Early in the year conditions in the United States and abroad evidenced the probability of contraction of business in general and tightness of the money market, but the extraordinary conditions developing in October were not foreshown to an appreciable extent in the banks' reports as a whole up to August 22. It will be noted from the foregoing summary that there was a steady increase in the volume of loans and discounts from \$4,366,045,295 on November 12, 1906, to \$4,678,583,968 on August 22, 1907, the total increase being \$312,538,673. This increase was due in part to the fact that 516 banks, with authorized capital of \$34,967,000, were chartered during the year, but mainly to the increase in business of the older associations. Since the date of the corresponding report in 1906 (September 4) the banks increased their investments in United States bonds on August 22, 1907, to \$660,297,440, a net increase of \$31,500,730. Lawful money held by the banks on August 22, aggregating \$701,623,532, consisting

of \$531,107,750 in specie and \$170,515,782 in legal tenders, exceeded the amount held in September, 1906, by \$75,611,121. In addition to lawful money, the banks held on August 22 \$33,554,657 in notes of other banks, fractional currency, etc. The only notable diminution in assets was in exchanges for clearing house, the net decrease being \$204,738,324. Between November 12, 1906, and January 26, 1907, there was a reduction in exchanges of \$248,422,717, a fall from \$376,672,336 to \$128,249,619. In the period between the January and March calls there was an increase of \$134,617,117 and from March to May of \$10,234,333. On August 22 the amount had fallen \$82,498,906, or to \$190,602,163.

Considering the liability side of the banks' accounts, there is shown to have been an increase of from \$10,000,000 to \$13,000,000 in capital stock between each call, the net increase for the year being \$61,384,518. While there was but a nominal increase in net undivided profits, approximately \$6,000,000, the increase in surplus funds was \$58,058,478, this account on August 22 standing at \$548,303,602, as against \$490,245,124 in September, 1906. The act of June 22, 1906, amending section 5200 of the Revised Statutes, to permit of a loan to a single interest to the extent of 10 per cent of capital and surplus, the aggregate not to exceed 30 per cent of capital stock, unquestionably resulted in extraordinary additions to the surplus fund, as on June 18, 1906, with capital \$826,129,785, the surplus amounted to but \$448,858,491, approximately 54 per cent of capital, while on August 22, 1907, the surplus exceeded 60 per cent of the capital stock.

Individual deposits, representing over 50 per cent of the banks' liabilities, reached the maximum in the history of the system on May 20, 1907, when they amounted to \$4,322,880,141. The amount to the credit of depositors on August 22 was \$4,319,035,402, a decrease of \$3,844,739. The gross increase in deposits during the year was \$297,065,436; the gross decrease, \$177,968,344, leaving the net increase \$119,097,092.

Government deposits in the banks were at their lowest on November 12, 1906, standing at \$129,193,379. This account increased to \$145,891,090 on January 26; declined to \$140,801,794 on March 22; increased to \$170,062,674 on May 20, and declined to \$143,282,393 on August 22.

With the exception of the returns on March 22, when a decrease of \$2,161,495 was shown in the amount of circulation outstanding, as compared with the January call, there was a steady increase in circulating notes during the year, the net increase on August 22, 1907, over September 4, 1906, being \$33,984,950.

The liabilities of banks on account of rediscounts and bills payable fluctuated from a minimum of \$27,230,818 on January 26 to a maximum of \$59,176,079 on August 22, the net increase on the latter date over September 4, 1906, being \$10,333,367.

CLASSIFICATION OF LOANS.

Reports of condition of national banks show, in detail, the amount and character of the paper held, classified as follows:

Demand paper with one or more individual or firm names; demand paper collateralized by stocks, bonds, and other securities; time paper with two or more individual or firm names; time paper, single name, and time paper secured by stocks, bonds, etc.

Of the total amount of loans and discounts of national banks on August 22, 1907, aggregating \$4,678,583,969, the 60 banks located in the central reserve cities, New York, Chicago, and St. Louis, held \$1,061,212,415; the 306 banks in other 40 reserve cities held investments of this character to the amount of \$1,242,440,028, the total for both classes of reserve cities being \$2,303,652,443, divided as follows: Demand single-name paper, \$187,656,946; demand paper secured by stocks, bonds, etc., \$598,917,625; time paper with two or more individual or firm names, \$631,742,158; time paper single name, \$466,335,350, and time paper secured by stocks, bonds, etc., \$418,999,364. Of the aggregate amount of loans granted by the 6,178 country banks, namely, \$2,374,931,526, the demand single-name paper amounted to \$240,563,589; demand paper with collateral, \$233,960,854; time paper with two or more individual or firm names, \$1,017,009,280; time paper single name, \$433,159,308, and time paper with collateral, \$450,238,495.

For the purpose of comparison, there is submitted herewith a statement of the amount and percentage of each class of loans made by the banks on or about October 1, 1897, 1906, and 1907.

Class.	1897.		1906.		1907.	
	Amount.	Per cent.	Amount.	Per cent.	Amount.	Per cent.
On demand, paper with one or more individual or firm names.....	\$103,837,578	5.1	\$374,689,245	8.7	\$428,221,555	9.2

Total.....	2,051,009,438	4,298,983,316	4,678,583,969

The following table will be of interest as showing the amount and per cent of loans of national banks in New York in the three central reserve cities and other reserve cities, in banks in all reserve cities combined, and in banks outside of reserve cities, to the total loans of all national banks, on August 22, 1907, September 4, 1906, and August 25, 1905. The relative proportion of loans in all reserve city banks, which was 53.8 per cent in 1905 and 50.7 per cent in 1906, was 49.2 per cent in 1907. The country banks held 46.2 per cent in 1905, 49.3 per cent in 1906, and 50.8 per cent in 1907.

RATES FOR MONEY.

In connection with the foregoing comments and data relating to loans of national banks the range and average monthly rates for money in the New York market during the year ended October 31, 1907, as reported by the New York Commercial and Financial Chronicle, are of interest. Excluding the rate on thirty and sixty day time loans, from November to March, ordinary rates prevailed during the year, except for call loans on stock exchange. The high point for stock exchange loans in November was 27; in December, 36; in January, 45; March, 25; June, 12; July, 16; September, 10, and October, 125.

The bank and trust company rate ranged from 1½ to 6 per cent, the maximum being reported in November and December, 1906, and March and October, 1907.

The range and average rates during the year are shown in the accompanying table:

Character of loans.	1906.		1907.

a Minimum.

RESERVE.

The deposits on which reserve was required on November 12, 1906, aggregated \$4,969,961,039, the reserve held being \$1,033,578,142, or 20.8 per cent. The central reserve city banks held an average of 25.31

per cent; other reserve city banks an average of 24.32 per cent, and the country banks an average of 16.77 per cent. Including credits with reserve agents, in excess of the amount available as lawful reserve, the reserve city banks' average is increased from 24.32 to 26.72 per cent; that of the country banks from 16.77 to 24.86 per cent, and that of the banks of the country at large from 20.80 to 25.48 per cent. On August 22, 1907, the deposits on which reserve was required amounted to \$5,256,085,087.14; the reserve, \$1,121,358,395, the average being 21.33 per cent. The average reserve held by the central reserve city banks was 26.18 per cent; other reserve city banks, 25.46 per cent, and of country banks, 16.88 per cent; but with the inclusion of excessive credits with the lawful reserve the average in the reserve cities is increased to 27.48 per cent; in the country banks to 24.24 per cent, and of all banks in the country to 25.56 per cent. On January 26 this average for all banks reached 26.87 per cent, the highest for the year.

It is generally known that the entire reserve required to be held by central reserve city banks must be in their vaults and that one-half of the 25 per cent reserve required for other reserve city banks may consist of money deposited to their credit with associations in the central reserve cities. The so-called country banks—that is, those located elsewhere than in reserve cities—are required to maintain a reserve of 15 per cent, two-fifths of which must be in bank and the balance may be on deposit with approved correspondents. On August 22 the national banks in New York, Chicago, and St. Louis held \$315,549,993, against liabilities of \$1,205,487,206; banks in other reserve cities, with liabilities of \$1,423,433,236, held \$362,346,068, of which \$165,736,796 was with their central reserve correspondents, \$6,305,035 in the redemption fund, and \$190,304,236 in specie and legal tenders in bank, the proportion of the latter being somewhat in excess of the legal requirement. On liabilities aggregating \$2,627,164,654 the reserve required by country banks was \$394,074,098, 40 per cent of which was required to be held in lawful money in bank. As a matter of fact the country banks held 50 per cent of their reserve in specie and legal tender.

RELATION OF CAPITAL TO INDIVIDUAL DEPOSITS, ETC.

The changes which have occurred in the relative proportion of capital to deposits, loans, and aggregate resources; capital and surplus to deposits, and specie and legal tenders to deposits, are of interest as shown in the comparative statement of the returns nearest to September, 1897, 1906, and 1907.

RATIOS OF CAPITAL, ETC., TO INDIVIDUAL DEPOSITS, ETC., OF NATIONAL BANKS IN SEPTEMBER, 1897, 1906, AND 1907.

Items.	1897.	1906.	1907.
Capital to individual deposits.....	\$1.00 to \$2.93	\$1.00 to \$5.03	\$1.00 to \$4.82
Capital to loans.....	1.00 to 3.25	1.00 to 5.15	1.00 to 5.22
Capital to aggregate resources.....	1.00 to 5.87	1.00 to 9.00	1.00 to 9.36
Capital and surplus and other profits to individual deposits.....	1.00 to 1.92	1.00 to 2.79	1.00 to 2.65
Specie and legal tenders to individual deposits.....	1.00 to 5.35	1.00 to 6.71	1.00 to 6.16

Loans and discounts, United States bonds, and lawful money represent approximately 70 per cent of the aggregate resources of national banks and a like proportion of liabilities is represented by capital, surplus and profits, and individual deposits. The relative proportion of each of these items has changed but slightly during the past seven years, as will be observed by reference to the accompanying table.

Items.	1900.	1901.	1902.	1903.	1904.	1905.	1906.	1907.

CAPITAL, BONDS, AND CIRCULATION.

In the year closed October 31, 1907, there was a gross addition to the capital stock of national banks of \$76,148,000, of which \$34,967,000 was that of associations organized during the year, \$41,031,000 of old associations increasing their capital, and \$150,000 the capital of national banks theretofore placed in the charge of receivers, but permitted to resume business. The losses were as follows: By liquidation, \$11,325,000; by expiration of charters, \$420,000; by failures, \$925,000; by reduction of authorized capital, \$410,000, making the total decrease \$13,080,000, the apparent net increase being \$63,068,000. As a matter of fact the exact increase was \$63,335,000, the difference, \$267,000, being represented by the capital of banks closed, but still carried on the books of the office by reason of the fact that lawful money has not been deposited for the retirement of circulation and withdrawal of bonds on deposit as security therefor.

On March 14, 1900, the average capital of the 3,617 associations then in existence was \$170,000, and as a result of the organization of 2,389 banks since that date, with average capital of approximately \$26,000, the average capital of the 6,650 associations in existence on October 31, 1907, was \$136,733.

CLASSIFICATION OF BANKS BY CAPITAL.

By reference to the following table it will be noted that approximately 50 per cent of the banks are with capital ranging from \$50,000 to \$100,000, inclusive, the aggregate amount being 25.95 per cent of the capital of all associations. Thirty-one per cent represents the proportion of banks with capital of less than \$50,000, the proportion of capital of these banks being but 6.7 per cent. Banks with capital of \$250,000 to \$1,000,000, numbering 472, represent 27.93 per cent of the aggregate capital, and nearly 25 per cent of the capital is that of 70 associations with individual capital ranging from \$1,000,000 to \$25,000,000. The table in question follows:

Capital, classified.	Number of banks.	Percent.	Capital.	Percent.
Less than \$50,000.....	2,063	31.02	\$54,322,000	6.07
\$50,000 to \$100,000, inclusive.....	3,304	49.69	232,250,920	25.95
Over \$100,000 to \$250,000, inclusive.....	741	11.14	135,379,585	15.13
Over \$250,000 to \$1,000,000, inclusive.....	472	7.10	250,026,920	27.93
Over \$1,000,000 to \$5,000,000, inclusive.....	64	.96	139,050,700	15.54
Over \$5,000,000.....	6	.09	84,000,000	9.38
Total.....	6,650	100.00	895,000,125	100.00

At the close of the current report year the authorized capital stock of all national banks was \$909,274,775; circulation outstanding \$562,727,614, secured by bonds deposited to the amount of \$566,994,910. The aggregate circulation outstanding was \$609,980,466, which includes \$47,252,852, covered by lawful money deposited with the Treasurer of the United States on account of liquidating and insolvent banks and those reducing their circulation.

The interest-bearing bonded debt of the United States on October 31 was \$858,685,510, the amount and rate of interest of each class of bonds deposited to secure circulation, Government deposits, and the amounts not thus deposited being shown in the accompanying table.

Class.	Bonds outstanding October 31, 1907.	Deposited to secure circulation.	Deposited to secure United States' deposits.	Bonds outstanding in excess of amounts deposited to secure circulation and United States' deposits.
Consols of 1930, 2's.....	\$646,250,150	\$532,543,559	\$65,996,550	\$47,710,650
Loan 1908-1918, 3's.....	63,945,460	6,473,080	8,641,700	48,850,680
Loan of 1925, 4's.....	118,489,900	10,732,800	6,025,750	101,131,250
Panama Canal, 2's.....	30,000,000	17,245,380	12,427,800	326,820
Total.....	858,685,510	566,994,910	93,691,800	197,998,800

MONTHLY STATEMENT OF CAPITAL, BONDS, AND CIRCULATION.

Changes in authorized capital stock, bonds on deposit as security for circulation, circulation secured by bonds and by lawful money, together with the average monthly price of 2 per cent consols of 1930, from November, 1906, to October 31, 1907, are set forth in the following table:

Date.	Number of banks.	Capital.	Bonds on deposit.	Average monthly price of bonds.	Circulation secured by—		Total circulation outstanding.
					Bonds.	Lawful money.

Changes in the amount and classes of bonds on deposit as security for circulation, on March 13, 1900, and October 31, 1903-1907, inclusive, are shown in the following table:

Class.	Mar. 13, 1900.	Oct. 31, 1903.	Oct. 31, 1904.	Oct. 31, 1905.	Oct. 31, 1906.	Oct. 31, 1907.
Loan 1908, 3's.....	\$56,164,820	\$1,797,580	\$1,922,940	\$2,215,540	\$3,273,700	\$6,473,080
Loan 1907, 4's.....	130,302,250	2,797,200	5,857,500	4,050,350	25,124,650
Loan 1925, 4's.....	14,697,850	1,410,100	1,791,600	4,465,000	4,602,100	10,732,900
Loan 1904, 5's.....	21,996,350	718,650
Loan 1891, 2's.....	20,490,150
Consols 1930, 2's.....	376,003,300	416,972,750	483,181,900	492,170,650	532,543,550
Panama Canal.....	14,482,080	17,245,380
Total.....	243,651,420	382,726,830	426,544,790	493,912,790	539,653,180	566,994,910

As will be seen from the subjoined table there was an increase in national-bank circulation between 1900-1907 of \$355,900,000, over 140 per cent. The act of March 14, 1900, limited the amount of \$5 notes that might be issued to one-third of the total amount issuable by each association. Immediately prior to this date notes of the denomination of \$5 represented 31.2 per cent of the total circulation outstanding, but on October 31, 1907, the proportion had been reduced to 19.7 per cent. The amount of \$10 notes was increased from \$79,378,160 to \$249,946,530, and the \$20 notes from \$58,770,660 to \$183,416,620.

CIRCULATION BY DENOMINATIONS.

The amount of each denomination of notes outstanding March 13, 1900, October 31, 1906, 1907 and the total outstanding on each of the dates mentioned, together with the total amounts outstanding, secured by bonds and by lawful money, are set forth in the accompanying table.

Denominations. ^a	Mar. 13, 1900.	Oct. 31, 1906.	Oct. 31, 1907.
Ones.....	\$348,275	\$344,254.00	\$344,248.00

Circulation outstanding, based on bonds deposited with the Treasurer of the United States in trust, represented 35 per cent of the maximum issuable on the amount of capital stock on March 14, 1900, but on October 31, 1907, approximately 62 per cent of the maximum issuable was outstanding.

The relative proportion of circulation issued by reserve city and country banks has varied but slightly during the past year, as appears from the accompanying table, based upon the periodical reports made by national banks.

Date.	New York.	New York, Chicago, and St. Louis.	Other reserve cities.	All reserve cities.	Country.	Total.
November 12, 1906.....	Millions. 52.0	Millions. 76.8	Millions. 121.2	Millions. 198.0	Millions. 338.1	Millions. 536.1

August 22.....	50.7	75.4	125.9	201.3	350.6	551.9

REDEMPTION OF CIRCULATION.

Receipts of national-bank notes for redemption at the Treasury redemption agency during the year ended October 31, 1907, amounted to \$257,154,923, of which \$209,424,957 were delivered to the Comptroller for destruction, and \$39,903,555 being in good condition, were returned to the banks of issue. The destructions represent 81.44 per cent of the receipts and the returns to the banks 15.51 per cent. The receipts at the agency varied from a minimum of \$15,483,851 in November, 1906, to a maximum of \$31,730,178 in January last, the average monthly receipts being \$21,429,577. Nearly 80 per cent of the aggregate receipts came from the central reserve cities, New York, Chicago, and St. Louis, and the reserve cities of Boston and Philadelphia. The receipts from the city of New York were in excess of 42 per cent of the total. The amount and per cent of receipts

from the cities named, and elsewhere, are stated in the accompanying table.

From—	Amount.	Percent.
New York.....	\$108,151,245	42.06
Chicago.....	29,776,511	11.58
Boston.....	19,396,716	7.55

RELATION OF NATIONAL-BANK CURRENCY TO MONEY IN THE UNITED STATES.

The outstanding circulation of national banks reached the lowest point in the life of the system, from 1865 to date, in 1891, amounting at that time to approximately \$167,000,000, and representing but 10 per cent of the stock of money in the United States. There was a variation of but 1 or 2 per cent from that date until 1900, when the proportion increased to 13.23 per cent. On June 30, 1907, national-bank notes represented 19.38 per cent of the stock of money in the country.

PROFIT ON CIRCULATION.

Approximately 97 per cent of the bonds on deposit as security for circulation on October 31, 1907, were 2 per cent consols of 1930, and 2 per cent Panama Canal bonds. Notes secured by these two classes of bonds are subject to a semiannual tax of but one-fourth of 1 per cent; hence the profit on the issue of notes so secured is materially greater than on notes otherwise covered. The average price of 2 per cent consols in October was 105.368, making the cost of \$100,000 worth of bonds \$105,368. Interest on the circulation at 6 per cent, and the interest on the bonds, show gross receipts of \$8,000. Deductions therefrom of the tax, redemption expenses, and sinking fund, aggregating \$677.14, give net receipts of \$7,322.86. Interest on the cost of bonds at 6 per cent amounts to \$6,322.08, the difference between which and the net receipts represents the measure of profit in excess of 6 per cent on the investment in bonds, namely \$1,000.78, or 0.95 per cent.

EARNINGS AND DIVIDENDS.

Up to September 1, 1906, reports of earnings and dividends of national banks were abstracted as of semiannual periods ending March 1 and September 1. In view of the fact that a great majority of the banks have fixed their dividend periods to end on June 30 and December 31, the current report contains abstracts for the four months ended December 31, 1906, and the six months ended June 30, 1907.

The average capital of the 6,043 banks, whose reports are included in the abstracts mentioned, was \$842,685,939, on which dividends were paid to the amount of \$99,728,239, an average of 11.8 per cent. The gross earnings are shown to have been \$314,701,592, against which were charged losses and premiums of \$30,922,182 and expenses of \$131,543,975, leaving the net amount of earnings \$152,235,433.

Supplementary to the semiannual abstracts, there appears in the appendix of this report a table relating to the capital and surplus, dividends, and net earnings of national banks, annually, for the years ended March 1, 1870, to March 1, 1906, to which has been added similar information covering the period from March 1, 1906, to June 30, 1907. In this period of sixteen months, on an average capital of \$837,002,528, dividends were paid to the amount of \$144,376,245, an average rate of 17.2 per cent. The average annual rate of dividends declared by national banks since March 1, 1869, is shown to have been 8.76 per cent, and the aggregate amount of dividends declared has reached a total of \$1,925,088,959 on average annual capital of \$578,251,374, the proportion of aggregate dividends to average capital being 333 per cent.

EXPENSES OF NATIONAL BANKS.

In so far as the Department is concerned, the expenses of national banks are represented by the tax on circulation, cost of redemption of notes, assessments for plates, and examiners' fees. In the year ended June 30, 1907, these items aggregated \$3,554,128.71, of which \$2,806,070.54 represented the tax on circulation; \$233,650.52, cost of redemption; \$89,250, cost of plates for new associations and those extending their charters, and \$425,157.65 assessments for examiners' fees. The Treasury redemption agency states the cost of redemption per \$1,000 at 98.615 cents.

Expenses of banks for the items mentioned, and for the periods indicated, are shown in the accompanying statement:

Tax on capital to June 1, 1883.....	\$7, 855, 887. 74
Tax on capital, under war-revenue act of 1898.....	7, 048, 413. 00
Tax on deposits to June 1, 1883.....	60, 940, 067. 16
Tax on circulation to June 30, 1907.....	101, 536, 976. 32
Total	177, 381, 344. 22
Cost of redemption of notes, 1874-1907.....	5, 695, 609. 33
Assessment for cost of plates for new banks, 1883-1907.....	658, 185. 00
Assessment for cost of plates for extended banks, 1874-1907...	412, 595. 00
Assessment for examiners' fees.....	5, 519, 430. 17
Aggregate taxes and other expenses.....	189, 667, 163. 72
Expenses of the Currency Bureau, including amount appropriated, and all other estimated.....	22, 572, 100. 00
Excess of receipts by the Government from the banks over expenses of the Bureau.....	167, 095, 063. 72

CHANGES IN TITLES OF NATIONAL BANKS.

During the year ended October 31, 1907, there were 13 changes of corporate titles of national banking associations, the banks concerned, the new and old titles, with date of approval of the changes, being shown in the following table:

No.	Title and location.	Date.
3598	"The First National Bank of West Newton," Newton, Mass., to "The First National Bank of West Newton, Newton," Mass.	1906. Dec. 3
8018	"The Stratford National Bank," Stratford, Tex., to "The First National Bank of Stratford," Tex.	Dec. 8
4044	"The Exchange National Bank of Spokane Falls," Spokane, Wash., to "The Exchange National Bank of Spokane," Wash.	1907. Jan. 16
4424	"The National Bank of Waupaca," Wis., to "Old National Bank of Waupaca," Wis.	Jan. 17
345	"The New York National Exchange Bank," New York, N. Y., to "Irving National Exchange Bank of New York," N. Y.	Feb. 20
2522	"The Citizens National Bank of Hornellsville," N. Y., to "The Citizens National Bank of Hornell," N. Y.	Mar. 21
7027	"The First National Bank of Greenwood," S. C., to "National Loan and Exchange Bank of Greenwood," S. C.	May 6
7503	"The Hagerman National Bank," Hagerman, N. Mex., to "The First National Bank of Hagerman," N. Mex.	May 9
3755	"The Citizens National Bank of Attica," Ind., to "The Central National Bank of Attica," Ind.	June 7
6886	"The Citizens National Bank of Lebanon," Va., to "The First National Bank of Lebanon," Va.	July 1
3767	"The Thomasville National Bank," Thomasville, Ga., to "The First National Bank of Thomasville," Ga.	July 20
8662	"The First National Bank of Engle," N. Mex., to "The First National Bank of Cutter," N. Mex.	Sept. 7
8617	"The First National Bank of Sunnyside," N. Mex., to "The First National Bank of Fort Sumner," N. Mex.	Oct. 8

EXTENSIONS OF CORPORATE EXISTENCE OF NATIONAL BANKS.

In the year just closed the corporate existence of 132 associations was extended under the act of July 12, 1882, and 4 reextended under the act of April 12, 1902. The total number of first extensions, from July, 1882, to 1907, was 2,582, and the total number of reextensions 961. During the year terminating October 31, 1908, the period of existence of 86 banks will expire for the first time and that of 7 for the second time. Lists of both classes of banks, with dates of expiration of charters, will be found in the appendix of this report.

LIQUIDATIONS.

Charters of 4 associations expired by limitation, and 80 associations were placed in voluntary liquidation, as provided by section 5220 of the Revised Statutes, during the past year. The aggregate capital of associations so closed was \$11,745,000. The business of 27 banks, with aggregate capital of \$6,390,000, was absorbed by other associations; 5 banks, including 4 the charters of which expired, were liquidated for the purpose of reorganizing; 38 were closed to reorganize as State banking institutions, and the remainder (14) closed to discontinue business.

The liquidating national banks, with date of authority to begin business, date of closing, capital stock, circulation issued, redeemed, and outstanding, are herewith listed.

NATIONAL BANKS PLACED IN LIQUIDATION.

Name and location of bank.	Date of closing.	Date of authority to commence business.	Capital stock.	Circulation.		
				Issued.	Re-deemed.	Out-standing.

While the redemption at par of national bank circulation is assured by the banks, or, in the event of their failure, by the Government, from the proceeds of bonds held as security, every note issued during the existence of the system having been redeemed upon presentation, general creditors' reliance is based primarily on assets and secondarily on shareholders' liability, in case of insolvency. Upon the appointment of a receiver he is directed to convert the liquid assets into cash and take prompt action looking to the ultimate collection of remaining assets in order that, as speedily as practicable, dividends may be paid. As a rule the first and most substantial dividend is made within a brief period after the appointment of a receiver.

The average life of an active receivership is approximately four years, and the expense of administering a trust, salary, legal, and other incidental expenses, based upon the assets (nominal value) of banks, the affairs of which are closed, has been 4.30 per cent.

From the date of the first failure in 1865 to October 31, 1907, the affairs of 453 insolvent national banks have been administered through

the instrumentality of receiverships. Receivers have been appointed, however, for 475 banks, but of that number 22 were restored to solvency and authorized to resume business. The number of failures is only 5 per cent of the total number of banks chartered.

The aggregate capital of all insolvent national banks at date of failure amounted to \$76,192,420, against which assessments were levied to the amount of \$42,141,240, to provide for the estimated deficiency in the value of the assets. The liabilities in excess of circulating notes were represented by assets of the nominal value of \$299,547,480, claims proved to October 31, 1907, being \$161,307,663. The disposition of assets was as follows:

Collections	\$146,509,297
Offsets allowed and settled.....	22,602,597
Loss on assets compounded or sold under order of court.....	105,557,453
Nominal value of assets returned to stockholders.....	9,526,564
Nominal value of the remaining assets.....	15,351,569
Total.....	299,547,480

The assessment upon shareholders produced \$20,575,420, giving the total amount realized from assets and shareholders \$167,084,717. The collections have been disposed of as follows:

Dividends paid	\$117,140,338
Loans paid and other disbursements.....	32,769,622
Receivers' salaries and other expenses.....	7,924,828
Legal expenses	4,535,777
Returned to shareholders in cash.....	2,826,222
Balance with Comptroller or receivers.....	1,887,930
Total	167,084,717

Up to and including October 31, 1907, the affairs of 387 insolvent national banks had been settled and the receivers discharged. The capital of these banks was \$59,622,420. United States bonds to the amount of \$20,866,400 held by the Treasurer of the United States in trust to secure circulation to the amount of \$18,680,295 were sold, the proceeds of which were \$22,504,521.67, leaving a balance which was transferred to the general assets of the trusts of \$3,824,226.67. The assessment of \$36,246,390 on stockholders produced \$17,616,404, which amount added to the collections from assets of \$115,955,385 gave \$133,571,789 as available funds, from which dividends were paid to the amount of \$95,815,643, or 74.37 per cent, the claims proved aggregating \$128,847,308. Taking into consideration offsets allowed and settled, and loans paid, etc., aggregating \$43,433,718, creditors received an average of 80.83 per cent.

In appendix Table No. 79 are shown the amount of claims proved, amount and per cent of loss to creditors of insolvent national banks which failed in each year from 1865 to 1893, inclusive; claims proved and estimated loss from 1894 to 1907, together with the amount of individual deposits in active national banks at date of the October call in each year. A summary of this data gives the following results:

Annual average deposits, active national banks.....	\$1,529,339,311
Aggregate claims proved, insolvent national banks.....	161,307,663
Loss to creditors, actual and estimated.....	47,911,583
Annual average loss.....	1,114,223
Annual average claims proved.....	3,751,341
Annual average loss, per cent.....	29.70
Annual average loss, based on annual average deposits of active banks, per cent	0.073

Aggregate liabilities of insolvent national banks, excluding circulating notes—that is, claims proved, offsets allowed and settled, loans paid and other disbursements—amount to \$216,679,882, making the annual average liabilities \$5,039,067, giving the annual average loss 22.11 per cent, but the same resultant ratio of loss to annual average deposits of active national banks as on the basis of claims proved, namely, 0.073 per cent.

The losses sustained by creditors of insolvent national banks that failed in each year from 1865 to 1907, the affairs of which have been settled, together with the percentage of losses to individual deposits (October call) of national banks in active operation, are shown in the table following:

Year.	Number of national banks in operation.	Individual deposits.	Amount of loss to creditors insolvent national banks, affairs of which have been finally closed.	Ratio to deposits of active national banks.

ORGANIZATION OF NATIONAL BANKS.

National banking associations to the number of 8,937 have been chartered, of which 6,650 are in existence, and are located in 4,560 cities, towns, and villages; 2,287 have been closed, of which 1,663 were placed in voluntary liquidation, 171 terminated by expiration of charter, and 453 by failure. While there were 475 receiverships, the number of failures was 453, as stated, as 22 associations placed in the charge of receivers were restored to solvency.

The law provides for the conversion of State banks into national banking associations resulting in the continuation of the identical corporation but with changed title and governmental supervision. State banks to the number of 1,345 with capital at date of conversion of \$308,427,928, entered the national banking system up to and including October 31, 1907.

As a result of legislation of March 14, 1900, authorizing the incorporation of national banks with minimum capital of \$25,000, the issue of circulation to the par of bonds deposited, and the reduction of tax on circulation when secured by 2 per cent consols, charters were granted to 2,389 banks with individual capital of less than \$50,000, the aggregate capital being \$62,312,500. During the same period 1,284 associations were organized under the act of 1864, with capital of \$50,000 or over, and with aggregate capital of \$153,117,800. The total number of banks chartered since 1900, under both acts, was 3,673, with authorized capital of \$215,430,300. The number chartered in this period exceeds by 56 the number of banks in existence prior to March 14, 1900. These additions have been classed as conversions, reorganizations, and primary organizations, and of the first class there were 426; of the second, 1,183; and of the third, 2,064.

During the past year 516 banks with aggregate capital of \$24,967,000 were chartered, of which 327 with aggregate capital of \$8,557,000 were organized under the act of March 14, 1900, and 189 with capital of \$26,410,000 under the act of 1864. In the appendix of this report is given a list of banks chartered during the year, in each State and geographical division, chronologically arranged.

Information of interest is contained in the table following, relating to the number and capital, by classes, of associations organized in each State and geographical division, March 14, 1900, to October 31, 1907:

NATIONAL BANKS ORGANIZED FROM MARCH 14, 1900, TO OCTOBER 31, 1907.

Great interest attaches to present conditions and those of 1900 with respect to capital stock, circulation, and number of national banks. By reference to the table following it will be noted that the number of banks in the system has increased from 3,617 to 6,650; the authorized capital from \$616,308,095 to \$909,274,775; the authorized capital from \$616,308,095 to \$909,274,775; circulation secured by bonds from \$216,374,795 to \$562,727,614, and the total circulation outstanding (secured by bonds and deposits of lawful money) from \$254,402,730 to \$609,980,466. The table in question includes corresponding statistics on October 31, 1905 and 1906, and is as follows:

	Mar. 14, 1900.	Oct. 31, 1905.	Oct. 31, 1906.	Oct. 31, 1907.
Number of banks.....	3,617	5,858	6,225	6,650
Authorized capital.....	\$616,308,095	\$812,026,075	\$845,939,775	\$909,274,775
Bonds on deposit.....	244,611,570	494,017,850	539,653,150	566,994,910
Circulation, on bonds.....	216,374,795	489,937,806	536,933,169	562,727,614
Circulation, lawful money.....	38,027,935	34,470,443	46,238,816	47,252,852
Total circulation.....	254,402,730	524,408,249	583,171,985	609,980,466

BANKS AND BANKING IN THE DISTRICT OF COLUMBIA.

As the result of liquidation of the Central National Bank of Washington, for consolidation with the National Bank of Washington, the number of associations in the District has been reduced to 12, but there has been no change in the authorized capital stock by reason of the fact that the absorbing bank increased its capital to the extent of that of the Central National. The capital of these 12 associations is \$5,402,000. The authorized capital of the trust companies in the District was increased during the year to the extent of \$1,000,000 by the organization of the United States Trust Company. Corporations of this character to the number of 5, with authorized capital of \$7,200,000, are now in existence. There are also in operation in the District 11 banks, organized under State Laws, and 1 savings bank, organized under the District Code. These concerns are generally known as saving banks, all paying interest on deposits and at an average rate of approximately 2½ per cent. There have been no failures nor suspensions of banks in the District during the year. The affairs of the Peoples Savings Bank, which institution failed in

1906, have been settled, creditors having received payment of their claims in full. The Ætna Banking and Trust Company, a West Va. concern, which failed in 1906, is still in charge of a receiver, through whom a dividend has been paid to the extent of 20 per cent, mainly from funds obtained from a Montana stockholder, who was largely interested in a branch of the bank at Butte.

In the annual report for the year 1905 attention was called to the urgent necessity for enactment of a law regulating banking institutions within the District. Contrary to the custom of other communities in modern times, banks operating under foreign charters were not required to make reports of condition, were not subject to any examination and were permitted to invite and receive deposits without any restrictions whatever as to their reserve fund, their loans, or the amount and character of their investments. This has been partly remedied. By act of Congress of June 25, 1906, all banks deriving their charters either from Congress or from any of the States of the Union having an office or bank in the District of Columbia where deposits or savings are received are required to make reports of their condition, are subjected to examination by the Comptroller of the Currency, and are liable to be closed by him "for the reasons and in the manner and to the same extent as are provided in the laws of the United States with respect to national banks." This law gives the Comptroller power to ascertain the condition of the banks within the District and to close any found to be actually insolvent—but nothing more. It left the banks free to engage in hazardous or even illegal practices with perfect immunity, so long as they managed to keep the capital required by their charters unimpaired. Upon the first examination made by the Comptroller after the passage of the act one institution was found to be completely wrecked. Although having the name and appearance of a banking institution, it was, strictly speaking, not a "bank." Among other reprehensible practices, acting strictly within the terms of its charter and unforbidden by any law of Congress, it guaranteed payment of bonds issued by any corporation which could succeed in raising sufficient money to pay the price of guaranty. Attractively engraved bonds, calling for enormous amounts of money, are now held by innocent holders in many parts of the United States, guaranteed by the Ætna Banking and Trust Company and issued by corporations which had no existence except on paper. In the absence of a law regulating banking in the District of Columbia, the Comptroller can not prevent the inevitable result of such perversions of legitimate banking. Until actual insolvency occurs, or at least until the bank's capital is impaired, he is powerless to act. It can hardly be doubted that the Ætna Banking and Trust Company was attracted to the District of Columbia by the exceptional advantages offered here to such a concern. Under the laws regulating banking in the State where its charter was obtained its hazardous schemes were much restricted, and it did no business there.

In the annual report for 1906 the attention of Congress was again called to the pressing necessity for the passage of a law providing for the punishment of criminal offenses committed by officers and employees of banking institutions. So far as known no State in the Union has failed to protect depositors against the evils of unrestricted banking and the special temptations offered to those who are intrusted

with the savings of its citizens. No doubt many are lulled into a false sense of security by the law giving the Comptroller authority to examine the banks and to close them when insolvent. Not infrequently a bank in the District advertises that it is under the supervision of the Comptroller of the Currency. Such an advertisement encourages the idea that the bank is guarded by all the provisions of the national-bank act regulating the method of banking, whereas in fact the provisions of that act for the prevention of hazardous risks and a safe reserve have no application to banking institutions other than national banks. The necessity for appropriate legislation on this subject can not be emphasized too strongly.

The principal items of resources and liabilities, in million dollars, of banks subject to the supervision of the Comptroller, in operation in the District, on or about June 30, 1907, were as follows:

Items.	National banks.	Trust companies.	Savings banks.	Total.
Loans and discounts.....	22.4	19.5	4.3	46.2
Bonds, etc.....	14.7	3.6	1.7	20.0
Cash.....	3.1	.6	.2	3.9
Capital.....	5.4	6.2	1.1	12.7
Surplus and profits.....	4.3	3.1	.3	7.7
Individual deposits.....	24.5	20.5	5.6	50.6
Aggregate resources.....	52.0	31.1	10.8	93.9

BANKS AND BANKING IN OKLAHOMA.

By proclamation of the Executive, dated November 16, 1907, Oklahoma and Indian Territories entered the Union as the State of Oklahoma, with an area of 70,430 square miles and a population, officially stated, of 1,414,177. In these Territories on August 22, 1907, there were 304 national banks, with aggregate capital of \$12,012,500, individual deposits of \$41,800,000, and resources of \$72,100,000. In addition, Territorial and private banks to the number of 370 were reported in June last, with individual deposits of \$16,155,517; aggregate resources, \$23,215,819, making 674 banks in these Territories, with combined capital of \$16,866,625; individual deposits, \$57,900,000; and aggregate resources, \$95,300,000.

Inquiries have been submitted by national banks organized in these Territories as to their corporate rights and necessity for action by stockholders and directors as a result of their admission as the State of Oklahoma, in reply to which the correspondents have been informed that the laws have been construed as requiring no action whatever on the part of either body, as the associations will continue to enjoy all the rights and privileges granted and be subject to all the duties, liabilities, and restrictions imposed by the laws under which charters were granted. This is the position taken when other Territories were admitted into the Union as States.

As rapidly as the work can be accomplished the Bureau of Engraving and Printing will change, at the expense of the Government, all plates for printing of national-bank notes for these Territorial banks to show the location as the State of Oklahoma and the date of the change as November 16, 1907.

STATE, SAVINGS, AND PRIVATE BANKS AND LOAN AND TRUST COMPANIES.

As required by law, a general statement of the resources and liabilities and condition of banks and banking institutions other than national, namely: State, savings, private banks, and loan and trust companies, is presented herewith. Through the courtesy of State officers having supervision of these institutions, official returns have been obtained from each State and Territory except Arkansas, Indian Territory, Nevada, Alaska, and Hawaii.

Summaries of this information, at the close of the fiscal year ended June 30, 1907, show that there were in operation 13,317 banks other than national, with aggregate resources of \$11,168,514,516, being an increase of 1,465 banks and over \$805,000,000 in resources reported the previous year. The returns include 9,967 commercial banks, 794 loan and trust companies, 1,415 savings banks (of which 678 were of the mutual class, i. e., without capital stock), and 1,141 private banks.

Capital stock of the State banks is \$471,663,037, individual deposits \$3,068,649,860, and surplus and undivided profits \$281,251,478. Loans aggregate \$2,531,627,320, investments in stocks, bonds, and other securities, \$489,504,637, and total resources, \$4,119,190,337, an increase in resources of \$442,140,020 over 1906.

Reports received from 794 loan and trust companies show aggregate resources of \$3,071,419,360 against 742 companies with aggregate resources of \$2,959,230,534 in 1906, a gain of \$112,188,826. In resources of loan and trust companies during the year ended June 30, 1906, there was a gain of \$93,254,055. Figures relating to trust companies for 1907 do not include the returns from California, which are incorporated with the returns for State banks furnished by the board of bank commissioners of that State and not reported separately. Resources of loan and trust companies of California in 1906 aggregate \$44,142,931. The resources in detail of all reporting trust companies compared with 1906 are: Loans \$1,602,024,555, against \$1,610,407,833, a loss of \$8,383,278, and investments in bonds and other securities \$785,999,670, against \$760,285,420, a gain of \$25,714,250. Capital stock of these institutions as reported for June 30, 1907, shows a gain of \$7,761,744, being \$276,146,081 as against \$268,384,337. Surplus and undivided profits, which in 1906 amounted to \$395,373,620, are now reported at \$397,865,026, a gain of \$2,491,406, while the gain in surplus profits in 1906 over 1905 was approximately \$32,000,000. Individual deposits have increased from \$2,008,937,790 in 1906 to \$2,061,623,035 in 1907, a gain of \$52,685,245. The gain in 1906 over 1905 in individual deposits was approximately \$28,000,000.

Reports were obtained from 1,141 private banks and bankers, with aggregate resources of \$195,031,619. In 1906 reports were received from 929 private banking concerns, with resources of \$144,045,800, the increase for the current year being about \$51,000,000. Loans and discounts of the reporting private banks aggregate \$132,790,691; investments in stocks, bonds, and other securities, \$9,734,772, and amounts deposited in other banks, \$31,424,217. The capital reported by private banks and bankers amounts to \$25,144,822; surplus and profits, \$10,842,313, and individual deposits, \$151,072,225.

Statistics submitted with respect to the amount and average rate per cent of dividends paid by State banks, private banks, and loan

and trust companies for the year ended June 30, 1907, will be found in the appendix. Reports covering the subject were received from 1,394 State banks, with capital of \$120,640,007, showing the payment of dividends to the amount of \$11,514,171, or an average of 9.54 per cent; from 602 loan and trust companies, which paid dividends amounting to \$22,996,437, or 10.38 per cent on capital stock of \$221,403,067; and from 103 private banks, with capital of \$4,963,666, on which dividends aggregating \$620,770, or 12.51 per cent, were paid. Similar statistics for 1906 show that State banks paid an average of 9.02 per cent in dividends; loan and trust companies, 9.64 per cent, and private banks, 14.05 per cent.

CONSOLIDATED RETURNS FROM STATE, SAVINGS, AND PRIVATE BANKS AND LOAN AND TRUST COMPANIES.

A table showing the principal items of resources and liabilities of banks other than national in the years 1900 and 1904 to 1907 is submitted herewith for the purpose of comparison :

Item.	1900.	1904.	1905.	1906.	1907.
Loans.....	\$3,013,449,827	\$4,360,209,382	\$5,097,761,364	\$5,656,832,201	\$6,099,897,535
Bonds.....	1,723,830,351	2,522,890,815	2,748,447,464	2,790,159,501	2,931,506,252
Cash.....	220,667,109	301,578,011	314,248,309	334,938,185	391,847,497
Capital.....	403,132,214	625,116,824	671,599,149	739,163,401	807,178,262
Surplus and undivided profits.....	490,654,957	779,241,781	824,243,066	893,679,524	924,655,010
Deposits.....	4,780,893,692	6,688,107,157	7,567,080,822	8,159,394,029	8,776,755,207
Resources.....	5,841,658,820	8,542,839,386	9,590,401,609	10,363,350,846	11,168,514,516

The foregoing statements indicate an increase in aggregate resources in 1907 over 1906 of \$805,163,670, of \$772,949,837 in 1906 over 1905, of \$947,561,623 in 1905 over 1904, and of \$5,326,855,696 since 1900, a gain of over 91 per cent in seven years. Loans and discounts have increased during the year over \$443,000,000 and individual deposits approximately \$617,000,000 as against an increase in deposits of \$559,000,000 and \$593,000,000, respectively, in 1906 over 1905.

A statement showing the principal items of resources and liabilities of national banks from reports of condition on May 20, 1907, and of all other reporting banks and banking institutions on or about June 30, separately and in the aggregate, is presented herewith :

Classification.	6,429 national banks.	13,317 State, etc., banks.	Total, 19,746 banks.
	Millions.	Millions.	Millions.
Loans.....	\$4,664.0	\$6,099.9	\$10,763.9
United States bonds.....	671.1	22.7	693.9
All other bonds.....	774.4	2,908.8	3,683.2
Cash.....	721.9	391.8	1,113.7
Capital stock.....	883.7	807.1	1,690.8
Surplus and profits.....	720.4	924.6	1,645.0
Deposits (individual).....	4,322.9	8,776.7	13,099.6
Aggregate resources.....	8,476.5	11,168.5	19,645.0

From the foregoing statement it appears that over two-thirds of the amount of individual deposits and the same proportion of investments in bonds, etc., in all reporting banks are held by banks other

than national. About 56 per cent of the aggregate loans, of the surplus profits, as well as the total resources, are credited to this class of banks, while they have only about 48 per cent of the capital and 35 per cent of the cash holdings of all banks.

Tables I to IV in the appendix show by States the resources and liabilities in detail of the several classes of banks other than national from reports on or about June 30, 1907, and Tables V to VIII, inclusive, the aggregate resources of the several classes of banks annually from 1903 to 1907.

The following table is a summary of reports received for the year 1907 from State banks, loan and trust companies, savings and private banks:

**RESOURCES AND LIABILITIES OF STATE BANKS, LOAN AND TRUST COMPANIES,
SAVINGS AND PRIVATE BANKS, 1907.**

	9,967 State banks.	794 loan and trust com- panies.	1,415 savings banks.	1,141 pri- vate banks.	Total, 13,317 banks.

Table XXI in the appendix is a statement of the resources and liabilities of the first bank of the United States for 1809 and 1811, and Table XXII a statement of the second bank of the United States for the years 1817 to 1840, inclusive. Table XXIII shows the number of colonial and State banks, their capital, circulation, deposits, specie, and loans for the years indicated from 1774 to 1833.

The principal items of resources and liabilities of State banks, by years, from 1834 to 1872 and from 1873 to 1907, inclusive, are shown in Tables XXIV and XXV of the appendix; Table XXVI is a statement of the principal items of resources and liabilities of State, savings, and private banks, loan and trust companies, and national banks, from 1864 to 1907, inclusive. By reference to Table XXVI it will be noted that the aggregate resources of all banks reported at \$7,822,100,000 in 1897 is shown to be \$19,645,000,000 for the present

year, an increase of \$11,823,000,000 for the decade, or an average increase of \$1,182,300,000 annually. The largest increase in any one year during this period was in 1905, when the gain in resources over the prior year was \$1,719,400,000. The increase in the resources of all reporting banks for the year ended June 30, 1907, aggregates \$1,497,400,000.

SAVINGS BANKS.

Savings bank reports to the number of 1,415 have been received, of which 678 are from mutual institutions and 737 from stock savings banks, the latter being operated for the benefit of both the shareholders and depositors. The principal items of resources and liabilities of savings banks, both mutual and stock, are as follows:

Loans	\$1,833,454,969
Bonds, etc.....	1,646,267,173
Deposits	3,495,410,087
Aggregate resources	3,782,873,200

Compared with 1906 these figures show increases in loans of \$156,525,954; investments in bonds, stocks, and other securities, \$36,491,591, and deposits, \$195,865,486. Aggregate resources have increased in the sum of \$199,849,005. The increase in deposits during the year ended June 30, 1907, was somewhat less than shown for the year ended June 30, 1906, but the increase in loans appears to have been about \$14,000,000 greater than in 1906.

In the following table is given a comparative statement of the number of depositors, amount of deposits, and the average savings deposit in savings banks in the States named for the years 1906 and 1907. Included in this table are deposits in savings departments of commercial banks in operation in the State of Illinois, for the reason that the auditor of public accounts of that State in his periodical statements reports such deposits separate from deposits subject to check. The result of the addition of Illinois savings deposits is the raising of the aggregate savings deposits of the United States to \$3,690,078,945, the number of depositors to 8,588,811, the average deposit being \$429.64.

^a Unofficial.^b Partially estimated.^c Included in abstract of State banks having savings departments.

MUTUAL SAVINGS BANKS.

All mutual savings banks are in operation in the New England and Eastern States, with the exception of 25 located as follows: One in West Virginia, 3 in Ohio, 5 in Indiana, 2 in Wisconsin, and 14 in Minnesota. The number of reporting institutions is 678, the same number as reported last year. As shown by Table IV in the appendix, the aggregate resources of mutual savings banks is \$3,274,988,205, or a gain of \$140,396,980 since June 30, 1906. Loans and discounts are \$1,491,788,174, classified as follows: On real estate, \$1,212,085,499; other collateral security, \$60,972,643; other nonclassified loans, \$218,830,032. Compared with 1906, real estate loans have increased approximately \$62,000,000; loans on other collateral, \$14,000,000, and unclassified loans, \$40,500,000. The amount invested in bonds, stocks, and other securities has increased from \$1,522,989,449 in 1906 to \$1,554,409,273 in 1907, a gain of over \$31,000,000. The investments in bonds and other securities are as follows:

United States bonds.....	\$18,744,618
State, county, and municipal bonds.....	618,458,020
Railroad bonds and stocks.....	602,224,313
Bank stocks.....	24,987,618
Other stocks, bonds, and securities.....	290,014,704

Cash in bank amounts to \$18,040,966, an increase of only \$669,981 over the amount reported in 1906. Cash on deposit with other banks is \$111,962,341, or \$5,878,486 less than was shown by the reports for 1906. Individual deposits have increased from \$2,908,710,654 in 1906 to \$3,055,287,322, a gain of \$146,576,668. Deposits are credited to 7,071,219 depositors, the number reporting for 1906 being 6,753,037,

a gain in 1907 of 318,182. The average deposit account has increased during the same period from \$430.73 to \$432.07. Reports from each State having this class of banks show large increases both in number of depositors and amount of deposits, the largest gain during the year being in New York, where a gain of 103,573 depositors and \$59,200,000 in deposits is shown.

Comparing the average deposit account in the mutual savings banks by geographical sections, it will be noted that the average for the New England States is \$395.72, against \$391.04 in 1906; for the Eastern States, \$464.93, against \$446.91 in 1906. In the Middle States the average deposit is \$395.76, against \$392.42 in 1906. The one mutual savings bank in West Virginia, being the only bank of this class reporting from the Southern States, gives the average deposit account as \$210.37, against \$206.30 in 1906. It will be noted that the average deposit account in the Eastern States this year is less by \$1.98 than in 1906. This decrease is caused by the fact that unofficial returns from savings banks of Maryland for the present year were incomplete as to the number of depositors; the number had to be partially estimated from the returns received. The result shows a greater ratio of increase in depositors than in deposits.

STOCK SAVINGS BANKS.

Returns have been received from 737 stock savings banks located in the District of Columbia, North Carolina, South Carolina, Iowa, and California, stock savings banks said to be in existence in other States being included with the returns for State banks received from those States. Resources of these banks amount to \$507,884,995, a gain of \$59,452,025 over 1906. Loans aggregate \$341,566,795; investments in stocks, bonds and other securities, \$91,857,900; deposits with other banks, \$51,381,041; and cash on hand \$9,365,962. The capital is \$34,224,322; surplus and undivided profits, \$20,410,634; deposits, \$440,122,765; number of depositors, 911,674; and the average deposit \$482.76. Compared with the returns for 1906 loans have increased \$40,219,846; investments in bonds, etc., \$5,071,767; and cash on deposit with other banks augmented to the extent of \$12,457,350. Capital stock has gained \$5,327,955 and individual deposits have increased from \$390,833,947 to \$440,122,765, a gain of \$49,288,818. The number of depositors—estimated at 742,165 in 1906, now estimated to be 911,674—shows a gain of 169,509 for the year. The exact number of depositors is given only in the District of Columbia; those for the four States named are partially estimated, the estimate being based upon unofficial returns from such banks as reported that information.

ALL SAVINGS BANKS.

The number of depositors in savings banks reporting (exclusive of those having accounts in savings departments of the State banks of Illinois) has increased since 1900 from 5,898,091 to 7,982,893, and the average deposit from \$404.33 to \$437.86. For the current year the number of depositors has increased by 487,691, but the average deposit account appears to have slightly decreased, being now \$437.86, against \$440.22 in 1906. The total number of savings depositors, including those in Illinois State banks having savings departments,

has increased from 8,027,192 in 1906 to 8,588,811 in 1907, and the average amount to the credit of each depositor estimated at \$433.79 in the former year is \$429.64 this year. Aggregate deposits, which were \$3,482,137,198 in 1906, are now \$3,690,078,945, an increase of \$207,941,747.

The following table shows the growth of savings banks in the United States from 1820 to 1907, as evidenced by the amount of deposits, number of depositors, average deposit account, and the average per capita in census years from 1820 to 1890 and annually thereafter. The figures given, however, include the number of to 1907, together with aggregate capital, assets, liabilities and divi-ings departments, but not the number of such banks, by reason of the fact that general reports from these institutions are incorporated with State bank returns.

NUMBER OF SAVINGS BANKS IN THE UNITED STATES, NUMBER OF DEPOSITORS, AMOUNT OF SAVINGS DEPOSITS, AVERAGE AMOUNT DUE EACH DEPOSITOR IN THE YEARS 1820, 1825, 1830, 1835, 1840, AND 1845 TO 1907, AND AVERAGE PER CAPITA IN THE UNITED STATES IN THE YEARS GIVEN.

INTEREST RATES PAID BY SAVINGS BANKS.

From an examination of the returns submitted with respect to the rate of interest paid on savings accounts it will be noted that the maximum rate is 4.50 per cent, the minimum rate 2.72, and the estimated average rate is 3.615, a slight increase over the estimated average interest of 3.545 per cent in 1906. Average rate of interest paid depositors in mutual savings banks of the New England States is 3.66 per cent, in the Eastern States 3.50 per cent, and in the Middle Western States 3.86. The average rate of interest paid by all reporting mutual savings banks is 3.72 per cent.

STATE AND PRIVATE BANK FAILURES.

Information relating to the number, assets, and liabilities of State and private banks which failed in the year ended June 30, 1907, has been furnished this office through the courtesy of the Bradstreet Commercial Agency. The total number of failures during the year was 34, the assets of the banks being \$13,037,497 and liabilities \$22,165,448. For the year ended June 30, 1906, there were 37 failures of banks of this character, with assets of \$6,591,515 and liabilities of

\$7,187,858. Included in the 34 failures of banks in 1907 were 10 State banks, 4 trust companies, and 20 private banks. The failures by geographical sections were as follows: New England States, 2; Eastern States, 8; Southern States, 3; Middle Western States, 9; Western States, 8, and Pacific States, 4.

The number of banks of this class that failed annually from 1864 to 1907, together with aggregate capital, assets, liabilities and dividends paid from 1864 to 1896, are shown in the following table:

NUMBER OF FAILURES, CAPITAL, ASSETS, LIABILITIES, AND DIVIDENDS PAID BY STATE AND PRIVATE BANKS THAT FAILED IN EACH YEAR FROM 1864 TO 1907.

Year.	Number of failures.	Capital.	Nominal assets.	Liabilities.	Dividends paid.

INDIVIDUAL DEPOSITS IN BANKS OF THE UNITED STATES.

Individual deposits in all reporting banks in 1900 aggregated \$7,238,986,450; for the current year individual deposits in all reporting banks aggregate \$13,099,635,348, a gain of over \$5,860,000,000 within the past seven years, or 80 per cent. During the current year

there has been a gain of approximately \$884,000,000, or 7.23 per cent. The compilation of returns for the years 1900, 1904, 1905, 1906, and 1907 for each State and geographical division, showing the amount of individual deposits in each class of banks, will be found in the appendix, and a summary for the years named, by geographical divisions, is presented in the accompanying table:

^a Statements for April 6, 1906.

The following table shows the amount of individual deposits in national and other reporting banks by geographical divisions on or about June 30, 1906, and 1907, together with the amount and per cent of increase:

Geographical Division.	Individual deposits.			
	1906.	1907.	Increase.	Per cent of increase.
	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>	
New England States.....	\$1,869.0	\$1,959.3	\$90.3	4.83
Eastern States.....	5,411.8	5,597.1	185.3	3.42
Southern States.....	882.3	1,008.4	126.1	14.29
Middle Western States.....	2,729.4	3,036.9	307.5	11.27
Western States.....	508.1	607.2	101.1	19.98
Pacific States.....	797.5	868.4	70.9	8.89
Islands.....	19.7	22.3	2.6	13.20
Total.....	12,215.8	13,099.6	883.8	7.23

From the foregoing it will be noted that the highest record of increase in deposits in the year ended June 30, 1907, was made by banks in the Western States, individual deposits in that section having increased nearly 20 per cent during the year. Statistics from all the States in this section show increases in individual deposits far above the average of 7.23 per cent for the whole country. Deposits in two of these States increased during the year 25 per cent or more, viz. South Dakota 25 per cent and New Mexico 26 per cent. In Oklahoma and Indian Territory the increase was 35 per cent and 36 per cent, respectively. The average individual deposit in the United States per capita of population has risen from \$65 in 1896 to \$95 in 1900, \$122 in 1904, \$136 in 1905, \$144 in 1906, and \$152 in 1907, or an average increase per capita of about \$8 annually.

The following table shows the amount and per cent of deposits held by the several classes of banks in 1900, 1906, and 1907:

Classification.	1900.		1906.		1907.	
	Amount.	Percent.	Amount.	Per cent.	Amount.	Percent.
	<i>Millions.</i>		<i>Millions.</i>		<i>Millions.</i>	
State banks.....	\$1,266.7	17.5	\$2,741.5	22.5	\$3,068.6	23.4
Savings banks.....	2,389.7	33.0	3,299.5	27.0	3,495.4	26.7
Private banks.....	96.2	1.3	109.9	.9	151.1	1.2
Loan and trust companies.....	1,028.2	14.2	2,068.9	16.4	2,061.6	15.7
National banks.....	2,458.1	34.0	4,055.9	33.2	4,522.9	33.0
Total.....	7,238.9	100.0	12,215.7	100.0	13,699.6	100.0

It will be noted that in 1900 34 per cent of all individual deposits were held by national banks, 33 per cent by savings banks, 17.5 per cent by State banks, 14.2 per cent by loan and trust companies, and 1.3 per cent by private banks. For the current year national banks hold 33 per cent, savings banks 26.7 per cent, State banks 23.4 per cent, loan and trust companies 15.7 per cent, and private banks 1.2 per cent. From the table it thus appears that the percentage of deposits in State banks increased from 17.5 in 1900 to 22.5 in 1906 and to 23.4 in 1907; that savings-bank deposits decreased from 33 per cent in 1900 to 27 per cent in 1906 and to 26.7 per cent in 1907. The percentage in trust companies rose from 14.2 in 1900 to 16.4 in 1906, but declined to 15.7 in 1907. Deposits in national banks declined eight-tenths of 1 per cent between 1900 and 1906 and two-tenths of 1 per cent from 1906 to 1907, these associations holding, however, in each year approximately one-third of the deposits in all reporting banks.

The following comparative statement showing the increase in population, individual deposits, and money in circulation in the United States for 1900, 1906, and 1907 is of interest:

	1900.	1906.	1907.	Increase 1900 to 1907.		Increase 1906 to 1907.	
				Amount.	Per ct.	Amount.	Per ct.
				<i>Millions.</i>		<i>Millions.</i>	
Population.....	76.3	84.6	86.0	9.7	1.4	1.67	
Deposits (individual).....	\$7,235.9	\$12,196.0	\$13,077.3	\$5,841.4	80.73	\$881.3	7.23
Money in circulation.....	\$2,055.2	\$2,736.6	\$2,773.0	\$717.8	34.93	\$36.9	1.35

BANK RESOURCES.

Table XII in the appendix shows the average per capita of resources of each class of banks, State and national, and the per capita of all banks, arranged by States and geographical sections. The average per capita of bank resources in the United States, exclusive of island possessions, is \$228.58, a gain of \$13.89 during the year, in 1906 the average per capita for the United States being \$214.69. Geographically the largest gain during the year was in the Pacific States, where the per capita increased from \$319.55 in 1906 to \$345.82 in 1907, a gain of \$26.27. Next in order, the Middle States increased from \$164.24 to \$183.31, a gain of \$19.07, the New England States being third with an increase of \$15.42, or from \$393.25 to \$408.67. The per capita gain in the Western States was \$14.43, or from \$131.41

in 1906 to \$145.84 for the present year. Eastern and Southern States show the lowest per capita gain for the year—\$10.47 and \$8.07, respectively. The per capita of the Eastern States is now \$438.33, against \$427.86 in 1906, and in the Southern States it is now \$69.32, against \$61.25 last year. The State of New York has the largest per capita of bank resources, or \$648.87, California is next with \$532.40, and Rhode Island third, with \$486.70. Total resources of all banks, including those in the island possessions, on or about June 30, 1907, were \$19,645,015,950. The population of the United States, as estimated by the Government actuary at 85,754,000 on June 1, has been used in making the above calculations.

GROWTH OF BANKING IN THE UNITED STATES.

The following table shows the growth of banking in the United States, including island possessions, as indicated by the number of banks, capital stock, and individual deposits, from 1902 to 1907:

Bank.	Number.	Capital.		Individual deposits.	
		Amount.	Per cent.	Amount.	Per cent.
1902.					
National.....	4,535	\$701,990,554	52.4	\$3,098,875,772	32.3
State, etc.....	7,889	499,621,208	47.6	{ 6,005,847,214 }	67.7
Reporting capital only.....	3,732	138,548,654			
Total.....	16,156	1,340,160,416	100.00	9,583,315,778	100.00
1903.

1906.					
National.....	6,053	\$26,129,785	50.23	4,055,873,636	32.12
State, etc.....	11,852	739,163,401	49.77	{ 8,159,894,029 }	67.88
Nonreporting.....	3,491	75,356,000			
Total.....	21,396	1,640,649,186	100.00	12,628,927,665	100.00
1907.					
National.....	6,429	883,690,917	49.56	4,322,880,141	31.66
State, etc.....	13,317	807,178,262	50.44	{ 8,776,755,207 }	68.34
Nonreporting.....	4,191	92,357,000			
Total.....	23,937	1,783,226,179	100.00	13,654,535,348	100.00

From returns to this office on May 20, 1907, it appears that there were in operation 6,429 national banking associations with capital of \$883,690,917 and individual deposits of \$4,322,880,141. On or about June 30, 1907, there were in operation 13,317 State, savings, private banks, and loan and trust companies reporting aggregate capital and deposits of \$807,178,262 and \$8,776,755,207, respectively, and non-reporting banks to the number of 4,191 with capital and deposits esti-

mated at \$92,357,000 and \$554,900,000, respectively, or a total of 23,937 banks and banking institutions with capital of \$1,783,226,179 and deposits of \$13,654,535,348. Since 1902 the increase in the number of banks has been 7,781. Capital stock has increased in the sum of \$443,065,763 and individual deposits \$4,071,219,570.

In 1902 national bank capital represented 52.4 per cent, and deposits 32.3 per cent of aggregate capital and deposits, respectively, of all reporting banking institutions. The percentage of capital of national banks to capital of all banks in 1906 was 50.23 and deposits 32.12. For the present year the percentage of capital is 49.56 and of deposits 31.66. During the period from 1902 to 1907 the percentage of capital of banks other than national to the capital of all banks has increased from 47.06 to 50.44 per cent, and the percentage of individual deposits in such banks from 67.7 to 68.34 per cent. In 1904 there was in operation in the United States one bank for every 4,897 inhabitants, in 1905 one for every 4,182, in 1906 one for every 3,956 and for the present year one for every 3,595.

BANKS AND BANKING IN THE ISLAND POSSESSIONS.

PHILIPPINES.

There were in operation in the Philippines on June 30, 1907, the following banks: Banco Español-Filipino at Manila, and the Iloilo subagency; the Manila agency and the Cebu subagency of the Chartered Bank of India, Australia, and China; the Manila agency and the Iloilo subagency of the Hong-Kong and Shanghai Banking Corporation; the International Banking Corporation at Manila and its Cebu subagency; the Monte de Piedad Savings Bank at Manila; the Bank of Zamboanga at Zamboanga, and postal savings banks, the latter referred to elsewhere only.

The treasurer of the Philippine Archipelago is required by law to make examinations of these banking institutions and to obtain from them periodical statements of their condition. These statements are forwarded to the Insular Bureau of the War Department, and the reports of condition under date of June 29, 1907, have been submitted by that bureau to this office for use in connection with this report.

A summary of the returns from the Philippine banks on June 29, 1907, together with individual statements made to the treasurer of the Philippines under that date, appears in the appendix.

The resources of the ten banking institutions named aggregate \$19,560,412, or an increase of \$2,200,929 as compared with the returns submitted in 1906. The principal items of resources and liabilities are:

Loans and discounts, including overdrafts.....	\$9, 749, 492
Philippine and other currency.....	4, 367, 168
Due from banks and agencies.....	1, 919, 569
Capital stock paid in.....	1, 399, 136
Surplus and undivided profits.....	1, 319, 574
Bank notes outstanding.....	729, 513
Deposits, including deposits of insular treasurer.....	9, 172, 295
Bank deposits.....	4, 666, 663

Comparing these returns with those submitted to this office in June, 1906, loans and discounts show an increase of \$46,183, currency in bank has increased in the sum of \$2,074,215, surplus and profits

show an increase of \$95,344, and deposits \$1,831,326. The items which show a decrease are: Due from banks and agencies by \$330,009, bank notes outstanding by \$20,487, and bank deposits by \$258,152.

POSTAL SAVINGS BANKS IN THE PHILIPPINES.

Under date of September 3 the chief of the postal savings bank division submitted his annual report to the director of posts of the Philippine Islands relating to the operations of postal savings banks for the period ended June 30, 1907. A copy of the report has been submitted to this office, from which the following general information and statistics are taken:

The law providing for the establishment of postal savings banks in the Philippine Islands was enacted by the United States Philippine Commission May 24, 1906. The Manila office was opened for the transaction of business October 1, 1906, and other offices were subsequently established as conditions seemed to warrant until the close of the fiscal year, June 30, 1907, when there were 235 offices open for the transaction of business. On that date the deposits amounted to 510,100.64 pesos (one peso equals 50 cents).

The investment of funds of the postal savings banks is placed in the charge of an investment board, composed of the secretary of commerce and police, the secretary of finance and justice, the director of posts, the insular treasurer, and a Manila business man. On the recommendation of the board the following investment of postal savings bank funds, in the form of time deposits bearing $3\frac{1}{2}$ per cent interest, had been made at the end of the fiscal year:

	Pesos.
International Banking Corporation.....	170, 000
Hongkong and Shanghai Banking Corporation	120, 000
Chartered Bank of India, Australia, and China.....	130, 000
Banco Español-Filipino	70, 000
Total.....	490, 000

All of these banks are duly authorized depositories of the Filipino government, and the deposits in them are stated to be amply protected by surety bonds filed with the Treasurer of the United States. The remainder of the resources of postal savings banks were held as follows:

	Pesos.
With the insular treasurer.....	5, 000. 00
With the cashier Manila post-office.....	7, 261. 66
With outside postmasters	7, 833. 98

At the close of the year interest had accrued on the deposits in the sum of 6,495.36 pesos, being 2,893.84 in excess of the amount of interest paid to depositors. The depositors number 2,676, of whom 1,616 were Americans, 944 Filipinos, 60 Europeans, 45 Asiatics, and 11 societies. The average deposit account was 223.54 pesos.

In order to obtain a more lucrative investment of funds the act under which the postal savings bank system was established was amended March 22, 1907, to provide that loans may be made upon city real estate to the extent of 25 per cent and upon improved agricultural land to the extent of 10 per cent of the total deposits. Provision was also made for investments in and loans upon any securities

the principal and interest of which are guaranteed by the Government of the United States or of the Philippine Islands. On May 3 a further provision was made for the loaning of the bank funds to the various provinces for public improvements under guaranty of the insular government. Under the provisions of this act the Province of Pangasinan has applied for a loan of 160,000 pesos for six years with interest at the rate of 5 per cent. The opinion is expressed that this widening of the field of investment will enable a self-supporting basis to be reached much sooner than the original provisions would have allowed and at the same time give ample protection to the bank.

In connection with expenses it is stated that the outlay for the year was 37,393.33 pesos; but if from that amount there be deducted 6,495.36 pesos, representing interest earned on the investment of the bank's funds, there remains 30,897.99 pesos, representing the real deficit. A considerable part of this deficit is, however, more nominal than real, as there should be excluded from consideration that part of the supplies in the hands of the postmasters which will not have to be duplicated for several years. There were on hand June 30 supplies to the estimated value of 10,000 pesos.

Reference is made in the report to telegraphic withdrawals, and it is shown that 103 such withdrawals were made, at an average cost of 1.14 pesos, the total amount of postal savings deposits so withdrawn being 10,678.39 pesos.

Postal savings bank stamps for the special use of school children have been received from the United States Bureau of Engraving and Printing, of the denominations of 5, 10, and 20 centavos, to the number of 4,747,636, valued at 365,914.40 pesos. The stamps were not available until about the close of the school year (April), in consequence of which but a limited amount was sold, namely, 1,856.30 pesos, of which 1,219 were deposited, leaving 637.30 of the amount sold undeposited.

Of the depositors' balances, 441,400.96 pesos are to the credit of Americans and 14,697.37 to Europeans, leaving 46,197.40 to the credit of Filipinos and 7,167.61 to Asiatics, in connection with which it is stated in the report that to the Americans stationed throughout the islands the bank has proven to be a great blessing; and while it is probable that about one in ten are depositors, there is much to be desired in the extension of the work among the natives, who are, as a class, notably improvident. The success of the bank must be measured by the interest taken in it by the natives. Up to June 30 accounts to the number of 944, representing 35 per cent of the total, had been opened by Filipinos. It is believed that the most valuable means of furthering the use of the savings bank is the cooperation of the schools, which has been most cordially extended.

PORTO RICO.

There are in the island of Porto Rico 6 territorial banks, 3 private banks, and 1 national banking association, with aggregate capital of \$2,305,273 and resources of \$10,966,856. By the courtesy of the treasurer of Porto Rico reports have been received showing the condition of 6 territorial and 3 private banks in operation in the island. The aggregate capital stock of these 9 banks is \$2,205,273, which

includes \$575,215 due by stockholders of 2 of the territorial banks. The principal items of resources and liabilities are:

Loans	\$4, 266, 701
Stocks, bonds, and securities	1, 916, 027
Due from banks and bankers	1, 063, 339
Cash in bank	1, 272, 806
Surplus and undivided profits	553, 680
Deposits	5, 723, 221
Bank deposits	218, 738
Aggregate resources	10, 486, 143

The aggregate resources of the reporting banks of the island have increased over two millions of dollars during the current year, and more than doubled since 1902.

Four of the Territorial banks have savings departments with 4,632 depositors, one bank paying 3 per cent, one 4 per cent, and two 6 per cent to such depositors. All the banks, with the exception of one recently organized, paid dividends to stockholders during the year ranging from 2½ per cent to 10 per cent, and 14 per cent on a certain class of stock by one bank. No banks were closed in Porto Rico during the past year. During the fiscal year the Royal Bank of Canada and the Union Bank of Halifax were authorized to transact business in the island.

HAWAII.

Unofficial returns have been received from 4 territorial and 2 private banks in the Territory of Hawaii. The aggregate paid-in capital of these banks as shown by reports of June 29, 1907, is \$1,795,859; resources, \$9,087,717. Besides there were in operation on May 20, 1907, four national banking associations with capital of \$610,000 and aggregate resources of \$2,524,865, the total resources of all reporting banks—private, Territorial, and national being \$11,612,582, a decrease since 1906 of \$243,739. The principal items of resources and liabilities of the 6 reporting Territorial and private banks are:

Loans including overdrafts	\$5, 803, 337
Stocks, bonds, etc	1, 343, 169
Due from banks and bankers	196, 507
Cash on hand	1, 149, 131
Capital	1, 759, 859
Surplus and profits	452, 582
Individual deposits	6, 153, 136

Statements relating to the national banks in operation in the Territory of Hawaii will be found in the appendix of this report.

BUILDING AND LOAN ASSOCIATIONS.

Through the courtesy of the secretary of the United States League of Local Building and Loan Associations, Mr. H. F. Cellarius, of Cincinnati, this office has been furnished with statistics relating to the condition of the building and loan associations of the United States. From the data submitted it appears that during the year ended December 31, 1906, these associations gained \$43,784,941 in assets and increased the amount of annual receipts nearly \$45,000,000; and that within the last two years they have gained in assets nearly \$73,000,000. The gross gain in membership for the past year was 87,103. It appears that there are now in the United States 5,316

such associations, having a membership of 1,699,714 and assets amounting to \$673,129,198. States showing the largest gains are: Ohio, \$11,353,028; Pennsylvania, \$9,587,177; New Jersey, \$4,330,808; Massachusetts, \$3,832,494, and New York, \$3,125,116. The only State from which the statistics show a material loss is California, in the sum of \$3,357,193, this decrease in business being accounted for by the unusual conditions caused by the earthquake and fire. The receipts and disbursements of the associations for the year ended December 31, 1906, are shown in the following statement:

RECEIPTS, 1906.		DISBURSEMENTS, 1906.	
Cash on hand January 1, 1906	\$22, 570, 436	Pass-book loans	\$12, 258, 696
Weekly dues	167, 346, 676	Mortgage loans	197, 244, 864

The number of associations, total membership, and total assets for States in which accurate statistics are obtainable are shown in the following table. The data for all other States are consolidated under the heading of "Other States," and the figures given are estimated by the secretary of the league:

State.	Number of associations.	Total membership.	Total assets.	Increase in assets.	Decrease in assets.	Increase in membership.
1906-1907.						
1. Pennsylvania	1, 321	346, 375	\$137, 640, 602	\$9, 587, 177		16, 523

SCHOOL SAVINGS BANKS.

Statistics relating to the operation of school savings banks of the United States in existence on January 1, 1907, have been received through the courtesy of Prof. J. H. Thiry, of Long Island City, N. Y.

From Professor Thiry's report it appears that the school savings-bank system is now in operation in 1,098 schools of 113 cities of the United States and Canada; and the pupils of these schools have deposited \$5,485,514.48, of which \$4,675,897.26 has been withdrawn, leaving a balance of \$809,617.22 due depositors.

MONEY IN THE UNITED STATES.

Distribution of money in the United States, showing the amount in the Treasury as assets, in reporting banks and elsewhere, from June 30, 1892, to 1907, is stated in the following table:

Year.	Coin and other money in the United States.		Coin and other money in Treasury as assets.		Coin and other money in reporting banks.		Coin and other money not in Treasury or banks.			In circulation, exclusive of coin and other money in Treasury as assets.

a \$12,567,265, *b* \$10,125,909, *c* \$9,240,801, *d* \$7,620,304, *e* \$6,301,890, *f* \$5,661,868, and *h* \$7,250,574 in banks of island possessions not included in these returns.

g Revised estimates.

The amount of money held by national and other reporting banks in the United States (exclusive of island possessions) on June 30, 1906, was \$1,010,700,000. About the same date for the present year the cash holdings of the banks of the United States was \$1,106,500,000, or a gain of \$95,800,000. The total stock of money in the United States on June 30, 1906, was \$3,069,900,000. On July 1 of the present year it was reported at \$3,115,600,000, being an increase of \$45,700,000. Of this \$45,700,000 gain in the stock of money during the fiscal year, \$9,300,000 was added to the amount held in the Treasury as assets, leaving a balance of \$36,400,000 for general circulation. The amount of coin and other money not in the Treasury or banks in 1906 was \$1,725,900,000; in 1907 the amount was \$1,666,500,000, a difference of \$59,400,000, which sum, together with the \$36,400,000 gain in the general stock in circulation, as above noted, has been added to the cash holdings of the banks during the current year. Of the total stock of money in the country, 11 per cent is held in the Treasury as assets, 35.51 per cent is in reporting banks, and 53.49 per cent elsewhere, the per capita not in the Treasury or banks in 1907 being \$19.36, or \$1.03 less than in 1906.

The geographical distribution of money in banks of the United States in 1900, 1904, 1906, and 1907 is shown in the following table:

Division.	1900.		1904.		1906.		1907.	
	Amount.	Per cent.	Amount.	Per cent.	Amount.	Per cent.	Amount.	Per cent.
	<i>Millions.</i>		<i>Millions.</i>		<i>Millions.</i>		<i>Millions.</i>

^a Includes fractional currency.

^b Includes \$4,059,951 in Philippine currency.

The following table shows deposits and cash holdings of the several classes of reporting banks on or about June 30, 1907, together with the percentage of cash to deposits for 1906 and 1907:

Banks.	Individual deposits.	Cash on hand.	Ratio of cash to deposits.			
			1906.		1907.	
	<i>Millions.</i>	<i>Millions.</i>	<i>Per cent.</i>	<i>Per cent.</i>	<i>Per cent.</i>	<i>Per cent.</i>
National banks.....	\$4,322.9	\$721.9		16.80		16.70
State banks.....	3,068.6	254.0	8.30	4.04	8.28	5.60
Savings banks.....	3,495.4	27.4	.79			
Private banks.....	151.1	8.7	6.15			
Loan and trust companies.....	2,061.6	101.7	3.49			
Total.....	13,099.6	1,113.7		8.29		8.50

The percentage of cash to individual deposits held by all national banks on May 20, 1907, was 16.70 per cent, and the percentage of reserve held to deposit liabilities on that date was 21.22 per cent, of which 13.23 per cent was in lawful money.

The percentages of cash held against deposits by all other banks on or about June 30, 1907, were as follows: State banks, 8.28 per cent; private banks, 5.76 per cent; loan and trust companies, 4.93 per cent, and savings banks, 0.78 per cent, or an average cash reserve of 5.60 per cent held by banks other than national. The percentage of cash holdings to deposits for the several classes of banks in 1907 is shown to be less than in 1906, with the exception of loan and trust companies, which increased their percentage from 3.49 to 4.93.

In the appendix will be found a table showing the amount of gold and other money held by national banks on May 20, 1907, and by other reporting banks and bankers on or about June 30, 1907.

Referring to the tables in question, it will be seen that on or about June 30, 1907, the sum of \$1,113,742,316 was in 19,746 banks of the country, \$7,250,574 of this amount being in 30 banks located in the island possessions.

Sixty-four per cent of the money in banks consisted of specie and the remaining 36 per cent paper currency and unclassified cash, as follows:

Specie (gold and silver).....	\$717, 358, 538
Paper currency (including Philippine currency).....	311, 769, 968
Not classified	84, 613, 810
Total	1, 113, 742, 316

Gold represented over 51.2 per cent of cash in bank; silver and unclassified specie, 13.4 per cent; legal tenders and national-bank notes, 27.8 per cent, the balance, 7.6 per cent, being unclassified.

The following table shows the cash holdings of banks in 1906 and 1907 and the amount of increase, geographically arranged:

Geographical division.	1906.	1907.	Increase.
	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>
New England States.....	\$61.8	\$63.5	\$1.7
Eastern States.....	462.0	519.2	57.2
Southern States.....	78.4	87.2	8.8
Middle States.....	280.5	305.8	25.3
Western States.....	53.0	55.2	2.2
Pacific States.....	75.1	75.6	.5
Islands.....	5.6	7.2	1.6
Total.....	1,016.4	1,113.7	97.3

From the foregoing it appears that the New England States had in their banks on or about June 30, 1907, \$63,500,000; the Eastern States, \$519,200,000; Southern States, \$87,200,000; Middle States, \$305,800,000; Western States, \$55,200,000; Pacific States, \$75,600,000, and island possessions, \$7,200,000.

The banks of the country, including island possessions, increased their cash holdings during the year by \$97,300,000. Of this amount the Eastern States gained \$57,200,000 and the Middle States \$25,300,000. Of the \$57,200,000 gained in the Eastern States, approximately \$46,400,000 went to banks in New York State and over \$9,200,000 to banks in Pennsylvania. The increase of \$25,300,000 in the Middle States went chiefly to Ohio, Illinois, and Missouri. Banks in these States gained \$5,000,000, \$7,000,000, and \$6,000,000, respectively, in cash holdings during the year. The banks of the Southern

States gained during the year \$8,800,000 in cash. Of this sum \$5,600,000 went to banks in Texas.

From the published statements of the superintendent of banking of the State of New York it appears that on or about June 30 there were in New York City and Brooklyn (New York and Kings counties) 54 State banks, 51 savings banks, and 50 loan and trust companies. Combining the cash holdings of these 155 banks with the amount of cash held by the 43 national banks of New York City and Brooklyn, from reports made to this office on May 20, it appears that all banks in the reserve cities of New York and Brooklyn on or about June 30, 1907, held approximately \$363,700,000 in their vaults, or over 32.5 per cent of the available cash in the banks of the United States. In 1906 banks in New York City and Brooklyn held \$321,900,000, or 31.6 per cent of the available cash in banks of the whole country.

The following table shows the amount of cash in each class of banks located in the cities of New York and Brooklyn in 1906 and 1907, with the amount and per cent of increase:

Banks.	1906.	1907.	Increase.
	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>
National banks.....	\$227.5	\$234.6	\$7.1
State banks.....	54.6	65.9	11.3
Savings banks.....	6.4	6.4	.0
Loan and trust companies.....	33.4	56.8	23.4
Total.....	321.9	363.7	41.8

In connection with the foregoing statistics relating to cash holdings of the banks of New York and Brooklyn, the following table relating to individual deposits of banks in those cities will be found of interest:

Banks.	Individual deposits.		Decrease.	Increase.
	1906.	1907.		
	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>
National banks.....	\$653.3	\$600.8	\$52.5
State banks.....	323.7	338.9	\$13.2
Savings banks.....	925.1	962.6	37.5
Loan and trust companies.....	790.8	\$49.4	58.6
Total.....	2,692.9	2,749.7	a 56.8

a Net increase.

On May 20, 1907, the 43 national banks located in the cities of New York and Brooklyn had \$884,900,000 in deposit-liabilities subject to reserve requirements, against which they had on hand lawful money amounting to \$233,100,000, or 26.35 per cent. The individual deposits in these banks on the same date amounted to \$600,800,000 and their actual cash holdings of lawful money and other currency aggregated \$234,600,000, or 39 per cent of individual deposits and 26.51 per cent of all deposit-liabilities.

On June 30, or thereabouts, the cash holdings of State banks in the cities named were 19.50 per cent of individual deposits, of loan

and trust companies, 6.69 per cent, and of savings banks less than 1 per cent, or 0.66 per cent.

Of the \$41,800,000 added to their cash holdings by the banks of New York and Brooklyn during the fiscal year ended June 30, 1907, national banks gained \$7,100,000, State banks \$11,300,000, and loan and trust companies \$23,400,000. Practically no increase was noted in the cash holdings of savings banks located in these cities. On May 16, 1906, as will be observed from the foregoing tables, the loan and trust companies of New York and Brooklyn had \$790,800,000 in individual deposits, against which they held a reserve of cash in bank of \$33,400,000, or 4.22 per cent. On June 4, 1907, the loan and trust companies of New York had \$849,400,000 in individual deposits, against which was held \$56,800,000, or 6.69 per cent.

Acts were passed by the legislature of New York in 1906 amending the banking law to provide in part that every trust company in the city of New York shall have on hand at all times after January 1, 1907, a reserve equal to at least 15 per cent of its deposits, and the trust companies elsewhere in the State a reserve equal to at least 10 per cent of deposits, corresponding to the percentages of the reserves required for State banks. One-third of the reserve required to be held by the trust companies in the city of New York may consist of bonds of the United States, of the State of New York, or of cities of the first and second class, within the State. Of the remaining portion one-half must be in lawful money on hand, and the balance may be deposited, subject to call, in banks and trust companies approved by the State superintendent of banks.

FOREIGN BANKS OF ISSUE.

The following table exhibiting the principal items of resources and liabilities of foreign banks is compiled from late reports published in financial journals and is complete only in respect of loans, cash holdings, and circulation:

CAPITAL, SPECIE, CIRCULATION, ETC., OF THE PRINCIPAL FOREIGN BANKS OF ISSUE FROM LATEST OBTAINABLE REPORTS, 1906-7.

[Expressed in millions of dollars.]

REPORT OF THE COMPTROLLER OF THE CURRENCY.

FOREIGN SAVINGS BANKS.

At the request of the Comptroller statistics have been compiled and an analysis thereof submitted for this report, from the latest data available, by Dr. I. M. Rubinow, of the Bureau of Statistics. The statistics are divided into three tables, which appear in the appendix as Nos. LII, LIII, and LIV, the first relating to the number of depositors, average number of depositors per thousand of population in postal and other savings banks, with the number and percentage of increase. The second pertains to deposits, the amount and percentage of increase, the average deposit, and average deposit per inhabitant. The third table is confined to statistics in relation to postal-savings banks, showing the number of depositors, amount of deposits, and average deposit for the latest and prior years, with the amount and percentage of increase. In the tables the countries have been segregated by continents and the totals given for each continent in addition to the general total.

In the analysis of Table LII it is stated that the data in regard to the number of depositors show the average number for all countries possessing savings banks to be about 109 per 1,000, with only a slight increase over the preceding year and strong fluctuations between various continents and countries. Europe, with its large savings, does not show the highest average number of depositors per 1,000 inhabitants, Australasia having almost twice as many, namely, 301 against 166 for Europe, as well as a more rapid growth, the increase in the average number of depositors in the year being 9 per 1,000. In many European countries, however, the average number of depositors is considerably higher than in Australasia, Denmark having 511, Switzerland 419, Sweden 364, Norway 342, Belgium 323, France 309, Netherlands 295, Germany 285, and the United Kingdom 274 depositors per 1,000 inhabitants. The countries enumerated have 1 savings-bank deposit for every 2 to 4 inhabitants, while the proportion in this country is only 1 to 10. The small average for the whole of Europe is due mainly to the small average number of depositors in Russia, Spain, Hungary, and the countries of the Balkan Peninsula. The change in the number of depositors during the brief period of one year is characteristic of the economic conditions. The increase has been 11 per 1,000 in Belgium, 9 in France, 12 in Netherlands, 9 in Norway, 6 in the United Kingdom, while Italy is the only country in Europe showing a large decrease, though the accuracy of this is somewhat questionable, owing to the fact that it was impossible to obtain data relative to private savings banks for any year except 1904; and while the decrease in number of depositors in postal savings banks was very large, it might have been compensated by an increase in the number of depositors in private savings banks. Outside of Europe, savings banks seem to be developing to a considerable extent in Anglo-Saxon countries only. On the two American continents, they exist, outside of the United States, in the main, only in the British colonies, and the same is true of the continent of Africa; but one notable exception to this is found in the case of Japan, which has more savings bank depositors even than this country, the average number of depositors per 1,000 inhabitants being 260, or more than 1 depositor to 4 inhabitants, the increase in one year being 22 per 1,000. The total increase in the number of depositors during the last year,

in all countries outside the United States, seems to have been about 3,500,000, of which 1,879,000 was in Europe and 1,437,000 in Japan.

Statistics of savings deposits for the latest and prior year, the percentage of increase, the average deposit per depositor, and the average deposit per inhabitant are shown in Table LIII. In the total amount of deposits, the predominance of Europe is much stronger than in the number of depositors. The total deposits of the world, outside of the United States, have increased from \$7,969,000,000 to \$8,417,000,000, an increase of \$448,000,000, or 5.62 per cent. Of this increase, \$406,000,000 belongs to Europe. The total deposits in the United States (\$3,690,000,000) are greater than in any other country, Germany being second with \$2,831,000,000, followed by Austria, United Kingdom, and France, in the order named. Of the total deposits outside of the United States almost 95 per cent are to be found in Europe and 2.8 per cent in Australasia, leaving a little over 2.5 per cent for all the other countries. Notwithstanding its great number of depositors, Japan has deposits amounting to only \$76,000,000, the average deposit in 1906 being but \$6.05, the smallest of any country. With the exception of a few minor colonies, such as St. Helena or Falkland Islands, the United States has the highest average deposit (\$429.64) per depositor. The average deposit in Canada (\$293.07) is greater than in any European country. The highest average deposit per depositor in Europe (not taking Malta into account) is found in Hungary, \$239.84, and Austria, \$187.32. The average in Germany is \$163.71, and in Denmark, \$160.98. In the Latin countries the average deposit seems to be considerably smaller, being \$65.59 in Belgium, \$74.03 in France, and \$35.71 in Italy. The average deposits per inhabitant are subject to variations equally great. For all countries outside of the United States the average was only \$10.52; in Europe, \$18.60, and in Australasia, \$47.61. In Europe the highest average deposit per inhabitant was found in Denmark, \$82.26 in 1905; in Switzerland, \$62.20; Germany, \$46.66, Norway, \$43.38, and Austria, \$38.20. The lowest average deposits per inhabitant are found in Russia, \$3.67, Spain, \$2.90, and Bulgaria, 68 cents. In the various colonies of Australasia the average deposits per inhabitant vary from \$33.94 in Tasmania to \$53.52 in New Zealand, the average in Australasia having increased from \$44.73 in the prior year to \$47.61 in the year of latest returns. The increase in the average deposits in Australasia is shown to have been greater than in any other country or continent. For all American countries, outside the United States, the average deposit per inhabitant is only \$4.91, an increase of but 16 cents over the preceding year. In Africa the average is only 97 cents as against \$1.08 in the preceding year, due to a considerable reduction in the savings banks deposits in Cape Colony and Natal. In Asia the average deposit per inhabitant is still smaller, being only 40 cents during the latest year for which statistics are available, as against 35 cents during the preceding year.

Special interest attaches to Table LIV, relating to postal savings banks, and wherein is shown the number of depositors for the latest and preceding year, the per cent and amount of increase in deposits, and the average deposit for the two years. The number of depositors in postal savings banks was a trifle over 51 per cent of the depositors in all foreign savings banks, although the amount of such deposits

is but 24 per cent of the total of all foreign savings banks. The average deposit in postal savings banks is \$52.36, against an average of \$111.73 in all foreign savings banks. That postal savings banks are favored by the smaller depositors is shown by comparison of the average deposit in postal savings banks and all savings banks combined in those countries where both classes of savings institutions exist. Thus, in Austria the average savings account in the postal savings bank is only \$22.39, against \$187.32 in all savings banks. In Finland the average deposit in postal savings banks was \$18.79, against \$100.33 in all savings banks; in France, \$53.90, against \$74.03; in Hungary, \$24.78, against \$239.84, and in Russia, \$66.95, against \$94.13.

From the tables in question, compiled by the Bureau of Statistics, others have been prepared confining the data, relating to all savings banks, to the number of depositors, amount of deposits, average deposit account, and average deposit per inhabitant; and with respect to postal savings banks to the number of depositors and amount and average deposit.

The tables in question follow:

NUMBER OF DEPOSITORS AND AMOUNT OF DEPOSITS IN SAVINGS BANKS IN FOREIGN COUNTRIES, 1904-1906.

^a Exclusive of securities deposited with the postal savings banks, the nominal value of which on Dec. 31, 1906, was \$11,094,000.

BANKING POWER OF THE WORLD.

The banking power of the United States in 1907, as represented by capital, surplus and other profits, deposits and circulation of national and other reporting banks, together with the estimated amount of funds of this character in the nonreporting banks, is shown to be \$17,824,847,682. The items composing this sum are set forth in the accompanying table:

BANKING POWER OF THE UNITED STATES.

	Num-ber.	Capital.	Surplus, etc.	Deposits.	Circulation.	Total.
National banks.....	6,429	\$383,690,917	\$720,413,039	^a \$4,503,568,351	\$547,918,696	\$6,655,591,003
State, etc., banks.....	13,317	807,178,262	924,655,016	8,776,755,207		10,508,588,479
Nonreporting banks.....	^b 4,191	92,357,000	13,411,200	534,900,000		660,668,200

^a Includes Government deposits.

^b Estimated capital, etc., based on reports received from private banks.

From the latest and most reliable data obtainable, the banking power of foreign countries is estimated at \$27,034,200,000, the details being set forth in millions of dollars in the following table:

Banks.	Capital.	Surplus, etc.	Deposits.	Circulation.	Total.
British Empire.....	\$1,207.2	\$666.4	\$9,016.1	\$416.4	\$11,306.1
Continental Europe.....	411.7	a 143.8	1,481.4	3,590.5	5,627.4
Central and South America and other foreign banks.....	306.2	100.3	957.5	340.4	1,704.4
Foreign savings banks.....			8,396.3		8,396.3
Total.....	1,925.1	910.5	19,851.3	4,347.3	27,034.2

^a Partial.

In 1890 Mulhall estimated the world's banking power at \$15,985,000,000, the United States being credited with \$5,150,000,000 of this amount. Since that year the banking power of the United States has increased to the extent of \$12,674,800,000, or over 246.1 per cent; that of foreign countries \$16,199,200,000, or 149.5 per cent, and the combined banking power \$28,874,000,000, or 180.6 per cent.

The statement following relating to the banking power of the world in 1890 and 1907 shows also the amounts and percentages of increase in 1907 over 1890:

Classification.	1890.	1907.	Increase.	
			Amount.	Percent.
Banking power of the United States.....	<i>Millions.</i> \$5,150.0	<i>Millions.</i> \$17,824.8	<i>Millions.</i> \$12,674.8	246.1
Banking power of foreign countries.....	10,835.0	27,034.2	16,199.2	149.5
Banking power of the world.....	15,985.0	44,859.0	28,874.0	180.6

WORLD'S STOCK OF MONEY.

From the latest and most reliable data obtained by the Director of the Mint, it is estimated that at the close of the calendar year 1906 the stock of money of the world was \$14,281,100,000, divided as follows: Gold, \$6,888,900,000; silver (full and limited tender), \$3,260,200,000; uncovered paper currency, \$4,132,000,000. Eighty-two per cent of the gold, that is, \$5,588,900,000, was held by eight countries of the globe, and in amounts in the order named: United States, \$1,593,300,000; Germany, \$1,030,300,000; Russia, \$939,400,000; France, \$926,400,000; United Kingdom, \$486,700,000; Austria-Hungary, \$306,400,000; Italy, \$215,500,000, and Spain, \$90,900,000. Over 56 per cent of the stock of silver, namely, \$1,834,900,000, is held by the same countries, the United States leading with \$698,700,000, followed by France with \$411,100,000; Germany, \$219,700,000; Spain, \$173,700,000; United Kingdom, \$116,800,000; Austria-Hungary, \$105,300,000; Russia, \$77,900,000, and Italy, \$31,700,000. Forty per cent of the stock of uncovered paper currency was also held by these countries, the United States again leading with \$610,800,000; France

being second on the list with \$269,200,000, followed by Germany with \$267,100,000; Italy, \$150,600,000; Austria-Hungary, \$119,300,000; United Kingdom, \$116,800,000, and Spain, \$97,100,000. Outside of the countries named India has the largest stock of gold, namely \$337,300,000, followed by Argentina with \$102,700,000. The stock of gold in Japan is \$80,100,000. The latter country reports silver to the amount of \$48,200,000 and uncovered paper currency, \$96,900,000. Exclusive of the United States, the largest stock of silver is in India, namely \$603,800,000. The circulation of Colombia, with the exception of \$100,000 in gold, is in uncovered paper currency, stated at \$1,000,000,000. The per capita of gold, \$23.57, and of all money, \$40.88, is the greatest in France, followed by the United States, with a per capita of gold of \$18.66 and a per capita of all money of \$33.99. Germany is third in the list, with a gold per capita of \$17.00 and an aggregate per capita of all circulation of \$25.03. The details of the Mint report relate to 47 countries, and include information as to the monetary standard, monetary unit, and population of each country.

CLEARING-HOUSE TRANSACTIONS AND ISSUE OF CLEARING-HOUSE LOAN CERTIFICATES.

The New York Clearing House Association was organized in 1853, and the report therefrom for the year ended September 30, 1854, showed a membership of 50, representing a capital of \$47,044,900. The amount of clearings was \$5,750,455,987, the average daily clearings being \$19,104,505. The average daily balance paid in money was \$988,078, the percentage of balances to clearings being 5.17. The membership for the year ended September 30, 1907, was 54; capital represented, \$129,400,000; clearings for the year, \$95,315,421,238; average daily clearings, \$313,537,570; aggregate balances paid in money, \$3,813,926,108, the proportion of balances to clearings being 4 per cent. The aggregate clearings of the association for the fifty-four years ended September 30, 1907, are shown to have been \$1,856,617,161,436, the average daily clearing \$112,426,860, and the average ratio of balances to clearings 4.64 per cent. The transactions of the association for the current year were less by \$8,438,678,853 than during the year ended September 30, 1906.

Mr. William Sherer, manager of the New York Clearing House, has kindly furnished this office with the report of the transactions of 114 clearing houses in the United States for the year ended September 30 last, the total clearings reported being \$154,662,515,258, as against \$157,681,259,999 for the previous year, a net decrease of \$3,018,744,741. From every city increases are reported for the current year, with the exception of the following:

New York, decrease	\$8, 438, 678, 853
Philadelphia, decrease	45, 177, 568
Rochester, decrease	6, 724, 479
Savannah, decrease	5, 368, 950
Memphis, decrease	17, 818, 560
Peoria, decrease	4, 344, 089
Fargo, decrease	1, 428, 751
Jacksonville, (Ill.), decrease	334, 034

The clearing-house transactions of the whole country, from 1900 to 1907, were as follows:

1900 -----	\$84,000,000,000
1901 -----	114,000,000,000
1902 -----	115,000,000,000
1903 -----	113,000,000,000
1904 -----	102,000,000,000
1905 -----	140,000,000,000
1906 -----	157,000,000,000
1907 -----	154,000,000,000

Incident to the usual business of clearing, documents termed "clearing-house certificates," representing specie or lawful money deposited for the purpose, are issued for the convenience of members of the association in settling balances. Under section 5192 of the Revised Statutes such certificates are deemed to be lawful money in the possession of any association belonging to the clearing house issuing such certificates. In addition to the issue of certificates representing deposits of lawful money, clearing-house associations under exceptional circumstances have issued clearing-house loan certificates based on bills receivable and other securities approved by the loan committee. In 1873 the New York Clearing House by its loan committee authorized the issue of certificates bearing 7 per cent interest, in denominations of \$5,000 and \$10,000 to an amount not in excess of 75 per cent of the securities deposited, except when the securities consisted of either United States stocks or gold certificates, when certificates were issued upon the par value of such securities. It was provided that the certificates in question were to be issued for use in the settlement of balances of the clearing house for a period not extending beyond the 1st of November, 1873. The interest accruing thereon was apportioned among the holding banks. The first issues were dated September 22 to 29, and amounted to \$22,080,000. From October 1 to 29 the aggregate amount issued was \$3,205,000, and from November 1 to 20, \$1,280,000. The total issue was \$26,565,000, all of which was redeemed and canceled in less than four months from the date of the first issue. The Philadelphia clearing house issued similar certificates to the extent of \$6,785,000.

"This measure," says the Comptroller of the Currency in his report for 1884, "was not taken until after the panic (1873) had assumed such proportions that the use of certificates and the consequent relief to the banks in settling their balances at the clearing house could not restore confidence."

As a result of the large number of bank failures in 1883, considerable financial uneasiness developed during 1884, and culminated on May 6 with the failure of the Marine National Bank of New York, followed on May 13 by the closing of the Second National Bank of New York, when a defalcation in that association to the extent of \$3,185,000 was discovered. The suspension of the Metropolitan National Bank followed on the next day, with that of a number of bankers and brokers. The New York Clearing House promptly took action by authorizing the issue of clearing-house loan certificates bearing 6 per cent interest, under practically the same conditions as in 1873. In connection with the crisis of 1884, the Comptroller in his annual report that year said:

There is little doubt that one of the causes which led to the local disturbance among the banks, national and state, and private bankers, of the city of New

York. was their intimate relation in many instances with the New York Stock Exchange, and the fact that a large portion of the loans made by the banks and bankers of New York were based upon the security of stocks and bonds, often speculative in their character, which are dealt in and regularly called at the stock board.

The issues of loan certificates in 1884, beginning with May 15 and terminating June 6, aggregated \$24,915,000, all of which, with the exception of \$5,290,000, had been redeemed by October 3 of that year. On October 1, 1885, there was still outstanding \$2,680,000, of which \$1,945,000 was issued to the Metropolitan National Bank, which had been placed in liquidation, and \$735,000 to State banks in New York City. These certificates were redeemed and canceled in due course.

The following is a copy of the loan certificates issued in 1884:

No. ————— \$10,000

LOAN COMMITTEE OF THE NEW YORK CLEARING HOUSE ASSOCIATION.

NEW YORK, *May 15, 1884.*

This certifies that the ——— National Bank has deposited with the committee securities in accordance with the proceedings of a meeting of the association held May 14, 1884, upon which this certificate is issued. This certificate will be received in payment of balances at the clearing house for the sum of ten thousand dollars from any member of the Clearing House Association. On the surrender of the certificate by the depositing bank above named, the committee will endorse the amount as a payment, on the obligation of the said bank, held by them, and surrender a proportionate share of collateral securities held therefor.

————— }
 ————— }
 ————— }
 ————— } Committee.

During the monetary stringency of 1890, clearing-house loan certificates were again brought into use in New York, Boston, and Philadelphia. The total issue made by the New York Clearing House amounted to \$16,645,000, beginning with November 12 of that year, and the entire issue was retired by February 7, 1891. In Boston the issue began November 19, 1890, the maximum reached being \$5,065,000, the last of the issue being retired on January 6, 1891. A total of \$9,655,000 was issued by the Philadelphia Clearing House from November 19, 1890, to May 22, 1891, all of which was promptly retired.

As a result of the unprecedented condition of the money market from June to September, 1893, extraordinary remedies were called into action. In that year about 160 national banking associations suspended, all of which, however, with the exception of 54, having placed their affairs in satisfactory condition, were authorized to resume business. As in 1873, 1884, and 1890, recourse was had to the use of clearing-house loan certificates to the amount and by the associations indicated in the accompanying table.

	Date of issue of first certificate.	Date of largest amount outstanding.	Largest amount outstanding.	Date of surrender of last certificate.	Amount outstanding Oct. 31, 1893.
New York.....	June 21, 1893	Aug. 29 to Sept. 6, 1893.....	\$41,490,000	Nov. 1
Philadelphia.....	June 16, 1893	Aug. 15, 1893.....	10,965,000	\$3,835,000
Boston.....	June 27, 1893	Aug. 23 to Sept. 1, 1893.....	11,445,000	Oct. 20
Baltimore.....do.....	Aug. 24 to Sept. 9, 1893.....	1,475,000	845,000
Pittsburg.....	Aug. 11, 1893	Sept. 15, 1893.....	987,000	332,000
Total.....	66,362,000

The aggregate issues of clearing-house loan certificates, from 1873 to 1893, inclusive, were as follows:

Year.	Association.	Amount.
1873.....	New York.....	\$26,565,000
	Philadelphia.....	6,785,000
1884.....	New York.....	24,915,000
1890.....	do.....	16,645,000
1890.....	Boston.....	5,065,000
1890-91.....	Philadelphia.....	9,655,000
	New York.....	41,490,000
	Philadelphia.....	10,965,000
1893.....	Boston.....	11,445,000
	Baltimore.....	1,475,000
	Pittsburg.....	987,000

The manager of the New York clearing house submits the following corrected statement relating to the issue of loan certificates by that association from 1860 to 1893, inclusive:

Loan committee of—	Date of first issue.	Date of last issue.	Date of final cancellation.	Aggregate issue. ^a	Maximum amount outstanding.	Date.	Rate of interest.
1860.....	Nov. 23, 1860	Feb. 27, 1861	Mar. 9, 1861	\$7,375,000	\$6,860,000	Dec. 22, 1860	<i>Per ct.</i> 7
1861.....	Sept. 19, 1861	Feb. 17, 1862	April 28, 1862	22,585,000	21,960,000	Feb. 7, 1862	6
1863.....	Nov. 6, 1863	Jan. 9, 1864	Jan. 30, 1864	11,471,000	9,608,000	{ Nov. 27 to Dec. 1, 1863 }	6
1864.....	Mar. 7, 1864	Apr. 25, 1864	June 13, 1864	17,728,000	16,418,000	{ Apr. 20, 1864 }	6
1873.....	Sept. 22, 1873	Nov. 20, 1873	Jan. 14, 1874	26,565,000	22,410,000	Oct. 3, 1873	7
1884.....	May 15, 1884	June 6, 1884	Sept. 23, 1886	24,915,000	21,885,000	May 24, 1884	6
1890.....	Nov. 12, 1890	Dec. 22, 1890	Feb. 7, 1891	16,615,000	15,205,000	Dec. 12, 1890	6
1893.....	June 21, 1893	Sept. 6, 1893	Nov. 1, 1893	41,490,000	38,280,000	{ Aug. 29 to Sept. 6, 1893 }	6

^aNature of collaterals in 1860: United States stocks, Treasury notes, stocks of State of New York; in 1861: Temporary receipts of the United States for purchase of government bonds; in 1863: United States or New York State stocks, bonds, etc., or temporary receipts as in 1861; in 1864: Same as in 1863; in 1873: Bills receivable, stocks, bonds, and other securities; in 1884, 1890, and 1893: Same as in 1873.

CLEARING-HOUSE EXAMINATIONS.

For several years past there has been an increased tendency on the part of all banks to make independent examination in addition to those made by the national-bank examiners. This is considered most desirable, and has been encouraged in every way by the Comptroller's office. Within the last year or two such examinations have been inaugurated by some of the clearing-house associations in the large cities. So far the trial of this system has been very satisfactory, and it is therefore recommended to the consideration of the clearing-house cities of the country as a means by which better methods of banking can be attained.

The examinations by a national-bank examiner and the power of the Comptroller's office are necessarily more or less limited to the discovery of specific violations of the national-bank act, and criticisms and recommendations of the Comptroller's office can not always be made sufficiently mandatory. The information acquired by clearing-house committees, through their own examinations, has in many cases resulted in their being able to enforce better methods and more conservative policies.

DIGEST OF BANK CASES.

In the appendix, immediately preceding the statistical tables, appears a digest of decisions in bank cases rendered since the last publication, the most important of which are the following:

Tax on circulation under section 3417, as distinguished from tax on national bank circulation; tax on corporations (Iowa and Kentucky), capital being invested in United States bonds; civil and criminal liability of directors and other officers of national banks; lien on securities deposited for special purpose and lien on stock; verification and attestation of reports of condition and false entries in reports; liability of trustee and pledgee of national bank stock; payment of capital stock and rights of stockholders on increase of capital.

DIAGRAMS.

Following the text of the report will be found a folder in which are diagrams, in colors, relating, first, to the amount and composition of the circulating medium of the country from 1863 to June 30, 1907, and, second, to the progress of banking as shown by the amount of capital, circulation, individual deposits, and loans of national banks on or about October 1, 1863-1907.

The act providing for the resumption of specie payments in 1879 was passed January 14, 1875. With the exception of a limited amount of specie, estimated by the Department at \$25,000,000, the circulating medium of the country from 1863 to 1875, inclusive, consisted of legal tenders, commonly known as "greenbacks," national-bank and State-bank notes. State-bank circulation was practically eliminated in 1865 by the imposition of the 10 per cent tax. In July, 1875, the circulating medium consisted of \$375,000,000 legal tenders, \$354,000,000 national-bank notes, and \$42,000,000 fractional currency. In the year following, legal tenders and national-bank notes had declined to \$369,000,000 and \$332,000,000, respectively, and the fractional currency to \$34,000,000. In that year, 1876, in addition to the estimated amount of specie on the Pacific coast (\$25,000,000), subsidiary silver appeared to the amount of \$27,000,000. In 1877 there was an appreciable increase in the metallic currency, but a decrease in the amount of legal tenders and national-bank notes. In 1878 the volume of outstanding legal tenders was fixed at \$346,681,016. With the resumption of specie payments in 1879, specie, including bullion in the Treasury, amounted to over \$357,000,000, the remaining stock of money in the country consisting of \$346,681,016 legal tenders and \$329,691,697 national-bank notes. The stock of coin, including bullion, in the Treasury steadily increased to 1890, when it amounted to \$1,152,000,000. This amount was not exceeded until 1897, when it reached \$1,214,000,000. From the last-named date to 1907 there was a rapid and notable increase in the stock of metallic currency, reaching \$2,159,000,000 in June last out of the total circulating medium of \$3,116,000,000.

The second diagram shows variations in circulation and capital to a comparatively limited extent, but the progress, as indicated by deposits and loans, is most notable. There was a gradual increase in these two items up to 1875, but a material decline in 1878, the year

preceding resumption of specie payments. The effect of the panics of 1884 and 1893, and the agitation of the silver question in 1896 are distinctly shown in the decline in deposits and loans.

INCREASE AND RETIREMENT OF CIRCULATION.

The following table shows the total outstanding circulation of the national banks at the end of each report year from 1900 to 1906, and the amount at the end of each month for the year ending November 30, 1907.

CIRCULATION OUTSTANDING, SECURED BY BONDS AND LAWFUL MONEY, ON OCTOBER 31, 1900, TO OCTOBER 31, 1903, AND AT THE END OF EACH MONTH, YEAR ENDING NOVEMBER 30, 1907.

Date.	Circulation outstanding secured by—		Total.
	Bonds.	Lawful money.	
October 31—			
1900	\$298,829,064	\$32,864,348	\$331,693,412
1901	328,198,613	31,713,070	359,911,683
1902	355,783,189	44,693,145	380,476,334
1903	380,650,821	58,959,862	419,610,683
1904	424,530,581	32,750,919	457,281,500
1905	490,037,806	34,470,443	524,508,249
1906	536,933,169	46,258,816	583,171,985
1906.			
November 30	546,981,447	46,399,102	593,380,549
December 31	549,280,084	46,882,385	596,162,469
1907.			
January 31	549,698,574	46,498,995	596,197,569
February 28	549,737,373	46,605,649	596,343,022
March 31	547,633,063	49,579,000	597,212,063
April 30	550,204,771	49,709,069	599,913,840
May 31	553,614,574	48,325,976	601,940,550
June 30	555,570,881	48,217,809	603,788,690
July 31	555,923,290	48,372,596	603,395,886
August 31	556,945,887	47,110,434	604,056,321
September 30	556,101,329	47,885,785	603,987,114
October 31	562,727,614	47,252,852	609,980,466
November 30	610,156,008	46,062,188	656,218,196

Reference to this table shows the very rapid increase in circulation which has taken place since October 31, 1900, amounting on November 30, 1907, to \$324,524,784. Of this increase, \$46,000,000 occurred during November, 1907.

This increase during the month of November was due to the efforts of the Treasury Department to increase the circulation to meet the special emergency. It is quite probable that if this crisis is followed by a general reduction in the volume of business, the volume of currency may become redundant, so that it may be very desirable to have this circulation retired in order to prevent possible export of gold. This makes more evident the necessity of a change in the law, which has been recommended by every Comptroller of the Currency for many years, by removing the limit on the amount of currency that may be retired in any one month by the deposit of lawful money.

On this account the Comptroller would again most earnestly recommend that this section of the law be repealed, and that the amount of bank notes which would be thus retired in any one month be left to the discretion of the Secretary of the Treasury and the Comptroller of the Currency. The only reason for this provision of the law is the

possibility of some concerted action on the part of the banks to contract the currency against the general interests of the people. The discretion lodged in the two officers of the Treasury Department, who would have direct charge of the interests of the people in these matters, could be relied upon to protect the public against any possible contingency of this kind, and this is a matter that can, with safety, be left to their judgment.

THE CRISIS OF 1907.

Certainly since as long ago as the date of the San Francisco catastrophe there has been no lack of warning indications of financial troubles and possible business disaster. For at least ten or twelve years there has been an era of advancing prices and great industrial, commercial, and speculative activity in all the countries of the world. Credits have increased and multiplied until the limit has been reached in the amount of reserve money on which they must be based.

For at least two or three years, however, it has been becoming more and more evident that there must soon be a slackening of pace if we were to avoid a general and universal crisis in financial and commercial affairs. These conditions have been world-wide and not by any means confined to the United States. Crises of more or less severity have arisen in several important countries. As is always the case when there is a demand for liquidation, it first manifested itself in the stock market. For months there has been a more or less steady decline in stock-market quotations. Not only stocks, but the very best bonds, have dropped lower and lower in price. The difficulty in selling bonds has become so great that for several years many of the railways have had to raise money for their necessary expenditures and improvements with so-called short time notes, instead of regular bond issues, the rates of interest on such issues rising higher and higher and each issue being harder to place. Merchants and manufacturers of the highest standing and credit have found it more and more difficult to secure or renew loans and the rates have risen steadily for months past.

With such conditions existing we approached the autumn crop-moving period, when there is always more or less disturbance of credits on account of currency shipments and withdrawals of balances from the reserve cities. For a time it seemed as if there were good reason to hope that there might be no more than a gradual liquidation which might be conducted in detail, one interest or line at a time, beginning with the stock market, and that while there might be a general decline in the volume of trade and the gradual liquidation of credits, it would not develop into a bank or commercial crisis. But during the month of October the collapse of a highly speculative corner in stocks, dealt in on the "curb" in New York—not even listed on any regular exchange—brought suspicion upon an old, well-established national bank in the city of New York. Although examinations by the national-bank examiners and the New York clearing house committee showed this bank to be entirely solvent, with its large capital and a considerable surplus still beyond question intact, public interest had been aroused to such an extent that runs developed in New York City on a number of other banks and trust companies and some national banks between which and the bank first under

attack there was known to be community of ownership and management. The national banks of New York City were all found to be solvent by the clearing house committee, and being supported by the clearing house banks none failed.

But, unfortunately, a few other banks and trust companies were not in such good condition, and many of them, not being members of the clearing house or any similar association, they were not so well prepared for cooperation and support of each other. The Knickerbocker Trust Company, with \$1,200,000 of capital and \$48,337,000 of deposits, closed its doors on October 22, and this was followed by a large number of failures among smaller banks and trust companies. During the months of October and November ten State banks and trust companies, two of which have since resumed, closed their doors in New York City and vicinity. There were long and serious runs on two large trust companies, which were only kept from failure by the support of the other trust companies and the clearing-house banks. One national bank, the First National Bank of Brooklyn, which was clearing-house agent for two large trust companies in Brooklyn which had failed, was compelled to close its doors on October 25 in order to avoid the responsibility for the clearings of these trust companies, and is now in the hands of a receiver.

On October 26 the New York clearing-house banks decided to issue clearing-house certificates for use in the payment of balances, and to limit, if not suspend, the shipment of currency to out-of-town banks. In this the New York banks were followed by those of the other central reserve and most of the reserve cities. The result was to at once precipitate a most serious bank crisis and a famine of currency for pay rolls and other necessary cash transactions. All domestic exchanges were at once thrown into disorder and the means of remittance and collection were almost entirely suspended. Money has been withdrawn and hoarded by individuals, corporations, and even more, perhaps, by the banks themselves, all of whom at once drew and held all the money of any kind they could obtain, often really in larger sums than needed.

It has been one of the peculiar features of the situation that there has actually been more of a panic among the banks themselves than there has been among the people. The banks have been fearful as to what might develop, and finding their usual reserve deposits only partially available, if available at all, they have been compelled in self-protection to gather from every source all the money they could possibly reach and to hold on to it by refusing payment wherever it is possible and satisfying their customers with the smallest possible amount of cash. It has been remarkable how patiently and with what forbearance the people in the business community generally have borne with the situation and helped the banks to deal with the emergency. With the exception of the first excitement in New York and some smaller runs in other places, there has really been surprisingly little excitement or uneasiness among the people.

The greatest hardship to business generally has been the derangement of the machinery for making collections and remittances. As can readily be seen, this has interfered with every kind and class of business and led to great curtailment of business operations of every kind. Factories have suspended, workmen have been thrown out of employment, orders have been canceled, the moving of crops has been

greatly retarded and interfered with and exports have fallen off at a time of the year when they should be at their highest. Another result has been a reduction of the volume of the foreign credits available just at the time they are most needed to offset the large imports of gold which have been made.

CENTRAL BANK OF ISSUE AND RESERVE.

The conditions which led to the panic of October and November, 1907, were not due to the failure of a few individual banks. They were not due to the lack of confidence of the people in the banks, but more to a lack of confidence of the banks in themselves and their reserves. Banks have been fearful that the reserve system would break down, and in consequence it has broken down, and the reserve deposits have been only partially available. They were also fearful that not sufficient currency could be supplied to meet the demand, and as they all made the demand at once, there has not been sufficient currency. The result has been a currency famine.

The remedy for this state of affairs is to improve the reserve system so that the reserve deposits of the banks can be kept in a bank where they are surely and certainly available. We must impart to our currency system some element of elasticity, so that when there comes a sudden demand for currency it can be supplied in bank notes, without depleting the supply of reserve money.

These two most desirable changes can be best accomplished—in fact, they can only be satisfactorily accomplished—through the establishment by the Government of a central bank of issue and reserve. This is the system which has been adopted and found to work most satisfactorily in the great commercial countries of Europe and is the one that gives the surest promise of satisfactory operation in this country.

Such a bank would not only solve the two great problems of our banking system, but it would also provide the machinery for conducting the Treasury operations in their relations to the banks with the least disturbance.

The chief weakness of our present national banking system is the provision in regard to reserve deposits, which piles reserve on reserve, in reserve cities and central reserve cities, without requiring a sufficient amount of actual cash reserve on hand. As we have seen in the present crisis, when a real emergency arises these reserves are not reserves at all, because they may in a day become unavailable.

It will be an improvement to add to the proportion of reserve to be held in cash by the country banks and the reserve city banks, but the proper solution of the difficulty is to increase the amount to be held in cash by all the banks and require all the reserve deposits to be kept with a central bank organized for that purpose. The increase in cash reserves from 6 to 10 or even 15 per cent in the country banks would not help a bank very much when it had any large demand for its deposits. What such a bank needs is a safe reserve in cash and a further reserve with a bank where it is surely available, at any time, in currency. This would be the case with reserve deposits in a central bank. Further than this, the depositing bank could be sure that at any time, as long as it was solvent, it could go to the central bank and get any amount of cash needed on the notes of its customers, or other good security. With such a bank to depend on, no solvent bank need ever have any fear of its ability to meet all demands.

The present banking law prescribes a minimum reserve on deposits in central reserve cities—New York, Chicago, and St. Louis—of 25 per cent, all of which must be in the vaults of the bank, in lawful money. The reserve cities are required to keep 25 per cent reserve, one-half of which may be on deposit in the central reserve cities. Banks in all other cities are required to keep 15 per cent of reserve, of which three-fifths may be on deposit with reserve or central reserve cities, all three classes of banks being given credit for their 5 per cent redemption fund as reserve. Whenever there is a disturbance among the banks and any impairment of confidence, this system is always a source of weakness instead of strength. This is what may make a panic among the banks before there is even any decided uneasiness among their depositors. The banks realize upon what a small margin they depend, and each one, in self-defense, is compelled not only to collect its loans, but withdraw its deposit reserves.

Under this reserve system, deposits of \$10,000,000 in country, or nonreserve city banks, would call for a cash reserve to be kept in their vaults of but \$600,000. They could carry and count as reserve \$900,000, on deposit with reserve city banks. These reserve city banks would be required to have in their vaults cash to the amount of only \$112,500, and might deposit \$112,500 in central reserve cities, who, in turn, would have to have on hand 25 per cent, or but \$28,125 in cash.

To recapitulate this in the form of a table:

CASH RESERVE ON DEPOSITS OF \$10,000,000.

	Amount of deposits.	Cash reserve in vaults.	Deposited with reserve agents.	Possible loans.
Country banks	\$10,000,000	\$600,000	\$900,000	\$8,500,000
Reserve city banks (amount above deposited by country banks)	900,000	112,500	112,500	675,000
Central reserve city banks (amount as above deposited by reserve city banks)	112,500	28,125	84,375
Total	11,012,500	740,625	1,012,500	9,259,375
Per cent of total deposits		6 $\frac{3}{4}$	9 $\frac{1}{4}$	84
Per cent of original deposit		7 $\frac{1}{2}$	10 $\frac{1}{4}$	92 $\frac{1}{4}$

Amount of cash outside original country banks, \$140,625, or 1.4 per cent.

It will thus be seen that the country bank keeps but 6 per cent on hand in cash, and of the country bank's reserve deposits the city banks keep but 1.4 per cent on hand in cash. There is therefore but 7.4 per cent of cash, or \$740,625, kept unloaned anywhere against this deposit of \$10,000,000 in the country banks. Of this but \$140,625 is outside the country bank's own vaults. If, therefore, there is a reduction in the deposits of the country banks of \$150,000 out of \$10,000,000, or only 1 $\frac{1}{2}$ per cent, it calls for more cash or reserve money than has been kept on hand for the whole \$10,000,000 in the reserve banks.

Is it any wonder, then, that the demand in the fall for about \$200,000,000 in currency for crop moving always makes a disturbance and that when this demand was accompanied by withdrawal of deposits and a curtailment of credits, caused by uneasiness and distrust, that the banks were forced in self-defense to partially suspend payments, adopt clearing house certificates, and various other expedients to furnish currency to meet such an emergency? The surpris-

ing thing is not that there has been such a disturbance of credit and business, but that the situation has been met as well as it has. It speaks volumes for the credit of the banks that they have done as well as they have, and shows the confidence of the people in their ultimate solvency and strength. It is the greatest possible evidence of the wisdom, patience, forbearance, and sound, conservative sense of our business men.

It does not, however, speak well for our political wisdom that this condition has been allowed to stand unchanged without any attempt to improve our laws. This situation is nothing new, but has been known to all students of our banking and currency system and written and talked about for many years. It has produced disturbance and stringency every autumn for forty years, and panic after panic.

It is directly and immediately due to this that the crisis of October, 1907, assumed the phase of a bank panic and spread all over the country, instead of being confined to the comparatively few people and concerns who were first involved, and it undoubtedly added to and spread the business reaction in all directions.

The people of all the world have been overtrading for years, especially in the United States, and the reaction was inevitable and doubtless desirable, but it might and should have been more gradual and should not have had its greatest effect on our banks. Many firms might have failed and probably some banks which were badly extended or loaded up with speculative loans and securities. We should have had a gradual, though considerable, reduction in the volume of all kinds of business and a wholesome period of economy and more normal living and trading. This would have been, in the end, beneficial, and with the wonderful recuperative resources and wealth of the United States any business properly managed and based on right conditions would soon have improved and have been as prosperous as ever. There is no reason at all that our banks, as a whole, should have become involved as they have and not only their business, but that of all their customers, have been so disturbed as it is to-day. All that is needed to have prevented this is a proper system of credit bank-note currency and bank reserves, both of which could have been supplied by the central bank of issue and reserve.

If the banks had known that there were facilities for exchanging any reasonable amount of deposit credits to note credits without depleting cash reserves, and, further, that the reserves that they had were on deposit where they would be immediately and surely available in currency, there need have been no alarm among them. There would have been no scarcity of currency; no derangement of the domestic exchange; and there would have been no panic among the banks nor among the people.

The only way in which bank deposit credits can be properly protected from sudden and unexpected calls, when all may be involved at the same time, is by a system of note credits which can be at any time immediately exchanged for the deposit credits. They are essentially the same thing, and should be, daily and hourly if necessary, convertible from one to the other, at the option of the creditor who is the depositor or note holder. The bank of issue should be required, and must in self-defense, keep the same reserves against notes as against deposits. If this is done, there is no expansion or inflation when a note is paid out to a depositor, and no contraction when a note is re-

turned to the bank for deposit. With a given amount of reserve money, a given total of deposits and notes can be maintained, and it makes no difference to the bank or anyone else but the customer, who uses either, at his own option, whether the deposit remains in the bank as a credit to be checked against or is taken away in the shape of a circulating note. The only thing is to make the note, from the circumstances and conditions of its issue, perfectly secure to the holder, which can be done with absolute safety in a credit note.

Our bond-secured bank notes offer no help to a bank in any sudden call for deposits. From their very nature they are fixed currency, issued on the secured-currency principle, as distinguished from the credit or banking principle. When issued they stay out indefinitely, without redemption, merely being renewed on the average once in two years because they are worn out. They can not be issued or retired quickly, and the purchase of bonds for their security requires as much money as they furnish when issued. It is only when the bonds for security can be borrowed or there is some government deposit obtained that they are of any value in meeting an emergency calling for deposits. Nor will it help the situation any to increase the volume of bonds obtainable as security for notes or to accept as security for them other than United States Government bonds. That would only add to the volume of the rigid, inelastic notes, such as we now have, and they would be no more responsive to the demands of business. There would be some power of expansion until they were all issued; then they would stay out with no more tendency to contract when not needed than we have at present. They would tend to inflation, but having no tendency to contract there would be no expansion possible to offer relief in any emergency calling for current cash or the payment of deposits. What is needed in such a case is note circulation which can change quickly and automatically in response to the demand, and contractibility is quite as necessary as expansibility.

The issue of the so-called emergency credit notes, with a high tax to retire them when not needed, would be somewhat better than more bond-secured notes, but the high tax would prevent their use except when the situation had become acute and the emergency very grave. Their issue would at once be a confession of weakness and a danger signal that no bank would dare make until in desperate condition. They undoubtedly would be useful in emergencies, and would be a great aid in restoring confidence and quieting a panic after it might be well under way, but they would not be an efficient means of preventing panics, except so far as there might be some moral effect from the knowledge that they would be available in case conditions became bad enough to justify their use.

The present bank-note circulation can be best improved and made elastic by permitting the banks to issue a fixed percentage of their note-secured circulation or capital in notes uncovered by bond deposits. If, against these notes, banks are required to carry the same reserve as against deposits, it will preserve the similarity which is necessary between note credits and deposit credits. These notes can be made perfectly safe by a guaranty fund of not over 5 per cent, which would be many times the amount of money required to redeem the notes of failed banks, based on the experiences of forty-four years. There should be a graduated rate of taxation on these notes, beginning with not over $2\frac{1}{2}$ per cent, and reaching finally to

6 or 7. The addition of such notes to our system would do much to improve it, but still it is not believed that it would be as efficient or as satisfactory in anyway as to have all the credit notes issued by a central bank of issue.

The use of clearing-house certificates by the banks has been found a very efficient means for their defense, and has, on many occasions, probably prevented a great number of bank failures during panics, and there is some merit in the suggestion that the clearing house should be recognized by law and authorized, under certain conditions, to issue clearing-house certificates for use as emergency circulation. The adoption of this idea might make a great improvement in our banking system, but this is only a half-way measure. The full development of the national clearing-house idea in the adoption of this principle should carry us further and to the inevitable and logical conclusion and lesson to be drawn from it, which is that we should have a national central bank of issue and reserve.

Instead of stopping at the issue of clearing-house certificates, which are really credit notes on a large scale, it would be far better to have these notes issued by a central bank under Government authority and under proper laws and regulations. This could be done far more systematically and efficiently; it would have none of the disadvantages of the other system, and would have all its advantages, and more besides.

It is useless to try to evade this question or dodge the issue. The need is far more for something that will prevent emergencies and panics than for devices to be used in stopping one after it has occurred. The only way to make our system what it should be is through the agency of a national governmental bank. The experience of all other countries has demonstrated this. Every important commercial country in Europe has adopted this general plan. If we had had such a bank in operation in 1907, no such bank panic as we have had would have been possible. Unless we do something of this kind we shall always be in danger of a recurrence of the same thing, and we shall have panic after panic until we learn the plain lesson from experience and adopt the only efficient, scientific, and proper means to protect our people in business from such disasters. This is a matter that is of even greater interest and importance to business men, and the people generally, than it is to the banks themselves.

When a panic occurs the banks are able, as they have been in the last few weeks, to stand together, and through their clearing-house associations and other means, cooperate for their own protection. They issue clearing-house certificates and other temporary currency, and by partial or more or less complete suspension of payments tide things over and avoid failure. They call for and very properly receive all the aid that can be given them by the Treasury Department, and the National Government, and the net result is that while a few banks that are badly expanded or improperly managed fail, the great majority of them are able to take care of themselves.

While such a condition prevails among the banks, the other business of the country is almost in a state of chaos. All the machinery of domestic exchange suddenly stops. Collections are almost impossible to make, and it is almost equally difficult to make remittances. When a business man has obligations coming due, not only his bank account is unavailable, but the people who are indebted to

him, and who may want to pay, are entirely unable to send him remittances, in any shape, which he can make available. Manufacturers are forced to suspend; workmen are thrown out of employment; business men are forced to fail, through no fault of their own, but simply for the reason that suddenly, and without warning to them, all the banking machinery and facilities of the country break down and cease to perform their proper functions. There is no citizen of the United States who is free from the dangers, losses, and embarrassments produced by such a situation, and probably the worst feature about it all is that after such a panic there is always a long period of depression, bringing suffering and privation to those who are the least to blame.

There can be no higher duty of government than the passing of the necessary laws and the adoption of a system to prevent occurrences which produce such widespread financial injury and disaster. The thing absolutely essential for banking is a system of thoroughly safe bank notes, which will be responsive to the demands of business and as readily contract as expand; and, in addition to this, a system of bank reserves, which will be real reserves when needed and always immediately available.

There have been many plans suggested by which some elasticity may be introduced into our national bank-note currency. All of them have more or less merit, and all of them have some serious objection. The best way, and in fact the only thoroughly efficient and good way, to issue these notes is through a central Government bank. That is the way it is done in France, where they have had, for more than a century, a central bank which is the admiration of the world. It is the method adopted after several experiments in Germany, and it has worked with great satisfaction and benefit to all the German people. Business is very much the same all over the world, and our problem is so similar to theirs that we should take profit from their experience and learn from them how to perfect our system.

The installation of a proper central bank would not only be a great benefit to all the business of the country and a great protection to our people, but it would solve the problem of the relations of our Treasury Department to the business of the country. It would give us not only a reliable and efficient system in handling our Government finances, but add stability and safety to our banking system. It would shield and protect the citizen in all the relations which are so vital to him for the conduct of his business or the support of his family. From the very necessity of the case our Treasury Department must have vast transactions in the collection and disbursements of its revenues, which vitally affect the business of the country every day of the year. In its relations with the banks and financial institutions, not only through the funded debt and deposits made with them, but in the collection of revenues and disbursements, the operations of the Treasury are so vast and their ramifications so infinite that it is of vital importance that they be conducted by the most systematic and efficient means which can be devised.

For several years past the revenues of the Government have been largely in excess of expenditures, and there has been a constant problem presented to each successive Secretary of the Treasury as to the best means of replacing in circulation the money which the Government is forced to collect. The method of replacing it by

deposit with the banks is probably the only one available and, although it has been handled with unusual skill and ability, is most unsatisfactory, unsystematic, and inefficient. It always is a matter which provokes criticism and complaint. It could be handled with far better results if the Government had under its control a central bank to which all revenues could be paid and through which all disbursements could be made. It would be better for the Government and would result in far better service to the people.

Many plans have been suggested for the organization and control of a central Government bank. An essential feature of it should be that it must be under Government control, so that it could never be monopolized or used by any man or set of men. It should be kept out of politics. The men chosen for its managers and directors should be men of the highest character and ability, whose duties and interest would be for the undivided advantage and interest of the bank. It would not be difficult to accomplish this end by having the control divided between certain directors elected by the shareholders and a certain number chosen by the Government.

The bank should not be allowed to do a general or commercial business, but should be confined to the transactions of the Government business, the issue of credit notes, receiving reserve deposits from other banks, the discount of their paper on approved security, or rediscounting notes of their customers for other banks. It should also have the right to deal in United States Government bonds, and probably the bonds of States and municipalities, but not in stocks. It should have such authority for dealing in foreign exchange as will enable it to accumulate gold credits abroad and import gold and bullion when needed for its reserves. The main office of the central bank should be in the city of Washington, and such branches established in the reserve cities and sub-treasury cities as are found necessary. Its note issues should be credit notes, the same as in Germany and France, and they should have the same protection in the way of a very large gold reserve, the balance to be covered by bonds of the Government or other approved issues or by the notes discounted by it for other banks. The central bank, if given the exclusive right to issue credit bank notes, as it should have, could regulate the issue of notes in accordance with the demand, which could be determined automatically and with precision, through its relations with the other banks of the country. This should not make any change in the present bond-secured notes of the national banks, and would therefore not disturb the present volume of the currency or make any change in the demand for United States Government bonds as a basis for circulation. Such a bank as is described, if established, would be a very great aid in the establishment of the postal savings bank system and make that a real practical question. One of the hardest problems in connection with the postal savings bank is to determine how the deposits should be handled and invested, or how deposited with the banks, in order to prevent the postal savings bank only adding to the amount of money the Government now takes out of circulation. The postal savings bank funds could be deposited with the central bank of issue and reserve, and thus be made available for the business of the banks, which would lead to their distribution wherever needed.

Undoubtedly the most practicable plan which has been suggested would be to have the stock of the central bank subscribed by the other

banks in a fixed proportion to their capital. In addition to this, there might also be some shares sold by public subscription, with a limit as to the amount or number of shares which could be held by any individual. If it should be deemed advisable, there could be no objection to the Government owning a certain proportion of the shares, which might be paid in in cash or in Government bonds, but as there would be no trouble in getting all the capital needed this would seem to be unnecessary. The better plan would be to have the stock subscribed by the banks of the country in a fixed percentage of their capital; have the stock nontransferable, and require its surrender at its par value when any bank failed or went out of business. The national banks should be compelled to subscribe for this stock in proportion to their capital on entering the system. The capital would thus expand as the number of banks increased and there would be more business for it to do. The directors of the bank should be chosen, two-thirds by the shareholders and one-third by the United States Government. Some of the Government directors, if necessary, could be given the right to veto certain transactions, and the interests of the Government, and of the people generally, could be protected in this way. The profits of the bank should be limited, and the bank be conducted for the general welfare, not with a view of making profits. After providing for the accumulation of a moderate surplus there should be a return to the shareholders of, say, 3 or 4 per cent, and the remainder of the profits should be divided as in Germany—a small proportion to the shareholders and the balance to the United States Government.

A national central bank organized in this way, with its profits limited and its ownership widely distributed, mainly among the banks who were to be its customers, which would not be permitted to do a commercial business, but be limited to transaction of business with the Government and with other banks, would not be open to the objection urged against the former United States banks, that they were really private institutions engaged in a general banking business.

Such a bank would be little more than a department of the Government. It would greatly improve the efficiency and value of the Treasury Department, and make it a means of assistance and benefit to business, instead of a menace and a danger, and would make our currency and banking system a source of impregnable strength in times of financial stress. By the wise use of its great powers and facilities it would be able to absolutely prevent the recurrence in the United States of a widespread bank panic. It would add to the stability of our business in every line and give us a banking and a financial system equal to any in the world.

The central bank of issue and reserve is urged mainly in the interest of people engaged in general business outside of the banks as a protection to them. The banks would have no interest in it except as it aided the general welfare. In fact it would rather tend to reduce the profits of the banks, and would interfere with the business of some banks holding large reserve deposits. The advantage to the banks would be in the protection afforded them in the reliability and mobility of their reserves and the steadiness and safety it would insure to business transactions of all kinds. If a satisfactory plan for the mutual guarantee of deposits by the banks can be worked out, it could be done through the means of the central bank better

than through the Treasury Department. Some of the objections to the guarantee of deposits by the General Government would not hold in the case of its being done by a central bank which might be given power to do that in its charter.

If the experience of the country in the bank panics from 1857 to 1893 needed any further confirmation, the panic of 1907 has demonstrated beyond the possibility of denial that perfectly solvent banks—if independent, isolated units with no power of cooperation except through such voluntary association as their clearing houses—can not protect themselves in a panic and save themselves from failure without such a suspension of payments as to produce disorder and demoralization in all the business of their customers.

Well managed, sound, and solvent banks have been dishonored by having to refuse payment, and all our commercial, industrial, and financial affairs have been thrown into confusion because the Government fails to provide the necessary financial machinery to protect them in times of excitement and peril. No single bank or group of banks can do this for themselves. They must depend on the Government of the United States. For this reason this question is submitted for your consideration.

The solution of such a vast problem as this presents is not to be hoped for in any short time. Opinions are still too diverse to bring about quickly any such agreement as is necessary to accomplish a definite and final result.

In the meantime, we have a real emergency to face. Confidence is only in a measure restored and, while there is real progress being made, it is from necessity very slow. The banks are resuming as fast as they dare, and this is increasing daily, but it could be done more quickly and with much greater benefit to business if some aid could be given by legislation.

If a bill should be passed by Congress providing for some emergency issue of currency, through the clearing-house associations or other machinery now organized and existing, so that the action might promise to be very prompt and effective, it would doubtless be very helpful.

If the action taken should meet with such approval and indorsement as to convince bankers and business men that it would meet the emergency, it might operate as the suspension of the bank act has done in England on several occasions and give the relief needed before the provisions of the act ever were really in operation.

Any measure of this kind, however, to be of any assistance in this emergency must be adopted very promptly.

WM. B. RIDGELY,
Comptroller of the Currency.

THE SPEAKER OF THE HOUSE OF REPRESENTATIVES.

APPENDIX.

DIGEST OF BANK DECISIONS.

[The following decisions have been rendered during the period covered by this report.]

ATTACHMENT.

Vacation—Action by adverse claimant against garnishee.

(U. S. C. C., 1906.) Where a fund on deposit in a bank and attached in an action in a Federal court as property of the defendant therein is claimed by others, not parties, and an action against the bank for its recovery has been instituted in a State court, the plaintiff in the Federal court should appear in such action and submit his rights to adjudication therein for the protection of the bank, and unless he does so the attachment will be vacated. (*United States v. Neeley*, 146 Fed. Rep., 763.)

CAPITAL STOCK.

SUBSCRIPTION TO CAPITAL STOCK.

Where original subscriber will be held to have acted as agent for future subscribers.

(Cal. Sup., 1900.) Where one subscribed for a number of shares, not with the intention of actually taking them, but in order to effect the incorporation and to hold them in trust for future subscribers, the original subscriber may be regarded as having acted as the agent of the subscribers to whom the stock was afterwards issued, although the stock was issued to the last subscribers directly by the corporation. (*Tulare Savings Bank v. Talbot*, 131 Cal., 45; 63 Pac. Rep., 172.)

(Ky. Appeals, 1903.) Where, in order to facilitate organization, the incorporators subscribed for the whole issue of stock, and after the completion of the organization transferred the same to new subscribers, the first subscription was merely formal, and the subscribers were mere trustees for the new subscribers. (*Somerset National Banking Co.'s receiver v. Adams*, 5 Banking Cases, 481; 72 S. W. Rep., 1125.)

Acceptance of anything but money as payment.

(Ind. Sup., 1906.) Strong reasons exist for holding that the acceptance of anything but money in payment of subscriptions to the capital stock of a banking association is illegal. (*Coddington et al. v. Canaday*, receiver of Citizens' Bank of Union City, 157 Ind., 243.)

Right of stockholder to subscribe for his proportionate share of new stock.

(N. Y. Appeals, 1906.) A stockholder in a domestic corporation has an inherent right to a proportionate share of new stock issued for money only, and not to purchase property for the purposes of the corporation or to effect a consolidation; and while he can waive that right, he can not be deprived of it without his consent, except when the stock is issued at a fixed price not less than par and he is given the right to take at that price in proportion to his holding, or in some other equitable way that will enable him to protect his interest by acting on his own judgment and using his own resources. (*Stokes v. Continental Trust Co. of New York*, 186 N. Y., 285.)

CAPITAL STOCK—Continued.

SUBSCRIPTION TO CAPITAL STOCK—Continued.

When stockholder's right to take new stock not waived by his demand to buy it at par—When he may recover damages upon sale of his share of new stock to third party—Measure of damages.

(N. Y. Appeals, 1906.) Where a stockholder in a domestic corporation consented to an increase of capital stock, but protested against the acceptance of a proposition to sell the new stock, when issued, to a third party at a fixed price, and demanded the right to subscribe and pay for his proportionate share of the new stock at par, which demand was refused by the corporation and a resolution thereafter adopted directing the sale of all the new stock, when issued, to a third party at a fixed price, which was less than the market value of such stock at the time it was issued and delivered, such stockholder, by demanding his proportionate share of the new stock at par, did not thereby waive his right to take it at the fixed price at which it was sold to the outside party, since the price was not fixed until after he had made his demand. After the price was fixed it was the duty of the directors of the corporation to give him an opportunity to purchase at that price before they could sell his property to a third party, even with the approval of a large majority of the stockholders. The stock having been sold to a third party without any opportunity being given to the stockholder to take it at the fixed price, he can recover from the corporation the difference between the value of his stock at that price and the market value of the stock upon the day it was delivered to the third party. (Ib.)

RESTORATION OF IMPAIRED CAPITAL.

Assessment must be made by the stockholders.

(U. S. C. C., 1898.) An assessment to restore impaired capital is in the opinion of the court invalid if made by the directors and not by a majority of the stockholders themselves. (*Hulitt v. Bell et al.*, 85 Fed. Rep., 98.)

REDUCTION OF CAPITAL STOCK.

Disposition of proceeds of retired stock.

(U. S. Sup. C., 1906.) Where the stock of a national bank is reduced pursuant to section 5143, Revised Statutes, but beyond the amount required to meet an impairment of capital, and the reduction is made by charging off doubtful assets to the amount of the reduction, the stockholders of record on the day of the reduction are entitled to the assets thereby set free, which, and their proceeds, may be set apart as a trust fund for such stockholders. And transfers of stock made after the reduction do not carry the interest of the original stockholders in that fund. (*Cogswell et al v. Second Natl. Bank*, Sup. Ct. of Conn., 60 Atl. Rep., 1059; 78 Conn., 75, affirmed. *Jerome v. Cogswell*, 204 U. S. R., 1.)

CHECKS.

OBLIGATION OF BANK TO PAYEE OR HOLDER.

LIABILITY OF BANK TO HOLDER IN STATES WHERE ISSUANCE OF A CHECK IS HELD NOT TO BE AN EQUITABLE ASSIGNMENT OF THE DEPOSIT.

Assignments—Check as equitable assignment—Priority—Receivers.

(U. S. C. C., 1906.) The giving of a check on a bank in the ordinary form does not constitute an equitable assignment pro tanto of an indebtedness owing by the bank to the drawer, nor does the fact that the

CHECKS—Continued.

OBLIGATION OF BANK TO PAYEE OR HOLDER—Continued.

LIABILITY OF BANK TO HOLDER IN STATES WHERE ISSUANCE OF A CHECK IS HELD NOT TO BE AN EQUITABLE ASSIGNMENT OF THE DEPOSIT—continued.

check was presented, where it was not paid nor accepted, entitle the holder to priority of payment, on the drawer's subsequent insolvency, from a fund due from the bank or collected by a receiver. (*Eastern Milling and Export Company v. Eastern Milling and Export Company of Pennsylvania*, 146 Fed. Rep., 761.)

CERTIFICATION OF CHECKS.

ACTION ON CERTIFIED CHECK.

Burden of proof.

(Mich. Sup., 1906.) In an action against the receiver of an insolvent bank on a fraudulently certified check, the burden was on plaintiff to show that he was a bona fide purchaser. (*Detroit Natl. Bank v. Union Trust Co.*, 145 Mich., 656; 108 N. W., 1092.)

Whether plaintiff was bona fide purchaser question for jury.

(Mich. Sup., 1906.) In an action against the receiver of an insolvent bank on a fraudulently certified check, held a question for the jury whether plaintiff was a bona fide purchaser. (Ib.)

Evidence admissible.

(Mich. Sup., 1906.) In an action by a bank against the receiver of an insolvent bank on a fraudulently certified check, discounted by plaintiff, it was proper, on the issue as to plaintiff's good faith in taking the check, to show the knowledge of plaintiff's officers as to the pecuniary standing and dealings of the drawer of the check and the insolvent, the volume of similar business done, the terms upon which it was done, whether the transactions were ordinary in their character, that the business done with the drawer of the check by plaintiff was not known to plaintiff's directors, that the transaction was a loan to the drawer instead of a legitimate transaction, and that printed official statements of the insolvent brought to the knowledge of plaintiff's officers showed an item of certified checks less in amount than certified checks on the insolvent held by plaintiff at the time. (Ib.)

Trial—Arguments of counsel—Appeals to sympathy.

(Mich. Sup., 1906.) In an action against the receiver of an insolvent bank on a fraudulently certified check discounted by plaintiff bank, it was prejudicial error for counsel for defendant to argue to the jury as to the solvency of plaintiff and that the creditors of the insolvent bank were poor. (Ib.)

Witnesses—Cross-examination—Matters not included in direct examination.

(Mich. Sup., 1906.) In an action against the receiver of an insolvent bank on a fraudulently certified check discounted by plaintiff, it was competent for defendant to cross-examine at length the witness of plaintiff on the question of plaintiff's bona fides, though they were not examined on that subject in direct examination. (Ib.)

Certified checks—Rights of holder—Defenses.

(Mich. Sup., 1906.) In an action against the receiver of an insolvent bank on a check fraudulently certified and discounted for the drawer by plaintiff bank, the fact that more money was advanced to the drawer on the check than plaintiff bank was authorized to loan or that usurious charges were made, did not invalidate plaintiff's claim. (Ib.)

CIRCULATION.

Section 3417, Revised Statutes, refers to circulation of State banks converted into national banks and not to national-bank circulation.

(U. S. Court of Claims, 1906.) Congress was dealing with State banks and State banking associations in enacting the legislation culminating in the passage of sections 3411 and 3417 of the Revised Statutes. The exceptions contained in section 3417 of the Revised Statutes manifestly were intended to cover the tax imposed upon the circulation of State banks taken over and assumed by national banks upon their conversion into a national bank and not upon the average circulation of a national bank as such. And this is clear from section 9 of the act of July 13, 1866 (14 Stat. L., 146), carried into the Revised Statutes as sections 3410, 3411, 3412, and 3416, the latter of which sections provides, in substance, that when a national bank assumes the liabilities of a State bank such national bank is thereby required to pay the tax on the circulation of such State bank so long as it exceeds 5 per cent of the capital before such conversion of such State bank or banking association. (*Merchants National Bank of Baltimore v. United States*, U. S. Court of Claims, Dec. 3, 1906, vol. 42, p. —.)

COLLECTIONS.

INDORSEMENTS WHEN RESTRICTIVE, EFFECT OF.

(Ala. Sup., 1906.) A holder of a draft sent it to a bank for collection, with instructions to collect and remit the proceeds to a banker for the holder's credit. In view of the instructions, the relation between the bank and holder was that of principal and agent, and not that of creditor and debtor or general depositor, and the bank could not, without the consent of the holder, change the relation by any conduct in dealing with the proceeds. (*Hutchinson et al. v. National Bank of Commerce*, 41 South. Rep., 143.)

CONSTITUTIONALITY.

Congress has the right to subject State banks doing business in the District of Columbia to national banking laws.

(U. S. C. C., 1907.) By act June 25, 1906 (34 Stat., 458), amendatory of Code District of Columbia, all banking or trust companies organized under the laws of any of the United States having an office or banking house located within the District of Columbia, where deposits or savings are received, are made subject to the provisions of the national banking act. They are required to make and publish reports, and the Comptroller of the Currency is given power to examine into their condition, "and, when in his opinion it is necessary, to take possession of any such bank or company for the reasons and in the same manner and to the same extent as are provided in the laws of the United States with respect to national banks." *Held*, that such act is within the constitutional powers of Congress to legislate for the District of Columbia, and that under it the Comptroller has authority to appoint a receiver for any such corporation, who may sue to collect assets in any Federal court in any part of the United States for distribution among its creditors; it being no part of the purpose of such proceeding to dissolve the corporation. (*Lyons v. Bank of Discount of City of New York*, 154 Fed. Rep., 391.)

District of Columbia—Legislative power of Congress—Operation of acts.

(U. S. C. C., 1907.) The power given to Congress by the Constitution to legislate for the District of Columbia is not given to it as a local legislature, but as the legislature of the United States, and laws enacted under such power are laws of the United States and enforceable as such throughout the Union. (Ib.)

DEPOSITS.

DEPOSIT OF CHECKS AND DRAFTS.

- (Ga. Sup., 1906.) A draft is not payment until itself paid, unless there is evidence that it is the intent of the parties that it should be so treated. (*Kinard v. First National Bank*, 53 S. E., 1018.)
- (Ga. Sup., 1906.) Where a debtor placed a draft in a bank and drew a check against the deposit to discharge a note, the check was not payment until paid, and default in the payment of the draft prevented the acceptance of a check as payment. (Ib.)

APPLICATION OF DEPOSIT ON CLAIM.

Right of bank to appropriate deposit—Effect of receivership.

- (U. S. C. C., 1906.) The right given to a bank by a contract with a depositing and borrowing corporation to declare any notes of the corporation held by the bank due in case the corporation became insolvent, and to apply thereon any sum then on deposit to the corporation's credit, can not be exercised after a receiver has been appointed for the corporation, since title to the deposit passed to him at once on his appointment. (*Eastern Milling and Export Company v. Eastern Milling and Export Company of Pennsylvania*, 146 Fed. Rep., 761.)

Right to appropriate deposit—Effect of receivership.

- (U. S. C. C. A., 1907.) The right given to a bank by a contract with a depositing and borrowing corporation to declare any indebtedness of the corporation due and payable at once in case of its insolvency and to apply thereon any money, credits, or other property of the corporation then in the hands of the bank does not create a lien on any such funds or credits, but merely gives the bank an option which can not be exercised after a receiver has been appointed for the corporation in insolvency proceedings. Buffington, circuit judge, dissenting. (*Corn Exchange National Bank v. Locher et al.*, 151 Fed. Rep., 764.)

APPLICATION OF DEPOSIT TO DEBT DUE BANK.

- (Col. Sup., 1906.) When it was arranged between a town and a bank that the town should give the bank its account, and that warrants of the town should be carried as cash, a warrant carried by the bank becoming payable, but the town refusing payment, the bank had the right to apply deposits belonging to the town to the payment of the warrant. (*Manitou et al. v. First National Bank of Colorado Springs*, 86 Pac. Rep., 75.)

TRANSFER OF DEPOSIT AS GIFT.

- (Mass. Sup., 1906.) A donor deposited money in a bank, and, at the same time, executed a written statement that the deposit was to be paid to him if he lived, and in case of his death to a donee named. The testimony showed that the donor intended that the donee should have the money, but there was no delivery and acceptance. *Held*, that the property remained the property of the donor and passed on his death to his representatives. (*Bailey v. New Bedford Institution for Savings*, 192 Mass., 564; 78 N. E. Rep., 648.)

FORGED OR ALTERED PAPER.

WHEN BANK MAY OR MAY NOT RECOVER MONEY PAID ON FORGED CHECK.

Payment on forged indorsement—Recovery of payment.

- (U. S. C. C. A., 1907.) The ordinary rule is that, to entitle one who through mistake has paid out money on a forged indorsement of a check or other commercial paper to recover the same back, notice of the forgery must be given to the party receiving such payment within a reasonable time after its discovery. (*National Exchange Bank of Providence v. United States*, 151 Fed. Rep., 402.)

FORGED OR ALTERED PAPER—Continued.

WHEN BANK MAY OR MAY NOT RECOVER MONEY PAID ON FORGED CHECK—continued.

Action by United States to recover money paid by mistake—Laches.

- (U. S. C. C. A., 1907.) Pension checks, or warrants, issued by a pension agent of the United States on an Assistant Treasurer, are commercial paper, and the right of the United States to recover from one to whom such a check was paid on a forged indorsement of the name of the payee is governed by the ordinary rules applicable to such paper. Aldrich, district judge, dissenting. (Ib.)

GUARANTY.

- (U. S. C. C. A., 1906.) A contract for the guaranty of credits to be extended by a bank to a third party construed, and *Held* not to cover an indebtedness then existing, but not known to the guarantor. (*Peters v. Merchants and Farmers' Bank of Ponchatoula, La.*, 149 Fed. Rep., 373.)
- U. S. C. C. A., 1906.) The making of further loans by a bank to a debtor, at the request of a guarantor, is a sufficient consideration for a guaranty of the prior indebtedness. (*Peters v. Merchants and Farmers' Bank of Ponchatoula, La.*, 149 Fed. Rep., 373.)
- (U. S. C. C. A., 1906.) The rights of a guarantor considered in respect to the application of money collected from the principal debtor as between the guaranteed debt and other indebtedness not covered by the guaranty. (*Peters v. Merchants and Farmers' Bank of Ponchatoula, La.*, 149 Fed. Rep., 373.)

INSOLVENCY AND RECEIVERS.

ACTIONS BY RECEIVERS.

Right of receiver to rescind sale on account of fraudulent concealment of facts by purchaser.

- (U. S. C. C. A., 1907.) Where a defendant, having knowledge that a judgment owned by an insolvent national bank was secured by collateral of considerable value, which fact was not known to the receiver nor shown by the records, not only kept silent as to the collateral while negotiating for the purchase of the judgment, but made statements which tended to, and did, induce the receiver to believe that it was doubtful if the judgment had any value, and to sell it to defendant for a nominal price, such conduct amounted to an active and fraudulent concealment which entitled the receiver to a rescission of the sale. (*Files v. Rankin*, 153 Fed. Rep., 537.)

ACTIONS AGAINST RECEIVERS.

Injunction—Receiver of national bank—Direction to retain fund pending suit.

- (U. S. C. C. A., 1907.) When a party asserts the ownership of property, or a specific lien thereon, it is within the discretion of the trial court to retain the property within its jurisdiction until the questions at issue can be determined, even though such property is a fund in the hands of the receiver of a national bank and an injunction is necessary to restrain him from transmitting it to the Comptroller of the Currency in the usual course as required by statute. (*American Can Company v. Williams*, 153 Fed. Rep., 882, affirming on rehearing *American Can Company v. Williams*, U. S. C. C. A., 149 Fed. Rep., 200.)

PREFERENCES IN INSOLVENCY.

Bankruptcy—Preference—Creation.

- (U. S. Dist. Ct., 1906.) Where, a day or two before open insolvency of a bank and the closing of its doors, defendant, its receiving and paying teller, with full knowledge of its insolvency, drew his check against the fund and paid himself \$3,100 which he claimed as a creditor of

INSOLVENCY AND RECEIVERS—Continued.

PREFERENCES IN INSOLVENCY—continued.

the bank, such transaction constituted a preference which was recoverable in an action against him by the bank's trustee in bankruptcy. (In re Plant; Corbin v. Mumford, 148 Fed. Rep., 37.)

Receiver—Appointment—Equitable lien.

(U. S. Dist. Ct., 1906.) The appointment of a receiver for the bank a day or two after the payment of such check constituted an equitable levy on the funds so received by the teller as well as on the other assets of the bank in its possession. (Ib.)

JURISDICTION.

When circuit court has jurisdiction of suit by stockholders' agent.

(U. S. Sup. Ct., 1906.) An action for rent of premises for unexpired term of a lease brought by the lessor against the stockholders' agent to whom the Comptroller has released the assets of a national bank is a suit to wind up the affairs of the bank, of which the circuit court of the United States has jurisdiction. (International Trust Co. v. Weeks, 203 U. S. R., 364.)

Action by receiver of national bank.

(U. S. C. C., 1907.) An action by a receiver of a national bank to recover assets is one by an officer of the United States suing under authority of an act of Congress, within the Revised Statutes, section 629 (U. S. Compt. St., 1901, p. 503), of which a circuit court of the United States has jurisdiction without regard to the amount involved or the citizenship of the parties. (Murray v. Chambers, 151 Fed. Rep., 142.)

Costs—Amount of recovery—Action by receiver of national bank.

(U. S. C. C., 1907.) An action by a receiver of a national bank to recover assets is not within the Revised Statutes. Section 968 (U. S. Comp. St., 1901, p. 702), denying costs to a plaintiff who recovers less than \$500. (Ib.)

LIEN.

WHEN NATIONAL BANK MAY HAVE LIEN.

Lien of bank—Special deposit of securities.

(U. S. C. C. A., 1906.) A bank has no general lien on securities deposited with it for a special purpose. (Van Zandt v. Hanover National Bank, 149 Fed. Rep., 127.)

Construction of agreement for lien.

(U. S. C. C. A., 1906.) Defendant bank prepared and took a contract, signed by a correspondent bank, by which the latter agreed that "all bills of exchange, notes, * * * money, and property of every kind owned by the undersigned, * * * deposited with the said bank or under its control, as collateral security for loans or advances already made or hereafter to be made, to or for account of the undersigned, by said bank or otherwise," might be held by it as security for any and all indebtedness of the correspondent. *Held*, that such contract applied only to security or property deposited with defendant as collateral security, the words "or otherwise" having reference to the nature of the liability for which the collateral should remain as security, and not to the manner in which it came into defendant's possession, and that it did not give defendant a lien on notes sent it by the correspondent for discount and credit, but which it declined to discount, to secure an overdraft unintentionally made by the correspondent in the expectation that the notes would be discounted and the proceeds placed to its credit. (Ib.)

Contracts—Rules of construction.

(U. S. C. C. A., 1906.) An instrument is to be most strictly construed against the party who prepared it. (Ib.)

LIEN—Continued.

WHEN NATIONAL BANK MAY HAVE LIEN—continued.

Set-off and counterclaim—Trovee and conversion.

(U. S. C. C. A., 1906.) A defendant can not plead an indebtedness of plaintiff as a set-off or counterclaim in an action at law for conversion in a Federal court. (Ib.)

Bankers' lien—Statutes—Construction.

(U. S. C. C. A., 1906.) The lien given to a banker by revised statutes, Idaho, 1887, section 3448, declaring that a banker has a general lien dependent on possession on all property in his hands belonging to a customer for the balance due him from such customer in the ordinary course of business, is limited to property taken by a banker in the usual course of the banking business, such as banks are in the habit of dealing in, or in taking on deposit, or for collection, or otherwise, as notes, bonds, stocks, and other choses in action, and does not include stocks of merchandise, etc., which can not conveniently pass into the actual possession of the bank. (In re Gesas; In re Commercial National Bank of St. Anthony, 146 Fed. Rep., 734.)

Bankruptcy—Transfers—Preferences—Validity.

(U. S. C. C. A., 1906.) A bankrupt, while insolvent, and while making other like transfers of his property for a like purpose, about ten days prior to the filing of a petition in bankruptcy by his creditors, asking that he be adjudged a bankrupt, which was done a short time after, transferred certain of his property to certain banks, without any new consideration, which operated to give them a preference over other creditors. *Held*, that the transfers were unenforceable. (Ib.)

LIMITATION OF ACTIONS.

Time while trust was fraudulently concealed not to be computed.

(U. S. C. C., 1907.) Under code West Virginia (sec. 3511), *Held*, that the time during which a bank's president fraudulently concealed from it its right to have him account as a trustee de son tort was not to be computed in the limitation period. (Huntington National Bank v. Huntington Distilling Co., et al., 152 Fed. Rep., 240.)

Enforcement of trusts—Laches.

(U. S. C. C., 1907.) When a bank's president concealed from it the facts giving it right to have him account as a trustee de son tort, but a year after his death, and the discovery of the facts, it commenced suit, the defense of laches is not available. (Huntington National Bank v. Huntington Distilling Co., et al., 152 Fed. Rep. 240.)

LIQUIDATION.

Accounting by liquidators—Scope of oppositions.

(La. Sup., 1907.) Oppositions to the final account of their administration by the liquidators of a bank are limited to their actions as liquidators. Their acts as directors of the bank previous to the passing of the bank into liquidation, if subject to attack by the stockholders, should be advanced in some other proceeding. (In the matter of liquidation of Shreveport National Bank, 43 South., 270; 118 La.—.)

Stock—Transfer.

(La. Sup., 1907.) The directors of a bank are not estopped from purchasing with their own money shares of stock owned by other stockholders at as low a price as the owners were willing to dispose of them. If the price given was too low, it was a matter for the vendors of the stock to complain of. The stock purchased became then the absolute property of the purchasers, which they had the right to sell to whom they pleased. If they sold the stock to another corporation of which they were directors at too high a price, that was a matter to be complained of by the stockholders of the purchasing corporation. (Ib.)

LIQUIDATION—Continued.

Sales of assets—Liability of liquidators.

(La. Sup., 1907.) The liquidators of a bank reaching the conclusion that the interests of all parties required a sale of its assets, they called a meeting of the stockholders to deliberate and decide upon what should be done, notifying them of the purpose of the meeting. Notice by publication was also made. The meeting was held, and deliberated upon the subject. A sale of the assets of the bank at private sale on terms then fixed was agreed upon by all parties present. The assets were offered at auction separately and in bulk, and purchased by another bank, of which the liquidators were directors. The price was a fair one, above the appraised value fixed at an appraisalment thereof made shortly before by three parties, one of them being the United States bank examiner, and above what the court is of opinion would have been realized at a judicial sale. There was no fraud nor bad faith in the sale. The stockholders of the Shreveport National Bank were not injured. Opponents made no objection to the sale at the stockholders' meeting, nor until after it took place. By their silence they acquiesced in the proceedings. Opponents do not seek to have the sale set aside, but to charge the liquidators with the face value of the assets. The demand is not well grounded and is rejected. (Ib.)

National bank has no lien on stock held by stockholder indebted to it.

(N. Y. Appeals, 1906.) Under the decision of the Federal courts a national banking association has no lien upon its stock as against indebted stockholders and is not authorized to adopt articles of association or by-laws which would give it such a lien; therefore, no equitable lien in favor of a national banking association can arise upon assets which the stock of the association represents, when such assets come to be distributed upon the liquidation of the affairs of the association. (Bridges v. National Bank of Troy, 185 N. Y., 146; 77 N. E., 1005.)

Bank can not offset debt due from stockholder against claim of stockholder's assignee for liquidation dividends payable upon assignor's stock.

(N. Y. Appeals, 1906.) A stockholder indebted to the bank made a general assignment for the benefit of his creditors, and subsequent to the assignment the bank went into liquidation, and after paying all of its indebtedness directed the distribution of the balance of its assets, amounting to 58 per cent. to the stockholders. *Held*, that the bank was not entitled to an equitable lien upon the liquidation dividend and, therefore, could not offset the debt due it from the stockholder against the assignee's claim to recover the 58 per cent. payable upon the shares of stock formerly held by his assignor. (Ib.)

NEGOTIABLE PAPER.

GENERALLY.

Bills and notes—Anomalous indorsement.

(U. S. C. C., 1906.) If a person puts his name in blank on the back of a note at the time it is made or before it is indorsed by the payee, for the purpose of giving the maker credit with the payee, he is an anomalous indorser, and in the Federal courts is liable as a joint maker or a guarantor. (Columbia Finance and Trust Company v. Purcell et al., 146 Fed. Rep., 85.)

Alteration of contract.

(U. S. C. C., 1906.) An anomalous indorser on a note could not be made liable on a contract written above his indorsement, reciting an agreement by such indorser to pay the note according to the terms of another agreement, which added several terms to the note. (Ib.)

BONA FIDE HOLDERS FOR VALUE WITHOUT NOTICE.

Bills and notes—Rights of transferee—Bona fide purchaser.

(U. S. C. C. A., 1906.) The purchaser of a promissory note for value before maturity is not deprived of his character of purchaser in good faith,

NEGOTIABLE PAPER—Continued.

GENERALLY—continued.

by proof that he took the note with knowledge of such circumstances as ought to put an ordinarily prudent man on inquiry to ascertain the facts; but the proof must go further and show that he had at the time of the transfer knowledge of facts that would impeach the title as between the antecedent parties to the note, or knowledge of such facts that his failure to make further inquiry is presumptive evidence of bad faith on his part. (*First National Bank of Council Bluffs, Iowa v. Moore*, 148 Fed. Rep., 953.)

Burden of proof.

(U. S. C. C. A., 1906.) To defeat recovery by an indorsee of a promissory note for value and before maturity, on the ground that the note was given without consideration or was obtained by fraud, the burden rests upon the defendant to prove that the indorsee had knowledge of such fact or was chargeable with bad faith. (Ib.)

Appeal and error—Record—Exceptions.

(U. S. C. C. A., 1906.) A bill of exceptions, which is certified by the trial judge to contain the substance of all of the testimony given on the trial, is sufficient to enable the appellate court to pass on the question whether the court erred in refusing to direct a verdict; the presumption being that nothing which is material to any of the exceptions taken was omitted from the bill. (Ib.)

Bills and notes—Action by indorsee—Defenses.

(U. S. C. C. A., 1906.) Evidence considered, in an action on a promissory note, and *Held*, not sufficient to warrant the submission to the jury of the defense that an indorser for value before maturity, through whom plaintiff claimed, took the note with knowledge that it was without consideration and obtained by fraud, or of facts which impeached its good faith. (Ib.)

Partnership—Trading partnership—Authority of partner—Borrowing money.

(U. S. C. C. A., 1906.) In an ordinary trading partnership, a partner has implied authority to borrow money on the credit of the firm, to draw, and accept, make, and indorse bills of exchange and notes, in the name of the firm. (*Union National Bank of Kansas City, Mo., v. Neill*, 149 Fed. Rep., 711.)

Bills and notes—Bona-fide purchaser—Authority of maker.

(U. S. C. C. A., 1906.) Though a member of a trading partnership has no implied power to sign the firm name as an accommodation indorser of a note, yet, if he does so, his unauthorized act constitutes no defense to the firm as against a bona-fide purchaser for value in due course; the paper being such as to be subject to the law merchant. (Ib.)

Bona-fide purchaser—Requisites.

(U. S. C. C. A., 1906.) Where the holder of negotiable paper acquired it before maturity from another, who was apparently the owner, and gave a consideration therefor, he obtained a good title, though he had knowledge of facts and circumstances that would cause him or a man of ordinary prudence to suspect that the person from whom he obtained it had no interest therein or authority to use it for his own benefit, and though by ordinary diligence he could have ascertained such facts. (Ib.)

Notice of suretyship.

(U. S. C. C. A., 1906.) Where a note when presented to petitioner for discount was signed on its face by three persons, the fact that the name of a partnership subsequently adjudged a bankrupt appeared as the second signer was not notice to petitioner that the firm signed only as surety for the first signer. (Ib.)

(U. S. C. C. A., 1906.) Where a series of notes discounted by petitioner were all signed by three persons, a partnership which subsequently

NEGOTIABLE PAPER—Continued.

GENERALLY—continued.

became a bankrupt being the second signer, the notes on their face did not indicate a contract of suretyship by which the second signer on being compelled to pay the entire note did so to the extent of two-thirds thereof as surety for the others. (Ib.)

Joint and several liability.

(U. S. C. C. A., 1906.) Where a series of notes were signed by three persons, the second signer being a firm which subsequently became a bankrupt, the firm's contract as principal was to pay the entire amount of the notes, and this was not changed by the fact that other signers had made the same promise. (Ib.)

NOTICE.

NOTICE TO PRESIDENT OF BANK.

Discount of fraudulent paper—Knowledge of officer.

(U. S. C. C. A., 1907.) A bank is not chargeable with notice of fraud in the inception of a note which it discounted merely because its president had knowledge of the facts, which was gained by him in his capacity as an officer of another corporation, where he had nothing to do with the discounting of the note, and had no knowledge of it at the time. (*McCalmont v. Lanning*, 154 Fed. Rep., 353.)

OFFICERS.

POWERS AND REPRESENTATION OF BANK BY OFFICERS.

Corporations—Torts of officers—Liability.

(U. S. C. C. A., 1906.) Where a banking corporation, knowing the defendant B and his associates were engaged in a confidence game, assisted in the furtherance of the scheme, both by representing to the victims as they were brought in that B was a man of standing, entitled to credit, and by lending B banking facilities, with which alone he was enabled to conduct his scheme and collect drafts, etc., drawn by the victims before payment could be stopped, and the officers of the bank themselves, with knowledge that the victims were to be defrauded, drew drafts for such victims, and telegraphed to other banks to ascertain the victims' responsibility, the bank as a corporation was liable as a party to the scheme. (*Stewart et al. v. Wright*, 147 Fed. Rep., 321.)

Evidence—Admissions of corporate officers.

(N. H. Sup., 1906.) There is no presumption of law that a vice-president and director of a bank is, by reason of his official relation to the bank, authorized to bind the bank by his admissions. (*Westminster National Bank v. New England Electrical Works*, 62 Atl. Rep., 971.)

OFFICERS, CIVIL LIABILITY OF.

DEGREE OF CARE REQUIRED OF DIRECTORS.

National banks—Duties and responsibility of directors.

- (U. S. C. C., 1907.)
1. It is the duty of directors of a national bank to exercise reasonable control and supervision over its affairs, and to use ordinary care and diligence in ascertaining the condition of its business, which is such care as an ordinarily prudent and diligent man would exercise in view of all the circumstances.
 2. Directors of a national bank are not insurers or guarantors of the fidelity and proper conduct of its executive officers, and are not responsible for losses resulting from the wrongful acts or omissions of such officers, provided they have exercised ordinary care in the exercise of their own duties as directors.
 3. If nothing has come to the knowledge of the directors of a national bank to awaken suspicion that something is going wrong, ordinary

OFFICERS, CIVIL LIABILITY OF—Continued.

DEGREE OF CARE REQUIRED OF DIRECTORS—continued.

- attention to the affairs of the institution is all that is required of them, but if, on the other hand, they know, or by the exercise of ordinary care should know, any facts which should awaken suspicion and put a prudent man on his guard, then a degree of care commensurate with the danger to be avoided is required, and a failure to exercise such care makes them responsible.
4. Directors of a national bank are not expected to watch the routine of every day's business, but they should have a general knowledge of the manner in which the bank's business is conducted, and upon what securities its larger lines of credit are given, and generally know of and give direction to its important and general affairs.
 5. It is incumbent upon the directors of a national bank in the exercise of ordinary prudence, and as a part of their duty of general supervision, to cause an examination of the condition and resources of the bank to be made with reasonable frequency.
 6. Where the directors of a national bank became aware, through the report of a committee of their number, and also by notices sent them individually by the Comptroller of the Currency, that the bank had been making excessive loans to its president and to other persons, firms, and corporations with which he was associated, but took no effective steps to reduce such loans, or to prevent their increase, which continued until the bank became insolvent, they will be held jointly and severally liable for all losses which the bank sustained through subsequent transactions and which could have been prevented by a proper discharge of their duties. (*Rankin v. Cooper et al.*, 149 Fed. Rep., 1010.)

Suit to charge directors—Limitations.

- (U. S. C. C., 1907.) Where a national bank suffered losses through the continued negligence of its directors, which was unknown to its creditors, and such directors remained in control until the appointment of a receiver on the bank's insolvency, a court of equity will entertain a suit to charge them with personal liability, notwithstanding the fact that an action at law to recover for their wrongful acts would be barred by limitation under the laws of the State. (Ib.)

Defenses—Absence of director.

- (U. S. C. C., 1907.) The mere fact that a director of a national bank does not attend to his duties by reason of continued ill health or business engagements does not necessarily relieve him from liability for losses sustained by the bank through the failure of the directors to exercise proper care and supervision over its affairs. (Ib.)

New directors.

- (U. S. C. C., 1907.) While a director of a national bank ought not to be held responsible for the conduct of its business from the very day of his election, if he has not been a director before, he becomes responsible for acts or omissions from the time he acquires knowledge of the bank's condition and begins to actively participate in its affairs. (Ib.)

Bank directors authorized to appoint a cashier—To whom is confided the custody of the money, etc.—Directors not absolved from reasonable supervision and ordinary care, but are not insurers of the fidelity of the cashier.

- (Ohio Sup., 1906.) To the directors of a bank are committed the general management and supervision of its affairs, but they are authorized to appoint a cashier and confer upon him the usual powers pertaining to such an office, and to him may be properly confided the custody of the money, securities, and valuable papers of the bank, and the supervision of its books and accounts; and while this does not absolve the directors from the duty of reasonable supervision and the exercise of that degree of care which is exercised by ordinarily careful and prudent men, acting under similar circumstances, yet they are not insurers of the fidelity of the cashier and other agents whom they have appointed; and where such directors act in good faith, and with ordinary care as defined above, they are not responsible for

OFFICERS, CIVIL LIABILITY OF—Continued.

DEGREE OF CARE REQUIRED OF DIRECTORS—continued.

losses resulting from the wrongful acts or omissions of such cashier or other agents, unless the loss is a consequence of their own neglect of duty. (*Mason v. Moore et al.*, Directors of First National Bank of New Lisbon, Ohio, 73 Ohio State, 276.)

Directors not held to know all the bank's affairs.

(Ohio Sup., 1906.) The directors of a bank are not held, as a matter of law, to know all its affairs, or what its books and papers would show, and such knowledge can not be imputed to them for the purpose of chaging them with liability. (Ib.)

LIABILITY OF DIRECTORS FOR ASSENTING TO EXCESSIVE LOANS.

Directors not liable for excessive loans unless loss is sustained by bank.

(Md. Appeals, 1906.) Directors of a national bank held not liable for the making of excessive loans, unless some injury or loss was sustained by the bank. (*Emerson v. Gaither*, 103 Md., 564; 64 Atl. Rep., 26; *Harden v. Same*, Id.; *Horner v. Same*, Id.)

DIRECTORS' LIABILITY ON PUBLIC STATEMENT.

(U. S. Sup. C., 1907.) Where in the trial and appellate courts an immunity was claimed under section 5239 Revised Statutes, as to the rule of liability to be applied to directors of a national bank and such immunity was denied, this court has jurisdiction to review the judgment under section 709, Revised Statutes, even if in other respects it might not have jurisdiction. (*Yates v. Jones National Bank*, 206 U. S. R., 158.)

(U. S. Sup. C., 1907.) The making and publishing of official reports of the condition of the bank is a duty enjoined by statute, and where a statute creates a duty and prescribes a penalty for its nonperformance, the rule prescribed by the statute is exclusive test of liability.

The national banking act as embodied in section 5239, Revised Statutes, affords the exclusive rule by which to measure the right to recover damages from directors, based upon a loss resulting solely from their violation of a duty expressly imposed upon them by a provision of the act; and that liability can not be measured by a higher standard than that imposed by the act. Where by a statute a responsibility is made to arise from its violation knowingly, proof of something more than negligence is required and that the violation was in effect intentional. (Ib.)

(U. S. Sup. C., 1907.) No opinion is expressed as to whether and to what extent directors may be civilly liable by the principles of the common law for purely voluntary statements made to individuals of the public, embodying false representations as to the financial condition of the bank, by which one who has rightfully relied upon such representation has been damaged. (Ib.)

When bank directors are not liable to purchaser of stock who relied upon published reports.

(Ohio Sup., 1906.) In an action against the directors of a national bank by one who purchases some of its stock, relying on the statements contained in its reports to the Comptroller of the Currency as to its resources and liabilities, which report was attested by the directors and published as the statute directs, some of which statements are false, whereby the purchaser is damaged, it is not error for the court to charge the jury that "it must appear by a preponderance of the evidence that at the time of the attesting and publication of said report that the directors so attesting this report, or who assented to and directed the publication of the same, did so knowing said report to be false, or under such circumstances as will warrant the jury in finding, by a preponderance of the evidence, that such director, or directors, by the exercise of ordinary care and prudence, would have

OFFICERS, CIVIL LIABILITY OF—Continued.

DIRECTORS' LIABILITY ON PUBLIC STATEMENT—continued.

known that the said report was false in some one or more of the particulars set forth in the petition." (*Mason v. Moore et al.*, Directors of First National Bank of New Lisbon, Ohio, 73 Ohio State, 276.)

ACTIONS TO ENFORCE LIABILITY.

RECEIVER'S SUIT AGAINST DIRECTORS.

Bill held multifarious against part of directors.

(Md. Appeals, 1906.) A bill of a receiver of a national bank against directors, ex-directors, and the representative of deceased directors for malfeasance and gross negligence held multifarious as to such of the directors as were not connected with more than a part of the transactions to which objection was made. (*Emerson v. Gaither*, 103 Md., 564; 64 Atl. Rep., 26; *Harden v. Gaither*, Id.; *Horner v. Gaither*, Id.)

What directors not entitled to object that the bill was multifarious.

(Md. Appeals, 1906.) In a suit by the receiver of a national bank against directors for malfeasance and gross negligence such defendants as had been directors during all of the period covering the transactions complained of held not entitled to object that the bill was multifarious. (*Emerson v. Gaither*, 103 Md., 564; 64 Atl. Rep., 26; *Harden v. Gaither*, Id.; *Horner v. Gaither*, Id.)

When statute of limitations may be pleaded.

(Md. Appeals, 1906.) Directors of a national bank who had ceased to be such prior to the failure of the bank held entitled to plead limitations as a defense to a suit by a receiver to recover losses sustained by their alleged malfeasance and gross negligence. (*Emerson v. Gaither*, 103 Md., 564; 64 Atl. Rep., 26; *Harden v. Gaither*, Id.; *Horner v. Gaither*, Id.)

OFFICERS, CRIMINAL LIABILITY OF.

WILLFUL MISAPPLICATION OF FUNDS.

Offenses by officers of national banks—Indictment for misapplication of funds.

(U. S. C. A., 1906.) In an indictment under Revised Statutes, section 5209 (U. S. Comp. St., 1901, p. 3497), charging an officer of a national bank with a willful misapplication of its funds with intent to injure and defraud the association, it is not necessary to aver that the acts set out were done without authority from the directors. (*Flickinger v. United States*, 150 Fed. Rep., 1.)

Acts constituting offense.

(U. S. C. A., 1906.) The discounting by the president of a national bank with the funds of the bank of commercial paper known by him to be worthless or fictitious, for the benefit of an insolvent corporation of which he is an officer, and with intent to injure and defraud the bank, is a willful misapplication of its funds, constituting a criminal offense under Revised Statutes, section 5209 (U. S. Comp. St., 1901, p. 3497). (Ib.)

Misapplication of funds by national bank officer—Statute construed.

(U. S. Dist. Ct., 1907.) In Revised Statutes, section 5209 (U. S. Comp. St., 1901, p. 3497), which makes it a criminal offense for any officer or agent of a national bank to embezzle, abstract, or willfully misapply "any of the moneys, funds, or credits of the association," the word "moneys" refers to the currency or circulating medium of the country, the word "funds" refers to Government, State, county, municipal, or other bonds, and to other forms of obligations and secu-

OFFICERS, CRIMINAL LIABILITY OF—Continued.

WILLFUL MISAPPLICATION OF FUNDS—continued.

rities in which investments may be made, and the word “credits” refers to notes and bills payable to the bank and to other forms of direct promises to pay money to it. (*United States v. Smith*, 152 Fed. Rep., 542.)

Sufficiency of indictment—Description of offense.

(U. S. Dist. Ct., 1907.) An indictment under Revised Statutes, section 5209 (U. S. Comp. St., 1901, p. 3497), charging that defendant, as president of a national bank, willfully misapplied a certain sum of the “funds” and “credits” of the bank by discounting the note of a person known to be insolvent, the proceeds of which were divided between such person and defendant, is insufficient in its description of the offense where it does not use the word “moneys” nor in any way describe the funds or credits charged to have been so misapplied. (Ib.)

Duplicity.

(U. S. Dist. Ct., 1907.) An indictment under Revised Statutes, section 5209 (U. S. Comp. St., 1901, p. 3497), is bad, both for duplicity and for insufficient description of the offense, where it charges the embezzlement, as well as the misapplication, of the “funds and credits” of a national bank by defendant as president, without setting forth any particular description of either and without any separate statement as to the amount, either of “funds” or of “credits,” so embezzled or misapplied. (Ib.)

Indictment must contain particular description of funds and credits misapplied.

(U. S. Dist. Ct., 1907.) An indictment under Revised Statutes, section 5209 (U. S. Comp. St., 1901, p. 3497), charging an officer of a national bank with the willful misapplication of its “moneys, funds, and credits,” must contain a particular description of the funds and of the credits charged to have been so misapplied, and show how much there was of money and of funds and of credits separately. (Ib.)

What not a misapplication.

(U. S. Dist. Ct., 1907.) An indictment under Revised Statutes, section 5209 (U. S. Comp. St., 1901, p. 3497), charging the defendant, as president and director, with having willfully misapplied certain credits of the bank, “by procuring the authority of the board of directors * * * to an acceptance of an assignment” of an interest in a partnership in satisfaction of an indebtedness due the bank, and charging the amount of such indebtedness to the account of stocks and bonds, knowing that the assignor had in fact no interest in such partnership, does not state an offense under the statute, since what was done appears to have been by authority of the board of directors, and the facts set out do not show a misapplication of credits by defendant, nor is it averred that such misapplication was made to his own use, benefit, or gain, nor to that of any person other than the bank. (Ib.)

FALSE ENTRIES.

(U. S. C. C. A., 1906.) An indictment of a national bank president, under Revised Statutes, section 5209 (U. S. Comp. St., 1901, p. 3497), alleging a false entry in a report to the Comptroller of the Currency with reference to the bank’s lawful money reserve, *Held* not objectionable for failure to allege that the lawful reserve exceeded the amount the bank actually had on hand. (*Clement v. United States*, 149 Fed. Rep., 305.)

(U. S. C. C. A., 1906.) Where the president of a national bank made a false report to the Comptroller of the Currency for the purpose of deceiving an examiner who might be appointed under Revised Statutes, section 5240 (U. S. Comp. St., 1901, p. 3516), such act constituted an offense within section 5209. (*Clement v. United States*, 149 Fed. Rep., 305.)

OFFICERS, CRIMINAL LIABILITY OF—Continued.

FALSE ENTRIES—continued.

(U. S. C. C. A., 1906.) In a prosecution for violating the national bank act, a count of an indictment, *Held* not objectionable as failing to allege that a certain farm referred to in an alleged false entry in the bank's books was known or described by a specified description, was identical with such description, and was not an asset of the bank. (Clement v. United States, 149 Fed. Rep., 305.)

JURISDICTION.

Courts—Jurisdiction of Federal courts—Special term of district court—Criminal jurisdiction.

(U. S. C. C. A., 1907.) Under Revised Statutes, section 581 (U. S. Comp. St., 1901, p. 477), which provides that special terms of any district court may be ordered by the district judge, and that "any business may be transacted at such special term which might be transacted at a regular term," a district court has jurisdiction at a special term to try a defendant on an indictment returned at a previous regular term, and it is not necessary that the order for the special term be incorporated in the record of the case to show such jurisdiction. (Goll v. United States, 151 Fed. Rep., 412.)

QUESTIONS ON INDICTMENT.

Criminal law—Indictment—Plea—Filing—Time.

(U. S. C. C. A., 1906.) A plea attacking an indictment alleged that it had been found by a grand jury two of the members of which had been chosen from the bystanders, which had "greatly prejudiced defendant." The plea was not filed until after the indictment had been filed and entered, or until seventeen days after defendant had returned to the State. The only excuse given for not interposing it sooner was that defendant was not present when the grand jury was selected, but was absent, and remained absent from the State until a time later than the return of the indictment. *Held*, that the plea was not filed in time. (Lowdon et al. v. United States, 149 Fed. Rep., 673.)

Question of sufficiency of indictment should be raised by demurrer and not by motion in arrest of judgment.

(U. S. C. C. A., 1906.) It is better practice to raise the question of the sufficiency of an indictment to charge a public offense by demurrer than by a motion in arrest of judgment. (Clement v. United States, 149 Fed. Rep., 305.)

EVIDENCE.

Certificate of Comptroller conclusive evidence that charter was extended and accepted by the bank.

(U. S. C. C. A., 1906.) A certificate of the Comptroller that a bank had complied with all the provisions of act of Congress July 12, 1882, and that its succession was extended until November 21, 1907, *Held*, conclusive evidence in a prosecution of the bank's president that all conditions precedent to the extension of the bank's charter had been complied with. (Clement v. United States, 149 Fed. Rep., 305.)

(U. S. C. C. A., 1906.) A bank, having continued its existence for a long period after the extension of its original corporate term, *Held*, presumed to have accepted a Comptroller's certificate extending its corporate term. (Clement v. United States, 149 Fed. Rep., 305.)

Prosecution for falsifying books of national bank—Evidence.

(U. S. C. C. A., 1907.) On the trial of a defendant charged as an officer or agent of a national bank, under Revised Statutes, section 5209 (U. S. Comp. St., 1901, p. 3497), with having made false entries in its books

OFFICERS, CRIMINAL LIABILITY OF—Continued.

EVIDENCE—continued.

in the accounts showing the indebtedness to it of other banks, periodical statements taken from the bank's files and purporting to have been rendered to it by such other banks, and which are shown to have been under the defendant's charge, are admissible in evidence, and they may also be identified by employees of such other banks as having been made under their direction and duly sent by them, and their correctness verified by reference to the books of such banks, which are in evidence and used in connection with such books for convenience of reference, as evidence of the true state of the account between the two banks. (*Goll v. United States*, 151 Fed. Rep., 412.)

Abstraction and misapplication of funds.

- (U. S. C. C. A., 1906.) In a prosecution of the president of a national bank for violating the national bank act (act June 3, 1864, c. 106, 13 Stat., 101 [U. S. Comp. St., 1901, p. 3486]), evidence *Held* sufficient to require submission to the jury of the question whether he willfully abstracted and misapplied to his own use funds of the bank to the extent of \$10,000, without the authority of the bank's board of directors. (*Lear v. United States*, 147 Fed. Rep., 349.)
- (U. S. C. C. A., 1906.) Evidence that the cashier of a national bank over-drew his account by means of checks which were not charged to his account, but carried in the drawer as cash and afterwards taken up by his note, all without the knowledge or consent of the board, is sufficient to warrant his conviction by a jury of misapplication of the bank's funds, in violation of Revised Statutes, section 5209 (U. S. Comp. St., 1901, p. 3497). (*Brock v. United States*, 149 Fed. Rep., 173.)

DEFENSE OF INSANITY.

- (U. S. C. C., 1907.) In a criminal prosecution, where the defendant admits the doing of the act charged, but relies on the defense of insanity, such defense has exclusive reference to the act charged and to the time of its commission. The legal presumption is that the defendant was sane, and it is the duty of the jury to convict unless on the whole evidence they have a reasonable doubt as to whether defendant when he committed the act was of sufficiently sound mind to know right from wrong and to form a criminal intent, or to resist the impulse to do the act. (*United States v. Chisholm*, 153 Fed. Rep., 808.)

Evidence—Expert testimony.

- (U. S. C. C., 1907.) While on the issue as to sanity or insanity of a defendant charged with crime, the opinions of experts are admissible, and it is the duty of the jury to give the same due consideration, such opinions constitute only a part of the evidence and are not controlling, but the jury should form their own judgment on the issue from all the proof in the case. (*Ib.*)

What prosecution may prove.

- (U. S. C. C., 1907.) Although a defendant admits the acts charged as a crime and relies wholly on the defense of insanity, it is competent for the prosecution to prove such acts, the conduct of the defendant previously, at the time of, and after, the acts, and subsequent statements or confessions made by him, as evidence which may be considered by the jury in connection with the other evidence on the question of insanity, as well as affording a basis for hypothetical questions to be propounded to medical witnesses. (*Ib.*)

Opinion of nonexpert not evidence.

- (U. S. C. C., 1907.) The opinion alone of a nonexpert upon a question of insanity is not evidence unless accompanied with a statement of the facts and circumstances within the personal knowledge of the witness upon which that opinion is based. (*Ib.*)

OFFICERS, CRIMINAL LIABILITY OF—Continued.

INSTRUCTIONS TO JURY.

(U. S. C. C. A., 1907.) Instructions given and refused on the trial of a defendant charged as an officer of a national bank, under Revised Statutes, section 5209 (U. S. Comp. St., 1901, p. 3497), with misappropriation of its funds and with making false entries in its books considered, and the charge as given, *Held*, correct and to cover fairly such of the requested instructions refused as were proper and applicable to the evidence. (*Goll v. United States*, 151 Fed. Rep., 412.)

ARGUMENT OF COUNSEL.

(U. S. C. C. A., 1906.) Where accused offered no evidence to prove his good character, and was therefore entitled to rely on a legal presumption that his character was good, it was prejudicial to accused for the prosecuting attorney in making a strong appeal to the jury to assume that defendant's character was bad because of his failure to prove the contrary, defendant's objection thereto having been overruled, and the district attorney not having withdrawn the argument.

Where, in a prosecution of certain bankers for violating the national bank act, one of defendants' attorneys in argument appealed to the jury saying: "Six of you can not return a verdict, nor eleven, but it takes twelve men to reach a verdict," the intent being to acquaint each juror with his power and responsibility, it was prejudicial error for the district attorney in reply to state that, if a juror decided that defendants were not guilty, when the juror returned home "his neighbors might conclude that the jingle of the broken bankers' unlawfully and ill-gotten gold in his pocket" had influenced his action and decision. (*Lowdon et al. v. United States*, 149 Fed. Rep., 673.)

VERDICT.

Construction.

(U. S. C. C. A., 1906.) In a prosecution for violating the national bank act (act June 3, 1864, c. 106, 13 Stat., 101 [U. S. Comp. St., 1901, p. 3486]), the indictment contained one hundred and fifty counts, covering fifty transactions, with reference to each of which embezzlement, abstraction, and willful misapplication were severally charged. The court directed an acquittal as to the charges of embezzlement and charged that the first three counts, involving a \$10,000 note transaction, might be first considered, and, if that money was abstracted or willfully misapplied, the jury should convict defendant, and need not go further into the case. The jury on returning announced that they had found defendant guilty as indicted in the third count; but the verdict, as recorded, was that the defendant was guilty in manner and form as charged in the third count in the indictment, and not guilty as to the remaining counts. *Held*, that such verdict was not tantamount to an express finding that the facts requisite to a conviction on any of the other counts had not been shown to exist, and that there was therefore no evidence on which a finding of their existence with reference to the third count could be sustained. (*Lear v. United States*, 147 Fed. Rep., 349.)

Repugnancy—Several counts.

(U. S. C. C. A., 1906.) Where an indictment under Revised Statutes, section 5209 (U. S. Comp. St., 1901, p. 3497), charging an officer of a national bank with willful misapplication of its funds, contains counts each based on the discounting of a separate instrument, and another count based on the discounting of all of such instruments, a verdict is not repugnant and inconsistent because it finds the defendant guilty on the latter count and not guilty on the former. (*Flickinger v. United States*, 150 Fed. Rep., 1.)

OFFICERS, CRIMINAL LIABILITY OF—Continued.

SENTENCE.

Sentence—Cumulative terms of imprisonment.

(U. S. C. C. A., 1905.) Under convictions upon separate counts for distinct offenses of the same character judgment may be entered and sentence passed for a specified term of imprisonment upon each count, and the terms may be made consecutive and cumulative. (*Chadwick v. United States*, 141 Fed. Rep., 225.)

When accused was convicted and sentenced on a number of counts with a provision that the time should run concurrently, he was not prejudiced by the overruling of the demurrer to some of the counts.

(U. S. C. C. A., 1906.) Where accused was indicted on twenty-seven counts, convicted on twenty-four counts, and sentenced to a term of eight years on each count, with a provision that the time should run concurrently, he was not prejudiced by the overruling of his demurrer to ten of the counts. (*Clement v. United States*, 149 Fed. Rep., 305.)

APPEAL.

Denial of application for a continuance will not be reviewed.

(U. S. C. C. A., 1906.) The denial of an application by accused for a continuance will not be reviewed on a writ of error in the absence of a showing that the trial court's discretion was abused. (*Clement v. United States*, 149 Fed. Rep., 305.)

(U. S. C. C. A., 1906.) In a prosecution for violating the national banking act, the denial of a continuance *Held* not an abuse of discretion. (*Clement v. United States*, 149 Fed. Rep., 305.)

Criminal law—Review in appellate court—Harmless error.

(U. S. C. C. A., 1907.) Where a defendant in a criminal case is convicted on a number of counts and given concurrent sentences, none of which exceeds the limit which might be imposed on any one count, an error in the admission of evidence or in the instructions relating to one or more of the counts, but not to all, is harmless. (*Goll v. United States*, 151 Fed. Rep., 412.)

POWERS.

Transfer of stock—Consummation of transfer.

(N. H. Sup., 1906.) The ownership of stock passes from the seller to the buyer by force of the contract of sale and as soon as such contract is fully consummated; but as between the buyer and the corporation, or interested third parties without notice, the buyer does not ordinarily acquire all the rights of a stockholder until the transfer is entered on the corporate records. (*Westminster National Bank v. New England Electrical Works et al.*, 73 N. H., 465; 62 Atl. R., 971.)

Transfer of title—Estoppel to deny.

(N. H. Sup., 1906.) Where a stock certificate recites that the person to whom it is issued is the owner of certain shares of fully paid and nonassessable stock, the corporation is estopped to deny the title of an innocent transferee from the stockholder who has given value for the stock on the faith of the certificate, on the ground that, by the laws of the State creating the corporation, the corporation is prohibited from issuing stock until fully paid and the stockholder has paid nothing for his stock. (*Ib.*)

Powers of national bank to acquire stock.

(N. H. Sup., 1906.) A national bank, which in the ordinary course of business receives stock as collateral security for a loan, may protect itself from loss by taking the stock in payment of the loan. (*Ib.*)

POWERS—Continued.

Rights of stockholders—Transfer of stock.

(N. H. Sup., 1906.) Where stock is valid in the hands of a transferee on the ground of estoppel against the corporation, notwithstanding its invalidity in the hands of the transferrer, the transferee has the right to have the stock transferred to him on the books of the corporation, although the law of the State creating the corporation (Civ. Code S. C. 1902, sec. 1894) provides that no transfer shall be valid, except as between the parties, until the same shall have been regularly entered upon the books of the corporation. (Ib.)

Enforcement of right—Foreign corporation.

(N. H. Sup., 1906.) The right of a transferee of stock in a corporation to have the same transferred on the books of the corporation is a contractual right, the enforcement of which does not involve an interference with the internal affairs of the corporation, and which consequently may be asserted through the courts of another State than that creating the corporation. (Ib.)

Refusal to transfer stock—Remedies of transferee.

(N. H. Sup., 1906.) A transferee of corporate stock is not confined to an action for damages for the refusal of the corporation to transfer the stock to him on its books, but may require the corporation, by bill for specific performance, to transfer the stock to him, especially where the real and prospective value of the stock depends on the future development and management of the corporate enterprise. (Ib.)

Actions to compel transfer—Laches.

(N. H. Sup., 1906.) A transferee of stock in a corporation is not guilty of laches, as a matter of law in delaying suit to compel the corporation to transfer the stock to him on its books, where it does not conclusively appear that his delay has been unreasonable or that the corporation has been in any way prejudiced thereby. (Ib.)

REPORT OF CONDITION.

If a report is not properly verified or attested the Comptroller may reject it, but if the Comptroller accepts such a report, any false entry therein is equally an offense as if the report was properly verified and attested. The penalty is affixed to the making of the false entry to deceive the Comptroller and not to the verification of the report.

(U. S. Sup. Ct., 1893.) The second objection is that Sayre had no authority to make the report, being only an assistant cashier. While, under section 5211, the report in question ought to be made by the association, verified by the oath or affirmation of the president or cashier, and attested by the signature of three directors, it was no less an offense, under section 5209, for an assistant cashier to make a false entry in a report which was to be subsequently verified by the oath of the president or cashier in person, than it would have been if the entry had been made by the cashier who verified the report. As the language of section 5209 applies not only to the president and cashier, but to any director, teller, or agent of any such association, Sayre, as assistant cashier, certainly fell within the category of clerk or agent. If he made a false entry in the report required by section 5211, it made no difference whether the report was subsequently verified by him, or by the president or cashier in person. There is no penalty affixed by section 5211 to the false verification of the president or cashier. The offense is in making the false entry, with intent to injure or defraud the association, etc.

“For the reason above given, we do not think it necessary to allege that the report in which the false entry was made was actually verified by the oath or affirmation of the president or cashier, or attested by the signature of the directors—or at least that the fact that it is averred to have been made ‘in accordance with the provisions of section 5211’ is a sufficient averment that it was properly verified and attested. If such report were not properly

REPORT OF CONDITION—Continued.

verified and attested, it would doubtless be competent for the Comptroller of the Currency to reject it, or to proceed against the association under section 5213 for failure to make and transmit a proper report; but if an assistant cashier makes a false entry in a report, which is designed to be and is made use of as a report to the Comptroller of the Currency under section 5211, it is difficult to see why it is not equally an offense, if the Comptroller of the Currency chooses to accept such report without the proper attestation and verification." (Cochran & Sayre v. United States, 157 U. S., 289.)

SHAREHOLDERS.

LIABILITY OF TRUSTEE.

- (U. S. C. C., 1907.) Revised Statutes, section 515 (U. S. Comp. St., 1901, p. 3465), provides that shareholders of every national bank shall be individually responsible for all contracts, debts, and engagements thereof to the extent of the amount of their stock therein at its par value, in addition to the amount invested in such shares, and section 5152 declares that persons holding stock as trustees shall not be personally liable for any liabilities as stockholders, but the estates and funds in their hands shall be liable in like manner as if the person beneficially interested held the stock in his own name. *Held*, that where a father voluntarily declared a trust of certain shares in a national bank for the benefit of his children in good faith and not for the purpose of evading liability, and did not hold himself out as the owner of the stock individually, he was not personally liable as a stockholder on the failure of the bank. (Fowler v. Gowing, 152 Fed. Rep., 801.)

Trusts—Investments of trust funds.

- (U. S. C. C., 1907.) The rule that trustees are not authorized to invest trust funds in the stock of national banks has no application to a trust voluntarily created by a donor as to such stock. (Ib.)

Trustee not liable after exhaustion of trust fund.

- (U. S. C. C., 1907.) Where stock in a national bank at the time of its failure was held by a trustee for the benefit of his children, the fact that the trust estate was wiped out of existence, so far as value or financial responsibility was concerned, by the failure of the bank did not charge the trustee individually as a stockholder with the additional statutory liability imposed by Revised Statutes, sections 5151, 5152 (U. S. Comp. St., 1901, p. 3465). (Ib.)

LIABILITY OF PLEDGEE.

When pledgee becomes owner and chargeable.

- (U. S. Sup. Ct., 1906.) While the mere pledgee of national bank stock can not be held for double liability as a shareholder so long as the shares are not registered in his name, although an irresponsible person may have been selected as the registered shareholder, the real owner of the shares may be held responsible although the shares may not be registered in his name. (Ohio Valley National Bank v. Hulitt, 204 U. S. R., 162.)
- (U. S. Sup. Ct., 1906.) Where the pledgee of national bank stock has by consent credited the agreed value of the stock belonging to the pledgor, but registered in the name of a third party who is the agent of the pledgee, on the note, and then proved his claim for the balance against the estate of the pledgor, the title to the stock has so vested in the pledgee that, notwithstanding the stock has not been transferred, he is liable to assessment thereon as the owner thereof. (Ib.)
- (U. S. Sup. Ct., 1906.) Where the strict compliance with the terms of a note as to sale of the collateral pledged therewith is waived by the maker, the holder who accepts the collateral at an agreed price and credits it on the note is estopped from claiming that he does not become the owner of the collateral because there was no actual sale thereof as required by the note. (Ib.)

TAXATION.

STATE AND FEDERAL STATUTES CONSTRUED.

IOWA.

State can not burden or impede power of Government to borrow money.

(U. S. Sup. Ct., 1907.) The Constitution has conferred upon the Government power to borrow money on the credit of the United States and that power can not be burdened, impeded, or in any way affected, by the action of any State. (*Weston v. Charleston*, 2 Pet., 449; *Home Savings Bank v. City of Des Moines*, 205 U. S. R., 503.)

State can not tax United States securities.

(U. S. Sup. Ct., 1907.) The tax upon the property of a bank in which United States securities are included is beyond the power of the State, and is also within the prohibition of section 3701, Revised Statutes, and other acts of Congress. (Ib.)

When tax on individual shareholder becomes tax on corporation.

(U. S. Sup. Ct., 1907.) While the tax on an individual in respect to his shares in a corporation is not a tax on the corporation, and the value of the shares may be assessed without regard to the fact that the assets of the corporation include Government securities, if the tax is actually on the corporation although nominally on the shares such securities may not be included in assessing the value of the shares for taxation. If the State has not the power to levy a tax it will not be sustained merely because another tax which it might lawfully impose would have the same ultimate incidence. (Ib.)

Effect of Iowa law taxing savings banks and trust companies.

(U. S. Sup. Ct., 1907.) The substantial effect of section 1332 of the Code of Iowa providing that shares of stock of State and savings banks and loan and trust companies shall be assessed to such banks and companies and not to the individual stockholders, and that in fixing the value of the shares capital, surplus, and undivided earnings shall be taken into account, as the law has been construed by the highest court of the State, is to tax the property of the bank and not the shares of stock, and an assessment which includes Government bonds owned by the bank in fixing the valuation of its shares is illegal and beyond the power of the State. (Ib.)

KENTUCKY.

National bank shares—Deduction of capital invested in United States bonds.

(Ky. Appeals, 1906). Revised Statutes United States, section 5219, relating to taxation of national banks, provides that nothing in the act shall be construed to prevent all the shares in any of said associations held by any person or body corporate, from being included in the valuation of the personal property of such person or corporation in the assessment of taxes imposed by State authority at the place where such bank is located and not elsewhere, but not at a greater rate than is assessed upon other moneyed capital in the hands of individual citizens of such State, and that the tax so imposed by the laws of any State shall not exceed the rate imposed on the shares in any of the banks organized under the authority of the State, etc. *Held*, that as, in view of various constitutional and legislative provisions relating to the taxation of corporate property and franchises (Const. Ky., secs. 172, 174; Ky. St. 1903, secs. 4020, 4022, 4077-4095), State banks are taxed on their capital and its accretions, including the franchises, subject to a deduction for so much of their capital as is invested in bonds of the United States, shares of stock in national banks, when taxed under Kentucky Statutes, 1903, sections 4092-4092b, aforesaid, relating to taxation of shares of stock in national banks, are subject to have deducted the value of nontaxable Government bonds held by the bank, though such last named sections make no express provision for the deduction. (*Marion National Bank of Lebanon v. Burton*; *Citizens' National Bank of Lebanon v. Burton*, 90 S. W., 944.)

NOTE 1.—Specie payments were suspended from Jan. 1, 1862, to Jan. 1, 1879. During the greater part of that period gold and silver coins were not in circulation except on the Pacific coast, where, it is estimated, the specie circulation was generally about \$25,000,000. This estimated amount is the only coin included in the above statement from 1862 to 1875, inclusive.

NOTE 2.—In 1876 subsidiary silver again came into use, and is included in this statement, beginning with that year.

NOTE 3.—The coinage of standard silver dollars began in 1878, under the act of Feb. 23, 1878.

NOTE 4.—Specie payments were resumed Jan. 1, 1879, and all gold and silver coins, as well as gold and silver bullion in the Treasury, are included in this statement from and after that date.

NOTE 5.—The Director of the Mint recently made a revised estimate of the stock of gold coin and, as a consequence of such revision, the estimated stock of gold in the United States and of gold coin in circulation has been reduced \$135,000,000 in the figures for 1907.

NO. 40.—STATE-BANK NOTES OUTSTANDING, TOTAL MONEY IN UNITED STATES, AND PERCENTAGE OF BANK NOTES TO TOTAL MONEY, FROM 1800 TO 1863, INCLUSIVE.

LIABILITIES.		
Capital.....	10.0	10.0
Surplus.....	.5	.5
Circulation.....	4.5	5.0
Individual deposits.....	8.5	5.9
United States deposits.....		1.9
Due to other banks.....		.6
Unpaid drafts outstanding.....		.2
Total.....	23.5	24.2

TABLE XXII.

RESOURCES AND LIABILITIES OF THE SECOND BANK OF THE UNITED STATES.

[Chartered by Congress in 1816, for twenty years; renewal of charter denied; in consequence, reorganization was effected by means of authority of the legislature of the State of Pennsylvania. The bank assigned in 1841, the affairs being finally liquidated in 1856, and resulted in the payment in full, interest and principal, of liabilities to depositors and note holders; the shareholders, however, received nothing on their investment in stock of the bank.]

[In millions of dollars.]

NOTE.—Gold was first quoted at par on December 19, 1878.

The average rates of gold and currency for each month, as given in the above tables, was obtained as follows:

Four daily quotations of the rates of gold at New York, viz, the Opening, Closing, Highest, and Lowest, were recorded, from which a daily average was made, and the average rate for each month was prepared from these daily averages.

^a In computing this column the population of the preceding year was considered.

^b Dec. 31, 1904, for private savings banks; Dec. 31, 1905, for postal savings banks.

^c Data for the State-controlled Caisse Générale d'Epargne. Includes savings deposits with post-offices. In addition, there are four municipal and five private savings banks, which on Dec. 31, 1904, had 42,279, and on Dec. 31, 1905, 42,171 depositors, making the total number of depositors in 1904 2,247,331 and in 1905 2,354,016, and per 1,000 of population 318 and 329.

^d Includes all savings institutions. Number of depositors in savings banks proper, exclusive of branches of ordinary banks, was, in 1905, 1,021,697, in 1904 996,615.

^e Exclusive of military population.

^f Exclusive of owners of savings deposits in commercial banks and savings associations, who numbered in 1905 499,238, and in 1904 462,307.

^g Dec. 31, 1906, for postal savings banks; Dec. 31, 1904, for private savings banks.

^h Exclusive of depositors in the so-called "società ordinarie di credito" and "società cooperative di credito," for which the number of depositors is not stated.

ⁱ The data for private savings banks are for Dec., 1904, in both years, previous data not being available.

^j Data for "Casa de economie" only.

^k Preliminary data for all Government savings banks, as published in the Viestnik Finansov.

^l Estimates of M. Guillaume Fatio in the Journal de Statistique Suisse, 1900, No. 4. No official data are available. Data repeated for both years.

^m Nov. 20, for trustee and other savings banks; Dec. 31, for postal savings banks.

TABLE LII—Continued.

a In United States Treasury and national banks.*b* Official information furnished through United States representatives.*c* No information.*d* Estimate, Bureau of the Mint.*e* The figures for the total stock of gold in India are for the net imports since 1893-94 plus the production of the country. The amount in the government treasury is from official advices. The net imports of gold since 1835-36—when the records begin—amount to \$841,407,489, and the production recorded to \$115,030,200. The tide of gold and silver has been flowing into India for centuries.
