## LETTER OF TRANSMITTAL

Treasury Department, Office of the Comptroller of the Currency, Washington, D. C., January 3, 1941.
Sirs: In accordance with the provisions of section 333 of the United States Revised Statutes, I have the honor to submit the following report covering the activities of the Bureau of the Comptroller of the Currency for the year ended October 31, 1940.

Respectfully,
Preston Delano, Comptroller of the Currency.
The President of the Senate.
The Speaker of the House of Representatives.

## ANNUAL REPORT <br> OF THE <br> COMPTROLLER OF THE CURRENCY

The National Banking System on October 31, 1940, was made up of 5,167 national banking associations. On the above date national banks were operating 1,615 branches, making the total number of banking offices in the National Banking System 6,782.

During the 12 -month period ended October 31, 1940, 19 charters were issued for national banks, of which 3 were newly organized, 11 were conversions of State-chartered institutions, and 5 were reorganizations. Applications were rejected for 3 new national banks and 2 State-bank conversions.

The number of branches operated by national banks was increased by 21 during the year. Forty-two were brought into the System, but 21 were relinquished.

While the number of banks in the System declined by 38 during the year, the increase in deposits and the conversion into national banks of several large State banks brought higher total resources into the System, and resulted in larger average units. On June 30, 1940, for instance, the average size of national banks according to deposits was $\$ 6,400,000$ as against $\$ 5,700,000$ a year earlier.

The aggregate common capital stock of 5,167 national banks on October 31, 1940, was $\$ 1,329,358,375$. Preferred stock outstanding totaled $\$ 203,757,468$, of which $\$ 164,031,082$ was owned by the Reconstruction Finance Corporation. During the year covered by the report, the combined common capital stock in the National Banking System was increased by a net amount of over $\$ 6,000,000$. The national banks were able to make net retirements during the same period of more than $\$ 35,000,000$ of preferred stock.

A comparison of the assets and liabilities of the banks in the National Banking System on June 30, 1939, and on June 29, 1940, is shown in the following table:

Comparison of principal items of assets and liabilities of national banks, June 30, 1939, and June 29, 1940

| Total liabilities and capital accounts. | 33, 180, 578 | 36,885, 080 |

From this table it can be seen that during the 12 -month period it covers, commercial and industrial loans increased by $\$ 459,700,000$ while total loans and discounts were $\$ 605,500,000$ higher at the end of the period than at the beginning. Total investments increased from $\$ 12,552,900,000$ to $\$ 12,905,300,000$. Investments in direct and guaranteed obligations of the United States Government show an increase of $\$ 341,500,000$. On the liability side total deposits were up $\$ 3,604,-$ 900,000 . It will be noted that cash resources were high and borrowings small on both dates.

During the 12 months ended October 31, 1940, 53 national banks went into voluntary liquidation. Of these, 13 were absorbed or succeeded by other national banks, 32 were absorbed or succeeded by State banks and 8 were completely terminated. No national banks were placed in receivership during the year. Loans and purchases of assets by the Federal Deposit Insurance Corporation aggregating $\$ 5,638,000$ were made in the case of 7 national banks in connection with the assumption of their deposit liabilities by other banks.

During the first 6 months of the calendar year 1940 the gross earnings of national banks were $\$ 426,000,000$, an increase of $\$ 10,000,000$ over the first 6 months of 1939. The net additions to profits before dividends for the first 6 months of 1940 were at the rate of 17.02 percent per annum of common capital stock and at the rate of 6.50 percent per annum of total capital funds. Dividends on common stock were at the rate of 9.72 percent per annum on the common stock and
3.94 percent per annum on total capital funds, exclusive of preferred stock. One thousand two hundred thirty-seven national banks paid no dividends during the 6 months ended June 30, 1940. The principal items of income and expense for the two 6 -month periods are shown in the table below:

Earnings, expenses, and dividends of national banks for 6-month periods ended June 30, 1939 and 1940
[In thousands of dollars]

${ }^{1}$ At end of period.
The trust departments of the national banks showed a normal increase in the individual trust field during the year. The fiduciary activities of the national banks and the classification of the investment of trust funds are reported upon in detail in this report.

During the 12 months ended October 31, 1940, 12,213 examinations of banks, 2,011 examinations of branches, 2,589 examinations of trust departments, and 79 examinations of affiliates were conducted. Twenty-two State banks were examined in connection with conversions to or consolidations with national banks. Investigations were also conducted in connection with 10 applications for charters and 62 applications for new branches.

Upon three occasions during the year in accordance with section 5211 of the Revised Statutes the Comptroller called on national banks for reports of their current condition.

In addition to national banks, this report covers the activities of nonnational banks and building and loan associations and nonFederal credit unions in the District of Columbia. It presents also statistics on all banks in the United States as required by law.

There were no actual failures of national banks or appointments of receivers of insolvent national banks for technical reasons during the year ended October 31, 1940. This record as to actual failures of national banks for the period is but the second instance in recent years of an entire year without a single actual national-bank failure, there having similarly been no actual failures during the year 1936. The record for the current year of no actual or technical failures of national banks is, however, the first instance thereof since 1881 and but the fourth record of its kind since the first national-bank failure in 1865. The 3 other years in which it was unnecessary to appoint receivers in instances of either actual or technical insolvency of national banks were 1870, 1871, and 1881.

The results of liquidation of insolvent national banks during the year are strikingly evident both in the completion of liquidation and final closing during such period of 112 or 30 percent of the 367 receiverships in process of liquidation at the beginning of the year, and in liquidation accomplished in the remaining 255 receiverships the affairs of which were still active as of October 31, 1940. The termination of these 112 receiverships was accomplished with the loyal cooperation of the receivers and their staffs who were placed under constant pressure to bring the process of liquidation to a close. Special attention has also been given during the year to the disposition through both public and private sales of the very considerable volume of real-estate properties owned or held by lien in a majority of the receiverships administered. Liquidation activity in this direction resulted during the year in a 30 -percent reduction in the number of parcels of real estate held.

Very considerable progress has also been made in the liquidation of securities, both those owned outright and those held under pledge as security to the obligations of debtors. The total recoverable values of all securities held are found to have been reduced approximately 30 percent in amount through liquidation accomplished during the year.

The total proceeds of liquidation during the current year in all receiverships amounted to approximately $\$ 48,000,000$ and left estimated recoverable values in remaining assets of the 255 receiverships still in process of liquidation as of October 31, 1940, amounting to approximately $\$ 87,000,000$. Incident to liquidation accomplished during the year it was possible to authorize a 20 -percent dividend payment by the largest national bank to have ever been placed in receivership, bringing to a total of 100 percent dividends paid by such receivership. The dividend authorized in this instance was made possible through a loan commitment from the Reconstruction Finance Corporation in the amount of $\$ 40,000,000$ and will result in the total distribution of dividends amounting to $\$ 67,000,000$.

In spite of the more difficult and complex problems of liquidation involved in the receiverships of larger size still in liquidation, it is believed that the majority of the 255 receiverships which remained in process of liquidation as of October 31, 1940, will be completely liquidated and finally closed during the forthcoming year.

## LEGISLATION RECOMMENDED

Because specific questions with respect to banking legislation have been asked in the questionnaire relative to Senate Resolution 125 to which answers are now being prepared, we shall submit at this time only five legislative recommendations, all of which are deemed to be appropriate for immediate congressional action either because not related to the problems raised by the Senate Questionnaire, or because of the urgency of the problems presented.
(1) Section 333 of Revised Statutes of 1873, as amended (U. S. C. title 12, sec. 14) stipulates that the Annual Report of the Comptroller of the Currency be made to Congress "at the commencement of its session." This requirement has resulted in the report year being from the end of one October to the end of the next October. However, many of our statistical reports are as of the end of June or the end of December. Moreover, the reports of the Board of Governors of the Federal Reserve System and the Federal Deposit Insurance Corporation are on a calendar-year basis. For the sake of uniformity and because of the greater usefulness of calendar-year statistics, we recommend that the words quoted above be deleted from the aforecited statute.
(2) The Governor of the Farm Credit Administration is charged with supervision of credit unions organized under the Federal Credit Unions Act (U. S. C. title 12, secs. 1751 et seq.). The Comptroller of the Currency supervises credit unions organized under the District of Columbia Credit Unions Act (D. C. Code title 5, secs. 381 et seq.). Whereas the Federal Credit Union system is Nation-wide, the District of Columbia Credit Union system is limited to the city of Washington. In order that there be uniformity of supervision over all credit unions located in the District of Columbia, it is suggested that the functions of the Comptroller with respect to District of Columbia credit unions be transferred to the Governor of the Farm Credit Administration.
(3) The Federal Home Loan Bank Board exercises supervision over Federal savings and loan associations organized under the Home Owners' Loan Act of 1933 (U. S. C. title 12, sec. 1464). The Comptroller of the Currency supervises building and loan associations organized under sections 41 et seq. of title 5 of the District of Columbia Code. In order that there be uniformity of supervision over building and loan associations located in the District of Columbia, it is recommended that the functions of the Comptroller with respect to District of Columbia building and loan associations be transferred to the Federal Home Loan Bank Board.
(4) In order to eliminate one of the undesirable features in the banking field which has been revealed in congressional investigations and which in April 1938 was made the subject of a recommendation to Congress by the President of the United States, it is suggested consideration be given to the enactment of legislation which will prohibit the operation of banks by holding companies.
(5) Although in the vast majority of banks which are supervised by the Comptroller of the Currency, there is no need for applying sanctions to enforce compliance with national banking laws and safe and sound banking practices, from time to time situations arise requiring the application of effective sanctions. The existing sanctions are either inadequate or too drastic for any but the most extreme
cases, chiefly because they involve the termination or dissolution of the association rather than the correction of a remediable evil in banking operations or practices. Even the removal of bank officials under the procedure outlined in section 30 of the Banking Act of 1933 would not always serve to bring about affirmative improvement of criticized conditions in the institution.

It is extremely desirable that the functions of the Comptroller in the supervision of national banks be implemented with a power which would assure compliance with legal requirements and yet would not seriously disrupt the financial structure of a community or destroy a necessary and in most respects well-run banking institution.

It is therefore suggested that the Comptroller of the Currency be authorized, in his discretion, to forbid a national bank to declare or pay dividends on its capital stock until there has been satisfactory compliance with his requirements. Responsibility for the legality and propriety of each dividend should continue to rest upon the board of directors of the particular bank as at present, except where it affirmatively appears to the Comptroller that the declaration of a dividend should not be permitted because of the existence of violations of law or unsafe or unsound banking practices which, if continued, would endanger the safety of the bank and its depositors. It will be noted that the proposed measure would effectively accomplish its purpose and yet would not possess the drastic characteristics of existing sanctions.

## STRUCTURAL CHANGES IN THE NATIONAL BANKING SYSTEM

The authorized capital stock of the 5,167 national banks in existence at the close of business on October 31, 1940, consisted of common capital stock aggregating $\$ 1,329,358,375$, a net increase during the year of $\$ 6,062,955$, and preferred capital stock aggregating $\$ 203,757,-$ 468 , a net decrease during the year of $\$ 35,534,884$.

Covering the entire period since the inception of the national banking system, February 25, 1863, to and including October 31, 1940, 14,440 national banking associations have been authorized to begin business. Of these banks, 6,060 have gone into voluntary liquidation in the manner provided by sections 5220 and 5221, U. S. R. S., paid their depositors, and quit business or merged with other national and State banks; and 412 have consolidated with other national banking associations under authority of the act of November 7, 1918. Exclusive of banks which failed but subsequently were restored to solvency, loss to the national banking system since its inception through receiverships has been 2,801 banks.

At the date of the beginning of the Federal Reserve System, November 2, 1914, there were 7,578 national banks in existence with aggregate common capital stock of $\$ 1,072,492,175$, as compared with the total common capital stock of $\$ 1,329,358,375$ for the 5,167 national banks in existence on October 31, 1940. In addition, 1,470 of the national banks in existence October 31, 1940, had an aggregate of $\$ 203,757,468$ of preferred capital stock outstanding. Since November 2, 1914, there has been a net decrease of 2,411 in the number of national banks in existence but a net increase of $\$ 256,866,200$ in the amount of the common capital stock and in addition a net increase of $\$ 203,757,468$ in capital through the issuance of preferred capital stock
during the last $7 \frac{1}{2}$ years. During this 26 -year period, 3,788 new national banks have been chartered with aggregate common capital stock of $\$ 566,436,600$ and preferred capital stock of $\$ 55,886,300$.

During the year ended October 31, 1940, in addition to 19 applications with proposed capital stock of $\$ 2,900,000$ carried over from the previous year, 37 applications were received to organize national banks and to convert State banks into national banking associations, with proposed capital stock aggregating $\$ 9,237,000$. Of these applications, 28 with proposed capital stock aggregating $\$ 7,487,000$ were approved; 5 with proposed capital stock of $\$ 500,000$ were rejected; and the remainder were still pending or had been abandoned on October 31, 1940. From the applications carried over from the previous year and the 28 applications approved during the current year, 19 national banking associations with common capital stock aggregating $\$ 2,700,-$ 000 , 3 of which also had $\$ 582,000$ preferred capital stock, were authorized to commence business. Of the 19 charters issued, 11 with common capital stock aggregating $\$ 2,000,000,1$ of which also had $\$ 157,000$ preferred capital stock, were the result of the conversions of State banks; and 5 with common capital stock of $\$ 375,000,2$ of which also had $\$ 425,000$ preferred capital stock, were organized for the purpose of acquiring the business of 2 liquidating national banks and 3 State banks.

During the year ended October 31, 1940, 14 national banks and 6 State banks were consolidated into 10 national banking associations, under authority of the act of November 7, 1918, as amended February 25, 1927, the common capital stock of the consolidated banks being $\$ 3,960,000$ and the preferred capital stock being $\$ 978,000$. Additional assets of approximately $\$ 9,226,051$ were brought into the national system by reason of the 6 State banks consolidated with national banks. Also, during this period, national banks reported the purchase of the business of 19 State banks, with aggregate capital stock of $\$ 1,338,990$ and aggregate assets of approximately $\$ 24,434,693$.

During the year ended October 31, 1940, 53 national banks with common capital stock of $\$ 3,563,450$, among which were 24 with preferred capital stock aggregating $\$ 1,614,800$, went into voluntary liquidation in the manner provided by sections 5220 and $5221, \mathrm{U}$. S. R. S. Of these banks, 8 with common capital stock of $\$ 355,000$, and assets of $\$ 2,813,795$, including 2 with preferred capital stock of $\$ 45,000$, paid their depositors and quit business; 13 with common capital stock of $\$ 1,295,000$ and assets of $\$ 22,607,174$, including 9 with preferred capital stock of $\$ 785,000$, were succeeded by other national banks; and 32 with common capital stock of $\$ 1,913,450$ and assets of $\$ 31,512,070$, including 13 with preferred capital stock of $\$ 784,800$, were succeeded by State banks.

## BRANCHES

On February 25, 1927, the date of the passage of the McFadden Act, 118 national banking associations had in operation 372 branches, as compared with 200 national banking associations with 1,615 branches as of the close of business October 31, 1940.

During the period from February 25, 1927, to the close of business on October 31, 1940, 2,118 branches have been added to the national system. Of these branches, 1,282 were de novo branches, 326 were branches of State banks which converted into national associations, and 510 were branches brought into the system by the consolidation of State banks with national banks. During this same period, 875 branches have been relinquished, of which number 571 went out of the system through liquidation of the parent institutions, and 304 through consolidations or for other reasons. The net result of these operations was a gain of 1,243 branches since February 25, 1927.

During the year ended October 31, 1940, 42 branches were brought into the national system. Of these branches, 41 were de novo branches, while 1 branch was added under the provisions of paragraph (a) of section 5155, United States Revised Statutes, as amended February 25, 1927. Of the 41 de novo branches authorized, 21 were
authorized under the Banking Act of 1933 to operate in places other than the city in which the parent bank is located．During this same period， 2 branches were relinquished through the liquidation of the parent institution and 19 were discontinued through the action of the boards of directors of the parent banks．The net result of these operations was a gain for the system of 21 branches during the year ended October 31， 1940.

A summary of the status of branch－banking operations in the various periods appears in the accompanying table：

## EARNINGS, EXPENSES, AND DIVIDENDS OF NATIONAL BANKS FOR YEAR ENDED DECEMBER 31, 1939

Gross earnings of national banks in the year ended December 31, 1939, were $\$ 848,000,000$, or $\$ 12,000,000$ more than those of the preceding year. Interest and discount on loans equaled $\$ 387,000,000$ and interest and dividends on bonds, stocks, and other securities $\$ 298,000,000$. Expenses were $\$ 5,000,000$ more than in the preceding
year, amounting to $\$ 581,000,000$. Of this, salaries, wages, and fees accounted for $\$ 252,000,000$ and interest on deposits and borrowed money, for $\$ 114,000,000$. Net operating earnings were $\$ 267,000,000$, which were increased by $\$ 211,000,000$ of recoveries. Recoveries on loans were $\$ 40,000,000$; recoveries on bonds, stocks, and other securities, $\$ 34,000,000$; and profits on securities sold, $\$ 125,000,000$. Losses and depreciation of $\$ 226,000,000$ were $\$ 17,000,000$ less than in the previous year. Losses on loans were $\$ 67,000,000$ and losses on bonds, stocks, and other securities, $\$ 109,000,000$. Net additions to profits before dividends were thus $\$ 252,000,000$ and were $\$ 54,000,000$ more than those in the previous year and were 7.45 percent of capital funds. Dividends declared on common and preferred stock in 1939 totaled $\$ 139,000,000$ in comparison with $\$ 142,000,000$ in the preceding year. The dividends were 8.9 percent of capital stock and 4.11 percent of capital funds.

Interest and discount on loans accounted for more than 45 percent of the gross earnings in the year ended December 31, 1939, varying in ratios from less than 34 percent in Federal Reserve district No. 7 to approximately 58 percent in district No. 11. Interest and dividends on investments were 35 percent of total earnings, with the banks in district No. 11 showing the smallest ratio of 23 percent and those in district No. 3 the largest ratio of almost 46 percent. Salaries, wages, and fees were 30 percent of total earnings, ranging from nearly 24 percent in district No. 3 to slightly more than 33 percent in districts Nos. 9 and 10. The net operating earnings to gross earnings showed averages of from 27 percent in district No. 9 to $35 \frac{1}{2}$ percent in district No. 3.

Interest and discount on loans to total loans were slightly less than $4 \frac{1}{2}$ percent and varied from less than $31 / 2$ percent in district No. 2 to $52 / 3$ percent in district No. 11. Interest and dividends on bonds, stocks, and other securities averaged $2 \frac{1}{3}$ percent of total investments, the banks in district No. 2 showing the lowest ratio of slightly less than 2 percent, while the banks in district No. 3 showed the highest ratio of $31 / 3$ percent. Profits on securities sold during the period were 1 percent of total investments, varying from less than $3 / 4$ percent in district No. 9 to $11 / 3$ percent in district No. 12 .

Net operating earnings were approximately 8 percent of total capital funds, the lowest ratio being $61 / 3$ percent in district No. 1 , and the highest ratio almost 11 percent in district No. 12. The net additions to profits before dividends for the period were about $7 \frac{1}{2}$ percent of capital funds, the average ranging from 5 percent in district No. 3 to 10 percent in district No. 7.

The proportion of gross earnings which were preserved as net additions to profits before dividends were better among the larger banks than among the smaller for the calendar year 1939. For banks with deposits of more than $\$ 100,000,000$ the ratio of net additions to profits to gross earnings was $34 \frac{2}{3}$ percent, while for banks of $\$ 500,000$ deposits or less it was $231 / 2$ percent.

Changes in the earnings and expense figures of national banks in the year ended December 31, 1939, together with comparisons of earnings and expense figures for the 5 years ended December 31, 1939, and June 30, 1940, appear in the accompanying tables:

## SIZE OF NATIONAL BANKS

The size of national banks in the United States and possessions according to deposits increased $\$ 3,605,000,000$ in the year ended June 30, 1940, although the number of such associations decreased by 39 in the period. On June 30, 1939, national banks held deposits totaling $\$ 29,469,000,000$, as compared with $\$ 33,074,000,000$ in 1940. The average size of national banks in 1939 was $\$ 5,700,000$; by 1940 the average size had increased to $\$ 6,400,000$. In 1939, 50 percent of the banks had deposits of $\$ 1,000,000$ or less. In 1940 this ratio was 48 percent. Thirty-nine of the banks had $\$ 100,000,001$ or more of deposits in 1939 and 31 banks had between $\$ 50,000,001$ and $\$ 100,-$ 000,000 . In 1940 there were 45 banks with deposits of $\$ 100,000,001$ or more and 31 banks with deposits of between $\$ 50,000,001$ to $\$ 100$,000,000 . The average size of the 39 banks in 1939 with deposits of $\$ 100,000,001$ or more was $\$ 386,000,000$. The 45 banks in 1940 of this size averaged $\$ 404,000,000$. The banks with $\$ 100,000,001$ and over in 1939 had 51 percent of the deposits in all national banks. This size of banks had 55 percent of the deposits of all national banks on June 29, 1940.

The following tabulation shows the distribution by size of national banks in 1939 and 1940:

## AFFILIATES AND HOLDING COMPANY AFFILIATES OF NATIONAL BANKS

The Federal statute requires each national bank to obtain and submit to the Comptroller periodically reports of its affiliates, as defined in sections 2 (b) and (c) of the Banking Act of 1933, as amended, unless waived by the Comptroller. On June 29, 1940, the date of the latest call, there were 966 national banks with 12,992 affiliates and holding company affiliates, of which 10,707 were duplications reported by 322 banks. The actual number of affiliates, or 2,285 , included 29 holding company affiliates which controlled 191 active and 9 liquidating banks, varying in number from 1 to 53 associations. Under the waiver of requirement for reports of affiliates, it was
necessary for 527 banks to submit and publish 679 reports of affiliates and holding company affiliates. Of the latter number 174 were duplications of reports of holding company affiliates.

## NATIONAL BANKS IN THE TRUST FIELD

The development of trust activities in national banks is reflected in a substantial manner by statistics compiled for the fiscal year ended June 30, 1940, which revealed that 1,877 of these institutions held fiduciary permits, with a combined capital of $\$ 1,159,877,645$ and banking assets of $\$ 32,307,198,787$, representing 36.31 percent of the number, 75.47 percent of the capital, and 87.59 percent of the assets of all banks in the national banking system.

Trust departments had been established by 1,540 of these banks and 137,629 individual trusts were being administered with assets aggregating $\$ 9,345,419,682$. Seven hundred and eighty-two of these banks were also administering 16,273 corporate trusts and were acting as trustees for note and bond issues amounting to $\$ 9,317,700,427$. Compared with 1939, these figures represent an increase of 1,178 , or 0.86 percent, in the number of individual trusts being administered, an increase of $\$ 61,512,406$, or 0.66 percent, in the volume of individual trust assets under administration; a decrease of 477, or 2.85 percent, in the number of corporate trusts, with a reduction of $\$ 451,026,297$, or 4.62 percent, in the volume of note and bond issues outstanding under which national banks had been named to act as trustee.

Segregation of the number of fiduciary accounts in national banks reveal that 71,062 , or 46.17 percent, were those created under private or living trust agreements; 66,567 , or 43.25 percent, were trusts being administered under the jurisdiction of the court, and the remaining 16,273 , or 10.58 percent, were trusteeships under corporate bonds or note-issue indentures. Private trust assets comprised $\$ 7,357,263,-$ 418 , or 78.73 percent, of the total assets under administration, while the remaining $\$ 1,988,156,264$, or 21.27 percent, belonged to court trusts.

An analysis of the $\$ 7,492,478,273$ of invested trust funds belonging to private and court trusts under administration reveal that 50.59 percent were in bonds, 30.83 percent in stocks, 6.92 percent in real estate mortgages, 7.38 percent in real estate, and 4.28 percent consisting of miscellaneous assets.

The development of these activities in national banks is emphasized by comparing the record in the last 10 years, which reflects an increase of 57,717 , or 72.23 percent, in the number of individual trusts being administered; an increase of $\$ 4,872,378,756$, or 108.93 percent, in the volume of individual trust assets under administration; and an increase of 4,762 , or 41.37 percent, in the number of corporate trusts.

Gross earnings from fiduciary activities aggregated $\$ 31,702,000$ for the fiscal year ended June 30, 1940, as against $\$ 31,685,000$ in 1939, an increase of $\$ 17,000$.

Three hundred and fifty-five national banks were acting as trustees under 1,606 insurance trust agreements, involving $\$ 73,965,671$ in proceeds from insurance policies, while 709 national banks had been named to act as trustees under 15,489 insurance trust agreements not yet matured or operative, supported by insurance policies with a face value aggregating $\$ 591,078,587$.

An analysis of the new trust accounts placed on the books of the national banks between June 30, 1939, and June 29, 1940, reveal that 230 banks were named as trustees for 1,700 bond and note issues aggregating $\$ 1,030,060,937 ; 800$ banks were named to act as individual trustees under 4,914 agreements involving $\$ 194,791,094 ; 764$ banks were named to act under 2,666 executorships involving $\$ 212,389,385$; 511 banks were named as administrators under 1,332 appointments involving $\$ 25,115,422 ; 498$ banks were named under 1,972 guardianships involving $\$ 10,167,151 ; 5$ banks were named to act as assignees in 7 instances involving $\$ 93,408 ; 23$ banks were named to act in 33 receiverships involving $\$ 330,629$; 114 banks were named to act as committee of estates of lunatics in 246 cases involving $\$ 3,362,888$; and 395 banks were named to act 5,612 times in miscellaneous fiduciary capacities other than those enumerated above involving $\$ 668,341,740$.

The following tables show the activities of national banks in the trust field on June 30, 1930, and June 29, 1935 and 1940, also by size of capital of such banks as of the latter date. Detailed tables in the appendix show trust activities, first, according to capital of the banks, second, according to Federal Reserve districts, and third, an analysis of the type of investments held in trust.

## Reserves of Nonmember Banks in the District of Columbia

The Code of Law for the District of Columbia requires each bank and trust company doing business in the District and not a member of the Federal Reserve System to establish and maintain reserves on the same basis and subject to the same conditions as are prescribed for national banks located in the District of Columbia, except that the reserves are carried with such designated agency or agencies as are approved by the Comptroller of the Currency.

The nonmember banks held net demand deposits subject to reserve and time deposits on each of the three calls in the year ended October 31,1940 , averaging from $\$ 30,600,000$ to $\$ 33,700,000$. The ratio of reserves required against such deposits was a little over 10 percent, while the ratio of reserves held ranged from nearly $19 \frac{1}{2}$ to $22 \frac{1}{2}$ percent. Figures showing the reserves of nonmember banks appear in the accompanying table:

## CHANGES IN PRINCIPAL ITEMS OF ASSETS AND LIABILITIES OF STATE AND PRIVATE BANKS, YEAR ENDED JUNE 30, 1940

On June 29, 1940, there were 9,847 active banks other than national in the United States and possessions, of which 9,239 were State commercial banks, including loan and trust companies and stock-savings banks, 551 were mutual savings banks, and 57 were private banks.
The State and private banks had loans and discounts, including overdrafts, of $\$ 13,378,000,000$, an increase of $\$ 435,000,000$ in the year. State commercial banks held $\$ 8,403,000,000$ of loans, which increased $\$ 427,000,000$ in the year. Mutual savings banks had $\$ 4,927,000,000$ of loans, nearly all of which were on real estate. The total loans of private banks were $\$ 48,000,000$. State commercial banks had realestate loans of $\$ 2,418,000,000$. Open-market paper, loans to banks, and miscellaneous loans, including commercial, industrial, and agricultural loans, of the commercial banks amounted to $\$ 5,312,000,000$, $\$ 483,000,000$ more than a year earlier.

United States Government direct obligations held by the commercial banks aggregated $\$ 5,870,000,000$, an increase of $\$ 581,000,000$ during the year, while mutual savings banks decreased their holdings of such securities by $\$ 56,000,000$, to $\$ 2,597,000,000$. Total United States Government direct obligations held by all State and private banks increased $\$ 192,000,000$ to $\$ 8,515,000,000$. Obligations guaranteed by the United States Government held by the commercial banks
increased by $\$ 311,000,000$ in the year to $\$ 1,568,000,000$. Mutual savings banks held $\$ 516,000,000$ of such securities, an increase of $\$ 126,000,000$ during the year. Obligations of States and political subdivisions held by the commercial banks aggregated $\$ 1,658,000,000$ on June 29, 1940, which was an increase of $\$ 154,000,000$. Such holdings by mutual savings banks were $\$ 633,000,000$, almost the same as a year ago. Other bonds, notes, and debentures held by the commercial banks amounted to $\$ 1,398,000,000$ and by mutual savings banks, $\$ 1,348,000,000$, decreases of $\$ 141,000,000$ and $\$ 198,000,000$, respectively. Corporate stocks held by all State and private banks, including stock of Federal Reserve banks, aggregated $\$ 512,000,000$, an increase of $\$ 15,000,000$ in the year.

Cash in vaults of State and private banks on June 29, 1940, amounted to $\$ 566,000,000$, increasing $\$ 54,000,000$ over the year previous. Balances with other banks, including reserve balances, aggregated $\$ 11,241,000,000$, an increase of $\$ 2,201,000,000$ during the year. Most of the balances with other banks were reported by State commercial banks.

Mutual savings banks held virtually no demand deposits. Such deposits held by the commercial banks aggregated $\$ 19,558,000,000$, an increase of $\$ 2,957,000,000$. Private banks held $\$ 131,000,000$ of such deposits, a decrease of $\$ 501,000,000$ during the year. Commercial banks held demand deposits of individuals, partnerships, and corporations of $\$ 13,913,000,000$, an increase of $\$ 2,368,000,000$. Savings deposits amounted to $\$ 6,072,000,000$ in the commercial banks and $\$ 10,574,000,000$ in mutual savings banks, increases of $\$ 220,000,000$ and $\$ 192,000,000$, respectively. The total time deposits of all State and private banks increased by $\$ 516,000,000$ to $\$ 18,387,000,000$. Total deposits in such banks increased $\$ 2,972,000,000$ in the year and amounted to $\$ 38,079,000,000$ on June 29,1940 , of which amount $\$ 27,-$ $302,000,000$ were in the commercial banks, $\$ 10,631,000,000$ in mutual savings banks and $\$ 146,000,000$ in private banks.

Mutual savings banks had no capital stock, but their surplus, undivided profits, and reserves amounted to $\$ 1,288,000,000$, a decrease of $\$ 47,000,000$ in the year. Total capital funds of the commercial banks were $\$ 3,528,000,000$, an increase of $\$ 57,000,000$ during the year.

## REPORTS FROM NATIONAL BANKS

National banks in the continental United States, Alaska, the Territory of Hawaii, and the Virgin Islands of the United States were, in accordance with the provisions of section 5211 of the Revised Statutes, called upon to submit three reports of condition during the year ended October 31, 1940. Reports were required as of December 30, 1939, March 26, 1940, and June 29, 1940. Summaries from all condition reports, by States, were published in pamphlet form. National banks were also required by the statute to obtain reports of their affiliates and holding company affiliates other than member banks and to submit such reports to the Comptroller as of the three dates for which condition reports of the banks were obtained.

Under the general powers conferred upon him by law, the Comptroller required from each national bank two semiannual reports of earnings, expenses, and dividends, one for the half year ended December 31, 1939, and one for the half year ended June 30, 1940; also reports of condition of all domestic and foreign branches of national banks as of June 29, 1940.

National banking associations authorized to act in a fiduciary capacity were called upon to submit reports of their trust departments as of the close of business on June 29, 1940.

In accordance with section 298 of the Code of Laws of the District of Columbia, banks other than national in the District were required to make to the Comptroller all condition reports and reports of earnings, expenses, and dividends obtained from national banks during the year. Building and loan associations and credit unions in the District of Columbia under the supervision of the Comptroller were required to submit reports of their assets and liabilities as of December 30, 1939, and reports of receipts and disbursements for the year ended December 31, 1939. The former practice of obtaining semiannual reports from the latter associations was discontinued in 1939 .

Detailed figures for reports of condition and earnings and dividends are published in the appendix to this report.

## EXAMINATION OF NATIONAL BANKS

The National Bank Act requires that each national bank be examined at least twice each year, in order that the Comptroller may be kept currently informed of its condition and require such corrections as are deemed necessary with a view to maintaining each bank in sound condition. In addition to the regular examinations, special examinations are conducted of banks the condition of which is regarded as unsatisfactory.

During the 12 months ended October 31, 1940, 12,213 examinations of banks, 3,011 examinations of branches, 2,589 examinations of trust departments, and 79 examinations of affiliates were conducted. Twenty-two State banks were examined in connection with conversions to or consolidations with national banks. Investigations were also conducted in connection with applications for 10 new charters and 62 new branches.

There are 12 examining districts in the country, each of which is administered by a district chief national bank examiner, who is assigned an appropriate number of examiners, assistant examiners, clerks, and stenographers. The 12 districts are divided into sub-
districts, each in charge of an examiner. In Washington, the chief national bank examiner has seven assistants who review for him the reports of examination.

## LIQUIDATION OF INSOLVENT NATIONAL BANKS ${ }^{1}$

During the year ended October 31, 1940, there were no failures of national banks or appointments of receivers in instances of technical insolvency. There have now been a total of 17 national-bank failures since the banking holiday of 1933 with total deposits at failure of $\$ 11,848,952$. All deposit accounts of 14 of these banks which failed during the period 1934 to 1940, inclusive, subsequent to the effective date of bank-deposit insurance by the Federal Deposit Insurance Corporation were insured up to the amount of $\$ 5,000$.

Substantial progress in completing the work of liquidating insolvent national banks has been made during the past year. The number of receiverships has been reduced from 367 to 255 , and the number of receivers from 133 to 88 . The book value of the remaining assets held by these receiverships has been reduced from $\$ 450,161,000$ to $\$ 337,904,000$, while the estimated recoverable values have been reduced from $\$ 128,151,000$ to $\$ 87,267,000$. Although these assets include many types of property, the greatest problem has been presented by the very large amount of real estate, both that owned in fee and that held by mortgage or judgment lien.

At the beginning of the year the 367 receiverships owned 9,323 parcels of real estate and this number was reduced to 6,622 during the year, while the estimated values have been reduced from approximately 45 million to 36 million dollars, of which amount three-fourths is held in 2 receiverships. At the present time there are but 135, of the remaining 255 receiverships that own any real estate or liens upon real estate. The number of mortgage and judgment liens (not including contracts for the sale of real estate taken in the course of liquidation) has declined from 8,700 to 4,500 , and the estimated recoverable values from 26 million to 13 million dollars. Sales of real estate have been effected at market prices, so far as possible. While these sales might have been speeded up by accepting offers at less than market prices, we have felt that our responsibility both to the depositors and to the general welfare of the several communities has required that we adhere to the slower but more orderly method of realization. Sales of real estate by public auction were held in but 25 receiverships and involved only 373 parcels. The aid of local real-estate brokers is freely used, to whom commissions are paid at the prevailing rates.

Substantial progress has likewise been made in the liquidation of stocks and bonds, both listed and unlisted, during the past year. The estimated recoverable value in this type of asset has declined from a total of 9.4 million to 3.6 million dollars, and of this balance only a small proportion is readily salable through the exchanges. The recoverable value of such securities held by pledge to secure the obligations of debtors has also declined from 10.8 million to 2.6 million dollars.
The largest national bank ever to be placed in receivership was the First National Bank-Detroit, Detroit, Mich. At suspension the deposit liability of this bank was $\$ 398,798,000$, which amount was

[^3]reduced by offset and otherwise to a total of $\$ 335,845,000$ for which claims for dividend purposes were asserted. These deposits, including additional liabilities established subsequent to failure were originally held by 565,845 individual and corporate claimants. In 1934, however, the 384,360 claims of all persons holding receiver's certificates of $\$ 300$ or less, representing deposit liabilities of $\$ 22,425,000$, were purchased at par by a group of 690 depositors, who continued thereafter to hold such claims and to receive dividends thereon as paid. At the present time, therefore, there are 153,275 claimants exclusive of the owners of 28,900 inactive accounts, interested in the remaining assets. During the past year a dividend of 20 percent was authorized, bringing to 100 percent the returns to the holders of all proven claims. This payment was made possible by the aid of a commitment for a loan from the Reconstruction Finance Corporation in the sum of $\$ 40,000,000$. By means of this dividend a distribution of $\$ 67,169,000$ is being made to the depositors. This bank suspended February 11, 1933, and since that date total collections from assets and stock assessment have amounted to $\$ 402,297,500$ of which amount the sum of $\$ 39,691,600$ represents interest, rentals, and other forms of income derived from the assets. The total expense incurred by the receivership from suspension to September 30, 1940, amounts to $\$ 19,182,900$, of which $\$ 6,531,800$ represents interest paid to the Reconstruction Finance Corporation and lending banks upon loans obtained to aid in the payment of previous dividends. This aggregate expense, which amounts to 4.38 percent of the total collections, is much more than covered by the income derived from the assets, although liquidation has not in any instance been retarded for the sake of realizing this income. There remain in the hands of the receiver assets having an estimated liquidation value in excess of $\$ 60,000,000$, from the proceeds of which the funds borrowed for dividend purposes must be paid. Of this estimated value approximately 26 million dollars is comprised in owned real estate, 10 million dollars in mortgage liens, and 20 million dollars in the unpaid balances of contracts for sale arising from sales of real estate negotiated by the receiver. There are in the receiver's hands a considerable number of promissory note obligations and of securities that are now known to be uncollectible and of parcels of real estate that have been allowed to go to tax sale by reason of their very doubtful sale value. These are being steadily reduced by sales to the highest bidder after proper advertisement. The very large concentration of real-estate holdings and interests within the area of a single city is necessarily a limitation upon the rate at which sales may be effected and no prediction can be made of the time that may yet be necessary to complete the process of liquidation if it must pursue its customary and orderly course although every reasonable effort to speed it up consistent with the welfare of both depositor and community interest is being made.

The Comptroller of the Currency also supervises the liquidation of insolvent nonnational banks and building and loan associations in the District of Columbia. Of the 15 insolvent District of Columbia nonnational banks for which receivers have been appointed by the Comptroller of the Currency, 5 banks had been completely liquidated and finally closed and 1 bank restored to solvency while 9 banks still remained in process of liquidation as of October 31, 1940. Of the 5 District of Columbia nonnational bank receiverships liquidated and
finally closed, 3 banks with assets at failure of $\$ 3,714,136$ and dividend payments to creditors amounting to an average of 101.15 percent of claims proved were liquidated and finally closed during the year ended October 31, 1940. The cost of liquidation of these 3 receiverships amounted to an average of 7.96 percent of total collections including offsets allowed.

The Fidelity Building \& Loan Association, Washington, D. C., was placed in receivership as of July 18, 1936, and thereafter completely liquidated and finally closed as of August 30, 1939, with the payment of dividends to creditors in the amount of 85 percent of claims proved. This receivership, with total asset resources of approximately 5 million dollars, was disposed of as a receivership in a comparatively short time with a higher than average return to depositors and other creditors. The cost of liquidation of this receivership was furthermore considerably lower than the average, or but 3.64 percent of total collections plus offsets allowed.

The nine insolvent District of Columbia nonnational banks remaining in process of liquidation under the supervision of the Comptroller of the Currency as of October 31, 1940, had total asset and stock assessment resources amounting to $\$ 15,734,941$ from which have been realized including offsets allowed, collections of interest, premiums, rents, etc., the sum of $\$ 12,335,155$. Total dividend payments to the creditor claimants of these receiverships have amounted to $\$ 6,303,750$ or an average of 62.13 percent of total claims proved. Total costs of liquidation of these receiverships to October 31, 1940, amounted to $\$ 1,300,396$ or an average of 10.54 percent of total collections, including offsets allowed.

Total collections by receivers during the year from assets of the 367 insolvent national banks administered, including offsets allowed and collections of interest, premiums, rents, etc., amounted to $\$ 48,-$ 042,211 . Total costs of liquidation of these insolvent national banks for the year amounted to $\$ 5,349,339$ or an average of 11.13 percent of total collections from all sources including offsets allowed. This average cost of liquidation may be regarded as approximately normal in amount in view of the increased average liquidation age of receiverships administered and the fact that percentage costs of liquidation are comparatively low during the early years of receivership administration but increase progressively from date of failure to date of final closing. Costs of liquidation have furthermore been considerably increased during recent years by reason of interest payments to the Reconstruction Finance Corporation and to lending banks upon loans made to receivers for dividend-payment purposes. A summary of total receipts and disbursements of receivership funds during the past year appears in the statement following:
$281684-41-4$

${ }^{1}$ Credit adjustment in accordance with revised figures submitted by Receivers.
During the year ended October 31, 1940, the liquidation of 112 receiverships was completed and all affairs of such receiverships finally closed. Total returns to the depositors and other creditors of these receiverships consisting of dividend distributions, other cash payments and offsets allowed amounted to an average of 82.37 percent of total amounts due. The costs of liquidation of these receiverships, including unrecovered amounts of disbursements for the protection of assets, amounted to an average of 7.15 percent of total collections including offsets allowed. The average period of time required to complete the liquidation of these receiverships was 7 years. A statement as to the results of liquidation of these 112 insolvent national banks is given below:

17 years, 0 months.
It will be noted from the above statement of liquidation that total collections from assets including earnings, offsets allowed and collections from stock assessments, of the 112 receiverships completely liquidated during the year amounted to 67.70 percent of total assets and stock assessments. Total earnings consisting of interest, premiums, rents, etc., collected by receivers from the assets of these banks amounted to 93.78 percent of the total expense of liquidation incurred. The assessments against shareholders averaged 93.24 percent of their holdings while total collections from assessments levied amounted to 55.69 percent of the amount assessed.

As of October 31, 1940, 255 insolvent national banks remained in process of liquidation under the supervision of receivers appointed by the Comptroller of the Currency. While it will, no doubt, be impossible to conclude the liquidation of all of these receiverships during the forthcoming year, nevertheless it appears that by far the majority of such banks will have been completely liquidated and finally closed by October 31, 1941.

A statement as to the progress of liquidation to date of these 255 insolvent national banks, including data as to receipts and disbursements of funds realized by receivers from the collection of assets is given below:

It will be noted from the data given above that the average cost of liquidation of receiverships involved has been comparatively low or but 5.54 percent of total collections from all sources including offsets allowed, and that the average percent of total payments to all creditors is comparatively high or 81.83 percent of total liabilities established.

Further data as to total deposits and amounts of dividend payments by percentage groups of the 255 receiverships still in process of liquidation and for all other receiverships administered from the year 1865 to October 31, 1940, appear in the following statement:

## ISSUE AND REDEMPTION OF NOTES

Seven hundred and one shipments of Federal Reserve currency were made from Washington, D. C., during the year ended October 31, 1940, to the Federal Reserve banks and branches, aggregating $\$ 2,076,800,000$, and in addition 14 deliveries were made to the Treasurer of the United States aggregating $\$ 41,200,000$.

Fifty-two weekly reports were furnished the Secret Service Division showing the highest Treasury serial number, faceplate and backplate serial number appearing on the Federal Reserve notes shipped. This information is useful in suppressing counterfeits.

Three thousand and forty-nine lots of unfit Federal Reserve currency were received for verification by 100 -percent count and certification for destruction consisting of $97,134,973$ notes, aggregating \$1,302,815,705.

Thirty-two lots of national-bank notes were received for verification by 100 -percent count and certified for retirement and destruction consisting of $1,373,625$ notes aggregating $\$ 19,188,675$.

Three thousand one hundred and seventy-two fragmentary or charred Federal Reserve and national-bank notes aggregating $\$ 39,260$ were presented for identification and approval.

## RETIREMENT SYSTEM

As of October 31, 1940, there were 791 active members of the retirement system for national-bank examiners, assistant examiners, and clerks. Thirteen individuals have been retired since the establishment of the system on June 1, 1936, and a total of $\$ 35,226.26$ has been paid in retirement benefits to date. No death benefits were paid in the current year.

## PERSONNEL

The personnel of the Bureau of the Comptroller of the Currency at the close of the year ended October 31, 1940, consisted of 1,274 persons, of whom 495 were located in the main office in Washington and 779 in the field. The personnel of the Bureau decreased by 23 during the current year ended October 31, 1940. The decrease in the personnel was chiefly in the Division of Insolvent National Banks and resulted from curtailment of work in that division due to the continued reduction in the number of receiverships administered.

During the year, a total of 5 national-bank examiners and 23 assistant national-bank examiners left the service. In the same period, 5 assistant examiners were promoted to examiners and 44 assistant examiners were appointed. The number of employees in each division of the Bureau is given in the accompanying table:

## Notes

Act of Feb. 25, 1863, provided for reports of condition on the first of each quarter, before commencement of business.
Act of June 3, 1864-First Monday of January, April, July, and October, before commencement of business, on form prescribed by Comptroller (in addition to reports on first Tuesday of each month showing condition at commencement of business in respect to certain items; i. e., loans, specie, deposits, and circulation).

Act of Mar. 3, 1869, not less than 5 reports per year, on form prescribed by Comptroller, at close of business on any past date by him specified.

Act of Dec. 28, 1922, minimum number of calls reduced from 5 to 3 per year.
Act of Feb. 25, 1927, authorized a vice president or an assistant cashier designated by the board of directors to verify reports of conditionin absence of president and cashier.
Act of June 16, 1933, requires each national bank to furnish and publish not less than 3 reports each year of affiliates other than member banks, as of dates identical with those for which the Comptroller shall during such year require reports of condition of the bank. The report of each affiliate shall contain such information as in the judgment of the Comptroller shall be necessary to disclose fully the relations between the affiliate and the bank and to enable the Comptroller to inform himself as to the effect of such relations upon the affairs of the bank.
Sec. 21 (a) of the Banking Act of 1933 provided, in part, that after June 16, 1934, it would be unlawful for any private bank not under State supervision to continue the transaction of business unless it submitted to periodic examination by the Comptroller of the Currency or the Federal Reserve bank of the district, and made and published periodic reports of condition the same as required of national banks under section 5211, U. S. R. S. Sec. 21 (a) of the Banking Act of 1933, however, was amended by section 303 of the Banking Act of 1935, approved Aug. 23, 1935, under the provisions of which private banks are no longer required to submit to examination by the Comptroller or Federal Reserve bank, nor are they required to make to the Comptroller and publish periodic reports of condition. ( 5 calls for reports of condition of private banks were made by the Comptroller, the first one for June 30, 1934, and the last one for June 29, 1935.)

[For ycarly figures 1864-1925 see pp. 1040 and 1041 of the report for 1931]

1 Includes capital notes and debentures, if any, of banks suspended beginning the year 1933.
${ }^{2}$ Includes 2 national banks ( 1 in Maryland and 1 in South Carolina) with capital of $\$ 150,000$ and deposits of $\$ 1,234,000$, receivers for which were appointed between Mar. 6 and Mar. 12, inclusive, the banking holiday.
${ }^{3}$ Includes 4 banks other than national in the District of Columbia, receivers for which ere appointed by the Comptroller of the Currency.
${ }^{4}$ Figures for State and private banks comprise (a) banks not licensed following the banking holiday and later placed in liquidation or receivership, and (b) unlicensed banks granted incenses after June 30, 1933. In the case of national banks the figures shown represent only 290 ( 288 national banks and 2 banks other than national in the District
of Columbia) of the 1,417 unlicensed banks (1,407 national and 10 other than national
in the District of Columbia) at the close of the banking holiday, which were placed in receivership because plans submitted for reorganization had been disapproved. The remaining 1,127 unlicensed banks ( 1,119 national and 8 other than national in the District of Columbia) which are not included with bank suspensions were disposed of as indicated in table No. 67 on pp. 328 and 329 of this report.
${ }^{3}$ Revised.
Note.-Figures for State and private banks since 1920 compiled by Board of Governors of the Federal Reserve System, and represent associations closed to the public, either temporarily or permanently, by supervisory authorities or directors of the banks on sent actual failures for which receivers wure appointed.

# TABLE "R" <br> SHOWING STATEMENTS OF ASSETS <br> AND LIABILITIES OF THE INDIVIDUAL NATIONAL BANKS AT CLOSE OF BUSINESS DECEMBER 31, 1940 IS OMITTED FROM THIS REPORT AND PUBLISHED AS A SEPARATE TABLE 

(States, Territories, and Towns Arranged Alphabetically)

NOTE.-In each of the years 1923 to 1929, inclusive, a table similar to table " $R$ " mentioned above, showing statements of assets and liabilities of the individual national banks for one date in the year, was also issued as a supplement to the Comptroller's report, but in lieu of being designated as tables " $A$ " to " $G$ ", inclusive, they were numbered $89,93,94,98,121,97$, and 103 , respectively. Since 1930 the supplements are lettered alphabetically, beginning with the letter "H." Prior to 1923 individual statements were included in the report proper.
