserve (31 U.S.C. 408) until this requirement was repealed by Public Law 90-269, approved Mar. 18, 1968. This reserve, which was also a reserve for Treasury notes of 1890 until Mar. 18, 1968, amounted to \$156,039,431 for all dates in this table through 1965. The act of May 31, 1878 (31 U.S.C. 404) required that the amount of U.S. notes then outstanding, \$346,681,016, be kept in circulation. The Old Series Currency Adjustment Act provided that this amount should be reduced by such amounts of notes as the Secretary of the Treasury might determine to have been destroyed or irretrievably lost. To date, the Secretary has made such determinations with respect to \$24,142,000 of the U.S. notes issued prior to July 1, 1929.

¹⁰Federal Reserve banks secure Federal Reserve notes by depositing like amounts of collateral with Federal Reserve agents. The Federal Reserve Act, as amended (12 U.S.C. 412), authorizes the use of the following assets for this purpose: (a) gold certificates or gold certificate credits; (b) certain discounted or purchased commercial paper; (c) securities issued by the United States; and (d) special drawing rights certificates issued by the Exchange Stabilization Fund. Federal Reserve notes are obligations of the United States and are a first lien on all assets of the issuing Federal Reserve bank.

Pursuant to the Old Series Currency Adjustment Act of 1961, funds were deposited by the Federal Reserve banks on July 28, 1961, with the Treasurer of the United States for the redemption of all series of Federal Reserve notes issued before the Series of 1928. The amount shown for 1980 includes \$668,948 of such series.

¹¹Federal Reserve bank notes at issuance were secured by direct obligations of the United States or commercial paper. Since termination of their issuance on June 12, 1945 (12 U.S.C. 445 note), the notes have been in process of retirement, and lawful money has been deposited with the Treasury of the United States for their redemption.

¹²National bank notes at issuance were secured by direct obligations of the United States. From Dec. 23, 1915 (12 U.S.C. 441) these notes have been in process of retirement, and lawful money has been deposited with the Treasury of the United States for their redemption.

¹ Basic compensation deductions have been at the rate of 7 percent since the beginning of the first applicable pay period beginning after Dec. 31, 1969. Since 1958 District of Columbia and Government corporations' contributions have been included with contributions from agency salary funds.

² Beginning July 1, 1957, appropriations are not made directly to the fund. Instead, in accordance with the act approved July 31, 1956 (5 U.S.C. 8334(a)), the employing agency contributes (from appropriations or funds from which the salaries are paid) amounts equal to the deductions from employees' salaries.

¹ Interest paid at the rate of 4 percent to May 22, 1976. Thereafter, paid at the rate which is 0.25 percent less than a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding long-term marketable obligations of the United States, adjusted to the nearest one-eighth of 1 percent, but not less than 4 percent, as provided in Public Law 94-289, 94th Congress.

² The Lenore B. and Charles Feinberg fund includes both permanent loan funds as well as investments in special bonds.

³ Includes income from securities held as investments under deed of trust dated Nov. 17, 1936, administered by designated trustees including the Bank of New York.

⁴ During fiscal 1980 these funds were invested in 8.5 percent special bonds.

⁵ Represents unappropriated receipts.

NOTE.—Above table does not include \$59,000 of bank securities representing market value of bequest to the "Katie and Walter Louchheim Fund" donations. Also does not include securities received from the bequest of the late Leonora Jackson McKim estate consisting of various stocks, notes, and bonds at a market value of \$994,000, together with invested income of \$158,000.

¹ Significant accounting policies:

Basis of accounting.—Assets and liabilities, and income and expenses are recognized on the accrual basis of accounting.

Inventories.—Finished goods and work-in-process inventories are valued at cost, including administrative and service overhead. Except for the distinctive paper, which is valued at the acquisition cost, raw materials and stores inventories are valued at the average cost of the materials and supplies on hand.

Plant and equipment.—Machinery and equipment, furniture and fixtures, office machines, and motor vehicles acquired on or before June 30, 1950, are stated at appraised values as at that date. Additions since June 30, 1950, and all building appurtenances are valued at acquisition cost. The act that established the Bureau of Engraving and Printing fund specifically excluded land and buildings costing about \$9 million from the assets of the fund. Also excluded are appropriated funds of about \$7,184,000 for extraordinary uncanceled building repairs and air conditioning.

Lease-purchase contracts capitalized.—Certain long-term lease-purchase contracts relating to the financing of equipment are accounted for as installment purchases of property. Upon payment of the required amounts, the equipment covered by these contracts becomes the property of the Bureau, and accordingly, for financial reporting purposes this equipment is being capitalized on the basis of the outright purchase price per contract. The difference between the total contract amounts, which are recorded as either current or long-term liabilities and the capitalized equipment costs, represent an implicit amount of interest and contractor risk, because of Bureau termination without liability privileges. This difference is accounted for as a deferred lease cost. Amortization of this lease cost is based on the ratio of each monthly lease payment to the total contract price.

Depreciation.—Depreciation is computed under the straight-line method. The depreciation rates used are based on the following useful lives: 6 to 30 years for machinery and equipment, 6 to 20 years for motor vehicles, 10 years for office machines, 10 years for furniture and fixtures, and 3 to 20 years for building appurtenances.

Earnings.—In accordance with Public Law 95-81, dated July 31, 1977, the Bureau includes in its selling prices a surcharge which is used for financing capital improvements and for providing additional funds for working capital.

²The following is a summary of the major categories of inventories:

	Sept. 30, 1979	Sept. 30, 1980
Finished goods	\$17,695,564	\$4,280,975
Work in process	4,081,578	6,674,950
Raw materials	4,202,136	5,748,135

Total	29,099,839	35,003,744
Construction in progress for various items is as follows:		
Machinery and equipment	\$5,772,123	\$12,062,230
Building appurtenances	118,317	325,574
Total	5,890,440	12,387,804
Fully depreciated assets still in use are as follows:		
Machinery and equipment	\$16,756,095	\$17,136,432
Motor vehicles	52,285	43,516
Office machines	127,079	175,170

Building appurtenances	5,142,673	5,424,589
Total	22,178,890	22,891,458

⁴An analysis of deferred charges is as follows:

	Sept. 30, 1979	Sept. 30, 1980
Lease-purchase financing costs	\$425,907	\$112,168
Alterations and maintenance	1,308,635	890,359
Experimental equipment	28,895	322,681
Other	75,045	84,901

^a The following is a summary of the major categories of accrued liabilities:

	<i>Sept. 30, 1979</i>	<i>Sept. 30, 1980</i>
Payroll	\$4,054,333	\$2,685,084
Accrued leave	3,252,970	3,451,364
Constructive receipts	4,175,393	1,878,814
Other	3,327,208	4,460,141

The accrual for constructive receipts is the estimated value of work performed by contractors to Government specifications, which had not been delivered to or accepted by the Bureau at the statement date. Excluded from this amount is the value of any lease-purchase equipment which has not been accepted by the Bureau because of contractual language contained in the contracts limiting Bureau liability in the event of cancellation. The asset categories are as follows:

	<i>Sept. 30, 1979</i>	<i>Sept. 30, 1980</i>
Machinery and equipment	\$1,515,750	\$1,378,325
Raw materials	425,030	388,735
Stores	140,942	111,754
Finished goods	2,093,671	-----

^a The following agencies have advanced funds to the Bureau which are being used to finance increased inventories needed for future deliveries of food coupon books, site preparation costs for processing facilities, and product costs for alien registration identification cards, partial cost of Annex power distribution system, and Annex cafeteria renovations:

	<i>Sept. 30, 1979</i>	<i>Sept. 30, 1980</i>

For details concerning all classes of awards, including claims of U.S. Government, see 1962 Annual Report, pages 138 and 826.

² Amounts shown are gross; deductions for administrative expenses are shown below (see footnote 3).

³ Deductions of ½ of 1 percent are made from each payment to cover administrative expenses. These amounts are covered into the Treasury as miscellaneous receipts.

NOTE. — On Feb. 27, 1953, the German Government agreed to pay \$97,500,000 (U.S. dollars) over a period of 25 years in full settlement of Germany's obligations on account of Class III awards and the award under Private Law 509. Through Sept. 30, 1979, \$97,500,000 has been obligated for payment to awardholders. On Apr. 30, 1970, \$32 million was received from the Government of Germany and deposited into a special account on behalf of the Deutsche Bundesbank. Each year, on Apr. 1, through 1978, \$4 million was transferred from the Deutsche Bundesbank account into the German deposit fund for distribution to awardholders.

¹ Revised.¹ Beginning July 1974, the IMF adopted a technique for valuing the SDR based on a weighted average of exchange rates for the currencies of 16 member countries. The U.S. SDR holdings and reserve position in the IMF are also valued on this basis beginning July 1974.² Includes gold sold to the United States by the International Monetary Fund with the right of repurchase, and gold deposited by the International Monetary Fund to mitigate the impact on the U.S. gold stock of foreign purchases for the purpose of making gold subscriptions to the Fund under quota increases.³ Includes gold held by the Exchange Stabilization Fund.⁴ Includes allocations of SDR's in the Special Drawing Account in the International Monetary Fund, plus or minus transactions in SDR's. Allocations of SDR's on Jan. 1 of respective years are as follows: 1970, \$867 million; 1971, \$717 million; 1972, \$710 million; 1979, 874 million (in SDR terms); and 1980, 874 million (in SDR terms).⁵ Includes holdings of Treasury and Federal Reserve System; beginning November 1978, valued at current market exchange rates.⁶ The United States has the right to purchase foreign currencies equivalent to its reserve position in the Fund automatically if needed. Under appropriate conditions the United States could purchase additional amounts related to the U.S. quota.⁷ Includes gain of \$68 million resulting from revaluation of the German mark in October 1969, of which \$13 million represents gain on German mark holdings at time of revaluation.⁸ Includes \$28 million increase in dollar value of foreign currencies revalued to reflect market exchange rates as of Dec. 31, 1971.⁹ Total reserve assets include increase of \$1,016 million resulting from change in par value of the U.S. dollar on May 8, 1972, consisting of \$828 million total gold stock, \$155 million SDR's, and \$33 million reserve position in the International Monetary Fund.¹⁰ Dollar equivalents not revalued to reflect change in par value of the dollar, effective Oct. 18, 1973.

¹ Revised.

² Includes liability on gold deposited by the International Monetary Fund to mitigate the impact on the U.S. gold stock of foreign purchases for gold subscriptions to the Fund under quota increases, and U.S. Government obligations at cost value and funds awaiting investment obtained from proceeds of sales of gold by the International Monetary Fund to the United States to acquire income-earning assets.

³ Includes Bank for International Settlements and European Fund.

⁴ Derived by applying reported transactions to benchmark data.

⁵ Excludes notes issued to foreign official nonreserve agencies.

⁶ Includes debt securities of U.S. Government corporations, federally sponsored agencies, and private corporations.

⁷ Includes liabilities payable in dollars to foreign banks, and liabilities payable in foreign currencies to foreign banks and to "other foreigners."

⁸ Includes marketable U.S. Government bonds and notes held by foreign banks.

⁹ Includes nonmarketable U.S. Government bonds and notes held by foreign banks.

¹⁰ Principally the International Bank for Reconstruction and Development, the Inter-American Development Bank, and the Asian Development Bank.

¹¹ Data on the two lines shown for this date differ because of changes in reporting coverage. Figures on the first line are comparable in coverage to those shown for the

preceding date; figures on the second line are comparable to those shown for the following date.

¹² Data on the second line differ from those on the first line because certain accounts previously classified as "official institutions" are included with "banks"; a number of reporting banks are included in the series for the first time; and foreign currency liabilities are increased in value to reflect market exchange rates as of Dec. 31, 1971, as follows: U.S. Treasury certificates, \$7 million; nonmarketable U.S. Treasury bonds and notes, \$103 million (official institutions) and \$18 million (liabilities to other foreigners).

¹³ Includes \$162 million increase in dollar value of foreign currency liabilities to official institutions of foreign countries revalued to reflect market exchange rates, as follows: short-term liabilities, \$15 million; and nonmarketable U.S. Treasury notes, \$147 million.

NOTE.—Table is based on Department of the Treasury data and on data reported to the Department by banks and brokers in the United States. Data exclude nonmarketable, nonconvertible U.S. Treasury notes issued to foreign official nonreserve agencies and the inclusion of investments by foreign official reserve agencies in debt securities of U.S. federally sponsored agencies and U.S. corporations. Table excludes International Monetary Fund "holding of dollars," and holdings of U.S. Treasury letters of credit and nonnegotiable, non-interest-bearing special U.S. notes held by other international and regional organizations.

¹ Data for 1978 are revised; data for 1979 are preliminary.

² Beginning in July 1974, U.S. holdings of special drawing rights and the reserve position in the International Monetary Fund include changes in the SDR based on changes in a weighted average of exchange rates for currencies of 16 member countries of the International Monetary Fund.

³ Also includes paid-in capital subscriptions to international financial institutions and outstanding amounts of miscellaneous claims that have been settled through international agreements to be payable to the U.S. Government over periods in excess of 1 year. Excludes World War I debts that are not being serviced.

⁴ Includes indebtedness that the borrower may contractually, or at its option, repay with its currency, with a third country's currency, or by delivery of materials or transfer of services.

⁵ For the most part, represents the estimated investment in shipping companies registered primarily in Panama and Liberia.

⁶ U.S. holdings of Japanese shares may be underestimated in 1978. This is due in part to the recording of security transactions by the country of transactor rather than the country of issuer.

⁷ Due to the introduction of new reporting forms, the maturity breakdown is not available.

⁸ Details not shown separately are included in totals in lines 25 and 32.

⁹ Details not shown separately are included in line 24.

¹⁰ Includes, primarily, U.S. Government liabilities associated with military sales contracts and other transactions arranged with or through foreign official agencies.

¹¹ The distinction between long- and short-term liabilities is discontinued in 1978.

¹² Includes U.S. Treasury notes denominated in foreign currencies, sold through foreign central banks to domestic residents in country of issue; these notes are subject to restricted transferability.

¹ Collections under lend-lease and surplus property agreements will continue to be made until such agreements are satisfied, although the act originally authorizing such action has been repealed.

² Dollars acquired from the sale of foreign currencies are derived from charges against the dollar appropriations of the Federal agencies which use the currencies. These dollar proceeds are credited to either miscellaneous receipts or other appropriate accounts on the books of the Treasury.

³ Comprised of 7 percent Japanese Government Bonds No. 1 with total yen face value of 3,144,000,000 and maturity date of Feb. 20, 1982, 8 percent Japanese Government Bond No. 7-2 with yen face value of 100,000,000 and maturity date of Feb. 20, 1986, 7.4 percent Japanese Government Bond No. 2 with yen face value of 400,000 and maturity date of May 20, 1987, and 7.2 percent Japanese Government Bond No. 3 with yen face value of 150,000,000 and maturity date of Aug. 20, 1987.

NOTE.—For the purpose of providing a common denominator, the currencies of 70 foreign countries (see table 98) are herein stated in U.S. dollar equivalents. It should not be assumed that dollars in amounts equal to the balances shown are actually available. The dollar equivalents are calculated at varying rates of exchange. Foreign currencies deposited under certain provisions of Public Law 480 and the Mutual Security Act were converted at deposit rates provided for in the international agreements with the respective countries. Many of these currencies are available to agencies without reimbursement pursuant to legislative authority and, when disbursed to the foreign governments, will generally be accepted by them at the deposit or collection rates. The dollar equivalents of currencies sold for dollars during the month were calculated at the prevailing market rates used to pay U.S. obligations. The closing balances were converted at the Sept. 30, 1980, reporting rates.

Additional data on foreign currency transactions appears in the Treasury publication "Foreign Currencies Held by U.S. Government." The above figures exclude country-owned foreign currencies, generally called "counterpart funds."

¹Agreement of Feb. 27, 1953, provided for cancellation of 24 bonds totaling 489,600,000 reichsmarks and issuance of 26 dollar bonds totaling \$97,500,000. The dollar bonds mature serially over 25 years beginning Apr. 1, 1953. All unmatured bonds are of \$4 million denomination.

²Includes 4,027,612 reichsmarks (1,529,049 on moratorium agreement (Army costs) and 2,498,563 interest on funded agreement) deposited by German Government in the Konversionskasse für Deutsche Auslandsschulden and not paid to the United States in dollars as required by the debt and moratorium agreement.

³The unpaid portion of this indebtedness is converted at 40.33 cents to the reichsmark, which was the exchange rate at the time of default. The 1930 agreement provided for a conversion formula for payments relating to the time of payment. These figures are estimates made solely for this statistical report.

⁴Payments converted to U.S. dollars at rate applicable at the time of payment; i.e., 40.33 or 23.82 cents to the reichsmark.

* Less than \$50,000.

¹ Includes estimates for the U.S. dollar equivalent of receivables denominated in other than dollars and/or payable at the option of the debtor in foreign currencies, goods, or services. The total amount of such estimates approximates \$2,111.4 million as of Sept. 30, 1980. Long-term loans and credits have an original maturity of more than 1 year.

² Data excludes indebtedness shown in table 102 consisting of \$20.8 million net uncollected short-term "cash" receivables, \$57.8 million deferred interest, and \$56.8 million of interest arrears as well as \$3.6 million in unapplied credits as of Sept. 30, 1980.

³ Reflects debt reorganization adjustment pursuant to a debt reorganization agreement with Indonesia. Over the entire term this adjustment will be zero.

⁴ Excludes outstanding interest deferred by formal agreement or in arrears, but includes capitalized interest.

¹In accordance with Reorganization Plan No. 2 of 1977, functions of the U.S. Information Agency and the State Department's Bureau of Educational and Cultural Affairs were consolidated to form this agency, effective Apr. 1, 1978.

²In accordance with an act approved Aug. 30, 1972 (7 U.S.C. 1929(g)(1)), the direct loan account was abolished and its assets, liabilities, and authorizations were transferred to the agricultural credit insurance fund. All outstanding securities of the agricultural

credit insurance fund as of Aug. 30, 1972, were transferred to the rural development insurance fund which was established by this act.

³In accordance with an act approved Oct. 17, 1979 (20 U.S.C. 3446), all functions of the Secretary of Housing and Urban Development relating to college housing loans were transferred to the Secretary of Education.

⁴All assets and liabilities of the public facility loans fund were transferred to this fund on Apr. 1, 1975, by an act approved Aug. 22, 1974 (88 Stat. 653).

* Less than \$50,000.

¹ In cases where the amounts of congressional authorizations have been indefinite, the net amount of transactions in the year generally represents the increase or decrease in borrowing authority. In addition to authority to borrow from the Treasury, some agencies also receive authority to borrow from the public, usually under the same provision of law.

² Excludes refundings.

³ Amounts represent transactions under the combined authority to borrow either from the Secretary of the Treasury or the public, and do not represent the total borrowings from the public under other provisions of law.

⁴ Includes adjustment of \$433.6 million made in fiscal 1978 which revised the fiscal 1977 unused borrowing authority.

¹ Reflects current citations. For detail analysis of prior authorizations, see table 7 of fiscal year 1973 Combined Statement of Receipts, Expenditures and Balances of the United States Government.

² Excludes refundings handled as public debt transactions amounting to \$315,498,572,790 through Sept. 30, 1980, and exchange of notes.

³ Represents obligations transferred from the Agency for International Development to the International Communication Agency in accordance with section II of an act approved July 18, 1956 (70 Stat. 563).

⁴ Transferred from the Reconstruction Finance Corporation to the Secretary of the Treasury pursuant to an act approved July 30, 1953 (67 Stat. 230), and Executive Order No. 10489 of Sept. 26, 1953.

⁵ Appropriations made by the Congress for restoration of capital impairment to the Commodity Credit Corporation amounting to \$57,938,678,967 through Sept. 30, 1980, have been used principally for repayments of advances made by the Department of the Treasury.

⁶ In accordance with an act approved Aug. 30, 1972 (86 Stat. 661), the direct loan account was abolished and its assets, liabilities, and authorizations were transferred to the agricultural credit insurance fund.

⁷ Includes advances on Rural Electrification Administration notes of \$510,848,904 and advances on Farmers Home Administration notes of \$40,367,816 made by the Reconstruction Finance Corporation. Pursuant to an act approved July 30, 1947 (61 Stat. 545, 547), these securities were transferred to the Department of the Treasury and Reconstruction Finance Corporation notes canceled in like amount.

⁸ Securities of \$597,959,607 were transferred from the direct loan account to the agricultural credit insurance fund, and securities of \$451,906,000 were transferred from the agricultural credit insurance fund to the rural development insurance fund in accordance with an act approved Aug. 30, 1972 (86 Stat. 661).

⁹ In accordance with an act approved May 11, 1973 (87 Stat. 65-71), most outlays of the Rural Electrification Administration, including the Rural Telephone Bank, were classified outside the unified budget totals.

¹⁰ Transferred from public facility loans by an act approved Aug. 22, 1974 (88 Stat. 653).

¹¹ Includes exchanges on notes for preferred capital stock amounting to \$92,000,000.

¹² Transferred from the Reconstruction Finance Corporation pursuant to Reorganization Plan No. 2 of 1954, effective at the close of business June 30, 1954.

¹³ The \$1,000,000 repayment and subsequent borrowing was the result of an incorrect repayment by the Interior Department on Aug. 31, 1976. Pursuant to 74 Stat. 921, the repayment should have been charged against the capital investment and retained earnings, and not borrowings from the Secretary of the Treasury.

¹⁴ Transferred from the Reconstruction Finance Corporation by an act approved July 30, 1953 (67 Stat. 230).

¹⁵ Consists of \$147,318,333 transferred to Export-Import Bank of the United States, Government National Mortgage Association, and Small Business Administration (see footnote 12); and \$1,813,971 transferred to the Secretary of the Treasury (see footnote 14).

¹⁶ Pursuant to an act approved Aug. 17, 1971 (85 Stat. 345-346), the receipts, expenditures, and net lending of this corporation were classified outside the unified budget totals, effective as of the close of business Aug. 16, 1971.

¹⁷ Pursuant to an act approved Dec. 29, 1973 (12 U.S.C. 2288(b)), the receipts, expenditures, and net lending of the bank were classified outside the unified budget totals.

¹⁸ Additional subscriptions to the International Monetary Fund in the amount of \$1,800,000,000 were paid from the Exchange Stabilization Fund.

¹⁹ Includes \$1,162,368,484 deposited in miscellaneous receipts of the Department of the Treasury.

²⁰ Cash recoveries against assets acquired from these cancellations have been made amounting to \$2,783,248,431. In addition, the Department of the Treasury holds assets which have not been converted into cash.

¹Securities may be redeemed at any time.

²An act approved Nov. 2, 1965 (15 U.S.C. 713a-11a) provided that after June 30, 1964, the portion of borrowings from the Treasury equal to the unreimbursed realized losses recorded on the books of the Corporation after June 30 of the fiscal year in which such losses are realized, shall not bear interest and interest shall not be accrued or paid thereon.

³In accordance with Reorganization Plan No. 2 of 1977, functions of the U.S. Information Agency and the State Department's Bureau of Educational and Cultural Affairs were consolidated to form this agency, effective Apr. 1, 1978.

⁴Accrued interest payable on the notes issued to the Secretary of the Treasury has been canceled as provided by an act approved May 11, 1973 (87 Stat. 67). Payments of principal when due on these notes will be made without payment of interest.

⁵In accordance with an act approved Oct. 21, 1970 (33 U.S.C. 985 (b)), the securities issued by this Corporation to the Treasury shall bear no interest, and the unpaid interest that has accrued is terminated.

⁶In accordance with an act approved Oct. 17, 1979 (20 U.S.C. 3446), all functions of the Secretary of Housing and Urban Development relating to college housing loans were transferred to the Secretary of Education.

⁷These securities were issued to the Treasury in exchange for advances by the Treasury from public debt receipts under congressional authorization for specified Government corporations and business-type activities to borrow from the Treasury.

[In millions of dollars. On basis of reports received from activities]

See footnotes on following page.

* Less than \$500,000.

¹ Consists of business- and non-business-type activities.

² Consists mainly of unexpended balances of general, special, and revolving fund accounts against which checks may be drawn to pay proper charges under these funds. The funds are considered assets of the agencies, but not of the U.S. Government since funds must be provided out of cash balances of the Treasury of the United States and future receipts to take care of checks to be issued against the balances. Undeposited collections and unconfirmed deposits are included in these balances.

³ Includes foreign currency assets, representing loans and other receivables recoverable in foreign currencies in U.S. depositories, aggregating \$2,896 million in dollar equivalent. These currencies, acquired without dollar payments, were generated under various Government programs, principally the Agricultural Trade Development and Assistance Act of 1954, as amended, and the Mutual Security Acts, as amended. Dollar equivalents are computed for reporting purposes to provide a common denominator for the currencies of the many countries involved. Foreign currencies on hand and on deposit and loans under section 104(e) of the Agricultural Trade Development and Assistance Act of 1954, as amended, are stated at the rates as of Sept. 30, 1980, at which the United States could purchase currencies on the market for regular operating purposes. Other loans are stated at the rates at which they are to be repaid or at rates in effect when the loans were extended. Currencies that are dollar denominated or guaranteed as to rate of exchange are stated at rates specified in the agreements.

⁴ Includes collections of principal turned over to the Government National Mortgage Association participation sales fund and held for redemption of participation certificates.

NOTE.—Business- and non-business-type activities report pursuant to Department Circular No. 966, Revised, dated Dec. 20, 1972, and volume I, part 2, chapter 4100 of the Treasury Fiscal Requirements Manual (Transmittal Letter No. 287). Statements of financial condition are published semiannually in the monthly Treasury Bulletin for business-type activities, and annually for all other funds.

¹ Includes trust funds.

² The dollar equivalents of these loans are computed for reporting purposes at varying rates. If the loan agreements stipulate a dollar denominated figure, the loans outstanding are generally valued at the agreement rates of exchange. Loans executed in units of foreign currency are valued at the market rates (i.e., the rates of exchange at which the Treasury sells such currencies to Government agencies).

³ Participation certificates have been issued against certain of these loans under trust agreements by the Government National Mortgage Association, participation sales fund.

⁴ Includes receivables of \$12 million from Greece, \$122 million from Turkey, and \$2,331 million from the United Kingdom.

⁵ Excludes World War I funded and unfunded indebtedness of foreign governments, and certain other credits shown in table 101.

⁶ Excludes loans of the Federal Financing Bank; the Rural Electrification Administration (including the Rural Telephone Bank); and the United States Railway Association amounting to \$61,555 million, \$10,416 million, and \$384 million, respectively. These activities are classified outside the unified budget pursuant to various acts of Congress. Excludes Defense Department, Army, construction of power systems, Ryukyu Islands loans of \$6 million. Statements showing these loans were not received by the Department of the Treasury.

⁷ Does not include foreign currency loans.

NOTE.—This table excludes interagency loans. A table on Federal credit programs, which includes data on direct and guaranteed loans, maximum amounts authorized, and interest and maturity ranges, is published quarterly in the Treasury Bulletin.

¹ This Association was created effective Sept. 30, 1968, by an act approved Aug. 1, 1968 (12 U.S.C. 1716b). It retained the assets and liabilities of the previously existing corporation accounted for under 12 U.S.C. 1720 and 1721 and will continue to operate the functions authorized by these two sections. Excludes sales and purchases of the

secondary market operations of the Federal National Mortgage Association which was converted to private ownership effective Sept. 30, 1968, by an act approved Aug. 1, 1968 (12 U.S.C. 1716b).
